UH Mānoa has approximately 3,800 bed spaces available on campus. Facilities range from residence halls with singles (limited) and shared double rooms or suites, to apartments with shared one-bedroom and two-bedroom units. A limited number of modified and accessible units are also available. Students with families live in the apartment area.

Living on campus provides students with a residential learning experience that is supported and enhanced by live-in housing staff. Residence Directors and Resident Advisors actively serve as resources, help to develop positive communities, and organize activities and programs. Residents are able to make stronger connections with other students and their academic pursuits while experiencing a greater engagement in campus life.

Residents living in the traditional residence halls are required to select and purchase a dining plan from the variety of dining plans offered. A dining plan is optional for apartment residents. Residents dine at the Hale Aloha or Gateway House cafeterias. Detailed dining plan information is available at our Student Housing Services website.

Applications received by the application deadline are prioritized by predetermined categories. Placement is offered only to those applicants who have been accepted into classified programs of study and have confirmed their intent to attend the university. Applications received after the application deadline are assigned on a first come, first serve basis. Neither on-time nor late applications are guaranteed an assignment offer.

The challenges of choosing the right career, achieving or maintaining one’s independence, relating successfully to others, and leading a happy and successful life converge during a student’s college years. College life adds the concerns of exams, term papers, quizzes, and class reports. Even students who are prepared to do their best in college may experience problems. The Counseling and Student Development Center (CSDC) provides the following services to assist students.

Career Counseling
- Students should choose their majors before they progress very far in their academic programs. Most students expect their academic studies to lead to specific careers upon graduation. Career counseling explores strengths and limitations, interests and values, personality and skills, and applies this understanding to developing academic and occupational plans. (See also “Career Development and Student Employment.”)

Personal Counseling
- Some people occasionally, even regularly, feel worried, unhappy, and depressed. Lack of confidence, fear, low self-esteem, inability to get along with others, loneliness, not being able to cope with people and situations, and similar problems can be discussed with one of CSDC’s professional counselors. All matters discussed in counseling are confidential and will not affect academic standing.

Psychiatric Consultation
- People who find themselves seriously depressed, unable to control their behavior, or doing things they don’t understand may want and need psychiatric consultations. A talk with a counselor is recommended to determine whether psychiatric consultation is required.

Testing
- Testing is frequently used as part of counseling to help students understand themselves better and plan their careers. Counselors will discuss which tests to take and interpret them after they are scored. In addition, the Testing Office now administers the computer-based GRE, TOEFL, and PRAXIS exams. An appointment to schedule an exam can be made over the phone with a major credit card, by calling (808) 956-3454, or with a check at the Testing Office, Queen Lili‘uokalani Center for Student Services Room 307. Information about registration for paper-based admissions or certification exams, including SAT, ACT, LSAT, MCAT, and PRAXIS also is available at this office.

Outreach
- Workshops and seminars to promote personal development and academic success are offered throughout the year. Stress
management, assertiveness, improving self-esteem, career and life planning, and coping with difficult people are just a few of the topics that are available. Sessions to address specific needs can be developed and conducted at the request of faculty or a group of students.

**Consultation**

CSDC provides consultation services for individual students, faculty, and groups that may need help in solving organizational problems, overcoming interpersonal difficulties, and planning staff development programs.
