**ACC 660 Analysis and Decision-Making (3)** Integrates learning through analysis and communication of comprehensive business problems. Stresses research, critical thinking, and analytical and communication skills applied to contemporary accounting and tax issues. Pre: 625 with C- or better and last semester of master's program.

**ACC 690 Current Topics in Accounting (3)** Concentration on current issues impacting the accounting profession. Topics vary each semester. Repeatable unlimited times.

**ACC 695 Accounting Internship (3)** On-the-job experience in the accounting community. Necessary evaluation reports and meetings with faculty advisor required. Pre: consent.

**ACC 700 Thesis Research (V)** Required for Plan A candidates only; six credit hours required, one must be taken during semester that degree is being awarded. Repeatable up to six credits. ACC majors only. Satisfactory only. Pre: MAcc student and School of Accountancy Director approval.

**ACC 701 Financial Accounting Research (3)** Provides an overview of financial accounting research. Specific research studies are examined as to their theoretical basis, design, implications, methodology, relevance, etc. Repeatable one time. A-F only. Pre: PhD student status in international management or consent.

**ACC 702 Managerial Accounting Research (3)** Provides an overview of managerial accounting research. Specific research studies are examined as to their theoretical basis, design, implications, methodology, relevance, etc. A-F only. Pre: PhD student status in international management or consent.

**ACC 703 Research in Behavioral Accounting (3)** Provides an overview of accounting research in behavioral accounting topics. Specific research studies are examined as to their theoretical basis, design, implications, methodology, relevance, etc. A-F only. Pre: PhD student status in international management or consent.

**ACC 704 Research in Accounting Information Systems (3)** Provides an overview of accounting research in accounting information systems topics. Specific research studies are examined as to their theoretical basis, design, implications, methodology, relevance, etc. A-F only. Pre: PhD student status in international management or consent.

**ACC 705 Research in Taxation (3)** Provides an overview of accounting research in taxation topics. Specific research studies are examined as to their

theoretical basis, design, implications, methodology, relevance, etc. A-F only. Pre: PhD student status in international management or consent.

**ACC 799 Directed Reading and Research (V)** Reading and research in an area of accounting under the direction of faculty member(s). A-F only. Pre: PhD student status in international management or consent.

## Aerospace Studies (AS)

### ROTC Programs

*The leadership laboratory is required for all courses. Conducted within the framework of organized cadet corps with progression of experiences designed to develop leadership potential. Involves Air Force customs and courtesies, drills, and career progression.*

**AS 101 Foundations of the United States Air Force (1)** Study of the total force structure, strategic offensive and defensive, general purpose, and aerospace support forces of the Air Force in the contemporary world. A-F only.

**AS 101L Initial Military Training I (1)** Laboratory consists of activities that focus and promote the Air Force way of life. Instruction will include leadership and followership development, teamwork, physical fitness training, and activities designed to build camaraderie and esprit de corps. Course is open to all majors. CR/NC only.

**AS 102 Foundations of the United States Air Force (1)** Continuation of 101. A-F only.

**AS 102L Initial Military Training II (1)** Laboratory consists of activities that focus and promote the Air Force way of life. Instruction will include leadership and followership development, teamwork, physical fitness training, and activities designed to build camaraderie and esprit de corps. Course is open to all majors. CR/NC only.

**AS 201 Evolution of USAF Air and Space Power (2)** Study of Air Force heritage, Quality Air Force principles, ethics, and an introduction to leadership and group leadership problems. Application of written and verbal communication skills is included. A-F only.

**AS 201L Field Training Preparation I (1)** Laboratory consists of preparing second-year AFROTC cadets with the skills needed to successfully complete AFROTC Field Training. Students will learn basic military skills, Field Training skills, and participate in physical fitness training. CR/NC only. Pre: consent.

**AS 202 Evolution of USAF Air and Space Power (2)** Continuation of 201. A-F only.

**AS 202L Field Training Preparation II (1)** Continuation of 201L. CR/NC only. Pre: consent.

**AS 251L Leadership Laboratory (1)** Laboratory on the basic skills of leadership and followership. Lab includes application of leadership/followership skills, various field trips to military installations, group projects, and physical training. Repeatable one time. A-F only. Pre: 101, 102, 201, 202; or consent. (Fall only)

**AS 351 Air Force Leadership Studies (3)** Integrated management course emphasizing the military officer as a manager in Air Force, including individual motivational and behavioral processes, leadership, communication and group dynamics. A-F only.

**AS 351L Intermediate Cadet Leader I (1)** Laboratory consists of demonstration of leadership and management skills needed to successfully function as an Air Force officer. Instruction will include lessons covering planning, organizational and communication skills, and the ability to use available resources to complete an assigned task. CR/NC only. Pre: must have completed AFROTC Field Training; or consent.

**AS 352 Air Force Leadership Studies (3)** Continuation of 351. A-F only. Pre: must have completed 351.

**AS 352L Intermediate Cadet Leader II (1)** Continuation of 351L. CR/NC only. Pre: must have completed AFROTC Field Training; or consent.

**AS 401 National Security Affairs (3)** Study of the national security process, regional studies, advanced leadership, ethics, and Air Force doctrine. Special focus placed on preparation for active duty and current issues affecting professionalism. A-F only. Pre: 352 or consent. (Fall only)

**AS 401L Senior Cadet Leader I (1)** Laboratory consists of providing prospective Air Force officers opportunities to continue to develop leadership, managerial, and supervisory skills. Instruction will include preparation for active duty. CR/NC only. Pre: must have completed 351 and 352L; or consent.

**AS 402 National Security Affairs (3)** Continuation of 401. A-F only. Pre: 401 or consent.

**AS 402L Senior Cadet Leader II (1)** Laboratory consists of providing prospective Air Force officers opportunities to continue to develop leadership, managerial, and supervisory skills. Instruction will include preparation for active duty. CR/NC only. Pre: must have completed 351 and 352L; or consent.

## Agricultural and Resource Economics (AREC)

*College of Tropical Agriculture and Human Resources, see also Natural Resources and Environmental Management (NREM)*

**AREC 610 Biosystems Modeling (3)** Introduction to system thinking, procedures for developing system models, characteristics of important agricultural system modes, computer approach to evaluation and optimization of system models. Pre: one of MATH 215, MATH 241, MATH 251A; or consent. (Cross-listed as BE 638)

**AREC 626 Econometrics I (3)** Review of probability, estimation, small sample and asymptotic properties. Bivariate and multiple regression and matrix algebra formulation. Regression diagnostics. Introduction to heteroskedasticity, autocorrelation, simultaneity, dichotomous variables, advanced topics. Pre: NREM 310 or ECON 321, and MATH 241; or consent. (Cross-listed as ECON 628)

**AREC 634 Econometrics II (3)** Specification, statistical estimation, inference, and forecasting of economic models. Includes advanced topics for single-equation models, pooled models, qualitative dependent variables, simultaneous systems, distributed lags, and time series. Pre: 626 and ECON 628, or consent. (Cross-listed as ECON 629)

**AREC 700 Thesis Research (V)** Repeatable unlimited times.

**AREC 800 Dissertation Research (V)** Repeatable unlimited times.

## American Studies (AMST)

*College of Arts and Humanities*

*The minimum required grade for prerequisites is a grade of C (not C-) or better.*

*Sophomore standing or consent is required for all 300-level courses except as noted.*

### AMST 110 Introduction to American Studies

(3) Introduction to different types of college-level writing through analyses of contemporary American culture and to the main themes and approaches used in American studies and the humanities. **DH**

**AMST 150 America and the World (3)** Examines America's role in world history and the influence of world affairs on U.S. culture and society. Focuses on U.S. interdependence with African, European, Native American, Asian, and Polynesian civilizations, from 1492 to present. **FGB**

**AMST 201 American Experience: Institutions and Movements (3)** Interdisciplinary course that examines diversity and changes in American values and institutions—political, economic, legal, and social. **DH**

**AMST 202 American Experience: Culture and the Arts (3)** Interdisciplinary course that examines diversity and changes in American values and

culture—literature, film, visual arts, and architecture. **DH**

**AMST 211 Contemporary American Domestic Issues (3)** Interdisciplinary exploration of such current American domestic issues; topics such as politics, economics, civil rights, family life, the justice system, and the environment. **DS**

**AMST 212 Contemporary American Global Issues (3)** Interdisciplinary exploration of such current global issues as international diplomacy, economic development, national security, demographic change, and environmental protection. **DS**

**AMST 220 Introduction to Indigenous Studies (3)** Interdisciplinary survey that examines the histories, politics, popular representations, self-representations, and contemporary issues of the indigenous peoples of the U.S. and its territories, including Native Americans, Alaska Natives, Kanaka Maoli, Chamorro, and Samoans. **DH**

**AMST 301 Hip-Hop and American Culture (3)** Survey tracing hip-hop from its Afro-Caribbean musical beginnings to contemporary adaptations and interpretations. Students will analyze various materials and will pay attention to the relationships between hip-hop and contemporary social forms. Pre: sophomore standing or consent. **DH**

**AMST 310 Japanese Americans: History, Culture, Lifestyles (3)** Explores the experiences of Japanese Americans in Hawai'i and the U.S. at large: historical and cultural heritage, biographical portraits, changing family ties, ethnic lifeways, gender relations, local identity, and the future of island living. **DH**

**AMST 313 African Americans: Issues, Culture, History (3)** Traces the history and culture of African Americans and outlines contemporary issues. Topics include: slavery and racism, community formation and resistance, cultural expression, African American diversity, civil rights, gender and class relations. **DH**

**AMST 316 U.S. Women's History (3)** History of U.S. women and gender relations. Topics include women's work in and outside the household, women's involvement in social movements, changing norms about gender and sexuality, and shared and divergent experiences among women. (Cross-listed as HIST 361 and WS 311) **DH**

**AMST 317 American Popular Music and Culture (3)** Analysis of a variety of American musical genres and histories through focused writing assignments (record and performance reviews, personal narratives, interviews, research proposals, research papers). Pre: second year standing or consent. (Alt. years) **DH**

**AMST 318 Asian America (3)** History of selected Asian immigrant groups from the 19th century to the present. Topics include: immigration and labor history, Asian American movements, literature and cultural productions, community adaptations and identity formation. (Cross-listed as ES 318) **DH**

**AMST 319 America, Hawai'i and World War II (3)** Examines WWII as a watershed in American and Hawai'i history and culture. Topics include: Pearl Harbor, Japanese American internment, sex and racial tensions, Anti-Semitism and the Holocaust, and the dawn of the Atomic Age. **DH**

**AMST 320 American Environments: Survey (3)** Survey of social, political, and cultural relations in diverse, contemporary American environments, including: island societies, urban centers, suburbs, Indian reservations, farming communities, and national parks. Special emphasis on contemporary environmental issues in Hawai'i. **DS**

**AMST 325 Religion and Law in the U.S. (3)** Surveys church-state jurisprudence since the 1940s, with special attention to difficulty of defining religion, and applies the religion clauses to current issues. A-F only. Pre: sophomore or higher standing, or consent. (Once a year) (Cross-listed as POLS 325) **DH**

**AMST 326 American Folklore and Folklife (3)** Examination of the history and ethics of folklore studies and the dynamics and social functions of traditional culture in diverse communities through topics such

as ritual, storytelling, games, gossip, belief, music, and cultural tourism. Junior standing or higher. (Cross-listed as ANTH 326) **DH**

**AMST 334 Digital America: Online Communities and Virtual Worlds (3)** Seminar on the impact of the digital revolution and virtual communities on American culture and society, with an emphasis on questions of identity and participatory democracy. Open to nonmajors. Pre: one DH, DA, or DL course, sophomore standing, or consent. **DH**

**AMST 339 Religions in America (3)** Examination of American religious traditions, both historical and contemporary, with an emphasis on the principles of religious liberty, non-establishment, and pluralism. Pre: sophomore standing or consent. **DH**

**AMST 340 War and Media (3)** Examination of a range of media, including photography, film, print journalism, television, video games, and the internet, as they have shaped popular representations and experiences of war in America from the Civil War through the present. A-F only. (Alt. years) **DH**

**AMST 343 American Thought and Culture (3)** Politics, family, philosophy, technology, etc.; their interrelationship with the total society. Pre-Colonial to end of Reconstruction. Pre: 150 or 201 or 202 or 211 or 212 or HIST 151 or HIST 152; or consent. (Cross-listed as HIST 373) **DH**

**AMST 344 American Thought and Culture (3)** Continuation of 343: 20th century. Pre: 150 or 201 or 202 or 211 or 212 or HIST 151 or HIST 152; or consent. (Cross-listed as HIST 374) **DH**

**AMST 348 American Design: An Historical Survey (3)** Examination of design in American culture over the last century. Readings in industrial, graphic, interior, architectural, landscape, and user interface design used to study issues of gender, race, and class in the U.S. Open to all class standings. A-F only. (Alt. years) **DH**

**AMST 349 Contemporary American Design (3)** Investigates design in contemporary American culture. Graphic, industrial, urban, and user-interface design practices are situated within broader social and economic forces. Modes of design practice, production, and consumption studied as reflection of American society today. A-F only. (Alt. years) **DH**

**AMST 350 Culture and Art in America: Survey (3)** Popular attitudes toward arts, travel, fashions, craft and industrial productions, recreation. Past used to explain the present. **DH**

**AMST 352 Screening Asian Americans (3)** Survey of Asian and Asian American representations in American film and television from the silent era to the present, with an emphasis on Orientalism and multiculturalism, as well as performance and spectatorship. ACM majors: A-F only. Pre: junior standing or consent. (Cross-listed as ACM 352) **DH**

**AMST 353 Indigenous Topographies (3)** Examines indigenous practices born of and located in Indigenous places. Analyzes how indigenous knowledge of place informs Indigenous cultural, linguistic, intellectual, and political survivance and sovereignty, and resistance. **DH**

**AMST 354 American Travel Writing (3)** Survey examines the roles that travel writing plays in American identity- and nation-formation, from early colonial history to the present. A-F only. Pre: HIST 110, 150, 201, 202, 211, or 212. (Alt. years) **DH**

**AMST 360 American Cinema (3)** Introductory history of American cinema from the silent to the digital era, with an emphasis on criticism, genre and style, as well as cultural and sociopolitical context. **DH**

**AMST 365 American Empire (3)** Examines the interplay between an "American culture of empire" and the rise of the U.S. as a superpower. Topics: imperialism and political culture, social movements and international affairs, race, gender and class relations. (Cross-listed as HIST 379) **DH**

**AMST 373 Filipino Americans: History, Culture and Politics (3)** An introduction to the study of

Filipino Americans in the U.S. and the diaspora. The course pays special attention to labor migration, cultural production and community politics. Pre: sophomore standing. (Cross-listed as ES 373) **DS**

**AMST 381 Junior Seminar (3)** Materials and methods for the study of American life and thought. For American studies majors and minors only. **DH**

**AMST 382 Junior Seminar (3)** Continuation of 381. For American studies majors and minors only. **DH**

*Junior standing or consent required for all 400-level courses.*

**AMST 401 Filipino Americans: Research Topics (3)** A research seminar on the study of Filipino Americans. Special themes in film/video/media, the performing arts, or literature may be offered. Pre: junior standing or consent. (Cross-listed as ES 443)

**AMST 405 Native Literatures and Cultures (3)** Interdisciplinary, comparative course examining native literary texts (novels, short fiction, poetry), films, etc. that address issues of representation and how native peoples actively resist colonial ideology. **DH**

**AMST 410 Asian American Music Cultures (3)** An exploration of how Asian American music making is related to community formation, labor migration, and cultural sensibilities throughout the 20th century. **DH**

**AMST 411 Japanese Americans: Research Topics (3)** Research and thematic seminar on Japanese American culture, issues, and history. Pre: junior standing or consent. **DH**

**AMST 413 Regionalism: The South (3)** Definition of a Southern identity and its relation to the larger U.S. culture, using literary and polemical works of 19th- and 20th-century. **DH**

**AMST 418 Hawai'i's Multiculturalism (3)** A multidisciplinary examination of the dynamics of the Hawaiian Islands' racial and cultural diversity from the perspectives of historical trends, social processes, and contemporary political, social, and economic issues as they impact interracial relations. **DS**

**AMST 420 American Ideas of Nature (3)** The natural world in American thought from Native Americans to modern ecologists. **DH**

**AMST 423 History of American Architecture (3)** History of American architecture in terms of style, techniques, and symbolic meaning. (Cross-listed as ARCH 473) **DH**

**AMST 425 American Environmental History (3)** Survey history of the complex relations between American societies and diverse U.S. ecosystems, from European contact and colonization to the present. (Cross-listed as HIST 480) **DH**

**AMST 431 History of American Workers (3)** Conditions of labor in major phases of American development; response of labor and community to changing work environment. Capitalism, unionism, race, gender, law, etc. Emphasis on 20th century. (Cross-listed as HIST 477) **DH**

**AMST 432 Slavery and Freedom (3)** Examines the history of slavery, race, and abolition in the Americas from a comparative, global perspective, and traces the legacy of slavery in the post-emancipation societies of the New World. (Cross-listed as HIST 473) **DH**

**AMST 434 Politics in Hawai'i (3)** Discussion of modern politics against the background of recent history and major contemporary issues. **DS**

**AMST 435 History of Crime and Punishment (3)** History of American crime and punishment from 18th century to the present. Topics: changing crime patterns, evolving punishment methods, penal reform movements, convict resistance, growth of prison industrial complex, racism, class, and gender. Repeatable one time. Pre: junior standing or consent. **DS**

**AMST 436 Gender, Justice and Law (3)** Exploration of landmark U.S. Supreme Court cases related to sex and gender. Topics may include sex discrimination, sexual orientation discrimination, privacy,

and reproductive freedom. A-F only. Pre: one of WS 151, WS 175, WS 176, WS 202, WS 360, WS 381, or consent. (Cross-listed as POLS 436 and WS 436) **DS**

**AMST 438 Asian Women (3)** History, culture, and contemporary reality of Asian women in Asia and the U.S. Includes critical analysis of American feminist methodology and theory. Pre: one of 310, 316, 318, 373, 455, POLS 339, WS 360, WS 361, WS 439; or consent. (Cross-listed as POLS 372 and WS 462) **DS**

**AMST 440 Race and Racism in America (3)** Racial ideas and ideologies, and their effects throughout American history. (Cross-listed as HIST 476) **DH**

**AMST 442 Radical Traditions (3)** Varieties of radicalism that have provided a continuing critique of prevailing values and structures. **DH**

**AMST 445 Racism, American Culture and Film/Media (3)** An exploration of the critique of racial ideologies in American film. The course also examines how aggrieved communities develop cultural sensibilities, aesthetic choices and politicized identities through film, video and media work. **DH**

**AMST 450 Victims, Virtue, and Violence (3)** Examination of the history and significance of melodrama as a dominant mode of American cultural production from the early republic to the present, with a focus on issues of race, gender, and national identity. **DH**

**AMST 451 Popular Culture (3)** Major themes, modes, and media of popular or mass culture in the U.S.; emphasis on cultural trends and social implications. **DH**

**AMST 452 The '20s and '30s (3)** Novelists, painters, poets, jazz musicians as examples of culture of the 1920s and 1930s in America. **DH**

**AMST 453 Culture, Society, and Literature (3)** Literary and non-fictional exploration of the intellectual and moral response of Americans to institutions and culture of 20th-century marketplace economy. **DL**

**AMST 454 Fashioning America (3)** Examines linkages between American identity, representation, labor and capital through fashion theory, clothing discourses and other practices of textile production over history. A-F only. Pre: junior standing or consent. **DS**

**AMST 455 U.S. Women's Literature and Culture (3)** Reading of selected works of U.S. women's literature and cultural texts (such as art and film). Emphasis on historical and cultural context and diverse expressions of women's gendered identities. (Cross-listed as ENG 455 and WS 445) **DL**

**AMST 456 Art of the United States (3)** Emphasis on the 18th and 19th centuries. Pre: 202 or ART 176, or consent. (Cross-listed as ART 472) **DH**

**AMST 457 Museum Interpretations (3)** Studies the interpretive strategies and methods used by museums to communicate with visitors in museums, art galleries, historic sites, parks, and related places. Considers how interpretations contribute to cultural knowledge. Repeatable one time. Pre: consent. (Cross-listed as ART 481) **DH**

**AMST 458 Film in American Culture (3)** Comprehensive survey of varieties of film experience from historical and contemporary points of view. **DL**

**AMST 459 Sports in America (3)** Sports as reflected in literature, films, and TV. **DS**

**AMST 460 Early 20th Century American Art (3)** American art in the first half of the 20th century and its impact on American culture. Junior standing or higher. Pre: ART 176 or consent. (Alt. years: fall) (Cross-listed as ART 460)

**AMST 461 America's World Role (3)** Examination of America's role in modern world affairs, against the background of history, perceptions, and values. **DS**

**AMST 464 America and Africa (3)** American attitudes toward Africa, as well as how Africa has functioned within the dynamics of American culture and history. **DH**

**AMST 465 American Experience in Asia (3)** Comparison of American experiences in Japan, China, and Southeast Asia within historical and perceptual framework. **DH**

**AMST 469 Religion and Homosexuality in American Public Life (3)** Examines the roles of religious groups and religious values with regard to homosexuality in American public culture. Pre: junior standing or consent. **DH**

**AMST 474 Preservation: Hawai'i, Asia, and the Pacific (3)** Lectures and discussions on historic preservation issues in Hawai'i, Asia, and the Pacific. Emphasis on indigenous and national expressions. Pre: junior standing or consent. (Cross-listed as ARCH 474) **DH**

**AMST 475 Documentation of Historic Architecture (V)** Study and documentation of existing buildings, structures, sites of historic and/or cultural significance, including field measurements and drawings, historical research, photo documentation, and preparation of archival drawings to be deposited in the Library of Congress. Documentation conducted according to standards of the Historic American Buildings Survey/Historic American Engineering Record (HABS/HAER). Repeatable three times. Pre: consent. (Cross-listed as ARCH 472)

**AMST 480 Approaches to American Studies (3)** Required seminar in American Studies methods in preparation for the senior research seminar or the senior capstone project. AMST majors only. A-F only. Pre: 382. (Fall only)

**AMST 481 Senior Research Seminar (3)** Capstone course for American studies students to undertake a major research and writing project. Requires a 20 page minimum final research paper. For AMST majors only. Pre: consent.

**AMST 482 Senior Capstone Project (3)** Capstone for American Studies majors to undertake a non-thesis project. AMST majors only. A-F only. Pre: 480 and consent. (Spring only)

**AMST 489 World Maritime History (3)** Survey of world maritime history from earliest times to the present, with emphasis on the evolution of nautical technology, motives from maritime enterprises, and the impact of cross-cultural encounters between oceanic peoples. (Cross-listed as HIST 489) **DH**

**AMST 490 (Alpha) Topics in American Studies (3)** Themes, problems, and issues not addressed in other American studies undergraduate courses, focused within these areas: (B) social structure and interaction; (D) arts and environment. Repeatable one time. Pre: junior standing or consent for (D).

**AMST 499 Readings in American Studies (V)** Directed readings and research for majors. Pre: consent.

**AMST 500 Master's Plan B/C Studies (1)**

*Graduate standing or consent required for all 600-level courses.*

**AMST 600 Approaches to American Studies (3)** Introductory survey of methodological issues underlying research in American studies.

**AMST 601 Patterns of American Cultures (3)** American cultural origins and development. Beginnings to civil war.

**AMST 602 Patterns of American Cultures (3)** American cultural origins and development. Civil war to present.

**AMST 610 Early America (3)** Interdisciplinary approach to understanding early American culture and history. Repeatable one time. Pre: graduate standing or consent. (Alt. years) (Cross-listed as HIST 632B)

**AMST 611 Asian America (3)** The Asian American experience from an interdisciplinary and humanities perspective. Asian American history, literature, media, and theater arts. Comparative study of Hawai'i and the Continental U.S.

**AMST 612 Women in American Culture (3)** Historical/contemporary status of women in the U.S.; women's roles as defined by legal, educational, political, economic, and social institutions; implications for social science method. (Cross-listed as WS 612)

**AMST 614 Advanced Topics: American West (3)** Examination of the U.S. colonization of the American West. Topics include: European-indigenous relations, migration and labor, regional literature, frontier ideology, ethnic conflict, and new community formation. A-F only. Pre: graduate standing and consent. (Cross-listed as HIST 639F)

**AMST 615 Performance, Culture, and Theory (3)** Survey of major critical works in fields of performing arts and public culture (e.g., dance, theater, music, commemoration). Topics include: theoretical application for the discipline of American studies, and the impact of social movements and labor migration on the performing arts.

**AMST 616 Gender and the African Diaspora in the Americas (3)** Explores the impact of the African Diaspora on the cultures and histories of the Americas through interdisciplinary and feminist scholarship and cultural sources including fiction, foodways, film, poetry, religion, music, and dance. A-F only. Graduate standing only. (Spring only)

**AMST 617 Social and Cultural Diversity in America (3)** Examination of selected subcultures in America.

**AMST 618 American Sexualities (3)** Aspects of sexual identity within the context of American culture.

**AMST 620 Indigenous Identity (3)** Interdisciplinary and comparative focus on how Indigenous identity is constructed, negotiated, asserted, ascribed, and deconstructed within and without Indigenous communities with attention to the U.S. Graduate students only. Pre: graduate level standing or higher.

**AMST 623 American Architecture (3)** Cultural analysis of the evolution of American architecture from the Colonial period to the present involving sociopolitical and economic, as well as aesthetic, considerations.

**AMST 624 Wilderness in America (3)** American wilderness as both physical setting and social construction. A-F only. Pre: graduate standing or consent.

**AMST 625 Material Culture (3)** Physical artifacts considered as documents of American cultural and regional development.

**AMST 626 Environment and Society (3)** Technological development in cultural perspective; its relation to the American environment, science, capitalism, public policy, and values.

**AMST 632 Mass Media (3)** Appraisal of major media of communications in American society with attention to political, educational, cultural, and ethical implications.

**AMST 635 Public History and Commemoration (3)** Approaches to public presentations of history and examination of various ways in which historic memory is constructed in sites such as museums, memorials, and theme parks.

**AMST 638 American Punishment (3)** Examines the history of American criminal punishment, from the birth of the penitentiary to the rise of the prison-industrial complex. A-F only. Pre: graduate standing. (Cross-listed as SOC 638)

**AMST 640 Writing for Publication (3)** Advanced seminar designed to convert graduate research projects into publishable scholarly articles. Repeatable one time. A-F only.

**AMST 643 Critical Traditions in America (3)** Examination of various dissident movements in American history.

**AMST 645 Historic Preservation (3)** Federal, state, and local laws and regulations that regulate and provide protection to significant archaeological and historical resources in Hawai'i and the region. (Alt. years: spring only) (Cross-listed as ANTH 645)

**AMST 646 Advanced Topics: Social/Cultural/Intellectual (3)** Readings and research on American social and intellectual history. Repeatable one time.

Pre: graduate standing and consent. (Cross-listed as HIST 639B)

**AMST 647 Advanced Topics: Business/Labor/Technology (3)** Readings and research on American business, labor, and technological history. Repeatable one time. Pre: graduate standing and consent. (Cross-listed as HIST 639K)

**AMST 649 American Intellectual Traditions (3)** Examination of intellectual figures and movements in American history.

**AMST 656 Film in America (3)** Examination of various roles of motion picture film in America with particular respect to art form, cultural artifact, document, and myth.

**AMST 659 Arts in America: Modern to Post-Modern (3)** Survey of the literature of the field.

**AMST 664 America in Asia (3)** Topics in U.S. economic, political, military, and cultural relations with East and Southeast Asia, from the 18th century to the present.

**AMST 668 Globalization and Transnationalism (3)** Examines the socioeconomic and cultural meanings of globalization and transnationalism. Emphasis on how the deployment and flows of power beyond the nation-state have an impact on regional, national, and/or local communities and cultures.

**AMST 669 Advanced Topics: America and the World (3)** Historical and contemporary issues in America's global relationships.

**AMST 670 Comparative Methods in American Studies (3)** Examines approaches to American studies that use comparison as a primary method. Comparison of histories, institutions, of phenomena between the U.S. and another country as well as among communities in the U.S. Graduate standing only. Co-requisite: 600 or 601 or 602, or consent. (Every 2-3 years)

**AMST 672 20th Century U.S. Literature (3)** Selected works of 20th-century literature as cultural documents.

**AMST 673 African American Literature (3)** Cultural and social imagination of blacks and whites as revealed in literature, poetry, and drama.

**AMST 675 Preservation: Theory and Practice (3)** History and philosophy of historic preservation movement. Analysis of values and assumptions, methodologies and tactics, implications for society and public policy. (Cross-listed as ARCH 628 and PLAN 675)

**AMST 676 Recording Historic and Cultural Resources (3)** Techniques in recording and evaluation of historic buildings and other resources, with an emphasis on field recordings and state and federal registration procedures. (Cross-listed as ANTH 676 and PLAN 676)

**AMST 677 Historic Preservation Planning (3)** Local-level historic preservation, with an emphasis on historic districts, design guidelines, regulatory controls, and community consensus-building. (Cross-listed as PLAN 677)

**AMST 679 Elements of Style (3)** The manifestations, visual characteristics, and social/cultural meaning of "style" in American architecture and decorative arts from the early settlement period through the present. (Cross-listed as ARCH 679)

**AMST 680 Historic Building Technology (3)** History of buildings, building technologies, materials, and finishes, including construction techniques and methods of investigating older buildings. Emphasis on North American building practices c.1600–c.1960.

**AMST 681 Vernacular Architecture (3)** Methods and approaches in the study of vernacular architecture, cultural landscapes, and material culture, with an emphasis on traditions and innovations in the Americas. (Cross-listed as ARCH 650)

**AMST 683 Museums: Theory, History, Practice (3)** History and theory of museums and related institutions (art galleries, historic houses, zoos, parks).

Relationship between museums, collections, and communities. Introduction to governance, planning, legal, and ethical concerns.

**AMST 684 Museums and Collections (3)** Work of museums and professionals (registrars, collections managers, conservators, curators and others) in the care of collections, interpretive studies of museum displays and collections and field trips. Pre: 683 (or concurrent) or consent.

**AMST 685 Museums and Education (3)** Overview of museum education including museum learning theories, informal learning programs, audience research, national and international policies and reports, and community projects. Pre: 683 (or concurrent) or consent. (Cross-listed as EDCS 685)

**AMST 686 Museum Studies Practicum (3)** Applies coursework in museum studies to hands-on activities under the direction of practicing professionals and university faculty. Museum studies certificate students only. Pre: consent.

**AMST 690 Research Seminar (3)** Themes, problems, and issues not addressed in other American studies graduate courses; emphasis upon research methods. Repeatable unlimited times.

**AMST 695 Historic Preservation Practicum (3)** Applies course work in historic preservation to hands-on activities under the direction of practicing professionals and University faculty. Historic preservation certificate students only.

**AMST 696 (Alpha) Preservation Field Study (6)** On-site historic preservation field study. Site will rotate. Academic and hands-on preservation training. (B) Hawai'i; (C) Asia; (D) Pacific. Each alpha repeatable up to 18 credits. Pre: consent.

**AMST 699 Directed Reading/Research (V)** Repeatable unlimited times.

**AMST 700 Thesis Research (V)** Repeatable unlimited times.

**AMST 800 Dissertation Research (V)** Repeatable unlimited times.

## Anatomy (ANAT)

*School of Medicine*

*The minimum grade required for undergraduate prerequisites is a D or better, and graduate prerequisites is a C (not C-) or better.*

**ANAT 499 Directed Reading Research (V)**

**ANAT 545 (Alpha) Unit VII Anatomy Electives (V)** Advanced study of human anatomy by dissection and individual observation of surgical procedures. (C) topics in reproductive biology. Repeatable two times. CR/NC only. Pre: FMCH, MED, OBGN, PED, PSTY, SURG 531 or 532; or consent.

**ANAT 599 Independent Study in Anatomy (1)** Elective course for advanced medical students. (B) independent study of human gross anatomy; (C) histology; (D) research in anatomy and developmental biology. CR/NC only. Repeatable three times for (B) and (C); repeatable one time for (D). Pre: consent for (B) and (C); MDED 551 for (D).

**ANAT 603 Lower Extremity, Thorax, and Abdomen (3)** Human gross anatomy dissection of the lower extremity, thorax, and abdomen. Emphasis is placed on muscles, function, innervation, and vascular supply. Repeatable one time. Enrolled in DRB or KRS graduate programs (including Biomed Sci-Anat/RepoBiol & Phys majors) only or consent. A-F only. (Spring only) (Cross-listed as KRS 603)

**ANAT 604 Upper Extremity, Head, Neck, and Spine (3)** Human gross anatomy dissection of the upper extremity, head, neck, and spine. Emphasis is placed on muscles, function, innervation, and vascular supply. Repeatable one time. Enrolled in DRB or KRS graduate programs (including Biomed Sci-Anat/RepoBiol & Phys majors) only or consent. A-F only. (Fall only) (Cross-listed as KRS 604)

**ANAT 607 Human Embryology (2)** Systematic study of human development, including implantation, placentation, basics of development of each

organ system with reference to pertinent congenital anomalies and their surgical repair. Pre: 603 or 604. Recommended: gross anatomy course.

**ANAT 612 Seminar in Anatomy Teaching (V)** Effective teaching methods, organization of courses in anatomical sciences, development and evaluation of exams, experience in teaching with audiovisual/computer aids. Open to graduate students in physiology or KRS. Repeatable eight times. Pre: 603 and 604.

**ANAT 699 Directed Research (V)** Repeatable unlimited times.

**ANAT 700 Thesis Research** Repeatable unlimited times. (V) Pre: admission to candidacy (master's program).

**ANAT 800 Dissertation Research (V)** Repeatable unlimited times.

## Animal Sciences (ANSC)

*College of Tropical Agriculture and Human Resources*

**ANSC 101 Success Skills Development in Human Nutrition, Food and Animal Sciences (1)** Combined lecture discussion intended to provide majors in ANSC and FSHN with opportunities to learn about skills, competencies, and university resources necessary to succeed in college. FSHN and ANSC majors only. A-F only. Pre consent. (Cross-listed as FSHN 101)

**ANSC 200 Humans, Animals, and Agriculture (3)** (2 Lec, 1 3-hr Lab) Introduction to animal agriculture, animal science, and the use of animals by humans. Ethics and importance of human use of animals in agriculture are emphasized. **DB**

**ANSC 201 Principles and Practices of Animal Science (3)** Biology, behavior, and management of animals of economic and social importance. Topics include physiology, genetics, nutrition, reproduction, behavior, care, and management to achieve productivity, performance, and welfare. (lecture, discussion, and field trips) **DB**

**ANSC 244 Comparative Nutrition (3)** Digestive systems and nutrient functions, interrelationships and metabolism are compared among animal species, including humans. An intermediate, general nutrition course for Food Science and Human Nutrition and Animal Science majors. Pre: 200 (or concurrent), CHEM 161/L or higher. (Cross-listed as FSHN 244) **DB**

**ANSC 301 Anatomy of Agricultural Animals (4)** (3 Lec, 1 3-hr Lab) Micro and gross anatomical arrangements of tissues and organ systems of domestic animals. Pre: 200 (or concurrent). **DB**

**ANSC 321 Applied Animal Nutrition (3)** (2 Lec, 1 3-hr Lab) Application of the principles of nutrition to feeding of farm animals; composition and nutritional value of feed stuffs; nutritional requirements of beef cattle, dairy cattle, horses, poultry, and swine. Pre: 201 (or concurrent), and 244 or FSHN 244. **DB**

**ANSC 350 Humans, Food, and Animals: Ethics, Issues, and Controversies (3)** (2 Lec, 1 3-hr Lab) Ethical issues and other controversies related to human and animal needs; their impact on resource sustainability and quality of life are explored from scientific perspectives. Pre: 200 or 201 or FSHN 181 or FSHN 185. (Cross-listed as FSHN 350)

**ANSC 353 Horses and Horsemanship (3)** (2 Lec, 1 3-hr Lab) Origin of species, breeds, nutrition, care, management. Lab on management practices with work on light horses. Pre: 200, or 201 (or concurrent). **DB**

**ANSC 431 Beef Production (3)** (2 Lec, 1 3-hr Lab) Principles of economic beef production, including beef breeds, selection, breeding, management systems, feeding, and marketing under tropical conditions. Pre: 321 and 445. **DB**

**ANSC 432 Swine Production (3)** (2 Lec, 1 3-hr Lab) Principles of efficient pork production, including comparative breed evaluation, breeding, feeding,

management, marketing, and business aspects. Problems and practices associated with tropical environment emphasized. Pre: 321 and 445. **DB**

**ANSC 433 Tropical Dairying (3)** (2 Lec, 1 3-hr Lab) Principles involved in economical milk production in the tropics, including management, record-keeping, breeds, breeding, selection, culling, feeding, housing, milking, quality control, and raising young animals. Pre: 321 and 445. **DB**

**ANSC 445 Genetics and Animal Breeding (3)** Review and application of genetic principles to livestock, poultry, companion, aquatic, and laboratory research animals. Current practices and future developments. Pre: BIOL 171/L or ZOOL 101/L, and MATH 140 or higher. Recommended: biochemistry and genetics or equivalent. **DB**

**ANSC 446 Genes and Animal Biology (3)** An understanding of animal biology at the level of genes and their regulations; emphasis on gene structure, recombinant DNA, transgenic animals and functional genomics being used for agricultural, nutritional and biomedical sciences. Open to nonmajors. A-F only. Pre: 301, BIOL 171 or ZOOL 101; or consent.

**ANSC 450 Aquaculture Production (3)** Theory and practice of aquaculture: reproduction, yield trials, management, economics and business case studies of fish, crustaceans, and molluscs. Field classes held at commercial farm and hatchery. Pre: 321 and 445; or BIOL 172/L and CHEM 162/L or higher. (Cross-listed as OCN 450) **DB**

**ANSC 451 Physiology of Domestic Animals (3)** Functions and relationships of organs and organ systems of domestic animals excluding reproduction and lactation. Problem-based learning and case studies are emphasized. Pre: 301 or consent. **DB**

**ANSC 453 Animal Diseases and Their Control (3)** Disease problems of livestock, poultry, and companion animals; their economic significance, causes, public health implications, and control. Pre: 200 (or concurrent), and BIOL 171/L or ZOOL 101/L. **DB**

**ANSC 454 Meat Science and Muscle Biology (3)** Development, growth, function, carcass evaluation of muscle tissue. Pre: 301 (or concurrent). **DB**

**ANSC 454L Meat Science and Muscle Biology Lab (1)** (1 3-hr Lab) Livestock and poultry slaughter, carcass evaluation, meat chemistry, muscle physiology and biochemistry, meat microbiology, and meat processing. Pre: 454 (or concurrent). **DY**

**ANSC 455 Companion Animals and Society (3)** Explore human and companion animal relationships in biological, social, cultural, economic, legal, health, and welfare contexts to prepare students for careers in the various animal-related fields in Hawai'i, the Pacific rim, and worldwide. ANSC majors only. A-F only. Pre: 200, 201, 301 (or concurrent), and 321 (or concurrent); or consent. (Fall only)

**ANSC 460 Biology and Culture of Shrimp and Prawns (2)** Aspects of the biology and culture of the freshwater prawn *Macrobrachium rosenbergii* and marine shrimp *Penaeus* (sp) species. Scientific research results and case studies presented and analyzed. Pre: 450 or consent.

**ANSC 462 Reproduction and Artificial Insemination (3)** Introductory exploration of anatomy, development, and physiology of reproduction of domestic animals and artificial insemination. Repeatable one time. Pre: 301. **DB**

**ANSC 462L Reproduction and Artificial Insemination Lab (1)** Reproductive anatomy and physiology of domestic animals, estorus synchronization, breeding soundness, and artificial insemination laboratory, field trips. One week off-island field trip. Repeatable one time. ANSC majors or consent. Pre: 301 and 462.

**ANSC 465L Aquaculture Production Laboratory (4)** Intensive, hands-on course involving the culture of larvae and juveniles of marine shrimp, freshwater prawns, molluscs, fish, and their food. Must have strong interest in hands-on rearing and flexible time for continuous live animal care. Lab fee required.

**ANSC 472 Endocrinology of Domestic Animals (3)** Physiology of secretion and actions of hormones of pituitary, thyroid, adrenal, pancreas, parathyroid, thymus, other endocrine organs excluding reproduction. Pre: 301. **DB**

**ANSC 490 Aquaculture Business Planning and Entrepreneurship (2)** Practical aspects of planning and developing an aquaculture business from conceptualization to a final business plan. Topics include species/technology, project planning, business structuring, permitting, contracts, production plans, financial planning and analysis, market/competition analysis, capital acquisition, intellectual property and legal issues. Pre: 450 or OCN 450. Must have strong interest in hands-on rearing aquaculture animals and flexible time for live animal care.

**ANSC 491 Topics in Animal Sciences (V)** Study and discussion of significant topics, problems. Offered by visiting faculty and/or for extension programs. Repeatable up to 18 credits. Pre: junior or senior standing.

**ANSC 492 Field Experience (4)** Integration and application of academic knowledge and critical skills emphasizing professional development. Placement with an approved cooperating supervisor/employer. A-F only. Pre: senior standing in ANSC. (Cross-listed as FSHN 492)

**ANSC 499 Directed Study or Research (V)** Limited to exceptional undergraduate students, generally with a minimum cumulative GPA of 2.7 or a minimum GPA of 3.0 in major. Exceptions may be granted for students with high achievement in last three semesters. Repeatable unlimited times. Pre: junior or senior standing.

**ANSC 500 Master's Plan B/C Studies (1)**

**ANSC 601 The Science of Food Systems (2)** (1 50-min Lec, 1 2-hr Discussion) Discussion of food systems as they apply to animal science, food science, and human nutrition. Repeatable one time. Pre: graduate standing or consent. (Cross-listed as FSHN 601)

**ANSC 603 Experimental Design (4)** (3 Lec, 1 3-hr Lab) Design of experiments and variance analyses in biological and agricultural research. Pre: graduate standing or consent. Recommended: ZOOL 632. (Cross-listed as TPSS 603)

**ANSC 641 Seminar in Animal Sciences (1)** Topics of current interest and current research related to nutrition, genetics, and physiology. Repeatable three times. Pre: consent.

**ANSC 642 Advanced Animal Nutrition (3)** An advanced course in the nutrition of mono-gastric, ruminant, avian, and aquatic species. Topics include digestive system structures, utilization of nutrients, energy metabolism, and experimental techniques used in the study of animal nutrition. Pre: graduate standing or consent.

**ANSC 643 Physiology of Reproduction (3)** Comparative differentiation, development, growth, and function of the reproductive systems of mammals and birds; external factors that influence response; artificial insemination. Pre: graduate standing or consent.

**ANSC 644 Growth Biology of Meat Animals (2)** Growth and development of meat-producing animals; skeletal muscle, adipose tissue, and bone; protein turnover, lipid metabolism, and bioenergetics; regulation of animal growth. Pre: graduate standing or consent.

**ANSC 650 DNA and Genetic Analysis (2)** Combined lecture-lab for students interested in genetic analysis of humans, animals, and other species. Molecular techniques, such as PCR, DNA marker identifications, transgenics, expression analysis and functional genomics, are included. Open to nonmajors. Pre: graduate standing or consent. (Cross-listed as FSHN 650 and MBBE 650)

**ANSC 652 Information Research Skills (1)** Examines the use of libraries and information technology for scholarly investigation in support of scientific

research; provides experience utilizing and critically evaluating a variety of print and electronic sources in basic and applied sciences. Pre: consent. (Cross-listed as FSHN 652, NREM 652, and TPSS 652)

**ANSC 657 Grant Writing for Graduate Students (1)** Combined lecture/discussion on grants and grant writing. Designed to introduce graduate students to grants and grant proposal writing through lectures, class discussion, writing assignments, and peer review. Open to CTAHR graduate students only; others with consent. (Cross-listed as FSHN 657 and TPSS 657)

**ANSC 687 Advanced Laboratory Techniques (3)** (1 Lec, 2 3-hr Lab) Advanced laboratory techniques used in food science and human nutrition research. Pre: graduate standing or consent. (Cross-listed as FSHN 687 and MBBE 687)

**ANSC 699 Directed Research (V)** Pre: consent. Repeatable unlimited times.

**ANSC 700 Thesis Research (V)** Repeatable unlimited times.

## Anthropology (ANTH)

### College of Social Sciences

*Most 300- and 400-level courses have as a prerequisite one of the 200-level courses. Additionally, 300- and 400-level courses may be taken for graduate credit with prior approval of the student's advisor. A grade of C or better in the prerequisite courses is required for all courses. (A C- is not acceptable.)*

**ANTH 151 Emerging Humanity (3)** Introduction to human biological evolution and the archaeology of culture in the world prior to AD 1500. Open to non-majors, recommended for majors. **FGA**

**ANTH 151A Emerging Humanity (3)** Introduction to human biological evolution and the archaeology of culture in the world prior to AD 1500. Restricted to students in the Honors Program. **FGA**

**ANTH 152 Culture and Humanity (3)** Introduction to cultural anthropology. How humans create, understand, order and modify their natural, social, supernatural and physical environments, and make meaning and order. Open to non-majors, required for ANTH majors. A-F only. **FGB**

**ANTH 152A Culture and Humanity (3)** Introduction to cultural anthropology. How humans create, understand, order and modify their natural, social, supernatural and physical environments, and make meaning and order. Restricted to students in the Honors Program. **FGB**

**ANTH 165 Heritage Sites in Archaeology (V)** Combined lecture-lab-fieldwork to introduce the concepts and practices of archeology, historical research, historic site preservation, and heritage management. Repeatable one time. A-F only. **DS**

**ANTH 210 Archaeology (3)** Introduction to prehistoric archaeology; methods and techniques of excavation and laboratory analysis; brief survey of theory in relation to change and diversity in prehistoric human groups. **DS**

**ANTH 215 Physical Anthropology (3)** Human evolution, primatology, human genetics, biological variation, human adaptability, growth and development. Co-requisite: 215L. **DB**

**ANTH 215L Physical Anthropology Laboratory (1)** Laboratory to accompany 215. Co-requisite: 215. **DY**

**ANTH 300 Study of Contemporary Problems (3)** Significance of anthropology for contemporary affairs, particularly American ethnic and minority group relations. Relevance to various professions, governmental policy, political action, and accomplishment of change. Pre: 152 (or concurrent). **DS**

**ANTH 307 Theory in Contemporary Anthropology (3)** Theoretical issues that have generated current research and controversies in more than one specialty within social/cultural anthropology; historical roots. Pre: 152. **DS**

**ANTH 308 American Culture (3)** Contemporary culture of the U.S. Variations in kinship, family, work, play, values, religion; selected topics such as ethnicity, alternate lifestyles, consumerism, addiction. Pre: 152. **DH**

**ANTH 310 Human Origins (3)** Theory of evolution, evolutionary systematics, and taxonomy; evolutionary biology of primates; fossil records for primate and human evolution. Laboratory included. Pre: 215, ZOOL 101; or consent. **DB**

**ANTH 313 Visual Anthropology (3)** Historical development of documentary films of non-Western peoples; critical examination of ways in which ethnographic films represent different cultures. Pre: 152 (or concurrent). **DH**

**ANTH 315 Sex and Gender (3)** Cross-cultural theories and perceptions of sexual differences; linkage between biology and cultural constructions of gender; relationship of gender ideology to women's status. Pre: 152 (or concurrent). (Cross-listed as WS 315) **DS**

**ANTH 316 Anthropology of Tourism (3)** Anthropological perspectives on the subject of the global phenomenon of tourism. Includes issues of cultural performance, identity, and commoditization. Open to nonmajors. **DS**

**ANTH 321 World Archaeology I (3)** Archaeology of human origins, early cultures, and origins of agriculture. Pre: sophomore standing or consent. **DH**

**ANTH 322 World Archaeology II (3)** Archaeology of complex societies, including the rise of urbanism, state-level society, historical and industrial archaeology. Pre: sophomore standing or consent. **DH**

**ANTH 323 Pacific Island Archaeology (3)** Origins of Pacific peoples; chronology of settlement; sequences of culture in Australia, Melanesia, Micronesia, and Polynesia. Pre: sophomore standing or consent. **DH**

**ANTH 325 Origins of Cities (3)** Combined lecture/discussion on the emergence and development of ancient cities in comparative perspective and the dynamics of (pre)modern urban life. Examples are drawn from the Near East, Mediterranean, Africa, India, China, and the Americas. A-F only. Pre: 322 (or concurrent), SOC 301 (or concurrent), GEOG 421 (or concurrent), or consent. (Alt. years) **DS**

**ANTH 326 American Folklore and Folklife (3)** Examination of the history and ethics of folklore studies and the dynamics and social functions of traditional culture in diverse communities through topics such as ritual, storytelling, games, gossip, belief, music, and cultural tourism. Junior standing or higher. (Cross-listed as AMST 326) **DH**

**ANTH 327 Ethnohistory (3)** Review of ethnohistory, i.e., the interdisciplinary, holistic and inclusive investigation of the histories of native peoples drawing not only on documented sources, but also on ethnography, linguistics, archaeology, ecology and other disciplines as an alternative to conventional Eurocolonial history. A-F only. Pre: HIST 152, or consent. (Alt. years) (Cross-listed as IS 322) **DS**

**ANTH 330 Social Organization (3)** Systematic study of human institutions; general principles of social interaction formulated from ethnographic data. Pre: 152. **DS**

**ANTH 341 Anthropology of Virtual Worlds (3)** Anthropological study of computer mediated interaction. Focus on the ethnography of massively multiplayer online games, text-based chat rooms, and blogs. Pre: 152 or consent. (Once a year)

**ANTH 345 Aggression, War, and Peace (3)** Bio-cultural, evolutionary, and cross-cultural perspectives on the conditions, patterns, and processes of violence, war, nonviolence, and peace. Pre: 152. (Cross-listed as PACE 345) **DS**

**ANTH 350 Pacific Island Cultures (3)** Introduction to cultures of Polynesia, Micronesia, and Melanesia from time of first settlement to emergence of modern nation states. Pre: sophomore standing or consent. **DH**

**ANTH 368 Households in Cross-cultural Perspective (3)** Study of cross-cultural patterns in household and community level organizations in Latin America and elsewhere. Topics may include gender relations, kinship structures, political economy, impacts of colonialism, modernization, and globalization on households. Sophomore standing or higher. (Cross-listed as LAIS 368) **DS**

**ANTH 370 Ethnographic Field Techniques (V)** Problems and techniques of social-cultural anthropological fieldwork; ethnographic literature; work with informants. Repeatable one time. Pre: 152. **DS**

**ANTH 372 (Alpha) Indigenous Peoples of Latin America (3)** Survey of the history and culture of the indigenous peoples of Latin America through a study of their literature, texts and practices. (B) Mesoamerica; (C) Andean Region. Repeatable one time for different alphas. Pre: sophomore standing or consent. (Cross-listed as LAIS 372 (Alpha)) **DH**

**ANTH 375 Race and Human Variation (3)** Human genetic and physical variation; latitudinal, longitudinal, and altitudinal variation across human populations; history of racism; contemporary issues in race and racism. Pre: sophomore standing, recommend 152 and 215; or consent. (Once a year) **DS**

**ANTH 380 Archaeological Lab Techniques (4)** Laboratory analysis and evaluation of field data; preservation and restoration of artifacts. Preparation for publication. Repeatable two times. Pre: 210 or consent. (Once a year) **DS**

**ANTH 381 Archaeological Field Techniques (V)** Archaeological survey and excavations; field trips, mapping, photography. May focus on terrestrial or underwater. May be taught entirely in the field at a national or international archaeological site. Repeatable one time with consent. Pre: 210.

**ANTH 384 Skeletal Biology (3)** Introduction to the human skeleton and methods for analyzing archaeological human remains including age, sex, ethnicity, paleodemography, skeletal and dental variation, paleopathology, population studies. Co-requisite: 384L. **DB**

**ANTH 384L Skeletal Biology Laboratory (1)** Laboratory to accompany 384. Co-requisite: 384. **DY**

**ANTH 385 (Alpha) Undergraduate Seminar (3)** Selected problems in current research. (B) archaeology; (C) ethnography; (D) social anthropology; (E) applied; (F) psychological; (G) biological. Repeatable nine times. Pre: consent.

**ANTH 399 Directed Reading or Research (V)** Repeatable nine times. Pre: major or minor in Anthropology.

**ANTH 408 History and Memory (3)** Lecture/discussion on the culture and politics of collective memory. Pre: junior standing or consent. (Once a year)

**ANTH 410 Ethics in Anthropology (3)** Seminar surveying ethical cases, problems, issues and questions from the inception of anthropology to the present. Pre: 152. (Alt. years)

**ANTH 411 Museum Anthropology (3)** Anthropological study of museums and related sites of cultural production (historic sites, memorials, theme parks). Junior standing or higher. (Alt. years) **DS**

**ANTH 412 Evolutionary Anthropology (3)** Lecture-discussion providing an overview of evolutionary theory in anthropology: focus on the evolution of culture, behavioral ecology, and cultural diversity; emphasis on archaeological and ethnographic research and explanatory models. Pre: 210 or 215, or consent. (Once a year)

**ANTH 413 Language and Gender (3)** The role of language in the construction of gender and in the maintenance of the gender order. Field projects explore hypotheses about the interaction of language and gender. No previous knowledge of linguistics required. A-F only. (Cross-listed as LING 415) **DS**

**ANTH 414 Introduction to Linguistic Anthropology (3)** Introduction to the ethnographic study of

speech and language. Pre: 152 or consent. (Once a year) (Cross-listed as LING 414 and IS 414) **DS**

**ANTH 415 Ecological Anthropology (3)** Relationship of humans with natural environment; role of culture in ecological systems. Pre: 152. **DS**

**ANTH 416 Economic Anthropology (3)** Analysis of economic activities in non-Western, non-industrial societies; production, distribution, and consumption of goods and services in a variety of cultures. Pre: 152. **DS**

**ANTH 417 Political Anthropology (3)** Character of political institutions and their development in non-Western and non-industrial societies. Pre: 152. **DS**

**ANTH 418 The Anthropology of Sexuality (3)** Explores the intersection of sexuality research and queer theory with other anthropological concerns such as identity, race, gender, religion, economy, politics, and globalization. A-F only. Pre: junior standing or consent. **DS**

**ANTH 419 Indigenous Anthropology (3)** Exploration of how anthropology studies indigenous groups throughout the world. An examination of the changing contexts of anthropological practice as calls for reflexivity lead anthropology of all backgrounds to bring insights from their "homes." Issues include the question of objectivity, the emicetic distinction, and the ethics of different kinds of anthropological research and the role of anthropologists in indigenous self-determination. Repeatable one time. Pre: 152. **DS**

**ANTH 420 Communication and Culture (3)** Anthropological introduction to communication; intercultural and interspecies comparisons; verbal and nonverbal. Ethnography of communication, discourse and structural analyses, ethnomethodology. Pre: 152. **DS**

**ANTH 421 Anthropology and Mass Media (3)** Anthropological critique of mass media research; role of mass media in social and cultural processes of authority, economic exchange, and identity formation in Western, nonwestern, and global contexts. A-F only. Pre: 152. **DS**

**ANTH 422 Anthropology of Religion (3)** Cults, legends, millennial movements, myths, possession, rituals, sacred healing, shamanism, sorcery, spirits, symbolism, witchcraft, and other forms of religious and symbolic expression and experience, from small scale to highly urban societies. Pre: 152. (Cross-listed as REL 422) **DH**

**ANTH 423 Social and Cultural Change (3)** Various approaches to examples of social and cultural change in non-literate societies; evolution, diffusion, acculturation, revolution, etc. Historical features and social processes of colonialism. Pre: 152. **DH**

**ANTH 424 Culture, Identity, and Emotion (3)** The interrelation of culture, thought, emotion, and social realities. Role of language and culture in shaping emotional experience and self-understanding, including the formation of social identities such as gender, ethnicity and nationality. Pre: 152. **DS**

**ANTH 425 Medical Anthropology (3)** Social and cultural aspects of medicine; the relationship of medicine to the beliefs, social systems, ecological adaptations, and cultural changes of human groups. **DS**

**ANTH 427 Food, Health, and Society (3)** How human groups identify, collect, create, and transform foods; how they shape those into dietary behaviors, and the influence of those behaviors on health. Pre: junior standing or higher or consent. **DS**

**ANTH 428 Anthropology of the Body (3)** Exploration of the history and development of theories of the body via topics such as phenomenology, perception, bodily rituals, gender, sex, race, colonialism, power, pain, medicalization, immunology, reproductive health and cyborgs. Pre: 152. **DS**

**ANTH 429 Anthropology of Consumer Cultures (3)** Examines the practices and meanings of consumption in the contemporary world. Topics include

social class, branding, fandom, global-local nexus. A-F only. Pre: 152 or consent. (Alt. years) **DS**

**ANTH 430 Human Adaptation to the Sea (3)** How people from prehistoric to modern times have sailed, fished, or otherwise exploited and enjoyed the sea; how the sea has molded human life. Pre: 152. **DS**

**ANTH 435 Human Adaptation to Forests (3)** Cultural ecology of human societies in forest habitats. Emphasis on case studies of traditional and changing adaptations in the tropics. Pre: 152 (or concurrent), or consent. **DS**

**ANTH 440 The Agriculture of Identity: Food and Farming in Anthropological Perspective (3)** Exploration of agriculture from the perspective of anthropology, with a focus on alternatives to industrial agriculture, especially in the context of Hawai'i. Readings include academic writing and also literary non-fiction and journalism. AF only. Pre: 152. (Alt. years) **DS**

**ANTH 442 Globalization and Identity in the Himalayas (3)** Examines the influence of local culture and global flows on identity formation in the Himalayan region. Topics include: Hindu caste and gender, constructions of ethnicity, Tibetans and tourists, Sherpas and mountaineers, development ideologies, and consumerism. Junior standing or higher. Pre: 152 or 425 or ASAN 202 or consent. (Alt. years: fall) **DS**

**ANTH 443 Anthropology of Buddhism (3)** Selected aspects of national, regional and local manifestations of Buddhism are explored through the perspective of anthropology with an emphasis on the daily lives of monks, nuns and lay persons in their socio-cultural contexts. Pre: 422, REL 207, REL 475, or consent. (Alt. years) (Cross-listed as REL 443)

**ANTH 444 Spiritual Ecology (3)** Lectures and seminars provide a cross-cultural survey of the relationships between religions, environment and environmentalism. Pre: junior standing or consent. (Cross-listed as REL 444) **DS**

**ANTH 445 Sacred Places (3)** Lectures and seminars provide a cross-cultural survey of sites which societies recognize as sacred and their cultural, ecological and conservation aspects. Pre: junior standing or consent. (Alt. years) (Cross-listed as REL 445) **DS**

**ANTH 446 Southeast Asian Cultures (3)** Cultures of Southeast Asia from hunting and gathering groups to high civilizations; kinship, economic, political, and religious systems; recent developments. Pre: junior standing or consent. **DS**

**ANTH 447 Polynesian Cultures (3)** Analysis of Polynesian cultures from their origins to contemporary states. Pre: junior standing or consent. **DS**

**ANTH 449 Anthropology of Melanesia (3)** Close study of cultures of Papua New Guinea, Vanuatu, Solomon Islands, New Caledonia, and Fiji through anthropological ethnography. Pre: 152 or consent. (Once a year) **DS**

**ANTH 455 Human Biology of the Pacific (3)** Human biology of prehistoric and living populations of the Pacific: mainland and island Southeast Asia, Australia, Melanesia, Micronesia, and Polynesia. Fossil humans, micro-evolution, human variation, origins. Pre: 215. **DB**

**ANTH 458 Forensic Anthropology (3)** Application of physical anthropology to problems in human identification. Determination of age, sex, ancestry, etc., of the skeleton and preparation of reports for legal medicine. Pre: 384 (or concurrent). **DB**

**ANTH 460 Asian Paleoanthropology (3)** Neogene-Quaternary paleoenvironmental reconstructions; human evolution in East Asia during the Pleistocene; Out of Africa I; modern human origins. Pre: sophomore standing, recommend 310, or consent. (Alt. years) **DB**

**ANTH 461 Southeast Asian Archaeology (3)** Prehistory and protohistory of Southeast Asia and of Southeast Asian contacts with East Asia, India,

- Australia, and Oceania. Pre: junior standing or consent. **DH**
- ANTH 462 East Asian Archaeology (3)** Prehistory and protohistory of China, Japan, and Korea from earliest human occupation to historic times. Geographical emphasis may vary between China and Japan/Korea. Pre: junior standing or consent. **DH**
- ANTH 463 Anthropology of Global Health and Development (3)** Seminar explores the definitions and histories of development and global health initiatives in developing countries from an anthropological perspective. Reading materials include scholarly and popular texts that propose and critique solutions to global poverty. Junior standing or higher. A-F only. Pre: 152 or 425. (Alt. years: spring) **DS**
- ANTH 464 Hawaiian Archaeology (3)** Archaeological perspective in Hawai'i's past; origins of Hawaiians; early settlement and culture change; settlement patterns and material culture; historic sites preservation. Pre: junior standing and consent. **DH**
- ANTH 465 Science, Sex, and Reproduction (3)** Explores anthropology's critical analysis of approaches to reproductive health and procreation, primarily in developing countries. Examines sex and reproduction as sites of intervention from public health, development, and biomedical specialists, while also considering local strategies. A-F only. Junior standing or higher. Pre: 152 or 425 or WS 151. (Alt. years: Fall) (Cross-listed as WS 465) **DS**
- ANTH 466 Quantitative Archaeology (4)** Combined lecture/lab. Introduction to the basic principles of statistics as applied to the analysis of archaeological data. Exploratory data analysis approach. A-F only. ANTH majors only. Junior standing or higher. Pre: 210. (Alt. years)
- ANTH 467 Biomedicine and Culture (3)** Examination of the social and cultural foundations of, and responses to, the values, technologies and practices of modern medicine. Pre: junior standing or higher, 152, or consent. (Alt. years) **DS**
- ANTH 468 Archaeological Theory and Interpretation (3)** Introduction to theory in archaeology; interpretive paradigms; the relation of archaeological methods to interpretation and evaluation of theories. Pre: 210. **DH**
- ANTH 469 History of Archaeological Thought (3)** Historical survey of archaeology as a discipline; focusing on theoretical, methodological, and substantive advances that changed archaeology. Pre: 210. **DS**
- ANTH 471 Assemblage Analyses in Archeology (4)** Lecture and laboratory surveying methods for conducting analyses of archaeological assemblages. Focus on classification, quantitative techniques, including reliability, precision, and accuracy. Students complete projects on existing assemblages or data from assemblages. Repeatable one time. Pre: 210.
- ANTH 472 Ceramic Analysis in Archaeology (3)** Concepts, methods, and approaches used in the analysis of ancient pottery. Emphasis placed on ceramic technology, stylistic analysis. Pre: 210. **DH**
- ANTH 473 Lithic Artifact Assemblage Analysis (4)** Combined lecture/lab on the manufacture and analysis of stone tools. Students work with experimental collections and engage in stone tool production. The ways in which lithics enlighten us about past human behavior are discussed. Pre: 210 and 380, or consent. **DS**
- ANTH 474 Geoarchaeology (3)** Field and laboratory analysis of sediments and soils in archaeological context. Emphasis on depositional environments, site formation, post-depositional processes, landscape change, and paleogeomorphic reconstruction. Pre: 210. **DP**
- ANTH 475 Faunal Analysis in Archaeology (3)** Analysis of archaeologically recovered faunal collections with emphasis on identification and interpretation of nonhuman vertebrate remains. Pre: 210. **DH**
- ANTH 477 Spatial Analysis in Archaeology (3)** Lecture/lab. Introduction to the use of Geographical Information Systems (GIS) and spatial statistics in archaeological research. Topics include: map creation; spatial database management; spatial analysis; image processing, data reporting; and data display. Pre: 466. (Alt. years)
- ANTH 478 New World Rituals and Ideologies (3)** Study of cross-cultural patterns in ritual behaviors and creolization of African, indigenous, and Iberian ideological frameworks in the Americas. Topics may include syncretic religions (voodoo, candomble), Andean Christianity, spiritual conquest, conceptions of death, etc. Sophomore standing or higher. Minimum C- required grade for prerequisites. Pre: LAIS 360, or consent. (Fall only) (Cross-listed as LAIS 478 and REL 478) **DH**
- ANTH 481 Applied Anthropology (3)** The application of anthropological methods and concepts to solving practical human problems such as homelessness, domestic violence, maternal morbidity, conflict over resources, and the loss of indigenous languages. Includes a significant service-learning component. Pre: 152. **DS**
- ANTH 482 Anthropology and the Environment: Culture, Power, and Politics (3)** Investigates environmental problems from an anthropological perspective, and examines the cultural politics of contestations over resources, rights, and the meanings of nature. Pre: 415 or consent. (Alt. years) **DS**
- ANTH 483 Japanese Culture and Behavior (3)** Sociocultural factors in Japanese behavior. Social structure; traditional institutions. **DS**
- ANTH 484 Japanese Popular Culture (3)** Explores contemporary Japanese popular culture through themes such as gender, consumerism, globalization and nostalgia. Rather than a survey of popular culture genres, the course is organized thematically around issues and problematics. **DS**
- ANTH 485 Pre-European Hawai'i (3)** Pre-European society and culture from an anthropological viewpoint. Pre: junior standing or consent. **DH**
- ANTH 486 Peoples of Hawai'i (3)** Critically examines the historical and contemporary experiences of various people of Hawai'i and utilizes anthropological and ethnic studies approaches to study identity, race, ethnicity, culture, language, gender, sex, class, land, and residence. Pre: junior standing or consent. (Once a year) (Cross-listed as ES 486) **DS**
- ANTH 487 Okinawa and Its Diaspora (3)** Explores the ties of identity that exist within and between Okinawa and its diasporic populations. Pre: 152. (Alt. years)
- ANTH 488 Chinese Culture: Ethnography (3)** Critical interpretations of ethnographic and biographic texts depicting individual and family lives in different socioeconomic circumstances, geographical regions, and historical periods of modern China. **DS**
- ANTH 490 History of Anthropology (3)** Development of anthropological ideas, focusing on theoretical issues concerning culture, society, and human nature. Required of majors. Pre: 152. **DS**
- ANTH 491 Special Topics in Southeast Asian Art History (3)** Focused study of particular periods, regions and critical themes in Southeast Asian art and architectural history. Monuments and nationalism in Southeast Asia. A-F only. Pre: ART 175, or consent. (Once a year) (Cross-listed as ART 490D) **DH**
- ANTH 493 Oral History: Theory and Practice (3)** Literature and methodology; project design. Students develop and execute an oral history project. Junior standing or consent. (Cross-listed as ES 493) **DH**
- ANTH 495 Senior Thesis (3)** Preparation of a major paper with a committee of one chairperson and one other member; paper on topic of interest in anthropology. Optional for majors. Pre: 490 and senior standing. **DS**
- ANTH 496 Senior Thesis (3)** Preparation of a major paper with a committee of one chairperson and one other member; paper on topic of interest in anthropology. Optional for majors. Pre: 490 and senior standing. **DS**
- ANTH 500 Master's Plan B/C Studies (1)**
- ANTH 601 Ethnology (3)** Survey, in historical perspective, of theory in social and cultural anthropology. A course in the graduate core of anthropology. Pre: graduate standing.
- ANTH 602 Linguistic Anthropology (3)** Investigation of mutual influences of linguistic theory and methodology and anthropological theory and methodology. A course in the graduate core of anthropology. Pre: graduate standing.
- ANTH 603 Archaeology (3)** Development of critical and analytical skills in assessment of archaeological literature; emphasis on the science, theory, explanation, and paradigms that comprise archaeology. A course in the graduate core of anthropology. Pre: graduate standing.
- ANTH 604 Physical Anthropology (3)** Human evolution and human variability in extant and previously existing populations; emphasis on history of physical anthropology, evolutionary systematics, primate biology and behavior, paleontology, anthropological genetics, climatic adaptation, growth, and nutrition. A course in the graduate core of anthropology. Pre: graduate standing.
- ANTH 605 Discursive Practices (3)** Emphasizes linguistic, semantic, and interactional aspects of culture, exploring ways that discourse constructs social action and social realities, examining processes by which culture is produced as meaningful behavior in actual situations. Pre: graduate standing.
- ANTH 606 Anthropology of Infectious Disease (3)** The role of human behavior, including its social and cultural determinants, in understanding the distribution of infectious diseases and in shaping preventive and therapeutic strategies. Pre: graduate standing.
- ANTH 607 The Media and Discursive Practice (3)** Role of the mass media in constructing meaning in social cultural processes such as nationalism, ritual, identity, and collective memory. Attention to interactional and post-structural theories of discourse that link the mass media to discursive practice. A-F only.
- ANTH 608 History and Memory (3)** History and collective memory as culturally formed and politically contested realities. The role of narrative, ritual, and media technologies in shaping representations of the past. Pre: graduate standing.
- ANTH 609 (Alpha) Culture and Leadership (3)** Multicultural perspectives on the theory and practice of leadership. (B) service learning and leadership; (C) applied leadership internships; (D) contemporary leadership profiles; (E) film and leadership. A-F only. Pre: graduate standing and consent.
- ANTH 610 Anthropology of Tourism (3)** Social and cultural analysis of tourism practices, with emphasis on Hawai'i, Asia and the Pacific. Tourism in relation to consumer culture, transnational flows of people and images, post-colonial politics, performance and identity formation.
- ANTH 611 Contemporary Anthropological Theory (3)** Graduate seminar that examines the history of theory in sociocultural anthropology from 1960 to present. Designed to be taken in sequence after 601. Pre: 601 or concurrent. (Once a year)
- ANTH 620 (Alpha) Theory in Social and Cultural Anthropology (3)** Major theoretical problems in (B) kinship; (C) cognitive systems; (D) religion; (E) political institutions; (F) law and social control; (G) economics; (H) ecology; (I) other to be announced. Repeatable nine times. Pre: graduate standing.
- ANTH 640 (Alpha) Methods and Theory in Archaeology (3)** Focused seminars pertaining to distinct areas of archaeological method and theory. (B) analytical; (C) environment/landscape; (D) applied archaeology; (E) economic/resources; (F) survey/location. Repeatable two times. Pre: 603.
- ANTH 645 Historic Preservation (3)** Federal, state, and local laws and regulations that regulate and

provide protection to significant archaeological and historical resources in Hawai'i and the region. (Alt. years: spring only) (Cross-listed as AMST 645).

**ANTH 660 Paleoanthropology of Asia (3)** Survey of the Asian paleoanthropological record, particularly in its paleoenvironmental setting; Out of Africa I; modern human origins. Pre: graduate standing and relevant background in anthropology or related field. (Alt. years)

**ANTH 663 Anthropology of Global Aid (3)** Examines ideologies of development, humanitarian, and global health interventions from an anthropological perspective. Explores the disjunction between discourses that portrays global aid as easing suffering and those that accuse it of maintaining relationships of domination. A-F only. (Alt. years: spring)

**ANTH 667 Biomedicine and Culture (3)** Examination of the social and cultural foundations of, and responses to, the values, technologies, and practices of modern medicine. Pre: graduate standing. (Alt. years)

**ANTH 668 Archaeology Field Methods (V)** (5 7-hr Lab) Laboratory and field training in the principles and practice of methods of archaeology—survey, mapping, excavation, conservation. Repeatable one time. Pre: graduate standing.

**ANTH 670 Applied Archaeology Practicum (V)** Applies course work in archaeology to hands-on activities under the direction of practicing professionals and university faculty. MA track in Applied Archaeology students only. Repeatable up to 12 credits. Pre: consent.

**ANTH 671 Applied Method and Theory in Hawaiian Archaeology (3)** Graduate seminar focused on method and theory in the practice of applied archaeology in Hawai'i. Pre: graduate standing or consent. (Alt. years)

**ANTH 676 Recording Historic and Cultural Resources (3)** Techniques in recording and evaluation of historic buildings and other resources, with an emphasis on field recordings and state and federal registration procedures. (Cross-listed as AMST 676 and PLAN 676)

**ANTH 681 Applied Cultural Anthropology (3)** Theory, methods, and results of application of cultural anthropological concepts to practical problems. Graduate students only.

**ANTH 682 Applied Cultural Anthropology Practicum (3)** Applies course work in cultural anthropology to hands-on activities under the direction of practicing professionals and university faculty. Repeatable one time. ANTH majors only. Graduate students only. Pre: 681.

**ANTH 695 Professional Skills Develop in Anthropology (3)** Seminar prepares graduate students for entry into profession, including employment opportunities, research, presentations, ethics and outreach. Required of all Plan B students. Pre: graduate standing.

**ANTH 699 Directed Reading or Research (V)** Repeatable nine times. Pre: graduate standing and consent.

**ANTH 700 Thesis Research (V)** Research for master's thesis. Repeatable nine times.

**ANTH 710 Seminar in Research Methods in Cultural Anthropology (3)** Ethnographic research methods. Introduction to the approaches and techniques of participatory research, including the collection, analysis, and interpretation of social and cultural data. Politics and ethics of research practice. Repeatable one time. Pre: graduate standing in anthropology or consent.

**ANTH 711 Seminar in Research Design and Proposal Writing (3)** Research design and proposal writing. For students preparing for advanced research. Pre: graduate standing in ANTH or consent. (Fall only)

**ANTH 720 Anthropology of Japan (3)** Japan examined through three dimensions of cultural anthropology: cultural/symbolic, social/organizational, and individual/psychological. Selected topics

analyzed and interpreted in terms of conjunctions of these dimensions. Pre: 483 or 484.

**ANTH 750 (Alpha) Research Seminar (3)** Selected problems in current research. (B) archaeology; (C) medical; (D) ethnography; (E) social; (G) biological. Repeatable nine times. Pre: graduate standing.

**ANTH 800 Dissertation Research (V)** Research for doctoral dissertation. Repeatable nine times.

---

## Arabic (ARAB)

*College of Languages, Linguistics and Literature*

*Students choosing Arabic for the language requirement should realize it may not be offered if demand is limited.*

**ARAB 101 Elementary Modern Standard Arabic (4)** Designed to provide students with basic knowledge of Modern Standard Arabic. Focuses on developing proficiency in the standard written Arabic language, as well as formal spoken Arabic. **HSL**

**ARAB 102 Elementary Modern Standard Arabic (4)** Focuses on developing proficiency in the standard written Arabic language as well as formal spoken Arabic. It introduces a wide range of situation-based texts and topics that build vocabulary, grammar, and general communicative competence. Pre: 101. **HSL**

**ARAB 201 Intermediate Modern Standard Arabic (4)** Designed for students who have successfully completed a year of Elementary Arabic. Focus is on acquisition of more complex grammatical structures, expanding vocabulary, and developing competence in a wide range of communicative situations. Pre: 102 or exam or consent. (Fall only) **HSL**

**ARAB 202 Intermediate Modern Standard Arabic (4)** Designed for students who have successfully completed three semesters of Arabic. Focus is on intensive practice of interactive functional skills such as listening comprehension and fundamental conversation strategies. Pre: 201 or exam or consent. (Spring only) **HSL**

**ARAB 301 Third-Level Arabic I (3)** Develop proficiency in reading/listening comprehension in Modern Standard Arabic. The instructional materials consist of authentic written, visual and audio materials. Classes meet 3 hours weekly. Pre: 202 (or equivalent), or consent.

**ARAB 302 Third-Level Arabic II (3)** Continuation of third-level Arabic I. Emphasis on developing writing and interaction ability at advanced levels of proficiency. Course includes extensive reading, composition exercises, listening skills, conversation practice and extensive review of Arabic grammar. Developing fluency is the main objective of this course. Classes meet 3 hours weekly. Pre: 301 (or equivalent), or consent.

---

## Architecture (ARCH)

*School of Architecture*

*All courses are restricted to declared architecture majors, unless otherwise specified.*

**ARCH 100 Introduction to the Built Environment (3)** Introduction to the breadth of design in today's global culture. Exploration of human responses to place, climate, culture, communication, and technology, with emphasis on the impact of scientific knowledge on environmental design. Open to nonmajors. **DS**

**ARCH 101 Basic Design Studio (4)** Introduction to creative design processes focusing on the investigation of composition within defining perceivable space. Hands-on exploration of materials and structures as an introduction to design processes. Open to non-majors. A-F only. **DA**

**ARCH 132 Design Communication (4)** Exploration of critical judgment and means to conceptualize, develop, present, and both visually and orally communicate form and space, including fundamentals of freehand drawing, mechanical drawing, physical

model making, diagramming, and graphic techniques. Open to non-majors. A-F only. **DA**

**ARCH 200 Collaboration in Environmental Design (2)** Investigation of the various disciplines in the environmental design field, including architecture, landscape architecture, interiors, historic preservation, urban design, and construction management. Emphasis given to collaborative methods to address critical issues. Open to non-majors. A-F only.

**ARCH 201 Architecture Design Studio(4)** Development of design processes to study precedents and explore solutions responding to human needs in built and natural environment with emphasis on analysis and representation architectonic space and form using hand and computer techniques. A-F only. Pre: 235. **DA**

**ARCH 220 Introduction to Environmental Systems A (3)** Introduction to building systems, including structural, environmental, life-safety, building envelope, building materials and building assemblies. Development of design skills with emphasis on elevating skills in assessing and selecting appropriate building systems. A-F only. Pre: 132 and MATH 140.

**ARCH 235 Computer Applications in Design (4)** Exploration of digital design fundamentals and their application to design analysis, conceptualization, design process, and communication of design intent. Pre: 100, 101, and 132.

**ARCH 251 Introduction to Landscape Architecture (3)** Principles and practice of landscape planning, design, and technology. Ecological, sociocultural, and natural science determinants of landscape form and pattern. Open to nonmajors if space available.

**ARCH 271 World Architecture and Urbanism A (3)** Investigation of the history and theory of architecture in the world's major cultural regions, from early agricultural settlements to 1500 C.E. Investigation of architecture in relationship to social, political, technological, and material forces. Open to non-majors. Pre: HIST 151. **DH**

**ARCH 272 World Architecture and Urbanism B (3)** Investigation of the history and theory of architecture from the 15th century C.E. to the present. Investigation of architecture in relationship to social, political, technological, and material forces. Open to non-majors. Pre: HIST 152. **DH**

**ARCH 321 Introduction to Environmental Systems B (3)** Introduction to environmentalism; focusing on the impact of building systems of the global environment; the role of environmental regulations/certifications, and understanding of sustainable principles (economic, social, and natural systems). ARCH majors only. A-F only. Pre: 320, and PHYS 151/151L.

**ARCH 341 Intermediate Design Studio A (4)** Building and site design with emphasis on site development, analysis, and climatic response. Introduction to sustainable design, land use ordinances, description and delineation of property and land features, and urban and community design influences. A-F only. Pre: 201.

**ARCH 342 Intermediate Design Studio B (4)** Architectural design with emphasis on space planning, building materials, technology, climatic responses, and codes including complex functional requirements, multi-story design issues, vertical transportation, structure, and finishes. Production of complete schematic design documents. Detailed writing instruction. A-F only. Pre: 341.

**ARCH 350 Introduction to Planning (3)** Perspectives on planning; planning tools and methods; specific Hawai'i planning/research problems from a multidisciplinary approach. Pre: consent. **DS**

**ARCH 351 Introduction to Urban Design (3)** Principles and practice of urban design within the comprehensive planning process. Sociocultural, economic, political, environmental determinants of urban form and pattern. Open to nonmajors if space available. **DS**

**ARCH 352 Landscape Architecture History, Theory, and Practice (3)** Surveying the development of landscape architecture as an art form from Mesopotamia to present. Exploring the theory, profession and art of landscape architecture in the world by physical, social, economic, political, and cultural environmental factors. (Alt. years)(Cross-listed as TPSS 352) **DH**

**ARCH 353 Landscape Graphics Studio (3)** Basic skills of landscape graphic communication through a creative process model. Learning free hand and technical drafting techniques to create effective landscape graphics. Pre: consent. (Alt. years) (Cross-listed as TPSS 353) **DA**

**ARCH 354 Tropical Landscape Planting Design Studio (3)** Students will develop basic skills of residential landscape graphic and design processes in order to clearly articulate the ability to think, analyze, and extend a physical solution in the proper scale. Repeatable one time. A-F only. (Alt. years)(Cross-listed as TPSS 354) **DA**

**ARCH 371 Design Theory (3)** Examination of theories, movements, and periods in architectural history focusing on contemporary issues. Introduction to analytic techniques for achieving understanding of formal and spatial ordering of architectural and site constructs. ARCH majors only. A-F only. Pre: 271 and 272.

**ARCH 372 Special Topics in Architectural History and Theory (3)** An examination of specific theories, movements, or periods of architectural history. Changing topics to be taught by both regular and visiting faculty. Repeatable three times. Pre: 271 and 272. **DH**

**ARCH 399 Directed Work (V)** Pre: consent.

**ARCH 400 Project Management (3)** Exploration of the management of architectural services from project initiation through project completion. Investigation of project delivery options; management of project design teams, project operations and services; design parameter definition; design service documentation; and project execution. A-F only. Pre: 200.

**ARCH 405 Selected Design Studio (3)** Special architecture/interior architecture problems individually selected by students or faculty to sharpen design skills. Repeatable one time.

**ARCH 406 Office Research Practicum (3)** Learn design research method[s]. Conduct architectural design research under the guidance of a practicing architect in an office setting in an area of the architect's expertise and interest. The experience also exposes students to the professional practice of architecture via shadowing an architect mentor relative to typical design process activities, communication techniques, and professional ethics issues. A-F only. Pre: 200.

**ARCH 415 Concentration Design Studio (6)** Professional experience combined with scholarly and research activity occurring in an off-campus location with a focus on architectural concentration areas. ARCH majors only. A-F only. Pre: 342.

**ARCH 422 Green Building Evaluation and Rating Systems (3)** Introduction to green building design, construction, and operation standards and rating systems. Emphasis on understanding the intent, criteria, and process of the LEED system in preparation for application in a professional setting. ARCH majors only. A-F only.

**ARCH 432 Construction Management (3)** Design professional's role during the building procurement process, particular emphasis on documentation and construction phases. Analysis of value of professional construction management services.

**ARCH 433 Professional Practice Law and Ethics (3)** Exploration of the practice of architecture including: professionalism; office organization and administration; public, client, consultant, and other contractor relations; project administration, procedure and compensation; construction law and contract administration. A-F only. Pre: 200 and 341.

**ARCH 434 Digital Design Synthesis (3)** Investigation of processes for generating architectonic

form using current digital technologies. Making advanced geometric models including investigation of morphological transformations. Study of design optimization, digital fabrication, information modeling, and generative algorithms. ARCH majors only. A-F only. Pre: 235.

**ARCH 435 Architectural Economics (3)** Survey of fundamental business principles and economic theories as they relate to professional practice for design professionals. **DS**

**ARCH 442 Introduction to Urban Design (3)** Principles and practice of urban design within the comprehensive planning process. Sociocultural, economic, political, environmental determinants of urban form and pattern. Open to non-majors if space available. A-F only. **DS**

**ARCH 451 Landscape Architecture Design Seminar (3)** Principles and practice of landscape architecture within the comprehensive design processes of the built environment. Focus on context-specific sociocultural, economic, political, environmental determinants of landscape forms and patterns. Open to non-majors if space available. A-F only.

**ARCH 461 Introduction to Interior Architecture (3)** Introduction and orientation to the field. Fundamental design principles and elements as applied to interiors. Basic materials and methods of interior construction; basic professional and business practices. Critical analysis of an existing interior space. Open to nonmajors if space available. Repeatable three times. **DA**

**ARCH 471 Historic Architecture Design Seminar (3)** Introduction to historic preservation. Exploration of design principles and elements as applied to conservation of historic resources, including basic conservation materials and methods, professional practices, and critical analysis of existing methodologies. Open to non-majors if space available. A-F only.

**ARCH 472 Documentation of Historic Architecture (V)** Study and documentation of existing buildings, structures, and sites of historic and/or cultural significance, including field measurements and drawings, historical research, photo documentation, and preparation of archival drawings to be deposited in the Library of Congress. Documentation conducted according to standards of the Historic American Buildings Survey/Historic American Engineering Record (HABS/HAER). Repeatable three times. Pre: consent. (Cross-listed as AMST 475)

**ARCH 473 History of American Architecture (3)** History of American architecture in terms of style, techniques, and symbolic meaning. (Cross-listed as AMST 423) **DH**

**ARCH 474 Preservation: Hawai'i, Asia, and the Pacific (3)** Lectures and discussions on historic preservation issues in Hawai'i, Asia, and the Pacific. Emphasis on indigenous and national expressions. Pre: junior standing or consent. (Cross-listed as AMST 474) **DH**

**ARCH 477 Research Seminar (V)** Research methodology for the qualitative development of an optimum environment. Repeatable three times. Pre: consent.

**ARCH 490 Special Topics (3)** Selected topics in any aspect of architecture. Content to be announced. Repeatable three times.

**ARCH 491 Special Topics in Architecture History (3)** Specialized work on the history and theory of architecture. Repeatable unlimited times. ARCH majors only. A-F only.

**ARCH 492 Special Topics in Architectural Technology (3)** Specialized investigation of technological developments in structural systems, environmental control systems, or materials and methods of construction. Repeatable unlimited times. ARCH majors only. A-F only.

**ARCH 493 Special Topics in Architecture and Design (3)** Work on specialized topics in the fields of architecture and design. May include research

and/or studio experiences in architecture, interior architecture, computer-aided design, professional practice, advanced visual design, and architectural graphics. Repeatable unlimited times. ARCH majors only. A-F only.

**ARCH 495 (Alpha) Foreign Exchange (3)** Various course work including design, history, theory, technology, and sustainability offered for international exchange students. (E) elective; (L) laboratory; (P) project; (S) seminar. A-F only. Pre: departmental approval.

**ARCH 515 Asia-Pacific Architectural History and Theory (3)** Study of the history and theory of culture and the built environment with particular focus on the Asia-Pacific region. ARCH majors only. A-F only.

**ARCH 516 Architecture and Urban Design Theory (3)** Detailed investigation of major theories in architecture and urban design and examination of their impact on contemporary architectural practice in varied geo-political contexts. Open to non-majors. A-F only.

**ARCH 522 Architecture Systems I: Introduction to Systems (3)** Study of building materials, assemblies, and integrated design including structural, environmental, life-safety, and building envelope systems. Development of ability to design, analyze and assess appropriate systems. ARCH majors only. A-F only. Pre: MATH 140.

**ARCH 523 Architecture Systems II: Qualitative Bioclimatic Structural Performance (3)** Introduction to the theory of bioclimatic structural systems and the ability to analyze, assess, select, design, and integrate them as initial determinants into the building design. ARCH majors only. A-F only. Pre: graduate status.

**ARCH 524 Architecture Systems III: Quantitative Structural Analysis and Design (3)** Introduction to procedures and wood, steel, concrete, and masonry material properties used for structural analysis and design of individual structural elements and building structural systems. ARCH majors only. A-F only. Pre: 523.

**ARCH 525 Architecture Systems IV: Environmental Technology, Sustainability, and Analysis (3)** Application and analysis of high-performance building design principles. Emphasis on climate-appropriate passive design, energy-efficient lighting and conditioning strategies, innovative water systems, and renewable energy production. ARCH majors only. A-F only. Pre: 523.

**ARCH 526 Architecture Systems V: Building Systems Integration (3)** Properties, evolution, and range of building materials, assemblies, and systems and their applications in integrated high-performance building design with a focus on the role of detail and systems in the design process. ARCH majors only. A-F only. Pre: 524, 525, and 542.

**ARCH 531 Advanced Design Communication I (3)** Exploration of digital technologies, their relationship to design, and their application to architectural analysis, conceptualization, design processes, communication, representation, and construction. ARCH majors only. A-F only. Pre: departmental approval.

**ARCH 533 Advanced Design Communication II (3)** An interdisciplinary investigation of design theory as connected to digital technology and its applications to current developments in practice and research within architecture and design. ARCH majors only. A-F only. Pre: 235 or 531.

**ARCH 534 Forms and Frames of Practice (3)** Comprehensive study of architectural practice within the global context with emphasis on the Asia Pacific region. Exploration of information technology systems, materials and design process research, construction technology, computer aided manufacturing, and entrepreneurial approaches. ARCH majors only. Graduate students only. A-F only.

**ARCH 535 Architecture Doctorate Seminar (3)** Assessment of both contemporary and future

architectural education, research and practice, by examining existing and evolving consistencies and shared visions that cut across distinct architectural approaches and other disciplines. Conceptual skills in the production of architecture that links environmental concerns with advances in building construction, computational and informational technologies. It includes the study of collaboration in design and on the technologies and spaces that support it; the study of encoding design knowledge in material resolution. CR/NC only. Pre: consent.

**ARCH 537 Advanced Design Communications III (3)** Interdisciplinary investigation of design theory as connected to architectural presentation techniques, particularly oral and written, to current developments in architectural practice. A-F only.

**ARCH 539 Research Methods Seminar (3)** Comprehensive assessment of objectives and function of research in architecture. Lecture, seminar, independent work with emphasis on doctorate project topic and proposal development. ARCH majors only. A-F only. Pre: 515 and 541.

**ARCH 540 Architecture Studio I: Intro to Design (6)** Design theories and systematic analytic and synthetic methodologies applied to creation of building and site spaces responsive to environmental and human needs. Several individual projects. ARCH majors only. A-F only.

**ARCH 541 Architecture Studio II (6)** Design of a medium complexity building and site engaging social, cultural, codes, building systems, and sustainable design. Production of program and schematic design documents. Individual projects. ARCH majors only. A-F only.

**ARCH 542 Architecture Studio III (6)** Design of complex, large scale building and site engaging social, cultural, code, sustainable systems, and acoustic issues. Production of schematic and design development documents. ARCH majors only. A-F only. Pre: 523, 533, and 541.

**ARCH 543 Architecture Studio IV: Urban Design (6)** Urban design focused on Asian cities investigating social, cultural, political, and technological factors; study of historical precedents, building/block typology, circulation, infrastructure, and context response. ARCH majors only. A-F only. Pre: 524 and 542.

**ARCH 544 Architecture Studio V: Comprehensive Design (6)** Design and programming for a moderately complex building and site. Production of design development and partial construction documents describing sustainable building assemblies and construction cost. ARCH majors only. A-F only. Pre: 524, 525, and 542.

**ARCH 545 Advanced Practice (3)** Comprehensive study of architectural practice investigating architect's response to global forces, including entrepreneurial practice, office organization, project delivery, compensation, and construction law. ARCH majors only. A-F only. Pre: 524, 533, and 542.

**ARCH 546 (Alpha) Doctorate Project I (V)** Individual development of a doctorate project with an approved chair and doctorate project committee that advances architectural knowledge through analysis, research, scholarship, and design. (C) China; (G) global; (H) Hawai'i. Repeatable one time for (H). ARCH majors only. A-F only. Pre: 547T for (C); 547C for (G); 516, 526, 539, and 545 for (H).

**ARCH 547 (Alpha) Professional Studio (V) (8 for B) (6 for T)** Scholarly and research activity combined with professional experience occurring in an off-campus location. (B) business; (C) community design; (E) alternative; (G) global; (H) Hawai'i; (P) practicum; (T) China. Repeatable one time per alpha. ARCH majors only. Graduate standing only for (G), (H), and (T). A-F only. Pre: 543, 545, and 546 for (C), (E), and (P); 542 for (T); 543 for (B) and (G).

**ARCH 548 (Alpha) Doctorate Project II (V)** Individual development of a doctorate project with an approved committee that advances architectural

knowledge through research, scholarship, design, and engages theoretical and architectonic propositions. (C) China; (G) global; (H) Hawai'i. ARCH majors only. A-F only. Pre: 546G for (C); 548C for (G); 547C, 547P, or 547E for (H).

**ARCH 550 (Alpha) Architecture Studio (6)** Urban design focused on investigating social, cultural, political, and technological factors; study of historical precedents, building/block typology, circulation, infrastructure, and context response. (C) China; (G) Global. A-F only. ARCH Global Track only. Graduate standing only. Pre: 547B or 547G for (C); 550C for (G).

**ARCH 551 Architecture Topics (1)** Range of topics allowing acquisition of knowledge and ability needed for professional architectural practice offered online. Repeatable two times. ARCH majors only. A-F only. Pre: 415.

**ARCH 554 Professional Studio Topics (3)** Varied topics furthering knowledge and ability needed for professional design practice emphasizing communication methods for collaborative and integrated design using digital technologies. ARCH majors only. A-F only. Pre: 544.

**ARCH 555 Advanced Global Practice (3)** Comprehensive study of architectural practice investigating architect's response to global forces, including entrepreneurial practice, office organization, project delivery, compensation, and construction law. A-F only. Pre: 545.

**ARCH 569 Study Abroad: Architectural Study Tour (V)** Firsthand examination of the architecture of various countries, with emphasis on experiencing and comprehending significant spaces within historical, cultural, and physical contexts. Topics and countries visited change with each offering. Open to nonmajors. Repeatable two times.

**ARCH 571 Architecture History (3)** Investigation of architectural history and theory in the world from antiquity to present. Examining social, political, technological, material, and environmental forces. ARCH majors only. A-F only.

**ARCH 577 History of Hawaiian Architecture (3)** Investigation of social, cultural, political, climactic, and technological factors influencing the historical development of architecture in Hawai'i. ARCH majors only. A-F only.

**ARCH 588 Doctorate Project II Extension (3)** Extension of the development of a doctorate project with an approved committee that advances architectural knowledge through research, scholarship, design, and engages theoretical and architectonic propositions. Repeatable one time. ARCH majors only. CR/NC only. Pre: 548.

**ARCH 591 Digital Design and Fabrication (3)** Theoretical and design investigations into fabrication and construction techniques using computer aided design and manufacturing technologies. ARCH majors only. A-F only. Pre: 533.

**ARCH 595 Building and Landscape: Theory and Practice (3)** Research into landscape, landscape architecture, and architecture from historical, historiographic, and theoretical perspectives. ARCH majors only. A-F only.

**ARCH 628 Preservation: Theory and Practice (3)** History and philosophy of historic preservation movement. Analysis of values and assumptions, methodologies and tactics, implications for society and public policy. (Cross-listed as AMST 675 and PLAN 675)

**ARCH 650 Vernacular Architecture (3)** Methods and approaches in the study of vernacular architecture, cultural landscapes and material culture, with an emphasis on traditions and innovations in the Americas. (Cross-listed as AMST 681)

**ARCH 679 Elements of Style (3)** The manifestations, visual characteristics, and social/cultural meaning of "style" in American architecture and decorative arts from the early settlement period through the present. (Cross-listed as AMST 679)

**ARCH 690 Special Topics Seminar (3)** Seminar on a wide range of architectural topics to be directed by both visiting and regular faculty. Repeatable three times. Pre: consent.

**ARCH 691 Special Topics: Architecture History/Theory (3)** Specialized work at an advanced level on the history and theory of architecture. Repeatable unlimited times.

**ARCH 692 Special Topics in Architectural Technology (3)** Specialized investigation at an advanced level of technological developments in structural systems, environmental control systems, or materials and methods of construction. Repeatable unlimited times.

**ARCH 693 Special Topics in Architecture and Design (3)** Intensive work on specialized topics in the fields of architecture and design. May include research and/or studio experiences in architecture, interior architecture, computer-aided design, professional practice, advanced visual design, and architectural graphics. Repeatable unlimited times.

**ARCH 699 Directed Work (V)**

## Art and Art History (ART)

*College of Arts and Humanities*

**ART 101 Introduction to the Visual Arts (3)** Nature of the world's visual arts and their influences on personal expression. Lectures, demonstrations, and studio practice. (Not for art majors or minors) **DA**

### ART STUDIO CORE COURSES

*It is recommended that art majors complete 113 and 116 of the art studio core prior to undertaking studio courses at the 200 level.*

**ART 113 Introduction to Drawing (3)** Descriptive, expressive, and formal aspects of visual language through drawing practice. **DA**

**ART 116 Introduction to Three-Dimensional Composition (3)** Basic concepts, elements, and principles of art. **DA**

### ART HISTORY & THEORY CORE COURSES

*It is recommended that art majors complete both 175 and 176 prior to undertaking studio courses at the 300 level. 175 and 176 is required of all Art majors; 302 is required of all BFA's and 395 is required of all Art History majors.*

**ART 175 Survey of Global Art I (3)** Art produced in Asia, Africa, Native America, Europe, and the Pacific Islands, from prehistory to the 15th century. Religious and philosophical ideas expressed in architecture, painting, prints, sculpture, applied art, body art, and textiles. (Fall only) **FGA**

**ART 176 Survey of Global Art II (3)** Art produced in Asia, Africa, Native America, Europe, and the Pacific Islands, from the 15th century to the present. Religious and philosophical ideas expressed in architecture, painting, prints, sculpture, applied art, body art, and textiles. (Spring only) **FGB**

**ART 302 Theory and Criticism of Art (3)** Examination of the significant themes and issues in contemporary theory and criticism as they relate to the production and reception of art. Pre: 176 or consent. **DH**

**ART 395 Art Historical Methodology (3)** Introduction to the methods and approaches of art history. Students will develop skills in perception and comprehension of visual art forms, and a critical understanding of the methods used by art historians to analyze them. A-F only. Pre: 175 and 176 and consent. **DH**

### HISTORY OF ART

**ART 371 Medieval Art (3)** Arts of Europe from early Christian era to Renaissance. Pre: 175 or consent. **DH**

**ART 373 Art of Greece and Rome (3)** Minoan and Mycenaean arts; Greece and Rome. Pre: 175 or consent. **DH**

**ART 374 Art of the 19th Century (3)** Architecture, sculpture, and painting of Europe. Pre: 176 or consent. **DH**

- ART 380 Early Art of Japan (3)** Major developments, prehistoric through Kamakura; architecture, painting, sculpture. Pre: 175 or consent. **DH**
- ART 381 Later Art of Japan (3)** Major developments, Muromachi to modern period; painting, sculpture, architecture. Pre: 176 or consent. **DH**
- ART 384 Art of Korea (3)** Ceramics, sculpture, painting, and architecture; neolithic through Yi periods. Pre: 175 or consent. **DH**
- ART 385 Art and Culture of Early China (3)** A culturally oriented study of Chinese visual arts; emphasis on jade, bronze, secular and religious sculptures, and paintings from prehistory to the 9th century. Pre: 175 or consent. **DH**
- ART 386 Art and Culture of Late China (3)** A culturally oriented study of Chinese visual arts; emphasis on the rise of literati painting and theory individualism in art and theory, garden, and architecture, and the Chinese pursuit of modernity and post-modernity in art. Pre: 176 or consent. **DH**
- ART 390 Art of Africa, Pacific, North America (3)** Contextual study of art from selected areas in Africa, the Pacific, and North America. Pre: 176 or consent. **DH**
- ART 396 (Alpha) History of Photography (3)** History of photography from its beginnings to the present; emphasis on the evolution of photography as an art form; (B) nineteenth century, from the invention of photography through pictorialism; (C) twentieth century, from World War I to the present. Repeatable one time for different alphas. Pre: 176 or consent. **DH**
- ART 460 Early 20th Century American Art (3)** American art in the first half of the 20th century and its impact on American culture. Junior standing or higher. Pre: 176 or consent. (Alt. years: fall) (Cross-listed as AMST 460)
- ART 470 (Alpha) Renaissance Art (3)** Painting, sculpture, and architecture: (B) early Renaissance in Italy; (C) northern Europe; (D) High Renaissance and mannerism in Italy. Repeatable one time for different alphas. Pre: 176 or consent. **DH**
- ART 471 Baroque and Rococo Art (3)** Architecture, sculpture, and painting of Europe in the Baroque and Rococo periods. Pre: 176 or consent. **DH**
- ART 472 Art of the United States (3)** Emphasis on the 18th and 19th centuries. Pre: 176 or AMST 202 or consent. (Cross-listed as AMST 456) **DH**
- ART 473 Art of the First Half of 20th Century (3)** Development of modern art in Europe 1900–1939. Pre: 176 or consent. **DH**
- ART 474 Art Since Middle 20th Century (3)** Art since 1945, with a focus on the global expansion of the avant-garde. Pre: 176 or consent. **DH**
- ART 475 (Alpha) Art of the Pacific (3)** Visual form and function of the arts in cultural context: (B) Indonesia; (C) Melanesia, Micronesia, Polynesia; (D) North Pacific coast Indian, Eskimo. Repeatable one time for different alphas. Pre: 176 or consent. **DH**
- ART 476 Art of Tribal Africa (3)** Visual form and function of arts in cultural context. Mali, Burkina Faso, Ivory Coast, Liberia, Guinea, Nigeria, Ghana, Cameroon, Congo, Zaire. Pre: 176 or consent. **DH**
- ART 478 Representing Identity in Contemporary Art (3)** Focus on issues of self representation with an emphasis on discussion of gender, cultural, and political identity in contemporary art and visual culture. A-F only. Pre: 176 or consent. (Alt. years) **DH**
- ART 479 Art of Hawai'i (3)** Stylistic and aesthetic characteristics of art of ancient Hawai'i; relationship to art from other parts of Polynesia. Pre: 176 or consent. **DH**
- ART 483 Applied Art of Japan (3)** Ceramics, metalwork, lacquer, and textiles throughout Japanese history. Pre: 175 and 176; or consent. **DH**
- ART 486 Traditional Chinese Painting (3)** Stylistic and historic development of two-dimensional arts; painting and calligraphy from prehistory through 18th century. Pre: 175 or consent. **DH**
- ART 487 Modern and Contemporary Art of China (3)** Introduction to the arts of China in the modern and contemporary periods, in all media and genres, from 1840 to the present. Repeatable one time. Pre: 176 or consent. **DH**
- ART 490 (Alpha) Special Topics in Southeast Asian Art History (3)** Focused study of particular periods, regions and critical themes in Southeast Asian art and architectural history. (B) Angkor & art of Khmer civilization; (C) art & architecture of Thailand; (D) monuments & nationalism in Southeast Asia. Repeatable one time for up to two different alphas. A-F only. Pre: 175, or consent. (Once a year) (D Cross-listed as ANTH 491) **DH**
- ART 491 (Alpha) Art of Southeast Asia (3)** Critical analysis of the historical and cultural development of Buddhist and Hindu art in Southeast Asia; (B) island Southeast Asia; (C) mainland Southeast Asia. Repeatable one time for different alphas. Pre: 175 or consent. **DH**
- ART 492 (Alpha) Art and Architecture of South Asia (3)** Art and architecture of South Asia in historical and cultural context. (B) introduction to art of India and South Asia; (C) Hindu visual culture. Pre: 175 or consent. **DH**
- ART 493 Art of Islam (3)** Major developments in art and architecture. Pre: 175 or consent. **DH**
- ART 494 Photography: Critical Issues (3)** Seminar on theoretical, ethical and aesthetic issues relating to the practice of photography, past and present. A-F only. Pre: 396B or 396C, or consent. **DH**
- ART 495 History of Modern Design (3)** Major design movements in Europe and America from late 19th century to present; arts and crafts movement, art nouveau, modernist trends of the 20th century. Pre: 176 or consent. **DH**
- ART 496 Topics in the History of Cinema (3)** Specific period or national style of cinema studied in its historical context. Repeatable two times. Pre: 176 or consent. **DH**
- ART 670 Art Historical Methodology (3)** An introduction to art historiography, analytical techniques, and research methods and materials. Pre: consent and graduate standing.
- ART 677 Art of Oceania (3)** Arts from Polynesia, Melanesia, Micronesia explored in context of issues involving belief systems and cultural change. Repeatable one time. A-F only. Pre: 475C or consent.
- ART 688 Topics in the Art of China (3)** Research topics in the history of Chinese sculpture, ceramics, bronzes, jade, and textiles. Pre: consent.
- ART 690 Interdisciplinary Seminar (3)** Issues of contemporary art. Analysis of current literature and criticism. Pre: consent.
- ART 695 (Alpha) Seminar in Western Art History (3)** Selected topics in European and American art history. Pre: consent.
- ART 780 Seminar in Japanese Art (3)** Selected topics in Japanese art history. Pre: consent.
- ART 791 Seminar in South/Southeast Asian Art History (3)** Selected topics in South and/or Southeast Asian art and architectural history with an emphasis on Hindu and Buddhist traditions. Repeatable unlimited times. Pre: consent, repeatable with consent.
- ART 792 Orientalism and Visual Culture (3)** Investigates artistic representations, appropriations, and exchanges constructed on the basis of East/Orient vs. West/Occident differences. Includes analysis of: Orientalizing artistic traditions throughout history, history and concept of Orient, post-colonial critique of Orientalism. A-F only. Pre: graduate standing or consent. (Alt. 2-3 years) (Cross-listed as ASAN 792)
- CERAMICS**
- ART 242 Introduction to Ceramics (3)** Three-dimensional concepts in clay; hand-building and wheel-throwing techniques. Projects, lectures, and demonstrations. **DA**
- ART 343 Ceramics—Sculpture (3)** Sculptural concepts and techniques specifically related to the medium of clay; advanced hand-building, throwing, glazing, and firing techniques. Repeatable one time after completion of 344 and 345. Pre: 242 or consent. **DA**
- ART 344 Ceramics—Vessels (3)** Exploration of the ceramic vessel as function, metaphor, and expression. Advanced hand-building, throwing, glazing, and firing techniques. Repeatable one time after completion of 343 and 345. Pre: 242 or consent. **DA**
- ART 345 Ceramics—Low Temperature (3)** Form and surface problems related to earthenware clay bodies and low-temperature glazes; mold-making for ceramics. Repeatable one time after completion of 343 and 344. Pre: 242 or consent. **DA**
- ART 346 History of Western Ceramics (3)** Western ceramics history from chronological, developmental, contextual, and theoretical standpoints; influence of Asian ceramics. Pre: 242, with 175 and 176 recommended; or consent. **DH**
- ART 347 Technical Ceramics (3)** Clay body development, glaze development, empirical and calculation methods. Emphasis on glaze maturity, surface, and color. Pre: 242, and one of 343, 344, or 345; or consent. **DA**
- DIGITAL IMAGING**
- ART 202 Introduction to Digital Imaging (3)** Combined theory and practice examining major techniques, concepts, and aesthetics in contemporary digital image production. Direct studio experience in essential software, printing techniques and hardware necessary in producing the gallery quality inkjet print. A-F only. Pre: 113 or consent. **DA**
- ART 304 Digital Imaging: Professional Printing (3)** Combined theory and practice. Investigates industry standard methods for archival pigment printing. Techniques include: device calibration and profiling, black and white, coating techniques, mounting and adhesive techniques, professional portfolio presentation. A-F only. Pre: 202. **DA**
- ART 305 Digital Imaging: Alternative Printing (3)** Combined theory and practice. Merges digital printing, mark-making, photography, and traditional printmaking. Includes image transfers, lifts, pre-coating techniques, as well as printing on alternative substrates such as watercolor papers, metals, and cloth. Repeatable one time. A-F only. Pre: 202 or consent. **DA**
- DRAWING/PAINTING**
- ART 123 Introduction to Painting (3)** Theory and practice of painting; material and technical procedures. Pre: 113 or consent. **DA**
- ART 213 Intermediate Drawing (3)** Extension of the observational foundation established in 113 to address contemporary conceptual and expressive approaches to drawing. Pre: 113 or consent. **DA**
- ART 214 Introduction to Life Drawing (3)** Investigations of the figure concerning anatomical construction, light, space, diagrammatic analysis, and thematic content. Pre: 113 or consent. **DA**
- ART 223 Intermediate Painting (3)** Extension of the observational foundation established in 123 to address contemporary conceptual and expressive approaches to painting. Pre: 113 and 123. **DA**
- ART 225 Painting/Water-Based Media (3)** An introduction to water-based media. Traditional transparent color, gouache and acrylics. Pre: 113 or consent. **DA**
- ART 313 Advanced Drawing (3)** Studio practice in drawing emphasizing contemporary developments in art. Repeatable one time. Pre: 213 or consent. **DA**
- ART 314 Intermediate Life Drawing (3)** Further investigations of the figure concerning anatomical and diagrammatic construction, light, space, and thematic content. Pre: 214 or consent. **DA**
- ART 320 Chinese Brush Art (3)** Brush techniques in classical painting and calligraphy; studio course. Repeatable one time. Pre: 113 or consent. 225 is recommended. **DA**

**ART 321 Materials and Techniques of Painting**

(3) Experiments with various traditional and contemporary materials and procedures; discussion of their influences on painting. Pre: 123, 175, and 176; or consent. **DA**

**ART 322 Advanced Color** (3) Theory and application of color as related to studio practice. Pre: 123 or consent. **DA**

**ART 323 Advanced Painting I** (3) Studio practice in painting emphasizing contemporary developments in art. Repeatable one time. Pre: 223 or consent. **DA**

**ART 324 Painting from Life** (3) Painting from the model; a survey of the figurative tradition. Repeatable one time. Pre: 214, 223, or consent. **DA**

**ART 414 Advanced Drawing from Life** (3) Study of the figure with emphasis on the expressive function of drawing. Repeatable one time. Pre: 314 or consent. **DA**

**ART 423 Advanced Drawing/Painting II** (3) Development of greater formal means and aesthetic insight, emphasizing independent development. Required for BFA capstone in painting. Repeatable one time. Pre: 313 and 314 or 323 and 324 with a B (not B-) or better; or consent. **DA**

**ELECTRONIC ARTS****ART 201 Introduction to Electronic Arts**

(3) Theory and practice course investigating language common to all arts activity particularly as related to the contemporary arts. Pre: any studio art course; or consent. **DA**

**ART 301 (Alpha) Electronic Arts Studio I**

(3) (6 Lec/Lab) Combined theory and practice studio course(s) that investigate language, processes, and personalized composing systems related to the use of technological media and its application to a variety of contemporary art areas and related disciplines. (B) imaging systems; (C) sound; (D) interactive systems. Pre: 201 and one 200-level studio; or consent. **DA**

**ART 401 Advanced Electronic Arts Studio**

(3) Tutorial studio that encourages exploration in combined and new media through independent work within an environment of theoretical and critical discourse. Repeatable one time. Pre: 301 or consent. **DA**

**FIBER**

**ART 103 Introduction to Fiber Arts** (3) Broad-based studio exploration of materials, techniques, concepts in contemporary fiber art. May include surface patterning/manipulation, papermaking, woven, other 2D/3D hand construction techniques. Focus on creative-problem solving, experimentation in a cooperative studio setting. **DA**

**ART 237 Woven Structures** (3) Structured studio exploration of creative potential of working with threads under tension. In-depth introduction to a variety of traditional and experimental processes/materials. Tradition of pattern weaving to experimental woven forms. A-F only. Pre: one of 103, 116; or consent. **DA**

**ART 238 Fiber Forms** (3) In-depth studio exploration of non-loom fiber techniques for creating/manipulating 2D and 3D forms. Emphasis on concept development, skill mastery, innovative application of materials/techniques. May include felting, knotting, netting, piecing, coiling, found object/sewn constructions, papermaking. A-F only. Pre: one of 103, 116; or consent. **DA**

**ART 335 Papermaking** (3) Studio emphasis on handmade papermaking techniques, conceptual exploration in two and three dimensions. Repeatable one time. A-F only. Pre: one fiber course or one of 104, 113, 116; or consent. **DA**

**ART 336 Wearable Art—Body and Material**

(3) Studio exploration of clothing as art form and the body as living armature and performance. Emphasis on development of concept, skill, collaborative and individual voice through material investigation, research, discussions, lectures, individual and group projects. Repeatable one time. A-F only. Pre: one

200-level fiber course, or 116 and one 200-level studio course; or consent. **DA**

**ART 337 Fiber Sculpture—Endurance and Impermanence**

(3) Studio exploration in contemporary dimensional fiber using both conventional and non-conventional materials and processes. Emphasis on concept development, sensitivity to the evocative potential of materials, context, surface treatment and its relationship to concept and structure. Repeatable one time. A-F only. Pre: one 200 level fiber course or 116 and one 200 level studio course; or consent. **DA**

**ART 339 Designing Surface** (3) In-depth studio exploration of fiber techniques for patterning and manipulating cloth and other related experimental surfaces. Engages conceptual exploration through experimentation with traditional fiber patterning techniques such as dyeing, resisting, direct printing, embellishment drawing with thread and piercing. Group and individual projects. A-F only. Pre: 113 and 116; or consent. **DA**

**ART 437 Textile Conservation/Research** (V) Independent study of textile conservation and research. Individualized directed work (internship/practicum) in the museum environment. Repeatable up to twelve credits. A-F only. Pre: two 200-level or above fiber courses, and consent.

**ART 438 Applied Fiber History** (3) Investigation of historical and contemporary fibers as an art form with direct studio workshop experience in basic related fiber processes and concepts. Includes lectures, discussions, demonstration, and individual and collaborative studio projects. Pre: 175 and 176 and one 200 level or above studio course, or consent. **DA**

**ART 439 Installation/Performance—Material in Context**

(3) Studio investigation of the definition/transformation of space through artist intervention. Emphasis on the evocative potential of materials in context (physical, social, political, psychological) as well as experiments in non-object based interventions. Repeatable one time. A-F only. Pre: two 200-level or above studio courses, or consent. **DA**

**GLASS**

**ART 130 Introduction to Glass** (3) Basic techniques of working with cold and molten glass. Theory of glass studio operation and introduction to glass theory. **DA**

**ART 230 Glass Casting: Sand and Metal Molds**

(3) Expressive explorations in glass casting with wet sand, bonded sand, and metal molds. Repeatable one time. Pre: 116 (or concurrent) and 130, or consent. **DA**

**ART 234 Cold Glass Fabrication** (3) Expressive explorations using architectural sheet glass. Development of 2D and 3D forms using engraving, sandblasting, and cold joinery techniques. Pre: 113 (or concurrent), 116 (or concurrent), and 130; or consent. **DA**

**ART 303 Kiln-Formed Glass** (3) Expressive explorations in the use of kiln-formed, fusible-sheet glasses and enameling on glass. Pre: 234 or consent. **DA**

**ART 306 Lost Wax Glass Casting** (3) Glass kiln casting techniques, lost wax fuse casting, pâte de verre. Repeatable one time. Pre: 230 and either 254 or 356, or consent. **DA**

**ART 330 Advanced Glass** (3) Glass as an expressive medium. Individual problems; construction of studio equipment. Readings and discussions of contemporary glass issues. Repeatable one time. Pre: 230 and either 254 or 356, or consent. **DA**

**GRAPHIC DESIGN**

**ART 265 Design: Studio I** (3) Introduction to graphic design. Explorations of rhetorical and semiotic structures and their relationship to visual form and content. ART 176 is recommended as a prerequisite. A-F only. Pre: 113 or consent. Co-requisite: 265L and 266. **DA**

**ART 265L Design: Studio I Lab** (1) Beginning instruction in the Macintosh computer environment, including hardware, software, and lab networking as

it relates to graphic design production. ART 176 is recommended as a prerequisite. CR/NC only. Pre: 113 or consent. Co-requisite: 265 and 266.

**ART 266 Design: Typography I** (3) Introduction to typography. Exploration of letterform and word compositions in the context of single-page structures. ART 176 is recommended as a prerequisite. A-F only. Pre: 113 or consent. Co-requisite: 265 and 265L **DA**

**ART 365 Design: Studio II** (3) Intermediate graphic design. Emphasis on communication problems involving process and analysis. Introduction to modernist precedents and information theory. A-F only. Pre: 113, 116, 175, 176, 265, 266; or consent. Co-requisite: 365L and 366. **DA**

**ART 365L Design: Studio II Lab** (1) Intermediate instruction in the Macintosh computer environment, software, and peripheral devices, including intermediate layout. Introduction to graphic design industry standard multi-media and web design programs. CR/NC only. Pre: 265, 265L, and 266; or consent. Co-requisite: 365.

**ART 366 Design: Typography II** (3) Intermediate typographic design, exploration of word and text composition in the context of multiple-page structures. A-F only. Pre: 113, 116, 175, 176, 265, 266; or consent. Co-requisite: 365 and 365L. **DA**

**ART 465 Design: Studio III** (3) Advanced graphic design. Emphasis on postmodernist theory, context, audience, and alternative media. A-F only. Pre: 365, 365L, and 366; or consent. Co-requisite: 465L. **DA**

**ART 465L Design: Studio III Lab** (1) Advanced instruction in the Macintosh computer environment, including software and peripheral devices. Instruction in image manipulation and editing still video images for the web, CD, DVD, and portable interface devices. CR/NC only. Pre: 365, 365L, and 366; or consent. Co-requisite: 465.

**ART 466 Design: Typography III** (3) Advanced typographic design. Exploration of 2D, 3D, electronic, and intermedia. Emphasis on contemporary typographic models. A-F only. Pre: 365, 365L, and 366; or consent. **DA**

**ART 467 Design: Production Techniques** (3) Advanced techniques in design production from printed and digital media. A-F only. Pre: 465, 465L, and 466; or consent. **DA**

**ART 469 Design: Advanced Studio** (3) Individual and team investigations of complex problems in graphic design. Emphasis on projects with actual clients (when available) and/or independent investigations addressing advanced and current questions in the graphic design field. A-F only. Pre: (465 and 465L and 466) with a minimum grade of B. (Spring only)

**PHOTOGRAPHY**

**ART 107 Introduction to Photography** (3) Studio/lecture examining the major themes and issues in historical and current photographic production. Direct black and white darkroom experience. Students must have 35mm film-based camera with adjustable shutter speed, aperture, and light meter. **DA**

**ART 207 Intermediate Photo: Black and White** (3) Black and white photography emphasizing communication and self-expression. Lectures, demonstrations, and projects. Student must supply camera and material. Pre: 107. **DA**

**ART 307 Advanced Lighting** (3) Emphasis on aesthetic and critical analysis. Techniques covered include continuous light, strobe and handheld flash. Repeatable one time with consent. Pre: 202 and 207 with a minimum grade of B and positive portfolio review, or consent. **DA**

**ART 308 (Alpha) Advanced Photographic Techniques** (3) Emphasis on aesthetic and critical analysis. (B) color; (C) hand-applied emulsion. (B) and (C) Repeatable one time with consent. Pre: 202 and 207 with a minimum grade of B and positive portfolio review, or consent. **DA**

**PRINTMAKING**

**ART 104 Introduction to Printmaking (3)** Foundation explorations in the processes of relief, intaglio, and stencil printmaking. Direct workshop studio experience in the basic techniques and concepts of wood cut, linoleum cut, drypoint, monotype, and basic stencil processes. **DA**

**ART 215 Intaglio Printmaking (3)** Studio practice in concepts and techniques of making prints from metal plates including etching, engraving, aquatint, and drypoint. Pre: 104 or 113. **DA**

**ART 217 Screenprinting (3)** Studio practice in screenprinting on paper. Copy camera and basic photo-stencil techniques introduced. Pre: 113. **DA**

**ART 218 Relief Printmaking (3)** Studio practice in the techniques and concepts of woodblock, linoleum cut, monotype, and calligraph printmaking. Emphasis on both traditional and contemporary practices. Pre: 104 or 113, or consent. **DA**

**ART 316 Lithography (3)** Studio practice in concepts and techniques of making prints from lithographic limestone and plates. Pre: 113 and one of the following: 214, 215, 217, 218; or consent. **DA**

**ART 318 Intermediate Printmaking (3)** Intermediate level specialization in either intaglio, lithography, screenprinting, or relief printmaking. Concentration on the techniques and formats of color printing and sequential image development. Repeatable two times. Pre: two printmaking courses and portfolio review, or consent. **DA**

**SCULPTURE**

**ART 254 Sculpture—Metal Casting (3)** Metal casting and development of associated practices and concepts. Repeatable one time. Pre: 116 or consent. **DA**

**ART 255 Sculpture—Carving, Mixed Media (3)** Investigations of traditional and contemporary carving concepts and methods. Repeatable one time. Pre: 116 or consent. **DA**

**ART 351 Sculpture—Figure Modeling (3)** Figure modeling, mold making, and casting. Repeatable one time. Pre: 116 or consent. **DA**

**ART 352 Kinetic Sculpture (3)** The design and construction of objects incorporating movement as an integral element of their content. Repeatable one time. Pre: 116 or consent. **DA**

**ART 356 Sculpture—Metal Fabrication (3)** Metal fabrication and development of associated practices, concepts, and historical references. Repeatable one time. Pre: 116 or consent. **DA**

**ART 357 Sculpture—Small-Scale (3)** Fabrication and casting of forms on a small scale such as jewelry. The development of related practices, concepts, and historical references. Repeatable one time. Pre: 116 or consent. **DA**

**ART 358 Utilitarian Sculpture (3)** The design and construction of objects intended for use/interaction. Emphasis on wood and synthetic materials. Repeatable one time. Pre: 116 or consent. **DA**

**ART 359 Sculpture—Contemporary (3)** Contextualization of late 20th/early 21st century sculptural practice, including stylistic and theoretical frameworks, with references to influences of various historical Western and Asian traditions and applying this knowledge in the creation of sculpture. Pre: 116 and 176, or consent. **DA**

**VARIABLE CREDIT AND OTHER COURSES**

**ART 360 Exhibition Design and Gallery Management (3)** Design theory and techniques for presentation of artworks and mounting exhibitions. Pre: junior standing and consent. **DA**

**ART 369 (Alpha) Study Abroad-Studio Art (3)** Intensive study of topics in studio art at a UH Mānoa-approved study abroad institution. (B) introductory; (C) upper-division. Repeatable one time per alpha. A-F only. Pre: consent. **DA**

**ART 389 (Alpha) Study Abroad-Art History (3)** Intensive study of advanced topics in art history at a UH Mānoa-approved study abroad institution. (B)

introductory; (C) upper-division. Repeatable one time per alpha. A-F only. Pre: consent.

**ART 399 Directed Work (V)** Individual projects; tutorial. Maximum: 3 credit hours per semester; total 3 for BA, 6 for BFA. Pre: two 200-level or above art courses in area of directed work, as well as consent of instructor and department associate chair.

**ART 400 Special Topics (V)** Intensive and specialized work at advanced level in fields of special interest of visiting or resident faculty. Repeatable three times. Pre: advanced standing and consent.

**ART 405 Professional Practice in the Arts: Creative, Career, and Leadership (3)** Examination of the role of the artist in society, the artist as self, as community member, as teacher. Professional Practice skills in the arts; planning, grantsmanship, fundraising, budgeting, marketing, outreach, and media relations. ART majors only. Senior standing or graduate students only. A-F only.

**ART 409 Graduation Portfolio (0)** Required graduation portfolio for BA Art History and Art Studio students. BA ART majors only. Undergraduates only. CR/NC only. To be taken during the semester prior to expected graduation.

**ART 410 BFA Capstone Seminar (3)** In conjunction with the production of art for the BFA annual exhibition, this seminar will examine, critique, and evaluate the student's art within the context of contemporary art, professional practices, exhibition theory, and integrate theoretical and practical issues in the life of an artist. BFA majors only. A-F only. Pre: BFA major or consent. (Spring only)

**ART 481 Museum Interpretations (3)** Studies the interpretive strategies and methods used by museums to communicate with visitors in museums, art galleries, historic sites, parks, and related places. Considers how interpretations contribute to cultural knowledge. Repeatable one time. Pre: consent. (Cross-listed as AMST 457) **DH**

**GRADUATE STUDIOS**

*Studio concentrations for the Master of Fine Arts degree: ceramics, electronic arts, glass, fiber, painting, photography, printmaking, and sculpture. Four sequential course levels (611-614) are to be taken for the MFA degree in Art.*

**ART 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**ART 611 Graduate Studio Seminar in Art I (6)** Selected topics in art. Emphasis on technical experimentation, diversification of research, and the exploration of new areas of creative inquiry. ART majors only. A-F only. Pre: consent. (Fall only)

**ART 612 Graduate Studio Seminar in Art II (6)** Selected topics in art. Emphasis on the analysis of the systems by which art is conceived and the ability to define developing direction and related research. ART majors only. A-F only. Pre: 611 or consent. (Spring only)

**ART 613 Graduate Studio Seminar in Art III (6)** Selected topics in art. Emphasis on the development of critical analysis and the understanding of one's position relative to the contemporary art world. ART majors only. A-F only. Pre: 612 or consent. (Fall only)

**ART 614 Graduate Studio Seminar in Art IV (6)** Selected topics in art. Emphasis on the convergence of one's studio practice and research, and the refinement necessary to the preparation for entrance into thesis. ART majors only. A-F only. Pre: 613 or consent. (Spring only)

**ART 630 Graduate Studio Teaching Practicum (3)** Observation, analysis and participation in teaching a lower division course under the direction of an instructor in the student's area of concentration. Repeatable one time. A-F only. Pre: 690, admitted to candidacy for MFA in art, and consent.

**ART 699 Directed Work (V)** Advanced individual projects; advanced tutorial. Maximum: 3 credit hours per semester; total 6 for MA Plan A, 9 for MA Plan

B, 9 for MFA. Repeatable unlimited times. Pre: consent of instructor and department chair.

**ART 700 Thesis Research (V)** Repeatable unlimited times.

**Arts and Sciences (CAS)***Colleges of Arts and Sciences*

**CAS 099 International Exchange (V)** Designed for students accepted for participation in an international exchange program while enrolled at UH Mānoa. CR/NC only. Pre: Admittance to an international exchange program.

**CAS 101 Using Information Critically (3)** Concepts and practice for effective information seeking, evaluation, and use in context of information technology and libraries. Research framework structures activities involving fiction, film, scholarly studies, writing, oral presentation; original research is culminating project. A-F only.

**CAS 102 RAP Foundation Course (3)** Focus on communication and research skills. Multilevel work with technology, community service, linking with K-12 students, creation of museum exhibits. A-F only. Open only to RAP students.

**CAS 110 Integrating Seminar I (1)** An introduction to the university community; topics include critical thinking, the value of higher education, cultural and transition issues. A-F only.

**CAS 111 Integrating Seminar II (1)** Through the use of a unifying theme, students explore linkages with academic disciplines represented in Freshman Learning Communities. Theme examples: diversity, epistemology. A-F only. (Spring only)

**CAS 200 (Alpha) Scholar Seminars (1)** Discussion-based seminar led by senior faculty/administrator. Students meet with instructor for 1 hour once a week. Freshmen may take up to three alphas.

**CAS 301 ACE Mentoring: Facilitating Student Development (4)** Theoretical foundations in student learning and holistic development. Practical leadership skills acquisition and application through the facilitation of a seminar for new freshmen. Repeatable one time. A-F only. Pre: consent. (Fall only)

**Asian Studies (ASAN)***School of Pacific and Asian Studies*

**ASAN 201 Introduction to Asian Studies: East Asia (3)** Understanding East Asia through multidisciplinary approaches. Examines the interrelationship of policies, economy, literature, religion, the arts, and history as the basis for such an understanding. **DH**

**ASAN 202 Introduction to Asian Studies: South/Southeast Asia (3)** Understanding South and Southeast Asia through multidisciplinary approaches. Examines the interrelationship of policies, economy, literature, religion, the arts, and history as the basis for such an understanding. **DH**

**ASAN 241 Civilizations of Asia (3)** Historical survey of major civilizations of Asia from earliest times: East Asia, Southeast Asia, and South Asia. (Cross-listed as HIST 241) **DH**

**ASAN 242 Civilizations of Asia (3)** Continuation of 241. (Cross-listed as HIST 242) **DH**

**ASAN 308 Chinese Political Economy (3)** Interdisciplinary review and analysis of the social and political issues in contemporary China, the interchange between state and society in national policies, the relationship between cultural tradition and technological modernization in the social transformation process. A-F only. Pre: sophomore standing or higher, or consent. (Cross-listed as POLS 308) **DS**

**ASAN 310 Asian Humanities (3)** Multidisciplinary. Classics of literature, philosophy, and religion shaping Asian beliefs and values. Pre: 201 and 202, or consent. **DH**

**ASAN 312 Contemporary Asian Civilization (3)** Multidisciplinary examination of problems and issues affecting peoples and institutions of contemporary

Asia; ethnic, language, religious, and cultural differences; population growth; public health; economic development; political and social change; environmental problems; etc. Pre: 201 and 202, or consent. **DS**

**ASAN 320 (Alpha) Asian Nation Studies (3)** Multidisciplinary examination of major Asian countries; cultural, social, economic, and political lives of their peoples. (C) China; (I) South Asia; (J) Japan; (K) Korea; (O) Okinawa; (P) Philippines; (S) Southeast Asia; (Z) Other. Pre: 201 and 202, or consent. Repeatable three times in different alphas. **DS**

**ASAN 323 The Way of Tea in Japanese History and Culture (3)** History and culture of Japan as revealed in study and practice of tea ceremony: Zen, aesthetics, calligraphy, architecture, ceramics, gardens, politics. (Cross-listed as HIST 323) **DH**

**ASAN 324 Chado—the Way of Tea Practicum (2)** Actual practice of the tea ceremony as history and culture of Japan. Repeatable one time. Pre: 323 (or concurrent), HIST 323 (or concurrent), or consent. **DA**

**ASAN 325 (Alpha) Japanese Film: Art and History (3)** Study and analysis of Japanese film; its history and relationship to cultural, social, philosophical, and aesthetic contexts. (B) 1900-1960; (C) 1960-present; (D) special topics. Pre: upper division standing or consent. (Cross-listed as EALL 325) **DH**

**ASAN 330 Chinese Film: Art and History (3)** Study and analysis of Chinese film; its history and relationship to cultural, social, philosophical, and aesthetic contexts. Pre: 201 and 202, or consent. (Cross-listed as EALL 330) **DH**

**ASAN 360 Buddhist Philosophy (3)** Survey of central thinkers and schools. Pre: any course 100 or above in PHIL, CHN, JPN, PALI, SNSK, or TIB; or consent. (Cross-listed as PHIL 360) **DH**

**ASAN 361 Southeast Asian Literature in Translation (3)** Survey in English traditional and modern literatures of Southeast Asia. A-F only. (Cross-listed as IP 361) **DL**

**ASAN 364 20th-Century Chinese Women Writers (3)** A survey and critical examination of contemporary Chinese women writers from China, Taiwan, and Hong Kong. Traces a genealogy of women's writing from the early 1920s up until now through novels, poetry, drama, and film. Pre: one DH or DL course, or consent. (Cross-listed as EALL 364 and WS 346) **DL**

**ASAN 393 (Alpha) Field Study in Asia (3)** Students may submit proposals to have academic course work, field research, or work experience in Asia. See specific center for guidelines and procedures. (C) China; (I) South Asia; (J) Japan; (K) Korea; (P) Philippines; (S) Southeast Asia; (Z) Other. Repeatable one time.

**ASAN 406 Modern Philippines (3)** Survey of major developments from pre-colonial through Spanish and American colonial periods, the revolution, Japanese occupation, and post-war republic. (Cross-listed as HIST 406) **DH**

**ASAN 410 Gender and Politics in U.S.-Okinawa Relations (3)** Examines gender in Okinawa in relation to historical dynamics in the Asia-Pacific region with attention to issues such as militarism and violence, colonialism and memory, and tourism and commodification of indigenous culture. A-F only. Pre: WS 151 or consent. (Cross-listed as WS 410)

**ASAN 462 Contested Issues in Contemporary Japan (3)** Familiarizes students with public discourse in Japan by analyzing key current issues widely debated in the Japanese media and in public forums in light of their political, historical, cultural, social and economic contexts. A-F only. Pre: 201, 202, 312, 320J, ANTH 483, ANTH 484, ECON 317, POLS 307H, SOC 357, or upper level undergraduate standing; or consent. **DS**

**ASAN 463 Gender Issues in Asian Society (3)** Construction of gender identities in contemporary Asia. How these interface with other aspects of social

difference and inequality (e.g., with class, religion, ethnicity). Pre: 201 and 202, or any WS course; or consent. (Cross-listed as WS 463) **DS**

**ASAN 464 J-pop, J-rock, and Idols: Japanese Popular Music and Society (3)** Examines modern Japan through popular music. Examines genres from early modern Japanese music, to postwar enka and idol groups, up to today's J-pop and J-rock. A-F only. (Summer only)

**ASAN 465 Japan Cool: Anime, Manga, and Film (3)** Focus on the world of Japanese anime, manga, and films. What can one learn about Japan from these products? Focus on issues of gender, national identity, and race. A-F only. (Summer only)

**ASAN 469 Ethnic Diversity in China (3)** Surveying Tibetans, Mongols, Manchus, Muslims, and other minorities, as well as analyzing the nature of minority/majority identity in China from an anthropological perspective. Pre: 201 and 202, or consent. **DS**

**ASAN 470 Sustainable Development in East Asia (3)** Interdisciplinary investigation of development in East Asia is an urgent issue. Status and role of Asian business; current technological, economic, and financial developments; impact on world economy. Pre: 201, 312, or BUS 314; or consent. (Cross-listed as FIN 470)

**ASAN 473 Chinese Diaspora and Visual Culture (3)** Examines films focusing on the social relationships and cultural practices of the Chinese diaspora, i.e. Chinese communities living outside China (e.g. Taiwan, Hong Kong, Southeast Asia, North America, and Europe). Weekly film discussions in class, readings on visual culture, media studies, and film criticism. Course material will also include theater productions, art exhibitions, and other visual material depending on availability. Pre: any 300- or 400-level DL or DH course. (Cross-listed as EALL 473) **DH**

**ASAN 474 Transnational Chinese Popular Culture (3)** Survey of contemporary Chinese popular entertainment forms that are produced and appreciated transnationally. Examples include martial arts genres, kung fu films, commercial novels, ballroom dancing, karaoke culture, music videos and rock music. Material will be selected based upon availability and readings will include critical essays from the fields of popular culture, media studies, and literary criticism. Pre: any 300- or 400-level DL or DH course. (Cross-listed as EALL 474) **DH**

**ASAN 478 Music Cultures: India (3)** Approaches the cultural study of music and performance through a specific focus on South Asia. Pre: junior standing or consent. (Cross-listed as MUS 478H)

**ASAN 480 Culture and Economy of Southeast Asia (3)** An exploration of the cultural and economic development of the countries of Southeast Asia from early times to the present day, with an emphasis on the effects of outside influences. Pre: 201 and 202, or consent. **DH**

**ASAN 485 Contemporary Chinese Development (3)** Development and planning in contemporary China: economic policy and institutional structure in the development and urbanization process; urban and rural transformation in a socialist economy. Pre: upper division standing or consent. **DS**

**ASAN 491 (Alpha) Topics in Asian Studies (3)** Selected topics in Asian studies. (B) Buddhist studies; (C) China; (G) Asia; (I) South Asia; (J) Japan; (K) Korea; (P) Philippines; (S) Southeast Asia; (Z) Other. Pre: 201 or 202, or consent. Repeatable two times. **DS**

**ASAN 492 Women and Revolution (3)** Conditions under which women's activism and participation in protest and revolutionary movements developed in the 19th- and 20th-centuries. Cross-cultural comparisons. (Cross-listed as HIST 492 and WS 492) **DH**

**ASAN 493 Globalization in Asia (3)** Globalization affects the economic, political, and cultural lives of people in Asia. Transformations by capitalism in

agricultural and industrial sectors of contemporary societies. Perspective is historical and global; approach is interdisciplinary. Repeatable two times. Pre: 201 and 202, or consent. **DS**

**ASAN 495 Encountering Tourism in Asian-Pacific Societies (3)** A critical examination and current impact of tourism on contemporary Asian and Pacific Island societies. Topics include colonial antecedents, social impacts, cultural and environmental concerns, case studies (including Hawai'i). Pre: 201 or 202, or consent. (Cross-listed as PACS 495) **DS**

**ASAN 496 Religions of Island Southeast Asia (3)** A comparative, interdisciplinary examination of indigenous beliefs, Islam, Christianity, and Hinduism in island Southeast Asia, and how they have been adjusted because of economic and social change. Pre: 201 and 202, or consent. **DH**

**ASAN 499 Directed Reading (V)** Repeatable three times. Pre: consent.

**ASAN 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Repeatable six times. Pre: master's Plan B or C candidate and consent.

**ASAN 501 Practicum in Asian Studies (V)** Repeatable two times (for a maximum of three times) with consent.

**ASAN 600 Asian Studies Seminar: Scope and Methods (3)** Scope of Asian studies as a field; contributions of major disciplines to study of Asia; resources and methods of research; preparation of research proposal. (C) China; (I) South Asia; (J) Japan; (K) Korea; (P) Philippines; (S) Southeast Asia. Pre: graduate standing.

**ASAN 608 Politics and Development: China (3)** Consists of three parts: key theories for socialist transition as basis for seminar discussion, policy evolution to illustrate the radical changes, and emerging and prominent current development and practice. Pre: one of 600, POLS 308, or POLS 341; or consent. (Cross-listed as POLS 645C and PLAN 608)

**ASAN 611 Comparative Muslim Societies in Asia (3)** Will compare Muslim societies and cultures in Asia with each other and with the so-called "core" Middle Eastern Muslim societies. Pre: 600 or consent.

**ASAN 612 20th Century Literary and Cultural Studies (3)** Critical scholarship in Chinese literature and cultural studies, broadly defined to include the People's Republic of China, Taiwan, Hong Kong, and others. Reading knowledge of Chinese desirable but not required. Repeatable one time with consent. Pre: consent. (Cross-listed as EALL 611)

**ASAN 620 Problems/Issues of Contemporary Asia (3)** Analysis from multidisciplinary perspective: rural development, urbanization, international relations, ethnicity, religion, language, etc. Repeatable one time with different topics. Pre: 312 or consent.

**ASAN 623 Gender in Asian Performing Arts (3)** Performance is a rich site for gender construction, critique, and articulation in Asia. This seminar examines gender reflected in traditional music, dance, and theatre, including character role and performer persona; approaches of performance and culture studies, and an "Asian way." A-F only. (Once a year)

**ASAN 624 Culture and Colonialism (3)** Analysis of theories and debates (cultural studies, feminist writings, post-colonial issues). Case studies of the transformation and creation of "traditional" cultures under colonialism. Pre: 310 or 312, or consent.

**ASAN 625 Comparative Development in East and Southeast Asia (3)** Comparative developmental analysis of Asia's leading economic powers. Considers Japanese political and economic developmental model; discusses problems for continued Asian growth; examines Korea, Taiwan, China, Indonesia, Thailand, Philippines and other Asian nations. Pre: 312, 600, or consent.

**ASAN 626 Capitalism in Contemporary Asia (3)** Historically grounded theoretical examination of capitalism in 20th-century Asia; multidisciplinary approach to fundamental change in political and

economic structures and institutions, prospects for the future. Pre: 600 or 625, or consent.

**ASAN 627 Ethnic Nationalism in Asia (3)** Contemporary theories of ethnic and cultural nationalism from perspective of Asia. Issues of nation-state, power hierarchies, modernity, and identity in contemporary societies. Pre: 310 (or concurrent) or 312 (or concurrent), or consent.

**ASAN 629 Asian Security Cultures (3)** Comparative study of conceptualizations, practices and institutions of national security in Asia in light of their geographic and historic contexts. Pre: 310 and 312, or consent. (Once a year)

**ASAN 630 Cultural Change and Globalization in Southeast Asia (3)** Examines the ways global influences are shaping the cultural developments in the diverse societies of contemporary Southeast Asia. (Spring only)

**ASAN 636 Culture and Urban Form in Asia (3)** Cultural and historical impact on urban form, contention of tradition and modernity in urban space, spatial expression of state and society, perception and utilization of urban design, evolution of urban form in selected Asian capitals. Pre: 312, ARCH 341, PLAN 310, or PLAN 600. (Cross-listed as PLAN 636)

**ASAN 638 Asian Development and Urbanization (3)** Theories of globalization and sustainability in development, impacts of globalization and sustainability on development planning and policy formation, selected case studies of Asia-Pacific development. Pre: (600 or PLAN 630) with a grade of B or above. (Cross-listed as GEOG 638 and PLAN 638)

**ASAN 649 Asian Cities: Historical Evolution of Urban Form (3)** Examination of the impact of economy, society, and history on urban form; case studies of the evolution of Asian urban form. Pre: 312 or PLAN 310. (Once a year) (Cross-listed as PLAN 649)

**ASAN 651 East Asia Now (3)** Views East Asia as an interactive region. Examines common historical and cultural, economic and political themes including various experiences with the West. Focus upon present state of the region. A-F only. Pre: 310, 312; or consent.

**ASAN 652 Contemporary Japanese Studies Seminar (3)** Selected human and physical features that represent economic, social, and political life. Pre: consent. (Cross-listed as GEOG 652)

**ASAN 653 Major Authors in Modern Korean Literature (3)** Advanced study of major Korean fiction writers from the 1910s to the present with emphasis on critical reading of their lives and writings to arrive at informed appraisal of their contribution to modern Korean literature. Repeatable one time. Pre: KOR 494 or consent. (Cross-listed as KOR 652)

**ASAN 664 Topics and Issues in Modern Korean Literature (3)** Intensive study of selected topics and issues in modern/contemporary Korean fiction, focusing on texts that problematize critical socio-cultural issues in the evolving contexts of modern Korean intellectual history. Repeatable one time. Pre: KOR 494 or consent. (Cross-listed as KOR 664)

**ASAN 671 The Splendor that was Southeast Asia (3)** Interdisciplinary examination of the classical civilizations of Southeast Asia, the 9th to 14th centuries. Includes Pagan, Sukhothai, Angkor, Dai Viet, Srivijaya, and Majapahit. Considers historical themes and patterns, issues in Southeast Asian studies. A-F only. Pre: 310, 312; or consent.

**ASAN 686 Law and Society in China (V)** Overview of the historical foundations of Chinese law and introduction to the present legal system in the People's Republic of China. Repeatable one time. (Cross-listed as LWPA 586)

**ASAN 688 China's International Relations (3)** Examination of China's rise and world view, review of China's regional relations, China and U.S. relations, formation of a new world order. Pre: 600, 608, or POLS 645C, or consent.

**ASAN 694 Topics in Buddhist Studies (3)** Seminar on selected topics in Buddhist studies. Repeatable three times. Pre: PHIL 360, PHIL 406, REL 475, or REL 490; or consent.

**ASAN 699 Directed Research (V)** Individual problems and research. Repeatable unlimited times. Pre: consent.

**ASAN 700 Thesis Research (V)** Repeatable nine times.

**ASAN 705 Asian Research Materials and Methods (3)** Bibliography, reference tools, and research methods in sources on Asia in Western and Asian languages. Discussion of published and archival repositories. Repeatable one time. (Cross-listed as LIS 705)

**ASAN 750 (Alpha) Research Seminar in Asian Studies (3)** (C) China; (I) South Asia; (J) Japan; (K) Korea; (P) Philippines; (S) Southeast Asia. Pre: 600 or consent.

**ASAN 792 Orientalism and Visual Culture (3)** Investigates artistic representations, appropriations, and exchanges constructed on the basis of East/Orient vs. West/Occident differences. Includes analysis of: Orientalizing artistic traditions throughout history, history and concept of Orient, post-colonial critique of Orientalism. A-F only. Pre: graduate standing or consent. (Alt. 2-3 years) (Cross-listed as ART 792)

## Astronomy (ASTR)

*College of Natural Sciences*

*Credit not given for more than one of 110, 120, and 140. Credit not given for both 240 and 241. A grade of C (not C-) or better is required for all prerequisites.*

**ASTR 110 Survey of Astronomy (3)** Introduction to the astronomical universe: sky and celestial objects, planetary motion, planets and the Solar System, Sun and stars, the Milky Way and galaxies, cosmology and the universe. **DP**

**ASTR 110L Survey of Astronomy Laboratory (1)** Observations of constellations and the night sky, the sun and moon, planets, stars, and deep-sky objects; laboratory and observational experiments illustrating basic concepts in astronomy. Offered in the evening. Pre: 110 (or concurrent), or consent. **DY**

**ASTR 120 Astronomical Origins (3)** Formation of the sun and stars; origin of our solar system; formation and evolution of galaxies, including the Milky Way Galaxy; origin of chemical elements, and the beginnings of the cosmos. A-F only. **DP**

**ASTR 130 Introduction to Archaeoastronomy (3)** Astronomy and celestial lore in ancient cultures: Neolithic Europe, Mayan, Mesoamerican, Egyptian, Mesopotamian, American Indian, Chinese, and Polynesian. Concepts of the cosmos, calendars, eclipse predictions, motion of celestial bodies, and navigation. Construction of simple observing tools. **DP**

**ASTR 140 History of Astronomy (3)** Covers the major discoveries in astronomy and astrophysics from the Babylonians through the 20th century, and the evolution of modern astrophysics. A-F only. (Fall only) **DP**

**ASTR 150 Voyage through the Solar System (3)** An illustrated voyage through the Solar System based on recent scientific results. The class highlights the origin, evolution, and current knowledge of the eight planets, their moons, asteroids, comets, and one star, the Sun. Field trip. (Cross-listed as GG 105) **DP**

**ASTR 240 Foundations of Astronomy (3)** A rigorous overview of modern astronomy: solar system, stellar, galactic and extragalactic astronomy and cosmology. For science and engineering students. Pre: PHYS 151 or PHYS 170. **DP**

**ASTR 241 Foundations of Astrophysics I: The Solar System (3)** Solar system astrophysics. Dynamics of planets, satellite systems, asteroids and comets; internal and atmospheric structure of terrestrial and giant planets; thermal balance; the Sun as a star. A-F only. Pre: PHYS 170, MATH 242 or 252A, and PHYS 272 (or concurrent). (Fall only) **DP**

**ASTR 242 Foundations of Astrophysics II: Galaxies and Stars (3)** Astrophysics of galaxies and stars. Galactic structure and dynamics; active nuclei; large-scale structure. Elements of Newtonian and relativistic cosmology. Stellar atmospheres and spectral lines. Stellar interiors; nuclear energy generation; main-sequence and evolved stars. A-F only. Pre: 241, PHYS 274 (or concurrent), and MATH 243 (or concurrent) or 253A (or concurrent). (Spring only) **DP**

**ASTR 280 Evolution of the Universe (3)** The Big Bang, origin of the elements, formation and evolution of galaxies and stars. Pre: any introductory astronomy or physics course, or consent. **DP**

**ASTR 281 Astrobiology (3)** Are we alone in the universe? Modern astronomical, biological, and geological perspectives on this fundamental question. Searches for life on Mars, oceans on Europa, planets orbiting other stars. Space exploration and colonies, interstellar spaceflight and communication. Pre: 110 or 240, or consent. (Spring only) **DP**

**ASTR 300 Observational Astronomy (3)** Principles and techniques of optical and near-infrared astronomical observation. Astronomical coordinate systems. Telescopes, cameras, spectrographs, and detectors. Astrometry, photometry, and spectroscopy of astronomical objects. A-F only. Pre: 240 or 242; PHYS 152 or 274; MATH 215, 241, or 251A. (Fall only) **DP**

**ASTR 300L Observational Astronomy Laboratory (2)** Optical and near-infrared astronomy laboratory. Error analysis, properties of light, data, and image processing. Astrometric, photometric, and spectroscopic measurement. A-F only. Pre: 300 (or concurrent); PHYS 152 or 274; PHYS 152L or 274L; MATH 215, 241, or 251A. (Fall only) **DY**

**ASTR 301 Observational Astronomy Projects (4)** Practical astronomical observing. Students select objects to study, plan, and conduct remote observations using research-grade telescopes, reduce data, present results in written and verbal form. Introduces LaTeX, literature research, time allocation. A-F only. Pre: 300 and 300L. (Spring only) **DY**

**ASTR 380 The Cosmos in Western Culture (3)** History and intellectual context of astronomical discovery; the evolution of ideas of space, time, and motion from the Babylonians to relativistic cosmologies; emphasis on the interaction of astronomy with the history of ideas. Pre: 110 (or concurrent). (Spring only)

**ASTR 399 Directed Study (V)** Individual reading, observation, or experimentation in astronomy and astrophysics. Repeatable four times. Pre: consent.

**ASTR 427 Cosmology (3)** Structure, history, and composition of the universe; the Big Bang; formation and evolution of galaxies, clusters, and large-scale structure; cosmological models. Given concurrently with 627. Pre: PHYS 274 or consent. (Alt. years: spring) **DP**

**ASTR 430 The Solar System (3)** Observations and physical nature of planets and moons, asteroids, comets, and other small bodies; formation of the Solar System; discovery of other planetary systems; solar activity. Given concurrently with 630. Pre: PHYS 170 or consent. (Alt. years: spring) **DP**

**ASTR 500 Master's Plan B/C Studies (1)**

**ASTR 622 The Interstellar Medium (3)** Astrophysics of diffuse matter, HII regions, molecular clouds, etc. Pre: consent. (Alt. years)

**ASTR 623 Stellar Interiors and Evolution (3)** Structure and evolution; energy sources, radiative processes; relations to observables. Pre: consent. (Alt. years)

**ASTR 626 Galaxies (3)** Observations and stellar dynamics of elliptical and spiral galaxies including our galaxy, globular clusters, and dark matter. Galaxy formation and evolution. Pre: consent. (Alt. years: spring)

**ASTR 627 Cosmology (3)** Geometry and evolution of the universe. Dark matter. Early universe. Forma-

tion of large-scale structure, galaxies, and clusters. Cosmological models. Pre: consent. (Alt. years)

**ASTR 630 The Solar System (3)** Survey of observational data and physical concepts on planets and smaller bodies; formation of planetary systems; solar activity. Pre: consent. (Alt. years)

**ASTR 631 Radiative Transfer Stellar Atmospheres (3)** Excitation, ionization, and radiative transfer in stellar atmospheres; model atmospheres, formation of line and continuum radiation. Pre: consent. (Alt. years)

**ASTR 633 Astrophysical Techniques (3)** Telescopes, positional astronomy, photon detection, error analysis, photometry, spectroscopy. Pre: consent. (Fall only)

**ASTR 635 Fundamentals of Astrophysics (3)** Applications of fundamental physics to astrophysical situations. Elements of general relativity. Basics of hydrodynamics and shock waves. Radiative processes, high energy astrophysics. Modern dynamics. Pre: consent. (Fall only)

**ASTR 640 General Relativity (3)** Introduction to gravity and general relativity. Tensor basics, classical scalar, vector and tensor field theories. Exact symmetric Einstein equation, gravito-magnetic weak field, and radiation solutions. Pre: consent. (Alt. years)

**ASTR 641 Active Galaxies (3)** Phenomenology of active galactic nuclei, black holes, accretion flows and jets, emission mechanisms, host galaxies, and cosmic evolution. Pre: 635 or consent. (Alt. years: spring)

**ASTR 657 Astrochemistry-A Molecular Approach (3)** Formation of astrobiologically important molecules and their precursors in the interstellar medium and in our solar system: first principles and latest trends. Pre: consent. (Fall only) (Cross-listed as CHEM 657 and GG 657)

**ASTR 699 Directed Research (V)** Repeatable unlimited times. Pre: consent.

**ASTR 700 Thesis Research (V)** Repeatable unlimited times.

**ASTR 734 Astronomy Seminar I (V)** Selected advanced topics in astronomy and astrophysics. Available for 1 to 3 credit hours by arrangement. Repeatable unlimited times. Pre: consent.

**ASTR 735 Astronomy Seminar II (V)** Selected advanced topics in astronomy and astrophysics. Available for 1 to 3 credit hours by arrangement. Repeatable unlimited times. Pre: consent.

**ASTR 736 Astronomy Seminar III (V)** Selected advanced topics in astronomy and astrophysics. Available for 1 to 3 credit hours by arrangement. Repeatable unlimited times. Pre: consent.

**ASTR 740 Astrobiology Seminar: Origin, Evolution and the Role of Water for Life in the Universe (1)** Interdisciplinary research topics in astrobiology as they relate to the theme of water: formation in space, role in creating pre-biotic molecules, delivery to earth, and terrestrial planet habitability. Repeatable three times. Pre: graduate level sciences and ideas, or consent.

**ASTR 777 Star Formation (2)** Molecular clouds, collapse processes, physics of circumstellar disks and accretion, properties of young stars, outflows and jets, formation of binaries, extrasolar planets and planet formation, meteorites and the early solar system. Pre: graduate standing or consent. (Alt. years: spring)

**ASTR 800 Dissertation Research (V)** Repeatable unlimited times.

## Biochemistry (BIOC)

School of Medicine

*Adequate preparation in chemistry (through physical chemistry), physics, and mathematics is required, and a background in biological sciences is desirable. The minimum grade required for undergraduate prerequisites is a D or better, and graduate prerequisites is a C (not C-) or better.*

**BIOC 241 Fundamentals of Biochemistry (3)** Biological chemistry stressing integration of concepts of general, inorganic, and biochemistry and application to life chemistry. Pre: beginning algebra and high school science. DP

**BIOC 341 Elements of Biochemistry (3)** Biochemical principles and concepts as applied to living systems, including sufficient organic chemistry to understand these principles. Pre: 241 or consent. DP

**BIOC 441 Basic Biochemistry (4)** Function and composition of biological substances and their metabolic transformation in animals, plants, microorganisms. Pre: BIOL 275 and CHEM 273 with a D grade; or consent. DB

**BIOC 441L Basic Biochemistry Lab (1)** Experiments working with substances discussed in 441. DY

**BIOC 481 Introduction to Molecular Biology (3)** Biochemical basis of life presented in terms of the structure and function of the gene in the production of biological catalysts. Pre: 441 or consent. DB

**BIOC 499 Directed Research and Reading (V)** Independent research or selected reading of current literature in the area of biochemistry and biophysics. Repeatable unlimited times. Pre: consent.

**BIOC 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Repeatable unlimited times. Pre: master's Plan B or C candidate and consent.

**BIOC 545 Topics in Biochemistry (V)** Fourth-year elective in which medical students take an in-depth study of selected topics in biochemistry. Pre: fourth-year medical student or consent.

**BIOC 595 Highlights of Organ-system Biochemistry (1)** Provides highly interactive, small group discussions on concepts of biochemistry important to the various organ systems; such as cardiac, respiratory, hematology, gastrointestinal, endocrine, musculoskeletal and neurological systems, and relevant to clinical medicine. MD majors only. CR/NC only. Pre: MDED 554. (Fall only)

**BIOC 601L Biochemistry-Biophysics Lab (2)** Basic biochemical experimental techniques; enzyme kinetics; active-site identification; amino acid sequence determination; radioimmunoassay, *in vivo* studies of nucleic acids. Pre: 441 or consent.

**BIOC 644 Metabolic Biochemistry (2)** Biochemical and physiological bases of structure and function of human organ systems. Both normal and abnormal processes are discussed. Pre: 441 and PHYL 604, or consent.

**BIOC 671 Seminar (1)** Weekly discussions and reports on various subjects; current advances in biochemistry and biophysics.

**BIOC 699 Directed Research (V)** Repeatable unlimited times. Pre: consent.

**BIOC 700 Thesis Research (V)** Research for master's thesis. Repeatable unlimited times. Pre: consent.

**BIOC 800 Dissertation Research (V)** Research for doctoral thesis. Repeatable unlimited times. Pre: consent.

## Bioengineering (BE)

College of Tropical Agriculture and Human Resources

**BE 120 Introduction to Quantitative Biology (3)** Quantitative approach to applied topics in biology including synthesis and metabolism, kinetics, physiological systems, cellular processes and signaling, informatics, and emerging technologies for health, biological production/processing, and discovery. Pre: MATH 241 (or concurrent) and CHEM 162 (or concurrent), or consent. (Once a year) DB

**BE 150 Introduction to Biological Engineering (2)** Discussion and experimental investigation of physical and chemical principles underlying representative biological processes and systems. Bioproduction, energy conversion processes, physiological systems, biological treatment, biosensors, biomechanics,

and related natural and engineered systems. A-F only. Pre: MATH 140 or consent. DY (Once a year)

**BE 191 Introduction to Applications in Biological Engineering (V)** Discussion and investigation of special topics, problems and applications of biological engineering. Pre: consent.

**BE 260 Mass and Energy Balances (3)** Introduction of the principles of mass and energy conservation; development of systematic approaches to apply these principles in calculations for design and analysis of biochemical, chemical, and physical processes. Pre: BIOL 171, CHEM 162 or 181A, PHYS 170, and MATH 242 or 252A; or consent. DP

**BE 350 Dynamic Systems Modeling (3)** Introduction to analytical and numerical solutions for systems of differential equations. Modeling and computer simulation of representative dynamic systems encountered in biological engineering. A-F only. Pre: 260, EE 160, MATH 243 or 252A, CEE 270; or consent. Co-requisite: BE 350L. DP

**BE 350L Dynamic Systems Modeling Laboratory (1)** Industry field trips and lab experiences to illustrate behavior of representative dynamic systems in biological engineering. Data acquisition and model validation. A-F only. Pre: consent. Co-requisite: 350. DY

**BE 373 Transport Phenomena (3)** Fundamental principles and applications relating to mass, momentum, and energy transfers in biosystems and other systems for engineers and scientists. Pre: 260, CEE 270, MATH 243 or 252A. Co-requisite: CEE 320 and ME 311. DP

**BE 405 Engineering Economics (3)** Economic analysis in engineering and management decision-making, interest, depreciation, income tax, cost classification, break-even analysis, economic comparisons of alternatives, benefit-cost analysis. A-F only. Pre: ECON 120 or 130, and senior standing. (Cross-listed as CEE 405)

**BE 410 Biomass Conversion to Biofuels and Bioenergy (3)** Overview of biofuel/bioenergy production; fundamental concepts in biofuel/bioenergy production; renewable feedstocks; thermochemical and biochemical conversions of biomass to biofuel/bioenergy; biodiesel production; environmental impacts, economics and life-cycle analysis; value-added processing of biofuel residues; selected case studies. A-F only. Pre: 373 or consent. (Once a year)

**BE 411 Food Engineering (3)** Principles and applications of thermodynamics, electricity, fluid mechanics, heat transfer, psychrometry, and material and energy balances of food processing and preservation. Pre: BIOL 171, CHEM 162 or CHEM 181A, MATH 243, PHYS 151 or PHYS 170; or consent. (Once a year) (Cross-listed as FSHN 411) DP

**BE 420 Sensors and Instrumentation for Biological Systems (3)** Principles of common physical and chemical sensors. Interfacing sensors to different electronic circuits and instrumentation systems. Electronic detection and quantification of biomolecules (biosensors). Applied control for biological processes. Pre: 350, EE 160, and EE 211; or consent. (Cross-listed as FSHN 420) DP DY

**BE 421 Bioprocess Control (3)** Process control in both time and Laplace domains with an introduction to the frequency domain; selection and design of appropriate control systems for bioprocesses with consideration of the impact on the total system; identification of safety concerns in designing control systems and process equipment. Pre: 260, MATH 243; or consent. DP

**BE 431 Environmental Biotechnology (3)** Environmental impact and control; the micro-organism and its nutrition and growth conditions; microbial growth and substrate removal kinetics; bioreactors; biological treatment systems; biodegradation of xenobiotic organic chemicals; case studies. A-F only. Pre: 373 or consent. (Spring only) DP

**BE 437 Biosystems Unit Operations (2)** Pumps and fans; size reduction; cleaning and sorting; materials handling; processing of fruits, nuts, vegetables,

animals, and other bioproducts. Pre: 373, CEE 320 or ME 322; or consent. **DP**

**BE 440 Bioremediation: Principles and Practices (3)** (2 Lec, 1 3-hr Lab) Soil environment, fate and transport of contaminants; microbial ecology, metabolism, and energy production; biodegradation of selected compounds. In situ treatment, solid-phase bioremediation, slurry-phase bioremediation, and vapor-phase biological treatment. Open to nonmajors. Repeatable one time. Pre: 260, CHEM 161, PHYS 170; or consent. **DP**

**BE 460 Bioreactor Design and Analysis (3)** Application of mass/energy balances and reaction kinetics for the design and analysis of bioreactors for microbial, plant, and animal cell cultures. Pre: 373, CEE 320 or ME 322; or consent. **DP**

**BE 470 Bioprocess Design and Analysis (3)** Combined lecture/computer lab on theory and practice of bioprocess design and analysis, involving biological basics and engineering principles of bioprocessing, computer-aided unit operations, process integration, and economic evaluation. A-F only. Pre: 373, or 437 (or concurrent) or 460 (or concurrent); or consent. (Alt. years) **DP**

**BE 481 Senior Engineering Design I (3)** (1 1-hr Lec, 2 3-hr Lab) First of a two-semester sequence that provides a major design experience for senior students in biosystems engineering. Design process; project management; design methods; modeling and simulation; design optimization; engineering economics; engineering statistics, initiation of an open-ended design project. Pre: 350/350L, 373, CEE 320 or ME 322, ME 311, EE 211; or consent.

**BE 482 Senior Engineering Design II (3)** (1 1-hr Lec, 2 3-hr Lab) Continuation of 481. Properties of biological materials; risk and reliability; design ethics; guest lectures on engineering design by practicing engineers; extension and completion of the design project with submission of a final design report. Pre: 481 or consent.

**BE 491 Biological Engineering Topics (V)** Study and discussion of significant topics and problems. Offered by visiting faculty and/or for extension programs. Repeatable nine times.

**BE 492 Internship (4)** Integration and application of academic knowledge and critical skills emphasizing professional development. Placement with an approved cooperating supervisor/employer. Pre: consent.

**BE 499 Directed Research (V)** Research in the area of biosystems engineering. Pre: consent.

**BE 606 Instrumentation and Measurement (3)** Measurement concepts and operating principles applied to the selection and use of instruments important to scientists and engineers dealing with biological systems, including automatic data acquisition and processing. Pre: CHEM 151, MATH 241, and ME 311; or consent.

**BE 610 Biofuel and Bioenergy (3)** Overview of biofuel/bioenergy production, biorefinery concept; renewable feedstocks; thermochemical and biochemical conversions of biomass to biofuel; biodiesel production; algal-biofuel; environmental impacts, life-cycle analysis; value-added processing of biofuel residues; selected case studies; term paper and presentation. A-F only. Pre: consent. (Once a year)

**BE 622 Experimental Methods in Cause-Effect Modeling (3)** Factorial designs and fractional factorial designs for screening variable and response optimization. Response surface methodology. Experimental designs appropriate to building and testing multi-variable behavior relationships. Sequential experimental designs.

**BE 625 Biosensor Principles and Applications (3)** Elaboration of common biochemical interactions used to quantify biological molecules, and the electrical technologies used to detect them. Discussion of the desirable properties of biosensors, miniaturization and applications related to medicine, agriculture, bioproduction and environment. Pre: consent. (Cross-listed as MBBE 625)

**BE 634 Biological Treatment (3)** Fundamentals of applied microbiology and biochemical reactor engineering, quantitative description of microbial growth, operational theory and design basis of aerobic, anoxic and anaerobic treatment processes. Applications for water, wastewater, air, solid wastes, and soil. A-F only. Pre: consent. (Alt. years: spring) (Cross-listed as CEE 634)

**BE 638 Biosystems Modeling (3)** Introduction to system thinking, procedures for developing system models, characteristics of important agricultural system models, computer approach to evaluation and optimization of system models. Pre: one of MATH 215, MATH 241, MATH 251A; or consent. (Cross-listed as AREC 610)

**BE 664 Hydrologic Processes in Soils (3)** (2 Lec, 1 3-hr Lab) Hydrologic properties in soils and the processes involved in water infiltration drainage and solute transport. Emphasis on key parameters required for modeling. Recommended: CEE 424 or consent. (Fall only) (Cross-listed as CEE 625 and NREM 660)

**BE 699 Directed Research (V)** Repeatable unlimited times.

**BE 700 Thesis Research (V)** Repeatable unlimited times.

**BE 750 Seminar (1)** Use of computer and video technology in technical presentation, review of current biosystems engineering research. Pre: consent.

## Biology (BIOL)

*College of Natural Sciences*

*Courses for Non-Science Majors*

**BIOL 101 Biology and Society (3)** Characteristics of science, historical development of scientific concepts, and interaction of society with science illustrated by topics from biological science. **DB**

**BIOL 101L Biology and Society Laboratory (1)** (1 3-hr Lab) Lab experiments illustrating topics and methods in the biological sciences. **DY**

**BIOL 104 Marine Option Program Seminar (1)** Statewide overview of ocean issues and organizations involved with marine activities, management, education, research, and business. Exploration of opportunities for internships, research projects, study and careers. Proposal writing, project implementation, and report preparation guidelines. Orientation to the Marine Option Program. (Cross-listed IS 100)

**BIOL 123 Hawaiian Environment Science (3)** Characteristics of science and interaction with society illustrated by topics in geology, astronomy, oceanography, and biology of Hawaiian Islands. **DB**

**BIOL 310 Environmental Issues (3)** Global environmental problems in historical perspective; physical, biological, sociocultural views. Pre: one of 101, 123, or GEOG 101; or consent. **DB**

**BIOL 320 The Atoll (3)** Atoll as ecosystem and as human environment. Formation, structure, distribution, biota. Pre: two semesters of introductory science or consent. **DB**

**BIOL 340 Genetics, Evolution and Society (3)** The role of genetics in evolution, medicine, behavior, plant and animal breeding and technology; its impact on today's society. Pre: one semester of biological science at college level or consent. (Cross-listed as CMB 351) **DB**

**BIOL 350 Sex Differences in the Life Cycle (3)** Human sex differences, their biological basis and significance; genetic, hormonal, and behavioral determinants of sexual differentiation; biology of gender, sexuality, parenting, menopause, and aging. Pre: one semester of biological science. (Cross-listed as WS 360) **DB**

**BIOL 360 Island Ecosystems (3)** Characteristics of island biota; examples from Hawai'i and the Pacific. Impact of island and continental cultures; policy and ecosystem endangerment; contemporary legislation, policy, and management practices. Pre: one semester of biological science or consent. **DB**

**BIOL 410 Human Role in Environmental Change (3)** Human impacts through time on vegetation, animals, landforms, soils, climate, and atmosphere. Special reference to Asian/Pacific region. Implications of long-term environmental change for human habitability. Pre: one of 101, GEOG 101 or 123 and either 310 or GEOG 326; or consent. (Cross-listed as GEOG 410) **DB**

**BIOL 440 Psychoactive Drug Plants (3)** Taxonomy, ecology, biochemistry, distribution, cultural history, and contemporary use of mind-altering drug plants; examples from primitive, traditional, and modern societies. Pre: junior standing, one semester of biological science, and either ANTH 200 or GEOG 151; or consent. **DB**

*Courses for Life Science Majors*

**BIOL 171 Introduction to Biology I (3)** Introductory biology for all life science majors. Cell structure and chemistry; growth, reproduction, genetics, evolution, viruses, bacteria, and simple eukaryotes. Pre: CHEM 131 (or concurrent), CHEM 151 (or concurrent), 161 (or concurrent), CHEM 171 (or concurrent), CHEM 181A (or concurrent), or consent. Co-requisite: 171L. **DB**

**BIOL 171L Introduction to Biology I Lab (1)** (1 3-hr Lab) Laboratory to accompany 171. Pre: CHEM 131 (or concurrent), CHEM 151 (or concurrent), 161 (or concurrent), CHEM 171 (or concurrent), CHEM 181A (or concurrent), or consent. Co-requisite: 171L. Co-requisite: 171. **DY**

**BIOL 172 Introduction to Biology II (3)** Anatomy, physiology, and systematics of plants and animals; behavior; ecosystems, populations, and communities. Pre: CHEM 131 (or concurrent), 151 (or concurrent), 161 (or concurrent), 171 (or concurrent), 181A (or concurrent), or consent. Co-requisite: 172L. **DB**

**BIOL 172L Introduction to Biology II Lab (1)** (1 3-hr Lab) Laboratory to accompany 172. Pre: C (not C-) or better in CHEM 131 (or concurrent), 151 (or concurrent), 161 (or concurrent), 171 (or concurrent), 181A (or concurrent), or consent. Co-requisite: 172. **DY**

**BIOL 265 Ecology and Evolutionary Biology (3)** Principles of ecology and evolution for life science majors stressing integrated approach and recent advance. Pre: C (not C-) or better in 171/171L, 172/172L (or concurrent). **DB**

**BIOL 265L Ecology and Evolutionary Biology Lab (1)** (1 3-hr Lab) Laboratory to accompany 265. Pre: C (not C-) or better in 171/171L, 172/172L (or concurrent). **DY**

**BIOL 275 Cell and Molecular Biology (3)** Integrated cell and molecular biology for life science majors. Modern advances in recombinant DNA technology. A-F only. Pre: C (not C-) or better in 171/171L and CHEM 272/272L, or consent. **DB**

**BIOL 275L Cell and Molecular Biology Lab (1)** (1 4-hr Lab) Laboratory for Cell and Molecular Biology. A-F only. Pre: C (not C-) or better in 171/171L and CHEM 272/272L, or consent. **DY**

**BIOL 295 Service Learning for Biology Majors (V)** Directed participation on tutorials and related activities in public schools and approved community and UH Mānoa organizations. A-F only. Repeatable one time. Pre: 265/265L, 275/275L, and consent.

**BIOL 301 Marine Ecology and Evolution (3)** Functional, ecological, and evolutionary problems faced by life in the sea. Draws from major marine habitats and associated communities, from the deep sea to the plankton. Impacts of overfishing, marine pollution, and land development on the ecology and evolution of marine organisms. Emphasis on developing problem solving and quantitative skills. A-F only. Pre: C (not C-) or better in 265/265L, 275/275L (or concurrent), and OCN 201; or consent. **DB**

**BIOL 301L Marine Ecology and Evolution Lab (2)** (1 3-hr Lab) Laboratory to accompany 301. A-F only. Pre: C (not C-) or better in 265/265L,

275/275L (or concurrent), and OCN 201; or consent. **DY**

**BIOL 304 Biotechnology: Science and Ethical Issues (3)** Introduction to the concepts, goals, ethical issues and consequences of biotechnology using real-life case studies of cloning, DNA fingerprinting, gene therapy and genetical engineering. Pre: 171 or consent. (Cross-listed as MBBE 304)

**BIOL 331 Marine Mammal Biology (3)** Overview of marine mammal science, significance and roles of marine mammals in their ecosystems, and marine conservation issues. Current research topics in marine mammal science will also be covered. Pre: C (not C-) or better in 171/171L, 172/172L, and 265, 265L; or consent. **DB**

**BIOL 331L Marine Mammal Biology Lab (2)** Laboratory to accompany 331. Activities will include taxonomy, anatomy, morphology, necropsy, hematology, population estimating methods, tracking, field distribution surveys, stranding response, and energetics, and/or similar depending on field access and availability of specimens. A-F only. Pre: C (not C-) or better in 171/171L and 172/172L and 265/265L and 331 (or concurrent), or consent. **DY**

**BIOL 363 Biological Field Studies (V)** Biological survey, collection, and analysis techniques will be reviewed and applied through field studies. Students will be introduced to the uniqueness of the Hawaiian environment and its diversity of life. Emphasis on diversity, evolution and ecology. Repeatable up to six credits. Pre: C (not C-) or better in 265/265L (or equivalent), or consent. **DB**

**BIOL 375 Genetics (3)** Genetic concepts at advanced undergraduate level; genetic transmission, recombination, gene action, mutation, population and evolutionary genetics. Pre: 275 or consent. **DB**

**BIOL 375L Genetics Laboratory (2)** (1 4-hr Lab) Experiments with a variety of organisms to illustrate principles discussed in BIOL 375. Pre: 275/275L, 375 (or concurrent) or consent. **DY**

**BIOL 390 Communicating in Biological Sciences (3)** Combined lecture/lab impart essential knowledge and skills in technical writing, poster design, and oral presentations for effective communication for life science majors. Research papers, lab reports, project proposals, conference presentations are covered. Life sciences majors only. A-F only. Pre: C (not C-) or better in 171/171L, 172/172L, and ENG 100.

**BIOL 395 Internship in Biology Teaching (2)** Supervised laboratory internship in the preparation and demonstration of laboratory experiments in selected laboratory courses. Repeatable one time. Pre: consent.

**BIOL 400 Ocean Internships and Research (V)** Students carry out marine-related internships, practica, research projects or field experience on-or off-campus with faculty guidance. Repeatable one time. A-F only. Pre: minimum cum GPA of 2.5, junior or senior standing in any field of study and IS 100/BIOL 104 or consent, project proposal. (Cross-listed as IS 400)

**BIOL 401 Molecular Biotechnology (3)** General principles, applications, and recent advances of the rapidly growing science of biotechnology. Topics include impact of biotechnology on medicine, animal sciences, environment, agriculture, forensics, and economic and socio-ethical issues. Pre: C (not C-) or better in 275 or consent. (Cross-listed as MBBE 401) **DB**

**BIOL 402 Principles of Biochemistry (4)** Molecular basis of living processes in bacteria, plants, and animals; emphasis on metabolism of carbohydrates, lipids, proteins, and nucleic acids. Pre: C (not C-) or better in 275/275L, and CHEM 273; or consent. (Cross-listed as MBBE 402 and PEPS 402) **DB**

**BIOL 403 Field Problems in Marine Biology (4)** Integrated program of intensive lectures, laboratory experiments, and field research that focus on the biological processes that shape the lives of marine organisms. A-F only. Limited space; enrollment by

consent; GPA considered. Pre: C (not C-) or better in 301/301L and consent. **DB**

**BIOL 404 Advanced Topics in Marine Biology (3)** Current themes in marine biology and experience in scientific assessment. Repeatable two times. A-F only. Pre: C (not C-) or better in 301/301L or consent. **DB**

**BIOL 407 Molecular Cell Biology I (3)** Relationship between structure and function at macromolecular level. Pre: C (not C-) or better in 275/275L and CHEM 273, or consent. **DB**

**BIOL 408 Molecular Cellular Biology II (3)** Cell structure and function. Structure, chemistry, and functions of organelles and macromolecules. Pre: C (not C-) or better in 407; or consent. (Cross-listed as MBBE 408) **DB**

**BIOL 408L Advanced Molecular and Cellular Biology Laboratory (2)** (2 3-hr Lab) A laboratory to accompany 407 and 408. Pre: 407 (or concurrent) or 408 (or concurrent). **DY**

**BIOL 410 Human Role in Environmental Change (3)** Human impacts through time on vegetation, animals, landforms, soils, climate, and atmosphere. Special reference to Asian/Pacific region. Implications of long-term environmental change for human habitability. Pre: one of 101, GEOG 101 or 123 and either 310 or GEOG 326; or consent. (Cross-listed as GEOG 410) **DB**

**BIOL 425 Wildlife and Plant Conservation (3)** Principles of conservation biology and wildlife management techniques, illustrated with animal, plant, and ecosystem examples. Examination of ethical, cultural, legal, political, and socio-economic issues impinging on conservation policy and practice. Group project and field trips. Pre: C (not C-) or better in 265/265L or consent. **DB**

**BIOL 472 The Biology of Cancer (3)** Integrative, in-depth focus on the genetics, cell biology, and molecular basis of cancer. Combination of classroom lectures and problem-based discussions in small groups. Addresses ethical implications of cancer research and treatment. A-F only. MCB or BIOL majors only. Senior standing or higher. Pre: 407 (or concurrent) and 408 (or concurrent) or consent. (Spring only) (Cross-listed as MCB 472)

**BIOL 483 Introduction to Bioinformatics Topics for Biologists (3)** Focuses on the use of computational tools and approaches to analyze the enormous amount of biological data (DNA, RNA, protein) available today. A-F only. Pre: 171 (or equivalent), or consent. (Once a year) (Cross-listed as MBBE 483)

**BIOL 490 Mathematical Biology Seminar (1)** Reports on research in mathematical biology, reviews of literature, and research presentation. Required for Certificate in Mathematical Biology. Repeatable one time. Pre: junior standing or higher and consent. (Cross-listed as MATH 490)

**BIOL 499 Biological Problems (V)** Directed reading and research. For juniors and seniors majoring in life science 1-12 credits. Repeatable up to 9 credits, up to 6 credits apply towards BA and BS BIOL major requirements. A-F only. Pre: 2.5 GPA minimum, written proposal and consent.

**BIOL 650 Population Genetics (3)** Mathematical, observational, experimental results on effects of mutation, selection, and systems of mating on distribution of genes. Analysis of non-experimental populations. Pre: consent. (Cross-listed as CMB 650)

*Professional Development Courses for Science Teachers*

**BIOL 501 (Alpha) Biology Workshop for Science Teachers (V)** Principles taught in a conceptual and/or hands-on manner either in a laboratory setting or in the field. (B) biotechnology; (C) ecology, evolution and conservation; (D) marine biology; (F) general biology. A-F only. Repeatable unlimited times. Pre: 171/171L, 172/172L, in-service teachers; or consent.

**BIOL 602 Marine Biology-Processes and Impacts (4)** (3 hr Lec, 3 hr Lab) Investigation of biological phenomena and processes related to productivity and food webs, community structure and ecology, adaptations, and physiology, and impacts of human activities and fisheries. Graduate standing in Marine Biology graduate degree program only. A-F only. Pre: 601. Minimum prerequisite grade of B. (Spring only)

**BIOL 603 Molecular Ecology (3)** Practical introduction to molecular methods used to address ecological and evolutionary questions. Advanced undergraduate/graduate level. Focus on methods and application to independent research project. A-F only. Pre: 265/265L (or equivalent) or 275/275L (or equivalent), and 375/375L, and consent. (Alt. years)

*See other science professional development courses NSCI 501, 502, 503, 504, 505, and 619 under the Natural Sciences (NSCI) course listing in this section of the Catalog.*

## Biomedical Sciences (BIOM)

*School of Medicine*

**BIOM 499 Directed Research and Reading (V)** To provide elective courses for undergraduates in the biomedical sciences specialties. Repeatable unlimited times.

**BIOM 500 Master's Plan B/C Studies (1)** Repeatable unlimited times.

**BIOM 601 Global Health and Medicine: Emerging Problems and Impact (3)** Analysis of emerging problems and impact in countries on a multidimensional perspective. Repeatable one time. BIOM, NURS, PH, SPA majors only. Pre: consent.

**BIOM 640 Clinical Research Methods (2)** Instruction in developing clinical research questions and creating a concise protocol that includes a literature review, study design, subject recruitment and sampling, instruments, other measures and bioinformatics, sample size, consent form, budget and timetable. A-F only. Pre: consent.

**BIOM 641 Legal and Regulatory Issues and Bioethics (2)** Ethical dilemmas in clinical research are identified and resolved in cases, research on human subjects regulation are discussed. Research misconduct is defined. Ethical considerations in protocol developed in the Designing Clinical Research course are resolved. A-F only. (Cross-listed as CMB 626)

**BIOM 642 Applied Clinical Epidemiology and Biostatistics (3)** Introductory epidemiologic and intermediate biostatistical methods are applied to clinical research. Epidemiologic measures such as relative risks and odds ratios and how to interpret these measures in the context of clinical studies will be addressed. Interpretation of screening tests will be included. A-F only. Pre: 640 and consent.

**BIOM 643 Applied Biostatistics (3)** Combines a didactic approach to multivariable regression with hands-on analysis of a clinical dataset. Regression methods for normally distributed, binary and count data, time-to-event data, model building and model evaluation are included. A-F only. Pre: 640, 642, or consent.

**BIOM 644 Bioanalytical Methods (2)** Introduction to disease molecular genetics: methods to identify and map candidate genes, analysis of mutations, use of markers, evaluation of gene and protein expression, collection methods, preparation of specimens, and extraction of DNA and proteins. A-F only. Pre: consent.

**BIOM 645 Clinical Protocol Development (3)** Provides training in proposal development. Governance structures of funding agencies; funding opportunities and decisions; review processes; NIH application and processes; reading RFAs; compliance issues; cultural sensitivity; and types of questions using databases are addressed. A-F only. Pre: consent.

**BIOM 646 Clinical Research Seminar (1)** Provides overview of research related to health and health disparities in Hawai'i. Seminar topics include ethnic

disparities in health research, Native Hawaiian health, childhood research initiatives, fitness and obesity, social and cultural factors and ethics. Repeatable six times. A-F only. Pre: consent.

**BIOM 647 Cultural Competence in Biomedical Research I (3)** Introductory lecture-seminar on the conduct of multidisciplinary research from a culturally competent perspective. Enrolled in MS or PhD in Biomedical Sciences program only. A-F only. (Alt. years)

**BIOM 648 Foundations of Biomedical Ethics (3)** Explores the foundations of biomedical ethics via small group seminars and discussion, presentations. Enrolled in MS or PhD in Biomedical Sciences program only. A-F only. (Alt. years)

**BIOM 649 Advanced Ethics in Biomedical Research II (3)** Develop biomedical ethics through case studies to incite discussions on topics such as gene therapy, gene enhancement, genetic counseling, informed consent, health care professional/patient and investigator/student participant communication, advanced directives and living wills, clinical research in developing countries, clinical research in ethnic minority and socio-economically disadvantaged populations, and non-discrimination in health care and research settings. A-F only.

**BIOM 650 Cultural Competence in Biomedical Research II (3)** Explore topics in cultural competence in greater depth, encouraging trainees to address issues from a unified yet flexible conceptual framework. Involves building knowledge, skills and action plans to address a range of learning styles and to appreciate and benefit from diversity. A-F only.

**BIOM 651 PhD Team Building Seminar (V)** Seminar focuses on teaching participants to work independently and collaborate in order to accomplish specific results. Students will be exposed to group dynamics, communication, healthy competition, conflict resolution, and innovative means of crossing boundaries between departments, organizations, industries and disciplines. Repeatable two times. A-F only.

**BIOM 654 Molecular Genetics of Human Diseases (1)** Present discoveries in the area of molecular genetics of human diseases, explore molecular mechanisms of pathology and discuss current concepts and innovative approaches in cardiovascular, neurodegenerative and skin disorders research. Pre: consent.

**BIOM 660 Mentored Research Practicum (V)** Conduct research under the direction of a mentor. Participants will be responsible for submission of a proposal, acquisition of IRB approval, and conduct of the project. Repeatable five times or up to 12 credits. BIOM students only. A-F only.

**BIOM 667 Advanced Biostatistics for Clinical Research (3)** Current methods for analyzing longitudinal and clustered, clinical data through lectures, discussions, and a group analysis. Topic areas include multi-level, multi-state, multi-process, and structural equation models. A-F only. Pre: 642 and 643, or consent.

**BIOM 699 Directed Reading (V)** Students may register on approval of department. CR/NC only. Repeatable unlimited times.

**BIOM 700 Thesis Research (V)** Research for master's thesis. Repeatable unlimited times. CR/NC only. Pre: consent.

**BIOM 701 Disasters and Pandemics: Medical and PH Management and Risk Communication (3)** Assess impact on health in disasters and diseases. Enhances research skills related to management and communication. Repeatable one time. BIOM, PH, NURS, and SPA majors only. Pre: consent.

**BIOM 800 Dissertation Research (V)** Research for doctoral dissertation. Repeatable unlimited times. CR/NC only. Pre: consent.

## Biophysics (BIOP)

*School of Medicine*

*Adequate preparation in chemistry (through physical chemistry), physics, and mathematics is required, and a background in biological sciences is desirable. The minimum grade required for undergraduate prerequisites is a D or better, and graduate prerequisites is a C (not C-) or better.*

**BIOP 499 Directed Research and Reading (V)** Independent research or selected reading of current literature. Emphasizes experimental approaches in biophysics. Repeatable unlimited times. Pre: consent.

**BIOP 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Repeatable unlimited times. Pre: master's Plan B or C candidate and consent.

**BIOP 602L Biochemistry-Biophysics Lab (2)** Basic biophysical techniques: spectroscopic methods for macromolecular characterization; ultracentrifugation; receptor methodology; *in vitro* studies of nucleic acids. Pre: BIOC 441 or consent.

**BIOP 629 Bioenergetics and Membrane Function (2)** Energy transducing membrane systems; relationships of structure to function. Pre: BIOC 441, CHEM 351, or consent.

**BIOP 641 Structures and Interactions (3)** Proteins, nucleic acids, and membranes are examined to understand the physical and chemical bases of their structures, binding, kinetics, and interactions between biomolecular components. Pre: BIOC 441 and CHEM 351 (or concurrent); or consent.

**BIOP 699 Directed Research (V)** Repeatable unlimited times. Pre: consent.

**BIOP 700 Thesis Research (V)** Research for master's thesis. Repeatable unlimited times. Pre: consent.

**BIOP 800 Dissertation Research (V)** Research for doctoral thesis. Repeatable unlimited times. Pre: consent.

## Botany (BOT)

*College of Natural Sciences*

**BOT 100 Freshman Seminar (1)** Discussion of hot topics in botany, including conservation of rare plants, invasive species, marine botany, ethnobotany, poisonous plants, evolution in action, fungal networks, and careers in botany with emphasis on Hawaiian examples. Students should enroll in BOT 100 and 101/101L, or BOT 100 and BIOL 171/171L. Repeatable one time. A-F only. Co-requisite: 101/101L or BIOL 171/171L. (Once a year)

**BOT 101 General Botany (3)** Growth, functions, and evolution of plants; their relations to the environment and particularly to humans and human activities. DB

**BOT 101L General Botany Lab (1)** (1 3-hr Lab) Lab observations and experiments illustrating basic principles of plant biology. Pre: 101 (or concurrent). DY

**BOT 105 Ethnobotany (3)** (2 Lec, 1 Demonstration) Plants and their influence on culture and history including: plant domestication and agriculture; plant biogeography and human migration; plant use in religious, medical, and shamanic traditions; and cultural aspects of plant conservation. FGC

**BOT 105L Ethnobotany Laboratory (1)** (1 3-hr Lab) Laboratory exercises, experiments, and analysis in ethnobotany. A-F only. DY

**BOT 110 Biodiversity: Evolution, Ecology, and Conservation (3)** Lecture exploring the range of Earth's diversity, the evolutionary processes that generate it, the ecological roles it plays, the consequences of its loss, and the processes by which it can be conserved. A-F only. (Fall only) DB

**BOT 135 Magical Mushrooms and Mystical Molds (3)** Impact of fungi in nature and on humankind. Selected historical events in which fungi played a significant role, their activities as decomposers and pathogens, and their uses as sources for mind altering

drugs in religious ceremonies and in food and beverage production in various societies. DB

**BOT 160 Campus Plants (3)** Nontechnical course emphasizing recognition of the many interesting tropical plants seen on campus; origin, status in Hawai'i, and cultural and economic uses of campus plants. DB

**BOT 180 Plant Life in the Sea (4)** (3 Lec, 1-3-hr Lab) Combined lecture-lab to introduce common marine plants in Hawaiian coastal areas via discussion of morphology, growth, ecological functions and native/alien status. Field trips to observe plants in local habitats. DB, DY

**BOT 200 Sophomore Seminar (1)** Presentations by faculty highlighting research in tropical ecosystems. Topics include alien species, biodiversity, ecosystem services, ethnobotany, marine ecology, plant-animal interactions, and systematics of Hawaiian species. Assigned reading and writing exercises from papers in current journals. Repeatable one time. A-F only. Pre: 101/101L or BIOL 171/171L. (Once a year)

**BOT 201 Plant Evolutionary Diversity (3)** Significance of evolutionary trends in the plant world, including reproductive, morphological, and life history adaptations by algae, fungi, and vascular plants. Pre: 101 or college general biology. Co-requisite: 201L. DB

**BOT 201L Plant Evolutionary Diversity Lab (1)** (1 3-hr Lab) Lab exercises in the morphology and systematics of land plants, fungi, and algae. Co-requisite: 201. DY

**BOT 202 Plant Ecology (3)** Lecture with complementary field-based laboratory experience to introduce students to observational and experimental techniques to study plant ecology and diversity in terrestrial, freshwater, and marine ecosystems. A-F only. Pre: 101. Co-requisite: 202L. (Once a year) DB

**BOT 202L Plant Ecology Lab (1)** Laboratory to introduce students to observational and experimental techniques to study plant ecology and diversity in terrestrial, freshwater, and marine ecosystems. A-F only. Co-requisite: 202. (Once a year) DY

**BOT 300 Conservation Ethics (1)** Introduction to and discussion of ethical issues associated with biodiversity, ecology, and conservation biology. Repeatable one time. A-F only. Pre: any DB course or consent. (Once a year)

**BOT 301 Plant Conservation Biology (3)** Introduction to the concepts and principles of plant conservation biology and to plant conservation-in-practice in Hawai'i and elsewhere. A-F only. Pre: 202/202L, or consent. Co-requisite: 301L. (Once a year) DB

**BOT 301L Plant Conservation Biology Lab (1)** Introduction to approaches, methods, and analyses used in the study and practice of plant conservation, with an emphasis on experimental design and problem-solving. Includes both laboratory and field components. A-F only. Pre: 202/202L, or consent. Co-requisite: 301. (Once a year) DY

**BOT 302 Grant Writing Seminar (2)** Provides three rounds of opportunities for grant writing associated with research in biodiversity, conservation biology, ecology, and plant systematics. Students will gain experience in peer review, grant cycles, and budget preparation. A-F only. Pre: 301 (or concurrent) and 303, or consent. (Once a year)

**BOT 303 Field Botany (5)** Combined lecture-laboratory with intensive field experience for observational and experimental field work in native/impacted Hawaiian ecosystems. Field experience typically held during spring break. Terrestrial, freshwater, and marine habitats considered. A-F only. Pre: 202/202L and consent. (Once a year) DB DY

**BOT 350 Resource Management and Conservation in Hawai'i (3)** Management of native Hawaiian organisms and terrestrial ecosystems with particular attention to strategies, planning, research, and management actions necessary to control alien influences and promote native species. Pre: college general biology. DB

**BOT 399 Botanical Problems (V)** Individualized directed research. Intended for upper division botany majors. Repeatable six times. Pre: 101, BIOL 172; or consent.

**BOT 400 Senior Seminar (1)** Current research themes in botany presented in discussion format; reading current research papers. Oral presentations of primary research. Repeatable one time. BOT majors only. A-F only. Pre: 301/301L and 303, or consent. (Once a year)

**BOT 401 Teaching Internship (1)** Teaching Internship (TI) allows upper division undergraduates to experience assisting in laboratory courses for BOT 101, 105, 201, 202, 203, or other lab courses in Botany or peer-mentoring for BOT 100, as available. Repeatable one time. BOT majors only. CR/NC only. Pre: 301/301L and 303, or consent.

**BOT 410 Plant Anatomy (3)** Structure of vascular plants; origin and differentiation of tissues; relation of structure to function. Pre: 201. Co-requisite: 410L. Recommended: 470. **DB**

**BOT 410L Plant Anatomy Lab (1)** (1 3-hr Lab) Lab study of plant structure. Co-requisite: 410. **DY**

**BOT 420 Plant Form and Function (4)** (3 Lec, 1 3-hr Lab) Lecture/laboratory to examine the anatomy, physiology, morphology, and functional ecology of plants. Labs will develop skills in microscopy, experimental techniques for studying plant physiology, and basic functional ecology. A-F only. Pre: 101/101L or BIOL 171/171L; BOT 201/201L; or consent. (Spring only)

**BOT 430 Mycology (2)** Morphology, physiology, ecology of fungi; their identification. Pre: 201, BIOL 172; or consent. **DB**

**BOT 430L Mycology Lab (2)** (2 3-hr Lab) Laboratory to accompany 430. Pre: 430 (or concurrent) or consent. **DY**

**BOT 440 Advanced Ethnobotany (3)** Advanced studies of plant uses in cultural contexts, focusing upon impacts of plant-culture interactions in development of cultures, cultivars, medicinals, ethnobotanics, ethics, and intellectual property. Lecture/discussion, term paper. Pre: 105, 461 and ANTH 151 or ANTH 200; or consent. **DB**

**BOT 442 Medical Ethnobotany (3)** Survey and theory of plants used as medicines, cultural perspectives of herbal medicine, and the botanical/chemical basis of allopathic and naturopathic medicine. Lecture/discussion, term paper or project. Pre: 440 and 470 or CHEM 272 or BIOC 341; or consent. **DB**

**BOT 444 Ethnobotany and Conservation (3)** Ecological implications of cultural uses of plants. Examines the biological basis for, and ecological effects of traditional and local resource management systems. Pre: 440, and 350 or 453 or GEOG 330; or consent. **DB**

**BOT 446 Hawaiian Ethnobotany (3)** (2 Lec, 1 3-hr Lab) Methods and techniques of handling and identifying plant materials used by early Hawaiians and modern Hawaiians for house and canoe construction, clothing, household and fishing items, medicine, and food preparation. Reading, laboratory, and fieldwork. Pre: 440 or consent. **DS**

**BOT 450 Natural History of Hawaiian Islands (3)** (2 Lec, 1-hr Lab) Geography, geology, climatology, biotic environment of Pacific Basin and Hawaiian Islands; endemism and evolution in terrestrial and marine biota of islands. Pre: one semester of biological sciences at college level. (Cross-listed as ZOOL 450) **DB**

**BOT 453 Plant Ecology and Environmental Measurements (4)** (2 Lec, 2 3-hr Lab) Influence of natural environments on plant behavior (autecology). A field-oriented course to complement 454. Field trips. Should precede 454. Pre: one of 101, BIOL 172, or ZOOL 101. **DB DY**

**BOT 454 Plant Community Ecology (4)** (2 Lec, 2 3-hr Lab) Covers selected topics in plant population and community ecology. Strong emphasis on how ecology is practiced as a science. Labs take advantage

of working outdoors in local natural areas. Pre: 202 or consent. **DB DY**

**BOT 455 Analysis of Biological Data (3)** Application of computers to analysis of biological data; preparation and storage, report production, database analysis procedures, univariate and bivariate statistical analyses. Pre: BIOL 172 or consent.

**BOT 456 Plant-Animal Interactions (3)** Interdependence of plants and animals, emphasizing the influence of animals on plant fitness and evolution. Topics include pollination, fruit/seed dispersal, herbivory, and ant-plant mutualisms. Pre: 201/201L or BIOL 265/265L. **DB**

**BOT 457 ʻĀina Mauliola: Hawaiian Ecosystems (3)** Comprehensive analysis of traditional Hawaiian and modern resource management practices. Rigorous overview of the dominant physical and biological processes from the uplands to the oceans in Hawai'i. Pre: 105, HWST 107, and junior standing; or consent. (Cross-listed as HWST 457)

**BOT 458 Natural Resource Issues and Ethics (4)** Overview of the history of land, resources and power in Hawai'i; players and processes influencing land and natural resources policies today explored from Native Hawaiian and other viewpoints. Extensive use of case studies. Pre: 457 or HWST 457. (Cross-listed as HWST 458)

**BOT 459 Strategies in Hawaiian Resource Use (3)** Analyzing diverse land and water use strategies of O'ahu, from traditional Hawaiian, scientific and economic perspectives, through classroom and on-site lectures. Topics include traditional Hawaiian methods, modern development, threatened ecosystems, ecotourism and scientific research. A-F only. Pre: BOT/HWST 457 (or concurrent) or consent. (Cross-listed as HWST 459)

**BOT 460 Hui Konohiki Internship: Applied Resource Management (3)** A "hands-on" internship in an environmental or resource-management organization in Hawai'i. The experience will be broadened and supplemented by classroom lectures, discussion and analysis from traditional Hawaiian, scientific and economic perspectives. A-F only. Pre: BOT/HWST 457, BOT/HWST 458 (or co-requisite), BOT/HWST 459; or consent. (Spring only) (Cross-listed as HWST 460)

**BOT 461 Systematics of Vascular Plants (4)** (2 Lec, 2 3-hr Lab) "Hands-on" experience with Hawai'i's unique tropical flora; emphasis on recognition and identification of vascular plant families and the principles and methodologies that define them; evolution of biodiversity. Pre: 101 or college general biology. **DB DY**

**BOT 462 Plant Evolution (3)** Major events and principles; includes the blue-green algae and fungi. Pre: 201 or BIOL 172. **DB** (Alt. years)

**BOT 470 Plant Physiology (3)** Integration of form and function from cellular to whole plant levels in processes from seed germination, through photosynthesis, growth, and morphogenesis, to flowering and senescence. A-F only. Pre: CHEM 152 and BIOL 171, or consent. Co-requisite: 470L. **DB**

**BOT 470L Principles of Plant Physiology Lab (1)** (1 3-hr Lab) Principles of experimentation in plant physiology, includes individual investigations. A-F only. Pre: consent. Co-requisite: 470. **DY**

**BOT 480 Algal Diversity and Evolution (4)** (3 Lec, 1 3-hr Lab) Principles of algal diversity, structure, and evolution. Identification of common Hawaiian algae. Pre: one of 101, BIOL 172, MICR 351, ZOOL 101; or consent. **DB DY**

**BOT 492 Wildlife Ecology and Management in the Tropics (3)** Practices from around the world that focuses on the tropics. Integrates across disciplines, considers how science based management interacts with world views and considers management plans that are scientifically rigorous but culturally sensitive. Pre: BIOL 265 and an upper level ecology course, or consent. (Once a year)

**BOT 499 Advanced Directed Research (V)** Performance of research project under the direction of a faculty advisor. Preparation of written proposal, final oral presentation to be given to the Botany Department audience and written report required. Preference given to BOT majors. Repeatable up to eight credits. CR/NC only. Pre: 301/301L, 302, and 303, and consent.

**BOT 500 Master's Plan B/C Studies (1)**

**BOT 600 Grant Writing and Your Career in Science (2)** Scientific grant writing from inception through management to completion; students will write a DDIG and participate in a panel. Professional skills including "rules," job applications, interviews, transitioning from graduate student to academic or non-academic job. A-F only. Pre: current standing as a graduate student, or consent.

**BOT 601 Foundations of Current Botany I (2)** Discussion of current research and classical papers important to modern concepts in history of science, plant diversity, plant interactions with the environment, and plant integration. Pre: graduate standing in BOT or consent. (Fall only)

**BOT 602 Foundations of Current Botany II (2)** Discussion of current research and classical papers important to modern concepts in ecology, plant interactions with other plants or animals, and ecosystem functioning. BOT majors only. Pre: graduate standing in BOT or consent. (Spring only)

**BOT 606 Graduate Research Skills (2)** (1 Lec, 1 3-hr Lab) Survey of major research areas in the botanical sciences with emphasis upon research opportunities in Hawai'i and an overview of 1) skills needed by botanical researchers including writing scientific papers and proposals, practicing ethical research procedures, and collection of specimens; and 2) equipment used by botanical researchers including computers, cameras, measuring and monitoring equipment, and global positioning systems. Lecture/discussion, laboratory. Repeatable one time. Pre: graduate standing in biological science or approval.

**BOT 610 Botanical Seminar (1)** Study and discussion of significant topics and problems in botany. Repeatable three times.

**BOT 612 Advanced Botanical Problems (V)** Investigation of any botanical problem; reading and laboratory work. Repeatable nine times. Pre: consent.

**BOT 620 Perspectives in Modern Botany (2)** Lectures by distinguished visiting professor on contemporary botanical topics in the lecturer's area of expertise. No more than 6 credit hours may be counted toward the MS degree requirements. Repeatable five times.

**BOT 621 Ecohydrology: Theory and Modeling (3)** Vegetative response to hydrologic controls and nutrient cycles; quantitative linkages between hydrological dynamics and ecological patterns/processes. MatLab is used to develop and simulate ecohydrological models. Pre: college level calculus or consent. (Once a year)

**BOT 640 Quantitative Ethnobotany (3)** Modern ethnobotanical field research project design, execution, data analysis, and documentation methods. Intended for students preparing to conduct field research studies. Lecture/discussion, term paper. Pre: 105 and one of 201, 461, ANTH 200, or BIOL 172.

**BOT 644 Ethnobotanical Methods (3)** Field techniques for assessing the ecological effects of cultural uses of plants. Emphasis on documenting traditional and local patterns of plant use and measuring the effects on plant individuals, populations, communities, and landscapes. Pre: previous course work in anthropology or biology.

**BOT 648 Conservation Ethnobiology (3)** Practical field training experience for a scientific career conducting ethnobiological research. Repeatable one time. Pre: 640 or consent. (Summer only)

**BOT 651 Invasion Biology (3)** Theories, models, patterns, and predictive methods relating to the introduction, establishment, and spread of introduced organisms. Application of principles of invasion

biology to conservation and natural resource management. Pre: one of 453, 456, MICR 485 or ZOOL 439; and 462 or BIOL 375; or consent.

**BOT 652 Population Biology (3)** Theory and applications of population biology; behavior of population models, as revealed by analytical methods and computer simulation; application to population problems such as endangered species; discussion of classical and current literature in population biology. Pre: one of 453, 454, 456, NREM 680, PEPS 671, ZOOL 439, ZOOL 467, ZOOL 620, or ZOOL 623; or consent. (Cross-listed as ZOOL 652)

**BOT 654 Advances in Plant Ecology (2)** A research-oriented course focusing on recent advances in all areas of plant ecology. Involves critical review of recent literature, independent research project, oral and written presentation of project results. Repeatable three times. Pre: consent.

**BOT 661 Hawaiian Vascular Plants (3)** (2 Lec, 1 3-hr Lab) Identification, systematics, evolution, and biogeography of native plants. Field trips. Pre: 461 or consent.

**BOT 668 Nomenclature and Practical Systematics (2)** Modern issues of naming and classifying of organisms, with a botanical emphasis. Includes lectures, discussions, class projects, and field trips. A-F only. Pre: 461 (or equivalent) or consent. (Once a year)

**BOT 669 Molecular Phylogenetics and Evolution (3)** Molecular approaches to evolution, phylogenetics, and systematics. Basic use of chloroplast DNA, mitochondrial DNA, nuclear DNA, and electrophoresis. Phylogenetic analysis using parsimony, distance, and comparative methods. Repeatable two times. Recommended: 201.

**BOT 676 Environmental Physiology Seminar (2)** Environmental stress; pollution; salinity, geobotany, and other interactions between the environment and plant processes. Current literature emphasized at multidisciplinary and interdisciplinary levels. Pre: graduate status in a biological science, geosciences, etc.; consent for well-prepared undergraduates.

**BOT 680 Marine Macrophytes Seminar (2)** Discussion of current literature in physiological ecology, cellular and molecular adaptations to environmental factors by marine plants. Repeatable four times. Pre: 480.

**BOT 682 Physiological Ecology of Marine Plants (3)** Discussion of current studies in morphological, physiological, cellular, and molecular adaptation to marine environments by macroalgae, phytoplankton, and seagrasses. A-F only. Pre: upper division ecology class recommended, 470 (or equivalent), 480 (or equivalent), or consent. Co-requisite: 682L.

**BOT 682L Physiological Ecology of Marine Plants Lab (1)** Field and laboratory research techniques and projects in the physiological ecology of algae and seagrasses. A-F only. Pre: upper division ecology class recommended, 470L (or equivalent), 480 (or equivalent), or consent. Co-requisite: 682.

**BOT 690 Conservation Biology (3)** Theories and concepts of ecology, evolution, and genetics for conservation of biological diversity. Topics will include restoration ecology, management planning, laws and policies, biological invasions. Pre: BIOL 375 and either 462 or ZOOL 480; and either 453, 454, 456, or 492; or ZOOL 410, 439, 620, 623. (Cross-listed as NREM 690 and ZOOL 690)

**BOT 699 Directed Research (V)** Research preliminary to thesis or dissertation research. Repeatable unlimited times. CR/NC only. Pre: consent of graduate committee.

**BOT 700 Thesis Research (V)** Repeatable unlimited times. Pre: candidacy for MS degree and approval of thesis proposal.

**BOT 750 Topics in Conservation Biology (V)** Advanced topics in conservation and environmental biology. Repeatable up to twelve credits. A-F only. Pre: consent. (Cross-listed as ZOOL 750)

**BOT 800 Dissertation Research (V)** Repeatable unlimited times. Pre: candidacy for PhD and approval of dissertation proposal.

## Business (BUS)

*Shidler College of Business*

**BUS 099 International Exchange Study/Research (V)** Study overseas in an approved international exchange or similar program. Repeatable four times. CR/NC only. Pre: consent of academic advisor.

**BUS 200 Introduction to Business (3)** Introduction to each of the functional areas of business. Intends to help students understand the interrelationships of business functional areas and the role of business in society. Stresses written communication in business. BUS majors only. Freshman or sophomore standing only. A-F only.

**BUS 209 Written Communication in Business (3)** An interactive writing class stressing persuasive writing in the context of memos, letters, and business reports. A-F only. Pre: ACC 201 and ENG 100. Students may not earn credit for both BUS 209 and ENG 209.

**BUS 250 Applied Math in Business (3)** The algebra and geometry of linear, quadratic, exponential, and logarithmic functions. Mathematics of finance—annuities, perpetuities, present value. Derivatives, graphical analysis, mathematical models as applied to business. Selected coverage of algebra, geometry, and calculus emphasizing business applications and decision making. Pre: two years high school algebra and one year plane geometry. FS

**BUS 310 Statistical Analysis for Business Decisions (3)** Problem recognition and formulation; stress on cross-disciplinary complex problem solving and communication; computer intensive. Coverage of descriptive statistics, probability and hypothesis testing with emphasis on quality, productivity, and regression analysis. Must be taken in first semester of BBA program. DS

**BUS 311 Information Systems for Global Business Environment (3)** Skills and strategies for using information resources applied to local and global business issues; advanced skills in computer-based analytical techniques and information management; impact of information technology on business operations and business strategies. Must be taken in first semester of BBA program. Pre: ICS 101 (Alpha) or equivalent, or consent.

**BUS 312 Principles of Marketing (3)** Concepts, problems, and opportunities in marketing within its competitive, political-legal, economic, social and global environments. Social responsibility and ethics. Marketing research. Consumer and business-to-business segmentation and positioning. Strategic marketing planning. Students may not earn credit for BUS 312 and TIM 304.

**BUS 313 Economic and Financial Environment of Global Business (3)** International trade, financial flows, and direct investment. Public and private institutions including government policies and capital markets. Emphasis on Asia Pacific issues, with attention to the cultural differences among countries. DS

**BUS 314 Business Finance (3)** Introduction to the theory and practice of financial management: analysis and decision making for asset management, capital budgeting, capital structure, and dividend policy. Prerequisite for all other finance courses. Pre: ACC 202 or consent.

**BUS 315 Global Management and Organizational Behavior (3)** Analysis of theories and concepts underlying domestic and global organizational management, including behavioral and personnel issues. Emphasis on leadership, team-work, cultural differences in the Asia Pacific region. Prerequisite to all other advanced management courses. Students may not receive credit for BUS 315 and TIM 303. Pre: PSY 100 or SOC 100.

**BUS 345 Strategic Management (3)** Applications of strategy to domestic and global business problems using an interdisciplinary approach. Emphasis on Asia-Pacific business, assessment of risk, integration of all business core disciplines. Extensive writing

expected. Pre: all core courses and graduating senior standing.

**BUS 367 Business Study Abroad (V)** Study abroad experience emphasizing international business issues. Content varies depending on where the course is taught and by which professor. Course qualifies as an international business elective. Repeatable four times.

**BUS 395 (Alpha) Internship (V)** On-the-job experience in the business community. Term paper and meetings with faculty advisor required. (D) MIS; (F) finance; (G) management; (I) international business; (K) marketing; (M) human resource management; (R) real estate. CR/NC only. Repeatable one time. Pre: consent and RE 300 for (R) only.

**BUS 475 Asia Pacific Business (V)** Analysis of business environment and business issues through study of businesses, governmental entities, and non-governmental organizations in specific geographic areas in non-U.S. settings. Repeatable one time. A-F only. Pre: consent. (Summer only)

**BUS 476 Asia Pacific Field Trip (V)** Analysis of business environment and business issues through study and direct observation of businesses, governmental entities, and non-governmental organizations in non-U.S. settings. Involves group travel to selected international business cities. Travel sites will vary. Repeatable one time. A-F only. Pre: 475 and consent. (Summer only)

**BUS 477 Dynamics of Asian Finance (6)** Analysis of selected key industries of Asian countries: business/economic trends, shifting product mix, technological changes, joint ventures, international competition, and productivity strategy, including contrasting management styles, worker/management relationships, and decision-making processes under different cultural settings. Industry observations conducted in Asian countries for three weeks during the summer. Pre: 6 credit hours of economics or business, PAMI participant; or consent.

**BUS 500 Master's Plan B/C Studies (1)** Enrollment required for degree completion. Repeatable unlimited times. Pre: master's Plan B or C candidate and consent.

**BUS 601 Professional Development (0)** Professional development course designed to focus on and improve the soft skills of MBA students. Students will learn from guest speakers, through field trips, intensive workshops, and hands-on experience. Repeatable two times. Full-time MBA degree program only. No grading.

**BUS 621 Business Statistics (1.5)** Statistical tools for the MBA with emphasis on quality control, time series, and forecasting using regression. A-F only. Co-requisite: 622.

**BUS 622 Economic Foundations of Strategy (1.5)** Microeconomic principles that provide structure to solve managerial problems, and to suggest strategies for success. Evaluation of the microeconomic competitive environment in which organizations operate. A-F only. Co-requisite: 621.

**BUS 623 Marketing Management (3)** Concepts and issues in marketing within the global environment of business. Ethical dimensions and social responsibilities; market research; consumer segmentation and positioning. Strategic marketing planning. A-F only.

**BUS 624 Accounting for Decision-making (3)** Accounting tools for business professionals focusing on the role of accounting information in capital markets, managerial decision-making and corporate governance. A-F only. Pre: 201 or successful completion of Trueman, B. (2004). MBA Primer-Financial Accounting: Thomson South-Western, available online at [www.mbaprimer.com](http://www.mbaprimer.com), or completing a 12 contact-hour tutorial.

**BUS 626 Leadership and Organizational Behavior (3)** Personal leadership and communications development and the contributions of the behavioral sciences to understanding human behavior in organizations with a focus on leading organizations in times of change. A-F only.

**BUS 627 Business, Government, and External Environment (1.5)** Important issues related to the external environment of business. This includes international trade and finance, regulatory environment, social impacts of business. A-F only. Pre: 622 or consent. Co-requisite: 628.

**BUS 628 Ethics (1.5)** Assists students in developing an awareness of major ethical issues which affect business decisions, and encourages a socially responsible consideration of those issues and being able to express their views. A-F only.

**BUS 629 Managerial Finance (3)** Financial management theories and tools for business professionals; asset management; capital budgeting; capital structure and dividend policies. A-F only. Pre: 621, 622, and 624; or consent.

**BUS 630 Managing Information Technology for Strategic Advantage (1.5)** Theory, practices, techniques for managing information technology resources for innovation and for strategic advantage in global business environment. A-F only. Pre: 621 and 622. Co-requisite: 631.

**BUS 631 Operations and Supply Chain Management (1.5)** Theory, practices, techniques for managing operations and supply chains for global integration of firms and organizations. A-F only. Pre: 621 and 622, or consent. Co-requisite: 630.

**BUS 632 Business Policy and Strategy (3)** Integration of learning through analysis of comprehensive business problems, resolution of policy issues, and the study of competitive strategies in the international setting. Pre: must be taken in the final semester of the MBA core, and consent.

**BUS 667 Business Study Abroad (V)** Study abroad experience emphasizing international business issues. Content varies depending on course of study and educational institution selected. Course qualifies as an international business elective(s). Repeatable one time. CR/NC only. Pre: business core or permission of academic advisor.

**BUS 675 International Business Topics (V)** Analysis of the business environment and business issues through study of businesses, governmental entities, and/or non-governmental organizations in specific geographic areas, in non-U.S. settings. Repeatable one time. A-F only. Pre: consent. (Summer only)

**BUS 676 International Business Field Experience (V)** Analysis of the business environment and business issues through study and direct observation of businesses, governmental entities, and/or non-governmental organizations in non-U.S. settings. Involves group travel to selected international business cities. Repeatable one time. A-F only. Pre: 675 and consent. (Summer only)

**BUS 677 Field Study in Asia (6)** Industry observations conducted entirely in Asian countries for three and a half weeks. Pre: consent.

**BUS 695 Internships (V)** On-the-job experience in the business community. Project paper and meetings with faculty advisor required. A-F only. Repeatable one time. Pre: consent.

**BUS 696 MBA Consulting Practicum (3)** Final MBA requirement for those candidates not writing a thesis. Candidates will form consulting teams to perform a meaningful, strategic study for a client organization. Pre: 632.

**BUS 696C Entrepreneurship (3)** Comprehensive study of entrepreneurship.

**BUS 699 Directed Reading and Research (V)** Outline (including methodology or sources, results expected and means of measurement) must be prepared by student and approved by supervisor and chair of graduate programs before registration. Repeatable up to 12 credits.

**BUS 700 Thesis Research (V)** Required for Plan A candidates only; six credit hours required, one of which must be taken during semester in which degree is awarded. Repeatable unlimited times.

**BUS 705 Seminar in International Management (V)** Introduces students to research and teaching at

the university. Covers topics of research including research projects currently underway by Shidler College faculty, advanced PhD students, distinguished visiting faculty, and research contemplated by new PhD students. Repeatable unlimited times. CR/NC only. Pre: PhD student status in international management or consent.

**BUS 800 Dissertation Research (V)** Repeatable unlimited times. Pre: PhD student status in international management or consent.

## Business Law (BLAW)

*Shidler College of Business*

**BLAW 200 Legal Environment of Business (3)** Introduction to the legal environment of business operations with particular attention to business law and ethics and to principles of law relating to contracts, agency, partnerships, and corporations.

**BLAW 360 International Business Law (3)** Overview of international and national law as it applies to international trade. Readings and case studies focus on the legal environment of selected areas in the Asia Pacific region and strategies for doing business overseas. Pre: 200.

**BLAW 604 Social and Legal Aspects of Management (3)** Study of the legal environment of management with particular attention to the sources, principles, and form of the law; contracts, business organizational structures, agency, and partnership.

## Cambodian (CAM)

*College of Languages, Linguistics and Literature*

**CAM 101 Introduction to Modern Khmer (4)** Listening, speaking, reading, writing. Structural points introduced inductively. Meets five hours weekly. HSL

**CAM 102 Introduction to Modern Khmer (4)** Continuation of 101. Pre: 101 or exam or consent. HSL

**CAM 103 Conversing in Khmer I (2)** Online course aims to develop students' proficiency skills in speaking and listening at the first year level for the purpose of communication, travel, and for enjoyment.

**CAM 104 Conversing in Khmer II (2)** Online course aims to develop students' proficiency skills in speaking and listening at the first year level for the purpose of communication, travel, and for enjoyment. Pre: 103 or consent.

**CAM 105 Reading/Writing Khmer (2)** Online course aims to develop the student's proficiency skills in reading and writing Khmer at the First Year level.

**CAM 107 First Year Khmer (2)** Continuation of 105. This online course aims to develop proficiency skills in listening, reading, and writing Khmer at the first year level. Use a multimedia CD-ROM and a textbook to complement the web-based instruction. Pre: 105 (or equivalent) or consent. (Spring only) HSL

**CAM 112 Intensive Elementary Khmer (10) HSL**

**CAM 201 Intermediate Modern Khmer (4)** Continuation of 102. Conversation, reading, writing. Meets five hours weekly. Pre: 102 or exam or consent. HSL

**CAM 202 Intermediate Modern Khmer (4)** Continuation of 201. Pre: 201 or exam or consent. HSL

**CAM 205 Second Year Khmer I (2)** Online course aims to develop student's proficiency-based units exploring Cambodian language and culture and focusing on reading and writing at the intermediate level. Pre: 102 or 105, or consent. (Fall only)

**CAM 207 Second Year Khmer II (2)** Continuation of 205. Online course provides opportunities for learners to enhance their linguistic, discourse and sociolinguistic competencies in Khmer at the intermediate level. Use a multimedia CD-ROM and a textbook to complement the web-based instruction. Pre: 201 or 205, or consent. (Spring only) HSL

**CAM 212 Intensive Intermediate Khmer (10) HSL**

**CAM 301 Third-Level Khmer (3)** Continuation of 202. Advanced reading, writing, conversation and comprehension. Emphasis on modern contemporary texts. Computer assisted learning. Lab work. Pre: 202 or 212 (or equivalent), or consent.

**CAM 302 Third-Level Khmer (3)** Continuation of 301. Computer assisted learning. Lab work. Pre: 301 (or equivalent), or consent.

**CAM 303 Accelerated Third-Level Cambodian (6)** Continuation of 212. Practice in idiomatic conversation and extensive reading. Integrated development of listening, speaking, reading, and writing skills. Meets 10 hours weekly. Pre: 212.

**CAM 305 Third Year Khmer I (2)** Online course provides opportunities for learners to enhance their linguistic, discourse and sociolinguistic competencies in Khmer at the advanced level. Use a multimedia CD-ROM and a textbook to complement the web-based instruction. (Fall only) Pre: 207 or consent.

**CAM 306 Third Year Khmer II (2)** Continuation of 305. Online course provides opportunities for learners to enhance their linguistic, discourse and sociolinguistic competencies in Khmer at the advanced level. Use a multimedia CD-ROM and a textbook to complement the web-based instruction. Pre: 305 or consent. (Spring only)

**CAM 401 Fourth-Level Khmer (3)** Continuation of 302. Computer assisted learning. Advanced reading in current literature; discussion of social and cultural issues; advanced conversation and composition. Pre: 302 (or equivalent), or consent.

**CAM 402 Fourth-Level Khmer (3)** Continuation of 401. Computer assisted learning. Pre: 401 (or equivalent), or consent.

**CAM 415 Khmer Language in the Media (3)** Focus on advanced reading, writing, aural comprehension and speaking skills through the study of Khmer newspaper, radio, TV, audio/video clips and film. Repeatable one time. Pre: 402 (or equivalent), or consent.

## Cell and Molecular Biology (CMB)

*School of Medicine*

**CMB 351 Genetics, Evolution and Society (3)** The role of genetics in evolution, medicine, behavior, plant and animal breeding and technology; its impact on today's society. Pre: one semester of biological science at college level or consent. (Cross-listed as BIOL 340) DB

**CMB 411 Human Genetics (3)** Principles of human genetics. Designed for pre-medical or pre-dental students or others who require a course with emphasis on human genetics. Pre: BIOL 172 and BIOL 172L, or consent. DB

**CMB 499 Genetical Problems (V)** Directed reading and research in genetics. Repeatable unlimited times. Pre: 351 or 411.

**CMB 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Repeatable unlimited times. Pre: master's Plan B or C candidate and consent.

**CMB 515 Unit V Topics in Genetics (1)** First-year elective course in which medical students may take an in-depth study of genetics. Repeatable six times. Pre: first-year medical student or consent.

**CMB 599 Research Topics in Cell Molecular Biology (V)** Research elective for medical students. MD majors only. CR/NC only. Pre: MDED 551 and consent.

**CMB 606 Introduction to Neurosciences (4)** An interdisciplinary overview of the central nervous system, drawn from current knowledge and research on vertebrate and invertebrate neurobiology. Repeatable one time. Pre: consent.

**CMB 610 Public Health Biology (3)** Writing-intensive asynchronous computer-based course examines biological processes and challenges relevant

to the public health professional. Topics include anatomical, pathophysiological, and molecular bases of public health; genetics, immunology, ethics; disease prevention, control, and management. (Once a year) (Cross-listed as PH 610)

**CMB 611 Seminar in Biomedical Sciences (1)** Presentation and discussion of research topics in biomedical science. Repeatable nine times. CR/NC only. Pre: graduate standing or consent. (Cross-listed as REPR 611)

**CMB 621 Cell Molecular Biology I (4)** Molecular approaches to cell structure and function emphasizing cells in multi-cellular plants and animals. Pre: graduate standing, BIOC 441 or BIOL 402, MBBE 402, or PEPS 402, and BIOL 406; or consent. Recommended: CHEM 351.

**CMB 622 Cell Molecular Biology II (4)** Molecular approaches to cell structure and function emphasizing cells in multi-cellular plants and animals. Pre: one of 621, BIOC 441 or BIOL 402, MBBE 402, or PEPS 402, and BIOL 406; or consent.

**CMB 625 Advanced Topics in Genetics (2)** Advanced treatment of frontiers in genetics. Pre: graduate standing in genetics or consent.

**CMB 626 Ethics in Biomedical Research (2)** Topics include responsible data management, recording, reporting, misconduct and scientific fraud, conflicts of interest, critical use of animals and human issues and subjects in research, genetic screening, stem cell and gene therapy and patenting. (Cross-listed as BIOM 641)

**CMB 631 Research Rotations (3)** Individualized research project in three laboratories of CMB faculty with a written report on each project. Faculty laboratories will be selected by consultation with student's graduate committee and individual faculty. Pre: 621 (or concurrent), 622 (or concurrent); or consent.

**CMB 640 Neuropharmacology (2)** Physiology and pharmacology of central and peripheral nervous systems, focusing on synaptic chemistry and signaling. A-F only. Pre: 606, or consent from the course director. (Cross-listed as PHRM 640)

**CMB 650 Population Genetics (3)** Mathematical, observational, experimental results on effects of mutation, selection, and systems of mating on distribution of genes. Analysis of non-experimental populations. Pre: consent. (Cross-listed as BIOL 650)

**CMB 654 (Alpha) Genetics Seminar (1)** Research and topical literature reports in genetics. May be repeated. (B) molecular genetics; (C) molecular biology of cancer; (D) human genetics; (E) cytogenetics; (F) evolutionary genetics; (G) molecular biology of the cell; (H) drosophila genetics; (I) population/statistical genetics; (J) developmental genetics; (K) insect molecular biology; (M) genetics and molecular biology of fungi. Pre: graduate standing in genetics or consent.

**CMB 671 (Alpha) Techniques in Genetics (V)** Laboratory training in procedures used in diagnosis of genetic diseases, cytogenetics, immunogenetics, and dermatoglyphics. Repeatable three times. Pre: graduate standing in genetics or consent.

**CMB 699 Directed Research (V)** Repeatable unlimited times. Pre: graduate standing and consent.

**CMB 700 Thesis Research (V)** Research for master's thesis. Repeatable unlimited times. Pre: acceptance of thesis topic.

**CMB 705 Special Topics in Neurosciences (V)** Advanced topics in neuroscience, from basic neurobiology to clinical neurology and psychiatry. Emphasis on current investigations at the cellular or molecular level. Repeatable unlimited times. Pre: consent.

**CMB 800 Dissertation Research (V)** Repeatable unlimited times. Pre: acceptance of dissertation topic.

## Chamorro (CHAM)

*College of Languages, Linguistics and Literature*

*Students choosing Chamorro for the language requirement should realize it may not be offered if demand is limited.*

**CHAM 101 Elementary Chamorro (4)** Introduction to Chamorro, emphasis on listening and speaking, language structure. Meets five hours weekly. **HSL**

**CHAM 102 Elementary Chamorro (4)** Listening, speaking, reading, and writing skills; emphasis on oral and reading proficiency. Meets five hours weekly. Pre: 101 (or equivalent), or consent. **HSL**

**CHAM 201 Intermediate Chamorro (4)** Continuation of 102. Emphasis on comprehension and language production (speaking). Meets five hours weekly. Pre: 102 (or equivalent), or consent. **HSL**

**CHAM 202 Intermediate Chamorro (4)** Continuation of 201. Emphasis on comprehension and language production. Pre: 201 (or equivalent), or consent. **HSL**

## Chemistry (CHEM)

*College of Natural Sciences*

*Credit allowed for only one of CHEM 100, 131, 151, 161, 171, or 181A.*

**CHEM 100 Chemistry and Society (3)** Introduction to chemistry for non-science majors. Discussion of basic chemistry concepts and their application to everyday life. No credit for science and engineering majors. A-F only. **DP**

**CHEM 131 Preparation for General Chemistry (3)** For students lacking preparation in chemistry. Provides background in algebra and elementary concepts of chemistry in preparation for entering the General Chemistry sequence. A-F only.

**CHEM 151 Elementary Survey of Chemistry (3)** Nonrigorous but adequate background in fundamentals. Preparation for technical training in life sciences. **DP**

**CHEM 151L Elementary Survey of Chemistry Lab (1)** (1 3-hr Lab) Experiments introducing laboratory techniques and illustrating chemical principles. Pre: 151 (or concurrent). **DY**

**CHEM 152 Survey of Organic and Bioorganic Chemistry (3)** Structure, nomenclature, properties, reactions of organic compounds emphasizing those of practical importance in related fields. Pre: 151, 162, or 171. **DP**

**CHEM 152L Survey of Organic and Bioorganic Chemistry Lab (1)** (1 3-hr Lab) Techniques of preparation, purification, identification of organic compounds. Pre: 151L, 162L, or 171L; and 152 (or concurrent). **DY**

**CHEM 161 General Chemistry I (3)** Basic principles of chemistry, including stoichiometry. Introduction to solution phase chemistry. Gas phase chemistry. Thermodynamics, including enthalpies of formation and reaction. Atomic structure, periodic trends, chemical bonding, molecular structure. Pre: C (not C-) in 131 or C (not C-) in 151 or successful completion of placement exam, or consent. **DP**

**CHEM 161L General Chemistry Lab I (1)** (1 3-hr Lab) Laboratory experiments introducing techniques and fundamental principles of chemistry. Pre: 161 (or concurrent). **DY**

**CHEM 162 General Chemistry II (3)** Continuation of 161. Liquids and solids. Solutions and colligative properties. Continuation of thermodynamics, including entropy and free energy. Principles and applications of chemical equilibrium, including acid-base chemistry (titrations, buffers). Kinetics. Redox reactions and electrochemistry. Pre: C (not C-) or better in 161. **DP**

**CHEM 162L General Chemistry Lab II (1)** (1 3-hr Lab) Laboratory experiments introducing techniques and fundamental principles of chemistry. Pre: 161L and 162 (or concurrent). **DY**

**CHEM 171 Principles of Chemistry (4)** Principles, theories, elementary analytical methods of chemistry. Intended for physical science majors and engineers. Pre: Satisfactory Placement Exam score, and MATH 241 (or concurrent) or MATH 251A (or concurrent). Co-requisite: 171L. (Fall only) **DP**

**CHEM 171L Principles of Chemistry Lab (1)** (1 3.5-hr Lab) Laboratory experiments illustrating fundamental principles of chemistry. Co-requisite: 171. (Fall only) **DY**

**CHEM 181A Honors General Chemistry (4)** Rigorous, in-depth introduction to chemical principles with emphasis on experimental and applied aspects of modern chemistry. Pre: high school chemistry and MATH 215 or MATH 241 or MATH 251A. (Fall only) **DP**

**CHEM 181L Honors General Chemistry Laboratory (1)** (1 3-hr Lab) Laboratory experiments illustrating chemical principles involving advanced techniques and modern instrumentation. Co-requisite: 181A. **DY**

**CHEM 272 Organic Chemistry I (3)** Molecular structure, stereochemistry, spectroscopy, mechanisms, reactions, and synthesis of organic compounds. Pre: C (not C-) or better in 162 or 171 or 181A. **DP**

**CHEM 272L Organic Chemistry I Lab (2)** (1 5-hr Lab) Techniques, synthesis and qualitative analysis, applications of spectroscopy. Pre: 162L or 171L, and 272 (or concurrent). **DY**

**CHEM 273 Organic Chemistry II (3)** Continuation of 272. Molecular structure, stereochemistry, spectroscopy, mechanisms, reactions, and synthesis of organic compounds. Pre: C (not C-) or better in 272. **DP**

**CHEM 273L Organic Chemistry II Lab (1)** (1 4-hr Lab) Techniques, synthesis and qualitative analysis, applications of spectroscopy. Pre: 272L and 273 (or concurrent). **DY**

**CHEM 274 Principles of Analytical Chemistry (3)** Selected methods and principles, e.g., phase equilibria, ionic equilibria, electrode equilibria, separations, spectroscopy, automation, and process control. Pre: 162 or 171 or 181A, MATH 215 or MATH 241 or MATH 251A. **DP**

**CHEM 274L Principles of Analytical Chemistry Lab (2)** (2 3-hr Lab) Phase separations, chromatography, titrimetry, spectrophotometry, etc. Pre: 162L or 171L or 181L, and 274 (or concurrent). **DY**

**CHEM 351 Physical Chemistry I (3)** Principles and theories; physico-chemical procedures. Pre: 274, 274L, PHYS 272 with a C (not C-) or better, PHYS 272L, and MATH 243 or MATH 253A. **DP**

**CHEM 352 Physical Chemistry II (3)** Continuation of 351. Pre: 351. **DP**

**CHEM 352L Physico-Chemical Measurements (2)** (2 3-hr Lab) Modern laboratory techniques. Includes emphasis on instruction in scientific report writing. Pre: 274L, 352 (or concurrent). **DY**

**CHEM 361 Physical Biochemistry (3)** Biochemical thermodynamics, chemical and enzyme kinetics, biomolecular structure, and biomolecular spectroscopy. A-F only. Pre: 162, PHYS 170, and MATH 242 or 252A with a grade of C or better for prerequisites. (Fall only) **DP**

**CHEM 372 Bioorganic Chemistry (3)** Mechanism of biochemical reactions, biophysical structure, techniques for studying biochemical reactions. Pre: 273 (with a grade of C or better) or graduate standing with consent, or departmental approval. (Fall only) **DB**

**CHEM 380 Professional Ethics for Chemists (1)** Discussion of contemporary ethical issues in chemistry using case studies and additional examples from the media. CR/NC only. Pre: 274 (or concurrent). (Spring only)

**CHEM 399 Directed Reading or Research (V)** Pre: chemistry major, and minimum cumulative GPA of 2.7 or minimum GPA of 3.0 in chemistry. Repeatable unlimited times.

**CHEM 425 Synthesis and Analysis of Inorganic Compounds (3)** Lecture on advanced methods of preparation and characterization of inorganic compounds and materials. A-F only. Pre: 351 (or concurrent) or 361 (or concurrent). (Fall only) **DP**

**CHEM 425L Preparation and Analysis of Inorganic Compounds Laboratory (2)** Laboratory on preparative methods and analytical techniques and instruments in inorganic chemistry. A-F only. Pre: 425 (or concurrent). (Fall only) **DY**

**CHEM 427 Advanced Inorganic Chemistry (3)** Classification, description, fundamental theory. Pre: 425. **DP**

**CHEM 445 Synthesis and Analysis of Organic Compounds (3)** Introduction to multi-step synthesis and instruments/analytical techniques used to characterize organic compounds. Retrosynthesis and diastereoselective reactions; spectroscopy (optical methods, NMR), mass spectrometry. Chromatography (GC, HPLC) and coupled techniques (GCMS, LCMS). CHEM majors only. A-F only. Pre: 273 with a grade of C (not C-) or better, or departmental approval. (Spring only) **DP**

**CHEM 445L Preparation and Analysis of Organic Compounds Laboratory (2)** Laboratory on the preparation of organic compounds and physical methods for their characterization. Includes optical methods (UV-vis, IR), chromatography (HPLC, GC), mass spectrometry (GCMS and LCMS) and NMR. A-F only. Pre: 273L with a grade of C (not C-) or better, or departmental approval. Co-requisite: 445. (Spring only) **DY**

**CHEM 462 Advanced Biochemistry (3)** Advanced topics in biochemistry including nucleic acid replication, transcription, and translation; genetic and epigenetic regulation; bioenergetics and control of metabolism; alternative metabolic strategies; and enzyme structure and mechanism. A-F only. Pre: 361 and BIOL 402. (Spring only)

**CHEM 463L Advanced Biochemistry Lab (2)** Advanced biochemistry lab techniques: protein purification and characterization, enzyme kinetics, ligand binding, nucleic acid structure, protein structure, fluorescence. A-F only. Pre: 273L, and BIOL 275L, and BIOL 402 (or concurrent). (Fall only)

**CHEM 600 Introduction to Research (1)** Introduction to field-specific methods and skills needed for success in graduate research. Includes training modules for safety, ethics, and library resources. Short faculty research overviews may also be given. CHEM majors only. Graduate students only. CR/NC only. (Fall only)

**CHEM 601 Theory of Chemical Bonding (3)** Application of quantum mechanics and symmetry principles to descriptions of chemical bonding. Pre: graduate standing in CHEM.

**CHEM 602 Chemical Applications of Spectroscopy (V)** Introduction to magnetic resonance, infrared, UV, and visible spectroscopy, emphasizing applications to organic and inorganic chemistry. Three topics each semester—1 credit hour per topic. Repeatable unlimited times in different topics. Pre: graduate standing in CHEM.

**CHEM 622 Organometallics I (3)** Reactivity and reaction mechanisms of compounds containing metal-carbon bonds. Pre: 352 and 427.

**CHEM 623 Coordination Chemistry (3)** Survey of Lewis acids and bases, coordination numbers, geometries, stereochemistry, ligand field theory, formation constants, and bioinorganic chemistry. Pre: 601 and 602 (or concurrent).

**CHEM 624 Organometallics II (3)** Introduction to the principles of catalysis and the classes of catalytic reactions effected by organometallic compounds. A-F only. Pre: 622 and a minimum required grade for prerequisites of B.

**CHEM 641 Organic Structure Determination (3)** Interpretation of chemical and physical (primarily spectral) data in the identification of organic compounds. Pre: graduate standing or consent.

**CHEM 642 Organic Synthesis I (3)** Modern synthetic methods with emphasis on the design and execution of multi-step sequences. Pre: graduate standing or consent.

**CHEM 643 Physical Organic Chemistry (3)** Theory of molecular structure, stereochemistry, and reaction mechanisms. Pre: 601 or consent.

**CHEM 647 Organic Synthesis II (3)** Continuation of 642, and is the second half of a two-semester course in Modern Organic Synthesis. Pre: 642 and a minimum required grade for prerequisites of B. (Spring only)

**CHEM 651 Chemical Thermodynamics and Statistical Mechanics (3)** Includes statistical thermodynamics, with application to chemical systems. Pre: graduate standing in CHEM.

**CHEM 652 Chemical Kinetics and Reaction Dynamics (3)** Kinetics and chemical reaction dynamics of elementary reactions relevant to combustion processes, astrochemistry, chemical vapor deposition and planetary sciences. Pre: graduate standing in CHEM. (Spring only)

**CHEM 653 Quantum Chemistry (3)** Rigorous introduction to quantum mechanics, including operator formalism, matrix formation, group theory, and perturbation theory; introduction to the electronic structure of atoms and molecules. Pre: graduate standing in CHEM.

**CHEM 657 Astrochemistry—A Molecular Approach (3)** Formation of astrobiochemically important molecules and their precursors in the interstellar medium and in our solar system: first principles and latest trends. Pre: consent. (Fall only) (Cross-listed as ASTR 657 and GG 657)

**CHEM 658 Crystallography (3)** Crystal symmetry. Elementary x-ray physics. Diffraction theory and its application to crystal and molecular structure determination. Pre: 352 and MATH 244 or MATH 253A.

**CHEM 661 Enzyme Reaction Mechanisms (3)** The chemical mechanisms of reactions catalyzed by enzymes in biochemical pathways, with an emphasis on the major types of cofactor and metal catalyzed reactions. Pre: graduate standing or consent.

**CHEM 691 (Alpha) Chemistry Seminar I (1)** Current topics in (D) analytic-inorganic; (E) organic; (Q) biochemistry; (Z) inorganic chemistry. Repeatable unlimited times. Pre: graduate standing.

**CHEM 692 (Alpha) Chemistry Seminar II (1)** Continuation of 691. Current topics in: (D) analytic-physical; (E) organic; (Q) biochemistry; (Z) inorganic chemistry. Repeatable unlimited times. Pre: graduate standing.

**CHEM 699 Directed Research (V)** Repeatable unlimited times. Pre: consent.

**CHEM 700 Thesis Research (V)** Repeatable unlimited times. Pre: candidacy for MS degree and consent of thesis chair.

**CHEM 721 Special Topics: Inorganic Chemistry (V)** Theory and applications. Repeatable unlimited times in different topics. Pre: consent.

**CHEM 741 Special Topics: Organic Chemistry (V)** Theory and applications. Repeatable unlimited times in different topics. Pre: consent.

**CHEM 751 Special Topics: Physical Chemistry (V)** Theory and applications. Repeatable unlimited times in different topics. Pre: consent.

**CHEM 800 Dissertation Research (V)** Repeatable unlimited times. Pre: candidacy for PhD degree and consent of dissertation chair.

## Chinese (CHN)

*College of Languages, Linguistics and Literature*

*All students taking language courses in this program for the first time must take a regularly scheduled placement test; those with no background must come to the Department of East Asian Languages and Literatures for a*

*brief interview. A grade of C or better in the prerequisite course is required for continuation.*

**CHN 101 Elementary Mandarin (4)** Listening, speaking, reading, writing, grammar. Meets one hour, four times a week. Pre: placement test. **HSL**

**CHN 102 Elementary Mandarin (4)** Continuation of 101. Pre: 101 or consent. **HSL**

**CHN 103 Accelerated Elementary Mandarin (8)** Content of 101 and 102 covered in one semester. Meets two hours, four times a week. Pre: placement test. **HSL**

**CHN 105 Elementary Chinese for Business Professionals (8)** Accelerated, intensive elementary course focusing on everyday listening, speaking, reading, and writing communicative needs of business professionals in the Chinese business context. Pre: consent. (Fall only) **HSL**

**CHN 111 Elementary Conversational Mandarin I (3)** Development of basic skills (listening, speaking and grammar) of spoken Mandarin with application to some familiar everyday topics. **HSL**

**CHN 112 Elementary Conversational Mandarin II (3)** Continuation of 111. Pre: 101 or 111 or consent. **HSL**

**CHN 201 Intermediate Mandarin (4)** Continuation of 101 and 102. Meets one hour a day, four times a week. Pre: 102 or 103 or 105; or consent. **HSL**

**CHN 202 Intermediate Mandarin (4)** Continuation of 201. Pre: 201 or consent. **HSL**

**CHN 204 Accelerated Intermediate Mandarin (8)** Content of 201 and 202 covered in one semester. Meets two hours, four times a week. Pre: placement test and 102 or 103 or 105; or consent. **HSL**

**CHN 205 Intermediate Chinese for Business Professionals (8)** Accelerated, intensive intermediate course focusing on everyday listening, speaking, reading, and writing communicative needs of business professionals in the Chinese business context. Pre: 105 (or equivalent) or consent. **HSL**

**CHN 211 Intermediate Conversational Mandarin I (3)** Further development of listening and speaking skills in Mandarin. The student is expected to be able to comprehend and produce speech at the paragraph level. Pre: 102 or 103 or 112, or consent. **HSL**

**CHN 212 Intermediate Conversational Mandarin II (3)** Continuation of 211. Pre: 201 or 211, or consent. **HSL**

**CHN 251 Reading and Writing Chinese I (3)** For students who have completed the conversational Mandarin courses up through 212 and wish to continue on to 301, or others who can handle daily conversation in Mandarin but cannot read or write in the language. Pre: 212 or consent.

**CHN 252 Reading and Writing Chinese II (3)** Continuation of 251. Pre: 251 or consent.

**CHN 301 Third-Level Mandarin (4)** Vocabulary building and extended mastery of sentence structures of modern Chinese through reading and related conversation. Meets one hour a day, four times a week. Pre: 202 or 204 or 205 or 252; or consent.

**CHN 302 Third-Level Mandarin (4)** Continuation of 301. Pre: 301 or consent.

**CHN 303 Accelerated Third-Level Mandarin (8)** Content of 301 and 302 covered in one semester. Meets two hours, four times a week. Pre: 202 or 204 or 205 or 252; or consent.

**CHN 305 Third-Year Chinese for Business Professionals (8)** Accelerated, intensive advanced course focusing on general advanced listening, speaking, reading, and writing communicative needs of business professionals in the Chinese business context. Pre: 205 (or equivalent) or consent.

**CHN 311 Mandarin Conversation (3)** Systematic practice on everyday topics of conversation. Lab work. Pre: 202 or 204 or 252; or consent.

**CHN 312 Mandarin Conversation (3)** Continuation of 311. Pre: 311 or consent.

**CHN 319 Chinese Dialect Studies (V)** Advanced Cantonese or other Chinese dialects. Repeatable one time. CR/NC for native Chinese speakers. Pre: consent.

**CHN 331 Advanced Chinese Listening and Writing (3)** Web-based training in Chinese listening, reading, and writing to develop skills at the advanced level. Activities combine independent work with communicative activities on the course website. Features language exchange with native speakers. Repeatable one time. Pre: 301 (or concurrent) or consent.

**CHN 332 Advanced Chinese Reading and Writing (3)** Web-based training in Chinese reading and writing to develop skills at the advanced level. Activities combine independent work with communicative activities on the course web site. Ideal for in-service professionals seeking language development and maintenance. Repeatable one time. Pre: 301 (or concurrent) or consent.

**CHN 399 Directed Third-Level Reading (V)** For those who need special assistance, e.g., in reading texts in their area of specialization or at a pace more rapid than those of standard courses. CR/NC only. Repeatable three times. Pre: consent.

**CHN 401 Fourth-Level Mandarin (4)** Extensive reading in academic topics. Meets one hour a day, four times a week. Pre: 302 or 303 or 305; or consent.

**CHN 402 Fourth-Level Mandarin (4)** Continuation of 401. Pre: 401 or consent.

**CHN 404 Accelerated Fourth-Level Mandarin (8)** Content of 401 and 402 covered in one semester. Meets two hours, four times a week. Pre: 302 or 303 or 305; or consent.

**CHN 405 Fourth-Year Chinese for Business Professionals (8)** Accelerated, intensive advanced course focusing on specialized advanced listening, speaking, reading, and writing communicative needs of business professionals in the Chinese business context. Pre: 305 (or equivalent) or consent. (Spring only)

**CHN 411 Advanced Mandarin Conversation (3)** Systematic practice on academic topics of conversation. Lab work. Pre: 302 or 303, or consent.

**CHN 412 Advanced Mandarin Conversation (3)** Continuation of 411. Pre: 411 or consent.

**CHN 421 (Alpha) Chinese Translation (3)** Training in techniques; theory of translation. (B) Chinese–English; (C) English–Chinese. Pre: 402 or 404, or consent.

**CHN 441 Fourth Year Reading and Writing: Advanced Topics I (3)** Asynchronous web-based course. Interaction with teacher and fellow students to prepare for, read, and reflect on authentic texts on academic, research-oriented topics with a view to meeting learners' eventual independent research needs. Pre: 401 (or concurrent) or equivalent or consent. (Fall only)

**CHN 442 Fourth Year Reading and Writing: Advanced Topics II (3)** Asynchronous web-based course. Continuation of 441, with focus on meeting learners' eventual independent research needs. Pre: 401 (or concurrent) or 441. (Spring only)

**CHN 451 Structure of Chinese (3)** Introduction to phonology and morphology of Mandarin Chinese; some discussion of usage and linguistic geography. Pre: 202 or 204; or consent. **DH**

**CHN 452 Structure of Chinese (3)** Introduction to syntax and semantics of Mandarin Chinese; some discussion of usage and linguistic geography. Pre: 202 or 204; or consent. **DH**

**CHN 453 Study of Chinese Characters (3)** Origin, structure, and evolution. Pre: 402, 461; or consent. (Alt. years)

**CHN 454 Study of Chinese Characters (3)** Continuation of 453. Pre: 453 or consent. (Alt. years)

**CHN 455 Chinese Pragmatics and Discourse (3)** Introduction to pragmatics and discourse analysis of Mandarin Chinese; some discussion of usage and linguistic geography. Pre: 202, 204; or consent. **DH**

**CHN 456 Chinese Semantics and Communication (3)** Study of the meaning of Chinese sentences in isolation, in discourse contexts, and in written texts. Pays equal attention to theoretical issues and practical problems in Chinese semantics and communication. Pre: 202 or 204, or consent. (Once a year)

**CHN 457 Chinese Words and the Lexicon (3)** Defines properties of the Chinese lexicon, introduces its principles, approaches, and methodologies in Chinese lexicology, outlines similarities and differences between the Chinese and English lexicons, and advances students' Chinese language proficiency. Pre: 202 or 205, or consent. (Alt. years: fall)

**CHN 461 Introduction to Classical Chinese (3)** Analysis of basic structural patterns through selected readings in various texts. Pre: 302 or consent.

**CHN 470 Language and Culture of China (3)** Extensive exposure—chiefly through tape recordings, classroom conversation, and outside readings—to history, culture, and institutions. Pre: 202 or 204, or consent. **DH**

**CHN 485 Selected Readings in Chinese (3)** Readings in modern Chinese in various disciplines. Pre: 402 or consent.

**CHN 486 Selected Readings in Chinese (3)** Continuation of 485. Pre: 485 or consent.

**CHN 487 (Alpha) Readings in 20th Century Chinese Literature (3)** Representative works of writers from People's Republic of China, Taiwan, and Hong Kong. (B) short stories; (C) poetry and drama; (D) novels and essays. Repeatable two times. Pre: 402 or consent. **DL**

**CHN 491 Oral Fluency Through Chinese Films (3)** Development of listening and speaking skills through discussion of Chinese films. Students will be required to watch the films before class. Pre: 402 or consent. **DH**

**CHN 499 Directed Fourth-Level Reading (V)** For those who need special assistance, e.g., in reading texts in area of specialization or at a pace more rapid than those of standard courses. CR/NC only. Repeatable three times. Primarily for graduate students from other departments. Pre: consent.

**CHN 601 Introduction to Study of Contemporary Chinese Linguistics (3)** Panoramic overview of major perspectives in contemporary Chinese linguistics. Readings on recent developments of fields. Report on selected research papers and present analysis of linguistic phenomena of interest. Pre: 452 or consent. (Alt. years)

**CHN 610 (Alpha) Chinese Poetry (3)** Critical study of major traditional Chinese poetic forms. (B) ancient (to 5th century); (C) medieval (5th–10th century). Pre: 461 or consent for (B), 610B or consent for (C).

**CHN 612 Traditional Chinese Fiction (3)** Formal and thematic analysis of short stories, historical romances, and novels. Repeatable one time with consent. Pre: 402 or consent.

**CHN 631 (Alpha) History of Chinese Language (3)** (B) phonology; (C) syntax. Pre: 451, LING 421, or consent for (B); 452 or consent for (C).

**CHN 633 Chinese Dialects (3)** Synchronic description of a Chinese dialect other than Cantonese and Mandarin; contrastive and comparative studies with Mandarin. Repeatable one time with consent. Pre: 451 and 452, or consent.

**CHN 634 Chinese Syntax and Semantics (3)** Verbal categories, aspects, focus devices, resultative and directional compounds, coverbial constructions. Interaction between syntax and semantics. Pre: 452 or consent.

**CHN 642 Contrastive Analysis of Mandarin and English (3)** Pre: 452.

**CHN 643 Methods in Teaching Chinese as Second Language (3)** Problems in language learning and teaching. Practice in preparing and presenting lessons with materials based on comparative linguistic

analysis. Materials, teaching aids, test construction. Pre: 451 and 452, or consent.

**CHN 645 Practicum: Teaching Chinese Language (3)** For graduate students pursuing teaching Chinese language. Students gain practical skills and hands-on experiences in creating instructional and assessment materials and teaching an actual Chinese language class using the self-developed materials effectively. Pre: 643 or consent. (Alt. years: fall)

**CHN 650 (Alpha) Topics in Chinese Language (3)** Extensive studies of selected topics (B) teaching and testing; specific problems in teaching Chinese including characters and cultural elements; proficiency and communicative ability; (C) cognitive grammar. A-F only for (C). Pre: 451 and 452, or consent. Once a year.

**CHN 655 Current Topics in Chinese Grammar (3)** Current approaches to Chinese grammar and related issues and debates, focusing on the papers published by leading Chinese linguists employing these approaches. Pre: 452, 455, or 456; or consent. (Alt. years)

**CHN 660 Second Semester Classical Chinese (3)** Builds on the foundation laid in 461; introduces complex syntactic patterns, advanced vocabulary; teaches sophisticated reading strategies and cultural literary contexts; exposes students to a wide range of intermediate level texts. Repeatable two times. Pre: 461 or consent. (Spring only)

**CHN 661 Advanced Classical Chinese (3)** Pre: 660 and consent.

**CHN 662 Advanced Classical Chinese (3)** Pre: 661 and consent.

**CHN 699 Directed Research (V)** Repeatable unlimited times. CR/NC only. Pre: consent.

**CHN 750 (Alpha) Research Seminar in Chinese Language (3)** (B) teaching methods; (C) structure; (D) classical grammar; (E) sociolinguistics. Pre: 643 for (B) and (E); 452 for (C) and (D).

**CHN 753 (Alpha) Research Seminar in Chinese Literature (3)** Study of authors, a genre, a period, or a problem. (M) modern; (T) traditional. Repeatable one time for (M). A-F only for (M). Pre: EALL 611, WS 613, WS 615, or WS 650; or consent for (M); 612, or consent for (T). (Cross-listed as WS 753 (Alpha))

## Civil and Environmental Engineering (CEE)

### College of Engineering

*Preference in registration is given to declared engineering majors. Minimum grade for prerequisite courses is D- except PHYS 170 and CEE 270, which require a C or better grade. Please consult the current Registration Guide (formerly Schedule of Classes) for confirmed offerings each semester.*

**CEE 270 Applied Mechanics I (3)** Forces, resultants, and equilibrium; analysis of trusses, frames, and machines; centroids, moments of inertia; friction. A-F only. Pre: either MATH 243 (or concurrent) or MATH 252A (or concurrent), and a grade of C or better in PHYS 170. **DP**

**CEE 271 Applied Mechanics II (3)** Dynamics of particles and rigid bodies; force, acceleration, impulse-momentum, work-energy. A-F only. Pre: C or better in 270; MATH 244 (or concurrent) or MATH 253A (or concurrent). (Cross-listed as ME 271) **DP**

**CEE 305 Applied Probability and Statistics (3)** Description of sample data; correlation and regression; probability and statistical distributions; estimations of population parameters; fitting distributions to histograms; hypothesis testing. A-F only. Pre: MATH 244 or MATH 253A.

**CEE 320 Fluid Mechanics Fundamentals (4)** (3 Lec, 1 2-hr Lab) Compressible and incompressible fluid properties; fluid statics; kinematics, energy and momentum considerations in steady flows; application of steady flow concepts to various fluid

processes; with an emphasis on instruction in writing lab reports. A-F only. Pre: 271. **DP**

**CEE 330 Environmental Engineering (4)** (3 Lec, 1 2-hr Lab) Parameters and indices of environmental quality; materials balances; chemical kinetics; ideal reactor models; water and air pollution control; solid and hazardous waste management; emphasis on instruction in writing lab reports. A-F only. Pre: 271. **DP**

**CEE 355 Geotechnical Engineering I (4)** (3 Lec, 1 3-hr Lab) Introduction to geotechnical engineering: soil characterization, index properties, seepage and flow in soil, stresses in soils, compressibility, consolidation, shear strength. Substantial emphasis on writing lab reports. A-F only. Pre: 320, 370. **DP**

**CEE 361 Fundamentals of Transportation (3)** Transportation modes: land, air, water, pipelines. Tourist, urban transportation. Geometric design, human factors, vehicular flow models, capacity analysis. Overview: traffic impact, air quality, parking studies. A-F only. Pre: 271.

**CEE 370 Mechanics of Materials (3)** Elastic stress-strain relation and behavior of members under flexural, torsional, and axial loading. A-F only. Pre: 271 (or concurrent); MATH 244 (or concurrent) or MATH 253A (or concurrent); CEE 370L (or concurrent). **DP**

**CEE 370L Mechanics of Materials Lab (1)** Tension, compression, and torsion of bars, and bending of beams. A-F only. Pre: 370 (or concurrent). **DY**

**CEE 375 Construction Materials (3)** (2 Lec, 1 2-hr Lab) Introduction to the crystalline and molecular structure of materials. Properties of metals, concrete, concrete admixtures, asphalt, wood, and other materials commonly used in construction. A-F only. Pre: 305 and 370. **DP**

**CEE 381 Structural Analysis (3)** Analysis of statically determinate plane and space trusses and frames; deflections; introduction to matrix methods; computer applications. A-F only. Pre: 370. **DP**

**CEE 405 Engineering Economics (3)** Economic analysis in engineering and management decision-making, interest, depreciation, income tax, cost classification, break-even analysis, economic comparisons of alternatives, benefit-cost analysis. A-F only. Pre: ECON 120 or 130, and senior standing. (Cross-listed as BE 405)

**CEE 412 Surveying II (3)** (2 Lec, 1 3-hr Lab) Advanced course in surveying; project design and specifications; measurements, errors, and adjustments; land surveying; state plane coordinate systems; modern instrumentation. A-F only. Pre: consent.

**CEE 417 Computer Methods in Engineering Systems (3)** Numerical solutions of engineering problems using digital computers. Regression analysis; numerical differentiation and integration; solutions of algebraic, transcendental, and differential equations; and analysis of large structural systems. Pre: computer programming and senior standing.

**CEE 421 Engineering Hydraulics (3)** Hydraulics of closed conduits and open channels with emphasis on engineering applications. Topics also include pump hydraulics, bridge hydraulics, urban drainage engineering, and flood plain management. A-F only. Pre: 320. **DP**

**CEE 422 Environmental Fluid Mechanics (3)** Introduction to basic concepts of pollutant transport phenomenon through theoretical modeling, lab and field experiments and observations. Specific topics include mass balance, jets and plumes, mixing and transport in rivers, reservoirs, groundwater and estuaries; non point course pollution. A-F only. Pre: 320, and MATH 244 or MATH 253A (or equivalent). (Alt. years) **DP**

**CEE 424 Applied Hydrology (3)** Surface water hydrology topics include hydrologic cycle, hydrographs, regression methods, urban rain-runoff process, flood frequency analysis, flood routing and hydrology for detention basin design. Groundwater hydrology topics include seawater intrusion, theory of groundwater

flow and solutions to steady and unsteady aquifer flows. A-F only. Pre: 305 or 320. **DP**

**CEE 431 Water and Wastewater Engineering (3)** Hydrologic fundamentals of water demand and supply; water and wastewater distribution; collection systems; quality characterization; analytical methods for water quality management. Pre: 330. **DP**

**CEE 432 Water/Wastewater Treatment Design (3)** Physical operations, chemical and biological processes, design flow and process loading rates, pilot plant testing, and treatment plant design. Engineering majors only. Pre: 330.

**CEE 433 Water Quality Laboratory (3)** (2 3-hr Lab) Analysis and characterization of typical water and wastewater samples for organic and inorganic constituents such as alkalinity, hardness, solids, biochemical oxygen demand, nitrogen and phosphorus species, coliform bacteria, and trace organic chemicals. Relevance of these measurements to water and wastewater regulations and engineering design. A-F only. Pre: 330 and either CHEM 171 and 171L or CHEM 161, 161L and 162, and senior standing.

**CEE 444 Infrastructure: Project Impacts, Policy and Sustainability (3)** Evaluation of infrastructure impacts. Impacts regulation and mitigation. Effects of environmental and other policies on infrastructure. Infrastructure relations to sustainability. Energy consumption, transportation efficiency and infrastructure recycling. Lectures and presentations by experts and enrolled students. Senior standing or higher. A-F only. Pre: senior standing, open to engineering, science, urban planning, and economics majors. (Alt. years)

**CEE 455 Geotechnical Engineering II (3)** Continuation of 355 introducing geotechnical engineering topics including: field exploration, lateral earth pressures, bearing capacity theory, slope stability theory, use of geosynthetics, earthquake effects and ground modification. A-F only. Pre: 355. **DP**

**CEE 461 Pavement Engineering (3)** (2 Lec, 1 3-hr Lab) Design principles of flexible and rigid pavements; HMA mixture design, equipment and construction; and application of life cycle cost analysis (LCCA) in pavement engineering. Includes laboratory sessions for aggregate testing and Superpave mix design. A-F only. Pre: 355, 361, and 375.

**CEE 462 Traffic Engineering (3)** Design/analysis of signalized, unsignalized intersections, urban networks. Traffic impact studies; analysis steps and applications. Design/redesign options. Parking studies: demand, alternative designs (lot layouts). Pre: 361.

**CEE 464 Urban and Regional Transportation Planning (3)** Application of travel demand forecasting models to transportation planning. Evaluation and decision-making. Term projects. Pre: 361.

**CEE 471 Construction Methods (3)** Methods of construction, primarily buildings. Construction types: light and heavy wood; steel; plain, reinforced, and prestressed concrete; masonry. Foundations; associated details of frames, walls, roofs, floors, openings, finishes. Disasters, failures, and their causes. Industrialization of the building process. Pre: 375.

**CEE 472 Construction Management (3)** Introductory treatment of the management of construction. Construction supervision, contract documents, estimating and bidding, organization, planning and scheduling, administration, business methods, safety, and labor. Pre: 375.

**CEE 473 Construction Equipment and Methods (3)** Methods and equipment used on horizontal/heavy engineering projects. Available equipment, their production, and how they are used to excavate, move, process, and place the earth. Pre: 375 and senior standing.

**CEE 474 Construction Estimating and Bidding (3)** Estimating science; techniques of estimating quantities and pricing of work for construction contracting; classification of costs, analysis of plans and specifications for estimating; computerized

estimating; cash flow, bidding strategy, preparation and submission. A-F only. Pre: 375.

**CEE 476 Construction Planning and Scheduling (3)** To teach the theory and the practice of planning, scheduling, and reporting a construction project through the use of bar chart and CPM. Format to include lectures, text, outside speakers, site visits, discussions, case study, and computers. Pre: 375.

**CEE 481 Undergraduate Structural Research (3)** Individual research project for undergraduate students in the structures track. Topic to be determined by consultation with structural faculty advisor. A-F only. Pre: senior standing and consent.

**CEE 482 Indeterminate Structures (3)** Analysis of statically indeterminate beams, frames, trusses, arches, and space structures by classical and matrix methods; computer applications. Pre: 381. **DP**

**CEE 483 Field Experience (1)**

**CEE 485 Reinforced Concrete Design (4)** (3 Lec, 1 2-hr Lab) Behavior and design of reinforced concrete beams, one-way slabs and columns. Laboratory section includes design and hands-on manufacturing and testing of reinforced concrete members. Pre: 375 and 381. **DP**

**CEE 486 Structural Steel Design (3)** Basic properties of steel; behavior and design of steel beams, columns, and connections; introduction to rigid frames. Pre: 381. **DP**

**CEE 489 (Alpha) Senior Topics (V)** (B) Surveying and AutoCAD (2 cr.) Basics of surveying and AutoCAD for civil engineering projects; (C) Professional ethics (1 cr.) Engineering ethics, ethical decision making and deliberation. A-F only. Senior standing. Pre: 305. (Fall only)

**CEE 490 Senior Design Project (3)** Design problem involving several areas of civil engineering and requiring a team approach for a solution. A-F only. Pre: senior standing in CEE and 489B. (Spring only)

**CEE 491 Special Topics in Civil and Environmental Engineering (3)** Will reflect special interests of visiting and/or permanent faculty. Pre: junior or senior standing, and consent.

**CEE 492 (Alpha) Special Topics in Civil and Environmental Engineering (3)** Will reflect special interests of visiting and/or permanent faculty. Pre: junior or senior standing, and consent.

**CEE 499 Special Problems (V)** Individual investigation in civil and environmental engineering topics as approved by instructor. Pre: senior standing, and minimum cumulative GPA of 2.7 or minimum GPA of 3.0 in engineering.

**CEE 500 Master's Plan B/C Studies (1)**

**CEE 602 Construction Scheduling and Claims (3)** Precedence networks, CPM, float, updating, resource leveling, least cost scheduling, scheduling case studies, computerized scheduling, exclusion reports, sorting, term project; contract law, types of claims, proving claims, delay claims, impact of changes, Eichleay Formula, acceleration, overtime, stacking, crowding, efficiency losses, contract interpretation, Leonard Study, Kuiper model, labor escalation, claims case studies, term paper. A-F only. Pre: graduate standing in civil and environmental engineering and consent.

**CEE 604 Cost Engineering and Quality Control (3)** Study and applications of cost/schedule control systems criteria, earned value analysis, probabilistic cost estimating, construction risk management, construction quality control, and operations research in construction. Recommended: 472 or 474, or consent.

**CEE 614 Negotiation and Alternative Dispute Resolution (V)** Lawyers negotiate settlements in almost all their cases. This class presents a "hands-on," skill-building approach to the newest ideas, as well as centuries-old techniques, about the skill lawyers will use most often in their private practice-negotiation. The class also examines the rapidly developing field of alternative dispute resolution (ADR), including

mediation, facilitation, arbitration, and court-annexed ADR. (Cross-listed as LAW 508)

**CEE 618 Parallel Computing for Engineers (3)** Concepts and techniques in high performance parallel computing. Topics include parallel language and algorithms, parallelizing pre-existing serial codes, statistical analysis, and techniques up to increase computational speed and accuracy for problems requiring large memory size. Repeatable one time. A-F only. (Once a year)

**CEE 620 Reforming Public Organizations (3)** Explores the possibilities for reducing the most difficult aspects of the bureaucratic form in public organizations while increasing effectiveness and accountability. Repeatable one time. A-F only. (Cross-listed as PUBA 620)

**CEE 622 Fluid Mechanics (3)** Theory of fluid dynamics in differential form, covering equation of motion, vortex generation, flow in rotating frame, potential theory, laminar flow, and introduction to turbulence.

**CEE 623 Groundwater Modeling (3)** Introduction to the finite-difference method; steady-state and transient groundwater flow in saturated and unsaturated media; applications to groundwater recharge and aquifer evaluation. A-F only. Pre: 627 or consent. (Fall only) (Cross-listed as GG 655)

**CEE 625 Hydrologic Processes in Soils (3)** Hydrologic properties in soils and the processes involved in water infiltration drainage and solute transport. Emphasis on key parameters required for modeling. Recommended: 424 or consent. (Fall only) (Cross-listed as BE 664 and NREM 660)

**CEE 626 Surface Water Hydrology (3)** Deterministic and probabilistic methods include reliability of empirical distributions, multiple regression analysis, extreme value analysis and domain of attraction. Short-memory models for stochastic simulation of streamflows include autoregressive, Markov chain and moving average models. Time series analysis of hydrologic data is discussed. Pre: consent. (Alt. years)

**CEE 627 Groundwater Hydrology (3)** Groundwater occurrence, movement, quality, and resource evaluation, development, and management. Emphasis on saltwater encroachment, well evaluation, aquifer protection, recharge with wastewater, and Hawai'i type hydrology. Recommended: 424 or consent.

**CEE 633 Physical and Chemical Treatment (3)** Introduction to physical and chemical processes for water and wastewater treatment: Review of momentum and mass transfer, chemical reactions, colloidal chemistry, coagulation and flocculation, granular filtration, sedimentation, carbon adsorption, gas transfer, disinfection and oxidation. A-F only. Recommended: 431 or consent.

**CEE 634 Biological Treatment (3)** Fundamentals of applied microbiology and biochemical reactor engineering, quantitative description of microbial growth, operational theory and design basis of aerobic, anoxic and anaerobic treatment processes. Applications for water, wastewater, air, solid wastes, and soil. A-F only. Pre: consent. (Alt. years: spring) (Cross-listed as BE 634)

**CEE 635 Environmental Chemistry (3)** Basic concepts of chemistry as related to the environment, with more emphasis on water. Topics include chemical kinetics, equilibrium, acid-base, precipitation and dissolution redox reactions, sorption, organic chemicals in the environment. Pre: consent.

**CEE 636 Environmental Microbiology (3)** Combined lecture-discussion on major topics in environmental microbiology, microbial ecology, and a broad understanding of microbial processes in natural and engineered environments. CEE majors only. A-F only. Pre: graduate standing in CEE or consent. (Once a year)

**CEE 641 Marine Disposal of Wastewaters (3)** Practical material on outfalls: Alternatives; planning; dangers; data collection; predesign studies; design and bidding; dredging and construction; costs; commissioning; inspection, operation and maintenance;

repairs and replacement; review of selected world outfalls. Pre: consent. (Alt. years)

**CEE 643 Hazardous Waste Remediation (3)** Introduces the national problems dealing with the contamination of groundwater and presents remedial measures. Such measures include pump and treat (PAT) technology, in-situ bioremediation, soil vapor extraction, air sparging, electrokinetics, hydraulic fracturing, reactive walls, and phytoremediation. A-F only. Pre: 627 or consent. Co-requisite: 634 and 635. (Fall only)

**CEE 644 Water Quality Modeling (3)** Mathematical formulation of pollutant transport and mixing in the water environment. Kinetics formulation and parameter identification, model calibration and verification. Design projects. Recommended: 422 and 431, or consent.

**CEE 648 Membrane Separations (3)** Applications of membrane separations to desalination, power generation, and ultrapure water systems. Discussion of reverse osmosis, osmosis-driven processes, ultrafiltration, microfiltration, electro dialysis and ion exchange technologies. Membrane fouling and concentration polarization from practical/theoretical standpoints. A-F only. Pre: 635 or consent.

**CEE 650 Seepage, Drainage, and Dewatering (3)** Theory of seepage, field and laboratory methods of measurement; graphical and numerical methods; design of drainage structures; construction dewatering. A-F only. Recommended: 455 or consent. (Alt. years)

**CEE 651 Deep Foundations (3)** Analysis and design of deep foundations; driven piles and drilled shafts. A-F only. Recommended: 455 or consent. (Alt. years)

**CEE 652 Experimental Soil Mechanics (3)** Advanced laboratory testing and application of analyses using test data for solution of a hypothetical geotechnical project. A-F only. Recommended: 455 or consent. (Alt. years)

**CEE 653 Advanced Soil Mechanics (3)** Soil continuum mechanics principles; elastic, plastic, and Cam clay soil behavior; critical state and strength; interpretation of laboratory test results. Repeatable two times. A-F only. Pre: 455 or consent. (Alt. years)

**CEE 654 Geotech Seismic Engineering (3)** Soil and site response to dynamic loading, earthquake ground motions; stress waves and soil shear moduli; soil liquefaction theory, evaluation, analyses, and preventative design. A-F only. Recommended: 455 or consent. (Alt. years)

**CEE 655 Slope and Earth Structures (3)** Classification of landslides and triggering mechanisms; field investigation procedures; limit equilibrium slope stability methods; numerical techniques; seepage and dynamic considerations; case studies. A-F only. Recommended: 455 or consent. (Alt. years)

**CEE 656 Marine Geotechnics (3)** Principles of geotechnical engineering applied to marine environments; marine geology; surveying and sampling methods; seabed sediment types, properties, and behavior; scour, erosion, and sediment transport; coastal and offshore foundations; seafloor stability; dredging and waste disposal. A-F only. Recommended: 455 or consent. (Alt. years)

**CEE 657 Designing with Geosynthetics (3)** An overview of geotechnical uses of geosynthetics, including product descriptions, applications, design methods, and case studies. A-F only. Recommended: 455 or consent. (Alt. years)

**CEE 658 Earth Pressures (3)** Estimation of lateral earth pressures; analysis and design of retaining walls and excavation support systems. A-F only. Recommended: 455 or consent. (Alt. years)

**CEE 659 Soil and Site Improvement (3)** Methods of improving engineering properties of soils and sites through use of mechanical stabilization, soil admixtures, pre-consolidation, deep densification, and earth reinforcement. A-F only. Recommended: 355 or 455, or consent. (Alt. years)

**CEE 660 Systems Analysis for Engineers (3)** Optimization used in design and management of systems for minimizing resources or optimizing outcomes. Evaluation of alternatives, economic efficiency and effectiveness analysis. Logistics. Open to engineering students. Computer applications and labs. Recommended: 462 or 464, or consent.

**CEE 661 Intelligent Transportation Systems (3)** Definition, technologies and their attributes. Analysis and implementation based on FHWA's User Services. Automated incident detection algorithms. Machine vision applications to traffic engineering. A-F only. Recommended: 462 or 464, or consent.

**CEE 664 Advanced Transportation Modeling and Statistics (3)** Demand modeling, discrete choice and activity-based modeling. Demand forecasting by simulation. Transportation surveys and sampling methods. Application of cluster, factor, regression, logistic and ARIMA analyses to transportation. A-F only. Recommended: 305 and 464, or consent.

**CEE 665 Pavement Design and Rehabilitation (3)** Pavement engineering with emphasis given to understanding fundamental issues such as historical development of pavement design, approaches used for design of new pavements and overlays, understanding of construction issues and their effects on pavement performance, and various design factors: environmental, loading and materials characterization. Introduction of pavement management systems. A-F only. Recommended: 461 or consent.

**CEE 671 Continuum Mechanics (3)** Cartesian tensors in mechanics; coordinate transformations; analysis of stress and strain; principal values, invariants, equilibrium and compatibility equations; constitutive relations; field equations. Problems in elasticity. Recommended: 370 or ME 371, or consent. (Cross-listed as ME 671)

**CEE 672 Project Management Systems (3)** Project integration and PMIS; organizational power; conflict, strategic, and life-cycle management in construction management; matrix structure compared to projectized structure; project success; team building; change and culture in construction organizations; competitive bidding. A-F only. Pre: consent.

**CEE 675 Structural Dynamics I (3)** Response of single and multi degree-of-freedom systems due to dynamic forces. Direct integration of equations of motion. Response spectrum analysis. Application to earthquake loading. Systems with distributed mass and elasticity. A-F only. Pre: consent.

**CEE 676 Structural Dynamics II (3)** Elastic and inelastic response of structures due to earthquakes. Seismic design criteria. Code design procedures. Advanced topics in time- and frequency-domain dynamic analysis of structures. A-F only. Pre: 675.

**CEE 677 Smart Structures Technology (3)** Fundamentals of sensor technologies for structural engineering applications. Control devices and strategies for protection of structures against extreme events, i.e. earthquakes, strong winds, etc. Structural health monitoring and smart sensor networks. Smart materials for civil structures. CE majors only. A-F only. Pre: 675. (Fall only)

**CEE 681 Modern Structural Analysis (3)** Fundamentals of modern structural analysis theory, with emphasis on frame structures. Virtual work. Member stiffness/flexibility. Matrix formulation of stiffness and flexibility methods. Computer modeling issues. Recommended: 482 or consent.

**CEE 683 Advanced Reinforced Concrete Design (3)** Slender columns; biaxial bending; combined shear and torsion. Building lateral load resisting frame analysis and design—shearwalls, rigid frames. Floor system analysis and design—flat slabs, joist systems. Computer applications. A-F only. Recommended: 485 or consent.

**CEE 685 Advanced Structural Steel Design (3)** Load and resistance factored design (LRFD); steel building modeling and analysis; moment-resisting frames; bracing systems; beam-columns; moment connections; composite construction; and plate gird-

ers. A-F only. Recommended: 482 (or concurrent) and 486, or consent.

**CEE 686 Finite Elements in Structures (3)** Finite element method in structural engineering. Extension of structural theory. Virtual work. One-, two-, and three-dimensional elements; axisymmetric elements; plate bending. Application to linear problems. Recommended: 681 or consent.

**CEE 687 Prestressed Concrete (3)** Behavior of prestressed concrete members, including prestress losses. Analysis and design of prestressed beams, slabs, and composite sections. Anchorage zone design; continuous systems. Recommended: 485 or consent.

**CEE 689 Mechanics and Design of Composite Materials (3)** Basic concepts of mechanics and design of composite materials utilizing continuous fibers embedded in polymeric matrices (Fiber Reinforced Polymers (FRP)) and short fibers randomly oriented in cementitious matrices (Fiber Reinforced Cement Composites). Repeatable two times. A-F only. Recommended: 370 or consent. (Alt. years)

**CEE 691 Seminar in Civil and Environmental Engineering (1)** Discussions and reports on literature, research, developments and activities in civil engineering. One unit of all graduate students for each graduate degree. Student presentations are required. Repeatable two times. CR/NC only. Pre: graduate standing or consent.

**CEE 695 Plan B Master's Project (3)** Independent study for students working on a Plan B master's project. A grade of Satisfactory (S) is assigned when the project is satisfactorily completed. CR/NC only. Pre: graduate standing in CEE or consent.

**CEE 696 Selected Topics in Civil and Environmental Engineering (3)** Highly specialized topics in structures, soils, hydraulics, sanitary, water resources, applied mechanics, transportation. Repeatable unlimited times. Pre: consent.

**CEE 699 Directed Readings or Research (V)** Repeatable unlimited times. Pre: consent.

**CEE 700 Thesis Research (V)** Research for master's thesis. Repeatable unlimited times.

**CEE 800 Dissertation Research (V)** Research for doctoral dissertation. Repeatable unlimited times. Pre: candidacy for PhD in civil engineering.

## Communication (COM)

### *College of Social Sciences*

#### **COM 201 Introduction to Communication**

(3) An overview of communication emphasizing intercultural, organizational and international communication and media arts with introduction to multimedia, ICTs, and public relations perspectives. **DS**

**COM 310 Media Arts (3)** Combined lecture-discussion on theories and criticism of visual media, covering aesthetic development and delivery through multimedia and cinematic principles. A-F only. Pre: 201 (or concurrent) or consent. **DA**

**COM 320 Communication and Communities (3)** Combined lecture-discussion on communication within organizational communities and between organizations and their communities with attention to intercultural issues in local, global, and online interactions. Pre: 201 (or concurrent) or consent. **DS**

**COM 330 Information and Communication Technology Concepts (3)** Combined lecture-discussion on basic technical concepts related to ICTs embedded in sociocultural context. Pre: 201 (or concurrent) or consent.

**COM 331 Techniques of Video and Digital Cinema (3)** Orientation to techniques of production. Emphasis on history, language, and theory of the creative process and application to video productions and multimedia. Pre: 310 or consent.

**COM 337 Techniques of Multimedia (3)** Combined lecture-lab providing an orientation to, and examination of, procedures and techniques of multimedia. Emphasis on new media literacy, human-

computer interaction, and basic design of electronic multimedia. Pre: 310 or consent.

**COM 340 Intercultural Communication (3)** Problems and opportunities of communication in a variety of intercultural contexts. Focus on theory, research, and managing intercultural effectiveness. Pre: COM major or consent. **DS**

**COM 350 Mediated Interpersonal Communication (3)** Theory and practice of interpersonal communication from a social science perspective. Pre: COM major or consent. **DS**

**COM 390 (Alpha) Journalism/Communications Workshops (V)** Short-term intensive workshops in journalism and mass communication skills and projects. (B) workshop in new media; (C) workshop in reporting; (D) workshop in editing; (E) workshop in broadcast journalism; (F) workshop in public relations. Repeatable in different alphas up to 6 credits. COM or JOUR majors only. Pre: consent. (Cross-listed as JOUR 390)

**COM 401 Survey of Inquiry Methods in Communication (3)** Exploration of quantitative and qualitative research methods commonly used in communication studies and related professional work. Pre: COM major or consent. **DS**

**COM 420 Communication in Multicultural Organizations (3)** Cultural diversity in multicultural and multinational organizations is examined regarding communication-related aspects of working life. Pre: 320 and 340, or consent. **DS**

**COM 421 Public Relations Strategies (3)** Practice and effects of public relations. Strategic management, techniques, new communication technologies, diverse publics, ethics, and social responsibility will be emphasized. A-F only. Pre: COM major or consent.

**COM 422 Public Relations Tactics (3)** Students apply principles of effective and ethical writing to traditional and social media assignments likely to be encountered in modern public relations. COM majors only. A-F only.

**COM 431 Studio Production (3)** Studio production ranging from three-camera studio production to broadcast and magazine show formats to on-line web production. Fundamental knowledge of lighting, sound, blocking, and equipment competency. Pre: COM major or consent.

**COM 432 Information and Communication Technology Services (3)** Combined lecture-discussion on situated use of ICTs in various personal and institutional settings. Pre: COM major or consent.

**COM 433 Video Scriptwriting (3)** Application of communication theory to creating and revising commercial and dramatic script material for video production. Pre: 331 or consent.

**COM 436 Media Effects (3)** Social, political, economic, and cultural effects of broadcast media are examined to understand their impact on human behavior. Pre: COM major and junior standing, or consent.

**COM 438 Telecommunication in the Pacific Hemisphere (3)** Development of international telecommunication, with special emphasis on the evolution of wireless communication and the internet. Pre: COM major or consent. **DS**

**COM 444 Communication and Gender (3)** Theories, myths, and the missing links in gendered communication. Application of established and emerging theories of gender and communication to interpersonal, organizational, intercultural, and mass communication. Pre: COM major and junior standing, or consent. **DS**

**COM 451 Communication and Law (3)** Role of communication in the legal process; impact of law on communication processes. Pre: COM major and junior standing, or consent. (Cross-listed as JOUR 365) **DS**

**COM 452 Building Communication Theory (3)** Major theories of communication in terms of requirements for a theory, theory development, as-

sociated research, and application. Pre: COM major and junior standing, or consent. **DS**

**COM 459 Special Topics (3)** Topics of interest to faculty and students; taught by regular and visiting faculty. Repeatable on different topics to six credit hours. COM majors only. Pre: COM/JOUR major and junior standing, or consent. (Cross-listed as JOUR 459)

**COM 460 Media Ethics (3)** Ethics and social responsibility for media professionals. Application of ethical theories and principles to case studies and research projects. A-F only. Pre: any 300-level course COM or JOUR and junior standing; or consent. (Cross-listed as JOUR 460)

**COM 475 Global Communication (3)** Problems and opportunities of communication in a variety of international contexts. Focus on commerce, diplomacy, and mass communication. COM majors only. Pre: COM/JOUR major or consent. (Cross-listed as JOUR 475) **DS**

**COM 476 Capstone in Digital Cinema Production (3)** Creating, scripting, and producing complex programs. Media aesthetics and professional production, preparation, and execution are emphasized. COM majors only. A-F only. Pre: 310 and 320 and 330 and 331, or consent.

**COM 477 Capstone in Interactive Multimedia Design and Development (3)** Design, development, and evaluation of interactive computer-based multimedia communication. Emphasizes authoring and production of such multimedia elements as full-motion images, audio, and graphics. COM majors only. A-F only. Pre: 310 and 320 and 330 and 337, or consent.

**COM 478 Capstone in Communication in Communities (3)** Synthesize knowledge, apply research findings in service to community, and develop proposal for intervention or campaign. COM majors only. A-F only. Pre: 310 and 320 and 330; and 340 or 421; or consent.

**COM 479 Capstone Project in ICTs and Policy (3)** Focus on specific ICT and policy problems related to Hawai'i and the Asia-Pacific region. COM majors only. A-F only. Pre: 310 and 320 and 330; and 432 or 438; or consent.

**COM 480 Communication Seminar (3)** Application of theoretic and methodological criteria to researchable questions. Topics will vary. Pre: 201 and senior standing, or consent.

**COM 489 Communicating Creativity (3)** The role of communication in fostering or inhibiting creativity. Exploration of theoretical bases for shared scientific or artistic creativity in communication research. COM major or consent. Pre: 201 and senior standing, or consent. (Once a year)

**COM 490 Senior Thesis Project (3)** Completion of the thesis project appropriate to the selected area of concentration within the context of a seminar. Emphasis on ongoing process of writing, editing, review, and revision. Pre: COM major and senior standing, or consent.

**COM 495 (Alpha) Communication Internship (V)** Application of communication skills and knowledge. (B) community setting; (C) School of Communications activity. Under faculty supervision, interns participate in operations of an organization and analyze communication processes and effects. Maximum of three credits per semester; six credits total toward major; each alpha repeatable up to three credits. Pre: COM major or consent.

**COM 499 Special Problems (V)** Independent study of selected topics under faculty supervision. Repeatable up to three credits. Pre: COM major and junior standing, or consent.

**COM 500 Master's Plan B/C Studies (1)**

**COM 611 Communication Theories (3)** Systematic study of major theories of communication and current status of communication research.

**COM 612 Communication Inquiry (3)** Introduction to inquiry and the array of quantitative and qualitative research methods commonly used in communication.

**COM 623 Strategic Organizational Communication (3)** Theories, concepts, and applications of strategic communication and public relations to achieve organizational goals. Pre: 611 (or concurrent) or consent.

**COM 633 Information and Communication Technologies (3)** Information and communication technologies, structures, processes, and networks as an area of research and study in the social sciences. Pre: 611 (or concurrent) or consent.

**COM 634 Social Media (3)** Systematic study from a social science perspective of current and emerging social media. Attention to user needs and impact. Pre: 612 (or concurrent) or consent.

**COM 643 Intercultural Communication (3)** Problems and opportunities of intercultural communication from theory and research, consulting and training, and policy and program perspectives. Pre: 611 (or concurrent) or consent.

**COM 644 Global Communication and Journalism (3)** Analysis of the emerging global media landscape as digital technologies enable the sharing of news, information, and commentary across geographical and cultural borders. Focuses on causes, characteristics, and consequences. Pre: 612 (or concurrent).

**COM 646 Intervention in Multicultural Organizations (3)** Describes the array of communication-related intervention programs designed to enhance effectiveness in multicultural organizations at home and abroad. A-F only. Pre: 623 or 643 or consent.

**COM 660 ICT Policy and Planning (3)** Processes and methods of planning appropriate to the information and communication sectors, including future economic, social, political, technical, and environmental perspectives. Pre: 611 (or concurrent) or consent.

**COM 691 Communication Topics (3)** Coverage in depth of some area of theory and research. Repeatable one time. Pre: 611 or consent.

**COM 695 Communication Practicum (V)** Supervised work experience, study of an organization, and career planning. Required of Plan B students in the main communication program. Repeatable up to six credits. CR/NC only. Pre: 611 and 612, or consent.

**COM 699 Directed Reading and Research (V)** Individual reading and/or research. Repeatable up to six credits. Pre: consent.

**COM 700 Thesis (V)** Repeatable up to six credits. Pre: 611 and 612, or consent.

## Communication and Information Sciences (CIS)

### Interdisciplinary Programs

**CIS 699 Directed Reading and/or Research (V)** Repeatable unlimited times.

**CIS 701 Communication/Information Theories of Society (3)** A critical review of major theoretical and empirical traditions in communication and information sciences. Focus on European, American, Third World, and applied research. Pre: consent.

**CIS 702 Communication/Information Technologies (3)** Technological concepts underlying data communications; information processing and computers; communication channels and networks, information storage and retrieval, and computer hardware and software. Pre: consent.

**CIS 703 Communication/Information Research Methods (3)** Current research methodologies in decision sciences, computer science, library science, and communication. Emphasis on methodologies suitable for interdisciplinary analysis. Pre: consent.

**CIS 704 Special Topics in Communication and Information Sciences (V)** Seminar reflecting

research interests of faculty and current interdisciplinary topics in communication and information sciences. Repeatable unlimited times. Graduate students only.

**CIS 720 Interdisciplinary Seminar in Communication and Information Sciences (1)** Exploration of relationships between disciplines in social sciences, science and technology, and humanities. Faculty and student presentations. Repeatable unlimited times. CR/NC only. Pre: consent.

**CIS 799 Directed Reading and/or Research (V)** Individualized program of directed reading and/or research outside the scope of regularly titled courses. Pre: consent. Plan must include goals and rationale.

**CIS 800 Dissertation Research (V)** Repeatable unlimited times.

## Communication Sciences and Disorders (CSD)

### School of Medicine

**CSD 431 Anatomy and Physiology of the Speech and Hearing Mechanism (3)** Will overview anatomy and physiology of speech and hearing. Students gain exposure to structures and functions of respiration, phonation, resonance, articulation, deglutition, and hearing systems required for normal communication and swallowing. Repeatable unlimited times. A-F only. (Fall only)

**CSD 432 Phonetics (3)** Introduction to the fundamentals of phonetic and phonological development. International Phonetic Alphabet transcription of English speech sounds; phonological developments and models; cultural variations; analysis interpretation and other considerations related to speech sound development and production. Repeatable unlimited times. A-F only. (Fall only)

**CSD 433 Speech and Language Development (3)** Will develop an understanding of children's acquisition of speech, language, and normal communication development from birth through adolescence. Repeatable unlimited times. A-F only. (Fall only)

**CSD 434 Acoustics and Psychoacoustics of Speech and Hearing (3)** Provides an understanding of the fundamental processes underlying the production and perception of speech. Students gain an understanding of the physical and psychological aspects of sound and their measurement. Repeatable unlimited times. A-F only. (Spring only)

**CSD 435 Introduction to Clinical Methods in Communication Sciences and Disorders (3)** Provides observation and discussion of the clinical management of individuals with communication disorders, and practical experience related to clinical procedures and requirements. Repeatable unlimited times. A-F only. (Spring only)

**CSD 436 Introduction to Communication Sciences and Disorders (3)** Information and theoretical foundations serve as an introduction to the field of communication disorders. Will provide an overview of the normal processes and disorders of speech, language, hearing, and swallowing. Repeatable unlimited times. A-F only. (Spring only)

**CSD 437 Introduction to Audiometry and Auditory Disorders (3)** Covers anatomy and physiology of the auditory system, acoustic, basic knowledge of auditory disorders and testing procedures, and introduction to rehabilitative audiology. Repeatable unlimited times. A-F only. (Summer only)

**CSD 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Repeatable unlimited times. Pre: master's Plan B or C candidate and consent.

**CSD 600 Research Methods (3)** Research methods applicable to the field of speech-language pathology and audiology; analysis and reporting of data. Required of all CSD graduate students. Pre: previous coursework in inferential statistics and consent.

**CSD 601 Neuroscience in Communication Sciences and Disorders (3)** Explores the neuroanatomy

and neurophysiology of the human nervous system as it relates to communication and swallowing and how neurological pathologies lead to behavioral deficits in those areas. CSD majors only. A-F only. (Fall only)

**CSD 603 Audiological Foundations for Speech-Language Pathology (3)** Instrumentation; special tests of hearing.

**CSD 604 Seminar in Motor Speech Disorders (3)** Provides in-depth examination of various motor speech disorders, including apraxia of speech and dysarthria. Emphasis is on assessment/treatment of these diagnoses. Review of current treatment literature, anatomy/physiology, practical exercises in treatment planning. A-F only. Pre: consent.

**CSD 610 Disorders of Phonology and Articulation (3)** Study of the etiology, assessment, and remediation of disorders and articulation.

**CSD 612 Child Language Disorders (3)** Study of the etiology, behavioral characteristics and treatment methods for child language disorders. Examination of methods, test, and instruments employed in diagnosis of child language disorders. Includes identification of language deficits and writing intervention goals. Pre: consent.

**CSD 613 Language Development for Children with Hearing Deficiencies (3)** Language acquisition by hard-of-hearing and deaf children; methods of stimulating growth. Pre: consent.

**CSD 616 Advanced Practicum in Speech Pathology I (1)** Clinical practice in diagnostic and therapeutic procedures with various types of speech and language problems in different clinical settings. Repeatable unlimited times.

**CSD 617 Audiology Practicum for Speech-Language Pathology (1)** Clinical practice in administering tests, interpreting results; counseling of individuals with impaired hearing; use of various rehabilitation techniques. Repeatable unlimited times. Pre: consent.

**CSD 620 Voice Disorders (3)** Contemporary development and theoretical issues in the diagnosis, evaluation, and treatment of vocal system disorders in children and adults; current literature and clinical practice issues are addressed. Pre: consent.

**CSD 622 Aphasia and the Dementias (3)** Study of acquired aphasia in adults and the characteristics and progression of disorders of dementia. Procedures for clinical intervention, current literature review, and related professional issues. Pre: consent.

**CSD 695 Research-Speech Pathology (1)** Required of all CSD graduate students following the non-thesis (Plan B) program and emphasizing speech-language pathology. Repeatable three times. Pre: 600 and consent.

**CSD 696 Research-Audiology (3)** Required of all CSD graduate students following the non-thesis (Plan B) program and emphasizing audiology. Pre: 600 and consent.

**CSD 699 (Alpha) Directed Study (V)** To allow student and faculty advisor to design research/study units outside existing academic structure in specialized area. Repeatable unlimited times. (B) language pathology; (C) audiology. Pre: 603 for (C).

**CSD 700 Thesis Research (V)** Repeatable unlimited times. Pre: consent.

**CSD 701 Amplification: Assessment and Applications (3)** Comprehensive study of amplification. Assessment, fitting, evaluation, electroacoustic evaluation, dispensing. Personal instruments and instructional-educational systems. Pre: 603 and consent.

**CSD 702 Disorders of Fluency (3)** Contemporary developments and theoretical issues in diagnosis, evaluation, and treatment of disorders of fluency such as stuttering in both children and adults.

**CSD 703 Electrophysiologic Audiometry (3)** Study of early, middle, and late auditory evoked potentials with emphasis on the auditory brainstem response. Pre: 603 or consent.

**CSD 708 Seminar in Right Hemisphere Brain Damage and Traumatic Brain Injury (3)** Traumatic brain injury and right hemisphere communicative disorders are explored with emphasis on assessment and treatment of individuals with these diagnoses. Review of current treatment literature, communication and cognitive theories, and practical exercises in treatment planning. Pre: 622 and consent.

**CSD 709 Dysphagia: Disorders of Swallowing (3)** Explores the dynamics of normal and disordered swallowing across the life span with emphasis on the adult population. CSD majors only. A-F only. Pre: 604 (with a minimum grade of B-). (Summer only)

**CSD 710 (Alpha) Special Topics in Audiology and Speech-Language Pathology (3)** (B) study of contemporary developments in speech/language pathology; (C) study of contemporary developments in audiology. Repeatable for credit for different alphas unlimited times. Pre: consent.

**CSD 716 Advanced Practicum in Speech Pathology II (2)** Clinical practice in diagnostic and therapeutic procedures with various types of speech and language problems in different clinical settings. Repeatable unlimited times.

**CSD 717 Advanced Practicum in Audiology II (2)** Clinical practice in administering tests and interpreting results; counseling individuals with impaired hearing; use of various rehabilitation techniques. Repeatable unlimited times. Pre: 603, 617, and consent.

**CSD 721 Seminar in Audiology—Diagnostic Procedures (3)** Study of diagnostic procedures as reflected in current literature. Pre: 603 and consent.

**CSD 723 Seminar in Audiology—Rehabilitative Procedures (3)** Procedures and philosophies presented in recent literature dealing with rehabilitative phases of audiology. Pre: 603 and consent.

**CSD 724 Advanced Practicum in Speech Pathology III (V)** Clinical practice in diagnostic and therapeutic procedure with various types of speech and language problems in different clinical settings. Repeatable unlimited times.

**CSD 725 Advanced Practicum in Audiology III (3)** Clinical practice in administering tests and interpreting results, counseling of individuals with impaired hearing; use of various rehabilitation techniques. Repeatable unlimited times. Pre: 603, 617, 717, and consent.

## Communicology (COMG) formerly Speech (SP)

*College of Arts and Humanities*

**COMG 151 Personal and Public Speech (3)** Develops communication skills necessary to function effectively in today's society. Students will enhance their communication skills in one-on-one situations, public speaking, and small group situations. Ideal for new majors and non-majors. **DA**

**COMG 170 Introduction to Nonverbal Communication (3)** Beginning course on the fundamental components of nonverbal communication. Aspects of body movements, facial expressions, eye behavior, physical appearance, voice, touch, space, smell, time, and environmental features will be examined in a lecture/discussion format. Extensive practice in skills. **DS**

**COMG 181 Introduction to Interpersonal Communication (3)** Introduction to basic principles of interaction between two people. Emphasis is on enhancement of skills in a variety of interpersonal contexts. **DS**

**COMG 185 Multicultural Communication Skills (3)** Expose students to practical skills needed for effective intercultural communication. Offer guidelines for improvement in diverse cultural settings such as business, education, counseling, and healthcare. **DS**

**COMG 251 Principles of Effective Public Speaking (3)** Combined lecture/laboratory providing extensive practice in preparing and presenting effective public speeches with special emphasis on

organization, outlining, audience analysis, analytical reasoning, and delivery skills. **DA**

**COMG 290 Interviewing (3)** Principles and practice; training in informational, persuasive, employment, appraisal, and research interviewing. Pre: one of 151, 170, 181, 185, 251 or 301; or consent.

**COMG 301 Introduction to Communicological Theories (3)** Introduction to the theoretical perspectives that are the foundations of the communication discipline. Pre: one of 151, 170, 181, 185, or 251; or consent. **DS**

**COMG 302 Research Methods (3)** Introduction to methods of inquiry in the field of communication. Topics include research design and problem formulation, sampling, analytic and observational techniques, and data interpretation. COMG majors only. Pre: 200-level COMG course (or concurrent) or consent. **DS**

**COMG 321 Speech for Classroom Teachers (3)** Analysis of and practice in using major models of communication in the classroom. Role of communication in various academic disciplines as needed by teachers. Pre: one of 151, 170, 181, 185, 200, 251, or 301; or consent.

**COMG 333 Storytelling (3)** Aesthetic communication through storytelling for entertainment and education. Oral tradition; analysis of story types; techniques of preparation and presentation; performance. Pre: one of 151, 170, 181, 185, 251 or 301; or consent. **DA**

**COMG 335 Story Theater (3)** Techniques and procedures for staging and performing narrative fiction. Pre: one of 151, 170, 181, 185, 251 or 301; or consent. **DA**

**COMG 351 Professional Presentations (3)** Extends application of public speaking skills to professional contexts: group sales, press conferences, and corporate annual reports. Emphasis on organization, preparation, and delivery. Pre: 251 or consent.

**COMG 352 Group Decision-Making and Leadership (3)** Study of decision-making within the small group. Effects of organization, leadership, membership, and goals on achieving group purposes. Pre: one of 151, 170, 181, 185, 251 or 301; or consent.

**COMG 353 Argumentation and Debate (3)** Adapting communication theory to forensic strategies for social action. Practice in formal argument. Pre: one of 151, 170, 181, 185, 251 or 301; or consent.

**COMG 361 Leadership and Organizational Communication (3)** Principles and practices of organizational communication and its relationship to networks, leadership, power, conflict, cultures, and other contemporary views of organizational work, change, and development. Pre: one of 151, 170, 181, 185, 251 or 301; or consent. **DS**

**COMG 364 Persuasion (3)** Theories, concepts, strategies, and processes of persuasion and social influence in contemporary society. Focus on analyzing, developing, and resisting persuasive messages. Pre: one of 151, 170, 181, 185, 251 or 301; or consent. **DS**

**COMG 371 Message Processing (3)** Introduction to theory and research on human communication, comprehension, creation of understanding. Discussion of codes and media, information and message processing theories. Topics include inference-making, implicature, natural language processing, and deception. Junior standing or higher. **DS**

**COMG 380 Family Communication (3)** Focuses on the role of interaction patterns (both constructive and destructive) in the evolution of family communications. The impact of family dynamics upon these interaction patterns is given equal attention. Pre: one of 151, 170, 181, 185, 251 or 301; or consent. **DS**

**COMG 381 Interpersonal Relations (3)** Theory and research on the development, maintenance, and termination of interpersonal relationships. Pre: one of 151, 170, 181, 185, 251 or 301; or consent. **DS**

**COMG 385 Culture and Communication (3)** Survey of major factors affecting interpersonal communication between members of different cultures. Emphasis upon interaction between U.S. and Asian-Pacific peoples. Pre: one of 151, 170, 181, 185, 251 or 301; or consent. **DS**

**COMG 386 Special Topics in Culture and Communication (3)** Contemporary research and theory on intercultural communication. Pre: one of 151, 170, 181, 185, 251 or 301; or consent. **DS**

**COMG 390 Interrogation and Interviewing (3)** Survey of theory and research on the communicative demands of obtaining reliable information from others. Pre: one of 151, 170, 181, 185, 251 or 301; or consent. **DS**

**COMG 395 Research on Communication Behavior (3)** Survey of research on communication behavior. Verbal and nonverbal data collection; analysis of research data. Students design and implement a research project. Repeatable three times. Pre: 301 and 302. **DS**

**COMG 399 Internship (V)** Analysis and application of communication knowledge and behaviors in organizational settings. Repeatable up to six credits. A-F only. Pre: consent.

**COMG 453 Practicum in Debate and Forensics (V)** Practicum focused on competitive intercollegiate forensics activities including evidence and parliamentary debate, the interpretation of literature, and platform speaking. Includes diverse non-competitive forensics activities such as judging and organizing debate tournaments. Repeatable up to six credits. CR/NC only. Pre: 353 or consent.

**COMG 454 Political Communication (3)** Survey of interpersonal and mass communication theories in the political context. Topics may include communication in public opinion processes, elections, debates, political campaigning and advertising. Pre: upper division standing or consent. **DS**

**COMG 455 Conflict Management (3)** Examination of the theories, assumptions, practices, models, and techniques of managing interpersonal conflicts. Pre: one of 151, 170, 181, 185, 251, 301 or 381. **DS**

**COMG 464 The Evolution of Public Discourse in the Digital Era (3)** Analysis of evolving public discourse in and about cyberspace; focus on changes in civic engagement and sociopolitical involvement from digital technology use; discussion of social and semantic networks. Pre: 364 or consent. **DS**

**COMG 465 Theories and Research in Strategic Communication (3)** An in-depth overview of theories related to strategic communication and scientific approaches to attitude formation and changes. Junior standing or higher. Pre: 301 or 364 or consent. **DS**

**COMG 470 Nonverbal Communication (3)** Understanding communication beyond the words themselves. Review of theory and research on gestures, facial expressions, touch, personal space, and physical appearance. Pre: 151, 170, 181, 185 or 251; or consent. **DS**

**COMG 471 Verbal Communication (3)** Roles of language; perception and assumption in human relationships; relation of language symbols to emotion and attitudes. Pre: upper division standing or consent. **DS**

**COMG 472 Deceptive Communication (3)** Survey of major social scientific theories, concepts, and research findings on deceptive communication, in a lecture/discussion format. Emphasis is on how people create deceptive messages, induce deception, and strategies used to detect deception. Junior standing or higher. Pre: 301 or 302 or consent. **DS**

**COMG 481 Relational Management (3)** Survey and critical discussion of current theory and research in relational management literature. Focus on conversation management, deception, jealousy, privacy, communication of emotions. Pre: 301 or 302 (or concurrent), and 381; or consent. **DS**

**COMG 490 Communication in Helping Relationships (3)** Theory and application of personal

and interpersonal elements affecting communication of human-service professionals. Supervised practice, video lab. Pre: one of 151, 251 or 301 or PSY 100. (Cross-listed as PSY 477) **DS**

**COMG 493 Teaching Speech (6)** For communication majors who lead, under supervision, a freshman seminar section of communication. Pre: senior standing and consent.

**COMG 495 Health Communication (3)** Develop understanding of how communication functions to facilitate or inhibit the delivery of health care in a variety of contexts. Focus on compliance process, physician-patient interaction, nurse-physician interaction. Pre: 364 or 381, or consent. **DS**

**COMG 499 Directed Reading (V)** Pre: consent of department chair and instructor.

**COMG 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Repeatable two times. Pre: master's Plan B candidate and consent.

**COMG 601 Theories in Communicology (3)** Major theoretical foundations; humanistic and social scientific perspectives. Examination of the research and the development of different models of human communication. COMG majors only. Pre: graduate standing in COMG, or consent.

**COMG 602 Research Methods in Communicology (3)** Design and analysis of quantitative research in communication. Focus on measurement issues, research design, descriptive and inferential statistics. COMG majors only. Pre: graduate standing in COMG, or consent.

**COMG 620 Practicum for Instructional Communication (1)** Combined seminar and lecture/discussion format on techniques and procedures for teaching communication skills and their related components in a laboratory setting. CR/NC only. Repeatable three times. COMG majors only. Pre: COMG GTA or consent.

**COMG 660 Business Communication (3)** Analysis of communication issues in business through discussion of verbal/nonverbal messages, interpersonal relationships, conflict, and persuasion. Focus on interviewing, group communication, and public speaking skills. Pre: 601 (or concurrent) or 602 (or concurrent), or consent.

**COMG 664 Persuasion and Social Influence (3)** Theories of persuasion and resistance to persuasion; assessment of attitudes and measurement of change. Pre: 601 (or concurrent) or 602 (or concurrent) or consent.

**COMG 670 Message Processing (3)** Theories of human message processing. Effects of verbal and nonverbal codes, channels, and message forms on encoding and decoding. Pre: 601 (or concurrent) or 602 (or concurrent); or consent.

**COMG 681 Relational Communication (3)** Major models and theories of interpersonal communication; research on interpersonal relationships; interaction and functions of human discourse. Pre: 601 (or concurrent) and 602 (or concurrent); or consent.

**COMG 685 Foundations of Intercultural Communication (3)** Major models, theories, and concepts of intercultural communication; basic methodological and analytical issues of research related to intercultural communication; research on intercultural communication. Graduate standing only. A-F only. Pre: 601 (or concurrent) and 602 (or concurrent); or consent.

**COMG 699 Directed Research (V)** Repeatable unlimited times. Only three credits can count toward degree.

**COMG 700 Thesis Research (V)** Repeatable three times.

**COMG 702 Researching Relational Communication (3)** Methodological and analytical issues of research related to relational communication. Focus on repeated measures, multivariate analysis, longitudinal analysis, and reliability and validity issues. Pre: 602 or consent.

**COMG 721 Approaches to Instructional Communication (3)** Communication theories and models in instructional environment; emphasis on development training in educational settings. Pre: 601 (or concurrent) or 602 (or concurrent), or consent.

**COMG 752 Research in Group Communication (3)** Theory, concepts, research, and application of small group communication processes and decision-making. Pre: 601 (or concurrent) or 602 (or concurrent), or consent.

**COMG 764 Seminar in Persuasion and Influence (3)** Contemporary research in persuasion and influence. Repeatable two times. Pre: 664 (or concurrent) or consent.

**COMG 770 Issues in Message Processing (3)** Contemporary research in verbal and nonverbal message processing. Repeatable one time. Pre: 601 (or concurrent) or 602 (or concurrent), or consent.

**COMG 781 Seminar in Relational Communication (3)** Contemporary research in interpersonal relations. Repeatable one time. Pre: 681 or consent.

**COMG 785 Research on Intercultural Communication (3)** Functional approach to the study of communication in intercultural settings. Examination of culture-based variables and their impact on social influence, relational management, and message processing. Repeatable one time. Pre: 664, 670 or 681; or consent.

**COMG 795 Seminar in Health Communication Research (3)** Contemporary interpersonal and/or public communication issues in health communication research. Topics include communication functions such as information management, interpersonal influence, relational management, emotional management, social influence. Repeatable one time. Pre: 664, 670 or 681; or consent.

## Complementary and Alternative Medicine (CAAM)

### School of Medicine

**CAAM 595 Nutrition for Clinicians (1)** Provides in-depth lectures and case studies reviewing the role of nutritional therapy in health and illness. MD majors only. CR/NC only. Pre: MDED 554 or consent. (Fall only)

**CAAM 599 Research Topics in Complementary and Alternative Medicine (V)** Research elective for medical students. MD students only. CR/NC only. Pre: MDED 554 or consent. (Fall only)

## Curriculum Studies (EDCS)

### College of Education

**EDCS 415 Foundations in the Field of Early Childhood Education (Birth to 8 Years) (3)** Emphasizes interrelated historical and philosophical roots and socio-cultural context and their influence on policy and practice in early childhood education settings. A-F only. Pre: FAMR 331 or consent.

**EDCS 415L Foundations in the Field of Early Childhood Education (Birth to 8 Years) Lab (3)** Direct experience with children in early childhood settings in order to apply concepts from 415 and gain perspective on the role of the practitioner in ECE settings.

**EDCS 416 Early Childhood: Foundations and Curriculum (3)** Continuation of 415: focuses on the design, implementation, evaluation of meaningful, challenging integrated curriculum that promotes comprehensive developmental and learning outcomes for diverse young children (pK-3). Pre: 415 or consent. (Cross-listed as ITE 416)

**EDCS 416L Early Childhood: Foundations and Curriculum Lab (3)** Continuation of 415L. Co-requisite: 416. (Cross-listed as ITE 416L)

**EDCS 431 Collaborative Language and Learning (3)** Examination of language (talking, reading, and writing) processes within a collaborative teaching

framework in the secondary curriculum. Field experience may be required.

**EDCS 432 Adolescent Literature and Literacy (3)** Selection and interpretation of young adult literature, including multicultural literature for middle level and high school students. Theory and teaching strategies for integrating literacy instruction in the literature program for diverse student populations. A-F only.

**EDCS 433 Interdisciplinary Science Curriculum (3)** Conceptual schemes and processes for integrating science curricula within the sciences and with subject areas. Methods and models of curricular integration such as interdisciplinary, culturally relevant, place and community-based learning. Repeatable one time.

**EDCS 440 Curriculum Implications of Multicultural Education (3)** Examination of trends, issues, school practices, and program in multicultural education and its related area of study—bilingual-bicultural education. (Cross-listed as ITE 440)

**EDCS 450 Methods and Materials in Science (3)** Selecting and using methods and materials, demonstrations and simulations, open-ended experimentation, inquiry and discovery, task analysis measurement tools and techniques, activities from various curricula, opportunity for individualized goals and projects. Repeatable one time. Pre: ITE 323, ITE 404(H), teaching experience; or consent.

**EDCS 451 Programs for Infants/Toddlers (3)** Examination of current theory, research, issues, and models in programs for infants and toddlers, including criteria for evaluation and planning. Pre: FAMR 230 (or concurrent), FAMR 331 (or concurrent); or consent. (Cross-listed as SPED 451)

**EDCS 453 Gender Issues in Education (3)** Examination of current and historical issues in education and how they are impacted upon by gender, with particular reference to gender as it intersects with ethnicity and class, locally and globally. Pre: WS 151 or consent. (Cross-listed as EDEF 453 and WS 453) **DS**

**EDCS 471 Special Problems in Home Economics Education (2)** Individual and group problems selected according to interests and needs of fourth- and fifth-year students in home economics education. Development of teaching materials.

**EDCS 480 Issues in Computer Education (3)** Integration of microcomputers into school curriculum and key issues related to microcomputer use in education. Pre: ETEC 442 or consent. (Cross-listed as ITE 480)

**EDCS 494 Problem Solving in Mathematics Education (3)** Experiencing and learning to teach heuristics of solving mathematical problems; designing curricula, classroom organization, evaluative measures for problem solving. Pre: consent.

**EDCS 495 Difficulties in Learning Mathematics (3)** Identification, analysis, and remediation of difficulties in learning mathematics. Pre: consent.

**EDCS 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: Master's Plan B or C candidate and consent.

**EDCS 600 Language, Learning and Teaching (3)** Examines the role that language plays in the social construction of knowledge within various disciplines, K-adult. Collaborative group learning strategies will be modeled. A-F only. Pre: student teaching or teaching experience or consent.

**EDCS 601 Advanced Topics in Reading (3)** Current theories and teaching strategies of reading throughout the life span within various social contexts. Topics include emergent literacy, critical comprehension, meta-linguistic awareness, monolingual-bilingual literacy, evaluation. Must have had student teaching or teaching experience. Pre: undergraduate course in reading.

**EDCS 602 Advanced Topics in Writing and Oral Language (3)** Examines language and literacy learning in the context of an integrated language arts approach to curriculum and instruction. Emphasis

on oral and written language. Must have student teaching or teaching experience. Pre: undergraduate course in language arts.

**EDCS 603 Children's Literature in the Elementary Curriculum (3)** In-depth examination of traditional and modern literature for children, with emphasis upon genre, historical development, research, curriculum development. Pre: undergraduate course in reading.

**EDCS 604 Effective Writing Practices (6)** Analysis and practical application of principles and strategies of effective writing and informed writing instruction in K-12 classrooms. Pre: teaching experience and consent. (Summer only)

**EDCS 605 Reading Supervision and Leadership (3)** Examines varied roles and responsibilities of the reading specialist, including literacy intervention, development and evaluation of curriculum, instruction and professional in-services, and leadership. A-F only. Pre: consent.

**EDCS 606 Introduction to Research in Curriculum and Teaching (3)** Classroom-based research covers the fundamentals of qualitative, quantitative, Action Research, mixed methods, and Curriculum Based Assessment. Exploratory, explanatory, and confirmatory research will be highlighted culminating in an outline for Plan B/Thesis proposal. (Cross-listed as DIS 606)

**EDCS 607 New Literacies, Schooling, and Culture (3)** New approaches to analyzing 21st century new literacy theory and pedagogy K-12, including visual, media, digital, and critical literacies that address these new linguistic and interrelated meaning-making systems of communication within hypermediated cultures. A-F only.

**EDCS 608 Literacy Across the Disciplines, K-12 (3)** Explores theoretical and practical principles of literacy across academic disciplines K-12, investigating the role of language and literate practices of reading writing, speaking, visualizing, and representing in social, cultural, and educational contexts. Graduate students only. A-F only.

**EDCS 610 Early Career Teaching, K-12 (3)** Focuses on research and practice related to the first five years of teaching. Especially recommended for beginning teachers and graduate students interested in this stage of teaching development. Repeatable one time.

**EDCS 617 Early Literacy and Language Development (3)** Theory and practice for PK-3 early literacy and language development. Focus is on content knowledge and pedagogical strategies that support the optimal development of oral language, reading, and writing skills in PK-3 classrooms. A-F only.

**EDCS 618 Early Childhood Education: Advanced Topics (3)** Analysis and practical application of selected early childhood education program and/or instructional materials. Restricted to majors. Repeatable two times. Pre: 415 and 416, or consent.

**EDCS 622 (Alpha) School Curriculum (3)** Development and improvement of curriculum. (B) early childhood; (D) middle school; (G) K-14. Pre: teaching experience or consent.

**EDCS 623 (Alpha) Science and Science Curriculum (3)** Application of recent developments in science, curriculum construction, and learning theory to pre-kindergarten, elementary, middle level, and secondary schools. Science philosophy, content and methodology stressed. (B) elementary; (C) secondary; (D) inquiry and nature of science; (E) science literacy. May be repeated one time in different alphas.

**EDCS 624 School Mathematics Curriculum (3)** Analysis of research related to teaching and learning school mathematics, application of research to classroom practices. Appraisal of recent curriculum trends; critical examination of assumptions underlying proposed curriculum changes. Pre: teaching experience or consent.

**EDCS 625 Social Studies Curriculum (3)** Examination and evaluation of social science content,

societal values and research findings as basis for development and revision of social studies materials, texts, curriculum guides, methodology. Pre: ITE 322 or equivalent, social studies teaching experience, or consent.

**EDCS 626 Art in Elementary Education (3)** Principles of and problems in teaching art in elementary school; curriculum development and current approaches in art education; laboratory experiences in art media. Pre: student teaching or teaching experience.

**EDCS 628 Function of Play in Early Childhood Education (3)** Review of research and theory illuminating the nature, purposes, and meaning of play as a critical aspect of early childhood education. (Summer only)

**EDCS 630 Cultural Diversity and Education (3)** Examines issues, theories, perspectives and practices in multicultural education and promotes awareness, encourages knowledgeable reflection and develops skills necessary for multicultural practitioners. A-F only. (Cross-listed as EDEF 630)

**EDCS 632 Qualitative Research Methods (3)** Methods of qualitative research in education or related social science from an interdisciplinary framework.

**EDCS 638 (Alpha) Curriculum and Instruction in Studio Art (3)** Understanding art methods and materials related to art education for teachers grades K-12. Writing curricula, integrating visual arts across the curriculum, developing evaluation methods observing stages of artistic growth among students of multiple ages/abilities. (B) painting, drawing, printing; (C) fiber arts, ceramics, sculpture; (D) photography, technology, collage; (E) Combination of any three of B, C, and/or D. Previous BA, BS, BE, and BFA only. Repeatable two times. A-F only. Pre: teaching experience or consent. (Once a year)

**EDCS 639 Business and Marketing Education Curriculum (3)** Theory, philosophy, objectives, and development of business and marketing education curriculum. Pre: ITE 390D or consent.

**EDCS 640 (Alpha) Seminar (3)** Study in trends, research, and problems of implementation in teaching field. (C) English; (H) mathematics; (I) literacy; (J) science; (K) social studies; (M) interdisciplinary education; (N) art. Repeatable two times. Pre: teaching experience or consent.

**EDCS 641 (Alpha) Seminar in Foreign Language (3)** Study in trends, research, and problems of implementation of language education instruction. (B) French; (C) German; (D) Japanese; (F) Spanish. Pre: teaching experience, and consent.

**EDCS 642 (Alpha) Seminar in Diversity Issues (1)** Examination of principles in multicultural education and diversity. (D) middle level; (G) K-14; (R) reading K-12. Repeatable five times. A-F only. Pre: consent.

**EDCS 645 Seminar In Multicultural Literacy (3)** Interdisciplinary examination of research and issues in the teaching and learning of literacy in diverse multicultural settings. A-F only. Pre: course in teaching language arts of multicultural education, teaching experience, or consent.

**EDCS 646 Literacy Assessment I (3)** Theory and practice in classroom-based assessment of struggling readers and writers. Analyses of individual learners with implications for instruction. Pre: 601 and teaching experience or consent.

**EDCS 647 Literacy Assessment II (3)** Practicum in theory and methods of classroom-based and large-scale assessment. Analysis of the achievement of groups of learners and implementation of intervention instruction. Classroom field experience required. Pre: 646 or consent.

**EDCS 648 Reading for English Language Learners (3)** Presents key concepts and theories in teaching reading to K-12 English language learners. Topics include instructional decisions in teaching reading to ELLs, the interrelationship of language

skills, strategies, and teaching academic content. A-F only. Pre: 601 or consent.

**EDCS 649 Theory/Practice in Cooperative Occupational Education (3)** Theory and practices of coordinating cooperative education in high school and community college. Pre: teaching experience or consent.

**EDCS 653 (Alpha) Mathematics in the Schools (3)** School mathematics, K-12 content, curricula, pedagogy, and standards; trends and issues; theory and research. (B) number and operation; (C) patterns, functions and algebra; (D) geometry and measurement; (E) probability and statistics; (F) integrated math content. Each alpha represents a different K-12 content area. Pre: teaching experience or consent.

**EDCS 656 Seminar in Issues in ECE (V)** Concepts and inquiry regarding the application of early childhood educational principles and approaches to programs serving children between birth and age five. Study and discussion of topics and problems presented in required summer courses and by invited experts in early childhood education. Restricted to masters in Early Childhood Education. Repeatable six times. A-F only. (Two times a year)

**EDCS 667 (Alpha) Seminar in Curriculum (3)** Curriculum trends and issues related to school organization, program, administration, faculty. Required for Plan B MEd candidates in their final semester or summer session. Repeatable one time. (B) early childhood; (D) middle-level; (G) K-14. Pre: 622 (any alpha), and 606 or EDEF 678 or EDEP 408, and 632 or EDEA 604 or EDEP 429 or EDEA 608; or consent.

**EDCS 685 Museums and Education (3)** Overview of museum education including museum learning theories, informal learning programs, audience research, national and international policies and reports, and community projects. Pre: AMST 683 (or concurrent) or consent. (Cross-listed as AMST 685)

**EDCS 686 Information Literacy and Learning Resources (3)** Study of information literacy models. Integration of information literacy with K-12 curriculum units and lessons. Evaluation of print and multimedia resources to meet student and curricular needs. Required for Librarian HDOE licensure. A-F only. Pre: consent. (Cross-listed as ETEC 686 and LIS 686)

**EDCS 690 Practicum: Leadership in School Reading Improvement (3)** Application of roles and responsibilities of the reading specialist to a school context. Includes creating a professional development plan for literacy instruction, preferably in your own school. A-F only. Pre: 605 or consent.

**EDCS 695 Plan B Master's Project (V)** Independent study for students working on a Plan B master's project. A-F only.

**EDCS 699 Directed Reading and/or Research (V)** Individual reading and/or research. Repeatable unlimited times. Pre: written consent.

**EDCS 700 Thesis Research (V)** Repeatable up to 36 credits.

**EDCS 732 Qualitative Data Analysis (3)** Advanced seminar in qualitative research methods with an emphasis upon qualitative data analysis, theory construction, data presentation and reporting. Pre: 632, a course in introduction to qualitative research methods; or consent.

**EDCS 760 Research on Teaching and Teacher Education (3)** Examination of alternative approaches and multidisciplinary perspectives on research on teaching and learning in and out of school, on educational change, and on teacher education and professional development. Pre: classified PhD student or consent.

**EDCS 761 Dissertation Research and Writing (3)** Intended for doctoral students who are at the dissertation stage in their program. Supports students in developing their dissertation proposals and/or initial dissertation drafts. Repeatable one time. A-F only. Pre: consent. (Once a year)

**EDCS 767 Issues and Trends in Curriculum (3)**

Uses problem-centered approach and field experiences. Topics include historical review of curriculum development since 1900, examination of current curriculum practices at all levels of education, and prediction of future directions in curriculum theory and design. Pre: classified doctoral student or consent.

**EDCS 768 Seminar in Curriculum and Instructional Theories (3)**

Analysis and critical examination of models and curriculum theory and theories of instruction leading to generation of theories by seminar members. Pre: classified doctoral student or consent.

**EDCS 769 Curriculum and Program Evaluation (3)**

Critical examination of theoretical and methodological positions on curriculum and educational program evaluation. Pre: classified doctoral student or consent.

**EDCS 780 Mixed Methods Research Design (3)**

Mixed methods research is designed for PhD and masters students in education and social sciences considering combining qualitative and quantitative research. Covers philosophical and practical implications culminating in a mixed methods dissertation/thesis proposal. Repeatable one time. (Once a year) (Cross-listed as DIS 780 and ETEC 780)

**Dance (DNCE)**

*College of Arts and Humanities*

**DNCE 121 Beginning Ballet Technique (3)**

Introduction to classical ballet technique. Repeatable three times. DA

**DNCE 122 Continuing Ballet Technique (3)**

Continuation of beginning classical ballet technique. Repeatable three times. Pre: 121 or consent. DA

**DNCE 131 Beginning Modern Dance Technique (3)**

Introduction to modern dance technique. Repeatable three times. DA

**DNCE 132 Continuing Modern Technique (3)**

Continuation of beginning modern dance technique. Repeatable three times. Pre: 131 or consent. DA

**DNCE 140 Hip Hop Dance (1)**

Introductory lecture/lab geared towards those with or without Hip Hop dance experience. Students will learn the fundamentals of various Hip Hop dance styles. Repeatable two times.

**DNCE 150 Introduction to Dance (3)**

Survey the development of major dance styles and their relationship to contemporary choreography. DA

**DNCE 151 Music Theory for Dancers (3)**

Elements of music and relationship to dance; emphasis on rhythmic analysis. (Alt. years) DA

**DNCE 221 Low Intermediate Ballet Technique (3)**

Low intermediate ballet technique. Repeatable three times. Pre: 122 or consent. DA

**DNCE 222 Low Intermediate Ballet Technique (3)**

Low intermediate ballet technique. Repeatable two times. Pre: 221 or consent. DA

**DNCE 231 Low Intermediate Modern Technique (3)**

Low intermediate modern dance technique. Repeatable three times. Pre: 131 or consent. DA

**DNCE 232 Low Intermediate Modern Technique (3)**

Low intermediate modern dance technique. Repeatable two times. Pre: 231 or consent. DA

**DNCE 245 Design Principles for Performance (3)**

Introduction to general design principles as applied to theatre. Will introduce the language and tools of visual literacy and visual communications via individual projects and collaboration. Repeatable two times. (Cross-listed as THEA 245) DA

**DNCE 250 Dance Production (3)**

Survey of historical, theoretical, and practical aspects; work in scenery, lighting, costume, makeup, and theater management. DA

**DNCE 255 Dance in World Cultures (3)**

Multi-media overview of world dance forms, with emphasis on Asia and the Pacific, and related concepts. Pre: sophomore standing or consent. DA

**DNCE 260 Movement Fundamentals (1)** Organized somatic systems as a framework for understanding movement and dance techniques. Required for majors. Repeatable two times. DA

**DNCE 301 Asian Dance I (V)** Performance and techniques at the introductory level. Pre: upper division standing or consent. Repeatable up to eight credits. DA

**DNCE 302 Chinese Dance I (1)** Performance and techniques at the introductory level. Pre: upper division standing or consent. DA

**DNCE 303 Japanese Dance I (1)** Performance and techniques at the introductory level. Pre: upper division standing or consent. DA

**DNCE 304 Javanese Dance I (1)** Performance and techniques at the introductory level. Pre: upper division standing or consent. DA

**DNCE 305 Korean Dance I (1)** Performance and techniques at the introductory level. Pre: upper division standing or consent. DA

**DNCE 306 Okinawan Dance I (1)** Performance and techniques at the introductory level. Pre: upper division standing or consent. DA

**DNCE 307 Philippine Dance I (1)** Performance and techniques at the introductory level. Pre: upper division standing or consent. DA

**DNCE 311 Oceanic Dance I (1)** Performance and techniques at the introductory level. Pre: upper division standing or consent. DA

**DNCE 321 Intermediate Ballet Technique (3)** Intermediate ballet technique. Repeatable four times. Pre: 222 or consent. DA

**DNCE 331 Intermediate Modern Technique (3)** Intermediate modern dance technique. Repeatable four times. Pre: 232 or consent. DA

**DNCE 334 Taiji (T'ai Chi) for Actors I (3)** Basic Taijiquan (T'ai Chi Ch'uan) movement training. Repeatable two times. Pre: sophomore standing or higher, or consent. (Cross-listed as THEA 334) DA

**DNCE 353 Scenic I: Beginning Scenic Design (3)** Workshop introducing the basic principles and approaches of scenic design for theatre and dance, with emphasis on the creative process. Pre: a course in THEA or DNCE, production experience, or consent. (Consent required for production experience option) (Cross-listed as THEA 353) DA

**DNCE 354 Introduction to Costume Construction (4)** Workshop on basic principles of costume construction for theatre and dance. Professional practices, materials, and methods. (Cross-listed as THEA 354) DA

**DNCE 356 Costumes I: Beginning Costume Design (3)** Basic principles and approaches to costume design for theatre and dance. Visual communication methods, creative process, historical research, and organizational practices. Repeatable one time. Pre: 250, THEA 240, or consent. (Cross-listed as THEA 356) DA

**DNCE 360 Dance Kinesiology (3)** Practical information for dance students on diet and nutrition, anatomy, training and conditioning, and injury prevention. Pre: 260 or consent. DA

**DNCE 361 Elementary Labanotation (3)** Elementary theory of Labanotation with practical application in scoring and reconstructing dances. Pre: 151 or MUS 280, or consent. (Alt. years) DA

**DNCE 362 Visual Media for Dance (3)** Introductory theory of digital technology for dance with practical applications in documentation and performance. Pre: 361 or consent. (Alt. years) DA

**DNCE 370 Dance Improvisation (3)** Improvisation in dance as creative experience, as source of new movement ideas, and as means of developing spontaneity in performance. Repeatable one time. Pre: 200 level or above, or consent. DA

**DNCE 371 Dance Composition I (3)** Elementary techniques and theories for creating and crafting concert dances. Pre: 231 and 370, or consent. DA

**DNCE 372 Dance Composition II (3)** Intermediate techniques and theories for creating and crafting concert dances. Pre: 371 or consent. DA

**DNCE 401 Asian Dance II (V)** Performance and techniques at intermediate level. Repeatable up to eight credits. Pre: 301 or consent. DA

**DNCE 402 Chinese Dance II (1)** Performance and techniques at intermediate level. Repeatable up to eight credits. Pre: 302 or consent. DA

**DNCE 403 Japanese Dance II (1)** Performance and techniques at intermediate level. Repeatable up to eight credits. Pre: 303 or consent. DA

**DNCE 404 Javanese Dance II (1)** Performance and techniques at intermediate level. Repeatable up to eight credits. Pre: 304 or consent. DA

**DNCE 405 Korean Dance II (1)** Performance and techniques at intermediate level. Repeatable up to eight credits. Pre: 305 or consent. DA

**DNCE 406 Okinawan Dance II (1)** Performance and techniques at intermediate level. Repeatable up to eight credits. Pre: 306 or consent. DA

**DNCE 407 Philippine Dance II (1)** Performance and techniques at intermediate level. Repeatable up to eight credits. Pre: 307 or consent. DA

**DNCE 411 Oceanic Dance II (1)** Performance and techniques at intermediate level. Repeatable up to eight credits. Pre: 311 or consent. DA

**DNCE 421 Advanced Ballet Technique (3)** Advanced ballet technique. Repeatable six times. Pre: 321 or consent. DA

**DNCE 431 Advanced Modern Technique (3)** Advanced modern dance technique. Repeatable six times. Pre: 331 or consent. DA

**DNCE 433 Movement Workshop (V)** Special workshops in movements relating to specific departmental theatrical productions beyond the scope of movement taught in 437 and 438. Repeatable one time. Pre: one of 435 or THEA 435, or consent. (Alt. years) (Cross-listed as THEA 433) DA

**DNCE 434 Taiji (T'ai Chi) for Actors II (3)** Intermediate-level Taijiquan (T'ai Chi Ch'uan) movement training. Repeatable two times. Pre: 334 or consent. (Cross-listed as THEA 434) DA

**DNCE 435 Movement for Actors (3)** Training actors to discover experientially the sources of movement; to teach skills for analyzing movement for its mechanical, anatomical, spatial, and dynamic content; and then to apply these skills in a role. Pre: THEA 222 or consent. (Cross-listed as THEA 435) DA

**DNCE 436 Advanced Movement for Actors (3)** Detailed development of material presented in 435. Focus on Bartenieff fundamentals and movement analysis as it applies to the physical interpretation of theatrical roles. Pre: 435 or THEA 435, or consent. (Alt. years) (Cross-listed as THEA 436) DA

**DNCE 437 Period Movement Styles, 1450–1650 (3)** Movement styles and social department of European societies in the Renaissance and early Baroque periods. Pre: 435 or THEA 435, one semester of a 100-level dance technique class; or consent. (Alt. years) (Cross-listed as THEA 437) DA

**DNCE 438 Period Movement Styles, 1650–1800 (3)** Movement styles and social department of the Baroque and pre-Romantic periods in Europe and the American colonies. Pre: 435 or THEA 435, one semester of a 100-level dance technique class; or consent. (Alt. years) (Cross-listed as THEA 438) DA

**DNCE 439 Musical Theater Dance Forms (3)** Theatrical dance forms used in 20th-century musical theater. Pre: 100 level or above dance technique class, 421, or consent. (Alt. years) (Cross-listed as THEA 439) DA

**DNCE 446 Topics in Costume Construction (3)** Costume production techniques, both Western and Asian, for theatre and dance. Topic rotation includes: understructures and armatures, patterning, tailoring, dyeing, fabric modification, millinery and crafts, within the context of current industry practice.

Repeatable two times. Pre: 354, 356, or consent. (Cross-listed as THEA 446) **DA**

**DNCE 452 Dance History I: Ritual to Theater (3)** Development of Western theatrical dance from Ancient Greece through 19th-century ballet. Pre: upper division standing or consent. **DH**

**DNCE 453 Dance History II: 20th Century to the Present (3)** Development of modern dance, contemporary ballet, and dance forms of musical theater and film. Pre: upper division standing or consent. **DH**

**DNCE 456 Costumes II: Intermediate Costume Design (3)** Advanced costume design for theatre and dance. Introduction to collaborative process in costume. Intensive work on rendering skills, applied to various design problems. Cost analysis and organizational techniques. Pre: 356 or consent. (Cross-listed as THEA 456) **DA**

**DNCE 458 Field Experiences in Dance (V)** Field experiences in relevant contexts under professional and faculty supervision. Repeatable one time. CR/NC only. Pre: upper division standing and consent. **DA**

**DNCE 459 Topics in Dance (V)** Readings, research, and/or field and movement experiences. Repeatable if topic changes unlimited times. Pre: upper division standing and consent.

**DNCE 460 Teaching Dance Technique (3)** Principles, techniques, and materials used in the teaching of dance technique. A-F only. Pre: 260, and 221 or 231; or consent of instructor.

**DNCE 470 Dance Performance (1)** Performance in various dance styles and settings. Repeatable eight times. Pre: audition or consent. **DA**

**DNCE 480 Dance Repertory (V)** Preparation of standard and new works for performance. Repeatable three times. Pre: consent. **DA**

**DNCE 490 Creative Dance (3)** Dance activities for young people. Appropriate for teachers, group workers, recreation majors, and others working with children. Also adults with special needs. Supervised field activities. Pre: upper division standing or consent. **DA**

**DNCE 495 Senior Project (1)** Individual choreographic project; student choreographs, performs, and oversees all technical aspects of a creative project; tutorial. Pre: 372, senior standing, and consent. **DA**

**DNCE 499 Directed Work (V)** Individual projects, tutorial. Pre: consent.

**DNCE 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**DNCE 617 Seminar in Performance Studies (3)** Special topics. Repeatable up to two times when topic change. Pre: THEA 615 or consent. (Cross-listed as THEA 617)

**DNCE 651 Seminar in Dance Research (3)** Research materials and methods; preparation for thesis and scholarly research reporting. Required for graduate concentrations in dance. (Alt. years)

**DNCE 652 Seminar: Dance Theory and Criticism (3)** Major theories of dance and dance criticism; emphasis on Western ideas. Pre: 452 and 453, or consent.

**DNCE 653 Dance Ethnology Seminar (3)** Exemplary studies and field research. Pre: graduate standing or consent. (Alt. years)

**DNCE 654 Dance and Performance Theory: Asia (3)** Dance content and historico-social context of principal dance traditions. Pre: graduate standing or consent. (Alt. years)

**DNCE 655 Dance and Performance Theory: Oceania (3)** Dance content and historico-social context of principal dance traditions. Pre: graduate standing or consent. (Alt. years)

**DNCE 659 Advanced Topics in Dance (V)** Readings, research, and/or field movement experiences. Repeatable one time if topic changes. Pre: graduate standing or consent.

**DNCE 660 Laban Movement Analysis (3)** Study and application of Laban Movement Analysis as a framework for enhancing analytical and artistic abilities. Pre: 260 (or concurrent) and 360 (or concurrent); or consent.

**DNCE 661 Advanced Problems in Movement Analysis (3)** Advanced skills in movement analysis and interpretation of movement scores. Emphasis on Labanotation. Repeatable two times. Pre: 362. (Alt. years)

**DNCE 671 Advanced Choreography (3)** Advanced analytic and creative study. Pre: 372 or consent. (Alt. years)

**DNCE 672 Dance Performance (V)** Graduate performance in various dance styles and settings. By audition only. Repeatable six times. Pre: consent.

**DNCE 676 Seminar in Choreographic Methods (3)** Graduate level course designed for students with prior choreographic experience. Students will research, create, revise, and perform new works based on a variety of choreographic methodologies. Repeatable one time. Pre: 371, 372; or consent. (Alt. years)

**DNCE 679 Directed Choreography (1)** Concert choreography for selected performance settings under the direction of a faculty advisor. Repeatable six times. Pre: 372 (or concurrent) or 671 (or concurrent), or consent.

**DNCE 691 Seminar in Teaching Dance/Theater (3)** Pedagogy and classroom experience in teaching technique and theory. (Alt. years) (Cross-listed as THEA 691)

**DNCE 693 Internship: Youth Theater/Dance (V)** Supervised leadership experiences in dance/theater program with children. Students spend nine hours per week in supervised setting and three hours in weekly class meeting. Pre: 490, THEA 470, or THEA 476; or consent. (Cross-listed as THEA 693)

**DNCE 699 Directed Reading and Research (V)** Individual projects: tutorial. Repeatable up to six credits. Pre: consent.

**DNCE 700 Thesis Research (V)** Repeatable unlimited times.

## Dental Hygiene (DH)

*School of Nursing and Dental Hygiene*

*Dental hygiene courses must be taken in sequence and are open only to those admitted to the program by the Department of Dental Hygiene.*

**DH 231 Oral Anatomy and Tooth Morphology (2)** The study of the structure and functions of the head and neck with emphasis on structures in or related to the oral cavity; of tooth morphology. Repeatable one time. A-F only. Pre: BIOC 241, PHYL 103, PHYL 103L; or equivalent. Co-requisite: 231L. **DB**

**DH 231L Oral Anatomy and Tooth Morphology Lab (2)** (2 3-hr Lab) Application of DH 231 didactic concepts to laboratory activities and practices. Repeatable one time. A-F only. Pre: BIOC 241 and PHYL 103, PHYL 103L; or equivalent. Co-requisite: 231. **DY**

**DH 238 Basic Dental Hygiene I (2)** Relationship to dentistry, problems, trends, issues; role and functions of dental hygienists in prevention and control of chronic oral diseases; preliminary dental hygiene clinical and support procedures including vital signs; team concepts in dentistry. Repeatable one time. A-F only. Co-requisite: 238L and 239L. **DB**

**DH 238L Basic Dental Hygiene I Lab (1)** Application of preliminary dental hygiene clinical and support procedures including instrumentation, vital signs, and team concepts in dentistry. Repeatable one time. A-F only. Co-requisite: 238 and 239L. **DY**

**DH 239L Basic Dental Hygiene I Lab (1)** Application of preliminary dental hygiene clinical and support procedures including instrumentation, vital signs, and team concepts in dentistry. Repeatable one time. A-F only. Co-requisite: 238/238L. **DY**

**DH 240 Basic Dental Hygiene II (2)** Basic dental hygiene theory and skills including competencies in health history taking, examination, patient care plan, oral prophylaxis, application of caries preventive agents, plaque control and support procedures. A-F only. Pre: 238, 238L and 239L. Co-requisite: 240L, 241L and 242L. **DB**

**DH 240L Basic Dental Hygiene Lab/Clinic (1)** (1 4-hr Lab/Clinic) Laboratory and clinical experiences in basic dental hygiene skills and competencies including history taking, examination, patient care plan, oral prophylaxis, application of caries preventive agents, and clinic procedures. A-F only. Pre: 238 and 238L. Co-requisite: 240, 241L, and 242L.

**DH 241L Basic Dental Hygiene Lab/Clinic (1)** (1 6-hr Lab/Clinic) Laboratory and clinical experiences in basic dental hygiene skills and competencies including history taking, examination, patient care plan, oral prophylaxis, application of caries preventive agents, and clinic support procedures. A-F only. Pre: 238 and 238L. Co-requisite: 240, 240L, and 242L. **DY**

**DH 242L Basic Dental Hygiene Lab/Clinic (1)** (1 4-hr Lab/Clinic) Laboratory and clinical experiences in basic dental hygiene skills and competencies including history taking, examination, patient care plan, oral prophylaxis, application of caries preventive agents, and clinic support procedures. A-F only. Pre: 238 and 238L. Co-requisite: 240, 240L, 241L. **DY**

**DH 250 General and Oral Histology and Embryology (2)** Cells and tissues and their embryologic origin, with particular reference to teeth and their supporting structures. Pre: 231 (or concurrent). (Fall only) **DB**

**DH 251 General and Oral Histology and Embryology (1)** Continuation of 250. Pre: 250. (Spring only) **DB**

**DH 281 Dental Radiography (2)** Basic principles of radiation and fundamental information to understand and safely use radiation in dental radiography. A-F only. Repeatable one time. Pre: 231. Co-requisite: 281L.

**DH 281L Dental Radiography Lab/Clinic (1)** (1 3-hr Lab/Clinic) Preparation and evaluation of radiographic survey of patients with varying dentition; methods, and indications of safety considerations in clinical application of roentgen rays. A-F only. Repeatable one time. Pre: 231. Co-requisite: 281.

**DH 361 Health Education and Promotion (2)** Provides an overview of the concepts and application of health education and health promotion theories and principles as applies to individuals, groups and the larger public. Pre: open to non-nursing majors with consent. (Fall only) (Cross-listed as NURS 361)

**DH 366 General and Oral Pathology (2)** Nature and causes of disease, progress and termination or associated alterations of tissue, diseases affecting teeth and structures of oral cavity. Pre: 250 and 251 (or concurrent). (Spring only) **DB**

**DH 367 General and Oral Pathology (1)** Continuation of 366. Pre: 366. (Fall only) **DB**

**DH 369 Dental Materials (1)** Science of dental materials and its application to dentistry and dental hygiene. Repeatable one time. A-F only. Pre: 231. Co-requisite: 369L.

**DH 369L Dental Materials Lab/Clinic (1)** Laboratory and clinical application of concepts in the science of dental materials. Repeatable one time. A-F only. Pre: 231. Co-requisite: 369.

**DH 370 Expanded Functions in Dental Hygiene (2)** Basic concepts of expanded functions in dental hygiene. A-F only. Repeatable one time. Pre: 369. Co-requisite: 370L.

**DH 370L Expanded Functions Lab/Clinic (1)** (2 1.5-hr Lab/Clinic) Application of basic concepts of expanded functions in dental hygiene. A-F only. Repeatable one time. Pre: 369. Co-requisite: 370.

**DH 375 Clinical Dental Hygiene I (2)** Development of dental hygiene concepts and skills; emergency procedures; team approach to dentistry, planning,

implementing and evaluating total oral hygiene care of patients; review and critical analysis of current dental periodicals and research. Repeatable one time. A-F only. Pre: 240/240L, 241L, 242L, 281/281L, and 389. Co-requisite: 375L, 376L, 377L, and 378L.

**DH 375L Clinical Dental Hygiene I Clinic (1)** Clinical instruction and application of dental hygiene concepts and skills; emergency procedures; team approach to dentistry; planning, implementing, and evaluating total oral hygiene care of patients; review and critical analysis of current dental periodicals and research. Repeatable one time. A-F only. Pre: 240/240L, 241L, 242L, 281/281L, and 389. Co-requisite: 375, 376L, 377L, and 378L.

**DH 376L Clinical Dental Hygiene I Clinic (1)** Clinical instruction and application of dental hygiene concepts and skills; emergency procedures; team approach to dentistry; planning, implementing, and evaluating total oral hygiene care of patients; review and critical analysis of current dental periodicals and research. Repeatable one time. A-F only. Pre: 240/240L, 241L, 242L, 281/281L, and 389. Co-requisite: 375/375L, 377L, and 378L.

**DH 377L Clinical Dental Hygiene I Clinic (1)** Clinical instruction and application of dental hygiene concepts and skills; emergency procedures; team approach to dentistry; planning, implementing, and evaluating total oral hygiene care of patients; review and critical analysis of current dental periodicals and research. Repeatable one time. A-F only. Pre: 240/240L, 241L, 242L, 281/281L, and 389. Co-requisite: 375, 375L, 376L, and 378L.

**DH 378L Clinical Dental Hygiene I Clinic (1)** Clinical instruction and application of dental hygiene concepts and skills; emergency procedures; team approach to dentistry; planning, implementing, and evaluating total oral hygiene care of patients; review and critical analysis of current dental periodicals and research. Repeatable one time. A-F only. Pre: 240/240L, 241L, 242L, 281/281L, and 389. Co-requisite: 375/375L, 376L, and 377L.

**DH 380 Clinical Dental Hygiene II (2)** Continuation of 375. Pre: 375. (Spring only)

**DH 380L Clinical Dental Hygiene II Clinic (1)** (1 6-hr Clinic) Continuation of 375. Clinical application of dental hygiene concepts and skills; emergency procedures; team approach to dentistry; planning, implementing and evaluating total oral hygiene care to patients. A-F only. Pre: 375. Co-requisite: 380, 381L and 382L.

**DH 381L Clinical Dental Hygiene II Clinic (1)** (1 6-hr Clinic) Continuation of 375. Clinical application of dental hygiene concepts and skills; emergency procedures; team approach to dentistry; planning, implementing, and evaluating total oral hygiene care to patients. A-F only. Pre: 375. Co-requisite: 380, 380L and 382L.

**DH 382L Clinical Dental Hygiene II Clinic (1)** (1 4-hr Clinic) Continuation of 375. Clinical application of dental hygiene concepts and skills; emergency procedures; team approach to dentistry; planning, implementing, and evaluating total oral hygiene care to patients. A-F only. Pre: 375. Co-requisite: 380, 380L and 381L.

**DH 389 Pain Control and Local Anesthesia in Dentistry (2)** Basic concepts of pain control and local anesthesia in dentistry with appropriate emphasis on psychological preparation, pharmacological preparation, and safe and effective administration of anesthesia in the practice of dental hygiene. Pre: 231 and 250. Co-requisite: 240, 251, and 366. (Spring only) **DB**

**DH 390 Periodontology I (2)** Normal periodontium, etiology, pathogenesis, clinical manifestations and epidemiology of periodontal diseases, and mode of periodontal therapy. Repeatable one time. A-F only. Pre: 240, 251, and 366. (Fall only) **DB**

**DH 391 Periodontology II (2)** Continuation of DH 390. Normal Periodontium, etiology, pathogenesis, clinical manifestations and epidemiology of periodontal diseases, and mode of periodontal

therapy. Repeatable one time. A-F only. Pre: 390. (Spring only) **DB**

**DH 473 Community Health (3)** Introduction and application of the principles of health education and dental public health into practice in schools, community agencies, and private dental offices (inclusive of problem assessment, planning, implementation and evaluation processes); epidemiology and biostatistics. A-F only. Pre: 361. (Fall only)

**DH 475 Advanced Clinical Dental Hygiene II (2)** An in-depth knowledge and clinical application of expanded function in periodontics with emphasis on principles, techniques, procedures in pain-anxiety control, soft tissue curettage, host factors, and modification of behavior. Repeatable one time. A-F only. Pre: 380/380L, 381L, 382L, and 391. Co-requisite: 475L, 476L, 477L, 478L.

**DH 475L Advanced Dental Hygiene I Clinic A (1)** Application of knowledge of expanded functions in periodontics with emphasis on principles, techniques, procedures in pain-anxiety control, soft tissue curettage, host factors, and modification of behavior. Repeatable one time. A-F only. Pre: 380/380L, 381L, 382L, and 391. Co-requisite: 475, 476L, 477L, and 478L. (Fall only)

**DH 476L Advanced Dental Hygiene I Clinic B (1)** Application of knowledge of expanded functions in periodontics with emphasis on principles, techniques, procedures in pain-anxiety control, soft tissue curettage, host factors, and modification of behavior. Repeatable one time. A-F only. Pre: 380/380L, 381L, 382L, and 391. Co-requisite: 475, 475L, 477L, and 478L. (Fall only)

**DH 477L Advanced Dental Hygiene I Clinic C (1)** Application of knowledge of expanded functions in periodontics with emphasis on principles, techniques, procedures in pain-anxiety control, soft tissue curettage, host factors, and modification of behavior. Repeatable one time. A-F only. Pre: 380/380L, 381L, 382L, and 391. Co-requisite: 475, 475L, 476L, and 478L. (Fall only)

**DH 478L Advanced Dental Hygiene I Clinic D (1)** Application of knowledge of expanded functions in periodontics with emphasis on principles, techniques, procedures in pain-anxiety control, soft tissue curettage, host factors, and modification of behavior. Repeatable one time. A-F only. Pre: 380/380L, 381L, 382L, and 391. Co-requisite: 475, 475L, 476L, and 477L. (Fall only)

**DH 480 Advanced Clinical Dental Hygiene II (2)** In-depth knowledge development of expanded functions in periodontics with emphasis on principles, techniques, procedures in pain-anxiety control, soft tissue curettage, host factors, and modifications in behavior. Repeatable one time. A-F only. Pre: 475/475L, 476L, 477L, and 478L. Co-requisite: 480L, 481L, 482L, 483L. (Spring only)

**DH 480L Advanced Clinical Dental Hygiene II Clinic (1)** (1 4-hr Clinic) Application of knowledge of expanded functions in periodontics with emphasis on principles, techniques, procedures in pain-anxiety control, soft tissue curettage, host factors, and modification of behavior. Repeatable one time. A-F only. Pre: 475/475L, 476L, 477L, and 478L. Co-requisite: 480, 481L, 482L, 483L. (Spring only)

**DH 481L Advanced Clinical Dental Hygiene II Clinic (1)** (1 4-hr Clinic) Application of knowledge of expanded functions in periodontics with emphasis on principles, techniques, procedures in pain-anxiety control, soft tissue curettage, host factors, and modification of behavior. Repeatable one time. A-F only. Pre: 475/475L, 476L, 477L, and 478L. Co-requisite: 480/480L, 482L, 483L. (Spring only)

**DH 482L Advanced Clinical Dental Hygiene II Clinic (1)** (1 4-hr Clinic) Application of knowledge of expanded functions in periodontics with emphasis on principles, techniques, procedures in pain-anxiety control, soft tissue curettage, host factors, and modification of behavior. Repeatable one time. A-F only.

Pre: 475/475L, 476L, 477L, and 478L. Co-requisite: 480/480L, 481L, 483L. (Spring only)

**DH 483L Advanced Clinical Dental Hygiene II Clinic (1)** (1 4-hr Clinic) Application of knowledge of expanded functions in periodontics with emphasis on principles, techniques, procedures in pain-anxiety control, soft tissue curettage, host factors, and modification of behavior. Repeatable one time. A-F only. Pre: 475/475L, 476L, 477L, and 478L. Co-requisite: 480/480L, 481L, 482L. (Spring only)

**DH 499 Directed Reading, Field Work, or Research (V)** Individualized program of directed reading, field work, or research for major under supervision in related areas of dentistry and dental hygiene. Pre: consent.

## Developmental and Reproductive Biology (DRB)

### School of Medicine

*The minimum grade required for undergraduate prerequisites is a D or better, and graduate prerequisites is a C (not C-) or better.*

**DRB 601 Fertilization and Early Development (2)** Lecture on the basics of vertebrate and invertebrate fertilization and early embryonic development. Open to all graduate students. (Fall only)

**DRB 613 Seminar in Developmental and Reproductive Biology I (1)** Presentations of current research carried out by developmental and reproductive biology graduate program faculty.

**DRB 614 Developmental and Reproductive Biology Scientific Investigations (3)** Discussion of current research in developmental and reproductive biology.

**DRB 650 Stem Cell Biology (3)** Seminar designed to teach graduate students and advanced undergraduate students about current topics relating to stem cell biology, as well as the application of stem cells to modern medicine. A-F only. Pre: BIOL 275 and PHYL 604, or consent. (Spring only)

**DRB 666 Applied Development Reproductive Biology (3)** Combined lecture-lab on current technologies and methods for mammalian reproduction and developmental biology. A-F only. Pre: 601 (or concurrent), 613/614 (or concurrent); or consent. (Spring only)

**DRB 695 DRB Research Rotation (3)** Introductory laboratory research experience under the supervision of faculty. Repeatable two times. A-F only.

**DRB 699 Directed Research (V)** Research experience in developmental and reproductive biology. Repeatable unlimited times.

**DRB 700 Thesis Research (V)** Repeatable unlimited times.

**DRB 800 Dissertation Research (V)** Repeatable unlimited times.

## Disability and Diversity Studies (DIS)

### College of Education

**DIS 380 Disability and Diversity (3)** Focuses on disability as a category of diversity and identity, as well as diversity within disability. Different strategies used to increase the freedom or liberty of people with disabilities are critically examined. A-F only.

**DIS 382 Creating Accessible Futures (3)** Focuses on creating accessible technology and instructional media, developing long-term resources, advancing accessible social interaction between students and students with instructors, and using case studies as examples of good practices. A-F only.

**DIS 383 Disability History and Culture: From Homer to Hip Hop (3)** How have people over many centuries, and from broad geographical perspectives perceived and treated individuals with disabilities? An overview of the history of the conditions in which people with disabilities lived. A-F only.

**DIS 606 Introduction to Research in Curriculum and Teaching (3)** Classroom-based research covers the fundamentals of qualitative, quantitative, Action Research, mixed methods, and Curriculum Based Assessment. Exploratory, explanatory, and confirmatory research will be highlighted culminating in an outline for Plan B/Thesis proposal. (Cross-listed as EDCS 606)

**DIS 671 Basics of Applied Behavior Analysis (3)** Focuses on the definitions and characteristics of applied behavior analysis and the concepts, principles, and processes. Concepts related to ethics and behavior change procedures will also be introduced. A-F only.

**DIS 678 Practicum in Applied Behavior Analysis (V)** Supervised field experience in applied behavior analysis. The format is a combination of fieldwork and seminar meetings. Repeatable four times or up to 15 credits. A-F only.

**DIS 681 Multicultural Issues in Disabilities (3)** Provide background and understanding of various Pacific Rim cultural issues in the conceptualization and treatment of individuals with disabilities and their families. A-F only.

**DIS 683 Interdisciplinary Disability and Diversity Issues (3)** Develop understanding of current issues faced by individuals with disabilities and their families within the disability paradigm and across cultures.

**DIS 684 Interdisciplinary Team Development (3)** Develop knowledge and skills to participate effectively on interdisciplinary teams for the common goal of promoting service integration and coordination of education, social, health, mental health, and other services with individuals with disabilities and their families. A-F only.

**DIS 685 Interdisciplinary Assessment (3)** Assessment methods and techniques to instructional research-based practices and supports across disciplines, cultures and PK-12 that address barriers to learning for all students with the context of the Comprehensive Student Support System (CSSS). A-F only.

**DIS 686 Advanced Interdisciplinary Assessment (3)** Assessment methods and techniques to instructional research-based practices and supports across disciplines, cultures and PK-12 that address barriers to learning for all students with the context of the Comprehensive Student Support System (CSSS). A-F only.

**DIS 687 Seminar on Disability Issues (3)** In-depth explorations of current and compelling interdisciplinary topics related to advancing the social, political, educational, and economic integration of individuals with disabilities of all ages. A-F only.

**DIS 688 Portfolio/Field Work (3)** Interdisciplinary community experience and portfolio in disability and diversity studies. Repeatable three times. A-F only.

**DIS 699 Directed Reading and/or Research (V)** Directed reading and/or research. Repeatable three times. A-F only. Pre: consent.

**DIS 780 Mixed Methods Research Design (3)** Mixed methods research is designed for PhD and masters students in education and social sciences considering combining qualitative and quantitative research. Covers philosophical and practical implications culminating in a mixed methods dissertation/thesis proposal. Repeatable one time. (Once a year) (Cross-listed as EDCS 780 and ETEC 780)

## East Asian Languages and Literatures (EALL)

*College of Languages, Linguistics and Literature*

*All students taking language courses in this department for the first time must take a regularly scheduled placement test in the appropriate language; those with no background must come to the department office for a brief interview. A grade of C or better in the prerequisite courses is required for continuation.*

**EALL 140 Introduction to Chinese Language and Culture (3)** Provides students with interesting per-

spectives on and some general knowledge of Chinese language, literature, and culture. **DH**

**EALL 271 Japanese Literature in Translation—Traditional (3)** Survey of all major forms from the earliest era to mid-19th century. **DL**

**EALL 272 Japanese Literature in Translation—Modern (3)** Survey from mid-19th century to present; emphasis on fiction. **DL**

**EALL 273 Survey of Japanese Literature—KIC (3)** Survey of traditional and modern Japanese literature in translation, covering all major genres. Only offered at Konan University in Japan. Not open to students with 271 or 272. **DL**

**EALL 281 Korean Literature in Translation—Traditional (3)** Survey of Korean literature from earliest times with emphasis on development and cultural context; all readings in English translation. Students write essays about the readings. **DL**

**EALL 282 Korean Literature in Translation—Modern (3)** Survey of 20th-century Korean literature with emphasis on development and cultural context; all readings in English translation. Students write essays about the readings. **DL**

**EALL 325 (Alpha) Japanese Film: Art and History (3)** Study and analysis of Japanese film; its history and relationship to cultural, social, philosophical, and aesthetic contexts. (B) 1900-1960; (C) 1960-present; (D) special topics. Pre: upper division standing or consent. (Cross-listed as ASAN 325) **DH**

**EALL 330 Chinese Film: Art and History (3)** Study and analysis of Chinese film; its history and relationship to cultural, social, philosophical, and aesthetic contexts. Pre: ASAN 201 and 202, or consent. (Cross-listed as ASAN 330) **DH**

**EALL 360 Literary Traditions of East Asia (3)** Selected works of Chinese, Japanese, and Korean literature in English; relationships and parallels. Pre: one DH or DL course, or consent. **DL**

**EALL 361 Chinese Literature: Ancient (3)** Survey of all major genres from antiquity until the ninth century. Pre: one DH or DL course, or consent. **DL**

**EALL 362 Chinese Literature: Pre-modern (3)** Survey of all major genres from the ninth into the 20th-century. Pre: one DH or DL course, or consent. **DL**

**EALL 363 (Alpha) 20th-Century Chinese Literature and Culture (3)** Survey of 20th-century Chinese literature in translation. Includes a variety of genres from the People's Republic of China, Taiwan, and Hong Kong; (B) 1919–1949; (C) 1949–present. Pre: one DH or DL course, or consent. **DL**

**EALL 364 20th-Century Chinese Women Writers (3)** A survey and critical examination of contemporary Chinese women writers from China, Taiwan, and Hong Kong. Traces a genealogy of women's writing from the early 1920s up until now through novels, poetry, drama, and film. Pre: one DH or DL course, or consent. (Cross-listed as ASAN 364 and WS 346) **DL**

**EALL 365 (Alpha) Traditional Chinese Fiction in Translation (3)** Survey of pre-modern Chinese fiction in translation. (B) short story; (C) novel. Pre: one DH or DL course, or consent. **DL**

**EALL 366 The City in Modern Chinese Literature and Visual Arts (3)** Study of the fictional and visual representations of the city in the changing contexts of Chinese modernization from the late imperial age to the beginning of the 21st century. Pre: one DH or DL course, or consent. (Once a year) **DH**

**EALL 371 (Alpha) Traditional Japanese Literature (3)** Reading and analysis of English translations of selected important works in the classical tradition. No knowledge of Japanese required: (B) prose fiction and literary miscellany; (C) drama and poetry. **DL**

**EALL 372 (Alpha) Modern Japanese Literature (3)** Reading and analysis of English translations of selected important works in modern Japanese literature. No knowledge of Japanese required: (B) fiction; (C) poetry, drama, and criticism. **DL**

**EALL 375 Topics in Japanese Cultural Studies (3)** Multi-disciplinary and historically located study of Japanese culture through the examination of literary and visual texts. Specific topics will depend upon the term. Repeatable one time with consent. Pre: one DH or DL course, or consent. (Alt. years)

**EALL 384 Modern Korean Women Writers and Culture (3)** Study of fiction by modern Korean women writers in the changing context of Korean culture. A-F only. Pre: sophomore standing or higher.

**EALL 472 East-West Cultural Encounters (3)** Critical examination of encounters between Western and East Asian cultures across time. In addition to literary texts, the course may use sources from other media, and focus on a specific era, region, or genre. Pre: an EALL course at 200 level or above; or a DH or DL course at 200 level or above; or consent. **DL**

**EALL 473 Chinese Diaspora and Visual Culture (3)** Examines films focusing on the social relationships and cultural practices of the Chinese diaspora, i.e. Chinese communities living outside China (e.g. Taiwan, Hong Kong, Southeast Asia, North America, and Europe). Weekly film discussions in class, readings on visual culture, media studies, and film criticism. Course material will also include theater productions, art exhibitions, and other visual material depending on availability. Pre: any 300- or 400-level DL or DH course. (Cross-listed as ASAN 473) **DH**

**EALL 474 Transnational Chinese Popular Culture (3)** Survey of contemporary Chinese popular entertainment forms that are produced and appreciated transnationally. Examples include martial arts genres, kung fu films, commercial novels, ballroom dancing, karaoke culture, music videos and rock music. Material will be selected based upon availability and readings will include critical essays from the fields of popular culture, media studies, and literary criticism. Pre: any 300- or 400-level DL or DH course. (Cross-listed as ASAN 474) **DH**

**EALL 476 Perspectives on Chinese Cinema (3)** Introduction to Chinese cinema studies, with emphasis on the theoretical and critical approaches to Chinese film. Pre: one DH or DL course, or consent. (Once a year)

**EALL 491 Senior Colloquium in East Asian Literature (3)** Comparative perspectives; some works studied in the original. Pre: third-level East Asian language. **DL**

**EALL 492 (Alpha) Study of East Asian Languages (V)** Less commonly taught languages of East Asia: (B) Manchu; (C) Mongolian. Recommended: previous experience in history, linguistics, or languages. Repeatable one time. Pre: consent.

**EALL 500 Master's Plan B/C Studies (1)**

**EALL 601 Current Issues in East Asian Language Pedagogy (3)** Survey on East Asian language pedagogy designed to develop students' familiarity with and facility in addressing the major issues, initiatives, and innovations in the field. Pre: graduate standing or consent.

**EALL 602 Introduction to East Asian Linguistics (3)** Introduction to cross-linguistic comparison of the writing systems, dialects, history, phonology, morphology, and syntax of Chinese, Japanese, and Korean. Pre: CHN 451 and 452, or JPN 451, or KOR 451 and 452; or consent. (Once a year)

**EALL 603 (Alpha) Bibliographical and Research Methods (3)** Traditional and modern references and other library materials basic to research in all areas of East Asian studies: (C) Chinese; (J) Japanese; (K) Korean. Pre: CHN 402 for (C); JPN 407 (alpha) for (J); KOR 402 for (K).

**EALL 611 20th Century Literary and Cultural Studies: Modernity and Revolution (3)** Critical scholarship in Chinese literature and cultural studies, broadly defined to include the People's Republic of China, Taiwan, Hong Kong, and others. Reading knowledge of Chinese desirable but not required.

Repeatable one time with consent. Pre: consent. (Cross-listed as ASAN 612)

**EALL 691 Introduction to Classical Tibetan (3)** Introduction to Classical Tibetan grammar and vocabulary with emphasis on the earliest Tibetan texts; reading and analysis of pre-classical, classical and postclassical texts.

**EALL 699 Directed Research (V)** Repeatable unlimited times. CR/NC only. Pre: consent.

**EALL 700 Thesis Research (V)** Repeatable unlimited times.

**EALL 735 Seminar in Comparative East Asian Literature (3)** Comparison of authors, modes, topics, and genres in poetry and prose; theoretical and practical criticism. Pre: consent.

**EALL 750 Seminar in Comparison of East Asian Languages (3)** Comparison of lexicon, phonology, morphology, syntax, semantics, etc., of two or more East Asian languages, contact influence on them. Pre: CHN 451, CHN 452, or JPN 451; or consent.

**EALL 800 Dissertation Research (1)** Repeatable unlimited times.

## Economics (ECON)

### College of Social Sciences

*No more than 6 credit hours total for 120, 130, and 131. Students who major/minor in ECON are strongly urged to take the 130/131 sequence; 120 may substitute for either 130 or 131, but not for both. Students applying to Shidler College of Business must take the 130/131 sequence.*

**ECON 120 Introduction to Economics (3)** One-semester survey of the principles of microeconomics and macroeconomics to enable students in all disciplines to understand current economic events. **DS**

**ECON 130 Principles of Microeconomics (3)** Examination of the decision-making process of both households and firms. Analysis of the functioning of a competitive market system, using supply and demand models and the role of government in cases where the market system fails. Additional topics include the effects of international rate on the welfare of a nation and the effects of different competitive market structures on society. **DS**

**ECON 131 Principles of Macroeconomics (3)** An introduction to macroeconomics—the study of the overall economy. Topics include the determination of national income, causes and effects of inflation, unemployment, and income inequality; causes and consequences of international differences in economic growth; sources of business cycle expansions and contractions; role of government policy in stabilizing the economy and promoting long-term growth; financial markets and monetary policy; taxes, spending, consequences of budget deficits, determination of trade imbalances, exchange rate fluctuations, and balance of payment crises. **DS**

**ECON 300 Intermediate Macroeconomics (3)** Develops basic techniques and fundamental concepts used to study the overall macroeconomy and policies that affect it. Study the determinants of national income and long-run growth; causes and consequences of unemployment, inflation, and business cycle fluctuations; determination of foreign exchange rates and current account imbalances, and the role of government policy in various settings. Pre: 131 or consent. **DS**

**ECON 301 Intermediate Microeconomics (3)** Develops basic techniques and fundamental concepts of microeconomic theory. Learn to use economic reasoning to understand the social consequences of decisions made by individual consumers, producers, and governments. Analyze the nature of market outcomes under alternative market structures, and further discuss possible welfare-improving government policies when markets fail to be efficient. Special attention is paid to the analysis of strategic behavior and markets with public goods and externalities. Pre: 130 or consent. **DS**

**ECON 311 The Economy of Hawai'i (3)** History of development of Hawaiian economy; current economic problems. Pre: 120, 130, or 131; or consent. **DS**

**ECON 317 The Japanese Economy (3)** Analysis of Japan's growth past and present. Does Japan's economy look different in terms of its international trade structure, industrial structure, labor market, savings patterns, government policies, etc.? Does it matter? Pre: 120 or 130, or consent. **DS**

**ECON 320 Introduction to Tourism Economics (3)** Examines tourism from an economic perspective. Topics include: the determinants of consumer demand for leisure travel, structure of competition among suppliers of tourism services, benefits and costs of tourism development to the host community, government's role in the taxation, subsidy, regulation and protection of the tourism industry, tourism's impact on the environment, and sustainable tourism development. A-F only. Pre: 120 or 130 or 131; consent. (Cross-listed as TIM 320) **DS**

**ECON 321 Introduction to Statistics (3)** Basic elements; descriptive statistics, probability, inference, distributions, hypothesis testing, regression, and correlation analysis. **DS**

**ECON 332 Economics of Global Climate Change (3)** Nature and causes of global climate change and economic solutions. Topics include valuing climate change impacts, energy solutions, environmental implications, societal adaptation, and international cooperation. A-F only. Pre: 120 or 130 or 131, or consent. (Once a year) **DS**

**ECON 336 Energy Economics (3)** Analysis of economic and policy aspects of energy use, and interactions of markets for various nonrenewable and renewable energy options. Evaluations of policies to develop alternative energy sources. Pre: 120 or 130 or 131. **DS**

**ECON 340 Financial Markets and Institutions (3)** The determination of asset prices; the risk and term structure of interest rates; efficient markets hypothesis; risk management and financial derivatives, asymmetric information models of financial market structure, innovation, regulation and deregulation; and financial crises. Pre: 120, 130, or 131; or consent. **DS**

**ECON 341 Comparative Economic History (3)** Comparative historical study of economic ideas and change since around 1700. Considers the histories of capitalism, poverty, industrialization and labor in Europe, Asia, the U.S., and other regions. (Cross-listed as HIST 340) **DH**

**ECON 342 The History of Economic Thought (3)** Introduces major western economic theorists and ideas since around 1700. Considers the history of views on work, poverty, the market and government, and the relationship of those doctrines to society, philosophy, and public policy. Pre: 130, 131, or HIST 151, or HIST 152; or consent. (Alt. years) (Cross-listed as HIST 342)

**ECON 350 Sustainable Development (3)** Transdisciplinary introduction to sustainable development. Interactions between environment, economy, and public policy, especially in Hawai'i. Topics include: curse of paradise, global warming, energy use, health, poverty, population, water resources, traffic congestion, biodiversity, pollution controls. Pre: 120 or 130 or 131, or consent. (Once a year) **DS**

**ECON 355 Network Economics (3)** Fundamental questions about the connections in the social, economic, and technological worlds. Topics include: matching markets, traffic, financial and social networks; and the political and economic consequences of the internet and other large networks. Pre: 120 or 130 or 131. **DS**

**ECON 356 Games and Economic Behavior (3)** Introduces students to the study of strategic behavior with applications to economics, business, and public policy. Simple economic models of strategic decision making are used to analyze provision of public

goods; competition, cooperation, and coordination among firms; bargaining between employers and labor unions; international trade negotiations; reputation as a competitive advantage, and others. Pre: 120, 130, or 131; or consent. **DS**

**ECON 358 Environmental Economics (3)** Nature and causes of environmental degradation/economic solutions, with emphasis on relevant ethical issues and decision-making. Topics include air and water pollution, toxic waste, deforestation, soil erosion, biodiversity, global warming, and sustainable development. Pre: 120, 130, or 131; or consent. **DS**

**ECON 361 Seminar: Women and International Development (3)** Women's role, status, work and treatment in the Third World; economic development, changing work/family roles, and improvement/deterioration in gender equity across the Third World; global feminization of poverty; efforts to promote gender equity. Open to non-majors. Pre: a 100 level economics course or any women's studies course; or consent. (Cross-listed as WS 361) **DS**

**ECON 362 Trade Policy and Globalization (3)** Political economy of the world trading system. Case studies of trade cooperation and conflict under the World Trade Organization and other institutions. Future challenges, including investment policies, environmental and labor standards. Pre: 120, 130 or 131; or consent. **DS**

**ECON 390 Internship for Economics (V)** Economics majors and minors work at paid positions with public agencies, private companies, and campus organizations. Students combine academic work with practical experience. Repeatable two times. Pre: consent.

**ECON 391 Cooperative Education (V)** Economics majors and minors, under the supervision of faculty members, work at paid positions with public agencies, private companies, and campus organizations. The Econ Co-op integrates academics with practical work experience. Repeatable two times. Pre: consent.

**ECON 396 Contemporary Topics in Economics (3)** Economic analysis of current events. Topics announced each semester. Repeatable unlimited times. Pre: 120 or 130 or 131. **DS**

**ECON 399 Directed Reading (V)** Economics majors and minors participate in faculty supervised reading of economic literature. Enables students to self-study topics not covered in the department's scheduled course offerings. Repeatable one time. Pre: consent.

**ECON 409 The Ocean Economy (3)** Examination of society's interaction with the ocean. Topics include: ocean recreation, shipping, boat building, ports, offshore energy production, aquaculture, fishing, coastal construction, and coral reef protection. Pre: 120 or 130, or consent. (Once a year) **DS**

**ECON 412 Economic History of the United States (3)** U.S. economy from colonial times: government policies, institutions, industries, financial markets, economic growth, economic crises. Pre: 120, 130, or 131; or consent. **DS**

**ECON 414 Global Economic Crisis and Recovery (3)** Causes and consequences of financial and economic crises: crisis origins and global transmission; macroeconomic and regulatory policy responses; recovery challenges. Pre: 120, 130, or 131; or consent. **DS**

**ECON 415 Asian Economic Development (3)** History and economic development. Resources, population, and income, saving, investment, and consumption patterns. Role of government and private enterprise. Pre: 120, 130, or 131; or consent. **DS**

**ECON 416 The Chinese Economy (3)** The Chinese economy during the imperial and republican periods, under Mao, and into the present reform era, with a brief comparison to Taiwan and Hong Kong. Pre: 120, 130, or 131; or consent. **DS**

**ECON 418 Pacific Island Economies (3)** Historical and current economic development of the Pacific

islands (excluding Hawai'i). Analysis of selected economic issues such as tourism, population growth, etc. Pre: 120, 130, or 131; or consent. **DS**

**ECON 420 Mathematical Economics (3)**

Mathematical techniques applied to theories of the consumer, the firm, markets. Linear programming, input-output analysis. Pre: 300, 301; MATH 203, MATH 215, MATH 241, or MATH 251A. **DS**

**ECON 425 Introduction to Econometrics (3)**

Regression analysis, analysis of variance, hypothesis testing, problems in estimation of single equation models, simultaneous equation models, problems and methods of estimation. Pre: 321 or MATH 241 or BUS 310 or NREM 310 or (MATH 251A and NREM 203) or (MATH 371 and MATH 373) or (MATH 471 and MATH 472); or consent. **DS**

**ECON 427 Economic Forecasting (3)** Forecasting methods for business and economics with applications to the U.S., Asian, and Hawai'i economies. Topics include time series modeling of trend, seasonal, and cyclical components, multivariate regression modeling, and forecast evaluation. A-F only. Pre: 321 or BUS 310 or NREM 310 or (MATH 251A and NREM 203) or (MATH 371 and MATH 373) or (MATH 471 and MATH 472); or consent. **DS**

**ECON 429 Spreadsheet Modeling for Business and Economic Analysis (3)** Introduction to quantitative decision-making methods for effective agribusiness management in resource allocation, scheduling, logistics, risk analysis, inventory, and forecasting. Emphasis on problem identification, model formulation and solution, and interpretation and presentation of results. Pre: 130 or NREM 220, and 321 or NREM 310; or consent. (Once a year) (Cross-listed as NREM 429 and TPSS 429) **DS**

**ECON 430 Economics of Human Resources (3)** Economic analysis of labor market. Investment in human capital, education, health, migration, etc. Pre: 301 or consent. **DS**

**ECON 432 Economics of Population (3)** Determinants and consequences of growth and structure of human populations. Relationships between economic factors and fertility, population growth and economic growth. Pre: 301 (or concurrent). (Cross-listed as GHPS 432) **DS**

**ECON 434 Health Economics (3)** Private and public demand for health, health insurance, and medical care; efficient production and utilization of services; models of hospital and physician behavior; optimal public policy. Pre: 301 or consent. **DS**

**ECON 440 Monetary Theory and Policy (3)** Microfoundations and critical analysis of monetary and macroeconomic theory and policy. Topics include the causes and consequences of inflation, optimal monetary policy and international monetary systems, bank risk and insurance, and national debt and taxation. Pre: 300 or 301 or consent. **DS**

**ECON 442 Development Economics (3)** Characteristics of underdeveloped economies, theories of economic growth, strategies of economic development, and investment criteria. Pre: 300 and 301, or consent. **DS**

**ECON 450 Public Economics (3)** Welfare economics, public expenditure and policy evaluation, public finance by debt and taxes. Pre: 301. **DS**

**ECON 452 State and Local Finance (3)** Fiscal institutions, operations, and policy questions within state and local governments in U.S. grant programs and other links with central government. Pre: 301. **DS**

**ECON 458 Project Evaluation and Resource Management (3)** Principles of project evaluation and policy analysis. Shadow pricing, economic cost of taxes and tariffs; public policy for exhaustible, renewable, and environmental resources. Pre: 301. **DS**

**ECON 460 International Trade and Welfare (3)** Theory of international specialization and exchange; general equilibrium, tariffs, quotas, common markets. Pre: 301. **DS**

**ECON 461 International Macroeconomics (3)**

The determination of output, price levels, exchange rates and the balance of payments for economies that are integrated with the global economy; theory and application to historical and/or contemporary policy issues. Pre: 300. **DS**

**ECON 470 Industrial Organization (3)** Theoretical and empirical analysis of contemporary topics in industrial organization. Uses economic theory to analyze important issues facing firms, and examines the practical challenges of empirical applications of theory. Pre: 301. **DS**

**ECON 476 Law and Economics (3)** Legal issues of property rights, contracts, torts, and crime. Efficiency of U.S. legal process. Economics of law enforcement, juries, prosecutors; evolution of legal rules. Pre: 301. **DS**

**ECON 495 Land and Housing Economics (3)** Microeconomics explains urban land and housing phenomena, and analyzes selected land and housing issues relevant to Honolulu. Pre: 301 or consent. **DS**

**ECON 496 Contemporary Economic Issues (3)** Economic analysis of current events. Topics announced each semester, e.g., environmental pollution, crime control, racial discrimination, traffic congestion. Pre: 300 or 301 or consent. **DS**

**ECON 499 Advanced Directed Research (V)** Economics majors and minors conduct research, under faculty supervision, on a topic of their choice. Repeatable one time. A-F only. Pre: minimum GPA of 3.0 in economics and consent.

**ECON 500 Master's Plan B/C Studies (1)** Repeatable unlimited times.

**ECON 604 Microeconomics and Policy Analysis (3)** Theory of the consumer, firm, and market. Role of governments and analysis of public policy. Applications to both industrialized and developing countries. Pre: consent.

**ECON 606 Microeconomic Theory I (3)** Theory of the firm: production, costs, duality; theory of the market: competition, monopoly, oligopoly, monopolistic competition; theory of the consumer: preferences, expenditures, duality; expected utility theory.

**ECON 607 Macroeconomic Theory I (3)** Neoclassical theory of real and monetary equilibrium, economics of J. M. Keynes, standard IS/LM models and aggregate demand/supply analysis in the closed and open economy, theory of rational expectations.

**ECON 608 Microeconomic Theory II (3)** General equilibrium analysis: production, consumption and Walrasian equilibria; Pareto efficiency, fundamental theorems of welfare economics; externalities; public goods; game theory; information theory. Pre: 606 or consent.

**ECON 609 Macroeconomic Theory II (3)** Models of economic growth and fluctuations; stochastic and dynamic macroeconomic models; econometric testing of rational expectations models; theory of public debt; current topics in macroeconomic theory. Pre: 607 or consent.

**ECON 610 Economic Development (3)** Nature and causes of economic growth and structural change. Roles of macroeconomic policy and foreign trade. Pre: 606 and 607, or consent.

**ECON 611 Economic Development Policy (3)** Analysis of policies for the promotion of industrial and agricultural development. Project evaluation, industrial regulation, public administration, investment and capital market policies, land-use policies, trade policies, pricing, and stabilization. Pre: 604 or 606; or consent.

**ECON 614 Economic Development of Japan (3)** Analysis of growth from Meiji period to present. Problems of population change, capital formation, income distribution, industrial structure. Pre: 610 or consent.

**ECON 620 Microeconomic Theory III (3)** Game theory and strategic behavior. Economics of informa-

tion and incentives principal-agent theory. Economic design. Applications include: theory of contracts; incentive compatible mechanism for provision of public goods; auction theory. Pre: 608 or consent.

**ECON 627 Mathematics for Economics (3)** Sets, functions, limits, convexity, continuity; constrained and unconstrained optimization; difference and differential equations; matrix algebra; simultaneous equations; comparative statics; Kuhn-Tucker theory; game theory; mathematical programming. Pre: MATH 203, MATH 215, MATH 241, or MATH 251A.

**ECON 628 Econometrics I (3)** Review of probability, estimation, small sample and asymptotic properties. Bivariate and multiple regression and matrix algebra formulation. Regression diagnostics. Introduction to heteroskedasticity, autocorrelation, simultaneity, dichotomous variables, advanced topics. Pre: 321 or NREM 310, and MATH 241; or consent. (Cross-listed as AREC 626)

**ECON 629 Econometrics II (3)** Specification, statistical estimation, inference and forecasting of econometric models. Includes advanced topics for single-equation models, pooled models, qualitative dependent variables, simultaneous systems, distributed lags, and time series. Pre: 628, AREC 626, or consent. (Cross-listed as AREC 634)

**ECON 635 Disasters and Economic Policy (3)** Economic analysis of disasters. The economics of prevention and mitigation, as well as post-disaster economic consequences and policy, will be examined. Graduate students only.

**ECON 636 Renewable Energy Economics and Policy (3)** Analysis of economic and policy aspects of renewable energy use, and interactions of markets for renewable energy and other energy options. Evaluations of policies to develop renewable energy options. Pre: college calculus and principles of microeconomics; or consent.

**ECON 637 Resource Economics (3)** Analysis of problems of development and management of natural resources with emphasis on resources in agriculture and role in economic development. Pre: 608 and 629. (Cross-listed as NREM 637)

**ECON 638 Environmental Resource Economics (3)** Principles of policy design and evaluation for environmental resources management, forestry and watershed conservation, and sustainable economic development. Pre: 604 or 606; or consent.

**ECON 639 Marine Resource Economics (3)** Seminar on the economics of the marine environment. Topics include fisheries management, ocean recreation, shipping, and coral reef protection. Pre: 606 or consent. (Once a year)

**ECON 650 Foundations of Public Policy (3)** Microeconomic principles for expenditure and tax policies. Externalities, public goods, non-convexities, regulation; cost-benefit analysis, general equilibrium, shadow-pricing; rent-seeking, corruption; optimal taxation, incidence, excess burden; dynamic public finance, national debt, social security. Pre: 604 or 606; or consent.

**ECON 651 Public Economics (3)** Theoretical and empirical analysis of public-sector allocation. Adverse selection, moral hazard, networks, auctions, public choice and political mechanisms; tax and mandate incidence; economics of education and local public goods; social insurance programs. Pre: 606 or consent.

**ECON 660 International Trade and Welfare (3)** Classical and new theories of international trade: why nations trade, gains from trade, patterns of trade, and trade policy effects under perfect and imperfect competition. Empirical trade and other special topics. Pre: 606 or consent.

**ECON 662 International Macroeconomics (3)** Advanced international monetary and macroeconomic theory: balance of payments, output, price and exchange rate determination, international aspects of growth and economic fluctuations, alterna-

tive exchange rate regimes, international capital flows. Pre: 607 or consent.

**ECON 664 Applied International Finance (3)** Surveys empirical research in international macroeconomics, finance and econometric methods: including balance of payments adjustment, international equilibrium, international prices, interest rates and exchange rates, models of exchange rate determination, capital flows, balance of payments crises. Pre: 607 and 629 (or concurrent), or consent. (Fall only)

**ECON 670 Labor Economics I (3)** Supply of and demand for labor; implications for labor markets and unemployment level. Pre: 606 or consent.

**ECON 672 Economics of Population (3)** Economic determinants and consequences of population change. Pre: consent.

**ECON 674 Health Economics and Policy (3)** Economic analysis of health-care policy; efficient design of health-care financing schemes; private and public demand for health, health insurance, and medical care; provider behavior. Pre: 604 (or concurrent) or 606 (or concurrent), or consent.

**ECON 686 Strategic Behavior and Experimental Economics (3)** Experimental economics: methodology. Experimental game theory. Market experiments. Applications include: topics in industrial organization, provision of public goods, asset markets, auctions. Repeatable one time. Pre: 606 and 608, or consent.

**ECON 696 Advanced Topics in Economics (V)** Reflects interests of visiting and permanent faculty, focusing on specialized methods or topics in economics. Repeatable unlimited times. Pre: 606 or 607, or consent.

**ECON 699 Directed Research (V)** Repeatable unlimited times. Pre: consent of department chair.

**ECON 700 Thesis Research (V)** Research for master's thesis. Repeatable unlimited times.

**ECON 730 Research Seminar (3)** Selected issues emphasizing research techniques. Required for students who have passed the two theory qualifying exams and have not passed the comprehensive exam. CR/NC only. Pre: consent.

**ECON 732 MA Capstone Research (3)** Student applies theoretical and quantitative techniques, critical thinking, and communicative skills to prepare a written and oral presentation of original research on a topic of his or her choice. A-F only. Pre: 606, 607, 627, 628, and consent of graduate chair.

**ECON 800 Dissertation Research (V)** Research for doctoral dissertation. Repeatable unlimited times.

## Education (EDUC)

### College of Education

**EDUC 616 Prevention of School Violence (3)** Examines cultural and societal factors contributing to and extent of violence in schools, and outlines schoolwide education for social and emotional literacy, conflict resolution, peer mediation, and appreciation of diversity for peaceable and inclusive schools and communities. A-F only. (Summer only)

**EDUC 617 HIV, STD, and Pregnancy Prevention (3)** Development of effective school-based HIV, STD, and unintended pregnancy prevention strategies, based on curriculum evaluation research and participant and student inquiries. Emphasis on serving as classroom models and mentors for other educators. A-F only. (Summer only)

**EDUC 710 Professional Doctorate Practicum: Consultancy Project (6)** Practicum in the EdD program in professional practice; involves a group consultancy project requiring independent research and reflective activity embedded in a group project dealing with a problem of practice. Repeatable one time. Restricted to students in the Doctoral Degree in Professional Educational Practice. A-F only. Pre: other approval.

**EDUC 720 Professional Doctorate Practicum: Individual Applied Research Project (6)** Practicum

in conducting individual practitioner research within the EdD. Includes the formulation of individual applied research project, developing a plan of action, selection of appropriate methods, implementation of plan and composition of practitioner research report. Repeatable three times. Restricted to students in the Doctoral Degree in Professional Educational Practice. A-F only.

**EDUC 730 EdD Conference (1)** Capstone for the Doctoral Degree in Professional Educational Practice. Involves a conference presentation of research project results to an audience of faculty, fellow graduate students, and interested members of the public. Restricted to students in the Doctoral Degree in Professional Educational Practice. CR/NC only. Pre: other approval.

**EDUC 740 Field Project (V)** Practicum experience in area of specialization. Variable credit: minimum of 3 credit hours, maximum of 6 credit hours. Repeatable two times. Pre: consent.

**EDUC 799 Internship in College Teaching (V)** Introduction to college-level teaching; doctoral students serve as apprentices to professors; responsibilities include supervised teaching, planning and evaluation. Repeatable up to six credits. CR/NC only. Pre: admission to PhD candidacy and consent.

**EDUC 800 Dissertation Research (V)** Research for doctoral dissertation.

## Educational Administration (EDEA)

### College of Education

**EDEA 360 Dynamics of Student Leadership (3)** Theoretical approaches and an experimental orientation toward leadership in student organizations via classroom activities and practicum experiences with student organizations.

**EDEA 370 Peer Leadership Education and Mentoring (3)** Theoretical explorations and a supervised practicum experience in student peer leadership education and mentoring in a variety of curricular and co-curricular contexts. Pre: 360 (or equivalent) and consent. (Summer only)

**EDEA 460 (Alpha) Topics in Emergent Paradigms of Leadership (3)** Exploration, application, analysis and synthesis of advanced leadership concepts including emergent theories, issues, trends and empowering approaches. (B) survey of emergent paradigms; (C) Asian Pacific American leadership; (D) gender and leadership; (E) ethics and leadership; (K) issues and problems in leadership. Repeatable one time per alpha. Pre: 360 (or equivalent) and consent.

**EDEA 499 Directed Reading (V)** Planned individualized study, reading, research, teaching, and/or projects under direct supervision of instructor. A-F only. Repeatable up to six credits. Pre: consent.

**EDEA 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Repeatable unlimited times. Pre: master's Plan B or C candidate and consent.

**EDEA 601 Introduction to Education Administration (3)** Develops view of administrative process and organization elements in context of system of personal, social, and physical variables. Emphasis on role and functions of school administrator.

**EDEA 602 Research in Education Administration (3)** Develops basic concepts of research on educational administration: methodology, status of particular topics, communication, and application of findings to problems of school administration. (Meets PhD common core inquiry methods requirement.)

**EDEA 604 Qualitative Research Methods in Educational Organizations (3)** Introduction to methods of qualitative research in educational administration. (Meets PhD common core requirement.)

**EDEA 608 Survey Research Design and Analysis (3)** Survey study designs, survey sampling, questionnaire construction, interviewing, pre-tests, pilot studies, logic of measurement and association, table

construction, and elaboration models. Pre: consent. (Cross-listed as SOC 608)

**EDEA 610 School-Community Relations (3)** Application of principles, techniques, policies, organization of school-community information program.

**EDEA 620 Education Finance (3)** Educational revenues, apportionments, budgetary procedures, costs, business management, economics of education, measures of productivity.

**EDEA 623 Administration in Kinesiology (3)** Current problems, trends, and strategies in the administration of athletic training, physical education, recreation, sport and fitness programs in school and non-school settings. Repeatable one time. Pre: consent. (Cross-listed as KRS 623)

**EDEA 629 Educational Statistics (3)** Statistical inference including applications of parametric and nonparametric methods to educational problems.

**EDEA 630 Education Law (3)** Status and functions of educational institutions and personnel relative to their legal rights and responsibilities. Includes interpretation of important court decisions, statutes, equity measures.

**EDEA 642 Information Systems in Education (3)** Integration of information systems and computer technology in educational planning, policy analysis, decision-making, and program assessment. Pre: ETEC 442 and consent.

**EDEA 645 Principles of School Leadership (3)** Examine the emergent theories, issues, practices, and problems relevant for educational leaders in school organizations. Integrates the aspects of management and administration within the context of leadership.

**EDEA 646 American College Student (3)** Study of psycho-social characteristics of the American college student and college environment, from viewpoint of student personnel work. (Cross-listed as KRS 646)

**EDEA 650 Human Factors in Organization (3)** Analysis of the nature of organizations, human nature and needs, and their relationship to leadership, staffing, and staff development. Implications of group structure and human conflict, communications, and supervision and evaluation considered.

**EDEA 652 Conflict Management for Educators (3)** Conflict resolution theory and practice for administrators, faculty and staff in educational organizations. K-12, community colleges and universities. Application and theory of negotiation, mediation, facilitation and hybrid ADR processes. Pre: 601 or 650, or consent. (Cross-listed as PACE 652)

**EDEA 655 Intercultural Interactions (3)** Theory-based frameworks and training methods of intercultural interaction and their applications to educational administration situations.

**EDEA 657 Introduction to Higher Education (3)** Salient historic, social, and organizational aspects of higher education; history, philosophy, purposes, governance, administration, structures, financing, faculty and student selection, curricula, legal and social issues.

**EDEA 660 Management/Leadership in Higher Education (3)** Trends, research, and problems in college and university management. Pre: 657 or consent.

**EDEA 661 Student Affairs Administration in Higher Education (3)** Philosophy, history, organization, and administration of student personnel services at college and university levels, including admissions, housing, student activities, financial aids, placement, counseling, health services. Pre: 657 or consent.

**EDEA 662 Curriculum in Higher Education (3)** Traditional and contemporary curriculum issues. Development of performance competencies in curriculum design and evaluation using systems and design theory as central paradigms. Pre: 657 or consent.

**EDEA 663 Community College Leadership (3)** Development and changing missions of community

colleges; in-depth study of emerging leadership issues: planning, financial management, decision-making, governance, and student personnel. Pre: 660 or consent.

**EDEA 670 Teacher Development and Evaluation (3)** The role of teacher evaluation in the development of teachers and learning communities and to support effective teaching.

**EDEA 675 Introduction to Educational Policy Studies (3)** Examines theories and models of educational policy and policy-making and the contribution of policy analysis to the policy-making and change processes. A-F only. Pre: consent. (Cross-listed as EDEF 675)

**EDEA 676 The Politics of Education (3)** Examination of the ways in which education can be viewed as political, arising from its connection to the larger political system including local, state, and federal governments. A-F only. Pre: 675, EDEF 675; or consent. (Cross-listed as EDEF 676)

**EDEA 699 Directed Reading and/or Research (V)** Individual reading and/or research. Repeatable unlimited times. Pre: consent of instructor and department chair.

**EDEA 700 Thesis Research (V)** Research master's thesis. Repeatable unlimited times.

**EDEA 704 Advanced Qualitative Research (3)** Study in trends, research, and problems. Pre: 604 or comparable, or consent.

**EDEA 720 Administrative Internship (V)** Supervised intern experience in school and university administration. Emphasizes the development of leadership skills through program and project management. A-F only. Pre: approval of cooperating agencies and department.

**EDEA 745 Creative Learning Strategies for Adults (3)** Analysis of psychology of adult learner; forces that affect learning in dynamics of individual, group, and organizational behavior; concept of lifelong learning vis-a-vis development of creative strategies that assist maturing, self-directed persons to develop their potentialities. (Cross-listed as EDEP 745 and NURS 745)

**EDEA 767 Seminar on the Educational System (3)** Examination of structure and dynamics of the educational system. Particular focus on how educational policy interacts with principles that explain educational system behavior. A-F only. Pre: 675 or EDEF 675, or consent. (Cross-listed as EDEF 767)

**EDEA 775 Seminar on the Principals (3)** Series of planned seminar experiences on problems and issues confronting school principals, such as contract administration, program planning and budgeting systems (PPBS), teacher evaluation. Topic to be announced. Repeatable unlimited times.

**EDEA 780 (Alpha) Seminar (3)** Study in trends, research, and problems. (B) policy formulation; (C) organizational change; (D) evaluation and research management (meets PhD common required advanced methodology course); (F) curriculum administration; (G) school governance; (H) college student affairs administration; (I) higher education administration; (J) administrative theories; (K) administrative problems and issues. (K) is repeatable two times in different topics. EDEA majors only for (K). Pre: consent.

## Educational Foundations (EDEF)

### College of Education

*Current TB clearance is a requisite for all students taking courses requiring practicum experiences.*

*The minimum required grade for prerequisites for undergraduate-level courses is a grade of C or better. The minimum required grade for prerequisites for graduate-level courses is a grade of B or better.*

**EDEF 310 Education in American Society (3)** Interrelated historical, philosophical, and socio-cultural contexts of education with an emphasis on contemporary problems and applications. Students

enrolled in colleges other than the College of Education are asked to confer with the College of Education director of student services before enrolling in 310. A-F only. DS

**EDEF 360 Introduction to Multicultural Education (3)** Concepts and methods to develop sensitivity and awareness of cultural influences on behavior as these relate to the schooling process. (Cross-listed as ITE 360) DS

**EDEF 399 Directed Reading (V)** Individual reading or research. Pre: senior majors with a minimum cumulative GPA of 2.7 or a minimum GPA of 3.0 in education, and consent of instructor and department chair.

**EDEF 408 Community and Culture (3)** Theoretical and practical approaches to understanding the constitution of community life. A focus on the social construction of normative values, social dynamics of organizations, and school-community relations.

**EDEF 445 Sociology of Education (3)** Introduction to sociological frameworks of analysis of the institutional, cultural and social dynamics of schooling, classroom management, school reform, social group and individual role behavior. DS

**EDEF 453 Gender Issues in Education (3)** Examination of current and historical issues in education and how they are impacted upon by gender, with particular reference to gender as it intersects with ethnicity and class, locally and globally. Pre: WS 151 or consent. (Cross-listed as EDCS 453 and WS 453) DS

**EDEF 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**EDEF 610 Foundations of Educational Theory (3)** An in-depth review of social, philosophical, and historical views underlying various theories of education and their applications in teaching and learning.

**EDEF 630 Cultural Diversity and Education (3)** Examines issues, theories, perspectives and practices in multicultural education and promotes awareness, encourages knowledgeable reflection and develops skills necessary for multicultural practitioners. A-F only. (Cross-listed as EDCS 630)

**EDEF 649 Field Studies in Educational Foundations (V)** Field-based participant research projects, including analysis of educational problems and issues. Repeatable unlimited times.

**EDEF 651 History of Education in America (3)** History of educational thought and practice from European colonialism to revolutionary nationalism to the present.

**EDEF 652 History of Education in Hawai'i (3)** From pre-contact, ancient Hawai'i to the present. Social and intellectual influences on the development of national, local, and indigenous educational institutions; emphasis on multicultural as well as monocultural directions in Hawai'i's schools.

**EDEF 657 Introduction to Higher Education (3)** Salient historic, social, and organizational aspects of higher education; history, philosophy, purposes, governance, administration, structures, financing, faculty and student selection, curricula, legal and social issues.

**EDEF 660 Philosophy of Education (3)** Readings of the original texts of major philosophers impacting American education. Considerations about the conditions of knowing and their extension in everyday practices in education.

**EDEF 667 (Alpha) Seminar in Educational Foundations-Selected Topics (3)** Multi-disciplinary (historical, philosophical, social/cultural and comparative/international focus on topical issues in education. (B) general; (C) leadership and governance in education; (D) educational reform; (E) foundations of teaching; (F) foundations of curriculum; (G) globalization in education; (H) moral political education. Repeatable one time for (H). A-F only for (H). Pre: graduate standing and departmental approval.

**EDEF 669 Introduction to Comparative/International Education (3)** Introduction to basic methods of comparative studies, focusing on schooling, but also treating broader educational issues.

**EDEF 671 Topics in Comparative Education (3)** Educational institutions, structures, processes, policies, and problems viewed within the context of political, social, and cultural milieus. Geographic region or theme focus. Repeatable three times. Pre: consent.

**EDEF 675 Introduction to Educational Policy Studies (3)** Examines theories and models of educational policy and policy-making and the contribution of policy analysis to the policy-making and change processes. A-F only. Pre: consent. (Cross-listed as EDEA 675)

**EDEF 676 The Politics of Education (3)** Examination of the ways in which education can be viewed as political, arising from its connection to the larger political system including local, state, and federal governments. A-F only. Pre: 675, EDEA 675, or consent. (Cross-listed as EDEA 676)

**EDEF 678 Approaches to Educational Inquiry (3)** Overview of different research methods in educational inquiry with an opportunity to explore through practice one or more methods (ex: case study, interviewing, narrative construction, practitioner inquiry. Preparation for MED or PhD proposals.

**EDEF 680 Seminar on Race, Law, and Education (3)** Introduction to educational law and the way it relates to issues of race and ethnicity. Particular focus on how the U.S. courts have dealt with the question of educational inequality in a multiracial/multiethnic society. A-F only. Pre: graduate standing or consent.

**EDEF 683 Social and Cultural Contexts of Education (3)** Focuses on the interplay of class, race, gender and ethnicity in school and community settings. Social praxis, educational reform and policy are considered.

**EDEF 684 Education and World Order (3)** Focuses on the challenges educators face in identifying appropriate pedagogical frameworks and practices in global education that address the impact of globalization in our society today. A-F only. Pre: consent.

**EDEF 685 International Development Education (3)** Introduction to international development education in Asian and Pacific nations. Students explore links between education and development. Emphasis is on cross-cultural perception of development.

**EDEF 686 Environmental Education (3)** Focuses on the development of an ecological consciousness through a cultural and environmental approach to teaching and learning in schooling and everyday life.

**EDEF 699 Directed Reading and/or Research (V)** Individual reading and/or research. Repeatable unlimited times. Pre: consent of department chair.

**EDEF 700 Thesis Research (V)** Research for master's thesis. Repeatable unlimited times.

**EDEF 762 Seminar on the Social and Cultural Contexts of Education (3)** Examination of social, political, and cultural issues affecting educational policy with special emphasis on methods of inquiry and theoretical constructs. Pre: consent.

**EDEF 764 Advanced Seminar in Philosophy of Education (3)** Advanced studies in philosophical inquiry. Examination of philosophically based methods of analysis and interpretation and their influence in educational research and practice. Pre: consent.

**EDEF 766 Seminar in History of Education (3)** Aspects of the history of education. Application of historiography to educational problems and policy. Repeatable with different content. Pre: 651 or 652, or consent.

**EDEF 767 Seminar on the Educational System (3)** Examination of the structure and dynamics of educational system. Particular focus on how educational policy interacts with principles that explain educational system behavior. A-F only. Pre: 675 or EDEA 675, or consent. (Cross-listed as EDEA 767)

## Educational Psychology (EDEP)

### College of Education

#### EDEP 201 Introduction to Teaching as a Career

(3) An experience-based introduction to teaching as a career. Repeatable one time.

**EDEP 311 Psychological Foundations (3)** Principles of learning and individual differences; relationships of these factors to classroom experience. **DS**

**EDEP 327 Self-Regulated Learning (3)** Theory and use of self-regulated learning strategies in academic contexts.

**EDEP 399 Directed Reading (V)** Individual reading or research. Pre: consent.

**EDEP 408 Fundamentals of Research in Education (3)** Introduction to the methodology of systematic study of problems in education: principles of research design, data processing, technical writing, and evaluation of research proposals and reports. **DS**

**EDEP 411 Seminar in Contemporary Perspectives in Educational Psychology (3)** In-depth analysis of contemporary issues in education from the theoretical and methodological perspectives of the faculty in educational psychology. Repeatable one time. **DS**

**EDEP 416 Student Assessment (3)** Introduction to basic concepts and issues in assessment and measurement, descriptive statistics, scales of measurement, norms, reliability, validity and development of formative and summative assessment procedures.

**EDEP 429 Introductory Statistics (3)** Use of descriptive statistics in analyzing test scores; application of linear correlation and regression; introduction to an understanding of inferential statistics. **DS**

**EDEP 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**EDEP 601 Introduction to Quantitative Methods (3)** Introductory statistics in education and social sciences. Topics include probability distributions; sampling distributions; hypothesis testing using t-tests, correlation, simple regression, ANOVA; and applications in research. (Meets PhD common inquiry methods requirement or elective.)

**EDEP 603 Design and Analysis of Psychological Experiments (3)** Analysis of variance and other models of assessing results of experiments. Relation of analysis to design. (Cross-listed as PSY 611)

**EDEP 604 Applied Regression and Analysis of Variance (3)** Introduction to linear statistical models as principle of data analysis. Topics include multiple regression models with continuous and categorical predictors. ANOVA with multiple factors, ANOVA with repeated measures, and ANCOVA. Pre: 601 or PSY 610 or EDEA 629, (pre with a grade of B+ grade), or consent. (Cross-listed as PSY 612)

**EDEP 605 Structural Equation Modeling (3)** Theories and applications to test models with manifest and latent variables. Topics include path analysis, factor analysis, and latent variable analysis. Pre: 604, PSY 612, or consent. (Cross-listed as PSY 613)

**EDEP 606 Multivariate Methods (3)** Multivariate forms of multiple linear regression, analysis of variance and co-variance. Multiple discriminant analysis, canonical correlation, and principal-components analysis are discussed. (Cross-listed as PSY 614)

**EDEP 608 Introduction to Educational Research (3)** Fundamental design and evaluation procedures in educational research. Determining needs, defining objectives, research design, instrumentation, data collection, and evaluation. Course requires basic statistics. (Meets PhD common inquiry methods requirement or elective.)

**EDEP 611 Introduction to Educational Psychology (3)** Graduate level introduction to educational psychology theories, research, and topics.

**EDEP 612 Multilevel Modeling for Cross-Sectional and Longitudinal Data (3)** Theories and applications of multilevel model to analyze cross-sectional and longitudinal data in education and social sciences. Pre: 604 or PSY 612 (with a

minimum grade of B or higher), or consent. (Cross-listed as PSY 619)

**EDEP 616 Measurement in Education and Social Sciences (3)** Test theories and applications in education and social sciences. Topics include the true score model; reliability; generalizability theory; validity; item response theory; and applications in research. Class requires knowledge in ANOVA and regression. (Cross-listed as PSY 616)

**EDEP 618 Categorical Data Analysis (3)** Theories and methods for data analysis with categorical and discrete variables. Topics include contingency tables; logistic regression; log-linear models; and introduction to generalized linear models. (Cross-listed as PSY 618)

**EDEP 626 Advanced Psychometrics (3)** Theories and applications of modern psychometrics. Topics include unidimensional and multidimensional models of item response theory, detecting biased items, measurement invariance, scaling methods, and current issues in psychometrics. Pre: 616, PSY 616, or consent. (Cross-listed as PSY 617)

**EDEP 631 Adolescence and Education (3)** Discussion-based course presenting an overview of educational psychology applied to teaching adolescents, including theory and research on human learning, adolescent development and its social context, and student assessment.

**EDEP 657 Introduction to Program Evaluation (3)** Introduction to concepts and issues related to program evaluation. Topics include formative and summative uses, planning and design approaches, and metaevaluation processes. A-F only. Pre: 608 (or equivalent).

**EDEP 661 Development and Learning (3)** Analysis and critique of (Piagetian) developmental stage theory and traditional behavioristic and cognitive learning theories; introduction to current models of learning and development. Pre: consent.

**EDEP 662 Social Context of Learning (3)** Research methods and theories relating social mediation and learning group structures to intellectual growth.

**EDEP 663 Models of Cognitive Learning (3)** Cognitive models of knowledge acquisition, organization, and utilization; theory and research relating learning and cognition to interactive instructional models.

**EDEP 664 Instructional Psychology (3)** Application of learning theory and cognitive skills training in instructional settings.

**EDEP 665 Social Cognition and Competence (3)** Systematic analysis of social reasoning abilities conjunctive with or prerequisite to effective social interaction in educational settings.

**EDEP 699 Directed Reading and/or Research (V)** Individual reading and/or research. Repeatable ten times. Pre: consent.

**EDEP 700 Thesis Research (V)** Research for master's thesis. Repeatable seven times.

**EDEP 708 Educational Research Methods (3)** Research techniques and thesis development.

**EDEP 711 Practicum in Educational Psychology (V)** Supervised practicum in teaching or program evaluation as each is reflected by professional activities of the members of the faculty. Repeatable six times. Pre: consent of supervisory professor.

**EDEP 745 Creative Learning Strategies for Adults (3)** Analysis of psychology of adult learner; forces that affect learning in dynamics of individual, group, and organizational behavior; concept of lifelong learning vis-à-vis development of creative strategies that assist maturing, self-directed persons to develop their potentialities. (Cross-listed as EDEA 745 and NURS 745)

**EDEP 768 (Alpha) Seminar in Educational Psychology (3)** Current issues and problems in the context of education: (B) general; (C) learning; (D) measurement; (E) statistics; (F) psycho-social development; (G) educational evaluation; (H) research

methodology. Repeatable nine times. Pre: consent. Seminar may be repeated for credit as topics vary.

**EDEP 800 Dissertation Research (V)** Research for doctoral dissertation. Repeatable unlimited times.

## Educational Technology (ETEC)

### College of Education

**ETEC 112 Technology Resources for Learning (3)** Virtual and hands-on analysis of technology resources and utilization in learning.

**ETEC 414 Educational Media Technology (3)** Introduction to educational technology theory and practice with an emphasis on meaningful integration of technology and media into a variety of face-to-face and online learning environments for diverse populations. Pre: upper division standing.

**ETEC 415 Technology for Teachers (3)** Introduction to the application of educational technology in teaching and learning using strategies in design, selection, development, integration, and evaluation. Interactive delivery via distance education technologies. A-F only. Pre: basic teaching certification.

**ETEC 430 Video Technology (3)** Overview of video uses in educational contexts. Includes video planning, production, and simple editing procedures, as well as selection, evaluation, and integration into learning plans. Pre: upper division standing.

**ETEC 442 Computers in Education (3)** Planning and implementation of computer systems and applications for effective integration into classroom settings. Emphasis is on methods and strategies for using digital technologies to enhance standards-based learning by K-12 students. Pre: upper division standing.

**ETEC 448 Links to Lifelong Learning (3)** Focused exploration of the internet and its application to effective teaching/learning, including finding, evaluating, using, creating information on the web; culminating project involves designing, creating, and publishing a website. Integration with copyright law and standards. Repeatable one time. Pre: upper division standing (junior+) and consent.

**ETEC 499 Directed Activity (V)** Individual work, supervised by instructor. May consist of reading, research, and/or projects. Repeatable two times. Pre: consent.

**ETEC 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B candidate and consent. Repeatable nine times.

**ETEC 501 Professional Development in Educational Technology: Technology Skills for Educators (1)** Exploring technology resources needed for distance learning and classroom integration. Repeatable two times.

**ETEC 502 PDET: Technology Skills for Educators (2)** Exploring technology resources needed for integration into classroom instruction. Repeatable one time. CR/NC only.

**ETEC 511 Professional Development Education Technology I (3)** Specialized topics reflecting interests and needs of faculty in current issues of technology integration. Combined lecture, lab and discussion course. Repeatable one time. Pre: consent.

**ETEC 512 Professional Development Education Technology II (3)** Specialized topics reflecting interests and needs of faculty in current issues of technology integration. Combined lecture, lab and discussion course. Repeatable one time. Pre: consent.

**ETEC 513 Professional Development Education Technology III (3)** Specialized topics reflecting interests and needs of faculty in current issues of technology integration. Combined lecture, lab and discussion course. Repeatable one time. Pre: consent.

**ETEC 514 Professional Development Education Technology IV (3)** Specialized topics reflecting interests and needs of faculty in current issues of technology integration. Combined lecture, lab and discussion course. Repeatable one time. Pre: consent.

**ETEC 600 Theory and Practice in Educational Technology (3)** The profession of educational technology and the role of instructional designers. Theoretical and philosophical foundations underlying practice that include instructional systems theory, needs assessment, change theory, and relevant learning models. Practical applications of these theories to solve instructional problems in real-life settings. A-F only. Pre: ETEC major or consent.

**ETEC 602 Innovations in Educational Technology (3)** Innovative technological advances and new media in the field of educational technology and their application in instruction. A-F only. Pre: ETEC major or consent.

**ETEC 611 Educational Technology Research and Evaluation (3)** Review of existing research in media/ed technology, with activities leading to the preparation of final study or project proposal. Repeatable one time. ETEC majors only or consent. A-F only.

**ETEC 612 Introduction to E-learning (3)** Introduction to principles of e-learning and their application in formal and informal instructional settings. ETEC majors only or consent. A-F only.

**ETEC 613 Instructional Design and Development (3)** Basic concepts and techniques of instructional design and development, for application to solving instructional problems in real-life situations. A-F only. Pre: ETEC major or consent.

**ETEC 620 Visual Design (3)** Theory and practice involved in planning educational/instructional graphic and photographic material for print and computer-based media. ETEC majors only or consent.

**ETEC 622 E-learning Theory and Design (3)** Principles of e-learning theory as well as design and development for instruction. Application to new media and web authoring. Repeatable one time. Pre: ETEC majors or consent. A-F only.

**ETEC 623 Digital Video Design (3)** Development and utilization of digital video for the purpose of improving the teaching-learning process. A-F only. Pre: ETEC major or consent.

**ETEC 632 Developing E-learning Environments (3)** Planning, design, and development of e-learning instruction for educational and training settings. Implementation of online course elements such as student interaction, course management, testing, and content delivery using a learning management environments and open courseware. Repeatable one time. ETEC majors only or consent. A-F only. Pre: 673 or consent.

**ETEC 641 Emerging Technologies for K-12 Teaching (3)** Exploration and impact of emerging technologies in K-12 classroom teaching and learning and ramifications of these technologies on administrative structure of schools. A-F only. ETEC majors only or consent.

**ETEC 642 Facilitating E-learning Communities (3)** Exploration of tools and design considerations for effective online communication and development of learning communities. Pre: ETEC major or consent.

**ETEC 643 Educational Technology in Informal Learning Environments (3)** Exploring the nature, application, and use of educational technology in informal learning environments, such as museums, cultural institutions, tourist attractions, and visitor information centers. Focusing on the analysis, selection, and development of various media choices. Pre: ETEC major or consent.

**ETEC 647 Learning with Emerging Technologies (3)** Exploration and evaluation of new tools and strategies for teaching and learning. (B) mobile learning; (C) free/open software; (D) games in education; (E) critical trends. Repeatable one time per alpha. A-F only. Pre: ETEC major or consent. (Fall only for (B) and (D)) (Spring only for (C) and (E))

**ETEC 651 Interactive Multimedia Production (3)** The utilization and application of advanced authoring tools, combining video, animation, graphics, and sound to develop student-centered learning. Primar-

ily for advanced ETEC students. ETEC majors only or consent.

**ETEC 652 (Alpha) Authoring E-learning Environments (3)** Conceptualization of instructional design and its application to the development for e-learning environments: (B) assisted instruction (CAI); (C) managed instruction; (D) virtual reality; (E) animation. Repeatable two times. ETEC majors only or consent. A-F only.

**ETEC 654 Programming for Games and Simulations (3)** Project-based exploration of the breadth of programming in the context of educational games and simulations. Pre: ETEC major or consent.

**ETEC 662 Assessment and Evaluation in E-learning (3)** Evaluation and assessment processes, sources, and instruments applicable to systematic appraisal of e-learning. Repeatable one time. A-F only. Pre: ETEC major or consent.

**ETEC 667 Qualitative Research in Educational Technology (3)** Introduction to qualitative research traditions and designs. Emphasis will be on the use of digital technologies in data collection and analysis. Repeatable one time. ETEC majors only or consent. A-F only. (Once a year)

**ETEC 668 Quantitative Research in Educational Technology (3)** Application of methodological and statistical concepts in a projects-based classroom framework. Formative and summative evaluation, measurements, descriptive, and inferential statistics. ETEC majors only or consent. A-F only.

**ETEC 672 Distance Education Technology (3)** Technical and instructional considerations for developing, delivering, managing, and evaluating distance education including voice, video, print, hypermedia and data transmissions. Pre: ETEC major or consent.

**ETEC 673 Planning for Technology and Resources (3)** Planning, needs assessment, and change theory applied to the development and evaluation of long-range plans and the communication of a vision for technology in education. ETEC majors only or consent.

**ETEC 674 (Alpha) Instructional Technology Management (3)** Applying theory of management in instructional technology support services and delivery systems. (B) management; (C) systems; (D) networks. Pre: ETEC major or consent.

**ETEC 676 Social and Ethical Issues in Educational Technology (3)** Examination of social and ethical issues as they relate to technology in instructional settings. Focus on social justice and societal impact. A-F only. Pre: ETEC major or consent.

**ETEC 686 Information Literacy and Learning Resources (3)** Study of information literacy models. Integration of information literacy with K-12 curriculum units and lessons. Evaluation of print and multimedia resources to meet student and curricular needs. Required for Librarian HDOE licensure. Pre: ETEC major or consent. (Cross-listed as EDCS 686 and LIS 686)

**ETEC 687 Instructional Design and Technology Practicum (3)** Practicum in instructional design, development, and technology in academic and non-academic settings, under close supervision, plus regular class meetings in seminar format. Repeatable three times. ETEC majors only or consent. A-F only.

**ETEC 689 ETEC Training and Evaluation Practicum (3)** Practicum in educational technology training and evaluation in formal and informal settings, under close supervision, plus class meetings in hybrid format. Repeatable unlimited times. ETEC majors only or consent. A-F only. Pre: instructor consent.

**ETEC 690 Seminar in Technology Leadership (3)** Supervised activity in application of technology to teaching/training experiences. Repeatable three times. ETEC majors only and consent. A-F only.

**ETEC 692 Practicum in E-learning (3)** Practicum in e-learning in academic or non-academic settings, under close supervision, plus regular class meet-

ings. Repeatable three times. ETEC majors only or consent. A-F only.

**ETEC 699 Directed Reading and/or Research (V)** Individual reading and/or research. Repeatable for 3 credit hours maximum each time. Pre: ETEC major or consent.

**ETEC 700 Thesis Research (V)** Research for master's thesis. Repeatable nine times.

**ETEC 705 Special Topics in Educational Technology (3)** Issues of topical interest in educational technology. Concentrates on a topic of current interest, including the new technologies for learning and teaching, and innovative strategies for design and delivery of instruction. Repeatable unlimited times. ETEC majors only. A-F only.

**ETEC 750 (Alpha) Seminar in Educational Technology Issues (3)** Study and discussion of significant topics and problems. (B) instructional development; (C) online communities; (D) the future; (E) research. Repeatable five times. A-F only. Pre: consent.

**ETEC 760 Seminar in Educational Technology Theory (3)** Doctoral level seminar for advanced students examining the theoretical foundations of research in the learning sciences and technology. Repeatable three times. A-F only. Pre: consent. (Once a year)

**ETEC 780 Mixed Methods Research Design (3)** Mixed methods research is designed for PhD and masters students in education and social sciences considering combining qualitative and quantitative research. Covers philosophical and practical implications culminating in a mixed methods dissertation/thesis proposal. Repeatable one time. (Once a year) (Cross-listed as EDCS 780 and DIS 780)

**ETEC 781 Technology in Qualitative Analysis (3)** Advanced research methods focused on management and analysis of qualitative data using technology. Reviews of different qualitative data types, analytical methods, and software. Includes independent research project. Repeatable one time. ETEC majors only. A-F only. Pre: 667 or graduate level qualitative research course. (Summer only)

---

## Electrical Engineering (EE)

### College of Engineering

*Preference in registration is given to declared engineering majors. Enrollment in EE courses requires a grade of C- or better in all prerequisite courses. Please consult the current Schedule of Courses for confirmed offerings each semester.*

**EE 101 Electrical Engineering Skills (3)** Electrical engineering subjects in a skill acquisition context at the freshman level. Learning, creative problem solving, brainstorming, technical information assimilation, and presentation skills development. Repeatable two times. DP

**EE 110 Introduction to Engineering Computation (3)** Engineering problem solving using MATLAB. Basic programming concepts include input/output, branching, looping, functions, file input/output, and data structures such as arrays and structures. Matrix operations for solving linear equations. Engineering computations and visualization. EE and CENG majors only. A-F only. Pre: MATH 241 (or concurrent) or MATH 251A (or concurrent) or consent.

**EE 160 Programming for Engineers (4)** (3 Lec, 1 3-hr Lab) Introductory course on computer programming and modern computing environments in C with an emphasis on algorithm and program design, implementation, and debugging. Includes a hands-on laboratory to develop and practice programming skills. A-F only. Pre: MATH 241 (or concurrent) or MATH 251A (or concurrent) or consent.

**EE 196 Freshmen Project (V)** Freshman level individual or team project under EE faculty direction and guidance. This project provides early student entry into EE hands-on project activity providing practical skills, EE subject exposure and experience.

Second semester freshman standing required. Repeatable unlimited times. Pre: consent.

**EE 205 Object Oriented Programming (3)**

Second-level programming for computer engineers. Object-oriented programming paradigm, definition and use of classes, fundamentals of object-oriented design in modern object-oriented languages such as C++. Common data structures, simple searching and sorting techniques. CEE, EE, ME, PREN majors only. A-F only. Pre: 160 or consent. (Once a year)

**EE 211 Basic Circuit Analysis I (4)** (3 Lec, 1 3-hr Lab) Linear passive circuits, time domain analysis, transient and steady-state responses, phasors, impedance and admittance; power and energy, frequency responses, resonance. Pre: MATH 243 (or concurrent) or MATH 252A (or concurrent), and PHYS 272 (or concurrent); or consent. DP

**EE 213 Basic Circuit Analysis II (4)** (3 Lec, 1 3-hr Lab) Laplace transforms and their application to circuits, Fourier transforms and their applications to circuits, frequency selective circuits, introduction to and design of active filters, convolution, and state space analysis of circuits. A-F only. Pre: 211, and MATH 244 (or concurrent) or MATH 253A (or concurrent); or consent. DP

**EE 260 Introduction to Digital Design (4)** (3 Lec, 1 3-hr Lab) Introduction to the design of digital systems with an emphasis on design methods and the implementation and use of fundamental digital components. Pre: 160 or consent.

**EE 296 Sophomore Project (V)** Sophomore level individual or team project under EE faculty direction and guidance. The project provides design experience and develops practical skills. Repeatable unlimited times. Pre: sophomore standing or consent.

**EE 315 Signal and Systems Analysis (3)** Discrete-time and continuous time signals and systems, linear systems, convolution, Fourier series, Fourier transform, sampling. Pre: 213 and either MATH 244 or MATH 253A; or consent.

**EE 323 Microelectronic Circuits I (3)** Semiconductor structures, operating principles and characteristics of diodes and amplifying devices. Their application as circuit elements in building basic digital, analog, and integrated circuit subsystems. Pre: 213. DP

**EE 323L Microelectronic Circuits I Lab (1)** (1 3-hr Lab) Experiments on linear and logic properties of diodes and transistor networks. Pre: 213. Co-requisite: 323. DY

**EE 324 Physical Electronics (3)** Review of quantum mechanics fundamentals, H-atom, and chemical bonding. Introduction to band structure models and materials. Semiconductor doping, charge carrier statistics and charge transport, including ambipolar transport. Metal-semiconductor and PN junctions. Pre: MATH 243 or MATH 253A, and PHYS 274; or consent. DP

**EE 326 Microelectronic Circuits II (3)** Principles and design of linear electronic circuits including differential, operational, feedback, and tuned amplifiers; integrated circuits, current mirrors, signal generators, filters, and stability. Pre: 323. DP

**EE 326L Microelectronic Circuits II Lab (1)** (1 3-hr Lab) Laboratory for 326, experiments on linear and analog electronics. Pre: 323L. Co-requisite: 326. DY

**EE 327 Theory and Design of IC Devices (3)** Band structure models and carrier transport physics review. Theory and design of semiconductor IC devices: Schottky diodes, bipolar devices (PN junction diodes, BJTs), FETs (MOSFETs, JFETs, and MESFETs). Pre: 324 and either MATH 243 or MATH 253A; or consent. DP

**EE 328 Microcircuit Fabrication (3)** Technology principles, materials, and methods for the design and fabrication of semiconductor devices, integrated circuits, and microelectromechanical systems. Pre: 327 or consent. Co-requisite: 328L. DP

**EE 328L Microcircuit Fabrication Lab (1)** (1 3-hr Lab) Hands-on laboratory where students make vari-

ous electronic and electromechanical micro-devices using IC technology. Devices are also tested and analyzed. Pre: 324 or consent. Co-requisite: 328. DY

**EE 342 Probability and Statistics (3)** Probability, statistics, random variables, distributions, densities, expectations, limit theorems, and applications to electrical engineering. Pre: 315 (or concurrent) and either MATH 244 or MATH 253A; or consent.

**EE 343 Introduction to Communication Systems (3)** Signal representation, Fourier analysis; amplitude and angle modulated systems; sampling theorems, pulse and digital modulation systems; carrier modulation by digital signals. Pre: 342 (or concurrent) and 315.

**EE 343L Communication Systems Lab (1)** (1 3-hr Lab) Experiments illustrating the basic principles of communication systems. Pre: 315. Co-requisite: 343.

**EE 344 Networking I (4)** (3 Lec, 1 3-hr Lab) Covers 4 semesters from the Cisco Networking Academy plus supplementary material; hands-on experience with routers and switches; prepares students for the CCNA. Topics include TCP/IP, LANs, WANs, routing protocols, network security; PPP; ISDN, frame relay. A-F only. Pre: 160 or consent.

**EE 351 Feedback-Control Systems (3)** Analysis/design of feedback systems. Compensator design via root locus and Bode analysis. Routh/Nyquist stability. State space representation and introduction to MIMO formulation. Controllability/observability. Application to physical dynamic systems such as industrial robots. Pre: 315 or ME 375 or consent. DP

**EE 351L Linear Feedback-Control Systems Lab (1)** (1 3-hr Lab) Provides experience in applying theoretical tools to analyze linear systems. Extensive use is made of computer-aided analysis and design packages study system performance. Pre: 315. Co-requisite: 351.

**EE 361 Digital Systems and Computer Design (3)** Design methodology, processor design, control design, memory organization, system organization. Pre: 160 and 260, or consent.

**EE 361L Digital Systems and Computer Design Lab (1)** (1 3-hr Lab) Laboratory for 361, experiments on digital systems and interfacing. Co-requisite: 361.

**EE 366 CMOS VLSI Design (4)** (3 Lec, 1 3-hr Lab) Introduction to the design of very large scale integrated (VLSI) systems and use of CAD tools and design languages. Lab includes hands-on use of CAD tools and experiments with field programmable logic devices. Pre: 260.

**EE 367 Computer Data Structures and Algorithms (3)** Introduction to computer programming algorithms with emphasis on advanced data structures, input-output routines, files, and interpreters. Pre: 205 (with a minimum grade of C-) and ICS 141.

**EE 367L Computer Data Structures and Algorithms Lab (1)** (1 3-hr Lab) Laboratory for 367. Pre: 367 (or concurrent).

**EE 371 Engineering Electromagnetics I (3)** Transient and steady-state waves on transmission lines. Plane wave solutions of Maxwell's equations. Application of Maxwell's equations under static and time-varying conditions. Pre: 213.

**EE 372 Engineering Electromagnetics II (3)** Solution of Maxwell's equations under various boundary conditions. Introduction to radiation, guided waves, and principles of optics. Pre: 371 and PHYS 274 (or concurrent); or consent.

**EE 372L Engineering Electromagnetics Lab (1)** (1 3-hr Lab) Experiments illustrating the basic principles of electromagnetics and optics. Pre: 371 and PHYS 274 (or concurrent), or consent. Co-requisite: 372.

**EE 396 Junior Project (V)** Junior level individual or team project under EE faculty direction and guidance. The project provides design experience and develops practical skills. It may be a continuation

of EE 296 or a new project. Repeatable unlimited times. Pre: 296 and junior standing or consent.

**EE 406 Introduction to Computer and Network Security (3)** Review basic network mechanisms, introduce basic cryptography concepts, and study algorithms and protocols used in computer and network security. Discuss practical security mechanisms. A-F only. (Once a year)

**EE 415 Digital Signal Processing (4)** (3 Lec, 1 3-hr Lab) Discrete-time signals and systems, sampling, Z-transform, transform, transform analysis of linear time-invariant systems, filter design, discrete Fourier transform, and computation of discrete Fourier transform. Repeatable one time. Pre: 315 and 342 (or concurrent), or consent.

**EE 416 Introduction to Digital Image Processing (3)** Digital image representation, intensity transformations, spatial filtering, filtering in the frequency domain, image restoration, color spaces and transformations, the fast wavelet transform, image compression. Pre: 315 (or equivalent) or consent.

**EE 417 Introduction to Optimization (3)** Application of linear, nonlinear and integer optimization models and algorithms to communications, control, signal processing, computer networking, financial engineering, manufacturing, production and distribution systems. CE, EE, ME, or CBA majors only. Pre: MATH 307 or consent. (Alt. years)

**EE 422 Electronic Instrumentation (3)** Electronic circuits for interfacing with transducers, signal processing, and data acquisition. Amplifiers for measurement and control. Operational amplifiers in linear, nonlinear, and digital applications. Design project. Basic transducers. Pre: 326, 326L, and 371; or consent. DP

**EE 422L Instrumentation Lab (1)** (1 3-hr Lab) Laboratory for 422. Co-requisite: 422. DY

**EE 423 Computer-Aided Analysis and Design (3)** Algorithms and techniques used in computer-aided analysis and design of electronic circuits. Circuit simulation with interactive computers. Pre: 326 or consent.

**EE 425 Electronic Instrumentation II (3)** Instrumentation systems and circuits for measurement, control, signal processing, transmission, and detection. Noise and interference, ADC/DAC, modulation demodulation, high-frequency and high-speed techniques, IC applications. Pre: 422 and 422L, or consent. DP

**EE 426 Advanced Si IC and Solid State Devices (3)** State of the art Si-based devices including advanced bipolar and MOS devices, heterojunction devices, new device trends. Topics from the most current literature included. Pre: 327 and either MATH 243 or MATH 253A, or consent. DP

**EE 427 Computer-Aided Circuit Design (3)** Application of the computer to the analysis, design, simulation, and construction of analog and digital circuits. Pre: 326 and 326L, or consent. DP

**EE 435 Electric Power Systems (3)** Design/operation of "the grid." History of electric power systems, three-phase power, real and reactive power, transformers, transmission, distribution, circuit analysis, protection, load flow, load frequency control, optimal power flow, and renewable energy integration. Pre: MATH 243 (or concurrent) or MATH 253A (or concurrent). (Fall only)

**EE 438 Renewable Energy (3)** Fundamentals of power, electric power grid and conventional electricity generation. Wind and solar power systems. Photovoltaic materials and systems. Distributed generation and energy storage. ENG majors only. Junior standing or higher. A-F only. Pre: 213 or consent. (Spring only) DP

**EE 442 Digital Communications (3)** Baseband transmission, intersymbol interference and pulse shaping, partial response signaling, equalization, bandpass modulation and demodulation, channel coding, synchronization, multiplexing and multiple access, spread spectrum techniques. Pre: 342 and 343, or consent.

**EE 446 Information Theory and Coding (3)**

Models of communication systems. Channel noise, measurement, and coding of information. Intrinsic limits of performance of communication systems. Pre: 342 and 343, or consent.

**EE 449 Computer Communication Networks (3)**

ISO Reference Model. Physical Layer, Data Link Layer, Network Layer and Transport Layer protocols. Wired and wireless local-area networks. Structure and operation of the Internet including routing, congestion control and flow control. Pre: 315 and one of 342, or MATH 371 or MATH 471; or consent.

**EE 452 Digital Control Systems (3)** Sampling/reconstruction, Z-transform, DT transfer function. Reachability/observability. State and output feedback, observer design, input-output models, diophantine equations. Implementation procedures. Pre: 315 and 351, or consent.

**EE 453 Modern Control Theory (3)** Analysis and synthesis of nonlinear control systems by means of Lagrange's equation, state space techniques, maximum principle. Lyapunov's theorems, the phase plane, and Z-transform techniques. Optimization and adaptation by means of gradient methods, calculus of variations, dynamic programming. Pre: 351.

**EE 455 Design of Intelligent Robots (3)** Study of the design principles of computer-controlled, intelligent robots such as roving vehicles, hand-eye systems. Pre: 351 and 367. DP

**EE 461 Computer Architecture (3)** Structure of stored program machines, data flow machines, pipelining, fault-tolerant computing, instruction set design, effects of compilation on architecture, RISC vs. CISC architecture, uses of parallelism. Pre: 361.

**EE 467 Object-oriented Software Engineering (3)** Introduction to advanced techniques for designing, implementing, and testing computer software with a particular focus on using object-oriented design, analysis, and programming to produce high-quality computer programs that solve non-trivial problems. Pre: 367 or consent.

**EE 468 Introduction to Operating Systems (3)**

Computer system organization; multiprocessor systems, memory hierarchies, assemblers, compilers, operating systems, virtual machine, memory management, processor management; information management. Pre: 361 (or concurrent) and 367 or consent.

**EE 469 Wireless Data Networks (3)** Mobile agent's platforms and systems, mobile agent-based service implementation, middleware, and configuration, wireless local area networks, wireless protocols, network architecture supporting wireless applications, routing protocols in mobile and wireless networks, handoff in mobile and wireless networks. Pre: 344 and 367, or consent.

**EE 470 Physical Optics (3)** Fundamentals of classical physical optics emphasizing linear systems theory, including optical fields in matter, polarization phenomena, temporal coherence, interference and diffraction (Fourier optics). Specialized applications include Gaussian beams, laser resonators, pulse propagation, and nonlinear optics. Pre: 372 (or concurrent with a minimum grade of C-) or PHYS 450 (or concurrent with a minimum grade of C), or consent. (Cross-listed as PHYS 460) DP

**EE 471 Computational Techniques in Electromagnetics (3)** Introduction to computational methods used to simulate/solve engineering design problems focusing on electromagnetics. Finite difference, method of moments, and finite elements methods will be described; students will write computer programs in each. A-F only. BE, EE, ENGR majors only. Pre: 371 or consent. (Spring only)

**EE 473 Microwave Engineering (3)** Passive and active microwave devices and circuits for RF and wireless applications. Scattering parameters, signal-flow graphs, and computer-aided design. Pre: 371. DP

**EE 474 Antennas (3)** Electromagnetic wave propagation in free space and ionized media. Geomagnetic and solar effects on the ionosphere. Absorption and

dispersion. Antenna arrays, apertures, horns, impedance. Design of antenna systems. Pre: 371. DP

**EE 475 Optical Communications (3)** Principles and applications of optical fibers and waveguides. Fundamentals of optical communication systems (optical links, high-speed systems, wavelength-division-multiplexing networks, and network elements) and optical components (guided-wave circuits, lasers, detectors, and optical amplifiers). System and network integration issues. A-F only. Pre: 341 (or concurrent) and 372, or consent. DP

**EE 477 Fundamentals of Radar, Sonar, and Navigation Systems (3)** Discussion of basic radar detection and position- and velocity-measurement principles. Applications to various types of radar and sonar systems. Modern navigation aids. Pre: 371 (or equivalent), and familiarity with waveguides or waveguide theory. DP

**EE 480 Introduction to Biomedical and Clinical Engineering (3)** Application of engineering principles and technology to biological and medical problems. Introduction to human anatomy, physiology, medical terminology, clinical measurements. Systems modeling, physiological control systems, computer applications, health-related problems. Pre: 213 and either MATH 244 or MATH 253A.

**EE 480L Biomedical Engineering Lab (1)** (1 3-hr Lab) Measurement of bioelectrical signals, computer and electronic simulation of biological systems, design and evaluation of electronic circuits for biomedical measurements, evaluation of instruments for patient safety. Pre: 323 and 323L. Co-requisite: 480.

**EE 481 Bioelectric Phenomena (3)** Study of electrical phenomena in living systems. Mechanisms underlying bioelectric activity. Membrane and transepithelial potentials, skin impedance, electrocardiography, neuroelectric signals, diagnostic considerations, laboratory demonstrations. Pre: 480 or consent.

**EE 482 Biomedical Instrumentation (3)** (2 Lec, 1 3-hr Lab) Principles, applications, and design of biomedical instrumentation. Transducers, IC and microcomputer applications, patient safety. Pre: 326, 480; or consent.

**EE 491 (Alpha) Special Topics in Electrical Engineering (3)** Content will reflect special interests of visiting/permanent faculty; to be oriented toward juniors and seniors. (B) artificial intelligence; (C) circuits; (D) communications; (E) computer hardware; (F) computer software; (G) computer vision; (H) control; (I) devices; (J) fields; (K) power. Repeatable unlimited times. Pre: consent.

**EE 494 Provisional Topics (3)** Upper division course with subject matter to be announced.

**EE 495 Ethics in Electrical Engineering (1)** Equip electrical engineers with the necessary background for ethical reasoning, as it pertains to technology, society, workplace issues, and the environment. EE majors only. A-F only. Pre: senior standing or consent. (Once a year)

**EE 496 Capstone Design Project (V)** Significant project integrating the design content of previous courses and incorporating engineering standards and realistic constraints. Written report must document all aspects of the design process: reliability, safety, economics, ethics. Repeatable unlimited times. A-F only. Pre: 396 or consent.

**EE 499 Directed Reading (V)** Investigation of advanced engineering problems. Repeatable unlimited times. Pre: senior standing and consent.

**EE 500 Master's Plan B/C Studies (1)**

**EE 602 Algorithm I (3)** Design and evaluation of machine representations, techniques and algorithms for sorting, pattern processing, computational geometry, mathematical computations, and engineering applications. Introduction to computational issues of time, space, communication, and program correctness. Pre: 367 or consent.

**EE 604 Artificial Intelligence (3)** LISP for machine intelligence applications, or related constraint object

and logic-oriented languages. Pre: 467 or knowledge of LISP/PROLOG.

**EE 606 Intelligent Autonomous Agents (3)** Theory, methods and practical applications of autonomous agent systems, including common applications of both software and hardware (robotic) agents. In-depth practical experience with autonomous agents through programming assignments and projects. Pre: 467 or ICS 313 (or equivalent), graduate standing; or consent. (Once a year) (Cross-listed as ICS 606)

**EE 607 Advanced Network Algorithms (3)** Network algorithms, protocols, and packet switching systems for the internet including TCP/IP, routing algorithms, transmission scheduling, link management, buffer management, and simple network management. Pre: 367 or consent.

**EE 608 Optical Networks (3)** Propagation of signals in fibers, components, modulation and demodulation, transmission system engineering, network systems and architectures, network design, control and management and packet switching. Pre: 342, 367, and 371; or consent.

**EE 609 Computer and Network Security (3)** Basic security theory, current practices, and emerging research issues. First covering the fundamentals of computer and network security, then will work on research projects on computer and network security.

**EE 615 Advanced Digital Signal Processing (3)** An advanced course in digital processing. Topics include fast DFT algorithms, multirate systems and filter banks, power spectrum estimation, linear prediction, optimum linear filters, and adaptive filtering. A-F only. Open to nonmajors for CR/NC only. Pre: 415 or 640, or consent.

**EE 616 Digital Image Processing (3)** Human visual perception, image formation, sampling and quantization, enhancement and restoration, color image processing, wavelets and multiresolution representations, image and video compression. Pre: 415 or equivalent.

**EE 617 Linear and Convex Optimization (3)** Algorithms for linear, nonlinear, and convex optimization. Emphasis is on methodology and the underlying mathematical structures. Topics include simplex method, network flow methods, optimality conditions, duality, Newton's method and interior point methods. EE, ME, MIS and MATH majors only. Pre: MATH 311 or consent. (Alt. years)

**EE 618 Dynamic Programming and Stochastic Control (3)** Sequential decision-making via dynamic programming. Optimal control of stochastic dynamic systems. Applications in linear-quadratic control, inventory control, resource allocation, scheduling, and control of queues. Rollout and other suboptimal methods. Value and policy iteration. Pre: 342 or MATH 371 or MATH 471, or consent.

**EE 620 Advanced Electronic Circuits (3)** Electronic circuits for precision measurement, computation, and signal processing. Low noise and interference reduction techniques. High-frequency and high-speed techniques. Micro-processor and biomedical applications. Pre: 422.

**EE 621 Advanced Solid-State Devices (3)** Advanced physical principles and design of modern solid-state electronic devices. Heterostructures, photodetectors, LED, junction lasers, and other devices of current importance identified from the current literature. Pre: 327.

**EE 622 Optical Electronics I (3)** Fundamentals of optical radiation, including stimulated and spontaneous processes. Optical electronics including optical resonators, lasers, optical detectors, light-guiding, and applications. Pre: 327 or consent.

**EE 624 Microsensors and Microactuators I (3)** Technology methods and physical principles of microsensors and microactuators. Vacuum technology, thin film deposition and characterization techniques, solid mechanics, micromachining, acoustics, piezoelectricity and principles of current microtransducers. Pre: 327 or consent.

**EE 627 Advanced Topics in Physical Electronics (3)** Recent developments in phenomena and devices of physical electronics. Pre: 327.

**EE 628 Analysis and Design of Integrated Circuits (3)** Fabrication constraints and design guidelines for integrated circuits. Nonlinear model of integrated circuit transistor. Design and analysis of integrated logic circuits and linear circuits. Pre: 323.

**EE 640 Applied Random Processes (3)** Random variables, multivariate distributions, random sequences, stochastic convergence, stationary and nonstationary processes, spectral analysis, Karhunen-Loeve expansion, Markov processes, mean square estimation, Kalman filters. Pre: MATH 471 (or equivalent).

**EE 642 Detection and Estimation Theory (3)** Fundamentals of signal detection and estimation theory. Hypothesis testing, parametric and nonparametric detection, sequential detection, parametric estimation, linear estimation, robust detection and estimation, and applications to communication systems. Pre: 640.

**EE 643 Communication System Performance (3)** Fundamental performance limits, signal detection and estimation, modulation, intersymbol interference, equalization adaptive filtering, sequence detection, synchronization, fading multipath channels, spread spectrum. Pre: 640.

**EE 644 Computer Communication Networks (3)** Fundamentals of computer communication networks including modeling, performance evaluation, routing, flow control, local area networks, distributed algorithms, and optimization algorithms. Pre: 342, MATH 471; or consent.

**EE 645 Machine Learning (3)** Learning theory, pattern recognition and regression; gradient based algorithms and least square algorithms; Kernel methods; Bayesian learning algorithms; ensemble learning and boosting; principal component analysis; independent component analysis, and clustering; reinforcement learning and approximate dynamic programming. EE, ME, ICS, MATH majors only. Pre: 342.

**EE 646 Advanced Information Theory (3)** Measure of information, coding for discrete sources, discrete memoryless channels and capacity, the noisy channel coding theorem, source coding with fidelity criterion, rate-distortion theory, multiuser channels. Pre: 640.

**EE 648 Error-Control Coding I (3)** Linear block codes, soft and hard decision decodings, correction of random errors, cyclic codes, BCH codes, Reed-Solomon codes, majority logic decodable codes, burst-error correcting codes, concatenated codes. Pre: MATH 311 or consent.

**EE 649 Error-Control Coding II (3)** Convolutional codes, Viterbi algorithm, coded modulation, multistage decoding, concatenated coded modulation, probabilistic decoding, turbo codes, low density parity check codes and iterative decoding. Pre: 648.

**EE 650 Linear System Theory (3)** State space theory of linear systems, controllability, observability, stability, irreducible realizations. Pre: 452.

**EE 660 Computer Architecture I (3)** Models of computation, high-performance processors, pipelined machines, RISC processors, VLIW, superscalar and fine-grain parallel machines. Data-flow architectures. Hardware/software tradeoffs. Pre: 461.

**EE 665 Computer Systems (3)** Modern operating system software, process communication, distributed systems, device drivers. Software development and maintenance, integration of software packages. Projects reflecting special interests of faculty. Pre: 461 and 468.

**EE 668 Telecommunication Networks (3)** Telecommunication-network architecture; switching, broadcast, and wireless networks; protocols, interfaces, routing, flow- and congestion-control techniques; intelligent network architecture; service creation capabilities; multimedia, voice, data, and video networks and services. Pre: 468 or consent.

**EE 671 Electromagnetic Theory and Applications (3)** Solutions of Maxwell's equations and applications to radiation and propagation of electromagnetic waves. Pre: 372 or consent.

**EE 673 Advanced Microwave Engineering (3)** Advanced RF and microwave circuit design for wireless applications. Pre: 473 or consent.

**EE 675 Advanced Computational Techniques in Electromagnetics (3)** Develop comprehensive understanding of computations techniques for solving engineering electromagnetic problems formulated in terms of integral or differential equations. Eigenvalue problems, radiation, and electromagnetics scattering problems will be discussed and computer programming is required. EE, BE, and CENG majors only. A-F only. Pre: 471 (with a minimum grade of B) or consent. (Spring only)

**EE 680 Biomedical Engineering Systems (3)** Systems analysis and electronic instrumentation methods in biomedicine. Network and control-loop modeling, computer simulation, biological transducers, and analysis of electronic and physiological systems. Pre: 326, 326L, and 371; or consent.

**EE 681 Biosensors and Bioelectronics (3)** Advanced topics in the design of biological detection technologies. Topics include fundamentals of electrochemistry, electrochemical biosensors, DNA and protein biochips, and bioelectronics for bio-signal conditioning and processing. Pre: 324 and 326, or consent. (Once a year)

**EE 682 Biomedical Microdevices (3)** Design and fabrication of micro- and nanodevices for biomedical applications. Topics include micro- and nanoscale physics, microfluidic physics and microfluidic devices, and micro- and nanoscale fabrication techniques. ENG majors only. A-F only. Pre: 324 or consent. (Fall only)

**EE 685 Biomedical Signal Processing and Analysis (3)** Biomedical signals, digital filters and filter banks, spike train analysis, time-scale and time-frequency representations, nonlinear techniques, Lomb's algorithm and the Hilbert transform, modeling, Volterra series, Wiener series, Poisson-Wiener series, multichannel data, causality. CE, EE, ME, ICS majors only and any graduate student in JABSOM who has a suitable technical background. Pre: 415 or consent. (Spring only)

**EE 693 (Alpha) Special Topics in Electrical Engineering (3)** Content will reflect special interests of visiting/permanent faculty. (B) artificial intelligence; (C) circuits; (D) communications; (E) computer hardware; (F) computer software; (H) control; (I) devices; (J) fields; (K) power. Repeatable unlimited times. Pre: consent.

**EE 699 Directed Reading or Research (V)** Repeatable unlimited times. CR/NC only. Pre: graduate standing and consent.

**EE 700 Thesis Research (V)** Research for master's thesis. Repeatable unlimited times. Pre: candidacy for MS in electrical engineering.

**EE 790 Directed Instruction (V)** Student assists in classroom instruction under direction and close supervision of faculty member. CR/NC only. Pre: admission to PhD candidacy.

**EE 800 Dissertation Research (V)** Research for doctoral dissertation. Repeatable unlimited times. Pre: candidacy for PhD in electrical engineering.

## Engineering (ENGR)

### College of Engineering

*Preference in registration is given to declared engineering majors. Please consult the current Schedule of Courses for confirmed offerings each semester.*

**ENGR 100 Engineering Freshman Seminar (1)** Overview of the engineering field, the different disciplines, and opportunities. Success strategies for studying engineering. Repeatable one time. CR/NC only.

**ENGR 101 Introduction to Engineering (3)** Topics include the engineering disciplines, the development of problem solving and technical communication skills, the design process and analysis methods using a team design project, and introduction to programming in Matlab for engineering applications. ENGR majors only. Freshman standing only.

**ENGR 250 Personal Development for Effective Teams (3)** Exploration and application of basic leadership theories and processes which foster personal and interpersonal development via cognitive experiential classroom methods and mentoring relationships with experienced peer leaders. (Cross-listed as IS 250)

**ENGR 350 Career Development Seminar (1)** Introduction to career development as it pertains to engineering and business industry; client relations, networking, job skills, career assessment and direction. Repeatable one time. (Fall only)

**ENGR 401 Engineering Management (3)** Introduction to engineering management with emphasis on development of skills for professional advancement. Repeatable one time.

**ENGR 493 Field Experience (1)** Supervised internship in engineering practice under professional and faculty direction. Repeatable one time. CR/NC only. Pre: junior standing in engineering and consent.

## English (ENG)

### College of Languages, Linguistics and Literature

**ENG 100 Composition I (3)** Introduction to the rhetorical, conceptual and stylistic demands of writing at the university level; instruction in composing processes, search strategies, and writing from sources. Students may not earn credit for both ENG 100 and 190. Pre: placement. Freshmen only. **FW**

**ENG 190 Composition for Transfer Students to UH Mānoa (3)** Introduction to the rhetorical, conceptual and stylistic demands of writing at the university level; instruction in composing processes, search strategies, and writing from sources. Restricted to students with more than 24 credits. Students may not earn credit for both ENG 100 and 190. A-F only. Pre: placement. **FW**

*ENG 200 and 209 are courses in intermediate expository writing.*

**ENG 200 Composition II (3)** Further study of rhetorical, conceptual, and stylistic demands of writing; instruction develops the writing and research skills covered in Composition I. Pre: **FW**.

**ENG 209 Business Writing (3)** Practice in informative, analytical, persuasive writing. Pre: **FW**. Students may not earn credit for both ENG 209 and BUS 209.

*ENG 270-273 courses fulfill the UH Mānoa General Education Diversification in Literatures (DL) requirement. Credits for these courses are considered "non-introductory." A significant portion of class time is dedicated to writing instruction, and the courses require a minimum of 4,000 words of graded writing.*

**ENG 270 Introduction to Literature: Literary History (3)** Study of significant works of selected historical periods. A significant portion of class time is dedicated to writing instruction. Repeatable one time. Requires a minimum of 4,000 words of graded writing. Pre: **FW, DL**

**ENG 271 Introduction to Literature: Genre (3)** Study of significant works of selected genres. A significant portion of class time is dedicated to writing instruction. Repeatable one time. Requires a minimum of 4,000 words of graded writing. Pre: **FW, DL**

**ENG 272 Introduction to Literature: Culture and Literature (3)** Study of significant works of selected cultures and cultural formations. A significant portion of class time is dedicated to writing instruction. Repeatable one time. Requires a minimum of 4,000 words of graded writing. Pre: **FW, DL**

**ENG 273 Introduction to Literature: Creative Writing and Literature (3)** Study of significant

works through analytical and creative writing. Repeatable one time. Pre: FW. No waiver. **DL**

**ENG 300 Introduction to Rhetoric (3)** History of theory and practices of rhetoric from Classical to contemporary periods; e.g., Plato, Aristotle, Cicero, Quintilian, Augustine, Sidney, K. Burke, DeMan. Pre: one ENG DL course or consent. **DL**

**ENG 302 Introduction to the English Language (3)** Basic concepts and methods for the study of the English language; general history of the language; grammar and usage, issues of language diversity and standardization; English as a world language. Pre: one ENG DL course or consent. **DH**

**ENG 306 Argumentative Writing I (3)** Theory and practice of written argument; emphasis on the role of invention in argumentative discourse and on the nature of rhetorical proof. Pre: FW and either 200 or one ENG DL course, or consent.

**ENG 307 Rhetoric, Composition, and Computers (3)** Introduction to computer-based writing and reading technologies. Study of principles of traditional and online composition. Writing traditional and multimedia essays. Pre: one ENG DL course or consent.

**ENG 308 Technical Writing (3)** Combined lecture/lab preparing students to write about technical subjects for specialists and laypersons. Introduces theory of technical communication and document design and teaches students to make use of relevant technology. A-F only. Pre: FW and either 200 or one ENG DL course; or consent.

**ENG 311 Autobiographical Writing (3)** Writing clear, effective prose based on the writer's own experiences and ideas. Pre: one ENG DL course or consent. **DA**

**ENG 313 Creative Writing (3)** Basic principles of the craft as developed through writing in two of the following genres: fiction, poetry, drama, screenwriting, and creative nonfiction. Pre: one ENG DL course or consent. **DA**

**ENG 320 Introduction to English Studies (3)** Introduction to the purpose, practice, and potential of literary and rhetorical study of texts. Restricted to ENG and Secondary Education-English majors only. Prerequisite to 400-level work for ENG majors. Pre: one ENG DL course or consent. **DL**

*Each semester, selected "large-enrollment" 300-level courses are designed largely for non-majors. Prerequisites are waived for these particular courses. Please see the Registration Guide for these designated courses. English majors can use at most two "large enrollment courses" to fulfill major requirements.*

**ENG 321 Backgrounds of Western Literature (3)** Sources of European and American literary themes and allusions; myth, legend, and folklore of Western cultures; e.g., Classical texts, Arthurian romances, King James Bible. Pre: one ENG DL course or consent. **DL**

**ENG 322 The Bible as Literature (3)** Narrative, generic, and stylistic forms in the Bible in English. Related writings may be considered in comparative analysis. Pre: one ENG DL course or consent. **DL**

**ENG 323 Literature in English to 1660 (3)** Basic concepts and representative texts for the study of literature in English to 1660. Pre: one ENG DL course or consent. **DL**

**ENG 324 Literature in English 1660-1900 (3)** Basic concepts and representative texts for the study of literature in English from 1660-1900. Pre: one ENG DL course or consent. **DL**

**ENG 325 Literature in English after 1900 (3)** Basic concepts and representative texts for the study of literature in English after 1900. Pre: one ENG DL course or consent. **DL**

**ENG 326 Literature and (Post) Colonialism (3)** Basic concepts and representative texts for the study of colonial, post-colonial, and/or commonwealth literatures from regions such as Africa, India, the Pacific, and the Caribbean. Pre: one ENG DL course or consent. **DL**

**ENG 327 Literary Criticism and Theory (3)**

Survey of representative texts from Greek to modern times; e.g., Plato, Aristotle, Sidney, Johnson, Arnold, Eliot, Barthes, Derrida, Foucault, Kristeva. Pre: one ENG DL course or consent. **DL**

**ENG 330 Medieval British Literature (3)** Basic concepts and representative texts for the study of British literature before 1500. Pre: one ENG DL course or consent. **DL**

**ENG 331 Renaissance British Literature (3)** Basic concepts and representative texts for the study of British prose and poetry from 1500 to 1660. Pre: one ENG DL course or consent. **DL**

**ENG 332 Restoration/18th-Century British Literature (3)** Basic concepts and representative texts for the study of British prose, poetry, and drama from 1660 to 1780, exclusive of Milton. Pre: one ENG DL course or consent. **DL**

**ENG 333 Romantic British Literature (3)** Basic concepts and representative texts for the study of British prose and poetry from 1780 to 1832. Pre: one ENG DL course or consent. **DL**

**ENG 334 Victorian British Literature (3)** Basic concepts and representative texts for the study of British prose and poetry from 1832 to 1900. Pre: one ENG DL course or consent. **DL**

**ENG 335 British Literature After 1900 (3)** Basic concepts and representative texts for the study of British prose, poetry, and drama from 1900 to the present. Pre: one ENG DL course or consent. **DL**

**ENG 336 American Literature to Mid-19th Century (3)** Basic concepts and representative texts for the study of prose, poetry, and drama in American literature through the middle of the 19th century. Pre: one ENG DL course or consent. **DL**

**ENG 337 American Literature Mid-19th to Mid-20th Century (3)** Basic concepts and representative texts for the study of prose, poetry and drama in American literature from the middle of the 19th century to the middle of the 20th century. Pre: one ENG DL course or consent. **DL**

**ENG 338 American Literature Since Mid-20th Century (3)** Basic concepts and representative texts for the study of American literature since approximately 1950. Pre: one ENG DL course or consent. **DL**

**ENG 350 18th-Century Novel in English (3)** Basic concepts and representative texts for the study of the novel in English before 1800. Pre: one ENG DL course or consent. **DL**

**ENG 351 19th-Century Novel in English (3)** Basic concepts and representative texts for the study of the novel in English between 1800 and 1900. Pre: one ENG DL course or consent. **DL**

**ENG 352 20th-Century Novel in English (3)** Basic concepts and representative texts for the study of the novel in English after 1900. Pre: one ENG DL course or consent. **DL**

**ENG 353 History of Poetic Forms (3)** Basic concepts and representative texts for the historically organized study of poetic genres and forms before the 20th century and primarily in English. Pre: one ENG DL course or consent. **DL**

**ENG 354 Poetry in English After 1900 (3)** Basic concepts and representative texts for the study of poetry in English after 1900. Pre: one ENG DL course or consent. **DL**

**ENG 355 Drama in English to 1900 (3)** Basic concepts and representative texts for the study of drama in English from the Middle Ages through the end of the 19th century. Pre: one ENG DL course or consent. **DL**

**ENG 356 Drama in English After 1900 (3)** Basic concepts and representative texts for the study of drama in English after 1900. Pre: one ENG DL course or consent. **DL**

**ENG 360 Prose Fiction (3)** Basic concepts and representative texts for the study of the form, function, and development of prose fiction genres such as

short story and novel. Pre: one ENG DL course or consent. **DL**

**ENG 361 Poetry (3)** Basic concepts and representative texts for the analysis of imagery, sound, language, form, and structure in poems. Pre: one ENG DL course or consent. **DL**

**ENG 362 Drama (3)** Basic concepts and representative texts for the study of the form, function, and development of the genre of drama. Pre: one ENG DL course or consent. **DL**

**ENG 363 Film (3)** Basic concepts and representative texts for the study of the form, function, and development of cinematic narrative techniques. Pre: one ENG DL course or consent. **DH**

**ENG 364 Non-fiction Prose (3)** Basic concepts and representative texts for the study of non-fiction prose such as essays, biographies, autobiographies, speeches, political and legal documents, conversion and captivity narratives, testimonials, science writing, and travel writing. Pre: one ENG DL course or consent. **DL**

**ENG 365 Mixed Genres (3)** Basic concepts and representative texts for the study of works that incorporate more than one genre. Pre: one ENG DL course or consent. **DL**

**ENG 366 Shakespeare and Film (3)** Comparative analysis of selected plays by Shakespeare and films which appropriate, reenact, adapt, or offer variations on his texts. Pre: one ENG DL course or consent. **DL**

**ENG 370 Ethnic Literature of Hawai'i (3)** Writings of various ethnic groups in Hawai'i, ancient to contemporary. Songs, stories, poetry, fiction, essays that illustrate the social history of Hawai'i. Pre: one ENG DL course or consent. (Cross-listed as ES 370) **DL**

**ENG 371 Literature of the Pacific (3)** Basic concepts and representative texts for the study of the literature of the Pacific, including Pacific voyagers and contemporary writings in English by Pacific Islanders. Pre: one ENG DL course or consent. (Cross-listed as PACS 371) **DL**

**ENG 372 Asian American Literature (3)** Basic concepts and representative texts for the study of Asian American literature by writers from a variety of backgrounds. Pre: one ENG DL course or consent. (Cross-listed as ES 372) **DL**

**ENG 373 African American Literature (3)** Basic concepts and representative texts for the study of African American literature by writers from a variety of backgrounds. Pre: one ENG DL course or consent. **DL**

**ENG 374 Race, Ethnicity, and Literature (3)** Basic concepts and representative texts for the study of race and ethnicity as the basis for literary inquiry. Pre: one ENG DL course or consent. **DL**

**ENG 375 Philippine Contemporary Literature in English (3)** Critical survey of 20th-century Philippine literature written in English; cultural values. Pre: one ENG DL course or consent. (Cross-listed as IP 363) **DL**

**ENG 376 Philippine Literature and Folklore in Translation (3)** Philippine folk literature translated into English: epics, myths, legends, and other folklore. Classic works of vernacular writers. Pre: one ENG DL course or consent. (Cross-listed as IP 396) **DL**

**ENG 380 Folklore and Oral Tradition (3)** Basic concepts and representative texts for the study of folktales, legends, ballads and other folklore genres in various cultures; consideration given to folklore/literature relationships. Pre: one ENG DL course or consent. **DL**

**ENG 381 Popular Literature (3)** Basic concepts and representative texts for the study of popular literature genres, such as detective fiction, science fiction, the thriller, the romance, and westerns. Pre: one ENG DL course or consent. **DL**

**ENG 382 Gender, Sexuality and Literature (3)** Basic concepts and representative texts for the study

of literary constructions of gender and sexuality. Pre: one ENG DL course or consent. (Cross-listed as WS 381) **DL**

**ENG 383 Children's Literature (3)** Basic concepts and representative texts for the study of children's literature; may include study of children's book illustration. Pre: one ENG DL course or consent. **DL**

**ENG 384 Literature and Technology (3)** Basic concepts and representative texts for the study of literature in relation to technological developments. May include history of the book, impact of printing and computer networks, science fiction. Pre: one ENG DL course or consent. **DL**

**ENG 385 Fairy Tales and Their Adaptations (3)** Comparative analysis of selected tales of magic and their adaptations across history, cultures and media such as book illustration and film. Pre: one ENG DL course or consent. **DL**

**ENG 393 Junior Honors Tutorial (3)** Tutorials in literature. Consult the English department's Honors director for particulars; offered fall semester. Repeatable one time. Pre: enrollment in Honors Program and one ENG DL course; or consent. **DL**

**ENG 394 Junior Honors Tutorial (3)** Tutorials in literature. Consult the English department's Honors director for particulars; offered spring semester. Repeatable one time. Pre: enrollment in Honors Program and one ENG DL course; or consent. **DL**

*The specific content of 400-level Studies courses varies by semester. Students should obtain the English department's fall and spring course descriptions prior to enrolling. Descriptions are available on the department's webpage (www.english.hawaii.edu) a week or so before registration begins. All Studies courses require a significant research component and are writing-intensive.*

**ENG 402 History of the English Language (3)** Development of the English language from its origins to the present. Pre: two ENG DL courses or consent. **DH**

**ENG 403 Modern English Grammar (3)** Introduction to the structure of present-day English for native speakers and others with advanced competency. Pre: two ENG DL courses or consent. **DH**

**ENG 404 English in Hawai'i (3)** English language in Hawai'i viewed historically and in a multicultural context, with attention to politics, religion, race, and education, from 1820 to present. Pre: two ENG DL courses or consent. **DH**

**ENG 405 Teaching Composition (3)** Theory, observation, and practice in teaching writing, especially the use of one-on-one and small group instruction. Pre: two ENG DL courses; or consent. Recommended: 306.

**ENG 405L Teaching Composition (1)** Theory, observation, and practice in teaching writing, especially the use of one-on-one and small group instruction. Repeatable three times. CR/NC only. Pre: 405 or consent.

**ENG 406 Argumentative Writing II (3)** Extended study of both the philosophical and practical dimensions of written reasoning. Emphasis on argument as a process of inquiry. Pre: 306 or consent.

**ENG 407 Writing for Electronic Media (3)** Combined lecture/lab on writing and rhetoric in computer-mediated communication. May include online technical writing, courseware development, hypertext fiction. Pre: two ENG DL courses or consent.

**ENG 408 Professional Editing (3)** Discussion and practice in the professional editing of articles, reports, books; logic, clarity, coherence, consistency of tone and style, grammar and punctuation. Pre: 306, 311, 313, 403, or 405; or consent.

**ENG 409 Studies in Composition/Rhetoric/Language (3)** Intensive study of selected topics, problems, themes, issues, and/or writers in composition, rhetoric, and/or English language. Repeatable one time. Pre: 320 and one other 300-level ENG course; or consent. **DL**

**ENG 410 Form and Theory of Poetry (3)** Poetic theories and techniques for students interested in writing poetry. Pre: 313 or consent. **DL**

**ENG 411 Poetry Workshop (3)** Writing, evaluating poems. Repeatable one time. Pre: 410 or consent. **DA**

**ENG 412 Nonfiction Writing (3)** Workshop analysis of nonfiction as a literary form. Repeatable one time. Pre: 306 or 313; or consent. **DA**

**ENG 413 Form and Theory of Fiction (3)** Narrative techniques for students interested in writing fiction. Pre: 313 or consent. **DL**

**ENG 414 Fiction Workshop (3)** Writing, evaluating fiction. Repeatable one time. Pre: 413 or consent. **DA**

**ENG 416 Studies in Creative Writing (3)** Intensive study of selected topics, problems, themes, writers, or modes of creative writing in a workshop setting. Repeatable one time. Pre: 313 and 410, 412, or 413; or consent. **DA**

**ENG 420 Studies in Literature and Culture (3)** Intensive study of selected problems, issues, writers, traditions, or movements in regard to cultural studies and the reading and interpretation of cultural texts. Repeatable one time. Pre: 320 and one other 300-level ENG course; or consent. **DL**

**ENG 421 Studies in Comparative Literature (3)** Intensive study of selected problems, issues, writers, traditions, or movements in the field of comparative literature. Repeatable one time. Pre: 320 and one other 300-level ENG course; or consent. **DL**

**ENG 427 Studies in Literary Criticism and Theory (3)** Intensive study of selected problems, issues, writers, traditions, or movements in the field of literary criticism and critical theory. Repeatable one time. Pre: 320 and one other 300-level ENG course; or consent. **DL**

**ENG 430 Studies in Medieval Literature (3)** Intensive study of selected problems, issues, writers, traditions, or movements in Old/Middle English literature from 500-1500, including works in modern translation. Repeatable one time. Pre: 320 and one other 300-level ENG course; or consent. **DL**

**ENG 431 Studies in 16th and 17th Century Literature (3)** Intensive study of selected problems, issues, writers, traditions, or movements in texts written during the period 1500-1700. Repeatable one time. Pre: 320 and one other 300-level ENG course; or consent. **DL**

**ENG 432 Studies in 18th Century Literature (3)** Intensive study of selected problems, issues, writers, traditions, or movements in texts written during the period 1660-1830, the "long" 18th century. Repeatable one time. Pre: 320 and one other 300-level ENG course; or consent. **DL**

**ENG 433 Studies in 19th Century Literature (3)** Intensive study of selected problems, issues, writers, traditions, or movements in texts written during the 19th century. Repeatable one time. Pre: 320 and one other 300-level ENG course; or consent. **DL**

**ENG 434 Studies from 20th Century to Present (3)** Intensive study of selected problems, issues, writers, traditions, or movements in texts written from the 20th century to the present. Repeatable one time. Pre: 320 and one other 300-level ENG course; or consent. **DL**

**ENG 440 Single Author (3)** Intensive study of the works and literary milieu of a single author considered significant by most scholars in English Studies. The English Department maintains a list of versions focusing on specific authors. Repeatable one time for a different author, with consent. Pre: two ENG DL courses or consent. **DL**

**ENG 442 Geoffrey Chaucer (3)** Intensive study of the works and literary milieu of Geoffrey Chaucer. Pre: two ENG DL courses or consent. **DL**

**ENG 445 William Shakespeare (3)** Intensive study of the works and literary milieu of William

Shakespeare. Repeatable one time. Pre: two ENG DL courses or consent. **DL**

**ENG 447 John Milton (3)** Intensive study of the works and literary milieu of John Milton. Pre: two ENG DL courses or consent. **DL**

**ENG 455 U.S. Women's Literature and Culture (3)** Reading of selected works of U.S. women's literature and cultural texts (such as art and film). Emphasis on historical and cultural context and diverse expressions of women's gendered identities. (Cross-listed as AMST 455 and WS 445) **DL**

**ENG 460 Studies in Fiction (3)** Intensive study of selected problems, issues, writers, traditions, or movements in prose fiction. Repeatable one time. Pre: 320 and one other 300-level ENG course; or consent. **DL**

**ENG 461 Studies in Poetry (3)** Intensive study of selected problems, issues, writers, traditions, or movements in poetry. Repeatable one time. Pre: 320 and one other 300-level ENG course; or consent. **DL**

**ENG 462 Studies in Drama (3)** Intensive study of selected problems, issues, writers, traditions, or movements in drama. Repeatable one time. Pre: 320 and one other 300-level ENG course; or consent. **DL**

**ENG 463 Studies in Film (3)** Intensive study of selected topics in film, e.g.: genres, major filmmakers, film theory/criticism, or film and literature. Repeatable one time. Pre: 320 and one other 300-level ENG course; or consent. **DH**

**ENG 464 Studies in Life Writing (3)** Intensive study of forms and theories of life writing in forms such as biographies, autobiographies, oral histories, diaries, journals, letters, film, drama, and portraiture. Repeatable one time. Pre: 320 and one other 300-level ENG course; or consent. **DL**

**ENG 466 Studies in Genre (3)** Intensive study of selected texts that combine traditional genres, cross disciplines, challenge categorization, or are overlooked in the study of larger genre categories such as poetry, fiction, or drama. Repeatable one time. Pre: 320 and one other 300-level ENG course; or consent. **DL**

**ENG 470 Studies in Asia/Pacific Literature (3)** Intensive study of selected problems, issues, traditions, genres, or writers relating to Asia and the Pacific. Repeatable one time. Pre: 320 and one other 300-level ENG course; or consent. **DL**

**ENG 471 Studies in Postcolonial Literature (3)** Intensive study of selected problems, issues, traditions, genres, or writers in postcolonial literatures and theories. Repeatable one time. Pre: 320 and one other 300-level ENG course; or consent. **DL**

**ENG 472 Studies in Diasporic Literature (3)** Intensive study of literary, cultural and theoretical issues of diasporic experiences such as immigration, assimilation, nation, and transnationalism. Repeatable one time. Pre: 320 and one other 300-level ENG course; or consent. **DL**

**ENG 479 Modern Pacific Women's Poetry (3)** Critical examination of modern indigenous women's poetry from the Pacific Islands. Thematic concentration on land, family, sexual and national oppression. Pre: two ENG DL courses; second may be taken concurrently; or consent. (Cross-listed as HWST 494) **DL**

**ENG 480 Studies in Literature and Folklore (3)** Intensive study of selected problems, issues, traditions, or genres in folklore and oral traditions and their performance and transformations within specific social and cultural contexts. Repeatable one time. Pre: 320 and one other 300-level ENG course; or consent. **DL**

**ENG 481 Studies in Literature and Popular Culture (3)** Intensive study of selected problems, issues, traditions, writers, movements, or genres in the field of popular literature and/or popular culture. Repeatable one time. Pre: 320 and one other 300-level ENG course; or consent. **DL**

**ENG 482 Studies in Literature and Sexuality and Gender (3)** Intensive study of selected problems and

issues in the construction and representation of sexuality and gender in specific genres, social and cultural contexts, or thematic/figurative clusters. Repeatable one time. Pre: 320 and one other 300-level ENG course; or consent. (Cross-listed as WS 483) **DL**

**ENG 491 Senior Honors Tutorial (3)** Studies in history of ideas, periods, genres, or themes in literature. Includes research paper. Repeatable one time. Pre: enrollment in Honors Program, 320 and two 300-level ENG courses; or consent. Offered fall semester. **DL**

**ENG 492 Senior Honors Tutorial (3)** Studies in history of ideas, periods, genres, or themes in literature. Includes research paper. Repeatable one time. Pre: enrollment in Honors Program, 320, and two ENG 300-level courses; or consent. Offered spring semester. **DL**

**ENG 494 Study Abroad (V)** Intensive study in the English language of selected topics, issues or writers from the host country in a UH Mānoa-approved study abroad location. Repeatable one time. A-F only. Pre: two ENG DL courses or consent. **DL**

**ENG 495 Internship (3)** Faculty supervised participation in the operations of an organization. A-F only. Pre: two ENG DL courses, junior standing, or consent.

**ENG 499 Directed Reading (V)** Repeatable up to six credits. A-F only. Pre: two ENG DL courses or consent.

**ENG 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**ENG 550 Supervised Teaching Practicum (1)** Supervised participation in instruction or tutoring. CR/NC only. Repeatable two times. Pre: graduate standing and consent.

**ENG 560 HWP Summer Writing Institute (V)** Repeatable one time.

**ENG 561 HWP Summer Institute WAC (V)** Practicum in the current best approaches to teaching writing across the curriculum. Participants write, read published theory and research in composition, and demonstrate effective writing lessons. Repeatable one time.

*Graduate standing or consent is required for all courses numbered 600 and above for which no specific prerequisite is listed.*

**ENG 601 Old English (3)** Structure of the language, relation to present English; reading of selected prose and poetry.

**ENG 605 Theory and Practice of Teaching Composition (3)** Major contemporary theorists and classroom practices that evolve from their theories; observation and applications.

**ENG 610 Elements of Creative Writing (3)** Intensive discussion of the craft and technique of creative writing through readings in poetry, fiction, creative nonfiction, and creative writing pedagogy. A-F only. Pre: graduate standing or consent. (Fall only)

**ENG 613 (Alpha) Graduate Writing Workshop (3)** Advanced practice and critical evaluation of the writing of poetry, fiction, or creative nonfiction. (B) poetry; (C) fiction; (D) nonfiction. Repeatable one time. Pre: graduate standing plus 411 for (B); 414 for (C); 412 for (D); or consent.

**ENG 625 (Alpha) Theories and Methods (3)** Required course in the MA student's area of concentration. (B) theories and methods of literary study; (C) introduction to composition and rhetoric; (D) foundations of creative writing; (E) theories in cultural studies. Repeatable in different alphas. Pre: graduate standing or consent. (Spring only)

**ENG 627 (Alpha) Literary Theory and Criticism (3)** (B) classical period through 18th century; (C) Romantic and post-Romantic.

**ENG 664 Biography (3)** Study of one or more authors, English or American literature. Repeatable one time. A-F only. Pre: graduate standing or consent.

**ENG 691 MA Final Project (V)** Individual reading and research towards preparation of MA project. 3

credit hours required. CR/NC only. Repeatable one time. Pre: 625 and consent.

**ENG 699 Directed Reading (V)** Individual reading or research. Repeatable with consent of Graduate Director. Pre: graduate standing and consent.

**ENG 700 Thesis Research (V)** Repeatable unlimited times. Pre: graduate standing and consent.

**ENG 705 Seminar in Composition Studies (3)** Intensive study of selected issues in composition studies. Repeatable one time. Pre: 625C or consent.

**ENG 709 Seminar in Rhetoric (3)** Intensive study of selected topics in the history of rhetoric, rhetorical theory, or rhetorical criticism; topic to be announced. Repeatable one time. Pre: 625C or consent.

**ENG 713 Seminar in Creative Writing (3)** Advanced study in creative writing focused on thesis and dissertation projects. Repeatable one time. Pre: 613 or consent.

**ENG 716 (Alpha) Seminar in Techniques in Contemporary Literature (3)** The study, from the point of view of the creative writer, of works written within the last 25 years. (B) techniques in fiction; (C) techniques in poetry; (D) techniques in creative nonfiction. Repeatable one time. Pre: 613 (or concurrent) or consent.

**ENG 727 Seminar in Literary Criticism (3)** Intensive study of selected topics in literary theory and its practical application; topics to be announced. Repeatable two times. Pre: graduate standing or consent.

**ENG 730 (Alpha) Seminar in English Literature (3)** Study of authors or a period. (C) re-reading Chaucer; (N) 14th century poetry; (P) extended Victorian lyric; (Q) modern British fiction; (R) early 17th century poetry; (S) dominant Victorians: the 1840s; (T) Baroque and English literature; (U) literature and social change; (X) literature and history; (Y) studies in satire. Repeatable one time.

**ENG 735 (Alpha) Seminar in American Literature (3)** Study of authors or a period. (B) American modernism; (C) race in American literature; (D) 19th century American poetry; (E) American literature naturalism; (F) African American literature and theory; (G) American transcendentalism; (H) 19th century American novel; (J) contemporary American poetry; (N) poetry by 20th century American women; (P) women writers and multiculturalism; (Q) Asian American literature and theory; (R) relocating American literature; (S) early American literature; (T) H. Melville and T. Morrison. Repeatable one time for different alphas.

**ENG 740 (Alpha) Seminar in Major Author (3)** Study of one or more authors, English or American. (C) George Eliot; (D) Emily Dickinson; (M) Milton; (S) Chaucer and his backgrounds; (T) Austen; (U) Yeats and his circle; (X) Beowulf; (Y) Faulkner's narrative; (Z) Virginia Woolf. Repeatable one time. A-F only. Pre: graduate standing or consent.

**ENG 745 Seminar in Shakespeare (3)** Intensive study of Shakespeare.

**ENG 760 (Alpha) Seminar in Literary Genres (3)** Study of one or more authors, English or American literature. (C) neoclassicism; (D) tragedy; (E) modern American short story; (F) sonnet and sonnet sequences; (G) Rest., 18th century dramatic comedy; (H) 18th century literature and art; (I) medieval drama; (J) narrative theory and criticism; (K) reinventing the author; (M) laughter and the comic arts; (N) nature of romance; (O) Victorian novel; (P) Jacobean drama; (Q) science fiction; (R) essay, past and present; (S) Eng. hymn in Western culture; (W) 18th century British women novelists; (Y) English romanticism; (Z) English novel and criticism. Repeatable one time. A-F only. Pre: graduate standing or consent.

**ENG 763 Seminar in Film Theory and Criticism (3)** Classic theories of representation and aesthetics; modern and contemporary cultural, psychoanalytic, and aesthetic theories as they apply to film.

**ENG 764 Seminar in Life Writing (3)** Intensive study of critical and theoretical issues raised by various forms of life writing (biography, autobiography, oral history, diaries, etc.) and of their history and methodology. Repeatable one time.

**ENG 770 Seminar in Cultural Studies in Asia/Pacific (3)** Intensive study of selected issues in cultural studies in Asia and the Pacific; topics to be announced. Repeatable one time.

**ENG 771 Seminar in Pacific Literatures (3)** Intensive study of selected issues in the literatures of the Pacific in English, or translated into English. Topics to be announced. Repeatable one time. Pre: graduate standing or consent. (Spring only)

**ENG 772 Seminar in Literatures of Hawai'i (3)** Introduction to comparative literature; relationship of Hawaiian to other literatures; sources and influences. Repeatable one time.

**ENG 773 Seminar in Hawaiian Literature (3)** Intensive study of selected issues, genres, and traditions in Hawaiian literature written in English or translated from Hawaiian into English. Repeatable one time. Pre: graduate standing or consent. (Fall only)

**ENG 775 Seminar in Cultural Studies (3)** Intensive study of selected issues in cultural studies and cultural and social theory; topics to be announced. Repeatable one time.

**ENG 780 (Alpha) Seminar in Comparative Literature (3)** Introduction to comparative literature; relationship of English to other literatures; sources and influences. (B) African lit. and literary theory; (F) folklore and literature; (G) theory/practice of poetry; (H) contemporary drama; (I) mythic method; (J) postmodern fiction; (M) modernism; (N) colonial/postcolonial; (P) postmodernism and postcolonialism; (W) medieval women writers. Repeatable one time for different alphas.

**ENG 790 Seminar in Special Topics (3)** Content to be announced. Repeatable five times.

**ENG 800 Dissertation Research (V)** Pre: graduate standing and consent. Repeatable nine times.

---

## English as a Second Language (ESL)

*College of Languages, Linguistics and Literature*

**ESL 100 Composition I for Second Language Writers (3)** Extensive practice in writing expository essays; linguistic devices that make an essay effective. (Fulfills composition requirement for nonnative speakers of English only.) **FW**

---

## English Language Institute (ELI)

*College of Languages, Linguistics and Literature*

*Initial placement in ELI courses is by examination only. A grade of CR (credit) is prerequisite to promotion or exemption. Normal course sequence is 70, 80; 72, 82; 73, 83 or ELI 100.*

**ELI 070 Intermediate Academic Listening and Speaking (0)** Introduction to the academic English-language listening/speaking demands required at the university. Instruction and practice of effective note-taking skills, listening strategies, delivery of presentations, and participation in academic discussions. Designed as a bridge to ELI 080.

**ELI 072 Intermediate Academic Reading (0)** Instruction to the academic English-language reading demands required at the university. Instruction and practice of effective means to understand text patterns, increase reading fluency and comprehension, and develop vocabulary. Designed as a bridge to ELI 082.

**ELI 073 Intermediate Academic Writing (0)** Extensive practice in expository writing. Analysis and use of rhetorical devices. Individual conferences and tutoring as required.

**ELI 080 Advanced Academic Listening and Speaking (0)** Further development of the academic English-language listening/speaking skills and strate-

gies required at the university. Instruction and practice of effective note-taking skills, critical listening strategies, delivery of effective academic presentations and leading of academic discussions. Pre: 070 or placement by examination.

**ELI 082 Advanced Academic Reading (0)** Further development of skills and strategies for dealing with the high demands of academic reading by focusing on becoming efficient and autonomous readers. Instruction and practice of developing critical reading strategies and building field-specific vocabulary. Pre: 072 or placement by examination.

**ELI 083 Advanced Academic Writing for Graduate Students (0)** Introduction to academic writing conventions common at the graduate level. Students explore academic writing in their disciplines, develop clarity of written expression, and improve command over textual, rhetorical, and discursive conventions common in academic writing. Pre: 073 or placement by examination.

**ELI 111 Practicum for International Teaching Assistants (3)** Extensive practice for international teaching assistants in speaking in classroom situations with emphasis on oral skills, American cultural expectations and classroom management. CR/NC only. Pre: 080.

## Ethnic Studies (ES)

### College of Social Sciences

*A grade of C or better in the prerequisite courses is required for all grades. (A C- is not acceptable.)*

**ES 101 Introduction to Ethnic Studies (3)** Basic concepts and theories for analyzing dynamics of ethnic group experiences, particularly those represented in Hawai'i, and their relation to colonization, immigration, problems of identity, racism, and social class. **DS**

**ES 214 Introduction to Race and Ethnic Relations (3)** Race and ethnic relations in world perspective; social, economic, and political problems associated with perception, existence, and accommodation of these groups within the wider society. (Cross-listed as SOC 214) **DS**

**ES 221 Hawaiians (3)** Relationship between changes in Hawaiian lifestyle and development of Hawaiian economy; land use and tenure; participation in government, labor, and industry; Hawaiian institutions: "Hawaiian movement." **DS**

**ES 301 Ethnic Identity (3)** Individual and group problems of identity, identity conflict, culture conflict, inter-ethnic relations. Critical review of available material on Hawai'i. Pre: one social sciences core course. **DS**

**ES 305 African American Experience I (3)** Afrocentric perspective. Analysis of the black political/cultural diaspora, including ancient African kingdoms, the slavery experience, organized resistance, emancipation struggles, the Civil War and Reconstruction. Pre: one social sciences core course or consent. **DS**

**ES 306 African American Experience II (3)** Afrocentric sociopolitical analysis. The struggle for freedom: Reconstruction period, reign of terror, intellectual and cultural awakenings, civil rights movements, contemporary issues. Pre: one social sciences core course or consent. **DS**

**ES 310 Ethnicity and Community: Hawai'i (3)** Site visits to museums, social welfare units, etc., as well as guest lecturers from the community including police, health, education. Pre: one social sciences course. (Summer only) **DS**

**ES 318 Asian America (3)** History of selected Asian immigrant groups from the 19th century to the present. Topics include: immigration and labor history, Asian American movements, literature and cultural productions, community adaptations and identity formation. (Cross-listed as AMST 318) **DH**

**ES 320 Hawai'i and the Pacific (3)** Hawai'i as part of the Pacific community: selected historical and contemporary problems of Pacific areas; cultural

and economic imperialism, land alienation, and the impact of development on Pacific peoples. Pre: one social sciences core course. **DH**

**ES 330 Japanese in Hawai'i (3)** Issei roots in Japan; the role of Japanese in labor, politics, and business; sansei and perspectives on local identity and culture. The Japanese in light of changing economic, social, and political conditions in Hawai'i today. Pre: one social sciences core course. **DH**

**ES 331 Chinese in Hawai'i (3)** Ethnohistorical and contemporary view of the experiences of the Chinese in Hawai'i and the U.S. mainland; specific roles and contributions; immigration, social organization, and identity. Pre: one social sciences core course. **DH**

**ES 332 Caucasians in Hawai'i (3)** Historical and current views of white ethnic groups in Hawai'i; significance in economic and social development of Hawaiian society. Pre: one social sciences core course. **DH**

**ES 333 Filipinos in Hawai'i (3)** Historical and contemporary experiences; immigration; traditional culture and values; plantation experience; labor organizing; development of Filipino community; racism; discrimination; and ethnic identity. Pre: one social sciences core course or consent. **DH**

**ES 335 Koreans in Hawai'i (3)** Historical and contemporary experiences, causes and patterns of immigration, conditions on plantations, ties to Korea, community development and roles in society. Pre: one social sciences core course. **DH**

**ES 338 American Indian Experience (3)** Provides a comprehensive look at the indigenous foundation of life and society in the Americas and elaborates on historical and contemporary importance of American Indian rights issues. Pre: one social sciences core course. **DH**

**ES 339 South Asian Migrants: Culture and Politics (3)** Historical and contemporary experiences of South Asian migrants in North America, Pacific, Caribbean, and/or African diasporas; causes and patterns of migration, inter-ethnic relations policies; role of race, gender, culture in community, identity formation. A-F only. Pre: one ES or WS course in the 100, 200 or 300 level; or consent. (Once a year) (Cross-listed as WS 339) **DS**

**ES 340 Land Tenure and Use in Hawai'i (3)** Dynamics of change: indigenous Hawaiian land tenure; Great Mahele and Kuleana Act; ethnic succession of land ownership; concentration of ownership today; effects of land development on ethnic communities. Pre: one social sciences core course. **DH**

**ES 350 Economic Change and Hawai'i's People (3)** Development of modern Hawaiian economy and impact on Hawai'i's people. Sugar, pineapple, and tourism industries; role of local and multinational corporations; scenarios for Hawai'i's future development. Pre: one social sciences core course. **DS**

**ES 360 Immigration to Hawai'i and U.S. (3)** Historical overview: "push and pull factors"; effect of changing economy; experiences of various ethnic groups; problems of recent immigrants; immigration policies in the U.S. and Hawai'i. Pre: one social sciences core course. **DH**

**ES 365 Pacific/Asian Women in Hawai'i (3)** Adaptive strategies of Hawaiian, Chinese, Japanese, Korean, Filipino, Samoan, and Southeast Asian women in Hawai'i; feminist anthropological and historical analysis. Pre: one ANTH, SOC, or WS course. (Cross-listed as WS 360) **DS**

**ES 370 Ethnic Literature of Hawai'i (3)** Writings of various ethnic groups in Hawai'i, ancient to contemporary. Songs, stories, poetry, fiction, essays that illustrate the social history of Hawai'i. Pre: one ENG DL course or consent. (Cross-listed as ENG 370) **DL**

**ES 372 Asian American Literature (3)** Basic concepts and representative texts for the study of Asian American literature by writers from a variety of backgrounds. Pre: one ENG DL course or consent. (Cross-listed as ENG 372) **DL**

**ES 373 Filipino Americans: History, Culture and Politics (3)** An introduction to the study of Filipino Americans in the U.S. and the diaspora. The course pays special attention to labor migration, cultural production and community politics. Pre: sophomore standing. (Cross-listed as AMST 373) **DS**

**ES 375 Issues of Diversity in Higher Education (3)** Examines issues of diversity within higher education. Examines different dimensions of diversity including ethnicity, gender, national origin, age, and sexual orientation. Will utilize national and local case studies. Junior class standing or higher. Pre: one social science course or consent. (Spring only) **DS**

**ES 380 Fieldwork in Ethnic Studies (V)** Specialized supervision of individual student research projects in historical, oral history, or contemporary problems. Repeatable to total of 6 credit hours. Pre: consent.

**ES 381 Social Movements in Hawai'i (3)** Role of various contemporary movements for social change in Hawai'i: community, ethnic, labor, student, etc. Theories of social movements and social change. Pre: one social sciences core course. **DS**

**ES 390 Gender and Race in U.S. Society (3)** Historical and sociological studies of race and gender in U.S. society; grassroots feminist and race/ethnic activism in the mainland and Hawai'i. A-F only. Pre: 101, WS 151, or Social Science Cores. (Cross-listed as WS 390) **DS**

**ES 392 Change in the Pacific—Polynesia (3)** Impact of cultural and physical change and their inter-relationship. Pre: ES or social sciences courses. **DS**

**ES 399 Directed Reading/Research (V)** Repeatable up to 6 credits. Pre: consent only.

**ES 410 Race, Class, and the Law (3)** Historical context and implications of landmark court decisions and legal issues affecting social change in ethnic communities in Hawai'i and the continental U.S. Pre: one 300-level course in ES, POLS, or SOC. **DS**

**ES 418 Women and Work (3)** Gender and racial division of labor nationally and internationally; racial and gender differentials in wages, training, working conditions and unemployment; historical trends and future directions. Pre: one 300-level ES or WS course, or SOC 300; or consent. (Cross-listed as SOC 418 and WS 418) **DS**

**ES 420 American Ethnic and Race Relations (3)** Surveys ethnic and race relations in the U.S. Focus on historical conflicts and critical issues such as racism, immigration, affirmative action, changing economic structures, and the role of government. Pre: 101 or consent. **DS**

**ES 440 Contemporary African Diaspora and Black Communities Beyond the U.S. (3)** Analysis of social, political, and cultural circumstances that inform the experiences of contemporary African Diaspora and Black communities outside of the U.S.; Black identity. Pre: one of 301 or 305 or 306, or consent. (Spring only) **DS**

**ES 443 Filipino Americans: Research Topics (3)** A research seminar on the study of Filipino Americans. Special themes in film/video/media, the performing arts, or literature may be offered. Pre: junior standing or consent. (Cross-listed as AMST 401)

**ES 455 (Alpha) Topics in Comparative Ethnic Conflict (3)** Causes and dynamics of ethnic conflicts with attention to problem resolution; (B) Middle East; (C) Hawaiian sovereignty in Pacific context. Pre: 320 or 392, or consent for (C). **DS**

**ES 456 Racism and Ethnicity in Hawai'i (3)** The historical and contemporary social processes involved in inter-ethnic relations in Hawai'i. Pre: SOC 300 or one ES 300 level course, or consent. (Cross-listed as SOC 456) **DS**

**ES 460 Ethnic Conflict (3)** Today, ethnic conflicts account for a majority of wars. Theory and multiple case studies will be used to examine the causes and consequences of ethnic conflict. How can it be managed or settled? Junior standing or higher. Pre: one social science course or consent. (Fall only)

**ES 480 Qualitative Research Methods (3)** Introduction to qualitative data collection methods; explore methods of analyzing data including grounded theory method, discourse analysis, and narrative analysis and those used in ethnic, gender, and community studies. A-F only. Pre: one upper division ES or SOCS course or consent.

**ES 486 Peoples of Hawai'i (3)** Critically examines the historical and contemporary experiences of various people of Hawai'i and utilizes anthropological and ethnic studies approaches to study identity, race, ethnicity, culture, language, gender, sex, class, land, and residence. Pre: junior standing or consent. (Once a year) (Cross-listed as ANTH 486) **DS**

**ES 492 Politics of Multiculturalism (3)** The development of ethnic relations and political approaches to multiculturalism in two multiethnic nations: Canada and the U.S. A-F only. Pre: SOC 300 or one 300 level ES course, or consent. (Cross-listed as SOC 492) **DS**

**ES 493 Oral History: Theory and Practice (3)** Literature and methodology; project design. Students develop and execute an oral history project. Junior standing or consent. (Cross-listed as ANTH 493) **DH**

**ES 495 Hawaiian Labor History (3)** Conditions of work under varying political, social, and economic transformations in Hawai'i; anthropological, sociological, and historic data. Pre: HIST 151 and HIST 152. **DH**

**ES 496 Special Topics in Ethnic Studies (3)** Selected themes in ethnic studies exploring current issues and new topics; taught by regular and visiting faculty. Repeatable two times. Pre: one 300-level social science course.

## Family Medicine and Community Health (FMCH)

### School of Medicine

**FMCH 531 7-Week Family Medicine Clerkship (10)** Ambulatory-based clerkship in Hawai'i. Students learn history taking, physical exam skills, and management of family medicine patients. Emphasis on behavioral care, caring for the underserved, sports medicine, preventive care, common acute/chronic ambulatory problems. Pre: third year standing.

**FMCH 532 Family Medicine and Community Health Longitudinal Clerkship (10)** 5.5-month ambulatory clerkship. Students learn history taking, physical exam skills, and management of family medicine patients. Emphasis on behavioral care, caring for the underserved, sports medicine, preventive care, and common acute/chronic ambulatory problems. Repeatable one time. Co-requisite: third-year standing and concurrent registration in 532 courses.

**FMCH 545 (Alpha) Electives in Family Medicine and Community Health (V)** Fourth-year elective in which medical students may do study of selected topics within the field of family medicine and community health: (B) primary care preceptorship; (C) topics in community health; (D) sub-internship in family medicine; (E) extramural elective in family medicine and community health-miscellaneous; (F) sports medicine preceptorship; (G) longitudinal underserved care preceptorship (6). MED majors only for (G). CR/NC only. Pre: 531 or 532. (Spring only for (G))

**FMCH 599 Directed Reading/Research (V)** Repeatable unlimited times. Pre: consent.

## Family Resources (FAMR)

### College of Tropical Agriculture and Human Resources

**FAMR 230 Human Development (3)** Concepts, issues, theories of human growth and development from conception to death; systems approaches to inquiry into factors affecting growth and development. **DS**

**FAMR 331 Infancy and Early Childhood (3)** Growth and development from prenatal period to

age 5. Historical and current issues and research based on ecological, cross-cultural perspective. Focus on optimal development. Pre: 230 or consent. **DS**

**FAMR 332 Childhood (3)** Intensive investigation into developmental aspects of 6–12 year old children. Historical and current issues, research, and examination of the role of schools and other community resources. Focus on optimal development. Pre: 230 or consent. **DS**

**FAMR 333 Adolescence and Early Adulthood (3)** Problems, concepts, and research related to development from puberty through early adulthood. Examination of biological, cognitive, social, and cultural factors affecting the individual. Pre: 230 or consent. **DS**

**FAMR 334 Middle Age and Aging (3)** Change and continuity in midlife and late life from theoretical and applied perspectives. Coverage of physical and psychological events as well as social attitudes, values, and programs regarding aging. Pre: 230. **DS**

**FAMR 340 Intimacy, Marriages and Families (3)** Study of intimate relationships, marriages and families, their dynamics, strengths, growth and development, challenges, choices and opportunities, in the context of social change and cultural diversity. Pre: 230 or PSY 100 or SOC 100; or consent. **DS**

**FAMR 341 Parenting (3)** Parenting theories, methods, skills, issues, and resources; parent-child relations in various cultural contexts. Pre: 340 or consent.

**FAMR 350 Leadership and Group Process (3)** Exploration of leadership research and theories and their application to leadership development; designed to enhance personal and interactive leadership. Pre: 230 or FDM 200, or consent.

**FAMR 352 Community Needs and Resources (3)** Theory and practice in determining community needs and resources; community resources development based on needs identification. Pre: 230 or consent. **DS**

**FAMR 360 Family Resource Management (3)** Concepts, principles, and practices in managing family and household resources. Pre: 230 or consent.

**FAMR 361 Family Financial Planning (3)** Analytical approach to family financial planning from the perspective of changing family demands over the life cycle. Pre: 360 or an ECON course, or consent.

**FAMR 363 Consumer Economics (3)** Consumer rights, responsibilities, and resources; consumer decision-making; factors affecting consumer functioning within economy. Pre: 360 or an ECON course, or consent.

**FAMR 380 Research Methodology (3)** Fundamentals of scientific methodology and techniques in design and data collection; introduction to statistics for decision-making and program evaluations in agriculture and human resources. Pre: 230 or FDM 200, or consent. Co-requisite: 380L. **DS**

**FAMR 380L Research Methodology Lab (1)** (1 3-hr Lab) Test design, computer use, data analysis. Co-requisite: 380.

**FAMR 425 Partnerships with Families and Professionals (4)** Lecture, discussion and hands-on course, prepares students for direct, educational work with parents and children and for continued graduate work in child and family studies, counseling, psychology, social work and/or family life education. A-F only. Pre: 341 or consent.

**FAMR 442 Marriage Development (3)** Marital interaction and development; divorce and remarriage; resources and techniques for marital adjustment, enrichment, and growth. Pre: 340.

**FAMR 444 Contemporary Family Issues (3)** Investigation of current issues with impact upon family quality of life, with emphasis on the interdependent nature of families and their environments. Pre: 340 or consent. **DS**

**FAMR 445 Family Life Education Methodology (4)** Lecture, discussion and hands-on course, with

service learning on Family Life Education Methodology. Repeatable one time. Pre: 341 or 442, or consent.

**FAMR 452 Community Program Development (3)** Concepts and theories of community program development; principles, practices, and procedures in administration and supervision of volunteer services surveyed and analyzed. Pre: 352.

**FAMR 454 Family Public Policy (3)** Cross-national survey of family public policy; analysis, revision, and development of family public policy; impacts of policy on consumers and families. Pre: 352. **DS**

**FAMR 455 Consumer Communications (3)** Development, production, analysis, and evaluation of consumer materials for print media. Use of desktop publishing computer programs. Pre: 360 or an ECON course, or consent.

**FAMR 468 Family Economics (3)** Study of personal family resources and its interaction with the economy. Focuses on contemporary economic problems that affect the welfare of families. Pre: 360 or an ECON course, or consent.

**FAMR 491 Topics in Family Resources (V)** Study and discussion of significant topics, problems. Offered by visiting faculty and/or for extension programs. Repeatable.

**FAMR 492 Internship (4)** Integration and application of academic knowledge and critical skills in supervised work at an approved internship site and through analytical writing assignments and class discussions. Instructor consent required. Repeatable one time. Pre: 230, 340, 360, 380 and 380L.

**FAMR 495 Capstone Portfolio (3)** Preparation of a senior portfolio to be used as assessment of competence relative to national FCS standards. Includes extensive instruction on writing. FAMR majors only. Pre: 230, 340, 360, 380, 380L; 492 or consent.

**FAMR 499 Directed Reading and Research (V)** Independent reading and research on a topic, done under supervision of a faculty member; outcomes contracted in writing with faculty member at beginning of semester. Repeatable two times or up to nine credits. Pre: consent.

## Fashion Design and Merchandising (FDM)

### College of Tropical Agriculture and Human Resources

*The minimum required grade for prerequisites is a grade of D or better.*

**FDM 101 Introduction to the Fashion Industry (3)** Introduction to the fields of apparel design and merchandising including theories of fashion change, apparel industry operations, current industry issues, literature of the field, professional competencies, careers in apparel and related businesses. A-F only.

**FDM 200 Culture, Gender, and Appearance (3)** Social construction of gender within culture and its visual expression through appearance. Analysis of role, identity, conformity, and deviance in human appearance. Open to nonmajors. (Cross-listed as WS 200) **DS**

**FDM 205 Basic Apparel Construction (4)** (3 Lec, 1 3-hr Lab) Principles, concepts, and procedures for quality construction and custom fitting of clothing.

**FDM 210 Western World Fashion History (3)** Historic study of dress as related to customs and cultures in the Western world, in sociohistorical and contemporary contexts. Emphasis on 19th and 20th centuries. Pre: 101.

**FDM 215 Block Pattern Designing (3)** (2 Lec, 1 3-hr Lab) Principles of pattern making for women's apparel through manipulation of pattern blocks. Pre: 205.

**FDM 216 Fashion Illustration (3)** (2 Lec, 1 3-hr Lab) Principles and techniques of sketching the fashion figure including garment details and fabric drape. Development of a personal style of illustration. Introduction to use of computers for illustration. Pre: 101. **DA**

**FDM 221 Textiles I (3)** Introduction to fibers, fabric structure, and finishes related to selection and care. Interrelationship between textile characteristics, properties, and end uses. Open to non-majors. A-F only. **DP**

**FDM 301 Fashion Forecasting/Marketing (3)** Principles and practices in fashion trend forecasting and their role in apparel company marketing strategies. Analysis of aesthetics as it related to apparel and marketing. Adapting fashion trend forecasts to apparel lines. Restricted to FDM majors. Pre: 101, 210, 216, and 221.

**FDM 315 Draping (3)** Principles of pattern making through draping muslin models on standard garment forms. Pre: 205 and 215.

**FDM 316 Advanced Pattern Design (3)** Further study of flat pattern methods and industrial practices for fashion design majors. Use of CAD. Repeatable two times. Pre: 221 and 315.

**FDM 321 Textiles Quality Assurance (3)** Chemical nature and structure of fibers and fabrics, their properties and finishes. FDM majors only. A-F only. Pre: 221 or consent. Co-requisite: 321L. (Spring only) **DP**

**FDM 321L Textiles Quality Assurance Laboratory (1)** Examination of textile properties through standardized textiles testing laboratory equipment. FDM majors only. A-F only. Pre: 221 or consent. Co-requisite: 321. (Spring only) **DY**

**FDM 330 Advanced Apparel Construction (3)** Principles of advanced techniques for garment construction with emphasis on new, difficult-to-handle fabrics. Repeatable one time. Pre: 205 or consent.

**FDM 338 2D/3D Computer Aided Design (3)** Exploration of CAD applications from the design to the pattern-making process. Use of Adobe Illustrator and Photoshop for fashion illustration. Use of OptiTex PDS pattern design software featuring 2D and 3D CAD. Repeatable one time. Pre: 215.

**FDM 340 Computerized Pattern Grading (3)** Gerber Technology (GT) AccuMark System Management. The system is designed to use CAD for specific apparel industry applications in grading patterns into different sizes and making production markers. Pre: 338. Computer skills are helpful.

**FDM 350 Embellishments (3)** Emphasis on design principles as applied to stitchery using a variety of techniques and raw materials. Processes and problems experienced and critiqued in a group environment. Repeatable two times. Pre: 205. **DA**

**FDM 371 Retail Buying and Merchandising (3)** Theories and procedures in selecting, buying and selling apparel and textiles. Types of merchandising organizations, analysis of consumer demand, brick-and-click opportunities and challenges, development of an image, operation location, store and floor layout. FDM majors only. Pre: 101, 216, and 221.

**FDM 375 Merchandise Planning and Control (3)** Theories, problems, and procedures of financial and assortment planning and control of merchandise inventories. FDM majors and merchandising minors only.

**FDM 411 Product Lifecycle Management (3)** Application of principles of apparel production management, including methods engineering (detail construction for ordering), story boards and color tables, production measurements, costing, and PLM computer applications. A-F only. (Once a year)

**FDM 416 Costumes/Cultures of East Asia (3)** Development of traditional dress as visual manifestation of culture. Ethnic and national dress of China, Japan, Korea, Mongolia, Okinawa, Tibet, and Vietnam. Pre: 200, 221, two FG courses; or consent.

**FDM 418 Costumes of South and Southeast Asia (3)** Development of traditional dress as visual manifestation of culture. Ethnic and national dress of Afghanistan, India, Indonesia, Malaysia, Pakistan, Philippines, Thailand and Saudi Arabia. Pre: 200, 221, two FG courses; or consent.

**FDM 419 Apparel Design Studio I (3)** Development of independent expression through creative designing for a ready-to-wear collection. Problem solving in the design process; includes sketching, draping, blocking, muslin proofs, complete garments, and portfolio. Studio courses must be taken in sequence. Repeatable one time. Pre: 210, 221, 316, 330. Enrollment in 419 or 420 is required to show designs in annual fashion show, but doesn't guarantee acceptance. (Fall only)

**FDM 420 Apparel Design Studio II (V)** Development of niche market. Problem solving in the design process. Includes sketching, draping, blocking, muslin proofs, complete garments, and portfolio. Repeatable one time. Pre: 419. Enrollment in 419 or 420 is required to show designs in annual fashion show, but doesn't guarantee acceptance. (Spring only)

**FDM 430 Fashion Show Production (3)** Application of principles and procedures related to the promotion of fashion apparel. Preparation and presentation of fashion information through shows, displays, media, and written communications. Repeatable one time. Pre: 101. (Spring only)

**FDM 437 Small Business Start-up (3)** Application of principles, procedures and techniques of organizing a small retail business in a brick-and-click world. Creative use of low and high tech resources. Students plan, write and evaluate small retail business plans. Junior standing or higher. FDM majors only; open to non-majors with instructor's consent. Pre: 375 or consent.

**FDM 460 Costume Collections Management (3)** Investigation of skills and techniques needed for handling textile and apparel artifacts in museums and other collections. Active involvement in documenting, researching, interpreting, and exhibiting costumes and textiles. Repeatable one time. FDM majors only. A-F only. Pre: 210, 416, or 418.

**FDM 471 International Apparel Trade Issues (3)** Theories, concepts, problems of international trade of textile and apparel products. Issues of importing and exporting apparel products globally. Social, political and economic factors affecting textile and apparel trade.

**FDM 491 Topics in Fashion (V)** Study and discussion of special topics, problems. Offered by staff and visiting faculty. Repeatable five times.

**FDM 492 Internship (4)** Examination of issues and opportunities associated with careers in fashion and related businesses and industries. Topics include interpersonal skills development, job search and interview strategies, and ethical issues in the workplace. FDM majors only. A-F only. Junior standing or higher. Pre: consent.

**FDM 495 Capstone Portfolio (3)** Integration and application of academic knowledge and critical skills emphasizing professional development. Placement with an approved cooperating supervisor/employer. Pre: 492 and senior standing.

**FDM 496 Field Study in the Fashion Industry (V)** Study tours to various centers of the world to examine historical and modern apparel and textiles. Merchandising and design methods and operations examined. Repeatable up to 12 credits. Pre: consent.

**FDM 499 Directed Reading and Research (V)** Repeatable up to 15 credits. Pre: consent.

## Filipino (FIL)

*College of Languages, Linguistics and Literature*

**FIL 101 Beginning Filipino (4)** Listening, speaking, reading, writing skills. Structural points introduced inductively. Meets four hours weekly, includes one hour out-of-class field experience (Co-curricular cultural activities) weekly. **HSL**

**FIL 102 Beginning Filipino (4)** Continuation of 101. Pre: 101 or consent. **HSL**

**FIL 201 Intermediate Filipino (4)** Continuation of 102. Meets four hours weekly, includes one hour

out-of-class field experience (Co-curricular cultural activities) weekly. Pre: 102 or consent. **HSL**

**FIL 202 Intermediate Filipino (4)** Continuation of 201. Pre: 201 or consent. **HSL**

**FIL 224 Filipino for Education (4)** Continuation of 102. Lessons focus on various aspects of Philippine culture and specialized topics that cater to the needs of teachers intending to teach Filipino immigrant students or teach Filipino as a second language. Meets five hours a week; daily lab work. Pre: 102. **HSL**

**FIL 225 Filipino for Education (4)** Continuation of 202 or 224. **HSL**

**FIL 301 Third-Level Filipino I (3)** Conversation, advanced reading and composition on traditional culture and indigenous knowledge. Meets three hours weekly. Pre: 202 or 225, or consent.

**FIL 302 Third-Level Filipino II (3)** Conversation, advanced reading, and composition on contemporary issues. Meets three hours weekly. Pre: 202 or 225, or consent.

**FIL 303 Accelerated Third-Level Filipino (6)**

**FIL 315 Filipino Aural Comprehension (3)** Training in comprehension of spoken authentic/simulated authentic materials presented in news broadcasts, songs, documentary narration, formal lectures, radio and television soap operas, etc. Pre: 202 or consent.

**FIL 330 Filipino Film: Art and History (3)** Study and analysis of Filipino films: its history, forms, development and relationship to cultural, social, philosophical, and aesthetic context. Pre: 202 or consent. **DH**

**FIL 401 Fourth-Level Filipino I (3)** Advanced reading in traditional literature; discussion of cultural implications; advanced conversation and composition. Meets three hours weekly. Pre: 302 or consent.

**FIL 402 Fourth-Level Filipino II (3)** Advanced reading in current literature; discussion of cultural implications; advanced conversation and composition. Meets three hours weekly. Pre: 302 or consent.

**FIL 415 Advanced Filipino Aural Comprehension (3)** Continuation of 315. Training in comprehension and analysis/criticism of spoken authentic materials through films. Pre: 315 or consent. **DL**

**FIL 435 Filipino Translation Techniques (3)** Techniques of bilingual translation: Filipino to English and English to Filipino. A-F only. Pre: 302 or consent.

**FIL 451 Structure of Filipino (3)** Introduction to phonology, morphology, syntax. Pre: 202 or consent. **DH**

**FIL 461 Filipino Contemporary Literature (3)** Selected readings in poetry, short stories, and plays from early 1900s to present. Co-curricular cultural activities included. Pre: 302 or consent. **DL**

**FIL 462 Filipino Contemporary Literature: 1980s-Present (3)** Survey of literature from the 80s (1986) to the present. Co-curricular cultural activities included. Pre: 302 or consent. **DL**

## Finance (FIN)

*Shidler College of Business*

**FIN 301 Personal Finance (3)** Focuses on principles and techniques for handling personal financial decisions, including: personal budgeting, obtaining credit, life and casualty insurance, buying a home, buying an automobile, savings and investments, and retirement planning.

**FIN 305 Problems of Business Finance (3)** Application of financial principles to cases involving important financial decisions. Pre: BUS 314.

**FIN 307 Corporate Financial Management (3)** Development and analysis of modern financial theory and its implications for management decisions: market efficiency, capital asset pricing, firm investment decisions, capital structure, dividend policy, and cost of capital. Pre: BUS 314.

**FIN 311 Investments (3)** Introduction to various investment media and capital markets. Topics include the analysis of security returns using techniques such as beta, filter rules, and portfolio theory. Pre: BUS 314 or consent.

**FIN 321 International Business Finance (3)** Financial management of foreign and international business operations: the regulatory environment of international finance, financing international transactions, international capital markets, taxation. Financial decision-making in the firm. Pre: BUS 314 or consent.

**FIN 331 International Banking (3)** Commercial, investment, and merchant banking. Includes theory and practical applications. Topics include international lending, Euromarkets, global gap management, Forex activities, and global risk management. Pre: BUS 314 or consent.

**FIN 341 Financial Aspects of New Ventures (3)** Examination of underlying business models for new ventures, how to determine corresponding financial requirements, and approaches to resource acquisition. Students explore a range of financing sources and related issues of valuation and deal structure. Pre: junior standing and BUS 314, or consent.

**FIN 399 Directed Reading and Research (V)** Reading and research in a special area of major under direction of faculty member(s). Project must include statement of objectives, outline of activities planned, results expected, and how they are to be reported and evaluated. Must be approved in advance by the department chair and the faculty advisor. Repeatable unlimited times.

**FIN 412 Options and Other Derivatives (3)** Options and other derivatives. Equity options, index options and options on futures. Black-Scholes Model. Trading strategies and tactics. Contemporary developments in financial engineering. A-F only. Pre: 311 or consent.

**FIN 415 Security Analysis and Portfolio Management (3)** Security analysis and portfolio management from standpoint of the professional analyst and institutional investor. Recent advances in security valuation models, portfolio selection, and techniques for appraising portfolio performance. A-F only. Pre: 311.

**FIN 430 Bank Financial Management (3)** Analysis of financial institution management within the domestic economy and regulatory environment. Topics include federal reserve activities, interest rates, regulation, lending, investments, and asset/liability management. Pre: BUS 314.

**FIN 444 Asian Finance (3)** Financial systems, regulatory structure over financial institutions in the Asia-Pacific region. Major financial policy issues for financial sector reforms in the region. Seminar format. A-F only. Pre: BUS 314 or consent.

**FIN 450 Enterprise Risk Management (3)** Overview analyzing various primary risks faced by corporations and developing important risk management techniques with an emphasis on enterprise risk management. Combined lectures, case studies, and discussions. BUS majors only. A-F only. Pre: BUS 314 or consent. (Once a year)

**FIN 467 Seminar in Financial Planning (3)** A capstone course for financial services and planning track. This is a case study course intended to provide students the opportunity to integrate concepts from earlier courses and develop a comprehensive view of the financial planning process. A-F only. Pre: 301 and 311 and two of the following courses: 490E, 490F, ACC 401, INS 300.

**FIN 470 Sustainable Development in East Asia (3)** Interdisciplinary investigation of development in East Asia is an urgent issue. Status and role of Asian business; current technological, economic, and financial developments; impact on world economy. Pre: ASAN 201, ASAN 312, or BUS 314; or consent. (Cross-listed as ASAN 470)

**FIN 490 (Alpha) Advanced Topics in Finance (3)** In-depth analysis of selected current practices and

issues in finance. (B) equity research and corporate valuation methods; (C) Japanese financial management; (D) financial analysis; (E) retirement and employee benefit planning; (F) finance estate planning. A-F only for (E) and (F). Repeatable four times for (D). Pre: 311 and BUS 314 for (B); BUS 314 or BUS 629 for (C); 311 or 634 for (D); 301 for (E) and (F). (Fall only for (B))

**FIN 625 International Monetary Systems and Global Financial Markets (3)** Supply and demand for capital in national and international markets. Nature of capital movements and role of capital in industrialization of regions and nations.

**FIN 633 Problems in Business Finance (3)** Application of financial principles and analytical techniques to financial problems. Case method. Pre: BUS 629 or consent.

**FIN 634 Investment Analysis and Management (3)** Techniques of security analysis, theories of investment, and the analysis of investment decisions related to portfolio planning. Pre: BUS 629 or consent.

**FIN 635 (Alpha) Advanced Topics in Finance (3)** Major current financial issues and problems. (C) Japanese financial management; (D) portfolio management theory; (F) stocks, bonds, and modern instruments. Pre: BUS 629 or consent.

**FIN 637 International Financial Management (3)** Financial decision-making in an international setting: analysis of direct foreign investment; economic, accounting, and regulatory environments, including taxation; international money and capital markets; import and export financing; multinational working capital management; and risk aspects of international finance. Pre: BUS 629 or consent.

**FIN 639 International Banking (3)** Commercial, investment, and merchant banking in the international arena. Includes international lending, Euromarkets, global gap management, Forex activities, and international risk management. Pre: BUS 629 or consent.

**FIN 641 Entrepreneurial Finance (3)** Assessment of financial needs, arranging venture financing, assessing value to the entrepreneur and the investor(s), financial aspects of strategic planning, analyzing the tradeoffs between alternative financing choices and flexibility and control, harvesting the investment. Pre: BUS 629 or consent.

**FIN 645 Advanced Capital Markets (3)** Regulatory structure over capital market institutions, market developmental issues, market microstructure issues, and corporate governance, and creation of capital market infrastructure. Seminar format. Pre: BUS 629 or consent.

**FIN 651 PDEs and Stochastic Calculus (3)** Covers PDEs (Partial Differential Equations) and calculus in a stochastic environment. A-F only. Pre: graduate standing in Financial Engineering program, or consent. (Once a year)

**FIN 652 Programming in Finance (3)** Addresses programming principles, and programming languages used in financial modeling. A-F only. Pre: graduate standing in Financial Engineering program, or consent. (Once a year)

**FIN 653 Portfolio Optimization (3)** Introduces students to principles of capital markets, classical portfolio theory, and focus on portfolio optimization. A-F only. Pre: graduate standing in Financial Engineering program, or consent. (Once a year)

**FIN 654 Financial Derivatives (3)** Will familiarize the students with the mathematical foundation and the application of Futures, Swaps, and Options. A-F only. Pre: graduate standing in Financial Engineering program, or consent. (Once a year)

**FIN 655 Financial Forecasting (3)** Focus on financial forecasting and financial econometrics as volatility and correlation modeling. A-F only. Pre: graduate standing in Financial Engineering program, or consent. (Once a year)

**FIN 656 Insurance and Risk Management (3)** Introduces students to topics in the actuarial science

and latest developments in risk management. A-F only. Pre: graduate standing in Financial Engineering program, or consent. (Once a year)

**FIN 657 Interest Rate/Credit Models (3)** Addresses specific properties of interest rate modelling as mean reversion as well as latest developments in credit risk modelling. A-F only. Pre: graduate standing in Financial Engineering program, or consent. (Once a year)

**FIN 658 Financial Modelling (3)** Addresses advanced techniques in financial modelling and related fields. A-F only. Pre: graduate standing in Financial Engineering program, or consent. (Once a year)

**FIN 659 Mortgage/Weather Derivatives (3)** Covers the real estate market, mortgage backed securities (MBSs) and real estate derivatives. Focuses on modelling weather, climate change, and weather derivatives. A-F only. Pre: graduate standing in Financial Engineering program, or consent. (Once a year)

**FIN 660 Seminar in Finance (3)** In-depth analysis of selected current practices and issues in finance. Pre: BUS 629 or consent. May be repeated with change in topic.

**FIN 661 Research Seminar (3)** Students either program a model or write a paper with high practical or scientific merit. Outcome enhances the chances for employment. Represents the culminating experience for students in this program. A-F only. Pre: graduate standing in Financial Engineering program, or consent. (Once a year)

**FIN 701 Theory of International Finance (3)** Concise framework of conceptual knowledge to understand the literature on financial theory and related empirical evidence. Includes fundamentals of capital markets, capital budgeting, utility theory, asset pricing, and international finance. A-F only. Pre: PhD student status in international management or consent.

**FIN 702 Seminar in International Investments (3)** Seminar covers research issues and methodologies in investments and capital markets. Main topics include theories and empirical characteristics of asset pricing, portfolio diversification and performance evaluation, derivatives, and risk management. A-F only. Pre: 701 and PhD student status in international management, or consent.

**FIN 703 International Corporate Control and Restructuring (3)** Provides and understanding of some of the scholarly research in corporate control and restructuring. Topics include: mergers and takeovers, international corporate governance, corporate restructuring, raising capital, and entrepreneurship. A-F only. Pre: 701 and PhD student status in international management, or consent.

**FIN 704 International Asian Finance (3)** In-depth review of scholarly journal articles and working papers relevant to Asian finance to prepare PhD students for scholarly research work. A-F only. Pre: 701 and PhD student status in international management, or consent.

**FIN 799 Directed Reading and Research (V)** Reading and research in a special area of major under direction of faculty member(s). Project must include statement of objectives, outline of activities planned, results expected, and how they are to be reported and evaluated. Must be approved in advance by department chair and the faculty advisor. A-F only. Pre: PhD student status in international management, or consent.

## Food Science and Human Nutrition (FSHN)

*College of Tropical Agriculture and Human Resources*

**FSHN 101 Success Skills Development in Human Nutrition, Food and Animal Sciences (1)** Combined lecture/discussion intended to provide majors in ANSC and FSHN with opportunities to learn about skills, competencies, and university resources necessary to succeed in college. FSHN and ANSC

majors only. A-F only. Pre consent. (Cross-listed as ANSC 101)

**FSHN 141 Culture and Cuisine: The Global Diversity of Food (3)** A timeline of the world history of food and how it relates to culture, diversity, ethnicity, and religion. International food demonstrations and tastings included. **FGB**

**FSHN 181 The Chemical Nature of Food (3)** Lectures, discussions, and demonstrations on how food components contribute to the functional, sensory, and safety characteristics of foods, and what changes occur in foods due to preparation, processing, and storage. Co-requisite: 181L.

**FSHN 181L Food Preparation Lab (1)** (1 3-hr Lab) Experiments in foods emphasizing ingredient function and standard preparation methods for food groups. Co-requisite: 181. **DY**

**FSHN 185 The Science of Human Nutrition (3)** Integration of natural science concepts basic to the study of human nutrition. Emphasis on nutrient requirements of healthy individuals, food sources, functions of nutrients. **DB**

**FSHN 244 Comparative Nutrition (3)** Digestive systems and nutrient functions, interrelationships and metabolism are compared among animal species, including humans. An intermediate, general nutrition course for Food Science and Human Nutrition and Animal Science majors. Pre: ANSC 200 (or concurrent), CHEM 161/L or higher. (Cross-listed as ANSC 244) **DB**

**FSHN 311 Restaurant and Club Management (3)** Critical and essential aspects of managing food and beverage operations and personnel in restaurants and clubs; understanding marketing, menu development and costing, purchasing procedures and inventory control for food and beverages; procurement methods; legislation on dietary menu claims; institutional sanitation responsibility. Pre: 181 and 181L (or concurrent), or consent.

**FSHN 312 Quantity Foods and Institutional Purchasing (4)** (3 Lec, 1 3-hr Lab) Quantity food and beverage operations, menu development and costing, dietary menu claims, purchasing procedures, inventory control, procurement, transportation, legislation. Institutional food service sanitation, Hazard Analysis Critical Control Point and National Restaurant Association Certification. Pre: 181 and 181L, TIM 315 or consent. (Cross-listed as TIM 319)

**FSHN 322 Marketing Nutrition and Food (3)** Fundamental marketing principles applied to nutrition and food. Will include concepts such as the psychology of food purchasing decisions and consumer behavior. Field trips and group projects included. Open to non-majors. Pre: 181/181L, 185, 312; or consent.

**FSHN 350 Humans, Food, and Animals: Ethics, Issues, and Controversies (3)** (2 Lec, 1 3-hr Lab) Ethical issues and other controversies related to human and animal needs; their impact on resource sustainability and quality of life are explored from scientific perspectives. Pre: 181 or 185 or ANSC 200 or ANSC 201. (Cross-listed as ANSC 350)

**FSHN 370 Lifespan Nutrition (V)** Nutritional requirements and food needs during infancy, early childhood and adolescence, and aging. One credit provided for each age group module. One to three credits. Pre: C or better in CHEM 161/161L, B or better in 185; or consent. Co-requisite: PHYL 142/142L, or consent. **DB**

**FSHN 381 Experimental Foods (4)** (3 Lec, 1 3-hr Lab) Experimental approach to study food preparation problems. Applying basic food science research design to conduct experiments, interpret data and write reports. Subject matter used to practice critical thinking and problem solving skills. Pre: 181, 181L, CHEM 272 or similar organic chemistry course, the equivalent of two years of high school algebra; or consent. **DB**

**FSHN 389 Nutritional Assessment (3)** (2 Lec, 2 1.5-hr Lab) Addresses concepts and uses of nutrition assessment tools at individual and community levels.

Students will be introduced to national surveys and new, more sophisticated body composition measurements. Repeatable one time. A-F only. Pre: 185, 370 (or concurrent), or consent.

**FSHN 403 Microbiology of Foods (3)** Microorganisms encountered in foods; types of food spoilage; microbial hazards in food; methods of food preservation. Pre: MICR 130 and MICR 140L, or consent. **DB**

**FSHN 411 Food Engineering (3)** (2 Lec, 1 3-hr Lab) Principles and application of thermodynamics, electricity, fluid mechanics, heat transfer, psychrometry, and material and energy balances of food processing and preservation. Pre: BIOL 171, CHEM 162 or CHEM 181A, MATH 243, PHYS 151 or PHYS 170; or consent. (Cross-listed as BE 411) **DP**

**FSHN 420 Sensors and Instrumentation for Biological Systems (3)** Principles of common physical and chemical sensors. Interfacing sensors to different electronic circuits and instrumentation systems. Electronic detection and quantification of biomolecules (biosensors). Applied control for biological processes. Pre: EE 160, EE 211, and BE 350; or consent. (Cross-listed as BE 420) **DP DY**

**FSHN 430 Food Chemistry (3)** Chemical properties of food constituents studied in relationship to their effects on processing, nutrition, and spoilage. Pre: CHEM 272/272L, or consent. **DP**

**FSHN 430L Food Chemistry Lab (1)** (1 3-hr Lab) Application of different chemical methods in the study of food constituents—proteins, lipids, carbohydrates, pigments, enzymes, etc. Pre: 430 (or concurrent). **DY**

**FSHN 440 Food Safety (3)** Discussion of potential microbiological, parasitic, chemical, and natural food hazards; food laws and standards; and related aspects of consumer protection. Pre: 181, BIOL 171, and CHEM 272; or consent. **DB**

**FSHN 445 Food Quality Control (3)** Fundamental principles of quality control in the food industry: measurement of quality parameters, utilization and integration of the individual test procedures into grades and standards of quality, sampling, and reporting results.

**FSHN 451 Community Nutrition (3)** (2 Lec, 1 3-hr Lab) Concepts and methods of nutrition program planning; analysis of nutritional problems of local, national, and international communities. Pre: 370 and either FAMR 380 or NREM 310; or consent.

**FSHN 452 Concepts in Nutrition Education (3)** (2 Lec, 1 2-hr Discussion) Concepts, methods, and materials used in nutrition education of community, clinical, and school populations. Strategies used to educate groups or individuals. Pre: 451 and consent.

**FSHN 460 Food Processing Operations (3)** (2 Lec, 1 2-hr discussion) Principles and applications of food dehydration, thermal processing, low temperature preservation, chemical and biochemical preservation, irradiation, packaging, manufacturing, plant sanitation, water and waste management. Pre: 403, 430, PHYS 151/151L; or consent.

**FSHN 467 Medical Nutrition Therapy I (V)** Development of dietary, anthropometric and clinical lab assessment skills measuring nutritional status. Understanding pathophysiology of disease processes, medical terminology and nutritional intervention, utilizing case studies. Pre: 486 or consent. **DB**

**FSHN 468 Medical Nutrition Therapy II (3)** Understanding of the pathophysiology of disease processes and nutritional intervention, using medical terminology and case studies. Pre: 467 or consent. **DB**

**FSHN 469 Nutrition Counseling Skills (2)** Theory and practice in nutritional counseling. Combined lecture and discussion on nutrition/dietary counseling. Knowledge and theories. Application through lab experiences including role playing, case presentations, and performing actual counseling sessions. A-F only. Pre: 467 (or concurrent) or consent.

**FSHN 475 Applied Human Nutrition (3)** Application of basic nutrition principles; includes sources and functions of essential nutrients and food patterns compatible with nutrient needs, health, disease prevention, and sustainability. Intended for undergraduate and graduate students. Pre: CHEM 151 (or higher) or BIOC 241 (or higher); PHYL 141, BIOL 171; or consent. **DB**

**FSHN 476 Cultural Aspects of Food Habits (3)** Study of eating from behavioral perspectives. Implications for health practitioners and health education. Pre: two classes from ANTH 151 or higher or SOC 100 or higher or PSY 100 or higher.

**FSHN 477 Food Analysis (2)** Principles of sample preparation and chemical and physical analysis of food components using current methodology. Pre: 430; and CHEM 162 or higher; and BIOL 402 or MBBE 402 or PEPS 402.

**FSHN 477L Food Analysis Lab (2)** (2 3-hr Lab) Application of different chemical and physical methods for the identification and quantitation of food components. Co-requisite: 477. **DY**

**FSHN 480 Nutrition in Exercise and Sport (3)** Effects of physiologic demands of exercise on nutrition. Emphasis on physiologic and biochemical basis for nutrition recommendations to enhance exercise participation and optimize athletic performance. Pre: 185 or consent. (Cross-listed as KRS 480) **DB**

**FSHN 485 Nutritional Biochemistry I (3)** Metabolism and biochemistry of carbohydrates, lipids, and proteins, including chemical structure, digestion, absorption, transport, cellular/molecular functions in human nutrition; integration of metabolic pathways; energy metabolism and balance, including relevance to chronic disease. Repeatable one time. Pre: PHYL 142/142L or PHYL 302/302L; BIOC 341 or higher or MBBE 375 or MBBE 402. **DB**

**FSHN 486 Nutritional Biochemistry II (3)** Metabolism and biochemistry of vitamins, minerals, and dietary fiber, including chemical structure, digestion, absorption, transport, and cellular/molecular functions in human nutrition; relevance to establishing nutrient requirements and to mechanisms of chronic disease. Repeatable one time. Pre: 485 or consent. **DB**

**FSHN 488 Obesity, Science, and Issues (2)** In-depth study of obesity, including research, etiology, treatment, and prevention. Pre: 480 and 486.

**FSHN 491 Topics in Food Science and Human Nutrition (V)** Study and discussion of significant topics, problems, or laboratory experiments. Repeatable unlimited times. Pre: instructor approval.

**FSHN 492 Field Experience (4)** Integration and application of academic knowledge and critical skills emphasizing professional development. Placement with an approved cooperating supervisor/employer. A-F only. Pre: senior standing in FSHN. (Cross-listed as ANSC 492)

**FSHN 494 Food Science Capstone (3)** Field practicum designed to integrate knowledge from previous FSHN courses to develop novel and innovative food products. Students deal with shelflife, marketing, packaging, labeling, sensory evaluation, and quality assurance. Repeatable one time. FSHN majors only. A-F only. Pre: 381 and 460, or consent.

**FSHN 499 Directed Reading and Research (V)** Repeatable unlimited times.

**FSHN 500 Master's Plan B/C Studies (1)**

**FSHN 601 The Science of Food Systems (2)** (1 50-min Lec, 1 2-hr discussion) Discussion of food systems as they apply to animal science, food science, and human nutrition. Repeatable one time. Pre: graduate standing or consent. (Cross-listed as ANSC 601)

**FSHN 607 Advanced Food Science I (3)** Advanced topics in chemical and physical characteristics of foods as well as their role in human nutrition. Repeatable one time. A-F only. Pre: graduate student status with undergraduate courses in organic chemistry, microbiology, additional biological sci-

ence, physics, and biochemistry. Basic knowledge of food science is expected; or consent. (Cross-listed as MBBE 607)

**FSHN 608 Advanced Food Science II (3)** Advances in sensory quality and evaluation, deterioration of foods and food safety, as well as food processing technology. Repeatable one time. A-F only. Pre: graduate student status with undergraduate courses in organic chemistry, microbiology, additional biological sciences, physics, and biochemistry. Basic knowledge of food science is expected; or consent.

**FSHN 609 Advanced Food Safety (3)** Real and perceived food hazards, their ethical issues and implications, advanced emerging topics in food safety, and controls, including laws and regulations of food safety issues and public perception of food safety will be discussed. A-F only. Pre: graduate student status with undergraduate courses in biochemistry, microbiology, food processing, physics and organic chemistry. Basic food science knowledge is required; or consent.

**FSHN 633 International Nutrition (3)** Analysis of major nutrition problems in developing countries. Comparative review of the design, implementation, and evaluation of programs to intervene in the development of malnutrition. Pre: 185 or consent.

**FSHN 650 DNA and Genetic Analysis (2)** Combined lecture-lab for students interested in genetic analysis of humans, animals, and other species. Molecular techniques, such as PCR, DNA marker identifications, transgenics, expression analysis and functional genomics, are included. Open to nonmajors. Pre: graduate standing or consent. (Cross-listed as ANSC 650 and MBBE 650)

**FSHN 652 Information Research Skills (1)** Examines the use of libraries and information technology for scholarly investigation in support of scientific research; provides experience utilizing and critically evaluating a variety of print and electronic sources in basic and applied sciences. Pre: consent. (Cross-listed as ANSC 652, NREM 652, and TPSS 652)

**FSHN 657 Grant Writing for Graduate Students (1)** Combined lecture/discussion on grants and grant writing. Designed to introduce graduate students to grants and grant proposal writing through lectures, class discussion, writing assignments, and peer review. Open to CTAHR graduate students only; others with consent. (Cross-listed as ANSC 657 and TPSS 657)

**FSHN 668 Advanced Topics in Clinical Nutrition (2)** Advanced topics in nutrition assessment, diagnosis, and interventions of patients with specialized clinical conditions. Students will further their knowledge in clinical research methods through case study presentations and evidence-based review. Repeatable one time. Pre: 389 and 467; or instructor consent.

**FSHN 681 Seminar in Food and Nutritional Sciences (1)** Student presentation of literature reviews and research. Repeatable five times. Pre: consent.

**FSHN 682 Topics in Nutritional Sciences (1)** Advanced topics in nutritional sciences, from basic to applied research, including current issues in nutrition and critical analysis of current research literature. Repeatable four times. Pre: consent.

**FSHN 683 Global Nutrition (2)** Examination of global food and nutrition problems, programs, issues, policies, and strategies for improvement. Pre: statistics and consent. (Alt. years: fall) (Cross-listed as PH 683)

**FSHN 685 Nutrition and Disease: Cellular and Molecular Aspects (3)** In-depth lecture, discussion, and student presentations on selected topics relating nutrition to the etiology and prevention of chronic diseases at the cellular and molecular level. Repeatable one time. Pre: 485 and 486; statistics; or consent.

**FSHN 687 Advanced Lab Techniques (3)** (1 Lec, 2 3-hr Lab) Advanced laboratory techniques used in food science and human nutrition research. Pre: graduate standing or consent. (Cross-listed as ANSC 687 and MBBE 687)

**FSHN 689 Nutritional Epidemiology (3)** Dietary, biochemical, anthropometric and clinical methods used for evaluating nutrition and diet in the etiology and epidemiology of disease. Pre: 685 and PH 663, or consent. (Cross-listed as PH 689)

**FSHN 695 Plan B Master's Project (3)** Independent study for students working on a Plan B Master's project. A grade of Satisfactory (S) is assigned when the project is satisfactorily completed. A-F only. Pre: graduate standing in nutritional sciences.

**FSHN 699 Directed Reading and Research (V)** Repeatable unlimited times.

**FSHN 700 Thesis Research (V)** Repeatable unlimited times.

**FSHN 701 Topics in Food Science (1)** Advanced topics in food science and technology, from basic to applied research, including current issues in food science and technology and critical analysis of current research literature. Repeatable one time. A-F only. Pre: graduate standing or consent.

**FSHN 784 Dietary Fiber, Bioactive Food Components and Health (3)** Lecture/discussion of current research on gut physiology, gut microbes, dietary fiber, bioactive food components, and their impact on health, including colorectal cancer, inflammatory bowel disease, heart disease, diabetes, and immune function. Pre: 485 and 486 (or equivalent), statistics, physiology; or consent.

**FSHN 785 Diet and Cancer Seminar (1)** Presentation-discussion of selected research topics in the field of diet-cancer relationships including: nutritional epidemiology of cancer, diet and supplement intervention trials, and cellular/molecular effects of diet on cancer pathophysiology. Repeatable one time. Pre: 685 and 689, or consent.

**FSHN 800 Dissertation Research (V)** Research for doctoral dissertation in nutrition. Repeatable unlimited times. Graduate standing only. Satisfactory only. Pre: candidacy for PhD in Nutrition.

## French (FR)

*College of Languages, Linguistics and Literature*  
All courses are conducted in French.

**FR 101 Elementary French (3)** Conversation, grammar, and reading. **HSL**

**FR 102 Elementary French (3)** Conversation, grammar, and reading. Pre: 101 or consent. **HSL**

**FR 110 Immersion French-Elementary (6)** Content of 101-102 covered in one semester. Three two-hour sessions per week. **HSL**

**FR 201 Intermediate French (3)** Reading, conversation, laboratory drill, composition. Pre: 102 or 110 or consent. **HSL**

**FR 202 Intermediate French (3)** Continuation of 201. Pre: 201. **HSL**

**FR 210 Immersion French-Intermediate (6)** Content of 201-202 covered in one semester. Three two-hour sessions per week. Pre: 102 or 110 or consent. **HSL**

**FR 258 Intermediate French Abroad (3)** Intensive course of full-time formal instruction on the second-year level in French language and culture in a French-speaking country. Pre: 102 or 110 or consent. **HSL**

**FR 259 Intermediate French Abroad (3)** Continuation of 258. **HSL**

**FR 301 French Phonetics (3)** Analysis of phonological system; methods of teaching pronunciation; understanding various types of spontaneous speech. Drills in pronunciation, intonation, stress, and rhythm. Pre: 202 or 210 or 259 or consent. **DH**

**FR 302 Reading in French (3)** Development of language skills through reading of cultural and literary texts. Pre: 202 or 210 or 259 or consent.

**FR 306 Structure of French (3)** Structure of contemporary French as analyzed by descriptive linguists. Pre: 202 or 210 or 259 or consent. **DH**

**FR 309 Business French (3)** Reading and writing commercial materials. Pre: 202 or 210 or 259 or consent.

**FR 311 Conversation (3)** Systematic practice for control of spoken French. Further development of vocabulary for accurate, mature expression. Pre: 202 or 210 or 259 or consent.

**FR 312 Composition (3)** Emphasis on strengthening facility with language through further training in syntax, structure, and composition writing. Pre: 202 or 210 or 259 or consent.

**FR 321 Advanced Conversation (3)** Systematic and advanced practice for control of spoken French, advanced development for accurate, mature expression. Pre: 311 or consent.

**FR 331 Survey of French Literature (3)** Major authors and movements. Pre: 311 (or concurrent) and 312; only 311 may be concurrent. **DL**

**FR 332 Survey of French Literature (3)** Continuation of 331. Pre: 311 (or concurrent) and 312; only 311 may be concurrent. **DL**

**FR 358 Third-Level French Abroad (3)** Intensive formal instruction at the third-year level in French language skills: reading, writing, grammar, or conversation in a French-speaking country. Pre: 202 or 210 or 259 or consent.

**FR 359 Third-Level French Abroad (3)** Continuation of 358.

**FR 360 Intensive Third-Level French Abroad (V)** Intensive formal instruction at the third-year level in French language skills: reading, writing, grammar, or conversation in a French-speaking country. Pre: 202 or 210 or 259 or consent.

**FR 361 Contemporary French Civilization (3)** Survey of culture and institutions of modern France. Pre: 202 or 210 or 259 or consent. **DH**

**FR 364 Survey of French Civilization (3)** A historical survey of the development of French culture. The course is interdisciplinary, focusing on the relations between politics, literature, science, and the arts. Pre: 202 or 210 or 259 or consent. **DH**

**FR 391 (Alpha) Topics in French Literature (3)** (B) French film; (C) the Fantastic; (D) Francophone literature. Repeatable two times with consent. Pre: 311 or 312, or consent. **DL**

**FR 399 Directed Reading (V)** Independent study of approved reading with faculty supervision. Repeatable two times. A-F only. Pre: consent.

**FR 405 Advanced Oral and Written Expression (3)** Further development of listening, comprehension, speaking, and writing skills through viewing of French videotapes, reading French newspapers, frequent oral and written reports. Pre: 311 and 312, or 306, or 358, or 360; or consent.

**FR 406 French-English Translation (3)** Practice in techniques based on contrastive linguistics. Translation of texts from various fields from French into English and the reverse. Pre: 306 or 309, and 312; or consent.

**FR 408 Masterpieces of Medieval Literature (3)** Samplings from epic, novel, verse and prose, tale, lyric poetry, chronicle, theater, didactic literature. Elementary readings in original text in editions giving modern French translation. Pre: 331 or consent. **DL**

**FR 409 Advanced Language Study: French (3)** Advanced course in spoken and written French with intensive review of alternative grammatical structures and shades of meaning in the modern language. Graduates who have not taken prerequisites may request consent. Pre: 306 or 405 (or equivalent); or consent.

**FR 410 Masterpieces of 16th-Century Literature (3)** Samplings from all major writers of the period. Readings in original text in editions giving modern French equivalents for difficult words. Pre: 331 or consent. **DL**

**FR 411 Masterpieces of 17th-Century Literature (3)** Principal works of major dramatists: Corneille, Moliere, Racine. Principal movements and major

authors of non-dramatic prose and poetry. Pre: 331 or consent. **DL**

**FR 413 Masterpieces of 18th-Century Literature (3)** Pre: 332 or consent. **DL**

**FR 417 19th Century French Prose and Poetry (3)** Study of representative prose and poetry of the major trends of 19th century France: romanticism, realism, symbolism, aestheticism. Pre: 332 or consent. **DL**

**FR 421 20th-Century French Theater (3)** Major French playwrights and their works: Claudel, Giraudoux, Anouilh, Sartre, Camus, etc. Pre: 332 or consent. **DL**

**FR 423 20th Century French Prose and Poetry (3)** Study of representative prose and poetry of the major trends of 20th century France: modernism, surrealism, existentialism, postmodernism and multiculturalism. Pre: 332 or consent. **DL**

**FR 458 Fourth-Level French Abroad (3)** Intensive course of full-time formal instruction on the fourth-year level in French linguistics, civilization, culture, and literature in a French-speaking country. Pre: 359 or 360 or equivalent.

**FR 459 Fourth-Level French Abroad (3)** Continuation of 458.

**FR 460 Intensive Fourth-Level French Abroad (V)** Intensive course of formal instruction on the fourth-year level in French language, culture and literature in a French-speaking country. For semester programs only. Pre: 360 or equivalent.

**FR 491 (Alpha) Seminar in French Literature (3)** (B) French literature by period; (C) Francophone literature; (D) French film; (E) topic in French literature. Repeatable one time for different alphas. Pre: 331 (or concurrent) and 332 (or concurrent), or consent. **DL**

**FR 499 Directed Reading and Research (V)** Independent study of approved readings and research with faculty supervision. Repeatable two times. A-F only. Pre: consent.

**FR 506 French for Reading Proficiency (3)** Reading of scholarly and technical French for graduate students; open to undergraduates with consent of department chair. Not applicable to undergraduate language requirement. Repeatable two times with consent. CR/NC only.

**FR 601 Seminar in 20th-Century French Literature (3)** Authors and movements of modern period.

**FR 609 French Renaissance (3)** Poetry, theater, prose. Emphasis on Montaigne and Rabelais. Lectures, discussions, reports.

**FR 620 Masterpieces of the 17th Century (3)** Dramatic or prose works of the classical period.

**FR 651 Philosophic Currents in 18th Century (3)** Philosophic movements and their impact on the social, political, and literary life of the period and the modern era.

**FR 661 Advanced French-English Translation: Practice and Theory (3)** Advanced practice in translation into French and from French to English in various fields (literature, business, medicine, other), with reflection on choices. Readings in translation theory.

**FR 671 History of the French Language (3)** Origins and development of French language in its cultural context. Contrastive analysis.

**FR 672 Seminar in Medieval Literature (3)** Genesis and evolution of literary genres from the 12th to 15th centuries. Epic, romance, lyric poetry, prose, and drama. Repeatable two times with consent.

**FR 681 Seminar: The Novel in France (3)** Novels which have influenced movements or established techniques. Repeatable two times with consent.

**FR 690 The Theater in France (3)** Historical development; major dramatists who have influenced movements or established techniques. Pre: 6 credit hours at 400 level.

**FR 699 Directed Research (V)** Repeatable unlimited times. Pre: consent of department chair.

**FR 735 Seminar in French Literature (3)** Study of authors or a period. Repeatable two times with consent. Pre: consent of instructor and French graduate advisor.

## Geography (GEOG)

### College of Social Sciences

*Sophomore standing or higher or consent is required for all 300-level courses except as noted. Junior standing or higher or consent is required for all 400-level courses except as noted.*

**GEOG 101 The Natural Environment (3)** Introduction to physical geography including weather, climate, vegetation, soils, geology, and landforms. Environmental issues and natural hazards. **DP**

**GEOG 101L The Natural Environment Lab (1)** A survey of field and laboratory methods commonly used by physical geographers. Pre: 101 (or concurrent). **DY**

**GEOG 102 World Regional Geography (3)** World's major cultural regions; geographic aspects of contemporary economic, social, political conditions. **FBG**

**GEOG 104 Introduction to Geotechnology (3)** Cartographic representation and meaning in a digital age. Earth models, map projections, coordinate systems, scale, distance, and direction. Data types and transformations in graphic and digital representation. Manual, automated, and web-based map making and analysis.

**GEOG 151 Geography and Contemporary Society (3)** Elements of economic geography and resource management, population and urban geography; application to current problems of developed and underdeveloped worlds. **FGC**

**GEOG 300 Introduction to Climatology (3)** Elements and controls of climate. World patterns of insolation, temperature, evaporation, precipitation, atmospheric circulation. Climatic classifications. Pre: 101 or MET 101 or MET 200, or consent. **DP**

**GEOG 302 Global Environmental Issues (3)** Use and abuse of natural resources and humanity's progress toward developing a sustainable relationship with its supporting environment. A-F only. (Once a year)

**GEOG 303 General Geomorphology (3)** Introduction to geomorphological concepts, process mechanics, and relationships between forms and processes. Emphasis on various subdisciplines of geomorphology: coastal hillslopes, fluvial, aeolian, and glacial. Pre: 101 and 101L, or GG 101 and GG 101L. **DP**

**GEOG 305 Water and Society (3)** Interaction of people with water at household, community, regional, national, and international scales, from cultural, political, economic, and biophysical perspectives. Pre: sophomore standing or higher, or consent. **DS**

**GEOG 309 Introduction to Biogeography (3)** Introduction to ecosystem concept; environmental adaptations for energy and nutrient transfer; characteristics, dynamics, productivity, and distribution of principal vegetation communities. Human dominance. Pre: sophomore standing or higher, or consent. **DB**

**GEOG 310 Introduction to Planning (3)** Perspectives on planning; planning tools and methods; specific Hawai'i planning—research problems from a multidisciplinary approach. Pre: junior standing or consent. (Cross-listed as PLAN 310) **DS**

**GEOG 320 Economic Geography (3)** Examines how factors of production like land, labor and capital; economic activities like consumption, trade, production, and investments; and institutions like state, markets, and corporations alter economic space. A-F only. Pre: 102 or 151. (Fall only) **DS**

**GEOG 322 Globalization and Environment (3)** Debates on globalization and development, population and resources; root causes of environmental degradation; impacts of globalization on environmentalism and environmental change; social approaches to

managing environmental change. Pre: 102, 151, or consent. (Once a year) **DS**

**GEOG 324 Geography of Global Tourism (3)** Tourist landscape in relation to resources, spatial patterns of supply and demand, impacts of tourism development, and models of tourist space. Flows between major world regions. Pre: sophomore standing or higher, or consent. (Cross-listed as TIM 324) **DS**

**GEOG 325 World Resources and Economic Development (3)** The pattern of world economic development. Agricultural resources and industries. Mineral resources, energy and metal industries. Manufacturing industries in development. The network of world trade, regional associations, and international economic aid. **DS**

**GEOG 330 Culture and Environment (3)** Introduction to cultural geography, the cultural landscape, and perceptions of the environment across different cultures. Pre: 102 or 151, or consent. **DS**

**GEOG 335 Politics, Nations, and States (3)** Examines the political organization of space in the sovereign state system. Contemporary and historical analyses of boundaries, geopolitics, homelands, nations, nationalism, and territory. Pre: sophomore standing or higher, or consent. **DS**

**GEOG 340 Geography of North America (3)** Overview of the physical and cultural geography. Regions and characters. Patterns of population, natural resources, industry, agriculture, and transportation/communication networks. Pre: 101 or 102 or 151, or consent. **DS**

**GEOG 352 Geography of Japan (3)** Regional synthesis of physical and cultural features; economic, social, political geography; origins and development of cities. **DS**

**GEOG 353 Geography of China (3)** Topics: environmental parameters and resource base, ecological control and resource management, institutional and technological transformation of agriculture, industrial potential and industrial location, settlement patterns and rural urban symbiosis. **DS**

**GEOG 355 Geography of South Asia (3)** Introduction to physical and human geography of India, Bangladesh, Pakistan, Sri Lanka, Himalayan kingdoms. Environmental, economic, social, cultural, and political factors in development. **DS**

**GEOG 356 Geography of Southeast Asia (3)** Southeast Asia in world economy. Human and physical resources; returns achieved by various methods of land use. National economies; problems and prospects of modernization. **DS**

**GEOG 365 Geography of the Pacific (3)** Physical character of the Pacific; cultural, political, economic geography of Melanesia, Micronesia, Polynesia (except Hawai'i). **DS**

**GEOG 366 Geography of Honolulu (3)** Development of Honolulu and O'ahu from 1778. Evolution of function, land use, and social patterns. Contemporary planning and environmental issues arising from urban growth. **DS**

**GEOG 368 Geography of Hawai'i (3)** Regional, physical, cultural geography. Detailed study of people and resources. **DS**

**GEOG 370 Aerial Photo and Image Interpretation (3)** (2 Lec, 1 3-hr Lab) Introduction to the measurement, interpretation, analysis, and use of aerial photographs and digital imagery. Pre: 104, or consent.

**GEOG 375 Introduction to Cartography and Air Photo (3)** (2 Lec, 1 3-hr Lab) Principles of cartography: compilation and measurement from aerial photographs, alternate forms of data presentation, symbolism, design, and map projection.

**GEOG 376 Map Design and Production (3)** (3 2-hr Lab) Compilation, design and production of maps for presentations, research, and illustration using artists and mapping software. Pre: junior standing or higher, or consent.

**GEOG 380 Statistical Methods in Geography (3)** Quantitative statistical methods will be explored for

describing and interpreting geographic/environmental phenomena. Topics will include data display, measurement, sampling, spatial statistics, dimensional analysis, nonparametric and parametric models. Pre: 101 or 102 or 151 (or concurrent) or consent.

**GEOG 385 Research Methods in Human Geography (3)** Introduction to the methodologies and practice of research in human geography. Combines lectures, workshops, and assignments. Students will conduct and report upon their own research. Pre: 102 or 151, or consent. **DS**

**GEOG 387 GIS Data Visualization (3)** Display techniques for statistical and terrain data. Cartographic communication models, data models, algorithms and symbol conventions. Techniques for assessing map design. Pre: 380 or SOCS 225 or ECON 321, or consent. **DS**

**GEOG 388 Introduction to GIS (3)** Design, implementation, and use. Database construction and documentation. Techniques for spatial data manipulation and display. Evaluation of existing systems. Student research projects. Pre: 104 or consent.

**GEOG 399 Directed Reading (V)** Limited to senior majors with a minimum cumulative GPA of 2.7 or a minimum GPA of 3.0 in geography.

**GEOG 400 Vegetation and the Climate System (3)** Role of vegetation in the climate system; links to hydrology and biogeochemical cycling; vegetation and climate history; evolution of terrestrial ecosystems; effects of global warming. Pre: 101 or 300 or 401 or 402 or 405 or MET 101 or MET 200 or MET 302 or MET 303 or MET 310, or consent. **DP**

**GEOG 401 Climate Change (3)** Approaches to the study of past and future climate change. Pre: 101 or 300 or 401 or 402 or 405 or MET 101 or MET 200 or MET 302 or MET 303 or MET 310, or consent. **DP**

**GEOG 402 Agricultural Climatology (3)** Analyzing climatic data; relation to photosynthesis, phenological development, and crop yields. Crop-weather models as guides to improved land-use planning and agronomic practices. Pre: 101 or 300 or 400 or 401 or 405 or MET 101 or MET 200 or MET 302 or MET 303 or MET 310, or consent. **DP**

**GEOG 403 Fluvial Geomorphology (3)** Introduction to the single most important geomorphic agent shaping the terrestrial environment. Focus on fluvial process, fluvial dynamics, fluvial landforms, and sediment transport. Pre: 101/101L or 303 or GG 101/101L. **DP**

**GEOG 404 Atmospheric Pollution (3)** Examination of air quality problems from scientific and policy perspectives. Includes case studies that explore economic, political, technical, and legal aspects of pollution control. Pre: junior standing or higher, or consent. **DS**

**GEOG 405 Water in the Environment (3)** Water fluxes in the environment. Occurrence and movement of water; methods of quantification. Water balance of soil-plant system: precipitation, interception, infiltration, runoff, soil moisture, evapotranspiration, and groundwater recharge. Pre: 101 or 300 or 400 or 401 or 402 or MET 101 or MET 200 or MET 302 or MET 303 or MET 310, or consent. **DP**

**GEOG 408 Conservation and Evolutionary Biogeography (3)** Theories and techniques for the analysis of spatial microevolutionary patterns, taught from an interdisciplinary perspective. Examples and readings emphasize Hawai'i and the Pacific region. Pre: either 309, BIOL 265 or ZOOL 485, or consent. (Alt. years)

**GEOG 409 Cultural Biogeography (3)** Coevolution of human societies and plants over the last 10,000 years. Foraging, farming and urban societies economies; spread and modification of selected plants; issues of preservation of genetic resources and traditional plant knowledge. The form and function of gardens. A-F only. Pre: junior standing or higher, or consent. (Cross-listed as TPSS 409) **DS**

**GEOG 410 Human Role in Environmental Change (3)** Human impacts through time on vegetation, animals, landforms, soils, climate, and atmosphere. Special reference to Asian/Pacific region. Implications of long-term environmental change for human habitability. Pre: one of 101, BIOL 101, BIOL 123 and either 326 or BIOL 310; or consent. (Cross-listed as BIOL 410) **DB**

**GEOG 411 Past Global Change and the Human Era (3)** Study of past environments to understand present and future global change. Focus on terrestrial Quaternary environments and global processes. Pre: junior standing or higher, or consent. **DP**

**GEOG 412 Environmental Impact Assessment (3)** Introduction to analytical methods for identifying, measuring, and quantifying the impacts of changes or interventions in resource, human-environment, and other geographic systems. Pre: junior standing or higher, or consent. (Alt. years)

**GEOG 413 Resource Management (3)** (2 Lec, 1 3-hr Lab) Hands-on development of analytical models for application to problems of water resource, coastal fisheries, agroforestry, and/or land management. Focus on problems facing Hawai'i and the Pacific. Pre: junior standing or higher. **DS**

**GEOG 414 Building Community Resilience (3)** Intended to give you a good understanding of the natural forces behind the most common natural disasters, and the human actions that reduce or increase vulnerability to natural disasters. A-F only. Junior standing or higher. (Spring only) (Cross-listed as PLAN 414)

**GEOG 415 Nature-Based Tourism Management (3)** Principles of nature-based tourism, including a survey of impacts, objectives, planning, and management systems. Junior standing or higher. Pre: 324/TIM 324 or TIM 101. (Cross-listed as TIM 415) **DS**

**GEOG 421 Urban Geography (3)** Origins, functions, and internal structure of cities. Problems of urban settlement, growth, decay, adaptation, and planning in different cultural and historical settings. Dynamics of urban land use and role of policies and perceptions in shaping towns and cities. Pre: 102 or 151 or 330, or consent. (Cross-listed as PLAN 421) **DS**

**GEOG 422 Agriculture, Food and Society (3)** Examines historical and contemporary development of the global agro-food systems. The impacts of technological, political and economic changes to food security, environment and development. Open to nonmajors. Pre: junior standing or higher, or consent. **DS**

**GEOG 423 Human Dimensions of the Coastal Ocean (3)** The coastal ocean as an ecosystem of global significance where human influences concentrate. Application of science and social values to environmental problems of oceans. Open to nonmajors and graduate students. Pre: junior standing or higher, or consent. (Once a year)

**GEOG 424 Regional Analysis (3)** Spatial dynamics and environmental implications of urban and rural development. Concepts of regions, process of regional development, patterns of spatial interaction, and theoretical bases for development strategies; emphasis on Hawai'i. Pre: junior standing or higher, or consent. **DS**

**GEOG 425 The Geography of Film (3)** Landscapes of film. How movies work by conveying a sense of space and a sense of place. Genres and landscapes. Pre: junior standing or higher, or consent. **DH**

**GEOG 426 Environment, Resources and Society (3)** Human interaction with the environment. How market, property institution, and technological change affect the environment. Epistemological basis of environmental policies. Debates on controversial environmental issues. Pre: 102, 151, or consent. **DS**

**GEOG 435 Political Geography of Oceans (3)** The oceans' evolution and relation to problems of economic development, resources, seapower,

shipping, trade. Pre: junior standing or higher, or consent. **DS**

**GEOG 436 Geography of Peace and War (3)** Geographical factors underlying conflict in the world. Pre: sophomore standing or higher, or consent. **DS**

**GEOG 453 Geography of China's Modernization (3)** Applies geographic principles and approaches to explore the rapid transformation of the spatial structure of recent socioeconomic development in China. Emphasis given to resource management and environmental quality, which are important factors in sustainable development. Pre: 102 or 151, or consent. **DS**

**GEOG 468 (Alpha) Topics in Geography (3)** Selected topics in geography not offered in the regular geography curriculum. Pre: 101 or 102 or 151, or consent.

**GEOG 470 Remote Sensing (3)** (2 Lec, 1 3-hr Lab) Introduction to the principles of remote sensing and image processing skills. Topics include electromagnetic spectrum, sensors, aerial photo and satellite imagery interpretation, geometric and radiometric correction, digital image processing. Research project, lab. Pre: 370 or consent.

**GEOG 472 Field Mapping (3)** Techniques for field measurement and recording of cultural and physical data. Field sketching, Brunton surveying, plane table mapping, oblique photo compilation, topographic mapping, and representation of field data. Pre: junior standing or higher, or consent. **DS**

**GEOG 476 Advanced Cartography (3)** (3 2-hr Lab) Special topics: computer mapping, relief representation, map reproduction methods, use of color, analytic map interpretation, experimental cartography. Pre: consent.

**GEOG 489 Applied Geographical Information Systems (3)** (2 Lec, 1 2-hr lab) Application of GIS technologies to various problems or issues in social, natural, and environmental sciences. Research project, lab. Pre: 388 or consent. (Once a year)

**GEOG 490 Senior Thesis (3)** Preparation of research paper under individual faculty supervision. Recommended for admission to graduate program. Pre: senior GEOG major and consent.

**GEOG 492 Practicum in Geography (V)** Internship in applied geography under professional and faculty supervision. Field placement integrated with academic study. Repeatable up to six credit hours maximum. Pre: senior major and consent.

**GEOG 493 Capstone Undergraduate Seminar (3)** Current and historical geographic literature provides a background for local and global issues. Through discussion, written reviews, and research reports, the geographic perspective in modern life will be explored. Pre: senior GEOG major.

**GEOG 600 Seminar in Climatology (3)** Methods of determining energy budget and water balance; applications in agriculture, hydrology, climatic classifications. Theory of climatic change. Bibliography. Pre: 300 or 400 or 401 or 402 or 405 or MET 303 or MET 310 or MET 320; or consent.

**GEOG 618 Human Environment Systems (3)** Role and potential of systems science in analysis of human environment interaction, especially resource management. Framework and methodology for problem structuring; overview of techniques. Pre: graduate standing or advanced undergraduate standing with consent.

**GEOG 620 Theories and Policies of Development (3)** Will critically examine what constitutes progress, advancement, or betterment in this highly uneven world, where inter-regional, inter-class, inter-gender, and inter-gender differences in development are expanding. Graduate standing only. A-F only. (Fall only)

**GEOG 621 Coastal Planning and Management (3)** Theories and practice of coastal planning and management in the U.S. and abroad. Case studies of various aspects of coastal planning will be used to investigate topics such as coastal land conservation,

marine protected areas, coastal hazards and coastal aquaculture.

**GEOG 622 Environmental Impact Assessment (3)** Theory and practice of environmental impact assessment. Policy and planning frameworks supporting environmental assessment in the U.S. and abroad. Cumulative environmental effects and strategic environmental assessment. Pre: graduate standing. (Cross-listed as PLAN 622) **DS**

**GEOG 628 (Alpha) Resource Systems (3)** Resource development and use in a time perspective. Ecological and socioeconomic impacts, concepts, definitions, and methodology. (B) renewable; (C) nonrenewable. Pre: consent.

**GEOG 630 Urban and Regional Planning in Asia (3)** Key issues and policies in urban planning, rural-urban relations, rural regional planning, and frontier settlement in Asia and the Pacific. Repeatable one time. Pre: PLAN 600 or consent. (Cross-listed as PLAN 630)

**GEOG 637 Environment and Development (3)** Theories and practice of development; how changing development paradigms shape different ideas concerning the environment and the management of natural resources; emerging debates in development and environment in post-modern era. (Cross-listed as PLAN 637)

**GEOG 638 Asian Development and Urbanization (3)** Theories of globalization and sustainability in development, impacts of globalization and sustainability on development planning and policy formation, selected case studies of Asia-Pacific development. Pre: (ASAN 600 or PLAN 630) with a grade of B or above. (Cross-listed as ASAN 638 and PLAN 638)

**GEOG 639 Community-based Natural Resource Management (3)** Concepts and theories of community, resource access, and governance. Practical challenges to CBNRM in contemporary political economy. Pre: graduate standing. (Cross-listed as PLAN 639)

**GEOG 652 Contemporary Japan Seminar (3)** Selected physical and human features that represent economic, social, and political life of modern Japan. Repeatable with consent of instructor. Pre: consent. (Cross-listed as ASAN 652)

**GEOG 654 Seminar in Geography of Southeast Asia (3)** Repeatable with consent of instructor. Pre: consent.

**GEOG 665 Seminar in Geography of the Pacific (3)** Investigation of geographic problems of Melanesia, Micronesia, Polynesia. Repeatable with consent of instructor. Pre: consent.

**GEOG 680 Geospatial Analysis of Natural Resource Data (3)** The application of geostatistics to estimate spatial dependence to improve soil and regional sampling; provide insight into underlying soil, geographic, and geologic process, and to provide quantitative scaling up of point measurements to fields, regions, and watersheds. State-space modeling also will be included. A-F only. Pre: 388 or ZOOL 631; or consent. (Cross-listed as TPSS 680)

**GEOG 692 Faculty Seminar Series (1)** Graduate seminar required of all MA students and recommended for PhD students. Single credit course in which faculty present ongoing research in their fields. Pre: consent. Co-requisite: 695.

**GEOG 693 Technology and Natural Risks Methods of Analysis (3)** Survey of tools for evaluating risks to human health from technological and natural hazards. Historical and international context of methods. Pre: 455 or consent.

**GEOG 695 Concepts and Theories in Geography (3)** Concepts, theory, models. Geographic approaches to spatial and environmental problems. Required of entering graduate students unless waived by department. Pre: consent.

**GEOG 696 Research Design/Methods in Geography (3)** Elements of research design, practical field experience, exposure to research and ideologies, broad exposure to heritage and ethos of the discipline. Pre: 695.

**GEOG 699 Directed Research (V)** Repeatable unlimited times. CR/NC only. Pre: consent.

**GEOG 700 Thesis Research (V)** Repeatable unlimited times.

**GEOG 703 Geomorphology (3)** Current understanding of geomorphological concepts, processes, and the dynamic relationship between human landscape modification and system response. Pre: consent.

**GEOG 710 (Alpha) Special Topics (V)** Study and discussion of significant topics, problems. (B) regional and locational analysis; (C) geography, environment, and culture; (H) Multi-objective decision analysis. Repeatable two times. Pre: 455.

**GEOG 720 Critical Resource Geography (3)** Graduate seminar to provide geography students a roadmap through the important literature and research on political economic theories of population, natural, and critical resources. Graduate standing only. A-F only. (Fall only)

**GEOG 728 Seminar: Resource Management in Asia-Pacific (3)** Examination of resource management problems in Asia and the Pacific. Problems of resource use—agriculture, forestry, energy, minerals, ocean, air quality. Pre: graduate status.

**GEOG 735 Seminar: Political Geography (3)** Topics vary; may include borders, boundaries, geopolitics, homelands, identity politics, nations and nationalism, social categorization, the sovereign state system, territoriality. Repeatable one time. Pre: graduate standing or consent. (Once a year)

**GEOG 750 Research Seminar: Biogeography (3)**

**GEOG 752 Research Seminar: Resource Management (3)**

**GEOG 757 Research Seminar: Cultural Geography (3)**

**GEOG 758 Research Seminar: Conservation (3)**

**GEOG 761 Research Seminar: Cartography (3)**

**GEOG 762 Research Seminar: Remote Sensing (3)**

**GEOG 763 Research Seminar: Agricultural Geography (3)**

**GEOG 764 Research Seminar: Social Geography (3)**

**GEOG 766 Society and Space (3)** Advanced seminar on social production of space. Topics include spatial metaphor in social theory; western spatiality from the renaissance through the enlightenment, modernity and post modernity; and geography of the body, home, landscape, and nation. Pre: graduate standing or consent.

**GEOG 800 Dissertation Research (V)** Repeatable unlimited times.

## Geology and Geophysics (GG)

*School of Ocean and Earth Science and Technology*

**GG 101 Dynamic Earth (3)** The natural physical environment; the landscape; rocks and minerals, rivers and oceans; volcanism, earthquakes, and other processes inside the Earth; effects of human use of the Earth and its resources. Field trip. **DP**

**GG 101L Dynamic Earth Laboratory (1)** (1 3-hr Lab) Hands-on study of minerals, rocks, and topographic maps. Examine volcanism, hydrology, coastal processes and hazards, geologic time and earthquakes. Field trips to investigate landslides, beaches and O'ahu geology. A-F only. **DY**

**GG 102 Introduction to Global Change (3)** Prepares students to be informed rational consumers, able to weigh media messages regarding our Earth, and to act appropriately. Topics include global change, fossil fuel, greenhouse gases, global ice, extinctions, human nutrition and industrial agriculture. A-F only. (Spring only) **DP**

**GG 103 Geology of the Hawaiian Islands (3)** Hawaiian geology and geologic processes: origin of Hawaiian islands, volcanism, rocks and minerals,

landforms, stream and coastal processes, landslides, earthquakes and tsunamis, groundwater, geologic and environmental hazards. Field trip. **DP**

**GG 104 Volcanoes in the Sea (3)** Lecture with field trips covering the manner in which geological conditions, resources, and events have affected past and present circum-Pacific societies. Credit not given for both 103 and 104.

**GG 105 Voyage through the Solar System (3)** An illustrated voyage through the Solar System based on recent scientific results. The class highlights the origin, evolution, and current knowledge of the eight planets, their moons, asteroids, comets, and one star, the Sun. Field trip. (Cross-listed as ASTR 150) **DP**

**GG 106 Humans and the Environment (3)** Prepares students to make decisions such as where to build/buy a house, sustainable use of natural resources, and what environmental actions relevant to society and Earth's ecosystem are appropriate on a local and global scale. A-F only. **DP**

**GG 130 Geological Hazards (3)** Introductory covering the causes of, and effects from, earthquakes, tsunami, volcanic eruptions, landslides, rockfalls, and other natural geologic phenomena. Open to non-majors. Field trips. (Alt. years) **DP**

**GG 170 Physical Geology (4)** (3 Lec, 1 3-hr Lab) Structure, composition and evolution of Earth; processes responsible for formation, deformation and transformation of rocks; plate tectonics. Emphasis on quantitative methods, problem solving and critical thinking to geology. Laboratory and field trips required. **DP DY**

**GG 199 Introduction to Directed Research (V)** Lower division reading and research in any area of GG under the direction of a faculty member. Repeatable four times or up to six credits. CR/NC only.

**GG 200 Geological Inquiry (4)** (3 Lec, 1 3-hr Lab) Origin and age of the solar system and earth: interior of the earth; plate tectonics and records of biological evolution and past environments. Pre: 170, or 101 and 101L, or 103 and 101L; or consent. 101L may be taken concurrently. Consent required for all non-majors. **DP DY**

**GG 250 Scientific Programming (3)** (2 Lec, 1 3-hr Lab) Introduction to solving scientific problems by computer programming. Overview of the MatLab programming language and environment. Emphasis placed on good style, logical reasoning and applied mathematics. Pre: MATH 241 (or concurrent) or departmental approval.

**GG 300 Volcanology (3)** Volcanic eruptions and their consequences. Includes models for volcanic eruptions including explosive eruptions and lava flows, monitoring of active volcanoes, evaluation and impacts of volcanic hazards, and mitigation of volcanic risk. Field trips. Normally fall. GG major or consent. Pre: 200 or consent. **DP**

**GG 301 Mineralogy (4)** (3 Lec, 1 3-hr Lab) Crystallography, crystal chemistry, phase equilibria, and crystal structures. Also covers mineral optics and identification and includes an introduction to modern methods of mineralogy and crystallography. Pre: 200 and (CHEM 162/162L or CHEM 171/171L). or consent. **DP DY**

**GG 302 Igneous and Metamorphic Petrology (3)** (2 Lec, 1 3-hr Lab) Survey of composition, classification, and occurrence of igneous and metamorphic rocks. Hand-specimen identification and optical petrography of igneous and metamorphic rocks. Development of critical thinking and writing skills. Pre: 301 or consent. **DP**

**GG 303 Structural Geology (3)** (2 Lec, 1 3-hr Lab) Introduction to (a) the geometry, kinematics, and mechanics of crustal deformation, and (b) continuum mechanics in geology. Develops skills in three-dimensional thinking through geologic maps, cross sections, various projections, experiments, and vector analyses. Pre: 200, 250, MATH 241 or MATH 251A, and PHYS 151 or PHYS 170; or consent. **DP**

**GG 304 Physics of Earth and Planets (4)** (3 Lec, 1 3-hr Lab) Essentials of geophysics: formation of Solar System and Earth, gravity, seismology, heat flow, geomagnetism, isostasy, plate tectonics. Coursework involves application of basic physics to understanding Earth structure. Labs include field surveys and computer analyses. Pre: 250, 303, MATH 241, MATH 242, and PHYS 272; or consent. **DP DY**

**GG 305 Geological Field Methods (3)** Methods used in geological investigations in the field. Eight hours on Saturday in the field. Pre: 302, 303, and 309. **DP**

**GG 309 Sedimentology and Stratigraphy (4)** (3 Lec, 1 3-hr Lab) Principles of sedimentology, sedimentary petrology, geochemistry and stratigraphy. Description and discussion of modern and past processes and environments that form sedimentary rocks, properties of sedimentary rocks and interpretation of these properties and stratigraphic relationships in terms of Earth history. Repeatable one time. Pre: 200 and 301, or consent. (Spring only) **DP DY**

**GG 312 Geomathematics (3)** Mathematical methods of geologic and geophysical science. Emphasis on application to earth-science problems using linear algebra, vector calculus, ordinary differential equations, and numerical solutions. Pre: MATH 242 or consent. (Cross-listed as OCN 312)

**GG 325 Geochemistry (3)** Theory and applications of chemical principles and chemical analysis to Earth, ocean and environmental sciences; chemistry of hydrosphere-geosphere-biosphere system, origin/differentiation of Earth/Solar system, volcanic processes, natural radioactivity, organic/inorganic chemistry. Pre: 200, 250, MATH 241 or MATH 251A, CHEM 162 (or concurrent); or consent. (Fall only) **DP**

**GG 395 Undergraduate Internship (V)** Experiential approach to earth science; students serve as interns to field professionals; responsibilities include supervised field work. Open to undergraduate SOEST majors. Repeatable one time. CR/NC only. Pre: junior/senior standing and consent. (Fall only)

**GG 399 Directed Reading (V)** Individual reading in geology and geophysics. Pre: consent.

**GG 402 Hawaiian Geology (3)** Consists of lectures, discussions, and field trips about the geology of the Hawaiian islands. Focus on geological processes and the geologic history of all islands will be covered. Pre: 302 and 303; or consent. **DP**

**GG 406 Natural Disasters: Geoethics and the Laysan (3)** Evaluates ethical practice of geoscience as it relates to studies of natural disasters that result from geological and meteorological phenomena and the means that earth scientists interact with the laymen. Pre: 101, 103, 104, or 170. (Once a year)

**GG 407 Energy and Mineral Resources (3)** Lecture and discussion on the origin, distribution and exploitation of fossil fuels, renewable energy resources and ore deposits. Coverage and detail will depend partly on student interest and background. Pre: consent. **DP**

**GG 410 Undergraduate Seminar (2)** Gain professional training, practical experience, and evaluate peers on giving scientific presentations emphasizing topics in geology, geophysics, and planetary science. 60% of the grade is based on the equivalent of three oral communication assignments. Pre: 170 (or 101 and 101L, or 103, and 101L) and 200.

**GG 413 Geological Data Analysis I (3)** Exploratory data analysis, error propagation, probability theory and statistics, curve fitting, regression, sequence and spectral analysis, multivariate analysis, and analysis of directional data. Pre: 250 and MATH 242 (or concurrent) or consent.

**GG 420 Coastal Geology (3)** Recent records and physical processes of global and local environmental change; dating techniques; late Pleistocene and Holocene climate change, sea-level movements, and ice volume. Repeatable one time. Pre: 309 or consent. **DP**

**GG 421 Geologic Record of Climate Change (3)** Explores the climatic responses of Earth's major systems and subsystems (ice, water, vegetation, land) and traces their interactions through geologic history. Open to nonmajors. A-F only. Pre: 200 or MET 310, OCN 310, OEST 310; or consent. **DP**

**GG 423 Marine Geology (3)** Sediments, structure, geophysics, geochemistry, history of ocean basins and margins. Pre: 200 and 302 or consent. (Cross-listed as OCN 423) **DP**

**GG 425 Environmental Geochemistry (3)** Theory and applications of geochemistry to contaminant/pollutant distribution in the hydrosphere-geosphere-biosphere system. Topics include aqueous geochemistry, thermodynamics, kinetics, organic and isotope chemistry of environmental contaminants. Pre: 325 or consent. (Fall only) **DP**

**GG 444 Plate Tectonics (3)** (2 Lec, 1 3-hr Lab) Quantitative geometrical analysis techniques of plate tectonics theory; instantaneous and finite rotation poles; triple-junction analysis; plate boundary stresses. Pre: 200 or consent. (Alt. years) (Cross-listed as OCN 444)

**GG 450 Geophysical Methods (4)** Combined lecture/lab covering basic geophysical theories, exploration, and interpretation. Seismic reflection and refraction, gravity, and electromagnetics. Constraints on models of Earth's internal structure and composition. Pre: 250, 303, MATH 241, MATH 242, and PHYS 272; or consent. **DP DY**

**GG 451 Earthquakes (3)** Earthquake seismology. Elastic properties of rocks, earthquake waves, causes, detection, location, and prediction of earthquakes; tsunami generation and other effects of earthquakes. Pre: 304 or consent. (Alt. years) **DP**

**GG 455 Hydrogeology (4)** (3 Lec, 1 3-hr Lab) Occurrence, characteristics, movement, quality, development, and contamination of water in the Earth's crust. Pre: MATH 242 or MATH 252A, or consent. **DP**

**GG 460 Geological Remote Sensing (4)** (3 Lec, 1 3-hr Lab) Combined lecture-lab on the concepts behind, geologic uses for, and techniques of satellite and airborne remote sensing. Lab work will consist of computer image processing. Field trips. Open to nonmajors. Pre: 200 or consent. (Spring only) **DP**

**GG 461 Geospatial Information (3)** Combined lecture/lab covering the collection, analysis and use of geospatially registered field data. Pre: 200 (or equivalent). (Alt. years)

**GG 466 Planetary Geology (3)** Comparative geology of the terrestrial planets (moon, Mars, Mercury, Venus, and Earth); impact cratering, volcanism, tectonism, geomorphology, weathering; manned and unmanned space exploration. Pre: any 100-level GG course. **DP**

**GG 499 Undergraduate Thesis (3)** Directed research in which the student carries out a scientific project of small to moderate scope with one or more chosen advisors. The student must complete a document in the style of a scientific journal article. Pre: consent.

**GG 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**GG 593 Earth and Planetary Sciences Workshops (V)** Designed for in-service school professionals to learn new approaches and concepts in the fields of earth and planetary sciences. Repeatable for credit. Credits earned in these courses cannot be applied for graduate degrees.

**GG 600 Equations of Geophysics (3)** Least-square approximation of functions by orthogonal series; potential, wave heat flow equations; boundary value problems; Bessel Hankel functions, spherical harmonics, potential theory, plane waves, spherical waves; emphasis on geophysics application. Pre: MATH 244 or MATH 253A, PHYS 400, or consent.

**GG 601 Explosive Volcanism (3)** Explosive volcanic eruptions: from causes to consequences. Review of current physical volcanology including ascent and fragmentation of magma, transport and deposition processes in pyroclastic eruptions, volcanic crisis management and volcanic eruption scenarios. Seven-day field trip. A-F only. Pre: 300 or consent.

**GG 602 Theoretical Petrology (3)** Derivation of phase diagrams from basic thermodynamics principles. Equilibria of natural silicate systems. Crystal chemistry, kinetics, diffusion, etc.. Applied to igneous and metamorphic petrology. Pre: 302, 325, and CHEM 351 (or concurrent); or consent. (Alt. years)

**GG 603 Petrology of Ocean Lithosphere (3)** (2 Lec, 1 3-hr Lab) Petrogenesis of the oceanic lithosphere, including mantle processes and rocks from mid-ocean ridges, seamounts, oceanic hotspots, back-arc basins, and intra-oceanic arcs. Pre: 302 or consent. (Alt. years)

**GG 604 Disaster Management: Understanding the Nature of Hazards (3)** Combined lecture/discussion in disaster management focusing on the scientific understanding of the forces and processes underlying natural hazards; and human attempts to respond to these through mitigation and planning activities. Pre: PLAN 670 or consent. (Once a year) (Cross-listed as PLAN 671)

**GG 605 Lava Flow Rheology and Morphology (3)** Effusion eruptions: from eruption to final flow form. Includes: rheology, effusion rate, heat loss, and field measurements, followed by inflation, flow forms, lava lakes, domes, flow hazard and modeling. Field trips to Kilauea and Makapuu. A-F only. Pre: 300 or consent. (Alt. years)

**GG 606 Current Events in Volcanology (1)** Discussion of active areas of volcanism and new publications on volcanology. Repeatable four times. Pre: 300 (or concurrent) or consent.

**GG 607 Submarine Volcanoes (3)** Seminar exploring different aspects of submarine effusive and explosive volcanism, hydrothermal activity, and volcano-hosted ecosystems. Repeatable one time. A-F only. Pre: 300 or consent. (Alt. years: fall)

**GG 608 Isotopes and Trace Elements (3)** Principles of radiogenic and stable isotope, and trace element geochemistry as applied to igneous petrology, mantle dynamics, plate tectonics, and terrestrial evolution. Pre: 302 and 325. (Alt. years)

**GG 609 Graduate Teaching Geology (V)** For GG graduate students who lead, under faculty supervision, a scheduled class in Geology and Geophysics. The instructor will define the student's responsibilities when offering GG 609, and these responsibilities must be met for a passing grade. As the consent to take the class must also be granted by the department chair, the chair will also review the responsibilities required by the instructor. GG graduate students only. CR/NC only. Pre: consent of instructor and department chair.

**GG 610 Graduate Seminar (1)** Seminar in which students present a 15- to 20-minute talk on their research or a related topic. Meets once a week with two to three talks per meeting. Graduate students are required to register for this course once per year. Repeatable eight times.

**GG 611 Accelerated Introduction to Geology I (3)** Lecture presenting a rapid-paced survey of geology and geophysics for graduate students. Includes origin of the Solar System, tectonics, volcanology, whole-earth composition, phase transformations, petrology (igneous, metamorphic, and sedimentary), historical geology, and hydrology. Saturday field trips. (Fall only)

**GG 612 Accelerated Introduction to Geology II (3)** Lecture presenting a rapid-paced survey of geology and geophysics for graduate students. Includes Earth structure, rheology, seismology, dynamics, origin of continents, global change, energy sources, environmental geology, and natural hazards. Saturday field trips. (Spring only)

**GG 614 Advanced Field Study (V)** Shipboard and land-based projects. Repeatable eight times. Pre: consent.

**GG 616 How to Write a Scientific Paper (3)** Designed for students who have collected data and want to know how to publish their work in a scientific journal. Covers the essential parts of paper preparation and submission. GG students only. A-F only. Pre: consent. (Alt. years: fall)

**GG 621 Electron Microprobe Analysis (2)** Combined lecture-lab on the principles of geochemical analysis by electron microprobe and X-ray fluorescence. Hands-on experience with the electron microprobe. Required to operate the UH electron microprobe. Pre: 301 or consent.

**GG 625 Seminar in Marine Geology and Geophysics (V)** Current research topics. Repeatable eight times. Pre: 423 or OCN 622, or consent.

**GG 630 Numerical Modeling of Physical Systems (3)** Finite difference, finite element, and other modeling techniques applied to geological and geophysical problems. Physical modeling of heat flow, molecular diffusion, solidification and melting, deformation, fluid flow, wave propagation, and other phenomena. Repeatable one time. A-F only. (Once a year)

**GG 638 Earth System Science and Global Change (3)** Global view of the planet and how it functions as an integrated unit. Biogeochemical processes, dynamics, and cycles, and analysis of natural and human-induced environmental change. Chemical history of ocean-atmospheric-sediment system and co-evolution of the biota. Repeatable one time. Pre: BS in environmentally related science or one year of chemistry, physics, and calculus; or consent. (Cross-listed as OCN 638)

**GG 639 Stable Isotope Biogeochemistry (3)** Stable isotope geochemistry applied to questions of biogeochemical cycling in the oceans, sediment diagenesis, paleoceanography, environmental geochemistry and ecology. Pre: 325 or consent. (Alt. years)

**GG 640 Coastal Geochemistry (3)** Geochemistry at the land-ocean interface: coastal hydrology, subterranean estuaries and coastal mixing and their importance in governing the distribution of selected radiotracers, trace metals and nutrients. Combined lecture-lab with field trips and group projects. Pre: CHEM 162, and MATH 241 or MATH 251A; or consent. (Alt. years)

**GG 641 Origin of Sedimentary Rocks (3)** (2 Lec, 1 3-hr Lab) Environment of deposition and subsequent diagenesis of modern and ancient sediments. Petrogenesis of siliciclastic, carbonate and orthochemical rocks. Sedimentology, sedimentary petrography and geochemistry. Repeatable one time. Pre: consent. (Alt. years) (Cross-listed as OCN 641)

**GG 642 Elemental Composition Changes (2)** Changes in the chemical composition of meteorites, bulk Earth, Earth's mantle and crust, sedimentary rocks, hydrosphere and biosphere, and underlying principles. Pre: consent. (Alt. years) (Cross-listed as OCN 642)

**GG 644 Sedimentary Geochemistry (3)** Geochemical thermodynamics and kinetics and their use in interpreting the origin of sediments, sedimentary rocks, and natural waters over a range of pressure-temperature conditions. Pre: CHEM 171, or CHEM 161 and CHEM 162; PHYS 152; and MATH 242 or MATH 252A; and consent. (Alt. years) (Cross-listed as OCN 644)

**GG 650 Seismology (3)** Elasticity, wave equations, body waves, surface waves, free oscillations, seismometry, seismogram interpretation, tectonics, inversion, source theory, and waveform modeling. Pre: 600 or consent.

**GG 651 Geomagnetism and Cosmic Magnetism (3)** Magnetic fields of Earth, planets, stars, and galaxies; dynamo theories; paleomagnetism; terrestrial and lunar rock magnetism; planetary, regional, and local geomagnetic sounding. Pre: consent. (Alt. years)

**GG 652 Gravity, Magnetism, Heat Flow (3)** Uses of selected potential field and electromagnetic methods in tectonics or in exploration. Processing and interpretation techniques; modeling and inversion. Pre: consent. (Alt. years)

**GG 655 Groundwater Modeling (3)** Introduction to the finite-difference method; steady-state and transient groundwater flow in saturated and unsaturated media; applications to groundwater recharge and aquifer evaluation. A-F only. Pre: CEE 627 or consent. (Fall only) (Cross-listed as CEE 623)

**GG 657 Astrochemistry—A Molecular Approach (3)** Formation of astrobiochemically important molecules and their precursors in the interstellar medium and in our solar system: first principles and latest trends. Pre: consent. (Fall only) (Cross-listed as ASTR 657 and CHEM 657)

**GG 660 Introduction to the Solar System and Planetary Processes (3)** Geology and geophysics of solar system bodies (terrestrial planets, satellites, asteroids, comets) and the processes that made and modified them (nebular chemistry, planetary accretion, impact cratering, volcanism, tectonism, geomorphology, weathering). Pre: graduate students only. (Alt. years)

**GG 666 Planetary Surfaces (3)** Comparative geology of terrestrial planets (moon, Mars, Mercury, Venus, and Earth); impact cratering, volcanism, geomorphology; remote sensing; manned and unmanned space exploration. Pre: 601, ASTR 630; or consent. (Alt. years)

**GG 669 Cosmochemistry (3)** Formation and evolution of planets as astrophysical objects, geologic bodies, and abodes of life; current understanding from studies of the Solar System, star formation, meteorites, exoplanets; theory of formation and dynamics; atmospheres, oceans, habitability, biosignatures. Pre: 325 or CHEM 351 (or equivalent); or consent. (Alt. years)

**GG 670 (Alpha) Geology of Planetary Bodies (3)** Composition and geologic evolution of the planets and their moons; impact cratering; volcanism; tectonism; remote sensing; manned and unmanned exploration and future missions. (B) the moon; (C) Mars. Pre: 666 or consent.

**GG 671 (Alpha) Remote Sensing (3)** Spectroscopic, radar, thermal, and other methods for remote sensing applied to geologic problems; instrumental design and data analysis. (B) planets; (C) volcanoes. Pre: 666 or consent.

**GG 672 Seminar in Tectonics (3)** Evolution of ocean basins, margins, foldbelts, and platforms, from plate tectonics and regional syntheses of structure, petrology, geophysics, and stratigraphy. Repeatable eight times. (Alt. years)

**GG 673 (Alpha) Extraterrestrial Material (3)** Mineralogical and compositional characteristics of extraterrestrial matter and the implications for the origin and history of the solar system. The subject is treated in two full-semester courses: (B) meteorites; (C) petrology of the Moon and Mars. Pre: consent.

**GG 674 Paleoclimatology (3)** Study of the paleoclimatographic and paleoclimate evolution of the Earth's oceans, atmosphere and biosphere. Repeatable one time. Pre: consent. (Alt. years) (Cross-listed as OCN 674)

**GG 675 The Generic Mapping Tools (3)** Introduction to the Generic Mapping Tools (GMT). Processing of scientific data and the automated preparation of maps and illustrations using GMT on UNIX workstations, with introduction to UNIX and the C shell environment.

**GG 681 Continuum Mechanics (3)** Continuum mechanics in geophysics, planetary physics, and structural geology. Tensors; stress, strain, flow; conservation of mass, momentum, and energy; rheology; geophysical fluid dynamics. Pre: PHYS 400, MATH 402, or consent.

**GG 691 Geological Data Analysis II (3)** Time- and frequency analysis, filtering, factor and cluster

analysis, interpolation, quantitative map analysis, and introduction to wavelets and fractals. Pre: 413 or consent.

**GG 695 Geophysical Inverse Theory (3)** Linear and nonlinear techniques for parameter estimation and forecasting, including least squares and MCMC. Models for signal and noise. Resolution, error, constraints, prior and posterior information. Use of information criteria for model selection. Pre: 600 or 691. (Alt. years)

**GG 699 Directed Research (V)** Repeatable unlimited times. CR/NC only. Pre: consent.

**GG 700 Thesis Research (V)** Repeatable unlimited times.

**GG 701 Physics of the Earth's Interior (3)** Interpretation of geophysical and laboratory data to understand elastic and anelastic properties, composition, phase relationships, temperature distribution in the Earth. Pre: consent. (Alt. years)

**GG 703 Fractures and Faults (3)** Lecture on elasticity theory, fracture mechanics and boundary element modeling, with application to faults and fractures in the Earth. Pre: consent.

**GG 710 Selected Topics in Geology and Geophysics (2)** Content to be announced. Repeatable eight times. Pre: consent.

**GG 711 Special Topics in Geology and Geophysics (3)** Content to be announced. Repeatable eight times. Pre: consent.

**GG 800 Dissertation Research (V)** Repeatable unlimited times.

## Geriatric Medicine (GERI)

### School of Medicine

**GERI 541 Geriatric and Palliative Care (V)** This four-week rotation provides medical students with an overview of geriatric and palliative medicine in outpatient, inpatient, home care and nursing home settings. Students will receive one half-day per week of geriatric medicine didactic seminars and one half-day per week of palliative medicine didactic sessions. The clinical placements will be provided at several teaching sites including Kuakini Medical Center, Queen's Medical Center, the VA, several nursing homes on O'ahu, Kaiser Permanente, Hospice Hawai'i, St. Francis Hospice, Kapiolani Hospital, Straub Hospital, and the Pain & Symptom Management Program at Queen's Medical Center. CR/NC only.

**GERI 542 Geriatric Medicine Research (V)** Medical students will have the opportunity to complete a research project in the field of epidemiology of aging, and present an abstract at a local meeting. Basic principles of epidemiology and statistics will be taught. Repeatable one time. CR/NC only. Pre: departmental approval.

**GERI 545 Geriatric and Palliative Medicine Elective (6)** Four-week elective provides medical students with an overview of geriatric and palliative medicine in outpatient, inpatient, home care and nursing home settings. Students receive one half-day per week of geriatric medicine didactic seminars and one half-day per week of palliative medicine didactic sessions. CR/NC only.

**GERI 595 Medical Student Training in Aging Program (2)** Introduces medical students to clinical, research, and academic experiences in geriatrics, under the mentorship of faculty members. MD majors only. CR/NC only. Pre: MDED 554 or consent. (Fall only)

## German (GER)

### College of Languages, Linguistics and Literature

All courses are conducted in German. A grade of C- or better in the prerequisite courses is required for continuation.

**GER 101 Elementary German (3)** Conversation, grammar and reading. HSL

**GER 102 Elementary German (3)** Conversation, grammar and reading. Pre: 101. HSL

**GER 110 Intensive Elementary German (6)**

Combined content of 101 and 102 covered in one intensive course. (Summer only) **HSL**

**GER 201 Intermediate German (3)** Conversation, grammar, reading and writing. Pre: 102. **HSL**

**GER 202 Intermediate German (3)** Conversation, grammar, reading and writing. Pre: 201. **HSL**

**GER 260 Intensive Intermediate German Abroad (V)** Intensive course of formal instruction on the second-year level in German language and culture in Germany. Pre: 102. **HSL**

**GER 301 Phonetics and Pronunciation Practice (3)** Analysis of the German phonological system and practice in pronunciation. Pre: 202.

**GER 303 Reading and Writing (3)** Further development of reading and writing skills through the study of modern short stories by major German language authors. Pre: 202. **DL**

**GER 304 Business German (3)** Advanced German conversation, reading, and writing with a special emphasis on the vocabulary and cultural context of the German business world. Pre: 202 or consent.

**GER 305 Contemporary Topics in Media (3)** Development of listening and speaking, reading and writing skills through analysis and discussion of media: newspaper articles, radio, and television programs and online sources. Pre: 202 or consent.

**GER 306 Conversation and Composition (3)** Intensive practice in listening, speaking, reading, and writing with selected grammar review. Pre: 202 or consent.

**GER 307 German for Reading I (3)** Development of reading skills through the study of short scholarly, technical, and literary texts. Pre: 202 or consent.

**GER 308 German for Reading II (3)** Further development of reading skills through the study of short scholarly, technical, and literary texts. Pre: 202 or consent.

**GER 312 Introduction to German Literature 1750-1914: (3)** Reading and discussion of representative works of German literature from 1750 to 1914. Pre: 303 or consent. **DL**

**GER 313 Introduction to German Literature 1914-Present (3)** Reading and discussion of representative works of German literature from 1914 to present. Pre: 303 or consent. **DL**

**GER 320 History of German Cinema (3)** Study of German film history, film analysis, film theory, and film study. Lecture/discussion. A-F only. Pre: 303 or 306. **DH**

**GER 360 Intensive Third-Level German Abroad (V)** Intensive course of formal instruction on the third-year level in German language and culture in Germany. Pre: 202 or 260.

**GER 361 Germanic Civilization to World War II (3)** German cultural heritage and history in Germany, Austria, and Switzerland until World War II. Pre: 202 or consent. **DH**

**GER 362 Modern German Culture (3)** Modern culture in post-World War II Germany, Austria, and Switzerland. Pre: 202 or consent. **DH**

**GER 371 Practical German for use in Hawai'i (3)** Use of German in practical situations in Hawai'i, e.g., in travel industry. Pre: 202.

**GER 409 Enlightenment—Sturm und Drang (3)** Lessing and his contemporaries; early dramas of Goethe and Schiller; Goethe's early lyrics. Pre: 306 or consent. **DL**

**GER 410 Classicism (3)** Classical writings of Goethe and Schiller; some reference to other writers. Pre: 306 or consent. **DL**

**GER 411 Romanticism (3)** Novalis, Tieck, E. T. A. Hoffmann, Eichendorff, etc. Pre: 306 or consent. **DL**

**GER 412 Poetic Realism (3)** Masterworks by Büchner, Raabe, Storm, Keller, Meyer, Hebbel, and others. Pre: 306 or consent. **DL**

**GER 415 Contemporary German Literary Activity (3)** Handke, Becker, Weiss, Bernhard, Walser, Böll, Grass. Pre: 306 or consent. **DL**

**GER 416 German Literature, Culture and Film: 1989 to Present (3)** Study of German literature, culture and film, 1989 to present. Credit cannot be earned for both 416 and LLEA 416. Pre: 303 or 306 or consent. **DH**

**GER 428 Survey of German Lyric Poetry (3)** Individual interpretation complements lectures on theoretical and historical background. Pre: 306 or consent. **DL**

**GER 460 Intensive Fourth-Level German Abroad (V)** Intensive course of formal instruction on the fourth-level in German language and culture in a German-speaking country. Pre: 360 or equivalent.

## Global Health Protection and Security (GHPS) formerly Population Studies (PPST)

### Interdisciplinary Programs

**GHPS 101 Introduction to Population Studies (3)** Introduces the study of population (demography), human fertility, mortality, and migration. Focus on the U.S., Hawai'i, and the Asia-Pacific region.

**GHPS 301 Populations of Hawai'i (3)** Demographic characteristics of Hawai'i's populations: origins, distribution, growth, and behaviors. Open to nonmajors. A-F only. Pre: an introductory social science course (ECON 120, 130, 131; GEOG 151; POLS 110; or SOC 100) or consent. **DS**

**GHPS 302 Population in the Pacific Islands (3)** Survey of the characteristics of human populations of the Pacific Islands region. Working of population forces from early settlement to the demographic transitions of the present day. Pre: consent. **DS**

**GHPS 401 Forced Migration (3)** Global view of refugee and other forced migration; emphasis on humanitarian assistance. Pre: junior standing and consent. **DS**

**GHPS 412 Analysis in Population and Society (3)** Global and U.S. patterns of population growth; composition and distribution, elementary demographic techniques; development issues and population policy. Pre: SOC 300 or consent. (Cross-listed as SOC 412) **DS**

**GHPS 432 Economics of Population (3)** Determinants and consequences of growth and structure of human populations. Relationships between economic factors and fertility, population growth and economic growth. Pre: ECON 301 (or concurrent). (Cross-listed as ECON 432) **DS**

**GHPS 651 Introduction to Human Population (3)** Comparative analysis of quantitative and qualitative aspects of population; factors affecting size, distribution, and composition; impact of population size and composition on society. (Cross-listed as PH 651 and SOC 651)

**GHPS 652 Interdisciplinary Seminar (1)** Topics such as contemporary issues in global health and population studies, international health programs, demographic methods, global economy and health, human right and humanitarian assistance, social justice, global environmental changes and health. Pre: consent. (Cross-listed as PH 652)

**GHPS 659 Methods of Demographic Analysis (3)** Statistical evaluation and analysis of population data; data sources; population growth; composition; standardization of rates; mortality and the life table; nuptiality and fertility; distribution, migration, urbanization; projections and stable population theory. (Cross-listed as PH 659 and SOC 659)

**GHPS 677 Global Health Management (3)** Provides theories, knowledge and skills required to improve executive capacity in managing people and projects in an ethical and cultural context, and organizational capacity in performance, design, strategic

planning, and change management. PH majors only. A-F only. (Cross-listed as PH 677)

**GHPS 690 Global Health Challenges (3)** Addresses critical, contemporary, and transnational issues best addressed by cooperative international action. Health issues are examined in the context of intersecting effects of limited resources, socioeconomics, politics, and environmental change. A-F only. (Once a year) (Cross-listed as PH 690)

**GHPS 699 Directed Reading and Research (V)** Repeatable unlimited times. Pre: consent of program director or instructor.

**GHPS 719 Comparative Family and Gender (3)** Discusses the major perspectives on family and gender relations and examines related empirical research. Emphasis is on the cross-cultural comparisons across the U.S. and Asia in the context of globalizing economies and cultures. A-F only. (Alt. years) (Cross-listed as SOC 719)

## Greek (GRK)

### College of Languages, Linguistics and Literature

*A grade of C- or better in the prerequisite courses is required for continuation.*

**GRK 101 Elementary Greek (3)** Grammar and vocabulary, with reading of simple Greek. **HSL**

**GRK 102 Elementary Greek (3)** Continuation of 101. Pre: 101. **HSL**

**GRK 201 Intermediate Greek (3)** Development of reading and translation skills. Emphasis on prose. Pre: 102 or equivalent. **HSL**

**GRK 202 Intermediate Greek (3)** Continuation of 201; emphasis on poetry. Pre: 201. **HSL**

**GRK 303 Greek Historians (3)** Selections from Herodotus, Xenophon, and others. Pre: 201 and 202, or consent. **DL**

**GRK 304 Greek Epic (3)** Selections from Homer, Hesiod, and others. Pre: 201 and 202, or consent. **DL**

**GRK 325 Greek Philosophy (3)** Selections from Plato, Aristotle, and others. Pre: 201 and 202, or consent. **DL**

**GRK 332 Greek Drama (3)** Selections from Aeschylus, Sophocles, and Euripides. Pre: 201 and 202, or consent. **DL**

**GRK 333 Greek Lyric (3)** Selections from Sappho, Alcaeus, and others. Pre: 201 and 202, or consent. **DL**

**GRK 490 Seminar in Greek Studies (3)** Study of an author or phase in Greek studies. Repeatable unlimited times with consent. Pre: any two 300-level GRK courses, or consent.

## Hawaiian (HAW)

### School of Hawaiian Knowledge

*A grade of C or better in the prerequisite courses is required for continuation. Requirement is different for HAW majors, so please see Kawaiuhelani's Academic Programs section for details.*

**HAW 100 Language in Hawai'i: A Microcosm of Global Language Issues (3)** Survival kit for life in Hawai'i: Introduction to Hawaiian and language related issues enhancing communicative experience in Hawai'i. Examination of social, cultural, political, and linguistic cross-cultural interaction locally and globally. Taught in English/Hawai'i Creole English. **FGB**

**HAW 101 Elementary Hawaiian (4)** Listening, speaking, reading, writing. Meets five hours weekly; daily lab work. **HSL**

**HAW 102 Elementary Hawaiian (4)** Continuation of 101. Pre: 101 or exam or consent. **HSL**

**HAW 105 Intensive Elementary Hawaiian (8)** Content of 101 and 102 covered in one semester. Meets two hours daily, Monday–Friday, plus lab work. **HSL**

- HAW 200 I Ka 'Ōlelo Nō Ke Ola (4)** Accelerated lecture/lab to bridge fluent speakers mainly from Kula Kaiapuni into Kawaihuelani's system of Hawaiian that reflects a Hawaiian worldview, including HAW 101-201 content, grammar, writing, and spelling conventions. Students matriculate into HAW 202. Pre: instructor consent required. (Spring only) **HSL**
- HAW 201 Intermediate Hawaiian (4)** Continuation of 102. Meets five hours weekly; reading of traditional texts; daily lab work. Pre: 102 or exam or consent. **HSL**
- HAW 202 Intermediate Hawaiian (4)** Continuation of 201. Pre: 201 or exam, or consent. **HSL**
- HAW 206 Intensive Intermediate Hawaiian (8)** Content of 201 and 202 covered in one semester. Meets two hours daily, plus lab work. Pre: 102 or 105, or exam. **HSL**
- HAW 261 Hawaiian Literature in Translation (3)** Survey of Hawaiian literature, including prose narration and poetry with reference to Polynesian and Western themes and forms. **DL**
- HAW 284 Papa Mele I (Mele in the Hawaiian Language Classroom) (3)** The incorporation of mele and the performance thereof for the enhancement of second language acquisition in Hawaiian. Pre: 102.
- HAW 301 Third-Level Hawaiian (3)** Continuation of 202. Conducted in Hawaiian. Advanced conversation and reading. Pre: 202 or exam, or consent.
- HAW 302 Third-Level Hawaiian (3)** Continuation of 301. Pre: 301 or exam, or consent.
- HAW 321 Hawaiian Conversation (3)** Systematic practice on various topics for control of spoken Hawaiian. Repeatable up to six credit hours. Pre: 202 or consent.
- HAW 331 Hawaiian Composition (3)** Intensive work in the grammatical, semantic, and pragmatic dimensions of composition writing in Hawaiian. Pre: 202.
- HAW 332 Listening Comprehension and Transcription (3)** Development of listening comprehension through transcription and discussion of tape recordings. Pre: 202.
- HAW 345 Ulu ka Hoi (3)** Lecture offering focused study and creation of Hawaiian language newspapers with a concentration on the characteristics of writing in this genre. Students will produce a monthly newsletter in Hawaiian. Repeatable one time. Pre: 302 (or concurrent) or consent. **DH**
- HAW 373 Ka Mo'omeheu Hawai'i (3)** A survey course on the study of traditional Hawaiian culture including origins, the socioeconomic system, land tenure, religion, values, and the arts. The course will be taught in Hawaiian. Pre: 302 (or concurrent) or consent. **DH**
- HAW 383 Hana 'Oe a Kani Pono-Hawaiian Radio Broadcasting (3)** Combined lecture/lab involving students in the planning and production of a weekly Hawaiian language radio broadcast. Includes research, writing, and voicing of mele and their stories on live radio. Repeatable one time. Pre: 302 or 384 (or concurrent with consent), or consent. **DH**
- HAW 384 Ka Haku Mele (3)** Composers and Their Compositions. Provides a venue which will allow students to analyze, dissect and discuss mele (song, poetry and chant), paying close attention to the style of composition by identifying reoccurring nuances found in mele composed by the same as well as various authors. Pre: completion of 202 or consent. (Once a year)
- HAW 401 Fourth-Level Hawaiian (3)** Advanced reading, writing, and discussion in Hawaiian. Transcribing and translating Hawaiian language tapes. Translating English into Hawaiian, and Hawaiian into English. Pre: 302 or exam, or consent.
- HAW 402 Fourth-Level Hawaiian (3)** Continuation of 401. Pre: 401 or exam, or consent.
- HAW 425 Mo'olelo Hawai'i (3)** Survey of the major works by Hawaiian scholars writing about the history and culture of Hawai'i including David Malo, Kamakau, Kepelino, and John Papa I'i. Pre: 302. **DH**
- HAW 426 Ka'ao Hawai'i (3)** Survey of the core literature written by Hawaiian scholars, including both historical and mythological epics and folk tales. Pre: 302. **DL**
- HAW 427 I Le'a Ka Hula I Ka Ho'opa'a (Mo'olelo, Ka'ao, Mele and Hula) (3)** The incorporation of mele and hula performance with mo'olelo and ka'ao. Pre: 302 or consent.
- HAW 428 Ka Mana'o Politika Hawai'i—Political Thought in Hawaiian (3)** Intensive study of Hawaiian political thought in writing and speech. Pre: 302 (or concurrent) or consent. (Cross-listed as POLS 303C) **DH**
- HAW 429 Ka Hō'ike Honua (3)** Study of Hawaiian land tenure practices through readings and discussions of audiotapes, written primary sources, maps, wind names, rain names, 'ōlelo no'eau (wise sayings), and mele (poetry). Readings are drawn from 19th and 20th century Hawaiian newspapers and other primary sources. Pre: 302 (or concurrent) or consent.
- HAW 430 Ma Ka Hana Ka 'Ike (3)** Study of traditional Hawaiian language and cultural practices through hands-on applications and lectures. Pre: 302 (or concurrent) or consent.
- HAW 433 I Pa'a Ke Kahua (3)** An experiential approach to the acquisition of vocabulary, which will allow students to broaden and deepen their knowledge of language and the range of domains to perpetuate Hawaiian as a living language. Repeatable one time. Pre: 302 (or concurrent), or consent.
- HAW 435 (Alpha) Problems in Translation (3)** Problems in translation of: (B) legal documents; (C) newspapers. Pre: 302 or consent.
- HAW 445 Nā Politika ma ka Nūhou Hawai'i—Politics in Hawaiian Language Media (3)** Study of Hawaiian news media with emphasis on political content. Includes field trips to various archives. Pre: 302 (or concurrent), or consent. (Cross-listed as POLS 344) **DH**
- HAW 452 Structure of Hawaiian (3)** Descriptive linguistic analysis. Intensive exercises in advanced grammar. Pre: 302 (or concurrent) or consent. **DH**
- HAW 454 History of the Hawaiian Language (3)** Development from proto-Polynesian. Phonology, morphology, and grammar; history of research. Pre: 302 (or concurrent) and 452, or consent. **DH**
- HAW 462 (Alpha) Ha'uki: Sports Education Through the Medium of Hawaiian (2)** Provide Hawaiian language students with linguistic tools necessary to provide sports education to Hawaiian immersion schools and for basic intergenerational use of Hawaiian in the linguistic domain of sports. (B) basketball; (C) volleyball; (D) football; (E) baseball. Repeatable for other topics.
- HAW 463 Language for the Classroom (3)** Examination of language needs in various classroom settings and introduction to new vocabulary in school content areas. Pre: 302, 452, and consent.
- HAW 466 Kuleana Kula Kaiapuni (3)** Examination of the political struggles of the Kula Kaiapuni (Hawaiian Immersion Program)—past and present. Special attention given to federal and state governments, Department of Education, and internal political struggles. Pre: 401 (or concurrent with consent).
- HAW 470 Ho'omōhala Ha'awina Kaiapuni Curriculum Development (3)** Examination of curricular issues of indigenous language programs; weekly participation in an immersion classroom; development of materials. Repeatable one time. Pre: 302 or consent.
- HAW 483 Papa Mele Wahi Pana (3)** Will provide students with the opportunity to learn mele, mainly poetry and song, composed specifically for a certain area of Hawai'i. Pre: 302 or consent.
- HAW 484 Hawaiian Poetry (3)** Historical survey and analysis of poetry found in traditional chants, folk songs, modern poetry written in Hawaiian. Interpreting and composing Hawaiian poetry. Pre: 302 and consent, or 401. **DL**
- HAW 485 Haku Hanakeeka—Hawaiian Language Playwriting (3)** The creation and authoring of Hawaiian language play scripts based on traditional motifs. Repeatable one time. Pre: 402 (or concurrent) or consent. **DA**
- HAW 486 Kahua Hanakeeka (Hawaiian Medium Stage Production) (3)** From design to performance, students mount an original production based on traditional motifs. Repeatable one time. Pre: 402 (or concurrent), or consent.
- HAW 488 'Ōlelo No'eau (3)** Survey and analysis of traditional proverbs and their kaona or symbolic meanings. A-F only. Pre: 402 or consent. **DH**
- HAW 490 Ka Makau'olelo A'o Kula Kaiapuni Hawai'i (1)** Assess the linguistic competence of prospective Hawaiian language immersion teachers to assure that all teachers entering the state DOE Hawaiian Immersion Program meet the requirements of the program with respect to Hawaiian language proficiency. CR/NC only. Pre: 402 (or concurrent), and 463 (or concurrent), or consent.
- HAW 499 Directed Studies (V)** Study of Hawaiian language through vernacular readings in various academic fields. Repeatable up to 6 credits. Pre: 302 and consent.
- HAW 601 Kākau Mo'olelo (3)** Analyzes various genres of written Hawaiian literature. HAW majors only. Pre: graduate standing and 402, or consent.
- HAW 602 Kākā'olelo Oratory (3)** A survey of oral performance styles to build increased oral skills. Pre: graduate standing and 601, or consent.
- HAW 604 Haku Palapala Noi Laeo'o/Writing a Hawaiian Master's Proposal (3)** Seminar to select and develop students' research topic, proposal, and organizational plan for Plan A or B completion. A-F only. Pre: 601 or consent. (Once a year)
- HAW 605 Ka Hana Noi'i (Research Methods) (3)** Research methodology course utilizing active research in the major repositories of Hawaiian language materials and Hawaiian-related knowledge. A-F only. Pre: graduate standing and acceptance in the Hawaiian MA program, or consent. (Once a year)
- HAW 612 Nā Mana'o Politika Hawai'i (Hawaiian Political Thought) (3)** Study of Hawaiian political thought in writing from ca. 1825 to the present, with emphasis on theory and research methods. Pre: 402, 428, and POLS 303; or consent. (Cross-listed as POLS 612)
- HAW 615 Kuana'ike (3)** The examination of Hawaiian ways of speaking, as contrasted with English focusing on those features that are uniquely Hawaiian and can be said to constitute a Hawaiian worldview. Section 1 taught in Hawaiian; Section 2 taught in English. Pre: 402 or consent for Section 1.
- HAW 625 Mo'olelo Hawai'i (3)** Intensive study, research, and analysis of Hawaiian history. Repeatable two times with consent of advisor. Pre: 402 or consent.
- HAW 638 (Alpha) Nā Mea Kakau/Nā Haku Mo'olelo (3)** Intensive study of an individual author, his/her works and nuances of his/her works. (E) J. H. Kanepu'u; (I) S. M. Kamakau. Pre: 601 or consent. (Once a year)
- HAW 643 Ke A'o 'Ōlelo Hou 'Ana (Teaching Hawaiian As a Second Language) (3)** Survey of existing texts and teaching resources; analysis of student clientele and needs; review of pedagogical approaches for heritage and non-heritage learners; syllabus and materials development; practicum. Pre: 401 and 452 or consent.
- HAW 652 Pilina 'Ōlelo (3)** In-depth examination and research into the grammar of Hawaiian including discussion of theories of language and incorporation of meta-language. Pre: 452 or consent. (Once a year)

**HAW 654 'Ōlelo Ni'ihau (3)** Intensive, advanced study and analysis of traditional Hawaiian Ni'ihau dialect through face-to-face conversations with Ni'ihau native speakers, listening to audio recordings and watching video recordings of Ni'ihau native speakers. Pre: 402 (with a minimum grade of B-) or consent.

**HAW 684 Noi'i Mele (3)** Intensive study focusing on original compositions of Hawaiian poetry and song. Pre: 402 and 484, or consent.

**HAW 695 Papahana Laeo'o (V)** Research for Plan B project/non-thesis. May include but not limited to internship with cultural practitioner. Repeatable up to six credits. CR/NC only. Pre: consent of graduate advisor.

**HAW 699 Directed Research (V)** Repeatable unlimited times. A-F only. Pre: consent of instructor and graduate chair.

**HAW 700 Noi'i Pepa Laeo'o (Thesis) (V)** Research for master's thesis. Repeatable unlimited times.

## Hawaiian Studies (HWST)

### *School of Hawaiian Knowledge*

**HWST 107 Hawai'i: Center of the Pacific (3)** An introduction to the unique aspects of the native point of view in Hawai'i and in the larger Pacific with regards to origins, language, religion, land, art, history, and modern issues. **DH**

**HWST 207 Hawaiian Perspectives in Ahupua'a (3)** Examination of the ahupua'a system: its mythologies, place names, history, poetry and early documents of the Hawaiian nation, as it was conceptualized by the ancient Hawaiians and exploration of its relevance in modern society. A-F only. Pre: 107.

**HWST 220 Introduction to Hawaiian Visual Culture Studio (3)** Introduction to a variety of material (fiber, bone, wood, and stone) and skills in the media used in the Hawaiian culture. Research and explore basic techniques within the media with emphasis on cultivation, preparation, uses, and conservation. Repeatable one time. A-F only. Pre: 107(C) or consent.

**HWST 222 Introduction to Hawaiian Fiber Arts Studio-Hana No'eau Ma'awe (3)** Introduction to a variety of fibers used in the Hawaiian culture. Emphasis on cultivation, preparation, uses and conservation of the fibers. Areas explored are kapa, plaiting, netting and twining. A-F only. Pre: 107 or 107C, or consent. (Once a year)

**HWST 224 Introduction to Hawaiian Painting and Drawing Studio (3)** Research and express personal relationship to specific Hawaiian paradigms through Hawaiian visual culture. Introduction to painting and drawing media and exploration of various materials and techniques as applied to individual student styles. A-F only. Pre: 107 or 107C, or consent. (Once a year) **DA**

**HWST 225 Introduction to Hawaiian Printmaking Studio (3)** Introduction to Native Hawaiian perspective and world view in images used in print and the basic material, technical, and conceptual aspects of hand printed imagery through the indigenous eyes. A-F only. Pre: 107 or 107C, or consent. (Once a year)

**HWST 270 Hawaiian Mythology (3)** Survey of gods, 'aumākua, kupua, mythical heroes, heroines, and their kinolau as the basis of traditional Hawaiian metaphor. Pre: 107 or HAW 102. **DL**

**HWST 281 Ho'okele I: Hawaiian Astronomy (3)** Introduction to Hawaiian views of astronomy and the stars used by Polynesian Voyaging Society navigators. Introduction and comparison to various Pacific island non-instrument navigation systems and star names. Restricted to majors.

**HWST 281L Ho'okele I Laboratory (1)** (1 3-hr Lab) Stargazing laboratory to accompany 281. Pre: 281 (or concurrent).

**HWST 282 Ho'okele II: Hawaiian Navigation (3)** Hawaiian and other Oceanic canoe design, navigation, Pacific weather, sailing dynamics for canoes,

and sail planning strategies used by Polynesian Voyaging Society navigators for long voyages.

**HWST 282L Ho'okele II Laboratory (1)** (1 3-hr Lab) Hands on experience on voyaging skills and sailing canoes to accompany 282. Pre: 282 (or concurrent).

**HWST 285 Lā'au Lapa'au: Hawaiian Medicinal Herbs (4)** Presentation of Hawaiian medicinal herbs including basic philosophy, identification, utilization, and preparation of such herbs for human ailments. Pre: 107 or consent.

**HWST 301 Perspectives in Hawaiian Studies (3)** Interdisciplinary lectures and discussions examining traditional and contemporary experiences in Hawaiian society and setting; resources, methods, and techniques. Repeatable one time. Pre: HAW 202 or consent. **DH**

**HWST 307 Mālama 'Āina Resource Management Visual Technologies (3)** Requires a broad set of knowledge systems. Will introduce students to a variety of visual technologies for use in resource management and the ethical application of these technologies. Pre: 107 and 207, or consent.

**HWST 320 Advanced Art Media (3)** Examine and explore advance techniques within the media and the customary and contemporary uses of a variety of material and skills used in traditional Hawaiian everyday life. Repeatable six times. A-F only. Pre: 107C or 222, or consent. (Once a year)

**HWST 322 Advanced Hawaiian Fiber Arts Studio- Hana No'eau Ma'awe (3)** Examine the customary and contemporary use of fiber materials and the skills used in Hawaiian culture. Research and explore advanced techniques within the media used in traditional Hawai'i. A-F only. Repeatable one time. Pre: 107 or 107C, 222; or consent. (Once a year)

**HWST 324 Advanced Hawaiian Painting and Drawing Studio (3)** Advanced research and expression of personal relationship to specific Hawaiian paradigms through visual culture and language. Students will further their definitions, analysis skills, research, and understandings through painting and drawing media. Repeatable one time. A-F only. Pre: 107 or 107C, 224; or consent. (Once a year)

**HWST 325 Advanced Hawaiian Printmaking Studio (3)** Advanced Native Hawaiian perspective in imagery in print and the material, technical, and conceptual aspects of hand printed imagery. Lecture-lab with studio work time. Repeatable one time. A-F only. Pre: 107 or 107C, 225; or consent. (Once a year)

**HWST 340 Native Hawaiian Traditions in Literature (3)** Discusses theoretical frameworks, main features, and cultural contexts of Hawaiian literature. Pre: 107, 270, and HAW 202; or consent.

**HWST 341 Hawaiian Genealogies (3)** Survey of major Hawaiian chiefly lineages from the four main islands: Hawai'i, Māui, O'ahu and Kaua'i. Political history from the Kumulipo to Western contact. Pre: HAW 202.

**HWST 342 Chiefs of Post-Contact Hawai'i (3)** Survey of Hawaiian chiefs from 1778 to the present, including genealogy, political function, and historical impact. Pre: 107, 341, or HAW 201.

**HWST 343 Myths of Hawaiian History (3)** Thematic exploration of some common myths of Hawaiian history, including infanticide, slavery, feudalism, constant warfare, human sacrifice, and a limited pre-contact population, to determine the role of myth making in perceptions of Hawaiian history. Pre: junior standing or consent. **DL**

**HWST 351 Mahi'ai Kalo I: Taro Cultivation (3)** Historical, cultural and philosophical foundations of the cultivation and uses of taro. A-F only. Pre: 107. (Fall only)

**HWST 352 Mahi'ai Kalo II: Advanced Taro (3)** In depth-study of taro cultivation techniques and systems. A-F only. Pre: 351.

**HWST 353 Malama Loko I'a (4)** Study of traditional Hawaiian fishpond management with hands-on experience at He'eia fishpond near Kane'ohe, merging traditional Native knowledge and ways of seeing with Western science. A-F only. Pre: 107 or HAW 101 or BOT 105, or consent. (Once a year)

**HWST 362 Pana O'ahu: Famous Place Names (3)** A survey of the famous place names in each ahupua'a of O'ahu, including accounts of mythical heroes, heiau, fishponds, wind, rain names, and their metaphorical value in Hawaiian literature. Pre: 107, 270, or GEOG 101; and HAW 202.

**HWST 365 Pana Paemoku o Kanaloa: The Northwestern Hawaiian Islands (3)** Will look at the use of the Northwestern Hawaiian Islands during pre-contact times, the historical period of the Kingdom of Hawai'i, after the islands were ceded to the U.S., and the contemporary politics that surround the region today. A-F only. Pre: 107 or consent.

**HWST 372 Oli Makawalu: Makawalu Methodology in Hawaiian Protocol Chants (3)** Introduces the use of Makawalu Methodology to analyze kaona in Hawaiian protocol chants, which influences the oral production of such chants. A-F only. Pre: 270 (or concurrent) and HAW 201 (or concurrent), or consent.

**HWST 385 Lā'au Lapa'au II: Advanced Medicinal Herbs (4)** (3 Lec, 1 Lab) Advanced study and preparation of Hawaiian medicinal herb combinations. Pre: 107 and 285; or consent.

**HWST 390 Issues in Modern Hawai'i (3)** Cultural and political aspects of the current Hawaiian movement; historical colonization; conflicts over tourism, the military, and agriculture; forms of native self-determination. Pre: junior standing or consent. **DH**

**HWST 396 Native Hawaiian Rights and Practices (3)** Students will strengthen their cultural, political, and legal foundations by: (1) reviewing Hawai'i's historical traditions and customs, (2) learning legal analysis techniques, and (3) applying those techniques to issues that govern native Hawaiian "rights" today. Sophomore or higher standing. Pre: 107, 270, and 341 (or concurrent) and HAW 102. (Fall only) **DH**

**HWST 421 Visiting Artist Seminar (3)** Explore indigenous concepts through the media of a visiting indigenous master artist by looking at traditional media in indigenous cultures, and the possibilities for contemporary expression in other media. Repeatable two times. HWST majors only. A-F only. Pre: 107/107C, one course in 220 level (222, 224, 225), one course in 320 level (322, 324, 325); or consent. (Once a year)

**HWST 440 Māhele Land Awards (3)** Practical guide to the researching of land awards and change in title for a single ahupua'a, 1848 to present. Focus on field trips. Pre: 342.

**HWST 441 Ceded Lands: Focus on Crown and Government Lands (1848 to Present) (3)** Inventing "Ceded Lands" in Hawai'i with emphasis on historical, legal, and cultural changes from the Kingdom through statehood. A-F only. Pre: 440 or consent.

**HWST 445 Hawaiian Institutions (3)** Comprehensive analysis of institutions like Bishop Estate/Kamehameha Schools, OHA, Lili'uokalani Trust, Department of Hawaiian Home Lands and The Queen's Hospital. Pre: 342.

**HWST 457 'Āina Mauliola: Hawaiian Ecosystems (3)** Comprehensive analysis of traditional Hawaiian and modern resource management practices. Rigorous overview of the dominant physical and biological processes from the uplands to the oceans in Hawai'i. Pre: 107, BOT 105, and junior standing; or consent. (Cross-listed as BOT 457)

**HWST 458 Natural Resource Issues and Ethics (4)** Overview of the history of land, resources and power in Hawai'i; players and processes influencing land and natural resources policies today explored from Native Hawaiian and other viewpoints. Extensive use of case studies. Pre: 457 or BOT 457. (Cross-listed as BOT 458)

**HWST 459 Strategies in Hawaiian Resource Use (3)** Analyzing diverse land and water use strategies of O'ahu, from traditional Hawaiian, scientific and economic perspectives, through classroom and on-site lectures. Topics include traditional Hawaiian methods, modern development, threatened ecosystems, ecotourism and scientific research. A-F only. Pre: 457 or BOT 457 (or concurrent), or consent. (Cross-listed as BOT 459)

**HWST 460 Hui Konohiki Practicum (3)** A "hands-on" internship in an environmental or resource-management organization in Hawai'i. The experience will be broadened and supplemented by classroom lectures, discussion and analysis from traditional Hawaiian, scientific and economic perspectives. A-F only. Pre: 457 or BOT 457, 458 or BOT 458 (or co-requisite), 459 or BOT 459; or consent. (Spring only) (Cross-listed as BOT 460)

**HWST 461 Indigenous Economies (3)** Students will map out indigenous economies by articulating cultural similarity and diversity between academic experience and professional experiences. A-F only. Pre: 107 or consent.

**HWST 467 Mālama 'Āina Field Methods Course (6)** Intensive field methods program to research Mālama 'Āina strategies. Introduces students to a variety of field techniques in doing land research and integrating it with historical documents. Travel cost covered by student. Junior standing or higher. Pre: 307 and 457 or consent. (Summer only)

**HWST 470 'Ike Akua Papakū Makawalu: Ancestral Understanding of Elements (3)** Uses Dr. Pualani Kanahale's Papakū Makawalu methodology to analyze akua as elements and as a paradigm for understanding ancestral knowledge. Senior standing or higher. Pre: 270, 372 (or concurrent), and HAW 301 (or concurrent).

**HWST 478 Mele Au Hou: Music and Native Identity (3)** Presents Hawaiian music as it has been an avenue for native social, cultural and political expression in traditional and contemporary society. A-F only. Pre: 107 or 343 or 390; or consent.

**HWST 485 Mahi Lā'au Lapa'au: Hawaiian Medicinal Horticulture (4)** The science of planting and harvesting Hawaiian medicinal plants and exploring production and marketing strategies. Pre: 107, 285 and 385; or consent.

**HWST 487 Hawaiian Aquatic Medicine (4)** Identification, extraction and preparation of complexes of aquatic herbs to formulate a healing combination to contribute to maintaining overall health. A-F only. Pre: 107, 285; or consent. (Fall only)

**HWST 490 Senior Seminar in Hawaiian Studies (3)** Critical examination of existing research; individual or team development, execution, and evaluation of selected projects. Repeatable three times. Pre: senior major in Hawaiian studies or consent.

**HWST 493 Hawaiian Political Speech: Ha'i 'Olelo Ku'e (3)** Senior seminar in short, extemporaneous speeches in persuasive, passionate and dynamic styles of Native Hawaiian orators. A-F only. Pre: 107, 270, 341, 342, or HAW 202; or consent. (Once a year)

**HWST 494 Modern Pacific Women's Poetry (3)** Critical examination of modern indigenous women's poetry from the Pacific Islands. Thematic concentration on land, family, sexual and national oppression. Pre: two ENG DL courses; second may be taken concurrently; or consent. (Cross-listed as ENG 479) DL

**HWST 495 Kumu Kānawai: Western Law and Hawai'i (3)** The rise of Western law in Hawai'i, its contribution to nation building and colonialism. Pre: 342 or 343 or 390; or consent. DH

**HWST 496 Kānawai II: Practical Application of Rights (3)** Historical analysis of land use, race and self-determination; introduced to legal case briefing, analysis of legal precedent, practical impacts of rules and regulations and the sociopolitical factors that influence law and law enforcement. A-F only. Pre: 390 or consent.

**HWST 499 Directed Reading/Research (V)** Individual reading/research. Pre: 301, two upper division Hawai'i-related courses, and consent.

**HWST 601 Indigenous Research Methodologies (3)** Reading seminar for developing a Native Hawaiian epistemology from sources in comparative indigenous thought. A-F only. Pre: 107, 270, 341 (or concurrent), 342 (or concurrent), and one of the following: 343 (or concurrent) or 390 (or concurrent) or 490 (or concurrent); or consent.

**HWST 602 Hawaiian Archival Research (3)** Research seminar aimed at familiarizing students with the rich historical primary sources existent in various archives in Honolulu. A-F only. Pre: 107, 270, 341 (or concurrent), 342 (or concurrent), and one of the following: 343 (or concurrent) or 390 (or concurrent) or 490 (or concurrent); or consent.

**HWST 603 Review of Hawaiian Literature (3)** Seminar in review of Hawaiian literature to understand the significance of secondary sources in Hawaiian subjects. This makes up part of the Hawaiian Studies graduate core. A-F only. Pre: 107, 270, 341 (or concurrent), 342 (or concurrent), and one of the following: 343 (or concurrent) or 390 (or concurrent) or 490 (or concurrent); or consent.

**HWST 604 Writing a Hawaiian Thesis (3)** Seminar to help fashion student's research and thesis proposal. To be taken by all HWST MA students as they begin designing their capstone project. Course will be team-taught by HWST faculty. Repeatable one time. A-F only.

**HWST 620 'Ike Pono-Visual/Cultural Interpretations (3)** Graduate seminar and visual studio that examines (from a Kanaka Maoli viewpoint) colonial imaging; collecting and site of contestation; resilience and resistance; and re-righting. A-F only. Pre: 107C, and one course from 220-225, and one course from 320-325; or consent. (Fall only)

**HWST 621 'Ike Maka-Visual/Cultural Knowledge (3)** Graduate seminar and visual studio that carefully examines and develops critical consciousness—from a Kanaka Maoli viewpoint—visual hegemony, rhetorical tropes; and representation—imag(in)ing and re-imag(in)-ing. HWST majors only. A-F only. Pre: 620 or consent. (Spring only)

**HWST 640 Mo'olelo 'O'iwi: Historical Perspectives (3)** Research seminar for developing interpretations of the past from Native Hawaiian and foreign world views with particular emphasis on understanding the meaning of culturally-based knowledge systems. A-F only.

**HWST 650 Hawaiian Geography and Resource Management (3)** Seminar in geography of Hawai'i from a Native Hawaiian perspective that will enable the researcher to define and develop resource management methods consistent with Native Hawaiian understandings and traditions. A-F only. Pre: 107, 270, 341 (or concurrent), 342 (or concurrent), and one of the following: 343 (or concurrent) or 390 (or concurrent) or 490 (or concurrent). (Once a year)

**HWST 670 Kumu Kahiki: Comparative Hawaiian and Tahitian Cosmogonies (3)** Seminar comparing Gods/myths from Ancient Tahiti by Teiura Henry (600 pages) with the six volumes of Hawaiian historians Kamakau and Malo. A-F only. Pre: 341 or consent. (Alt. years)

**HWST 671 Kumu Kahiki: Pacific Life Narratives in Mixed Media and Literature (3)** Research seminar in relevant literary traditions, histories of interaction, colonization, and literary politics in the Pacific region through the examination of life narratives in mixed media and literature. A-F only. HWST majors only. Pre: 603 (or concurrent) or consent. (Once a year)

**HWST 675 Huaka'i Huli Heiau Hawai'inuiākea: Study Abroad on Polynesian Temples (6)** Comparative study of Hawaiian/Polynesian temple design taught over a 3-week period in Hawai'i and Polynesia. Travel costs to be paid by student. Pre: 670

(with a minimum grade of B) and HAW 302 (with a minimum grade of B) or consent. (Summer only)

**HWST 690 Kūkulu Aupuni: Envisioning the Nation (3)** A research seminar designed to provide an overview of community activism and Native Hawaiian empowerment in Hawai'i in contexts that range from local to international, and to provide a foundation for further study and professional growth. A-F only. Pre: 107, 270, 341 (or concurrent), 342 (or concurrent), and one of the following: 343 (or concurrent) or 390 (or concurrent) or 490 (or concurrent); or consent.

**HWST 691 Kūkulu Aupuni: Sovereign Hawaiian State, Domestic Kingdom Law, Governance and Politics (3)** Research seminar on the subject of domestic law, governance, and politics of the Hawaiian Kingdom and the historical relevance of this to the contemporary case for independent, sovereign state continuity under public international law. A-F only. (Alt. years)

**HWST 695 Practicum Research Plan B (V)** Practicum for Plan B. Repeatable unlimited times. CR/NC only. Pre: consent.

**HWST 699 Directed Reading and Research (V)** Repeatable unlimited times. A-F only. Pre: consent.

**HWST 700 Thesis Research (V)** Research for master's thesis. (F) Full-time. S/U for (F) only. Repeatable up to six credits; Repeatable unlimited times for (F). Pre: 700 for (F).

## Health Sciences and Social Welfare (HSSW)

*College of Health Sciences and Social Welfare*

**HSSW 477 Southeast Asian Cultures in Health/Social Welfare (3)** The study of cultures and their implications in the health and social welfare context for a number of countries in Southeast and South Asian region.

**HSSW 478 Pacific Cultures in Health/Social Welfare (3)** The study of cultures and their implications in the health and social welfare context for a number of countries in the Pacific region.

## Hindi (HNDI)

*College of Languages, Linguistics and Literature*

*Students choosing Hindi for the language requirement should realize it may not be offered if demand is limited.*

**HNDI 101 Elementary Hindi (4)** Listening, reading, writing, speaking skills, language structure, and culture integrated in a variety of communicative and creative activities. HSL

**HNDI 102 Elementary Hindi (4)** Continuation of 101. Pre: 101 or consent. HSL

**HNDI 201 Intermediate Hindi (4)** Continuation of 102. Listening, reading, writing, speaking skills, language structure, and culture integrated in a variety of communicative and creative activities. Pre: 102 or consent. HSL

**HNDI 202 Intermediate Hindi (4)** Continuation of 201. Pre: 201 or consent. HSL

**HNDI 301 Third-Level Hindi: Culture (3)** Continuation of 202. Advanced listening, reading, writing, conversation skills, language structure, and culture integrated in a variety of communicative and creative activities based on selected cultural themes. Pre: 202 or consent.

**HNDI 302 Third-Level Hindi: Film (3)** Continuation of 202. Advanced listening, reading, writing, conversation skills, language structure, and culture integrated in a variety of communicative and creative activities based on selected Hindi-Urdu films. Pre: 202 or consent.

## History (HIST)

*College of Arts and Humanities*

**HIST 151 World History to 1500 (3)** Historical narratives and global perspectives on human societies

and cross-cultural interactions from prehistory to 1500; includes ways to think about the past and ways to use primary sources. **FGA**

**HIST 152 World History since 1500 (3)** Continuation of 151. Historical narratives and global perspectives on human societies and cross-cultural interactions from 1500 to present; includes ways to think about the past and ways to use primary sources. **FGB**

**HIST 155 Issues in World History (3)** In examining aspects of the histories of Africa, Asia, the Americas, Europe and Oceania, this course highlights the myriad ways in which global contact has transformed our world and narratives of the past.

**HIST 156 World History of Human Disease (3)** Examines how disease has affected humans in terms of society, culture, politics, religion, and economics. Explores the impact over a broad range of time periods, from pre-history to the present/future. **FGC**

**HIST 161A World Cultures in Perspective (3)** Development of civilizations from prehistoric origins to 1500. Offered as discussion and/or problems course. Alternative for 151 and 152; students in Honors program only. **FGA**

**HIST 162A World Cultures in Perspective (3)** Continuation of 161A. Development of civilization from 1500 to the present. Offered as discussion and/or problems course. Alternative for 151 and 152; students in Honors program only. **FGB**

**HIST 230 Early European Civilization (3)** Political evolution and major economic, social, and cultural development of European states before 1500, including classical and medieval eras. A-F only. (Alt. years) **DH**

**HIST 231 European Civilization 1500-1800 (3)** Political evolution and major economic, social, and cultural development of European states. 1500–1800. **DH**

**HIST 232 Modern European Civilization 1800- (3)** Continuation of 231. Major political, social, economic, and cultural trends from Napoleon to the present. **DH**

**HIST 241 Civilizations of Asia (3)** Survey of major civilizations of Asia from earliest times to 1500; East Asia, Southeast Asia, South Asia. (Cross-listed as ASAN 241) **DH**

**HIST 242 Civilizations of Asia (3)** Continuation of 241. Survey of major civilizations of Asia from 1500 to the present; East Asia, Southeast Asia, South Asia. (Cross-listed as ASAN 242) **DH**

**HIST 245 Atlantic History: Colonies to Revolutions (3)** Comparative and historical survey of colonialism and revolutions in the Atlantic World from 1500 to 1830. (Alt. years) **DH**

**HIST 281 Introduction to American History (3)** Interpretive survey from earliest settlement to 1865. A-F only. **DH**

**HIST 282 Introduction to American History (3)** Interpretive survey from 1865 to the present. **DH**

**HIST 284 History of the Hawaiian Islands (3)** Survey of state and local history from Polynesian chiefdoms to Hawaiian Kingdom to American territory and state. **DH**

**HIST 288 Survey of Pacific Islands History (3)** Survey of Pacific Islands from pre-colonial to modern times; early settlement, cultural contact, colonization, contemporary problems. **DH**

**HIST 294 History of the Philippines (3)** Traces developments in Philippine history and society from precolonial to contemporary times and explores ways in which the peoples of the Philippines embraced, resisted or negotiated new modes of thought, behavior and social organization influenced by the Spanish, American, and Japanese regimes as well as the post-colonial global order. **DH**

**HIST 296 Topics in History (3)** Introduction to methods of historical inquiry; current issues in World, American, European, or Pacific history. Repeatable one time. A-F only. **DH**

*Upper-division standing or consent is a prerequisite to all history courses numbered above 300.*

**HIST 301 India and South Asia to 1700s (3)** Historical survey of India and South Asia from Mohenjo-Daro to the Mughal Empire, tracing political, social, religious, economic, cultural, and intellectual developments from ancient times to the 18th century. **DH**

**HIST 302 India and South Asia since 1700s (3)** Historical survey of India and South Asia from the Mughal Empire to the new millennium, tracing political, social, religious, economic, cultural, and intellectual developments from the 18th century to the present. **DH**

**HIST 305 History of Southeast Asia (3)** Survey of development of civilizations and growth of nations in Southeast Asia, to the 18th century. **DH**

**HIST 306 History of Southeast Asia (3)** Continuation of 305, from 18th century to the present. **DH**

**HIST 309 East Asian Civilizations (3)** Characteristics of East Asian civilizations as they developed in pre-modern China; variant patterns in Japan and Korea; the modernization process to 1500. **DH**

**HIST 310 East Asian Civilizations (3)** Continuation of 309. Period after 1500. **DH**

**HIST 311 History of China (3)** Chinese civilization to the 17th century. **DH**

**HIST 312 History of China (3)** Continuation of 311. Period since the 17th century. **DH**

**HIST 321 History of Japan (3)** Survey of culture, government, economics, and institutions, to 1700. **DH**

**HIST 322 History of Japan (3)** Continuation of 321. Period from 1700. **DH**

**HIST 323 Way of Tea in Japanese History and Culture (3)** History and culture of Japan as revealed in study and practice of the tea ceremony (urasenke): Zen, aesthetics, calligraphy, architecture, ceramics, gardens, politics. (Cross-listed as ASAN 323) **DH**

**HIST 324 The Samurai of Japan (3)** A social, military, and cultural history of Japan's samurai (warrior) class. **DH**

**HIST 327 History of Premodern Korea (3)** Survey of political, economic, social, and cultural developments from earliest times to 1400. **DH**

**HIST 328 History of Modern Korea (3)** Continuation of 327. From 1400 to the present. **DH**

**HIST 331 Ancient Greece I (3)** Political, social, and cultural history of the Minoan, Mycenaean, and Archaic periods. **DH**

**HIST 332 Ancient Greece II (3)** Political, social, and cultural history of the Classical and Hellenistic periods. **DH**

**HIST 333 Ancient Rome: The Republic (3)** Political, social, cultural history from the Etruscans to Augustus. Emphasis on discussion of literary and archaeological materials. (Alt. years: fall) **DH**

**HIST 334 Ancient Rome: The Empire (3)** Political, social, and cultural history from Augustus to 476 A.D. Emphasis on literary and archaeological materials. (Alt. years: spring) **DH**

**HIST 335 Early Middle Ages 300–900 (3)** Interaction of three major forces forming Western European civilization: Classical tradition, Christian religion, Germanic society. **DH**

**HIST 336 High Middle Ages 900–1300 (3)** Topical examination of Medieval European culture: economy, society, religion, politics, thought, and the arts. **DH**

**HIST 337 European Intellectual History (3)** Undergraduate seminar on great debates in Western thought. Discussion of primary source materials; the scientific revolution and Enlightenment. **DH**

**HIST 338 European Intellectual History (3)** Continuation of 337. European thought from French Revolution to the present. **DH**

**HIST 339 Renaissance and Reformation (3)** Political, social, cultural, and intellectual developments in Europe from 1300 to 1600. Emphasis on cultural and intellectual history and its impact on social and political developments; humanism and its influence on thought and reforming movements, Protestant and Catholic Reformations. (Alt. years: fall) **DH**

**HIST 340 Comparative Economic History (3)** Comparative historical study of economic ideas and change since around 1700. Considers the histories of capitalism, poverty, industrialization and labor in Europe, Asia, the U.S., and other regions. (Cross-listed as ECON 341) **DH**

**HIST 342 The History of Economic Thought (3)** Introduces major western economic theorists and ideas since around 1700. Considers the history of views on work, poverty, the market and government, and the relationship of those doctrines to society, philosophy, and public policy. Pre: 151, 152, ECON 130, or ECON 131; or consent. (Alt. years) (Cross-listed as ECON 342) **DH**

**HIST 343 Reacting to the Past (3)** Exploration of moments of crisis and the clash of ideas in their historical context through the use of simulation games. Junior standing or higher. A-F only. **DH**

**HIST 344 Modern Germany (3)** Political, social, economic, and cultural history since 1547. Rise of Austria and Prussia, unification, Bismarckian era, World War I and Weimar Republic, Hitler's Third Reich, post-World War II. **DH**

**HIST 345 France in the Old Regime (3)** Major social, political, and intellectual developments: Renaissance, Reformation, religious wars, Richelieu, Louis XIV, Enlightenment, and Revolution. **DH**

**HIST 346 Modern France (3)** Political, social, economic, and intellectual developments from Revolution and Napoleon to the present. **DH**

**HIST 347 Tudor-Stuart Britain (3)** Traces major developments in British politics, society, and culture between the late Medieval and Modern Eras. **DH**

**HIST 348 Modern England (3)** Interaction of 17th-, 18th-, and 19th-century intellectual, political, economic, and social changes, which together produced the British Empire and modern Britain. **DH**

**HIST 349 British Empire (3)** Origins and expansion of the British empire between the seventeenth and twentieth centuries. Includes imperial policies affecting Britain, Australia, India, Ireland, and Southern Africa. Open to nonmajors. **DH**

**HIST 350 Iberia in Asia and the Pacific (3)** Comparative exploration of the Iberian empires—Spain and Portugal—and their political, economic, and cultural interactions with indigenous societies in Asia and the Pacific. A-F only. Pre: sophomore standing or consent. **DH**

**HIST 351 East European Empires (3)** Comparison of Austrian, Polish, Ottoman, and Russian empires by examining political ideologies, religions, lifestyles, and ethno-linguistic identities. Pre: sophomore standing or consent. (Alt. years) **DH**

**HIST 352 France and Empire (3)** Lecture/discussion exploring the history of France's relationship with imperialism from the Renaissance to the present. Pre: upper division standing or consent. (Once a year) **DH**

**HIST 354 Introduction to Islamic History (3)** Muhammad, the Arab conquests, the Caliphate; fundamentals of Islam; classical Islamic civilization; development of Islam into modern times with emphasis on the Middle Eastern heartland. **DH**

**HIST 355 The Making of the Modern Middle East (3)** Survey of developments that created the system of nation-states in the Middle East. History of the Ottoman Empire and the Republic of Turkey; Egypt; the Arab world; Israel and Iran. Recommended: 354. **DH**

**HIST 356 Survey of African History (3)** The history of Africa from earliest times to the present: the rise of indigenous civilizations, European and

Muslim impact, colonialism and nationalism, and current issues. **DH**

**HIST 358 The World of Mekong (3)** Historical survey, from BC period to present, of the peoples of the Mekong region, an area covering southwestern China, Thailand, Cambodia, Laos, and southern Vietnam. Open to nonmajors. Pre: upper division standing or consent. **DH**

**HIST 361 U.S. Women's History (3)** History of U.S. women and gender relations. Topics include women's work in and outside the household, women's involvement in social movements, changing norms about gender and sexuality, and shared and divergent experiences among women. (Cross-listed as AMST 316 and WS 311) **DH**

**HIST 362 Gender and Sexuality in the Classical World (3)** Critical examination of the construction of gender identity and sexuality in ancient Greece and Rome. Pre: 151, 161, LLEA 122, LLEA 123, LLEA 124, LLEA 227, LLEA 228, or any course in WS, GRK, or LATN; or departmental approval. (Once a year) **DH**

**HIST 371 U.S. Foreign Relations to 1898 (3)** Survey of U.S. foreign relations from initial encounters between Europeans and Native Americans through the 1890s. **DH**

**HIST 372 U.S. Foreign Relations From 1898 (3)** Survey of U.S. foreign relations from the wars of 1898 to the present. **DH**

**HIST 373 American Thought and Culture (3)** Politics, family, philosophy, technology, etc.; their interrelationship within the total society. Pre-Colonial to end of the 19th century. Pre: 151 or HIST 152 or AMST 150 or AMST 201 or AMST 202 or AMST 211 or AMST 212; or consent. (Cross-listed as AMST 343) **DH**

**HIST 374 American Thought and Culture (3)** Continuation of 373: the 20th century. Pre: 151 or 152 or AMST 150 or AMST 201 or AMST 202 or AMST 211 or AMST 212 or consent. (Cross-listed as AMST 344) **DH**

**HIST 378 History of American Business (3)** The evolution of business enterprise from colonial times to the present. Emphasis on entrepreneurship, technological change, labor-management relations, government-business relations, and economic thought. Case studies of industrial development. (Cross-listed as MGT 348) **DH**

**HIST 379 American Empire (3)** Examines the interplay between an "American culture of empire" and the rise of the U.S. as a superpower. Topics: imperialism and political culture, social movements and international affairs, race, gender and class relations. (Cross-listed as AMST 365) **DH**

**HIST 386 Caribbean History (3)** Survey of the history of the Caribbean region from 1500 to the present. A-F only. Pre: sophomore standing or higher, or consent. **DH**

**HIST 391 History of Warfare to 1850 (3)** Classical and guerrilla warfare, revolution, and military systems and institutions. **DH**

**HIST 392 History of Warfare Since 1850 (3)** Continuation of 391, from 1850 to present. **DH**

**HIST 393 U.S. Military History (3)** Survey of development of American military forces from War of Independence to war in Vietnam. **DH**

**HIST 394 History of Science to 1700 (3)** Evolution of scientific thought and its cultural context. Antiquity to 1700. **DH**

**HIST 395 History of Science Since 1700 (3)** Continuation of 394; science, technology, and society since 1700. **DH**

**HIST 396 (Alpha) Introduction to the Study of History (3)** Introduction to the discipline; current trends in Asian, European, American, and Pacific historiography; preparation for senior thesis (496). (B) historiography; (C) education. Pre: history major or consent.

**HIST 401 History of the Indian Ocean World (3)** Explores the transnational history of the Indian

Ocean world, especially the region connected by the western monsoon. Topics include travel, trade, religion, colonialism, nationalism, diaspora, and globalization, including actors like slaves, sailors, women, and merchants. A-F only. Pre: junior or senior standing or consent. (Alt. years) **DH**

**HIST 403 Vietnam: History and Memory (3)** Survey of Vietnamese history with particular attention to the multiple ways that the Vietnamese past has been remembered and represented by different peoples. Open to non-majors. **DH**

**HIST 406 Modern Philippines (3)** Survey of major developments from pre-colonial through Spanish and American colonial periods, the revolution, Japanese occupation, and post-war republic. (Cross-listed as ASAN 406) **DH**

**HIST 407 Modern Malaysia (3)** History of Malay peninsula and northern Borneo, emphasizing developments since 18th century: trade, commerce, foreign migrations, pluralism, nationalism, and Islam. **DH**

**HIST 408 Modern Indonesia (3)** Indonesia from 14th century to present. Emphasis on period from late 18th-century Western colonial impact to struggle for independence and problems of nationhood. **DH**

**HIST 409 History of Islamic Southeast Asia (3)** History of the coming of Islam to Southeast Asia, the spread of its ideas, and its role in the lives of Muslim communities living in the region. Junior standing or higher. GPA of 2.0 or higher. Pre: any HIST course. (Spring only) **DH**

**HIST 410 Twentieth-Century China (3)** An examination of the political, intellectual, economic, cultural, and social transformations of China in the twentieth century. This lecture studies critical events in the making of modern China and explores important issues in the modernization of Chinese life in the twentieth century. **DH**

**HIST 411 Local History of Late Imperial China (3)** Ch'ing government and Chinese society from local and regional perspectives; modes of control and disorder during the 19th century. **DH**

**HIST 412 Local History of 20th-Century China (3)** Sociopolitical change and continuity at local and regional levels since 1900, stressing provincial reform, Hsien and sub-Hsien politics, warlordism, Kuomintang tutelage, and the Chinese Communist movement and rule. **DH**

**HIST 416 Chinese Intellectual History (3)** An interpretive survey of Chinese ideas and values in their cultural, social and political settings from classical age to 1600. Pre: upper division standing or consent. **DH**

**HIST 417 Chinese Intellectual History (3)** Interpretive survey of Chinese thought from 1600 to the contemporary period, with special emphasis on the themes of cultural collision and change. **DH**

**HIST 418 China's Foreign Relations (3)** Systematic review from traditional times, with emphasis on modern and contemporary history, analyses of foreign policy formulation, objectives, and implementation. Recommended: 312. **DH**

**HIST 419 The Chinese Revolution (3)** Origins, development, and meaning of modern revolution in China, 19th century to People's Republic. Recommended: 311 and 312. **DH**

**HIST 420 People's Republic of China (3)** Salient developments from 1949 to the present. Social revolution and modernization, critically relevant foreign relations. Recommended: 312 or 419. **DH**

**HIST 421 China in World History (3)** Interpretive survey of China's changing position, significance, and function in the evolution of world history as a way to provide a better understanding of its past and present. Junior standing or higher. **DH**

**HIST 422 Tokugawa Japan (3)** Japanese history and culture, 1600–1867. Recommended: 321. **DH**

**HIST 423 Okinawa (3)** Survey of social, cultural, economic, and political history from earliest times to present. **DH**

**HIST 424 20th-Century Japan (3)** Problems of Japan's political, economic, and social development since institutional consolidation of Meiji state (c.1890). Pre: upper division standing or consent. **DH**

**HIST 425 Women in East Asian History (3)** Survey of the changing political, social, economic, and cultural positions of women in China, Japan, and Korea from ancient times to the present. Pre: one course in Japanese history or consent. **DH**

**HIST 431 Ancient Near East: Pyramids and Writing Tablets (3)** Civilizations of the Sumerians, Babylonians, Assyrians, ancient Egyptians, Hittites, Hebrews, and Achaemenid Persians. Emphasis on discussion of literary and archaeological materials. **DH**

**HIST 432 Crisis and Conflict in the Middle East (3)** In depth study and analysis of major crises and conflicts in the Middle East since World War II: the Arab–Israeli Wars, revolutions in the Arab countries, the Turkish experiment with secularism, the Iranian/ Islamic revolution, Afghanistan, the Gulf War. Recommended: 354 or 355. **DH**

**HIST 433 Medieval Cultures (3)** Topical study of cultural and cross-cultural issues in the medieval period (circa 300–1500). Class discussion and written work emphasize analysis of primary source documents using cultural and world history theories. Regional focus and readings vary by semester. Repeatable one time. **DH**

**HIST 434 History of Christianity to 1500 (3)** Historical analysis of the main traditions of Christianity and elements of diversity within Europe and in relation to other parts of the world. Focus on the interpretation of primary sources and discussion of cultural issues. (Alt. years: spring) **DH**

**HIST 436 World Environmental History, 1500 to Present (3)** Explores interactions between humans and the natural world from early modern era to the present. Topics include invader species and biotic exchange; environmental politics; and the ecological impact of industrialization, urbanization, science, technology, war, etc. Pre: junior standing or consent. (Once a year) **DH**

**HIST 438 European Cult of the Primitive (3)** Historical investigation of European beliefs in the superiority of primitive societies. Topics include how primitivist ideas shaped historiography, religion, art, gender, political economy, and empire. Pre: upper division standing or consent. (Alt. years: spring) **DH**

**HIST 439 The Darwinian Revolution (3)** Social and intellectual origins of evolutionary thought and its continuing impact; emphasis on Darwin and the Victorian scientific community. Pre: upper division standing or consent. **DH**

**HIST 440 20th-Century Europe (3)** Contemporary problems and their historical background. **DH**

**HIST 441 Expansion of Europe (3)** Historical processes in modern European colonization from 16th to 20th century; impact on non-Europeans in Asia and Africa. (Alt. years: fall) **DH**

**HIST 442 War and Violence in Early Modern Europe (3)** History of the intellectual, social, and cultural causes and consequences of violence, including military conflicts. Pre: upper division standing or consent. (Once a year) **DH**

**HIST 443 Nazi Germany (3)** Origins, establishment, and impact of Hitler's Third Reich. Recommended: 344. (Alt. years: spring) **DH**

**HIST 444 The History of the Holocaust (3)** The origins and progression of the Holocaust, the almost complete destruction of European Jews, and other Nazi genocidal policies. Open to nonmajors. **DH**

**HIST 445 French Revolution and Napoleon (3)** Causes, course, and conduct of the Revolutionary and Napoleonic periods, their impact upon Europe;

emphasis on the conflict of ideologies inherent in the Revolutionary process. **DH**

**HIST 448 Imperial Spain and Portugal (3)** The influence of Spain and Portugal on people and cultures in Europe, Africa, America, and Asia; Portugal's captivity and the defeat of the Spanish Armada. **DH**

**HIST 450 Topics in African History (3)** Selected themes important in African history, including, for example, the politics, economics, societies, and cultures of pre-colonial, colonial, or modern Africa. Topics to be pre-announced. Repeatable one time. (Once a year) **DH**

**HIST 451 (Alpha) History and Literature (3)** Explores the many relationships between history and literature, including how literature has reflected and shaped society in the past and our relationship to the past; (B) United States; (C) Europe; (D) Asia/Pacific; (E) World/Comparative; (F) Provisional topics. Repeatable one time for different alphas, not repeatable for (C). Pre: 151 or 152, or consent. **DH**

**HIST 452 (Alpha) History and Film (3)** Explores the many relationships between history and film including how film has reflected and shaped society in the past and our relationship to the past. (C) Europe; (D) Asia/Pacific. Repeatable one time for different alphas. Pre: junior standing or consent. (Once a year for (D)) **DH**

**HIST 454 Tsarist Russia (3)** Development of the Russian state to the 19th century. Kievan state and early development of culture and art; Mongol era; rise of Moscow, autocracy, and serfdom; Petrine reforms; Western impact; emergence as a major European power. **DH**

**HIST 456 Modern Russia (3)** Creation of the Soviet Union, Stalinization, the Cold War, the collapse of the empire, the post-Soviet era. **DH**

**HIST 457 Russia in Asia and the Pacific (3)** Russian/Soviet Siberia and Central Asia; Russian American Company and the Pacific; evolving relations with Asian and Pacific powers. **DH**

**HIST 458 The American Revolution (3)** Lecture/discussion on the origins, development, and consequences of the American Revolution, explored within the context of the broader revolutionary Atlantic world. Pre: junior standing or consent. (Once a year) **DH**

**HIST 459 African American History (3)** Lecture/discussion on the origins of racial slavery, slave and free black culture, slave resistance and antislavery, post-emancipation black life, the rise of Jim Crow, the Harlem Renaissance, and the Civil Rights Movement. **DH**

**HIST 460 Native American History (3)** Lecture/discussion on the history of North American Indians from the seventeenth century to the present. Open to nonmajors. **DH**

**HIST 461 Early America (3)** Lecture/discussion on Native Americans, Africans, and Europeans in North America from contact to independence. Social, cultural, and economic themes and intersections of race, class, and gender explored. **DH**

**HIST 462 The Early American Republic (3)** Lecture/discussion on the Constitution, the growth of partisan politics, the market revolution, religious revivalism, abolitionism and the expansion of slavery in the U.S. during the age of Jefferson and Jackson. **DH**

**HIST 463 American Civil War Era 1841–1877 (3)** The crisis of the Union: antebellum society and culture, slavery, reform, sectionalism, the Civil War and Reconstruction. **DH**

**HIST 464 Transformation of America 1877–1920 (3)** Selected themes that explain major changes in American life during the late 19th and early 20th centuries, including the westward movement, consolidation of capitalism, world power diplomacy, popular culture, progressivism, and World War I. **DH**

**HIST 465 The United States 1920–1948 (3)** The Roaring Twenties, the Depression, New Deal,

coming of World War II, America during the war, origins of the Cold War. **DH**

**HIST 466 The U.S.: 1948 to the Present (3)** The atomic age and the Cold War, the age of anxiety, the 1960s, the Vietnam War, the Reagan-Bush era, and beyond. **DH**

**HIST 467 American Television History (3)** Lecture/discussion examining the impact of television on American society, culture and politics. Analyzed in depth are family sitcoms, presidential politics, Vietnam and the presentation of gender and ethnicity. Open to nonmajors. **DH**

**HIST 468 Viva Las Vegas! (3)** Upper-division lecture on the historical and cultural significance of Las Vegas in twentieth-century America. Open to nonmajors. **DH**

**HIST 469 The Cold War (3)** Cold War as a global struggle. Topics will include U.S.-Soviet economic and political rivalry, Capitalism vs. Communism as practical policy and ideology, and the force of Third World anti-colonial nationalism. A-F only. Pre: junior standing or higher, or consent. **DH**

**HIST 471 Music, Industry, and Society (3)** History of U.S. music and recording industry. How industry relates to economy as a whole, and how it reflects broad patterns and trends in American culture and society. (Cross-listed as MUS 440) **DH**

**HIST 472 American Social History (3)** Introduction to the new social history; interdisciplinary approaches to the study of the everyday lives of ordinary Americans in past generations. **DH**

**HIST 473 Slavery and Freedom (3)** Examines the history of slavery, race, and abolition in the Americas from a comparative, global perspective, and traces the legacy of slavery in the post-emancipation societies of the New World. (Cross-listed as AMST 432) **DH**

**HIST 474 The American West (3)** Lecture/discussion surveying the conquest, colonization, and consolidation of North American frontiers and the post-frontier development of the American West. **DH**

**HIST 475 Constitutional History of the U.S. (3)** Origins, development of Constitution, Colonial to modern times. **DH**

**HIST 476 Race and Racism in America (3)** Racial ideas and ideologies, and their effects throughout American history. (Cross-listed as AMST 440) **DH**

**HIST 477 History of American Workers (3)** Conditions of labor in major phases of American development; response of labor and community to changing work environment. Capitalism, unionism, race, gender, law, etc. Emphasis on 20th century. (Cross-listed as AMST 431) **DH**

**HIST 478 Colonial Latin America (3)** Pre-Columbian civilizations: Spanish and Portuguese colonization; political, economic, social, and religious evolution to 1810; independence. (Cross-listed as LAIS 468) **DH**

**HIST 479 Latin America Since Independence (3)** Political, economic, and social development since 1825; case studies from Brazil, Mexico, and Cuba. **DH**

**HIST 480 American Environmental History (3)** Survey history of the complex relations between American societies and diverse U.S. ecosystems, from European contact and colonization to the present. (Cross-listed as AMST 425) **DH**

**HIST 481 Pacific Islands I (3)** The Pacific past from first human settlement to the start of the colonial period; emphasis on historiography and analysis of islanders' responses to Euro-American intrusion. **DH**

**HIST 482 Pacific Islands II (3)** The colonial experience to the present. **DH**

**HIST 483 United States in the Pacific (3)** Growth of economic and political interests and policies. **DH**

**HIST 484 The Hawaiian Kingdom 1819–1893 (3)** Transformation of Hawai'i into a state influenced by American and European ideas and institutions and Asian peoples. Pre: upper division standing or consent. **DH**

**HIST 485 History of 20th-Century Hawai'i (3)** Formation of an American Hawai'i with its unique local culture from 1898 to the present. Pre: upper division standing. **DH**

**HIST 489 World Maritime History (3)** Survey of world maritime history from earliest times to the present, with emphasis on the evolution of nautical technology, motives from maritime enterprises, and the impact of cross-cultural encounters between oceanic peoples. (Cross-listed as AMST 489) **DH**

**HIST 490 Maori and American Indians (3)** Compares indigenous sovereignty issues arising among the Maori or Aotearoa-New Zealand and Indian tribes of the U.S. from 1776 to the present. (Once a year) **DH**

**HIST 492 Women and Revolution (3)** Conditions under which women's activism and participation in protest and revolutionary movements developed in the 19th- and 20th-centuries. Cross-cultural comparisons. (Cross-listed as ASAN 492 and WS 492) **DH**

**HIST 495 (Alpha) History Colloquium (3)** Extensive or intensive treatment of special problems. (B) Philippines and Indonesia; (C) U.S. foreign relations; (D) history in Oceania; (E) Chinese traditional government. Recommended for honors students. Pre: 372 (or concurrent) or consent for (C); consent for (B) and (E). **DH**

**HIST 496 (Alpha) Senior Tutorial in History (3)** Analysis of sources and evaluation of methods of historical writing. Students undertake a major research and writing project in field of special interest. Capstone course requires a 20-25 page minimum final research paper. Required for majors except those in Honors Program. (B) United States; (C) Europe; (D) Asia/Pacific; (E) comparative/World. Pre: 396 (or concurrent).

**HIST 499 Directed Reading (V)** Individual projects in various fields. History majors with consent. Maximum 5 credit hours. (1) American; (2) Pacific; (3) Japanese; (4) European; (5) English; (6) Chinese; (7) Russian; (8) Hawaiian; (9) South Asian; (10) Southeast Asian; (11) Korean.

**HIST 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**HIST 602 Seminar in Historiography (3)** History of history and historians; philosophies of history.

**HIST 605 Seminar in Digital History (3)** Examines the various ways that the production, presentation, and learning of history through digital media is changing the way people access and process information about the past. Graduate standing only.

**HIST 609 Seminar in World History (3)** Analysis, research, and discussion of themes and issues in study of history of humankind. Repeatable one time. Pre: graduate standing or consent.

**HIST 610 Topics in World History (3)** Selected themes—feudalism, economic and industrial development, etc.—important in global history. Topics pre-announced. Repeatable one time. Pre: 609.

**HIST 611 (Alpha) Advanced Readings in European History (3)** Selected topics for advanced reading; (B) ancient; (C) medieval; (D) early modern; (E) modern; (G) intellectual. Repeatable one time. Pre: graduate standing or consent. (Alt. years: spring for (D)); (Alt. years: fall for (E))

**HIST 612 Ethnographic History (3)** Critical inquiry into historical representations of the "other" and ways in which modern historians have used culture and other anthropological concepts to write and think about the past.

**HIST 613 Introduction to Cultural Studies (3)** Graduate seminar designed to introduce history students to the multidisciplinary theories that are

appropriate to cultural studies. A-F only. Repeatable one time. Pre: history major or consent.

**HIST 614 (Alpha) Research in European History (3)** Selected topics for advanced research. (B) ancient; (C) medieval; (D) early modern; (E) modern; (G) intellectual. Repeatable one time. Pre: graduate standing or consent. (Once a year)

**HIST 615 (Alpha) Topics in European Colonialism (3)** Selected topics for comparative advanced reading and research. (D) early modern; (E) modern. Repeatable one time. Pre: graduate standing or consent. (Alt. years)

**HIST 616 Topics in Historical Methods and Theory (3)** Seminar covering one specific approach to historical methods or theory. The goal is a deep engagement with a particular historical approach via research and reading not bounded by region, time, or specialty. Repeatable one time. Graduate standing only.

**HIST 617 Atrocity Crimes: Law and History (3)** Seminar on history of mass atrocity and international justice in the modern world. Topics include post-WWII Allied war crimes prosecution, post-cold war ad hoc international criminal tribunals, and contemporary international law and national legal systems. Repeatable one time.

**HIST 618 (Alpha) Advanced Readings in Russian History (3)** (B) early Russia; (C) modern. Repeatable one time. Pre: 350 and graduate standing, or consent.

**HIST 621 (Alpha) Russia in East Asia and the Pacific (3)** (B) advanced readings; (C) advanced research on Siberia, Russian activities in the Pacific basin, evolving relations with Asian and Pacific powers. Repeatable one time per alpha. Pre: 457 and either 454 or 456; or consent.

**HIST 632 (Alpha) Advanced Readings in American History (3)** Interpretations and literature of important themes and problems. (B) early America; (C) the Republic to 1877; (D) industrial America; (E) recent America. Repeatable one time per alpha. Pre: appropriate 400-level U.S. history course or consent for (D) and (E); graduate standing or consent for (B) and (C). (Alt. years for (B)) ((B) Cross-listed as AMST 610)

**HIST 634 (Alpha) Research in American History (3)** (B) early America; (C) the Republic to 1877; (D) industrial America; (E) recent America; (F) foreign relations. Repeatable one time. Pre: appropriate 400 level course or consent.

**HIST 639 (Alpha) Advanced Topics in American History (3)** Seminar in advanced research and readings: (B) social and intellectual; (C) foreign relations; (F) the West; (K) business, labor, and technology. Repeatable one time for (B), (C) and (K). Pre: graduate standing and consent. ((B) Cross-listed as AMST 646); ((F) Cross-listed as AMST 614); ((K) Cross-listed as AMST 647)

**HIST 650 Seminar: Comparative Asia (3)** This reading seminar in the comparative history of modern Asia will introduce graduate students to themes, particularly in social, cultural, and intellectual history, which lend themselves to comparison across the region. Repeatable one time. Pre: graduate standing or consent. (Alt. years)

**HIST 656 Topics in Southeast Asia (3)** Reading and research seminar on themes about the past and present of Southeast Asia in a comparative framework. Pre: graduate standing or consent.

**HIST 657 Historiography of Southeast Asia (3)** Examination of contested boundaries of Southeast Asia, the various historiographic traditions, the colonial legacy, and the current issues emerging from a dialogue of historians from the "region" and the outside world. Repeatable one time.

**HIST 658 Seminar in Modern Southeast Asian History (3)** Graduate level reading seminar in modern Southeast Asian history. Repeatable one time. Pre: graduate standing or consent.

**HIST 659 The Seas in Southeast Asian History (3)** Seminar on the seas in Southeast Asian history. (Alt. years)

**HIST 660 Seminar: Vietnamese History (3)** Reading and research seminar on Vietnamese history. Repeatable one time. Pre: graduate standing or consent. (Alt. years)

**HIST 661 (Alpha) Seminar in Chinese History (3)** Problems and readings in political, social, and cultural history. (B) early; (C) middle; (D) modern. Repeatable one time.

**HIST 662 Seminar: Islam and Islamic Civilization (3)** Readings on the rise, spread, and development of Islamic cultures and civilizations throughout the world down to modern times. Repeatable one time. Pre: graduate standing or consent. Recommended: 354.

**HIST 663 Seminar in South Asian History (3)** Graduate-level reading and research seminar on topics in Indian and South Asian history. Repeatable one time.

**HIST 665 (Alpha) Seminar in Japanese History (3)** Problems, principal sources of bibliographic information. (B) traditional period to c.1600; (C) early modern 1600–1868; (D) 1868 to present; (E) 20th-century diplomatic. Repeatable one time per alpha.

**HIST 667 (Alpha) Seminar in Korean History (3)** Reading major interpretive works, and research in selected topics. (B) reading; (C) research. Repeatable one time per alpha. Pre: graduate standing or consent.

**HIST 675 (Alpha) Seminar in Pacific History (3)** Reading and research on major themes and issues. (B) South Pacific; (C) Micronesia; (D) 19th century; (E) 20th century. Repeatable one time per alpha. Pre: graduate standing or consent.

**HIST 677 Seminar in History of Hawai'i (3)** Reading seminar with short papers required. Covers Kingdom of Hawai'i and 20th-century Hawai'i in alternate years. Repeatable one time. (Alt. years: fall)

**HIST 678 Hawaiian Historical Research: Documents and Methods (3)** Research and writings emphasizing the interpretation of Hawaiian and English language primary sources. Development of source materials, approaches, and methods in Hawaiian history. A-F only. Graduate standing only. Pre: HAW 301 with a B or better, or instructor consent.

**HIST 699 Directed Research (V)** Individual research topics. (1) American; (2) Pacific; (3) Japanese; (4) European; (5) English; (6) Chinese; (7) Russian; (8) Hawaiian; (9) South Asian; (10) Southeast Asian; (11) Korean. Restricted to plan A (thesis) students. Maximum 2 credit hours. Repeatable one time. Pre: consent.

**HIST 700 Thesis Research (V)** Repeatable unlimited times.

**HIST 702 Institutional History of Korea (3)** Major political, economic, and social institutions. Repeatable one time. Pre: graduate standing or consent. (Alt. years: spring)

**HIST 713 Chinese Historical Literature (3)** Reading and use of numerous genres of Chinese historical literature and documents. Chinese bibliography. Knowledge of Chinese required. Repeatable one time.

**HIST 790 Teaching History (1)** HIST 151-152 faculty supervisors mentor their Teaching Assistants who teach the discussion labs. Course addresses issues of teaching strategy, grading and historical content. Enrollment limited to current Teaching Assistants in the World History Program. Repeatable seven times. A-F only. Pre: History graduate Teaching Assistants assigned to 151-152.

**HIST 800 Dissertation Research (V)** Repeatable unlimited times. Pre: consent.

## Honors (HON)

### Honors Programs

*These courses are limited to students in the Honors Programs.*

**HON 101 Introduction to Research and Creative Work at Mānoa (3)** Combines lectures by instructors and faculty guests with workshops and hands-on experience in small group projects, including bibliographic searches, laboratory science, social surveys and interviews. A significant portion is dedicated to writing instruction. Honors Program students only. A-F only.

**HON 120 Mathematical Modes of Thinking (3)** Mathematics as both a language and a thought process expressed in that language. Historical and contemporary relations to culture.

**HON 190 Honors Tutorial (1)** Supplements a 100 or 200 lecture course or standard lab time with discussion section, instructor-intensive lab time or directed research. Limited enrollment. Repeatable three times.

**HON 291 (Alpha) Sophomore Seminar (3)** Special inquiry-based study of multi-disciplinary topics in particular historical, cultural, geographical, environmental, or other contexts. Emphasis on primary sources and/or fieldwork. (B) biological science; (H) humanities; (P) physical science; (R) arts; (S) social science; (T) literature. Repeatable one time. A-F only. Pre: HON or departmental approval. **DB** for (B); **DH** for (H); **DP** for (P); **DA** for (R); **DS** for (S); **DL** for (T)

**HON 301 Public Policy-Making (3)** Students develop understanding of theory, practice, and ethical issues of public policy-making. Combines lecture/discussion and fieldtrips. Students develop policy analysis and strategic plans that identify issues, interests, and methods of influence. Repeatable one time. A-F only. Pre: 101 or 291, or departmental approval. (Cross-listed as POLS 386)

**HON 303 Civic Engagement, Volunteerism & Community Service (3)** Seminar on history and theory and practice of volunteerism in the U.S. Involves comparative study of volunteerism, individual research projects on volunteerism, and conduct of field service activities together with written reports. Repeatable one time. A-F only. Pre: 101 or 291, or departmental approval.

**HON 380 Peer Mentoring (3)** Students develop understanding of dynamics of leadership skills within the contexts of paired to large groups. Significant portion is dedicated to writing and oral communication instruction. Honors Program students only. Pre-semester training sessions, on-going training and supervision. Repeatable one time. A-F only. Pre: 101 or departmental approval.

**HON 399 Internship (V)** Field placement integrated with academic study of institutions and/or organizations. Repeatable 3 times or up to 12 credits. Pre: departmental approval.

**HON 491 Junior Seminar (3)** Project-based experiential learning involving community-based research or creative work. Focus on project design, practical skills, and teamwork. Significant portion is dedicated to writing instruction. Multi-disciplinary topics vary each semester. Honors Program students only. Repeatable one time. A-F only.

**HON 492 Honors Colloquium (3)** Weekly meetings for discussion of enduring issues and problems of an interdisciplinary nature. Limited to candidates for Honors degree. CR/NC only.

**HON 495 Introduction to Research (3)** Library research skills; scholarship of research and creative work; methodological and ethical issues; development of individual proposal or prospectus for Senior Honors Project. Limited to candidates for the Honors degree. Repeatable one time. CR/NC only.

**HON 496 Senior Honors Project (3)** Original research, creative work, performance or other form of scholarly project appropriate to a major and supervised by a faculty member. Limited to candidates for

Honors degree. Repeatable one time for each major. A-F only. Pre: 495 or consent.

**HON 499 Directed Reading/Research (V)** Directed reading and/or research. Repeatable 3 times or up to 12 credits.

*Selected Studies students also have the option of taking A-section courses from the following list when they are offered by departments:*

- AMST 150A America and the World FGB
- AMST 202A Diversity in American Life DH
- AMST 220A Introduction to Indigenous Studies DH
- ANTH 151A Emerging Humanity FGA

## Human Resources Management (HRM)

*Shidler College of Business*

### HRM 200 Career Development (1)

**HRM 351 Human Resource Management (3)** Survey of the field covering recruitment, selection, training, appraisals, grievance handling, communications, discipline, safety, compensation, and benefits.

**HRM 353 Leadership and Group Dynamics (3)** Develop understanding of theory and research on managerial, entrepreneurial leadership and creativity in organizations. Topics include leadership, decision making, motivation, personality, and rewards within group settings.

**HRM 354 Organizational Change and Effectiveness (3)** Identify and evaluate methods to promote an effective change transition through efficient integration of corporate goals with the organizational culture.

**HRM 361 Labor Problems (3)** Problems and economics of labor; history, structure, government, activities of trade unions. DS

**HRM 399 Directed Reading and Research (V)** Reading and research in a special area within the major field under direction of faculty member(s). Project must include statement of objectives, outline of activities planned, results expected, and how they are to be reported and evaluated. Must be approved in advance by the department chair and faculty advisor.

**HRM 453 Personnel Compensation (3)** Selected topics. Emphasis on trends, recent issues, job evaluation, incentive systems, salary administration, executive compensation, profit sharing, benefit programs, retirement plans. Pre: 351.

**HRM 455 The Staffing Process (3)** Contemporary practices and trends in personnel planning for a competent work force; legal constraints, recruitment and selection, differential placement, training, career programming. Pre: 351.

**HRM 463 Negotiation and Workplace Dispute Resolution (3)** Theory and practice in negotiating; design and operation of different kinds of workplace

dispute resolution (such as mediation, arbitration, and various alternatives); features exercises on bargaining and negotiation and advocacy and decision skills. Pre: 361 or consent. (Spring only)

**HRM 465 Labor and Social Legislation (3)** Evolution, interpretation, and application of labor and social welfare legislation with special emphasis on impact of labor-management relations. Pre: 361.

**HRM 467 Labor Management Relations (3)** Review and analysis of basic factors that distinguish employment relations; examination of the development of recent legislation and programs at federal, state, and municipal levels. Specific consideration given to current problems on the mainland and Hawai'i. Pre: consent.

**HRM 468 Training and Development (3)** Analysis of the current concepts and practices in the design, delivery, and assessment of training. A-F only.

**HRM 469 Seminar in HRM (3)** In-depth analysis of selected current practices and trends in HRM. May be repeated in a different topic. Pre: consent.

**HRM 671 Human Resource Management (3)** Analysis and critical evaluation of basic issues, policies, and trends in personnel administration.

**HRM 672 Training and Development (3)** Covers issues in design, delivery, and assessment of training, theoretical background of training and development process, types of training process, cross cultural and other types of diversity training and development of training modules.

**HRM 673 Advanced Organizational Behavior (3)** Organizational development (OD) and major concepts in organizational behavior. MHRM majors only. A-F only. (Alt years: fall)

**HRM 674 Finance for Human Resource Management (3)** Intends to give HR professionals a basic overview of the vocabulary and concepts of financial decision-making. Topics include: understanding financial information, budgeting, the finance of retirement and employee benefit and business valuation. MHRM majors only. A-F only. (Alt years: spring)

**HRM 675 Compensation (3)** Survey of compensation methods and procedures including job evaluations, incentive systems, salary administration, fringe benefits, appropriate legislation, policies and strategy issues of compensation systems.

**HRM 676 The Staffing Process (3)** Recruiting and selection to optimize organizations including job design, job analysis, recruitment and selection methods, such as types of interviews and assessment centers, within legislative environment.

**HRM 677 Negotiations and Labor Relations (3)** Theory and practice of negotiation. Exploration of appropriate strategies, tactics, and communication techniques. Study of dyadic multi-party, cross-cultural, and assisted negotiations. MHRM majors only. A-F only. (Alt years: summer)

**HRM 678 International Human Resources (3)** Exploring global trends in human resources with focus on the Asia Pacific region.

**HRM 679 Human Resource Management-Topics (3)** In-depth analysis of selected current practices and trends in human resources. Repeatable four times with change in topics. MHRM majors only. A-F only.

**HRM 680 Human Resource Management Capstone (3)** The final course in the MHRM curriculum. It provides students opportunity to integrate and apply previous course content to their professional organization offering a value-added opportunity to enhance organizational performance. MHRM majors only. A-F only. (Alt years: summer)

## Ilokano (ILO)

*College of Languages, Linguistics and Literature*

**ILO 101 Beginning Ilokano (4)** Listening, speaking, reading, writing. Structural points introduced inductively. Meets four hours weekly. HSL

**ILO 102 Beginning Ilokano (4)** Continuation of 101. Pre: 101 or consent. **HSL**

**ILO 107 Ilokano for Health Sciences (3)** Development of listening, speaking, reading, writing and other communication skills designed specifically for Nursing, Dentistry, Dental Hygiene, Public Health and Social Work students. Culture integrated with language study.

**ILO 201 Intermediate Ilokano (4)** Continuation of 102. Meets four hours weekly; three of four hours devoted to drill and practice. Pre: 102 or consent. **HSL**

**ILO 202 Intermediate Ilokano (4)** Continuation of 201. Pre: 201 or consent. **HSL**

**ILO 301 Third-Level Ilokano (3)** Continuation of 202. Conversation, advanced reading, composition. Meets three times weekly. Pre: 202 or exam, or consent.

**ILO 302 Third-Level Ilokano (3)** Continuation of 301. Pre: 301 or exam, or consent.

**ILO 315 Ilokano Aural Comprehension (3)** Training in listening comprehension of different authentic and simulated materials as presented in documentaries, soap operas, radio and television news and other broadcasts, formal lectures, plays, natural conversations, songs, and student-created sitcoms and dramas. Pre: 202 or consent.

**ILO 331 Contemporary Ilokano Literature (3)** Conducted in Ilokano, this course explores the literary landscape of Ilokano literature from the perspective of Ilokano writers based in the Philippines as well as those outside of the country. Pre: 301 or consent.

**ILO 401 Fourth-Level Ilokano (3)** Continuation of 302. Conducted in Ilokano. Advanced reading, writing, and conversation. Contemporary Ilokano literature; cultural and historical topics. Pre: 302 or equivalent.

**ILO 402 Fourth-Level Ilokano (3)** Continuation of 401. Pre: 401 or exam, or consent.

**ILO 424 Introduction to Ilokano for Interpreters (3)** Techniques for interpreting Ilokano into English and vice versa. A-F only. Pre: 302 or consent.

**ILO 425 Ilokano Interpretation Field Practicum (3)** Provide extensive practical training in consecutive, simultaneous, sight and telephonic interpreting. It requires observation and study of interpretation strategies and techniques in relevant situations. Pre: 301 or consent.

**ILO 451 Structure of Ilokano (3)** Introduction to phonology, morphology, and syntax. Pre: 202 or consent. **DH**

**ILO 486 Ilokano for the Mass Media (3)** Ilokano as the medium for print journalism, for radio show programming, and for television production. Pre: 302 or consent. (Fall only)

## Indo-Pacific Languages (IP)

*College of Languages, Linguistics and Literature*

*In addition to the languages normally offered by the department, other languages commanded by individual faculty members may be offered if demands and staff permit, e.g., classical Arabic, Asilulu, Avestan, Balinese, Javanese, Malaysian, Old Persian, and Sudanese. Interested students should consult the department chair. Language concentrations in certain other degree programs, e.g., through the Interdisciplinary Studies Program, may be arranged. Inquire at the department office.*

**IP 101 Directed Elementary Language Study (4)** Directed study of a South Asian, Southeast Asian, or Pacific language not regularly listed by the department. Pre: consent.

**IP 102 Directed Elementary Language Study (4)** Continuation of 101.

**IP 199 Introductory Language Study (V)** Introductory study of a South Asian, Southeast Asian, or Pacific language. Contact hours and credits determined by student interests and faculty resources. Repeatable up to eight credit hours. Pre: consent.

**IP 201 Directed Intermediate Language Study (4)** Continuation of 102. Pre: consent.

**IP 202 Directed Intermediate Language Study (4)** Continuation of 201.

**IP 261 Topics in Indo-Pacific Literature/Culture (V)** Study of a literature or culture of the Indo-Pacific area through readings in various fields in English. Repeatable up to six credit hours. Pre: consent.

**IP 273 (Alpha) Introduction to Indo-Pacific Language and Culture (3)** Introduction in English to language(s) and culture(s) of Indo-Pacific country or region. (B) Indian; (C) Southeast Asian; (D) Polynesian; (E) Philippines. Pre: 101 and 102 courses in relevant language or consent. **DH**

**IP 299 Intermediate Language Study (V)** Intermediate study of a South Asian, Southeast Asian, or Pacific language. Contact hours and credits determined by student interests and faculty resources. Repeatable up to eight credit hours. Pre: at least six credit hours of elementary study in the same language.

**IP 301 Directed Third-Level Language Study (3)** Continuation of 202. Pre: consent.

**IP 302 Directed Third-Level Language Study (3)** Continuation of 301.

**IP 360 Filipino Food, Music, and Rituals: Art and Culture Studies (3)** Study and analysis of the art and culture of Filipino food, music, and rituals—history, forms, social development, influences, and impact. Sophomore standing or consent. **DS**

**IP 361 Southeast Asian Literature in Translation (3)** Survey in English of traditional and modern literatures of Southeast Asia. (Cross-listed as ASAN 361) **DL**

**IP 362 Philippine Drama: History, Art, Culture (3)** Historical survey from precolonial to contemporary periods. Studies forms, conventions, and literature within the social, political, and cultural context of the times as reflected in the history of Philippine drama. Explores plays in the diaspora. A-F only. Pre: ILO 101 or consent. (Fall only) **DL**

**IP 363 Philippine Contemporary Literature in English (3)** Critical survey of 20th-century Philippine literature written in English; cultural values. Pre: one ENG DL course or consent. (Cross-listed as ENG 375) **DL**

**IP 364 Philippine Popular Culture (3)** Appreciation, re-examination, and analysis of Philippine popular culture produced in the Philippines and in the diaspora; an evaluation of such forms using critical hermeneutic frames. A-F only. Pre: sophomore standing or consent. **DH**

**IP 365 South Asian Literature in Translation (3)** Survey of traditional and modern literatures of South Asia; literature written originally in English. **DL**

**IP 366 South Asian Literature in Translation (3)** Survey of traditional and modern literatures of South Asia; a vernacular literature to be determined by faculty resources and student interest. **DL**

**IP 368 Introduction to South/Southeast Asian Film, History, Theory and Appreciation (3)** Study and analysis of South/Southeast Asian films—history, forms, development, theoretical framework and relationship to cultural, social, philosophical and aesthetic context. (B) Filipino. A-F only. Pre: one of ENG 270-272, or consent. **DH**

**IP 369E Study Abroad: Vietnam (3)**

**IP 373 Vedic Hindu Mythology (3)** Study of major Hindu myths of the Vedic Sanskrit literature within the perspective of ancient Indian civilization. Literary sources will be tapped for understanding creation, cosmogony and celestial, atmospheric and terrestrial divinities. A-F only. Pre: ANTH 200, ASAN 202, HIST 151, LLEA 122, or PHIL 102; or consent. (Fall only)

**IP 374 Classical Hindu Mythology (3)** Study of major myths of Epic Sanskrit literature, primarily with focus of the Ramayana and Mahabharata. Literary sources will be tapped for appreciating myths and

epics, especially with reference to dharma, karma, ways of life. Pre: ANTH 200, ASAN 202, HIST 151, LLEA 122, or PHIL 102; or consent. (Spring only)

**IP 377 Critical Discourses in IPLL Studies: Philippines (3)** Reevaluation and analysis of critical discourses in Philippine languages and literatures and an examination of alternative perspectives to the prevailing studies on Philippine culture; an appreciation of emerging knowledge on the Philippines. Pre: sophomore standing or higher, or consent.

**IP 389 Theories in Ilokano Studies (3)** Examines the various theories employed in the study of Ilokano society, language, and culture from a variety of historical periods. A-F only. Junior standing or higher, or consent. (Alt. years: spring)

**IP 395 Polynesian Folklore in Translation (3)** Traditional Polynesian genres (legends, myths, folktales, fables, proverbs, songs, riddles, jokes) examined in translation and culturally and structurally interpreted. Pre: one of ENG 270-272. **DL**

**IP 396 Philippine Literature and Folklore in Translation (3)** Philippine folk literature translated into English: epics, myths, legends, and other folklore. Classic works of vernacular writers. Pre: one ENG DL course or consent. (Cross-listed as ENG 376) **DL**

**IP 399 Third-Level Language Study (V)** Third-level study of a South Asian, Southeast Asian, or Pacific language. Contact hours and credits determined by student interests and faculty resources. Repeatable up to six credits. Pre: at least 6 credits of intermediate study of the same language.

**IP 401 Directed Fourth-Level Language Study (3)** Continuation of 302. Pre: consent.

**IP 402 Directed Fourth-Level Language Study (3)** Continuation of 401.

**IP 411 Ilokano Literature in Translation (3)** Overview of Ilokano literature from the early writings to the major works of contemporary writers. A-F only. Pre: ILO 201 or consent. **DL**

**IP 427 (Alpha) Topics in Samoan Literature (3)** (B) Writings of Albert Wendt; (C) Samoan women writers. Pre: SAM 227 or one of ENG 270-272; or consent for (B). Pre: SAM 227 or one of ENG 270-273 or WS 245; or consent for (C). **DL**

**IP 431 Rizal's Literary Works in Translation (3)** Interpretation and analyses of Rizal's novels *Noli* and *Fili* as they relate to the social, political, and historical context of the Spanish regime in the Philippines. Pre: one DL course, or consent. **DL**

**IP 432 The Writings of Carlos Bulosan (3)** Intensive study of the major writings of Carlos Bulosan; his literary and cultural milieu with thematic concentration on aesthetics and the issues of diasporic experiences (e.g., immigration, assimilation, nation, etc.) and transnationalism. Pre: 361 or 363 or 396 or 431 or any ENG DL. **DL**

**IP 465 (Alpha) Hawaiian and Indo-Pacific Teaching Practicum (3)** An experienced-based introduction to various approaches in language teaching methodologies and techniques. Students' skills in teaching the Hawaiian or an Indo-Pacific language are developed through supervised teaching, class planning and evaluation. (B) Southeast Asian languages. Repeatable one time. CR/NC only. Pre: 402-level of the language practicum or consent; (B) CAM 402 or IND 402 or THAI 402 (or concurrent) and consent of instructor or equivalent language skills.

**IP 470 Folklore (3)** Theory and method of comparative and analytical folklore study, with special applications to Pacific traditions. Pre: ANTH 200.

**IP 499 Directed Studies (V)** Study of a Pacific, South Asian, or Southeast Asian language through vernacular readings in various academic fields. Repeatable. Pre: third-level language and consent.

**IP 699 Directed Research (V)** Repeatable unlimited times. Pre: consent.

## Indonesian (IND)

*College of Languages, Linguistics and Literature*

**IND 101 Elementary Indonesian (4)** Emphasis on the development of communicative competence in both oral and written language. **HSL**

**IND 102 Elementary Indonesian (4)** Continuation of 101. Pre: 101. **HSL**

**IND 103 Beginning Indonesian I (3)** Introduction into the Malay-Indonesian language for the purpose of communication, travel, further study, and enjoyment. (Fall only) **HSL**

**IND 104 Beginning Indonesian II (3)** Introduction into the Malay-Indonesian language for the purpose of communication, travel, further study, and enjoyment. (Spring only) Pre: 103. **HSL**

**IND 201 Intermediate Indonesian (4)** Continuation of 102 or 104. Pre: 102 or equivalent. **HSL**

**IND 202 Intermediate Indonesian (4)** Continuation of 201. Pre: 201. **HSL**

**IND 203 Intermediate Indonesian I (3)** Intermediate Indonesian language study for the purpose of communication, travel, further study, and enjoyment. Pre: 102 or 104 or equivalent language skills in Indonesian or Malay, or consent. (Fall only) **HSL**

**IND 204 Intermediate Indonesian 2 (3)** Intermediate Indonesian language study for the purpose of communication, travel, further study, and enjoyment. Pre: 201 or 203 or equivalent language skills in Indonesian or Malay. (Spring only) **HSL**

**IND 301 Third-Level Indonesian (3)** Continuation of 202. Conducted in Indonesian. Meets three hours a week. Reading, discussion, composition, and projects. Pre: 202 or consent.

**IND 302 Third-Level Indonesian (3)** Continuation of 301. Pre: 301.

**IND 305 Third Level Indonesian (2)** Online course consists of modular, thematic, proficiency-based units exploring the language of the contemporary Indonesian media with an emphasis on reading, writing, and listening comprehension. Not open to students who have taken IND 301. Pre: 202, 204, or consent.

**IND 306 Third Level Indonesian (2)** Online course consists of modular, thematic, proficiency-based units exploring colloquial and formal Indonesian with a strong emphasis on listening and writing comprehension. Not open to students who have taken 302. Pre: 301 or 305 (or equivalent), or consent. (Spring only)

**IND 307 Third Level Indonesian Conversation (2)** Topic-based course aimed to enhance student's listening and speaking skills in the Indonesian language. Not open to students who have taken 301. Pre: 202, 204, or consent. Co-requisite: 305. (Fall only)

**IND 308 Third Level Indonesian Conversation (2)** Topic-based course aimed at enhancing students' listening and speaking skills in the Indonesian language. Not open to students who have taken 302. Pre: 301 or 307, or consent. Co-requisite: 306. (Spring only)

**IND 401 Fourth-Level Indonesian (3)** Continuation of 302. Conducted in Indonesian. Meets three hours a week. Readings in various materials; speaking in various settings. Pre: 302 or 308, or consent.

**IND 402 Fourth-Level Indonesian (3)** Continuation of 401. Pre: 401 or 405.

**IND 405 Fourth Level Indonesian (2)** Online course consists of modular, thematic, proficiency-based units exploring the language of the contemporary Indonesian media with an emphasis on reading, writing, and listening comprehension. Pre: 302, 306, or consent. (Fall only)

**IND 407 Fourth Level Indonesian Conversation (1)** Topic-based course aimed to enhance students' listening and speaking skills in the Indonesian language. Pre: 302, 306, or consent. Co-requisite: 405. (Fall only)

**IND 452 Structure of Indonesian (3)** Introduction to grammar; some sociolinguistic background. Pre: 302 or equivalent, or consent. **DH**

**IND 454 History of Indonesian (3)** Social and linguistic development of Indonesian from roots in earlier Malay to contemporary form and function. Pre: 202 and 452, or consent. **DH**

**IND 461 Modern Indonesian Literature (3)** Selected readings, 1900 to present. Discussion and composition. Pre: 402 or consent. **DL**

## Information and Computer Sciences (ICS)

*College of Natural Sciences*

**ICS 101 (Alpha) Tools for the Information Age (4)** Fundamental concepts and terms of computer technology, application software for problem solving, computer technology trends and impact on individuals and society. (B) general; (T) education. (T) intended for students interested in careers in education.

**ICS 110 Introduction to Programming Through 3D Animations (3)** Introduction to computer programming and object-oriented programming concepts using movies and games where the concept of "object" is visible and animated in 3D. (Once a year)

**ICS 111 Introduction to Computer Science I (4)** Overview of computer science, writing programs. Pre: Recommended: computer experience.

**ICS 141 Discrete Mathematics for Computer Science I (3)** Logic, sets, functions, matrices, algorithmic concepts, mathematical reasoning, recursion, counting techniques, probability theory. **FS**

**ICS 210 Information Systems in Society (3)** Lecture/discussion critically explores sociopolitical dimensions of Information and Communication Technology (ICT), and the information professions. A-F only. Pre: departmental approval. (Once a year)

**ICS 211 Introduction to Computer Science II (3)** Algorithms and their complexity, introduction to software engineering, data structures, searching and sorting algorithms, numerical errors. Pre: grade of "B" or higher in 111 or consent.

*All students wishing to enroll in ICS courses above 211 except ICS 241 must meet the prerequisite grade requirement of B or higher in ICS 111 and 211 prior to registering for the course.*

**ICS 212 Program Structure (3)** Program organization paradigms, programming environments, implementation of a module from specifications, the C and C++ programming languages. Pre: 211 or consent.

**ICS 215 Introduction to Scripting (3)** Introduction to scripting languages for the integration of applications and systems. Scripting in operating systems, web pages, server-side application integration, regular expressions, event handling, input validation, selection, repetition, parameter passing, Perl, JavaScript, and PHP. A-F only. Pre: 211 (or concurrent), or consent. (Once a year)

**ICS 241 Discrete Mathematics for Computer Science II (3)** Program correctness, recurrence relations and their solutions, divide and conquer relations, relations and their properties, graph theory, trees and their applications, Boolean algebra, introduction to formal languages and automata theory. Pre: 141 or consent. **FS**

**ICS 290 Computer Science Careers: An Exploration of the Specialties of Computer Science (1)** Exploration of the specialties of computer science. Meets every two weeks for 2.5 hours to explore specific areas in computer science. CR/NC only. (Once a year)

**ICS 311 Algorithms (3)** Design and correctness of algorithms, including divide-and-conquer, greedy and dynamic programming methods. Complexity analyses using recurrence relations, probabilistic methods, and NP-completeness. Applications to or-

der statistics, disjoint sets, B-trees and balanced trees, graphs, network flows, and string matching. Pre: 211 and 241, or consent.

**ICS 312 Machine-Level and Systems Programming (3)** Machine organization, machine instructions, addressing modes, assembler language, subroutine linkage, linking to higher-level languages, interface to operating systems, introduction to assemblers, loaders and compilers. Pre: 212 (or concurrent), or consent.

**ICS 313 Programming Language Theory (3)** Syntax, semantics, control structures, variable binding and scopes, data and control abstractions. Programming in functional (LISP) and logic (Prolog) programming styles. Pre: 212 and 241, or consent.

**ICS 314 Software Engineering I (3)** System specification, modeling and analysis, prototyping, hierarchical design, program design methods, cost estimation, project management, computer-aided software design. Team-oriented software-design project. Pre: 211 or consent.

**ICS 315 Web Design and Management (3)** Web design principles, XML and HTML, tables, forms, and frames, multimedia objects, security, scripting for web applications, web servers, commercial aspects, new technology. A-F only. Pre: 215 or consent. (Once a year)

**ICS 321 Data Storage and Retrieval (3)** Data storage devices, timing and capacity, programming for files, hashed and indexed files, introduction to relational database systems. Pre: 211 or consent.

**ICS 331 Logic Design and Microprocessors (4) (1 3-hr Lab)** Basic machine architecture, microprocessors, bus organization, circuit elements, logic circuit analysis and design, microcomputer system design. Pre: 212 or consent.

**ICS 332 Operating Systems (3)** Operating system concepts and structure, processes and threads, CPU scheduling, memory management, scheduling, file systems, inter-process communication, virtualization, popular operating systems. A-F only. Pre: 211.

**ICS 351 Network Design and Management (3)** Overview of the internet and its capabilities; introduction to HTTP, TCP/IP, ethernet, and wireless 802.11; routers, switches, and NAT; network and wireless security; practical experience in designing and implementing networks. Pre: 141 and 211, or consent. (Once a year)

**ICS 361 Introduction to Artificial Programming (3)** Introduction to the theory of Artificial Intelligence and the practical application of AI techniques in Functional (Common LISP and/or Scheme) and Logic (Prolog) programming languages. Students gain practical experience through programming assignments and projects. A-F only. Pre: 241 and (212 or 215), or consent.

**ICS 390 Computing Ethics for Lab Assistants (3)** A lecture/discussion/internship on ethical issues and instructional techniques for students assisting a laboratory section of ICS 101. The class uses multiple significant writing and oral presentation activities to help students learn course content. Pre: 101(Alpha) and consent.

**ICS 414 Software Engineering II (3)** Continuation of 314. Project management, quality, and productivity control, testing and validation, team management. Team-oriented software-implementation project. Pre: 314.

**ICS 415 Introduction to Programming for the Web (3)** Introduction to emerging technologies for construction of World Wide Web (WWW)-based software. Covers programming and scripting languages used for the creation of WWW sites and client-server programming. Students will complete a medium-sized software project that uses languages and concepts discussed in class. Pre: 311 or consent.

**ICS 419 The Science, Psychology and Philosophy of Systems Design (3)** Scientific, psychological and philosophical bases of systems design, including a survey of human-factors and ergonomic standards; the nature of innovation and creativity as it relates

to systems design. Web-enhanced course. Pre: two ICS 300-level courses with grade of B or better, or consent. (Once a year)

**ICS 421 Database Systems (3)** Principles of database systems, data modeling, relational models, database design, query languages, query optimization, concurrency control data security. Pre: 311 and 321, or consent.

**ICS 422 Data Processing (3)** Role of data processing in organizations, programming practices, ethics, sequential and indexed file processing, report writing, online transaction processing. Pre: 321 or consent.

**ICS 423 Computer Security (3)** Legal, ethical and technology issues in computer access, confidentiality, authentication, privacy and intellectual property. Pre: both 311 and 312, or consent.

**ICS 424 Application Frameworks (3)** Experience producing applications with at least two different applications frameworks. A-F only. Pre: 212, 311, and 313; or consent.

**ICS 425 Computer Security and Ethics (3)** Theoretical results, security policy, encryption, key management, digital signatures, certificates, passwords. Ethics: privacy, computer crime, professional ethics. Effects of the computer revolution on society. A-F only. Pre: at least two ICS 300-level courses or consent. (Once a year)

**ICS 426 Computer System Security (3)** Information flow, confinement, information assurance, malicious programs, vulnerability analysis, network security, writing secure programs. A-F only. Pre: 351 or 451, or consent. (Once a year)

**ICS 431 Computer Architecture (3)** Memory management, control flow, interrupt mechanisms, multiprocessor systems, special-purpose devices. Pre: 331.

**ICS 432 Concurrent and High-Performance Programming (3)** Principles of concurrent and high performance programming. Multi-threading in C and Java for shared-memory programming. Distributed memory programming with Java. Introduction to cluster computing. A-F only. Pre: 212 or consent. (Once a year)

**ICS 435 Machine Learning Fundamentals (3)** Introduction to machine learning concepts with a focus on relevant ideas from computational neuroscience. Information processing and learning in the nervous system. Neural networks. Supervised and unsupervised learning. Basics of statistical learning theory. Pre: 311 or consent. Recommended: MATH 307. (Once a year)

**ICS 441 Theory of Computation (3)** Grammars, sequential machines, equivalence, minimalization, analysis and synthesis, regular expressions, computability, unsolvability, Gödel's theorem, Turing machines. Pre: 311 or consent.

**ICS 442 Analytical Models and Methods (3)** Applications of mathematical methods in computer science with emphasis on discrete mathematics, numerical computation, algebraic models, operations research. Pre: 311 or consent.

**ICS 451 Data Networks (3)** Network analysis, architecture, digital signal analysis and design; circuit switching, packet switching, packet broadcasting; protocols and standards; local area networks; satellite networks; ALOHA channels; examples. Pre: 212 and 311, or consent.

**ICS 452 Software Design for Robotics (3)** Sensors, actuators, signal processing, paradigms of robotic software design, introduction to machine learning, introduction to computer vision, and robot-to-human interaction. A-F only. Pre: two ICS 300-level courses or consent. Recommended: 312 and 313. (Once a year: spring)

**ICS 461 Artificial Intelligence (3)** Survey of artificial intelligence: natural language processing, vision and robotics, expert systems. Emphasis on fundamental concepts: search, planning, and problem solving, logic, knowledge representation. Pre: 311 or consent.

**ICS 462 Artificial Intelligence for Games (3)** Techniques to stimulate intelligence in video games: movement, pathfinding with A\* search, decision/behavior trees, state machines, machine learning, tactics. Extend games with your own AI implementations; experience "shootout" contests for the best AI algorithm/implementation. Pre: 212 and (314 or 361) and (PHYS 151 or PHYS 170). (Alt. years)

**ICS 464 Human Computer Interaction I (3)** Application of concepts and methodologies of human factors, psychology and software engineering to address ergonomic, cognitive, and social factors in the design and evaluation of human-computer systems. Pre: two ICS 300-level courses or consent.

**ICS 465 Introduction to Hypermedia (3)** Basic issues of interactive access to information in various formats on computers. Available hardware and software: editing, integration, programming. Implementation of a sample information system. Pre: 311.

**ICS 466 Design for Mobile Devices (3)** Lecture introducing design issues, programming languages, operating systems and mark-up languages for internet-enabled mobile devices, such as cell phones and PDAs. A-F or Audit. Pre: 314 or consent. (Spring only)

**ICS 469 Cognitive Science (3)** Introduces basic concepts, central problems, and methods from cognitive science. Identifies contributions from disciplines such as cognitive psychology, linguistics, artificial intelligence, philosophy, and neuroscience. Pre: two ICS 300-level courses or consent.

**ICS 471 Probability, Statistics, and Queuing (3)** A hands-on introduction to probability, statistical inference, regression, Markov chains, queuing theory. Use of an interactive statistical graphics environment such as R. Pre: 241 and 311, or consent.

**ICS 475 Introduction to Bioinformatics Sequences and Genomes Analysis (3)** Introduction to bioinformatics to computer sciences students by focusing on how computer sciences techniques can be used for the storage, analysis, prediction and simulation of biological sequences (DNA, RNA and proteins). A-F only. Pre: one ICS 300-level course or consent. (Once a year)

**ICS 476 Bioinformatics Algorithms and Tool Development (3)** Study of commonly used bioinformatic algorithms, with an emphasis on string, tree, and graph algorithms. Presentation of probabilistic and clustering methods. Implementation of the studied algorithms and design of applications. Pre: 475 or consent. (Once a year)

**ICS 481 Introduction to Computer Graphics (3)** Fundamentals of computer graphics including graphics hardware, representation, manipulation, and display of two- and three-dimensional objects, use of commercial software. Pre: 311 and either MATH 216, MATH 242, or MATH 252A; or consent.

**ICS 483 Computer Vision (3)** Introductory course in computer vision. Topics include image formation, image processing and filtering, edge detection, texture analysis and synthesis, binocular stereo, segmentation, tracking, object recognition and applications. A-F only. Pre: 212 and 311, or consent. Once a year.

**ICS 491 Special Topics (3)** Reflects special interests of faculty. Oriented toward juniors and seniors. Repeatable one time for BS/CS students. Pre: at least two 300-level ICS classes or consent.

**ICS 499 Computer Project (V)** Individual or small-group projects in system design or application under faculty supervision. Pre: consent.

**ICS 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**ICS 606 Intelligent Autonomous Agents (3)** Theory, methods and practical applications of autonomous agent systems, including common applications of both software and hardware (robotic) agents. In-depth practical experience with autonomous agents through programming assignments and projects. Pre:

313 or EE 467 (or equivalent), graduate standing; or consent. (Once a year) (Cross-listed as EE 606)

**ICS 611 Compiler Theory and Construction (3)** Design and implementation of compilers, syntactic and semantic descriptions of programming languages, algorithms for syntactic analysis and object code generation. Pre: 312 or consent.

**ICS 612 Theory of Operating Systems (3)** Advanced study in operating systems theory and design with emphasis on case studies and distributed systems.

**ICS 613 Advanced Software Engineering (3)** Fundamental software engineering procedures, including planning, estimation, design, testing, process definition and improvement, and software quality assurance. Measurement techniques are used to support empirically-driven software process improvement throughout the course. Pre: 414 or consent.

**ICS 614 Medical Informatics I (3)** Introduction to the field of medical informatics, which is found at the intersection of clinical science, public health, information science, computer technology and communications technology. Concentration on current issues. Pre: consent.

**ICS 616 Information Architecture and Web Design (3)** User-centered design of websites; survey Information Architecture (IA) systems (organization, navigation, labeling, searching); gain experience in methodologies for creating IA, tools for IA, web standards and usability tests. ICS and LIS majors only. A-F only. Pre: graduate standing in ICS or LIS or related field or consent. (Once a year)

**ICS 621 Analysis of Algorithms (3)** Analysis and design of algorithms: modeling, comparison, measures, applications. Pre: 311.

**ICS 622 Systems Modeling and Evaluation (3)** Mathematical modeling, analysis, optimization, and simulation techniques, applications to design and evaluation of computer software systems. Pre: 311 or consent.

**ICS 623 Data Security (3)** Symmetric encryption algorithms, secure hashing, algorithms, unicity distance, large number and finite field algebra and arithmetic, public key algorithms for encryption, digital signatures, and key exchange. Pre: 311 or consent.

**ICS 624 Advanced Data Management (3)** Exploration of information retrieval and object-relational tools and methods for the management of distributed multimedia database systems. Pre: 321 or 421 or LIS 670, or consent.

**ICS 632 Principles of High Performance Computing (3)** Principles of high performance computing for single-processor and parallel architectures. Detailed coverage of parallel architectures and exposure to shared-memory, distributed-memory, and hybrid parallelism. Hands-on experience with message-passing and multi-threaded programming. A-F only. Pre: graduate standing in computer science or closely related field, or consent. (Once a year)

**ICS 635 Machine Learning (3)** Introduction to key theoretical concepts of machine learning. Practical experience with decision free methods, artificial neural networks. Bayesian belief networks and contemporary statistical methods including regression, clustering and classification. Pre: consent. (Once a year)

**ICS 636 Information Theory in Machine Learning (3)** Basics of information processing and learning in the brain; neural networks; learning algorithms based on information maximization; applications in molecular biology and bioinformatics. A-F only. Pre: graduate standing in computer science or mathematics background, or consent. (Once a year)

**ICS 641 Advanced Theory of Computation (3)** Advanced topics in formal languages, automata, computability, computational complexity. Pre: 441 or consent.

**ICS 651 Computer Networks (3)** Elementary principles of modern computer networking. Detailed

coverage of overall architecture and the physical, data link, and network layers, with emphasis on the network layer. Pre: 461.

**ICS 661 Advanced Artificial Intelligence (3)** Current issues in artificial intelligence, including expert systems, knowledge representation, logic programming, learning, natural language processing. Pre: 461 or consent.

**ICS 663 Pattern Recognition (3)** Nature of the problem in pattern recognition and clustering; explanation of various algorithms. Pre: MATH 371.

**ICS 664 Human-Computer Interaction II (3)** Studies of human performance in designing and using information systems. Emphasizes concepts and methodologies from human factors, psychology, and software engineering relating to human performance. Pre: 464 or consent.

**ICS 665 User Interfaces and Hypermedia (3)** Advanced concepts in construction of interfaces between computers and their users. Hypermedia information structures, guidelines, problems, and tradeoffs. Discussion of selected readings, implementation of prototypes. Pre: 465.

**ICS 667 HCI Design Methods (3)** Advanced analytical and empirical methods for the design and evaluation of usable, useful, and robust human-computer interfaces. Students will apply selected methodologies to a major system design project. Pre: 464 or 465, or consent.

**ICS 668 Social Informatics (3)** An advanced introduction to the design of human-computer systems and other technological artifacts for supporting human collaboration in learning, work and social contexts, and to theoretical perspectives and empirical studies of collaboration that inform such design. A-F only. Pre: 464 or 465 or 664 or 665 or 667 or LIS 677; or consent.

**ICS 669 Social Computing (3)** Participative analysis of online communities and user-generated content collections. Theoretical and practical aspects of online interaction, identity, trust, and virtual social capital. A-F only. (Once a year)

**ICS 674 Evolutionary Computation I: Survey of Methods (3)** Evolutionary computation surveys in the field to prepare students for research. Topics include diverse engineering applications, theory, and concepts including search spaces, representation, objective functions, variation operators, selection, and population based search. Pre: 211 (B or better) and 241 (C or better) and admitted to a graduate program or capable of graduate-level work in computer sciences, or consent. (Once a year: fall)

**ICS 675 Bioinformatics: Sequences Analysis (3)** To expose students to bioinformatics at the biological sequences analysis level (DNA, RNA, proteins). Several bioinformatics methods and algorithms are introduced. Students are required to present one paper and to participate in a small group project. A-F only. Pre: 475 or MBBE 683, or consent. (Once a year)

**ICS 676 Bioinformatics: Microarrays (3)** Introduction to the basic principles of biology relevant for microarray gene expression data and to Bioconductor. Collaborative open-source project to develop a modular general framework for the analysis of cDNA arrays and gene chips. A-F only. Pre: 311 or background in biology, or consent. (Once a year)

**ICS 681 Computer Graphics (3)** Selected advanced topics in computer graphics. Substantial project required. Pre: 481 or consent.

**ICS 682 Numerical Computation (3)** Selected topics in numerical analysis, mathematical software, and scientific computation; examples include sparse matrix methods, finite element methods, mathematical programming. Pre: consent.

**ICS 683 Advanced Computer Vision (3)** Fundamental problems and core concepts and techniques in computer vision, covering both theoretical and practical issues in the field. A-F only. Pre: 483 or consent. (Once a year)

**ICS 686 Digital Video Information (3)** Principles and techniques of technical and context analysis of digital video information. Video capture and editing tools, compression and analysis algorithms, visual culture, narrative structure, juxtaposition of multimedia elements and their effects on information transmission. Pre: graduate standing or consent. (Alt. years)

**ICS 690 Seminar in ICS (1)** Series of talks on advanced research topics. Repeatable unlimited times. CR/NC only.

**ICS 691 Topics in Software (3)** Reflects special interests of faculty in theoretical computer science. Repeatable in different topics. Pre: consent.

**ICS 699 Directed Reading/Research (V)** Repeatable unlimited times. Pre: graduate standing and consent.

**ICS 700 Thesis Research (V)** Research for master's thesis. Repeatable unlimited times.

**ICS 800 Dissertation Research (V)** Research for doctoral dissertation. Repeatable eight times. Pre: candidacy for PhD in computer science.

## Information Technology Management (ITM)

*Shidler College of Business*

**ITM 115 Using Computers and Applications (3)** Using Windows computers browsers, Microsoft Office (or equivalent) and other applications. A-F only.

**ITM 321 Project Management (3)** Project management application and techniques such as planning methods; PERT/CPM forecasting; risk analysis; application in information technology projects and other areas. Pre: BUS 310 and 311.

**ITM 322 Supply Chain Processes (3)** Improving organization productivity with an emphasis on analyzing supply chain processes and principles in terms of scheduling, inventory, quality control techniques, through most current practices. Pre: BUS 310 and 311.

**ITM 352 Programming Application Systems (3)** Introduction to applications programming. Fundamentals, essential logic, file handling, report writing. Emphasis on systems development and disciplined programming. A-F only. Pre: ICS 101(Alpha) or equivalent, or consent.

**ITM 353 Information Systems Analysis and Design (3)** Analysis and design of systems in organizations. Includes role of general systems concepts, systems development life cycle, identifying systems requirements, logical and physical design. Pre: 352 and BUS 311.

**ITM 354 Database Systems (3)** Introduction to database management and data structures, including database planning and design, normalization, relational and network data models, and physical organization and implementation. Pre: 353.

**ITM 360 Current Topics in ITM (3)** Repeatable with permission of department chair. Pre: varies with topic.

**ITM 366 Information Systems in Organizations (3)** Practice of information systems in organizations. Capstone course for MIS majors. A-F only. Pre: 353 and 354 (or concurrent), and BUS 311.

**ITM 385 Electronic Commerce (3)** Survey of electronic commerce technologies and business strategies, with an emphasis on technology and application development. The development of web-based and multimedia applications; the impacts of EC on business strategy; legal and ethical issues. A-F only. Pre: BUS 311 or consent.

**ITM 387 (Alpha) Advanced Topics in Information Systems (3)** Computerized management information systems, operations research or business statistics: (B) software systems economics; (C) advanced topics in programming; (D) web-based application development; (E) advanced technology in MIS; (F) systems development; (G) database systems;

(H) advanced business applications; (J) ethics of technology; (K) business intelligence. Repeatable with permission of department chair. Pre: varies with topic.

**ITM 399 Directed Reading and Research (V)** Reading and research in special area of major under direction of faculty member(s). Project must include statement of objectives, outline of activities planned, results expected, and how they are to be reported and evaluated. Must be approved in advance by the department chair and the faculty advisor.

**ITM 431 Networking and Security (3)** Basic concepts in networking and security. Network standards and technologies. Network planning and design. LANs and WANS, wireless networking. Security threats and countermeasures. Security planning and policies.

**ITM 433 Advanced Security (3)** Designed around the plan-protect-respond cycle. Security threats, cryptographic security, access control, identity management, firewalls, intrusion detection systems, host hardening, and application security. Repeatable one time. Pre: 431 or consent. (Once a year)

**ITM 660 Current Topics in Information Systems (3)** Selected current practices and trends in decision sciences and MIS. May be repeated with change in topic. Pre: BUS 630 and BUS 631, or consent.

**ITM 680 Project Management, Information Technology and Change (3)** Lectures and discussions to contextualize knowledge and techniques of project management in organizational change, globalization and outsourcing, global teamwork, intercultural awareness, negotiation and leadership. Semester long group project. Open to all graduate students. (Once a year)

**ITM 685 Electronic Commerce (3)** Overview and discussion of the latest developments in e-commerce, hardware and software developments to support e-commerce, cases studies of successes and failures, and e-commerce applications with special emphasis on developing countries in Asia. A-F only. Pre: BUS 630 or consent. (Once a year)

**ITM 699 Directed Research (3)** Reading and research in ITM under the direction of a faculty member. A-F only.

**ITM 704 Doctoral Seminar in Information Systems (3)** Extensive and critical review of the IS research literature. Can be retaken for credit. Repeatable three times. A-F only. Pre: CIS 703 (or concurrent) or consent.

**ITM 706 International IT Organizational Research Methods (3)** Overview of current survey methodology and analysis in global information systems research. A-F only. Pre: PhD student status in international management or consent.

**ITM 799 Directed Reading and Research (V)** Reading and research in an area of information technology management under the direction of faculty member(s). A-F only. Pre: PhD student status in international management or consent.

## Institute for Teacher Education (ITE)

*College of Education*

**ITE 312 Introduction to Teaching, Elementary (V)** Standards-based planning, assessment, instruction, reflection; inclusive classroom management; unique multicultural environment; issues in education and curriculum. Developing knowledgeable, effective, caring professionals to support student's academic, social, emotional, physical needs. Emphasis on writing instruction. A-F only. Co-requisite: 317.

**ITE 313 Principles and Methods of Reading Instruction (V)** First of two methods courses focusing on theories and research-based practices related to reading instruction in elementary classrooms. Emphasis on writing instruction. A-F only.

**ITE 314 Principles and Methods of Writing Instruction (V)** Second of two methods courses

focusing on theories and research-based practices related to writing instruction in elementary classrooms. Emphasis on writing instruction. A-F only.

**ITE 315 Field Training – Blended ECE (4)**

Students spend 15 hours per week in settings appropriate to concurrently enrolled classes; supervision provided by participating teacher and college supervisor. Repeatable two times. A-F only. Pre: 415 and SPED 304 (with a minimum grade of B-), or consent. Cross-listed as SPED 315)

**ITE 316 Field Experience (2)** Supervised field experience in schools. Minimum of 8 hours per week in conjunction with professional education courses. Repeatable three times. CR/NC only.

**ITE 317 Field Experience (V)** Supervised field experience in schools. Minimum of 2 full days per week in classrooms, plus mandatory seminar scheduled by UH Mānoa field supervisor. Taken in conjunction with professional education courses. Repeatable five times. CR/NC only.

**ITE 319 Children's Literature (2)** Acquaintance with wide range of children's books; criteria for evaluation of literature; using literature in the classroom. DL

**ITE 321 Social Studies and Science in Early Childhood Education (3)** Assessment, instructional methods, and materials for teaching social studies and science to children in preschool through grade 3. Emphasis on developmentally appropriate practices and lesson planning for teaching social studies and science. A-F only. Pre: 417, and 315 (or concurrent) or SPED 315 (or concurrent). (Alt. years: spring)

**ITE 322 Social Studies, Elementary (V)** Purposes, methods, curriculum, and assessment in teaching social studies. Focus: enriching children's understanding of the communities of which they are a part through inquiry, investigation, collaboration, and expository skills. Emphasis on writing instruction. A-F only.

**ITE 323 Science, Elementary (V)** Science education in elementary school; methods and materials; laboratory activities selected from new science curricula. Repeatable two times or up to 3 credits.

**ITE 324 Mathematics, Elementary (V)** Inquiry-based approach to concepts and algorithms of whole numbers and introduction to geometry/measurement. Laboratory experiences with appropriate manipulatives. Pre: MATH 111 and MATH 112.

**ITE 325 Mathematics, Elementary II (V)** Inquiry-based approach to concepts and algorithms of fractions, decimals, graphing, and probability and statistics. Laboratory experiences with appropriate manipulatives. Pre: 324 or consent.

**ITE 326 Visual Art, Elementary (V)** Scope and organization of art in pK-6 school curriculum, creative use of art media through laboratory experiences.

**ITE 329 Performing Arts Expression, K-6 (V)** Standards-based teaching, with, in, through, and about music, dance, and drama. Developing verbal and non-verbal communication skills through creative expression with an emphasis on planning, teaching, and assessing preK-6 lessons that integrate the performing arts. A-F only.

**ITE 343 Personal and Social K-6 Health Skills (V)** Standards-based planning, teaching, assessment in health education. Developing interactive learning opportunities to teach personal and social responsibility for health through curriculum integration. Training, practice and evaluation of oral communication skills. A-F only.

**ITE 346 Methods of Instruction, Industrial/Agricultural Education (3)** Techniques of individual and group instruction in laboratory and related classes, evaluation of various methods.

**ITE 347 Management of Industrial/Agricultural Facilities (3)** Organization of instruction; handling supplies; maintaining equipment and tools; purchasing materials; keeping records; making inventories.

**ITE 348 Teaching Business and Office Education (3)** Theory and methods of teaching business and of office education courses. Pre: ACC 201 and ACC 202.

**ITE 349 Teaching Marketing and Distribution (3)** Theory and methods of teaching marketing and distribution courses. Pre: MKT 341 or MKT 351.

**ITE 353 Music in the Elementary School (2)** Goals, concepts, literature, materials, procedures, and evaluation for teaching music in grades K–6. For students in elementary education. Not intended for elementary music majors.

**ITE 360 Introduction to Multicultural Education (3)** Concepts and methods to develop sensitivity and awareness of cultural influences on behavior as these relate to the schooling process. (Cross-listed as EDEF 360) DS

**ITE 371 Home Economics Education (3)** Curriculum design. Current educational philosophies and practices in home economics education. Teaching materials and techniques.

**ITE 380 Managing Classrooms (3)** Analysis of the factors that contribute to learning in the classroom and the development of teacher behaviors that promote such learning.

**ITE 390 (Alpha) Student Teaching (V)** Full-time supervised experience in school. (B) dual preparation in ECE and elementary education; (C) elementary; (D) secondary; (S) dual preparation in elementary and special education. CR/NC only. Pre: completion of all other program requirements, passing Praxis II exam(s).

**ITE 391 (Alpha) Seminar for Student Teaching (V)** With student teaching as context, examination of knowledge, skills, and dispositions for teaching; standards-based planning, teaching, assessment, and reflection; inclusive classroom management; professional growth and development; integration of research, theory, and practice. Emphasis on writing instruction and ethical issues in teaching. (B) dual preparation in ECE and elementary education (2); (C) elementary (2); (D) secondary; (S) dual preparation in elementary and special education (1). Repeatable nine times; three times for (B), (C), and (S). CR/NC only.

**ITE 392 (Alpha) Student Teaching Modified (6)** Modified student teaching for individuals who have had prior extensive teaching experience or wish to repeat student teaching. CR/NC only. (C) elementary; (D) secondary. Pre: extensive teaching experience; requirements listed under "student teaching"; approval of review committee; consent. Co-requisite: 391.

**ITE 399 Directed Study (V)** Individual work supervised by instructor. May consist of reading, research, observation/participation, teaching, and/or projects. Repeatable up to 12 credits. Pre: consent of instructor.

**ITE 401 Engaging the Adolescent Learner (3)** Examines how reading, writing, speaking, listening, viewing, technology, etc. are tools for learning content and engaging diverse adolescents across all disciplines. Includes a disciplinary literacies framework influencing curriculum planning, classroom culture, and assessment practices. A-F only.

**ITE 402 (Alpha) Teaching Practicum (3)** Observation, analysis, participation and teaching in middle or high school. A seminar accompanies the field experience. Subject field: (B) art; (C) business and marketing; (D) language arts; (E) physical education; (F) industrial arts/agriculture; (G) mathematics; (H) science; (I) social studies; (J) foreign language; (K) music; (M) home economics; (N) interdisciplinary; (P) English as a Second Language. Repeatable one time. CR/NC only. Pre: admission to COE Secondary Teacher Education Program and 401. Co-requisite: 404 or consent, 404P for (P).

**ITE 403 Seminar in Educational Inquiry (3)** Study and discussion of general school-related topics and issues, e.g., dimensions of elementary and/or secondary schooling, school governance, curriculum design and development, the student learner, class-

room management. Repeatable one time. A-F only. Pre: 401 or consent.

**ITE 404 (Alpha) Teaching in the Subject Field (3)** Purposes, procedures, curricula, evaluation in secondary school subject field: (B) art; (C) business and marketing; (D) language arts; (E) physical education; (F) industrial arts/agriculture; (G) mathematics; (H) science; (I) social studies; (J) foreign languages; (K) music; (M) home economics; (N) interdisciplinary; (P) English as a Second Language. Repeatable seven times for (P). A-F only. Pre: 401 or consent. Co-requisite: 402.

**ITE 405 (Alpha) Teaching Residency, Secondary (V)** Full-time student teaching experience in school. Student teachers will receive training and evaluation for oral communication, organization, and planning skills. Subject field: (B) art; (C) business and marketing; (D) language arts; (F) industrial arts; (G) mathematics; (H) science; (I) social studies; (J) foreign languages; (K) music; (M) home economics; (P) English as a second language. CR/NC only. Pre: successful completion of all required courses; pass the content test(s) required by the state teaching licensure.

**ITE 406 Seminar in Teaching Residency (3)** Analysis and resolution of current ethical issues and practices in classrooms; teaching skills and strategies; curriculum planning, professional growth and development; and integration of teaching experiences with professional standards. Instruction in preparing an extensive written portfolio. A-F only. Pre: successful completion of all required courses or consent.

**ITE 410 Supervision of the Observation-Participation Student (2)** Basic guidelines for developing effective team relationships between the professional teacher and the observation-participation student. Pre: two years' teaching experience and consent.

**ITE 415 Early Childhood: Foundations and Curriculum (3)** Introduction to the field of ECE, birth to 8 years. Emphasizes foundations of the field, historical roots, issues and trends influencing policy and practice, play theory, observation, documentation, and assessment in early childhood settings. Pre: FAMR 331 or consent.

**ITE 415L Early Childhood: Foundations and Curriculum Lab (3)** Direct experience with children in early childhood settings in order to apply concepts from 415, develop skills in observation and assessment and gain perspective on the role of the teacher in ECE settings. CR/NC only. Co-requisite: 415.

**ITE 416 Early Childhood: Foundations and Curriculum (3)** Continuation of 415: focuses on the design, implementation, evaluation of meaningful, challenging integrated curriculum that promotes comprehensive developmental and learning outcomes for diverse young children (pK-3). Pre: 415 or consent. (Cross-listed as EDCS 416)

**ITE 416L Early Childhood: Foundations and Curriculum Lab (3)** Continuation of 415L. CR/NC only. Co-requisite: 416. (Cross-listed as EDCS 416L)

**ITE 417 Developmentally Appropriate Practice: Ages 3–8 (3)** How to plan developmentally appropriate programs for young children, including the design of the learning environment; integrated, thematic planning; child guidance; assessment; and parent involvement.

**ITE 420 Supervision of Student Teaching (3)** Principles and methods; role of supervisor; human resources supervision in student teaching. Open to teachers interested in pre-service teacher education. Pre: three years teaching experience and consent.

**ITE 425 Family and Community Centered Programs (3)** Knowledge and appreciation for the complex characteristics of children, families, and communities. Analysis and development of skills for creating respectful, reciprocal relationships with diverse children and families from diverse backgrounds. Pre: FAMR 331 or consent.

**ITE 430 Advanced Supervision of Student Teaching (3)** Advanced principles and methods: clinical

supervision, observation recording, analysis, interpretation of classroom teaching; human resources supervision in student teaching. Pre: 420, successful supervision of two or more student teachers, and consent.

**ITE 436 Cooperative Vocational Education (3)** Planned work-experience program for special areas of vocational technical education. Acceptable type of wage-earning employment. Minimum of six 40-hour weeks or 240 work hours required. Repeatable unlimited times. Pre: consent.

**ITE 438 Foundations of Vocational Education (3)** Historical and philosophical foundations of vocational technical education, overview of federal and state legislation and contemporary practices. Special emphasis on vocational education program in Hawai'i.

**ITE 439 Office and Marketing Technology (3)** Understanding and use of word processing, spreadsheet, and database software for business applications. Explore software across the office and marketing content areas.

**ITE 440 Curriculum Implications of Multicultural Education (3)** Examination of trends, issues, school practices, and program in multicultural education and its related area of study—bilingual-bicultural education. (Cross-listed as EDCS 440)

**ITE 441 Hawaiian Studies, Methods (3)** Examination of issues in Hawaiian and U.S. views of education and their application to the teaching of Hawaiian studies. Field experience required. A-F only. Pre: 312C, 312D; or consent. Co-requisite for BEd students: 317.

**ITE 444 Education of Exceptional Children in Regular Classroom (3)** Practices that facilitate teaching special needs students in regular classrooms. Techniques for meeting academic needs, managing behavior, motivating students, increasing peer interactions, communication between special and regular educators. Includes an emphasis on instruction in writing. (Cross-listed as SPED 444)

**ITE 445 Educating Exceptional Students in Regular Classrooms, Secondary (3)** Teaching secondary students with disabilities and those who are gifted/talented. Meeting academic/social needs, classroom management, motivation, peer interaction, collaboration between special and regular educators. Includes an emphasis on instruction in writing. (Cross-listed as SPED 445)

**ITE 480 Issues in Computer Education (3)** Integration of microcomputers into school curriculum and key issues related to microcomputer use in education. Pre: ETEC 442 or consent. (Cross-listed as EDCS 480)

**ITE 499 Directed Activity (V)** Individual work supervised by instructor. May consist of reading, research, teaching, and/or projects. Pre: consent of division director.

**ITE 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. CR/NC only. Pre: master's Plan B or C candidate and consent.

**ITE 550 Newspaper in the Classroom (2)**

**ITE 572 Common Core State Standards in ELA: Content and Curriculum for Teachers (V)** Professional development for K-12 teachers to upgrade their knowledge of ELA content and develop their instructional strategies to be consistent with the ELA practices of the Common Core State Standards. Repeatable unlimited times. CR/NC only.

**ITE 578 Common Core State Standards in Mathematics: Content and Curriculum for Teachers (V)** Professional development for K-12 teachers to upgrade their knowledge of mathematics content and develop their instructional strategies to be consistent with the mathematical practices of the Common Core State Standards. Repeatable unlimited times. CR/NC only.

**ITE 582 (Alpha) Practicum in Curriculum Development: Natural Science (2)** For in-service teachers to upgrade subject matter and develop teaching

methods and materials for instruction. Repeatable unlimited times. CR/NC only. Pre: teaching experience.

**ITE 583 (Alpha) Practicum in Curriculum Development: Natural Science (3)** For in-service teachers to upgrade subject matter and develop teaching methods and materials for instruction. Repeatable unlimited times. CR/NC only. Pre: teaching experience.

**ITE 601 Professional Studies Seminar I (V)** Development of theoretical and practical knowledge base and skills for understanding, analyzing, and responding to teaching issues and problems. A-F only. Co-requisite: 602.

**ITE 602 Field Experience and Seminar I (V)** Supervised field study of a school. Repeatable up to 12 credits. A-F only. Co-requisite: 601.

**ITE 603 Professional Studies Seminar II (V)** Development of pedagogical skills in planning and implementing instruction for target subject area/grade level. A-F only. Pre: 601 and 602. Co-requisite: 604.

**ITE 604 Field Experience and Seminar II (V)** Team collaboration on responding to identified school need; supervised experience in mini-teaching. Repeatable up to 12 credits. A-F only. Pre: 601 and 602. Co-requisite: 603.

**ITE 610 Pre-internship Practicum (V)** Supervised experience in instructional planning and practice teaching. CR/NC only. Pre: 603 and 604. Co-requisite: 611.

**ITE 611 Practicum Seminar (3)** Planning and methods seminar in conjunction with practice teaching. A-F only. Pre: 603 and 604. Co-requisite: 610.

**ITE 612 Teaching Internship (V)** Full-time supervised teaching experience. CR/NC only. Pre: 610 and 611. Co-requisite: 613.

**ITE 613 Internship Seminar (3)** Collaborative problem solving of issues and concerns encountered in current teaching experiences. A-F only. Pre: 610 and 611. Co-requisite: 612.

**ITE 699 Directed Reading and/or Research (V)** Individual reading and/or research. Repeatable 5 times. A-F only. Pre: written consent.

---

## Insurance (INS)

*Shidler College of Business*

**INS 300 Principles of Insurance (3)** Risk management and insurance application to business and personal financial decision-making. Introduction to basic risk management concepts and techniques. Analyze various types of insurance: including life, property, casualty, liability, health, disability, and long-term care.

**INS 411 Property and Casualty Insurance (3)** Treatment of risk of financial loss of personal and business property and resulting loss of income occasioned by fire and allied perils. Forms of insurance used by individual business executives and firms including crime, transportation, liability, and worker compensation. Pre: 300.

**INS 431 Life Insurance (3)** Treatment of the risk of premature death through use of various life insurance policies. Policy forms, calculation of premiums, reserves, non-forfeiture values, underwriting, regulation of policy provisions, related coverage. Pre: 300.

---

## Interdisciplinary Studies (IS)

*Office of Undergraduate Education*

**IS 099 Mānoa International Exchange (V)** Designed for students accepted for participation in an international exchange program while enrolled at UH Mānoa. Repeatable unlimited times, credit for 12 credits only. CR/NC only. Pre: admittance to an international exchange program.

**IS 100 Marine Option Program Seminar (1)** Statewide overview of ocean issues and organizations involved with marine activities, management, education, research, and business. Exploration of

opportunities for internships, research projects, study and careers. Proposal writing, project implementation, and report preparation guidelines. Orientation to the Marine Option Program. (Cross-listed as BIOL 104)

**IS 250 Personal Development for Effective Teams (3)** Exploration and application of basic leadership theories and processes which foster personal and interpersonal development via cognitive experiential classroom methods and mentoring relationships with experienced peer leaders. (Cross-listed as ENGR 250)

**IS 291 Community Service Practicum (V)** Supervised fieldwork in community agency, arranged by student. Repeatable one time. Pre: written proposal approved by Honors director and appropriate faculty advisor.

**IS 300 Field Study (V)** Pre-arranged systematic field investigation of selected topics. Pre: written proposal approved by Honors director and appropriate faculty member. Repeatable up to 16 credits.

**IS 311 Independent Study Tutorial (V)** Independent study tutorial. A-F only.

**IS 321 Native Americans and Native Hawaiians (3)** Comparative-contrastive examination of similarities and differences between Native Americans and Native Hawaiians as the only indigenous peoples of the U.S. with special attention to sociohistorical parallels and mutual contacts since contact with Europeans. Perspective is explicitly interdisciplinary by drawing not only on sociology and history, but also on archaeology, ethnology, linguistics and still other disciplines. A-F only. Pre: HIST 152 and an introductory course in cultural anthropology, political science or sociology; or consent. (Alt. years) **DS**

**IS 322 Ethnohistory (3)** Review of ethnohistory, i.e. the interdisciplinary, holistic and inclusive investigation of the histories of native peoples drawing not only on documented sources, but also on ethnography, linguistics, archaeology, ecology and other disciplines as an alternative to conventional Eurocolonial history. A-F only. Pre: HIST 152, or consent. (Alt. years) (Cross-listed as ANTH 327) **DS**

**IS 330 Information Technology and Culture (3)** Investigation of the impact of information technologies on contemporary culture from a variety of perspectives. A-F only. Pre: upper division or consent.

**IS 331 Science and Culture (3)** Cultural studies of science from historical, philosophical, sociological and literary perspectives. Examination of intersections of science, race, gender and environment. A-F only. Pre: upper division or consent.

**IS 340 Human Values and the Environment (3)** Examination of nature-culture dynamic over a range of contexts—literary ecology, systems ecology, political ecology, eco-feminism, environmental ethics—in order to articulate new possibilities for interdisciplinary understanding of the human place in nature. A-F only. Pre: any ENG DL or PHIL or GEOG course, or consent. (Once a year)

**IS 347 Pidgin and Creole Languages (3)** Nature, history, structure, and geographic distribution of pidgins and creoles. Pre: LING 102 or consent. (Alt. years) (Cross-listed as LING 347)

**IS 361 People, the Ocean and the Environment (3)** People's impact on quality of coastal and ocean environments, especially Hawaiian; scientific, legal, socioeconomic aspects. Ocean pollution, ocean technology. Pre: OCN 201, ORE 202, or ZOO 200; or consent.

**IS 369 British Life and Culture (3)** For Study Abroad Program students participating in the UH Mānoa Semester in London. Emphasis is placed on understanding within historical contexts important issues for contemporary British society—particularly those of class, power, gender, and race. A-F only. Pre: participation in London Semester Program.

**IS 399 Directed Reading and Research (V)** Directed reading and research. Repeatable two times.

**IS 400 Ocean Internships and Research (V)** Students carry out marine-related internships, practica,

research projects or field experience on- or off-campus with faculty guidance. Repeatable one time. A-F only. Pre: minimum cum GPA of 2.5, junior or senior standing in any field of study and IS 100/BIOL 104 or consent, project proposal. (Cross-listed as BIOL 400)

**IS 410 The Humboldt Brothers' Legacy (3)** Life and thought of the two Humboldt brothers. Alexander (1769-1859) helped to lay the foundations of modern science, including geology, geography, botany, zoology, physiology and anthropology. Older, less well-known Wilhelm (1767-1835) was an influential statesman, classical scholar, man of letters, humanist, political philosopher, anthropologist and linguist, and founded the University of Berlin. Review of the two polymaths' impact on modern science in the Americas, the Pacific and Asia. A-F only. Pre: upper-division or consent. **DH**

**IS 414 Introduction to Linguistic Anthropology (3)** Introduction to the ethnographic study of speech and language. Pre: ANTH 152 or consent. (Once a year) (Cross-listed as ANTH 414 and LING 414) **DS**

**IS 489 Environmental Practicum (3)** Field experience in study and abatement of environmental problems under faculty direction. Project proposal, narrative activity log, and documentary report are required. Pre: upper division standing, courses in appropriate discipline, and consent.

**IS 499 Directed Reading and Research (V)** Directed reading and research. Repeatable one time.

**IS 610 Field Study in Gerontology (V)** Individually designed field experience for advanced certificate in gerontology students. Placements arranged at community programs, research sites, and special projects at the Center on Aging. Repeatable one time.

**IS 611 Integrative Seminar in Gerontology (V)** Integrative seminar. A-F only. Pre: graduate standing or consent.

**IS 650 Principles of Applied Evolutionary Ecology: Biodiversity Loss, Biological Invasions and Emerging Disease (3)** Combined lecture-discussion on the ecological and evolutionary underpinnings of the coupled process of biological invasion, disease emergence and biodiversity loss. A-F only. Pre: consent. (Once a year)

**IS 651L Laboratory A in Applied Evolutionary Ecology: Biodiversity Loss, Biological Invasions and Emerging Disease (2)** Combined lecture-laboratory on the ecological and evolutionary underpinnings of the coupled process of biological invasion, disease emergence and biodiversity loss. A-F only. Pre: consent. (Once a year)

**IS 652L Laboratory B in Applied Evolutionary Ecology: Biodiversity Loss, Biological Invasions and Emerging Disease (3)** Practical laboratory/field rotation on the ecological and evolutionary underpinnings of the coupled process of biological invasion, disease emergence and biodiversity loss. Continuation of 650 and 651L. A-F only. Pre: 650 and 651L, or consent. (Once a year)

**IS 750 Topics in Biocultural Diversity and Conservation (3)** Biological, cultural, and linguistic conservation are intimately linked, but rarely studied simultaneously. Adopts a trans-disciplinary view of diversity and conservation of nature, cultures, and languages, along with issues in anthropology, law, and ethics. (Fall only)

## International Cultural Studies (CUL)

*College of Social Sciences*

**CUL 609 Faculty Seminar Series (1)** Seminar consists of a series of presentations by certificate faculty on topics of ongoing research. Presentations will open current debates about theory and method in cultural studies. Repeatable one time. A-F only.

**CUL 610 International Cultural Studies: History and Theory (3)** Seminar on the history and theory

of interdisciplinary cultural studies. The politics of culture are examined in comparative perspective, focusing on their significance for identity formation, intercultural relations, and global flows of images, people and capital. Approaches to the study of media and popular culture are taken up in terms of their relevance for contemporary issues, especially in Hawai'i and the Asia/Pacific/U.S. region. Repeatable one time. A-F only. (Fall only)

**CUL 750 International Cultural Studies: Research Project (3)** Directed reading and research culminating in a project that engages issues in international cultural studies. Types of projects include scholarly essays, community-based projects, performances or exhibitions. Written statement of purpose and self-evaluation required. A-F only. Pre: 609 and 610.

## Italian (ITAL)

*College of Languages, Linguistics and Literature*

*Students choosing Italian for the language requirement should realize it may not be offered if demand is limited.*

**ITAL 101 Elementary Italian (3)** Conversation, grammar, and reading. **HSL**

**ITAL 102 Elementary Italian (3)** Conversation, grammar, and reading. Pre: 101 or consent. **HSL**

**ITAL 110 Immersion Italian-Elementary (6)** Combined content of 101 and 102 covered in one summer session. (Summer only) **HSL**

**ITAL 160 Intensive Elementary Italian Abroad (V)** Intensive course of formal instruction on the first-year level in Italian language and culture in Italy. **HSL**

**ITAL 201 Intermediate Italian (3)** Reading, conversation, composition. Pre: 102 or 110. **HSL**

**ITAL 202 Intermediate Italian (3)** Continuation of 201. Pre: 201. **HSL**

**ITAL 258 Intermediate Italian Abroad (3)** Intensive course of full-time formal instruction in Italy on the second-year level in Italian language and culture. Pre: 102 or 110 or 160. **HSL**

**ITAL 259 Intermediate Italian Abroad (3)** Continuation of 258. **HSL**

**ITAL 311 Conversation (3)** Systematic practice for control of spoken Italian. Further development of vocabulary for accurate, mature expression. Pre: 202 or consent.

**ITAL 358 Third-Level Italian Abroad (3)** Intensive formal instruction at the third-year level in Italian language skills: reading, writing, grammar, or conversation in an Italian-speaking country. Pre: 202 or 259 or equivalent.

**ITAL 359 Third-Level Italian Abroad (3)** Continuation of 358.

**ITAL 360 Intensive Third-Level Italian Abroad (V)** Intensive formal instruction at the third-year level in Italian language skills: reading, writing, grammar, or conversation in an Italian-speaking country. Pre: 202 or equivalent.

**ITAL 458 Fourth-Level Italian Abroad (3)** Intensive course of full-time formal instruction in Italy on the fourth-year level in Italian language, linguistics, culture, and literature. Pre: 359 or 360 or equivalent.

**ITAL 459 Fourth-Level Italian Abroad (3)** Continuation of 458.

**ITAL 460 Intensive Fourth-Level Italian Abroad (V)** Intensive course of formal instruction on the fourth-year level in Italian language and culture in Italy. For semester programs only. Pre: 360 or equivalent.

## Japanese (JPN)

*College of Languages, Linguistics and Literature*

*All students taking language courses in this program for the first time must take a regularly scheduled placement test; those with no background must come to the Department of East Asian Languages and Literatures*

*for a brief interview. A grade of C or better in the prerequisite courses is required for continuation.*

**JPN 100 Elementary Japanese, Special (3)** Same material as 101, covered more quickly for students with some language background. Pre: placement test. **HSL**

**JPN 101 Elementary Japanese (4)** Listening, speaking, reading, writing, grammar. Meets one hour, four times a week, plus lab work. Pre: placement test or consent. **HSL**

**JPN 102 Elementary Japanese (4)** Continuation of 100 or 101. Pre: 100 or 101, or consent. **HSL**

**JPN 105 Accelerated Elementary Japanese for Pre-Professionals (8)** Content of 101 and 102 covered in one semester. Emphasis on practical Japanese used in professional contexts. Meets two hours, four times a week. Pre: consent. **HSL**

**JPN 111 Elementary Japanese for Oral Communication I (3)** The first of a series of courses focusing on speaking and listening skills necessary to performing in common situations in Hawai'i and Japan. Pre: consent. **HSL**

**JPN 112 Elementary Japanese for Oral Communication II (3)** Continuation of 111. Pre: 100 or 101 or 111, or consent. **HSL**

**JPN 201 Intermediate Japanese (4)** Continuation of 101 and 102. Meets one hour, four times a week, plus lab work. Pre: 102, 105, or placement test; or consent. **HSL**

**JPN 202 Intermediate Japanese (4)** Continuation of 201. Pre: 201 or placement test; or consent. **HSL**

**JPN 205 Accelerated Intermediate Japanese for Pre-Professionals (8)** Content of 201 and 202 covered in one semester. Emphasis on practical Japanese used in professional contexts. Meets two hours, four times a week. Pre: 102, 105; or consent. **HSL**

**JPN 211 Intermediate Japanese for Oral Communication I (3)** Continuation of 111-112. Pre: 102 or 105 or 112; or consent. **HSL**

**JPN 212 Intermediate Japanese for Oral Communication II (3)** Continuation of 211. Pre: 201 or 211, or consent. **HSL**

**JPN 217 Introduction to Japanese Reading and Writing with Basic Kanji (3)** For students who have completed the oral communication courses up through JPN 212 and wish to continue on to JPN 301. Also appropriate for semi-bilingual students who lack literacy skills. Pre: 212 or consent.

**JPN 258 Intermediate Japanese Abroad (4)** Intensive course of formal instruction on the second-year level in Japanese language and culture in Japan. Pre: 102 or 105. **HSL**

**JPN 259 Intermediate Japanese Abroad (4)** Continuation of 258. Pre: 201 or 258, or consent. **HSL**

**JPN 301 Third-Year Japanese (4)** Transitional course employing four skills (listening, speaking, reading, writing) and grammar training to prepare students to address academic content in Japanese. Meets one hour, four times a week, plus lab work. Pre: 202, 205, 217, or placement test; or consent.

**JPN 302 Third-Year Japanese (4)** Continuation of 301. Pre: 301 or placement test, or consent.

**JPN 305 Accelerated Third-Year Japanese (8)** Content of 301 and 302 covered in one semester. Meets two hours, four times a week, plus lab work. Pre: 202, 205, 217, or consent.

**JPN 307 Special Japanese Reading and Writing (3)** For bilingual students whose aural and spoken skills in Japanese were acquired informally. Emphasis on reading and writing through 301 level. Pre: placement test.

**JPN 308 Special Japanese Reading and Writing (3)** Continuation of 307. Pre: 307 or placement test.

**JPN 311 Third-Year Japanese for Professional Communication I (3)** Training in oral communication skills essential for operating in a Japanese-speaking professional environment or workplace. Pre: 202, 205, 212, or placement test; or consent. (Fall only)

**JPN 315 Third-Year Japanese Aural Comprehension (3)** Training in strategies for listening to various types of spoken material presented in narrations, interviews, news broadcasts, and lectures, etc. Pre: 302 or consent.

**JPN 318 Oral Fluency Through Film (3)** Training in oral communication and comprehension skills utilizing the spoken text and visual segments from Japanese film and television dramas. Pre: 301 or consent.

**JPN 332 Advanced Japanese Reading and Writing (3)** Web-based training in Japanese reading and writing to develop skills at the advanced level. Course activities combine independent work with communicative activities on the website. Ideal for in-service professionals seeking language development and maintenance. Repeatable one time. Pre: 301 (or concurrent) or consent.

**JPN 350 Introduction to Japanese Linguistics (3)** Introduction to major areas of linguistic description as applied to Japanese language. Pre: 302 or 305. **DH**

**JPN 358 Third-Level Japanese Abroad (4)** Intensive course of full-time formal instruction on the third-year level in Japanese language and culture in Japan. Pre: 202, 205, 217, or consent.

**JPN 359 Third-Level Japanese Abroad (4)** Continuation of 358. Pre: 301 or 358.

**JPN 370 Language in Japanese Society (3)** Review of the use of Japanese respect language in relation to social structure, interpersonal relationships, and ways of thinking. Pre: 302, 305; or consent.

**JPN 399 Directed Third-Level Reading (V)** For those who need special assistance, e.g., reading texts in area of specialization or at a pace more rapid than those of standard courses. CR/NC only. Repeatable three times. Pre: consent.

**JPN 401 Fourth-Year Japanese I (4)** Continuation of 302 and 305 emphasizing all four skills. Transition to longer and more complex written and spoken Japanese. Meets 50 minutes, four times a week. Pre: 302, 305, 308, or placement test; or consent.

**JPN 402 Fourth-Year Japanese II (4)** Continuation of 401. Transition to longer and more complex written and spoken Japanese. Meets 50 minutes, four times a week. Pre: 401 or placement test; or consent.

**JPN 403 Fourth-Year Japanese for Advanced Speakers I (3)** Continuation of 308 for bilingual students. Pre: 308 or placement; or consent. (Fall only)

**JPN 404 Fourth-Year Japanese for Advanced Speakers II (3)** Continuation of 403 for bilingual students. Pre: 403 or placement; or consent. (Spring only)

**JPN 405 Fourth-Level Japanese Reading: Accelerated (8)** Content of 401 and 402 covered in one semester. Meets two hours, four times a week. Pre: 302, 305, 308, or placement test.

**JPN 407 (Alpha) Readings in Original Texts (3)** (B) newspapers and magazines; (C) social sciences; (D) humanities; (E) modern literature. Pre: 402 or 405, or consent.

**JPN 415 Japanese Aural Comprehension (3)** Training in comprehension of spoken material presented in news broadcasts, documentary narration, formal lectures, etc. Pre: 402, 405; or consent. May be concurrent with 407.

**JPN 420 Fourth-Level Spoken Japanese (3)** Training in oral communication skills in varied social contexts. Pre: 402 or 405.

**JPN 421 Japanese Composition (3)** Writing skills refined through practice in various styles (essays, letters, etc.). Pre: 402, 405; or consent.

**JPN 423 Advanced Listening and Speaking (3)** Training in listening and speaking for bilingual and other advanced learners. Emphasis on formal Japanese such as academic lectures, news, exchanges in business settings, public speaking, etc. Pre: 421 or consent.

**JPN 425 Japanese Translation (3)** Training in techniques of translating Japanese into English. Pre: consent. (Cross-listed as TI 425)

**JPN 431 Advanced Business Writing (3)** Training in advanced business writing for bilingual and other advanced learners. Japanese writing intensive. Pre: 421 or consent.

**JPN 451 Structure of Japanese (3)** Introduction to phonology, morphology, syntax, and semantics of modern colloquial Japanese. Pre: 402 or 405, and 350 or LING 320; or consent.

**JPN 452 Introduction to Japanese Pedagogical Grammar (3)** Introduction to teaching of basic Japanese grammatical patterns. Pre: 350 or LING 320, and 407; or consent.

**JPN 458 Fourth-Level Japanese Abroad (4)** Intensive course of full time instruction on the fourth-year level in Japanese language and culture in Japan. Pre: 302, 305, 308, 359, or consent.

**JPN 459 Fourth-Level Japanese Abroad (4)** Continuation of 458. Pre: 401 or 458.

**JPN 461 Introduction to Classical Japanese (3)** Basic classical Japanese grammar to develop reading skills. Pre: 407 or consent.

**JPN 466 Readings in Classical Japanese (3)** Introduction to major genres of prose and poetry. Repeatable one time with permission. Pre: 461 or consent. **DL**

**JPN 471 Okinawan Language and Culture I (3)** The first of a series of two courses (JPN 471-472) focusing on the language, heritage, and folk culture of Okinawa. Pre: 302, 305, 308, or consent. **DH**

**JPN 472 Okinawan Language and Culture II (3)** The second of a series of two courses (JPN 471-472) focusing on Okinawan literature, language skills, heritage, and cultural understanding. Pre: 471 or consent. **DL**

**JPN 475 Introduction to Japanese Sociolinguistics (3)** Application of general linguistics to social phenomena such as group identity, language and gender, dialects and intercultural communication. Pre: 350 and 370, or consent.

**JPN 485 Advanced Readings in Modern Japanese Literature (3)** Advanced course to foster speed, accuracy and attention to stylistic issues in modern Japanese literature. Pre: 407E and one of 407B, 407C, or 407D; or consent. **DL**

**JPN 486 Advanced Readings in Modern Japanese Contemporary Topics (3)** Advanced course to foster speed, accuracy, and attention to content in reading modern discursive texts. Pre: two of 407B, 407C, 407D, or 407E; or consent. **DH**

**JPN 490 Advanced Japanese Language Study (3)** Advanced course in spoken and written Japanese stressing intensive research using the Internet, electronic mail in Japanese and conventional media. Oral presentations, written reports and journal writing. Repeatable. Pre: 485 or equivalent and consent.

**JPN 493 Project Work in Japanese (3)** Enhances Japanese language skills through a field-based research project on a topic of the individual student's choice. Interviews, surveys, observations, written materials and A/V-assisted oral presentations. Repeatable one time. Pre: 402 or 405 or equivalent, or consent.

**JPN 495 (Alpha) Internship Program (3)** Analysis of intercultural communication processes under faculty supervision through participation in an organization serving native speakers of Japanese. (B) business, repeatable one time; (C) travel industry internship. Repeatable one time. A-F only. Pre: 370 or consent for (C); 431 for (B).

**JPN 499 Directed Fourth-Level Reading (V)** For those who need special assistance, e.g., in reading texts in area of specialization or at a pace more rapid than those of standard courses. Primarily for graduate students from other departments. CR/NC only. Repeatable three times. Pre: consent.

**JPN 601 Japanese Phonology and Morphology (3)** Introduction to the phonology and morphology of modern colloquial Japanese. Pre: 451 or consent.

**JPN 602 Japanese Syntax and Semantics (3)** Introduction to theories of syntax, sentence structure, parts of speech, constituency, grammatical relations and case marking, word order, passives, causatives, tense, aspect, and embeddings. Pre: 451 or consent.

**JPN 604 Introduction to Japanese Language Pedagogy (3)** Training in the identification and analysis of general problems in Japanese language learning, teaching, and testing by examining theoretical issues and conducting classroom research. Pre: 407 or equivalent, and 451; or consent.

**JPN 605 Research Methodology in Japanese Linguistics and Language Teaching (3)** Japanese-specific training in the formulation of testable hypotheses, in basic statistical and other evaluation techniques, and in the organization and presentation of ideas and data in paper, abstracts, etc. Pre: 407 or equivalent.

**JPN 606 Japanese Sociolinguistics (3)** Introduces theories of language use and provides training in the methodology and analysis of Japanese sociolinguistics. Pre: 407 and 475 or equivalent, or consent.

**JPN 610 (Alpha) Japanese Poetry (3)** Historical survey of major poetic types. Repeatable one time with consent. (B) classical; (C) medieval and Edo; (D) modern. Pre: 466 or consent for (B) and (C); 485 or consent for (D).

**JPN 611 (Alpha) Modern Japanese Literature (3)** Representative literary works, emphasis on fiction. Repeatable one time with consent. (B) Meiji-Taisho (1868-1926); (C) Showa-Heisei (1926-present). Pre: 485 or consent.

**JPN 612 Edo Literature (3)** Critical reading and analysis; emphasis on prose. Repeatable one time with consent. Pre: 466 or consent.

**JPN 613 Medieval Japanese Literature (3)** Critical reading and analysis of Kamakura and Muromachi literature, emphasis on prose. Repeatable one time with consent. Pre: 466 or consent.

**JPN 614 Classical Japanese Literature (3)** Critical reading and analysis of Heian literature; emphasis on prose. Repeatable one time with consent. Pre: 466 or consent.

**JPN 620 Practicum: Teaching Japanese Language (Alpha) (3)** For graduate students who are planning to teach Japanese as a foreign language. Through lectures and discussions on language learning and teaching, and through observation and teaching of a Japanese language class, students will learn to make informed decisions about curriculum and instruction, and will develop instructional skills and practices for analyzing their teaching experiences. (B) beginning level Japanese instruction; (C) advanced level Japanese instruction. Repeatable one time per alpha. Pre: 604 or EALL 601, or consent. (Once a year for (B) and (C)).

**JPN 626 Introduction to Japanese Manuscripts and Xylographs (3)** Introduction to Classical Japanese writing system as found in the xylographs and manuscripts of the Heian and Kamakura periods; reading and analysis of the texts in original script. Repeatable one time. Pre: 461 or 466, or consent. (Alt. years)

**JPN 631 History of the Japanese Language (3)** Survey, theories of origin; related topics in linguistic methodology. Pre: 461 and 601, or consent.

**JPN 632 Teaching Japanese as a Second Language (3)** Practical overview of major problems; motivation; adult second language learning; communicative and linguistic competence; practical classroom techniques of teaching and testing. Pre: 604 or consent.

**JPN 633 Advanced Japanese Sociolinguistics (3)** Variations in language form and use depending on social factors. Pre: 601 or 602 (or concurrent), and 606; or consent.

**JPN 634 Advanced Japanese Syntax and Semantics (3)** Theoretical problems in description of

Japanese; contributions of Japanese linguistic study to syntactic theory. Pre: 602 or consent.

**JPN 640 Themes in Japanese Literature (3)** Intensive study of selected themes in Japanese literature, primarily in the modern period. Repeatable with consent. Pre: 485 or equivalent, or consent.

**JPN 641 Traditional Literary Theory (3)** Reading and analysis of major works of literary theory and criticism from the classical, medieval, and Edo periods. Pre: 466 or consent.

**JPN 642 Kambun (3)** Introduction to kambun [the Japanese manner of reading and writing classical Chinese], with critical reading of kambun by Japanese authors. Pre: 461 or consent.

**JPN 650 (Alpha) Topics in Japanese Linguistics (3)** (C) Japanese/English contrastive analysis; (G) structure; (H) historical change; (K) history of Japanese language studies (*Kokugo-gaku-shi*); (M) morphophonemics; (P) pedagogy; (S) sociolinguistics. Pre: 601 and 602 for (C); 634 for (G); 631 for (H) and (K); 601 for (M); 632 for (P); 633 for (S).

**JPN 699 Directed Research (V)** Repeatable unlimited times. CR/NC only. Pre: consent of chair.

**JPN 710 (Alpha) Research Seminar in Japanese Literature (3)** (M) modern; Pre: 611 (P) pre-modern; Pre: 612, 613, or 614.

**JPN 730 (Alpha) Research Seminar in Japanese Linguistics (3)** (C) Japanese/English contrastive analysis; (G) structure; (H) historical change; (K) history of Japanese language studies (*Kokugo-gaku-shi*); (M) morphophonemics; (P) pedagogy; (S) sociolinguistics. Pre: 451, or 601 and 602 for (C); 634 for (G); 631 for (H) and (K); 601 for (M); 632 for (P); and 633 for (S).

## Journalism (JOUR)

*College of Social Sciences*

**JOUR 150 The Media and Society (3)** Communications media in theory and practice. Development, role, influence; rights, responsibilities, problems, issues, and trends. DS

**JOUR 250 Media Writing (3)** Fundamentals of writing for various news media and public relations; ethics. Sophomore standing only. A-F only. Pre: ENG 100, 100A, 190, or 200.

**JOUR 300 Reporting (3)** Theory and practice of information gathering using a variety of primary and secondary sources, finding information online, use of databases and interviews for writing news stories. Sophomore standing or higher. A-F only. Pre: 250 (with a minimum grade of B) (or concurrent).

**JOUR 307 Photojournalism (3)** Production, selection, and use of digital photographs for publications. Storytelling action and feature photography with digital cameras, worked up through Adobe Photoshop and InDesign programs. Students must have a digital camera. A-F only.

**JOUR 316 Advanced Editing (3)** Intensive training in editing, planning, and organizing stories and visual elements for publication; news judgment; managing projects. Pre: 250 (with a minimum grade of B) or consent.

**JOUR 320 Visual Journalism: Multimedia (3)** Fundamentals of visual journalism; visual theory, principles, and tools to create multimedia journalism projects for online, emerging media, and print platforms. Sophomore standing or higher. A-F only. Pre: 250 (with a minimum grade of B).

**JOUR 325 Magazine Writing (3)** Writing nonfiction articles for magazines, newspapers, and newsletters; preparing material for specific audience; marketing articles.

**JOUR 327 Interpretive Journalism (3)** Writing articles of news analysis, editorials, and critical reviews. Pre: consent.

**JOUR 330 Video Journalism (3)** Fundamentals of video journalism using digital video cameras for writing, reporting, editing, and producing news stories.

Sophomore standing or higher. A-F only. Pre: 250 (with a minimum grade of B).

**JOUR 360 Journalism History and Trends (3)** Development of the news media and trends that may affect the future of journalism. Pre: upper division standing. DS

**JOUR 365 Communication and Law (3)** Role of communication in the legal process; impact of law on communication processes. Pre: COM/JOUR major and junior standing, or consent. (Cross-listed as COM 451) DS

**JOUR 385 Practicum (1)** Working on campus student or quasi-professional publications under professional and faculty supervision. CR/NC only. Repeatable up to three credits. Pre: consent.

**JOUR 390 (Alpha) Journalism/Communications Workshops (V)** Short-term intensive workshops in journalism and mass communication skills and projects. (B) workshop in new media; (C) workshop in reporting; (D) workshop in editing; (E) workshop in broadcast journalism; (F) workshop in public relations. Repeatable in different alphas up to 6 credits. JOUR or COM majors only. Pre: consent. (Cross-listed as COM 390)

**JOUR 401 Journalism Projects/Production (6)** Intense problem-based application of skills and knowledge to production of a major journalism project across multiple media platforms. Repeatable one time with instructor approval. Pre: 300 and 320 and 330 or consent, and ICS 101 or 110 or 111. (Fall only)

**JOUR 402 Media and Community (6)** Intellectual, historical, social and cultural context of contemporary journalism in our community with application through projects. Pre: 300 and 320 and 330 or consent, and ICS 101 or 110 or 111.

**JOUR 407 Advanced Photojournalism (3)** Computer experience in the creation, manipulation, and editing of color news, feature, sports, and documentary images. Study of the ethical and legal dimensions of electronic imaging. Pre: 307 or consent.

**JOUR 425 Publication Layout and Design (3)** Visual display concepts and procedures for newsletters, brochures, newspapers, magazines. Pre: upper division standing.

**JOUR 459 Special Topics (3)** Topics of interest to faculty and students; taught by regular and visiting faculty. Repeatable on different topics to six credit hours. JOUR majors only. Pre: COM/JOUR major and junior standing, or consent. (Cross-listed as COM 459)

**JOUR 460 Media Ethics (3)** Ethics and social responsibility for media professionals. Application of ethical theories and principles to case studies and research projects. A-F only. Pre: any 300-level course in COM or JOUR and junior standing; or consent. (Cross-listed as COM 460)

**JOUR 475 Global Communication (3)** Problems and opportunities of communication in a variety of international contexts. Focus on commerce, diplomacy, and mass communication. JOUR majors only. Pre: COM/JOUR major or consent. (Cross-listed as COM 475) DS

**JOUR 485 Fieldwork (3)** Internship in media or PR operations under professional and faculty supervision. Repeatable two times. CR/NC only. Pre: 250 (with a minimum grade of B) and 300, and either 320 or 330; or consent.

**JOUR 499 Directed Research (V)** Individual research projects. Pre: senior standing and consent of department chair.

## Kinesiology and Rehabilitation Science (KRS)

*College of Education*

*Students registering for 101-187, 323, 331-339, 371, 385, and 470 will be requested to complete a medical history form and a liability disclaimer form on the first*

*day of instruction. All students taking 491-494 must be immunized for hepatitis B virus prior to admission in the class.*

*The minimum required grade for prerequisites for undergraduate-level courses is a grade of C- or better, unless otherwise specified. The minimum required grade for prerequisites for graduate-level courses is a grade of B or better.*

**KRS 101 Physical Fitness (1)** Conditioning exercises and activities to develop and maintain physical efficiency. Motor fitness tests administered to measure status and progress. Repeatable unlimited times, but credit earned one time only.

**KRS 102 Aerobic Fitness: Beginning (1)** Aerobic fitness improvement upon completion of course. Learning and practicing safe total body workout routines done to music. Developing an individual fitness program and recording progress in that program. Repeatable unlimited times, but credit earned one time only.

**KRS 103 Swimming: Beginning (1)** Adjusting to and immersing in water, floating, sculling; correct arm stroke, leg kick, breathing techniques and their coordination. (Student to provide own swimming attire approved by instructor.) Repeatable unlimited times, but credit earned one time only.

**KRS 104 Swimming: Intermediate (1)** Perfecting and integrating basic strokes with added emphasis for distance and speed. (Student to provide own swimming attire approved by instructor.) Repeatable unlimited times, but credit earned one time only. Pre: 103 or consent.

**KRS 105 Swimming: Advanced (1)** Correct techniques used in competitive swimming, racing starts, correct turning techniques, long-distance swimming. (Student to provide own swimming attire approved by instructor.) Repeatable unlimited times, but credit earned one time only. Pre: 104 or consent.

**KRS 106 SCUBA Diving: Beginning (1)** Learning watermanship, equipment handling skills, and the knowledge to become safe divers. Additional costs for equipment, diver manual, dive tables, and certification fee. Repeatable unlimited times, but credit earned one time only.

**KRS 107 Aqua-Aerobic Fitness (1)** Combined lecture-lab-physical activity with emphasis on aerobic fitness improvement through total body aquatic workouts with music, and development of individualized aquatics fitness program. Open to all students. Repeatable unlimited times, but credit earned one time only.

**KRS 110 Golf: Beginning (1)** Rules, etiquette, grip, stance, drive, normal iron shots, approach shots, putting. Repeatable unlimited times, but credit earned one time only.

**KRS 111 Golf: Intermediate (1)** Corrective work on basic swing mechanics and rhythm; adjustments for bunker play, uphill lies, downhill lies, short game around and on the green; handicapping and match play competition. Repeatable unlimited times, but credit earned one time only. Pre: 110 and consent.

**KRS 112 Golf: Advanced (1)** Improving drive, fairway wood shots, long iron shots, control shots, trouble shots, putting, course management, competitive strategy, problems in rules. Greens fees paid by students for play on courses. Repeatable unlimited times, but credit earned one time only. Pre: 111 and consent.

**KRS 115 Bowling (1)** Rules, etiquette, arm swing, approach, execution, scoring, spare pickups. Students pay charge for use of alley. Repeatable unlimited times, but credit earned one time only.

**KRS 120 Badminton (1)** Rules, etiquette, grip, forehand and backhand strokes, serving, smash, drive, net play, offensive and defensive strategy; singles and doubles play. Repeatable unlimited times, but credit earned one time only.

**KRS 123 Folk and National Dances (1)** Popular dances of various national groups, including square dances. Repeatable unlimited times, but credit earned one time only. DA

**KRS 124 Dances of Hawai'i (1)** Background and fundamentals of hula. Selected dances with and without instruments. Repeatable unlimited times, but credit earned one time only. **DA**

**KRS 125 Dances of Hawai'i: Advanced (1)** Advanced techniques in hula movements. Selected dances taught will be more complex, including work with instruments. Individual choreography will be emphasized. Repeatable unlimited times, but credit earned one time only. Pre: 124 or consent. **DA**

**KRS 126 Social Dance: Ballroom (1)** Social dances including fox trot, waltz, swing, and other popular dances. Basic steps, rhythm pattern, styling, and variations are taught. Social etiquette is stressed. Repeatable unlimited times, but credit earned one time only. **DA**

**KRS 127 Social Dance: Latin (1)** Social dances of a Latin flavor including rhumba, cha-cha, tango, samba, and others. Basic steps, rhythm pattern, styling, and variations are taught. Social etiquette is stressed. Repeatable unlimited times, but credit earned one time only. **DA**

**KRS 130 Tennis: Beginning (1)** Rules, etiquette, grip, forehand and backhand strokes, serving, volleying; singles and doubles play. Repeatable unlimited times, but credit earned one time only.

**KRS 131 Tennis: Intermediate (1)** Corrective work in three basic strokes and in net play; the lob, drop shot, overhead smash, and half-volley; applying spin in basic strokes; basic strategy in singles and doubles play. Repeatable unlimited times, but credit earned one time only. Pre: 130 or consent.

**KRS 132 Tennis: Advanced (1)** Improving upon the strokes introduced in 130 and 131; advanced competitive strategy; problems in rules; officiating; elements of tournament play. Repeatable unlimited times, but credit earned one time only. Pre: 131 or consent.

**KRS 135 Volleyball: Beginning (1)** Combined lecture-lab-physical activity with emphasis on beginner skills and knowledge relative to serving, passing, spiking, digging, blocking, and offensive and defensive strategy. Open to all students. Repeatable unlimited times, but credit earned one time only.

**KRS 136 Volleyball: Intermediate (1)** Combined lecture-lab-physical activity with emphasis on improving skills and knowledge through practice and cognitive activities relative to serving, passing, spiking, digging, blocking, and offensive and defensive strategy. Open to all students. Repeatable unlimited times, but credit earned one time only. Pre: 135 or consent.

**KRS 137 Basketball (1)** Rules, passing, shooting, dribbling, rebounding, individual defensive and offensive maneuvers; team offense and defense. Repeatable unlimited times, but credit earned one time only.

**KRS 151 Adapted and Prescribed Exercises (1)** Small group and individual guidance and instruction for students recommended by student health service. Repeatable unlimited times, but credit earned one time only. Pre: consent.

**KRS 152 Weight Training (1)** Kinesiology of lifting and weight training, various types of exercises and methods of training with resistance. Repeatable unlimited times, but credit earned one time only.

**KRS 153 Olympic and Power Lifting (1)** Exercise technique and prescription with an emphasis on anaerobic exercise. Explores advanced periodization models and their utilization, mastery of Olympic lifts, and plyometric programs. Repeatable unlimited times, but credit earned one time only. Pre: 152 or consent.

**KRS 154 Tumbling and Rebound Tumbling (1)** Single and combination stunts on tumbling mats and trampoline, balancing stunts; techniques of spotting; safety procedures. Repeatable unlimited times, but credit earned one time only.

**KRS 156 Heavy Apparatus (1)** Single and combination stunts on side horse, horizontal bar,

parallel bars, still rings; techniques of spotting; safety procedures. Repeatable unlimited times, but credit earned one time only.

**KRS 160 Judo (1)** Rules, etiquette, method of falling and breaking the fall, simple throws and their counters, simple holds and breaking of such holds, randori. (Student to provide own gi.) Repeatable unlimited times, but credit earned one time only.

**KRS 161 Aikido (1)** Rules, etiquette, basic rolls, simple holds and the breaking of such holds, specific physical conditioning exercises. (Student to provide own gi.) Repeatable unlimited times, but credit earned one time only.

**KRS 163 T'ai Chi Ch'uan (1)** Classic forms of t'ai chi ch'uan. Repeatable unlimited times, but credit earned one time only.

**KRS 164 Karate: Beginning (1)** Rules, etiquette, basic stances, blocks, thrusts, kicks, ippon kumite, and selected kata. (Student to provide own gi.) Repeatable unlimited times, but credit earned one time only.

**KRS 165 Karate: Intermediate (1)** Emphasis on improving the basic techniques (stances, punches, kicks, forms, and sparring); introduction to combination techniques. (Student to provide own gi.) Repeatable unlimited times, but credit earned one time only. Pre: 164.

**KRS 167 Wrestling: Beginning (1)** Rules: fundamental defensive and offensive maneuvers and competitive strategy, i.e., takedowns, reversals, escapes, and pinning combinations; conditioning exercises. Repeatable unlimited times, but credit earned one time only.

**KRS 170 Yoga: Beginning (1)** Experiencing yoga and its effects on body, mind and consciousness of individual. Encompasses exercise, breathing techniques, deep relaxation, meditation, practice in concentration, and yogic postures. Repeatable unlimited times, but credit earned one time only.

**KRS 171 Yoga: Intermediate (1)** Corrective work and improvement of basic techniques. Exercise sets and combinations designed to develop endurance, flexibility, muscle and nerve strength, meditation, and deep relaxation technique. Repeatable unlimited times, but credit earned one time only. Pre: 170 or consent.

**KRS 173 Water Polo (1)** Fundamentals of basic water polo skills, namely, ball handling, passing, shooting, dribbling plus a brief introduction into beginning techniques of individual offense and defense. Repeatable unlimited times, but credit earned one time only. Pre: 104 or consent. (Student to provide own swimming attire approved by instructor.)

**KRS 181 Sport Proficiency I: Invasion (3)** Knowledge, skill development, and strategy of various invasion type games and sports. Sports like basketball, soccer, ultimate frisbee and/or others are introduced within a tactical framework. Repeatable one time, but credit earned one time only. A-F only.

**KRS 182 Sport Proficiency II: Net, Field, and Target (3)** Knowledge, skill development, position, and strategy of net, field and target sports. Sports like volleyball, tennis, softball, and golf are introduced within a tactical framework. Repeatable one time, but credit earned one time only. A-F only.

**KRS 185 Floor Exercise Gymnastics (1)** An entry-level course designed to develop students' knowledge of men's and women's gymnastics floor exercise routines, including injury prevention, skill progression, spotting techniques, and routine choreography. Primarily for KRS majors; others admitted on space-available basis. Repeatable unlimited times, but credit earned one time only.

**KRS 186 Track and Field for Physical Education (1)** Knowledge, skills, and rules of various track and field events. Organization of track meets and strategy in competition. Primarily for KRS majors; others admitted on space-available basis. Repeatable unlimited times, but credit earned one time only.

**KRS 187 Softball (1)** Combined lecture-lab-physical activity with emphasis on basic skills, rules, etiquette, offensive and defensive strategies, position play, and game situations. Open to all students. Repeatable unlimited times, but credit earned one time only.

**KRS 201 School Health Problems: Elementary (2)** Responsibilities of elementary school teacher in recognizing and meeting pupils' needs, emphasizing teacher's role in health instruction, health services, school health policies. Repeatable one time.

**KRS 202 School Health Problems: Secondary (2)** Responsibilities of secondary school teacher in recognizing and meeting pupils' needs, emphasizing health instruction, health services, healthful school living, school health policies. Repeatable one time.

**KRS 203 Foundations of Physical Education (3)** Physical education as a professional field. Overview of history, philosophy, and current practices in physical education. Survey of psychological and sociological foundations of exercise and sport. KRS majors or approval. Repeatable one time. A-F only.

**KRS 208 Recreation Services in Contemporary Society (3)** Theories and philosophies in recreation: history; contemporary issues; roles in modern society; relationship to health, physical education, and exercise science.

**KRS 210 Leisure Education and Life Skills Development (3)** Using sports as a learning tool, students will gain awareness, acquire knowledge and develop skills to enhance their classroom, athletic and personal performance. Class topics include current issues and strategies for maintaining healthy lifestyles. Repeatable one time.

**KRS 232 Safety and Risk Management (2)** Understanding the fundamental principles and techniques of safety and accident-prevention programming emphasizing school, home, public places, on the job, and motor vehicle situations. Repeatable one time.

**KRS 238 Outdoor Recreation Management (3)** Objectives and values of outdoor recreation; characteristics and determinants of programs; planning, organization, leadership, and facilities for recreational uses of natural environments. Repeatable one time. Pre: 208 or consent.

**KRS 241 Health Education Curriculum (2)** Objectives of school health program, emphasizing scope and sequence of health instruction; critical examination of health curriculum guides from various states. Repeatable one time. Pre: 201 or 202.

**KRS 249 Programming and Leadership (3)** Factors in planning and leading recreation programs; characteristics and responsibilities of leadership in relation to nature, scope, and resources of a variety of programs. Repeatable one time. Pre: 208 or consent.

**KRS 270 Introduction to Physical Education (4)** Introduction to foundational knowledge for effective teaching, history, philosophy, and current practices in physical education. Provides the basis for later coursework in K-12 physical education. Required field experience. Repeatable one time. A-F only. Pre: consent. (Fall only)

**KRS 271 Evaluation in Health Education (2)** Processes involved in assessing school health education program with emphasis on measurement criteria and instruments, interpretation of data and content, organization and conduct of evaluation program. Repeatable one time. Pre: 201 or 202.

**KRS 302 School's Role in Community Health (2)** Functional interrelationships between school and other community health organizations in solving school-community health problems. Repeatable one time. Pre: consent.

**KRS 305 Principles of Sports Medicine (3)** Examine with some depth, principles of risk management and pathology of athletic injuries, major musculoskeletal structures, and concepts of evaluative skills, treatment, and rehabilitation for common athletic injuries. A-F only. Repeatable one time. **DB**

**KRS 310 Coaching of Football (2)** Theory and strategy of offensive and defensive football coaching. Emphasis on coaching philosophy, selecting and developing an offense and defense, organizing practices, special situations, scouting, and training and conditioning. Repeatable one time. Pre: consent.

**KRS 311 Coaching of Basketball (2)** Theory and strategy of offensive and defensive basketball coaching. Emphasis on coaching philosophy, selecting and developing an offense and defense, organizing practices, special situations, scouting, and training and conditioning. Repeatable one time. Pre: consent.

**KRS 312 Coaching of Baseball (2)** Theory and strategy of offensive and defensive baseball coaching. Emphasis on coaching philosophy, selecting and developing an offense and defense, organizing practices, special situations, scouting, and training and conditioning. Repeatable one time. Pre: consent.

**KRS 313 Coaching of Volleyball (2)** Theory and strategy of offensive and defensive volleyball coaching. Emphasis on coaching philosophy, selecting and developing an offense and defense, organizing practices, special situations, scouting, and training and conditioning. Repeatable one time. Pre: consent.

**KRS 323 Music and Rhythm in Physical Education (3)** Use of music in physical education programming (K-12), emphasizing selection of appropriate music for specific activities as expressive or creative movement, movement exploration, rhythmic gymnastics, and dancing. A variety of strategies for teaching dance will be shared. A-F only. Pre: consent. (Spring only)

**KRS 329 Managing Recreation Services (3)** Administrative framework and procedures pertinent to the operation of agencies providing recreational services to the various publics. Repeatable one time. Pre: 208 or consent.

**KRS 331 Water Safety Training (3)** Theory and methods of advanced lifesaving and water safety leading to American Red Cross Water Safety Instructor (WSI) certification. Repeatable one time. Pre: 104 or consent. (Student to provide own swim attire approved by the instructor.)

**KRS 332 Emergency Care and First Aid Training (3)** Practicum in training of persons to become qualified in emergency care knowledge, basic life support, and first aid skills. First Aid and CPR certificates may be earned. **DB**

**KRS 333 Movement Education I (3)** A movement-based approach to teaching basic motor skills in preschool/elementary physical education. Students actively participate and learn about developmentally appropriate content and pedagogy for children in grades P-5/6. Peer bit teaching is included. A-F only.

**KRS 334 Movement Education II (4)** (3 Lec, 1 1-hr. Lab) Content and pedagogy for teaching Pre/K-5 physical education. Students will learn to plan and teach physical education for children. Peer bit and field teaching included. Repeatable one time, but credit earned one time only. A-F only.

**KRS 335 Coaching of Track and Field (2)** Techniques and rules of sprints, distance runs, relays, hurdles, long jump, high jump, pole vault, shot put, discus, and javelin throws; conduct of track and field meets; specific conditioning and training problems. Repeatable one time.

**KRS 336 Coaching of Swimming (2)** Theory and methods of coaching competitive swimming. Technical, organizational, and administrative aspects. Emphasis on stroke mechanics and training methods. Repeatable one time. Pre: consent.

**KRS 337 Fieldwork in Recreation I (5)** Initial supervised leadership experience in recreational agencies. One hour per week in class discussion sessions. For recreation majors only. Repeatable one time. Pre: consent of recreation advisor.

**KRS 339 Special Recreation (3)** Special recreation as a professional field. Overview of special recreation services. Emphasis on recreation services for special

populations. Repeatable one time. Pre: 208 or consent.

**KRS 353 Structural Kinesiology (3)** Gross human anatomy, emphasizing identification and description of parts of the musculoskeletal system; selected applications to motor activity. Primarily for KRS majors, but open to others with consent. A-F only. Pre: PHYL 103 or 141/141L or consent. **DB**

**KRS 354 Exercise and Sport Physiology (3)** Emphasis on physiological responses to exercises and physical training as related to strength, muscular endurance, cardio-respiratory endurance. Primarily for KRS majors, but open to others with consent. Kinesiology and Rehabilitation Science, Health/Exercise Science and Lifestyle Management, and Physical Education majors only. A-F only. Pre: PHYL 103, or 142/142L (or concurrent), or BIOL 171/171L (or concurrent); or consent. Co-requisite: 354L. **DB**

**KRS 354L Exercise and Sport Physiology Lab (2)** Laboratory section to accompany KRS 354. Emphasis will be hands-on data collection and analysis of the physiological responses to exercise and physical training. Lab report development and scientific writing will also be emphasized. A-F only. Pre: PHYL 142/142L or PHYL 302/302L (or concurrent); or consent. Co-requisite: 354.

**KRS 371 Teaching Techniques I: Elementary (3)** Teaching techniques and methods of elementary physical education. Content to include basic skills and games in a school-based experience. Repeatable up to 6 credits. Primarily for KRS majors. A-F only.

**KRS 372 Teaching Techniques II: Secondary (3)** Teaching techniques and methods of secondary physical education. Content to include invasion, net, field, and target activities. These activities emphasize the tactical approach in a school-based experience. Primarily for KRS majors. A-F only. Pre: 181, 182, admittance to COE, and consent.

**KRS 384 Drugs and Society (3)** Introduction to psychoactive drugs and their effects; drug regulations; education and rehabilitation programs; psycho-social variables related to the decisions to use/abuse drugs. Pre: consent.

**KRS 385 Physical Fitness for Physical Education Teachers (1)** Diagnosis and prescription for basic health and fitness problems, scientific principles of training, guidelines for exercise; essentials of scientific based individualized physical fitness program. Repeatable one time.

**KRS 388 Field Work in Strength and Conditioning I (1)** Supervised practicum in strength training and conditioning. Students will be exposed to the theory and practice of designing and implementing both strength/power, and general conditioning programs. Repeatable one time. Pre: 152, 354 (or concurrent); or consent.

**KRS 395 Personal Health and Wellness (3)** Scientifically based information will be presented to help the student make decisions and take responsibility for his/her own health and health-related behaviors. The student will develop a personal, daily physical activity/exercise program, in which he/she will participate and be monitored. Repeatable one time. **DB**

**KRS 399 Directed Reading (V)** Individual problems. Limited to senior majors in health education, physical education, athletic training, or recreation with a minimum GPA of 2.75 in major field. Repeatable unlimited times.

**KRS 401 Current Trends in Health (3)** Identification and analysis of the most important health issues for individuals, families, schools, and communities. Focus on cultural and local considerations in health promotion and education. Repeatable one time. A-F only.

**KRS 402 Teaching Practicum in Physical Education (3)** Field experience in teaching physical education activities in schools, K-12; techniques in leadership; selection of activities and program evaluation for K-12 licensure. Repeatable two times. A-F only. Pre: admission to COE and consent.

**KRS 403 Guidance and Classroom Management (3)** Guidance principles applied to classroom management for teachers. Pre: consent.

**KRS 404 K-12 Teaching Methods in Physical Education (3)** Methods and materials in teaching physical education activities program; techniques; leadership; selection of appropriate activities and program evaluation for teaching licensure. Repeatable one time, but credit earned one time only. A-F only. KRS majors only.

**KRS 405 (Alpha) Teaching Residency (V)** Full-time supervised experience in elementary and secondary school level. School level corresponds to level of licensure desired. (E) elementary; (S) secondary. Each alpha can be taken one time. Kinesiology & Rehabilitation Science, Physical Education, and Secondary Education-Physical Education majors only. A-F only. Pre: 402 (with a minimum grade of B-) and 404 (with a minimum grade of B-); requirements for registration listed under "student teaching"; or consent. Co-requisite: 406.

**KRS 406 Seminar in Teaching Residency (3)** Analysis and resolutions of issues in teaching residency; teaching strategies and techniques; curriculum planning; professional growth and development. Repeatable one time. A-F only. Pre: 402 and 404, or consent.

**KRS 407 Psychosocial Aspects of Sport (3)** Examination and application of sociological and psychological theories to sport including the influence of race, ethnicity, gender, identity and human development, social class, disabilities, and sexual orientation on the sport experience. A-F only. Pre: consent. **DS**

**KRS 415 Prevent/Care of Athletic Injuries (3)** An examination of the most recent practices and procedures in the prevention and care of athletic and sports injuries. Observational field experiences in athletic training will be required. A-F only. Pre: PHYL 301 (or concurrent with consent) and PHYL 301L (or concurrent with consent). **DB**

**KRS 416 Fundamentals of Ergonomics (3)** Introduction to ergonomics principles and their application in understanding and prevention of Muscular Skeletal Disorders encountered in the working environment including introduction to legal aspects of ergonomics. Pre: 463 or consent.

**KRS 419 Administration in Athletic Training, Exercise Science, Allied Health (3)** An examination of organization and administration in Athletic Training, Allied Health and Exercise Science. Content includes leadership and motivation models, legal liability, ethical considerations and management strategies for all aspects of Health Care Administration. KRS majors only. A-F only.

**KRS 420 Lower Extremity Assessment (3)** An examination of the pathology of injuries to the lower extremities and their care and treatment designed for Athletic Training, Exercise Science and Allied Health professionals. KRS majors only. A-F only. Pre: 353, 415; or consent.

**KRS 421 Upper Extremity Assessment (3)** An examination of the pathology of injuries to the upper extremities and their care and treatment designed for Athletic Training, Exercise Science and Allied Health professionals. Kinesiology and Rehabilitation Science, Health/Exercise Science and Lifestyle Management, and Physical Education majors only. A-F only. Pre: 353 and 415, or consent.

**KRS 423 Curriculum and Supervision (3)** Effective program development, planning, and supervision, including issues in legal liability and administration of all aspects of physical education programming in grades K-12. Repeatable one time. A-F only. Pre: 270 or consent. Majors only.

**KRS 428 Current Issues in Leisure Services (3)** Philosophical foundations and current and emerging issues in leisure services management and programming. Coverage of leisure research and its implications to practice. Repeatable one time. Pre: 238, 249, and 329; or consent.

**KRS 429 Evaluating and Marketing Leisure Services (3)**

Basic methods in marketing, planning, evaluating programs and problem-solving methods, survey research, research design, data analysis, and report generation for park, recreation, and tourism systems. A-F only. Pre: 329 (or concurrent), or consent.

**KRS 432 Emergency Care for the Professional Rescuer (3)**

Combined lecture-lab on advanced emergency care for injuries and illnesses and includes certifications for CPR/First Aid/AED. Class size of approximately 20 students. Open to all majors. Repeatable one time. A-F only. Pre: consent.

**KRS 434 Coaching Athletics (3)** Combined lecture-lab with emphasis on scientific principles, theory and practice, and professional qualities of the coach. A-F only. Pre: consent.

**KRS 437 Camp Resources and Planning (2)**

(1 Lec, 1 3-hr Lab) Combined lecture-lab for camp counselors and camp leadership. Plan and evaluate camp experiences for children and youth, including those with disabilities. Includes field trips. Pre: 331 and 332, or consent.

**KRS 438 Practicum in Camping (V)** Supervised leadership at a camp setting with children and youth, including those with disabilities. Day or residential camps. One full week camping for each credit hour. Maximum of four credit hours. Pre: 437 (or concurrent) or consent.

**KRS 443 Disability and Diversity in Physical Activity (4)** (3 Lec, 1 1-hr. Lab) Participants will explore issues of socio-cultural, sexual orientation, religion, and individuals with exceptionalities, and how these affect a student's learning and behavior in the physical education setting. Required field experience. Repeatable one time. A-F only. (Cross-listed as SPED 443)

**KRS 463 Sport Biomechanics (3)** Concepts and scientific principles essential to efficient human movement; proper application of biomechanical principles to fundamental movements and selected complex motor skills. Repeatable one time, but credit earned one time only. A-F only. Pre: 353, and either PHYS 100, PHYS 151, or PHYS 170; or consent. DB

**KRS 470 Fitness for Life (3)** Physical education teachers will gain knowledge, skills, and experience necessary to plan, implement, and evaluate Fitness for Life curriculum (grades 6-12). Information is guided by national and state standards. Includes lecture, lab, and teaching experiences. Repeatable one time. A-F only. (Once a year)

**KRS 471 K-12 Teaching Methods in Health (3)** Experiences in developing standards-based, interactive learning opportunities to teach personal and social skills for health in schools. Focus on National and Hawai'i Health Content Standards, priority risk/content areas, the Coordinated School Health Program, and responsibilities and competencies. A-F only.

**KRS 472 Learning Communities (3)** Theory, basic research, interactive process, and methodology of the cooperative learning process known as Tribes. Will develop participants' abilities to foster and facilitate learning communities in a variety of settings. Repeatable one time. (Summer only)

**KRS 473 Ethnic Groups and Education in Hawai'i (3)** Identity and learning within and among Hawai'i ethnic groups; study of prejudice and inter-ethnic hostilities as these impact education and teaching. Pre: consent. DS

**KRS 474 Introduction to Statistics in Kinesiology (3)** Basic elements for: descriptive statistics, probability, inference, regression, and correlation analysis. A-F only. Repeatable one time.

**KRS 476 Motor Learning and Performance (3)** Basic consideration is kinesthesia, motor ability, fatigue, developmental factors, practice, motivation in relation to motor learning and human performance. Repeatable one time. Pre: EDEP 311 or consent.

**KRS 477 Motor Development and Learning (4)** (3 Lec, 1 1-hr. Lab) Motor development through the lifespan with emphasis on fundamental principles and patterns. Factors affecting motor learning performance as a function of memory, practice, knowledge of performance, and motivation are incorporated. Required field experience. Repeatable one time. A-F only.

**KRS 478 Adapted Physical Activity in Early Childhood (3)** Concepts of developmentally appropriate practice, importance of movement in overall development, and design of physical activity sessions and environments for young children with and without disabilities are covered. A-F only. Pre: consent.

**KRS 480 Nutrition in Exercise and Sport (3)** Effects of physiologic demands of exercise on nutrition. Emphasis on physiologic and biochemical basis for nutrition recommendations to enhance exercise participation and optimize athletic performance. (Cross-listed as FSHN 480) DB

**KRS 481 Introduction to Research in KRS (3)** Research methods in the study of physical activity, types of research, statistical concepts and techniques, and reporting research results. Repeatable one time.

**KRS 482 Commercial Recreation (3)** Overview of leisure services and trends in commercial, private and employee recreation, and resort and recreational tourism. The social, economic, and environmental significance is examined. Pre: 428 or consent.

**KRS 483 Recreation Planning and Maintenance (3)** Examination of social, economic, and environmental factors of recreation and tourism development. Emphasis on methods, processes, citizen participation, design issues/regulations, and land use. Repeatable one time. Pre: 238 and 329; or consent.

**KRS 484 Promoting a Drug-Free Lifestyle (3)** Standards-based planning, teaching, and assessment to promote a tobacco-, alcohol-, and drug-free lifestyle, K-12. Research-based curriculum and strategies to promote personal and social responsibility for health. Repeatable one time. A-F only.

**KRS 485 Healthy Sexuality Education, K-12 (3)** Standards-based planning, teaching, and assessment for comprehensive sexuality education, K-12. Focus on research-based curriculum and strategies to promote personal and social responsibility for health. A-F only.

**KRS 487 Exercise Assessment and Conditioning Lab (4)** Designed to provide knowledge of laboratory techniques and procedures for aerobic and anaerobic fitness assessment, interpretation of aerobic and anaerobic testing results, and individual exercise program/prescription. A-F only. Pre: 480 and EDEP 429, or consent. (Fall only)

**KRS 488 Practicum in Health and Exercise Science (4)** Application of various testing procedures on human subjects with different physical capacities. Repeatable one time. Pre: 152, 353, 354, and 463; or consent.

**KRS 489 Program Design in Strength Training and Conditioning (3)** Designed to provide theoretical and practical experience in supervision of a strength training center. Content includes program design, exercise techniques, organization, testing, evaluation, methods of strength development, facility design and special populations. Kinesiology & Rehabilitation Science, Health/Exercise Science and Lifestyle Management, and Physical Education majors only. A-F only. Pre: 152, 153, 353, 354, 354L, and 463; or consent.

**KRS 490 Introduction to Athletic Training Clinic (3)** Introduction to the Entry-Level Graduate Athletic Training Education Program and the Clinical Education Plan. Students will be required to document all requirements and demonstrate proficiency in basic clinical skills. Repeatable one time. A-F only. Pre: 332, 354, PHYL 302/L, and 50 hours observation experience in an athletic training clinic. Co-requisite: 415. (Once a year)

**KRS 491 AT Practicum I (3)** Introductory-level supervised experiences within the profession of athletic training. This practicum is required for the KRS entry-level Graduate Athletic Training Education Program. A-F only.

**KRS 492 AT Practicum II (3)** Introductory-level supervised experiences within the profession of athletic training. This practicum is required for the KRS entry-level Graduate Athletic Training Education Program. A-F only.

**KRS 493 Athletic Training Practicum III (3)** Advanced-level supervised experiences within the profession of athletic training. This practicum is a requirement for entry to the KRS Master's Athletic Training Program. A-F only.

**KRS 494 Athletic Training Practicum IV (3)** (5 2-hr Practicum) Advanced-level supervised experiences within the profession of athletic training. This practicum is a requirement for entry to the KRS Master's Athletic Training Program. A-F only.

**KRS 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**KRS 600 Counseling in the Schools (3)** History, philosophy, and organization of school counseling programs. Counselor role and functions, legal and ethical issues, contemporary issues, current methodology and resources. (Meets EdD common core elective.) Pre: consent.

**KRS 603 Lower Extremity, Thorax, and Abdomen (3)** Human gross anatomy dissection of the lower extremity, thorax, and abdomen with emphasis on muscles, function, innervation, and vascular supply. Repeatable one time. Enrolled in DRB or KRS graduate programs (including Biomed Sci-Anat/RepoBiol & Phys majors) only or consent. A-F only. (Spring only) (Cross-listed as ANAT 603)

**KRS 604 Upper Extremity, Head, Neck, and Spine (3)** Human gross anatomy dissection of the upper extremity, head, neck, and spine. Emphasis is placed on muscles, function, innervation, and vascular supply. Repeatable one time. Enrolled in DRB or KRS graduate programs (including Biomed Sci-Anat/RepoBiol & Phys majors) only or consent. A-F only. (Fall only) (Cross-listed as ANAT 604)

**KRS 605 Human Growth and Development—Life Span (3)** Life span perspective on psychological, social, and physical development. Major theories and related research on human development; applications in policy planning and service delivery in counseling. Pre: consent.

**KRS 606 Counseling: Theory and Practice (3)** Theory and techniques of counseling and guidance as preparation for practicum and internship. Application in school, college, rehabilitation, and community settings. Pre: consent.

**KRS 607 Scientific Principles of Physical Conditioning (3)** Application of physiological principles to physical conditioning and athletic performance. Pre: graduate standing or consent.

**KRS 608 Muscular Strength and Power Development (3)** Interpretation of scientific principles of muscular strength and power development. Examination of muscular adaptations to increased and decreased use. Pre: graduate standing or consent.

**KRS 609 Athletic Training, Clinical Experience I (3)** (1 Sem, 5 3-hr Practicum) Practicum in which the student will perform the duties and responsibilities of an athletic training student. This practicum must be completed during the first semester post admission into the program. A-F only. Pre: 490; or consent. Co-requisite: 615B.

**KRS 610 Athletic Training, Clinical Experience II (3)** (1 Sem, 5 3-hr Practicum) Practicum in which the student will perform the duties and responsibilities of an athletic training student. This practicum must be completed during the second semester post admission to the program. A-F only. Pre: 609 or consent. Co-requisite: 615U.

**KRS 611 Athletic Training, Clinical Experience III (3)** (1 Sem, 5 3-hr Practicum) Culminating practicum in which the student will perform the duties and responsibilities of a second year graduate athletic training student. A practical field experience in athletic training will be required. A-F only. Pre: 610 or consent. Co-requisite: 615H.

**KRS 612 Athletic Training, Clinical Experience IV (3)** (1 Sem, 5 3-hr Practicum) Culminating practicum in which the student will perform the duties and responsibilities of a second year graduate athletic training student. A practical field experience in athletic training will be required. A-F only. Pre: 611 or consent.

**KRS 613 Athletic Training Clinical Practicum (V)** (1 Sem, 5 4-hr Practicum) Advanced clinical practicum in which the BOC certified or certification-eligible graduate student experiences an enhancement of athletic training knowledge and refinement of athletic training skills. Repeatable up to 10 credits. A-F only. Pre: consent.

**KRS 614 Athletic Training Research Practicum (V)** (1 Sem, 5 4-hr Practicum) Advanced research practicum in which the BOC certified or certification-eligible graduate student deepens their understanding and enhances their critical thinking abilities in order to contribute to the advancement of the discipline and the athletic training profession. Repeatable up to 12 credits. A-F only. Pre: consent.

**KRS 615 (Alpha) Clinical Examination of Pathology (3)** (2 Lec, 1 3-hr Lab) Examination, care and treatment of musculoskeletal, neurological, and neuromuscular conditions and pathology; (B) lower extremities; (H) head, neck and spine; (U) upper extremity. EL-GATEP majors only. Graduate students only. A-F only. Pre: consent for (B); 615B and 615U, or consent for (H); 615B or consent for (U). Co-requisite: 490 and 609 for (B); 490 and 611 for (H); 490 and 610 for (U).

**KRS 616 Advanced Orthopedic Assessment (3)** (2 Lec, 1 3-hr Lab) Advanced knowledge and skills of athletic training as they are specifically applied to the understanding, treatment, and rehabilitation of sport-related injuries. (e.g. epidemiology, legal, ethical concerns, sports psychology, pharm, drug abuse, health issues) Pre: ANAT 604 or consent.

**KRS 617 Therapeutic Interventions: Modalities (4)** (3 Lec, 1 3-hr Lab) The physiology principles and operational procedures and operational procedures of contemporary Therapeutic modalities as they relate to the care and treatment of athletic injuries. Pre: consent.

**KRS 618 Therapeutic Interventions: Rehabilitative Exercise (4)** (3 Lec, 1 3-hr Lab) Concepts and principles of comprehensive rehabilitation programs (e.g. therapeutic goals and objectives, exercise selection, methods of evaluation and recording progress, progression and return to competition criteria, and the physiological effects of tissue trauma and inactivity). Pre: consent.

**KRS 619 General Medical Conditions in Sports Medicine (3)** An examination/evaluation of general medical conditions associated with sports medicine including pathology, care and treatment. Pre: PHYL 301, PHYL 302 or consent. Major restriction: KRS Athletic Training.

**KRS 620 Seminar in Athletic Training (1)** Designed to provide the student with analytical skills and practical experience relative to research as it applies to sports related injuries. Repeatable unlimited times. Pre: consent.

**KRS 621 Advanced Therapeutic Exercise (3)** Advanced concepts and evidence-based principles of rehabilitation programs. Enhancement of previously learned therapeutic exercise techniques and integration of therapeutic modalities and therapeutic exercise, including objective and functional goal setting and evaluation for appropriate progression and expedited return to activity. KRS majors only. Pre: 617 and 618 or basic therapeutic exercise and therapeutic modalities courses, or consent.

**KRS 622 Athletic Training Capstone Experience (3)** Capstone culminating experience preparing the student for the computer-based BOC Exam and for a career in athletic training. Follows the students' didactic and clinical preparation in the 12 competency areas of athletic training. Repeatable two times. KRS majors only. A-F only. Pre: 611 or consent. Co-requisite: 612. (Spring only)

**KRS 623 Administration in Kinesiology (3)** Current problems, trends, and strategies in the administration of athletic training, physical education, recreation, sport and fitness programs in school and non-school settings. Repeatable one time. Pre: consent. (Cross-listed as EDEA 623)

**KRS 625 Introduction to Community Counseling (3)** Philosophy, organization, and function of community service agencies, programs, and institutions as related to professional work in counseling. Pre: consent.

**KRS 626 Introduction to Practicum (3)** Pre-practicum training for supervised experiences in school, community, and human service organizations. Focus on the counseling relationship. Includes a specialty observation-participation field experience.

**KRS 627 Career Development and Vocational Counseling (3)** Theory and practice in career development and vocational counseling with individuals and groups; utilization of educational, vocational, and social resources in career counseling. Pre: consent.

**KRS 628 Research and Evaluation in Rehabilitation (3)** Framework for understanding basic statistics, methodology, and evaluation of research in rehabilitation and related fields. Students will analyze research, conceptualize research, and apply research to practice. Pre: consent.

**KRS 629 Counseling: Group Theory and Practice (3)** Theories and techniques of group counseling and guidance as preparation for practicum and internship. Application in school, college, rehabilitation, and community settings. Pre: 626 or 683, and 606, and consent.

**KRS 630 Tests and Inventories in Guidance (3)** Tests and inventories for the assessment of aptitudes, achievement, and interests. Applications to educational, instructional, and career guidance. Pre: consent.

**KRS 631 Problems of School Adjustment (3)** Principles of behavior affecting interpersonal relationships in school with emphasis on application to actual situations. Pre: consent.

**KRS 632 Theory and Assessment of Intelligence (3)** Theory and supervised experience in individual intelligence testing, psychological report writing; psychometric and social issues in intelligence testing. Pre: 630 and consent.

**KRS 633 Crisis Intervention (3)** Professional concerns about crisis intervention strategies, and counseling skills development. Crisis theory as applied to suicide, sexual assault/rape, natural and man-made disasters, personal loss, terminal illness, life cycle crisis, and the like. A-F only. Pre: 606 or consent.

**KRS 634 Inclusive Physical Activity (3)** Advanced knowledge on issues of socio-cultural, learning styles, diversity, and exceptionalities, and how these influence instruction, engagement, and behavior in physical activity settings across the lifespan. A-F only. Pre: consent. (Cross-listed as SPED 634)

**KRS 635 Elementary Physical Education (3)** Content and pedagogy for teaching preschool/elementary physical education. Students will learn appropriate content and pedagogy for learners in elementary school. Bit teaching and field experiences are included. A-F only. Pre: consent. (Once a year)

**KRS 636 Theory and Assessment of Personality (3)** Personality testing; practice in administration and use of personality assessment; examination of psychometric and social issues. Pre: 630 and consent.

**KRS 637 Cross-Cultural Counseling (3)** Significance of cultural factors in counseling relationships, delivery of counseling services in multicultural settings with attention to Hawai'i. Emphasis on process of cultural learning and implications for counselor roles and functions. Pre: consent.

**KRS 640 Seminar in Physical Activity (3)** Trends, research, and problems related to physical activity across the lifespan. A variety of topics and contexts will be addressed. Enrolled in KRS graduate program only. A-F only. Pre: consent. (Spring only)

**KRS 641 Seminar: Health/Exercise Science (V)** Review of selected current literature in exercise/sport science and leisure studies. Practice of presentation in group setting. Repeatable up to 3 credits. Pre: 673 (or concurrent) or EDCS 632 (or concurrent).

**KRS 643 Secondary Physical Education (3)** Detailed examination of effective physical education curriculum and instruction in middle and high schools. Repeatable one time. A-F only. Pre: consent.

**KRS 646 American College Student (3)** Study of psychosocial characteristics of American college students and college environment, from viewpoint of student personnel work. Pre: consent. (Cross-listed as EDEA 646)

**KRS 660 Marriage, Family, and Child Counseling (3)** Theory/practice of marriage, family, and child counseling, including major model in clinical practice; supervised counseling project by each student. Liability insurance required. Pre: 629 or consent.

**KRS 663 Biomechanics of Human Motion (3)** Principles of motion as applied to sport and physical rehabilitation. Introduction to the technology used in the analysis of motion. Pre: consent.

**KRS 664 Physiology of Exercise (3)** Physiological bases of modern physical training methods and sports science. Repeatable one time. Pre: consent.

**KRS 665 Metabolic Analysis (3)** Theory and practice of metabolic analysis of human performance examining each of the power systems used in energy production during exercise and how to use this information to prescribe exercise programs. Pre: consent.

**KRS 666 Advanced Fitness Assessment and Exercise Prescription (3)** Provides knowledge of field and laboratory techniques and procedures for aerobic and anaerobic fitness assessment, interpretation of testing results and individual exercise program/prescription techniques. Repeatable one time. Pre: consent.

**KRS 667 Body Composition and Weight Management (3)** Analysis of the theory and practice used in the assessment of body composition and human physique. Includes strategies for implementing changes in body composition. Pre: consent.

**KRS 670 Consultation: Theory and Practice (3)** Consultation in educational, business, health, community, and human services agencies. Pre: consent.

**KRS 673 Research Methods in KRS (3)** The use of experimental designs/models in physical education research with emphasis on understanding the concepts, applications, and interpretations of statistical analysis. Pre: consent.

**KRS 674 Assessment in Physical Activity (3)** Overview of assessment purposes, types, practices and procedures used in physical education for those with disabilities. Frequently used motor assessments and practices in collection of data will be specifically addressed. Pre: consent. (Spring only)

**KRS 675 Transdisciplinary Approach to Teaching the Motor Domain (3)** Highlights a transdisciplinary approach for effectively teaching students with disabilities in the motor domain. Important characteristics and components of this approach will be shared. Strategies for its implementation will also be addressed. Pre: consent.

**KRS 680 Principles and Practice of Rehabilitation Counseling (3)** Principles, practices of rehabilitation counseling; review of history and influence of legislation on vocational rehabilitation; current issues, developments, with emphasis on local situation. Pre: consent.

**KRS 681 Medical and Psychosocial Aspects of Disability (3)** Functional implications of chronic illnesses and disabilities on psychological, social and vocational areas of an individual's life. Case studies and presentations will stimulate discussion and help students to apply theoretical information into practical everyday context. Pre: 680 and consent.

**KRS 683 Case Management in Rehabilitation (3)** Knowledge and skills required in case and case-load management in public as well as private sector rehabilitation sites. Emphasis on professional/client relationship, interviewing process, decision-making, goal-setting, recording/documentation, time management, and other tasks. Pre: 680 and consent.

**KRS 684 Psychopathology in Counseling (3)** Discussion-oriented course (potentially Web-based). Examination of theory and practice of diagnosis in the assessment and treatment of mental disorders and the use of the Diagnostic and Statistical Manual of Mental Disorders (DSM-IV) multi-axial system. Case studies will illustrate diagnostic issues. A-F only. Pre: 606 and 681, and consent.

**KRS 685 Ethical Issues for the Helping Profession (3)** Developing ethical reasoning capabilities for resolution of ethical dilemmas likely to be encountered in counseling, psychology, and specialty practices (e.g., community, rehabilitation, school, mental health, alcohol and substance abuse, marriage and family counseling, and the like). A-F only. Pre: 606 and consent.

**KRS 686 Vocational Evaluation and Assessment in Rehabilitation (3)** Theory, process, and techniques of vocational evaluation and assessment. Assessment methods and processes as they relate to vocational choice and adjustment of special groups. Pre: 681 and consent.

**KRS 687 Assistive Technology in Rehabilitation Counseling (3)** Study of application of assistive technologies to enhance the lives of people with disabilities. Case studies provide the vehicle in guiding students toward integration of available information into reality of actual situations. Special emphasis on the importance of using a consumer-centered approach in providing assistive technology services. A-F only. Pre: 681 and consent.

**KRS 688 Theory and Techniques of Job Placement (3)** Theory, process, and techniques of job readiness, job development, and job placement. Pre: 627 and consent.

**KRS 695 Promoting Physical Activity (3)** Overview of the theoretical and applied study of physical activity epidemiology. Physical activity content includes benefits, factors that influence, levels, valid instruments to assess, and programs to promote physical activity. (Fall only)

**KRS 699 Directed Reading and/or Research (V)** Individual reading and/or research. Repeatable unlimited times. Pre: consent of instructor and department chair.

**KRS 700 Thesis Research (V)** Research for master's thesis. Repeatable unlimited times.

**KRS 703 (Alpha) Practicum in Counseling (V)** Supervised experience (150 clock hours per semester) in counseling and guidance activities, which includes a weekly class meeting; (E) elementary; (H) secondary; (C) community service; (R) rehabilitation; (U) college. Each alpha is repeatable three times. Pre: 626 or 683, and consent.

**KRS 704 Contemporary Issues in Counseling (3)** Current issues and problems. (Meets EdD common required elective.) Repeatable unlimited times. Pre: consent.

**KRS 733 (Alpha) Internship I (V)** Supervised post-practicum experience (300 clock hours per semester) in counseling and guidance activities, which includes a weekly class meeting; (E) elementary; (H) secondary; (C) community service; (R) rehabilitation; (U) college. Each alpha is repeatable three times. Pre: 703 and consent.

**KRS 734 (Alpha) Internship II (V)** Supervised post-internship I experience (300 clock hours per se-

mester) in counseling and guidance activities, which includes a weekly class meeting; (E) elementary; (H) secondary; (C) community service; (R) rehabilitation; (U) college. Each alpha is repeatable three times. A-F only. Pre: 733 and consent.

**KRS 741 Seminar in School Counseling (3)** In-depth study of professional concerns in school counseling. A-F only. Pre: 703 (E or H) and consent.

**KRS 751 Seminar in Community Counseling (3)** In-depth study of professional concerns in community counseling. A-F only. Pre: 703C and consent.

**KRS 761 Seminar in College Counseling (3)** In-depth study of professional concerns in college counseling. A-F only. Pre: 703U and consent.

**KRS 775 Doctoral Seminar and Research I in Kinesiology (3)** Will expose the PhD student to the basic nature of behavioral and somatic science research. Learning experiences will consist of journal review, laboratory/field techniques, and subject or data collector exposures as directed by faculty mentors. CR/NC only. KRS majors only. Pre: consent.

**KRS 776 Doctoral Seminar and Research II in Kinesiology (3)** Provide the PhD student the opportunity to be involved in research, under the direction of the faculty mentor, as the assistant project director and as the project director for pilot studies. Student will gain experience in these roles with close supervision by the faculty mentor. CR/NC only. KRS majors only. Pre: consent.

**KRS 777 Doctoral Seminar and Research III in Kinesiology (3)** Provide the PhD student the opportunity to assume the role of director of a research project under the supervision of the faculty mentor. The research project will represent a piece of the ongoing line of research of the faculty mentor. Responsibilities will be comparable of a project director of research funded by a research grant. CR/NC only. KRS majors only. Pre: consent.

**KRS 778 Doctoral Seminar IV in Kinesiology (3)** Designed to enable PhD students to gain a perspective of the discipline, both historically and philosophically, prepare them for the issues they may face in the real world, particularly higher education and help them initiate their dissertation. CR/NC only. KRS majors only. Pre: consent.

**KRS 781 Seminar in Rehabilitation Counseling (V)** In-depth study of professional concerns in rehabilitation counseling. A-F only. Pre: 703R and consent.

## Korean (KOR)

### *College of Languages, Linguistics and Literature*

*All students taking language courses in this program for the first time must take a regularly scheduled placement test; those with no background must come to the Department of East Asian Languages and Literatures for a brief interview. A grade of C or better in the prerequisite courses is required for continuation.*

**KOR 101 Elementary Korean (4)** Listening, speaking, reading, writing, grammar. Meets one hour, four times a week, plus lab work. Pre: consent. HSL

**KOR 102 Elementary Korean (4)** Continuation of 101. Pre: 101 or consent. HSL

**KOR 105 Accelerated Elementary Korean (8)** Content of KOR 101 and 102 covered in one intensive course. Four 2-hour sessions per week, Monday-Thursday, plus daily lab work. Pre: placement test or consent. (Fall only) HSL

**KOR 111 Elementary Conversational Korean I (3)** Development of basic skills (listening, speaking and grammar) of spoken Korean, with application to some familiar everyday topics. Pre: consent. HSL

**KOR 112 Elementary Conversational Korean II (3)** Continuation of 111. Pre: 101 or 111, or consent. HSL

**KOR 201 Intermediate Korean (4)** Continuation of 101 and 102. Meets one hour, four times a week,

plus lab work. Pre: 102 or placement test; or consent. HSL

**KOR 202 Intermediate Korean (4)** Continuation of 201. Pre: 201 or placement test; or consent. HSL

**KOR 205 Accelerated Intermediate Korean (8)** Content of KOR 201 and 202 covered in one intensive course. Four 2-hour sessions per week, Monday-Thursday, plus daily lab work. Pre: 102, 105, 112, placement test; or consent. (Spring only) HSL

**KOR 211 Intermediate Conversational Korean I (3)** Further development of listening and speaking skills. The student is expected to be able to comprehend and produce speech at the paragraph level. Pre: 102 or 112, or consent. HSL

**KOR 212 Intermediate Conversational Korean II (3)** Continuation of 211. Pre: 201 or 211, or consent. HSL

**KOR 301 Third-Level Korean (3)** Continuation of 201 and 202. Major emphasis on comprehension of modern written Korean. Chinese characters. Pre: 202 or consent. (Fall only)

**KOR 302 Third-Level Korean (3)** Continuation of 301. Pre: 301 or consent. (Spring only)

**KOR 307 Readings in Chinese Characters I (3)** Training intermediate and advanced learners of Korean to master the reading, writing and usage of some 250 basic Chinese characters as they are used in a wide variety of Korean reading texts. Pre: 202 or consent.

**KOR 308 Readings in Chinese Characters II (3)** Continuation of 307, covering an additional 250 basic Chinese characters. Pre: 307 or consent.

**KOR 380 Korean Proficiency Through TV Drama (3)** Students who try to elevate proficiency level to Advanced by challenging themselves to understand culturally and situationally-rich text, i.e., Korean drama. Increasing Korean proficiency within context is the main objective of the course. Pre: 302 or consent.

**KOR 399 Directed Third-Level Reading (V)** For those who need special assistance, e.g., in reading texts in area of specialization or at a pace more rapid than those of standard courses. Offered if staff available. CR/NC only. Repeatable three times. Pre: consent.

**KOR 401 Fourth-Level Korean (3)** Continuation of 302. Pre: 302 or consent. (Fall only)

**KOR 402 Fourth-Level Korean (3)** Continuation of 401. Pre: 401 or consent. (Spring only)

**KOR 403 High-Advanced Korean I (3)** Continuation of 402. Emphasis on highest level of listening, speaking, reading and writing, with application to Korean culture, using authentic materials. Pre: 402 or consent. (Fall only)

**KOR 404 High-Advanced Korean II (3)** Continuation of 403. Emphasis on highest level of listening, speaking, reading and writing, with application to Korean culture using authentic materials. Pre: 402 or consent.

**KOR 420 Korean Composition (3)** Training in modern structural and stylistic techniques; writing on designated themes. Repeatable one time. Pre: 402 or consent.

**KOR 421 Media Analysis in Korean I (3)** Focus on analyzing, comparing, and evaluating current media materials in South Korea to develop professional language skills and to deepen knowledge and understanding of contemporary Korean society. A-F only. Pre: 402, or consent. (Once a year)

**KOR 422 Media Analysis in Korean II (3)** Focus on analyzing, comparing, and evaluating current media materials in South Korea and North Korea to develop professional language skills and to deepen knowledge and understanding of contemporary North Korea. A-F only. Pre: 402 or consent.

**KOR 425 Selected Readings in Korean (3)** Selected readings in various disciplines. Repeatable one time with consent. Pre: 402 or consent.

**KOR 451 Structure of Korean (3)** Introduction to phonology, morphology, and history. Pre: 302 or consent.

**KOR 452 Structure of Korean (3)** Introduction to syntax and semantics. Pre: 302 or consent.

**KOR 470 Language and Culture of Korea (3)** Relation of Korean language to literature, history, philosophy, social structure, values, and interpersonal relationships; social and regional varieties. Pre: 402 or consent. **DH**

**KOR 480 Korean Oral Proficiency Through Film (3)** Designed to increase proficiency level from advanced to superior and to deepen cultural awareness. Pre: 402 or consent.

**KOR 485 (Alpha) Korean for Career Professionals (V)** Combined lecture-conference on functional command of various discourse-level features in Korean in domain of (B) economics; (C) political science; (D) computer science; (E) engineering; (F) travel industry management; (G) business; (H) law; (I) medicine; (J) nursing and public health, and (K) others. Repeatable one time. Pre: 402 or diagnostic assessment procedures or consent.

**KOR 486 (Alpha) Korean for Academic Purposes (V)** Content taught in Korean by professional school Korean faculty and flagship instructor in domain of (B) economics; (C) political science; (D) computer science; (E) engineering; (F) travel industry management; (G) business; (H) law; (I) medicine; (J) nursing and public health, and (K) others. Repeatable one time. Pre: 402 or consent.

**KOR 493 Introduction to Traditional Korean Literature (3)** Critical readings from earliest times and presentations that emphasize genre, style, and context. Pre: 402 or consent. **DL**

**KOR 494 Introduction to Modern Korean Literature (3)** Critical readings of 20th-century materials and presentations that emphasize context and the development of style. Pre: 402 or consent. **DL**

**KOR 495 Internship Program (V)** Supervised internship with Korean professional hosts on O'ahu. Students will also attend an on-campus preparatory and follow-up language class. A-F only. Pre: 486, diagnostic assessment procedures; or consent.

**KOR 496 Korean Abroad (V)** Supervised internship with Korean professional hosts in Korea. Students also undergo a one-week training module designed to prepare them to maximize the benefits of the overseas internship. Repeatable up to 3 times. CR/NC only. Pre: 495, diagnostic assessment procedures; or consent.

**KOR 499 Directed Fourth-Level Reading (V)** For those who need special assistance, e.g., in reading texts in area of specialization or at a pace more rapid than those of standard courses. Primarily for graduate students from other departments. CR/NC only. Repeatable three times. Pre: consent of department chair.

**KOR 613 (Alpha) Korean Verse (3)** Intensive and analytical reading of selected works of Korean lyric and didactic verse (e.g., *hyangga*, *changga*, *hanshi*, *sijo*, *kasa*, free form): (M) modern; (T) traditional. Pre: 494 or consent for (M), 493 or consent for (T).

**KOR 614 (Alpha) Korean Narrative (3)** Intensive and analytical reading of selected works of Korean narrative (e.g., myth, *p'ansori*, shaman song, essay, biography, fiction): (M) modern; (T) traditional. Pre: 494 or consent for (M), 493 or consent for (T).

**KOR 615 (Alpha) Korean Drama (3)** Intensive and analytical reading of selected materials in Korean performing arts (e.g., spectacle, farce play, mask dance, staged narratives, theatrical drama): (M) modern; (T) traditional. Pre: 494 or consent for (M), 493 or consent for (T).

**KOR 621 Media Research in Korean (3)** Focuses on searching, analyzing, and evaluating media data for research in areas of student specializations. Students are required to write short analysis papers and a final research paper. Pre: diagnostic assessment (equivalent to ILR Level 2) or consent. (Once a year)

**KOR 622 Comparative Studies of Contemporary South and North Korean Language (3)** Comparing and analyzing language data to investigate language heterogeneity problems, its causes, and importance of comparative studies in NK/SK language differences; differences in language policy, grammar, and vocabulary, pronunciation, and discourse style. Pre: 621 or consent. (Once a year)

**KOR 623 Interdisciplinary Research in Korean (3)** Combined lecture-discussion on preparing students to be able to conduct interdisciplinary research in Korean. Require advanced-level Korean proficiency. Pre: diagnostic assessment (equivalent to ILR Level 2) or consent. (Once a year)

**KOR 624 (Alpha) Analysis of Korean Academic Discourse (3)** Co-taught by Korean faculty of professional schools and Korean instruction in domain of (B) economics; (C) political science; (D) computer science; (E) travel industry management; (G) business; (H) law; (I) medicine; (J) nursing and public health; and (K) others. Exclusively in Korean. Repeatable one time. Pre: 485 or 623 or consent. (Once a year)

**KOR 631 History and Dialects of Korean Language (3)** Survey of various hypotheses on the genetic relationship of Korean; evolution of Korean from the 15th century to the present; Korean dialects. Pre: 451 and 452, or consent.

**KOR 632 Korean Phonology and Morphology (3)** Review of Korean vocalic and consonantal phonology. Phonological and morphological analysis of Korean derivation and inflection. Pre: 451 or consent.

**KOR 633 Korean Syntax and Semantics (3)** Review of theoretical problems in Korean syntax and semantics; different approaches; and contributions of Korean linguistic study to syntactic and semantic theory. Pre: 452 or consent.

**KOR 634 Korean Sociolinguistics (3)** Variations in form and use depending on sociocultural factors. Role of language in politics, mass media, group identity, bilingualism, and intercultural communication. Pre: 470 or consent.

**KOR 635 Pedagogy of Teaching Korean as a Second Language (3)** Identification and analysis of major problems in Korean language learning, teaching, testing, and materials development by examining theoretical issues and conducting classroom research; practical techniques of teaching and testing skills in listening, reading, speaking, writing and culture. Pre: 451 and 452; or consent.

**KOR 636 Korean Conversation Analysis (3)** Theoretical framework of discourse analysis and review of Korean conversational discourse structures, such as turn-taking, sequence organization, and discourse markers; training for data collection, transcription, and data analysis. A-F only. Pre: 451 and 452; or consent. (Alt. years: fall)

**KOR 640 Literary Translation of Korean (3)** The art and craft of translating traditional and modern Korean literary works into English. Repeatable four times. Pre: 493 and 494, or consent.

**KOR 645 Research in Korean Language Acquisition (3)** Integrating the conceptual aspects of statistics and scientific analysis of human language behavior into the study of Korean as a foreign language. Pre: 635 or consent.

**KOR 652 Major Authors in Modern Korean Literature (3)** Advanced study of major Korean fiction writers from the 1910s to the present with emphasis on critical reading of their lives and writings to arrive at informed appraisal of their contribution to modern Korean literature. Repeatable one time. Pre: 494 or consent. (Cross-listed as ASAN 653)

**KOR 655 Practicum: Teaching Korean as a Second Language (3)** Designed for graduate students pursuing Korean language teaching, while developing practical teaching skills through class observation, action research and discussion under supervision. Pre: 635 or consent.

**KOR 664 Topics and Issues in Modern Korean Literature (3)** Intensive study of selected topics and issues in modern/contemporary Korean fiction, focusing on texts that problematize critical socio-cultural issues in the evolving contexts of modern Korean intellectual history. Repeatable one time. Pre: 494 or consent. (Cross-listed as ASAN 664)

**KOR 699 Directed Research (V)** Repeatable unlimited times. CR/NC only. Pre: consent.

**KOR 720 Research Seminar in Korean Literature (3)** Advanced study of an author, school, period, genre, or problem leading to a research paper. Repeatable one time. Pre: consent.

**KOR 730 Research Seminar in Korean Language (3)** Advanced study in history and dialects, phonology and morphology, syntax and semantics, sociolinguistics, or pedagogy, leading to a research paper. Repeatable one time. Pre: consent.

## Languages and Literatures of Europe and the Americas (LLEA)

*College of Languages, Linguistics and Literature*

*Courses given in English do not require knowledge of a foreign language.*

### CLASSICS

**LLEA 122 Greek and Roman Mythology (3)** Principal myths of Greek and Roman literature. **DL**

**LLEA 123 Greek and Latin Elements in English (3)** Important roots, prefixes, and suffixes for building a literary vocabulary.

**LLEA 124 Greek and Latin Elements in Scientific Terminology (3)** Important roots, prefixes, and suffixes for building a scientific vocabulary.

**LLEA 151 World Myth to 1500 C.E. (3)** Reading and analysis of myths and legends from around the globe, from before the dawn of writing to 1500 C.E. Students will learn to interpret traditional stories from several theoretical and cross-cultural perspectives. A-F only. **FGA**

**LLEA 301 Biblical Hebrew I (3)** Orthography and structure of Biblical Hebrew, history and development of Hebrew as the sacred language of Judaism, overview of religious and historical development of the Hebrew Bible. Pre: sophomore standing or consent. (Fall only) (Cross-listed as REL 301)

**LLEA 302 Biblical Hebrew II (3)** Reading of selected prose passages from the Hebrew Bible; analysis of literacy forms, paying special attention to stories which have played an important role in the development of the Abrahamic religions. Minimum C- grade required for prerequisites. Pre: 301/REL 301. (Spring only) (Cross-listed as REL 302)

**LLEA 305 Ancient Egyptian Hieroglyphics I (3)** Decipherment of hieroglyphs and reading of Middle Egyptian literary texts. (Fall only)

**LLEA 306 Ancient Egyptian Hieroglyphics II (3)** Decipherment of hieroglyphs and reading of Middle Egyptian literary texts, including Tale of Sinuhe. Pre: 305 or permission of instructor. (Spring only)

**LLEA 327 The Glory of Greece: Ancient Greek Literature in Translation (3)** Major writers: emphasis on Homer, drama, and philosophy. Sophomore standing or higher or consent. Pre: 122 or consent. **DL**

**LLEA 328 The Grandeur of Rome: Ancient Roman Literature in Translation (3)** Major writers: emphasis on Vergil, satire, and novel. Sophomore standing or higher or consent. Pre: 122 or consent. **DL**

### FRENCH

**LLEA 237 French Film (3)** Study of French film history and technique. A-F only. Pre: freshman standing. **DH**

**LLEA 264 French Culture for Americans (3)** Study of the shared cultural and historical foundations of France and the U.S. both past and present. A-F only. **DH**

**LLEA 335 French Literature Since 1800 (3)** Rapid reading in translation; lectures, discussions, reports. Pre: junior standing or one course in French language or literature. **DL**

**LLEA 336 French African Literature (3)** Black African literature in French in 20th century. Major themes of negritude, national political unity, colonialism, traditional culture. Pre: junior standing or one course in French language or literature. **DL**

**LLEA 339 French Literature as Film (3)** Exploration of the distinction between literature and film as artistic genres as well as study of major works of literature in respect to the present, from the Middle Ages through the 20th century. Pre: sophomore standing. **DL**

**LLEA 364 Survey of French Civilizations (3)** A historical survey of the development of French and Francophone cultures. The course is interdisciplinary, dealing with politics, music, art, other forms of cultural expression, and daily life. **DH**

#### GERMAN

**LLEA 338 German Cinema (3)** Introduction to German film history, form, style, theory, and analysis. Sophomore standing or higher. **DH**

**LLEA 340 Classical German Literature (3)** Readings in translation from dramatic works of Lessing, Goethe, Schiller. Philosophical and aesthetic views of leading writers of the Enlightenment, Storm and Stress, and classical periods. **DL**

**LLEA 342 German Fascism and Propaganda (3)** Lecture/discussion. Study of German Fascism and propaganda in German literature, art, and film. Sophomore standing or higher. A-F only. **DH**

#### ITALIAN

**LLEA 236 Italian Film (3)** Study of Italian film history and technique. A-F only. **DH**

**LLEA 334 Italian Literature as Film (3)** Exploration of the distinction between literature and film as artistic genres as well as study of major works of literature in respect to the present, from the Middle Ages through the 20th century. A-F only. Pre: sophomore standing or consent. **DL**

#### RUSSIAN

**LLEA 350 Russian Short Story (3)** Origin and development (19th and 20th century); periods, themes, styles, and major authors. Pre: sophomore standing or consent. **DL**

**LLEA 351 19th-Century Russian Literature (3)** Survey in English of major writers from Pushkin through Chekhov; lectures, discussions, short papers. Pre: sophomore standing or consent. **DL**

**LLEA 352 Russian Literature 1900–1950 (3)** Survey in English of major Russian writers from 1900–1950. Pre: sophomore standing or consent. **DL**

**LLEA 353 20th-Century Russian Arts and Culture (3)** Aspects of culture (literature, film, theater, music, arts, etc.) in 20th century Russian society. Pre: sophomore standing or consent. **DH**

**LLEA 354 Russian Literature Today (3)** Survey in English of contemporary authors and their works for perspective of reality and poetic representation. Pre: sophomore standing or consent. **DL**

**LLEA 355 Russian Film (3)** A study of Russian film from the 1920's to the present. Pre: sophomore standing or consent. **DH**

#### GENERAL AND GRADUATE COURSES

**LLEA 270 Freaks and Monsters (3)** Monsters, freaks and otherness in literature, film, history and medicine. Suitable for non-literature majors. **DL**

**LLEA 371 Europeans in the Pacific (3)** European presence in the Pacific, in relation to literature, art, culture, civilization. Not applicable to language requirement. (*Section 1 taught in Hawaiian. Pre: HAW 202 or consent. Section 2 taught in English.*) **DL**

**LLEA 376 (Alpha) History of World Cinema (3)** Film as a reflection of the 20th century's social,

cultural and political upheavals: (B) World Cinema (1890s to 1950s); (C) World Cinema (1960s to present). Pre: sophomore standing or consent. **DH**

**LLEA 390 Teaching Practicum in Large Lecture Courses (1)** Supervised undergraduate teaching practicum in large-lecture LLEA courses. Repeatable two times. CR/NC only. Pre: completion of course in which practicum will be done and consent of instructor, no waiver.

**LLEA 416 German Literature, Culture and Film: 1989 to Present (3)** Study of German literature, culture and film, 1989 to present. Credit cannot be earned for both 416 and GER 416. Sophomore standing or higher. **DH**

**LLEA 470 Freaks and Monsters 2: The Ethics of Otherness (3)** An interdisciplinary examination of corporeal Otherness. Unusual real and fictional bodies from fairground history, art, anatomy, literature, natural history and ethnology. Discussion of the moral, medical, philosophical and aesthetic dilemmas of spectacular difference. Pre: 270 or consent. **DH**

**LLEA 471 (Alpha) Fantasy and the Fantastic (3)** Cross-cultural study of fantasy and the fantastic in short stories, fairy tales, films and novels from Europe and the Americas in English translation.

Discussion of illusion, identity, time, the future, the bizarre and major concepts in fantasy literature. (B) fairies, devils and fantasy; (C) the fantastic, the strange and science fiction. Repeatable one time in different alphas. Pre: 270 or consent. **DL**

**LLEA 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**LLEA 630 Seminar in Research Methods (3)** Study of basic research methods and tools, including technology. Print and electronic source materials. Information literacy. A-F only. Pre: graduate standing or consent.

**LLEA 671 Western Literature and Cultures in the Pacific (3)** Impact of and reaction to western writings and cultural influences in the Pacific as represented in texts from the 16th century to the present. Pre: graduate standing or consent.

**LLEA 680 (Alpha) Topics in Literature (3)** Study in English of a topic, period, or genre; aesthetic considerations common to European literatures: (B) the modern novel; (C) European literature as a path to self-knowledge; (D) Middle Ages; (E) introduction to literary theory. MA candidates in European languages read works in their major in the original. Pre: graduate standing or consent of department chair.

**LLEA 681 (Alpha) Topics in Language (3)** Study in English of topics, periods, etc., in the languages taught in the department: (B) comparison of Romance languages; (C) interpersonal communication; (D) social perspectives. Repeatable two times for different alphas (up to 9 credits). Pre: graduate standing or consent.

**LLEA 682 Masterpieces of Medieval Welsh Literature (3)** Key prose and poetry underlying the Arthurian tradition in Europe. Language instruction leading to reading knowledge of medieval Welsh. Pre: consent.

**LLEA 699 Directed Research (V)** Repeatable unlimited times. Pre: consent of department chair.

**LLEA 700 Thesis Research (V)** Repeatable unlimited times.

#### LANGUAGE COURSES

**LLEA 199 Directed Language Study (V)** Study in European languages not taught regularly, depending on demand and staff. Pre: consent of department chair.

**LLEA 399 Directed Reading (V)** Pre: limited to senior majors with a minimum cumulative GPA of 2.7 or a minimum GPA of 3.0 in major, and consent of department chair.

**LLEA 499 Directed Reading and Research (V)** Independent study of approved reading and research

with faculty supervision. Repeatable two times. A-F only. Pre: consent and departmental approval.

#### Languages, Linguistics, and Literature (LLL)

*College of Languages, Linguistics and Literature*

**LLL 150 Literature and Social Change (3)** Study of works produced in Africa, the Americas, Asia, Europe, and Oceania from prehistory to the present, showing how the spoken and the written word reflect and effect social change. A-F only. **FGC**

**LLL 451 Learning Communities Online and Practical Aspects of Teaching (1)** Online course for pre- or in-service teachers of world languages. Topics include online learning environments, creating online communities, curriculum and lesson planning, and assessment. Maximum enrollment of 20. Not open to those who have taken 455. A-F only.

**LLL 452 Social Aspects of Learning and Technology in the Classroom (1)** Online course for pre- or in-service teachers of world languages. Topics include processes of language teaching and learning, learner characteristics and technology in the classroom. Maximum enrollment of 20. Not open to those who have taken 455. Pre: 451 (or concurrent). A-F only.

**LLL 453 Second Language Acquisition Theory and Methods (1)** Online course for pre- or in-service teachers of world languages. Topics include terminology of language teaching and learning and overview of historical and current approaches. Maximum enrollment of 20. Not open to those who have taken 455. Pre: 451 (or concurrent). A-F only.

**LLL 455 Second Language Learning and Teaching Methodology (3)** Online course for pre- or in-service teachers of world languages. Combines content from 451, 452 and 453. Maximum enrollment of 20. Not open to those who have taken 451, 452 or 453. A-F only.

#### Latin (LATN)

*College of Languages, Linguistics and Literature*

*A grade of C- or better in the prerequisite courses is required for continuation.*

**LATN 101 Elementary Latin (3)** Grammar and vocabulary, with reading of simple Latin. **HSL**

**LATN 102 Elementary Latin (3)** Continuation of 101. Pre: 101. **HSL**

**LATN 201 Intermediate Latin (3)** Development of reading and translation skills. Emphasis on prose. Pre: 102 or equivalent. **HSL**

**LATN 202 Intermediate Latin (3)** Continuation of 201: emphasis on poetry. Pre: 201. **HSL**

**LATN 303 Roman Historians (3)** Selections from Caesar, Sallust, and others. Pre: 201 and 202, or consent. **DL**

**LATN 304 Roman Epic (3)** Selections from Virgil, Ovid, and others. Pre: 201 and 202, or consent. **DL**

**LATN 325 Roman Philosophy (3)** Selections from Lucretius, Cicero, and Seneca. Pre: 201 and 202, or consent. **DL**

**LATN 332 Roman Drama (3)** Selections from Plautus, Terence, and Seneca. Pre: 201 and 202, or consent. **DL**

**LATN 333 Roman Lyric (3)** Selections from Catullus, Horace, and others. Pre: 201 and 202, or consent. **DL**

**LATN 338 Roman Novel (3)** Selections from Petronius and Apuleius. Pre: 201 and 202, or consent. **DL**

**LATN 345 Roman Satire (3)** Selections from Horace and Juvenal. Pre: 201 and 202, or consent. **DL**

**LATN 490 Seminar in Roman Studies (3)** Study of an author or phase in Roman studies. Repeatable unlimited times with consent. Pre: any two 300-level LATN courses, or consent.

## Latin American and Iberian Studies (LAIS)

*College of Languages, Linguistics and Literature*

**LAIS 360 (Alpha) Studies in Culture (3)** Politics of culture and representation. Will consider issues, traditions, movements, texts, and cultural icons for their significance for national and regional identity formation, intercultural relations and global flows of images, people, and capital. (B) Latin America; (C) Iberian Peninsula. Repeatable one time. Pre: sophomore or consent. **DH**

**LAIS 361 Spanish Literature in Translation (3)** Reading and discussion of classic works of Spanish literature. Pre: sophomore standing or consent **DL**

**LAIS 362 Latin American Literature (3)** Reading and discussion of classic works of Latin American literature. Pre: sophomore standing or consent. **DL**

**LAIS 363 U.S. Latino Culture and Literature (3)** The culture and history of U.S. Latinos through an analysis of their literature and arts and their sociopolitical relationship to the U.S. mainstream culture. Pre: sophomore standing or consent. **DH**

**LAIS 365 Spanish Film (3)** A chronological survey of films from Spain, from the Silent Era to the present. Conceptually, a cultural history of Spain in the 20th century, as seen through films. Pre: sophomore standing or consent. **DH**

**LAIS 366 Latin American Film (3)** A chronological survey of films from Latin America, from the Silent Era to the present. Conceptually, a cultural history of Latin America in the 20th century, as seen through films. Pre: sophomore standing or consent. **DH**

**LAIS 368 Households in Cross-cultural Perspective (3)** Study of cross-cultural patterns in household and community level organizations in Latin America and elsewhere. Topics may include gender relations, kinship structures, political economy, impacts of colonialism, modernization, and globalization on households. Sophomore standing or higher. (Cross-listed as ANTH 368) **DS**

**LAIS 372 (Alpha) Indigenous Peoples of Latin America (3)** Survey of the history and culture of the indigenous peoples of Latin America through a study of their literature, texts and practices. (B) Mesoamerica; (C) Andean Region. Repeatable one time for different alphas. Pre: sophomore standing or consent. (Cross-listed as ANTH 372 (Alpha)) **DH**

**LAIS 380 Studies in Culture: Portugal and Brazil (3)** Surveys the cultures of the Portuguese-speaking world from pre-Lusitanian times, including connections with Africa, Asia, the U.S., and Hawai'i. Pre: sophomore standing or consent. **DH**

**LAIS 468 Colonial Latin American History (3)** Pre-Columbian civilizations: Spanish and Portuguese colonization; political, economic, social and religious evolution to 1810; independence. Pre: 360 or consent. (Cross-listed as HIST 478) **DH**

**LAIS 478 New World Rituals and Ideologies (3)** Study of cross-cultural patterns in ritual behaviors and creolization of African, indigenous, and Iberian ideological frameworks in the Americas. Topics may include syncretic religions (voodoo, candomble), Andean Christianity, spiritual conquest, conceptions of death, etc. Sophomore standing or higher. Minimum C- required grade for prerequisites. Pre: 360, or consent. (Fall only) (Cross-listed as ANTH 478 and REL 478) **DH**

**LAIS 495 Topics in Latin American and Iberian Studies (3)** Combined lecture-discussion on selected themes—political, social, cultural—in Iberian or Latin American topics. Topics pre-announced. Repeatable one time. Pre: 360 B or C, or consent. (Once a year)

**LAIS 683 Hispanic Cultural Studies (3)** Critical overview of contemporary theories on Hispanic culture. Issues of identity such as *mestizaje*, hybridity, and pluralism will be discussed from a hemispheric perspective. A-F only. Pre: consent.

## Law (LAW)

*School of Law*

**LAW 501 Organizing for Social Change (V)** Examines conditions that lead people to become active, self-governing agents. Covered are strategies and tactics of organizers, history of social change movements, anti-subordination theories of justice and organizing case studies. Repeatable up to four credits. A-F only. (Once a year)

**LAW 503 Historic Preservation Law (V)** Introduction to the protection of cultural, archaeological, and historical resources with emphasis on key federal and state laws. (Once a year)

**LAW 504 Legal Practice I (V)** Legal practice is the first part of a comprehensive performance program that trains students to practice law, read and write legal analysis and scholarship, and reach their maximum potential as a legal thinker and writer.

**LAW 505 Legal Practice II (V)** Appellate brief writing and oral advocacy. Repeatable up to 3 credits. Pre: 504.

**LAW 507 Employment Discrimination (V)** A study of the law of employment discrimination.

**LAW 508 Negotiation and Alternative Dispute Resolution (V)** Lawyers negotiate settlements in almost all their cases. This class presents a "hands-on," skill-building approach to the newest ideas, as well as centuries-old techniques, about the skill lawyers will use most often in their private practice- negotiation. The class also examines the rapidly developing field of alternative dispute resolution (ADR), including mediation, facilitation, arbitration, and court-annexed ADR. (Cross-listed as CEE 614)

**LAW 509 Contracts I (V)** Law of private agreements. Explores the evolution and application of common law doctrines, and, where applicable, relevant provisions of the Uniform Commercial Code. Examines the bases of promissory liability, contract formation, mutual assent, defenses to enforcement, excuses, remedies and damages, and the rights and interests of third parties. Attention will be paid throughout the course to the role of contracts in a market society and the conflicting interests of certainty, freedom of contract and fairness.

**LAW 510 Contracts II (V)** Continuation of 509. Pre: 509.

**LAW 511 Professional Responsibility (V)** Introductory consideration of selected topics relating to functions, structure, and responsibilities of the legal profession and its future role in society. CR/NC only.

**LAW 512 Reparations and Reconciliation (V)** Seminar addresses a legally and socially important contemporary issue-healing present-day wounds of historic injustice. Considers how to repair the continuing social damage of injustice. (Once a year)

**LAW 513 Criminal Justice (V)** Examination of substantive rules, enforcement procedures, and rationales of criminal law in the U.S.

**LAW 514 Children, Parents and the Law (V)** Exploration of fundamental concepts of law relating to children, ethical issues, and the role of lawyers in assisting children, and how the child's rights and obligations are balanced with those of parents and state. (Once a year)

**LAW 515 Business Reorganization in Bankruptcy (V)** Examination of the rights and remedies available to a failing business and its creditors when the business seeks to reorganize its business and financial affairs under chapter 11 of the federal bankruptcy code. The course is structured as a "practicum," which tracks a single business through restructuring and emphasizes the practical and strategic aspects of lawyering. Recommended: 562.

**LAW 516 Civil Procedure I (V)** Study of pre-trial, trial, and appellate procedures in the federal and Hawai'i courts.

**LAW 517 Civil Procedure II (V)** Continuation of 516. Pre: 516.

**LAW 518 Real Property I (V)** Basic course in property ownership, development, regulation. Emphasis on theory.

**LAW 519 Real Property II (V)** Contract of sale, equitable conversion, deed. Pre: 518.

**LAW 520 Advanced Legal Studies (V)** Faculty members or visiting scholars present selected topics focusing upon subject areas in their area of specialty or expertise. (B) business law; (C) Constitutional law; (D) criminal law; (E) critical legal; (F) education law; (G) health law; (H) intellectual property law; (I) practice of law; (J) public interest law; (K) topic 10; (M) topic 11; (N) topic 12; (O) topic 13; (P) topic 14; (Q) topic 15. Repeatable 3 times.

**LAW 521 Law, Aging and Medicine (V)** Introduction to basic legal issues at the intersection of law, aging and medicine. Addresses various issues confronting elderly; issues confronting the general population including health care financing, decision-making, and bioethics.

**LAW 522 Torts (V)** Torts cover the statutory and common law of negligence, causation, defenses, damages, strict liability, intentional torts and tort policy and reform, with emphasis on national and Hawai'i law. (Spring only)

**LAW 523 Law and Psychology (V)** Approaches psychology as a problem solving tool that can facilitate legal analysis. Covers a variety of areas including jury decision-making, research methodology, social cognition, culture, and behavioral economics, among others. (Once a year)

**LAW 524 Advanced Torts and Insurance Law (V)** Advanced study of several areas of tort law and an introduction to insurance law and policy. This course is of considerable importance to students interested in civil litigation and personal injury law. Recent important developments in Hawai'i tort and insurance law will be included.

**LAW 525 Legislation and Statutory Interpretation (V)** The interrelationship between the legislative and judicial branches of government is explored through a review of Federal and Hawai'i law-making processes, direct democracy, legislative drafting, and theories of the legislative process and statutory interpretation.

**LAW 526 Group Directed Study (V)** Designed for maximum flexibility, this course allows a professor to work with a small number of students on a reading/discussion project of mutual interest. Repeatable up to 15 credits. A-F only. Pre: consent.

**LAW 527 Federal Indian Law (V)** Examines Federal Indian Law, including fundamental concepts and the historical evolution of legal doctrines. Considers the implications of Native Hawaiian sovereignty within the framework of Federal Indian Law. (Once a year)

**LAW 529 Peacemaking (V)** Introduction for lawyers to peace studies and analysis of contemporary armed conflict, pacifism, just war doctrine, historical causes by war, theories of the way to peace and conditions for lasting peace. (Once a year)

**LAW 530 Second-Year Seminar (V)** Seminar required for spring semester of all second-year law students. Substantial paper required. Topics announced in previous fall semester. Placement by lottery.

**LAW 531 Business Associations (V)** After a brief survey of agency, partnerships, and other forms of business organization, the course will cover the fundamentals of corporations, and securities regulation, including disregarding the corporate entity, management and control of closely held corporations, merger, liability under the federal securities laws, takeovers, public registration, exemptions, and derivative suits.

**LAW 532 Health Law (V)** Introduction to medical jurisprudence, medical malpractice, informed consent, health care decisions, medical ethics, the health care industry, managed care, financing health care, and the role of government in health care.

**LAW 533 Constitutional Law I (V)** Introduction to judicial function in constitutional cases, jurisdiction of the U.S. Supreme Court, and discretionary barriers to judicial review.

**LAW 534 Constitutional Law II (V)** Advanced course in constitutional law with special emphasis on rights secured by the First, Fifth, and Fourteenth Amendments to the Constitution of the U.S. Pre: 533.

**LAW 535 Intellectual Property (V)** A study of the law relating to property rights resulting from intellectual effort, including patents, copyright, trademarks, and trade secrets. While the course attempts to provide a unified background in theory and policy for all fields of intellectual property, it emphasizes areas of importance to the general practitioner. Accordingly, the doctrines and policies of the patent system are studied primarily for the light they shed upon the nature of intellectual property protection as a whole and upon the interaction between federal and state law.

**LAW 536 Current Civil Rights Issues (V)** Uses the current U.S. Supreme Court docket to engage in an in-depth study of vital contemporary and statutory rights claims in the area of civil rights and civil liberties law. Pre: 533. (Once a year)

**LAW 537 Constitutional Law: Critical Race Perspectives (V)** Seminar considers the impact of racism on American law and ways that individuals trained as lawyers might combat racism in our culture and within the institutions in which we live and work. Pre: 533. (Once a year)

**LAW 538 Conflict of Laws (V)** Problems respecting the law applicable in transactions or to relationships with elements in more than one state.

**LAW 539 Remedies (V)** Examines both practice aspects and theoretical underpinnings of equitable remedies. Frequently, compensatory damages cannot adequately protect clients or provide them with the relief they need. Topics include temporary restraining orders, preliminary and permanent injunctions, restitution and unjust enrichment, specific performance, and equitable defenses such as unclean hands, laches, and estoppel. Practice issues concerning appeal, jury trials, and the relationship of equity to law are also explored. Repeatable unlimited times.

**LAW 540 Contract Drafting (V)** Hands-on workshop class in drafting contracts, agreement, and similar documents for commercial/business purposes. LAW majors only. Pre: 509 and 510.

**LAW 541 Criminal Procedure (V)** Issues of free press and fair trial, illegal search and seizure, arrest and confession, speedy trial, double jeopardy are covered through student interactions as defense or prosecution attorneys and as judges.

**LAW 542 Advanced Civil Procedure (V)** Addresses various aspects of complex litigation and recent criticism of the civil litigation system itself. Theoretical in emphasis. Developed from two directions: (1) a study jurisprudential material concerning adversarial dispute resolution, the substance/procedure dichotomy and value-identification; and (2) in-depth analysis of procedural aspects of complex cases with special focus on new procedural rules aimed at reducing waste and delay.

**LAW 543 Evidence (V)** "Objection, your Honor!" This course examines the rules of evidence that govern trials in both federal and Hawai'i courts and will focus on such topics as hearsay, witness examination, impeachment, physical and demonstrative evidence, expert testimony, writings, relevance, judicial notice, and presumptions.

**LAW 544 Race, Culture, and Law (V)** U.S. cases and legal theory emphasizing law in the social construction of racial categories, shifts in race-based anti-discrimination law, and the interaction of culture and law in judicial decision-making.

**LAW 545 Licensing Intellectual Property (V)** Theory and practice of the law relating to the transfer of rights in information and other intangibles are examined together with end user license agreements

and the structure and negotiation of upstream licensing mechanisms. Repeatable up to three credits. Pre: 535 or departmental approval. (Once a year)

**LAW 546 (Alpha) Intercession-J Term (V)** January term provides students the opportunity to explore contemporary legal topics with national and international experts. (B) alternative dispute resolution; (C) rule of law; (D) law practice; (E) diversity; (F) access to justice; (G) public law; (H) legal theory; (I) legal practice; (J) rights. Repeatable five times. (Once a year)

**LAW 547 Gender and Law (V)** Examines the ways in which international law and domestic legal systems address the rights of women, gender roles, and gender identity. Uses comparative approach with an emphasis on case studies from the Asia-Pacific region. (Cross-listed as WS 647)

**LAW 548 Immigration Law (V)** An introduction to U.S. Immigration and Nationality Law: a brief overview of historical development of immigration law; analysis of exclusion and deportation grounds and remedies; the study of both immigrant and nonimmigrant visa applications and petitions. Current law on asylum and refugee applications and U.S. citizenship and naturalization requirements.

**LAW 549 Admiralty Law (V)** Introduction to U.S. maritime law and admiralty jurisdiction emphasizing development of rules of maritime law and rights of seamen and maritime workers.

**LAW 550 Corporate and Partnership Taxation (V)** Examines tax aspects of formation, operation, reorganization, and liquidation of partnerships and corporations. Pre: 531, 567.

**LAW 552 Trusts and Estates (V)** Deals primarily with the disposition of family wealth including: the making of wills; the creation, enforcement, administration, and termination of trusts; and intestate succession, including probate.

**LAW 554 Secured Transactions (V)** Introduction to Uniform Commercial Code, particularly Article 9—reducing risk of nonpayment by obtaining an interest in borrowers' property.

**LAW 555 (Alpha) Externship (V)** Legal work for judges and attorney supervisors in public agencies, private law firms, and the legislature. (H) Hawai'i; (P) Pacific. Repeatable three times for (H). CR/NC only. Pre: consent.

**LAW 557 Negotiable Instruments, Payment Systems and Credit Instruments (V)** A study of the Uniform Commercial Code provisions that deal with commercial paper (Article 3), bank collections and deposits (Article 4), funds transfers (Article 4A) and letters of credit (Article 5), as well as material on alternative payment systems, including credit cards, electronic fund transfers and related federal law.

**LAW 558 Corporate Finance (V)** Provides an understanding of the basic financial concepts and tools for lawyers with transactional practices, preferred stock, common stock and convertible securities. Pre: 531 (or concurrent) or consent.

**LAW 559 Labor Law I (V)** Regulation of union-management relations under state and federal laws.

**LAW 560 High Growth Entrepreneurship (V)** An interdisciplinary (JD-MBA) course examining legal, business, and technology issues related to building high growth companies. Student teams develop company feasibility reports and skills necessary to advise or build high growth businesses. Recommended: 531. Law students only. (Once a year) (Cross-listed as ME 680)

**LAW 561 Administrative Law (V)** Procedure and remedies for resolving controversies between citizens and government officials exercising administrative power.

**LAW 562 Debtors' and Creditors' Rights (V)** Bankruptcy laws and rules, laws of liens, receiverships. Pre: 554 or consent.

**LAW 563 Trial Practice (V)** Examination of sequential stages of pre-trial and trial practice in

a problem setting. Topics include investigation, pleadings, motions, discovery, voir dire examination, opening statements, direct and cross examination, closing argument, selected evidentiary problems, post-trial motions, and appellate practice. Students engage in simulated exercises, and their work is critiqued. CR/NC only. Pre: 543 or consent.

**LAW 564 Pre-Trial Litigation (V)** Theory and practice of civil pre-trial litigation with focus on pleading, discovery, and pre-trial motions. CR/NC only.

**LAW 565 Securities Regulation (V)** An introduction to American securities regulation and focuses on the registration and reporting process required of public companies as well as securities litigation. Repeatable three times. Recommended: 531.

**LAW 566 Non-Profit Organizations Workshop (V)** Examines the meaning, scope, and role of non-profit organizations in contemporary society, and focuses on selected non-tax laws and primary tax issues relevant to non-profits. Law students only. Recommended: 531 and 567. (Once a year)

**LAW 567 Federal Income Taxation (V)** Surveys the entire federal income tax system, with emphasis on those areas of greatest importance to non-tax lawyers. Students are expected to develop proficiency in the use of the Internal Revenue Code and Treasury Regulations.

**LAW 568 Family Law (V)** Legal forms of—and responses to—formation, maintenance, and dissolution of the family. Marriage, annulment, divorce, alimony, separation agreements, child custody and adoption, parentage.

**LAW 569 Sales (V)** In-depth study of Uniform Commercial Code, Article 2—domestic sales of goods, including warranties, manner, time and place of performance, buyers' and sellers' remedies for breach of contract, limitations of freedom of contract.

**LAW 571 Federal Courts (V)** An examination of the jurisdiction and law-making powers of the federal courts, standing issues, appellate jurisdiction of the Supreme Court, federal-question and diversity-of-citizenship jurisdiction of the federal district courts, immunities from suit in the federal courts possessed by governmental entities and officers, intervention by federal courts in state proceedings, and choice of law in the federal courts. Particular emphasis on relevant Federal Rules of Civil Procedure. Pre: 533 (or concurrent).

**LAW 572 International Protection of Human Rights (V)** The growing body of international human rights laws, including procedural law and role of non-governmental organizations.

**LAW 573 Jurisprudence (V)** Relationships between the concepts of law and morality with views of legal and moral philosophers.

**LAW 574 State and Local Government Law (V)** City, town, county, district governments: administrative organization; regulatory powers; police power; local governmental taxation; relationship between local, state, and federal government.

**LAW 576 Directed Study and Research (V)** Individual research and writing under the direction of faculty.

**LAW 580 Land Use Management and Control (V)** Survey course of public land use management.

**LAW 583 Real Estate Development and Financing (V)** Federal and state laws in the practice of real estate development and financing law. Condominium, securities, subdivision, consumer protection, and mortgage areas.

**LAW 584 Civil Rights (V)** Focuses on the civil rights of Americans and introduces alternative remedies and procedures for securing these rights.

**LAW 589 Labor and Employment Law (V)** Employment law, statutory rights affecting the employment relation, and alternative contract provisions to secure the parties' intentions. Focus on the practical application of labor and employment law. Materials relating to the unionized employment relationship.

Emphasis on the labor arbitration process and possibly, to issues regarding internal union affairs.

**LAW 590 (Alpha) Workshops and Clinics (V)** (B) prosecution clinic; (C) defense clinic; (D) elder law clinic; (E) environmental law clinic; (G) estate planning workshop; (I) native Hawaiian rights clinic; (J) family law clinic; (K) entrepreneurship and small business clinic; (M) mediation clinic; (N) lawyering skills workshop; (P) mediation workshop; (Q) immigration clinic; (R) child welfare clinic; (S) Hawai'i Innocence Project I; (T) Hawai'i Innocence Project II; (U) legislation and statutory interpretation; (W) advanced elder law clinic (3). Repeatable one time for (K), (I), and (J); repeatable two times for (W). LAW majors only for (R), (S), (T), (U), and (W). CR/NC and letter grade option for (J); CR/NC only for (N), (P), (Q), and (W). Pre: 543 for (B) and (C); 521 or consent for (D); 529 or 561 or LWEV 582 for (E); 552 and 567, or consent for (G); 568 or consent for (J); 548 for (Q); 590D for (W). (Once a year for (K)) (Alt. years for (U))

**LAW 591 Government Contracts Law (V)** A primer on statutory, regulatory, and decisional laws that shape the government procurement process; covers contract relationships between private party contractors and federal, state, and local governments; examines the federal acquisition process, bids and proposals, and contract award controversies before judicial and administrative tribunals; reviews socio-economic contracting provisions and programs and Qui Tam litigation.

**LAW 595 Internet Law and Policy (V)** A primer on the impact of the development and use of new technologies on global business and social culture. E-commerce, telecommunications, information technology, government regulation, and social policy have all been brought together by the use of the internet. The revolutionary medium of the internet has required legal practitioners to reassess the applicability of current laws and policies that protect and govern members of the global community. Explores the legal implications of the new global economy, copyright law in cyberspace, e-commerce, privacy, security, trademarks, domain names, tort liability, criminal activity, regulation in cyberspace, speech, and social and ethical issues.

**LAW 599 (Alpha) Independent Study (V)** Field work companions to 590 clinics. (F) independent study. Repeatable up to six credits. CR/NC only for (F). Pre: consent for (F).

## Law-Environmental Law (LWEV)

### School of Law

**LWEV 503 Wildlife and Natural Resources Law (V)** Seminar covering federal and Hawai'i laws that govern the management of wildlife resources, with a particular focus on wildlife conflicts arising in Hawai'i.

**LWEV 504 Conservation Transactions (V)** Real estate transactions are an important and growing conservation strategy; examines land transactions within the environment of conservation. (Once a year)

**LWEV 512 Environmental Compliance and Regulated Industries (V)** In depth study of the federal and state environmental laws that impact modern businesses and industries, and exploration of the compliance issues that arise under the statutes, regulations and case law.

**LWEV 527 (Alpha) Topics in Environmental Law (V)** Study of contemporary topics in environmental law to change periodically as to issues and topics. (B) advanced environmental law; (C) regulatory; (D) legislature; (E) policy; (F) judicial. Repeatable six times.

**LWEV 528 International Environmental Law (V)** Study of the international regulation of activities and processes used to prevent environmental degradation and to preserve resources of environmental value. Pre: LWPA 585 (or concurrent).

**LWEV 529 Environmental Litigation Seminar (2)** Seminar on the techniques, law, and strategy

involved in federal and state court environmental litigation.

**LWEV 530 Climate Change Law and Policy (V)** Climate change is a core challenge that will influence law and policy well into the future. Will study climate change science, litigation, law and policy at state, national, and international levels. (Once a year)

**LWEV 540 Hazardous Waste Law (V)** Examination of major federal statutes, regulatory and case law, and Hawai'i counterparts. Policies behind hazardous waste laws and their impact on individuals, community, and businesses.

**LWEV 582 Environmental Law (V)** Basic policy questions and problems concerning environment. Examination of federal and Hawai'i statutes. Focus on environmental problems of Hawai'i.

**LWEV 588 Legal Aspects of Water Resources and Control (V)** Legal aspects of water and water rights with focus on Hawai'i.

**LWEV 592 Domestic Ocean and Coastal Law (V)** Examination of the history of U.S. and Hawai'i sea-use law; comprehensive coverage of modern issues concerning the use of the sea including special Hawaiian problems. Repeatable one time.

**LWEV 593 International Ocean Law (V)** Examination of the history of international sea-use law, including comprehensive coverage of modern problems and issues concerning the use of the sea among nations.

## Law-Journal and Team Credits (LWJT)

### School of Law

**LWJT 536 (Alpha) Moot Court Team (V)** An honors program for students who prepare for and compete in national advocacy. (C) client counseling; (E) environmental law; (H) Native American; (J) Jessup international; (K) international environmental law; (O) other. Repeatable one time. CR/NC only. Pre: selection by competition.

**LWJT 545 Law Review (V)** Students selected for the *Law Review* editorial board have responsibility for editorial research, writing, and production of the *Law Review* published by the School of Law. Repeatable four times. CR/NC only.

**LWJT 546 Asian-Pacific Law Journal (V)** Students selected for the Asian-Pacific Law and Policy Journal editorial board have writing, researching, editorial and production responsibility for publication of the journal. Repeatable four times. CR/NC only.

## Law-Legal Writing (LWLW)

### School of Law

**LWLW 530 Law Thesis (V)** Intensive writing that satisfies the law school's upper division writing requirement and results in advanced law paper of publishable quality, extending over two consecutive semesters of study. Repeatable up to 4 credits. LAW majors only. A-F only.

**LWLW 537 Law Teaching Seminar I (V)** Interdisciplinary seminar used LP I assignments and additional readings to discover and deliver the theoretical and practical underpinnings of substantive law assignments and the methodology used to teach them. Instructor approval required. Repeatable up to eight credits.

**LWLW 538 Law Teaching Seminar II (V)** Interdisciplinary seminar uses LP II assignments and additional readings to discover and deliver the theoretical and practical underpinnings of appellate advocacy and negotiation the methodologies used to teach them. Instructor approval required. Repeatable one time. (Spring only)

**LWLW 539 Legal Composition Seminar I (V)** Study of principles and practices of teaching legal discourse one-to-one, transferring materials from composition theory and linguistics into practical papers and methods to assist students to research and

write legal documents. Instructor approval required. Repeatable one time. (Fall only)

**LWLW 540 Legal Composition Seminar II (V)** Study of principles and practices of teaching scholarly legal discourse and appellate advocacy one-to-one, transferring composition theory and linguistics into individualized methods make the legal writing process efficient and the product effective. Instructor approval required. Repeatable one time. (Spring only)

## Law-LLM Master of Law (LWLM)

### School of Law

**LWLM 570 Introduction to American Law (V)** General introduction to the fundamental principles and distinctive aspects of the American legal system and its institutions. Pre: LL.M. students only.

**LWLM 580 U.S. Legal Research and Writing (V)** Introduction to the basic principles of American legal research and writing. Students review techniques of case and statutory analysis and learn to write a professional legal memoranda and client opinion letters. LAW majors only.

## Law-Pacific and Asian Law (LWPA)

### School of Law

**LWPA 506 International and Foreign Law Research (V)** Global issues play a significant role in the 21st century practice of law. Introduces students to legal information resources and methods for engaging in international, comparative, and foreign law research.

**LWPA 514 Law and Society in Japan (V)** An extended historical review of the foundations of Japanese law in society: Japan's adoption and adaptation of Chinese legal doctrines, continental European legal structures and ideas, and American influences. Consideration of the structure of contemporary law in Japan: a look at the various players in the legal system, some important legal doctrines, and the real-world operation of Japan's laws today.

**LWPA 553 Asian Pacific Insolvency Law (V)** Comparison of corporate insolvency law of selected Asian and Pacific island countries, with a focus on recently enacted laws and pending proposals that have followed the 1997 Asian Financial Crisis. Law students only. Recommended: LAW 515, LAW 554, LAW 562. (Alt. years)

**LWPA 556 Asian Comparative Labor Law (V)** Area studies of Asian legal systems and issues, focusing on administration of Asian labor laws in a comparative context. Possible effects on foreign direct investment and foreign migrant contract workers. Comparison of Chinese, Japanese and other legal approaches in dealing with common issues.

**LWPA 564 International Criminal Law (3)** Designed to give an understanding of international criminal law. Will review all aspects of international criminal law from substantive international crimes to criminal liability and sentencing by domestic and international tribunals. LAW majors only.

**LWPA 565 Law and Society in Korea (3)** Provides students with an understanding of the law, society, and legal systems in Korea. Areas of law including constitutional, civil, criminal, and business are discussed. Emphasis on South Korea. LAW majors only.

**LWPA 575 (Alpha) Topics in International Legal Studies (V)** Selected topics presented by faculty members or visiting scholars, focusing upon subjects in the Pacific and Asian area. (C) China; (G) global; (J) Japan; (K) Korea; (P) Pacific; (S) Southeast Asia. Repeatable six times for (C), (J), (K), (P), (S); not repeatable for (G).

**LWPA 577 Japanese Business Law (V)** Focus on the legal environment facing foreign businesses operating in Japan. Includes consideration of the business environment and culture, issues relating to governmental oversight, contract consciousness, corporate law, and dispute resolution. Uses the example of an actual joint venture between an American and a

Japanese company as a tool for studying the relevant issues from a practical perspective.

**LWPA 578 Chinese Business Law (V)** Introduction to business and commercial law in the People's Republic of China. After a brief overview of China's political and legal systems, the course will examine basic areas of domestic business legislation, including torts, property, and contract law, the regulation of private business, the reform of state enterprises, the development of company and securities laws, and the regulation of land-use and other property rights. More specialized topics, such as arbitration and dispute resolution, the Chinese approach to intellectual property issues, or the use of joint ventures and other foreign investment vehicles, may also be included.

**LWPA 579 International Business Transactions (V)** An examination of the law, rules, and practices relating to transborder commercial transactions. Roughly half of the semester focuses on international sales transactions, the remaining portion focuses on domestic and multinational governance of the international business arena.

**LWPA 581 Native Hawaiian Rights (V)** Status and evolution of rights of native Hawaiians to the land and its usufructs. Potential of utilizing native rights based on statute, custom, and use to fashion new and expanded rights.

**LWPA 582 (Alpha) Topics-Native Hawaiian Law (V)** Specific topic areas will be the subject of focus from year to year, depending upon current developments and issues in Native Hawaiian and Indigenous law in Hawai'i, the nation, and internationally, and expertise of faculty and visiting faculty. (B) policy and governance; (C) business and economic development; (D) law and culture; (E) Indigenous peoples, (F) Indigenous environment and sustainability. Repeatable up to 9 credits. LAW students only.

**LWPA 583 Legal History of Hawai'i (3)** Designed to acquaint the student with the unique legal history of Hawai'i, emphasizing particular legal controversies that have shaped the law of our island society. LAW majors only.

**LWPA 585 International Law (V)** Evolving process of formulating rules to govern nations and peoples of the world in their attempts to solve problems recognized as requiring global solutions.

**LWPA 586 Law and Society in China (V)** Overview of the historical foundations of Chinese law and introduction to the present legal system in the People's Republic of China. Repeatable one time. (Cross-listed as ASAN 686)

**LWPA 587 Comparative Law (V)** Introduction to the civil law tradition, particularly as exemplified by the legal systems of East and Southeast Asia. After a brief review of comparative law study and the historical development of the civil law, the course will examine the structure and role of the courts, judicial process, the legal profession and constitutional law and administrative law in Western Europe and in the Asian civil law countries.

**LWPA 594 Pacific Islands Legal Systems (V)** Study of substantive rules of one or more Pacific Islands jurisdictions, development of legal systems, relationship of legal systems to culture and tradition.

**LWPA 596 International Intellectual Property (V)** Primer on the World Intellectual Property Organization and the treaties it administers. Will explore the various international legislative and judicial developments in intellectual property as well as analyze international methods to harmonize several regional and national laws to protect rights in trademarks, patents, and copyrights. Students will be exposed to issues of territoriality and jurisdiction, international antitrust issues, and international dispute resolution, and human rights implications of international intellectual property rights protections. Pre: LAW 535.

## Law-Ulu Lehua (LWUL)

*School of Law*

**LWUL 501 Ulu Lehua Seminar (V)** Introduces foundational concepts in American legal systems. Engages students in legal analysis and techniques of legal advocacy. Repeatable one time. CR/NC only.

**LWUL 502 American Legal Systems II (V)** Introduces conceptual and historical foundations of systems of public and private ordering in the U.S. and its territories. Subjects include federalism, constitutional democracy, separation of powers, and the common law. Repeatable one time. CR/NC only.

## Library and Information Science (LIS)

*College of Natural Sciences*

*All LIS courses numbered 600 or higher (except LIS 680 Seminar for Beginning Librarians) may be taken only by graduate students admitted to the LIS Program or with approval from the LIS Program Chair.*

*A grade of B- or better in the prerequisite courses is required for continuation.*

**LIS 500 Master's Plan B/C Studies (1)**

**LIS 591 Library and Information Studies Workshop (V)** Designed for in-service librarians and other information specialists needing to update their professional skills, focus on a particular topic, or learn new approaches and concepts. Repeatable for credit. Credits earned in these courses cannot be applied for graduate degrees.

**LIS 601 Introduction to Reference and Information Services (3)** Philosophy, principles, and practice of reference services in libraries, information centers and information literacy. Bibliographic control, reference research, reference interview, online searching, evaluation of bibliographic and Webliographic material. Field component. MLISc degree required course.

**LIS 605 Metadata Creation for Information Organization (3)** Theory and practice of metadata creation for organization of information resources, cataloging code for resource description and access, Library of Congress and Dewey Decimal Classification schemes, use of OCLC. MLISc degree required course.

**LIS 606 Advanced Cataloging and Classification (3)** Continues 605 with study of authority work, and further study of non-book materials cataloging, including electronic and internet resources. Extensive use is made of OCLC Connexion cataloging client. Pre: 605.

**LIS 610 Foundations of the Information Professions (3)** Lecture/discussion/survey of the information professions, development of professional identity, professional values and ethics, historical development, current issues in the information professions. MLISc degree required course.

**LIS 611 Intellectual Freedom (3)** Seminar surveying the core philosophical principles and practices of intellectual freedom with special application to librarianship and information sciences. LIS majors only. Pre: departmental approval. (Alt. years)

**LIS 612 History of Books and Libraries (3)** History of written communication; the recording, preservation and transmission of knowledge. Development of libraries through the mid-twentieth century as instruments of cultural transmission.

**LIS 615 Collection Management (3)** Principles and issues of collection management and care. Criteria and tools for selecting and deselecting materials. Relationships with publishers/producers. MLISc degree required course.

**LIS 618 Government Documents (3)** Survey of government documents at the federal, state/local and international levels in all formats. Covers methods of acquisition and organization, including depositary arrangements. Current issues of government

information dissemination policies and practices discussed. Pre: 601 or consent.

**LIS 619 Preservation Management (3)** Introduction to preservation management. Focus on management strategies for preservation of materials in libraries and archives. Covers preservation planning, condition surveys, disaster planning, grantsmanship, and basic issues relating to deterioration.

**LIS 620 Conservation of Library and Archival Materials (3)** In-depth exploration of the nature of library and archival materials and factors that cause deterioration. Hands-on approach provides practical experience testing, analyzing basic conservation treatments, understanding the role of conservation in preservation planning. Pre: 619 or consent.

**LIS 647 Systems Analysis for Information Management (3)** Overview of systems analysis; its techniques, benefits and limitations. Focus on libraries and information agencies, although concepts are applicable to other settings. Structured, top-down solutions stressed throughout. Object oriented techniques and data modeling tools are reviewed. Pre: 670.

**LIS 650 Management of Libraries and Information Centers (3)** Theories and principles of administration for effective management of libraries and information centers, with emphasis on planning, resource allocation, team skills, project management, assessment, leadership, outreach, and advocacy. MLISc degree required course.

**LIS 652 Introduction to Archives Management (3)** Study of archival principles and management theories applicable to all types of archives. Includes policy, appraisal, computer, and micrographic applications, ethical and legal issues.

**LIS 653 Seminar in Archival Studies (3)** Theory of archival studies from historical and contemporary perspectives. Includes public administration, legislation, and relationship to other repositories. Pre: 652 or consent.

**LIS 660 Information Sources and Systems in Science (3)** Bibliographical structure and sources in the basic and applied sciences, including physics, chemistry, biology, medicine, agriculture, engineering. Field component. Pre: 601 or consent.

**LIS 663 Database Searching (3)** Techniques and strategies for searching professional online databases and web information resources. Query formulation using controlled vocabularies, free text and specialized functions to match retrieved resources with user needs. MLISc degree required course. Pre: 601.

**LIS 665 Teaching Information Technology Literacy (3)** Lecture/discussion on history, theories, principles, practices and concepts of library and information literacy instruction, learning theory and user-based research methods. Examines program design, administration and evaluation. Field research component. Pre: 601.

**LIS 667 Advanced Database Searching (3)** Lecture with demonstrations of advanced features of online information retrieval systems and search engines, including natural language searching, citation-based searching, term mapping, similarity searching, result ranking and clustering for power search Web databases. Pre: 663.

**LIS 670 Introduction to Information Science and Technology (3)** Survey of topics in information science and technology. Lectures and discussions emphasize practice, problems and theory relating to information storage, retrieval and dissemination provision technology in libraries and information centers.

**LIS 671 Digital Librarianship (3)** Lecture with demonstrations to introduce the essential types of digital resources and the software tools for finding high quality and relevant information efficiently from digital journal archives and reference databases. Pre: 601 or 670.

**LIS 672 Technology for Libraries and Information Centers (3)** Survey of theories, concepts,

methods and practices relating to the application of information technology to support the administration and use of information resources. Includes digital, printed and audiovisual materials. Pre: 605, 670; or consent.

**LIS 674 Database Design and Creation (3)** Designing and creating textual and/or directory databases from the viewpoint of information specialists and content providers. Needs analysis, file design, record content and structuring, software choice. Students implement prototype database. Pre: 670.

**LIS 675 Database Content Evaluation (3)** Lecture discussing and demonstrating the principles and methods of using criteria in evaluating databases used by librarians and information professionals, such as database coverage, source base, currency, accuracy and quality of information. Pre: 601 or 670, or consent.

**LIS 677 Human Dimension in Information Systems (3)** Lecture/discussion on human element in information systems, including physical, cognitive and affective behavior in interaction with information systems. Information retrieval, human-computer interaction and cognitive science research, quantitative and qualitative research methods. Research component. Pre: 670.

**LIS 678 Personalized Information Delivery (3)** Study of the components of personalized information systems: information filtering systems with emphasis on modeling and representation of documents, queries, user information preferences, and user-system interaction. Topics include advanced Information Retrieval (IR) models, metadata and markup languages, query operations, thesaurus based IR, acquisition of user profiles, and user/system performance evaluation. Pre: 647, 663, 670, 674, ICS 321, ICS 421, or ICS 624; or consent.

**LIS 680 Seminar for Beginning School Librarians (1)** Series of five seminar meetings on topics, issues for beginning school librarians. Emphasis on building skills and support networks to help entry level professionals create effective school library programs. Repeatable two times. CR/NC only.

**LIS 681 Books and Media for Children (3)** History and criticism of children's literature. Contemporary books and media. Trends in book publishing and media production. Developmental needs and interests of children. Selection and evaluation. Research studies.

**LIS 682 Books and Media for Young Adults (3)** History and criticism of literature for young adults. Contemporary books and media. Trends in media for young adults. Developmental needs and interests of adolescents. Selection and evaluation. Research studies.

**LIS 683 Services in Libraries (3)** Planning and implementing services and programming in public and school libraries. Trends, issues, networking, public relations, outreach, competencies, services for the disabled and other special groups.

**LIS 684 Administration of School Library Media Centers (3)** Effective management of school library media centers. Philosophy and objectives, standards, personnel, facilities, resources, budget, services, library instruction, public relations, program planning and evaluation. Required for Librarian HDOE licensure.

**LIS 685 Traditional Literature and Oral Narration (3)** Analysis of traditional literature including Asian and Pacific Island resources. Selection and evaluation of traditional literature emphasizing cultural values. Introduction to oral tradition, history and techniques of storytelling.

**LIS 686 Information Literacy and Learning Resources (3)** Study of information literacy models. Integration of information literacy with K-12 curriculum units and lessons. Evaluation of print and multimedia resources to meet student and curricular needs. Required for Librarian HDOE licensure. (Spring only) (Cross-listed as EDCS 686 and ETEC 686)

**LIS 687 Hawaiian Studies Information Resources (3)** Survey of reference and research materials in Hawaiian studies. Includes historical and contemporary works, arts, humanities, social and natural sciences, media. Covers approaches to reference service, collection building and management.

**LIS 688 Pacific Islands Information Resources (3)** Study of reference tools and bibliographic sources for Pacific Islands studies, including exam of online catalogs, databases and web sites. Focus on Melanesia, Micronesia and Polynesia (excluding Hawai'i). Pre: 601 or consent.

**LIS 689 Asian-American Resources for Children and Youth (3)** Study of Asian-American resources for young people: socio-historical roots, evaluation and selection, curricular and program uses in a multicultural context.

**LIS 690 Internship (3)** Field experience in library or information agency settings with supervision of professional librarians or information specialists. Available to classified students only. Selection based on academic advisor approval, application form, interview and possession of required competencies. Students must apply and be accepted before registration. Selection is by agency. CR/NC only. Pre: 601 and 663 (or concurrent).

**LIS 693 Special Topics in Librarianship (V)** Includes issues of topical interest in the profession. Concentrates on the major topic of current interest, such as library service to the aged, reprography, medical librarianship, knowledge management, art librarianship, cartography.

**LIS 694 Special Topics in Information Technology (V)** Includes issues of topical interest in information technology. Concentrates on one major topic of current interest, such as information transfer, networks, library information systems, artificial intelligence applications. Repeatable up to nine credits.

**LIS 695 Seminar in Research in Librarianship (3)** Various methodologies and application to problems of librarianship. Evaluation of research studies; developing, writing, and critiquing proposals. Experience with statistical packages for data analysis.

**LIS 696 Practicum School Librarianship (V)** Skill development and application of academic study through observation and practice in a fieldwork program with accompanying seminar. Required for school library certification in Hawai'i. Repeatable up to six credits. CR/NC only. Pre: 12 credits in LIS degree program and consent of practicum coordinator required.

**LIS 699 Directed Reading and/or Research (V)** Individualized program of directed reading and/or research outside the scope of regularly titled courses. Enrollment requires approval before end of previous semester, with specification of goals, work requirements, number of credits, rationale. Repeatable up to six credits.

**LIS 700 Thesis Research (V)** Research for master's thesis. Repeatable nine times. Pre: 695.

**LIS 701 Seminar in International Librarianship (3)** International and comparative librarianship; professional organizations; comparative methodology; research; periodicals; international agencies; influence of literacy and social, cultural, political factors.

**LIS 705 Asian Research Materials and Methods (3)** Literature of Asia in Western and Asian languages; bibliography, reference tools, research methods, sources, published and archival repositories. Repeatable one time. (Cross-listed as ASAN 705)

## Linguistics (LING)

*College of Languages, Linguistics and Literature*

**LING 102 Introduction to the Study of Language (3)** Non-formal introduction to language, emphasizing the everyday use of language, its relevance to contemporary issues in society, and local language issues. Content studied through lecture, readings, and writing; emphasis on writing as a grading criterion. DS

**LING 103 Language and Symbolic Reasoning (3)** Introduction to language as a formal symbolic system and to the techniques of analysis and reasoning that reveal its workings. A-F only.

**LING 105 Language Endangerment, Globalization, and Indigenous Peoples (3)** Focus on language endangerment and globalization. Students are introduced to case studies on language endangerment from around the world and throughout history. Offered through the distance-learning Unit Mastery program. A-F only. FGB

**LING 120 Language as a Window to the Mind (3)** Introduction to language-related phenomena, which gives insight into the organization of the human mind. Combines lecture, discussion and group projects.

**LING 150 (Alpha) Language in Hawai'i and the Pacific (3)** Introduction to the study of language and language-related issues, with a focus on Hawai'i and the Pacific; (B) unit mastery; (C) lecture discussion. A-F only. DS

**LING 201 Language Documentation for Non-Linguists (2)** Provides training in the fundamentals of language documentation and conservation for non-linguists. Repeatable two times. CR/NC only. Pre: proficiency in a lesser studied language and consent.

**LING 320 General Linguistics (3)** Introduction to the formal analysis of language, focusing on phonetics, phonology, morphology, syntax, semantics, historical linguistics, language acquisition, and related topics. DS

**LING 331 Computer Applications (3)** Background; uses for machine translation, dictionary programs, speech synthesis, grammar modeling, etc. Pre: 320 (or concurrent) or consent.

**LING 344 Languages of the World (3)** Survey of major language families; typological classification and language universals; writing systems, "contact" languages. Variety of grammatical structures illustrated by selected languages. Pre: 320 or consent. DS

**LING 346 The Philippine Language Family (3)** Introduction; phonological and grammatical systems; historical developments; emphasis on Filipino, Cebuano, and Ilokano. Pre: grade of B or better in 102 or 320 and experience with a Philippine language, or consent. DH

**LING 347 Pidgin and Creole Languages (3)** Nature, history, structure, and geographic distribution of pidgins and creoles. Pre: 102 or consent. (Alt. years) (Cross-listed as IS 347)

**LING 410 Articulatory Phonetics (3)** Intensive training in recognition, reproduction, and recording of human speech sounds; preparation for fieldwork with unrecorded languages and for clinical work in speech pathology. DH

**LING 412 Psycholinguistics (3)** The mental processes involved in producing, understanding, and acquiring language. Students will conduct a small psycholinguistic experiment. Open to nonmajors. Pre: one of 102, 320, PSY 100, or SPA 300; or consent. DS

**LING 414 Introduction to Linguistic Anthropology (3)** Introduction to the ethnographic study of speech and language. Pre: ANTH 152 or consent. (Once a year) (Cross-listed as ANTH 414 and IS 414) DS

**LING 415 Language and Gender (3)** The role of language in the construction of gender and in the maintenance of the gender order. Field projects explore hypotheses about the interaction of language and gender. No previous knowledge of linguistics required. A-F only. (Cross-listed as ANTH 413) DS

**LING 416 Language as a Public Concern (3)** How does language serve as a proxy for larger social questions? Focuses on four main themes: language revitalization, discrimination on the basis of accent, gender miscommunication and the English Only Movement. A-F only. Pre: 102 or 320 or consent. DS

**LING 420 Morphology (3)** Theory of word structure; analysis of a variety of morphological types. Pre: 320 (or concurrent) or consent. **DH**

**LING 421 Introduction to Phonological Analysis (3)** Phonological analysis and theory. Pre: 410. **DH**

**LING 422 Introduction to Grammatical Analysis (3)** Syntactic analysis and grammatical theory. Pre: 320 or consent. **DH**

**LING 423 Cognitive Linguistics (3)** Conceptual systems and language from a cognitive science perspective. Linguistic evidence on conceptual structure, reasoning, categorization, and understanding. Open to nonmajors. Pre: 102, 320, ICS 111, or PSY 100; or consent.

**LING 430 Animal Communication (3)** Investigates animal communication from the perspective of modern linguistics. Dispels common misconceptions about "talking animals" and shows how the cognitive, biological, and environmental needs and opportunities of animals determine what and how they communicate. A-F only. Pre: 102 or consent. **DS**

**LING 431 Computational Modeling (3)** Hands-on introduction to modeling language. Focuses on connectionism, relations between language perception, and motor control. Requires no programming experience. Open to nonmajors. Pre: 102, 320, ICS 111, or PSY 100; or consent.

**LING 441 Meaning (3)** Theories of how literal and figurative language encode meaning and processes of meaning encoding and decoding. Open to nonmajors. Pre: 102, 320, ICS 111, or PSY 100; or consent.

**LING 445 Polynesian Language Family (3)** Introduction to the language family of Hawaiian, Samoan, Tahitian, Tongan, etc.; models of migration and settlement and linguistic evidence; subgrouping and reconstruction of Proto-Polynesian; linguistic characteristics of present-day languages; language endangerment and conservation in Polynesia. Pre: 320 with a grade of B or better, or consent. **DS**

**LING 451 Induction of Linguistic Structure (3)** Phonological and grammatical structures of a previously uncodified language are determined by linguistic analysis of data obtained from speakers of the language. Pre: 102 or 320, or consent. **DH**

**LING 470 Children's Speech (3)** Individual strategies, baby talk, language socialization, language variation including multilingualism. Relation of cognitive to language development. Pre: 320. **DS**

**LING 499 Directed Research (V)** Repeatable up to 3 credits. CR/NC only. Pre: consent.

**LING 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**LING 611 Acoustic and Auditory Phonetics (3)** Principles of acoustics and audition as they relate to speech sounds, use of computer-based analysis tools to investigate acoustic properties of speech. Pre: 421 or consent.

**LING 615 The Nature of Language (3)** Language as a communication system, current theories of grammar, meaning, sociolinguistics, linguistic change and comparison.

**LING 617 Language Acquisition and Language Revitalization (3)** Provides training relevant to the study and revitalization of heritage languages and endangered languages. Pre: 320 or equivalent.

**LING 621 Phonology (3)** Phonological theory and problems of analysis. Pre: 421 or consent. (Fall only)

**LING 622 Grammar (3)** Grammatical theory and problems of analysis. Pre: 422 or consent.

**LING 623 Semantics and Pragmatics (3)** Ways in which the interpretation of sentences in natural language depends upon the literal meaning of propositions and their logical (semantic) and conversational (pragmatic) inferences. Pre: 422 or consent.

**LING 630 Field Methods (3)** Work with native speakers of lesser-known languages to develop techniques for data collection and analysis. Repeatable unlimited times. Pre: 421 and 422 and one of 621 or

622; or consent.

**LING 631 Language Data Processing (3)** Preparation of language data for computer processing; use ready-made programs; write simple language processing programs using SNOBOL4. Applications to student's research. Pre: 421 and 422, or consent.

**LING 632 Laboratory Research (3)** Laboratory methods for research in linguistics. Introduction to hardware, software, research designs and basic analysis techniques commonly used in laboratory-based research. Combines lecture, laboratory work and discussion. Pre: graduate standing.

**LING 640 (Alpha) Topics in Linguistics (3)** History of the discipline, schools of linguistic thought, current issues, etc. Repeatable unlimited times. (E) English linguistics; (F) phonology and phonetics; (G) general; (H) history of the discipline; (S) sociolinguistics; (X) syntax; (Y) psycholinguistics. Pre: consent.

**LING 645 The Comparative Method (3)** Introduction to historical-comparative linguistics; attention to both Indo-European and languages with few or no written records. Pre: 421 and 422, or consent.

**LING 646 The Comparative Method (3)** Continuation of 645. Pre: 645.

**LING 670 Developmental Linguistics (3)** Survey of the literature in language acquisition; emphasis on relation to linguistic theory. Pre: 421 and 422, or consent.

**LING 680 Introduction to Language Documentation (3)** Covers history, method, and theory behind language documentation, and the role of language endangerment in the field. Discussion on skills required to undertake documentation; topics may vary depending on the emphases of the instructor. Pre: 320 or consent.

**LING 699 Directed Research (V)** CR/NC only. Repeatable unlimited times. Maximum six credit hours. Pre: graduate standing and consent.

**LING 700 Thesis Research (V)** Repeatable up to 12 credit hours.

**LING 710 Methods of Language Documentation (3)** Students learn to conduct best-practice digital language documentation projects, from equipment purchase to data collection to data annotation to archiving and presentation. Pre: 680 or consent.

**LING 730 Advanced Laboratory Research (3)** Advanced laboratory methods for research in linguistics. Specialized and/or advanced uses of hardware, software, research designs, and analysis techniques. Specific topic varies: check with department. Combines lecture, laboratory work and discussion. Repeatable four times. Pre: 632 or consent.

**LING 750 (Alpha) Seminar (3)** Reporting and discussion of current research in linguistics. (E) ethnolinguistics; (F) phonology and phonetics; (G) general; (M) semantics; (Q) language acquisition; (R) written language; (S) sociolinguistics; (X) syntax; (Y) psycholinguistics. Repeatable unlimited times. Pre: consent.

**LING 770 Areal Linguistics (3)** Structures of languages of various areas of the world; diffusion. Repeatable unlimited times. Pre: consent.

**LING 799 Apprenticeship in Teaching Linguistics (V)** Experience-based introduction to college-level teaching; doctoral students serve as student teachers to professors; responsibilities include supervised teaching and participation in planning and evaluation. Repeatable one time. Pre: admission to doctoral program and consent.

**LING 800 Dissertation Research (V)** Repeatable unlimited times.

## Management (MGT)

*Shidler College of Business*

**MGT 320 Fundamentals of Entrepreneurship (3)** Covers the role of new ventures and entrepreneur-

ship in the world economy, the formation, funding, marketing, structure and implementation of business ventures.

**MGT 341 Behavior in Organizations (3)** Contributions made by sociology, psychology, and related behavioral sciences to the understanding and prediction of human behavior in organizations. Pre: BUS 315. **DS**

**MGT 342 Multinational Business Management (3)** Introduction to the unique problems and challenges in managing multinational business enterprises. Systems approach to the management process in such multinational firms stressed. Pre: BUS 315.

**MGT 343 Comparative Management Systems: United States and Japan (3)** Similarities and differences in managers, in process of management, and in relevant environmental constraints in Japan and the U.S. Pre: BUS 315.

**MGT 344 Seminar in Management (3)** In-depth analysis of selected current practices and trends in administration. May be repeated with change in topic. Pre: consent.

**MGT 345 Entrepreneurial Ventures (3)** Integrative course in entrepreneurship designed around the development of an original business concept and the completion of a comprehensive business plan for a new venture. Intended as final course for students completing entrepreneurship minor. Pre: 320 or consent.

**MGT 348 History of American Business (3)** The evolution of business enterprise from colonial times to the present. Emphasis on entrepreneurship, technological change, labor-management relations, government-business relations, and economic thought. Case studies of industrial development. (Cross-listed as HIST 378) **DH**

**MGT 399 Directed Reading and Research (V)** Reading and research in a special area within the major field under direction of faculty member(s). Project must include statement of objectives, outline of activities planned, results expected, and how they are to be reported and evaluated. Must be approved in advance by the department chair and faculty advisor. Repeatable up to six credits.

**MGT 450 Family Business (3)** The exploration of business, personal, and interpersonal issues associated with a family owned and managed company. Topics include: family psychology and organizational structure, life cycles in family business, strategic family and business planning, succession planning, family business conflict resolution, estate planning, the role of professional managers, and others. This is not a course about how to become an entrepreneur or how to start or manage a business. It is most appropriate for those students who are part of a family that owns and manages a business. Pre: BUS 315 or graduate status, or consent.

**MGT 460 Asia Pacific Business Systems (3)** Business systems in Asia Pacific countries including Japan, Korea, China, Taiwan, Singapore, and Hong Kong in terms of particular organization strategies and how they relate to the industrial trade policies. Pre: BBA core excluding BUS 345, or consent.

**MGT 461 Corporate Entrepreneurship (3)** Exploration of the nature and role of entrepreneurship behavior inside larger, established organizations. An examination of obstacles to entrepreneurial activity and approaches to creating work environments that foster entrepreneurship. Pre: 320 or consent.

**MGT 643 (Alpha) Advanced Organizational Behavior (3)** (B) experiential learning (EL); (C) organizational development (OD) and major concepts in organizational behavior.

**MGT 644 Comparative Management (3)** Cross-cultural analysis of the values and environmental constraints that shape management patterns and policies. Emphasis on Pacific area nations.

**MGT 645 New Venture Management (3)** Technical aspects of entrepreneurship, components and requirements for developing a business plan.

**MGT 650 Management Topics (3)** In-depth analysis of selected current practices and trends in administration. May be repeated four times with change in topic. Pre: consent.

**MGT 651 Corporate Entrepreneurship (3)** Entrepreneurship behavior involving the founding of new business units within established companies; understanding and dealing with barriers to entrepreneurship in corporations; recognizing corporate entrepreneurship opportunities; and learning various approaches organizations can take to increase entrepreneurship. A-F only. Pre: consent. (Once a year)

**MGT 660 Negotiation (3)** Theory and practice of negotiation. Exploration of appropriate strategies, tactics, and communication techniques. Study of dyadic multi-party, cross-cultural, and assisted negotiations.

**MGT 670 (Alpha) International Management and Industrial Relations (3)** Selected topics in international management and industrial relations: (B) Chinese management systems; (C) Japanese management systems; (D) management of multinational corporations; (F) contemporary issues in international business foreign direct investment; (G) cross-cultural communication in international business; (H) interactive strategies in Asian culture; (I) international human resource management; (J) international joint ventures; (K) international management of technology; (M) Korean management systems; (N) multinational corporation and environmental issues; (O) strategy of the multinational corporation; (P) international transfer of technology. Repeatable four times. Pre: consent.

**MGT 671 International Strategic Management (3)** Analysis of the strategic management of firms engaged in multinational business including specific content on Asia. Permits students to focus on specific countries such as China and Japan. A-F only. (Spring only)

**MGT 680 Entrepreneurship for Science and Technology (3)** Recognizing and screening technology opportunities, the commercialization process, intellectual property acquisition, business model related to high technology strategies needed for growth in high tech firms. A-F only. Pre: 645 or consent. (Once a year)

**MGT 681 Asian/Pacific Entrepreneurship (3)** Innovative ventures, issues related to noticing opportunities, conceptualizing and developing a business model, starting and growing a new venture with specific emphasis on the Asian/Pacific region. A-F only. Pre: consent. (Once a year)

**MGT 701 Cross-Cultural Management (3)** Provides tools to compare and contrast management practices across nations and to examine the role of culture in shaping those practices. A-F only. Pre: PhD student status in international management or consent.

**MGT 704 PhD Seminar—Corporate Strategy and International Business (3)** Objectives include: explore research topics in corporate strategy and international business, examine conceptual and empirical literature on management of the multinational corporation, and prepare students for comprehensive examination. A-F only. Pre: PhD student status in international management or consent.

**MGT 799 Directed Reading and Research (V)** Reading and research in an area of management under the direction of faculty member(s). A-F only. Pre: PhD student status in international management or consent.

## Maori (MAO)

*College of Languages, Linguistics and Literature*

**MAO 101 Beginning Maori I (3)** Listening, speaking, reading, writing, grammar. Meets three hours weekly. HSL

**MAO 102 Beginning Maori II (3)** Continuation of 101. Meets three hours weekly. Pre: 101. HSL

**MAO 201 Intermediate Maori I (3)** Continuation of 102. Meets three hours weekly. Pre: 102. HSL

**MAO 202 Intermediate Maori II (3)** Continuation of 201. Meets three hours weekly. Pre: 201. HSL

**MAO 261 Maori Literature and Culture (3)** Survey of literature concerning myths, traditions, poetry and song as well as contemporary literature (in English) relating to the Treaty of Waitangi, Maori prophetic sayings. Students who have previously taken this course as PACS 492 may not take this course. Pre: consent. DL

**MAO 301 Advanced Maori Language and Culture (3)** Advanced Maori language and culture. Pre: 202, no waiver. (Fall only)

**MAO 302 Advanced Maori Language and Culture (3)** Advanced Maori language and culture. Pre: 301. (Spring only)

**MAO 361 Modern Maori Literature and Culture (3)** Survey of modern Maori and Hawaiian literature and culture from the mid-twentieth and early twenty-first centuries. Pre: 261 or consent. (Fall only) DL

**MAO 384 Te Reo Waiata: Māori Language in Song (3)** Survey and analysis of Maori song poetry texts, traditional and contemporary, and their development and performance over time. Pre: 102 or HAW 202, or consent.

## Marketing (MKT)

*Shidler College of Business*

**MKT 311 Consumer Behavior (3)** Analysis of consumer behavior and motivation; principles of learning, personality, perception, and group influence, with emphasis upon mass communication effects. Pre: BUS 312 or consent. (Cross-listed as PSY 385) DS

**MKT 321 Marketing Research (3)** Research aids to marketing management; nature of the research process; planning research including problems of sampling and measurement; experimental and non-experimental methods and techniques; analysis of data. Pre: BUS 310 and BUS 312, or consent. DS

**MKT 331 Marketing Communications (3)** In-depth coverage of the major communication tools used in marketing such as advertising, sales promotion, public relations and the internet. Emphasis on integrated marketing communications. Pre: BUS 312 or consent.

**MKT 332 Integrated Communication Campaigns (3)** Management of integrated marketing communications campaigns. Includes: conducting target market and competitor research, developing creative content and media strategies, production of communication materials and completion of major real world project. Pre: 331 and BUS 312.

**MKT 341 Retailing Management (3)** Principles, functions, and analysis of opportunities and problems in retailing; location and layout; merchandise planning; buying and selling; organizational forms and design; expense analysis and control; coordination of store activities. Pre: BUS 312 or consent.

**MKT 351 Professional Selling (3)** Emphasis on selling technique, social-psychological principles of persuasion, and interpersonal communication. Lecture, discussion, and application of relevant principles and techniques. A-F only. Pre: BUS 312 or consent.

**MKT 352 Sales Management (3)** Delves into the sales management process. Through a variety of activities, students gain experience in sales planning, recruiting and training sales people, methods of motivating and compensating, territory management and sales team communications. Pre: BUS 312 or consent.

**MKT 361 Seminar in Marketing (3)** Study and discussion of significant topics and problems in the field of marketing. May be repeated four times with change in topic. Pre: consent and usually senior standing.

**MKT 362 Internet Marketing (3)** Examines use of internet in the marketing of goods and services; for example new product development, marketing research, direct sales and marketing communications on the World Wide Web. Real world projects provide opportunities for application. Pre: BUS 311 and BUS 312, or consent.

**MKT 363 Customer Relationship Management (3)** Focuses on the evolving field of customer relationship management. Students learn how to manage marketing information and decision-making systems that maximize customer retention and build long-term relationships. A-F only. Pre: BUS 311, or consent.

**MKT 372 Marketing for New Ventures (3)** Examines role of marketing in the formation and launch of entrepreneurial ventures within and outside of ongoing businesses. Emphasis on new product development and low cost, high impact marketing activities. Pre: BUS 312 or consent.

**MKT 381 Multinational Marketing (3)** Principles and topics related to international marketing, with emphasis on strategic planning and applications. Pre: BUS 312 or consent.

**MKT 391 Marketing Strategies (3)** Decision-making by the marketing executive; integration of all elements of the marketing program based on actual business situations. Pre: 311, 321, and one other marketing course above 311; or consent.

**MKT 399 Directed Reading and Research (V)** Reading and research in a special area of major under direction of faculty member(s). Project must include statement of objectives, outline of activities planned, results expected, and how they are to be reported and evaluated. Must be approved in advance by the department chair and the faculty advisor. Repeatable unlimited times.

**MKT 410 Software Tools in Marketing (3)** Focuses on computer software tools designed to help managers make more informed marketing decisions. Through hands-on experience, students learn software skills useful in marketing management, marketing research, sales and advertising. A-F only. Pre: BUS 310 and BUS 312; or consent.

**MKT 411B Imagination, Entrepreneurship and Business Problem-Solving (3)** Application of creative process to problems encountered in venture creation/growth. Student problem-solving styles are characterized and implications drawn for generation of breakthrough ideas. Tools for facilitating creative solutions to marketing problems are investigated. Pre: junior standing and BUS 312; or consent.

**MKT 651 Advanced Marketing Management (3)** A case course in the application of advanced marketing methods. Pre: BUS 623 or consent.

**MKT 652 Japanese Marketing Systems (3)** Specialized study of Japanese marketing systems, considers both global and domestic marketing activities in the context of the Japanese economy. Pre: BUS 623 or consent.

**MKT 653 International Marketing Management (3)** Integrated and comparative approach to international marketing management. Emphasis on the development of a competitive strategy in a global environment. Applications to both developing and industrialized markets. Pre: BUS 623 or consent.

**MKT 654 Marketing Communications Management (3)** Emphasis on developing integrated advertising, sales promotion, public relations and internet communication strategies that build brand equity. Includes relevant customer behavior and real world applications. Pre: BUS 623 or consent.

**MKT 656 Creativity in Marketing (3)** Thought processes that relate to creativity. Through a series of exercises, students experience enriched creativity and enhanced communication skills. Pre: BUS 623 or consent.

**MKT 657 Services Marketing (3)** Conceptual understanding of distinctive aspects of services, services management, and services research. Pre: BUS 623 or consent.

**MKT 658 Marketing in the Information Age (3)** Examines new marketing opportunities and challenges in the information age from a balanced perspective of theory and practice. Real-world cases and practices will be used to systematically supplement the principles and theories introduced. A-F only. Pre: 623 or consent. (Fall only)

**MKT 690 Advanced Seminar in Marketing (3)** Significant topics, problems in marketing. Repeatable unlimited times. Pre: BUS 623 or consent.

**MKT 701 International Marketing Theory (3)** Focuses on the building blocks of theory, their use, and evolution within a marketing context. Explores marketing theories, theory construction, and the creation of marketing knowledge. A-F only. Pre: PhD student status in international management or consent.

**MKT 702 International Cross-Cultural Consumer Behavior (3)** Focuses on consumer behavior theory with a strong emphasis on cross-cultural research issues and methodology. Provides in-depth review of important published work in traditional and cross-cultural consumer behavior fields. A-F only. Pre: PhD student status in international management or consent.

**MKT 703 International Marketing Strategy Doctoral Seminar (3)** Focuses on theories of strategic marketing and planning. Explores the theoretical principles of marketing concepts, tools, and processes that can be used to help an organization develop a sustainable competitive advantage. A-F only. Pre: PhD student status in international management or consent.

**MKT 704 Advanced Topics in International Marketing Seminar (3)** Selected topics in any aspect of international marketing to increase exposure to the range of issues researchers commonly confront. A-F only. Pre: PhD student status in international management or consent.

**MKT 799 Directed Research (V)** Reading and research in an area of marketing under the direction of faculty member(s). A-F only. Pre: PhD student status in international management or consent. Mathematics (MATH)

## Marine Biology (MBO)

*College of Natural Sciences/School of Ocean and Earth Science and Technology*

**MBO 601 Marine Biology-Environments and Organisms (4)** (3 hr Lec, 3 hr Lab) Introduction to the diversity of marine organisms and the many specialized coastal, reef, and oceanic habitats in which they live. Lab and field research exercises will complement lecture subjects. Graduate standing in Marine Biology graduate degree program only. A-F only. Pre: consent. (Fall only) (Cross-listed as OCN 601)

**MBO 611 Introduction to Quantitative Methods in Fisheries Science (4)** (2 Lec, 1 3-hr Lab) Fisheries and population models including growth, stock-recruitment, surplus production, age-structured and size-based, parameter estimation, uncertainty characterization, resampling methods, and scientific computing. Graduate students only. A-F only. Pre: MATH 215 or 216, or MATH 241 or 242, or consent. (Alt. years)

**MBO 740 Advanced Topics in Quantitative Biology (V)** Reflects faculty expertise and needs for graduate training in quantitative methods for biology, including statistical, computational, and analytic approaches. Format (lecture/lab/discussion) will vary by topic. Repeatable unlimited times. Graduate students only. A-F only.

## Mathematics (MATH)

*College of Natural Sciences*

*The minimum required grade for prerequisites is a grade of C (not C-) or better, unless noted otherwise.*

**MATH 100 Survey of Mathematics (3)** Selected topics designed to acquaint nonspecialists with ex-

amples of mathematical reasoning. May not be taken for credit after 215 or higher. FS

**MATH 111 Math for Elementary Teachers I (3)** Understanding, communicating, and representing mathematical ideas, problem solving, reasoning, and using symbolism. Operations and properties of operations with particular attention to sets. Prospective elementary education majors only.

**MATH 112 Math for Elementary Teachers II (3)** Understanding, communicating, and representing mathematical ideas, problem solving, and argumentation. Counting, introduction to measurement, the standard operations on the natural numbers, equations, and inequalities. Pre: 111. FS

**MATH 134 Precalculus: Elementary Functions (2)** Algebra review, functions with special attention to polynomial, rational exponential and logarithmic functions, composed and inverse functions, techniques of graphing. Credit not allowed for 134 and 140, or 134 and 161. Pre: two years of high school algebra, one year of plane geometry.

**MATH 140 Precalculus: Trigonometry and Analytic Geometry (3)** Studies trigonometric functions, analytic geometry, polar coordinates, vectors, and related topics. This course is the second part of the precalculus sequence. Credit allowed for one of 134, 135, or 140. Pre: 134, 135, or 161 or assessment exam. FS

**MATH 161 Precalculus and Elements of Calculus for Economics and the Social Sciences (3)** Algebra review, functions with special attention to polynomial, rational, exponential, and logarithmic functions, algebra of functions, techniques of graphing, differentiation and integration of algebraic functions, applications in economics and social sciences. Credit allowed for only one of 134, 135, or 161. FS

**MATH 190 Introduction to Programming (2)** (3 hr) Introduction to numerical algorithms and structured programming using Fortran, MATLAB, or other appropriate language. Pre: one semester of calculus (203, 215, 241, 242, 243, 244, 251A, 252A, or 253A) (or concurrent), or consent.

**MATH 203 Calculus for Business and Social Sciences (3)** Basic concepts; differentiation and integration; applications to management, finance, economics, and the social sciences. Pre: 134, 135, or 161, or assessment exam. FS

**MATH 215 Applied Calculus I (4)** Basic concepts; differentiation, differential equations and integration with applications directed primarily to the life sciences. Pre: 140 or assessment exam. FS

**MATH 216 Applied Calculus II (3)** Differential calculus for functions in several variables and curves, systems of ordinary differential equations, series approximation of functions, continuous probability, exposure to use of calculus in the literature. Pre: 215 or consent.

**MATH 241 Calculus I (4)** Basic concepts; differentiation with applications; integration. Pre: 140 or 215 or assessment exam. FS

**MATH 242 Calculus II (4)** Integration techniques and applications, series and approximations, differential equations. Pre: 241 or 251A or a grade of B or better in 215; or consent.

**MATH 243 Calculus III (3)** Vector algebra, vector-valued functions, differentiation in several variables, and optimization. Pre: 242 or 252A, or consent.

**MATH 244 Calculus IV (3)** Multiple integrals; line integrals and Green's Theorem; surface integrals, Stokes's and Gauss's Theorems. Pre: 243 or consent.

**MATH 251A Accelerated Calculus I (4)** Basic concepts; differentiation with applications; integration. Compared to 241, topics are discussed in greater depth. Pre: assessment and consent, or a grade of A in 140 and consent. FS

**MATH 252A Accelerated Calculus II (4)** Integration techniques and applications, series and approximations, differential equations, introduction to

vectors. Pre: 251A, or a grade of B or better in 241 and consent.

**MATH 253A Accelerated Calculus III (4)** Vector calculus; maxima and minima in several variables; multiple integrals; line integrals, surface integrals and their applications. Pre: 252A.

**MATH 257 History of Mathematics (3)** The historical development of mathematical thought. Pre: 216 or 242 or 252A.

**MATH 301 Introduction to Discrete Mathematics (3)** Symbolic logic, sets and relations, algorithms, trees and other graphs. Additional topics chosen from algebraic systems, networks, automata. Pre: one semester of calculus from mathematics department; or consent. Recommended: one semester programming.

**MATH 302 Introduction to Differential Equations I (3)** First order ordinary differential equations, constant coefficient linear equations, oscillations, Laplace transform, convolution, Green's function. Pre: 216 or 243 (or concurrent) or 253A (or concurrent), or consent.

**MATH 303 Introduction to Differential Equations II (3)** Constant coefficient linear systems, variable coefficient ordinary differential equations, series solutions and special functions, Fourier series, partial differential equations. Pre: 302, 311 (or concurrent); or consent.

**MATH 304 Mathematical Modeling: Deterministic Models (4)** Deterministic mathematical modeling emphasizing models and tools used in the biological sciences. Topics include difference equations, qualitative behavior solutions of ODEs and reaction-diffusion equations. A computer lab is included. Pre: 216 or 242 or 252A, or consent.

**MATH 305 Mathematical Modeling: Probabilistic Models (4)** Probabilistic mathematical modeling emphasizing models and tools used in the biological sciences. Topics include stochastic and Poisson processes, Markov models, estimation, Monte Carlo simulation and Ising models. A computer lab is included. Pre: 216 or 242 or 252A, or consent. Recommended: 304.

**MATH 307 Linear Algebra and Differential Equations (3)** Introduction to linear algebra, application of eigenvalue techniques to the solution of differential equations. Students may receive credit for only one of 307 or 311. Pre: 243 (or concurrent) or 253A (or concurrent), or consent.

**MATH 311 Introduction to Linear Algebra (3)** Algebra of matrices, linear equations, real vector spaces and transformations. Emphasis on concepts and abstraction and instruction of careful writing. Students may receive credit for only one of 307 or 311. Pre: 243 (or concurrent) or 253A (or concurrent), or consent.

**MATH 321 Introduction to Advanced Mathematics (3)** Formal introduction to the concepts of logic, finite and infinite sets, functions, methods of proof and axiomatic systems. Learning mathematical expressions in writing is an integral part of the course. Pre: 243 (or concurrent) or 253A (or concurrent), or consent.

**MATH 331 Introduction to Real Analysis (3)** A rigorous axiomatic development of one variable calculus. Completeness, topology of the plane, limits, continuity, differentiation, integration. Pre: 242 or 252A, and 321 (or concurrent); or consent.

**MATH 351 Foundation of Euclidean Geometry (3)** Axiomatic Euclidean geometry and introduction to the axiomatic method. Emphasis on writing instruction. Pre: 243 or 253A, and 321 (or concurrent); or consent.

**MATH 352 Non-Euclidean Geometries (3)** Hyperbolic, other non-Euclidean geometries. Pre: 351 or consent.

**MATH 371 Elementary Probability Theory (3)** Sets, discrete sample spaces, problems in combinatorial probability, random variables, mathematical

expectations, classical distributions, applications. Pre: 216, 242, or 252A; or consent.

**MATH 373 Elementary Statistics (3)** Estimation, tests of significance, the concept of power. Pre: 371 or consent.

**MATH 402 Partial Differential Equations I (3)** Integral surfaces and characteristics of first and second order partial differential equations. Applications to the equations of mathematical physics. Pre: 243 or 253A, or consent. Recommended: 244 and 302.

**MATH 403 Partial Differential Equations II (3)** Laplace's equation, Fourier transform methods for PDEs, higher dimensional PDEs, spherical harmonics, Laplace series, special functions and applications. Pre: 402 or consent.

**MATH 405 Ordinary Differential Equations (3)** Systems of linear ordinary differential equations, autonomous systems, and stability theory applications. Optional topics include series solutions, Sturm theory, numerical methods. Pre: 302 and 311, or consent.

**MATH 407 Numerical Analysis (3)** Numerical solution of equations, interpolation, least-squares approximation, quadrature, eigenvalue problems, numerical solution of ordinary and partial differential equations. (These topics are covered in the year sequence 407–408.) Pre: 307 or 311, and one semester programming; or consent.

**MATH 408 Numerical Analysis (3)** Continuation of 407. This is the second course of a year sequence and should be taken in the same academic year as 407. Pre: 407 or consent.

**MATH 411 Linear Algebra (3)** Vector spaces over arbitrary fields, minimal polynomials, invariant subspaces, canonical forms of matrices; unitary and Hermitian matrices, quadratic forms. Pre: a grade of B or better in 311 or consent.

**MATH 412 Introduction to Abstract Algebra (3)** Introduction to basic algebraic structures. Groups, finite groups, abelian groups, rings, integral domains, factorization, polynomial rings, field extensions, quotient fields. Emphasis on writing instruction. (These topics are covered in the year sequence 412–413.) Pre: 311 or 321 or consent.

**MATH 413 Introduction to Abstract Algebra (3)** Continuation of 412. This is the second course of a year sequence and should be taken in the same academic year as 412. Emphasis on writing instruction. Pre: 412 or consent.

**MATH 414 Operations Research: Discrete Models (3)** Techniques of mathematical programming. Topics may include linear programming, integer programming, network analysis, dynamic programming, and game theory. Pre: 307 or 311, or consent.

**MATH 416 Operations Research: Probabilistic Models (3)** Queuing theory, inventory theory, Markov chains, simulation. Pre: 307 or 311, and 371, or consent.

**MATH 420 Introduction to the Theory of Numbers (3)** Congruences, quadratic residues, arithmetic functions, distribution of primes. Emphasis is on teaching theory and writing, not on computation. Pre: 311 or 321 or consent.

**MATH 421 Topology (3)** Geometric and combinatorial topology. Surfaces, homology, Euler characteristics, winding numbers. Jordan curve theorem. Pre: 321 or consent.

**MATH 431 Principles of Analysis I (3)** Topology of  $\mathbb{R}^n$ , continuous functions, Riemann integration, sequences and series, uniform convergence, implicit function theorems, differentials and Jacobians. Emphasis on teaching mathematical writing. (These topics are covered in the year sequence 431–432.) Pre: 311 and 331, or consent.

**MATH 432 Principles of Analysis II (3)** Continuation of 431. This is the second course of a year sequence and should be taken in the same academic year as 431. Emphasis on writing instruction continues. Pre: 431 or consent.

**MATH 442 Vector Analysis (3)** Vector operations, wedge product, differential forms, and smooth mappings. Theorems of Green, Stokes, and Gauss, both classically and in terms of forms. Applications to electromagnetism and mechanics. Pre: 244 or 253A, and 307 or 311, or consent.

**MATH 443 Differential Geometry (3)** Properties and fundamental geometric invariants of curves and surfaces in space; applications to the physical sciences. Pre: 244 or 253A, and 311; or consent.

**MATH 444 Complex Analysis (3)** Analytic functions, complex integration, introduction to conformal mapping. Pre: 244 or 253A; recommended 307, 311, 321 or 331; or consent.

**MATH 449 Topics in Undergraduate Mathematics (3)** Advanced topics from various areas: algebra, number theory, analysis, and geometry. Repeatable unlimited times. Pre: consent.

**MATH 454 Axiomatic Set Theory (3)** Sets, relations, ordinal arithmetic, cardinal arithmetic, axiomatic set theory, axiom of choice and the continuum hypothesis. Pre: 321 or graduate standing in a related field or consent.

**MATH 455 Mathematical Logic (3)** A system of first order logic. Formal notions of well-formed formula, proof, and derivability. Semantic notions of model, truth, and validity. Completeness theorem. Pre: 454 or consent.

**MATH 471 Probability (3)** Probability spaces, random variables, distributions, expectations, moment-generating and characteristic functions, limit theorems. Continuous probability emphasized. Pre: 244 (or concurrent) or 253A (or concurrent), or consent.

**MATH 472 Statistical Inference (3)** Sampling and parameter estimation, tests of hypotheses, correlation, regression, analysis of variance, sequential analysis, rank order statistics. Pre: 471 or consent.

**MATH 475 Combinatorial Mathematics (3)** Finite configurations. Topics may include counting methods, generating functions, graph theory, map coloring, block design, network flows, analysis of discrete algorithms. Pre: 311 or consent.

**MATH 480 Senior Seminar (2)** Seminar for senior mathematics majors, including an introduction to methods of research. Significant portion of class time is dedicated to the instruction and critique of oral presentations. All students must give the equivalent of three presentations. CR/NC only. Pre: one 400-level mathematics course or consent.

**MATH 490 Mathematical Biology Seminar (1)** Reports on research in mathematical biology, reviews of literature, and research presentation. Required for Certificate in Mathematical Biology. Repeatable one time. Pre: junior standing or higher and consent. (Cross-listed as BIOL 490)

**MATH 499 Directed Reading (V)** Limited to advanced students who must arrange with an instructor before enrolling. Repeatable up to six credits.

**MATH 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**MATH 511 Problem Solving for Teachers (1)** Practicing teachers develop and improve their problem-solving skills by working on challenging mathematical tasks. Students improve their mathematics content knowledge by working on problems and learning to design challenge problems for their own classes. Practicing teachers in grades K–12 only. Repeatable unlimited times. CR/NC only.

*All 600-courses prerequisites graduate standing or consent.*

**MATH 602 Ordinary and Partial Differential Equations (3)** Classical existence and uniqueness theory for ODEs and PDEs, qualitative properties, classification, boundary value and initial value problems, fundamental solutions, other topics.

**MATH 603 Ordinary and Partial Differential Equations (3)** Continuation of 602. This is the

second course of a year sequence and should be taken in the same academic year as 602.

**MATH 611 Modern Algebra (3)** Modules, Sylow theorems, Jordan–Holder theorem, unique factorization domains, Galois theory, algebraic closures, transcendence bases. (These topics are covered in the year sequence 611–612.)

**MATH 612 Modern Algebra (3)** Continuation of 611. This is the second course of a year sequence and should be taken in the same academic year as 611.

**MATH 613 Group Theory (3)** Sylow theorems, solvable groups, nilpotent groups, extension theory, representation theory, additional topics.

**MATH 615 Ring Theory (3)** Ideal theory in Noetherian rings, localization, Dedekind domains, the Jacobson radical, the Wedderburn–Artin theorem, additional topics.

**MATH 618 Lattice Theory (3)** Introduction with applications to general algebra. Partially ordered sets, decomposition theory, representations of lattices, varieties and free lattices, coordinatization of modular lattices.

**MATH 619 Universal Algebra (3)** Introduction to basic techniques, including subalgebras, congruences, automorphisms and endomorphisms, varieties of algebras, Mal'cev conditions.

**MATH 621 Topology (3)** Properties of topological spaces; separation axioms, compactness, connectedness; metrizable; convergence and continuity. Additional topics from general and algebraic topology. (These topics are covered in the year sequence 621–622.)

**MATH 622 Topology (3)** Continuation of 621. This is the second course of a year sequence and should be taken in the same academic year as 621.

**MATH 625 Differentiable Manifolds I (3)** Differentiable structures on manifolds, tensor fields, Frobenius theorem, exterior algebra, integration of forms, Poincaré Lemma, Stoke's theorem.

**MATH 631 Theory of Functions of a Real Variable (3)** Lebesgue measure and integral, convergence of integrals, functions of bounded variation, Lebesgue–Stieltjes integral and more general theory of measure and integration. (These topics are covered in the year sequence 631–632.)

**MATH 632 Theory of Functions of a Real Variable (3)** Continuation of 631. This is the second course of a year sequence and should be taken in the same academic year as 631.

**MATH 637 Calculus of Variations (3)** Simple variational problems, first and second variation formulas. Euler–Lagrange equation, direct methods, optimal control.

**MATH 644 Analytic Function Theory (3)** Conformal mapping, residue theory, series and product developments, analytic continuation, special functions. (These topics are covered in the year sequence 644–645.)

**MATH 645 Analytic Function Theory (3)** Continuation of 644. This is the second course of a year sequence and should be taken in the same academic year as 644.

**MATH 649 (Alpha) Topics in Mathematics (3)** (B) logic; (D) analysis; (E) commutative rings; (F) function theory; (G) geometric topology; (H) operator theory; (I) probability; (J) algebra; (K) special; (M) lattice theory and universal algebra; (N) non-commutative rings; (O) transformation groups; (P) partial differential equations; (Q) potential theory; (R) algebraic topology; (S) functional analysis; (T) number theory and combinatorics; (U) differentiable manifolds II. Repeatable up to nine credits for (U); unlimited times for the other alphas.

**MATH 655 Set Theory (3)** Axiomatic development, ordinal and cardinal numbers, recursion theorems, axiom of choice, continuum hypothesis, consistency and independence results.

**MATH 657 Recursive Functions and Complexity (3)** Recursive, r.e., Ptime, and Logspace classes.

Nondeterminism, parallelism, alternation, and Boolean circuits. Reducibility and completeness.

**MATH 671 Advanced Probability (3)** Independence and conditioning, martingales, ergodic theory, Markov chains, central limit theorem. A-F only. Pre: 631 (with a minimum grade of B) or consent. (Alt. years)

**MATH 672 Stochastic Processes (3)** Stationary, Gaussian, and Markov processes. A-F only. Pre: 671 (with a minimum grade of B) or consent. (Alt. years)

**MATH 681 Graph Theory (3)** Connected graphs and digraphs. Graph embeddings. Connectivity and networks. Factors and factorizations. Coverings. Coloring. Applications.

**MATH 695 Directed Reading and Research for Plan B Masters Students (V)** Maximum of 3 credit hours. Repeatable two times. Graduate standing in MATH. A-F only.

**MATH 699 Directed Reading and Research (V)** Maximum of 3 credit hours. Repeatable unlimited times.

**MATH 700 Thesis Research (V)** Research for master's thesis. Repeatable unlimited times. Pre: consent.

**MATH 799 Apprenticeship in Teaching (V)** An experience-based introduction to college-level teaching; students serve as student teachers to professors; responsibilities include supervised teaching and participation in planning and evaluation. Open to graduate students in mathematics only. Repeatable up to six credits. CR/NC only. Pre: graduate standing in mathematics and consent.

**MATH 800 Dissertation Research (V)** Research for doctoral dissertation. Repeatable unlimited times.

## Mechanical Engineering (ME)

### College of Engineering

*Preference in registration is given to declared engineering majors. Please consult the current Schedule of Courses for confirmed offerings each semester.*

**ME 113 Introduction to Engineering Design I (2)** (1 Lec, 1 2-hr Lab) Introductory experience in analysis, synthesis, and design. Teamwork and project required. Pre: high school physics or consent.

**ME 213 Introduction to Engineering Design (3)** (1 Lec, 1 2-hr Lab) Introductory experience in communication, presentation, professional ethics, social responsibility, engineering economics, quality control, and computer-aided drafting. Teamwork and project required. Pre: PHYS 170.

**ME 271 Applied Mechanics II (3)** Dynamics of particles and rigid bodies; force, acceleration, impulse-momentum, work-energy. A-F only. Pre: C or better in CEE 270; MATH 244 (or concurrent) or MATH 253A (or concurrent). (Cross-listed as CEE 271) DP

**ME 311 Thermodynamics (4)** Basic laws, closed and open systems. Work, heat, concept of entropy. Properties of pure simple substances. Ideal gases. Introduction to power and refrigeration cycles. Pre: grade of C or better in PHYS 170 and MATH 244 (or MATH 253A). DP

**ME 312 Applied Thermodynamics (3)** Gas mixtures, generalized thermodynamic relationships, combustion and thermochemistry, chemical equilibrium, power and refrigeration cycles. Pre: grade of C or better in 311. DP

**ME 322 Mechanics of Fluids (3)** Incompressible and compressible ideal fluids, effects of viscosity. Similitude, boundary layer flow, elementary gas dynamics. Pre: grade of C or better in 311 and CEE 271 or ME 271. (Spring only) DP

**ME 331 Materials Science and Engineering (3)** Electronic, atomic, and crystalline structure of materials and their effect on the mechanical, electrical, optical, and magnetic properties of engineering metals, ceramics, polymers, and composites. Pre: CHEM 162, MATH 242 and PHYS 170. DP

**ME 341 Manufacturing Processes (3)** Manufacturing components. Energy requirements for various

manufacturing methods. Selection and design of manufacturing methods to obtain components with desired size/shape/properties. Pre: 331 or consent. DP

**ME 342 Manufacturing Processes Lab (2)** (1 Lec, 1 2-hr Lab) Manufacturing laboratory: tension/compression tests, cold rolling, welding, casting, statistical process control, programming and milling using a CNC machine. Pre: 341 (or concurrent) or consent. DY

**ME 360 Computer Methods in Engineering (3)** Numerical solutions for algebraic and transcendental equations, simultaneous linear algebraic equations, integration and differentiation; integration of ordinary differential equations. Engineering applications. Pre: MATH 190 (or EE 160), MATH 244 (or MATH 253A) and MATH 302 (or MATH 307).

**ME 371 Mechanics of Solids (3)** Stress, strain and constitutive relations for elastic solids. Design of shafts, beams, columns and cylinders. Failure theories, statically indeterminate systems. Pre: CEE 270 (grade of C or better), MATH 244 (or MATH 253A) and MATH 302 (or MATH 307). DP

**ME 372 Component Design (3)** Design, analysis, and selection of machine components: shafts, screws, fasteners, welds, rolling contact bearings, journal bearings, gears, clutches, brakes, belts, and roller chains. Pre: 213, and either 371 or CEE 370. DP

**ME 374 Kinematics/Dynamics Machinery (3)** Velocity and acceleration analysis of planar mechanisms; kinematic synthesis of linkages, cams, and gears; static and dynamic force analysis of mechanisms; balancing of machinery. Pre: CEE 271 or ME 271 (C or better), MATH 244 (or MATH 253A) and either MATH 302 or MATH 307. DP

**ME 375 Dynamics of Machines and Systems (3)** Lumped-parameter modeling of dynamic physical systems. Methods of analysis, including transform techniques. Time response and frequency response. Modal analysis. Pre: CEE 271 or ME 271 (C or better), and either MATH 302 or MATH 307. DP

**ME 402 Dynamics Systems Laboratory (2)** (1 Lec, 1 2-hr Lab) Analysis, design, fabrication, testing and characterization of engineering instrumentation. Computer-based data acquisition methods. Techniques and procedures associated with carrying out dynamic measurements within the constraints of cost, time and accuracy. A-F only. Pre: one of 360, MATH 407, or PHYS 305 (or concurrent for any); and 375 (or concurrent). DY

**ME 403 Advanced Mathematics for Engineers (3)** Applications of ordinary differential equations, Laplace transform, vector field theory, matrices, line integrals. Pre: MATH 244 (or MATH 253A), and MATH 302 (or MATH 307).

**ME 404 Computational Fluid Dynamics (3)** Basic computational fluid dynamics; four important partial differential equations; introduction to finite element method: Interpolation and Galerkin method; finite element method for transport phenomena; some algorithms for parallel computing. A-F only. Pre: 422 (or concurrent), and either 360, MATH 407 or PHYS 305; or consent. (Once a year)

**ME 417 Applied Thermal Engineering (3)** Principles, design and analysis of practical thermal systems. Engineering applications. Valve, compressor, condenser and evaporator technologies. System integration and control. Thermal loads and thermal comfort. Pre: 312 and 422 (or concurrent). DP

**ME 418 Power and Propulsion (3)** Principles, performance, and design of gas turbine power plants and propulsion systems. Pre: 312 and 422 (or concurrent). DP

**ME 419 Astronautics (3)** The space environment (vacuum, neutral, radiation, and plasma); motion in gravitational fields; orbit transfers; Earth-satellite operations; rocketry; propulsion analysis and performance; reentry dynamics; interplanetary trajectories; attitude dynamics and stabilization. A-F only. Pre: 422 or consent. (Spring only)

**ME 422 Heat Transfer (3)** Steady and unsteady conduction; steady convection and radiation; heat exchangers. Pre: 322. (Fall only) DP

**ME 423 Mass Transfer (3)** Elementary mass diffusion; diffusion in a stationary medium; diffusion in a moving medium; low and high mass transfer theories; simultaneous heat and mass transfer; condensation, evaporation, and boiling; transpiration cooling; species boundary layers; engineering and design of heat and mass exchangers; current refrigerants and environmental regulations. A-F only. Pre: 422 or consent. DP

**ME 424 Introduction to Gas Dynamics (3)** One-dimensional compressible flow involving change of area, friction, heat transfer. Normal and oblique shocks. Prandtl-Meyer flow. Application to nozzles, diffusers, airfoils. Pre: 312 and 322. DP

**ME 425 Thermal Management of Electronic Systems (3)** To introduce concepts in the thermal management of electronics, and to develop sound technical tools to approach modern electronic packaging and cooling applications. A-F only. Pre: 422 or consent. (Spring only)

**ME 426 Scaling Methods in Engineering (3)** Scaling methods and optimization under global constraints; multi-scale optimal design of mechanical, thermal, and natural systems; effectiveness of heat, fluid, and convective trees; theoretical design optimization of manmade and natural power systems; analysis of time dependent structures. A-F only. Pre: 371 and 422, or consent. (Spring only)

**ME 433 Failures in Materials (3)** Analysis of component failures due to imperfections, fatigue, brittle fracture, wear, corrosion, bending, impact, and overload. Fracture mechanics. Case studies. Pre: 331 or consent. DP

**ME 434 Materials Selection for Design (3)** Methodology for the selection of materials for mechanical applications to prevent mechanical failure and environmental degradation. Design considerations associated with the use of metals, ceramics, polymers, and composites. Pre: 341 and 371, or consent. DP

**ME 435 Experimental Methods in Materials Research (3)** (1 Lec, 2 2-hr Lab) Common experimental techniques in materials testing and research: x-ray diffraction, optical and electron microscopy, thermal and mechanical properties, electrochemical methods—theory and hands-on experience. Pre: 341 and consent.

**ME 436 Corrosion Engineering (3)** Basics of corrosion processes and emphasis on corrosion control. Thermodynamics and kinetics of corrosion, metal alloys and their behavior, corrosion control techniques (cathodic protection, anodic protection, coatings, and inhibitors). Pre: 341 and 342, or consent. DP

**ME 446 Advanced Materials Manufacturing (3)** (2 Lec, 1 2-hr Lab) Introduction to anisotropic materials, advanced manufacturing techniques for composite and intelligent materials, joining of composites, thin film processing and stereolithography, computer aided manufacturing and rapid prototyping, manufacturing process optimization, open-ended manufacturing projects. Pre: 341, 342, and senior standing; or consent. DP

**ME 447 Introduction to Nanotechnology (3)** (3 Lec) Tools and techniques of micro- and nanotechnology in design, modeling, simulations, analysis, fabrication, testing and characterization; nano-materials, nano-structures, nano-composites, nano-coating, nano-optics, nano-electronics and nano-biotechnology. A-F only. Pre: senior standing or consent. DP

**ME 451 Feedback-Control Systems (3)** Analysis/design of feedback systems. Compensator design via root locus and Bode analysis. Routh/Nyquist stability. State space representation and introduction to MIMO formulation. Controllability/observability. Application to physical dynamic systems such as industrial robots. Pre: 375 or EE 315 or consent. DP

**ME 452 Robotics (3)** Principles and design methods for autonomous systems. Pre: senior standing. DP

**ME 453 Energy Conversion Systems (3)** Energy conversion and its impact on the environment. Conventional, hydroelectric, nuclear fission and fusion, solar, wind, ocean, geothermal, and biomass power; energy storage, transmission and conservation. Pre: 312, 322, and 422 (or concurrent); or consent. **DP**

**ME 455 Nuclear Power Engineering (3)** Nuclear reactor principles. Reactor heat transfer, heat generation and removal. Design and analysis of reactor power systems and plants. Pre: 312 and 422. **DP**

**ME 471 Experimental Stress Analysis (3)** (1-3 hr Lab) Techniques of experimental stress analysis: strain and deflection measurement of beams and shafts, strain to stress conversion, principal and maximum shearing stresses, failure in biaxial stress states, stress concentrations, residual stresses, buckling, creep, electrical resistance strain gages, brittle coatings, photoelastic methods, transducers. A-F only. Pre: 371 and departmental approval. (Spring only)

**ME 473 Mechanical Vibrations (3)** Response of machines and systems to transient and periodic excitation. Vibration isolation and transmissibility. Modal analysis of multi-degree-of-freedom systems. Applications to design. Pre: 371, 375; or consent. **DP**

**ME 474 Fundamentals of Acoustics (3)** Plane and spherical acoustic waves. Transmission, reflection, radiation, and absorption. Near and far fields, radiation patterns. Applications to noise control. Instruments. Pre: 375, EE 211; or consent. **DP**

**ME 480 Thermofluid Measurements and Design (3)** Measurement techniques in thermodynamics, fluid mechanics, and heat transfer. Hands-on experience with instrumentation. Open-ended design of thermofluid systems. Contemporary engineering ethics issues. Final report and presentation are required. A-F only. Pre: 422 (or concurrent).

**ME 481 Design Project I (3)** (1 1-hr Lec, 2 2-hr Lab) Engineering ethics, engineering design methodology, design process, project planning, decision making, materials selection, economic analysis, quality control, finite element analysis, initiation of an open-ended design project. A-F only. Pre: 372 (or consent) and 375 (or concurrent).

**ME 482 Design Project II (3)** (1 Lec, 2 2-hr Lab) Continuation of design project initiated in ME 481. Extension of conceptual design to final design and a prototype. Analysis, materials and part selection, synthesis of working systems. Computer-aided design and finite element modeling. Manufacturing specifications, shop drawings, and a final report are required. A-F only. Pre: 481.

**ME 491 Special Topics in Mechanical Engineering (3)** Specialized topics in thermosciences, mechanics, materials, systems, or design. Pre: consent.

**ME 492 Special Topics in Mechanical Engineering (3)** Specialized topics in thermosciences, mechanics, materials, systems, or design. Pre: consent.

**ME 499 Project (V)** Investigation of advanced problems in mechanical engineering design or development. Student must find faculty sponsor before registering. Pre: senior standing.

**ME 500 Master's Plan B/C Studies (1)**

**ME 610 Renewable Energy Engineering and Sustainability (3)** Analysis of principles of operation of renewable energy systems, and its interactions with sustainability. Fundamentals of renewable energy production, storage, and distribution. Pre: consent.

**ME 611 Advanced Thermodynamics (3)** Introduction to general principles of classical thermodynamics. Main topics include equilibrium conditions, thermodynamic relations, Legendre transformations, Maxwell relations, stability of thermodynamic systems, phase transitions, and critical phenomena. Graduate students only. A-F only. Pre: 311 or consent.

**ME 615 Advanced Aerodynamics (3)** Advanced topics in aerodynamics, two- and three-dimensional wing theory, slender-body theory, lifting surface methods, vortex and wave drag, analytical and

numerical methods, for computing unsteady aerodynamic behavior and introduction to flight-dynamics. A-F only. Pre: 322 and 626, or consent. (Once a year)

**ME 618 Boiling and Two-Phase Flow (3)** Two-phase flow pattern and flow pattern maps; two-phase flow models (homogeneous, separate, drift flux, annular); laminar and turbulent film condensations; boiling incipience; pool boiling heat transfer; flow boiling heat transfer; critical heat flux (CHF). A-F only. Pre: 422 (or equivalent) or consent. (Spring only)

**ME 620 Biological Fluid Mechanics (3)** Review of Newtonian fluid mechanics. Blood rheology and flow in elastic tubes. Murray's Law and pulsatile flow propagation. Microcirculation dynamics and biological transport. Aquatic movement and comparative biological examples. Pre: 322 and 422, or consent. (Spring only)

**ME 622 Convection Heat Transfer (3)** Heat transfer in laminar and turbulent boundary layers. Analogy between heat, momentum, mass transfer. Pre: 422 and 626.

**ME 625 Numerical Methods in Fluid Mechanics and Heat Transfer (3)** Integration of ordinary differential equations. Finite difference solutions of partial differential equations with applications to conduction and convection. Introduction to finite element methods. Pre: 422, and either MATH 190 or EE 160.

**ME 626 Viscous Flows (3)** Formulation and properties of the Navier-Stokes equations; exact solutions; creeping flows; lubrication theory; laminar boundary layers; laminar stability, and transition to turbulence; turbulent boundary layers. Pre: 322. (Fall only)

**ME 630 Rheology (3)** Vector and tensor operations. Constitutive equations. Generalized Newtonian fluids and linear viscoelastic fluids. Rheometry and experiments. Flow of suspensions. Advanced topics and rheology of polymers, food products, biomaterials and asphalt, laboratories. Pre: 626 or consent. (Spring only)

**ME 635 Corrosion Theory (3)** Application of electrochemical theory and materials science to corrosion and oxidation reactions. Effect of environment, especially marine. Cathodic protection, coatings, inhibitors, treatment of water systems. Pre: 331.

**ME 636 Fundamentals of Electrochemistry (3)** Thermodynamics of cells, electrode kinetics, mass transfer by migration and diffusion, microelectrode techniques, forced convection, impedance, double-layer structure, and adsorbed intermediates in electrode processes. Pre: consent.

**ME 645 Clinically Driven Design and Development (3)** Exploration of simple, cost-effective alternatives in medicine through different stages of concept generation, design analysis, and prototype validation and investigation of their commercialization potential. Graduate students only. Pre: 342 or consent.

**ME 646 Mechanics and Design Composites (3)** Introduction to composites; anisotropic elasticity and laminate theory; hygrothermal effects; composite beams, columns, rods, plates, and shells; energy method; failure theories; joining of composites, computer-aided design in composites. Pre: 371 or consent.

**ME 647 Nanoscience and Nanotechnology (3)** Science and applications of nanotechnology. Synthesis of nanostructures; nanoscale structure characterization by electron microscopy and Raman spectroscopy; electrical, thermal, and mechanical properties of nanostructures; fabrication of nanodevices; energy, environmental, and biological applications of nanomaterials. A-F only.

**ME 650 Surface Phenomena (3)** Fundamental and modern concepts of colloid and surface science. Main topics include surface thermodynamics, capillarity and wetting phenomena, surface forces, surfactants, and particles. Pre: 311 or consent. (Fall only)

**ME 651 Automatic Control (3)** Linear optimal feedback control, discrete time optimal control, fundamentals of adaptive control, application to motion and force control of robot arms and manipulators. Pre: 451, EE 351; or consent.

**ME 660 Introduction to Fuel Cell Technology (3)** Working principles of all major fuel cell types; fundamentals of proton exchange membrane (PEM) fuel cells; state-of-the-art theoretical models and diagnostic technologies for PEM fuel cells. A-F only. Pre: 422 (or equivalent) or consent. (Spring only)

**ME 671 Continuum Mechanics (3)** Cartesian tensors in mechanics, coordinate transformations, analysis of stress and strain, principal values, invariants, equilibrium and compatibility equations, constitutive relations, field equations. Problems in elasticity. Recommended: 371 or CEE 370, or consent. (Cross-listed as CEE 671)

**ME 672 Finite Element Analysis (3)** Introduction to finite element analysis and design in mechanical engineering. Applications to machine design, vibrations, elasticity, heat transfer. Pre: 360, 371; or consent.

**ME 678 Advanced Dynamics (3)** Lecture on rigid-body dynamics. Topics include: dynamical systems; motion representation and constraints; Newtonian mechanics; Lagrangian mechanics; Hamilton's principle; stability analysis; introduction to multibody dynamics. Pre: 375 or equivalent, or consent.

**ME 680 High Growth Entrepreneurship (V)** An interdisciplinary (JD-MBA) course examining legal, business, and technology issues related to building high growth companies. Student teams develop company feasibility reports and skills necessary to advise or build high growth businesses. Recommended: 531. Law students only. (Once a year) (Cross-listed as LAW 560)

**ME 691 Seminar (1)** Current problems in all branches of mechanical engineering. All graduate students are required to attend; registrants are expected to present talks. Pre: graduate standing.

**ME 696 Advanced Topics in Mechanical Engineering (V)** Highly specialized topics in thermosciences, mechanics, materials, system, or design. Pre: consent.

**ME 699 Directed Reading or Research (V)** Directed study on subject of mutual interest to student and a staff member. Student must find faculty sponsor before registering. Repeatable unlimited times. Pre: graduate standing.

**ME 700 Thesis Research (V)** Thesis for degree of MS in mechanical engineering. Repeatable unlimited times. Pre: admission to candidacy and consent of thesis advisor.

**ME 799 Directed Instruction (V)** Student assists in undergraduate classroom and/or project instruction under the direction and close supervision of faculty member. CR/NC only. Pre: admission to PhD candidacy or consent.

**ME 800 Dissertation Research (V)** Research for doctoral dissertation. Repeatable unlimited times. Pre: candidacy for PhD in mechanical engineering.

## Medical Education (MDED)

### School of Medicine

**MDED 527 Evidence-Based Medicine (1)** Critical appraisal track designed to improve the student's ability to seek and evaluate new medical knowledge. MD majors only. CR/NC only. (Spring only)

**MDED 528 Unit 8 Block Electives (V)** Through lectures, self-assessments and independent study, second-year medical students will consolidate their knowledge of the application of the biological sciences to patient care. CR/NC only. Pre: 557.

**MDED 541 Clinical Skills Assessment (1)** Required comprehensive interdepartment multidisciplinary assessment program for fourth-year medical students. CR/NC only. Pre: FMCH, MED, OBGN, PED, PSTY, SURG 531 or 532.

**MDED 545 (Alpha) Senior Interdisciplinary Electives (V)** Fourth-year elective in which students study selected interdisciplinary topics. CR/NC only. (B) medical education elective; (C) complementary and alternative medicine; (D) leadership in underserved care. MED majors only for (D). CR/NC only for (D). Pre: FMCH, MED, OBGN, PED, PSTY, SURG 531 or 532. (Spring only for (D))

**MDED 551 MD 1 Health and Illness (5)** Introduction to concepts of health and disease through lectures, laboratories, and colloquia intended to broaden the learning from MD 1 health care problems in tutorials. MD majors only. CR/NC only. Pre: consent. Co-requisite: 551L. (Fall only)

**MDED 551L MD 1 Health and Illness Tutorials (3)** Introductory series of problem-based learning tutorials for first-year medical students focusing on concepts of health and disease through MD 1 health care problems. MD majors only. CR/NC only. Co-requisite: 551. (Fall only)

**MDED 552 MD 2 CV/Pulmonary (7)** Concepts focusing on cardiovascular and pulmonary systems through integrated basic science lectures, laboratories, and colloquia intended to broaden the learning from MD 2 health care problems in tutorials. CR/NC only. Pre: 551 and 551L. Co-requisite: 552L. (Fall only)

**MDED 552L MD 2 CV/Pulmonary Tutorials (4)** Advanced series of problem-based learning tutorials for first-year medical students focusing on cardiovascular and pulmonary health care problems. CR/NC only. Pre: 551 and 551L. Co-requisite: 552. (Fall only)

**MDED 553 MD 3 Renal/Hematology (7)** Concepts focusing on renal and hematologic systems through integrated basic science lectures, laboratories, and colloquia intended to broaden the learning from MD 3 health care problems in tutorials. CR/NC only. Pre: 552 and 552L. Co-requisites: 553L. (Spring only)

**MDED 553L MD 3 Renal/Hematology Tutorials (4)** Advanced series of problem-based learning tutorials for first-year medical students focusing on renal and hematologic health care problems. CR/NC only. Pre: 552 and 552L. Co-requisite: 553. (Spring only)

**MDED 554 MD 4 GI/Endocrine (7)** Concepts focusing on gastrointestinal and endocrine systems through integrated basic science lectures, laboratories, and colloquia intended to broaden the learning from MD 4 health care problems in tutorials. CR/NC only. Pre: 553 and 553L. Co-requisite: 554L. (Spring only)

**MDED 554L MD 4 GI/Endocrine Tutorials (4)** Advanced series of problem-based learning tutorials for first-year medical students focusing on gastrointestinal and endocrine health care problems. CR/NC only. Pre: 553 and 553L. Co-requisite: 554. (Spring only)

**MDED 556 MD 6 Locomotor System, Nervous System and Behavioral Problems (8)** Concepts focusing on the locomotor/neurological systems and behavioral problems through integrated basic science lectures, laboratories, and colloquia intended to broaden the learning from MD 6 health care problems in tutorials. CR/NC only. Pre: 554 and 554L. Co-requisite: 556L. (Fall only)

**MDED 556L MD 6 Locomotor System, Nervous System, and Behavioral Problems (6)** Advanced series of problem-based learning tutorials for second-year medical students focusing on neurological/locomotor systems and behavioral health care problems. CR/NC only. Pre: 554 and 554L. Co-requisite: 556. (Fall only)

**MDED 557 MD 7 The Life Cycle (7)** Concepts focusing on the life cycle through integrated basic science lectures, laboratories, and colloquia intended to broaden the learning from MD 7 health care problems in tutorials. CR/NC only. Pre: 556 and 556L. Co-requisite: 557L. (Spring only)

**MDED 557L MD 7 The Life Cycle Tutorials (4)** Advanced series of problem-based learning tutorials

for second-year medical students focusing on the life cycle health care problems. CR/NC only. Pre: 556 and 556L. Co-requisite: 557. (Spring only)

**MDED 563 Third Year Colloquia (2)** A series of lecture-discussions intended to broaden the perspectives of the Unit VI experiences and health-care problems. Repeatable one time. CR/NC only. Pre: 551 and 557.

**MDED 564 Senior Seminars (4)** Review of topics and issues that will prepare senior students for the end of their undergraduate training and the start of their internship. CR/NC only.

**MDED 571 Introduction to Clinical Skills (2)** Introductory lectures and laboratories on history taking and physical exam skills. Repeatable one time. MD majors only. CR/NC only. Pre: consent. Co-requisite: 551. (Fall only)

**MDED 572 Unit 2 Clinical Skills (2)** History and physical exam skills pertinent to the health care problems in Unit 2. MD majors only. CR/NC only. Pre: 571 or consent. (Fall only)

**MDED 573 Unit 3 Clinical Skills (2)** History and physical exam skills pertinent to the health care problems in Unit 3. MD majors only. CR/NC only. Pre: 572 or consent. (Spring only)

**MDED 574 Unit 4 Clinical Skills (2)** History and physical exam skills pertinent to the health care problems in Unit 4. MD majors only. CR/NC only. Pre: 573 or consent. (Spring only)

**MDED 576 Unit 6 Clinical Skills (3)** History and physical exam skills pertinent to the health care problems in Unit 6. MD majors only. CR/NC only. Pre: 574 or consent. (Fall only)

**MDED 577 Unit 7 Clinical Skills (2)** History and physical exam skills pertinent to the health care problems in Unit 7. MD majors only. CR/NC only. Pre: 576 or consent. (Spring only)

**MDED 581 Unit 1 Community Health (2)** Field experience placing students in community settings to work with health care professionals as they provide services to patients. Repeatable two times. MD majors only. CR/NC only. Pre: consent. Co-requisites: 551 and 571. (Fall only)

**MDED 582 Unit 2 Community Health (2)** Field experience placing students in community settings to work with health care professionals as they provide services to patients. Repeatable two times. MD majors only. CR/NC only. Pre: 581 or consent. (Fall only)

**MDED 583 Unit 3 Community Health (2)** Field experience placing student in community settings to work with health care professionals as they provide services to patients. MD majors only. CR/NC only. Pre: 582 or consent. (Spring only)

**MDED 584 Unit 4 Community Health (2)** Field experience placing student in community settings to work with health care professionals as they provide services to patients. MD majors only. CR/NC only. Pre: 583 or consent. (Spring only)

**MDED 590 (Alpha) Preclinical Electives (V)** Elective for first and second year medical students. (B) projects in medical education; (C) healer's art; (D) introduction to student research; (E) health and wellness; (F) quality improvement. Repeatable one time. CR/NC only. Pre: 551.

**MDED 595 (Alpha) Topics in Medical Education (V)** Summer selectives in medical education for second-year medical students. (B) rural health preceptorship; (C) health issues of the Pacific Basin; (D) projects in medical education; (E) manikin simulations; (F) learning resources; (G) cardiovascular case maps; (H) pulmonary case maps; (I) clinical skills preceptors; (J) global health perspectives. Repeatable up to four credits. MD majors only. CR/NC only. Pre: 554. (Fall only)

**MDED 599 Research in Medical Education (V)** An elective for medical students to work on research projects related to improving medical education, student wellness, and community health under the

direction of a faculty member in the Office of Medical Education. Repeatable nine times.

## Medical History (MDHX)

### School of Medicine

**MDHX 699 Directed Research (V)** Repeatable unlimited times.

## Medical Technology (MEDT)

### School of Medicine

**MEDT 151 Introduction to Medical Technology (2)** Designed to acquaint students to the field of medical technology (clinical laboratory science). Repeatable one time.

**MEDT 301 The Clinical Laboratory (3)** (2 Lec, 1 3-hr Lab) Theory and clinical application of medical laboratory methods and healthcare professional relationships. MEDT majors only. Repeatable one time. Pre: consent.

**MEDT 331 Clinical Lab Management (3)** Student will become familiar with fundamental administration of a clinical laboratory to include technical, personnel, and financial management areas. Repeatable one time. CR/NC only. Pre: consent.

**MEDT 431 Clinical Parasitology (2)** (1 Lec, 1 3-hr Lab) Modern diagnostic practices in parasitology. Repeatable one time. Pre: MICR 351 or consent.

**MEDT 451 Hematology (1)** (1 3-hr Lab) Fundamental study of blood in normal and pathological states: formation, development, and classification of blood cells. MEDT majors only. Pre: major or consent.

**MEDT 451L Hematology Lab (2)** (1 Lec, 1 3-hr Lab) Laboratory to accompany MEDT 451. MEDT majors only. Pre: major or consent. Co-requisite: 451.

**MEDT 463 Clinical Microbiology II (3)** (1 Lec, 2 3-hr Lab) Modern practices in diagnostic microbiology. Repeatable one time. MEDT majors only. A-F only. Pre: 431 or consent.

**MEDT 464 Immunohematology (3)** (2 Lec, 1 3-hr Lab) Antigen-antibody relationships in human blood, study of blood groups, clinical problems in transfusion. Repeatable one time. MEDT majors only. Pre: MICR 461 or consent. (Spring only)

**MEDT 471 Clinical Biochemistry I (4)** Biochemical processes in human health and disease states. Repeatable one time. MEDT majors only. Pre: CHEM 273 or consent. (Spring only) DB

**MEDT 472 Clinical Biochemistry II (4)** Continuation of 471. Repeatable one time. MEDT majors only. Pre: 471 or consent. (Once a year)

**MEDT 477 Clinical Lab Methods and Analyses I (3)** (1 6-hr Lab) Lab experiments illustrating fundamental principles and methods of clinical laboratory analyses. Repeatable one time. MEDT majors only. Pre: 471.

**MEDT 478 Clinical Lab Methods and Analyses II (3)** (2 Lec, 1 3-hr Lab) Continuation of 477. Pre: 477.

**MEDT 481 Professional Issues in Medical Lab Science (1)** Discussions about various professional issues through oral presentations and critiquing of peer presentations. Repeatable one time. MEDT majors only. Pre: 451L.

**MEDT 495 Special Topics in Medical Technology (V)** Acquaints student with role of the medical technologist and overlap of major sciences in clinical situations to help student develop qualities unique to med technology. Repeatable one time. CR/NC only. Pre: consent.

**MEDT 499 Directed Reading and Research (V)** Repeatable one time.

**MEDT 531 Advanced Lab Management Concepts and Contemporary Issues (1)** Concepts in clinical laboratory management and discussion of contemporary issues for graduates and practicing clinical laboratory scientists. Repeatable one time. Pre: 331 or consent. (Summer session only)

**MEDT 551 Advanced Clinical Laboratory Hematology and Hemostasis (1)** Advanced-level study of hematology and hemostasis through clinical laboratory cases. Repeatable one time. Pre: 451 or consent. (Summer only)

**MEDT 591 Clinical Training in Medical Technology (28)** Application of theory and simulated laboratory experiences in immuno-hematology, clinical chemistry, microbiology, parasitology, hematology, coagulation, urinalysis, immunology, to meet stated career entry-level competencies. Repeatable one time. Pre: BS in MEDT.

**MEDT 690 Seminar in Medical Technology (1)** Analysis of research and recent literature pertaining to various aspects of medical technology. Repeatable one time. Pre: consent.

## Medicine (MED)

### School of Medicine

**MED 531 Internal Medicine Clerkship (16)** Required for third-year medical students, 11-week duration. Ambulatory care and hospital-based experience. Pre: third-year medical student standing.

**MED 532 Internal Medicine Longitudinal Clerkship (8)** Six-month long clerkship in ambulatory setting, and six-week hospital-based experience. Repeatable one time. Pre: third-year standing and concurrent registration in 532 courses.

**MED 541 Advanced Medicine Clerkship (6)** Required 4 weeks duration for fourth-year medical students. Advanced experiences in ambulatory and hospital-based medical care. Proficiency in this course may be established by examination. CR/NC only. Pre: fourth-year standing and completion of 531, or consent.

**MED 545 (Alpha) Electives in Medicine (V)** Fourth-year electives in which students study selected topics within field of medicine. (B) allergy/immunology; (C) cardiology; (D) medicine elective in Asia; (E) dermatology; (F) endocrinology; (G) gastroenterology; (H) general internal medicine: ambulatory care; (I) general internal medicine: inpatient; (K) hematology; (M) nephrology; (N) neurology; (O) nuclear medicine; (P) oncology; (Q) pulmonary diseases; (R) research in medicine; (S) rehabilitation medicine; (T) rheumatology; (W) internal medicine sub-internship. Pre: 531 or 532 for (C), (E), (F), (G), (H), (K), (M), (N), (O), (Q), (R), (S), and (T); 541 for (D) and (W).

**MED 546 (Alpha) Electives in Medicine (V)** Fourth-year electives in which students study selected topics within field of medicine. (B) extramural electives in medicine (miscellaneous); (C) internal medicine seminar; (D) infectious disease; (E) internal medicine sub-internship; (F) research in bioethics; (G) neurology critical care; (H) medical informatics. Repeatable one time for (B)–(E); not repeatable for (F); repeatable two times for (H); repeatable three times for (G). CR/NC only. Pre: 531 or 532 for (B) and (C); 541 for (E) and (H).

**MED 599 Directed Research (V)** Pre: consent.

## Meteorology (MET)

### School of Ocean and Earth Science and Technology

**MET 101 Introduction to Meteorology (3)** For nonscience majors and prospective science teachers. Basic atmospheric physics, sun-Earth-atmosphere interrelationships, pollution, major weather systems, weather forecasting, weather of Hawai'i. DP

**MET 101L Introduction to Meteorology Lab (1)** (1 3-hr Lab) Exercises with meteorological data and measurement systems. Characteristics of Hawaiian winds, temperatures, and rainfall. Pre: 101 (or concurrent) or 200 (or concurrent). DY

**MET 199 Introduction to MET Undergraduate Directed Research (V)** Students gain familiarity with MET research. Students can select 1–3 credits per semester for maximum 6 credits over 4 semesters. Students must pre-arrange research and reading content with instructor. Repeatable up to six credits.

Freshman and sophomore standing only. CR/NC only. Pre: instructor approval.

**MET 200 Atmospheric Processes and Phenomena (3)** Atmospheric variables, gas laws, radiation processes, thermodynamics, conservation laws, dynamic approximations, clouds and precipitation, convection, atmospheric circulations, mid-latitude and tropical weather systems, forecasting, climate. Pre: PHYS 170 and MATH 241. DP

**MET 302 Atmospheric Physics (3)** Energy and thermodynamics, statics and stability, physical processes of cloud formation, radiation and Earth-atmosphere heat balance, kinetic theory, optical effects. Pre: MATH 242, PHYS 272, and MET 200; or consent. DP

**MET 303 Introduction to Atmospheric Dynamics (3)** Scalar and vector development of basic laws of hydrodynamics, equations of motion, kinematics, divergence and vorticity, viscosity and turbulence, introduction to numerical weather prediction, general circulation. Pre: 302 and MATH 244. DP

**MET 305 Meteorological Instruments and Observations (3)** (2 Lec, 1 3-hr Lab) First- and second-order measurement systems. Response of wind, temperature, and recording instruments. Discussion of advance system including radar. Planning of field programs. Pre: 302 and PHYS 272/272L. DP

**MET 310 Global Environmental Change (3)** Global environmental change problems such as carbon dioxide and the greenhouse effect, acid rain, chlorofluorocarbons and the ozone layer, global deforestation and the effect on climate, etc. Pre: 200, OCN 201, GG 101, GG 103, or GG 170; or consent. (Cross-listed as OCN 310) DP

**MET 320 Programming for Meteorologists (3)** Scientific programming in Fortran 77, graphics software and meteorological applications. A-F or Audit. Pre: 302 (or concurrent) and MATH 241; or consent.

**MET 395 Undergraduate Internship (V)** Experiential approach to earth science; students serve as interns to field professionals; responsibilities include supervised field work. Open to undergraduate SOEST majors. Repeatable one time. CR/NC only. Pre: junior/senior standing and consent. (Fall only)

**MET 402 Applied Atmospheric Dynamics (3)** Advanced concepts in dynamics: vorticity, cyclogenesis, jet streams, fronts, mesoscale circulations. Pre: 303. DP

**MET 405 Satellite Meteorology (3)** (2 Lec, 1 3-hr Lab) Orbital elements, ephemerides, viewing geometry; radiation, satellite sensors; interpreting satellite data; applications to synoptic meteorology and forecasting. Pre: 302. DP

**MET 406 Tropical Meteorology (3)** History; tropical clouds and hydrometeors; typhoons; monsoons; local and diurnal effects. Pre: 303. DP

**MET 412 Meteorological Analysis Lab (3)** (2 3-hr Lab) Techniques of portraying and analyzing atmospheric structure and weather systems in middle and high latitudes; modern methods of forecasting extratropical systems. Pre: 303 or concurrent. (Alt. years)

**MET 416 Tropical Analysis Lab (3)** (2 3-hr Lab) Techniques of portraying and analyzing atmospheric structure and weather systems in tropical and equatorial regions; forecasting tropical systems. Pre: 303 or concurrent.

**MET 495 Undergraduate Thesis (3)** Capstone for senior Meteorology majors. Undergraduate thesis project includes literature review, experiment or research design, data collection and analysis, technical writing of a final thesis paper and oral presentation of the paper. Senior standing only. A-F only. Pre: 302, 303 (or concurrent).

**MET 600 Atmospheric Dynamics I (3)** Governing equations for moist atmospheric motions, approximations, basic theoretical models, boundary layer dynamics, atmospheric waves, quasi-geostrophic

theory for mid-latitudes. Pre: 402, and either MATH 402 or MATH 405; or consent.

**MET 601 Atmospheric Dynamics II (3)** Overview of dynamic meteorology, numerical weather prediction, geophysical fluid instabilities, approximate dynamical systems, atmospheric general circulation, stratospheric dynamics. Pre: 600 or consent. (Alt. years)

**MET 606 Cumulus Dynamics (3)** Dynamics of convective systems: tornadoes, waterspouts, squall lines. Interactions with synoptic scale. Pre: 620 or consent. (Alt. years)

**MET 607 Mesoscale Meteorology (3)** Scale analysis. Observational and theoretical aspects of mesoscale circulation systems. Pre: 600 or consent. (Alt. years)

**MET 610 Tropical Climate and Weather (3)** Climate and general circulation of the tropics; El Niño and Southern Oscillation; intraseasonal oscillation; trade winds; tropical weather systems; energy balance; typhoons. Pre: 303 or consent.

**MET 614 Tropical Cyclones (3)** Lecture covering fundamentals of tropical cyclone structure, motion, and impacts on society. Observations from satellites, aircraft, ships and buoys, and numerical simulations focusing on storm structure and track. Some forecasting exercises. Repeatable one time. Pre: 600 and 610, or consent. (Alt. years)

**MET 616 Monsoon Meteorology (3)** Synoptic components of monsoons, regional and temporal variability, numerical models, research exercises. Pre: 610 or consent. (Alt. years)

**MET 620 Physical Meteorology (3)** Molecular kinetics, atmospheric thermodynamics, cloud physics, precipitation processes, atmospheric electricity, scattering and absorption of solar radiation, absorption and emission of infrared radiation, radiative transfer. Pre: 302 or consent.

**MET 628 Radar Meteorology (3)** (2 lec, 1 3-hr lab) Radar hardware, electromagnetic propagation and scattering, radar equation, signal processing, precipitation estimation and polarimetric applications, Multi-Doppler wind synthesis, mobile and spaceborne radars, forecasting, and data assimilation applications. A-F only. Pre: 620 (with a minimum grade of B- or higher) or consent. (Alt. years)

**MET 631 Statistical Meteorology (3)** Probability; frequency distributions of atmospheric variables; linear models; time series analysis (frequency and time domain); principal component analysis; statistical weather forecasting and verification. Pre: MATH 371. (Alt. years)

**MET 632 Advanced Statistical Methods in the Geosciences (3)** Methods for numerous multivariate analyses will include singular spectrum, extended empirical orthogonal function, singular-value decomposition, canonical correlation, discriminant and cluster analysis. Other advanced topics include wavelet analysis, statistical downscaling and Bayesian analysis. A-F only and audit. Pre: 631 or consent. (Every 3rd year)

**MET 665 Small-Scale Air-Sea Interaction (3)** Observations and theory of small-scale processes which couple the atmosphere and ocean boundary layers, including introduction to turbulence theory and parameterization of turbulent fluxes. Pre: MATH 402 and 403 (or their equivalents) and either 600 or OCN 620; or consent. (Alt. years) (Cross-listed as OCN 665)

**MET 666 Large-Scale Ocean-Atmosphere Interactions (3)** Lecture/seminar introduces physical oceanography and meteorology students to the state-of-the-art theories and observations of large-scale ocean-atmosphere interaction, as well as conveying the fundamental understanding that has been developed during the past 30 years. Emphasis will be on phenomena such as El Niño/Southern Oscillation, the North Atlantic Oscillation, the Pacific Decadal Oscillation, and global climate change. Repeatable one time. Pre: 600 or OCN 620, or consent. (Alt. years) (Cross-listed as OCN 666)

**MET 699 Directed Research (V)** Repeatable unlimited times. Pre: consent.

**MET 700 Thesis Research (V)** Repeatable unlimited times.

**MET 702 Numerical Weather Prediction (3)** (2 Lec, 1 3-hr Lab) Fundamental methods and techniques in numerical weather prediction: time differencing, spatial finite differencing, spectral methods, numerical stability, explicit and implicit methods. Modern operational and research forecast models. Hands-on laboratory includes simple to complex dynamic models, with a term project. Repeatable one time. Pre: 600 or OCN 620; MATH 407 or 408; or consent. (Alt. years)

**MET 704 Climate and Climate Variability (3)** Physical basis of climate, numerical climate models, paleoclimatic indicators, modern instrumental climate records, assessment of human impact on climate, predictions of future climate. Repeatable one time. Pre: 600 or OCN 620, or consent. (Alt. years)

**MET 706 Tropical Climate Dynamics and Modeling (3)** Overview of current progress in tropical climate dynamics with a particular focus on large-scale atmosphere-ocean interactions; introduction of basic numerical techniques for students to construct and run immediate tropical atmosphere and ocean models. Pre: 600.

**MET 708 General Circulation of the Atmosphere (3)** Theory, observations, large-scale analyses, and global model simulations that describe characteristic large-scale circulation of the Earth's atmosphere. Includes zonally averaged climatology, asymmetric features of the general circulation, and El Niño-Southern Oscillation phenomenon. Repeatable one time. Pre: 600 or consent. (Alt. years)

**MET 752 Special Topics in Meteorology (3)** Concentrated studies on selected atmospheric problems. Repeatable two times. Pre: 600 or consent.

**MET 765 Seminar in Meteorology (1)** Participation in departmental seminars and presentation of a seminar on research results. Includes written critiques of departmental seminars. Repeatable three times. Pre: consent.

**MET 800 Dissertation Research (V)** Repeatable unlimited times.

## Microbiology (MICR)

*College of Natural Sciences*

**MICR 130 General Microbiology (3)** Role of microorganisms; how they affect people, property, and the environment. A basic survey course covering broad aspects of biochemistry, genetics, molecular biology, and physiology; host-parasite relationships, public health, bacterial, mycotic and viral diseases; epidemiology; ecology of soils and water; environmental pollution; food microbiology; industrial applications at an introductory level. Not open to those with credit in 351 or equivalent. **DB**

**MICR 140L Microbiology Laboratory (2)** (2 2-hr Lab) Primarily for students in nursing and dental hygiene. Pre: 130 (or concurrent). **DY**

**MICR 314 Research Ethics (1)** Introduction to the ethical issues faced by individuals and institutions involved in scientific research. Based on case studies, students will discuss and write about ethical issues in research. Issues include humans and animals in research, mentoring, authorship, ownership of data, genetic technologies and record keeping. This course is designed for students with majors in the natural sciences. A-F only. Pre: BIOL 172 (or concurrent), or MATH 321 (or concurrent), or PHYS 170 (or concurrent), or CHEM 272 (or concurrent); or consent. (Cross-listed as MCB 314) **DS**

**MICR 351 Biology of Microorganisms (3)** Anatomy, chemistry, physiology, genetics, development, and environmental interactions of microorganisms. Pre: BIOL 171 or equivalent, CHEM 272/272L; or consent. Co-requisite: 351L. Recommended: BIOL 275/275L. **DB**

**MICR 351L Biology of Microorganisms Lab (2)** (2 3-hr Lab) Laboratory exercises to accompany 351. Pre: CHEM 272/272L, and BIOL 171, or equivalent. Co-requisite: 351. **DY**

**MICR 361 Introductory Bioinformatics (4)** (3 Lec, 1 3-hr Lab) Introductory bioinformatics will provide a basic foundation of biological information (DNA, protein, genome and proteome) by using information technology (IT). A-F only. Pre: BIOL 275 and BIOL 275L, or consent. (Fall only)

**MICR 401 Marine Microbiology (3)** Evolution, ecology, biochemistry, genetics and physiology of marine bacteria by examining defined systems and organisms. Pre: BIOL 265/265L and BIOL 275/275L and BIOL 301 (or concurrent)/301L (or concurrent), and OCN 201; or 351/351L; or consent. **DB**

**MICR 401L Marine Microbiology Laboratory (1)** (1 3-hr Lab) Laboratory to accompany 401. Pre: BIOL 265/265L and BIOL 275/275L and BIOL 301 (or concurrent)/301L (or concurrent) and OCN 201; or 351/351L; and 401 (or concurrent); or consent. **DY**

**MICR 410 Advanced Topics in Microbiology (2)** Capstone for (but not limited to) senior microbiology majors. Current and seminal research in microbiology, critical analysis of the methods and logic of experimental design. Lecture and discussion of primary literature. A-F only. Pre: 351 and three other 400-level courses (or concurrent), or consent. (Once a year)

**MICR 431 Microbial Physiology (3)** Fundamental physiological and metabolic processes of bacteria; emphasis on growth, functions of cell structures, varieties of energy metabolism, metabolic regulation, and differentiation at the prokaryote level. Pre: 351. **DB**

**MICR 431L Microbial Physiology Lab (2)** (2 3-hr Lab) Components and metabolism of the bacterial cell; emphasis on techniques of analysis of metabolism and molecular structure. Co-requisite: 431. **DY**

**MICR 461 Immunology (3)** Structure and biological actions of antigens and antibodies; fundamentals of antibody synthesis; the relation of immunology to biology and medical sciences. Pre: 351 or BIOL 172; or consent. Recommended: BIOL 275/275L. (Cross-listed as MCB 461) **DB**

**MICR 461L Immunology Lab (2)** (2 3-hr Lab) Basic exercises and experiments in immunology, immunochemistry, immuno-biology to illustrate principles of 461. Co-requisite: 461 or consent. (Cross-listed as MCB 461L) **DY**

**MICR 463 Microbiology of Pathogens (3)** Host-parasite relationships in microbial diseases of humans and animals with emphasis on bacterial pathogens. Pre: 351 and 461; or consent. Co-requisite: 463L or consent. **DB**

**MICR 463L Microbiology of Pathogens Lab (2)** (2 3-hr Lab) Characterization of bacterial pathogens. Isolation, identification, and diagnosis. Co-requisite: 463 or consent. **DY**

**MICR 470 Microbial Pathogenesis (3)** Fundamental mechanisms of infectious diseases at the molecular level. Emphasis on the role of genetics in host-pathogen interactions. Pre: 351/351L or consent. **DB**

**MICR 475 Bacterial Genetics (3)** Genetic analysis and molecular basis of transmission replication, mutation, and expression of heritable characteristics in prokaryotes. Pre: 351 or BIOL 275, or consent. (Cross-listed as MCB 475) **DB**

**MICR 475L Bacterial Genetics Lab (2)** (2 3-hr Lab) Techniques for study of transfer and expression of prokaryotic genes: transformation, conjugation, transposon mutagenesis, preparation and analysis of plasmid and chromosomal DNA. Pre: 475 (or concurrent). (Cross-listed as MCB 475L) **DY**

**MICR 485 Microbes and Their Environment (3)** Distribution, diversity, and roles of microorganisms in terrestrial, freshwater, and marine ecosystems.

Importance of bacteria in pesticide degradation, bioremediation of oil spills, sewage treatment, biocontrol, food fermentation. Pre: BIOL 172 and CHEM 272, or consent. **DB**

**MICR 485L Microbes and Their Environment Lab (2)** (2 3-hr Lab) Techniques for study of interaction of microorganisms with and within their natural habitats; symbiosis between microorganisms and plants and animals; role of microorganisms in element cycling; food fermentation by bacteria. Pre: 485 (or concurrent) or consent. **DY**

**MICR 490 Virology (3)** Basic principles of virus biology. Topics include methods for virus study, virus structure, replication, gene expression, pathogenesis and host response. Pre: 351 or BIOL 275, or consent. **DB**

**MICR 490L Virology Lab (2)** (2 3-hr Lab) General laboratory techniques and related theories in virology; including isolation, cell culture, assay, purification, and identification of viruses. Pre: 351/351L or BIOL 275/275L and 490 (or concurrent); or consent. **DY**

**MICR 499 Microbiological Problems (V)** Directed reading and research. Limited to senior majors with a minimum cumulative GPA of 2.7 or a minimum GPA of 3.0 in microbiology, or consent.

**MICR 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**MICR 601 Molecular Cell Biology (3)** Provide fundamental concepts and dynamic characteristics of the molecules of the prokaryotic and eukaryotic cell, their biosynthesis and regulation, and the mechanisms that regulate cellular activities. A-F only. Pre: basic course in cell and molecular biology, or consent. (Fall only) (Cross-listed as MBBE 601)

**MICR 614 Research Ethics (1)** Introduction to ethical issues faced by individuals and institutions involved in scientific research. Moral reasoning, humans and animals in research, mentoring, authorship, ownership of data and genetic technologies. MICR graduates only. A-F only. Pre: graduate standing in MICR or related field, or consent. (Once a year)

**MICR 625 Advanced Immunology (3)** Detailed reports and discussions on selected advanced topics and current research literature. Pre: 461 or consent. (Alt. years: spring)

**MICR 630 Microbial Genome (3)** Advanced studies of Microbial genome: relation to functional genomics, structural genomics, and proteomics. A-F only. Pre: 351 and one 400-level MICR course, or consent. (Alt. years)

**MICR 632 Advanced Microbial Physiology (3)** Selected topics. Pre: 431 or consent. (Alt. years: spring)

**MICR 646 Plant-Bacterial Interactions (3)** Diagnosis, molecular biology, genetics, and infection mechanisms of bacterial plant pathogens and symbionts. Pre: one of 351, 475, or BIOC 481; or consent. (Cross-listed as PEPS 646)

**MICR 652 Advanced Marine Microbiology (3)** Advanced studies of marine microorganisms in diverse habitats with consideration of applications of marine microbes, interactions with higher organisms, phylogeny and diversity, and past and current methods. A-F only. Pre: 351 and 401, or consent. (Alt. years)

**MICR 655 Advanced Virology (3)** Detailed reports and discussions on selected advanced topics and current research literature. Pre: 463, 490, BIOC 441; or consent. (Alt. years: fall)

**MICR 671 Bacterial Genetics (3)** Directed study and discussion of research literature on bacterial and bacterial virus mutation, genetic recombination, evolution and control mechanisms. Pre: graduate standing; undergraduates that have taken 475 may register with consent. (Alt. years: spring)

**MICR 680 Advances in Microbial Ecology (3)** Highlights in microbial ecology; interaction of mi-

croorganisms with abiotic and biotic components of their environments. Modern techniques for study of autecology and synecology of microorganisms. Pre: 485 or consent. (Alt. years: spring)

**MICR 681 Host-Parasite Relationships (3)** Mechanisms of pathogenicity of microorganisms and defense mechanisms of human and animal hosts. Review of contemporary literature. Pre: 463 or consent. (Alt. years: fall)

**MICR 685 Molecular and Cellular Bacterial Pathogenesis (3)** Detailed examination of the molecular and cellular mechanisms of bacterial pathogenesis. Overview of key literature, synthesis of scientific problems into research proposals. Pre: 431, 463, or 470; or consent. (Alt. years: spring)

**MICR 690 Seminar (1)** Required of graduate students. Repeatable unlimited times; only one credit will count toward the degree.

**MICR 695 Research Literature Review (1)** Review of primary literature in a selected area of microbiology. Repeatable ten times; three credit limit. A-F only. Pre: graduate status or consent.

**MICR 699 Directed Research (V)** Selected problems in microbiology. Repeatable unlimited times. Pre: consent.

**MICR 700 Thesis Research (V)** Repeatable unlimited times.

**MICR 795 Special Topics in Microbiology (V)** Selected topics in any aspect of microbiology. Repeatable unlimited times.

**MICR 800 Dissertation Research (V)** Repeatable unlimited times.

## Military Science and Leadership (MSL)

### ROTC Programs

*A weekly two-hour leadership laboratory is required for courses numbered 200 and above. This laboratory is optional for the 100-level courses. The laboratory includes practical application of leadership skills, land navigation, basic tactical skills, and physical fitness training.*

**MSL 100 Introduction to Physical Fitness (1)** Hands-on participatory course following the Army's physical fitness program. Classes conducted three days per week with Army ROTC cadets. Focus is on aerobic conditioning, muscular strength and endurance. Repeatable three times.

**MSL 101 Introduction to Military Science I (2)** Introduces cadets to personal challenges and competencies critical for effective leadership; personal development of life skills such as goal setting, time management, physical fitness, and stress management related to leadership, officership, and the Army profession. Focus on developing basic knowledge and comprehension of Army Leadership Dimensions while understanding the ROTC program, its purpose in the Army, and its advantages for the student.

**MSL 101L Introduction to Military Science I Lab (1)** Practical application in adventure training, one-rope bridges, rifle marksmanship, land navigation, drill and ceremonies, physical training. Co-requisite: 101.

**MSL 102 Introduction to Military Science II (2)** Overviews leadership fundamentals such as setting direction, problem-solving, listening, presenting briefs, providing feedback and using effective writing skills. Explores leadership values, attributes, skills, and actions in the context of practical, hands-on, and interactive exercises. Cadre role models and building stronger relationships among cadets through common experience and practical interaction are critical.

**MSL 102L Introduction to Military Science II Lab (1)** Practical application in adventure training, one-rope bridges, rifle marksmanship, land navigation, drill and ceremonies, physical training. Co-requisite: 102.

**MSL 201 Intermediate Military Science I (3)** Explores creative and innovative tactical leadership strategies and styles through historical case studies

and engaging in interactive student exercises. Cadets practice aspects of personal motivation and team building by planning, executing, and assessing team exercises. Focus is on continued development of leadership values and attributes through understanding of rank, uniform, customs and courtesies.

**MSL 202 Intermediate Military Science II (3)** Challenges of leading complex, contemporary operational environments. Dimensions of cross-cultural challenges of leadership in a constantly changing world are highlighted and applied to practical Army leadership tasks and situations. Cadets develop greater self awareness as they practice communication and team building skills, and tactics in real world scenarios. Provides a smooth transition to MSL 301.

**MSL 203 ROTC Basic Camp (6)** Four-week summer course conducted at Ft. Knox, Kentucky. Substitutes for ROTC basic course (101, 102, 201, and 202) and fulfills course requirement for admission to ROTC advanced courses. Credit will be given for 203 or basic courses, but not both. Pre: consent.

**MSL 301 Leading Small Organizations I (4)** (2.5 Lec, 1.5-hr Lab) Challenges cadets to study, practice, and evaluate adaptive leadership skills with demands of the ROTC Leader Development Assessment Course (LDAC). Challenging scenarios related to small unit tactical operations will develop self-awareness and critical thinking skills. Cadets will receive systematic, specific feedback on their leadership abilities, and analyze/evaluate their leadership values, attributes, skills and actions. Pre: 101, 102, 201, 202; or consent.

**MSL 302 Leading Small Organizations II (4)** (2.5 Lec, 1.5-hr Lab) Intense situational leadership challenges to build cadet awareness and skills in leading small units. Decisionmaking, persuading, and motivating team members under fire are explored, evaluated, and developed. Military operations are reviewed to prepare for the ROTC LDAC. Cadets apply principles of Law of Land Warfare, Army training, and motivation to troop leading procedures; and are evaluated on what they *know* and *do* as leaders. Pre: 101, 102, 201, 202; or consent.

**MSL 303 ROTC Advanced Camp (6)** Six-week summer field training exercise conducted at Fort Lewis, Washington. Arduous and intensified leadership training is conducted throughout the six-week period. Required for U.S. Army commissioning. Pre: 301, 302, and consent.

**MSL 391 History of Military Warfare (3)** Lecture/discussion on the art and science of warfare with concentration on U.S. military history from the Colonial Period onward. Generally restricted to Army ROTC students, with few exceptions to non-ROTC students. A-F only. Pre: consent.

**MSL 399 Directed Reading and Research (V)** Limited to military science students who have had at least one previous military science course for which a grade of B or higher was earned and a cumulative GPA of 2.0 or better. Pre: consent.

**MSL 401 Leadership Challenges and Goal Setting (4)** (2.5 Lec, 1.5-hr Lab) Develops proficiency to plan, execute, and assess complex operations; function as a staff member, provide leadership performance feedback to subordinates. Situational opportunities to assess risk, make ethical decisions, and provide coaching to fellow ROTC cadets; challenged to analyze, evaluate, and instruct younger cadets. Pre: 101, 102, 201, 202, 301, and 302; or consent.

**MSL 402 Transition to Lieutenant (4)** (2.5 Lec, 1.5-hr Lab) Explores dynamics of leading in complex situations of current military operations. Examines differences in customs and courtesies, military law, principles of war, and rules of engagement in the face of international terrorism. Interaction with non-government organizations, civilians on the battlefield, and host nation support are examined and evaluated. Case studies, scenarios, and What Now, Lieutenant? exercises prepare cadets to lead as commissioned officers in the U.S. Army. Pre: 101, 102, 201, 202, 301, 302, and 401; or consent.

**MSL 499 Advanced Military Research (V)** Directs the student to conduct detailed research on a military topic and present to the department leadership plus assist MSL 400 series students on a battle analysis. Repeatable up to eight credits. Must be in Military Science and Leadership Program or Military Service member in junior or greater standing. Pre: departmental approval.

## Molecular Biosciences and Bioengineering (MBBE)

### College of Tropical Agriculture and Human Resources

**MBBE 304 Biotechnology: Science and Ethical Issues (3)** Introduction to the concepts, goals, ethical issues and consequences of biotechnology using real-life case studies of cloning, DNA fingerprinting, gene therapy and genetical engineering. Pre: BIOL 171 or consent. (Cross-listed as BIOL 304)

**MBBE 375 Essential Biochemistry (3)** Introduction to basic concepts of cellular biochemistry and metabolic pathways as applied to nutritional, medicinal and environmental biochemistry. A-F only. Pre: CHEM 152 or CHEM 272 or BIOC 341, or consent.

**MBBE 401 Molecular Biotechnology (3)** General principles, applications, and recent advances of the rapidly growing science of biotechnology. Topics include impact of biotechnology on medicine, animal sciences, environment, agriculture, forensics, and economic and socio-ethical issues. Pre: C (not C-) or better in BIOL 275 or consent. (Cross-listed as BIOL 401) **DB**

**MBBE 402 Principles of Biochemistry (4)** Molecular basis of living processes in bacteria, plants and animals; emphasis on metabolism of carbohydrates, lipids, proteins and nucleic acids. Pre: C (not C-) or better in BIOL 275/275L, CHEM 272 and CHEM 273; or consent. (Cross-listed as BIOL 402 and PEPS 402) **DB**

**MBBE 402L Principles of Biochemistry Lab (2)** (1 Lec, 1 3-hr Lab) Principle techniques of biochemical laboratory. A-F only. Pre: 402 (or concurrent), BIOL 402 (or concurrent). **DY**

**MBBE 405 Marine Functional Ecology and Biotechnology (3)** Marine functional genomics, biodiversity of marine natural habitats, marine microbial communities and their ecological functions, interactions of marine microbes and their host, climate change and marine biodiversity, marine biotechnology. A-F only. Pre: OCN 201 or MICR 130, or consent. (Spring only) (Cross-listed as OCN 403)

**MBBE 408 Molecular Cellular Biology II (3)** Cell structure and function. Structure, chemistry, and functions of organelles and macromolecules. Pre: C (not C-) or better in BIOL 407; or consent. (Cross-listed as BIOL 408) **DB**

**MBBE 412 Environmental Biochemistry (3)** Biochemical and chemical principles of occurrence, distribution, biotic and abiotic conversion, fate, and impact of synthetic and natural molecules in the environment. Important pollutants will be used as case studies to illustrate the principles. A-F only. Pre: CHEM 152 or CHEM 272, and CHEM 162 or CHEM 171; or consent. (Spring only) (Cross-listed as PEPS 412) **DB**

**MBBE 461 Biotechnology for Teachers (3)** Principles, methods, classical examples, recent development, benefits and concerns of modern biotechnology. Pre: BIOL 304 or equivalent.

**MBBE 480 Integrative Genomics and Biotechnology (3)** Integration of molecular genetics, virology, plant molecular biology, and bioinformatics. Gene silencing, functional genomics, and the development of expression systems for the production of heterologous proteins. A-F only. Pre: 401 and BIOL 275/275L; or consent. (Fall only) **DB**

**MBBE 480L Integrative Genomics and Biotechnology Lab (3)** Laboratory to accompany 480. A-F only. Pre: 401 and BIOL 275/275L; or consent. (Spring only) **DY**

**MBBE 483 Introduction to Bioinformatics**

**Topics for Biologists (3)** Focuses on the use of computational tools and approaches to analyze the enormous amount of biological data (DNA, RNA, protein) available today. A-F only. Pre: BIOL 171 (or equivalent), or consent. (Once a year) (Cross-listed as BIOL 483)

**MBBE 490 Lab Automation: Advanced Techniques in Plant Molecular Biology (3)** Combined lab lecture on semi-automated systems used to analyze and manipulate nucleic acids and proteins. A-F only. Pre: 401 and BIOL 275/275L, or consent. (Once a year)

**MBBE 491 Special Topics in MBBE (V)** Study and discussion of special topics and problems in molecular biosciences and bioengineering. Pre: consent.

**MBBE 499 Directed Research (V)** Supervised individual instruction in laboratory research problems in biochemistry, molecular and cellular biology, genomics, and genetics. Repeatable 3 times or up to 16 credits. Limited to qualified undergraduate students. A-F only.

**MBBE 601 Molecular Cell Biology (3)** Provide fundamental concepts and dynamic characteristics of the molecules of the prokaryotic and eukaryotic cell, their biosynthesis and regulation, and the mechanisms that regulate cellular activities. A-F only. Pre: basic course in cell and molecular biology, or consent. (Fall only) (Cross-listed as MICR 601)

**MBBE 607 Advanced Food Science I (3)** Advanced topics in chemical and physical characteristics of foods as well as their role in human nutrition. Repeatable one time. A-F only. Pre: graduate student status with undergraduate courses in organic chemistry, microbiology, additional biological science, physics, and biochemistry. Basic knowledge of food science is expected; or consent. (Cross-listed as FSHN 607)

**MBBE 610 Molecular Biosciences Seminar (1)** Study and discussion of significant topics and problems in plant physiology, biochemistry, and molecular biology. Repeatable three times. A-F only.

**MBBE 620 Plant Biochemistry (3)** Comprehensive study of chemical constituents and biochemical processes unique to the plant kingdom with emphasis on selected aspects of current interest. A-F only. Pre: 402 or consent.

**MBBE 621 Metabolic Engineering (4)** Principles and methodologies of metabolic engineering. Concepts of metabolic networks. Establishment of metabolic flux analysis and metabolic control analysis. Systems biology framework for integration of mathematical modeling and global measurements at metabolite, protein and transcription levels. Pre: BIOL 275, MATH 311, and MICR 351; or consent.

**MBBE 625 Biosensor Principles and Applications (3)** Elaboration of common biochemical interactions used to quantify biological molecules, and the electrical technologies used to detect them. Discussion of the desirable properties of biosensors, miniaturization and applications related to medicine, agriculture, bioproduction and environment. Pre: consent. (Cross-listed as BE 625)

**MBBE 650 DNA and Genetic Analysis (2)** Combined lecture-lab for students interested in genetic analysis of humans, animals, and other species. Molecular techniques, such as PCR, DNA marker identifications, transgenics, expression analysis and functional genomics, are included. Open to nonmajors. Pre: graduate standing or consent. (Cross-listed as ANSC 650 and FSHN 650)

**MBBE 651 Signal Transduction and Regulation of Gene Transcription (3)** Lecture/discussion on molecular mechanisms involved in the transmission of regulatory signals from the cell surface to the nucleus. A-F only. Pre: CMB 621, and CMB 654 or equivalent; or consent. (Fall only)

**MBBE 652 Molecular Plant Fungi Interactions (3)** Focuses on the actions of plant pathogens and the responses of compatible and incompatible host plants. Latest research on this topic will be evaluated

by discussing publications reporting pathogenesis mechanics. Graduate standing only. Pre: 405 or PEPS 405, or 480, or MICR 351. (Every 2 years) (Cross-listed as PEPS 652)

**MBBE 680 Methods in Plant Molecular Biology (3)** (1 Lec, 2 3-hr Lab) Advanced methodology and research strategies. Hands-on laboratory training in basic and current molecular procedures for plant research. Pre: one of BIOC 481 or BIOL 407.

**MBBE 683 Advanced Bioinformatics Topics for Biologists (4)** Teaches problem-solving with bioinformatic tools. Real-world problems will be provided and worked out, students encouraged to provide their own research problem where they require assistance. Graduate student must work on genomics research project requiring bioinformatic analysis, working knowledge of UNIX OS, Perl, Java or C. A-F only. Pre: ICS 471 and ICS 491 and ICS 691 (or equivalent), or consent. (Alt. years)

**MBBE 687 Advanced Lab Techniques (1)** (1 Lec, 2 3-hr Lab) Advanced laboratory techniques used in life science research. Pre: graduate standing or consent. (Cross-listed as ANSC 687 and FSHN 687)

**MBBE 691 Advanced Special Topics in MBBE (V)** Study and discussion of advanced special topics and problems in molecular biosciences and bioengineering. Pre: graduate standing or consent.

**MBBE 699 Directed Research (V)** Repeatable up to 64 credits.

**MBBE 700 Thesis Research (V)** CR/NC only.

**MBBE 800 Dissertation Research (V)** CR/NC only.

**Molecular and Cell Biology (MCB)**

*College of Natural Sciences*

**MCB 314 Research Ethics (1)** Introduction to the ethical issues faced by individuals and institutions involved in scientific research. Based on case studies, students will discuss and write about ethical issues in research. Issues include humans and animals in research, mentoring, authorship, ownership of data, genetic technologies and record keeping. This course is designed for students with majors in the natural sciences. A-F only. Pre: BIOL 172 (or concurrent), or MATH 321 (or concurrent), or PHYS 170 (or concurrent), or CHEM 272 (or concurrent); or consent. (Cross-listed as MICR 314) **DS**

**MCB 461 Immunology (3)** Structure and biological actions of antigens and antibodies; fundamentals of antibody synthesis; the relation of immunology to biology and medical sciences. Pre: MICR 351 or BIOL 172; or consent. Recommended: BIOL 275/275L. (Cross-listed as MICR 461) **DB**

**MCB 461L Immunology Lab (2)** (2 3-hr Lab) Basic exercises and experiments in immunology, immunochemistry, immuno-biology to illustrate principles of 461. Co-requisite: 461 or consent. (Cross-listed as MICR 461L) **DY**

**MCB 472 The Biology of Cancer (3)** Integrative, in-depth focus on the genetics, cell biology, and molecular basis of cancer. Combination of classroom lectures and problem-based discussions in small groups. Addresses ethical implications of cancer research and treatment. A-F only. MCB or BIOL majors only. Senior standing or higher. Pre: BIOL 407 (or concurrent) and BIOL 408 (or concurrent) or consent. (Spring only) (Cross-listed as BIOL 472)

**MCB 475 Bacterial Genetics (3)** Genetic analysis and molecular basis of transmission replication, mutation, and expression of heritable characteristics in prokaryotes. Pre: MICR 351 or BIOL 275, or consent. (Cross-listed as MICR 475) **DB**

**MCB 475L Bacterial Genetics Lab (2)** (2 3-hr Lab) Techniques for study of transfer and expression of prokaryotic genes: transformation, conjugation, transposon mutagenesis, preparation and analysis of plasmid and chromosomal DNA. Pre: 475 (or concurrent). (Cross-listed as MICR 475L) **DY**

**Music (MUS)**

*College of Arts and Humanities*

*Applied music courses appear at the end of this section.*

**MUS 106 Introduction to Music Literature (3)** Elements, styles, and forms of music, from listener's standpoint. **DH**

**MUS 107 Music in World Cultures (3)** Folk, popular, and art music from major regions of the world, with emphasis upon Asia and the Pacific; representative styles and regional characteristics. **FGC**

**MUS 108 Fundamentals of Western Music (3)** Fundamental concepts in organization of music as expressive medium in Western culture. Roles of composer, performer, and listener. Notation as mode of communication. Discovery and verification of ideas through laboratory experience. **DA**

**MUS 114 University Chorus (1)** Performance of choral literature from Renaissance to present. Previous choral experience not required. Repeatable unlimited times. **DA**

**MUS 121 (Alpha) Class Instruction I (1)** Basic principles of performance; relevant problems in literature. (B) voice; (C) piano; (D) guitar. Cannot be audited. **DA**

**MUS 122 (Alpha) Class Instruction II (1)** Basic principles of performance; relevant problems in literature. (B) voice; (C) piano; (D) guitar. Repeatable in different sections. Cannot be audited. Pre: 121 or consent. **DA**

**MUS 123 (Alpha) Pacific Music Performance Class (1)** Basic principles of performance of Pacific music. Relevant problems at elementary level. (B) slack key guitar; (C) 'ukulele. Repeatable in different sections. Pre: 121D or consent for (B); 108 or consent for (C). **DA**

**MUS 125 First-Level Secondary Piano (1)** Piano as secondary performance field; application of theory to problems in improvising, harmonizing, creating accompaniments, transposing, and sight-reading at keyboard. For music majors. Pre: consent. Co-requisite: 281 or consent.

**MUS 126 First-Level Secondary Piano (1)** Piano as secondary performance field; application of theory to problems in improvising, harmonizing, creating accompaniments, transposing, and sight-reading at keyboard. Continuation of 125. For music majors. Pre: 125 or consent.

**MUS 127 (Alpha) Asian Music Performance Class (1)** Basic principles of performance of Asian music. Relevant problems in literature at elementary level. (B) koto; (C) shamisen; (E) shakuhachi. Cannot be audited. Pre: consent. **DA**

**MUS 128 (Alpha) Asian Music Performance Class (1)** Basic principles of performance of Asian music. Relevant problems in literature at elementary level. (B) koto; (C) shamisen; (D) South Indian singing; (E) shakuhachi. Cannot be audited. Pre: consent. **DA**

**MUS 155 Percussion Techniques (2)** Similar to 151 using percussion instruments. A-F only.

**MUS 156 Brass Techniques (2)** Similar to 151 using brass instruments. A-F only.

**MUS 157 String Techniques (2)** Fundamental performance techniques, materials, and teaching skills on string instruments for students preparing to teach instrumental music. A-F only. (Once a year)

**MUS 158 Woodwind Techniques (2)** Fundamental performance techniques, materials, and teaching skills on woodwind instruments for students preparing to teach instrumental music. A-F only. (Once a year)

**MUS 199 Recital Attendance (0)** Attendance at approved departmental concerts. Required of all music majors (BMus, six semesters; BA and BE, four semesters). Repeatable unlimited times. CR/NC only.

**MUS 225 Second-Level Secondary Piano (1)** Continuation of 125-126; increased emphasis on

piano literature up to intermediate level. Pre: 126 or consent.

**MUS 226 Second-Level Secondary Piano (1)** Continuation of 225. Pre: 225 or consent.

**MUS 240 Creative Applications of Music Technology (3)** Introductory laboratory experience. Teaches musicians fundamental technology concepts through creative projects. Exposes students to a variety of music and audio software. A-F only. Pre: music majors or minors or consent.

**MUS 250 Introduction to Music Education (1)** Survey of American education, with an emphasis on music learning, teaching and philosophy, school structure and governance, diversity and multi-cultural education, and professional ethics. Supervised clinical and field experiences required. MUS majors only. A-F only. (Alt. years)

**MUS 251 Diction for Singers (3)** Diction and phonetics of English, Italian, liturgical Latin, German, and French for singers and choral conductors. Pre: 232B or consent.

**MUS 253 Elementary Music in Action (3)** (3 Lec, 1 1-hr Lab) Musical concepts, philosophy and pedagogy: use of media, singing, movement, and instruments; as well as resources for an active elementary music classroom. **DA**

**MUS 265 History of Western Music to 1750 (3)** Development of Western music from its origins to 1750. Styles, schools, composers. Pre: 282 or consent. **DH**

**MUS 266 History of Western Music After 1750 (3)** Development of Western music from 1750 to the present. Styles, schools, composers. Pre: 282 or consent. **DH**

**MUS 270 World of Music: Asia/Pacific (3)** Study of music as social process, sound system, aesthetics, and world view. Emphasis on Hawai'i, Asia, and the Pacific and the ways music creates links across the region and among people. Pre: ability to read music and one introductory music course (108, 114, 121-126, 151-156) or consent. (Fall only) **DH**

**MUS 280 Basic Theory and Aural Skills (3)** Fundamentals of music theory, notation, sight-singing, and dictation. Pre: 108 or consent.

**MUS 281 Theory I (2)** Materials and organization of music; analysis, writing, and keyboard application. Pre: 280 or consent. Co-requisite: 283 or consent.

**MUS 282 Theory II (2)** Continuation of 281. Pre: 281 or consent. Co-requisite: 284 or consent.

**MUS 283 Aural Training I (1)** Perception, identification, and notation of musical sounds through dictation and sight singing. Pre: 280 and ability to sing diatonic melodies at sight, or consent. Co-requisite: 281 or consent.

**MUS 284 Aural Training II (1)** Continuation of 283. Pre: 283 or consent. Co-requisite: 282 or consent.

**MUS 285 Theory III (2)** Detailed study of theory: writing, analysis, keyboard application. Pre: 282. Co-requisite: 287 or consent.

**MUS 286 Theory IV (2)** Continuation of 285. Pre: 285. Co-requisite: 288 or consent.

**MUS 287 Aural Training III (1)** Advanced level of perception, identification, and notation of musical sounds through dictation and sight-singing. Pre: 284. Co-requisite: 285 or consent.

**MUS 288 Aural Training IV (1)** Continuation of 287. Pre: 287. Co-requisite: 286 or consent.

**MUS 289 Introductory Practicum in Music Composition (V)** Original composition; specific approaches to creative writing. Repeatable. Pre: 282 and 284; or consent.

**MUS 311 (Alpha) Ethnic Music Ensembles I (1)** Performance of literature for groups of various sizes and kinds at introductory level (B) Hawaiian; (C) Japanese; (D) Chinese; (E) Korean; (F) Okinawan; (G) Philippine; (H) gamelan; (I) gagaku; (J) Tahitian; (K) Oceanic; (M) other. Repeatable unlimited times. Pre: upper division standing or consent. **DA**

**MUS 312 Hula/Chant Ensemble I (2)** Ancient style. Pre: upper division standing or consent. **DA**

**MUS 325 Conducting (1)** Problems in directing instrumental and choral ensembles. Score reading, rehearsal techniques, and basic interpretive problems. Pre: 286 and 288.

**MUS 326 Advanced Conducting (2)** Continuation of 325. Pre: 325 or consent.

**MUS 340 Electronic Music (3)** Basic techniques of electronic sound synthesis. Pre: 240 or consent.

**MUS 341 Audio Recording/Mixing/Sound Design (3)** Preproduction, mixing, setup and recording suitable for film. Mixing techniques in software for small systems. Sound design using original synthesis techniques to enhance film and support stories. Pre: 240 or consent. (Alt. years)

**MUS 342 Digital Audio Synthesis and Multimedia Applications (3)** Sound control through graphical interfaces. Advanced digital audio synthesis techniques. Audio control of graphics and video. Introduction of alternate controllers. Pre: 240 or consent. (Once a year)

**MUS 353 Integrating Music in the Elementary School (3)** Application of musical concepts through an integrated approach. This includes strategies, world music, literature, materials and resources for the elementary classroom curriculum. Pre: 253 or consent.

**MUS 354 General Music Methods (3)** Required for K-12 music specialists. Scope and nature of music in the lives of children and adolescents; planning, teaching, learning, and evaluating music in elementary, middle, and high school curriculum. A-F only. Pre: 250, 286, and 288, or consent.

**MUS 354L General Music Methods Lab (1)** Observation, analysis, participation and teaching in the elementary school. Supervised 20 hours of field experiences required. MUS majors only. CR/NC only. Pre: 286 and 288, or departmental approval. Co-requisite: 354. (Every 3rd semester)

**MUS 355 Instrumental Music Methods (3)** Objectives, materials, and procedures of instrumental music in schools. A-F only. Pre: 250, 286, and 326 (or concurrent); or consent.

**MUS 355L Instrumental Music Methods Lab (1)** Observation, analysis, participation and teaching in the elementary school. Supervised 20 hours of field experiences required. MUS majors only. CR/NC only. Pre: 250, 286, and 326 (or concurrent); or consent. Co-requisite: 355. (Every 3rd semester)

**MUS 356 Choral Music Methods (3)** Objectives, materials, and procedures of choral music in schools. A-F only. Pre: 250, 286, or consent.

**MUS 356L Choral Music Methods Lab (1)** Observation, analysis, participation and teaching in the elementary school. Supervised 20 hours of field experiences required. MUS majors only. CR/NC only. Pre: 354, or departmental approval. Co-requisite: 356. (Every 3rd semester)

**MUS 358 Piano Pedagogy (2)** Concepts, materials, and procedures for class and individual instruction in piano. Pre: 282.

**MUS 359 Piano Pedagogy (2)** Continuation of 358. Pre: 358 or consent.

**MUS 360 Music in Film (3)** Lecture investigating the role of music in narrative film, and developing critical skills through close study of films and their music. Understanding styles and techniques of film music within larger aesthetic trends and historical contexts. Pre: 106 or consent. (Once a year) **DH**

**MUS 370 Music in Modern America (3)** Varieties of music, including jazz and other popular forms; relevant antecedents. Pre: sophomore standing; freshmen with consent only. **DH**

**MUS 381 Counterpoint (3)** Form, texture, and style in music literature from Renaissance to present. Formal analysis and writing. Contrapuntal textures and forms. Pre: 286.

**MUS 382 Form and Analysis (3)** Form, texture, and style in music literature from Renaissance to present. Formal analysis and writing. Larger forms with various textures; recent contemporary approaches to continuity. Pre: 265, 266, and 286.

**MUS 383 Orchestration (3)** Basic principles of scoring for orchestra and band; instrumental ranges, timbres, transpositions; transcribing or composing for band, orchestra, and chorus. Pre: 286 or consent.

**MUS 386 Theory and Practice of Jazz Improvisation (2)** Development of an improvising technique through analysis and performance practice. For instrumentalists only. Pre: 285 and 287.

**MUS 399 Directed Study (V)** Limited to majors with a minimum cumulative GPA of 2.7 or a minimum GPA of 3.0 in music. Pre: consent.

**MUS 400 Topics in Music (V)** Topics in history, literature, theory, applied music, music education, and ethnomusicology; for music majors. Consult department for topics and specific dates. Repeatable up to twelve credits. Pre: 281 and appropriate lower division music courses; or consent.

**MUS 407 Music Cultures of the World (3)** Folk, popular, and art music from major regions of the world, with emphasis upon Asia and the Pacific, representative styles and regional characteristics. Pre: junior standing or consent. **DH**

**MUS 410 (Alpha) Ensembles (1)** Performance of literature for ensembles and performing groups of various sizes and kinds; (B) Hawaiian chorus; (C) University Chamber Singers; (D) piano-vocal collaboration; (E) composer-performer collaboration; (F) chamber music; (G) guitar; (K) jazz; (M) contemporary music; (N) theater music; (O) percussion; (P) digital and electronic musical arts; (Q) piano-instrumental collaboration. Repeatable unlimited times. A-F only for (E) and (Q). Pre: audition or consent. **DA**

**MUS 411 (Alpha) Ethnic Music Ensembles II (1)** Performance of literature for ensembles and performing groups of various sizes and kinds, (B) Hawaiian; (C) Japanese; (D) Chinese; (E) Korean; (F) Okinawan; (G) Philippine; (I) Asian; (J) Tahitian. Repeatable unlimited times. Pre: 311 in same section or consent. **DA**

**MUS 412 Hula/Chant Ensemble II (2)** Ancient style. Pre: 312 or consent.

**MUS 413 Hula/Chant Ensemble III (2)** Ancient style; halau protocol. Repeatable nine times. Pre: 412.

**MUS 414 University Concert Choir (1)** Performance of a cappella literature and major choral works. Repeatable unlimited times. Pre: choral experience and consent. **DA**

**MUS 415 Opera Workshop (V)** Opera in performance. Styles and characterizations. Performance of scenes and one complete work. Repeatable unlimited times. Pre: upper division standing or consent. **DA**

**MUS 416 (Alpha) University Symphony Orchestra (1)** Performance of orchestra literature, including major works for chorus and orchestra, opera and dance; (B) symphony; (C) chamber orchestra. Repeatable unlimited times. Pre: audition or consent. **DA**

**MUS 417 University Javanese Gamelan (1)** Performance of jogja and solo gamelan traditions; Ujon-Ujon, Wajang Kulit, Wajang Wong. Repeatable unlimited times. Pre: 311H or consent. **DA**

**MUS 419 (Alpha) University Band (1)** Performance of literature, including works by contemporary composers. (B) symphonic wind ensemble; (C) symphonic band; (D) concert band; (E) marching band; (F) marching band percussion. Repeatable unlimited times. Pre: audition or consent. **DA**

**MUS 420 (Alpha) Music Literature Lab (2)** Problems of style and interpretation and their implications in performance. Inquiry with laboratory performance. (B) solo voice. Repeatable one time for (B). Pre: consent.

**MUS 421 Acting V: Musical Comedy (3)** Essential training in skills required to perform in musicals. Students present scenes from musical comedies for criticism and review. Repeatable unlimited times. Pre: one of 231B, THEA 321, THEA 322, or consent; and/or audition. (Cross-listed as THEA 421) **DA**

**MUS 422 Piano Repertoire (1)** Focused study on a specific area of piano literature. Extensive score study, analysis, performance practices, technique and listening lists will be studied. A-F only. Pre: 2 semesters of 232C or consent. Repeatable six times for different topics. (Alt. years)

**MUS 423 Keyboard Skills I (2)** Practical keyboard applications including transposition, keyboard harmonization, figured bass, improvisation, score reading and sight reading. A-F only. Pre: 282 and 2 semesters of 232C, or consent. (Alt. years)

**MUS 424 Keyboard Skills II (2)** Continuation of 423. A-F only. Pre: 423 or consent.

**MUS 440 Music, Industry, and Society (3)** History of U.S. music and recording industry. How industry relates to economy as a whole, and how it reflects broad patterns and trends in American culture and society. (Cross-listed as HIST 471) **DH**

**MUS 441 Scoring Techniques for Films (3)** Aspects of scoring original music for films. Use of small systems, and software production tools. Music production techniques (including Foley and sound effects) and music for television also covered. Repeatable one time. Pre: 341 or consent. (Alt. years)

**MUS 450 Music Technology for Teachers (3)** Studio course designed for music education majors or musicians interested in discovering and utilizing technology resources to enhance the music teaching or learning process. A-F only. Pre: 286 or consent.

**MUS 451 Perspectives on K-12 Music Education (2)** Required for K-12 music education majors. Topics include music learning, classroom management, assessment, and national standards. A-F only. MUS ED majors only. Junior standing or higher. Pre: 250, 286, 288, and EDEP 311; or consent. (Fall only)

**MUS 452 Advanced String Pedagogy (2)** Study of intermediate to advanced techniques and pedagogical approaches to violin, viola, cello, and double bass in both individual and class settings. A-F only. Pre: 157 or consent. (Alt. years: spring)

**MUS 454 Music in Special Education (3)** Designed for music educators, elementary, and special education majors or musicians interested in understanding and preparing to use music with special education students. Will be offered both as a campus and online course. A-F only. Pre: 353 or EDEP 311, or consent.

**MUS 457 Asian and Pacific Music in Education (3)** Musical concepts in songs, dances, and instrumental music of Asia, Hawai'i, and other Pacific Islands, appropriate for K-12. Pre: 353, 354, or 355 and 356. **DA**

**MUS 459 Vocal Pedagogy (3)** Scientific studies of vocal mechanism; application to techniques of singing. Pedagogical methods for individual voice instruction; participation in applied music teaching. Pre: 286 and 288.

**MUS 461 (Alpha) Eras of Western Music History (3)** Changing styles and forms in periods of European art music from 500 A.D. to the present. (B) medieval; (C) Renaissance; (D) Baroque; (E) Classic; (F) Romantic; (G) 20th century. Repeatable one time for different alphas. Pre: 265 and 266, or consent.

**MUS 462 (Alpha) Studies in Western Music History (3)** (B) music of the United States. Pre: 265 and 266, or consent.

**MUS 463 (Alpha) Topics in Music Literature (3)** (B) symphonic music; (C) concerto; (D) chamber music; (E) choral music; (F) solo song; (G) wind band literature; (H) guitar literature. Repeatable one time for different alphas. Pre: 265 and 266, or consent.

**MUS 464 Opera (3)** Historical study from Monteverdi to present. Pre: 265 and 266, or consent.

**MUS 465 Piano Literature I (2)** Study of the evolution of piano literature from its precursors in the Renaissance to the beginning of the 19th century; development of historical styles, intensive listening and analysis. Pre: 265 and 266, or consent.

**MUS 466 Piano Literature II (2)** Continuation of 465. Study of the evolution of piano literature from the beginning of the 19th century to the present day; development of historical styles, intensive listening and analysis. A-F only. Pre: 465 or consent. (Alt. years)

**MUS 467 Music and Ethics (3)** Studies music's roles in religious traditions and politics, as identity formation, and music's relationship with lyrics in a variety of forms. Readings approach these issues from the question of ethics. A-F only. Pre: 265 and 266, or consent. (Once a year)

**MUS 472 Sound Systems of World Musics (3)** Music-theoretical study of sound organization as defined by various cultures and development of aural analysis in world musics. Pre: junior standing or consent.

**MUS 477 History of Rock and Roll (3)** An examination of rock and roll from various perspectives including economics, regionalism, freedom of expression. Pre: upper division standing or consent. **DH**

**MUS 478 (Alpha) Musical Cultures (3)** The study of a musical culture area. (B) Hawai'i; (C) China; (D) Japan; (E) Korea; (F) Indonesia; (G) Philippines; (H) India; (I) Polynesia; (P) Africa; (Q) other. Repeatable one time for different alphas. Pre: junior standing or consent. ((H) Cross-listed as ASAN 478)

**MUS 479 Topics in Ethnomusicology (3)** Problem-oriented cross-cultural investigation of music and music organization. Pre: junior standing or consent. **DH**

**MUS 484 Composition for Music Majors (1)** Original composition; specific approaches to creative writing. Intended for music majors not majoring in composition. Repeatable one time. MUS majors only. A-F only. Pre: 286 and 288.

**MUS 485 Intermediate Practicum in Music Composition (V)** Creative writing beginning with smaller forms. Repeatable unlimited times. Pre: 286 and 288, or consent.

**MUS 487 Advanced Practicum in Music Composition (3)** Creative writing in larger forms. Composition majors only. Repeatable one time. Pre: 485 or consent.

**MUS 488 Contemporary Techniques (2)** Theoretical techniques in music of the 20th and 21st centuries; emphasis on writing as the synthesis of concepts. Investigation of important stylistic movements. Pre: 286 or consent.

**MUS 495 Senior Project (1)** Capstone project designed by student, who must find and work with faculty advisor before enrolling. Also subject to advance approval by departmental committee. Repeatable up to four credits. A-F only. Pre: senior standing and consent.

**MUS 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**MUS 565 Western Music History Review (3)** Online course surveys representative composers, musical styles, and genres from the Western tradition. Repeatable one time. Pre: graduate standing and consent or departmental approval.

**MUS 600 (Alpha) Seminar (3)** Selected problems in (B) composition; (C) ethnomusicology; (D) music literature; (E) performance repertory; (F) music education; (H) theory. Repeatable nine times. Pre: graduate standing or consent; also 661 for (D) and (E).

**MUS 601 Advanced Topics in Music (V)** Advanced topics in history, literature, theory, applied music, music education, and ethnomusicology; some

in intensive modular format. Repeatable nine times. Pre: appropriate lower division music courses or consent and graduate standing.

**MUS 649 College Level Teaching Practicum (1)** Practical experience teaching at the college level. Examination of elements for successful college teaching. Repeatable two times. MUS majors only. Graduate students only. A-F only. Pre: consent.

**MUS 651 Foundations of Music Education (3)** Music and music education in their philosophic, aesthetic, social, historical, and psychological dimensions. Pre: graduate standing and consent.

**MUS 655 Music in Childhood Education (3)** Principles and programs in teaching music to children in early childhood settings and elementary school. Curriculum development, analysis of research, and current approaches. Pre: 353 or 354, teaching experience, and graduate standing.

**MUS 657 World Musics in Undergraduate Education (2)** Concepts and materials at junior college and undergraduate levels. Preparation for structuring and teaching courses in non-Western musics. Pre: graduate status in music and 107 or 407 (or concurrent).

**MUS 659 Seminar in College Music Teaching (3)** Examines components of good teaching, adult learning theories, course organization, methodologies, evaluation, and other music issues. For students planning a college teaching career in music. Pre: consent.

**MUS 660 (Alpha) Studies in Music Literature (3)** Detailed study by chronological period. (B) medieval; (C) Renaissance; (D) Baroque; (E) Classic; (F) Romantic; (G) 20th century. Repeatable in different alphas. Pre: 661 or consent.

**MUS 661 Bibliography and Library Resources in Music (3)** Basic materials and techniques; includes retrieval techniques from online computer catalog. Pre: graduate standing or consent.

**MUS 670 (Alpha) Regional Music (3)** Musical content and historicosocial context of principal musical traditions. (B) Asia; (C) Oceania. Repeatable nine times. Pre: consent.

**MUS 678 (Alpha) Advanced Problems in Ethnomusicology (3)** (B) transcription of music performance; (D) other. Pre: consent.

**MUS 680 (Alpha) Studies in Music Theory (3)** (B) stylistic counterpoint to 1700; (C) stylistic counterpoint from 1700; (D) advanced analysis; (E) comparative theory; (F) history of theory; (G) contemporary techniques and resources; (H) atonal analysis and set theory; (I) Schenkerian analysis. Pre: 286 and graduate standing.

**MUS 685 Intercultural Composition (3)** Examination of compositional approaches, techniques, and characteristics of works with East Asian influences in Western concert settings. Composing idiomatically for East Asian instruments. Repeatable one time. MUS majors only. Graduate students only. A-F only. Pre: graduate standing or consent.

**MUS 687 Masters Composition Practicum (3)** Original composition in all forms. Masters-level composition students only. Repeatable five times. A-F only. Pre: consent.

**MUS 695 Plan B Master's Project (V)** Independent study for students working on a Plan B master's project. A grade of Satisfactory (S) is assigned when the project is satisfactorily completed. A maximum of 3 credits may be earned in MUS 695. Graduate standing in music education or music composition. A-F only.

**MUS 699 Directed Work (V)** Reading and research in ethnomusicology, musicology, music education; reading and practice in theory, composition, or performance. Repeatable unlimited times. Pre: consent of chair and department chair.

**MUS 700 Thesis Research (V)** Repeatable unlimited times.

**MUS 701 (Alpha) Topics in Music (3)** Advanced topics in musicology; theory, ethnomusicology,

and music education. (B) psychology of music; (C) research in music education; (D) research methods in musicology; (E) advanced diction for singers. Repeatable in different alphas. Pre: appropriate to topic or consent.

**MUS 702 Seminar for Doctoral Students (V)** Selected topics centering on areas pertinent to the student's degree needs and research interests. Pre: admission to PhD program in music or consent.

**MUS 750 (Alpha) Seminar in Music Education (3)** Selected problems in music education. (B) childhood; (C) adolescence/adults; (D) major issues. Pre: graduate standing and consent.

**MUS 787 Doctoral Composition Practicum (3)** Original composition in all forms. Doctoral-level composition students only. Repeatable five times. A-F only. Pre: consent.

**MUS 800 Dissertation Research (V)** Repeatable unlimited times. Pre: candidacy for PhD degree and consent of dissertation chair.

### APPLIED MUSIC

*For information on sections, requirements, and costs, consult the music department.*

*Instruction is given in 14 individual lessons per semester, either one half-hour lesson per week (1 credit hour) or one full-hour lesson per week (2 or more credit hours). Lessons are not made up unless instructor is notified a reasonable time in advance of the excused absence.*

*Registration for lessons and choice of teachers must be approved by the department chair.*

*Assignment and admission to these courses are based on tests and auditions given by the department during the advising and registration period. Applied music courses cannot be audited or taken CR/NC.*

**MUS 230 (Alpha) Elementary Applied Music, Ethnic (V)** Instruction in instrumental performance at elementary level. Study of works representative of literature. (B) koto; (C) shamisen; (E) Hawaiian chant; (F) shakuhachi; (I) other. Repeatable for four semesters. Pre: audition or consent.

**MUS 231 (Alpha) Applied Music, Western (1)** For nonmajors or music majors in secondary performance fields. Individual instruction in solo vocal or instrumental performance at elementary level. Representative works. (B) voice; (C) piano; (D) organ; (F) recorder; (G) classical guitar; (H) violin; (I) viola; (J) cello; (K) double bass; (M) flute; (N) oboe; (O) clarinet; (P) bassoon; (Q) saxophone; (R) trumpet; (S) French horn; (T) trombone; (U) tuba; (X) euphonium; (Y) percussion; (Z) other. Repeatable for four semesters. Pre: audition or consent.

**MUS 232 (Alpha) Applied Music, Western (V)** For music majors or intended majors. Individual instruction in solo or instrumental performance at first performance level. Representative works. Weekly repertoire laboratory required. (B) voice; (C) piano; (D) organ; (G) classical guitar; (H) violin; (I) viola; (J) cello; (K) double bass; (M) flute; (N) oboe; (O) clarinet; (P) bassoon; (Q) saxophone; (R) trumpet; (S) French horn; (T) trombone; (U) tuba; (X) euphonium; (Y) percussion; (Z) other. Repeatable for six semesters. Pre: audition.

**MUS 330 (Alpha) Advanced Applied Music, Ethnic (V)** Individual instruction in instrumental and dance performance at advanced level. See 230 for list of sections. Repeatable for six semesters. Pre: advancement from 230 or consent.

**MUS 331 (Alpha) Applied Music, Western (V)** For nonmajors or for music majors in secondary performance fields. Individual instruction in solo vocal or instrumental performance at an advanced level. See 231 for list of sections. Repeatable for six semesters. Pre: advancement from 231 or consent.

**MUS 332 (Alpha) Applied Music, Western (V)** For music majors. Individual instruction in solo vocal or instrumental performance at the junior level. Representative works. Weekly repertoire laboratory required. Half recital required to complete junior level. See 232 for list of sections. Repeatable for three

semesters. Pre: four semesters of 232 and promotion by board examination.

**MUS 432 (Alpha) Applied Music, Western (3)** For music majors. Individual instruction in solo vocal or instrumental performance at the senior level. Representative works. Weekly repertoire laboratory required. Full recital required for completion of this performance level. See 232 for list of sections. Repeatable for three semesters. Pre: two semesters of 332 and advancement by board examination.

**MUS 635 (Alpha) Graduate-Level Applied Music (3)** For students accepted for MMus in performance. Individual instruction in solo vocal or instrumental performance at graduate performance level. Representative works. (B) voice; (C) piano; (H) violin; (I) viola; (J) cello; (K) double bass; (M) flute; (N) oboe; (O) clarinet; (P) bassoon; (Q) saxophone; (R) trumpet; (S) French horn; (T) trombone; (U) tuba; (X) euphonium; (Y) percussion; (Z) other. Repeatable two times.

**MUS 636 Graduate Recital (V)** For students accepted for MMus in performance. Individual instruction in solo vocal or instrumental performance at graduate level; full recital required. (B) voice; (C) piano; (H) violin; (I) viola; (J) cello; (K) bass; (M) flute; (N) oboe; (O) clarinet; (P) bassoon; (Q) saxophone; (R) trumpet; (S) French horn; (T) trombone; (U) tuba; (X) euphonium; (Y) percussion.

### Native Hawaiian Health (NHH)

*School of Medicine*

**NHH 499 Directed Reading/Research (V)** Individual reading and/or research. Repeatable unlimited times. Junior standing or higher. Pre: consent.

**NHH 501 Scientific Basis of Medicine (2)** Introduction to medical science stressing key historical figures and significant events to exemplify the development of scientific methods. Special emphasis on writing skills, health team concept, and culture and contributions of the Pacific. CR/NC only. Pre: admission to Imi Ho'ola Post-Baccalaureate Program.

**NHH 502 Scientific Basis of Medicine (2)** Continuation of 501. CR/NC only. Pre: 501.

**NHH 503 Medical Biology I (11)** (2 Lec, 2 Tutorial, 1 3-hr Lab) Foundation in medical sciences, including anatomy, physiology, microbiology, pathology, and pharmacology (focus on respiratory, cardiovascular, and urinary systems); develop critical thinking and problem-solving skills. Includes lectures, problem-based tutorials, and histology and gross anatomy labs. Pre: admission to Imi Ho'ola Post-Baccalaureate Program.

**NHH 504 Medical Biology II (11)** (2 Lec, 2 Tutorial, 1 3-hr Lab) Continuation of 503. Pre: 503.

**NHH 505 Medical Biochemistry I (6)** Provide background knowledge of chemistry, biochemistry, and molecular biology with emphasis in principles of biochemical processes as well as clinical correlations to medical conditions; develop critical thinking, standardized test taking skills, and problem-solving skills. Pre: admission to Imi Ho'ola Post-Baccalaureate Program.

**NHH 506 Medical Biochemistry II (6)** Continuation of 505. Pre: 505.

**NHH 513 Native Hawaiian Health and Traditional Healing (1)** Introduction to Native Hawaiian health issues and traditional healing practices. MD majors only. CR/NC only. Pre: MDED 551 or consent.

**NHH 545 Native Hawaiian Health Care (V)** Clinical experience in the Native Hawaiian Health Care System and community health care centers, incorporating both western and traditional Hawaiian medicine. Open to fourth year medical students interested in Native Hawaiian Health Care. Pre: MED 531 or MED 532.

**NHH 575 Seminar in Issues of Social Justice in Health (1)** Social justice provides an analytical and prescriptive framework to understand health inequi-

ties; understand connections between social forces and health outcomes, and the role of the individual student in improving social justice in the health system. Graduate standing only. Pre: MDED 551. (Spring only)

**NHH 595 Clinical Skills Preceptorship in the Lau Ola Clinic of the Department of Native Hawaiian Health (V)** Provides a focused experience in clinical medicine with opportunities to practice the history and physical examination in Lau Ola, the clinical setting of the Department of Native Hawaiian Health. Repeatable one time. MD majors only. CR/NC only. Pre: MDED 574 or consent. (Fall only)

**NHH 699 Directed Reading/Research (V)** Individual reading and/or research. Repeatable unlimited times. Graduate standing only. Pre: consent.

### Natural Resources and Environmental Management (NREM)

*College of Tropical Agriculture and Human Resources*

**NREM 203 Applied Calculus for Management, Life Sciences, and Human Resources (3)** (2 Lec, 1 1-hr Lab) Applications of calculus (limits, continuity, derivatives, exponential and logarithmic functions, partials, integrals) to problems in business management, social sciences, and life sciences. Applies symbolic techniques and quantitative methods in problem solving, utilizes concept of proof as a chain of inferences, and promotes development of reasoning skills and mathematical logic in bridging theory and practice. **FS**

**NREM 210 Introduction to Environmental Science (3)** Analysis of our environment with emphasis on understanding relationships and interactions of physical, biological, technological, and political components using scientific methods of inquiry. Food supply and safety, water quality, pollution control, biodiversity, environmental policy. Open to nonmajors. (Cross-listed as PEPS 210) **DB**

**NREM 220 Agricultural and Resource Economics (3)** Introduction to basic economics concepts, including demand, supply, exchange, market price and market failure. Economic evaluation and policy for the uses of various natural resource endowments, especially in production agriculture, is included. A-F only. **DS**

**NREM 301 Natural Resources Management (3)** Biological and physical science aspects of natural resource management at local, national, and global scales. Topics covered include resource management of soil, water, forests, wetlands, coasts and wildlife. NREM majors only. A-F only. Pre: 210, CHEM 151 or higher, BIOL 172; or consent. (Spring only) **DB**

**NREM 301L Natural Resources Management Lab (1)** (1 3-hr Lab) Laboratory and field methods covering biological and physical principles and concepts in natural resource management. Emphasis on basic field measurement techniques and computer skills commonly used in managing natural resources. A-F only. Co-requisite: 301. (Spring only) **DY**

**NREM 302 Natural Resource and Environmental Policy (3)** Introduction to American government policy in natural resources and environmental protection at federal, Hawai'i state and county levels. Policy principles, legal structure, governmental agencies, major statutes and programs, analytical techniques, program assessments. A-F only. Pre: 210 or (BIOL 101 or higher) or GEOG 101 or (GG 101 or higher); and 220 or one ECON course or two DS courses. **DS**

**NREM 304 Fundamentals of Soil Science (4)** (3 Lec, 1 3-hr Lab) Origin, development, properties, management of tropical soils; classification of Hawaiian soils. A-F only. Minimum prerequisite grade of C or consent. Pre: CHEM 161 and 161L, or consent. (Fall only) (Cross-listed as TPSS 304) **DP DY**

**NREM 306 Environmental Ethics (3)** Application of traditional moral theories to environmental issues. Development and evaluation of specific environmen-

tal ethical theories. Application of ethical theories to environmental decision-making. A-F only. Pre: 210 or GEOG 101 or PHIL 101 or PHIL 103. (Alt. years)

**NREM 310 Statistics in Agriculture and Human Resources (3)** Theory, applications, and presentation of statistical reasoning. Descriptive, probability, and inferential reasoning for one-variable analysis with extensions to multiple variable cases. A-F only.

**NREM 311 Current Topics in Plant Science (1)** An undergraduate seminar that provides the presentation and discussion of topics of current relevance to students preparing for careers in applied plant sciences. Oral focus designation. A-F only. Pre: 210 or TPSS 200, or consent. (Cross-listed as TPSS 311)

**NREM 341 Accounting and Financial Analysis (3)** Principles and methods of agricultural accounting. Preparing and interpreting financial statements. Sources and costs of credit, capital budgeting, tax management, estate planning. Repeatable one time. A-F only. Pre: 220 or ECON 130 or consent. (Cross-listed as TPSS 341) **DS**

**NREM 351 Enterprise Management (3)** Introduction of practical concepts and methods used in business management. Introduce broad range of business strategies. Understand the critical role each strategy plays. Facilitate student's practice of analytical and critical thinking through case studies. (Cross-listed as TPSS 351)

**NREM 358 Basic Environmental Benefit Cost Analysis (3)** Fundamentals of benefit-cost analysis with extensions to environmental impacts and projects; case studies. Pre: 220 or ECON 130 or consent. **DS**

**NREM 380 Tropical Forestry/Agroforestry (3)** (2 Lec, 1 3-hr Lab) Biophysical and socioeconomic description and analysis of major tropical forestry and agroforestry management systems, including Hawai'i and the Pacific Basin. The role of traditional land use, pressures from regional and global development, and efforts to create sustainable, diverse systems for rural communities will be discussed. Pre: CHEM 151 or higher and BIOL 171 or higher. (Alt. years: spring) **DB**

**NREM 399 Directed Study (V)** Limited to exceptional undergraduate students qualified to carry on advanced study. Pre: consent.

**NREM 420 Community and Natural Resource Management (3)** Theory and tools for working with groups and communities in the management of natural resources is presented using a participatory format. Topics include sustainable development, extension programming, participatory learning and communication, evaluation, and conflict management. Pre: two social science courses or consent. (Fall only) **DS**

**NREM 429 Spreadsheet Modeling for Business and Economic Analysis (3)** Introduction to quantitative decision-making methods for effective agribusiness management in resource allocation, scheduling, logistics, risk analysis, inventory, and forecasting. Emphasis on problem identification, model formulation and solution, and interpretation and presentation of results. Pre: 220 or ECON 130, and 310 or ECON 321; or consent. (Once a year) (Cross-listed as ECON 429 and TPSS 429) **DS**

**NREM 450 Wildlife Ecology and Management (3)** Lecture-based overview of the history, ecology, and management of wildlife species (i.e., terrestrial vertebrates) from around the world and Hawai'i. One or two field trips may be required. Class size limited to 25 students. Pre: BIOL 172 or consent. (Alt. years)

**NREM 461 Soil and Water Conservation (3)** Past and present issues in soil and water conservation will be examined. Principles of erosion, conservation tillage, irrigation, and drainage will be discussed. Land-based threats to coastal zones and watershed management will also be covered. Pre: 301 or 304. **DP**

### **NREM 463 Irrigation and Water Management**

**(3)** Basic soil-water-plant relationships, irrigation water requirements, irrigation efficiencies, different methods of irrigation, planning, design and management of an irrigation system, fertigation and impact of irrigation on soil and water quality. Pre: 203 (or equivalent) and NREM/TPSS 304 (or equivalent), or consent. (Alt. years) (Cross-listed as TPSS 463)

**NREM 467 Natural Resources Conservation Planning (3)** Combined lecture and hands-on field course on theory and practice of natural resource conservation planning. Includes individual and group projects. Pre: undergraduate junior or senior or graduate standing. Recommended: at least one upper division course in soils, natural resources, planning, physical geography, or related area; or consent. (Alt. years) **DP**

**NREM 475 Plant Nutrient Diagnosis in the Tropics (3)** Designed for students to identify essential nutrients required by plants; diagnose nutrient disorders in plants; and propose environmentally sound solutions to correct disorders. Pre: 304/TPSS 304 (or concurrent) and BIOL 172. (Cross-listed as TPSS 475)

**NREM 477 Geographic Information Systems for Resource Managers (4)** Combined lecture-lab on the basic concepts and principles of geographic information systems, remote sensing, and global positioning system. Practical skills to be developed by solving real natural resources and environmental problems. Pre: either 310 or MATH 140 or MATH 373, and 301; or consent. (Once a year)

**NREM 480 Applied Forest Ecology (3)** Application of ecological theory to sustainable management of forest resources in Hawaii and beyond, including silviculture (production of timber and nontimber forest products), restoration (restoring damaged or degraded forests), and conservation (conserving existing forest resources). A-F only. Pre: 301 and 380 or consent. (Alt. years)

**NREM 491 Topics in Natural Resources and Environmental Management (V)** Study and discussion of significant topics and problems. Offered by visiting faculty and/or for extension programs. Repeatable five times up to four credits. A-F only. Pre: consent.

**NREM 492 Internship (1)** Integration and application of academic knowledge and critical skills emphasizing professional development. Placement with an approved cooperating supervisor/employer. Pre: 301.

**NREM 492L Internship Experience (3)** Internship work experience for NREM majors. NREM majors only. A-F only. Pre: 301 (or concurrent) and consent.

**NREM 494 Environmental Problem Solving (3)** (2 Lec, 1 3-hr Lab) Senior-level capstone for NREM and related majors. Ecosystem management within problem-solving context. Applications of research and analytical methods, management tools to case studies. Focus on student teamwork and oral communications. NREM majors only. A-F only. Pre: senior in NREM (or consent) and 310. (Once a year)

**NREM 499 Directed Study (V)** Repeatable up to four credits. Pre: senior standing and consent.

**NREM 500 Master's Plan B/C Studies (V)** Enrollment for degree completion. Repeatable up to 3 credits. Pre: master's Plan B or C candidate and consent.

**NREM 600 Evaluation of Natural Resource Management (3)** Critical evaluation of natural resource management approaches. Emphasis on the physical, chemical, and biological aspects within an environmental context. Pre: graduate standing or advanced undergraduate standing, and consent.

**NREM 601 Economic Analysis of Natural Resource Management (3)** Lecture/discussion providing an economic framework for assessing natural resource management projects and environmental policies. Use of case studies to demonstrate applica-

tions of the framework in selected subject areas. (Spring only) Pre: one ECON course.

**NREM 605 Research Skills (2)** Assists the student in developing skills necessary to write a research grant and design a research proposal. NREM majors only. A-F only. (Fall only)

**NREM 611 Resource and Environmental Policy (3)** Exploration of institutional and policy dimensions of natural resource development, management, allocation, markets and pricing, focusing on their environmental impacts. Emphasis on policy analysis using case studies and empirical findings. Original paper required. A-F only. Pre: ECON 300 or ECON 301, or consent. (Fall only)

**NREM 612 Predicting and Controlling Degradation in Human-Dominated Terrestrial Ecosystems (3)** Historic, present, and projected trends in understanding and managing human-dominated ecosystems; predicting, measuring and mitigating degradation especially in terrestrial ecosystems with a focus on small volcanic islands in tropical settings. A-F only. Pre: 301 and 304 (or equivalent) and 600. Recommended 461, or consent. (Fall only)

**NREM 627 Applied Microeconomic Analysis (3)** Economic applications to the agricultural and non-agricultural industries are emphasized. Econometric techniques are used to estimate demand, supply, production and cost functions which are analyzed in terms of economic theory and market information. A-F only. Pre: AREC 626 and ECON 627, or consent.

**NREM 631 Sustainable Agriculture Seminar (2)** Critical evaluation of existing and alternative cropping systems from a long-term perspective. Value conflicts and resolution. Pre: graduate standing or advanced undergraduate standing, and consent.

**NREM 637 Resource Economics (3)** Analysis of problems of development and management of natural resources with emphasis on resources in agriculture and role in economic development. Pre: ECON 608 and ECON 629. (Cross-listed as ECON 637)

**NREM 652 Information Research Skills (1)** Examines the use of libraries and information technology for scholarly investigation in support of scientific research; provides experience utilizing and critically evaluating a variety of print and electronic sources in basic and applied sciences. Pre: consent. (Cross-listed as ANSC 652, FSHN 652, and TPSS 652)

**NREM 658 Advanced Environmental Benefit Cost Analysis (3)** Advanced environmental benefit-cost analysis will require that proficiency be demonstrated on fundamentals and address topics related to sustainability, including income equality, non-market goods, risk, cost of public funds, and the social discount rate.

**NREM 660 Hydrologic Processes in Soils (3)** (2 Lec, 1 3-hr Lab) Hydrologic properties in soils and the processes involved in water infiltration drainage and solute transport. Emphasis on key parameters required for modeling. Recommended: CEE 424 or consent. (Fall only) (Cross-listed as BE 664 and CEE 625)

**NREM 662 Watershed Hydrology (3)** Application of basic hydrologic processes and management practices occurring on small islands watersheds. Pre: 203 or equivalent and 304 or equivalent; or consent. (Once a year)

**NREM 664 Small Watershed Modeling (3)** Introduction to process-based modeling of watershed with emphasis on model applications. Deals with the characterization and simulation of small watershed hydrologic and pollutant transport processes. Pre: CEE 424 (or concurrent) or GG 425 (or concurrent) or BS degree from NREM, or consent. (Spring only)

**NREM 665 Coastal and Wet and Ecology and Management (3)** Study of marshes, mangroves, sea grass beds, and coral reefs. Emphasis on the hydrology, biogeochemistry, productivity, and community dynamics of these systems. Response to perturbations and management strategies will also be discussed. Pre: advanced undergraduate coursework in hydro-

ogy, soils, and ecosystem ecology recommended. (Alt. years)

**NREM 671 International Agricultural Systems (2)** Analysis of trends and strategies in international agricultural research and development. International agricultural research centers (IARC), Food and Agriculture Organization (FAO), university networks and consortia, and private voluntary organizations (PVOs). Pre: graduate standing or advanced undergraduate standing, and consent.

**NREM 677 Remote Sensing of the Environment (3)** Fundamentals, techniques, and applications of remote sensing for natural resource assessments and environmental monitoring. Lab consisting of field radiometric exercises, computer modeling of energy-matter interaction, processing, and analysis of remotely sensed imagery. Pre: one physics course (e.g. PHYS 151), one calculus course (e.g. 203), and one statistics course (e.g. 310), or consent. Recommended: either GEOG 470 or GG 460 or one introductory remote sensing course. (Alt. years)

**NREM 680 Ecosystem Ecology (4)** (2 Lec, 1 3-hr Lab) Principles of ecosystem ecology with emphasis on tropical forests, human impacts, and global environmental change. Factors controlling ecosystem structure, productivity, nutrient cycling, plant-soil-atmosphere interactions, and energy balance. Field and laboratory methods in ecosystem science. Pre: advanced undergraduate coursework in ecology and soil science; graduate standing; and consent. (Alt. years; spring)

**NREM 682 Restoration Ecology (3)** Graduate seminar on foundations of restoration ecology, application of ecological theory to restoration practice. Emphasis on restoration of structure and function in degraded terrestrial ecosystems using case studies from Hawai'i and around the world. Pre: advanced undergraduate ecology course and graduate standing, or consent. Completion of 680 recommended, but not required. (Alt. years)

**NREM 685 Landscape Ecology (3)** Focuses on the history, theories, and contemporary views of landscapes; including scale, land cover, land use, landscape metrics, disturbance regimes, land management, landscape change, the relationship of landscapes to species, and modeling. Pre: graduate students, or consent. (Alt. years)

**NREM 690 Conservation Biology (3)** Theories and concepts of ecology, evolution and genetics for conservation of biological diversity. Topics will include restoration ecology, management planning, laws and policies, biological invasions. Pre: BIOL 375 and either ZOO 480 or BOT 462; and either ZOO 410, 439, 620, 623, BOT 453, 454, 456, or 492. (Cross-listed as BOT 690 and ZOO 690)

**NREM 691 Advanced Topics in Natural Resources and Environmental Management (V)** Study and discussion of significant topics and problems at an advanced level. Offered by visiting or existing faculty as a special course. Repeatable one time. Pre: graduate standing or consent.

**NREM 695 Master's Plan B Capstone Preparation (1)** Preparation for NREM Master's Plan B capstone experience. NREM majors only. A-F only. Pre: 600 (or concurrent), 601, 605 (or concurrent), a graduate methods course, and at least 12 graduate elective credits. (Fall only)

**NREM 696 Master's Plan B Capstone Experience (3)** Capstone experience for NREM Master's Plan B students. NREM majors only. A-F only. Pre: 695 or concurrent.

**NREM 699 Directed Research (V)** Repeatable unlimited times. Pre: graduate standing.

**NREM 700 Thesis Research (V)** Repeatable unlimited times.

**NREM 701 Research Seminar (1)** Presentation and discussion of student research proposals, theses and dissertations, and research presentations by NREM faculty, students, and invited speakers. A-F only. Pre: consent.

**NREM 800 Dissertation Research (V)** Repeatable unlimited times.

## Natural Sciences (NSCI)

### College of Natural Sciences

**NSCI 101 Natural Sciences and Life-Pulling the Puzzles Apart (1)** Journey through the Natural Sciences finding fun, excitement, and success in science, mathematics, engineering, medicine, and all that is the natural sciences. Focus upon challenging world-views of belief, invention, impact, and ethics.

**NSCI 501 Seminar for Science Teachers (V)** Seminar and discussions of current and significant topics and problems in science where teachers can exchange new and innovative teaching ideas and strategies. Repeatable. Pre: in-service teachers or consent.

**NSCI 503 Computers in Classroom (V)** Combined lecture, laboratory and discussion on the use of computers as a teaching tool in the classroom. To be taught in a hands-on manner appropriate for the science teachers. Restricted to in-service teachers or consent. Repeatable one time.

**NSCI 504 Mathematics Workshop for Teachers (V)** An in-depth study of topics from intermediate and high school mathematics. Restricted to in-service teachers or consent. Repeatable one time. A-F only.

**NSCI 505 Physics Workshop for Teachers (V)** Major concepts of physics taught by means of hands-on conceptual activities for elementary and secondary teachers. Restricted to in-service teachers, or consent. Repeatable one time. (Cross-listed as PHYS 505)

**NSCI 619 Seminar on Science Teaching (2)** Effective teaching methods; organization of courses, lectures, laboratory exercises; development and evaluation of examinations; computers and audio-visual aids. Open to graduate students in various science disciplines. Repeatable one time. (Cross-listed as ZOO 619)

*See also the biology professional development course, BIOL 501, under the Biology (BIOL) course listing in this section of the Catalog.*

## Nursing (NURS)

### School of Nursing and Dental Hygiene

*The minimum required grade for undergraduate pre-requisite courses is C (70%) or better, unless otherwise specified.*

*Demonstrating knowledge competency in graduate courses requires a passing grade of B- or 80%. A grade of C+ or less will not count towards degree requirements, unless otherwise specified.*

**NURS 210 Health Promotion Across the Lifespan (3)** Focuses on a health promotion model of care, assessment, and communication skills. It introduces the nurse's roles, code of ethics, and evidence-based practice. NURS majors only. A-F only. Pre: admission to the School of Nursing and Dental Hygiene, or consent. Co-requisite: 210L, 211, and 212.

**NURS 210L Health Promotion Across the Lifespan Lab (6)** Clinical course focuses on a health promotion model of care, assessment, and communication skills. Introduces nurse's roles, code of ethics, and evidence-based practice. NURS majors only. CR/NC only. Co-requisites: 210, 211, and 212.

**NURS 211 Professionalism in Nursing (2)** Professional responsibilities of nursing practice are examined through the history of nursing, practice and education, legal and ethical issues, contemporary issues, and nursing roles. NURS majors only. A-F only. Pre: admission to the School of Nursing and Dental Hygiene, or consent. Co-requisite: 210, 210L, and 212.

**NURS 212 Pathophysiology (3)** Focus on pathophysiological concepts that are basic to understanding illness and injury and the corresponding spectrum of human responses, which serve as a foundation for the formulation of clinical decisions and care planning. NURS majors only. A-F only.

Pre: admission to the School of Nursing and Dental Hygiene, or consent. Co-requisite: 210, 210L, and 211.

**NURS 220 Health and Illness I (4)** Focuses on nursing assessment to support identification of risk factors and detection/prevention of complications from illness. NURS majors only. A-F only. Pre: 210, 210L, 211, and 212, or departmental approval. Co-requisite: 220L.

**NURS 220L Health and Illness I Lab (6)** Clinical course focuses on using nursing assessment to support identification of risk factors and detection/prevention of complications from illness. Nursing skills are integrated into clinical experiences. NURS majors only. CR/NC only. Pre: 210, 210L, 211, and 212. Co-requisite: 220.

**NURS 301 Introduction to Evidence Based Practice and Health Promotion (3)** Provides an introduction to the HSN Competencies and spiraling of concepts and is based on the assumption of student responsibility for learning. Emphasis on research evidence to support nursing care. NURS majors only. A-F only.

**NURS 320 Health and Illness II: Family Health (4)** Nursing care and health promotion for maternal-newborn and pediatric clients and families in the acute care and community settings. Utilization of family theories and assessment tools for providing culturally sensitive, client-centered care. NURS majors only. A-F only. Pre: 220 and 220L. Co-requisite: 320L.

**NURS 320L Health and Illness II-Family Health Lab (6)** Nursing care and health promotion for maternal-newborn and pediatric clients and families in acute care and community settings. Utilization of family theories and assessment tools when providing culturally sensitive, client-centered care. NURS majors only. CR/NC only. Pre: 220 and 220L. Co-requisite: 320.

**NURS 340 Contemporary Ethical Issues in Health Care (3)** Explore contemporary ethical issues and their legal implications in health care. Focus on decision-making in professional practice and social policy formation. Pre: open to non-nursing majors with consent.

**NURS 343 Gerontology: Its Nursing Implications (3)** Explores attitudes toward the aged, biological and psychological aspects, ethnicity, sexuality, nutritional problems, community resources, other related topics. Pre: open to non-nursing majors with consent.

**NURS 344 Nursing in the Multicultural Milieu (3)** Relates values, beliefs, attitudes, family organization, lifestyles, and health practices in different ethnic groups to health-care and nursing practice. Pre: open to non-nursing majors with consent.

**NURS 360 Health and Illness III (3)** Focuses on complex situations requiring strong recognition skills, and rapid decision making. The evidence base supporting assessment and nursing intervention is explored. NURS majors only. A-F only. Pre: 320 and 320L or departmental approval. Co-requisite: 360L.

**NURS 360L Health and Illness III Lab (6)** Clinical course focuses on complex situations requiring application of strong recognition skills and rapid decision making. Evidence base supporting assessment and nursing intervention is explored. NURS majors only. CR/NC only. Pre: 320 and 320L. Co-requisite: 360.

**NURS 361 Health Education and Promotion (2)** Provides an overview of the concepts and application of health education and health promotion theories and principles as applies to individuals, groups, and the larger public. Pre: open to non-nursing majors with consent. (Fall only) (Cross-listed as DH 361)

**NURS 362 Professionalism in Nursing II (1)** Continuation of 211. Focus is on current issues in nursing and health care and nursing roles. Principles of organizational structure, leadership, decision-making, priority setting, and change will be discussed.

NURS majors only. A-F only. Pre: 320 and 320L, or departmental approval. Co-requisite: 360 and 360L.

**NURS 363 Introduction to Nursing Research (3)** Introduction to the research process and an understanding of the applicability of the scientific approach to nursing. Repeatable one time. NURS majors only. A-F only. Pre: any of the following stat courses: MATH 115, PSY 210, SOCS 225, BUS 310, NREM 310, ECON 321, and EDEP 429; or consent.

**NURS 399 Directed Reading/Research I, II (V)** Limited to juniors and seniors in nursing.

**NURS 411 NCLEX Review (2)** Overview of the NCLEX-RN licensure examination and regular, systematic practice in taking multiple choice examinations. Pre: open to non-nursing majors with consent.

**NURS 420 Cooperative Education in Nursing (V)** A two-semester course with seminar in professional role development in addition to paid work experience in nursing at a local agency. Upper division NURS majors only. Repeatable one time. CR/NC only. Pre: 360 and 360L.

**NURS 421 Summer Internship (3)** Summer practicum experience for students to learn the role of the professional nurse by building on previously learned knowledge and skills in the nursing program. Repeatable two times. NURS majors only. CR/NC only. Pre: 360 and 360L, or consent. (Summer only)

**NURS 431 Complementary and Alternative Therapies (3)** Survey of complementary and alternative therapies used for health promotion of individuals and groups. NURS majors only. A-F only. Pre: open to non-nursing majors with consent.

**NURS 439 Management for Health Professionals (3)** Explores basic management concepts. Emphasizes problem solving methods as a means of determining situationally appropriate actions in institutional and community settings. Upper division NURS majors only. Senior standing or higher. Co-requisite: 475 or consent.

**NURS 450 Community, Public, and Global Health Nursing (5)** Theory course focuses on community, public, and global health nursing with an emphasis on strategies applied to improve health and decrease health inequities at the local as well as national and international levels. NURS majors only. A-F only. Pre: 360, 360L, and 363. Co-requisite: 450L.

**NURS 450L Community, Public, and Global Health Nursing Lab (4)** Clinical course focuses on community, public, and global health nursing with an emphasis on strategies applied to improve health and decrease health inequities at the local as well as national and international levels. NURS majors only. CR/NC only. Pre: 360, 360L, and 363. Co-requisite: 450.

**NURS 452 Cultural Aspects of Health Management in Populations Indigenous to Hawai'i, the Pacific, and Asia (3)** Focuses on cultural aspects that influence health management in indigenous populations of Hawai'i, the Pacific, and Asia, with an emphasis on development of culturally sensitive strategies to promote and improve health management. Repeatable one time. NURS majors only. Undergraduate majors only. A-F only.

**NURS 453 Introduction to Genetics in Nursing Practice (3)** Fundamentals of genetics and genomics, including principles of inheritance in humans; cells and development, chromosome structure and function, and implications on health. Includes overview of topics relevant to genetics/genomics in the clinical setting. NURS majors only. A-F only. Pre: 212, 220, 220L, and 363.

**NURS 460 Complex Nursing and Leadership (4)** Theory course emphasizes the judgments, knowledge, and skills necessary for nursing practice, including case management and quality management experiences. The experience focuses on complex clinical judgments, interdisciplinary team functioning, and leadership. NURS majors only. A-F only. Pre: 450 and 450L, or consent. Co-requisite: 460L.

**NURS 460L Complex Nursing and Leadership Lab (6)** Clinical course emphasizes application of knowledge and skills necessary for nursing practice, including case management and quality management experiences. Focuses on complex clinical judgments, interdisciplinary team functioning, and leadership. NURS majors only. CR/NC only. Pre: 450 and 450L. Co-requisite: 460.

**NURS 461 Advanced Pathophysiology and Neurobiology (3)** Provides an advanced understanding of pathophysiologic mechanisms and neurobiology underlying human illness across the lifespan. Provides a foundation for formulating clinical decisions and therapeutic plans of care to promote disease prevention and health promotion. NURS majors only. A-F only.

**NURS 475 Complex Nursing Practice (2)** Examination of continuity of care for clients with complex needs within the health care system. Emphasis on quality and case management. All required courses scheduled within the full-time or decelerated curriculum plan for a given semester must be successfully completed with credit before progressing to the following semester. NURS majors only. A-F only. Co-requisites: 439 and 475L.

**NURS 475L Complex Nursing Practice Lab (5)** Delivery of comprehensive nursing care to clients with complex needs in community and/or acute care settings. Emphasis on quality management, continuity of care, culture, and ethics. NURS majors only. A-F only. Co-requisite: 439 and 475.

**NURS 499 Directed Reading and Research (3)** Planned individualized study or research in specialized area related to interprofessional collaborative practice. Repeatable one time. Senior undergraduate NURS students only. Pre: consent.

**NURS 500 Master's Plan B/C Studies (1)**

**NURS 501 Professionalism in Nursing (2)** Introduction to history of nursing and leaders in the field. Will explore contemporary nursing issues and research. Strategies to foster adherence to a professional code of ethics in practice will be examined. NURS majors only. A-F only. Pre: admission into MEPN. (Once a year)

**NURS 502 Pathophysiology (3)** Web-enhanced on pathophysiologic concepts as a basis of illness and injury and the corresponding spectrum of human response, which serves as a foundation for the formulation of clinical decisions and care planning. NURS majors only. A-F only. Pre: admission into MEPN. (Once a year)

**NURS 503 Pharmacology for Nursing Practice (3)** Essential principles of pharmacology using a pathophysiologic approach with emphasis on administering medications and evaluating their effects. NURS majors only. A-F only. Pre: admission into MEPN. Co-requisite: 501, 502, 504, 504L, 505, 505L. (Once a year)

**NURS 504 Health Assessment (2)** Concepts/theories of health assessment, data collection, and analysis to distinguish between health/wellness, risk factors or health deviations across the lifespan. Attention to principles of communication and interviewing. NURS majors only. A-F only. Pre: admission into MEPN. Co-requisite: 501, 502, 503, 504L, 505, 505L. (Once a year)

**NURS 504L Health Assessment Lab (2)** Application of assessment skills in dry lab and clinical settings, with attention to principles of communication, interviewing and physical examination skills. NURS majors only. CR/NC only. Pre: admission into MEPN. Co-requisite: 501, 502, 503, 504, 505, 505L. (Once a year)

**NURS 505 Foundations of Nursing Science (2)** Nursing process and scientific based nursing interventions to meet basic human needs using basic psycho-motor skills to support assessment, intervention, and evaluation activities. NURS majors only. A-F only. Pre: admission into MEPN. Co-requisite: 505L. (Once a year)

**NURS 505L Foundations of Nursing Science and Practice Lab (4)** Application of the nursing process and scientific based nursing interventions to meet basic human needs using basic psycho-motor skills to support assessment, intervention, and evaluation activities. NURS majors only. CR/NC only. Pre: admission into MEPN. Co-requisite: 505. (Once a year)

**NURS 507 Bio-Behavioral Health Nursing (2)** Biopsychosocial theories of human behavior related to function, alteration, and/or disruption of mental processes; reviews current knowledge related to nursing care, psychiatric treatment/psychosocial rehabilitation of identified mentally ill adults/children and their families. NURS majors only. A-F only. Co-requisite: 507L. (Once a year)

**NURS 507L Bio-Behavioral Health Nursing Clinic/Lab (2)** Application of current knowledge regarding human behavior related to function, alteration, and/or disruption of mental processes; applies current knowledge related to nursing care, psychiatric treatment/psychosocial rehabilitation of identified mentally ill adults/children and their families. NURS majors only. CR/NC only. Co-requisite: 507. (Once a year)

**NURS 508 Nursing Care of Childbearing Families (2)** Introduction to the theoretical concepts of holistic nursing care of the perinatal family. Women's and men's health issues are discussed. NURS majors only. A-F only. Co-requisite: 508L. (Once a year)

**NURS 508L Nursing Care of Childbearing Families Clinic/Lab (2)** Application of the nursing care of the mother and family. The student will apply clinical and theoretical concepts of holistic nursing care for women experiencing customary and complicated perinatal processes. NURS majors only. CR/NC only. Co-requisite: 508. (Once a year)

**NURS 509 Nursing Care of Children and Families (2)** Examines the bio/psycho/social response of the child and family to health and illness, as well as nursing care for acute and chronic conditions. Lab course taken concurrently. NURS majors only. A-F only. Co-requisite: 509L. (Once a year)

**NURS 509L Nursing Care of Children and Families Clinic/Lab (2)** Accompanies and supports Pediatric Nursing to provide educational experiences in the hospital and outpatient or community settings. NURS majors only. CR/NC only. Co-requisite: 509. (Once a year)

**NURS 513 Acute Care Nursing (3)** Addresses the bio/psycho/social human health response to a wide range of conditions. Health promotion, risk reduction and disease detection and nursing care treatment in the acute setting will be covered. NURS majors only. A-F only. Co-requisite: 513L. (Once a year)

**NURS 513L Acute Care Nursing Lab (3)** Application of the bio/psycho/social human health response to a wide range of conditions. Application of health promotion, risk reduction and disease detection and nursing care treatments in the acute care setting. NURS majors only. CR/NC only. Co-requisite: 513. (Once a year)

**NURS 517 Clinical Immersion to Nursing Practice (3)** Examination of continuity of care for clients with complex needs. Emphasis on application of leadership, management, and quality improvement in the clinical setting. Admission to MEPN only. A-F only. Pre: 504, 505, 507, 508, 509, and 513. Co-requisite: 517L.

**NURS 517L Clinical Immersion to Nursing Practice Lab (5)** Deliver comprehensive nursing care to clients with complex needs in community and/or acute care settings. Leadership, management, and quality improvement competencies are stressed. Admission to MEPN only. CR/NC only. Pre: 504, 505, 507, 508, 509, and 513. Co-requisite: 517.

**NURS 518 Introduction to Community and Public Health Nursing (2)** Introduces community and public health nursing with an emphasis on application to nursing practice in the community

and public health settings. Restricted to matriculated MEPN students only. A-F only. Pre: completion of 501, 502, 503, 504, 504L, 505, and 505L (with a minimum grade of B- or better for 501, 502, 503, 504, and 505; CR for 504L and 505L). Co-requisite: 518L. (Spring only)

**NURS 518L Introduction to Community and Public Health Nursing Lab (3)** Application of health promotion, risk reduction, and disease prevention and detection and nursing care treatments in the community setting. Restricted to matriculated MEPN students only. CR/NC only. Pre: completion of 501, 502, 503, 504, 504L, 505, and 505L (with a minimum grade of B- or better for 501, 502, 503, 504, and 505; CR for 504L and 505L). Co-requisite: 518. (Spring only)

**NURS 600 Epidemiology for Advanced Nursing (3)** Introduction to epidemiologic principles and methods, with an emphasis on its application to nursing practice. Students taking for one credit will focus on application of epidemiology to advanced nursing practice. NURS majors only. A-F only. (Once a year)

**NURS 605 Health Promotion and Disease Prevention (3)** Teaching and learning concepts applied to health promotion and prevention of common health and illness conditions with culturally diverse individuals, families, groups, and communities. Includes didactic (30 hrs) and fieldwork (45 hrs). Repeatable one time. Pre: classified graduate student status in the SONDH.

**NURS 608 Genetics and Health Care (3)** Addresses the scientific, psycho-social, ethical, cultural, and spiritual issues surrounding genetic disease, genetic testing, and living with an inherited condition. Repeatable one time. Pre: graduate standing or consent.

**NURS 609 Health Policy (3)** Review of contemporary national health policies, issues and concerns; and international comparison of health policy evolution; includes didactic and 45 hours of fieldwork experiential learning.

**NURS 611 Psychiatric-Mental Health Assessment and Diagnosis (3)** Identification and synthesis of pertinent biopsychosocial and cultural data to complete advanced psychiatric-mental health assessments and diagnoses.

**NURS 612 Advanced Assessment and Clinical Reasoning (2)** Provides a framework for the development of advanced skills for systematic and comprehensive data collection, organization, precise recording, accurate assessment and communication of data reflecting the biopsychophysical status of individuals across the life span. Masters nursing students only. A-F only.

**NURS 612L Advanced Assessment and Clinical Reasoning Lab (1)** Clinical lab and practicum for advanced practice nursing. Emphasis on integration of knowledge, skills and outcome evaluation. Masters nursing students only. A-F only.

**NURS 613 Pathophysiology for Advanced Practice (3)** Provides an understanding of normal physiological mechanisms and pathological processes to serve as a foundation for clinical assessment, decision making, and clinical management across the lifespan. Pre: enrollment as a classified student in a graduate program in the SONDH.

**NURS 615 Clinical Skills and Procedures for Advanced Practice Nursing (V)** Clinical laboratory that focuses on clinical skills and procedures performed by advanced practice nurses (nurse practitioners and/or clinical nurse specialists). Topics will vary by section and semester. Repeatable up to 12 credits. NURS majors only. CR/NC only.

**NURS 616 Psychobiology of Human Behavior and Psychopharmacology (3)** Survey of the psychobiological basis of selected human behaviors and mental disorders across the lifespan and psychopharmacologic treatments prescribed by health care providers. Pre: consent.

**NURS 617 Human Responses to Acute and Chronic Illness-A (3)** The first of two courses that focuses on the delivery of advanced practice nursing in the assessment, diagnosis, and management of common acute and chronic adult health problems in the acute care setting. NURS majors only. A-F only. Pre: 612, 612L, and 613; no waiver. (Once a year)

**NURS 618 Human Responses to Acute and Chronic Illness-B (3)** Second of two courses that focuses on the delivery of advanced practice nursing in the assessment, diagnosis and management of common acute and chronic adult health problems in the acute care setting. NURS majors only. A-F only. Pre: 612, 612L, and 613; no waiver. (Once a year)

**NURS 620 Nursing Research and Theory for Practice (3)** Examination of theory and the research process to prepare masters prepared nurses for utilization of knowledge for provision of quality care. Pre: enrollment as a classified student in the graduate degree program in SONDH.

**NURS 621 Acute and Episodic Care Management (3)** Diagnosis and management of health and illness with emphasis on clients with common acute/episodic conditions seen in context of family and community. Advanced practice nurse-client relationship, practice roles, and culturally relevant care are included. A-F only. Pre: 612/612L, 613, and 629. Co-requisite: 675.

**NURS 623 Psychopharmacology (3)** Survey of biopsychological bases of and biotherapies for major mental disorders, including the schizophrenias, affective and personality disorders, pediatric and geriatric problems, and neurological dysfunctions with appropriate applications to health care. Pre: graduate standing or consent.

**NURS 624 Adolescent and Family Psychiatric-Mental Health Care (3)** Seminar on theory/research in advanced psychiatric-mental health nursing of adolescents and families representing diverse populations. Emphasis on developmental and nursing theories, evidence-based practice, therapeutic modalities and disease management of psychiatric illness. Pre: 611 (or concurrent) or consent. (Once a year)

**NURS 625 Advanced Nursing Roles (3)** Provides students with an understanding of different roles of the advanced professional nurse; an ability to proactively manage the environment of their specialty practice; includes 45 hours of field work experience. A-F only.

**NURS 628 Child Health: Special Health Needs (3)** Provides a theoretical basis required for specialized clinical competence in adapting recent findings on child/parent assessments, social and health risk indicators, the role of environment, and multidisciplinary settings in the care of pediatrics. NURS majors only. A-F only. Pre: NURS major, 612/612L and 633 and 634, and 3 credits of 675; or consent. Co-requisite: 675. (Once a year)

**NURS 629 Pharmacology for Nurses in Advanced Practice (3)** Prepares APNs to evaluate, monitor, and prescribe pharmaceuticals to treat acute and chronic illness across lifespan. Emphasis on drug indications, mechanisms of action, clinical efficacy, adverse effects, interactions, monitoring, education, and cost effectiveness. Enrollment as a classified student in a SONDH graduate degree program. Repeatable unlimited times. Pre: 613 (or concurrent) or consent.

**NURS 630 Transforming Healthcare through Collaboration, Informatics, and Policy (3)** Will explore the role of collaboration using an interdisciplinary approach of health informatics and policy in transforming health and health systems.

**NURS 632 Therapeutic Modalities (3)** Therapeutic modalities used in advanced practice psychiatric-mental health nursing with individuals, families, and groups representing culturally diverse populations. Pre: 611.

**NURS 633 Child Health: Promotion and Maintenance (3)** Presents normal developmental,

physiological and social needs of children within the context of family; then focuses on the management of common acute and chronic illnesses of children.

**NURS 634 Child Health: Advanced Pediatric Acute/Chronic Care (3)** Focuses on the evaluation of pediatric clients with higher acuity and more complex management issues. Emphasizes critical analysis of evidence based research in pediatric health care. Pre: Admission into the PNP and FNP program, 612/612L, 633, and completed 3 credits of 675 and/or consent.

**NURS 635 Women's Health: Promotion and Maintenance (3)** Provides a foundation of concepts necessary to maintain and promote women's health, including developmental, physiological and social needs of women of all ages and the management of common health problems and concerns specific to women. Pre: 612/612L, 613, and 629. Co-requisite: 675.

**NURS 638 Child and Adolescent Psychiatric-Mental Health (3)** Theory and research in advanced practice psychiatric-mental health nursing of children and adolescents representing culturally diverse populations. Emphasis on growth and development, assessment and diagnosis, and therapeutic modalities. A-F only. Pre: 620 (or concurrent).

**NURS 639 Disciplinary Knowledge I (3)** Exploration of a variety of philosophies of science and examination of factors influencing the development of nursing theory and the emergence of nursing as a discipline.

**NURS 640 Chronic Illness Management (3)** Management of chronic illness using selected health care systems in culturally diverse communities. Management includes practice, consultation, education, research, and evaluation. Pre: 612/612L, 613, and 629. Co-requisite: 675.

**NURS 641 Advanced Nursing in the Global Health Environment (3)** Exploration and analysis of key global health topics of concern for APNs. A-F only.

**NURS 646 Advanced Psychiatric-Mental Health Practicum (V)** Supervised application of theories, research, and skills for advanced practice psychiatric-mental health nursing with individuals, families, and groups representing culturally diverse populations. Includes the program's capstone experience. Repeatable five times. Pre: 611 (or concurrent). Co-requisite: 611 or 632.

**NURS 647 Family Systems in Health and Illness (3)** Family systems approach to include selected family theories, family research and family centered culturally sensitive clinical assessment and intervention in health and illness situations. Pre: graduate standing or consent.

**NURS 650 Complementary and Traditional Care (3)** A review of theoretical systems and approaches to complementary and traditional care in culturally diverse populations with a focus on wellness. Appropriate for all health-care professionals.

**NURS 655 Tests and Measurement in Nursing Education (3)** Testing and evaluation applied to nursing education. NURS majors only. A-F only. Pre: consent. (Once a year)

**NURS 660 (Alpha) Selected Topics in Nursing (3)** Advanced study, exploration of special topics in clinical nursing. (1) current issues in professional nursing.

**NURS 661 Human Resource Management in Healthcare Agencies (3)** Analyze and critically evaluate basic issues, policies and trends in human resource management as it applies to health care agencies. A-F only. Pre: consent.

**NURS 662 Leadership and Management of Health Organizations (3)** Study of theoretical, conceptual and practical knowledge of leadership and management as applied to changing healthcare environments.

**NURS 663 Analysis of Healthcare Delivery Models (3)** Analysis of various clinical management concepts and health-care delivery systems influencing outcomes, process, and costs in the delivery of care.

- NURS 664 Seminar and Practicum in Nursing Executive Leadership (3)** Supervised practicum to build mid to senior level nursing leadership competencies and facilitate change in complex healthcare organizations. Pre: 663 (or concurrent) or consent.
- NURS 665 Clinical Economics and Finance (3)** Economic and financial concepts and tools for use in developing and managing patient care processes.
- NURS 668 Community Based Participatory Research (CBPR) for Advanced Practice Nurses (3)** Online course focuses on use of CBPR methods by Advanced Practice Nurses to address population level issues amenable to nursing interventions; 15 hours of didactic and 90 hours of field experience are included. A-F only. (Once a year)
- NURS 669 Introduction to Evidence-based Practice (3)** Introduces evidence-based practice models for use in nursing practice. Distinguishes process improvement, evidence-based practice, and research. Develops skills in searching, critiquing, and synthesizing the literature, pertinent to a clinical problem. A-F only. Pre: permission of course faculty. (Fall only)
- NURS 670 Advanced Practice Nursing During Public Health Disasters (3)** The role of the advanced professional nurse in public health preparedness, planning and response. Includes 45 hours of field work where the student will practice emergency response functional roles. NURS majors only. A-F only. Pre: consent. (Summer only)
- NURS 671 Biostatistics: Application in the Advanced Nursing Practice Setting (3)** Includes basic bio-statistical techniques and the application of statistical findings to practice programmatic decisions. NURS majors only. A-F only. Pre: graduate standing in the Department of Nursing or consent. (Once a year)
- NURS 672 Advanced Practice Community Public Health Nursing Practicum (V)** Student will conduct a complex service project for a public or community based agency. May be taken for 1-6 credits. (45 hours of practicum experience awarded for each one credit of the course) Repeatable one time. A-F only. Pre: 24 credits of MS in Community Public Health Nursing Program or consent.
- NURS 673 Implementation and Evaluation Strategies for Evidence-Based Practice (3)** Using knowledge of translational science, designs an implementation plan for a practice guideline. Determines evaluation methods and selects outcome variables that best measure success. Discusses institutionalization of, and identifies facilitators and barriers to, practice change. NURS majors only. Graduate standing only. A-F only. Pre: 669. (Spring only)
- NURS 675 Advanced Practice Clinical (V)** Application of concepts and principles of assessment, diagnosis, management and evaluation of clients in supervised clinical practicum for advanced practice nursing. Repeatable unlimited times. A-F only. Pre: 612/612L, 613, and 629 (or concurrent).
- NURS 680 Cultural Competency in Nursing Education (3)** Evaluates the impact of history on the culture of nursing and nursing education. Explore strategies to provide education in a culturally sensitive manner to culturally diverse students. NURS majors only. A-F only. Pre: graduate standing, or consent.
- NURS 682 Health and Healing Practices of Populations with Health Disparities in Hawai'i and Other Places (3)** Teaching and learning concepts applied to health promotion and the prevention of common conditions of disease among populations with health disparities in Hawai'i and other places; includes didactic and 45 hours of field experience. NURS majors only. A-F only. (Spring only)
- NURS 690 Curriculum Evaluation in Nursing Education (3)** Current trends of planning for evaluation and critical analysis and application of curriculum evaluation frameworks in nursing education. NURS majors only. A-F only. Pre: 747 or consent.
- NURS 693 Advanced Practice Clinical for Clinical Nurse Specialists (V)** Application of concepts and principles of education, consultation, research, and management and evaluation of clients in supervised clinical practicum for adult health clinical nurse specialist students. Repeatable five times. NURS majors only. A-F only. Pre: 612 (or concurrent), 612L (or concurrent), 613 (or concurrent), and 629 (or concurrent); or consent.
- NURS 695 Successful Aging: Physiologic (3)** Advanced study of the functional, cultural, psychological, and socioeconomic phenomena that impact the physiology of normal and abnormal aging. Emphasis is on promoting successful aging among elder residents of the Pacific Basin and applications to primary health care. Pre: consent.
- NURS 696 Nursing Education Capstone (3)** A culminating experience in nursing education program designed for students to integrate, critique, extend, and apply knowledge gained in the program. NURS majors only. A-F only. Pre: consent. (Spring only)
- NURS 699 Directed Study or Research (V)** Directed study of problems related to nursing theory and practice. Repeatable unlimited times. Pre: consent.
- NURS 700 Thesis Research (V)** Research for master's thesis. Repeatable unlimited times.
- NURS 702 Philosophical Thoughts (3)** Introduces the major fields of philosophy for use in research. Frameworks for the evaluation and critique of philosophical approaches to research will be explored, debated, analyzed, and applied as relevant to the PhD student's dissertation. NURS majors only. A-F only. (Fall only)
- NURS 721 Instrument Development and Evaluation in Research (3)** Theory of testing and evaluation applied to nursing research in culturally diverse populations. NURS majors only. A-F only. Pre: consent. (Once a year)
- NURS 730 Principles of Evidence-based Practice for Advanced Nursing (3)** Evaluates conceptual models for use in evidence-based practice. Refines skills in searching and critiquing the literature for application to practice change. Synthesizes a body of literature to design interventions pertinent to a practice problem. A-F only. (Fall only)
- NURS 739 Advanced Nursing Science (3)** Provides opportunities to know and practice the process of theory development in nursing and to test concepts, relationships, and models about health behavior in culturally diverse populations.
- NURS 741 Quantitative Methods and Measures (3)** Critical analysis of quantitative research methods used to analyze problems of interest to nursing in culturally diverse populations. Repeatable three times. Pre: 620 or equivalent course and an advanced statistics course; or consent.
- NURS 742 Qualitative Methods I (3)** Introduction to qualitative research methods in the development of nursing disciplinary knowledge related to culturally diverse populations. Pre: 620 or consent.
- NURS 743 Qualitative Methods II (3)** Advanced in-depth exploration of the data collection, data analysis and methodological issues in the qualitative research traditions (ethnography, grounded theory, phenomenology and critical theory) used in nursing research. NURS majors only. A-F only. Pre: 742 (or equivalent) or consent. (Once a year)
- NURS 744 Seminar on Women and Health (3)** Women's health and the role of women health professionals. Current literature and research regarding attitudes, roles, rights, and health care. Pre: consent. (Cross-listed as SW 776)
- NURS 745 Creative Learning Strategies for Adults (3)** Analysis of forces that affect adult learners. Concept of lifelong learning vis-à-vis development of creative strategies that assist maturing, self-directed persons to develop their potentialities. NURS majors only. (Cross-listed as EDEA 745 and EDEP 745)
- NURS 747 Curriculum Development (3)** Current theories, issues, and trends of curriculum development in nursing. Application and critiques of related research. NURS majors only.
- NURS 748 Supervised Practicum in Teaching (V)** Supervised experience in instructional planning and teaching. Repeatable up to 10 credits. NURS majors only. Pre: 747 (or concurrent) or consent.
- NURS 750 Leadership and Management of Healthcare Systems (3)** Integrate scientific findings from various fields of study to the leadership and management of healthcare systems to ensure the delivery of quality and safe care. A-F only. (Fall only)
- NURS 751 Concept Development and Analysis (3)** First course offering in-depth analysis of specific concepts and theoretical formulations of nursing and other disciplines pertinent to the student's area of research interest. Addresses human responses to health in culturally diverse populations. Pre: 739.
- NURS 752 Advanced Statistics I (3)** Advanced application of general linear model theory to analyze complex problems of interest to nursing in culturally diverse populations. NURS majors only. A-F only. Pre: 741 (or equivalent) or consent. Once a year.
- NURS 753 Advanced Statistics II (3)** Advanced application of multivariate statistics to analyze complex problems of interest to nursing in culturally diverse populations. A-F only. Pre: 741 and 752 or equivalent courses, or consent. Once a year.
- NURS 760 Trends in Healthcare (3)** Evaluates the historical foundations of healthcare systems and their relationship to current issues and trends in healthcare services. Analyzes the variations in healthcare delivery systems across nations and the impact on health outcomes. A-F only. (Fall only)
- NURS 761 Translational Science (3)** Synthesis and analysis of interventions and variables that influence the rate of adoption of innovations. Application of concepts to patient populations and systems of healthcare. A-F only. (Fall only)
- NURS 767 Culturally Competent Research Methods (3)** Analysis of concepts, issues, and methods in conducting culturally competent research in the health field. Pre: graduate methods course or consent.
- NURS 768 Advanced Clinical Economics and Finance (3)** Theory and practice of financial management to achieve high quality and cost effectiveness in healthcare. Hybrid course which combines face-to-face with online learning. NURS majors only. A-F only. Pre: 665, no waiver. (Alt. years)
- NURS 774 Best Practices in Leading Healthcare Patient Safety and Quality (3)** Examination of quality of health care, the process of managing health-care outcomes and costs in the delivery of care through the interdisciplinary process.
- NURS 775 Capstone Field Study (3)** Supervised experience in executive nursing leadership to address important health issues for high-risk or under-served populations utilizing an interdisciplinary systems-based approach. Pre: 664 and 774 (or concurrent), or consent.
- NURS 776 Doctor of Nursing Practice Scholarly Inquiry Project (V)** Under the guidance of their academic and external advisors, students will synthesize, integrate, and translate newly acquired knowledge and skills in the implementation and evaluation of their selected project over the course of their program. Repeatable unlimited times. CR/NC only.
- NURS 777 Nursing Research Practicum (3)** Faculty guided research opportunity to gain mastery of research skills and techniques through participation in mentored research. Repeatable one time. A-F only. Pre: 741 (with a minimum grade of B-), 742 (with a minimum grade of B-), 751 (with a minimum grade of B-) and a quantitative methods course.
- NURS 796 Grant Writing and Grant Management (3)** Designed to introduce students to grants, grant writing, and grant management. Combined

lecture discussion, seminar, and exercises on grants, grant writing, and grant management for health sciences. Open to NURS students only, others with approval. Repeatable one time. NURS majors only. Pre: instructor consent.

**NURS 800 Dissertation Research (V)** Research for doctoral dissertation. Repeatable nine times. Pre: consent.

## Obstetrics and Gynecology (OBGN)

*School of Medicine*

**OBGN 531 7-Week OB/GYN Clerkship (10)** 7-week basic obstetric/gynecology clerkship. Repeatable one time. Pre: third year standing.

**OBGN 532 Obstetrics and Gynecology Longitudinal Clerkship (5)** Year-long clerkship in outpatient setting, covering assessment, diagnosis, treatment, and/or management of common gynecologic problems and normal and complicated pregnancies. Emphasis on prevention and health maintenance. Repeatable two times. Pre: third-year standing, and concurrent registration in 532 courses.

**OBGN 545 (Alpha) Electives in OB/GYN (V)** Opportunities for advanced study of selected topics. (B) labor and delivery; (C) outpatient clinic at Queen's; (D) Sub-internship in family planning; (E) high-risk OB; (F) endocrinology; (G) oncology; (H) topics with individual preceptor; (I) extramural electives; (J) urogynecology and pelvic reconstructive surgery. Repeatable twice for each alpha. CR/NC only. Pre: 531 or 532.

**OBGN 599 Directed Reading/Research (3)** Pre: consent.

## Ocean and Earth Science and Technology (OEST)

*School of Ocean and Earth Science and Technology*

*The following courses are not part of a specified department's curriculum. These courses are highly interdisciplinary in nature, drawing on faculty expertise from throughout SOEST and the Mānoa campus. They are not based in any of the departments but are administered and coordinated by the associate dean's office.*

*OEST 735 is a key element of the graduate ocean policy certificate program.*

**OEST 099 International Exchange Study/Research (V)** Study overseas in an approved international exchange or similar program. Repeatable three times. CR/NC only. Pre: consent of academic advisor.

**OEST 101 Natural Hazards (3)** Science of natural hazards: impact on human civilization of events in the lithosphere, atmosphere, biosphere, and hydrosphere (e.g., earthquakes, hurricanes, red tides, and floods), and impact of humans on their exposure to and mitigation of the hazards. DP

**OEST 350 Ethics in Scientific Research (1)** Introduction to issues of ethics in scientific research and scientific misconduct. GG, GES or MET majors only. (Spring only)

**OEST 510 Earth Sciences Professional Development Education (V)** Specialized Earth Science topics workshops designed for in-service teachers who wish to learn new approaches and content areas in geology and geophysics, meteorology and oceanography. Repeatable up to 12 credits. Credits earned cannot be applied for graduate degrees.

**OEST 696 Communicating Ocean Sciences (3)** Application of current learning theory and pedagogical practices in formal and informal learning environments to improve communication and instructional skills. Graduate students from multiple science disciplines welcome. Requires knowledge of biology, earth sciences, and/or chemistry. Pre: at least one course in introductory biology, geology, earth science, chemistry or marine science, an interest in ocean science, and enthusiasm for teaching science; or consent. (Spring only)

**OEST 699 Directed Reading/Research (V)** Selected interdisciplinary ocean/earth-related topics involving science, technology, engineering, and/or policy. Repeatable one time. Pre: consent.

**OEST 735 Ocean Policy and Management (3)** Interdisciplinary approach to problems relating to humans and their interactions with the world's oceans and coasts. Focus includes institutions for governing the world's oceans and coasts at all scales and on the role of scientific knowledge in managing marine and coastal resources. Repeatable one time. Pre: OCN 331, GEOG 435, or consent. (Cross-listed as SOCS 735)

## Ocean and Resources Engineering (ORE)

*School of Ocean and Earth Science and Technology*

*A grade of B- or better is required in all prerequisite courses, except 330, which requires a grade of C- or better.*

**ORE 202 Ocean Technology—Man in the Sea (3)** Survey of human activities in the ocean, from the most traditional to the most innovative technical and engineering accomplishments. DP

**ORE 330 Mineral and Energy Resources (3)** Hard mineral and petroleum origins, exploration and exploitation. Renewable and non-renewable resources distribution. Political and scientific constraints. A-F only. Pre: 202 or OCN 201, or consent. (Cross-listed as OCN 330) DP

**ORE 411 Buoyancy and Stability (3)** Ship nomenclature and geometry, hydrostatic principles of surface ships and underwater vehicles in free-floating, partially waterborne, and damaged conditions. Subdivision of ships. Launching. Pre: CEE 270 or equivalent. DP

**ORE 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B candidate and consent.

**ORE 601 Ocean and Resources Engineering Laboratory (3)** Design, construction, and evaluation of an engineering system. Laboratory and field experience and data analysis supplemented with appropriate theory. Pre: 603 and 607, or consent.

**ORE 603 Oceanography for Ocean Engineers (3)** Physical, chemical, biological, and geological ocean environments for ocean engineers. Introduction to ocean dynamical processes and general circulation. Ocean measurement techniques, theory of underwater acoustics. Sonar, swath bathymetry, and tomography applications. Pre: consent.

**ORE 607 Water Wave Mechanics (3)** Governing equations in free surface flow, deterministic and probabilistic wave theories, wave transformation, wave-induced coastal currents, tides, ocean engineering operational sea state, and design wave criteria. Pre: consent.

**ORE 608 Probability and Statistics for Ocean Engineers (3)** Probability and statistical analysis including distributions, multiple regression and correlation, autocovariance, cross-spectra, and practical applications in ocean engineering. Pre: 607 or consent.

**ORE 609 Hydrodynamics of Fluid-Body Interaction (3)** Hydrodynamics of ships, coastal and offshore structures. Wave forces by potential theory and by Morison's equation. Method of source distribution for potential flow problems. Flows with prescribed body motion, fixed and freely floating bodies. Pre: 607 or consent.

**ORE 612 Dynamics of Ocean Structures (3)** Response of floating platforms and vessels to wave action, spectral analysis in sea keeping. Frequency and time domain analyses of rigid body motions in six degrees of freedom. Pre: 411 or consent. Co-requisite: 609 or consent.

**ORE 630 Structural Analysis in Ocean Engineering (3)** Structural and finite element analyses and design of ocean structures to withstand hydrostatic

and hydrodynamic loading of the sea. Considerations include material type, safety factor, stress concentration, and fatigue. Pre: consent. Co-requisite: 411.

**ORE 641 Environmental Fluid Dynamics (3)** Fluid dynamics for coastal and estuarine environments. Turbulent mixing processes in homogeneous and stratified fluids. Buoyancy driven flows, internal hydraulics, topographic effects and estuarine circulation. Spill and pollutant dispersal. Pre: 603 or consent.

**ORE 654 Applications in Ocean Acoustics (3)** Using sound to observe the ocean. Fundamentals of propagation. Topics include marine mammals, navigation and communication, seismics, ships, wind and rain, ocean dynamics, flow and biological imaging and measurement, seafloor mapping, and the forward/inverse problem. Pre: consent. (Once a year)

**ORE 661 Coastal and Harbor Engineering (3)** Planning and design of seawalls, groins, jetties, breakwaters, and layout of ports. Design requirements for harbor entrances and channels. Littoral drift and sedimentation problems. Navigation and mooring requirements. Pre: 607 or consent.

**ORE 664 Nearshore Processes and Sediment Transport (3)** Sediment transport by waves and currents in coastal areas and its effect on morphological processes. Effect of man-made structures on littoral drift and shoreline. Pre: 607 or consent.

**ORE 677 Marine Renewable Energy (3)** Ocean thermal energy conversion (OTEC) systems: applicability, thermodynamics, design challenges; wave energy converters: floating devices, oscillating water column, optimal hydrodynamic performance; current, tidal, and offshore wind power. Pre: 607; basic knowledge of thermodynamics desirable.

**ORE 678 Marine Mineral Resources Engineering (3)** Activities in marine minerals development are examined in a multidisciplinary systems approach involving engineering, Earth and environmental sciences and economics. Pre: graduate standing consent.

**ORE 695 Plan B Master's Project (3)** Independent study for students working on a Plan B master's project. A grade of Satisfactory (S) is assigned when the project is satisfactorily completed. Pre: master's candidacy in ORE.

**ORE 699 Directed Reading or Research (V)** Repeatable unlimited times. Pre: graduate standing and consent.

**ORE 700 Thesis Research (V)** Repeatable unlimited times. Pre: candidacy for MS in ocean and resources engineering.

**ORE 707 Nonlinear Water Wave Theories (3)** Higher-order theories. Forced oscillations. Stoke's theory. Nonlinear shallow-water wave equations and hydraulic jumps; effects of rotation. Internal waves. Analytical techniques necessary will be developed as course progresses. Pre: 607 with a B- grade.

**ORE 766 Numerical Methods in Ocean Engineering (3)** Formulation and application of numerical methods for simulating and solving ocean engineering problems. Mathematical and computational fundamentals; accuracy and stability; numerical interpolation, differentiation, and integration; boundary element, finite difference, and finite element methods. Pre: consent.

**ORE 783 (Alpha) Capstone Design Project (3)** Major design experience based on knowledge and skills acquired in earlier coursework and incorporating realistic constraints that include economic, environmental, ethical, social, and liability considerations. Emphasis is placed on teamwork and consultant-client relationship. (B) coastal engineering; (C) offshore engineering; (D) ocean resources engineering. Pre: 411, 601, 603, and 607; or consent.

**ORE 791 Special Topics in Ocean and Resources Engineering (V)** Content will reflect special interests of visiting and permanent faculty. Pre: consent.

**ORE 792 Seminar in Ocean and Resources Engineering (1)** Attendance at 15 approved seminars is required along with submission of notes.

**ORE 800 Dissertation Research (V)** Repeatable unlimited times. Pre: candidacy for PhD in ocean and resources engineering.

## Oceanography (OCN)

*School of Ocean and Earth Science and Technology*

*The minimum required grade for undergraduate prerequisites is a C (2.0) or better, and graduate prerequisites is a B (3.0) or better.*

**OCN 100 Global Environmental Science Seminar (1)** Seminar to introduce new GES majors to the research interests of GES faculty and the research facilities available within SOEST. Restricted to GES majors. CR/NC only. (Fall only)

**OCN 120 Global Environmental Challenges (3)** Scientific approach to evaluating human-caused environmental challenges and their potential solutions. Open to non-majors. (Spring only) **DP**

**OCN 199 Introduction to Directed Research (V)** Reading and research in any area of Oceanography under the direction of a faculty member. Repeatable up to six credits. CR/NC only.

**OCN 201 Science of the Sea (3)** Structure, formation, and features of ocean basins; seawater properties and distributions; currents; waves; tides; characteristics of marine organisms; marine ecological principles; man and the sea. Field trip required. **DP**

**OCN 201L Science of the Sea Laboratory (1)** Experiments, computer exercises and field trips demonstrating the geological, physical, chemical and biological principles of earth and ocean sciences. A-F only. Co-requisite: 201. **DY**

**OCN 310 Global Environmental Change (3)** Global environmental change problems such as carbon dioxide and the greenhouse effect, acid rain, chlorofluorocarbons and the ozone layer, global deforestation and the effect on climate, etc. Pre: 201, MET 200, GG 101, GG 103, or GG 170; or consent. (Cross-listed as MET 310) **DP**

**OCN 310L Global Environmental Change Laboratory (2)** (2-hr Lab) Laboratory to supplement OCN 310. Quantitative aspects of global environmental change will be addressed through problem-solving and computer modeling. A-F only. Pre: MATH 242, PHYS 170/170L, CHEM 161/161L, and OCN 310; or consent. Co-requisite: 310 or consent. (Fall only) **DY**

**OCN 312 Geomathematics (3)** Mathematical methods of geologic and geophysical science. Emphasis on application to earth-science problems using linear algebra, vector calculus, ordinary differential equations, and numerical solutions. Pre: MATH 242 or consent. (Cross-listed as GG 312)

**OCN 315 The Role of Models in Global Environmental Science (3)** Introduction to philosophy of science for those with some background in the natural sciences. Special emphasis on issues arising from the construction and use of models. Pre: any course 200 or above in PHIL or any course 200 or above with either DB or DP designation, or consent. (Alt. years: spring) (Cross-listed as PHIL 315)

**OCN 320 Aquatic Pollution (3)** Pollution of freshwater and marine systems by human activities. Causes, consequences, and correctives. Pre: 201 or consent. **DP**

**OCN 330 Mineral and Energy Resources of the Sea (3)** Hard mineral and petroleum origins, exploration, and exploitation. Renewable and non-renewable resources distribution. Political and scientific constraints. Pre: 201, ORE 202; or consent. (Cross-listed as ORE 330) **DP**

**OCN 331 Living Resources of the Sea (3)** Marine fisheries, aquaculture, and law of the sea. Principles of management of renewable resources. Political and scientific constraints and limitations. **DB**

**OCN 363 Earth System Science Databases (3)** Combined lecture, discussion, and laboratory on global Earth system databases and satellite instrumentation, including computer laboratory. A-F only. Pre: 310/310L, and MATH 244; or consent. **DP**

**OCN 395 Undergraduate Internship (V)** Experiential approach to earth science; students serve as interns to field professionals; responsibilities include supervised field work. Undergraduate SOEST majors only. Open to GES majors. Repeatable one time. CR/NC only. Pre: junior/senior standing and consent.

**OCN 399 Directed Reading (V)** Directed reading in earth system science, oceanography, or environmental science. Repeatable up to 6 credits. Pre: consent.

**OCN 401 Biogeochemical Systems (3)** Relationship of biogeochemical cycles in the atmosphere, lithosphere, and biosphere to global chemical cycles and planetary climatic conditions. GES degree foundation and capstone course. A-F only. Pre: 201, 310/310L or MET 310/310L or OEST 310/310L, BIOL 172/172L, CHEM 162/162L, GG 101/101L, MATH 241, MATH 243 & 252A, MATH 373 (or ECON 321), MET 200, PHYS 170/170L, and PHYS 272/272L; or consent. (Fall only) **DP**

**OCN 403 Marine Functional Ecology and Biotechnology (3)** Marine functional genomics, biodiversity of marine natural habitats, marine microbial communities and their ecological functions, interactions of marine microbes and their host, climate change and marine biodiversity, marine biotechnology. A-F only. Pre: 201 or MICR 130, or consent. (Spring only) (Cross-listed as MBBE 405)

**OCN 423 Marine Geology (3)** Sediments, structure, geophysics, geochemistry, history of ocean basins and margins. Pre: GG 200 and GG 302, or consent. (Cross-listed as GG 423) **DP**

**OCN 430 Introduction to Deep-Sea Biology (3)** (1.5 Lec, 1.5 Discussion) Biology and ecology of deep-sea organisms and communities. Topics including benthic-pelagic coupling, depth zonation, energetics, diversity, adaptations, hydrothermal vents, seamounts, abyssal plains, deep-sea resource extraction and global climate change. A-F only. Pre: 201 and BIOL 265, or consent. (Alt. years)

**OCN 435 Climate Change and Urbanization (3)** The following topics will be addressed: How are cities impacted by, and impacting climate change? How do urbanization, alteration of atmospheric processes, and extreme weather events affect urban systems and populations? A-F only. Pre: 363 or consent. (Fall only)

**OCN 444 Plate Tectonics (3)** (2 Lec, 1 3-hr Lab) Quantitative geometrical analysis techniques of plate tectonics theory; instantaneous and finite rotation poles; triple-junction analysis; plate boundary stresses. Pre: GG 200 or consent. (Alt. years) (Cross-listed as GG 444)

**OCN 450 Aquaculture Production (3)** Theory and practice of aquaculture: reproduction, yield trials, management, economics, and business case studies of fish, crustaceans, and molluscs. Field classes held at commercial farm and hatchery. Pre: ANSC 321 and ANSC 445; or BIOL 172/L and CHEM 162/L or higher. (Cross-listed as ANSC 450) **DB**

**OCN 480 Dynamics of Marine Ecosystems: Biological-Physical Interactions in the Oceans (3)** Combined lecture and discussion examining biological and physical interactions in the oceans and their impacts on the functioning of marine ecosystems. GES majors only. A-F only. Pre: 201, 201L, 310/310L, and PHYS 272/272L; or consent. (Alt. years)

**OCN 481 Introduction to Ocean Ecosystem Modeling (3)** Introduction to modeling biogeochemical and physical oceanic processes by building a coupled model of the Pacific to investigate physical effects on plankton blooms. Students learn ecosystem dynamics, basic numerical methods, and Matlab programming. A-F only. GES majors only. Pre: 310 or PHYS 272, and OCN/GG 312 (with a minimum grade of B-). (Spring only)

**OCN 490 Communication of Research Results (2)** Lecture/discussion to provide instruction and

experience in oral and written presentation of scientific results and material. Registration limited to GES majors in their final semester. A-F only. Pre: consent.

**OCN 496 Topics in Global Environmental Science (V)** Lecture and discussion or seminar. Current topics in environmental science explored in detail. Typically offered by faculty in their specialties, or developed in response to student interest. GES majors only. Repeatable one time or up to six credits. Pre: consent.

**OCN 499 Undergraduate Thesis (V)** Directed research in which the student carries out a scientific project of small to moderate scope with one or more chosen advisors. The student must complete a document in the style of a scientific journal article. Repeatable one time or up to six credits. Pre: consent.

**OCN 601 Marine Biology-Environments and Organisms (4)** (3 hr Lec, 3 hr Lab) Introduction to the diversity of marine organisms and the many specialized coastal, reef, and oceanic habitats in which they live. Lab and field research exercises will complement lecture subjects. Graduate standing in Marine Biology graduate degree program only. A-F only. Pre: consent. (Fall only) (Cross-listed as MBIO 601)

**OCN 620 Physical Oceanography (3)** Introduction to properties of seawater, oceanographic instruments and methods, heat budget, general ocean circulation, regional oceanography, waves, tides, sea level. Formation of water masses, dynamics of circulation. Repeatable one time. Pre: MATH 242 (or concurrent), or consent.

**OCN 621 Biological Oceanography (3)** Factors governing productivity, population dynamics, distribution of organisms in major ecosystems of the ocean, emphasis on ecology of pelagic zone. OCN majors only. Pre: consent.

**OCN 622 Geological Oceanography (3)** Marine geological processes, ocean basin structure and tectonics, sedimentation. Pre: GG 101.

**OCN 623 Chemical Oceanography (3)** Chemical processes occurring in marine waters; why they occur and how they affect oceanic environment. Pre: CHEM 171.

**OCN 625 Aquatic Photosynthesis (3)** Biochemical and biophysical concepts of photosynthesis. Application and interpretation of ecological processes of photosynthesis in aquatic systems. Open to nonmajors. A-F only. Pre: consent. (Spring only)

**OCN 626 Marine Microplankton Ecology (4)** (3 Lec, 1 3-hr Lab) Distribution, abundance, and ecology of marine microplankton, including bacteria, algae, and protozoans, with an emphasis on metabolic rates and processes. Pre: consent. (Fall only)

**OCN 627 Ecology of Pelagic Marine Animals (4)** (3 Lec, 1 3-hr Lab) Ecology of pelagic animals including feeding, energetics, predation, and anti-predation tactics. Life-history strategies, vertical flux of materials, population dynamics, fisheries. Pre: consent. (Spring only)

**OCN 628 Benthic Biological Oceanography (4)** (3 Lec, 1 3-hr Lab) Processes controlling the structure and function of benthic communities, including organism-sediment-flow interactions, sediment geochemistry, feeding strategies, recruitment, succession, and population interactions. Pre: consent.

**OCN 629 Molecular Methods in Marine Ecology (3)** Molecular methods for studying marine functional ecology; emphasis on hand-on tools for ecological and biogeochemical processes of microbes; developing practical skills for research project in marine microbial ecology and biological oceanography. A-F only. Pre: 403, 626, 627, or 628; or consent. (Fall only)

**OCN 630 Deep-Sea Biology (3)** (1.5 Lec, 1.5 Discussion) Biology and ecology of deep-sea organisms and communities. Topics including benthic-pelagic coupling, depth zonation, energetics, diversity, adaptations, hydrothermal vents, seamounts, abyssal plains, deep-sea resource extraction, and global climate change. Pre: consent. (Alt. years)

**OCN 631 Ocean Minerals (3)** Distribution, origin, processes of formation. Sulfides, oxides, and placer minerals. Comparative studies of continental ore bodies. Submarine rift, subduction, and abduction. Pre: one of 622, 623, GG 407, or GG 603.

**OCN 633 Biogeochemical Methods in Oceanography (3)** (1 Lec, 2 3-hr Lab) Current methods of analysis used in the ocean sciences, both in the field and in the laboratory. An ocean-going field trip provides students with hands-on training in sample collection and processing. The latter is followed by laboratory analyses of the collected samples throughout the remainder of the semester. Pre: BIOL 171 and CHEM 161 and GG 101; or consent.

**OCN 637 Aquatic Microbial Geochemistry (3)** The synergy between the biogeochemistry of element cycling and the microbial organisms involved, interfacing across disciplines from the perspective of a practical blend of aquatic chemistry, microbiology, biogeochemistry, and molecular biology. Pre: 623 and consent. (Alt years: fall)

**OCN 638 Earth System Science and Global Change (3)** Global view of the planet and how it functions as an integrated unit. Biogeochemical processes, dynamics, and cycles, and analysis of natural and human-induced environmental change. Chemical history of ocean-atmosphere-sediment system and co-evolution of the biota. Repeatable one time. Pre: BS in environmentally related science or one year of chemistry, physics, and calculus. (Cross-listed as GG 638)

**OCN 640 Observational Physical Oceanography (3)** Application of the scientific method; physical regimes in the ocean; ocean processes and observational strategies; resolution, sampling, array design and observing systems; models and data assimilation; major field programs; operational oceanography and climate prediction. Pre: 620 and consent.

**OCN 641 Origin of Sedimentary Rocks (3)** (2 Lec, 1 3-hr Lab) Environment of deposition and subsequent diagenesis of modern and ancient sediments. Petrogenesis of siliclastic, carbonate and orthochemical rocks. Sedimentology, sedimentary petrography and geochemistry. Repeatable one time. Pre: consent. (Cross-listed as GG 641)

**OCN 642 Elemental Composition Changes (3)** Changes in the chemical composition of meteorites, bulk Earth, Earth's mantle and crust, sedimentary rocks, hydrosphere and biosphere, and underlying principles. Pre: consent. (Cross-listed as GG 642)

**OCN 643 Topics in Marine Geochemistry (3)** Seminar on a broad topic; discussion and critique of research papers. Repeatable one time. Pre: 623 or consent.

**OCN 644 Sedimentary Geochemistry (3)** Geochemical thermodynamics and kinetics and their use in interpreting the origin of sediments, sedimentary rocks, and natural waters over a range of pressure-temperature conditions. Pre: CHEM 171, MATH 242, PHYS 152; or consent. (Cross-listed as GG 644)

**OCN 650 Math Techniques for Oceanographers (5)** (3 Lec, 2 3-hr Lab) Introduction to numerical methods, data analysis, error propagation, box models, linear and nonlinear least squares, perturbation theory, numerical integration. Pre: MATH 244 or MATH 253A.

**OCN 660 Ocean Waves I (3)** Survey of wave types-acoustic, capillary, gravity, inertial, vorticity. Basic wave concepts emphasized: phase and group velocities, standing waves, energy conservation, dispersion, refraction, diffraction. Rotation and boundary effects are covered: reflection, basin modes, trapping, tides. Pre: MATH 402 or consent.

**OCN 661 Ocean Waves II (3)** Baroclinic gravity waves, inertial waves, mid-latitude Rossby waves, topographic waves, equatorial waves. Pre: 660 or consent.

**OCN 662 Marine Hydrodynamics (3)** Introduction to classical hydrodynamics and continuum mechanics. Techniques for solution of Navier Stokes

equations on various scales of oceanic motion; potential theory, dynamic modeling, and viscous and rotational processes. Pre: MATH 403.

**OCN 665 Small-Scale Air-Sea Interaction (3)** Observations and theory of small-scale processes which couple the atmosphere and ocean boundary layers, including introduction to turbulence theory and parameterization of turbulent fluxes. Pre: MATH 402 and MATH 403 (or their equivalents) and either 620 or MET 600, or consent. (Alt. years) (Cross-listed as MET 665)

**OCN 666 Large-Scale Ocean-Atmosphere Interactions (3)** Lecture/seminar introduces physical oceanography and meteorology students to the state-of-the-art theories and observations of large-scale ocean-atmosphere interaction, as well as conveying the fundamental understanding that has been developed during the past 30 years. Emphasis will be on phenomena such as El Niño/Southern Oscillation, the North Atlantic Oscillation, the Pacific Decadal Oscillation, and global climate change. Repeatable one time. Pre: 620 or MET 600, or consent. (Alt. years) (Cross-listed as MET 666)

**OCN 667 Advanced Geophysical Fluid Dynamics I (3)** Basic concepts and equations to describe large-scale ocean circulation; numerical models; boundary layers; models of wind-driven circulation of a homogeneous ocean. Pre: 620 and 662, or consent.

**OCN 668 Advanced Geophysical Fluid Dynamics II (3)** Thermodynamics of stratified fluids; convection; mixing; models of the thermohaline circulation; the role of eddies in the large-scale ocean circulation. Pre: 667 or consent.

**OCN 674 Paleooceanography (3)** Study of the paleoceanographic and paleoclimate evolution of the Earth's oceans, atmosphere, and biosphere. Repeatable one time. Pre: consent. (Alt. years) (Cross-listed as GG 674)

**OCN 680 Dynamics of Marine Ecosystems: Biological-Physical Interactions in the Oceans (3)** Combined lecture/discussion examining biological and physical interactions in the oceans and their impacts on the functioning of marine ecosystems. A-F only. Pre: previous course in marine science, or consent. (Alt. years)

**OCN 681 Introduction to Ocean Ecosystem Modeling (3)** Introduction to modeling biological and physical oceanic processes by building a coupled model of the Pacific to investigate physical effects on biological production. Students will learn biological-physical dynamics, basic numerical methods, and Matlab programming. Pre: 620, 621, or consent. (Alt. years)

**OCN 699 Directed Research (V)** Repeatable unlimited times. Pre: consent. CR/NC only.

**OCN 700 Thesis Research (V)** Research for master's thesis. Repeatable unlimited times.

**OCN 750 Topics in Biological Oceanography (V)** Seminar. Literature and concepts in one of several active fields considered in detail. Repeatable up to 12 credits. Pre: consent.

**OCN 760 Topics in Physical Oceanography (V)** Near-shore processes, advanced mathematical techniques, recent developments, etc. Typically given by visiting professors in their specialties, or in response to student interest. Repeatable up to 12 credits.

**OCN 770 Seminar in Chemical Oceanography (1)**

**OCN 780 Seminar (1)** Oceanographic topics of current interest. Repeatable unlimited times.

**OCN 791 Proposal Development (2)** Introduction to the organization and functioning of oceanography funding agencies, the peer-review process, and the design and development of a research proposal. Repeatable one time. CR/NC only. Pre: two of the following: 621, 626, 627 (or concurrent), or 628 (or concurrent); or consent.

**OCN 800 Dissertation Research (V)** Research for doctoral dissertation. Repeatable unlimited times.

## Pacific and Asian Studies (PAS)

*School of Pacific and Asian Studies*

**PAS 099 Overseas Study (V)** Registration allows student to maintain enrolled status at UH Mānoa while taking courses abroad. CR/NC only. Pre: consent.

## Pacific Islands Studies (PACS)

*School of Pacific and Asian Studies*

**PACS 108 Pacific Worlds: An Introduction to Pacific Islands Studies (3)** Introduces students to the geography, societies, histories, cultures, contemporary issues, and arts of Oceania, including Hawai'i. Combines lectures and discussion that emphasize Pacific Islander perspectives and experiences. A-F only. **DS**

**PACS 201 Islands of Globalization (3)** Combined lectures, service-learning. Examines the nature and impact of globalization on Pacific Island societies, viewed from the perspective of islanders who engage with global forces and processes, and create strategies to survive. Limit 20 students. A-F only. Pre: either 108 or HWST 107, or consent. **DS**

**PACS 202 Pacific Islands Movement and Migration (3)** Combined lecture and service-learning activities. Examines the diaspora of Pacific Islanders. Includes a service-learning activity examining cultural, political, and economic status of groups of Pacific Islanders living in other Pacific places. Limit of 20 students. A-F only. Pre: either 108 or HWST 107, or consent. **DS**

**PACS 301 Pacific Communities in Hawai'i (3)** Examines Pacific Islander communities' experiences in Hawai'i through service learning, reading, writing, lecture, and discussion. Concerns about housing, employment, education, health, language, and culture are central. A-F only. Pre: 108 or 201 or 202, or consent. **DS**

**PACS 302 Contemporary Issues in Oceania (3)** Combined lecture/discussion. Examination of critical political, social, and economic issues in the Pacific Islands region today. Pre: 108 or 201 or 202, or consent. **DS**

**PACS 371 Literature of the Pacific (3)** Basic concepts and representative texts for the study of the literature of the Pacific, including Pacific voyagers and contemporary writings in English by Pacific Islanders. Pre: one ENG DL course or consent. (Cross-listed as ENG 371) **DL**

**PACS 399 Directed Research (V)** Repeatable up to 12 credits.

**PACS 401 Senior Capstone (3)** Capstone for Pacific Islands Studies students to engage in intensive collaborative research with a Pacific Islander community in Hawai'i, culminating in a research paper and public presentation. PACS majors only. A-F only. Pre: 108 and 201 and 202, and either 301 or 302.

**PACS 462 Drama and Theatre of Oceania (3)** Survey of the contemporary drama and theatre of Oceania that combines island and Western traditions. Includes Papua New Guinea, Hawai'i, Fiji, Samoa, Australia, New Zealand. Pre: ANTH 350 or THEA 101, or consent. (Cross-listed as THEA 462) **DH**

**PACS 492 Topics in Pacific Islands Studies (3)** Repeatable two times. Pre: upper division standing, or consent. **DS**

**PACS 494 Culture and Consumption in Oceania (3)** Lecture on changing patterns of consumption in Oceania, and the historical, political, cultural, artistic, and economic forces shaping such practices. Pre: upper division standing, or consent.

**PACS 495 Encountering Tourism in Asian-Pacific Societies (3)** A critical examination of a wide spectrum of issues relating to the evolution and current impact of tourism on contemporary Asian and Pacific Islands societies. Topics include colonial antecedents, social impacts, cultural and environmental concerns, case studies (including Hawai'i). Pre:

ASAN 201 or ASAN 202, or consent. (Cross-listed as ASAN 495) **DS**

**PACS 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**PACS 601 Learning Oceania (3)** Graduate seminar. Introduction to the nature and origins of Pacific Studies as an organized field of study. Epistemological, conceptual, political and ethical issues facing students of the region today. Co-requisite: 602.

**PACS 602 Re/Presenting Oceania: Pacific and American Perspectives (3)** Graduate seminar. Critical analysis of the way physical, social and cultural aspects of Oceania have been represented in scholarly and popular media. Co-requisite: 601.

**PACS 603 Researching Oceania: Creative and Conventional Methods of Inquiry (3)** Graduate seminar. Literacy, theory and method in the creation of a Master's research project. Pre: 601 and 602.

**PACS 640 Women in Oceania (3)** Will look at feminist theory, ethnography, culture, activism and globalization in the context of writing, research and film on or by Women in Oceania. Pre: consent.

**PACS 690 Graduate Seminar: Change in the Pacific (3)** Interrelationship of change in selected Pacific Islands regions, institutions, and processes. Repeatable two times. Pre: consent.

**PACS 695 Master's Portfolio Project (V)** Independent study for students working on MA portfolio projects. A grade of satisfactory (S) is assigned when the project is satisfactorily completed. Repeatable one time. Pre: graduate standing in PACS.

**PACS 699 Directed Reading and Research (V)** Repeatable unlimited times.

**PACS 700 Thesis Research (V)** Repeatable unlimited times.

## Pathology (PATH)

### School of Medicine

**PATH 470 Immunopathology Seminar (1)** Autoimmune diseases and transplantation immunity. Pre: consent.

**PATH 499 Directed Research (V)** Pathology of aging, nutrition, alcoholism, and immunology. Open to selected undergraduate students. Repeatable unlimited times. Pre: consent.

**PATH 512 Unit II Concurrent Elective (1)** Elective course for first-year medical students. CR/NC only. Pre: BIOM 551 and consent.

**PATH 515 Unit V Concurrent Elective (1)** Elective course for second-year medical students. CR/NC only. Pre: BIOM 551 and consent.

**PATH 525 Unit V Block Elective (V)** Required elective for second-year medical students, objectives to be determined by contract. One option is a review of USMLE Part I. CR/NC only. Pre: BIOM 551.

**PATH 541 Pathology Practicum (V)** Required autopsy experience involving dissection and microscopic examination of tissues and detailed evaluation of disease process. CR/NC only. Pre: third- or fourth-year standing.

**PATH 545 (Alpha) Unit VII Electives in Pathology (V)** Individualized instruction in laboratory medicine for the practicing physician, clinical and anatomic pathology: (B) advanced topics in clinical immunology; (C) anatomic pathology; (D) clinical pathology; (E) pathologic aspects of aging, nutrition, and/or alcoholism; (F) extramural elective in pathology. Repeatable four times. CR/NC only. Pre: BIOM 555.

**PATH 595 Introduction to Pathology and Laboratory Medicine (1)** Provides an introduction to the practice of pathology and laboratory medicine and the role pathologists and the laboratory play in the diagnosis and management of disease. MD students only. CR/NC only. Pre: MDDE 554 or consent. (Fall only)

**PATH 599 Electives in Pathology (V)** Individualized instruction in clinical and/or anatomic pathology. Third-year elective. Repeatable unlimited times. Pre: consent.

**PATH 699 Directed Research (V)** In-depth study of pathology of aging, nutrition, alcoholism, and immunology. Open to medical students and selected graduate students. Repeatable unlimited times. Pre: consent.

## Peace Studies (PACE)

### College of Social Sciences

**PACE 247 Survey of Conflict Management (3)** Survey of contemporary conflict management and resolution: negotiation, mediation, conciliation, ombuds, fact-finding, facilitation techniques, arbitration, and litigation. Pre: any social science 100- or 200-level course or consent. **DH**

**PACE 310 Survey Peace and Conflict Studies (3)** Survey of basic concepts, relationships, methods, and debates in modern peace research and conflict resolution studies. Pre: any social science 100- or 200-level course or consent. **DS**

**PACE 315 Personal Peace: Stories of Hope (3)** Interviewing, writing, and publishing stories of those who have overcome great difficulties to find personal peace. Pre: grade of B or better in ENG 100 or consent. **DH**

**PACE 345 Aggression, War, and Peace (3)** Biocultural, evolutionary, and cross-cultural perspectives on the conditions, patterns, and processes of violence, war, nonviolence, and peace. Pre: ANTH 152. (Cross-listed as ANTH 345) **DS**

**PACE 373 Nonviolent Political Alternatives (3)** Exploration of scientific and cultural resources for nonviolent alternatives in politics. Pre: any 100- or 200-level POLS course; or consent. (Cross-listed as POLS 396) **DS**

**PACE 399 Directed Reading (V)** Directed reading in peace and conflict resolution. Repeatable three times. Pre: consent.

**PACE 410 History of Peace Movements (3)** Examination of two centuries of U.S., European, Australian, and Hawaiian peace, thought, and action. Also surveys early Christian and secular attitudes to war. Open to nonmajors. Pre: any DS course, or consent. **DH**

**PACE 412 Gandhi, King, and Nonviolence (3)** Life and thought of Mahatma Gandhi and Martin Luther King, Jr. Pre: any Social Science 100 or 200 level course, or consent. **DH**

**PACE 413 Terrorism (3)** Multidisciplinary approach to the origins, dynamics, and consequences of international terrorism, including the psychological, legal, ethical and operational concerns of counterterrorism. Pre: any 200-level DS course, or consent.

**PACE 420 Introduction to Human Rights: International and Comparative Perspectives (3)** Introduction to international, regional, and domestic human rights law; comparative perspectives on the theoretical origins of human rights and policy debates on the protection of human rights, dispute resolution, and enforcement mechanisms. Pre: any 100 or 200 level social sciences course, or consent.

**PACE 429 Negotiation (3)** Negotiation theory, negotiation skills and application of negotiation in conflict prevention, conflict management and conflict resolution. Pre: any Social Science 100 or 200 level course, or consent. **DH**

**PACE 447 Mediation Skills: UH Basic (3)** Basic mediation skills training course. Completion of course requirements qualifies student to be listed as a mediator for university disputes, as co-mediator or on mediation panel. Pre: either 247, 310, or consent.

**PACE 477 Culture and Conflict Resolution (3)** Conflict resolution techniques for major world culture. Emphasis on cultures of the Pacific Basin,

Pacific Islands, and Asia. Pre: any DS course, or consent. **DS**

**PACE 478 International Law and Disputes (3)** Management, prevention, resolution of international disputes and the role of international law. Pre: any Social Science 100 or 200 level course, or consent. **DS**

**PACE 485 Topics in Peace and Conflict Resolution (3)** Recent issues, practices in peace and conflict resolution. Repeatable one time. Pre: any DS course, or consent. **DS**

**PACE 489 Hiroshima & Peace (3)** 10-day intensive course at Hiroshima City University, Japan, in the 2-weeks before the annual August 6 commemoration of the atomic bombing. Home-stay with Japanese family. Sophomore standing. A-F only. Pre: any 200 level social science course, or consent. **DH**

**PACE 495 Practicum and Internship (3)** The practicum and internship in Peace and Conflict Resolution provides an opportunity for students to apply the skills and concepts learned in earlier courses. Pre: any two other PACE courses or consent.

**PACE 629 Advanced Negotiation (3)** Mastery of advanced negotiation skills for strategic dispute resolution, non-routine problem-solving, creating partnerships and alliances, and crafting optimal agreements. Students participate in simulations and acquire personal and professional skills vital for leadership. Graduate standing only. Pre: one of the following courses: 429, 447, 477, 647, 652, or 668; or PLAN 627; or COMG 455 or SOC 730; or LAW 508; or MGT 660.

**PACE 647 Mediation: Theory and Practice (3)** Combined lecture, discussion, and mediation simulations. Theory of ADR field. Theory of major different models of mediation, both in the U.S. and internationally. Application of mediation process to categories of disputes, family, workplace, and international. A-F only. Pre: graduate standing, or departmental approval. (Once a year)

**PACE 650 Dispute Resolution System Design (3)** Conflict prevention, management and resolution in the workplace. Design and implementation of effective systems integrating ADR and recent advances in dispute resolution methodology to government, health, nonprofit, educational, private sector and other institutions. Pre: 447 or 652 or MGT 660 or PLAN 627, or consent.

**PACE 652 Conflict Management for Educators (3)** Conflict resolution theory and practice for administrators, faculty and staff in educational organizations. K-12, community colleges and universities. Application and theory of negotiation, mediation, facilitation and hybrid ADR processes. Pre: EDEA 601 or EDEA 650, or consent. (Cross-listed as EDEA 652)

**PACE 668 Facilitation: Facilitating Community and Organizational Change (3)** Advanced conflict resolution course. Covers key issues in the prevention, management and resolution of multiparty conflicts. Combined lecture, discussion, and simulations. A-F only. Pre: graduate standing, or departmental approval. (Once a year)

**PACE 690 Topics: Conflict Theory (V)** Recent issues of policy and practice in peace and conflict management theory. Repeatable up to 12 credits. A-F only. Pre: graduate standing or consent.

**PACE 695 Conflict Resolution Practicum (V)** Practice in conflict resolution skills. Open to candidates for Certificate in Conflict Resolution. Repeatable one time or up to three credits. A-F only. Pre: consent.

**PACE 699 Directed Reading and Research (V)** Repeatable up to 9 credits. A-F only. Pre: departmental approval or consent.

**PACE 790 Advanced Topics: Conflict Theory (3)** Advanced seminar covering issues of policy and practice in peace and conflict management theory. Repeatable one time. Graduate standing only. Pre: consent.

## Pediatrics (PED)

### School of Medicine

**PED 531 7-Week Pediatric Clerkship (10)** 7-week basic pediatric clerkship. Repeatable one time. Pre: third-year standing.

**PED 532 Pediatrics Longitudinal Clerkship (5)** Year-long clerkship in ambulatory setting, covering evaluation, diagnosis, and treatment of childhood diseases. Emphasis on primary prevention, normal growth and development of the neonate to adolescent, and arrangement of pediatric care, including outpatient, inpatient, and emergency room experiences. Repeatable two times. Pre: third-year standing and concurrent registration in 532 courses.

**PED 545 (Alpha) Electives in Pediatrics (V)** Fourth-year elective in pediatric sub-specialty areas in which medical students may receive clinical experiences and an in-depth study of selected sub-specialty areas within the field of pediatrics. (B) adolescent medicine; (C) ambulatory pediatric care; (E) clinical genetics; (F) Sub-Internship in neonatology; (G) pediatric cardiology; (H) Sub-Internship in pediatric emergency medicine; (I) Sub-Internship in pediatric hematology/oncology; (J) pediatric infectious diseases; (K) sub-internship in pediatrics—general ward in pediatrics; (M) extramural electives in pediatrics; (N) pediatric rheumatology; (P) developmental behavioral pediatrics; (Q) pediatric international preceptorship; (R) sub-internship in pediatric critical care; (S) pediatric radiology; (T) pediatric ultrasound. CR/NC only. Repeatable two times per alpha, not repeatable for (Q). Pre: 531 or 532.

**PED 599 Directed Reading/Research (V)** Repeatable unlimited times. CR/NC only. Pre: consent.

## Persian (PERS)

### College of Languages, Linguistics and Literatures

**PERS 101 Beginning Modern Persian I (4)** Listening, reading, writing, speaking skills, language structure, and culture integrated in a variety of communicative and creative activities. **HSL**

**PERS 102 Beginning Modern Persian II (4)** Continuation of 101. Pre: 101 or consent. **HSL**

**PERS 111 Intensive Beginning Modern Persian (6)** Combined content of 101 and 102 covered in one intensive course. **HSL**

**PERS 201 Intermediate Modern Persian I (4)** Continuation of 102. Listening, reading, writing, speaking skills, language structure, and culture integrated in a variety of communicative and creative activities. Pre 102, 111, or consent. **HSL**

**PERS 202 Intermediate Modern Persian II (4)** Continuation of 201. Pre: 201 or consent. **HSL**

## Pharmacology (PHRM)

### School of Medicine

**PHRM 201 Introduction to General Pharmacology (2)** Drugs discussed with emphasis on sites and mechanism of action, toxicity, fate, and uses of major therapeutic agents. Pre: mammalian physiology and dental hygiene major. **DB**

**PHRM 203 General Pharmacology (3)** Similar to 201 but wider in scope of drugs discussed. Intended for undergraduates in the health sciences and related fields. Pre: mammalian physiology. **DB**

**PHRM 499 Directed Reading and Research (V)** Directed reading and research in experimental pharmacology. Repeatable unlimited times. Pre: consent.

**PHRM 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Repeatable unlimited times. Pre: master's Plan B or C candidate and consent.

**PHRM 590 Selected Topics in Pharmacology (V)** Elective for medical students in Pharmacology. Repeatable up to 12 credits. CR/NC only. Pre: MDED 551.

**PHRM 595 Principles of Pharmacology (1)** Pharmacology elective course for medical students.

MD students only. CR/NC only. Pre: MDED 554 or consent. (Fall only)

**PHRM 599 Research in Pharmacology (V)** Pharmacology research elective for medical students. MD majors only. CR/NC only. Pre: MDED 551 or consent.

**PHRM 601 General Pharmacology (3)** Pharmacodynamics, receptor theory, modeling, clinical trials and the FDA will be covered. Concepts in ADME/T and clinical research are also considered. Pre: consent.

**PHRM 602 Systemic Pharmacology (9)** Provides instruction at an organ systems/functional level covering major organ and functional systems of the human body. Concepts in pharmacological research at the animal, organ system and whole human level will also be considered. Repeatable one time. Pre: consent.

**PHRM 640 Neuropharmacology (2)** Physiology and pharmacology of central and peripheral nervous systems, focusing on synaptic chemistry and signaling. A-F only. Pre: CMB 606, or consent from the course director. (Cross-listed as CMB 640)

**PHRM 699 Directed Research (V)** Repeatable unlimited times.

**PHRM 700 Thesis Research (V)** Repeatable unlimited times.

**PHRM 800 Dissertation Research (V)** Repeatable unlimited times.

## Philosophy (PHIL)

### College of Arts and Humanities

**PHIL 100 Introduction to Philosophy: Survey of Problems (3)** Introduction to the kinds of problems that concern philosophers and to some of the solutions that have been attempted. **DH**

**PHIL 101 Introduction to Philosophy: Morals and Society (3)** Philosophical attempts to evaluate conduct, character, and social practices. **DH**

**PHIL 102 Asian Traditions (3)** Universal themes and problems from Asian perspective. **DH**

**PHIL 103 Introduction to Philosophy: Environmental Philosophy (3)** A critical examination of environmental issues; analyzing the nature of the human being, the nature of nature, and the relationship of the human being to nature. **DH**

**PHIL 110 Introduction to Deductive Logic (3)** Principles of modern deductive logic. **FS**

**PHIL 111 Introduction to Inductive Logic (3)** Introduction to the theory of arguments based on probabilities and to the theory of decision-making in the context of uncertainty. A-F only. **FS**

**PHIL 211 Ancient Philosophy (3)** An introduction to the history of philosophy based on translations of texts originally written in classical Greek or Latin. **DH**

**PHIL 212 Between Ancient and Modern Philosophy (3)** Introduction to the history of philosophy based on translations of texts originally written in post-classical Latin or Arabic. **DH**

**PHIL 213 Modern Philosophy (3)** Introduction to the history of philosophy based on texts or translations of "modern" works, that is works originally written in a modern European language. **DH**

**PHIL 300 Business Ethics (3)** Case studies and critical analyses of ethical issues in business. Readings from business, philosophy, law, etc. Pre: any course 100 or above in PHIL or BUS or BLAW, or consent. **DH**

**PHIL 301 Ethical Theory (3)** Problems and methods in theory of moral conduct and decision. Pre: any course 101 or above in PHIL or above 100 in POLS or SOC; or consent. **DH**

**PHIL 302 Political Philosophy (3)** Problems and methods in philosophical theories of political legitimacy. Pre: any course 101 or above in PHIL or above 100 in POLS or SOC, or consent. **DH**

**PHIL 303 Social Philosophy (3)** Problems and methods in examination of contemporary life, values, and institutions in light of traditional philosophical problems of freedom, justice, authority, equality. Pre: any course 101 or above in PHIL or above 100 in POLS or SOC, or consent. **DH**

**PHIL 304 Metaphysics (3)** Problems arising from attempts to categorize rationally what is, and what appears to be. Among others, topics may include universals and particulars, personal identity, freedom and determinism, and time. Pre: any course 100 or above in PHIL, or consent. **DH**

**PHIL 305 Philosophy of Religion (3)** Problems and methods. Nature of religious experience, alternatives to theism, existence of god, relation between faith and reason, nature of religious language. Pre: any course 100 or above in PHIL or REL; or consent. **DH**

**PHIL 306 Philosophy of Art (3)** Problems and methods in aesthetic valuation and in appreciation, creation, and criticism of artworks. Pre: any course 100 or above in PHIL or ARCH or ART or MUS or any DL course 100 or above; or consent. **DH**

**PHIL 307 Theory of Knowledge (3)** Problems and methods in epistemology. Nature of knowledge, its varieties, possibilities, and limitations. Pre: any course 100 or above in PHIL, or 200 or above with either DB or DP or DS designation; or consent. **DH**

**PHIL 308 Philosophy of Science (3)** Problems and methods. Domains of inquiry, methods of validation, and attendant moral concerns. Pre: any course 100 or above in PHIL, or 200 or above with either DB or DP designation; or consent. **DH**

**PHIL 310 Ethics in Health Care (3)** Ethical issues in application and organization of biomedical resources; professional responsibility, confidentiality, euthanasia, experimentation on human subjects, etc. Pre: any course 100 or above in PHIL or MED or NURS or with a DB designation; or consent. **DH**

**PHIL 311 Philosophy and Aesthetics of Film (3)** Aesthetics and ontology of film and video, based on readings in the philosophy of film and the viewing of a number of films per semester. Pre: one course in PHIL or THEA, drama or film; or consent. See department for list of approved courses.

**PHIL 312 Ethics in Practice (3)** Team-taught exploration of five contemporary ethical issues using a variety of philosophical approaches and methods. Pre: any 101 course or above in PHIL or above 100 in POLS or SOC; or consent. (Once a year)

**PHIL 313 Philosophy and Evolution (3)** Explores the ethical and epistemological implications of the theory of evolution. Pre: one course in PHIL or BIOL, or consent. (Alt. years)

**PHIL 314 Critical Thinking: Pre-Medicine (3)** Scientific and social perspectives on the nature of disease and their impact on medical practice. Exploration of these topics through reading, writing and critical inquiry. Pre: any course in PHIL, 100 or above; or any two BIOL, CHEM or PHYS courses; or consent.

**PHIL 315 The Role of Models in Global Environmental Science (3)** Introduction to philosophy of science for those with some background in the natural sciences. Special emphasis on issues arising from the construction and use of models. Pre: any course 200 or above in PHIL or any course 200 or above with either DB or DP designation, or consent. (Alt. years: spring) (Cross-listed as OCN 315)

**PHIL 316 Science, Technology, and Society (3)** Investigation of some of the complex interconnections between science, technology, and society. Pre: any course 100 or above in PHIL or in a course with either DB or DP or DS designation, or consent. **DH**

**PHIL 317 Critical Thinking: Pre-Law (3)** Introduction to concepts and techniques for evaluating arguments with special emphasis on their application both to questions of law and to issues in jurisprudence. Pre: any course 100 or above in PHIL or POLS or SOC, or consent. **DH**

**PHIL 318 Philosophy of Law (3)** Historical and contemporary issues in law and legal theory. Law and morality; legal responsibility, justice, rights, punishment, judicial reasoning. Pre: any course 101 or above in PHIL or above 100 in BLAW or POLS or SOC, or consent. **DH**

**PHIL 319 Ethical Issues in the Law (3)** Exploration of ethical issues that have come before (mainly U.S.) courts, including but not confined to, medical and criminal justice ethics. Repeatable one time. A-F only. Pre: 101 or a course numbered 200 or above in PHIL or HIST or ENG or with a DS designation; or consent.

**PHIL 320 American Philosophy (3)** Survey of major philosophers and schools in development of American thought up to modern times. Pre: any course 100 or above in PHIL, or consent. **DH**

**PHIL 330 Islamic Philosophy (3)** Survey of major Islamic philosophers and schools. Pre: any course 100 or above in PHIL or ARAB, or consent. **DH**

**PHIL 350 Indian Philosophy (3)** Survey of major orthodox and heterodox systems: Vedas, Upanishads, Bhagavadgita, Vedanta, Jainism, Buddhism. Pre: any course 100 or above in PHIL or PALI or SNSK; or consent. **DH**

**PHIL 360 Buddhist Philosophy (3)** Survey of central thinkers and schools. Pre: any course 100 or above in PHIL, CHN, JPN, PALI, SNSK, or TIB; or consent. (Cross-listed as ASAN 360) **DH**

**PHIL 370 Chinese Philosophy (3)** Survey of important schools and thinkers in classical Chinese traditions: Confucianism, Daoism, Mohism, Legalism. Pre: any course 100 or above in PHIL or CHN; or consent. **DH**

**PHIL 380 Japanese Philosophy (3)** Survey of central thinkers and schools from ancient to modern. Pre: any course 100 or above in PHIL or JPN, or consent. **DH**

**PHIL 399 Directed Research (V)** Repeatable up to a maximum of 6 credits. Pre: consent.

**PHIL 402 Introduction to Phenomenology (3)** Methods of analyzing the structures of experience, as developed by Husserl, Heidegger, Merleau-Ponty, Sartre, etc. Pre: any course 200 or above in PHIL, or consent. **DH**

**PHIL 406 Introduction to Zen (Ch'an) Buddhist Philosophy (3)** Development and philosophical significance of basic precepts, explored through translations of Chinese and Japanese sources. Pre: any course 200 or above in PHIL or CHN or JPN, or consent. **DH**

**PHIL 414 (Alpha) Western Movements and Periods (3)** (B) Greek; (C) late antiquity; (D) medieval; (E) Renaissance; (F) continental rationalism; (G) British empiricism; (H) German idealism; (I) 19th century; (J) 20th century. Repeatable two times in different alphas, not in same alpha. Pre: any course 200 or above in PHIL, or consent. **DH**

**PHIL 417 Philosophy in Literature (3)** Philosophical themes in the literary mode in world literature. Pre: any course 200 or above in PHIL or any DL course 200 or above, or consent. **DL**

**PHIL 418 Feminist Issues in Philosophy (3)** Examination of basic feminist issues in philosophy, and of responses to them. Pre: any course 200 or above in PHIL or WS, or consent. (Cross-listed as WS 419) **DH**

**PHIL 422 Philosophical Psychology (3)** Classical and modern theories of mind, cognition, and action. Pre: any course 200 or above in PHIL or PSY, or consent. **DH**

**PHIL 436 Philosophy of Language (3)** Contemporary theories in semantics and syntax; problems of meaning, reference, speech acts, etc. Pre: any course 200 or above in PHIL or LING, or consent. **DH**

**PHIL 438 Gender and Environmental Philosophy (3)** Interdisciplinary approach to women's perspectives and roles on ecological and environmental issues; critical analysis of eco-feminism as a social and political movement; cross-cultural comparison

of women's roles in human ecology. Pre: any course 200 or above in PHIL or WS or any course 200 or above with a DB or DP designation, or consent. (Cross-listed as WS 438) **DH**

**PHIL 445 Symbolic Logic (3)** Intermediate-level course covering proof techniques for classical, first-order predicate calculus, and an introduction to meta-theory. Pre: 110 or any course 200 or above in ICS or MATH; or consent. **DH**

**PHIL 448 Individual Philosophers/Topics (3)** Examination of work of a major Eastern or Western philosopher, or topic of philosophical concern. Repeatable three times. Pre: 100, 101, 102, 103, 211, 212, 213, or consent.

**PHIL 449 Undergraduate Capstone (3)** Capstone seminar for undergraduate majors. Concentration on a topic of current philosophical concern. Repeatable one time with consent. Pre: declared major in PHIL with at least six courses 200 or above in PHIL, or consent. **DH**

**PHIL 492 Philosophy with Children (3)** Examines the theory and practice of doing philosophy in elementary, middle, and high school classrooms. Pre: any course 200 or above in PHIL or EDUC, or consent.

**PHIL 493 Teaching Philosophy (3)** Supervised work in elementary, middle, and high school classrooms, facilitating philosophical inquiry with students. Repeatable one time. Pre: 492 or consent.

**PHIL 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**PHIL 611 Studies in Ethics (3)** Key issues in contemporary philosophical debates about ethics. Repeatable one time with consent. Pre: graduate standing or consent. Recommended: 301.

**PHIL 614 Studies in Metaphysics (3)** Key issues in ontological and cosmological theory. Problems of materialism, idealism, phenomenalism, etc. Repeatable one time with consent. Pre: graduate standing or consent. Recommended: 304.

**PHIL 615 Studies in Philosophy of Religion (3)** Key issues in theory of religious experience, language, reasoning. Pre: graduate standing or consent. Recommended: 305.

**PHIL 616 Studies in Aesthetics (3)** Key issues in contemporary aesthetics, against background of traditional Western and Eastern theories. Repeatable one time with consent. Pre: graduate standing or consent. Recommended: 306.

**PHIL 617 Studies in Epistemology (3)** Key issues in contemporary philosophical debates about knowledge. Repeatable one time with consent. Pre: graduate standing or consent. Recommended: 307.

**PHIL 622 Studies in Hermeneutics (3)** Important debates concerning the methodology of textual interpretation. Pre: graduate standing or consent.

**PHIL 630 History and Theory of Science (3)** Exploration of problems at the intersection of historical studies of science as a process and philosophical analysis of basic concepts of the sciences. Pre: graduate standing or consent. Recommended: 308 or 316.

**PHIL 670 Confucianism (3)** Ethical, social, institutional problems in classical theory. Repeatable one time with consent. Pre: graduate standing or consent. Recommended: 370.

**PHIL 671 Neo-Confucianism (3)** Logic, epistemology, metaphysics, and ethics of major Chinese Neo-Confucian philosophers, 11th–16th century. Repeatable one time with consent. Pre: graduate standing or consent. Recommended: 370.

**PHIL 672 Daoism (3)** Critical examination and evaluation of major philosophical ideas in Lao Zi, Zhuang Zi, and the Neo-Daoists. Repeatable one time with consent. Pre: graduate standing or consent. Recommended: 370.

**PHIL 699 Directed Research (V)** Repeatable up to 30 credits. Pre: graduate standing and consent.

**PHIL 700 Thesis Research (V)** Repeatable up to six credits. Pre: master's Plan A candidate and consent.

**PHIL 720 Seminar on Individual Philosophers (3)** The most significant texts of an important philosopher. Repeatable three times in the MA program; an additional four times in the PhD program. Pre: graduate standing or consent.

**PHIL 725 Seminar in Philosophical Topics (3)** Close study of a topic of important philosophical controversy. Repeatable two times in the MA program; an additional three times in the PhD program. Pre: graduate standing or consent.

**PHIL 730 Seminar in Islamic Philosophy (3)** Major philosophical problems in Islamic thought. Focus either on a specific topic or one author. Repeatable one time. Pre: graduate standing or consent. (Once a year)

**PHIL 735 Seminar on Philosophical Periods (3)** Close study of a period of significant and connected philosophical activity within a philosophic tradition. Repeatable two times with consent. Pre: graduate standing or consent.

**PHIL 740 Seminar in Philosophical Texts (3)** Reading, analysis, and critical discussion of one (or of several closely related) philosophical text in its original language (sometimes in conjunction with established translation). Repeatable two times with consent. Pre: graduate standing or consent.

**PHIL 750 Seminar in Indian Philosophy (3)** Major philosophical problems in the development of Indian thought during its formative period. Repeatable two times with consent of instructor and Graduate Chair. Pre: graduate standing or consent. Recommended: 350.

**PHIL 760 Seminar in Buddhist Philosophy (3)** Major philosophical problems in the development of Buddhist thought during its formative period. Repeatable one time with consent. Pre: graduate standing or consent. Recommended: 360.

**PHIL 770 Seminar in Chinese Philosophy (3)** Fundamental issues, problems, movements, and schools of Chinese philosophy, such as classical Confucianism, Daoism, Legalism, Chinese logic, and Neo-Confucianism. Repeatable one time with consent. Pre: graduate standing or consent. Recommended: 370.

**PHIL 771 Seminar in Yi Jing (3)** Metaphysical, epistemological, ethical, and axiological views of Yi Jing and its claim as foundational work for classical Confucianism, Daoism, and Neo-Confucianism. Pre: graduate standing or consent.

**PHIL 780 Seminar in Japanese Philosophy (3)** Various periods, movements, and thinkers in Japanese philosophy. Topic changes each semester. Consult department for more information. Repeatable one time with consent. Pre: graduate standing or consent. Recommended: 380.

**PHIL 790 Seminar in Comparative Philosophy (3)** Comparison of widely differing philosophical traditions. Specific topic changes each semester. Consult department for more information. Repeatable two times with consent. Pre: graduate standing or consent.

**PHIL 800 Dissertation Research (V)** Repeatable unlimited times.

## Physics (PHYS)

### College of Natural Sciences

*A grade of C (not C-) or better is required in all prerequisite courses. Credit toward the degree is given for either 151/151L or 170/170L and similarly for either 152/152L or 272/272L. However, the courses may come from different sequences.*

**PHYS 100 Survey of Physics (3)** Mechanics, electricity and magnetism, waves, optics, atomic and nuclear physics. Only algebra and geometry used. For non-science majors. **DP**

**PHYS 100L Survey of Physics Lab (1)** (1 3-hr Lab) Hooke's law, falling bodies, collisions, Boyle's law,

electric and magnetic fields, induction, waves, optics. Pre: 100 (or concurrent). **DY**

**PHYS 121 How Things Work: Physics for Everyday Life (3)** Introduction to physics and science in everyday life. It considers objects from our daily environment, and focuses on the principles such as motion, forces, heat, electromagnetism, optics, and modern physics. A-F only. **DP**

**PHYS 151 College Physics I (3)** Non-calculus physics. Mechanics, wave motion, heat. Pre: MATH 140, or 215 or higher; or qualifying score on math assessment exam. **DP**

**PHYS 151L College Physics Lab I (1)** (1 3-hr Lab) Introduction to experimental analysis, physical observation and measurement, experiments on conservation laws, fluid friction, oscillations. Pre: 151 (or concurrent). **DY**

**PHYS 152 College Physics II (3)** Electricity, magnetism, optics, modern physics. Pre: 151. **DP**

**PHYS 152L College Physics Lab II (1)** (1 3-hr Lab) Optics, electric and magnetic fields, DC and AC circuitry. Pre: 151L or 170L, and 152 (or concurrent). **DY**

**PHYS 170 General Physics I (4)** Mechanics of particles and rigid bodies, wave motion, thermodynamics and kinetic theory. Pre: MATH 242 (or concurrent) or MATH 252A (or concurrent). MATH 216 may be substituted with consent. **DP**

**PHYS 170A Honors General Physics I (4)** Special format for topics: mechanics of particles and rigid bodies, wave motion, thermodynamics and kinetic theory. Pre: MATH 242 (or concurrent) or MATH 252A (or concurrent). MATH 216 may be substituted with consent. Co-requisite: 170L. **DP**

**PHYS 170L General Physics I Lab (1)** (1 3-hr Lab) Similar to 151L but at 170 level. Pre: 170 (or concurrent) or 170A (or concurrent). **DY**

**PHYS 272 General Physics II (3)** Electricity and magnetism and geometric optics. Pre: 151 or 170 and MATH 242 or MATH 252A, MATH 216 may be substituted with consent. **DP**

**PHYS 272A Honors General Physics II (3)** Special format for topics: electricity and magnetism and geometric optics. A-F only. Pre: 151 or 170 and MATH 242 or MATH 252A, MATH 216 may be substituted with consent. Co-requisite: 272L.

**PHYS 272L General Physics II Lab (1)** (1 3-hr Lab) Similar to 152L but at 272 level. Pre: 151L or 170L, and 272 (or concurrent) or 272A (or concurrent). **DY**

**PHYS 274 General Physics III (3)** Relativity, introduction to quantum mechanics, atomic and nuclear physics, and physical optics. Pre: 152 or 272 and MATH 243 (or concurrent) or MATH 253A (or concurrent); or consent. **DP**

**PHYS 274L General Physics III Lab (1)** (1 3-hr Lab) Experiments illustrating selected concepts of 274, including diffraction and interference of light, wave nature of matter, photoelectric effect, atomic spectra, and semiconductors. Pre: 152L or 272L, and 274 (or concurrent). **DY**

**PHYS 305 Computational Physics (3)** Analysis of physical systems and problem solving using computers and numerical methods. Pre: 152 or 272 or 272A, and MATH 244 (or concurrent) or MATH 253A (or concurrent); or consent. **DP**

**PHYS 310 Theoretical Mechanics I (3)** Particle dynamics, rigid-body dynamics, planetary motion. Pre: 151 or 170 or 170A, and MATH 244 (or concurrent) or MATH 253A (or concurrent); or consent. **DP**

**PHYS 311 Theoretical Mechanics II (3)** Rigid-body mechanics continued, fluid dynamics, wave motion, theory of relativity. Pre: 310. **DP**

**PHYS 350 Electricity and Magnetism (3)** Electrostatic and magnetostatic fields in vacuum and in matter; induction; Maxwell's equations; AC circuits. Pre: 152 or 272 or 272A; and MATH 244 (or concurrent) or MATH 253A (or concurrent); or consent. **DP**

**PHYS 399 Individual Work in Advanced Physics (V)** Limited to students with a minimum cumulative GPA of 2.7 or a minimum GPA of 3.0 in physics.

**PHYS 400 Applications of Mathematics in Physical Sciences (3)** Mathematical methods, techniques; applications to problems in physical sciences. Pre: MATH 244 or MATH 253A, and MATH 307 or 311; or consent. Recommended: upper division mathematics course. **DP**

**PHYS 430 Thermodynamics and Statistical Mechanics (3)** Laws of thermodynamics, heat transfer, kinetic theory, statistical mechanics. Pre: 274 and MATH 244 or MATH 253A. **DP**

**PHYS 440 Solid-State Physics I (3)** Crystal structure: lattice vibrations; phonon effects; electronic processes in solids (metals, semiconductors, and superconductors). Pre: 274 and 350 (or concurrent). **DP**

**PHYS 441 Solid-State Physics II (3)** Energy-band calculations, optical processes, Josephson effect, theories of dielectrics and magnetism, physics of color centers, order-disorder transformation. Pre: 440. **DP**

**PHYS 450 Electromagnetic Waves (3)** Field equations, plane, spherical and guided waves. Pre: 350. **DP**

**PHYS 460 Physical Optics (3)** Fundamentals of classical physical optics emphasizing linear systems theory, including optical fields in matter, polarization phenomena, temporal coherence, interference and diffraction (Fourier optics). Specialized applications include Gaussian beams, laser resonators, pulse propagation, and nonlinear optics. Pre: 450 (or concurrent with a minimum grade of C) or EE 372 (or concurrent with a minimum grade of C-), or consent. (Cross-listed as EE 470) **DP**

**PHYS 475 Electronics for Physicists (3)** Investigation of Kirchoff's Laws, electromagnetic circuit theory. Fourier analysis and stability theory with circuits. Applications to physical measurements are stressed. Pre: junior standing, and 152L or 272L. **DP**

**PHYS 476 Modern Electronics for Physicists (3)** Introduction to high performance solid state instrumentation by means of practical research electronics: printed circuit board design/fabrication; complex programmable logic design/verification; integrated circuit SPICE simulation. Detector fabrication and test emphasis during final project. Pre: 475 (or equivalent) or consent. (Spring only)

**PHYS 480 Quantum Mechanics I (3)** Wave mechanics, Schrodinger equation, angular momenta, potential problems. Pre: 274, 310, 350, 400 (or concurrent); either MATH 244 or 253A; and either MATH 311 or 307; or consent. **DP**

**PHYS 480L Advanced Physics Lab (2)** Advanced experiments including angular correlations in positronium annihilation, optical polarization phenomena, chaos, measurements of  $c$  and the muon lifetime, crystal diffraction and the Mossbauer effect. Numerical simulations of particular physics experiments are included. Pre: 274L and 480 (or concurrent), or consent. **DY**

**PHYS 481 Quantum Mechanics II (3)** Continuation of 480; atomic physics, scattering, perturbation theory. Pre: 480. **DP**

**PHYS 481L Advanced Physics Lab (2)** Advanced experiments including angular correlations in positronium annihilation, optical polarization phenomena, chaos, measurements of  $c$  and the muon lifetime, crystal diffraction, and the Mossbauer effect. Numerical simulations of particle physics experiments are included. Pre: 274L, 480, and 480L; or consent. **DY**

**PHYS 485 Professional Ethics for Physicists (1)** Student seminar on ethical principles and their application to research in physics and astronomy and closely-related fields. Historical examples will be presented and discussed by the participants. PHYS majors only. A-F only. Pre: 310 or ASTR 300 (or concurrent), or consent.

**PHYS 490 Modern Physics (3)** Introduction to nuclear and elementary-particle physics. Pre: 480 (or concurrent). **DP**

**PHYS 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**PHYS 505 Physics Workshop for Teachers (V)** Major concepts of physics taught by means of hands-on conceptual activities for elementary and secondary teachers. Restricted to in-service teachers, or consent. Repeatable one time. (Cross-listed as NSCI 505)

**PHYS 600 Methods of Theoretical Physics (3)** Mathematical tools of theoretical physics. Continuation of 400 but with an independent selection of topics. Pre: 400 or consent. (Alt. years)

**PHYS 610 Analytical Mechanics (3)** Dynamics of particles, particle systems; rigid bodies; Lagrangian and Hamiltonian equations; special relativity. Pre: 600 (or concurrent); or MATH 402.

**PHYS 650 Electrodynamics I (3)** Potential theory, Maxwell's equations, electromagnetic waves, boundary value problems. Pre: 450; and 600 (or concurrent), or MATH 402. (Alt. years)

**PHYS 651 Electrodynamics II (3)** Relativistic electrodynamics, radiation by charged particles. Pre: 650. (Alt. years)

**PHYS 660 Advanced Optics (3)** Contemporary advanced applications in optics including nonlinear optics and optical parametric oscillators, atomic lasers and laser systems, and free-electron lasers. Pre: 460. (Alt. even years)

**PHYS 670 Quantum Mechanics (3)** Physical basis and formulation of quantum theory. Exact solutions of Schrodinger equation and their applications. Approximation methods. Applications to atomic, nuclear, and molecular physics. Pre: 400 or 481 or 600 and MATH 402.

**PHYS 671 Quantum Mechanics (3)** Physical basis and formulation of quantum theory. Exact solutions of Schrodinger equation and their applications. Approximation methods. Applications to atomic, nuclear, and molecular physics. Pre: 670.

**PHYS 690 Seminar (V)** Discussions and reports on physical theory and recent developments. CR/NC only. Pre: graduate standing or consent.

**PHYS 694 Condensed Matter Seminar (1)** Results and discussions of current topics in condensed matter physics. Repeatable six times with consent.

**PHYS 695 Seminar on Atomic and Solid-State Physics (1)** Reports and discussion on recent developments in atomic, surface, and solid-state physics. Repeatable with consent.

**PHYS 696 Seminar on Elementary Particle Physics (1)** Reports and discussion on recent developments in elementary particle physics. Repeatable four times. Pre: consent.

**PHYS 699 Directed Research (V)** Repeatable unlimited times. Pre: consent.

**PHYS 700 Thesis Research (V)** Research for master's thesis. Repeatable unlimited times.

**PHYS 711 Topics in Particles and Fields (3)** Topics in current theoretical research; e.g., unified field theories, general relativity, gravitation, and cosmology. Repeatable four times. Pre: consent.

**PHYS 712 Special Topics: Experimental Physics (3)** Topics in current experimental research in low-energy physics, high-energy physics, cross-disciplinary physics. Repeatable in different topics. Pre: consent.

**PHYS 730 Statistical Physics I (3)** Equilibrium thermodynamics; Gibbs ensembles; quantum statistics; ideal and non-ideal Fermi; Bose and Boltzmann gases; phase transitions; and critical phenomena. Pre: 670. (Alt. years)

**PHYS 731 Statistical Physics II (3)** Nonequilibrium thermodynamics, transport theory, fluctuation dissipation theorem, many-body Green's function methods, normal Fermi and Bose liquids, superfluidity, superconductivity. Pre: 670 and 730. (Alt. years)

**PHYS 772 Quantum Field Theory I (3)** Relativistic wave equations and their solutions. Dirac's theory of the electron, propagator techniques. Applications to quantum electrodynamics. Pre: 671. (Alt. years)

**PHYS 773 Quantum Field Theory II (3)** Local gauge invariance, Yang-Mills theory: quantum chromodynamics, spontaneous symmetry breaking and Goldstone bosons; the standard electroweak theory; grand unified theories. Pre: 772. (Alt. years)

**PHYS 777 Nuclear and Particle Physics (3)** Nuclear physics; electrostatics; hadron structure and partons. Techniques of particle physics. Pre: 481 and 671. (Alt. years)

**PHYS 778 Nuclear and Particle Physics II (3)** Quantum chromodynamics; electroweak interactions; the standard model. Techniques of particle physics. Pre: 777 or consent. (Alt. years)

**PHYS 785 Solid-State Theory (3)** Crystal symmetry, electronic excitations in solids, transport theory, optical properties, cohesive energy, lattice vibrations, electron-phonon interaction, electron-electron interaction, magnetism, superconductivity. Pre: 670. (Alt. years)

**PHYS 786 Solid-State Theory (3)** Crystal symmetry, electronic excitations in solids, transport theory, optical properties, cohesive energy, lattice vibrations, electron-phonon interaction, magnetism, superconductivity. Pre: 785. (Alt. years)

**PHYS 800 Dissertation Research (V)** Research for doctoral dissertation. Repeatable unlimited times.

## Physiology (PHYL)

### School of Medicine

*The minimum grade required for undergraduate prerequisites is a D or better, and graduate prerequisites is a C (not C-) or better.*

**PHYL 103 Human Physiology and Anatomy (5)** Introduction to human physiology and anatomy designed to serve the needs of dental hygiene students and others interested in pursuing health-related careers. **DB**

**PHYL 103L Physiology and Anatomy Lab (1)** Laboratory to complement 103. Co-requisite: 103. **DY**

**PHYL 141 Human Anatomy and Physiology (3)** Anatomy, histology, physiology, biochemistry, genetics of human organ systems presented in integrated anatomy-physiology format. Priority to students in nursing. Pre: high school chemistry. **DB**

**PHYL 141L Human Anatomy and Physiology Lab (1)** Anatomy, histology, physiology, biochemistry, genetics of human organ systems presented in integrated anatomy-physiology format. Priority to students in nursing. Pre: 141 (or concurrent) or consent. **DY**

**PHYL 142 Human Anatomy and Physiology (3)** Continuation of 141. Pre: should have an understanding of basic physiology concepts as presented in 141 or equivalent. **DB**

**PHYL 142L Human Anatomy and Physiology Lab (1)** Anatomy, histology, physiology, biochemistry, genetics of human organ systems presented in integrated anatomy-physiology format. Priority to students in nursing. Pre: 142 (or concurrent) or consent. **DY**

**PHYL 301 Human Anatomy and Physiology (4)** Integrated presentation of human anatomy and physiology. An optional laboratory (PHYL 301L) is available separately. Pre: BIOL 171 and BIOL 172, or any PHYL course; and CHEM 161 (or higher) or any BIOC course; or consent. **DB**

**PHYL 301L Human Anatomy and Physiology Lab (1)** Laboratory study of human anatomy and physiology by means of models, histology slides, experiments, and demonstrations. Co-requisite: 301 or consent. **DY**

**PHYL 302 Human Anatomy and Physiology (4)** Continuation of 301. Pre: 301/301L or consent. **DB**

**PHYL 302L Human Anatomy and Physiology Lab (1)** Continuation of 301L. Pre: 301/301L, or consent. Co-requisite: 302. **DY**

**PHYL 401 Human Physiology: Organ Systems (4)** Basic function of the major organ systems in man. Covers cardiovascular, respiratory, renal, acid-base, and gastrointestinal physiology. Pre: 302 or equivalent with consent. **DB**

**PHYL 402 Human Physiology: Integrative Systems (4)** Senior-level course in integrative systems (central nervous system and endocrinology). Complements 401. Pre: 401 and either BIOC 341 or CHEM 152, or consent. **DB**

**PHYL 403 Environmental Physiology (3)** Animal (including human) responses to environmental challenges such as heat, cold, altitude, diving, physical work, etc. Human adaptation in a comparative context. Pre: 302, or 401, or ZOOL 430; or consent. **DB**

**PHYL 403L Environmental Physiology Lab (1)** Laboratory experiences in measuring human physiological responses to environmental stress. Complements 403. **DY**

**PHYL 405 Applied Muscle Physiology (3)** Science and technology of strength training. Anatomy, kinesiology, physics, and physiology applied to development of muscular strength and mass. Repeatable one time. Pre: 302; or consent. **DB**

**PHYL 450 Physiological Anthropology (3)** Study of ecological factors in human variation. Human population and its biological and cultural responses to the environment. Pre: ANTH 215 or consent. **DB**

**PHYL 451 Human Biology (4)** Introduces upper division students in the social or non-biological sciences to the basic concepts of physiology, anatomy, and biochemistry. Repeatable two times. Pre: upper division standing. **DB**

**PHYL 499 Directed Research (V)** Repeatable unlimited times. Pre: junior or senior undergraduate status.

**PHYL 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Repeatable unlimited times. Pre: master's Plan B or C candidate and consent.

**PHYL 545 Topics in Medical and Applied Physiology (V)** Fourth-year elective for medical students; in-depth study of selected topics in physiological basis of medical practice.

**PHYL 604 Human Physiology (4)** Graduate level lecture overview of major organ system physiology in humans, including (but not limited to) basic cell physiology, cardiovascular, pulmonary, renal, gastrointestinal, endocrine, and neurophysiology. A-F only. Pre: 301 and 302 or consent. (Spring only)

**PHYL 606 Human Neurophysiology (2)** Physiology of human nervous system with emphasis on special senses and control and coordination of movement. Repeatable one time. Pre: 302 or 604, or consent.

**PHYL 609 Cardiovascular Diseases (3)** Selected topics in cardiovascular physiology. Emphasis on dynamic aspects of the heart and circulation. Pre: 604 or consent.

**PHYL 610 Experimental Physiology (2)** Biophysical approach to selected techniques of quantitative experimental physiology. Pre: 604 or consent.

**PHYL 710 Special Topics: Water and Electrolytes (1)**

## Plant and Environmental Protection Sciences (PEPS)

### College of Tropical Agriculture and Human Resources

*A grade of C or better is required in a prerequisite courses.*

**PEPS 210 Introduction to Environmental Science (3)** Analysis of our environment with emphasis on understanding relationships and interactions of physical, biological, technological, and political

components using scientific methods of inquiry. Food supply and safety, water quality, pollution control, biodiversity, environmental policy. Open to nonmajors. (Cross-listed as NREM 210) **DB**

**PEPS 250 The World of Insects (3)** Biology/ecology of insects with emphasis on relationships to plants, animals, and especially people in Hawai'i and the tropics. Open to nonmajors. A-F only. **DB**

**PEPS 310 Environment and Agriculture (3)** Overview of environmental issues and impacts associated with agriculture, specifically pest management issues, and options for environmentally responsible management and amelioration of these impacts. Pre: 210 or consent.

**PEPS 350 Invasive Pest Species (3)** Ecological, economic and sociological impacts of invasive pest species on tropical ecosystems; characteristics of invasive species and nature of vulnerable habitats; management of invasive species or eradication options; impacts on evolution, biological diversity and ecological stability. Open to nonmajors. (Alt. years: spring) **DB**

**PEPS 363 General Entomology (3)** Biology, ecology, habits, structure of Hawai'i's insects/arthropods. Classification to family level. A-F only. Pre: BOT 101 or ZOOL 101 or BIOL 171; or consent. **DB**

**PEPS 363L General Entomology Laboratory (1)** Laboratory in the biology and classification to family level of Hawai'i's insects and arthropods. A-F only. Pre: 363 (or concurrent) or consent. **DY**

**PEPS 371 Genetics: Theory to Application (3)** Fundamentals of genetic theory using biotechnological procedures in insect and plant pathogen control and plant and animal breeding as practical applications. Repeatable one time. A-F only. (Cross-listed as TPSS 371)

**PEPS 400 Plant Pest Diagnosis (3)** The art and science of the accurate diagnosis of important plant health problems for key plants and cultivated crops in various agroecosystems in Hawai'i, the Pacific, and the global tropics. (Spring only)

**PEPS 402 Principles of Biochemistry (4)** Molecular basis of living processes in bacteria, plants, and animals; emphasis on metabolism of carbohydrates, lipids, proteins, and nucleic acids. Pre: BIOL 275/275L, and CHEM 273; or consent. (Cross-listed as BIOL 402 and MBBE 402) **DB**

**PEPS 405 Plant Pathogens and Diseases (4)** (3 Lec, 1 3-hr Lab) Classification, morphology, ecology, and biology of bacteria, fungi, nematodes, and viruses that attack economic crops. Etiology and control of plant diseases. Pre: 210 or BOT 101 or MICR 130, or consent. (Fall only) **DB**

**PEPS 410 Sustainable Soil and Plant Health Management (2)** Provides knowledge and understanding of soils, agroecology, and sustainable approaches for plant health management, and prepares students for applied research in various tropical cropping systems. A-F only. Pre: 210 or TPSS 220 or consent. (Alt. years: spring)

**PEPS 412 Environmental Biochemistry (3)** Biochemical and chemical principles of occurrence, distribution, biotic and abiotic conversion, fate, and impact of synthetic and natural molecules in the environment. Important pollutants will be used as case studies to illustrate the principles. A-F only. Pre: CHEM 152 or CHEM 272, and CHEM 162 or CHEM 171; or consent. (Spring only) (Cross-listed as MBBE 412) **DB**

**PEPS 418 Turfgrass Pest Management (4)** Provides students with knowledge and real world experience on common turfgrass pests and management strategies in Hawai'i, with emphasis on integrated pest management. Common cool-season turfgrass and pest management are also discussed. Repeatable unlimited times but credit earned one time only. A-F only. Pre: 210 or consent. (Fall only) (Cross-listed as TPSS 418)

**PEPS 421 Foundations of Pest Management (4)** (3 Lec, 1 3-hr Lab) Principles and concepts of

insect pest management using biological, ecological, cultural, behavioral, legislative, microbial and chemical methods. A-F only. Pre: one of the following: 250 or 363, BIOL 171, BIOL 172, or BOT 101; or consent. (Spring only) **DB**

**PEPS 422 Biocontrol of Invasive Species (3)** Biological control of arthropods, weeds, plant pathogens, and vertebrates. Pre: 363 or consent. **DB**

**PEPS 430 Plant Disease Management (4)** (3 Lec, 1 3-hr Lab) Diagnosis, epidemiology, and integrated management of important plant diseases and pathogens for key plants and cultivated crops in various agroecosystems in Hawai'i, the Pacific, and the global tropics. Pre: 405. (Spring only)

**PEPS 451 Environmental Law (3)** Exploration of federal laws, regulations, and precedents that govern our interaction with the environment. Analysis of laws regulating air, water, toxins, pests, endangered species, and environmental justice. Pre: junior or senior standing.

**PEPS 463 Urban Pest Management (3)** (2 Lec, 1 3-hr Lab) Biology, ecology, and management of pest organisms associated with people, structures and the urban environment. Pre: 363 or consent. **DB**

**PEPS 481 Weed Science (3)** (2 Lec, 1 3-hr Lab) Weed classification, identification, adaptations for weediness; principles of weed control; properties, uses, and action of herbicides. Lab: pesticide application equipment and techniques, no-till farming, greenhouse and field experiments. Pre: CHEM 152 and TPSS 200, or consent. (Fall only) (Cross-listed as TPSS 481) **DB**

**PEPS 486 Insect-Microbe Interactions (3)** Multidisciplinary treatment of medical entomology, plant vector entomology, insect pathology and symbiosis. Topics are addressed on evolutionary, ecological and molecular levels. Pre: BIOL 172 or MICR 130; or consent.

**PEPS 491 Topics in Plant & Environmental Protection (V)** Study and discussion of significant topics and problems. May be offered by visiting faculty, extension faculty or research faculty. Repeatable two times.

**PEPS 495 PEPs Capstone (4)** Integration and application of academic knowledge and critical skills emphasizing professional development, Directed Research, field studies, employment with cooperating businesses, government or schools are all options. A-F only. Pre: consent.

**PEPS 499 Directed Research (V)** Conduct original research in environmental protection sciences. Limited to qualified undergraduate students. Repeatable two times. CR/NC only.

**PEPS 616 Plant Nematology (3)** (2 Lec, 1 3-hr Lab) Study of nematode biology (taxonomy, genetics, behavior), interactions with plants and animals, and sustainable management practices in an integrated lecture-laboratory setting. Pre: graduate standing or consent.

**PEPS 630 Plant Virology (4)** (2 Lec, 2 3-hr Lab) Isolation, identification, and molecular biology of plant viruses; biological and physical properties. Pre: 402, 405; or consent.

**PEPS 641 Insect Physiology (2)** (2 Lec) Study of the principal physiological and biochemical functions in insects, with emphasis on hormonal interactions. Pre: 402 or consent.

**PEPS 646 Plant-Bacterial Interactions (3)** Diagnosis, molecular biology, genetics, and infection mechanisms of bacterial plant pathogens and symbionts. Pre: one of BIOC 481, MICR 351, MICR 475; or consent. (Cross-listed as MICR 646)

**PEPS 652 Molecular Plant Fungi Interactions (3)** Focuses on the actions of plant pathogens and the responses of compatible and incompatible host plants. Latest research on this topic will be evaluated by discussing publications reporting pathogenesis mechanics. Graduate standing only. Pre: 405 or MBBE 405, or MBBE 480, or MICR 351. (Every 2 years) (Cross-listed as MBBE 652)

**PEPS 660 Seminar in Plant Pathology (1)** Seminar on research and topics in plant pathology. Repeatable unlimited times. A-F only. Pre: graduate standing or consent.

**PEPS 661 Medical and Veterinary Entomology (3)** (2 Lec, 1 3-hr Lab) Vector control; insects and other arthropods in relation to human and animal diseases. Pre: 363 or consent.

**PEPS 662 Systematics and Phylogenetics (3)** (2 Lec, 1 3-hr Lab) Classification and study of diversity among insects and other life forms. Use of morphological and molecular characters to reconstruct evolutionary histories. A-F only. Pre: graduate standing or consent.

**PEPS 671 Insect Ecology (3)** (2 Lec, 1 3-hr Lab) Insects as living units in an environment of physical and biotic factors. Pre: consent of instructor.

**PEPS 675 Biological Control of Pests (3)** (2 Lec, 1 3-hr Lab) Fundamental concepts. Critical study of major biological control projects. Pre: 421 or consent. Recommended: 662; and ZOOL 631 or 632.

**PEPS 681 Pesticide Toxicology (3)** Principles of toxicology; chemical and biochemical mechanisms of pesticide toxicity. A-F only. Pre: 402 or BIOC 441; CHEM 272; or consent. (Fall only)

**PEPS 686 Insect Transmission of Plant Pathogens (3)** (2 Lec, 1 3-hr Lab) A multidisciplinary treatment of insect transmission of plant pathogens. Insect-plant and cellular insect-pathogen interactions and management strategies are emphasized.

**PEPS 690 Seminar in Entomology (1)** Seminars on research and topics in entomology. Repeatable unlimited times. Pre: graduate standing or consent.

**PEPS 691 Special Topics (V)** Study and discussion of significant topics and problems in plant and environmental protection sciences at an advanced level. Offered by visiting or existing faculty as a special course. Repeatable unlimited times. Pre: graduate standing or consent.

**PEPS 695 Plan B Master's Project (3)** Independent study for students working on a Plan B master's project. A grade of Satisfactory (S) is assigned when the project is satisfactorily completed. A-F only. Pre: graduate standing in entomology or tropical plant pathology.

**PEPS 699 Directed Research (V)** Directed research, critical reviews in environmental protection sciences, entomology, or plant pathology. Repeatable unlimited times. CR/NC only.

**PEPS 700 Thesis Research (V)** Research for master's thesis. Repeatable unlimited times.

**PEPS 799 Proposal/Defense Seminar (1)** Thesis/dissertation proposal and defense seminars. Repeatable one time. CR/NC only. Pre: graduate standing or consent.

**PEPS 800 Dissertation Research (V)** Research for doctoral dissertation. Repeatable unlimited times.

## Political Science (POLS)

### College of Social Sciences

*Either a 100 level or 200 level course is a prerequisite to all 300 level courses except with the consent of the instructor.*

**POLS 110 Introduction to Political Science (3)** Discussion of politics as an activity and of political problems, systems, ideologies, processes. **DS**

**POLS 120 Introduction to World Politics (3)** Power and contemporary world politics since 1945 with emphasis on the U.S. role. **DS**

**POLS 130 Introduction to American Politics (3)** American political processes and institutions, as seen through alternative interpretations. Emphasis on opportunities and limitations for practical political participation. **DS**

**POLS 170 Politics and Public Policy (3)** Perspectives on the role of government in guiding economies and civil societies with particular emphasis on the recent U.S. **DS**

**POLS 171 Introduction to Political Futures (3)** Introduction to political future studies. Using science fact and fiction, shows how past and present images of the future influence people's actions. **DS**

**POLS 190 Media and Politics (3)** Influences and effects of media on politics. Setting public agendas, interpreting events, manipulating the political process, political learning through popular culture. **DS**

**POLS 201 Problems of War and Peace (3)** Introduction to the problems individuals and political communities currently face with respect to war, peace, and international conflict. Includes questions of human nature, economy, morality, nuclear deterrence, arms control and disarmament, and alternatives to war. **DS**

**POLS 241 Political Design and Futuristics (3)** Possible social and political alternatives for the future. Conditions likely if present trends continue, formulation of visions of better futures, means for their achievement. **DS**

**POLS 271 Race and Politics (3)** Racial inequality in the U.S.; mechanisms of institutional racism in employment, education, criminal justice, electoral politics. **DS**

**POLS 301 Hawai'i Politics (3)** Introduction to and critical study of institutions, governments, and political processes in Hawai'i. Attends to race, class, gender, sexuality, indigeneity and nationality. Grounded in Native Hawaiian perspectives, with an emphasis on comparative study and dialogue. Pre: any 100- or 200-level POLS course, or consent. **DS**

**POLS 302 Native Hawaiian Politics (3)** Critical study of issues in contemporary Native Hawaiian politics, with an emphasis on application and active engagement. Pre: any 100- or 200-level POLS course or consent. **DS**

**POLS 303 (Alpha) Topics in Hawai'i Politics (3)** Intensive examination of particular institutions, processes, and issues. (B) the military in Hawai'i; (C) political thought in Hawaiian; Taught in Hawaiian; (D) politics of food. A-F only for (D). Pre: HAW 302 (or concurrent) for (C) only, sophomore standing or higher or consent. ((C) Cross-listed as HAW 428) **DS** for (B), **DH** for (C)

**POLS 304 Indigenous Politics (3)** Conceptualizing politics from the perspective of indigenous epistemologies, philosophies, language, and social and political movement. Pre: sophomore standing or higher, or consent.

**POLS 305 Global Politics/Comparative (3)** Introduction to global politics with emphasis on concepts and theories developed from a comparative politics perspective. Pre: sophomore standing or higher, or consent. **DS**

**POLS 306 Comparative Politics of Developing Countries (3)** Political, economic, and social development in the Third World. Repeatable one time. Pre: sophomore standing or higher, or consent. **DS**

**POLS 307 (Alpha) Topics in Comparative Politics: Country/Regional (3)** Political, social, and economic processes in specific countries/regions. (B) Southeast Asia; (C) Pacific Islands; (F) Middle East; (G) Philippines; (H) Japan; (I) Europe; (J) India; (K) East Asia. Repeatable one time. Pre: sophomore standing or higher, or consent. **DS**

**POLS 308 Chinese Political Economy (3)** Interdisciplinary review and analysis of the social and political issues in contemporary China, the interchange between state and society in national policies, the relationship between cultural tradition and technological modernization in the social transformation process. A-F only. Pre: sophomore standing or higher, or consent. (Cross-listed as ASAN 308). **DS**

**POLS 309 Politics of Indigenous Language Revitalization (3)** Study of the importance and processes of language revitalization for indigenous peoples in Hawai'i, the Pacific, Asia, and North America. Pre: any 100 level POLS course. (Alt. years) **DS**

**POLS 315 Global Politics/International Relations (3)** Introduction to global politics with emphasis on

concepts and theories developed from an international relations perspective. Pre: sophomore standing or higher, or consent. **DS**

**POLS 316 International Relations (3)** Decision-making behavior of international actors; strategies of peacemaking. Pre: sophomore standing or higher, or consent. **DS**

**POLS 317 International Law (3)** Nature and function of international law in international politics. Pre: sophomore standing or higher, or consent. **DS**

**POLS 318 Current Issues in International Law, Organization, and Culture (3)** Principles, norms, cases, and their interaction with culture and organization in international politics. Pre: any 100 level POLS course or consent. **DS**

**POLS 319 International Organization (3)** International relations of governmental and nongovernmental organizations. Pre: sophomore standing or higher, or consent. **DS**

**POLS 321 International Migration (3)** Political-cultural economy of international migration: post-colonial populations, refugees, and immigrants. Pre: sophomore standing or higher, or consent.

**POLS 322 American Foreign Policy (3)** Purposes, methods, strengths, obstacles, prospects; factors affecting American foreign policy; impact abroad and at home. Pre: sophomore standing or higher, or consent. **DS**

**POLS 323 Model United Nations (1)** Simulation of United Nations organizations, especially General Assembly. Repeatable 4 times. Pre: 315 (or concurrent) or 319 (or concurrent), or instructor consent. **DS**

**POLS 324 Global Environmental Politics (3)** Evolution of international politics, law and decision-making on a variety of environmental concerns; from endangered species to pollution to climate change. Interaction of population, development, and environment in global governance. **DS**

**POLS 325 Religion and Law in the U.S. (3)** Surveys church-state jurisprudence since the 1940s, with special attention to difficulty of defining religion, and applies the religion clauses to current issues. A-F only. Pre: sophomore or higher standing, or consent. (Once a year) (Cross-listed as AMST 325) **DH**

**POLS 333 Advanced Topics in Global Politics (3)** Studies of political development in the context of increasingly integrated and globalized political economies. Repeatable one time. Pre: any 100 level POLS course or consent.

**POLS 335 History of Political Thought (3)** Theories, approaches, concepts, and issues developed or raised in history of political philosophy and thought. Pre: any 100- or 200-level POLS course, or consent. **DS**

**POLS 337 American Political Theory (3)** Origins and development of American political thought. Pre: any 100 level POLS course or consent. **DS**

**POLS 338 (Alpha) Topics in Political Theory (3)** Significant works, historical continuities, themes, and issues in political theory. (B) classical political philosophy; (F) revolution and utopia; (G) contemporary political theory; (I) Marxist philosophy. Pre: any 100- or 200- level POLS course; or consent. **DS**

**POLS 339 Feminist Theory (3)** Contemporary debates in feminist theory concerning gender, race, and class; subjectivity and representation; gender and colonialism; bodies, sexualities and "nature." Pre: any 300 level POLS or WS course; or consent. (Cross-listed as WS 439) **DS**

**POLS 340 Korean Politics and Society Through Film (3)** Examines modern Korean politics and society through films. Through movies and documentaries, students will learn major sociopolitical issues including military dictatorship, democratization, and globalization that Korea underwent for the last several decades. Repeatable one time. Sophomore standing or higher. A-F only. **DS**

**POLS 341 The Politics of Media (3)** Study of the political manipulation of aural and verbal images.

Exercises to increase media literacy. Pre: any 100 level POLS course, or consent. **DS**

**POLS 342 Political Design and Futuristics (3)** Alternative future social and political possibilities; design of means of realization of desirable futures. Pre: any 100 level POLS course, or consent. **DS**

**POLS 343 The Politics of Film (3)** Political, philosophical, and artistic dimensions of film; cross-cultural film genres; representational practices in films. Pre: any 100 level POLS course, or consent. **DS**

**POLS 344 Nā Politika ma ka Nūhou Hawai'i - Politics in Hawaiian Language Media (3)** Study of Hawaiian news media with emphasis on political content. Taught in Hawaiian. Pre: HAW 302 (or concurrent) and one of 110, 120, 130, 170, or 171; or consent. (Cross-listed as HAW 445) **DH**

**POLS 366 Advanced Topics in Theory, Media, and Method (3)** Studies in political theory, media, and methods that analyze their interrelations in a globalized world. Pre: sophomore standing or higher, or consent.

**POLS 367 Disability Law and Politics (3)** Introduction to the history and politics of U.S. disability law and activism. An analysis of disability politics as the result of the interaction between disability movement activism and the development of policy and law. A-F only. Pre: sophomore standing or higher, or consent. (Fall only)

**POLS 372 Asian Women (3)** History, culture, and contemporary reality of Asian women in Asia and the U.S. Includes critical analysis of American feminist methodology and theory. Pre: one of 339, AMST 310, AMST 316, AMST 318, AMST 373, AMST 455, WS 360, WS 361, WS 439; or consent. (Cross-listed as AMST 438 and WS 462) **DS**

**POLS 373 American Politics (Elections) (3)** Examination of voters and voting processes (participation, apathy, socialization, symbolic process, media, etc.); ideologies and belief systems. Pre: sophomore standing or higher, or consent. **DS**

**POLS 374 Law, Politics and Society (3)** Relationships between law, politics, and society will be explored. Emphasis is placed on several dimensions of legality: legal "indeterminacy" and some of the many things that law does for us and to us; law's response to violence; the connections between law and social change; access to the law and its sociological dimensions; how/why law fails and what happens when it does. A-F only. Pre: sophomore standing or higher, or consent. (Cross-listed as SOC 374) **DS**

**POLS 375 Constitutional Law I: Institutional Power (3)** Provides students with methods for interpreting U.S. Supreme Court decisions and analyzes the U.S. Supreme Court's jurisprudence on institutional authority, including the Judiciary, Executive, and Legislative branches and their relationships to power. Pre: sophomore standing or higher, or consent. **DS**

**POLS 376 Constitutional Law II: Rights and Liberties (3)** Analyzes the U.S. Supreme Court's jurisprudence on civil rights and liberties. Pre: 375 or consent. **DS**

**POLS 377 Topics in Law and Politics (3)** Current issues; recent research findings; practical research undertaken by student. Pre: sophomore standing or higher, or consent. **DS**

**POLS 378 Topics in American Politics (3)** Specific institutions and processes of the American governmental system. Pre: sophomore standing or higher, or consent. **DS**

**POLS 379 Power in America (3)** Analysis of sources of political, economic, and social power in the U.S. and the institutions through which it is exercised. Pre: sophomore standing or higher, or consent. **DS**

**POLS 381 Administration and Society (3)** Historical emergence of modern bureaucracy; mutual impact of administrative forms on social life; relation of bureaucracy to capitalism and patriarchy; constitu-

tion of the administered individual. Pre: sophomore standing or higher, or consent. **DS**

**POLS 382 Political Leadership (3)** Exploration of concepts and theories of political leadership, partly through biography, as preparation for public service or advanced scholarly inquiry. Pre: sophomore standing or higher, or consent. **DS**

**POLS 383 Politics and Public Policy II (3)** Overview of the policy-making process in various political arenas (families, cities, nations, etc.); emphasis on conceptual and empirical analysis. Pre: any 100 level POLS course or consent. **DS**

**POLS 384 Women and Politics (3)** Women's role in political institutions and processes in the U.S. and other countries. Female and male approaches to power; feminist political goals and actions. Pre: any 100 level POLS course (or concurrent), WS 151 (or concurrent), or WS 362 (or concurrent); or consent. (Cross-listed as WS 384) **DS**

**POLS 385 American Politics (3)** Institutions (parties, interest groups, legislatures, executives, local government); policies (national defense, poverty, energy, etc.); politics (symbolism, inequality, race, and gender). **DS**

**POLS 386 Public Policy-Making (3)** Students develop understanding of theory, practice, and ethical issues of public policy-making. Combines lecture/discussion and fieldtrips. Students develop policy analysis and strategic plans that identify issues, interests, and methods of influence. Repeatable one time. A-F only. Pre: HON 101 or HON 291, or departmental approval. (Cross-listed as HON 301)

**POLS 390 Political Inquiry and Analysis (3)** Introductory survey and analysis of methods used in empirical research, policy analysis, and social criticism. **DS**

**POLS 393 Advanced Topics in Law, Policy, and Society (3)** Studies integrating concerns of public law, public policy, public administration, and social movements. Pre: any 100- or 200-level POLS course, or consent.

**POLS 394 Democracy in Organizations (3)** Theory and practice of democratic organizations: women's and feminist organizations; co-ops, communes, and collectives; indigenous people's organizations; workplace democracy and social change. Pre: any 100- or 200-level POLS course or 390 (or concurrent) or WS 151, or consent. **DS**

**POLS 396 Nonviolent Political Alternatives (3)** Exploration of scientific and cultural resources for nonviolent alternatives in politics. Pre: any 100- or 200-level POLS course, or consent. (Cross-listed as PACE 373) **DS**

**POLS 399 Directed Reading and Research (V)** Pre: consent.

**POLS 401 Teaching Political Science (6)** Practicum for majors who serve as undergraduate teaching assistants. Repeatable one time. Pre: 390 (or concurrent), senior standing; and consent.

**POLS 402 Legislative Internship (V)** Field placement at the Hawai'i Legislature integrated with academic study of political institutions and practices. A-F only. Pre: consent. Recommended: 390. (Spring only) **DS**

**POLS 403 Community Internship (V)** Field placement integrated with academic study of political institutions and community organizations. Repeatable one time. Pre: consent. Recommended: 390. **DS**

**POLS 404 Senior Thesis (6)** Independent research and thesis writing with supervision of senior advisor. Pre: 390 (or concurrent) and consent.

**POLS 405 Executive Internship (V)** Open to students awarded a Mānoa Undergraduate Political Fellowship for placement in the Governor's or Lt. Governor's Office, Prosecuting Attorney's Office, or Public Defender's Office. Field placement, integrated with academic study. A-F only. Recommended: 385, 390.

**POLS 406 Senior Seminar in Political Science (3)** Discussion of issues and questions of concern

to graduating seniors in political science, including substantial research project. Pre: 390 (or concurrent) or senior standing or consent. **DS**

**POLS 408 Mānoa Undergraduate Congressional Fellowship Internship Seminar (6)** Hawai'i Undergraduate Political Internship's Congressional Fellowship. Award includes stipend and internship experience in a Hawai'i congressional office. Students review policy processes, House and Senate procedures and produce a final paper. Restricted to fellowship awardees only. Junior and senior standing only. A-F only. Co-requisite: 386.

**POLS 436 Gender, Justice and Law (3)** Exploration of landmark U.S. Supreme Court cases related to sex and gender. Topics may include sex discrimination, sexual orientation discrimination, privacy, and reproductive freedom. A-F only. Pre: one of WS 151, WS 175, WS 176, WS 202, WS 360, WS 381, or consent. (Cross-listed as AMST 436 and WS 436) **DS**

**POLS 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**POLS 600 Scope and Methods of Political Science (3)** Main concepts delineating boundaries of discipline; approaches to knowledge employed by political scientists; empirical and normative theory; problems in theory-building; validity and reliability in research design; philosophy of science applied to political science.

**POLS 601 Political Analysis and Theory Building (3)** Survey of theory-building, approaches and validation techniques.

**POLS 602 Research Techniques and Analytic Methods (3)** Quantitative models and statistical inference techniques.

**POLS 605 Topics in Methodology (3)** Specific methodological techniques and practices introduced in 601 and 602. Pre: graduate standing or consent.

**POLS 610 Political Theory and Analysis (3)** Major contemporary approaches and styles in political theory, philosophy, and analysis.

**POLS 611 Tradition of Political Philosophy (3)** Discussion of texts and themes in the Western political tradition from Plato to Nietzsche. Repeatable one time.

**POLS 612 Hawaiian Political Thought: Theory and Method/Na Mana'o Politika Hawai'i (3)** Study of Hawaiian political thought in writing from ca. 1825 to the present, with emphasis on theory and research methods. Pre: 303, HAW 402 and HAW 428; or consent. (Cross-listed as HAW 612)

**POLS 615 (Alpha) Topics in Political Thought (3)** Specific traditions and individuals, or particular issues and problems. (C) feminist theory. Pre: graduate standing or consent. ((C) Cross-listed as WS 615)

**POLS 620 Introduction to Indigenous Politics (3)** Historical treatment of the contact between state and indigenous peoples and a survey of contemporary indigenous political initiatives: social movements, media, indigenous studies programs, and events. A-F only.

**POLS 621 Politics of Indigenous Representation (3)** Politics of indigenous representations in media, literature, and academic scholarship.

**POLS 630 International Relations (3)** Analysis of theories: actors, decisions, systems, conflict, integration, alternative approaches to validation. Pre: graduate standing or consent.

**POLS 633 International Conflict Resolution (3)** Analysis of international conflict and conflict resolution. Theory and practice of negotiation, mediation, conciliation, facilitation, and other "third-party" methods of peaceful settlement. Pre: graduate standing or consent.

**POLS 635 (Alpha) Topics in International Relations (3)** (B) international relations and war; (E) international organization; (F) modeling international systems. Pre: graduate standing or consent.

**POLS 640 Comparative Politics (3)** Emphasis on Asia, theories of development, and comparative methods. At least one section a semester.

**POLS 642 Indigenous Peoples and Western Imperialism (3)** Historical examination of U.S. and European imperialisms, including national narratives, politics, and impacts upon indigenous peoples in the Americas, Pacific, and Asia. Repeatable one time.

**POLS 645 (Alpha) Politics and Development: Regional (3)** Politics of particular regions; particular development processes. (C) China. ((C) cross-listed as ASAN 608 and PLAN 608)

**POLS 646 (Alpha) Politics and Development: Topical (3)** (F) political ecology and development.

**POLS 647 American Political Institutions in Comparative Perspective (3)** Consideration of American political institutions and development relative to American philosophical foundations and non-American political forms. Federalism as an expansive device will be emphasized, as will American influence and penetration abroad. A-F only. Pre: graduate standing or consent. (Once a year)

**POLS 650 Public Administrative Theory (3)** Focus varies among theoretical, comparative and developmental approaches to study of administration. One section each semester.

**POLS 651 Political Leadership (3)** Exploration of political leadership as a focus for research, teaching, and applied political science.

**POLS 660 Public Law and Judicial Systems (3)** Law, courts, and rights as a political resource; analyses of public law (including court decisions), other forms of dispute management, and judicial behavior and policy-making. Pre: 110.

**POLS 665 (Alpha) Topics in Public Law and Judicial System (3)** Recent issues and practices in public law; particular judicial systems. Pre: graduate standing or consent.

**POLS 670 Introduction to Public Policy (3)** Perspectives on policy analysis; basic approaches to the study of public policy, political economy, and policy evaluation. (Cross-listed as PLAN 607)

**POLS 672 Politics of the Future (3)** Introduction to political futures studies; images of future, theories of social change, methods of social forecasting and designing preferred futures. Pre: graduate standing.

**POLS 673 The Future of Political Systems (3)** Normative and descriptive forecasts of political institutions, systems, subsystems, and behaviors. Design of preferred systems.

**POLS 675 Topics in Public Policy (3)** Particular political processes, specific political institutions, or particular policy area. Pre: graduate standing or consent.

**POLS 680 Asian and/or Pacific Politics (3)** Political development, international relations, decision-making processes, and systems of political thought in all or part of Asia and/or the Pacific. Repeatable three times.

**POLS 684 Contemporary Native Hawaiian Politics (3)** Study of political and social movements, political status, national and cultural identities, and issues of representation of Native Hawaiians.

**POLS 685 (Alpha) Topics in Asian and/or Pacific Politics (3)** (C) Korean politics. Pre: graduate standing or consent.

**POLS 686 Politics of Hawai'i (3)** Examinations from several perspectives of the political, economic, and cultural forces that historically formed Hawai'i and contemporary political themes, issues, and processes. Pre: graduate standing.

**POLS 695 Colloquium (3)** Specialized subjects in political science.

**POLS 696 Graduate Intern Seminar (3)** Seminar for those seeking internship experience. Repeatable one time. A-F only. Pre: 672 and 673 or consent for the alternative futures option; 620 or consent for the

indigenous politics option; consent of advisor for all other options.

**POLS 699 Directed Reading and Research (V)** Repeatable unlimited times. Pre: consent.

**POLS 700 Thesis Research (V)** Repeatable unlimited times.

**POLS 702 Seminar: Research Methods (3)** Conceptual strategies, data collection approaches, and data analysis techniques appropriate to political inquiries. Repeatable.

**POLS 703 Writing Politics (3)** Seminar on the politics of writing, grammar, translation, argument, genre, and style with significant content on indigenous issues of oral traditions, alternative modes of writing and argument, and language continuance.

**POLS 710 Seminar: Political Thought (3)** Pre-announced topics. Repeatable. At least one section a year.

**POLS 720 Seminar: Indigenous Theory (3)** Pre-announced topics may include gender and sexuality studies, postcolonial theory, colonial discourse analysis, globalization, historiography; emphasis on indigenous epistemologies and the work of native scholars. Repeatable one time.

**POLS 730 Seminar: International Relations (3)** Pre-announced problems of both international organization and politics. Repeatable. At least one section a semester.

**POLS 740 Seminar: Comparative Government and Politics (3)** Pre-announced topics. Repeatable. At least one section a semester.

**POLS 770 Seminar: Public Policy (3)** Pre-announced topics. Repeatable three times. Pre: consent of instructor. At least one section a year.

**POLS 776 Indigenous Nations and the Problems of Sovereignty (3)** Examines intersections of sovereignty and indigeneity from comparative and critical perspectives. Engages indigenous studies of sovereignty and of alternative political frameworks. Repeatable one time. (Alt. years)

**POLS 777 Decolonial Futures (3)** Topic engages probable and preferable futures of indigenous struggles and resistances. Emphasis placed on the ethics and responsibilities used to move towards those futures.

**POLS 780 Seminar: Politics of Regions (3)** Analysis of political development, international relations, decision-making processes, and systems of political thought in regions and subregions of the world. Repeatable.

**POLS 800 Dissertation Research (V)** Repeatable unlimited times.

## Portuguese (PORT)

*College of Languages, Linguistics and Literature*

*Students choosing Portuguese for the language requirement should realize it may not be offered if demand is limited. A grade of C or better in the prerequisite courses is required for continuation.*

**PORT 101 Elementary Portuguese (3)** Conversation, grammar and reading. **HSL**

**PORT 102 Elementary Portuguese (3)** Conversation, grammar and reading. Continuation of 101. Pre: 101. **HSL**

**PORT 201 Intermediate Portuguese (3)** Reading, conversation, writing, laboratory drill. Pre: 102. **HSL**

**PORT 202 Intermediate Portuguese (3)** Continuation of 201. Pre: 201. **HSL**

**PORT 303 Conversation (3)** Intensive practice in spoken Portuguese, focusing on the preparation and completion of oral tasks and presentations. 40% or more of the grade is based on 3-4 oral communication presentations. Pre: 202.

**PORT 360 Third-Level Portuguese Abroad (V)** Intensive, formal instruction at the third-year level in Portuguese language: reading, writing, pronunciation, grammar, or conversation in a Portuguese-speaking country. Repeatable one time. Pre: 202.

**PORT 460 Fourth-Level Portuguese Abroad (V)** Intensive formal instruction at the fourth-year level in Portuguese language, linguistics, culture, civilization, film, or literature in a Portuguese-speaking country. Repeatable one time. Pre: 360.

## Psychiatry (PSTY)

*School of Medicine*

### PSTY 499 Directed Reading/Research (V)

Individualized directed readings and/or research in mental health and psychiatry under the supervision of an instructor. Open to non-majors. Repeatable up to four times. A-F only. Pre: consent.

### PSTY 531 7-Week Psychiatry Clerkship (10)

7-week basic psychiatry clerkship. Pre: third-year standing.

### PSTY 532 Psychiatry Longitudinal Clerkship (5)

Year-long clerkship in ambulatory setting, including knowledge, skills, attitudes for assessment, diagnosis, and management of psychiatric problems in medical practice, inpatient, and emergency room settings. Emphasis on development and application of psychosocial cultural formulations in all areas of psychiatric and medical practice. Repeatable two times. Pre: third-year standing and concurrent registration in 532 courses.

### PSTY 545 (Alpha) Electives in Psychiatry (V)

Senior medical student elective providing advanced instruction on the theory and methods of mental health research as well as supervised participation in an assigned research project in the Department of Psychiatry. (B) adult inpatient PSTY; (C) child PSTY; (D) forensic PSTY; (E) journal editing; (F) community mental health; (G) PSTY aspects of OBGYN, PED, MED, SURG; (H) sub-internship in adult PSTY; (I) substance abuse; (J) PSTY aspects of rehab medicine; (K) PSTY aspects of SURG; (M) PSTY consult liaison; (N) post-traumatic stress disorder; (O) extramural elective in PSTY; (Q) geriatric PSTY; (R) rural child PSTY; (S) public and rural PSTY; (T) mental health research. CR/NC only. Pre: 531 or 532, and fourth-year standing.

### PSTY 595 Philosophy & Human Suffering (1)

To see how various philosophies and religions have tackled the question, "why is there suffering in the world?" Read short excerpts from "classic" texts and discuss in a welcoming atmosphere and draw own conclusions. Medical students only. CR/NC only. (Fall only)

**PSTY 599 Directed Reading/Research (V)** Pre: consent.

## Psychology (PSY)

*College of Social Sciences*

*PSY 100 is a prerequisite for all undergraduate courses except 170. Unless otherwise noted, 700-level seminars are explorations of current issues in their respective areas.*

### GENERAL PSYCHOLOGY (X0X)

**PSY 100 Survey of Psychology (3)** An overview of the field: psychophysiology, perception, learning, cognition, stress, personality, social psychology. **DS**  
**PSY 201 Unit Mastery Instruction (3)** Principles, techniques, issues, and philosophy. Laboratory provides working experience with this instruction technique. Pre: 100 and written consent.

**PSY 202 Psychology of Gender (3)** Survey of topics in psychology relevant to gender and its impact on the lives of women and men: socialization of gender, mental health, racial identity, majority-minority status, sexual orientation, life-span issues and violence. A-F only. Pre: 100 or WS 151. (Cross-listed as WS 202) **DS**

**PSY 402 History of Psychology (3)** Origin and development of contemporary points of view. Pre: 100. Recommended: 9 credit hours in psychology. **DS**

**PSY 403 Seminar on the Psychology of Knowledge (3)** Selected topics in the psychology of knowledge and mind from Western and/or non-Western

perspectives. Repeatable in different topics up to 9 credit hours. Pre: 100 and written consent. **DS**

**PSY 407 Practicum in Psychology (V)** Supervised psychological experience in school, clinic, hospital, industry, social welfare, government, etc. Pre: 100 and consent.

**PSY 408 Teaching General Psychology (V)** Supervised experience. Pre: 100, at least 12 additional credit hours in psychology, and written consent. Repeatable one time.

**PSY 409 General Psychology: Advanced Topics (3)** In-depth coverage of some area of theory and research. Repeatable to 6 credit hours. Pre: 100. **DS**

**PSY 600 Methodologic Foundations of Psychology (3)** Methods used in psychological research; observational, correlational, and experimental types of design.

**PSY 700 Thesis Research (V)** Research for master's thesis. Maximum of 6 credit hours. Not repeatable for credit toward master's degree.

**PSY 701 Seminar in General Psychology (3)**

**PSY 702 Seminar in History and Theory of Psychology (3)**

**PSY 800 Dissertation Research (V)** Research for doctoral dissertation. Repeatable unlimited times.

### PSYCHOMETRICS (X1X)

**PSY 212 Survey of Research Methods (4)** (3 Lec, 1 2-hr Lab) Survey of standard methods and related conceptual issues employed in psychological research. Both experimental and non-experimental methods will be reviewed. Pre: 100. **DS**

**PSY 419 Psychometrics: Advanced Topics (3)** In-depth coverage of some area of theory, research, or methodology relevant to individual differences, measurement, or aspects of psychometrics. Repeatable to six credit hours. Pre: 100. **DS**

**PSY 610 Introduction to Quantitative Methods (3)** Introduction to quantitative methods in behavioral sciences. Introduction to general linear model as principle of data analysis. Course requires basic statistics. (Meets PhD common inquiry methods requirement or elective.)

**PSY 611 Design and Analysis of Psychological Experiments (3)** Analysis of variance and other models of assessing results of experiments. Relation of analysis to design. (Cross-listed as EDEP 603)

**PSY 612 Applied Regression and Analysis of Variance (3)** Introduction to linear statistical models as principle of data analysis. Topics include multiple regression models with continuous and categorical predictors. ANOVA with multiple factors, ANOVA with repeated measures, and ANCOVA. Pre: 610 or EDEP 601 or PSY 610, (with a grade of B+), or consent. (Cross-listed as EDEP 604)

**PSY 613 Structural Equation Modeling (3)** Theories and applications to test models with manifest and latent variables. Topics include path analysis, factor analysis, and latent variable analysis. Pre: 612, EDEP 604, or consent. (Cross-listed as EDEP 605)

**PSY 614 Multivariate Methods (3)** Multivariate forms of multiple linear regression, analysis of variance, and analysis of co-variance. Multiple discriminant analysis, canonical correlation, and principal components analysis are discussed. (Cross-listed as EDEP 606)

**PSY 616 Measurement in Education and Social Sciences (3)** Test theories and applications in education and social sciences. Topics include the true score model; reliability; generalizability theory; validity; item response theory; and applications in research. Class requires knowledge in ANOVA and regression. (Cross-listed as EDEP 616)

**PSY 617 Advanced Psychometrics (3)** Theories and applications of modern psychometrics. Topics include unidimensional and multidimensional models of item response theory, detecting biased items, measurement invariance, scaling methods, and current issues in psychometrics. Pre: 616, EDEP 616, or consent. (Cross-listed as EDEP 626)

**PSY 618 Categorical Data Analysis (3)** Theories and methods for data analysis with categorical and discrete variables. Topics include contingency tables; logistic regression; log-linear models; and introduction to generalized linear models. (Cross-listed as EDEP 618)

**PSY 619 Multilevel Modeling for Cross-Sectional and Longitudinal Data (3)** Theories and applications of multilevel model to analyze cross-sectional and longitudinal data in education and social sciences. Pre: 612 or EDEP 604 (with a minimum grade of B or higher), or consent. (Cross-listed as EDEP 612)

**PSY 719 Research in Psychometrics (3)** Supervised reading, discussion, research projects in areas of special interest. Repeatable unlimited times. Pre: consent.

### EXPERIMENTAL PSYCHOLOGY (X2X)

**PSY 220 Introduction to Behavioral Psychology (3)** Outline of basic learning principles. A general, unified approach to study of human personality and behavior. Based upon a learning conception; various areas of psychology and the other social sciences are treated. Pre: 100. **DS**

**PSY 225 Statistical Techniques (3)** Frequency distributions; graphic methods; central tendency; variability; correlation; reliability; tests of significance. Pre: 100. **DS**

**PSY 322 Learning and Motivation (3)** Theoretical interpretations; survey of major theorists and contemporary controversial issues; major influences in classical and instrumental conditioning. Pre: 100. Recommended: 220. **DS**

**PSY 324 Psychology of Emotion (3)** Survey of traditional views and leading theories, and research in related topics. Pre: 100. Recommended: 220 or 322. **DS**

**PSY 325 Cognitive Psychology (3)** Mental processes of humans and other organisms. Survey of major theories and findings in cognitive psychology. Pre: 100 or consent. **DS**

**PSY 429 Experimental Psychology: Advanced Topics (3)** Coverage in-depth of some area of theory and research. Repeatable to six credit hours. Pre: 100. **DS**

**PSY 422 Animal Learning (3)** Principal findings and major theories in animal learning. Detailed consideration of the contemporary literature.

**PSY 625 Knowledge and Wisdom (3)** Topics in the psychology of mind from Western and/or Asian perspectives. Repeatable in different topics. Pre: consent.

**PSY 626 Cognitive Psychology (3)** In-depth survey of the computational and representational structures and processes of cognition. Special attention devoted to consideration of the relationship between brain, mind, and computation. Pre: 325 or consent.

**PSY 627 Thinking (3)** Provides an introduction to higher cognition (thinking and reasoning) and its foundations, particularly as they relate to the larger field of cognitive science. A-F only. (Alt. years)

**PSY 721 Seminar in Experimental Psychology (3)** Repeatable unlimited times.

**PSY 722 Seminar in Learning (3)**

**PSY 729 Research in Experimental Psychology (3)** Supervised reading, discussion, research projects in areas of special interest. Repeatable unlimited times.

### PSYCHOBIOLOGY (X3X)

**PSY 230 Introduction to Psychobiology (3)** Survey of study of behavior from a natural sciences viewpoint. Evolution, ethological analysis of behavior genetics, neural mechanisms, drugs and behavior, biological development. Pre: 100. **DB**

**PSY 331 Behavioral Neuroscience (3)** Coverage of the neural, developmental and mechanistic bases of learning, memory and cognition, motivated and regulatory behavior and mental disorders. A-F only. Pre: 230 or consent. **DB**

**PSY 333 Psychopharmacology (3)** Coverage of the basic principles of pharmacology as they apply to the brain and specific brain disorders such as anxiety, depression, psychosis, memory, and drug abuse. A-F only. Pre: 230 or consent. (Once a year) **DB**

**PSY 439 Psychobiology: Advanced Topics (3)** Coverage in-depth of some area of theory and research in psychobiology, physiological psychology, or sensory processes. Repeatable to six credit hours. Pre: 100. **DB**

**PSY 631 Comparative Psychology (3)** Comparative study of natural behavior, learned behavior, sensory processes, social behavior in animals.

**PSY 632 Selected Topics in Comparative Psychology (3)** Intensive review of comparative, communicative, sensory, or learning mechanisms in animals. Pre: 631.

**PSY 633 Psychopharmacology (3)** Basic principles of pharmacology as they apply to the brain and specific psychological disorders such as anxiety, depression, post-traumatic stress disorders, schizophrenia, psychosis, memory, and drug use. A-F only. Pre: consent. (Once a year)

**PSY 634 Physiological Psychology (3)** Relation of central and peripheral nervous systems to behavior.

**PSY 731 Seminar in Physiological Psychology (3)** Repeatable unlimited times.

**PSY 732 Seminar in Comparative Psychology (3)** Repeatable unlimited times.

**PSY 739 Research in Psychology (3)** Supervised reading, discussion, research projects in areas of special interest. Repeatable unlimited times.

#### **DEVELOPMENTAL PSYCHOLOGY (X4X)**

**PSY 240 Developmental Psychology (3)** Emotional, mental, physical, social development from infancy to adulthood; interests and abilities at different age levels. Pre: 100. **DS**

**PSY 341 Social Development of Children (3)** Survey of socialization process and acquisition of social behavior. Pre: 240 or FAMR 230. **DS**

**PSY 342 Adult Development and Aging (3)** Overview from a multidisciplinary, life-span perspective. Includes research techniques, personality development, family relationships, occupational attainment, death. Pre: 100. Recommended: 240. **DS**

**PSY 442 The Exceptional Child (3)** Evaluation of physical, emotional, and intellectual deviations; effects on growth and development of children. Pre: 100. Recommended: 240. **DS**

**PSY 449 Development Psychology: Advanced Topics (3)** Coverage in-depth of some area of theory and research. Repeatable to six credit hours. Pre: 240, 341, or consent. **DS**

**PSY 640 Developmental Foundations (3)** Historical, theoretical, and methodological foundations of developmental psychology.

**PSY 642 Cognitive Development (3)** Familiarizes students with current research and theory in cognitive development through readings of original journal articles and monographs. Pre: 640 (or concurrent) or consent.

**PSY 741 Seminar in Developmental Psychology (3)** Repeatable unlimited times.

**PSY 749 Research in Developmental Psychology (3)** Supervised reading, discussion, research projects in areas of special interest. Repeatable unlimited times.

#### **SOCIAL PSYCHOLOGY (X5X)**

**PSY 250 Social Psychology (3)** Cognitive, behavioral, and emotional effects of people: interpersonal relations, attribution, attitudes, group behavior, stereotypes, social roles, aggression, helping, self-concept; applications. Pre: 100. **DS**

**PSY 351 Cross-Cultural Psychology (3)** Psychological theories and cultural systems; understanding of own and other cultures; psychological and cultural perception of social motivation; cultural similarities and differences in interpersonal relations. Pre: 100. **DS**

**PSY 352 Psychology of Human Sexuality (3)** Psychosocial aspects of human sexual relationships. Social psychology of emotional and physiological arousal, interpersonal attraction, and societal regulation of intimate relationships. Pre: 100. **DS**

**PSY 459 Social Psychology: Advanced Topics (3)** Coverage in-depth of some area of theory and research. Repeatable to six credit hours. Pre: 250 or consent. **DS**

**PSY 650 Social Psychology (3)** Theories and research in social cognition and behavior.

**PSY 653 Cross-Cultural Psychology (3)** Application of psychological theories to cross-cultural phenomena; assessment of cross-cultural processes and social motivations; culture and personality; research evaluation and design.

**PSY 654 Psychology and Social Issues (3)** Conflict, dissent, community issues, problems; social change and its relation to mental disorder.

**PSY 655 Applied Social Psychology (3)** Problems in use of social psychology principles in human affairs; multidisciplinary considerations.

**PSY 656 Social Psychology of Love and Sex (3)** Seminar in psychosocial aspects of human sexual relationships. Social psychology of cognitive, emotional and physiological arousal, interpersonal attraction, mate selection, and antecedents and consequences of intimate relationships. Pre: consent. A-F only. (Spring only)

**PSY 751 Seminar in Social Psychology (3)** Repeatable unlimited times.

**PSY 759 Research in Social Psychology (3)** Supervised reading, discussion, research projects in areas of special interest. Repeatable unlimited times.

#### **PERSONALITY/TRANSPERSONAL PSYCHOLOGY (X6X)**

**PSY 260 Psychology of Personality (3)** Scientific study of personality, its meaning, assessment, development, relation to cultural-social determinants. Pre: 100. **DS**

**PSY 361 Transpersonal Psychology (3)** Psychological study of transpersonal human capacities, potentialities, awareness, and growth. Pre: 100. **DS**

**PSY 469 Personality: Advanced Topics (3)** Coverage in-depth of some area of theory and research in personality or transpersonal psychology. Repeatable to six credit hours. Pre: 100. **DS**

**PSY 660 Personality Theory and Research (3)** Methods of measurement, antecedents, structure, dynamics, situational determinants of individual reactions. Evaluation of theories and related research. Pre: 260.

**PSY 763 Seminar in Transpersonal Psychology (3)**

**PSY 764 Seminar in Humanistic Psychology (3)**

**PSY 769 Research in Personality (3)** Supervised reading, discussion, research projects in areas of special interest. Repeatable unlimited times.

#### **ADJUSTMENT/CLINICAL (X7X)**

**PSY 170 Personal Development (3)** The application of psychology to the understanding, management, and enhancement of one's life. **DS**

**PSY 270 Introduction to Clinical Psychology (3)** History, theories, types of psychological problems, methods of assessment, forms of intervention, current developments. Pre: 100. **DS**

**PSY 371 Abnormal Psychology (3)** Nature and causes of psychoses; abnormalities of intelligence; psychotherapy. Pre: 100. Recommended: 270. **DS**

**PSY 476 Health Psychology (3)** Psychological principles for understanding and dealing with wellness and illness. Theories and research on stress-related disorders; prevention of stress through lifestyle and healthy behaviors. Pre: 100 or consent. Recommended: 220 or 322. **DS**

**PSY 477 Communication in Helping Relationships (3)** Theory and application of personal and

interpersonal elements affecting communication of human-service professionals. Supervised practice, video lab. Pre: one of 100 and COMG 151, COMG 251 or COMG 301. (Cross-listed as COMG 490) **DS**

**PSY 478 Teaching Personal Development (6)** Supervised experience in leading a seminar in personal development. Pre: 170 and 12 additional credits in PSY and written consent.

**PSY 479 Advanced Topics in Adjustment/Treatment/Prevention (3)** Coverage in-depth of some area of theory and research. Repeatable to six credit hours. Pre: 270, 371 or consent. **DS**

**PSY 670 Introduction to Clinical Psychology (3)** Preparation for becoming a clinical psychologist with emphasis on scientist-practitioner model, professional ethics, diversity and professional development. Pre: graduate student in psychology or consent of instructor.

**PSY 671 Introduction to Assessment I (3)** Psychometric theory; ethics; diversity issues; principles and methods of cognitive-intellectual, neuropsychological, and personality assessment. Co-requisite: 670 or consent.

**PSY 672 Introduction to Assessment II (3)** Administration and interpretation of cognitive-intellectual and personality assessment devices. Pre: 670 and 671 or consent and enrollment in Clinical Studies Program.

**PSY 673 Introduction to Assessment III: Behavior Assessment (3)** Conceptual and methodological foundations of clinical applications of behavioral assessment. PSY majors only. A-F only. Pre: 671 and 672 and enrollment in Clinical Studies Program, or consent. (Once a year)

**PSY 674 Child Psychopathology (3)** Comprehensive study of psychopathology in youth. Pre: 670 and 671.

**PSY 675 Treatment Research (3)** Idiographic and nomothetic approaches to clinical treatment research methods and findings. Pre: 670 (or concurrent) and 671, or consent.

**PSY 676 Adult Psychopathology (3)** Comprehensive study of the mental disorders of adults. A-F only. (Once a year)

**PSY 677 Child Practicum (3)** Supervised clinical assessment and treatment of children and adolescents. Repeatable ten times. Pre: consent.

**PSY 678 Adult Practicum (3)** Supervised clinical assessment and treatment of adults. Repeatable ten times. Pre: consent.

**PSY 679 Practicum in Clinical Psychology (V)** Repeatable ten times. Pre: consent.

**PSY 771 Child Treatment (3)** Psychological interventions for youth, as well as parent training. Repeatable two times. Pre: 670 or consent.

**PSY 772 Adult Treatment: Cognitive-Behavioral Therapy (3)** Training in cognitive-behavioral strategies for treating adults. Repeatable one time. Enrolled in Clinical Studies Program only. Pre: 670 or consent.

**PSY 773 Seminar in Psychopathology (3)** Repeatable unlimited times.

**PSY 774 Seminar in Clinical Psychology (V)** Repeatable unlimited times.

**PSY 775 Seminar in Psychological Therapies (3)** Repeatable unlimited times.

**PSY 776 Health Psychology: Behavioral and Biological Bases (3)** Psychological and biological bases of health psychology and behavioral medicine. Overview of cognitive, behavioral, and psychophysiological mechanisms; theories and methods of prevention in physical disease. Pre: 670 or consent.

**PSY 778 Internship in Clinical Psychology (1)** Pre: consent of instructor and department chair.

**PSY 779 Research in Clinical Psychology (3)** Supervised reading, discussion, research projects in areas of special interest. Repeatable 30 times. Pre: consent.

## COMMUNITY AND CULTURAL PSYCHOLOGY (X8X)

**PSY 280 Introduction to Community Psychology (3)** Examination of human functioning in social and ecological context. Topics include stress, health, intergroup relations, culture, ethnicity, social competence, and community empowerment. Pre: 100. **DS**

**PSY 385 Consumer Behavior (3)** Analysis of consumer behavior and motivation; principles of learning, personality, perception, and group influence, with emphasis upon mass communication effects. Pre: BUS 312 or consent. (Cross-listed as MKT 311) **DS**

**PSY 489 Applied Psychology: Advanced Topics (3)** Coverage in-depth of some areas of theory and research. Repeatable to six credit hours. Pre: 100. **DS**

**PSY 680 Cultural Community Psychology (3)** Graduate seminar on cultural considerations and issues in the history, methods, theories, interventions, and professional roles in community psychology. Small class size (up to 10). Open to graduate students.

**PSY 682 Practicum: Behavioral Change and Community (3)** Supervised experience in educational, mental health, correctional, consulting, or community action agencies. Pre: consent.

**PSY 781 Community Psychology Seminar (3)** Repeatable unlimited times.

**PSY 789 Community Psychology Research (3)** Supervised reading, discussion, research projects in areas of special interest. Repeatable unlimited times.

### RESEARCH (X9X)

**PSY 499 Directed Reading or Research (V)** Repeatable. Pre: 100 and consent of instructor and department chair.

**PSY 699 Directed Reading or Research (V)** Repeatable unlimited times. Pre: consent.

## Public Administration (PUBA)

### College of Social Sciences

**PUBA 399 Directed Reading and Research in Public Administration (V)** Independent research and reading on topics in public administration, public service, and community development. Repeatable one time. Pre: consent.

**PUBA 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**PUBA 600 Political and Economic System Processes (7)** Organized in a series of integrated, cross-disciplinary modules, the course addresses issues people in public service are likely to face. Modules include effective written and oral communication, group processes, political and economic perspectives on public institutions, the use of information resources relevant to public work, critical thinking, legislative process, and the issues of Hawaiian people. A-F only. (Fall only)

**PUBA 601 Policy and Organizational Processes (7)** Organized in a series of integrated modules, the course addresses issues people in public service are likely to face. Modules include frameworks for understanding and improving organizations, administrative law and issues of discretion, budget processes, research and analysis relevant to public work, public service ethics, and concern for future generations. A-F only. Pre: 600. (Spring only)

**PUBA 612 Applied Certificate Seminar (1)** Develop and coordinate learning experience for public administrators using skills and tools acquired in 600 and 601. Graduate certificate students only. Pre: 600 and 601.

**PUBA 620 Reforming Public Organizations (3)** Looks at the challenges and opportunities for changing public organizations so that they may be more successful in meeting their public responsibilities and better places for people to work. Focus is on the creation of positive images of organization and

effective change strategies. A-F only. (Cross-listed as CEE 620)

**PUBA 621 The Political Environment of Public Organizations (3)** Seminar on the role of public managers in shaping public opinion and public policy. Using evidence from theory and practice presents students with tools for understanding management roles within a political context. Pre: graduate standing or consent.

**PUBA 622 Strategies of Change: Leaders and Leadership (3)** Explores the key elements of leadership in public settings by examining what leaders actually do, looking at popular media portrayals of leadership, and talking together with guests about the challenges of leadership, effective followership, and positive change. A-F only.

**PUBA 623 Organizational Communication (3)** Communication theory/research applied to formal organizations; assessments of strengths and weaknesses of organizational communications systems.

**PUBA 624 Intercultural Challenges in the Public Sector (3)** Seminar on the dimensions of cultural variability and how they affect government operations from macro to micro levels, from international policy transfer to major intercultural task interaction processes such as negotiation, planning, and relationship management. Graduate standing only. A-F only.

**PUBA 630 Nonprofit Management (3)** Fundamental aspects of managing a nonprofit organization: overview of the nonprofit sector; mission and scope of nonprofit organizations; organizational structures and functions; resource and volunteer development; major management issues. A-F only Pre: graduate standing or consent.

**PUBA 635 Managing Major Aspects of the Nonprofit Sector (4)** (3 Lec, 1 Seminar) Core for nonprofit management track of the graduate certificate. Covers major aspects of managing nonprofit organizations; intended for those currently working in the nonprofit sector as well as those wishing to enter it. A-F only. (Fall only)

**PUBA 636 Nonprofit Management Practices and Tools (3)** Skills and tools needed by nonprofit managers. Topics may include grantwriting, strategic planning, business practices, program evaluation, and advocacy. A-F only. Pre: 630 or departmental approval.

**PUBA 640 International Perspectives on Public Administration (3)** Key dimensions of public administration systems on a global scale; historic and contemporary forces shaping national systems; the dimensions that distinguish them, the opportunities and constraints for comparison and the transfer of knowledge and experience. A-F only. Pre: graduate standing or departmental approval.

**PUBA 650 Public Budgeting (3)** Institutions and issues related to public-sector budgeting at federal, state, and local levels. Process of developing public budgets and constraints on public policy reflected in budgets. A-F only.

**PUBA 662 Applied Policy Analysis (3)** Explores significant contemporary policy issues relating to public administration practice. Develops analytic techniques and models of public policy-making processes, and looks at how social forces and political and economic pressures influence policy orientations.

**PUBA 663 Law, Economics, and Public Administration (3)** Uses economic thinking to explore U.S. law and the legal system with special application to public institutions. Topics include: underlying rationale of law; elements of property, contract, and tort law; evolution of administrative law, and economic efficiency of the common law system. Explores economic forces that help shape the law, the effects of legal rules on economic behavior, and the implied role of public institutions. A-F only.

**PUBA 665 Collaborative Public Management (3)** Theories, skills and tools needed to effectively manage networks in government and nonprofit organizations; explores how to administer, assess

performance, and evaluate success in these dynamic new partnerships. A-F only.

**PUBA 667 Special Topics (3)** Topics of current interest in the field of public service and public administration, taught by regular and visiting faculty. Repeatable for different topics up to six credit hours. A-F only. Pre: consent.

**PUBA 690 Practicum (3)** Placement in public, private, and nonprofit organizations to observe and analyze organizational functions and processes while undertaking projects of use to the host agency. Repeatable one time. Pre: 601.

**PUBA 691 Certificate Practicum (3)** Placement in public, private, and nonprofit organizations to observe and analyze organization functions and processes while undertaking projects of use to the host agency. PUBA graduate certificate students only. A-F only.

**PUBA 699 Directed Reading (V)** Repeatable unlimited times.

**PUBA 700 Thesis Research (V)** Repeatable unlimited times.

**PUBA 709 Capstone Planning Seminar (1)** Develops topics, methods, objectives, and resources to guide work of capstone seminar. Pre: 601.

**PUBA 710 Capstone Seminar (3)** Culminates public administration core courses by incorporating theoretical, analytical, and practicum observations into examination of public issues of importance to Hawai'i and the region. Pre: 709.

## Public Policy Center (PPC)

### College of Social Sciences

**PPC 301 Governing, Politics, and Public Policy (3)** Analysis of the major processes that translate citizen preferences into public policy. A-F only.

**PPC 330 Survey of Public Policy and Analysis (3)** Students will learn about the policy making process, the results of policy decisions and how public policy is assessed, analyzed, and responded to. Also discusses important policy issues that currently fill the political landscape. Junior standing or higher. A-F only.

**PPC 340 Energy Technologies for Addressing Climate Change, Economic, Policy and Security Issues (3)** Interdisciplinary course designed to describe the inter-relationships and dynamic interactions between energy systems, the environment (climate), policy, security, and economics. Repeatable one time. A-F only.

**PPC 495 Topics in Public Policy (3)** Seminar on current issues in U.S. or international government policy. Topics vary and may include energy, long-term care, sustainability, etc. Repeatable unlimited times. A-F only. Junior standing or higher.

**PPC 499 Directed Readings or Research (V)** Requires the sponsorship of a faculty member. Together they will agree on the study topic and the work to be accomplished. Depending on the scope of the project, credits range from 1-3. Needs instructor consent. Repeatable two times up to six credits. Senior standing or higher. A-F only.

**PPC 601 Public Policy Internship (2)** 160 hour internship in public policy. Open to certificate students who have completed the core courses. PPC certificate majors only. A-F only. Pre: POLS 670.

**PPC 602 Public Policy Seminar (2)** Final seminar for certificate in public policy. Open to certificate students who have completed the core courses and the internship. PPC certificate majors only. A-F only. Pre: 601 (or concurrent) and POLS 670.

**PPC 695 Topics in Public Policy (3)** Seminar on current issues in U.S. or international government policy. Topics vary and may include energy, long-term care, sustainability, etc. Repeatable unlimited times.

**PPC 699 Directed Readings or Research (V)** Requires the sponsorship of a faculty member. Together they will agree on the study topic and the work to be accomplished. Depending on the scope of

the project, credits may range from 1-3. Repeatable up to 9 credits. Instructor consent only. A-F only. Graduate standing only.

## Public Health Sciences (PH)

### School of Medicine

*The courses listed below are offered subject to student interest and faculty availability. Please consult the Registration Guide/UH Mānoa Registration homepage for confirmed offerings each semester. The minimum required grade for prerequisites for undergraduate-level courses is C- or better, unless otherwise specified. All courses 600-level and above require graduate standing; individuals who are not public health students require instructor consent to enroll in graduate-level courses. The minimum required grade for prerequisites for graduate-level courses is B- or better, unless otherwise specified.*

#### PH 201 Introduction to Public Health (3)

Introduces public health concepts with an emphasis on principles and tools for population health, disease prevention, health professions and healthcare systems, and public health professions and systems. A-F only.

**PH 202 Public Health Issues in Hawai'i (3)** Application of general public health concepts and tools with broader public health issues as they relate to the State of Hawai'i. A-F only. Pre: 201.

#### PH 203 Seminar in Global Public Health (3)

Introduction to the basic principles of global PH. Topics include the application of these principles to global PH issues, exploration of links between health, economic, and social status, health disparities and global interventions. A-F only. (Spring only)

#### PH 301 Seminar in Public Health Issues (3)

Seminar will explore current issues and case studies in epidemiology, issues and causes of chronic and infectious diseases, how the environment interacts with health, and how social and behavioral factors affect personal health.

#### PH 305 Native Hawaiian Health Determinants (3)

Seminar to work with faculty in applying evidence-based knowledge on social determinants of health in the formation of research, policy, and program development for improving population health and reducing health disparities for Native Hawaiians. Junior standing or higher. A-F only. Pre: 201 and 202. (Spring only)

#### PH 310 Introduction to Epidemiology (3)

Lecture/discussion on the fundamental principles of epidemiology, exploring patterns of disease, threats to health and EPI methods for prevention, control, and treatment. A-F only. (Spring only)

#### PH 340 Public Health and the Environment (3)

Examines a variety of issues associated with environmental effects on disease incidence, morbidity, and mortality in relation to public health prevention strategies. Sophomore standing and above.

#### PH 341 Public Health Biology and Pathophysiology (3)

Explores the biological basis of human disease and the role public health measures play in reducing both the extent and impact of chronic and acute diseases on individuals and society. A-F only. Junior standing or higher. Pre: completion of at least one class in the natural or biological sciences (with a minimum grade of B-) **DB**

**PH 410 Advanced Epidemiology (3)** Students will gain a deeper understanding of the core concepts used in epidemiologic research and practice. Upon completion, students will have the knowledge and skills necessary to conduct an epidemiologic study. Junior standing or higher. A-F only. Pre: 201 and 310, and one of the following: ECON 321 or EDEP 429 or NREM 310 or SOCS 225 or PSY 225.

#### PH 411 Nutrition and Disease Prevention (3)

Lecture/discussion. Examines a variety of issues associated with the effects of diet on disease incidence, morbidity, and mortality in relation to public health prevention strategies. Junior standing or higher. Pre: 310.

#### PH 420 Health Education and Health Promotion (3)

Focus on the application of social and behavioral theory in health education, and how health promotion programs are constructed for various populations with an emphasis on cultural diversity and social determinants of health. Sophomore standing or higher. A-F only. (Fall only)

#### PH 430 Health Policy and Management (3)

Examines the role that health policy and management plays in population-based public health practice, including the delivery, quality, and costs of health care and the structure, process, and outcomes of health services delivery. Sophomore standing or higher. A-F only. (Spring only)

#### PH 480 Application of Public Health Principles in Research and Practice (3)

Introduction to a diverse range of public health projects and associated methods while working to develop an applied learning project proposal. Junior standing or higher. A-F only. Pre: 201 and 310, and one of the following: 320 or 410 or 420 or 430.

#### PH 485 Public Health Applied Learning Experience (3)

Allows students to execute an independent, mentor-supervised, applied learning project as implementation of skills learned in previous public health coursework. Applied project is a required component of the public health undergraduate degree program. Pre: 480.

#### PH 489 Public Health Undergraduate Capstone Seminar (3)

Integration of public health knowledge, skills, and practice acquired during the public health undergraduate degree. Students will also reflect on, finalize, and present their applied learning experience projects. Senior standing and higher. A-F only. Pre: 480 and 485.

#### PH 492 (Alpha) Current Issues and Topics in Public Health (V)

Current and emerging issues and varying topics related to public health. (B) biostatistics; (E) epidemiology; (H) health policy and management; (S) social and behavioral health sciences; (T) public health. Repeatable up to six credits with different alphas. Open to nonmajors. Sophomore standing and above. A-F only. Pre: 201.

**PH 499 Directed Reading/Research (V)** Repeatable up to six credits. PH majors only. Junior standing or higher.

**PH 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**PH 600 Introduction to Public Health (2)** Focus will provide a broad introduction to the field of public health and orientation to overarching issues in the field. A-F only. (Fall only)

#### PH 602 Introduction to Health Services (3)

Overview of the historical, conceptual, ethical and political context for health care delivery. It explores current trends, practices and issues in the delivery of health care services. Repeatable one time.

#### PH 610 Public Health Biology (3)

Writing-intensive asynchronous computer-based course examines biological processes and challenges relevant to the public health professional. Topics include anatomical, pathophysiological, and molecular bases of public health; genetics, immunology, ethics; disease prevention, control, and management. (Once a year) (Cross-listed as CMB 610)

#### PH 623 Social Science and Public Health (3)

Individual and community health; implications for public health practice, individual and social change processes.

**PH 626 Health Economics (3)** Integrated concepts in health economics and its application towards health policy issues; market failures in health care; factors affecting U.S. health care spending potential impact on equity/efficiency stemming from changes in health care delivery. A-F only. (Once a year)

#### PH 628 Stress and Stress Management in Public Health (3)

Lecture/discussion on theoretical concepts of stress and stress management, management

issues, selected application areas, and prevention and treatment skills relevant to public health. Format includes readings, guest speakers, student paper, and practical exercises. A-F only. (Once a year)

#### PH 630 Cultural Competency in Health Care (3)

Presents both analytical and practical approaches to cultural competency domains, concepts, models, frameworks, patterns and communication that occur in cross-cultural healthcare situations. A-F only.

#### PH 635 Indigenous Health Seminar (2)

Examines public health through an Indigenous lens, integrates competencies across all public health disciplines, and will apply them in context of working for and with Indigenous communities to improve health and wellness. PH majors or consent. Graduate students only. A-F only. (Fall only)

#### PH 641 Introduction to Health Policy (3)

Lecture/discussion on historical and current public health policies; the role of stakeholders in health policy-making and advocacy; using health policy frameworks for conducting policy analysis. Group activities apply the concepts presented in class. A-F only. Pre: 602 or consent. (Once a year)

#### PH 646 Grant Writing in Public Health (1)

Lecture/discussion on grant writing with public health focus. Includes basic components of grant proposals, assessing appropriate funding opportunities, data sources/resources for justifying grants, and the funder's perspective. Student will prepare a brief foundation grant proposal. A-F only. (Once a year)

#### PH 647 Analytic Approaches to MCH (3)

Application of analytic methods to the identification of health problems in children and women of reproductive age. Evidence-based approach in MCH. Repeatable one time.

#### PH 648 Public Health Program Planning (2)

Combined lecture and seminar-style on the theory and practice of public health program planning. Open to non-majors. A-F only. Pre: consent.

**PH 649 Needs Assessment (3)** Knowledge and skills acquisition in conducting needs assessment in public health practice.

#### PH 650 Ecological Epidemiology (2)

Applications of population biology, pathogen/host life history, and population genetics to infectious disease epidemiology, including micro- and macroparasites, and implications to disease control and prevention of strategies. A-F only. Pre: consent. (Alt. years: spring) (Cross-listed as TRMD 650)

#### PH 651 Introduction to Human Population (3)

Comparative analysis of quantitative and qualitative aspects of population; factors affecting size, distribution, and composition; impact of population size and composition on society. (Cross-listed as GHPS 651 and SOC 651)

**PH 652 Interdisciplinary Seminar (1)** Topics such as contemporary issues in global health and population studies, international health programs, demographic methods, global economy and health, human right and humanitarian assistance, social justice, global environmental changes and health. Pre: consent. (Cross-listed as GHPS 652)

**PH 655 Biostatistics I (3)** Introduction to statistical methods for public health sciences. Probability, experimental design, t tests and analysis of variance, 2X2 contingency tables, linear regression, introduction to life tables.

**PH 656 Biostatistics II (3)** Poisson distribution, Fisher's exact test, contrasts in ANOVA, two way ANOVA, multiple linear regression and analysis of covariance, path analysis, logistic regression, method of maximum likelihood, likelihood ratio tests. Pre: 655, completion of one semester of calculus; or consent.

#### PH 658 Computer Applications in Public Health (3)

Applications of computers to problems common to public health. Emphasis on data analysis and processing using existing computer programs.

#### PH 659 Methods of Demographic Analysis (3)

Statistical evaluation and analysis of population

data; data sources; population growth; composition; standardization of rates; mortality and the life table; natality and fertility; distribution, migration, and urbanization; projections and stable population theory. (Cross-listed as GHPS 659 and SOC 659)

**PH 660 Current Topics in Community Health (2)** Critique of published articles in community health as they relate to public health. Skill building in community health development techniques. Emphasis on exchange of ideas and alternative approaches. Stresses group approaches to solve community health problems. A-F only.

**PH 663 Principles of Epidemiology I (3)** Introduction to epidemiologic principles and methods. Topics covered include: outbreak investigation, measures of morbidity and mortality, measurements of risk, biological variability, screening, measurements of error, sampling, statistical significance, study design, and association and causation.

**PH 664 Principles of Epidemiology II (3)** Lecture/discussion on: design and interpretation of experimental and observational studies; causation and casual inference; biases in study design; random error and statistics role in epidemiology; and epidemiological data analysis. Pre: 655 and 663, or consent.

**PH 665 Concepts in Immunology and Immunopathogenesis (2)** Immunological concepts relating to infectious diseases and host pathogen interactions. Repeatable one time. A-F only. Pre: MICR 461 (or equivalent) or consent. (Cross-listed as TRMD 604)

**PH 666 Seminar in Infectious Disease Control (3)** Strategies for controlling important infectious diseases in the Pacific area. Emphasis on epidemiology, ecology, and public health principles. Pre: 663 (or concurrent) and one semester in microbiology, or consent.

**PH 667 Infectious Disease Micro II (3)** Will cover different families of animal viruses of importance to human diseases. The genome, structure, replication, as well as host immune responses, epidemiology, clinical features, and animal models will be presented. Repeatable one time. A-F only. Pre: TRMD 604 and MICR 351, or consent. (Cross-listed as TRMD 605)

**PH 669 Epidemiological Study Design Critique (2)** Critique of study design using published public health literature. Emphasis on exchange of ideas, alternative approaches; stresses epidemiology as science of public health. Repeatable. A-F only. Pre: 663 or consent.

**PH 671 Community and Public Health Practice (2)** Community organization and development applicable to the delivery of health services. Understanding community dynamics, mobilizing community groups for effective health care practice and delivery. Pre: 647 or 737, or consent. (Cross-listed as SW 674)

**PH 672 Leading and Managing Health Programs (3)** Assess how to organize community partnerships to create and communicate a shared vision for a changing future; discuss solutions to organizational and community challenges; maximize motivation to reach public health goals. A-F only. Pre: 600 or consent.

**PH 673 Health Ethics, Law and Politics (3)** Review theories and case studies concerning health care ethics, law and politics. Topics include health care quality, key health care policymakers, and the intersecting issues of policy and law with medicine, public health and ethics. A-F only. (Once a year)

**PH 674 Advanced Native Hawaiian Health Determinants (3)** Applications of evidence-based knowledge about the social determinants of health in the formation of research, policy, and program development for improving population health and reducing health disparities for Native Hawaiians. A-F only.

**PH 675 Community Engaged Research and Practice (2)** Explores collaborative and engaged approaches with communities in public health research and practice. With a focus on Indigenous

Peoples' health, we delve into Indigenous knowledge and empowerment in evaluation, needs assessment, intervention, and health promotion. PH majors or consent. Graduate students only. Pre: 655 and 673. (Fall only)

**PH 677 Global Health Management (3)** Provides theories, knowledge and skills required to improve executive capacity in managing people and projects in an ethical and cultural context, and organizational capacity in performance, design, strategic planning, and change management. PH majors only. A-F only. (Cross-listed as GHPS 677)

**PH 680 Health Emergencies in Large Populations (3)** Health Emergencies in Large Populations is run by the Center for Excellence in Disaster Management and Humanitarian Assistance and the Red Cross. It provides knowledge, practical skills, and networking for global health practitioners. A-F only.

**PH 681 Environmental Determinants of Health (3)** Environmental factors in personal and community health; implications for public health practice. Consideration of major issues from local, U.S., and international perspectives.

**PH 683 Global Nutrition (2)** Examination of global food and nutrition problems, programs, issues, policies, and strategies for improvement. Pre: statistics and consent. (Alt. years: fall) (Cross-listed as FSHN 683)

**PH 684 Supplemental and Nutritional Approaches in Disease Prevention and Treatment (2)** Examines a variety of issues associated with nutritional and supplemental approaches to reduce disease incidence, morbidity, and mortality in relation to public health prevention strategies. PH majors only.

**PH 688 Indigenous Peoples' Food Systems, Environment and Health (3)** Explores Indigenous Peoples' food systems as local food resources Indigenous People acquire through specific cultural knowledge of traditional territories. Global forces transforming these food systems and their impact on population health and nutrition are explored. PH majors or consent. Graduate students only. (Fall only)

**PH 689 Nutritional Epidemiology (3)** Dietary, biochemical, anthropometric and clinical methods used for evaluating nutrition and diet in the etiology and epidemiology of disease. Pre: 663 and FSHN 685, or consent. (Cross-listed as FSHN 689)

**PH 690 Global Health Challenges (3)** Addresses critical, contemporary, and transnational issues best addressed by cooperative international action. Health issues are examined in the context of intersecting effects of limited resources, socioeconomic, politics, and environmental change. A-F only. (Once a year) (Cross-listed as GHPS 690)

**PH 691 Fundamentals of Environmental Epidemiology (2)** Examines the complex relationship between environmental contaminants and human health. Emphasis on environmental epidemiology study design, environmental exposure monitoring and risk assessment, disease and environmental exposure mapping, and spatial data analysis and modeling with GIS. A-F only. (Once a year)

**PH 692 Clinical Epidemiology (3)** Combined lecture-discussion on health measurement and use of epidemiologic principles to questions applicable at both individual and population levels on diagnosis, screening, prognosis, and the safety and efficacy of therapeutic and preventive interventions. Pre: 664 or consent. (Fall only)

**PH 696 Continuing Education in Public Health (1)** Seminar designed to provide practical, community-focused, continuing education for the practicing public health professional. The application of public health principles to address practical public health problems is stressed. Weekly discussions and reports will cover a variety of relevant public health topics. Repeatable unlimited times. A-F only.

**PH 699 Directed Reading/Research (V)** Repeatable unlimited times. Pre: consent.

**PH 700 Thesis Research (V)** Repeatable unlimited times. Pre: consent.

**PH 701 Health Communication (3)** Skills-oriented course introduces the basic structure of health communication strategies in different settings, selected elements of communication theory, the development of health communication material, and a practical training in motivational counseling skills. Pre: 623 or consent.

**PH 702 Health Promotion Research (3)** Focus on research methods commonly used in health promotion. Topics will include randomized trials, quasi-experimental design, sampling, measurement, and correlational studies. Labwork will focus on the use of SPSS to analyze data for applied research problems. A-F only. Pre: 623 and 655, or consent.

**PH 704 Community-Based Participatory Research (3)** Explores ways academic and lay communities collaborate on research, key theoretical perspectives in the development of CBPR, and the challenges in implementing CBPR approaches. Format includes lectures, discussions, readings, writing assignments, and a fieldwork project. DrPH majors only. A-F only.

**PH 728 Indigenous Applied Research Methods (3)** (2 hr Lec, 1 hr Computer Lab) Health disparities research methodologies and current topics in Indigenous health research. Special focus on statistical techniques for small data sets using quantitative and qualitative methods. PH majors only. A-F only. Pre: 655 and 663.

**PH 737 Policies/Programs in MCH Services (3)** Development and organization of health services for mothers and children—review and analysis of policies and events, legislation and programs; current issues. Pre: consent.

**PH 745 Maternal and Child Health and Disabilities I (V)** Designed to teach leadership development for health professionals in an interdisciplinary seminar format. Inquiry-based learning approaches are applied with a series of families and children with neurodevelopmental and related disabilities to explore clinical, cultural, policy, and program implications for services and supports for individuals with disabilities and family members. Program evaluation and research analysis are also conducted with relevance to best practice with the MCH or CSHN population.

**PH 746 Maternal and Child Health and Disabilities II (V)** Designed to apply leadership development for health professionals in an interdisciplinary seminar format. Inquiry-based learning approaches are applied with a series of families and children with neurodevelopmental and related disabilities to explore clinical, cultural, policy, and program implications for services and supports for individuals with disabilities and family members. Program evaluation and research analysis are also conducted with relevance to best practice with the MCH/CSHN population.

**PH 747 Statistical Methods in Epidemiological Research (3)** Multiple variable statistical methods currently used in chronic disease epidemiology. Logistic regression, conditional logistic regression, proportional hazards regression modelling, generalized estimating equation-based methods, delta method approximations, exact tests. Pre: 656, 663, completion of one semester of calculus; or consent.

**PH 748 Chronic Disease Epidemiology (3)** Will cover selected topics in chronic diseases with critical analysis of the current epidemiological literature. Methodologic issues, contemporary findings and recommendations for future research will be discussed. A-F only. Pre: 663 or consent.

**PH 749 Epidemiology of Diabetes and Obesity (2)** Provides an overview of the epidemiology of neurological and neurodegenerative diseases and their risk factors, and methodological considerations for the study of these diseases. A-F only. Pre: 663 or consent.

**PH 750 Health Behavior Change (3)** Provide an understanding of the relationship between health behaviors and outcomes including psychological, physiological, and quality of life aspects. It will also focus on the major theories of behavior and behavior change. Emphasis will be placed on understanding concepts, principles, explanations, and how these are translated into practical interventions for adoption and maintaining behavior change. A-F only. Pre: 623 or consent.

**PH 751 Social Epidemiology (3)** Examine the epidemiologic study of the social distribution and social determinants of states of health, including the identification of social-environmental exposures and their relation to physical and mental health outcomes. Repeatable one time. A-F only.

**PH 753 Survival Analysis (3)** Construction and interpretation of various types of life tables, treatment of censored data, proportional hazards, relative risk regression models, and parametric survival analysis. Pre: 655 or consent.

**PH 754 Neuroepidemiology (3)** Lecture/discussion providing an overview of the epidemiology of neurological and neurodegenerative diseases and their risk factors, and methodological considerations for the study of these diseases. Pre: 663 or consent. (Fall only)

**PH 755 Seminar in Tropical Medicine and Public Health (1)** Weekly discussion and reports on current advances in tropical medicine and public health. Repeatable unlimited times. (Cross-listed as TRMD 690)

**PH 756 Special Topics in Tropical Medicine (V)** Advanced instruction in frontiers of tropical medicine and public health. Repeatable unlimited times. (Cross-listed as TRMD 705)

**PH 765 Program Evaluation (3)** Presented are principles of and frameworks for program evaluation. Students develop logic models and evaluation plans for a community program, and collect and analyze evaluation data. A-F only. (Spring only)

**PH 770 (Alpha) Doctoral Seminar in Translational Research (2)** Required for students in the DrPH program. (B) domestic and global health disparities; (C) research methods in health disparities; (D) evidence-based programs in global health and health disparities; (E) topics in health disparities and policy. Repeatable up to 8 credits. Each alpha can only be taken one time. A-F only. Pre: 602 and 623 and 655 and 663 and 681, or departmental approval.

**PH 771 Teaching Practicum (V)** Provide doctoral students with theoretical and practical teaching and course development experiences under the guidance of a faculty mentor. Students will have a portfolio documenting their accomplishments. Graduate standing in PH only. A-F only. Pre: 602 and 623 and 655 and 663 and 681 and 770(Alpha), or departmental approval.

**PH 772 Research Practicum (V)** Hands-on research experience with a faculty mentor. Meet in small groups to discuss issues related to research in public health. Final project will be submission of a publishable quality paper. Graduate standing in PH only. A-F only. Pre: 602 and 623 and 655 and 663 and 681 and 770(Alpha), or departmental approval.

**PH 773 Leading Health Organizations (3)** Reviews theories, knowledge, and practical skills that improve capacity to provide effective leadership in health organizations, organize community partnerships, communicate a shared vision, manage quality and address organizational challenges to reach public health goals. DrPH majors only. Graduate standing only. A-F only. Pre: 602 and 623 and 655 and 663 and 681. (Alt. years)

**PH 774 Managing Health Organizations (3)** Reviews theories, knowledge, and skills that build managerial capacity. Explores health executive roles in planning, organizing, implementing, and evaluating along with organizational design, strategic planning, change processes, quality improvement, and minimizing risk. DrPH majors only. Graduate

standing only. A-F only. Pre: 602 and 623 and 655 and 663 and 681. (Alt. years)

**PH 781 Environmental Health Lab Methods (2)** Hands-on training for laboratory methods used in monitoring and detecting environmental health risk factors; learning and application of immunological-, animal cell culture- and molecular biology-based techniques for studying environmental pathogens and toxic pollutants. A-F only. (Once a year)

**PH 788 Seminar in Public Health Sciences (V)** Topics related to recent developments in major areas; student and faculty research activities. Sections: (1) biostatistics; (2) environmental health; (3) epidemiology; (4) public health nutrition. Repeatable unlimited times.

**PH 789 Integrative Seminar (2)** Integrative seminar in public health required as part of the student capstone experience to bring together key aspects of their courses, competencies, and practicum. A-F only. Pre: completed PH field practicum and consent.

**PH 791 Advanced Public Health Practice (3)** Observation, study, and supervised practical work in student's area of specialization. Pre: public health degree candidate and consent.

**PH 792 (Alpha) Current Issues and Topics in Public Health (V)** Current and emerging issues and topics related to public health. (B) biostatistics; (D) environmental health; (E) epidemiology; (H) health policy and management; (I) Native Hawaiian and Indigenous Health; (S) social and behavioral health sciences; (U) public health. Repeatable unlimited times. PH majors only for (D) and (I).

**PH 793 Special Practicum/Project (V)** Supervised practical training beyond the required practicum in an area of particular interest. Provides additional opportunity to synthesize, integrate, and apply practical skills and knowledge in a public health work environment. Repeatable one time. Pre: 791 and a minimum of 6 credit hours of PH core courses, or consent.

**PH 794 (Alpha) Exploration in Public Health (V)** Investigation of emergent fields of inquiry in public health. (B) biostatistics; (D) environmental health; (E) epidemiology; (H) health policy and management; (I) Native Hawaiian and Indigenous Health; (S) social and behavioral health sciences; (U) public health. Repeatable unlimited times. PH majors only.

**PH 800 Dissertation Research (V)** Pre: consent.

## Real Estate (RE)

*Shidler College of Business*

**RE 300 Principles of Real Estate (3)** Principles affecting the allocation and utilization of real estate resources, including legal, physical, economic elements; valuation; market analysis; finance; investments, and public and private externalities affecting the allocation and utilization of real estate resources.

**RE 310 Real Estate and Environmental Law (3)** Property rights, land tenure, agency, contracts and negotiation theory, title conveyancing and escrow, mortgage instruments, fair housing, state and federal environmental policy.

**RE 320 Real Estate Finance and Investment (3)** Financial and investment techniques used to evaluate real property and real estate security investments.

**RE 330 Real Estate Appraisal/Analysis (3)** Analysis of real property, including feasibility analysis, market analysis, income property capitalization, and general real estate valuation techniques.

**RE 351 Tourism Destination Development (3)** Examination of the interrelationships of social, economic, and physical aspects of total resort development, with emphasis on physical development of tourist centers and resort areas. Pre: TIM 101.

**RE 390 Current Topics in Real Estate Analysis (3)** Consideration of various special concepts and problems in real estate. Repeatable unlimited times.

**RE 399 Directed Reading and Research (V)** Reading and research in a special area within the major field under direction of faculty member(s). Project must include statement of objectives, outline of activities planned, results expected, and how they are to be reported and evaluated. Must be approved in advance by the department chair and faculty advisor. Repeatable unlimited times.

**RE 674 Real Estate Investment Analysis (3)** Development of strategic business plans for the optimization of a firm's real property assets. Includes facilities utilization audits, contingency planning, and the impact of new techniques.

## Religion (REL)

*College of Arts and Humanities*

**REL 150 Introduction to the World's Major Religions (3)** Buddhism, Christianity, Confucianism, Hinduism, Islam, Judaism, Shinto, Taoism and indigenous traditions of Hawai'i and/or Oceania. FGC

**REL 151 Religion and the Meaning of Existence (3)** Basic ideas and issues in contemporary religious thought about the meaning of existence. DH

**REL 200 Understanding the Old Testament (Hebrew Bible) (3)** Examines the Old Testament (Hebrew Bible) as an expression of the religious life, history, and thought of ancient Israel and as a sacred text within later Judaism and Christianity. DH

**REL 201 Understanding the New Testament (3)** Origin and development of early Christian message as set forth in the New Testament; special attention to Jesus and Paul. DH

**REL 202 Understanding Indian Religions (3)** Historical survey of the teachings and practices of major religious traditions of India. DH

**REL 203 Understanding Chinese Religions (3)** Taoist, Confucian, Buddhist and folk beliefs and practices in their social and historical context. Repeatable one time. DH

**REL 204 Understanding Japanese Religions (3)** Broad survey, with primary focus on Shinto, Buddhist, and modern sectarian movements, analyzed in relation to social and cultural themes of major historical periods. DH

**REL 205 Understanding Hawaiian Religion (3)** Major teachings and practices from ancient times to present, their cultural influence; analysis of religious texts; relation to other traditions of Oceania and to Christianity. DH

**REL 207 Understanding Buddhism (3)** Survey of major forms and practices. DH

**REL 208 Understanding Judaism (3)** Survey from origin to modern times; emphasis on Jewish thought in Talmudic and medieval periods. DH

**REL 209 Understanding Islam (3)** Historical survey of the beliefs and practices of Islam as a world religion, including the prophet Muhammad, scriptures, philosophy and science, theology, law, major sectarian movements, relations with other religious traditions, and fundamentalism. (Alt. years) DH

**REL 210 Understanding Christianity (3)** History of ideas concentrating on events, persons, and issues with the greatest impact on the evolution of Christianity. DH

**REL 300 The Study of Religion (3)** Definitions and functions of religion; methodologies by which it is studied; relationship to other areas of human culture. Pre: 150 or consent. DH

**REL 301 Biblical Hebrew I (3)** Orthography and structure of Biblical Hebrew, history and development of Hebrew as the sacred language of Judaism, overview of religious and historical development of the Hebrew Bible. Pre: sophomore standing or consent. (Fall only) (Cross-listed as LLEA 301)

**REL 302 Biblical Hebrew II (3)** Reading of selected prose passages from the Hebrew Bible; analysis of literacy forms, paying special attention to stories which have played an important role in the

development of the Abrahamic religions. Minimum C- grade required for prerequisites. Pre: 301/LLEA 301. (Spring only) (Cross-listed as LLEA 302)

**REL 303 Creation and Evolution (3)** An exploration of interactions between science and religion with a focus on cosmogonies. Pre: 150 or consent. **DH**

**REL 308 Zen (Ch'an) Buddhist Masters (3)** Study of lives, teachings, practices of Zen masters in China, Japan, Korea, and the West. Pre: one of 150, 203, 204, 207; or consent. **DH**

**REL 310 Global Christianity (3)** Christianity as a transcultural religion, through the study of Christian art, literature, ritual, and theology in diverse cultures; including the Near East, Africa, Latin America, and the Pacific. Pre: 150, 201, or 210; or consent. (Once a year) **DH**

**REL 333 Cults and New Religions (3)** Study of cults and new religious movements in America, the Pacific, and East Asia; examining types, causes, and functions of these movements. Pre: 150 or consent. **DH**

**REL 348 Religion, Politics, and Society (3)** Exploration of the diverse approaches and perspectives that American religious groups embrace with respect to some of the more controversial and diverse elements of contemporary American life. Pre: 150 or 151, or consent. **DH**

**REL 351 Christian Ethics in Modern Life (3)** The meaning of Christian faith for the moral life with reference to contemporary moral issues. Pre: 150 or 151, or consent. **DH**

**REL 352 Sufism: Mystical Traditions of Islam (3)** Introduction to the history, literature, and worldview of Sufism. Students will encounter the following topics in relation to Islamic mysticism: asceticism, monotheism, philosophy, love, union, sainthood, ecstatic experience, and spiritual uses of art. Pre: 209 or 383 or PHIL 330 or HIST 354, or consent. (Once a year) **DH**

**REL 353 Witches and Witchcraft (3)** Persecution of witches, witchcraft in Europe, 1300–1700, examined as crisis of church and theology; origins, effects on church and society. Pre: one of 201, HIST 151, HIST 152, PSY 100, or consent. **DH**

**REL 354 Islam in History (3)** Examination of the historical connections between Islam and other civilizations will focus on the role of Islam in world history. Pre: 150 or 209 or consent. **DH**

**REL 356 Women and Religion (3)** Examining roles of, and attitudes toward, women in major religious traditions through autobiographies, films, and primary texts. Pre: 150 or ANTH 152 or WS 151. (Cross-listed as WS 356) **DH**

**REL 361 Love, Sex, and Religion (3)** Love and sex as themes in religions of Asia and the West. Pre: 150 or consent. **DH**

**REL 363 Religion and Art (3)** The uses of art in religion are studied with historical examples. Pre: 150 or consent. **DH**

**REL 371 Prophecies of the Last Days (3)** In-depth look at ancient Judeo-Christian apocalyptic texts and the communities in which they originated, followed by a survey of the medieval and modern day heirs of apocalyptic traditions. Pre: 150 or consent. **DH**

**REL 383 Mysticism East and West (3)** Mystic traditions of the West from desert monasticism to Renaissance mystics compared with those of South and East Asia. Pre: one of 150, 202, 203, 204; or consent. **DH**

**REL 390 Hawaiian Gods: Pele, Kamapua'a (3)** The traditions and practices related to two major indigenous gods will be studied by the interpretation and analysis of primary texts. Pre: 205 or consent. **DH**

**REL 394 On Death and Dying (3)** Aspects of death and dying; relation to our culture and society, to understanding of each other and of ourselves. Pre: 150 or 151 or consent. **DH**

**REL 399 Directed Reading (3)** Pre: one 200-level REL course and consent.

**REL 409 Life and Teachings of Jesus (3)** Critical study of synoptic gospels and of extra-Biblical sources. Pre: 201 or 210, or consent. **DH**

**REL 422 Anthropology of Religion (3)** Cults, legends, millennial movements, myths, possession, rituals, sacred healing, shamanism, sorcery, spirits, symbolism, witchcraft, and other forms of religious and symbolic expression and experience, from small scale to highly urban societies. Pre: ANTH 152. (Cross-listed as ANTH 422) **DH**

**REL 431 Health/Medicine in Religion (3)** Issues of health and disease in the light of religious beliefs and practices. Pre: 150 or consent. **DH**

**REL 443 Anthropology of Buddhism (3)** Selected aspects of national, regional and local manifestations of Buddhism are explored through the perspective of anthropology with an emphasis on the daily lives of monks, nuns and lay persons in their socio-cultural contexts. Pre: 207, 422, 475, or consent. (Alt. years) (Cross-listed as ANTH 443)

**REL 444 Spiritual Ecology (3)** Lectures and seminars provide a cross-cultural survey of the relationships between religions, environment and environmentalism. Pre: junior standing or consent. (Alt. years) (Cross-listed as ANTH 444) **DS**

**REL 445 Sacred Places (3)** Lectures and seminars provide a cross-cultural survey of sites which societies recognize as sacred and their cultural, ecological and conservation aspects. Pre: junior standing or consent. (Alt. years) (Cross-listed as ANTH 445) **DS**

**REL 452 Sociology of Religion (3)** Seminar on research in sociological aspects of religious sectarianism, historical and current; special reference to Hawai'i. Pre: SOC 300 or consent. (Cross-listed as SOC 455) **DS**

**REL 475 Seminar on Buddhism (3)** Selected historical, thematic, and textual research topics in Buddhism; topics and geographical focus to be announced each semester. Pre: one of 202, 203, 204, 207, 308; or consent. **DH**

**REL 476 Daoism: Philosophy and Religion (3)** Seminar on religious Taoism, its historical development and its role in the present-day context. Pre: consent. **DH**

**REL 478 New World Rituals and Ideologies (3)** Study of cross-cultural patterns in ritual behaviors and creolization of African, indigenous, and Iberian ideological frameworks in the Americas. Topics may include syncretic religions (voodoo, candomble), Andean Christianity, spiritual conquest, conceptions of death, etc. Sophomore standing or higher. Minimum C- required grade for prerequisites. Pre: LAIS 360, or consent. (Fall only) (Cross-listed as ANTH 478 and LAIS 478) **DH**

**REL 480 Field Methods in Religion (3)** Introduction to theoretical and methodological approaches to doing fieldwork in the study of religion. Application of these in studying Hawai'i's diverse religious environment. Pre: 300 or consent.

**REL 490 Buddhism in Japan (3)** Major features and trends in thought, institutions, and practices in the context of Japanese history and culture, 6th–20th century. Pre: 204 or 207, or consent. **DH**

**REL 492 Polynesian Religions (3)** Introduction to field, comparison of several traditions; beliefs and practices from analysis of texts. Historical interactions with Christianity. Pre: 150, 205; or consent. **DH**

**REL 495 Seminar in Religion (3)** Topics pre-announced each semester. Pre: upper division standing or consent. Repeatable one time. **DH**

**REL 499 Directed Reading or Research (V)** Repeatable up to six credits. Pre: consent of instructor and department chair.

*In addition to those specified for individual courses, prerequisites for all courses 500 and above are graduate standing and consent.*

**REL 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B candidate with consent.

**REL 600 History and Theory of the Study of Religion (3)** Survey of development of history of religions; application of methodologies from anthropology, history, philosophy, political science, psychology, and sociology.

**REL 625 Applied Methods in the Study of Religion (3)** Practicum in methods of research, argument, and discourse in scholarly writing about selected topics in religious studies. Repeatable one time. A-F only. Pre: 600 and restricted to graduate students in Religion only; or consent.

**REL 630 Practicum in Field Research in Religion (3)** Independent field study of an Asian or Polynesian religion at an appropriate academic or religious institution abroad or in Hawai'i. Repeatable one time. Pre: 600, 6 credits of area studies, and consent of graduate chair and instructor.

**REL 650 Seminar on Western Religions (3)** Historical, theoretical and methodological issues in the study of Western religious traditions. Repeatable two times. A-F only. Pre: 600 or consent.

**REL 661 (Alpha) Seminar on East Asian Religions (3)** Selected historical, thematic, and textual research topics in East Asian religions and traditions: (B) Chinese religions; (C) Japanese religions; (D) East Asian Buddhism. Repeatable up to six credits for (D), up to nine credits for (B) and (C). Pre: 661B or 661C for (D).

**REL 662 (Alpha) Seminar on South Asian Religions (3)** Selected historical, thematic, and textual research topics in Indian religious traditions: (B) Indian religions; (D) Indian Buddhism. Repeatable up to nine credits.

**REL 663 (Alpha) Seminar in Polynesian Religions (3)** Selected historical, thematic, and textual research topics in Polynesian and Hawaiian religious traditions: (B) Polynesian religions; (C) Hawaiian religion. Repeatable up to nine credits for (B) and (C).

**REL 664 Seminar in Global Christianities (3)** Examines topics in global Christianities, the conjunctures leading to Christianity as a worldwide religion, instantiations of Christianities throughout the centuries, and the trans-historical, theological, and socio-political connections existing between adherents and communities. Repeatable two times. Graduate standing only. A-F only. Pre: 600 (with a minimum grade of B) or consent.

**REL 680 (Alpha) Pedagogy in Religion (3)** Theory, preparation, and practice in the teaching of religious studies at the community college level: (B) teaching religion; (C) teaching religion practicum. Pre: 650 for (B); 600, 650 and (B) for (C).

**REL 688 Plan B Research (3)** Research for master's degree Plan B. Restricted to students in the Religion Masters Program in Plan B. Enrollment must be approved by student's project committee. A-F only. Pre: consent of committee.

**REL 695 Topics in Religious Studies (3)** Topics in the study of religion with special emphasis on theoretical approaches and concerns. Specific topics to be preannounced. Repeatable one time. Pre: 600 or consent. (Alt. years)

**REL 699 Directed Reading and Research (V)** Repeatable unlimited times.

**REL 700 Thesis Research (V)** Repeatable unlimited times. Pre: consent of thesis chair.

## Reproductive Biology (REPR)

*School of Medicine*

*The minimum grade required for undergraduate prerequisites is a D or better, and graduate prerequisites is a C (not C-) or better.*

**REPR 499 Directed Reading/Research (V)** Repeatable unlimited times.

**REPR 611 Seminar in Biomedical Sciences (1)** Presentation and discussion of current research topics

in biomedical sciences. Repeatable nine times. Pre: consent. (Cross-listed as CMB 611)

**REPR 633 Issues in Sex and Reproduction (V)** Explores issues in sex and reproduction. Topics include defining male and female, nature/nurture influences on different sexual characteristics, controversies in reproduction and ethics associated with matters like pornography and age of consent. Repeatable unlimited times. CR/NC only. Pre: PHYL 604 or consent.

**REPR 699 Directed Research (V)** Repeatable unlimited times.

**REPR 700 Thesis Research (V)** Repeatable unlimited times. Pre: admission to candidacy (master's program).

**REPR 705 Special Topics in Reproductive Biology (V)** In-depth discussion of selected areas of reproductive biology, with special emphasis on recent research results and methodologies. May be retaken for credit. Pre: consent.

**REPR 800 Dissertation Research (V)** Repeatable unlimited times. Pre: admission to candidacy (PhD program).

## Russian (RUS)

*College of Languages, Linguistics and Literature*

*All courses are conducted in Russian. A grade of C- or better in the prerequisite courses is required for continuation.*

**RUS 101 Elementary Russian (3)** Conversation, reading, writing, grammar. **HSL**

**RUS 102 Elementary Russian (3)** Continuation of 101. Pre: 101 or consent. **HSL**

**RUS 201 Intermediate Russian (3)** Reading, conversation, grammar, composition. Pre: 102 or consent. **HSL**

**RUS 202 Intermediate Russian (4)** Continuation of 201. Pre: 201 or consent. **HSL**

**RUS 209 Russian Phonetics (3)** Basic theory of Russian sound system; practice in pronunciation, intonation, and fluency. Pre: 102 or 201 (or concurrent).

**RUS 260 Intensive Intermediate Russian Abroad (V)** Intensive course of formal instruction on the second-year level in Russian language and culture in Russia. Pre: 102. **HSL**

**RUS 303 Advanced Russian (3)** Systematic practice for control of spoken and written Russian, vocabulary building, fluency in various subjects, accuracy in sentence structure, phrasing stylistic appropriateness. Pre: 202.

**RUS 304 Advanced Russian (3)** Continuation of 303.

**RUS 306 Russian Structure (3)** Advanced grammar; complexities of standard contemporary Russian; word formation and verb system. Pre: 202 or consent.

**RUS 311 Readings in Russian Civilization and Literature (3)** Mid-level readings in Russian civilization and literature of edited and adapted texts. Pre: 202. **DL**

**RUS 312 Readings in Russian Civilization and Literature (3)** Continuation of 311. Pre: 311. **DL**

**RUS 360 Intensive Third-Level Russian Abroad (V)** Intensive course of formal instruction on the third-year level in Russian language and culture in Russia. Pre: 202 or 260.

**RUS 399 Directed Reading (V)** Independent study of approved reading with faculty supervision. Repeatable two times or up to six credits. A-F only. Pre: 202 and consent and departmental approval.

**RUS 403 Advanced Conversation and Composition (3)** Systematic practice on selected topics; vocabulary building and development of fluency; writing short reports, narratives. Pre: 304 or consent.

**RUS 404 Advanced Conversation and Composition (3)** Continuation of 403. Pre: 403.

**RUS 418 Advanced Reading and Translation: Modern Prose (3)** Readings in various fields, emphasizing idiomatic usage. Pre: 312 or consent.

**RUS 419 Advanced Reading of Russian Press (3)** Materials from Soviet/Russian newspapers and magazines. Pre: 311 or consent.

**RUS 431 Russian Folklore (3)** Selected Russian folk narratives, bylinas, songs, and proverbs. Influence of folklore on major Russian authors. Pre: 312 or consent. **DL**

**RUS 441 Russian Short Story (3)** Origin and development (19th and 20th century); the major writers. Pre: three years of Russian or consent. **DL**

**RUS 442 Russian Novel (3)** Origin and development from 18th century to present. Pre: three years of Russian language or consent. **DL**

**RUS 451 Topics in 19th- and 20th-Century Russian Literature (3)** Focus upon the selected writings of one major Russian writer of the 19th century (e.g., Pushkin, Gogol, Lermontov, Dostoevsky, or Tolstoy) or 20th century (e.g., Bely, Blok, Bulgakov, Chekhov, Pasternak, Sholokhov, or Solzhenitsyn). Repeatable unlimited times with consent. Pre: 312, LLEA 351; or consent. **DL**

**RUS 452 Topics in 19th- and 20th-Century Russian Literature (3)** Continuation of 451. Pre: 312, LLEA 352, or consent. **DL**

**RUS 460 Intensive Fourth-Level Russian Abroad (V)** Intensive advanced courses of formal instruction on the fourth-year level in Russian language and culture in Russia. Pre: 360 or equivalent.

**RUS 495 Seminar (3)** Literary or linguistic topics, movements, genres, or their representatives. Repeatable unlimited times with consent. Pre: consent of chair.

**RUS 499 Directed Reading/Research (V)** Independent study of approved reading with faculty supervision. Repeatable up to six credits. A-F only. Pre: 303 (or equivalent), consent or departmental approval.

## Samoan (SAM)

*College of Languages, Linguistics and Literature*

**SAM 101 Elementary Samoan (4)** Listening, speaking, reading, writing skills. Structural points introduced inductively. History and culture. Meets four hours weekly. **HSL**

**SAM 102 Elementary Samoan (4)** Continuation of 101. Pre: 101 or consent. **HSL**

**SAM 201 Intermediate Samoan (4)** Continuation of 102. Meets four hours weekly, three of four hours devoted to drill and practice. Pre: 102. **HSL**

**SAM 202 Intermediate Samoan (4)** Continuation of 201. Pre: 201 or consent. **HSL**

**SAM 227 Overview of Samoan Literature in English (3)** Survey of major writers of Samoan literature in English; lectures, discussions, short paper. **DL**

**SAM 301 Third-Level Samoan: Traditional Culture (3)** Continuation of 202. Advanced reading and composition with development of language structure integrated in a variety of communicative and creative activities based on selected traditional cultural topics. Meets three times weekly; additional lab work. Pre: 202 or consent.

**SAM 302 Third-Level Samoan: Contemporary Culture (3)** Continuation of 202. Advanced reading and composition with development of language structure integrated in a variety of communicative and creative activities based on selected contemporary cultural topics. Pre: 202 or consent.

**SAM 321 Samoan Conversation: Traditional Contexts (3)** Systematic practice on various topics for control of spoken Samoan in traditional contexts. Pre: 202 or equivalent; or consent.

**SAM 322 Samoan Conversation: Contemporary Contexts (3)** Systematic practice on various topics for control of spoken Samoan in modern contexts. Pre: 202 or equivalent; or consent.

**SAM 421 Samoan Ceremonial Speech (3)** Development of oratory skills in Samoan ceremonial speech. Emphasis on institutionalized applications such as the kava ceremony and formal speechmaking. Pre: 302 or 322, or consent.

**SAM 422 Samoan Ceremonial Speech (3)** Continuation of 421. Pre: 421 or consent.

**SAM 431 Samoan Oral Traditions (3)** Historical survey and analysis of the oral traditions and genealogies of Samoa with special emphasis on the relationship of these traditions with Samoan ceremonial speech. Pre: 302. **DL**

**SAM 432 Samoan Oral Traditions II (3)** Continuation of 431. Pre: 431 or consent. **DL**

**SAM 452 Structure of Samoan (3)** Study of modern Samoan grammar including some sociolinguistic background. Pre: 202 or LING 102, or consent.

**SAM 461 Traditional Samoan Literature (3)** A survey of the major genres of traditional Samoan literature. Taught in the Samoan language. Pre: 302 or consent. **DL**

## Sanskrit (SNSK)

*College of Languages, Linguistics and Literature*

**SNSK 181 Introduction to Sanskrit (4)** Introduction to basic Sanskrit grammar; reading and analysis of progressively difficult classical texts. **HSL**

**SNSK 182 Introduction to Sanskrit (4)** Continuation of 181. **HSL**

**SNSK 281 Intermediate Sanskrit (4)** Continuation of 182. Reading and analysis of classical texts with review of grammar. Pre: 182. **HSL**

**SNSK 282 Intermediate Sanskrit (4)** Continuation of 281. **HSL**

**SNSK 381 Third-Level Sanskrit (3)** Continuation of 282. Reading and analysis of various classical texts. Pre: 282.

**SNSK 382 Third-Level Sanskrit (3)** Continuation of 381. Introduction to Veda.

**SNSK 481 Fourth-Level Sanskrit (3)** Continuation of 382. Reading, analysis, and interpretation of various Vedic or Sanskrit texts selected according to students' interests. Pre: 382.

**SNSK 482 Fourth-Level Sanskrit (3)** Continuation of 481.

## Second Language Studies (SLS)

*College of Languages, Linguistics and Literature*

*Courses below 380 are not applicable toward the MA in Second Language Studies.*

*The minimum grade required for undergraduate prerequisites is C (not C-), and the minimum for graduate prerequisites is B (not B-).*

**SLS 150 Learning Languages and Communicative in a Globalized World (3)** Lecture/discussion on strategies for enhancing second language learning in the context of a pluricultural-multilingual globalized world; addresses personal identity as influenced by languages; studies language-related employment, international mobility, and cross-cultural relationships. **DS**

**SLS 280 Bilingualism: Cognition and Culture (3)** Introduction to bi-/multilingualism as a phenomenon at the level of society and as a characteristic of individual speakers; discussion of recent media reports and popular myths about bilingualism in relation to research-based evidence. **DS**

**SLS 302 Second Language Learning (3)** Theoretical foundations for the learning and teaching of second/foreign languages. Includes an emphasis on instruction in writing. Pre: upper division standing.

**SLS 303 Second Language Teaching (3)** Survey of methodology; basic concepts and practices. Pre: 302 (or concurrent).

**SLS 312 Techniques in Second Language Teaching: Reading and Writing (3)** Methods and materials. Issues in teaching; survey of available

materials and practice in their adaptation. Pre: 302 (or concurrent).

**SLS 313 Techniques in Second Language Teaching: Listening and Speaking (3)** Methods and materials. Issues in teaching; survey of available materials and practice in their adaptation. Includes an emphasis on instruction and feedback in oral communication. Pre: 302 (or concurrent).

**SLS 380 Bilingual Education (3)** Survey and analysis of current thinking and practices in bilingual/bicultural education; special emphasis on ESL/EFL. Includes an emphasis on instruction in writing. Pre: 302 (or concurrent) or 600 (or concurrent); or consent. **DS**

**SLS 418 Instructional Media (3)** Theoretical foundation and practical applications of using electronic and audiovisual media in second language teaching. Pre: 303 (with minimum grade of C), or 600 (with minimum grade of B or concurrent); or consent.

**SLS 430 Pidgin and Creole English in Hawai'i (3)** Major historical descriptive, pedagogical aspects; pidgin and creole languages, linguistic change, language variation. Work with actual language data. Laboratory work required. Pre: 302 (or concurrent), or LING 102, or 600 (or concurrent); or consent. **DS**

**SLS 441 Language Concepts for Second Language Learning and Teaching (3)** Language analysis—phonology, syntax, semantics, discourse for teaching second languages. Pre: one of 302 (or concurrent), LING 102, LING 320, or 600 (or concurrent); or consent.

**SLS 460 English Phonology (3)** Basic course in English phonetics and phonology; emphasis on areas of interest to language teachers. Pre: 302 (or concurrent). **DH**

**SLS 480 (Alpha) Topics in Second Language Studies (3)** Variable topics in special areas of second language studies: (E) second language learning; (N) second language analysis; (P) second language pedagogy; (R) second language research; (U) second language use. Repeatable two times in different topics. Pre: 302 (or concurrent) for (E), (N), (R), (U); 303 (or concurrent) for (P). Not applicable toward graduate degrees offered within SLS except by departmental consent.

**SLS 485 Professionalism in SLS (3)** Capstone for SLS majors. Reflection on experiences via the major, articulation of professional values, exploration of diverse approaches to professionalism in SLS, and formal compilation of a professional portfolio. SLS majors only. Senior standing or higher. A-F only. Pre: 302 and 303.

**SLS 490 Second Language Testing (3)** Measurement and evaluation of achievement and proficiency in second language learning. Pre: 302 (or concurrent), 441, LING 102, or 600 (or concurrent).

**SLS 499 Directed Reading/Research (V)** For interdisciplinary studies majors. Pre: a minimum cumulative GPA of 2.7 or a minimum GPA of 3.0 in major, or consent of department chair.

**SLS 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**SLS 600 Introduction to Second Language Studies (3)** Introduction to basic professional and research issues in second language studies; integration of theory, research, and practice for prospective second or foreign language teachers and researchers. Pre: graduate standing or consent.

**SLS 610 Introduction to Teaching Second Languages (3)** Survey and analysis of second language teaching traditions and perspectives. Pre: graduate standing or consent.

**SLS 612 Alternative Approaches to Second Language Teaching (3)** Examination, comparison with conventional approaches; interpersonal relationships in language teaching. Pre: consent.

**SLS 613 Second Language Listening and Speaking (3)** Key issues; overview and critique of pub-

lished materials; practice in developing syllabi and other materials. Pre: consent.

**SLS 614 Second Language Writing (3)** Problems in teaching second language composition. Survey materials; use, modification, and development. Error analysis. Pre: consent.

**SLS 618 Language and Learning Technologies (3)** A wide range of emerging technologies for language learning and research will be explored. Online/face-to-face discussions and hands-on experiential learning are integrated with learner's goals, best practices, and theoretical foundations. Pre: consent. (Once a year)

**SLS 620 Second Language Reading (3)** Survey of research in reading process; teaching methodology; psycholinguistic investigations; comparison of reading in first and second languages. Pre: consent.

**SLS 630 Second Language Program Development (3)** Designing, implementing, and evaluating language programs; systems-based approach to program and curriculum development. Pre: consent.

**SLS 640 English Grammar (3)** Descriptive English grammar in relation to second language learning and teaching.

**SLS 642 Comparative Grammar and Second Language Acquisition (3)** Comparative study of structures of two or more languages; native speaking informants used. Consideration of language transfer in second language learning, role of typological features. Pre: 441, 460, or ENG 403.

**SLS 650 Second Language Acquisition (3)** Survey of theories and research on second language learning by children and adults, learning naturalistically and in formal settings. Relationships are explored between SLA research and language teaching. Pre: 441 or consent.

**SLS 660 Sociolinguistics and Second Languages (3)** Theoretical and applied aspects of language, culture, and society, and research methods in sociolinguistics, as they relate to second and foreign language issues. Pre: consent.

**SLS 670 Second Language Quantitative Research (3)** Quantitative research methods; design of research studies; techniques in collecting data; statistical inference; and analysis and interpretation of data. Pre: 490 and graduate standing; or consent.

**SLS 671 Research in Language Testing (3)** Advanced issues in language testing research including recent developments in the following areas: language testing hypotheses, item analysis, reliability, dependability, and validity. Pre: 490 or consent.

**SLS 672 Second Language Classroom Research (3)** Survey of research on second language classrooms and analysis of methodological issues. Pre: consent.

**SLS 673 Applied Psycholinguistics and Second Language Acquisition (3)** Theory and research in psycholinguistics as related to second language perception, production, acquisition, and instruction. Pre: 441 or LING 422, or consent.

**SLS 674 Survey Research Methods in Second Language Studies (3)** Hands-on experience in language survey research including planning and creating survey instruments (both interviews and questionnaires), administering, compiling and analyzing survey data (quantitatively and qualitatively), and reporting the results. Pre: consent. (Once a year)

**SLS 675 Second Language Qualitative Research (3)** Philosophical and theoretical approaches, methodology, and ethics in second language qualitative research. Pre: 660 (or concurrent) or consent.

**SLS 676 Interpretive Qualitative Inquiry (3)** Explores a range of qualitative inquiry methods and theories. Through a project-based approach, students will develop and carry out inquiry relevant to their own interests, immediate learning/teaching needs, and long term professional goals. Pre: 660 (or concurrent) or consent.

**SLS 678 Discourse Analysis in Second Language Research (3)** Survey of approaches to discourse;

microanalytic qualitative research; theory and methodology. Pre: 660 or consent.

**SLS 680 (Alpha) Topics in Second Language Studies (3)** Variable topics in special areas of second language studies: (E) second language learning; (N) second language analysis; (P) second language pedagogy; (R) second language research methodology; (U) second language use. Repeatable one time for different alphas. Pre: 650 for (E); consent for (N) and (P); 670 or 675 or 678, or consent for (R); 660 for (U).

**SLS 690 ESL Teaching Practicum (3)** Student teaching in ESL classroom. Pre: advancement to candidacy and consent.

**SLS 699 Directed Reading/Research (V)** Individual reading in various fields of ESL. CR/NC only. Repeatable unlimited times. Pre: consent of graduate chair and instructor.

**SLS 700 Thesis Research (V)** Individual reading in various fields of ESL. Repeatable unlimited times. CR/NC only. Pre: consent of graduate chair and instructor.

**SLS 730 Seminar in Second Language Education (3)** Current issues and problems. Repeatable unlimited times. Pre: advancement to candidacy or consent.

**SLS 750 Seminar in Second Language Acquisition (3)** Issues in theory and research in second language acquisition of child and adult. Repeatable unlimited times. Pre: consent.

**SLS 760 Seminar in Second Language Use (3)** Second language/dialect use in multilingual communities. Repeatable unlimited times. Pre: 660 or consent.

**SLS 775 Seminar in Second Language Qualitative Research (3)** Qualitative research in second language and multilingual contexts. Repeatable unlimited times. Pre: consent.

**SLS 799 Apprenticeship in Teaching (V)** An experienced-based introduction to college-level teaching; graduate students serve as student teachers to professors; responsibilities include supervised teaching, and participation in planning and evaluation. Repeatable unlimited times. CR/NC only. Pre: graduate standing and consent.

**SLS 800 Dissertation Research (V)** Repeatable eight times. Satisfactory only.

---

## Social Sciences (SOCS)

### *College of Social Sciences*

*Two kinds of courses are available directly from the College of Social Sciences: interdisciplinary courses and courses on tools, techniques, theories, and methods shared by the social science disciplines. The broader perspective and opportunity for cross-disciplinary interaction make these courses attractive.*

**SOCS 150 Street Science: Evaluating and Applying Evidence in Daily Life (3)** Develops necessary tools for effective reasoning and problem-solving through use and application of analytic techniques, including question formation, understanding/interpreting data presented in the public sphere, and evaluating the validity of sources. A-F only.

**SOCS 180 Introduction to International and Global Studies (3)** Introduces undergraduate students to the major political, social, economic, cultural, technological, and historical dimensions of globalization. Special attention will be paid to globalization process that have impacted Hawai'i and the Asia-Pacific region. A-F only. **FGB**

**SOCS 220 Computer Applications in Social Sciences (3)** Word processing, spreadsheets, database management, introductory statistics; other social sciences applications. Lab required.

**SOCS 225 Statistical Analysis for Social Sciences (3)** Statistical reasoning in the analysis of social science data, including descriptive statistics, exploratory data analysis, inference measures of association, decomposition of variance, and regression analysis.

Lab required. Pre: any 100 level social science course or consent. **DS**

**SOCS 250 Social Science Enquiry (3)** Survey of enquiry methods in social sciences with an emphasis on the development of skills of enquiry, including critical thinking, evidence gathering and evaluation, reasoning, and argumentation. Pre: any 100-level social science course or consent. **DS**

**SOCS 385 Service Learning (1)** Intended for students undertaking the service learning option in another course in the College of Social Sciences. Discussions on student's experiences, types of learning occurring, and issues encountered in service learning activities in the community. Repeatable two times. CR/NC only.

**SOCS 496 Social Studies for Teachers (3)** Integrates social sciences and history into a coherent framework for teaching middle and secondary school social studies courses on Hawai'i, the U.S., and the world. Repeatable one time. Pre: HIST 151 and HIST 152, or consent. **DS**

**SOCS 601 Topics in Teaching Innovations (3)** Examination and critical analysis of contemporary curriculum and instruction issues in social sciences. Concepts, theories, principles underlying active learning, critical thinking, values inquiry, assessment, and multidisciplinary approaches to integration of knowledge.

**SOCS 735 Ocean Policy Seminar (2)** Interdisciplinary approach to problems relating to humans and their interactions with the world's oceans and coasts. Theme changes each semester. Repeatable eight times. (Cross-listed as OEST 735)

## Social Work (SW)

### *School of Social Work*

**SW 200 The Field of Social Work (3)** Orientation to the profession of social work; historical development, values and philosophy, scope and aims.

**SW 302 General Social Work Practice I (3)** Orientation to practice principles, concepts, values, knowledge base, and their application. Pre: 200 (complete with C or better) and majors only.

**SW 303 General Social Work Practice II (3)** Introduction to practice skills with individuals, families, groups, and communities. Pre: 302 (complete with C or better) and majors only. Co-requisite: 391.

**SW 325 History of Social Welfare (3)** Historical developments and implications of social welfare activities, institutions, and policies and European backgrounds; introduce social welfare developments in selected non-European countries. Recommended: 200.

**SW 326 Social Welfare as a Social Institution (3)** Study of U.S. social welfare institutions and policies as an expression of societal response to human needs; interrelationship of American value system to goals, objectives, and policies of social security programs; focus on examination of Hawai'i's social service programs. Pre: 325. **DS**

**SW 360 Human Development and Behavior for Social Work Practice (3)** Examination of social and cultural variables such as human development and behavior; use of knowledge in these areas by social work practitioners. Recommended: 200. **DS**

**SW 361 Sociocultural Content for Social Work Practice (3)** Examination of ethnicity, class, and sex statuses as these affect human development and behavior for social work practice. Pre: 360 with a grade of C or better. Recommended: 200. **DS**

**SW 380 Topics in Social Welfare (V)** An examination of current trends in the field of social welfare. **DS**

**SW 391 Junior Practicum (3)** Introduction to field instruction; application of social work knowledge, skills, and values to field experience. CR/NC only. Pre: 302, 325, 326 (or concurrent), 360, and 361 (or concurrent) complete with C or better; and majors only. Co-requisite: 303.

**SW 402 General Social Work Practice III (3)** Use of problem-solving process in practice with individuals, families, groups, and communities. Pre: 303, 326, and 361 complete with C or better; and majors only. Co-requisite: 440 and 490.

**SW 403 General Social Work Practice IV (3)** Examination of practice methods and intervention models; identification and analysis of issues related to practice. A significant portion of class time is dedicated to writing instruction congruent with professional expectations. Pre: 402 (C or better) and majors only. Co-requisite: 491.

**SW 440 Research Development in Social Welfare (3)** Introduction to and application of language of research, theoretical concepts underlying advancement of knowledge, practical steps in research. Pre: completion of required junior-level SW courses (i.e., 302, 303, 325, 326, 360, 361, and 391) with C or better. Co-requisite: 402 and 490. **DS**

**SW 475 Social Services with Children (3)** Study of current social services for children in the U.S. with focus on familiarization of child welfare programs and services in Hawai'i. Pre: senior standing or consent.

**SW 480 Topics in Social Welfare (V)** An examination of current trends and issues in social work.

**SW 490 Senior Practicum (4)** Field instruction, application, and integration of classroom knowledge with field experiences. Pre: 391 complete with C or better, and majors only. Co-requisite: 402 and 440.

**SW 491 Senior Practicum (4)** Field instruction, application, and integration of classroom knowledge with field experiences. Pre: 490 complete with C or better, and majors only. Co-requisite: 403.

**SW 499 Directed Reading and Research (V)** Planned individualized study or research in special area related to social work practice interest. Up to 3 credit hours. Pre: majors only, senior standing, and consent of program chair and faculty advisor.

**SW 500 Master's Plan B/C Studies (1)**

**SW 606 Social Work Practice with Individuals (3)** Beginning practice course introduces students to the basic processes of social work and the roles and skills needed for generalist practice. Relevant theories of social work practice with individuals are explored for the efficacy with various problems and for their applicability to practice with various ethnocultures, social classes, and oppressed populations. Interviewing and interpersonal skill development are incorporated. A-F only. Pre: admission to MSW program. (Fall only)

**SW 607 Social Work Practice with Families and Groups (3)** Practice course builds upon the generalist framework and foundation content presented in 606. Special emphasis is given on models for assessment, intervention, and evaluation of practice with families and groups. Relevant theories of groups and the principles of group dynamics and group work methods are examined in regard to task, therapeutic, psychoeducational, and social development groups. Family content includes structural, behavioral, communication/experiential, and culturally-specific theories of intervention. Pre: 606.

**SW 630 Social Welfare Policy and Services (3)** Examines in a historical and comparative framework the economic, social, political, organizational, and administrative factors influencing the development, formulation, and implementation of social welfare policies in the U.S. Provides opportunity for the application of various models of social policy analysis in major areas of social welfare programming and service delivery. A-F only. Pre: graduate standing. (Fall only)

**SW 631 Social Work Practice in Communities and Organizations (3)** Community conceptualization; organized roles of developer, enabler, broker, mediator, and advocate; diagnostic and problem-solving technology; the special characteristics of the social worker as community organizer; matrix of structural objectives; sources and use of power; how

to build an organization; and interorganizational negotiation. A-F only. Pre: 606, graduate standing, and consent. (Spring only)

**SW 636 Policies, Programs and Services on Aging (3)** Explores policies, programs, and services for older adults. Students learn about the aging network, assess older adults' needs, link older adults to appropriate services in the community, and track legislative bills that address older adults' quality of life. Pre: graduate standing or consent.

**SW 639 Social and Cultural Aspects of Aging (3)** Overview of aging from the biopsychosocial, socioeconomic and cultural perspectives. Explores common theories of aging. Emphasis on bridging the gap between the realm of concepts and theories, and the world of practice in gerontology. Pre: graduate standing or consent.

**SW 640 Introduction to Scientific Methods and Principles in Social Work (3)** Understanding and interpreting results of nomothetic and idiographic research; design principles and statistical analyses and their relationship to practices; use of published research. A-F only. Pre: graduate standing. (Fall only)

**SW 650 Research Designs and Data Analyses for the Evaluation of Practice Effectiveness (3)** Extending the study of scientific methods introduced in 640. Covers the range of empirical research methods and data analytic procedures suitable for knowledge building and practice evaluation at all levels of intervention from case to program. A-F only. Pre: 640. (Spring only)

**SW 651 Quantitative Methods I (3)** Introduction to quantitative methods in behavioral sciences. Introduction to general linear model as principle of data analysis. Course requires basic statistics. (Meets PhD common inquiry methods requirement or elective.)

**SW 654 Applied Regression and Analysis of Variance (3)** Introduction to linear statistical models as principle of data analysis. Topics include multiple regression models with continuous and categorical predictors. ANOVA with multiple factors, ANOVA with repeated measures, and ANCOVA. Pre: 601 or consent.

**SW 656 Multivariate Methods (3)** Multivariate forms of multiple linear regression, analysis of variance, and analysis of co-variance. Multiple discriminant analysis, canonical correlation, and principal components analysis are discussed.

**SW 659 Human Behavior in the Social Environment I (3)** An overview of social work's person-in-environment focus as it applies to human behavior in the context of families, groups, communities, and organizations. Using an ecological perspective, theories and evidence about human behavior are introduced and examined. A-F only. Pre: graduate standing. (Fall only)

**SW 660 Human Behavior in the Social Environment II (3)** Uses social work's person-in-environment focus to organize knowledge development about biological, psychological, social, and cultural systems as they are affected by human behavior. It is designed to provide students with an overview of human behavior and healthy and unhealthy development over the life span. A-F only. Pre: 659. (Spring only)

**SW 663 Treatment of Chemical Dependency (3)** Introduction to treatment of alcoholism and other chemical dependencies. Application of social work strategies in work with individuals and families in the disease and recovery process. Repeatable one time. Pre: graduate standing.

**SW 672 Child Welfare as a Field of Social Work (3)** Emphasis on the developments in child welfare; issues, concerns with regard to needs and rights, and the application of social work services to problems associated with needs for protection. Review of historical, theoretical, empirical, and legal findings for skill development in intervening in dysfunctional parent/child interaction. Pre: graduate standing.

**SW 674 Community and Public Health Practice (2)** Community organization and develop-

ment applicable to the delivery of health services. Understanding community dynamics, mobilizing community groups for effective health care practice and delivery. Pre: PH 647 or PH 737 or consent. (Cross-listed as PH 671)

**SW 680 Topics in Social Welfare (V)** Current trends in field of social welfare. Recent courses have focused on forensic social work, immigrants and refugees, and leadership in human services. Meets seminar requirement. Repeatable one time in different topics. Pre: graduate standing.

**SW 690 Practicum (3)** Field units are maintained by the school in public and voluntary welfare agencies, as well as in governmental programs. Students receive instruction related to their school experience with social problem situations and an opportunity to see the applicability and to experience the use of concepts and principles in actual practice. Pre: admission to MSW program.

**SW 691 Practicum (3)** Field units are maintained by the school in public and voluntary welfare agencies, as well as in governmental programs. Students receive instruction related to their school experience with social problem situations and an opportunity to see the applicability and to experience the use of concepts and principles in actual practice. Pre: admission to MSW program.

**SW 696 Health and Aging (3)** Biological and physiological changes associated with aging. Social and psychological factors associated with health maintenance. Major threats to health, changing patterns of morbidity and mortality of the aged. Pre: graduate standing.

**SW 699 Directed Reading and Research (V)** Students, on the basis of special interest, select a faculty member to work with on a problem for which planned individualized study or research is deemed advisable. Repeatable unlimited times. Pre: consent.

**SW 700 Thesis Research (V)** Independent research under supervision of a thesis committee. Includes formal proposal and defense of finished research. Repeatable unlimited times.

**SW 707 Methods of Group Psychotherapy (3)** Designed specifically to train students in the theory and practice of leading psychotherapy groups; it includes historical developments, research, theories, and application of group psychotherapy, group techniques and exercises. Pre: 607 or consent.

**SW 715 Therapeutic Strategies with the Older Adult (3)** Focuses on interdisciplinary strategies with older adults: individual, family, and group therapy; eclectic mental health approaches; case management; and environmental intervention. Emphasis placed on the use of these strategies as preventive, as well as supportive, measures for the well, transition, and frail elderly. Meets seminar requirement. Pre: graduate standing.

**SW 717 Social Work Practice with Children and Families (3)** Advanced practice course for students specializing in social work with children and families. Designed to provide students with an in-depth understanding of both theoretical formulations and therapeutic techniques for practice in the field of family and child welfare. Emphasis placed on the development of specialized knowledge and skills for assessment, intervention, and evaluation of a variety of common child and family practice situations. Pre: completion of foundation courses.

**SW 718 Seminar in Social Work Practice with Children and Families (3)** Designed for students in the child and family concentration and builds upon past knowledge and skill development in practice classes and in the practicum. Students integrate, demonstrate, and extend earlier learning, acquire new knowledge, and learn and practice new skills. Organized around student case presentations in a consultation format. Meets seminar requirement. Pre: 717.

**SW 722 Social Work Practice in Health Care (3)** Didactic and experiential learning activity focuses on the major role functions of the social worker in

the health field including assessment, contracting, counseling, advocacy, case management, discharge planning, family group work, community and team building. Covers health care policy, research directions in practice and social work management issues. Pre: completion of foundation courses.

**SW 723 Seminar in Social Work Practice in Health Care (3)** Through the use of case studies developed by the students, social work practice is examined in three areas of health care: primary care provided in health departments and medical groups, hospital-based services, and long-term care. Meets seminar requirement. Pre: 722.

**SW 724 Seminar in Social Work Practice in Mental Health (3)** Prepares students for social work practice in mental health settings. As the first course in the concentration, it focuses primarily on minor or short-term mental dysfunctioning (e.g., reactive depression, anxiety). Built on conceptual foundations including cultural implications of mental health, human ecology, life cycle/events, strengths assessments, and research. Includes a seminar component which involves student case presentations and consultations. Pre: completion of foundation courses.

**SW 725 Social Work Practice in Mental Health (3)** Prepares students to work with persons who are experiencing major mental disorders and to improve the systems of care that have been developed to serve this population. It reviews the history of the community mental health movement, discusses relevant policies and laws, and describes the current mental health system in the U.S. and Hawai'i. Pre: 724.

**SW 726 Social Work Practice with the Aged (3)** Designed for social work students specializing in social work practice with the aged and their families. Examines normative and pathological aging and its impact on physical processes, intellectual functions, and personality. Emphasis is placed on the development of specialized knowledge and skills for assessment, intervention, and evaluation of a variety of issues and needs common in later life. Discussions on the applicability of certain interventions with the older adult and the family, along with ethnocultural and gender considerations. Pre: completion of foundation courses.

**SW 727 Seminar in Social Work with the Aged (3)** Designed for social work students in the aged concentration, builds upon past knowledge and skill development from courses and practicum. Students examine micro and macro interventions used for a wide range of issues and problems encountered by older adults and their families through the use of both case presentation and case consultations assignments. Meets seminar requirement. Pre: 726.

**SW 731 Social Policy Analysis (3)** Students pursue in-depth a specific topic in the areas of social planning, social policy analysis, evaluation of social programs, administration, supervision, and consultation. Selectively a comparative perspective is introduced and case studies used to illustrate concepts, principles, and techniques, with implications for practice. Meets seminar requirement. Pre: 630 or consent.

**SW 737 Social Work and the Law (3)** Knowledge of judicial systems and law relevant to social work practice in corrections, child-family welfare, health, and mental health. Skills for effective participation in the legal process are acquired in moot court and in practice for testifying. Pre: graduate standing.

**SW 741 Review of Research in Social Work (3)** In-depth study of research in a substantive area. Each seminar will be devoted to a particular topic: e.g., foster care of children, effectiveness of social work intervention, etc. Pre: 650.

**SW 743 Individual or Group Research Project—Plan B (V)** Independent research (group of two to seven students or by an individual student) undertaken under the sponsorship of a faculty advisor. Elements are selection of a topic related to the practice of social work or knowledge relevant to that practice, utilization of empirical research methodol-

ogy in collecting and analyzing original data, and preparation of a scholarly paper. Pre: 650.

**SW 744 Individual or Group Research Project—Plan B (V)** Same as 743. Pre: 743.

**SW 746 Individual or Group Research Project—Plan B (V)** Same as 743.

**SW 750 Analysis and Development of Knowledge for Social Work (3)** Focuses on developing an understanding of philosophy of science, theory development, social work epistemology, and the analysis and development of knowledge for social work practice. Pre: PhD candidate in social welfare or consent.

**SW 751 Quantitative Methods II (3)** Empirical research methodology with emphasis on design principles and measurement theory; design and measurement issues and problems in cross-cultural research. Pre: PhD candidate in social welfare or consent.

**SW 752 Qualitative Research: Philosophical, Methodological and Analytic Approaches (3)** Theories and methods of qualitative research; problem formulation, informant selection, study design, data collection and analysis utilizing qualitative approaches. Repeatable three times. A-F only. Pre: 640 or 651 or equivalent; departmental approval.

**SW 755 Dissertation Seminar (3)** Culminating experience in social welfare doctoral specialization; integration of PhD core and specialization course work. Pre: classified student in PhD in social welfare program or consent.

**SW 774 Cultural Factors in Work with Hawaiians (3)** Hawaiian culture, past and present. Explores and examines possible approaches to working with Hawaiians and part-Hawaiians. Special emphasis on supports in the Hawaiian system that may promote maximal functioning for those Hawaiians experiencing problems in today's society. Meets seminar requirement. A-F only. Pre: graduate standing.

**SW 776 Seminar on Women and Health (3)** Women's health and the role of women health professionals. Current literature and research regarding attitudes, roles, rights, and health care. Pre: graduate standing or consent. (Cross-listed as NURS 744)

**SW 790 Second-Year Practicum (V)** Instruction in the field is continued. The practicum of the second year provides an opportunity for the student to test out concepts, principles, theories, and alternate approaches in actual practice settings. Pre: 691.

**SW 791 Second-Year Practicum (V)** Same as 790.

**SW 797 Advanced Social Welfare Policy Analysis and Change (3)** Builds on 630 and emphasizes a more thorough and comprehensive examination of major policies, programs, and populations central to a concentration (Health, Mental Health, Gerontology, Child and Family). Students learn a more focused and applied analysis of the relationship between social policy, research, and social work practice. SW majors only. A-F only. Pre: 606 and 607; 630 and 631; 640 and 650; 659 and 660; 690 and 691.

**SW 800 Dissertation Research (V)** Repeatable one time.

## Sociology (SOC)

### College of Social Sciences

*In addition to the prerequisites specified below, all 300-level courses have as a prerequisite SOC 100 or a 200-level sociology course, or consent. In addition to the prerequisites specified below, all 400-level courses require SOC 300 or consent. All prerequisite courses require a minimum grade of C (not C-).*

**SOC 100 Introduction to Sociology (3)** Basic social relationships, social structures, and processes. **DS**

**SOC 214 Introduction to Race and Ethnic Relations (3)** Race and ethnic relations in world perspective; social, economic, and political problems associated with perception, existence, and accommodation of these groups within the wider society. (Cross-listed as ES 214) **DS**

**SOC 218 Introduction to Social Problems (3)** Theoretical and substantive survey of the nature and

causes of social problems; selected types: poverty, inequality, deviance, etc. **DS**

**SOC 231 Introduction to Juvenile Delinquency (3)** Forms of juvenile deviance; conditions and processes that result in alienation and deviance of youth. Juvenile corrections as institutionalized societal responses. **DS**

**SOC 251 Introduction to Sociology of the Family (3)** Family patterns, mate selection, parent-child interaction, socialization of roles, legal sanctions, trends in organization, functions. **DS**

**SOC 300 Principles of Sociological Inquiry (4)** (3 Lec, 2 50-min Lab) Basic methods of sociology for production and analysis of data. Foundations for understanding research and for advanced courses in methods and statistics. **DS**

**SOC 300A Principles of Sociological Inquiry (4)** (3 Lec, 2 50-min Lab) Basic methods of sociology for production and analysis of data. Foundations for understanding research and for advanced courses in methods and statistics. Restricted to students in the honors program and required for students taking the honors track in sociology. A-F only. **DS**

**SOC 301 Survey of Urban Sociology (3)** The city in historical and comparative perspectives. Interplay of demographic, economic, and cultural factors in urban growth. Urban process, development, and interdependence. **DS**

**SOC 305 Women and Health (3)** Explores current issues in the conceptualization and delivery of health care for women. Pre: one of POLS 110, SOC 100, WS 151, or 202. (Cross-listed as WS 305) **DS**

**SOC 311 Survey of Social Inequality and Stratification (3)** Introduction to social stratification theory and research; definition and measurement of socioeconomic status; racial, ethnic and gender inequality; differences in lifestyles and life chances; social mobility. **DS**

**SOC 313 Survey of Sociology of Work (3)** Work from viewpoint of individuals; meaningfulness versus productivity; how work, economics, and the industrial system affect individual goals. **DS**

**SOC 316 Survey of Social Change (3)** Causes, processes, and effects of social change, using single- and multi-cause models in simple and complex industrialized societies. **DS**

**SOC 318 Women and Social Policy (3)** Social and economic policies affecting women in families, education, social services, government, health care, the economy; public policy implementation and development; policy impact on women. Pre: 100 or any 200-level SOC course, or WS 151 or any 200- or 300-level WS course; or consent. (Cross-listed as WS 318) **DS**

**SOC 321 Survey of Sociological Theory (3)** Major theorists and their influences, from Comte to today. **DS**

**SOC 332 Survey of Sociology Law (3)** Law as a political enforcement of the social order; how it is organized and operates; determinants of effectiveness; ways it adapts to and facilitates changing social conditions. **DS**

**SOC 333 Survey of Criminology (3)** Concepts used in crime, law enforcement, criminal justice, and corrections. Types of criminal behavior; costs and effects of control. **DS**

**SOC 335 Survey of Drugs and Society (3)** Use of mood- and mind-altering drugs in America among adults, youth, and cross-culturally. Illicit drug culture, psychedelics, and perception; social norms and deviant behavior. **DS**

**SOC 336 Deviant Behavior and Social Control (3)** Interrelations of deviance, criminology, juvenile delinquency, corrections, social control, sociology of law. Key concepts, theories. **DS**

**SOC 341 Survey of Social Psychology (3)** Major principles; social attitudes, theories of conformity and change, person perception and attribution theory, social role, role conflict and role behavior, group structure, and behavior. **DS**

**SOC 352 Survey of Sociology of Education (3)** Formal education as one aspect of socialization. Emphasis on American system; business, military, and religious institutions. **DS**

**SOC 353 Survey of Sociology of Aging (3)** Aging as a social phenomenon, including social impacts of growing elderly population and emerging social patterns among the elderly. Important theoretical perspectives and cross-national research. **DS**

**SOC 354 Survey of Medical Sociology (3)** Social factors in disease and treatment; illness behavior, roles of patients and healers; nature of healing professions; use of medical services; alternative systems of medical organization. **DS**

**SOC 356 Sociology of China (3)** Social institutions, family, community, education, stratification, government, economy; impact of modernization and revolution on their contemporary transformation. A-F only. **DS**

**SOC 357 Sociology of Japan (3)** Persistence and change in economy, policy, religion, education, family, and other institutions of modern Japan. **DS**

**SOC 358 Sociology of Korea (3)** Social institutions, family, education, religion, cultural values, social classes, economic development, social movements, gender relations, North-South relations, and unification issues. A-F only. Pre: 100 or any 200-level SOC course, or consent. **DS**

**SOC 362 Sociology of Gender (3)** Effect of sex and gender roles (both traditional and nontraditional) on attitudes and behavior within the family and educational, economic, and governmental systems. Recommended: at least one WS course. Pre: 100 or any 200-level SOC course, WS 151 or any 200- or 300-level WS course; or consent. (Cross-listed as WS 362) **DS**

**SOC 374 Law, Politics and Society (3)** Relationships between law, politics, and society will be explored. Emphasis is placed on several dimensions of legality: legal "indeterminacy" and some of the many things that law does for us and to us; law's response to violence; the connections between law and social change; access to the law and its sociological dimensions; how/why law fails and what happens when it does. A-F only. Pre: 100 or any 200 level SOC course, or a 100 level or 200 level POLS course, or consent. (Cross-listed as POLS 374) **DS**

**SOC 401 Analysis in Urban Sociology (3)** Urbanization in developed and developing countries, the rural-urban continuum, structure and process of metropolitan regions, theories of urban location and growth, housing and urban renewal. **DS**

**SOC 411 Analysis in Social Stratification (3)** Approaches to research in social inequality: community studies; historical and cross-cultural analyses of poverty, working class, middle class, power structure, social mobility, etc. **DS**

**SOC 412 Analysis in Population and Society (3)** Global and U.S. patterns of population growth; composition and distribution, elementary demographic techniques; development issues and population policy. Pre: 300 or consent. (Cross-listed as GHPS 412) **DS**

**SOC 413 Analysis in Economy and Society (3)** Study of the dominant trend of economic change and its impact on society; globalization of economic activities and transformation of industrial society to postindustrial one; corporate restructuring and downsizing and their impact on employment and income distribution; gender relations in workplaces; the impact of globalization on the newly industrializing countries. Pre: 300 or consent. **DS**

**SOC 415 Technology and Society (3)** Nature of technology, social forces that affect its adoption; impact on society; innovation. **DS**

**SOC 418 Women and Work (3)** Gender and racial division of labor nationally and internationally; racial and gender differentials in wages, training, working conditions and unemployment; historical trends and

future directions. Pre: 300, or one 300-level WS or ES course; or consent. (Cross-listed as ES 418 and WS 418) **DS**

**SOC 419 Analysis in Formal Organizations (3)** Schools, hospitals, industries, prisons, and government agencies analyzed in terms of self-actualization, alienation, human relations, communication, leadership, organizational conflicts. **DS**

**SOC 431 Analysis in Criminology/Juvenile Delinquency (3)** Research in systematic social deviation. Scaling and measurement of delinquents/criminals, official data, gangs, identification and measurement of delinquent/criminal value orientations, etc. **DS**

**SOC 432 Analysis in Corrections (3)** Behavioral assumptions of various correctional practices and modes of organization; current "in-community" approaches. **DS**

**SOC 433 Analysis in Law and Social Change (3)** Interrelationships between legal orders and other social institutions; use of "law" to change major status relationships, e.g., boss-worker, woman-man, child-adult. **DS**

**SOC 435 Women and Crime (3)** Women's relations with the criminal justice system; types of women's offenses; responses to women's crime; women as victims; women as workers in the criminal justice system. Recommended: at least one WS course. Pre: 300, or WS 151 or any 200- or 300-level WS course; or consent. ((Cross-listed as WS 435) **DS**

**SOC 441 Social Structure and the Individual (3)** Effects of social institutions on individuals. Role of socioeconomic status, cultural background, family structure, peer group, schools, and occupational roles in socialization. **DS**

**SOC 445 Analysis in Gender Violence (3)** Historical and structural theories of gender-based violence, including domestic and sexual abuse, prostitution, trafficking, cross-cultural perspectives, social policy and practices. Junior standing or graduate standing only. Pre: 300 or consent. (Once a year) **DS**

**SOC 446 Gender Violence Over the Lifecycle (3)** Examines the problem of violence, particularly sexual violence, over the life cycle. Offers gendered perspective in activities aimed at prevention and treatment of violence, and cross cultural perspectives. Pre: 300, WS 151 or any 200- or 300-level WS course; or consent. (Cross-listed as WS 446) **DS**

**SOC 451 Analysis in Marriage and the Family (3)** Theory and methods of studying social interaction in marriage and the family; examination of marriage, mating, love, and choice. Empirical research emphasizing Hawai'i. **DS**

**SOC 452 Marriage and Family: A Feminist Perspective (3)** Sex-role socialization, motherhood, work-family conflicts. Alternative family structures in U.S. and other countries. Recommended: at least one WS course. Pre: 300, or WS 151 or any 200- or 300-level WS course; or consent. (Cross-listed as WS 452) **DS**

**SOC 453 Analysis in Sociology of Aging (3)** Social and research issues significant to delivery of long-term care services to the elderly; cost, quality, availability of services, evaluation of programs, role of family, formal and informal care services. **DS**

**SOC 454 Analysis in Medical Sociology (3)** Application of sociological theories and concepts to medical social situations and behavior; problems of obtaining data for research. **DS**

**SOC 455 Sociology of Religion (3)** Seminar in research on sociological aspects of religious sectarianism; attention to Hawai'i. Pre: 300 or consent. (Cross-listed as REL 452) **DS**

**SOC 456 Racism and Ethnicity in Hawai'i (3)** The historical and contemporary social processes involved in inter-ethnic relations in Hawai'i. Pre: 300 or one ES 300 level course, or consent. (Cross-listed as ES 456) **DS**

**SOC 457 Sociology of the Arts (3)** Relation of art to society; role of artist, audience, critic, patron, mu-

seum; Western and other societies; attitudes toward new styles. **DS**

**SOC 458 Analysis in Sports and Society (3)** Critical perspectives on sports and society. Topics include power and inequality; mobility, status, and economics; youth development; globalization; gender; and violence in sports and the wider society. Pre: 300 and 321. (Spring only) **DS**

**SOC 459 Popular Culture (3)** Popular culture as manifested in film, sports, TV, comics, magazines, etc.; relation to sociological theories and studies. **DS**

**SOC 475 Analysis in Survey Research (3)** Survey research design and analysis, including theory selection instrument construction, sampling techniques, data collection, computerized data analysis, and writing up research reports of the findings. **DS**

**SOC 476 Social Statistics (3)** Common statistical procedures emphasizing univariate and bivariate description; some attention to multivariate techniques and statistical inference, within context of research procedures. Pre: 300 or consent. Co-requisite: 476L. **DS**

**SOC 476L Social Statistics Laboratory (1)** Required lab for computer applications for analysis of sociological data. CR/NC only. Co-requisite: 476.

**SOC 478 Analysis in Field Research Methods (3)** Techniques for collecting and analyzing qualitative data. Participant observation; small groups in natural settings; community studies. Grounded theory; theories of everyday life; reality construction. **DS**

**SOC 491 Discussion Group Leader—Freshman Seminar (6)** Students lead a freshman seminar section of sociology and meet weekly with instructor for substantive background. **DS**

**SOC 492 Politics of Multiculturalism (3)** The development of ethnic relations and political approaches to multiculturalism in two multiethnic nations: Canada and the U.S. A-F only. Pre: 300 or one 300 level ES course, or consent. (Cross-listed as ES 492) **DS**

**SOC 495 Topics in Sociology (3)** Topics course that explore current issues and try new ideas. Repeatable two times. Pre: 300 or consent.

**SOC 496 Topics in Sociology: Student Projects (V)** Students create their own study group and solicit an advisor from faculty. Consult department for assistance. **DS**

**SOC 499 Directed Reading or Research (V)** Repeatable unlimited times. Pre: 300 and consent of instructor.

*All graduate courses in the department require classified graduate standing in sociology or consent. Additional prerequisites are specified below.*

**SOC 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**SOC 605 Statistics for Regression Analysis (3)** Dealing with the multiple linear regression and logistic regression models, focusing on modeling, i.e., specification of the explanatory variables to answer different research questions. Emphasis on applications using statistical package programs. SOC 605L is required.

**SOC 605L Regression Analysis Laboratory (1)** Lab for computer analysis skills is required for students taking 605. CR/NC only. Co-requisite: 605.

**SOC 606 Research Methods and Design (3)** Emphasis on theory selection, theory construction, and choice of research strategies.

**SOC 607 Seminar in Methods of Content Analysis (3)** Content analysis combines quantitative and qualitative methods to analyze text systematically. Covers sampling and case selection; manual and computer-assisted methods of coding and analyzing textual data; writing reports using content analysis data. Repeatable one time. (Once a year)

**SOC 608 Survey Research Design and Analysis (3)** Survey study designs, survey sampling, questionnaire construction, interviewing, pre-tests, pilot

studies, logic of measurement and association, table construction, and elaboration models. Pre: consent. (Cross-listed as EDEA 608)

**SOC 609 Seminar Qualitative Research (3)** Advanced seminar on conducting fieldwork in natural social settings with emphasis on qualitative techniques, political and ethical considerations, data management and assessment, interpretation and reflexive writing. Repeatable one time.

**SOC 611 Classical Sociological Theory (3)** Seminar offers a critical overview of major perspectives and representative works in sociological theory from 19th-century to the 1960s, including intellectual contexts and historical development. A-F only. Pre: graduate standing. (Fall only)

**SOC 612 Contemporary Sociological Theory (3)** Seminar offers a critical overview of major perspectives and representative works in sociology theory from the 1960s to the present, including intellectual contexts and historical development. A-F only. Pre: graduate standing. (Spring only)

**SOC 613 Organizational Analysis (3)** Theoretical approaches to organizations; organizational structure and process; organizational pathologies and effectiveness; the organization and its environment.

**SOC 615 Sociology of Health and Health Services (3)** Covers the major paradigms in medical sociology for analyzing social epidemiology, the political economy of health systems, health service organizations, health and wellness behaviors illness perception and help-seeking, doctor-patient interaction, and adaptations to illness. Pre: graduate standing or consent.

**SOC 616 Seminar in Stress and Health (3)** Analysis of current theory and empirical research on relationship of stress and health; sociological, psychological, and community psychiatry models and current issues.

**SOC 631 Seminar in Criminology (3)** Major current theories, history of their development, elaborations of typologies, implications for treatment modalities.

**SOC 632 Criminal Justice System (3)** Examination of the criminal justice system; the exercise of discretion and limits placed upon it. Pre: consent.

**SOC 638 American Punishment (3)** Examines the history of American criminal punishment, from the birth of the penitentiary to the rise of the prison-industrial complex. A-F only. Pre: graduate standing. (Cross-listed as AMST 638)

**SOC 651 Introduction to Human Population (3)** Comparative analysis of quantitative and qualitative aspects of population; factors affecting size, distribution, and composition; impact of population size and composition on society. (Cross-listed as GHPS 651 and PH 651)

**SOC 659 Methods of Demographic Analysis (3)** Statistical evaluation and analysis of population data; data sources; population growth; composition; standardization of rates; mortality and the life table; nuptiality and fertility; distribution, migration, urbanization; projections and stable population theory. (Cross-listed as GHPS 659 and PH 659)

**SOC 660 Teaching Seminar (3)** Examines research on teaching, learning, and ethics, as well as practical skills for teaching at the university level. Syllabi and teaching philosophies are developed, which are useful for the academic job market. Graduate standing only.

**SOC 699 Directed Reading/Research (V)** Repeatable unlimited times.

**SOC 700 Thesis Research (V)** Research for master's thesis. Repeatable unlimited times.

**SOC 701 Seminar in Evaluation Research (3)** Research design, data collection, field problems and analysis in the evaluation of social programs. Examples from criminal justice, corrections, drug treatment, mental health, and public health.

**SOC 705 Advanced Statistics (3)** Dealing with advanced statistical methods beyond multiple linear

regression, such as logit, event history analysis, and multi-level analysis. Emphasis is on applications of the techniques to social science research. Repeatable one time only.

**SOC 706 Cultural Analysis (3)** Contemporary issues in cultural sociology, covering key theoretical perspectives, analytic methods and substantive areas for empirical research. A-F only.

**SOC 711 Seminar in Sociology of Knowledge (3)** Sociological theory applied to bases of knowledge in everyday life, professional communities, and the sciences. Research and theory-building activities of sociologists; ethnomethodology; construction of social structure, culture, and consciousness. Repeatable one time only.

**SOC 715 Seminar in Current Issues in Sociology (3)** Substantive areas that are of current interest and the focus of research, but not addressed in other courses. Repeatable two times.

**SOC 716 Seminar in Medical Sociology (3)** Application of theoretical paradigms and methodologies to the examination of selected research topics in the field of medical sociology. Repeatable one time. Pre: 615 or consent.

**SOC 719 Comparative Family and Gender (3)** Discusses the major perspectives on family and gender relations and examines related empirical research. Emphasis is on the cross-cultural comparisons across the U.S. and Asia in the context of globalizing economies and cultures. A-F only. (Alt. years) (Cross-listed as GHPS 719)

**SOC 720 Comparative Study of East Asia (3)** Comparative analysis of social organization, social processes, and change of both capitalist and communist countries of East Asia, with each other and other areas of the world. Pre: 611 or consent.

**SOC 721 Social Change—Pacific Islands (3)** Analysis of social change; transformation from subsistence societies to commodified, wage-labor societies with participation in world economy.

**SOC 722 Modern Japanese Society (3)** Social and behavioral studies of Japanese values, social organization, and personality development. Problems of value conflict, political protest, world role, tradition, and social change. Repeatable one time only.

**SOC 723 Seminar in Modern Chinese Society (3)** Developmental policies, social change, and impact on modern Chinese social institutions. Includes China, Hong Kong, and Taiwan. May include social and demographic change, population, social stratification, gender, and family problems. Repeatable one time.

**SOC 725 Seminar in Race Relations (3)** Comparative view of how "races" and "ethnic" groups develop and function. Sociological theories of race relations, assimilation, acculturation, and pluralism.

**SOC 730 Conflict Analysis/Resolution (3)** Seminar on the analysis of conflict resolution. Faculty from law, planning, political science and guest practitioners will present multidisciplinary analysis and intervention strategies on contemporary conflicts. A-F only. Pre: graduate standing or consent.

**SOC 741 Seminar in Social Structure and the Individual (3)** Intensive study and individual research projects in a selected topic. Theoretical and methodological issues in relating social and individual levels of analysis. Recommended: 612.

**SOC 750 Seminar in Social Movements (3)** Study of sociology of social movements, plus independent student research. Repeatable one time.

**SOC 751 Development in Asia (3)** Theories and available research methods examined for applicability to developing areas; specific examples from Asia. A-F only. Repeatable one time. Pre: graduate standing or consent.

**SOC 753 Urban Sociology (3)** Demographic trends in urban growth: nature and dimensions of urbanization and urbanism; ancient, American, and Third World cities; ecological theories of urban growth; lifestyles.

**SOC 754 Seminar in Social Stratification (3)**

Classical theories of social class, contemporary developments; crucial research issues, appropriate methodologies. Repeatable one time only. Pre: classified graduate standing or consent.

**SOC 800 Dissertation Research (V)** Research for doctoral dissertation. Repeatable unlimited times.

**Spanish (SPAN)**

*College of Languages, Linguistics and Literature*

All courses are conducted in Spanish. A grade of C or better in the prerequisite courses is required for continuation.

**SPAN 101 Elementary Spanish (3)** Conversation, grammar, reading. HSL

**SPAN 102 Elementary Spanish (3)** Conversation, grammar, reading. Pre: 101. HSL

**SPAN 103 Intensive Elementary Spanish (6)** Course content of SPAN 101 and 102 covered in one semester. Three two-hour sessions per week. HSL

**SPAN 201 Intermediate Spanish (3)** Continuation of oral practice and grammar study; increasing emphasis on reading and written composition. Pre: 102. HSL

**SPAN 202 Intermediate Spanish (3)** Continuation of 201. Pre: 201. HSL

**SPAN 203 Intensive Second-Year Spanish (6)** Course content of SPAN 201 and 202 covered in one semester. Three two-hour sessions per week. Pre: 102 or 103. HSL

**SPAN 258 Intermediate Spanish Abroad (3)** Intensive course of full-time formal instruction on the second-year level in Spanish language and culture in a Spanish-speaking country. Pre: 102. HSL

**SPAN 259 Intermediate Spanish Abroad (3)** Continuation of 258. HSL

**SPAN 300 Reading in Spanish (3)** Development of language skills through reading of literary and cultural texts. Pre: 202 or placement exam or consent.

**SPAN 301 Grammar and Composition (3)** Selected grammar review and intensive practice in effective use of the written language. Pre: 202 or 203 or 259, or consent.

**SPAN 302 Grammar and Composition (3)** Selected grammar review and intensive practice in effective use of the written language. Pre: 301 or 310, or consent.

**SPAN 303 Conversation I (3)** Intensive practice in spoken Spanish, focusing on the preparation and completion of oral tasks and presentations. Pre: 301 (or concurrent), or consent.

**SPAN 304 Conversation II (3)** Continuation of 303. Pre: 303 or consent.

**SPAN 305 Introduction to Spanish-English Translation (3)** Practical introduction to Spanish-English translation with translations of texts from Spanish to English and the reverse. Pre: 302.

**SPAN 306 (Alpha) Spanish for Professionals (3)** Language as used in specific professions. (B) commercial Spanish; (C) medical Spanish. Sophomore standing or higher. Pre: 301 or 310, or consent.

**SPAN 308 Introduction to Spanish-English Interpreting (3)** Students will begin to develop the listening and memory skills for direct and inverse interpretation. Sophomore standing or higher. Pre: 305 (or concurrent) or consent.

**SPAN 310 Spanish for Heritage Speakers (3)** Focuses on standard and academic varieties of Spanish for English-dominant heritage speakers in order to improve their literacy skills. Pre: placement exam. (Fall only)

**SPAN 330 Phonetics and Pronunciation Practice (3)** Analysis of the Spanish phonological system, in contrast with English. Practice in pronunciation. Pre: 301 or 310, or consent.

**SPAN 351 Spanish Cultural Perspectives (3)** Survey of the history and cultures of Spain. Pre: 301 or 310, or consent. DH

**SPAN 352 (Alpha) Latin American Cultural Perspectives (3)** Survey of the history and cultures of Latin America. (B) Pre-Columbian and Colonial periods; (C) Independence, nationhood and current issues. Repeatable one time for other topics, but not for the same topic. Pre: 301 or 310, or consent. DH

**SPAN 358 Third-Level Spanish Abroad (3)** Intensive formal instruction at the third-year level in Spanish language skills: reading, writing, grammar, or conversation in a Spanish-speaking country. Pre: 202 or 259 or equivalent.

**SPAN 359 Third-Level Spanish Abroad (3)** Continuation of 358.

**SPAN 360 Intensive Third-Level Spanish Abroad (V)** Intensive formal instruction at the third-year level in Spanish language skills: reading, writing, grammar, or conversation in a Spanish-speaking country. Pre: 202 or equivalent.

**SPAN 361 Masterworks of Spanish Literature (3)** Reading and discussion of representative works of Spanish literature: origins to 18th century. Pre: 301 or 310, or consent. DL

**SPAN 362 Masterworks of Spanish Literature (3)** Reading and discussion of representative works of Spanish literature: 18th century to present. Pre: 301 or 310, or consent. DL

**SPAN 371 Spanish-American Literature (3)** Reading and discussion of representative works of Spanish-American literature: Colonial period through Romanticism. Pre: 301 or 310, or consent. DL

**SPAN 372 Spanish-American Literature (3)** Reading and discussion of representative works of Spanish-American literature: Modernism to the present. Pre: 301 or 310, or consent. DL

**SPAN 399 Directed Reading (V)** Independent study of approved reading with faculty supervision. Repeatable two times. A-F only. Pre: 301 (or concurrent), consent and departmental approval.

**SPAN 400 Spanish Language in Society (3)** Explores issues in Spanish language in society (media, communication, advertising, government, technology). Introduces and examines current sociolinguistic and sociopragmatic issues. Pre: 330 or consent.

**SPAN 403 Advanced Composition and Conversation (3)** Advanced practice; emphasis on building active vocabulary. Pre: 302 or consent.

**SPAN 405 Spanish-English Translation (3)** Factors in the art of translation. Practice in translating material from Spanish to English and the reverse. Pre: 305 or consent.

**SPAN 451 Historical Spanish Linguistics (3)** Evolution of Spanish from Latin; modern social and geographical dialects. Pre: 302 or 330, or consent.

**SPAN 452 Introduction to Spanish Linguistics (3)** Analysis of morphology, syntax, and semantics. Pre: 302 or 330, or consent.

**SPAN 458 Fourth-Level Spanish Abroad (3)** Intensive course of full-time formal instruction on the fourth-year level in Spanish linguistics, civilization, culture, and literature in a Spanish-speaking country. Pre: 302, 303, 358, 359, or 360.

**SPAN 459 Fourth-Level Spanish Abroad (3)** Continuation of 458.

**SPAN 460 Intensive Fourth-Level Spanish Abroad (V)** Intensive course of formal instruction on the fourth-year level in Spanish language and culture in a Spanish-speaking country. For semester programs only. Pre: 360 or equivalent.

**SPAN 461 Spanish Neoclassicism/Romanticism (3)** Representative works from Spanish Neoclassicism (18th century) and Romanticism (19th century). Genres: theater, poetry, essay, novel. Pre: 361 or 362, or consent. DL

**SPAN 477 U.S. Latino Literature (3)** Study of the literature of U.S. Hispanics written in Spanish or bilingually. Pre: 371 or 372, or consent. DL

**SPAN 478 Hispanic Women's Literature (3)** The feminine experience in Western literary and cultural traditions as seen by women in Spain and Latin America. Pre: one of 361, 362, 371 or 372; or consent. DL

**SPAN 480 Hispanic Theater (3)** Study of representative authors and plays from Spain and Latin America. Repeatable one time. Pre: one of 361, 362, 371, or 372; or consent. DL

**SPAN 495 (Alpha) Topics in Hispanic Scholarship (3)** Hispanic authors, periods, or themes. (B) literature and society, DL; (C) Hispanic poetry, DL; (D) literature and film, DH. Repeatable for other topics, but not for the same topic. Pre: one of 361, 362, 371, or 372; or consent.

**SPAN 496 Studies in Latin American and Iberian Film (3)** Intensive study of selected topics in Latin American and/or Iberian cinemas; e.g. national or regional cinemas, periods, movements or issues, major filmmakers, film theory and criticism. Repeatable two times. Pre: one of 361, 362, 371 or 372; or consent. DH

**SPAN 499 Directed Reading and Research (V)** Independent study of approved readings and research with faculty supervision. A-F only. Repeatable two times. Pre: consent of instructor and departmental approval.

**SPAN 658 Seminar in Spanish Applied Linguistics (3)** Repeatable unlimited times with consent. Pre: graduate standing or consent.

**SPAN 660 Medieval Spanish Literature (3)** Representative readings in prose and poetry, from origins through 15th century. Pre: graduate standing or consent.

**SPAN 665 (Alpha) Golden Age Literature (3)** Spanish literature from the 16th and 17th centuries. (B) theater; (C) prose; (D) poetry; (E) Cervantes. Pre: graduate standing.

**SPAN 669 19th-Century Spanish Realism (3)** Nineteenth-century Spanish realism in the novel. Authors include Galdós, Clarín, Alarcón, Pardo Bazán, Blasco-Ibáñez, Valera. Pre: graduate standing or consent.

**SPAN 670 (Alpha) 20th-Century Spanish Literature (3)** Representative works from 20th-century literature. Genres: poetry, theater, essay, novel. (B) generation of 1898; (C) pre-Civil War; (D) post-Civil War. Pre: graduate standing or consent.

**SPAN 680 Spanish-American Novel (3)** Critical analysis of major Spanish-American novels. Pre: graduate standing or consent.

**SPAN 681 Colonial Spanish-American Literature (3)** Spanish-American literature from period of discovery to independence. Representative authors such as Sor Juana, Bernal Díaz del Castillo. Pre: graduate standing or consent.

**SPAN 682 Spanish-American Poetry (3)** Study of representative poets from all periods: Martí, Darío, Mistral, Guillén, Neruda, Paz, etc. Pre: graduate standing or consent.

**SPAN 683 Spanish-American Short Story and Essay (3)** Study of representative writers from various periods: Sor Juana, Palma, Quiroga, Reyes, Borges, etc. Pre: graduate standing or consent.

**SPAN 695 Seminar in Hispanic Literature (3)** A period, author, genre, or region. Repeatable unlimited times with consent. Pre: graduate standing or consent.

**SPAN 699 Directed Research (V)** Repeatable unlimited times. Pre: consent of department chair.

**Special Education (SPED)**

*College of Education*

SPED 304 is a prerequisite course to the Post-Baccalaureate Special Education (PB-SPED) in mild/moderate disabilities program; SPED 412 is a prerequisite course

to the PB-SPED in severe/autism program. A minimum grade of B- is required for all prerequisite courses prior to beginning program courses. All field course work requires candidates to obtain current TB clearance, background check, and liability insurance.

**SPED 201 Disability and Diversity (3)** Explores the changing disability experience (from “stereotype” to “normalization”) as depicted in film, literature and dialogue with persons with disabilities in the Pacific region. Students will employ “technologies for voice” to share stories. A-F only. **DS**

**SPED 304 Foundations of Inclusive Schooling (3)** Foundations of “special education” exploring philosophies, diverse and historical viewpoints, laws, and service delivery. Students reflect upon texts, films and interviews with persons with disabilities, their families and professionals to understand the culture of disability. A-F only. **DS**

**SPED 315 Field Training – Blended ECE (4)** Students spend 15 hours per week in settings appropriate to concurrently enrolled classes; supervision provided by participating teacher and college supervisor. Repeatable two times. A-F only. Pre: 304 and ITE 415 (with a minimum grade of B-), or consent. (Cross-listed as ITE 315)

**SPED 332 Young Children with Communication Needs (3)** Communication development of infants and young children, ages birth through age 8, with and without disabilities. Assessment and intervention to support the development of communication skills in inclusive community and school environments. A-F only. Pre: FAMR 331 (with a minimum grade of B-) or consent.

**SPED 390 (Alpha) Student Teaching in Special Education (V)** Full-time supervised experience in school. (B) elementary/special education; (C) early childhood education/special education; (D) unclassified. Repeatable one time per alpha. A-F only. Pre: 400 (with a minimum grade of B) and requirements for registration listed under “student teaching.” Co-requisite: 391B for (B); 391C for (C); 391D for (D).

**SPED 391 (Alpha) Seminar for Student Teachers in Special Education (V)** Seminar relating current educational theories with experiences. (B) elementary/special education; (C) early childhood education/special education; (D) unclassified. Repeatable one time per alpha. A-F only. Pre: requirements for registration listed under “student teaching.” Co-requisite: 390B for (B); 390C for (C); 390D for (D).

**SPED 392 Student Teaching in Special Education Modified (V)** Modified student teaching for students from another institution completing student teaching at UH or for students who have prior extensive teaching experience. A-F only. Pre: requirements for registration listed under “Student Teaching,” approval of review committee and consent.

**SPED 400 Field Training in Special Education (V)** Students participate in classroom settings appropriate to concurrently enrolled courses; supervision provided by participating teacher and college supervisor. Repeatable up to 10 credits. A-F only. Pre: 304 (or concurrent) or consent. Co-requisite: one of 461, 462, or 485; or consent.

**SPED 412 Individuals with Severe Disabilities/Autism (3)** Etiology, characteristics, and development of individuals with severe disabilities and autism; historical, theoretical, and legal issues affecting individuals with severe disabilities and autism; multicultural, family, and consumer issues; professional and ethical issues in providing services. A-F only.

**SPED 414 Education of Gifted Students (3)** Characteristics and educational provisions for gifted children and youth with particular attention to psychological aspects of creativity.

**SPED 415 Education Program for the Gifted/Talented (3)** Utilization and evaluation of teaching/learning models for gifted/talented students, including consideration of roles, expectancies for learning, and organizational procedures. Pre: 414 or consent.

**SPED 421 (Alpha) Strategies for Reading Difficulties (V)** Overview of methods, programs, and

strategies for reading instruction designed to improve the performance of elementary students, grades K-6, who experience difficulties in reading acquisition, fluency, and comprehension. (B) elementary/special education; (C) early childhood education/special education; (D) unclassified. Repeatable one time per alpha. A-F only.

**SPED 425 (Alpha) Partnerships with Families and Professionals (V)** Knowledge and skills for relating effectively with families and professionals on behalf of the children and youth with and without disabilities. Coverage of the context in which family members and school personnel interact. (B) elementary/special education; (C) early childhood education/special education; (D) unclassified. Repeatable one time per alpha. A-F only.

**SPED 443 Disability and Diversity in Physical Activity (4)** (3 Lec, 1 1-hr. Lab) Participants will explore issues of socio-cultural, sexual orientation, religion, and individuals with exceptionalities, and how these affect a student’s learning and behavior in the physical education setting. Required field experience. Repeatable one time. A-F only. (Cross-listed as KRS 443)

**SPED 444 Educating Exceptional Students in Regular Classrooms–Elementary (3)** Teaching elementary students with disabilities and those who are gifted/talented. Meeting academic/social needs, classroom management, motivation, peer interaction, collaboration between special and regular educators. Includes an emphasis on instruction in writing. (Cross-listed as ITE 444)

**SPED 445 Educating Exceptional Students in Regular Classrooms–Secondary (3)** Teaching secondary students with disabilities and those who are gifted/talented. Meeting academic/social needs, classroom management, motivation, peer interaction. Collaboration between special and regular educators. Includes an emphasis on instruction in writing. (Cross-listed as ITE 445)

**SPED 446 Seminar in Special Education (3)** Study of issues, trends, and research into special education programming and service delivery. Repeatable two times. Pre: consent.

**SPED 451 Programs for Infants/Toddlers (3)** Examination of current theory, research, issues, and models in programs for infants and toddlers including criteria for evaluation and planning. Pre: FAMR 230 (or concurrent) and FAMR 331 (or concurrent), or consent. (Cross-listed as EDCS 451)

**SPED 452 Preschool Children–Special Needs (3)** Examination of application of current research and practices for serving preschool children with special needs. Pre: FAMR 230 (or concurrent), or consent.

**SPED 461 (Alpha) Assessment, Planning, and Instruction for Students with Mild/Moderate Disabilities (3)** Techniques in the assessment, planning, and instructional process appropriate for students with mild/moderate disabilities. Stress on program development to facilitate inclusion of students with disabilities into general education environment. (B) elementary/special education; (C) early childhood elementary/special education; (D) unclassified. A-F only. Pre: 304 (with a minimum grade of B).

**SPED 462 (Alpha) Assessment, Planning, and Instruction for Students with Severe Disabilities/Autism (3)** Techniques in the assessment, planning, and instructional process appropriate for students with severe disabilities. Focus on program development to facilitate the inclusion of students with disabilities into general education settings. (B) elementary/special education; (C) early childhood/special education; (D) unclassified. A-F only. Pre: 304 (with a minimum grade of B).

**SPED 480 (Alpha) Technology for Children with Disabilities (V)** Overview of technologies for children with disabilities, highlighting battery operated toys, low and high tech augmentative communication systems, software, computers and alternative input devices (keyboards, switches, trackballs, touch

windows), and multimedia technologies to promote discovery and independence for children with disabilities and their families. (B) elementary/special education; (C) early childhood education/special education; (D) unclassified. Repeatable one time per alpha. A-F only.

**SPED 485 (Alpha) Classroom Organization and Management (3)** Knowledge and skills related to basic organizational management of an inclusive classroom, including scheduling, grouping, and stress and time management; techniques of applied behavior management, emphasizing behavior change and practical implementation of learning principles. (B) elementary/special education; (C) early childhood education/special education; (D) unclassified. A-F only. Pre: 304 (with a minimum grade of B).

**SPED 486 Theoretical Basis for Teaching Special-Needs Students (3)** Survey of biophysical, behavioral, social/ecological, psychodynamic/psycho-educational, cognitive/developmental, counter-theoretical approaches to teaching exceptional students. Opportunity for the development and/or strengthening of one’s own theoretical frame of reference.

**SPED 487 Characteristics/Strategies for Teaching At-Risk Students (3)** Survey of educational, behavioral, and emotional characteristics of students who are at-risk for school failure and strategies to work with such students.

**SPED 499 Directed Reading/Research (V)** Individual reading, research, and/or projects under direct supervision of instructors. Repeatable nine times. Pre: consent of instructor or department chair.

**SPED 500 Master’s Plan B/C Studies (1)** Enrollment for degree completion. Pre: master’s Plan B candidate and consent.

**SPED 526 Field Experience in Special Education–Post Baccalaureate (2)** Students spend a minimum of 100 hours over a minimum of 11 weeks in settings appropriate to SPED-PCert program emphasis (mild/moderate or severe/autism); supervision provided by participating teacher and/or college supervisor. Repeatable two times. Post-Baccalaureate in Special Education only. A-F only. Pre: 304 or 412.

**SPED 527 Student Teaching in Special Education–Post Baccalaureate Programs (6)** Supervised student teaching with a master teacher in PreK-12 educational settings appropriate to SPED-PCert emphasis (mild-moderate, severe/autism); minimum 280 hours in minimum 11 weeks. Supervision by master teacher and university supervisor.

**SPED 528 Internship in Special Education–Post Baccalaureate Programs (3)** Supervised teaching experience in full-time on-the-job PreK-12 educational settings appropriate to SPED-PCert program emphasis (mild/moderate or severe/autism); supervision provided by university supervisor. Must enroll for two consecutive semesters. Repeatable three times.

**SPED 581 (Alpha) Practicum in Special Education (1)** For in-service school/community personnel to present new ideas, approaches, instructional methods, materials for teaching exceptional individuals. (B–E) general SPED; (F–G) secondary programming/SPED; (H–I) bilingual/multicultural/special needs; (J–K) severe disabilities; (M–N) early childhood/special needs; (O–P) career/vocational/special needs; (Q–R) computer/special needs; (S–T) arts/special needs; (U–W) computer training/special needs; (X–Y) consultant skills/special needs; (Z) Ho’okoho. Repeatable nine times. CR/NC only. Pre: teaching or related work experience.

**SPED 582 (Alpha) Practicum in Special Education (2)** For in-service school/community personnel to present new ideas, approaches, instructional methods, materials for teaching exceptional individuals. (B–E) general SPED; (F–G) secondary programming/SPED; (H–I) bilingual/multicultural/special needs; (J–K) needs; (Q–R) computer/special needs; (S–T) arts/special needs; (U–W) computer training/special needs; (X–Y) consultant skills/special needs; (Z) Ho’okoho. Repeatable nine times. CR/NC only. Pre: teaching or related work experience.

**SPED 583 (Alpha) Practicum in Special Education (3)** For in-service school/community personnel to present new ideas, approaches, instructional methods, materials for teaching exceptional individuals. (B–E) general SPED; (F–G) secondary programming/SPED; (H–I) bilingual/multicultural/special needs; (J–K) severe disabilities; (M–N) early childhood/special needs; (O–P) career/vocational/special needs; (Q–R) computer/special needs; (S–T) arts/special needs; (U–W) computer training/special needs; (X–Y) consultant skills/special needs; (Z) Ho'okoho. Repeatable eight times. CR/NC only. Pre: teaching or related work experience.

**SPED 590 Internship, Special Education (6)** Supervised field activities involving the programming and instruction of special-needs students within training programs in Hawai'i and the Pacific Basin. Pre: consent.

**SPED 600 Foundations of Exceptionality (3)** Theoretical, legal and multicultural foundations for assessing, teaching and developing individual service plans across the lifespan for persons with disabilities. Pre: consent.

**SPED 601 Technology for Diverse Learners: Access, Accommodations, and Universal Design (3)** Strategies for using assistive technologies, multimedia technology, and telecommunications to design engaging learning environments that promote inclusion and give voice to diverse learners. Emerging technologies for access, accommodations, and universal design are explored. Pre: one of 480, ETEC 414, or ETEC 442.

**SPED 602 Special Education Law and Compliance (3)** Examination of the federal, state, and local government roles in special education with special emphasis on case and regulatory law. Focus on understanding special education law necessary in providing services to students with disabilities in a variety of placements. Appropriate for special/general education teachers, administrators, or related service providers. Pre: consent.

**SPED 603 Principles of Behavior (3)** Principles and laws governing behavior and methods that can be used to accomplish educationally relevant changes in student performance. Emphasis on the conceptual basis for changing behavior and use of technologies for changing behavior in school and community settings. Pre: consent.

**SPED 605 Collaboration in School and Community Settings (3)** Collaboration skills necessary to function as team members and to ensure the success of students with disabilities in inclusive school and community settings. Pre: consent.

**SPED 606 Language Development for Deaf Children (3)** General theories of first and second language development applied to development of ASL and English in deaf children. Relationship of theory to educational practice. Taught in ASL and English. Repeatable one time. A-F only. Pre: admission into Deaf Education program or consent. (Alt. years)

**SPED 607 Audiology and Spoken English for Deaf Students (3)** Developmental principles of audiology and speech (i.e., spoken English) will be used to examine assessment procedures and intervention strategies appropriate to deaf students in a variety of educational placements. Classroom applications will be presented. Taught in ASL and English. Repeatable one time. A-F only. Pre: admission into Deaf Education program or consent. (Alt. years)

**SPED 608 Literacy Development for Deaf Students (6)** Basic concepts related to language, language development and recognition of language-related learning problems of deaf students; strategies for teaching reading and writing to deaf students. Repeatable one time. A-F only. Pre: 461 and 606, or consent. (Alt. years)

**SPED 609 Seminar in Bilingual Deaf Education (3)** Study of issues, trends and methods in ASL/English bilingual education for deaf students. Taught in ASL and English. Repeatable one time. A-F only. Pre: 606, 607 and 608; or consent. (Alt. years)

**SPED 610 Advanced Assessment and Curriculum Development—Deaf (3)** Assessment methods and techniques used with deaf students that emphasize the bond between curriculum-based assessment and curriculum-based programming through planning and providing cyclical instruction across content areas based on ongoing diagnostic assessment. Taught in ASL and English. Repeatable one time. A-F only. Pre: 609 or consent. (Alt. years)

**SPED 611 Methods and Strategies for Students with Mild/Moderate Disabilities (3)** Techniques for providing effective instruction including: best instructional practice, lesson planning, teacher-directed and student-mediated instructional strategies, and curricular approaches for working with students with mild/moderate disabilities. A-F only. Pre: 304 or consent.

**SPED 613 Advanced Assessment and Curriculum Development (3)** Assessment methods and techniques that emphasize the bond between curriculum-based assessment and curriculum-based programming. Planning and cyclical instruction across content areas based on ongoing diagnostic assessment. Pre: 461 or consent.

**SPED 614 Assessment and Instruction—Severe Disabilities and Autism (3)** Basic principles of assessment, instruction, and curriculum development; application of formal and informal assessment procedures for goal selection, formulating instructional plans, and adapting instructional materials to accommodate learning needs of students with severe disabilities and autism. Pre: consent.

**SPED 615 Family-Centered Approaches in Deaf Education (1)** Prepare teachers to deliver family-centered home-based services to families of deaf children using the SKI-HI model. Course will be taught in ASL and English. Repeatable one time. A-F only. Pre: 606, 607 and 608; or consent. (Alt. years)

**SPED 616 Collaboration—Working with Deaf Students in Inclusive Settings (3)** Collaboration skills for working with general education teachers, specialists, paraprofessionals, families and community members to support the success of deaf students in inclusive settings. Taught in ASL and English. Repeatable one time. A-F only. Pre: 606, 607 and 608; or consent. (Alt. years)

**SPED 617 Transition Strategies for Deaf Students (1)** Collaborative model for facilitating the transition of deaf and hard-of-hearing students to develop appropriate transition plans and effective plans of study. Taught in ASL and English. Repeatable one time. A-F only. Pre: 606, 607 and 608; or consent. (Alt. years)

**SPED 618 Adaptations and Special Procedures—Students/Severe Disabilities/Autism (3)** Adaptations and special intervention procedures to support the participation of individuals with severe motor, communication, and/or adaptive behavior disabilities in inclusive school and community settings. Includes lab work. Pre: consent.

**SPED 620 Strategies Across Content Area (3)** Strategies for teaching math, science, and social sciences to students of all ages with mild/moderate disabilities; selection of appropriate materials, teaching techniques, curriculum development. Pre: 611 or consent.

**SPED 621 Language Arts Strategies: Students with Mild/Moderate Disabilities (3)** Basic concepts related to language, language development, and recognition of language-related learning problems of students with mild/moderate disabilities; strategies for teaching language arts curricula (listening, speaking, reading, writing) to students of all ages with learning problems. Pre: 304 or consent.

**SPED 622 Children's Literature for Deaf Students (3)** Introduction to English literature translated into American Sign Language (ASL) including discussion of ASL literature genres, the importance of translation, selection of literature; story reading, book reading, and retelling. Taught in ASL. Repeat-

able one time. A-F only. Pre: 609 or consent. (Alt. years)

**SPED 625 Teaching Skills for Social Competence (3)** Issues in social development, self-determination, and social skills competence training for children and youth with disabilities; experience in group social skills training and development of individualized programs. Pre: either 485 or 630, and either 611 or 614; or consent.

**SPED 626 Field Experiences in Special Education (3)** Students spend a minimum of nine hours per week in settings appropriate to concurrently enrolled courses; supervision provided by participating teacher and college supervisor. Repeatable three times. Pre: consent.

**SPED 627 Advanced Practicum (6)** Supervised education/community experiences; minimum of 20 hours weekly with special-needs population (MR, LD, SED, SMH); pre-school through postsecondary settings (public/private). Related seminar or equivalent and completion of SPED core required. Repeatable one time. Pre: consent.

**SPED 628 Internship (3)** Supervised education/community experiences with special needs populations (MR, LD, SED, SMH), preschool through postsecondary settings. Completion of SPED core required; must enroll for two consecutive semesters. A-F only. Repeatable two times. Pre: 626 and consent.

**SPED 629 Clinical Practice Special Projects (V)** Development and implementation of a field-based research professional development project under the direction of the student's advisor; limited to students enrolled in the interdisciplinary program. Repeatable up to 12 credits. A-F only. Pre: advisor's approval.

**SPED 630 Positive Behavioral Support—Severe Disabilities and Autism (3)** Principles and laws governing human behavior and positive methods for eliminating significant behavior problems for students with severe disabilities and autism. Emphasis on the functions of behavior, experimental techniques for documenting behavior change, and the use of technologies for improving behavior in school and community settings. Pre: consent.

**SPED 631 Early Intervention for Special Populations (3)** Issues important to early childhood special education. Early screening and assessment, working with families, curriculum options/models, program evaluation. Pre: consent.

**SPED 632 Language/Communication Intervention—Communication Disorders/Autism (3)** Current research in normal language learning, assessment, planning, implementation, evaluation of language delayed/disordered children, including children with autism. Procedures for attaining language/functional communication objectives using ongoing routines/activities. Pre: consent.

**SPED 633 Motor Development/Intervention for Students with Severe Disabilities (3)** Normal/abnormal motor development; description/etiology of physically disabling conditions influencing motor development; analysis/application of assessment/intervention strategies to promote motor development; positioning and handling skills. Pre: 614 (or concurrent) or consent.

**SPED 634 Inclusive Physical Activity (3)** Advanced knowledge on issues of socio-cultural, learning styles, diversity, and exceptionalities, and how these influence instruction, engagement, and behavior in physical activity settings across the lifespan. A-F only. Pre: consent. (Cross-listed as KRS 634)

**SPED 635 Procedures for Early Childhood Special Education (3)** Assessment and intervention strategies to promote behavior change with young children with disabilities. Promoting child skill gains and integrated programming options. A-F only. Pre: consent.

**SPED 640 Seminar on Mild/Moderate Disabilities (3)** Study of issues, research, program development in the area of mild/moderate disabilities. Repeatable two times. Pre: consent.

**SPED 641 Seminar in Issues in Special Education (3)** Seminar on issues, trends, research, and program development in the field of special education. Seminar may be repeated for credit as topics vary. Repeatable five times. A-F only. Pre: departmental approval. (Once a year)

**SPED 642 Seminar on Applied Research/Special Education (3)** Study and development of applied research topics in special education. Repeatable two times. Pre: consent.

**SPED 652 Transition/Supported Employment (3)** Transition planning for youth with disabilities in preparation for employment as adults in private and public sector businesses. A-F only. Pre: consent.

**SPED 688 Research Practicum in Special Education (3)** Directed research experience to demonstrate mastery of research skills and techniques through developing and writing research proposals. Repeatable one time. A-F only. Pre: 642 or consent, or departmental approval. (Once a year)

**SPED 695 Plan B Master's Project (3)** Independent study for students working on a Plan B master's project. Repeatable one time. A-F only. Pre: graduate standing in Special Education.

**SPED 699 Directed Reading/Research (V)** Individual reading/research. Repeatable unlimited times. Pre: consent of instructor and department chair.

**SPED 700 Thesis Research (V)** Research for master's thesis. Repeatable unlimited times.

**SPED 705 Seminar in Exceptionalities (3)** Current and historical topics, issues, and trends in the field of exceptionalities. Repeatable with different content. Pre: consent.

**SPED 706 Doctoral Internship (6)** Supervised internship (minimum 18 hours per week) in program development and administration or research in the student's area of emphasis. Pre: consent.

**SPED 740 Single-Case Experimental Design (3)** Advanced single-case experimental design; examines the logic of internal and external validity of small "N" design and its functionalist foundations. Pre: consent.

**SPED 745 Special Topics in Exceptionalities (3)** Critical examination and discussion of historical or current topic in early intervention, special education, and/or developmental disabilities. Repeatable two times. A-F only. (Once a year)

**SPED 760 Grant Development/Procurement (3)** Overview of grant development and procurement processes related to special education personnel preparation and research and demonstration programs. Students design a grant proposal related to a particular problem or need within their employment settings. Pre: consent.

## Surgery (SURG)

### *School of Medicine*

**SURG 531 Surgery Clerkship (10)** A clinically based, introductory course in general surgery and selected subspecialties. Repeatable one time. Pre: third-year standing.

**SURG 532 Surgery Longitudinal Clerkship (5)** A clinically based, year-long, introductory in general surgery and selected subspecialties. Outpatient-conducted one day per week for six months in a community-based, ambulatory care facility. Inpatient-conducted for four weeks in an acute-care hospital facility. Repeatable one time.

**SURG 541 Emergency Medical Care (6)** Clinical experiences in management of medical, surgical, and psychiatric problems requiring urgent care. Pre: 531 and fourth-year standing.

**SURG 545 (Alpha) Electives in Surgery (V)** Advanced clinical experience in: (B) urology; (C) ophthalmology; (D) otolaryngology; (E) plastic surgery; (F) neurosurgery; (G) orthopaedics; (H) anesthesia; (I) surgical intensive care; (J) Sub-I-general surgery; (K) Sub-I-pediatric surgery; (M) diagnostic radiology; (N) radiation oncology; (O) EM Sub-I;

(P) extramural elec in surg; (Q) Sub-I-cardiovascular; (R) surgical research; (S) surgical anatomy; (T) preceptorship in Asia; (U) biomedical technology design; (X) transplant surgery. Repeatable one time for all except (U); repeatable two times for (U) and (X). Medical students only for (U) and (X). CR/NC only. Pre: 531 or 532 for all except (M) and (U); and consent for (R) and (S); admission into JABSOM for (U).

## Tahitian (TAHT)

### *College of Languages, Linguistics and Literature*

**TAHT 103 First Year Tahitian I (3)** Basic core skills of listening, speaking and grammar of spoken Tahitian in a condensed format. Meets three 50-minute sessions weekly. **HSL**

**TAHT 104 First Year Tahitian II (3)** Basic core skills of listening, speaking and grammar of spoken Tahitian in a condensed format. Meets three 50-minute sessions weekly. Pre: 103 or consent. **HSL**

**TAHT 203 Second Year Tahitian I (3)** Intermediate core skills of listening, speaking and knowledge of grammar for spoken Tahitian in a condensed format. Meets three 50-minute sessions weekly. Pre: 104. **HSL**

**TAHT 204 Second Year Tahitian II (3)** Intermediate core skills of listening, speaking and knowledge of grammar for spoken Tahitian in a condensed format. Meets three 50-minute sessions weekly. Pre: 203 or consent. **HSL**

**TAHT 301 Third-Level Tahitian (3)** Continuation of 202. Conversation, advanced reading, composition. Pre: 204 or consent.

**TAHT 302 Third-Level Tahitian (3)** Continuation of 301. Pre: 301 or consent.

**TAHT 358 Third-Level Tahitian Abroad (3)** Full-time formal instruction at the University of French Polynesia in Tahiti. Third-year level in Tahitian language and culture. Pre: 204 and consent.

**TAHT 359 Third-Level Tahitian Abroad (3)** Continuation of 358. Pre: 301 or 358; and consent.

**TAHT 401 Fourth-Level Tahitian (3)** Continuation of 302. Advanced conversation, reading, and writing with focus on modern formal and colloquial Tahitian styles. The language in the realms of storytelling, radio, folklore, traditional and modern writing. Survey of modern and classical language. Pre: 302 or consent.

**TAHT 402 Fourth-Level Tahitian (3)** Continuation of 401. Pre: 401 or consent.

**TAHT 458 Fourth-Level Tahitian Abroad (3)** Full-time formal instruction at the University of French Polynesia in Tahiti. Fourth-year level in Tahitian language and culture. Pre: 302 and consent.

**TAHT 459 Fourth-Level Tahitian Abroad (3)** Continuation of 458. Pre: 401 or 458, and consent.

## Thai (THAI)

### *College of Languages, Linguistics and Literature*

**THAI 101 First-Level Thai I (4)** Listening, speaking, reading, writing. Structural points introduced inductively. Meets one hour daily, Monday-Friday; four out of five hours devoted to directed drill and practice; regular on-line lab work and review of audiovisual materials. **HSL**

**THAI 102 First-Level Thai II (4)** Continuation of 101. Pre: 101 or consent. **HSL**

**THAI 107 Reading and Writing Thai Script (3)** Focus on Thai script reading and writing skills. For students with some aural and spoken skills in Standard Thai equivalent to those completing THAI 102 or higher, but cannot read or write in Thai script. Lab work. Pre: consent. **HSL**

**THAI 112 Intensive Elementary Thai (10) HSL**

**THAI 201 Second-Level Thai I (4)** Continuation of 102. Integrated development of skills in listening, speaking, reading, and writing in Thai script. Meets

5 hours a week, regular on-line lab work and review of on-line audio visual materials. Pre: 102 or consent. **HSL**

**THAI 202 Second-Level Thai II (4)** Continuation of 201. Pre: 201 or consent. **HSL**

**THAI 212 Intensive Intermediate Thai (10) HSL**

**THAI 301 Third-Level Thai I (3)** Continuation of 202. Advanced conversation and reading, emphasis on modern written texts. Regular on-line lab work. Pre: 202 or equivalent or consent.

**THAI 302 Third-Level Thai II (3)** Continuation of 301. Pre: 301 or equivalent.

**THAI 303 Accelerated Third-Level Thai (6)** Continuation of 202. Meets six hours a week. Advanced conversation and reading; emphasis on modern written texts. Lab work. Pre: 202 or equivalent.

**THAI 401 Fourth-Level Thai I (3)** Continuation of 302/303. Advanced conversation and reading of specialized, scholarly texts. Pre: 302 or 303 or equivalent.

**THAI 402 Fourth-Level Thai II (3)** Continuation of 401. Pre: 401.

**THAI 404 Accelerated Fourth-Level Thai (6)** Continuation of 303. Meets six hours a week. Advanced conversation and reading of specialized, scholarly texts. Pre: 303.

**THAI 415 Thai Language in the Media (3)** Development of reading and aural comprehension of authentic Thai language used in print and broadcast media through reading Thai newspapers, viewing and listening to Thai television and radio programs. Oral and written reports. Repeatable one time. Pre: 402, 404 (or equivalent), or consent.

**THAI 451 Structure of Thai (3)** Introduction to information structure of Thai as a basis for developing reading skills. Analysis of rhetorical, sentence, and word structure from different types of written texts. Pre: 402 or consent. **DH**

**THAI 452 Structure of Thai (3)** Continuation of 451. Pre: 451 or consent. **DH**

**THAI 461 (Alpha) Readings in Thai Contemporary Prose Literature: the Short Story (3)** Selected readings in Thai short stories from early 1930s to present. Oral and written reviews (B) 1930-1969; (C) 1970-present. Repeatable one time with consent. Pre: 402 or consent. **DL**

**THAI 462 (Alpha) Readings in Thai Contemporary Prose Literature: the Novel (3)** Selected readings in Thai novels from early 1930s to present. Oral and written reviews. (B) 1930-1969; (C) 1970-present. Repeatable one time with consent. Pre: 402, 461(B) or 461(C), or consent. **DL**

## Theater (THEA)

### *College of Arts and Humanities*

**THEA 101 Introduction to World Drama and Theatre (3)** (2 Lec, 1 1-hr Lab) Performance traditions of Africa, Asia, Australia, Europe, North America, and the Pacific Islands from the 5th century B.C. to the present. Analysis of political, religious, and technological conditions of theatre. Includes practical theatre workshop. **DA**

**THEA 200 (Alpha) Beginning Theater Practicum (1)** Beginning workshop experience in the practical application of theater skills. (B) acting; (C) stagecraft; (D) costume; (E) theater management. Repeatable up to four credits in each alpha. Pre: for 200B, audition and performance of role in a Department of Theatre and Dance production; for 200E theatre majors only or consent.

**THEA 201 Introduction to the Art of the Film (3)** Introduction to the aesthetics of silent and sound movies. Technical subjects analyzed only as they relate to theme and style. **DH**

**THEA 214 Development of the Sound Film (3)** Growth and changes in aesthetics of the sound film from 1929 to present; films by Renoir, Welles, Eisenstein, etc. Pre: 201. (Alt. years) **DH**

**THEA 220 Beginning Voice and Movement (3)**

Introduction to vocal and movement techniques to increase self-awareness and potential for self-expression. Repeatable one time. Pre: consent. **DA**

**THEA 221 Acting I: Introduction to Performance (3)**

Concentration on voice, relaxation, body awareness, and freedom from self-consciousness through theater games, improvisations, monologues, and exercises. Emphasis on ensemble work. Repeatable one time with consent. **DA**

**THEA 222 Acting II: Basic Scene Study (3)** Basic character study and understanding of creation of roles through working on scenes from major modern and contemporary plays. Repeatable one time with consent. Pre: 221. **DA**

**THEA 224 Pidgin/HCE Drama (3)** Introduction to Hawaiian Creole English (HCE) multicultural comedy and drama in Hawai'i. Emphasis on acting exercises, local dialects, and the performance of Pidgin/HCE plays. Repeatable one time with consent. (Alt. years) **DA**

**THEA 240 Introduction to Theater Production (3)**

(3 Lec, 1 3-hr Lab) Survey class introducing basic tools, materials and skills of Technical Theatre: production, rigging, lighting, costume, make-up and painting. **DA**

**THEA 240L Theatre Production Lab (1)** Lab observations and projects illustrating basic principles of theatre production. A-F only. Co-requisite: 240.

**THEA 241 Film/TV Production Process (3)** Entry-level course details three phases of the production process for film and video projects: pre-production, production, and post-production. A-F only. Pre: consent. **DA**

**THEA 245 Design Principles for Performance (3)**

Introduction to general design principles as applied to theatre. Will introduce the language and tools of visual literacy and visual communications via individual projects and collaboration. Repeatable two times. (Cross-listed as DNCE 245) **DA**

**THEA 311 World Theater I: Script Analysis (3)**

Script analysis methods for world drama. Required of all majors. Pre: 101 or 221 or 240 or consent. **DL**

**THEA 312 World Theater II: Myth to Drama (3)**

Myth and ritual into drama, 1000 BCE–1700 CE. Development of secular drama from sacred and ritual beginnings. Required of all majors. Pre: 311 and consent. (Alt. years) **DL**

**THEA 318 Playwriting (3)**

One-act plays; practice in writing in dramatic form. Repeatable one time. Pre: grade of B or better in composition or consent. **DA**

**THEA 319 Screenplay Writing (3)**

Characterization, structure, theme, image, and other components of writing for film. Pre: 201 and grade of B or better in composition, or consent. (Alt. years) **DA**

**THEA 321 Acting III: Monologue/Audition Techniques (3)**

Focus on the individual student: preparation of material from all genres and styles with emphasis on line reading and responsiveness to direction. Repeatable one time with consent. Pre: 222 and consent. **DA**

**THEA 322 Acting IV: Method Acting (3)**

Further exploration of character development through exercises and scene study. Class presentation of scenes for criticism and review. Repeatable one time with consent. Pre: 222 and consent. **DA**

**THEA 323 Film/TV Acting (3)**

Acting techniques for film and TV production. Students appear in scenes from TV and film scripts. Repeatable one time. Pre: 101 or 221 or COM 201 or consent. **DA**

**THEA 324 Advanced Film/TV Acting (3)**

Advanced acting techniques for film and TV production. Taping/filming of scenes and full-length scripts. Repeatable one time. Pre: 323 and consent. **DA**

**THEA 325 Introduction to Asian Acting Styles (3)**

Principles of acting based on traditional Asian models. Voice, movement exercises. Pre: 222. **DA**

**THEA 334 Taiji (T'ai Chi) for Actors I (3)**

Basic Taijiquan (T'ai Chi Ch'uan) movement training. Repeatable two times. Pre: sophomore standing or higher, or consent. (Cross-listed as DNCE 334) **DA**

**THEA 335 Taiji Round Form for Actors (3)**

Introduction to basic Asian movement skills through learning the Wu-style taijiquan round form, a faster and more fluid version of the full 108 taiji sequence of forms. Open to non-majors. Repeatable two times. Pre: sophomore standing or higher, or consent. **DA**

**THEA 343 (Alpha) Topics in Theatre Production (3)**

Workshop in principles, techniques, and application of contemporary theatre production practices. (B) entertainment electrics: lighting, sound, special effects, projections, and related areas; (C) technical production: technical direction, technical design, construction, rigging, and related areas; (D) scenic and prop production: drafting, model-making, scenic art, painting, craftwork, and related areas. Repeatable one time for different alphas, each alpha can be taken one time. Pre: any course in THEA or DNCE, or production experience; or consent. (Alt. years) **DA**

**THEA 345 Lighting I: Beginning Lighting Design (3)**

Basic principles of lighting design and associated technologies. Includes functions and properties of light, lighting and control equipment, working procedures, and drafting and paperwork techniques. Pre: 240 or DNCE 250, or consent. (Once a year) **DA**

**THEA 353 Scenic I: Beginning Scenic Design (3)**

Workshop introducing the basic principles and approaches of scenic design for theatre and dance, with emphasis on the creative process. Pre: a course in THEA or DNCE, production experience, or consent. (Consent required for production experience option) (Cross-listed as DNCE 353) **DA**

**THEA 354 Introduction to Costume Construction (4)**

Workshop on basic principles of costume construction for theatre and dance. Professional practices, materials, and methods. (Cross-listed as DNCE 354) **DA**

**THEA 356 Costumes I: Beginning Costume Design (3)**

Basic principles and approaches to costume design for theatre and dance. Visual communication methods, creative process, historical research, and organizational practices. Repeatable one time. Pre: 240, DNCE 250, or consent. (Cross-listed as DNCE 356) **DA**

**THEA 357 Stage Makeup Workshop (3)**

Theory and practice; corrective and three-dimensional makeup, modeling with paint; beards, mustaches. Repeatable one time. Pre: 240 or consent. **DA**

**THEA 380 Beginning Directing (3)**

Basic practical course in how to direct a play. Students will direct scenes. Pre: upper division theater majors or consent. **DA**

**THEA 400 (Alpha) Advanced Theater Practicum (1)**

Advanced workshop experience in the practical application of theater skills. (B) acting; (C) stagecraft; (D) costume; (E) theater management. Repeatable up to four credits per alpha. Pre: audition and performance of role in a Department of Theatre and Dance production for (B); consent for (C) and (D); theatre majors only or consent for (E).

**THEA 411 World Theater III: Elite and Popular (3)**

Ethical issues in drama and production, interplay between elite and popular forms and the impact of colonialism, 1500-1900. Required of all majors. Pre: 312 and consent. (Alt. years) **DL**

**THEA 412 World Theater IV: Modern (3)**

Pluralism in modern theater, 1918–present. Reactions to realism and current Western and Asian alternative theater forms. Required of all majors. Pre: 411 or consent. (Alt. years) **DL**

**THEA 413 (Alpha) Approaches to Dramatic Texts (3)**

Intensive analysis and discussion of dramatic texts from a variety of authors. Understanding trends and variations in dramatic form and content. (B) contemporary British and American drama; (C) political drama in the West. Pre: one of 311, 312, 411, 412, or consent. **DL**

**THEA 414 Women in Drama and Theater (3)**

The role of women and their presentation in theater from ancient Greece to the present; focus on socio-political status of women. Pre: 311. (Cross-listed as WS 414) **DH**

**THEA 418 Advanced Playwriting (3)** Workshop in experimental writing in dramatic form; full-length plays. Repeatable one time. Pre: 318. **DA**

**THEA 420 (Alpha) Intermediate Voice for the Actor (3)**

Training in proper and dynamic use of the voice for the actor. (B) Western traditions; (C) Asian traditions. Repeatable two times. Pre: 220 or consent. **DA**

**THEA 421 Acting V: Musical Comedy (3)**

Training in skills required to perform in musicals. Students present scenes from musical comedies for criticism and review. Repeatable two times with consent. Pre: one of 321, 322, MUS 231B, or consent; and/or audition. (Cross-listed as MUS 421) **DA**

**THEA 422 Acting VI: Period Styles (3)**

Presentational acting in comedy and tragedy; emphasis on performance styles in Elizabethan, Restoration, and 18th-century drama. Repeatable one time with consent. Pre: 321 and 322, or consent. **DA**

**THEA 424 Hawaiian Acting Workshop (3)**

Training in skills and techniques for selected traditional Hawaiian performance forms and Hawaiian medium theatre. Emphasis on movement and vocal technique. Repeatable one time. Pre: 222 or consent. (Alt. years) **DA**

**THEA 426 South/Southeast Asian Acting Workshop (3)**

Training in skills and techniques for selected traditional south and southeast Asian theater forms. Emphasis on movement and vocal techniques. Repeatable one time. A-F only. Pre: 222 or consent. (Alt. years) **DA**

**THEA 427 Chinese Acting Workshop (V)**

Training in skills and techniques for selected traditional Chinese theater forms. Emphasis on movement and vocal technique. Repeatable to six credits. Pre: 222 or consent. (Alt. years) **DA**

**THEA 428 Japanese Acting Workshop (V)**

Training in skills and techniques for selected traditional Japanese theater forms. Emphasis on movement and vocal technique. Repeatable to six credits. Pre: 222 or consent. (Alt. years) **DA**

**THEA 429 Contemporary Performance Practices (3)**

Focus on individual training in the skills and techniques of contemporary experimental theater including acting, directing, and self-scripting. Repeatable two times. Pre: one of 222, 318, 380, or consent. **DA**

**THEA 433 Movement Workshop (V)**

Special workshops in movement relating to specific departmental theatrical productions beyond the scope of movement taught in 437 and 438. Repeatable one time. Pre: one of 435, DNCE 435, or consent. (Alt. years) (Cross-listed as DNCE 433) **DA**

**THEA 434 Taiji (T'ai Chi) for Actors II (3)**

Intermediate-level Taijiquan (T'ai Chi Ch'uan) movement training. Repeatable two times. Pre: 334 or consent. (Cross-listed as DNCE 434) **DA**

**THEA 435 Movement for Actors (3)**

Training actors to discover experientially the sources of movement; to teach skills for analyzing movement for its mechanical, anatomical, spatial, and dynamic content; and then to apply these skills in a role. Pre: 222 or consent. (Cross-listed as DNCE 435) **DA**

**THEA 436 Advanced Movement for Actors (3)**

Detailed development of material presented in 435. Focus on Bartenieff fundamentals and movement analysis as it applies to the physical interpretation of theatrical roles. Pre: one of 435, DNCE 435, or consent. (Alt. years) (Cross-listed as DNCE 436) **DA**

**THEA 437 Period Movement Styles, 1450–1650 (3)**

Movement styles and social department of European societies in the Renaissance and early Baroque periods. Pre: one of 435 or DNCE 435, or one semester of a 100-level dance technique class. (Alt. years) (Cross-listed as DNCE 437) **DA**

**THEA 438 Period Movement Styles, 1650–1800 (3)** Movement styles and social department of the Baroque and pre-Romantic periods in Europe and the American Colonies. Pre: one of 435, DNCE 435, one semester of a 100-level dance technique class, or consent. (Alt. years) (Cross-listed as DNCE 438) **DA**

**THEA 439 Musical Theater Dance Forms (3)** Theatrical dance forms used in 20th-century musical theater. Pre: 100 level or above dance technique class, 421, or consent. (Alt. years) (Cross-listed as DNCE 439) **DA**

**THEA 445 Lighting II: Intermediate Lighting Design (3)** Workshop in intermediate techniques and skills of lighting design; storytelling, analysis, research, investigation, questioning, problem solving and the execution of successful design projects. Pre: 345. **DA**

**THEA 446 Topics in Costume Construction (3)** Costume production techniques, both Western and Asian, for theatre and dance. Topic rotation includes: understructures and armatures, patterning, tailoring, dyeing, fabric modification, millinery and crafts, within the context of current industry practice. Repeatable two times. Pre: 354, 356, or consent. (Cross-listed as DNCE 446) **DA**

**THEA 447 Stage Management (3)** Business, organization and management for theater and dance productions. Pre: junior standing or consent.

**THEA 448 Introduction to Computer-Aided Design for the Theatre (3)** Basic concepts and techniques of 2D computer-aided design. Lecture/workshop covers language and commands common to most CAD packages with a focus on drafting specific to theatre. A laptop with Vectorworks installed is required. Pre: 343 or consent. (Once a year)

**THEA 453 SceniScenic Design (3)** Workshop in advanced techniques and skills of scenic design; model making, rendering, and drafting. Pre: 353 or consent. **DA**

**THEA 456 Costumes II: Intermediate Costume Design (3)** Advanced costume design for theatre and dance. Introduction to collaborative process in costume. Intensive work on rendering skills, applied to various design problems. Cost analysis and organizational techniques. Pre: 356 or consent. (Cross-listed as DNCE 456) **DA**

**THEA 462 Drama and Theater of Oceania (3)** Survey of the contemporary drama and theater of Oceania that combines island and Western traditions. Includes Papua New Guinea, Hawai'i, Fiji, Samoa, Australia, New Zealand. Pre: 101 or ANTH 350, or consent. (Cross-listed as PACS 462) **DH**

**THEA 464 Drama and Theater of Southeast Asia and India (3)** Court, folk, popular traditions, and the manner of their production. Pre: consent. **DH**

**THEA 465 Drama and Theater of China (3)** Yuan, southern, spoken drama; Beijing opera and the manner of their production. Pre: consent.

**THEA 466 Drama and Theater of Japan (3)** No, Kyogen, Bunraku, Kabuki, modern drama, and the manner of their production. Pre: junior standing. **DH**

**THEA 468 Drama and Theatre of Hawai'i (3)** Survey of indigenous theatre forms of Hawai'i, Native Hawaiian, and other ethnic playwrights, and contemporary multicultural landscape of drama and theatre in Hawai'i. Junior standing or higher. Pre: 101 (with a minimum grade of B), or consent. (Alt. years: fall) **DH**

**THEA 470 Creative Drama (3)** Dramatic activities for young people. For teachers, group workers, recreation majors, and others dealing with children. Supervised field activities. Pre: junior standing or consent. **DA**

**THEA 474 Theater for Young Audiences (3)** Theories and principles of formal theater for young audiences. Study of and practice in the selection, direction, and production of plays. Pre: junior standing or higher, or consent. **DA**

**THEA 475 Puppetry for Young Children (3)** Methods of constructing puppets and stages with and for children 3 to 8 years of age. Use of puppets in the creative arts. Fieldwork. Pre: junior standing or consent. **DA**

**THEA 476 Puppetry (3)** History and scope of puppetry. Construction and presentation of puppets for adult and child audiences. Repeatable one time. Pre: junior standing or above, or consent. **DA**

**THEA 477 Masks and Giant Puppets (3)** History, construction, and performance techniques for masks and large puppets. For teachers, recreation directors, and others working with students aged 10 to 18 and adults. Pre: junior standing or above, or consent. **DA**

**THEA 480 Intermediate Directing (3)** Workshop; students direct one-act plays. Repeatable one time with consent. Pre: 380 and consent. (Alt. years) **DA**

**THEA 490 Experimental Theater Studio (3)** Working collectively, students research, write, design, develop, and perform a full-length production. Repeatable two times. Pre: 6 credits above the 200 level in acting, directing, playwriting, dancing; or consent. **DA**

**THEA 492 (Alpha) Topics in Drama and Theater (3)** (B) Qigong (Ch'i Kung) for actors; (C) Shakespeare in performance. Skills and techniques for performing in Shakespearean productions; (D) topics in European theatre. Repeatable one time per topic, repeatable two times for (B). Pre: 434 or consent for (B), 222 or consent for (C), junior standing or consent for (D).

**THEA 499 Directed Work (V)** Individual projects; tutorial. Repeatable two times. Pre: consent.

**THEA 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**THEA 600 Seminar in Theater Research (3)** Bibliography and research methods; preparation for thesis and dissertation writing. Required of all graduate theater majors.

**THEA 611 Seminar in Major Dramatic Theory (3)** Major theories of Western drama from Aristotle to Roland Barthes. Repeatable one time with consent. Pre: 412 or consent. (Alt. years)

**THEA 612 History of Western Theater I (3)** Theater as a cultural and social institution in the West, from ancient Greece to Restoration England. Pre: one of 311, 312, 411, 412, or consent. (Alt. years)

**THEA 613 History of Western Theater II (3)** Theater as a cultural and social institution in the West, from the 18th century to the present. Pre: one of 311, 312, 411, 412, or consent. (Alt. years)

**THEA 614 (Alpha) Topics in Dramaturgy (3)** (B) the role of dramaturg; covers the history, theory, and practice; (C) dramaturgy workshop; accompanies specific Kennedy Theatre productions. Repeatable one time per alpha. Pre: consent. (Alt. years)

**THEA 615 Performance Theory (3)** Introduction to key texts and concepts of performance studies. Pre: consent.

**THEA 616 Script Analysis (3)** Study of dramatic texts in a seminar format; analysis of Western and Asian classical to post-modern plays. Pre: 312 or consent.

**THEA 617 Seminar in Performance Studies (3)** Special topics. Repeatable up to two times when topics change. Pre: 615 or consent. (Cross-listed as DNCE 617)

**THEA 618 Digital Multimedia Tools for Performance Research (3)** Dance, Theatre, Music Majors only. A-F only. Repeatable one time. Pre: consent.

**THEA 620 Advanced Voice for the Actor (3)** Training at advanced level in speaking and vocal skills and techniques in preparation for a solo performance. Repeatable one time. A-F only. Pre: 420 or consent. (Alt. years)

**THEA 619 Advanced Topics: Playwriting and Dramatic Theory (3)** Readings, research, writing, and seminar discussions. Pre: 418, 611, and consent.

**THEA 621 Acting VII: Great Roles (3)** Great roles from the Western theater repertory; focus on the individual actor and performance styles. Repeatable one time with consent. Pre: 422 and consent.

**THEA 625 Experimental Asian Acting (3)** Integration of movement, vocal technique, and concepts of traditional Asian genres into the actor's repertory. Exploration of application to contemporary Asian and non-Asian texts. Workshop format. Repeatable one time. Pre: consent.

**THEA 634 Taiji Weapons for Actors (3)** Advanced level Taijiquan (T'ai Chi Ch'uan) weapons training. Repeatable two times. Pre: 334 or 434, or consent.

**THEA 640 Problems in Design and Theatre (3)** Workshop dealing with special topics in lighting design, sound design, technical design, production stage management, and special effects. Repeatable three times with consent. Pre: 343 or 445 or consent.

**THEA 645 Lighting III: Advanced Lighting Design (3)** Workshop dealing with special topics in theatrical lighting design and related skills. Repeatable two times. THEA or DNCE majors only. Pre: 445.

**THEA 650 Professional Advancement in Entertainment Design (1)** Directed study designed to help MFA candidates in Design acquire the tools helpful in obtaining future employment. Portfolios, resumes, and related application tools will be developed along with other necessary skills. Must be current MFA candidate in theatre. Repeatable six times. THEA majors only. Graduate students only.

**THEA 653 Scenic III: Advanced Scenic Design (3)** Workshop dealing with special topics in scenic design, related skills, and portfolio preparation. Repeatable two times with consent. Pre: 453 or consent. (Alt. years)

**THEA 656 Costumes III: Advanced Costume Design (3)** Workshop dealing with special topics in costume design and related skills. Repeatable one time with consent. Pre: 456 or consent.

**THEA 657 Seminar in Design (3)** Research, design, and discussion exploring collaborative design problems and solutions. Pre: 445, 453, 456; or consent.

**THEA 660 Asian Theater Field Research (3)** Goals and methods. Interview, questionnaire, observation, and performance study as research techniques. Practical application by designing a research project. Pre: 600.

**THEA 663 (Alpha) Topics in Asian Theater (3)** Comparative and cross-cultural examination. (B) origins; (C) theories and systems; (D) modern Asian drama. Repeatable one time. Pre: consent.

**THEA 678 (Alpha) Topics in Theatre for Young Audiences (3)** Creative movement/drama, puppetry, and theater/dance; (B) production concepts. Repeatable when topics change. Pre: one of 470, 474, 475, 476, 477, DNCE 490; or consent.

**THEA 680 Directing Asian Theater (3)** Directing traditional Asian theater pieces and Western plays performed with Asian techniques; development of new performance styles based on Asian examples; directing of scenes and one-act plays. Repeatable one time with consent. Pre: graduate theatre major and one Asian theatre course, or consent.

**THEA 682 Graduate Workshop in Directing (3)** Direction of scenes and major one-act plays. Pre-thesis production. Repeatable one time with consent. Pre: 600 or consent.

**THEA 683 Workshop in Directing Process (3)** Methods class in theater production for the director. Covers organization and techniques such as rehearsal planning, scheduling, and execution. Repeatable one time.

**THEA 684 Theatre Governance (3)** Covers the economic and managerial skills for starting a professional and/or non-profit theatre company or performing arts organization: artistic directorship, board development, non-profit legalities, season planning, fundraising, budgeting, publicity, international activities, etc. Pre: 600 or consent.

**THEA 685 Directing Western Styles (3)** Students direct scenes in classic or non-realistic western theatre styles or genres. Repeatable one time with consent. THEA majors only. A-F only. Pre: graduate student in theatre program, or consent. (Alt. years)

**THEA 690 Graduate Theater Workshop (V)** Practical and supervisory theater work pertinent to professional degree objectives on productions being done in Kennedy Theatre or in other venues, by approval. Repeatable up to 6 credit hours. Pre: consent.

**THEA 691 Seminar in Teaching Dance/Theater (3)** Pedagogy and classroom experience in teaching technique and theory. (Alt. years) (Cross-listed as DNCE 691)

**THEA 693 Internship: Youth Theater/Dance (V)** Supervised leadership experiences in theater/dance program with children. Students spend nine hours per week in supervised setting and three hours in weekly class meeting. Pre: one of 470, 476, or DNCE 490; or consent. (Cross-listed as DNCE 693)

**THEA 695 Creative Projects (V)** MFA play or dance productions, design projects, original full-length plays.

**THEA 699 Directed Research (V)** Reading or research in theater theory or history; reading and practice in particular areas of dramatic production. Repeatable unlimited times. Pre: consent.

**THEA 700 Thesis Research (V)** Repeatable unlimited times.

**THEA 705 Seminar in Western Drama and Theater (3)** Special topics. Repeatable when topics change. Pre: consent.

**THEA 763 (Alpha) Seminar in Asian Theater (3)** (B) Southeast Asia and India; (C) China; (D) Japan. Repeatable two times. Pre: one of 464, 465, 466, or consent.

**THEA 779 Seminar in Theatre for Young Audiences (3)** Theories and methods applied in theatrical experiences with and for young audiences: creative movement/drama, puppetry, and theater/dance. Pre: one of 470, 474, 475, 476, 477, or DNCE 490.

**THEA 800 Dissertation Research (V)** Repeatable unlimited times.

## Tongan (TONG)

*College of Languages, Linguistics and Literature*

*Students choosing Tongan for the language requirement should realize it may not be offered if demand is limited.*

**TONG 101 Beginning Tongan (4)** Listening, speaking, reading, and writing skills. Structural points introduced inductively. History and culture. Meets four (4) hours weekly. **HSL**

**TONG 102 Beginning Tongan (4)** Continuation of 101. Pre: 101 or consent. **HSL**

**TONG 201 Intermediate Tongan (4)** Listening, speaking, reading, and writing skills. History and culture. Meets four (4) hours weekly. Pre: 102 or consent. **HSL**

**TONG 202 Intermediate Tongan (4)** Continuation of 201. Pre: 201 or consent. **HSL**

## Translation and Interpretation (TI)

*College of Languages, Linguistics and Literature*

*Some courses require a language exam before being allowed to enroll. Please check the website at [cits.hawaii.edu](http://cits.hawaii.edu) for current courses offered and further details.*

**TI 401 Principles of Translation (3)** Student awareness of the translation process and the criteria for evaluating translations. Includes readings and discussions of the translation process, terminology research as well as intensive practice in precise writing, paraphrasing, and summarizing. Pre: at least 300-level proficiency in a second language.

**TI 402 Professional Orientation (1)** Survey course. Translation as a profession. Professional history. Professional organizations. Deontological principles underlying working conditions. Contracts. Profes-

sional certification and licensing. Repeatable one time. Pre: 401.

**TI 403 Introduction to Interpretation (3)** Develop an awareness of the principles and the current issues involved in interpretation. Theoretical principles, ethics, and underlying techniques will be discussed in reference to conference, court, community, etc., interpreting. Pre: at least 300-level proficiency in a second language.

**TI 405 Court Interpreting I (3)** Introduction to the legal system, as well as theoretical principles, ethics, practical techniques, and current issues surrounding the practice and profession of court and other legal interpreting. Repeatable one time.

**TI 406 Community Interpreting (3)** Basic principles, ethics and skills involved in community interpreting; practical information about the community interpreter's role and profession; practice of various community interpreting situations and techniques. Repeatable one time.

**TI 407 Court Interpreting II (3)** Combined lecture/discussion/practice. Continuation of 405 Court Interpreting, diving deeper into the practical side of oral interpreting for various proceedings, including arraignments, trials, witness testimonies, etc. Must be bilingual. Real courtroom observations required. Repeatable one time. Pre: 405 or consent. (Spring only)

**TI 408 Medical Interpreting (3)** Healthcare interpreting requires students to understand basic biosystems, common illnesses and treatments, as well as interpreting skills. Students must have 402 or above equivalency of second language skills (or instructor approval). Repeatable one time. Pre: 406 or consent.

**TI 411 (Alpha) Technical Translation (English) (3)** Language specific course. Basic techniques and procedures used in bilingual translation of nonfiction texts. Emphasis on the stylistic, syntactic, cultural, lexical, and terminological problems. Translation into English only. (G) general skills; (K) Korean; (M) Mandarin; (S) Spanish; (O) other. Repeatable one time. Pre: senior or graduate standing and pass CITS screening exam. Co-requisite: 401, 413 and 421.

**TI 412 (Alpha) Technical Translation (English) (3)** Translation of nonfiction texts into English. Forms and formats. Emphasis on editing target version and producing camera-ready copy. (J) Japanese; (K) Korean; (M) Mandarin; (S) Spanish; (O) other. Repeatable one time. Pre: 411, senior or graduate standing, and pass CITS screening exam. Co-requisite: 402, 414, and 421.

**TI 413 (Alpha) Translation Skills (Second Language) (3)** Language specific course. Basic techniques and procedures used in bilingual translation of nonfiction texts. Emphasis on the stylistic, syntactic, cultural, lexical, and terminological problems. Translation from English into student's working languages. (J) Japanese; (K) Korean; (M) Mandarin; (S) Spanish; (O) other. Repeatable one time. Pre: senior or graduate standing, and pass CITS screening exam. Co-requisite: 401, 411, 421.

**TI 414 (Alpha) Technical Translation (into Second Language) (3)** Translation of nonfiction texts into a Second Language. Training process, methodology, and techniques. Web-based. (J) Japanese; (K) Korean; (M) Mandarin; (S) Spanish; (O) other. Repeatable one time. Pre: a previous translation course, or consent.

**TI 421 Research Tools and Technological Aids for Translation (3)** Word processing, graphics, spreadsheet, database management, and communication programs for professional practice. Reference and bibliographic searches. Traditional and nontraditional resources. Repeatable one time. Pre: senior or graduate standing, and pass CITS screening exam. Co-requisite: 401 and 411.

**TI 422 Computer-Assisted Translation (3)** (1 Lec, 1 1.5-hr Lab) The use of computers as aids in the translation process. Basic desktop publishing and technical writing. Computer aids for terminology

studies and glossary building. Repeatable one time. Pre: 421, senior or graduate standing, and pass CITS screening exam. Co-requisite: 402, 412, 452.

**TI 425 Japanese Translation (3)** Training in techniques of translating Japanese into English. Pre: consent. (Cross-listed as JPN 425)

**TI 432 (Alpha) Consecutive Interpretation (3)** Extensive note-taking and note-reading in a bilingual context. Focuses on the translation of numbers, acronyms, initials, and economic and financial information. (J) Japanese; (K) Korean; (M) Mandarin; (S) Spanish; (O) other. Repeatable one time. Pre: 431, senior or graduate standing, and pass CITS screening exam. Co-requisite: 402, 422, and 452.

**TI 442 (Alpha) Simultaneous Interpretation (3)** Simultaneous interpretation of speeches. Focus on the study of formulaic and frozen language characteristically used in international meetings. (J) Japanese; (K) Korean; (M) Mandarin; (S) Spanish; (O) other. Repeatable one time. Pre: 441, senior or graduate standing, and pass CITS screening exam. Co-requisite: 402, 432, and 452.

**TI 452 (Alpha) Sight Translation (3)** Basic course. Focus on the ability to translate orally information from a written text. Emphasis on improving linguistic (discourse analysis) and communicative (public speaking) skills. (J) Japanese; (K) Korean; (M) Mandarin; (S) Spanish; (O) other. Repeatable one time. Pre: 451 or senior or graduate standing and pass CITS screening exam. Co-requisite for translation students: 402, 412, 414, and 422. Co-requisite for interpretation students: 402, 432, and 442.

**TI 499 Directed Reading/Studies (V)** Basic course. Focus on the ability to orally translate information from a written text. Emphasis on improving linguistic (discourse analysis) and communicative (public speaking) skills. (J) Japanese; (K) Korean; (M) Mandarin; (S) Spanish; (O) Other. Repeatable one time.

## Travel Industry Management (TIM)

*School of Travel Industry Management*

*Students should check with the department for grade requirements for prerequisites.*

**TIM 099 International Exchange Programs (V)** UH Mānoa School of Travel Industry Management majors participating in approved international exchange programs. CR/NC only.

**TIM 100 Internship I (2)** Introduction to travel industry. Discussion of job search strategies, TIM internship requirements, career and academic planning. CR/NC only.

**TIM 101 Introduction to Travel Industry Management (3)** Overview of travel industry and related major business components. Analysis of links between hotel, food, transportation, recreation, and other industries comprising tourism.

**TIM 102 Food and World Cultures (3)** An integrated cross-cultural approach to the study of foods and cultures. Examine history, concepts, principles of cultures and cuisines, the background of food tradition including habitat, social status, religious beliefs, gender, and other environmental considerations. A-F only. **FGB**

**TIM 200 Internship II (2)** A minimum of four hundred hours of travel industry experience. Comprehensive report by student and performance evaluation from employer required. CR/NC only. Pre: TIM major, 100, and 101.

**TIM 300 Internship III (2)** A minimum of four hundred hours of travel industry experience. Position must be different from TIM 200 position and of a more responsible nature or in a different organization. Comprehensive report by student and performance evaluation from employer required. CR/NC only. Pre: TIM major and 200.

**TIM 301 Legal Environment of the Travel Industry (3)** Origin, development, and principles of common, statutory, constitutional, international, and

maritime law relating to hospitality industry. A-F only. Pre: 101. Recommended: BLAW 200.

**TIM 302 Information Systems Technology (3)** Computer applications in the travel industry; operation and evaluation of specific travel industry systems and applied business systems. Pre: 101 and ICS 101.

**TIM 303 Management of Service Enterprises (3)** Principles and philosophies of management with special emphasis on those principles and theories that are most relevant to management in service-based industries. Students may not earn credit for 303 and BUS 315. Pre: 101 or consent.

**TIM 304 Principles of Travel Industry Marketing (3)** Concepts, problems, processes of marketing within the travel industry; development of marketing strategies including product, place, promotion, and price for travel institutions. Students may not earn credit for 304 and BUS 312. Pre: 101.

**TIM 305 Financial Management for the Travel Industry (3)** Cash flow determination and management strategies for financing hospitality ventures and expansion. Determining the financial viability of proposed and existing operations through traditional and state-of-the-art techniques. Pre: 101 and ACC 202; and NREM 203, MATH 203, MATH 215, MATH 241, or BUS 250.

**TIM 306 Human Resource Management: Travel Industry (3)** Principles of human resource management applied to contemporary theories and practices in the travel industry; employee productivity, recruitment, and retention. Pre: 101 and (COMG 151 or COMG 251).

**TIM 310 Institutional Purchasing (3)** Procurement responsibilities in hospitality management. Emphasis on institutions supplying hospitality operations and legislation which controls standards of industrial supplies and goods. Pre: 101.

**TIM 311 Club Management (3)** Introduction to club and institutional management, including operations, services, and facilities. A-F only. Pre: 101.

**TIM 313 Foodservice Management (3)** Critical and essential aspects of managing foodservice operations including principles of food safety and sanitation, procedural knowledge in front and back of the house and guest relations. A-F only. Pre: 101 and 303.

**TIM 314 Hotel Management (3)** Comprehensive understanding of hotel management and functional departments including front office, accounting, housekeeping, food and beverage, marketing, security and safety. Simulation of management trainee programs by hotel chains. Synthesis of concepts, tools and theories of decision-making relevant to hotel operations. A-F only. Pre: 101, 302, and 303 (with a minimum grade of C- in 302 and 303).

**TIM 315 Quality Food Management (3)** Explore various aspects of the quality in foodservice operations and develop strategies to measure and improve the quality. A-F only. Pre: 101 and departmental approval.

**TIM 316 Events Planning and Marketing (3)** Introduction to special event planning processes and techniques. Emphasis on designing, planning, marketing, management, staging events, legal compliances, risk management, financial control, and successful event evaluation. A-F only. Pre: 313 and junior standing.

**TIM 319 Quantity Foods and Institutional Purchasing (4)** (3 Lec, 1 3-hr Lab) Quantity food and beverage operations, menu development and costing, dietary menu claims, purchasing procedures, inventory control, procurement, transportation, legislation. Institutional foodservice sanitation, Hazard Analysis Critical Control Point and National Restaurant Association Certification. Pre: FSHN 181 and FSHN 181L, 315 or consent. (Cross-listed as FSHN 312)

**TIM 320 Introduction to Tourism Economics (3)** Examines tourism from an economic perspective. Topics include: the determinants of consumer

demand for leisure travel, structure of competition among suppliers of tourism services, benefits and costs of tourism development to the host community, government's role in the taxation, subsidy, regulation and protection of the tourism industry, tourism's impact on the environment, and sustainable tourism development. A-F only. Pre: ECON 120 or 130 or 131; or consent. (Cross-listed as ECON 320) **DS**

**TIM 321 Sociocultural Issues in Tourism (3)** Positive and negative impacts of tourism on society, social change, culture, residents, developing countries, and environment. Role of social planning. Pre: 101. **DS**

**TIM 324 Geography of Global Tourism (3)** Tourist landscape in relation to resources, spatial patterns of supply and demand, impacts of tourism development, and models of tourist space. Flows between major world regions. Pre: sophomore standing or higher, or consent. (Cross-listed as GEOG 324) **DS**

**TIM 327 Travel Distribution Management (3)** History, development, operations, and management of travel distribution organizations including: travel agents, tour operators and wholesalers, specialty channelers, meeting planners, incentive houses, travel associations, and other destination management organizations. Evolution and economics of the distribution of travel products through destination databases and electronic commerce. Pre: 302.

**TIM 333 Hotel/Resort Facilities and Design (3)** Comprehensive understanding of facilities management and design including maintenance systems, sustainable development options and design and environmental management. A-F only. Pre: 313 and 314.

**TIM 334 Hotel and Convention Sales (3)** Functions, methods, and problems of hotel, convention, and restaurant sales. Needs of different classifications of properties; market segmentation and the sale of services vs. products. A-F only. Pre: 101. Recommended: 304.

**TIM 350 Introduction to Tourism Transportation (3)** Introduction to managerial and operational issues related to all modes of transportation used by tourists into or within a tourist destination. Passenger behavior; transport infrastructure; transport networks; regulation; sustainable transport. Pre: 101.

**TIM 351 Principles of Logistics (3)** Management of logistics systems: inventory control, warehousing, materials management, physical distribution, transportation. Emphasis on Hawai'i's location and unique problems. Pre: 101.

**TIM 353 Air Transportation Management (3)** Marketing, management and strategies used by airlines, airports, catering, and aircraft manufacturers. Pre: 101.

**TIM 354 Surface Tourism Transportation Management (3)** Management of surface tourism transportation such as car rental, bus and coach operators, drive tourism, intercity rail, taxi, etc. Includes marketing, ownership and financing, operations, regulation and promotion, human resources. Pre: 101.

**TIM 365 Economics in Travel Industry (3)** Microeconomic theory of consumer behavior and demand production cost analysis, market structure and pricing in travel companies. Economic impact of tourism. Students may not earn credit for 365 and BUS 313. Pre: either ECON 120 or ECON 130.

**TIM 368 TIM Study Abroad (V)** Study abroad instructional experience emphasizing international travel, tourism and hospitality-related topics at equivalent, accredited programs. Content varies depending on locus of instruction and instructor. Course qualifies as either a TIM or general elective with pre-approval or department. Repeatable unlimited times. Pre: consent.

**TIM 369 (Alpha) Current Topics in Travel Industry Management (V)** (B) resort development; (C) assets management; (D) transportation and

public policy; (E) management by cultural values; (F) travel industry management; (G) hospitality management; (H) hotel management; (I) restaurant entrepreneurship; (J) tourism management; (K) recreation management; (M) leisure management; (N) transportation management; (O) travel industry management education; (P) travel industry management technology; (Q) meetings, incentives, conventions, and exhibition management. Repeatable five times with consent.

**TIM 399 Directed Reading and Research (V)** Reading and research into problems in hotel, restaurant, transportation or tourism sectors of the travel industry. Pre: junior standing or above, a minimum cumulative GPA of 2.5 and consent of dean's office and instructor based upon student's written proposal of content and objectives of course program.

**TIM 400 (Alpha) Internship IV (2)** Requires a minimum of 150 hours of internship, a business presentation, and an analytical report synthesizing experience and related theories. A significant portion of class time is dedicated to writing instruction, which will enhance and improve students' writing skills. (B) executive internship; (C) community service internship. Restricted to majors. CR/NC only. Pre: 200 and consent.

**TIM 401 Resort Development and Management (3)** Principles of resort development and management. Essential aspects of developing, financing, marketing and managing resorts. A-F only. Pre: 314. Recommended: 305.

**TIM 402 Resort Mixed Use Development (3)** Critical and essential aspects of developing and managing resort mixed use facilities. Includes multidimensional and dynamic interrelationships of site development and facilities, business mix, management structures and systems, and industry practices. A-F only. Pre: 313 or 369; and 314. Recommended: 333 and 401. (Fall only)

**TIM 403 Revenue Management in Travel Industry (3)** Application of revenue management theory, principles, concepts, tools, techniques, and analysis to travel industry management. Focus will be on cost controls, pricing, inventory control, forecasting, financial analysis, and economic analysis. Pre: 101, ACC 202, and ECON 130.

**TIM 415 Nature-Based Tourism Management (3)** Principles of nature-based tourism, including a survey of impacts, objectives, planning, and management systems. Junior standing or higher. Pre: 101 or 324/GEOG 324. (Cross-listed as GEOG 415) **DS**

**TIM 420 Sustainable Tourism Policies and Practices (3)** Seminar examining the social, environmental, economic factors of sustainable tourism development. Emphasis on methods and processes and the role of stakeholders (government, industry, host community, tourists). Group projects. A-F only. Pre: 101 and departmental approval.

**TIM 425 Destination Development and Marketing (3)** Tourism development in Hawai'i and other Asia Pacific destinations. Analysis of key factors essential to stages of development, travel trends, and structural changes. Pre: 101.

**TIM 431 Strategic Management for the Travel/Hospitality Industry (3)** Strategic management in the travel/hospitality industry. Case study analysis, discussion and written reports, covering strategies, management problems and industry issues. Emphasis on writing instruction. A-F only. Pre: 301, 302, 303, 304, 305 and graduating senior.

**TIM 442 Advanced Topics in Air Transportation (3)** Advanced level of discussion in terms of air transportation, including management, economics, strategy, regulation, operating performance, fleet management, and network management. Pre: 353 (undergraduate) or consent (graduate).

**TIM 469 (Alpha) Advanced Topics in Travel Industry Management (V)** (B) tourism planning; (C) advanced travel industry management; (D) advanced hospitality management; (E) advanced hotel management; (F) advanced restaurant management;

(G) advanced tourism management; (H) advanced recreation management; (I) advanced leisure management; (J) advanced transportation management; (K) advanced travel industry management education; (M) advanced travel industry management technology; (N) advanced meetings, incentives, conventions, and exhibition management; (O) advanced food and beverage management; (P) leadership and advanced human resources; (Q) advanced assets management. Repeatable five times with consent for (B), (C), (D), (E), (F), (G), (H), (I), (J), (K), (M), (N); repeatable six times for (O), (P), and (Q). A-F only for (O), (P), and (Q).

**TIM 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate with consent.

**TIM 601 Research Applications in Travel Industry Management (3)** Analysis of methodologies appropriate for research in travel industry management. Survey of the literature of applied techniques and approaches including exploratory approaches. Familiarization with research design and implementation of development of research proposals. Pre: graduate standing or consent.

**TIM 602 Strategic Travel Marketing (3)** In-depth study of marketing principles and problems related to travel industry organizations. Emphasis on strategic marketing. Research applications, international and domestic marketing of travel industry services. Pre: graduate standing or consent.

**TIM 603 Information Technology, E-Commerce, and Travel Industry (3)** Planning, implementation, management, evaluation, and impact of information and electronic communication technologies, including e-commerce applications in the travel industry. Analysis of new information technology use as an area of research and strategic application. Pre: graduate standing or consent.

**TIM 604 Managerial Accounting for Travel Industry (3)** Advanced study of management accounting within travel industry: responsibility accounting, pricing decisions, concepts and application of central systems, financial planning, price level impacts, performance evaluation. Pre: graduate standing or consent.

**TIM 605 Hospitality Management (3)** Advanced human relations and operating issues; use of accounting, behavioral, financial, marketing, and informational systems in managing hospitality organizations. Pre: graduate standing or consent.

**TIM 415 Nature-Based Tourism Management (3)** Principles of nature-based tourism, including a survey of impacts, objectives, planning, and management systems. Junior standing or higher. Pre: 101 or 324/GEOG 324. (Cross-listed as GEOG 415) **DS**

**TIM 606 Tourism Transportation Management (3)** Advanced study analysis of the management of passenger transportation systems serving the travel industry. Emphasis on topics such as government policy, marketing and management, and the relationships between transportation systems and tourism development. Pre: graduate standing or consent.

**TIM 607 Global Tourism Analysis (3)** International trade theory and regional analysis methodologies applied to tourism and the service industry, including travel balance account, inter-regional transactions flow, economic impacts, environmental economics, demand theory and forecasting. Pre: graduate standing or consent.

**TIM 640 Financial Management for the Travel Industry (3)** Applications of financial analysis to both the domestic and international travel industry. Pre: graduate standing or consent.

**TIM 645 Tourism Field Studies (3)** Integration of concepts and application of knowledge and skills from other courses to a selected field study project. Pre: any two 600-level TIM courses completed and a third concurrent; or consent.

**TIM 694 Professional Paper (3)** Independent project or paper under faculty supervision in lieu of Plan A, TIM 700 thesis. Requires proposal approved

by supervisor and graduate chair prior to registration. A-F only. Pre: three 600-level TIM courses completed or consent.

**TIM 695 Seminar: Travel Industry Management Policy (3)** Integration of learning through analysis of policy issues, trends, and problems in the travel industry. A-F only. Pre: three 600-level TIM courses completed or consent.

**TIM 699 Directed Reading (V)** Independent study of approved, advanced reading with faculty supervision. Requires proposal prepared by student and approved by supervisor and graduate chair before registration. Repeatable one time.

**TIM 700 Thesis Research (V)** Independent supervised research. Formal and oral written presentation of research findings. Repeatable up to six credits.

## Tropical Agriculture and Human Resources (TAHR)

*College of Tropical Agriculture and Human Resources*

**TAHR 099 International Exchange Study/Research (V)** Study overseas in an approved international or similar exchange program. CR/NC only. Pre: consent of academic advisor.

## Tropical Medicine and Medical Microbiology (TRMD)

*School of Medicine*

**TRMD 431 Principles of Medical Parasitology (2)** Epidemiology, pathogenesis, immunobiology and diagnostic aspects of human parasitic infections; principles of host-pathogen interactions; public health aspects of parasitic infections. Repeatable one time. A-F only. Pre: MICR 351 with a grade of B or higher or equivalent. (Spring only)

**TRMD 499 Reading and Research (V)** Directed reading and research in laboratory; diagnostic aspects of bacterial, parasitic, and viral infections. Repeatable unlimited times. Pre: consent.

**TRMD 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Repeatable unlimited times. Pre: master's Plan B or C candidate and consent.

**TRMD 545 Topics in Tropical Medicine (V)** Elective for fourth-year medical students for advanced study of selected topics within the field of tropical medicine and medical microbiology. Pre: fourth-year standing or MD degree.

**TRMD 590 Selected Topics in Tropical Medicine and Infectious Diseases (V)** Elective for medical students in Tropical Medicine and Infectious Diseases. Repeatable up to 12 credits. Medical students only. CR/NC only. Pre: consent.

**TRMD 595 (Alpha) Selected Topics in Infectious Diseases (1)** Elective for medical students; (B) infectious diseases; (C) parasitology; (D) epidemiology; (E) immunology. MD majors only. CR/NC only. Pre: MDED 554 or consent. (Fall only)

**TRMD 599 (Alpha) Selected Research Topics in Infectious Diseases (1)** Research elective for medical students; (B) infectious diseases; (C) parasitology; (D) epidemiology; (E) immunology. MD majors only. CR/NC only. Pre: MDED 554 or consent. (Fall only)

**TRMD 601 Tropical Medicine Journal Club (1)** Students gain experience in the presentation and discussion of topics of current interest in the fields of tropical medicine and infectious diseases. Repeatable unlimited times. Graduate students only.

**TRMD 602 Laboratory Methods in Tropical Medicine (2)** Microbiologic methods and techniques for identification of pathogenic viruses, bacterial, and parasitic organisms including specimen handling, culturing, and laboratory safety. Repeatable one time. Graduate standing only. A-F only. (Fall only)

**TRMD 603 Infectious Disease Microbiology I: Medical Parasitology (3)** Epidemiology, pathogen-

esis, immunobiology and diagnostic aspects of human parasitic infections; principles of host-pathogen interactions; public health aspects of parasitic infections. Repeatable one time. A-F only. Pre: MICR 351 or equivalent. (Fall only)

**TRMD 604 Concepts in Immunology and Immunopathogenesis (2)** Immunological concepts relating to infectious diseases and host pathogen interactions. Repeatable one time. A-F only. Pre: MICR 461 (or equivalent) or consent. (Cross-listed as PH 665)

**TRMD 605 Infectious Disease Micro II (3)** Will cover different families of animal viruses of importance to human diseases. The genome, structure, replication, as well as host immune responses, epidemiology, clinical features, and animal models will be presented. Repeatable one time. A-F only. Pre: 604 and MICR 351, or consent. (Cross-listed as PH 667)

**TRMD 606 Tropical Medicine Laboratory Rotations (V)** Practical experience in use of equipment and procedures in infectious disease and immunology research; introduction to research in tropical medicine. Repeatable unlimited times. Pre: 604 (or concurrent), or consent.

**TRMD 607 Neurovirology (1)** Seminar on neuro-invasive viruses giving basics of viruses causing nervous system diseases and discussing recent advances in the research field of neurovirology. Pre: MICR 351 or equivalent; or consent. (Fall only)

**TRMD 608 Infectious Disease Microbiology III (3)** Basic structure, physiology, epidemiology, and genetics of pathogenic bacteria as well as the host response to these organisms. Correlation of these characteristics to disease pathogenesis in humans and animal models. A-F only. Pre: 604 or consent. (Spring only)

**TRMD 609 Advances In Medical Immunology (3)** Presentations/discussions of current literature concerning recent advances in immunology relevant to disease and to disease processes. Pre: consent. (Alt. years: spring)

**TRMD 610 Infection and Immunity (3)** Combined lecture/discussion of interactions of pathogens with the innate and acquired immune systems. Topics will include the role of novel receptors in pathogen detection, inflammation in disease pathogenesis, pathogen immune evasion, and neuroimmunology. Repeatable two times. A-F only. Pre: 604, MICR 461, or consent. (Alt. years: fall)

**TRMD 650 Ecological Epidemiology (2)** Applications of population biology, pathogen/host life history, and population genetics to infectious disease epidemiology, including micro- and macroparasites, and implications to disease control and prevention of strategies. A-F only. Pre: consent. (Alt. years: spring) (Cross-listed as PH 650)

**TRMD 652 Advanced Genetics and Evolution of Infectious Diseases (2)** An evolutionary perspective to examine the interactive responses between infectious agents and the immune system. Topics will include natural selection, life history evolution, population genetics of pathogens and hosts, and anti-microbial resistance. A-F only. Pre: 604 (or concurrent) and 605 (or concurrent), or consent. (Alt. years: spring)

**TRMD 653 Bioinformatics and Molecular Evolution (2)** Combined lecture/computer lab on bioinformatic tools used in genomics, including sequence assembly, search algorithms, alignment, phylogenetics, and molecular evolution/epidemiology. Focus will be on infectious disease examples. Open to nonmajors. A-F only. Pre: 604 (or concurrent) and 605 (or concurrent) or consent. (Fall only)

**TRMD 654 Advances in HIV/AIDS (2)** History of HIV, basic biology and virology, epidemiology, HIV pathogenesis and immunology, clinical features, and co-morbidities. Treatment and prevention of HIV/AIDS, including research methods, statistics, cultural competence, genetics, pathophysiology, drug and vaccine development. Repeatable unlimited times. A-F only. Pre: 604 and 605, or consent. (Fall only)

**TRMD 655 Principles of Biostatistics (3)** Lecture/lab on basic probability and statistical concepts for students in the biomedical sciences. Methodologies to include t-test, correlation, linear regression, analysis of variance, contingency table analysis, logistic regression, survival analysis, and non-parametrics. A-F only. Pre: algebra and one semester of calculus or consent. (Fall semester)

**TRMD 671 Advanced Medical Parasitology (2)** Consideration of ultrastructure, physiology, biochemistry, in-vitro cultivation and host-parasite relationship of parasites of medical importance. A-F only. Pre: consent. (Alt. years: fall)

**TRMD 672 Advanced Medical Virology (2)** In-depth study of the major groups of viruses pathogenic for human; virus replication, host range, pathogenesis, immunology, and epidemiology. Pre: 605 or equivalent, or consent. (Alt. years: fall)

**TRMD 673 Advanced Medical Bacteriology (2)** Role of bacteria in infectious diseases, with emphasis on clinical aspects and identification of etiological agents. Pre: 605 or equivalent, or consent.

**TRMD 675 Epidemiology of Tropical Infectious Diseases (3)** Epidemiology of infectious diseases as it relates to tropical medicine. Lecture/seminar format. A-F only. Pre: TRMD graduate standing or consent. (Spring only)

**TRMD 690 Seminar in Tropical Medicine and Public Health (1)** Weekly discussion and reports on current advances in tropical medicine and public health. Repeatable unlimited times. (Cross-listed as PH 755)

**TRMD 695 Plan B Master's Project (3)** Independent study for students working on a Plan B master's project. A grade of Satisfactory (S) is assigned when the project is satisfactorily completed. Pre: graduate standing in TRMD.

**TRMD 699 Directed Research (V)** Directed research in medical microbiology (bacteriology, parasitology, virology). Repeatable unlimited times. Pre: consent.

**TRMD 700 Thesis Research (V)** Research for master's thesis. Approval of department faculty required. Repeatable unlimited times.

**TRMD 705 Special Topics in Tropical Medicine (V)** Advanced instruction in frontiers of tropical medicine and public health. Repeatable unlimited times. (Cross-listed as PH 756)

**TRMD 800 Dissertation Research (V)** Research for doctoral thesis. Approval of department faculty is required. Repeatable unlimited times.

## Tropical Plant and Soil Sciences (TPSS)

*College of Tropical Agriculture and Human Resources*

**TPSS 120 (Alpha) Plants for People (1)** The origins: social, cultural, and ceremonial traditions; culture; food and nutritional properties. Processing of a variety of tropical horticultural plants are presented, with tasting sessions and optional field trips. Topics will rotate among (B) beverage crops (e.g., coffee, tea, chocolate, kava, fruit juices); (C) herbs, spices, and flavoring (selection of examples to be determined); (D) tropical fruits (assortment offered depends on availability during semester); (E) ornamental plants (flowers, houseplants, popular landscape plans, bonsai, ethnic ornamentals). Does not count towards TPSS major. Pre: consent. **DB**

**TPSS 200 Tropical Crop Science (3)** Relation of plants, nutrients, and environment, cultural practices to tropical crop production. **DB**

**TPSS 220 Organic Food Crop Production (2)** Combined lecture/lab on the theory and practice of certified organic food production. Field visits to organic farms/markets included. Open to nonmajors. (Fall only) **DY**

**TPSS 300 Tropical Production Systems (4)** (3 Lec, 1 3-hr Lab) Comparisons and contrasts of crop management systems, techniques, and technologies

in protected and open field production of tropical crops. Pre: 200 or consent. **DB**

**TPSS 304 Fundamentals of Soil Science (4)** (3 Lec, 1 3-hr Lab) Origin, development, properties, management of tropical soils; classification of Hawaiian soils. A-F only. Minimum prerequisite grade of C or consent. Pre: CHEM 161 and 161L, or consent. (Fall only) (Cross-listed as NREM 304) **DP DY**

**TPSS 311 Current Topics in Plant Science (1)** Undergraduate seminar that provides the presentation and discussion of topics of current relevance to students preparing for careers in applied plant sciences. Oral focus designation. A-F only. Pre: 200 or NREM 210, or consent. (Cross-listed as NREM 311)

**TPSS 322 Marketing Perishable Products (3)** Problems, agencies, functions, costs, prices, regulations affecting marketing; proposed improvements. Pre: ECON 130, NREM 220; or consent. (Alt. years) **DS**

**TPSS 336 Renewable Energy and Society (3)** Combined lecture/discussion regarding the ability of renewable energy technologies to meet local, national, and global energy demands and their potential impacts on the environment and society. Pre: consent.

**TPSS 341 Accounting and Financial Analysis (3)** Principles and methods of agricultural accounting. Preparing and interpreting financial statements. Sources and costs of credit, capital budgeting, tax management, estate planning. Repeatable one time. A-F only. Pre: ECON 130 or NREM 220, or consent. (Cross-listed as NREM 341) **DS**

**TPSS 350 Tropical Landscape Practices (3)** (2 Lec, 1 3-hr Lab) Concepts and techniques of landscape installation and management in the tropics. Pre: 200 and 369; or consent. **DB**

**TPSS 351 Enterprise Management (3)** Introduction of practical concepts and methods used in business management. Introduce broad range of business strategies. Understand the critical role each strategy plays. Facilitate student's practice of analytical and critical thinking through case studies. (Cross-listed as NREM 351)

**TPSS 352 Landscape Architecture History, Theory, and Practice (3)** Surveying the development of landscape architecture as an art form from Mesopotamia to present. Exploring the theory, profession and art of landscape architecture in the world by physical, social, economic, political, and cultural environmental factors. (Alt. years) (Cross-listed as ARCH 352) **DH**

**TPSS 353 Landscape Graphics Studio (3)** Basic skills of landscape graphic communication through a creative process model. Learning free hand and technical drafting techniques to create effective landscape graphics. Pre: consent. (Alt. years) (Cross-listed as ARCH 353) **DA**

**TPSS 354 Tropical Landscape Planting Design Studio (3)** Students will develop basic skills of residential landscape graphic and design processes in order to clearly articulate the ability to think, analyze, and extend a physical solution in the proper scale. Repeatable one time. A-F only. (Alt. years) (Cross-listed as ARCH 354) **DA**

**TPSS 364 Horticultural Practices (2)** (1 Lec, 1 3-hr Lab) Techniques of culture and management of horticulture crops. Pre: 200 (or concurrent). **DB**

**TPSS 369 Ornamental Plant Materials (3)** (2 Lec, 1 3-hr Lab) Identification, origin, use, and cultural requirement of trees, shrubs, vines, and groundcovers used in Hawaiian landscapes. Pre: 200 or consent. **DB**

**TPSS 371 Genetics: Theory to Application (3)** Fundamentals of genetic theory using biotechnological procedures in insect and plant pathogen control and plant and animal breeding as practical applications. Repeatable one time. A-F only. (Cross-listed as PEPS 371)

**TPSS 401 Vegetable Crop Production (3)** (2 Lec, 1 3-hr Lab) Crop biology, requirements, and production techniques for commercial vegetable production in Hawai'i will be stressed. Pre: 300 or consent. **DB**

**TPSS 402 Flower and Foliage Crop Production (4)** Biology and production of cut flowers, blooming potted plants, foliage plants under field and protected cultivation in Hawai'i and globally. Pre: 300 or consent. **DB**

**TPSS 403 Tropical Fruit Production (3)** (2 Lec, 1 3-hr Lab) Botanical aspects and horticultural management practices of selected tropical and subtropical fruit crops, with emphasis on small scale commercial production in Hawai'i. Pre: 300 or consent. **DB**

**TPSS 405 Turfgrass Management (4)** (3 Lec, 1 3-hr Lab) Adaptability and selection, establishment, and cultural practices of grasses for various types of turf. Pre: 200 or consent. **DB**

**TPSS 409 Cultural Biogeography (3)** Co-evolution of human societies and plants over the last 10,000 years. Foraging, farming and urban societies economies; spread and modification of selected plants; issues of preservation of genetic resources and traditional plant knowledge. The form and function of gardens. Pre: junior standing or higher, or consent. (Cross-listed as GEOG 409) **DS**

**TPSS 416 Introduction to Social, Ethical and Political Issues Associated with Biotechnology (3)** Introduces concepts of biotechnology, fundamental issues associated with use of this technology, with special emphasis on agricultural biotechnology. A-F only. Pre: 200 or BIOL 171 or NREM 210, or consent. (Alt. years)

**TPSS 418 Turfgrass Pest Management (4)** Provides students with knowledge and real world experience on common turfgrass pests and management strategies in Hawai'i, with emphasis on integrated pest management. Common cool-season turfgrass and pest management are also discussed. Repeatable unlimited times but credit earned one time only. A-F only. Pre: PEPS 210 or consent. (Fall only) (Cross-listed as PEPS 418)

**TPSS 420 Plant Propagation (3)** (2 Lec, 1 3-hr Lab) Theoretical and applied aspects of seed and vegetative propagation technology involving fruits, flowers, vegetables, and landscape plants. Pre: 200 or consent. **DB**

**TPSS 421 Tropical Seed Science (3)** (2 Lec, 1 3-hr Lab) Principles of seed science, seed physiology, seed production, and genetic modification. Hawai'i's seed industry and biotechnology. A-F only. Pre: 200 or consent. **DB**

**TPSS 429 Spreadsheet Modeling for Business and Economic Analysis (3)** Introduction to quantitative decision-making methods for effective agribusiness management in resource allocation, scheduling, logistics, risk analysis, inventory, and forecasting. Emphasis on problem identification, model formulation and solution, and interpretation and presentation of results. Pre: ECON 130 or NREM 220, and ECON 321 or NREM 310; or consent. (Once a year) (Cross-listed as ECON 429 and NREM 429) **DS**

**TPSS 430 Nursery Management (3)** (2 Lec, 1 3-hr Lab) Management practices in production and operations of commercial nurseries in Hawai'i. Pre: 200 and 364; or consent. **DB**

**TPSS 435 Environmental Soil Chemistry (3)** Study of soil chemical processes such as weathering, adsorption, precipitation, and ion exchange; causes of soil acidity, alkalinity, and salinity; reactions between soils and fertilizers, pesticides, or heavy metals. Management strategies to minimize environmental contamination by nitrate, phosphate, and trace elements such as As, Pb, and Se. A-F only. Pre: 304 or consent. (Fall only) **DB**

**TPSS 440 Tissue Culture/Transformation (3)** (2 Lec, 1 3-hr Lab) Application of plant tissue culture for plant scientists; study of the growth and development of plant tissues in culture as influenced by chemical and environmental factors, and the regeneration of plants following plant transformation by

biolistics and other molecular approaches. Pre: 420 or consent. Recommended: BOT 410. **DB**

**TPSS 450 Nutrient Management of Soils and Plants (4)** (3 Lec, 1 3-hr Lab) Principles and mechanisms governing the availability of plant nutrients in soil and nutrient management for enhanced plant productivity and maintenance for environmental and soil quality. Pre: 304 and CHEM 161, or consent. **DB**

**TPSS 453 Plant Breeding and Genetics (3)** (2 Lec, 1 3-hr Lab) Unique aspects of plant genetics and applications to crop improvement, with emphasis on breeding plants in Hawai'i. Pre: BIOL 375 (or concurrent) or consent. **DB**

**TPSS 460 Soil Plant Environment (3)** (2 Lec, 1 3-hr Lab) Bio-physical processes in the soil-plant-atmosphere continuum that influence crop growth and development. Methods to estimate the impact of soil and climate on crop performance. Use of crop models to simulate effects of planting date, plant spacing and density, fertilizer rate, rainfall or irrigation, and daily weather on crop yield and farm income. Pre: 304 and either PHYS 151 or PHYS 170, or consent. **DB**

**TPSS 463 Irrigation and Water Management (3)** Basic soil-water-plant relationships, irrigation water requirements, irrigation efficiencies, different methods of irrigation, planning, design and management of an irrigation system, fertigation and impact of irrigation on soil and water quality. Pre: NREM 203 (or equivalent) and NREM/TPSS 304 (or equivalent), or consent. (Alt. years) (Cross-listed as NREM 463)

**TPSS 470 Plant Physiology (3)** Integration of form and function from cellular to whole plant levels in processes from seed germination, through photosynthesis, growth, and morphogenesis, to flowering and senescence. A-F only. Pre: BIOL 171 or consent. **DB**

**TPSS 470L Principles of Plant Physiology Lab (1)** (1 3-hr Lab) Principles of experimentation in plant physiology, includes individual investigations. A-F only. Pre: consent. **DY**

**TPSS 473 Post-Harvest Physiology (3)** Comparative physiological and biochemical processes during growth, maturation, ripening, and senescence in fruits, vegetables, and flowers related to changes in quality and storage life. Tropical commodities emphasized. A-F only. Pre: 200, BIOL 171, or BOT 201; CHEM 152; or consent. **DB**

**TPSS 475 Plant Nutrient Diagnosis in the Tropics (3)** Designed for students to identify essential nutrients required by plants; diagnose nutrient disorders in plants; and propose environmentally sound solutions to correct disorders. Pre: 304/NREM 304 (or concurrent) and BIOL 172. (Cross-listed as NREM 475)

**TPSS 481 Weed Science (3)** (2 Lec, 1 3-hr Lab) Weed classification, identification, adaptations for weediness; principles of weed control; properties, uses, and action of herbicides. Lab: pesticide application equipment and techniques, no-till farming, greenhouse and field experiments. A-F only. Pre: 200 and CHEM 152, or consent. (Fall only) (Cross-listed as PEPS 481) **DB**

**TPSS 491 Experimental Topics (V)** Study and discussion of significant topics, problems. Offered by visiting faculty and/or for extension programs. Repeatable. Pre: consent.

**TPSS 492 Internship (4)** Integration and application of academic knowledge and critical skills emphasizing professional development. Placement with an approved cooperating supervisor/employer. Pre: consent.

**TPSS 492L Internship Experience (3)** Internship field experience for TPSS majors. TPSS majors only. A-F only. Pre: 200 (or concurrent) or consent.

**TPSS 499 Directed Studies (V)** Supervised individual instruction in field laboratory and library. Repeatable up to six credits. CR/NC only. Pre: 364 or consent.

**TPSS 500 Master's Plan B/C Studies (1)** Enrollment for degree completion. Pre: master's Plan B or C candidate or consent.

**TPSS 601 Crop Modeling (3)** (2 Lec, 1 3-hr Lab) Principles of modeling crop growth and development, model types, techniques, simulation. Modeling influence of climate/environment on phenology, growth, development of horticultural crops. Pre: BOT 470 and NREM 310, or consent.

**TPSS 603 Experimental Design (4)** (3 Lec, 1 3-hr Lab) Design of experiments and variance analyses in biological and agricultural research. Pre: graduate standing or consent. Recommended: ZOO 632. (Cross-listed as ANSC 603)

**TPSS 604 Advanced Soil Microbiology (4)** (3 Lec, 1 3-hr Lab) Study of biochemical and biogeochemical transformations mediated by soil microorganisms, emphasis on processes important to plant growth productivity and environmental quality. Pre: 304 and MICR 351, or consent.

**TPSS 610 Nutrition of Tropical Crops (3)** (1 2-hr Lec, 1 3-hr Lab) Mineral nutrition of plants in relation to plant metabolism, mechanisms of ion uptake, long-distance transport of solutes, and interactions at the root-soil interface. Special emphasis on problems associated with tropical crops. Pre: 450 and 470, or consent. (Alt. years)

**TPSS 614 Molecular Genetics of Crops (3)** (2 Lec, 1 3-hr Lab) Applications of molecular genetics to crop improvement. Pre: 453 and MBBE 402; or consent.

**TPSS 615 Quantitative Genetics (3)** Applications of quantitative genetics to crop and animal improvement. Pre: 453 and 603, or consent.

**TPSS 640 Advanced Soil Chemistry (3)** (2 Lec, 1 3-hr Lab) Physio-chemical processes in soils and soil solutions, with emphasis on ionic equilibria, mineral stability, organic complexation, and surface sorption of major plant nutrients and heavy metals. A-F only. Pre: 435 and CHEM 351, or consent.

**TPSS 650 Soil Plant Nutrient Relations (4)** (2 Lec, 2 3-hr Lab) Soil-plant interactions, emphasis on characteristics of tropical soils and plants influencing nutrient uptake by plants. Diagnostic methods to identify nutrient deficiencies and element toxicity. Pre: 450 or consent.

**TPSS 652 Information Research Skills (1)** Examines the use of libraries and information technology for scholarly investigation in support of scientific research; provides experience utilizing and critically evaluating a variety of print and electronic sources in basic and applied sciences. Pre: consent. (Cross-listed as ANSC 652, FSHN 652, and NREM 652)

**TPSS 654 Communications in the Sciences (1)** (3-hr Lec/Lab combination) Laboratory-type course for improving communication abilities in the sciences and engineering. Presentations to lay audiences are emphasized. Hands-on experience in techniques and methods is provided.

**TPSS 657 Grant Writing for Graduate Students (1)** Combined lecture/discussion on grants and grant writing. Designed to introduce graduate students to grants and grant proposal writing through lectures, class discussion, writing assignments, and peer review. Open to CTAHR graduate students only; others with consent. (Cross-listed as ANSC 657 and FSHN 657)

**TPSS 664 Orchidology (3)** (2 Lec, 1 3-hr Lab) Classification, culture, cytogenetics, breeding of orchids. Pre: consent. Recommended: 200 and 402.

**TPSS 667 Graduate Seminar (1)** Presentation of research reports; reviews of current literature in plant and soil sciences. Pre: graduate standing or consent.

**TPSS 670 Agrarian Systems Analysis (3)** Comparative analysis of philosophy and process of interdisciplinary and participatory approaches to sustainable development and rural resource management including farming systems research and extension (FSRandE), agroecosystem analysis (AEA), partici-

patory action research (PAR), and rapid rural appraisal (RRA). Repeatable one time. Pre: consent.

**TPSS 674 Plant Growth and Development (3)** Contemporary literature is used as the basis for understanding the physiology for whole plant growth and development. Aspects covered include vegetative and reproductive development, seed dormancy, senescence, abscission, and relevant biochemical and molecular processes. Pre: 470 and MBBE 402, or consent.

**TPSS 680 Geospatial Analysis of Natural Resource Data (3)** The application of geostatistics to estimate spatial dependence to improve soil and regional sampling; provide insight into underlying soil, geographic, and geologic process, and to provide quantitative scaling up of point measurements to fields, regions, and watersheds. State-space modeling also will be included. A-F only. Pre: GEOG 388 or ZOO 631; or consent. (Cross-listed as GEOG 680)

**TPSS 695 Plan B Master's Project (3)** Independent study for students working on a Plan B master's project. A grade of Satisfactory (S) is assigned when the project is satisfactorily completed. A-F only. Pre: graduate standing in TPSS program.

**TPSS 699 Directed Research (V)** In-depth study of specialized problems. Repeatable unlimited times. CR/NC only. Pre: consent.

**TPSS 700 Thesis Research (V)** Repeatable unlimited times. CR/NC only. Pre: consent.

**TPSS 711 Special Topics (V)** Specialized topics from various areas of plant and soil research such as experimental techniques, growth regulation, morphogenesis, genetics and breeding, culture and nutrition of tropical crops. A-F only. Pre: consent.

**TPSS 800 Dissertation Research (V)** Repeatable unlimited times. CR/NC only. Pre: consent.

## Urban and Regional Planning (PLAN)

### *College of Social Sciences*

**PLAN 101 Sustainable Cities (3)** How do we plan and design cities to meet our long-term economic and environmental needs? Students will learn how sustainability applies to key urban issues like energy, transportation, land, and food. A-F only.

**PLAN 310 Introduction to Planning (3)** Perspectives on planning; planning tools and methods; specific Hawai'i planning-research problems from a multidisciplinary approach. Pre: junior standing or consent. (Cross-listed as GEOG 310) **DS**

**PLAN 399 Directed Reading in Planning (V)** Independent research on topics in urban and regional planning. Pre: 310.

**PLAN 414 Building Community Resilience (3)** Intended to give you a good understanding of the natural forces behind the most common natural disasters, and the human actions that reduce or increase vulnerability to natural disasters. A-F only. Junior standing or higher. (Spring only) (Cross-listed as GEOG 414)

**PLAN 421 Urban Geography (3)** Origins, functions, and internal structure of cities. Problems of urban settlement, growth, decay, adaptation, and planning in different cultural and historical settings. Dynamics of urban land use and role of policies and perceptions in shaping towns and cities. Pre: GEOG 102 or 151 or 330, or consent. (Cross-listed as GEOG 421) **DS**

**PLAN 473 GIS for Community Planning (3)** Exploration of geographic information systems (GIS) area analysis techniques for spatial information management in community planning. Students will learn the basic concepts and principles, and practical skills of GIS through lectures, discussions, and labs. Repeatable one time. Junior standing or higher. (Fall only)

**PLAN 495 Housing, Land, and Community (3)** Analyzes availability for housing, particularly affordable housing, and its relationship to use of land and

building of community. Examines public policies impacting housing, land use, and community development and ways they can be improved. Pre: 310 or consent. **DS**

**PLAN 500 Master's Plan B/C Studies (1)**

**PLAN 600 Public Policy and Planning Theory (3)** Designed to a) impart a historic and comparative perspective on the evolution of urban and regional planning in public policy; b) explore the spatial and built environment dimensions of society, planning and policy; c) assess the justifications for planning and differing processes of planning in the U.S. and Asia-Pacific with a focus on the role of the planner in policy formulation and implementation. A-F only. Repeatable two times.

**PLAN 601 Planning Methods (3)** Basic methods in planning including problem definition, research design, survey research, statistics and computer applications. Repeatable one time. Pre: one of ECON 321, GEOG 380, or SOC 476.

**PLAN 602 Advanced Planning Theory (3)** Advanced planning theory for PhD students (others by petition) to prepare for careers in planning education and/or high level professional practice. Covers key contemporary planning policy issues and themes from the perspective of values, explanations of the real world, policy alternatives and implementation. Students must have passed 600 or equivalent (by petition) with a B or better. Repeatable one time. Pre: 600 or consent.

**PLAN 603 Economic Analysis for Urban Planning and Policy (3)** Reviews and builds skills in applying basic theories and principles of urban and regional economics in contemporary U.S., Hawai'i and Asia-Pacific. Repeatable one time. Pre: consent.

**PLAN 604 Qualitative Methods in Planning (3)** Provides a general introduction to qualitative research methods for planning and planning research. Includes data collection methods (focus groups, interviews, ethnography, participant observation, and participatory action research) and various analytic methods and approaches. Graduate standing only. Pre: 601.

**PLAN 605 Planning Models (3)** Allocation, decision, derivation, and forecasting models used in the analysis of demographic, economic, land use, and transportation phenomena in urban and regional planning. Repeatable one time. Pre: one of ECON 321, GEOG 380, or SOC 476; or consent.

**PLAN 606 Comparative Planning Histories (3)** Provides students with an overview of the history of urban and regional planning in the U.S., Europe, and Asia, and the role that planning has played in shaping contemporary urban settlements. Graduate standing only. A-F only.

**PLAN 607 Introduction to Public Policy (3)** Perspectives on policy analysis; basic approaches to the study of public policy, political economy, and policy evaluation. (Cross-listed as POLS 670)

**PLAN 608 Politics and Development: China (3)** Consists of three parts: key theories for socialist transition as basis for seminar discussion, policy evolution to illustrate the radical changes, and emerging and prominent current development and practice. Pre: one of 600, POLS 308, or POLS 341; or consent. (Cross-listed as ASAN 608 and POLS 645C)

**COMMUNITY PLANNING AND SOCIAL POLICY**

**PLAN 610 Community Planning and Social Policy (3)** Social issues and conditions; consequences of social policies experienced by different groups; community social plans and programs organized by various kinds of agencies and organizations. Repeatable one time. Pre: 600 (or concurrent) or consent.

**PLAN 615 Housing (3)** Housing delivery systems as an aspect of urban and regional planning. Pre: 610 or consent.

**PLAN 616 Community-Based Planning (3)** Planning and programmatic aspects of community-based development projects. East-West and local planning

perspectives on participatory development and intentional communities. Pre: 600 (or concurrent).

**PLAN 618 Community Economic Development (3)** Community-based economic development approaches and methods explored with an emphasis on low income communities. Repeatable one time. Pre: consent. Recommended: 616.

**PLAN 619 Multiculturalism in Planning and Policy (3)** Graduate seminar focuses on issues of governance, policy and planning in diverse multicultural societies. Differences in backgrounds, languages, privilege, preferences and values are often expressed in planning and policy controversies such as affirmative action and land use planning. Will examine these controversies and explore theories of governance in a multicultural setting. Pre: 600 or consent.

**ENVIRONMENTAL PLANNING AND RESOURCE MANAGEMENT**

**PLAN 620 Environmental Planning and Policy (3)** Survey of the political, institutional, economic, and scientific aspects of environmental planning and policies. Repeatable one time. A-F only. Pre: 600 (or concurrent) or consent.

**PLAN 622 Environmental Impact Assessment (3)** Theory and practice of environmental impact assessment. Policy and planning frameworks supporting environmental assessment in the U.S. and abroad. Cumulative environmental effects and strategic environmental assessment. Pre: graduate standing. (Cross-listed as GEOG 622) **DS**

**PLAN 624 Environmental Valuation and Policy (3)** Build valuation skills to assess best use, conservation, and policies relating to environmental amenities. Provides an overview of policy solutions to environmental degradation used by planners. Pre: 600 and 603.

**PLAN 625 Climate Change, Energy and Food Security in the Asia/Pacific Region (3)** Analysis of planning responses to human-induced climate change and related environmental problems. Part of the Asia/Pacific Initiative taught in collaboration with universities throughout the region via video-conferencing. Pre: 620 (or concurrent) or consent.

**PLAN 626 Topics in Resource Management (3)** Issues, analytic techniques and management strategies for different resource systems including land, water, energy, coastal resources, forests and fisheries. Course focus varies from year to year. Repeatable one time. A-F only. Pre: consent.

**PLAN 627 Negotiation and Mediation in Planning (3)** Applicability and limitations of selected approaches; role of planners; impact on planning. Pre: 600 or consent.

**PLAN 628 Urban Environmental Problems (3)** Seminar that examines environmental problems associated with urbanization. Reviews strategic approaches and collaboration among key actors to address such problems. Pre: 600 or consent.

**URBAN AND REGIONAL PLANNING IN ASIA AND THE PACIFIC**

**PLAN 630 Urban and Regional Planning in Asia (3)** Key issues and policies in urban planning, rural-urban relations, rural regional planning, and frontier settlement in Asia and the Pacific. Repeatable one time. Pre: 603 or consent. (Cross-listed as GEOG 630)

**PLAN 632 Planning in Hawai'i and Pacific Islands (3)** Urban and regional planning in island settings. Experiences in Hawai'i, Polynesia, Melanesia, and Micronesia. Pre: graduate standing.

**PLAN 633 Globalization and Urban Policy (3)** Urbanization and urban policies in the Asia and Pacific region with focus on the international dimension of national and local spatial restructuring. Pre: 630 or consent.

**PLAN 634 Shelter and Services in Asia (3)** Examines government and non-government organiza-

tions' responses to urban and rural shelter issues and services in Asia. Pre: 630 (or concurrent) or consent.

**PLAN 636 Culture and Urban Form in Asia (3)** Cultural and historical impact on urban form, contention of tradition and modernity in urban space, spatial expression of state and society, perception and utilization of urban design, evolution of urban form in selected Asian capitals. Pre: 310, 600, or ASAN 312. (Cross-listed as ASAN 636)

**PLAN 637 Environment and Development (3)** Theories and practice of development; how changing development paradigms shape different ideas concerning the environment and the management of natural resources; emerging debates in development and environment in post-modern era. (Cross-listed as GEOG 637)

**PLAN 638 Asian Development and Urbanization (3)** Theories of globalization and sustainability in development, impacts of globalization and sustainability on development planning and policy formation, selected case studies of Asia-Pacific development. Pre: (630 or ASAN 600) with a grade of B or above. (Cross-listed as ASAN 638 and GEOG 638)

**PLAN 639 Community-based Natural Resource Management (3)** Concepts and theories of community, resource access, and governance. Practical challenges to CBNRM in contemporary political economy. Pre: graduate standing. (Cross-listed as GEOG 639)

**LAND USE AND INFRASTRUCTURE PLANNING**

**PLAN 640 Land Use Policies and Programs (3)** Land use public policy planning in urban and regional settings. Growth management and land use guidance systems. A-F only. Pre: 600 and 601, or consent.

**PLAN 641 Neighborhood and Community Land Use Planning (3)** Land use planning for urban neighborhoods and small towns. Theory and practice of neighborhood planning. Neighborhood and community dynamics, reinvestment, and stabilization. Pre: 640 (or concurrent) or consent.

**PLAN 642 Planning Urban Infrastructure (3)** Capital budgeting, project planning, and financing for large-scale urban infrastructure. Pre: 600, 601; and consent.

**PLAN 645 Land Use Planning (3)** Issues and methods of urban land use planning practice and plan making. A-F only. Pre: 640 or consent.

**PLAN 647 Urban and Regional Planning for Sustainability (3)** Focus on ideology, conceptual models, accounting frameworks, appropriate technologies, and indicators of planning for sustainability. Central and local policies, plans, and best practices in various countries and settings will be covered. Repeatable one time. Graduate students only. A-F only. (Alt. years)

**PLAN 648 Urban Transportation Policy and Planning (3)** Theory and practice of urban transportation planning in developed and developing countries with an emphasis on the U.S., Asia, and Pacific region. A-F only. Pre: 600 and 601, or consent.

**PLAN 649 Asian Cities: Historical Evolution of Urban Form (3)** Examination of the impact of economy, society, and history on urban form; case studies of the evolution of Asian urban form. Pre: 310 or ASAN 312. (Once a year) (Cross-listed as ASAN 649)

**RESEARCH AND PLANNING METHODS**

**PLAN 650 Research Design Seminar (3)** Research design and preparation of thesis proposal. Normally taken after admission to candidacy in MURP. Pre: consent.

**PLAN 652 Policy Implementation and Program Evaluation (3)** Implementation and evaluation in public policy analysis; philosophical and methodological issues; impact of policies and plans; use of evaluation research in program implementation. Pre: 601 or consent.

**PLAN 654 Applied Geographic Information Systems: Public Policy and Spatial Analysis (3)** Use of advanced and specialized spatial methods and models in urban and regional planning. Uses GIS software and builds upon 601. Skills are useful applied to planning, economic development, and environmental planning and resource management. Repeatable one time. Pre: graduate standing or consent.

**PLAN 655 Planning Research Methods (3)** Advanced methods and deterministic and stochastic models used in urban and regional planning. Pre: 601, 605; or consent.

**PLAN 661 Collaboration Between Sectors (3)** Examine theories and practices of multisector collaboration (public, private, nonprofit). The use of collaboration as an alternative way of solving public problems.

**PLAN 670 Interdisciplinary Seminar in Disaster Management and Humanitarian Assistance (3)** Provides a background for understanding the diverse components of this dynamic and expanding field. Pre: graduate standing or consent. (Once a year)

**PLAN 671 Disaster Management: Understanding the Nature of Hazards (3)** Combined lecture/discussion in disaster management focusing on the scientific understanding of the forces and processes underlying natural hazards; and human attempts to respond to these through mitigation and planning activities. Pre: 670 or consent. (Once a year) (Cross-listed as GG 604)

**PLAN 672 Humanitarian Assistance: Principles, Practices and Politics (3)** Combined lecture/discussion aimed at understanding the theoretical basis and working structure of humanitarian assistance programs and international responses to natural and human-induced disasters. Pre: 670 or consent. (Once a year)

**PLAN 673 Information Systems for Disaster Management and Humanitarian Assistance (3)** Combined lecture/laboratory in disaster management focusing on essential methodological and practical issues that are involved in spatial analyses using GIS and other information technologies to inform decision making related to natural hazards, disasters, and human attempts to respond to these through mitigation and planning activities. Pre: 670 or consent. (Once a year)

**PLAN 674 Disaster Recovery: Theory and Practice (3)** How do communities recover from disaster? Provides students with an overview of recovery theory and an understanding of how planners, policy makers, and ordinary citizens rebuild communities, cities, and nations following catastrophic events. A-F only. Graduate standing only.

**PLAN 675 Preservation: Theory and Practice (3)** History and philosophy of historic preservation movement. Analysis of values and assumptions, methodologies and tactics, implications for society and public policy. (Cross-listed as AMST 675 and ARCH 628)

**PLAN 676 Recording Historic and Cultural Resources (3)** Techniques in recording and evaluation of historic buildings and other resources, with an emphasis on field recordings and state and federal registration procedures. Pre: graduate standing or consent. (Cross-listed as AMST 676 and ANTH 676)

**PLAN 677 Historic Preservation Planning (3)** Local-level historic preservation, with an emphasis on historic districts, design guidelines, regulatory controls, and community consensus-building. (Cross-listed as AMST 677)

**PLAN 678 Site Planning (3)** Fundamental principles that guide site planning, including planning and design determinants of the site taking into account its regional context, site-specific characteristics and applicable codes, ordinances, and standards. PLAN majors only. (Fall only)

**PLAN 699 Directed Reading and Research (V)** Repeatable unlimited times. Pre: consent of instructor and department chair.

**PLAN 700 Thesis Research (V)** Limited to MURP students under Plan A. Repeatable unlimited times. Pre: consent.

**PLAN 721 Homeland Security: Terrorism (3)** Combined lecture/discussion in disaster management and humanitarian assistance track focusing on developing a multidisciplinary understanding of international terrorism and anti-terrorism planning and response. Pre: 670 or consent. (Once a year)

#### SEMINARS AND PRACTICE

**PLAN 740 Seminar in Planning Theory (3)** Special topics in theory, history, analysis. Pre: 600 or consent.

**PLAN 741 Seminar in Planning Practice (3)** Project planning, programming, and similar topics. Pre: 600 and 601, or consent.

**PLAN 751 Planning Practicum (6)** Team experience in defining and addressing a current planning problem; identification, substantive review, research design, preparation and presentation of analysis. Topic varies. Limited to 10 students. Pre: 600, 601; and consent.

**PLAN 752 Directed Project (V)** Individual project in analysis, plan preparation and evaluation, and policy/program evaluation. Pre: 600, 601; and consent.

**PLAN 754 Urban Design Studio (6)** Group experience in defining urban and regional design problems and potentials, developing and evaluating alternatives, formulating strategies for implementation. Pre: 640 or consent.

**PLAN 800 Dissertation Research (1)** Research for doctoral dissertation. Repeatable unlimited times. S/U only. PhD student only. Pre: consent.

#### Urdu (URDU)

*College of Languages, Linguistics and Literature*

**URDU 205 Reading and Writing in Urdu (1)** Introduces students to the Nastaliq (Urdu) script, alphabets, their various forms, and combination rules. Reading and writing is emphasized. A-F only. Pre: HNDI 102 or consent. Co-requisite: HNDI 201 or consent. (Fall only)

#### Vietnamese (VIET)

*College of Languages, Linguistics and Literature*

**VIET 101 Elementary Vietnamese (4)** Listening, speaking, reading, writing. Structural points introduced inductively. Meets one hour daily, Monday–Friday; four out of five hours devoted to directed drill and practice. HSL

**VIET 102 Elementary Vietnamese (4)** Continuation of 101. Pre: 101 or consent. HSL

**VIET 201 Intermediate Vietnamese (4)** Continuation of 102. After completion, most students should be able to use all major sentence patterns to produce sounds, combinations of sounds, tones, and intonation and have some understanding of Vietnamese culture. Meets one hour daily, Monday–Friday. Pre: 102 or equivalent. HSL

**VIET 202 Intermediate Vietnamese (4)** Continuation of 201. Pre: 201 or consent. HSL

**VIET 301 Third-Level Vietnamese (3)** Continuation of 202. Emphasis on increased proficiency and cultural understanding through interaction with Vietnamese media, including newspapers, radio, film, etc. Pre: 202 or equivalent.

**VIET 302 Third-Level Vietnamese (3)** Continuation of 301. Pre: 301 or consent.

**VIET 401 Fourth-Level Vietnamese (3)** Continuation of 302. Emphasis on cultural understanding through modern literary Vietnamese. Pre: 302 or equivalent.

**VIET 402 Fourth-Level Vietnamese (3)** Continuation of 401. Pre: 401 or consent.

**VIET 461 Introduction to Vietnamese Literature (3)** Selected readings in major genres; emphasis on analysis. Modern literature. Pre: 402 or consent. DL

**VIET 699 Directed Reading/Research (V)** Repeatable unlimited times. Pre: consent.

#### Women's Studies (WS)

*College of Social Sciences*

**WS 151 Introduction to Women's Studies (3)** Introduction to feminist interdisciplinary analysis from global and critical perspectives; relationships between women and men from Asia-Pacific, Hawaiian, and other cultures, with a focus on gender, race, class, and sexual dynamics; exploration of women's negotiations with institutional dynamics. DS

**WS 151A Introduction to Women's Studies (3)** Introduction to feminist interdisciplinary analysis from global and critical perspectives; relationships between women and men from Asia-Pacific, Hawaiian, and other cultures. Focus on gender, race, class, sexual dynamics, and women's negotiations with institutional dynamics. Honors students only. A-F only. Pre: departmental approval. DS

**WS 175 History of Gender, Sex, and Sexuality in Global Perspectives to 1500 CE (3)** Explores how gender, sex, and sexuality become key elements in human society from prehistory to 1500 CE. Examines ancient world civilizations from multiple perspectives stressing issues and forces still influential today. A-F only. (Fall only) FGA

**WS 176 History of Gender, Sex and Sexuality in Global Perspective, 1500 CE to the Present (3)** Explores how gender, sex, and sexuality become key elements in human society from 1500 CE to present. Examines world cultures from multiple perspectives, stressing issues and forces of continuing influence. A-F only. FGB

**WS 200 Culture, Gender, and Appearance (3)** Social construction of gender within culture and its visual expression through appearance. Analysis of role, identity, conformity, and deviance in human appearance. Open to nonmajors. (Cross-listed as FDM 200) DS

**WS 202 Psychology of Gender (3)** Survey of topics in psychology relevant to women's lives: socialization of gender, mental health, violence against women, achievement motivation, lifespan issues, domestic violence. A-F only. Pre: 151 or PSY 100. (Cross-listed as PSY 202) DS

**WS 230 Gender and Sport (3)** Explores the influence of gender in sport from cultural, psychosocial, and political perspectives. Examines women's and men's role as participants, spectators, and employees of sport and sports organizations. A-F only. Pre: one DS course. DS

**WS 245 Women Writers of World Literature (3)** Major women writers of world literature examined in context of female literary tradition. Pre: one of ENG 100A, 101, or ELI 100; or consent. DL

**WS 257 Sexual Identity in Literature (3)** Selected themes in major works of various types, cultures, periods. Requires a minimum of 3,000 words of writing. Pre: one of ENG 100A, 101, or ELI 100. DL

**WS 304 Women, War, and the Military (3)** The military as it includes and excludes women as soldiers, nurses, wives, prostitutes, and victims. Women and war economics; feminism, war, and peace. Pre: one of 151, 362, 375 or SOC 362; or consent. DS

**WS 305 Women and Health (3)** Explores current issues in the conceptualization and delivery of health care for women. Pre: one of 151, 202, POLS 110, or SOC 100. (Cross-listed as SOC 305) DS

**WS 306 Indigenous Women's Health (3)** Examines issues of indigenous women's health pre and post colonial in Hawai'i, Asia, and the Pacific regions. A-F only. Pre: one of 151, 202, 305; or HWST 107, HWST 270 or HWST 285; or consent. DS

**WS 311 U.S. Women's History (3)** History of U.S. women and gender relations. Topics include

women's work in and outside the household, women's involvement in social movements, changing norms about gender and sexuality, and shared and divergent experiences among women. (Cross-listed as AMST 316 and HIST 361) **DH**

**WS 315 Sex and Gender (3)** Cross-cultural theories and perceptions of sexual difference; linkage between biology and cultural constructions of gender; relationship of gender ideology to women's status. Pre: ANTH 152 (or concurrent). (Cross-listed as ANTH 315) **DS**

**WS 318 Women and Social Policy (3)** Social and economic policies affecting women in families, education, social services, government, health care, the economy; public policy implementation and development; policy impact on women. Pre: 151 or any 200- or 300-level course, or SOC 100 or any 200-level SOC course; or consent. (Cross-listed as SOC 318) **DS**

**WS 339 South Asian Migrants: Culture and Politics (3)** Historical and contemporary experiences of South Asian migrants in North America, Pacific, Caribbean, and/or African diasporas; causes and patterns of migration, inter-ethnic relations policies; role of race, gender, culture in community, identity formation. A-F only. Pre one ES or WS course in the 100, 200 or 300 level; or consent. (Once a year) (Cross-listed as ES 339) **DS**

**WS 345 20th-Century Literature by Women (3)** Twentieth-century women writers and their works; novels, short stories, poems, autobiographies. Inter-relationships of gender and literature. Pre: one of 151, 175, 176, and 245; or consent. **DL**

**WS 346 20th-Century Chinese Women Writers (3)** A survey and critical examination of contemporary Chinese women writers from China, Taiwan, and Hong Kong. Traces a genealogy of women's writing from the early 1920s up until now through novels, poetry, drama, and film. Pre: one DH or DL course, or consent. (Cross-listed as ASAN 364 and EALL 364) **DL**

**WS 350 Sex Differences in the Life Cycle (3)** Human sex differences, their biological basis and significance; genetic, hormonal, and behavioral determinants of sexual differentiation; biology of gender, sexuality, menopause, and aging. Pre: one semester of biological sciences. (Cross-listed as BIOL 350) **DB**

**WS 351 Women, Ideas, and Society (3)** Status of women in American society today in light of the cultural, historical, and philosophical forces that have produced it. Pre: HIST 151 and HIST 152; or consent. **DH**

**WS 356 Women and Religion (3)** Examining roles of, and attitudes toward, women in major religious traditions through autobiographies, films, and primary texts. Pre: 151 or ANTH 152 or REL 150. (Cross-listed as REL 356) **DH**

**WS 360 Pacific/Asian Women in Hawai'i (3)** Adaptive strategies of Hawaiian, Chinese, Japanese, Korean, Filipino, Samoan, and Southeast Asian women in Hawai'i; feminist anthropological and historical analysis. Pre: any ANTH, SOC, or WS course. (Cross-listed as ES 365) **DS**

**WS 361 Seminar: Women and International Development (3)** Topics: Women's role, status, work and treatment in the Third World; economic development, changing work/family roles, agriculture and business, improvement/deterioration in gender equity across the Third World global feminization of poverty. Open to nonmajors. Pre: a 100 level economics course or any women's studies course; or consent. (Cross-listed as ECON 361) **DS**

**WS 362 Sociology of Gender (3)** Effect of sex and gender roles (both traditional and nontraditional) on attitudes and behavior within the family and educational, economic, and governmental systems. Recommended: at least one WS course. Pre: 151 or any 200- or 300-level WS course, or SOC 100 or any 200-level SOC course; or consent. (Cross-listed as SOC 362) **DS**

**WS 375 Women and the Media (3)** Media portrayal of women and men; role of the media in reproducing gender inequality. Women as producers and consumers of media. Feminist alternatives to mainstream media. Pre: one of 151, 362, SOC 362. **DS**

**WS 381 Gender, Sexuality and Literature (3)** Basic concepts and representative texts for the study of literary constructions of gender and sexuality. Pre: one ENG DL course or consent. (Cross-listed as ENG 382) **DL**

**WS 384 Women and Politics (3)** Women's role in political institutions and processes in the U.S. and other countries; female and male approaches to power; feminist political goals and actions. Pre: 151 (or concurrent) or 362 (or concurrent) or any 100 level POLS course (or concurrent); or consent. (Cross-listed as POLS 384) **DS**

**WS 390 Gender and Race in U.S. Society (3)** Historical and sociological studies of race and gender in U.S. society; grassroots feminist and race/ethnic activism in the mainland and Hawai'i. A-F only. Pre: 151, ES 101, or Social Science Cores. (Cross-listed as ES 390) **DS**

**WS 392 Sexualities (3)** Multi-disciplinary course draws from psychology, sociology, biology, history, cultural anthropology, law, Hawaiian, ethnic, feminist, gender, and queer studies to explore human sexualities with emphasis on the U.S., Hawai'i and the Asia-Pacific regions. A-F only. Pre: one of 151, 202, 315 or 350; or consent. **DS**

**WS 399 Directed Reading (V)** Pre: consent.

**WS 400 Food, Body, and Women: Analysis of Biopolitics (3)** Explores how food, body, and other "matter of life" are imbedded in biopolitics from the feminist perspectives. A-F only. Pre: 151 or three credits of upper division WS courses, or consent. (Spring only). **DS**

**WS 410 Gender and Politics in U.S.-Okinawa Relations (3)** Examines gender in Okinawa in relation to historical dynamics in the Asia-Pacific region with attention to issues such as militarism and violence, colonialism and memory, and tourism and commodification of indigenous culture. A-F only. Pre: 151 or consent. (Cross-listed as ASAN 410)

**WS 414 Women in Drama and Theater (3)** The role of women and their representation in the theater from ancient Greece to the present; focus on the sociopolitical status of women. Pre: THEA 311 or consent. (Cross-listed as THEA 414) **DH**

**WS 418 Women and Work (3)** Gender and racial division of labor nationally and internationally; racial and gender differentials in wages, training, working conditions and unemployment; historical trends and future directions. Pre: one 300-level WS or ES course, or SOC 300; or consent. (Cross-listed as ES 418 and SOC 418) **DS**

**WS 419 Feminist Issues in Philosophy (3)** Examination of basic feminist issues in philosophy, and of responses to them. Pre: any course 200 or above in PHIL or WS, or consent. (Cross-listed as PHIL 418) **DH**

**WS 424 Gender, Sexuality, and Cyberspace (3)** Students learn how gender and sexuality are constructed online and produce a website to post their analysis and contribute to knowledge production about gender and sexuality in cyberspace. A-F only. **DH**

**WS 430 Seminar in the Biology of Women (3)** Embryological, anatomical, and physiological development of human female; hormonal, neural, and behavioral determinants of female sexual behavior; psychobiology of pregnancy, ovariectomy, and menopause. Pre: 350 or BIOL 172 or BIOL 350, or consent. **DB**

**WS 434 Women and Madness (3)** Interdisciplinary critical examination of the relationship between gender and mental health. Psychological research, feminist theory, autobiography, literature, and cinema. Pre: one of 202, 245, PSY 202; or consent. **DS**

**WS 435 Women and Crime (3)** Women's relations with the criminal justice system; types of women's offenses; responses to women's crime; women as victims; women as workers in the criminal justice system. Recommended: at least one WS course. Pre: 151 or any 200- or 300-level WS course, or SOC 300; or consent. (Cross-listed as SOC 435) **DS**

**WS 436 Gender, Justice and Law (3)** Exploration of landmark U.S. Supreme Court cases related to sex and gender. Topics may include sex discrimination, sexual orientation discrimination, privacy, and reproductive freedom. A-F only. Pre: one of 151, 175, 176, 202, 360, 381, or consent. (Cross-listed as AMST 436 and POLS 436) **DS**

**WS 437 Gender and Violence (3)** Interdisciplinary course will examine western constructs of gender violence on its correlates with ethnicity, class, sexuality, nation, and empire. Repeatable one time. A-F only. Pre: one of 151, 202, 360, 361, 439, 460, 462, or consent. **DS**

**WS 438 Gender and Environmental Philosophy (3)** Interdisciplinary approach to women's perspectives and roles on ecological and environmental issues; critical analysis of eco-feminism as a social and political movement; cross-cultural comparison of women's roles in human ecology. Pre: any course 200 or above in PHIL or WS or any course 200 or above with a DB or DP designation, or consent. (Cross-listed as PHIL 438) **DH**

**WS 439 Feminist Theory (3)** Contemporary debates in feminist theory concerning gender, race, and class; subjectivity and representation; gender and colonialism; bodies, sexualities and "nature." Pre: any 300 level WS or POLS course, or consent. (Cross-listed as POLS 339) **DS**

**WS 440 Feminist Methods and Research (3)** Overview of feminist issues with dominant theories of knowledge and major methodologies employed in the social sciences; and exploration of role of gender theory and feminist politics in feminist research. Pre: 151 or consent. (Once a year) **DS**

**WS 444 Gender and Consumption in a Global World (3)** Students learn theories of the global economy, histories of consumerism, constructions of gendered public spaces, and how the cultural production of consumers and consumer culture functions in the process of globalization. A-F only. **DH**

**WS 445 U.S. Women's Literature and Culture (3)** Reading of selected works of U.S. women's literature and cultural texts (such as art and film). Emphasis on historical and cultural context and diverse expressions of women's gendered identities. (Cross-listed as AMST 455 and ENG 455) **DL**

**WS 446 Gender Violence Over the Lifecycle (3)** Examines the problem of violence, particularly sexual violence, over the life cycle. Offers gendered perspective in activities aimed at prevention and treatment of violence, and cross cultural perspectives. Pre: 151 or any 200- or 300-level WS course, SOC 300; or consent. (Cross-listed as SOC 446) **DS**

**WS 452 Marriage and Family: Feminist Perspective (3)** Sex-role socialization, motherhood, work-family conflicts. Alternative family structures in U.S. and other countries. Recommended: at least one WS course. Pre: 151 or any 200- or 300-level WS course, or SOC 300; or consent. (Cross-listed as SOC 452) **DS**

**WS 453 Gender Issues in Education (3)** Examination of current and historical issues in education and how they are impacted upon by gender, with particular reference to gender as it intersects with ethnicity and class, locally and globally. Pre: 151 or consent. (Cross-listed as EDCS 453 and EDEF 453) **DS**

**WS 456 Politics of Men and Masculinity in U.S. Culture (3)** Examines American understandings of man, manhood, and masculinity, at the intersection of gender, race, class, and sexuality in the context of American nation and empire building in the 19th and 20th centuries. A-F only. Pre: one of 151, 175, 176, or 202; or consent. **DS**

**WS 460 Feminism, Nation and Empire (3)** Examines U.S. feminist movements in the 19th and 20th century by exploring how U.S. racism, nationalism and imperialism have provided the context from which feminism emerged. A-F only. Pre: 151, 360; or consent. **DS**

**WS 462 Asian Women (3)** History, culture, and contemporary reality of Asian women in Asia and the U.S. Includes critical analysis of American feminist methodology and theory. Pre: 360, 361, or 439 or AMST 310, AMST 316, AMST 318, AMST 373, AMST 455, or POLS 339; or consent. (Cross-listed as AMST 438 and POLS 372) **DS**

**WS 463 Gender Issues in Asian Society (3)** Construction of gender identities in contemporary Asia. How these interface with other aspects of social difference and inequality (e.g. with class, religion, ethnicity). Pre: any WS course or ASAN 201 or ASAN 202, or consent. (Cross-listed as ASAN 463) **DS**

**WS 465 Science, Sex, and Reproduction (3)** Explores anthropology's critical analysis of approaches to reproductive health and procreation, primarily in developing countries. Examines sex and reproduction as sites of intervention from public health, development, and biomedical specialists, while also considering local strategies. A-F only. Junior standing or higher. Pre: 151 or ANTH 152 or ANTH 425. (Alt. years: Fall) (Cross-listed as ANTH 465) **DS**

**WS 481 Women and Film (3)** Exploration of film as a philosophical and artistic form in the context of gender, race, and sexuality. Pre: one of 151, 175, 176, and THEA 201; or consent. **DH**

**WS 483 Studies in Literature and Sexuality and Gender (3)** Intensive study of selected problems and issues in the construction and representation of sexuality and gender in specific genres, social and cultural contexts, thematic or figurative clusters. Repeatable one time. Pre: ENG 320 and one other 300-level ENG course; or consent. (Cross-listed as ENG 482) **DL**

**WS 492 Women and Revolution (3)** Conditions under which women's activism and participation in protest and revolutionary movements developed in the 19th- and 20th-centuries. Cross-cultural comparisons. (Cross-listed as ASAN 492 and HIST 492) **DH**

**WS 495 Selected Topics (3)** Problems and issues for reading and research: feminist theory, criticism, affirmative action, etc. Pre: any WS course in appropriate area. **DS**

**WS 496 Teaching Women's Studies (3)** Strategies for teaching women's studies; addressing complex issues of gender, race, nation, class, sexuality and culture in a contemporary multiethnic campus environment. Emphasis on classroom techniques, teaching pedagogies, and hands-on experience. Repeatable one time. A-F only. Pre: 151 and one or more WS course with a grade of B or better in all relevant courses, instructor recommendation; or consent.

**WS 602 Transnational Feminist Teaching and Research (3)** Introductory graduate seminar designed to develop common vocabulary and explore the core debates in transnational feminist teaching and research to encourage critical reflection about teaching assumptions, approaches, and techniques in the contemporary college or university environment. A-F only. Pre: graduate standing and no waiver.

**WS 610 Faculty Seminar Series (1)** Seminar/discussion to introduce students pursuing the Graduate Certificate to the Woman's Studies faculty and their areas of research, and to initiate student's graduate studies in a woman's studies field. Repeatable one time. Pre: classified graduate status (or status pending) and consent.

**WS 612 Women in American Culture (3)** Historical/contemporary status of women in the U.S.; women's roles as defined by legal, educational, political, economic, and social institutions; implications for social science method. (Cross-listed as AMST 612)

**WS 613 Feminist Research and Methods of Inquiry (3)** Examination of an emergent body of literature about how to shape questions concerning gender, sex, race, class, colonialism, and other vectors of power. Includes methods from social sciences and humanities and debates in the philosophy of science. Repeatable one time. Pre: classified graduate status and consent.

**WS 615 Feminist Theory (3)** Selected ideas from contemporary feminist theory concerning power, knowledge, and self; articulating women's voice; deconstructing gender. (Cross-listed as POLS 615C)

**WS 620 Feminism and Its "Others" (3)** Relationship between feminist and other sites of critical insight and scholarship that have contributed to creating anticolonial, antiracist, antihomophobic theory, method and action. Questions the legacy of feminist coalition practices and engages the ongoing transformations that have begun to produce new alliances and coalitions that disrupt traditional boundaries of identity and power. A-F only. Pre: graduate standing, no waiver.

**WS 623 Topics in Feminist Social Policy Research (3)** Feminist social scientists from a variety of fields have explored issues of gender, social change and social justice. Draws from their work to critically examine strategies for conducting social policy research that is feminist in values and impact. Repeatable one time. A-F only. Pre: graduate standing, no waiver.

**WS 647 Gender and Law (V)** Examines the ways in which international law and domestic legal systems address the rights of women, gender roles, and gender identity. Uses comparative approach with an emphasis on case studies from the Asia-Pacific region. (Cross-listed as LAW 547)

**WS 650 Research in Feminist Studies: Capstone Experience (2)** Provide women's studies graduate certificate students with an opportunity to design, develop and complete a research project culminating in a publishable quality work and a professional quality seminar presentation. A-F only. Pre: classified graduate status and consent.

**WS 699 Directed Reading and Research (V)** Pre: classified graduate standing and consent of chair.

**WS 753 (Alpha) Research Seminar in Chinese Literature (3)** Study of authors, a genre, a period, or a problem. (M) modern; (T) traditional. Repeatable one time for (M). A-F only for (M). Pre: 613, 615, 650, or EALL 611; or consent for (M); CHN 612 or consent for (T). (Cross-listed as CHN 753 (Alpha))

## Zoology (ZOOL)

### College of Natural Sciences

*All courses required for the BS and BA degrees and minor require a minimum grade of C (not C-) or better.*

**ZOOL 101 Principles of Zoology (3)** Structure, development, physiology, reproduction, evolution, behavior, and ecology of animals. **DB**

**ZOOL 101L Principles of Zoology Laboratory (1)** Laboratory to accompany 101. Pre: 101 (or concurrent). **DY**

**ZOOL 200 Marine Biology (2)** Biology and ecology of marine plants and animals; coral reefs, the deep sea, rocky shores, marine mammals, fisheries, aquaculture, pollution, and conservation of marine resources. **DB**

**ZOOL 200L Marine Biology Lab (1)** (1 3-hr Lab) Laboratory, field trips to accompany 200. Pre: 200 (or concurrent). **DY**

**ZOOL 306 Ethology (2)** Introduction to animal and human ethology and sociobiology; emphasis on social and interspecific behavior, its causes and adaptive significance. Lab optional. Pre: 101 and 101L with C grade (non-science majors), or BIOL 265 with C grade (life science majors); or consent. **DB**

**ZOOL 306L Ethology Lab (1)** (1 3-hr Lab) Application of methods in demonstrations, films, and projects. Pre: 306 (or concurrent). **DY**

**ZOOL 320 Vertebrate Zoology (3)** Introduction to the evolution and systematics of vertebrates, with emphasis on comparative morphology, physiology, and ecology. Pre: BIOL 265. Co-requisite: 320L. **DB**

**ZOOL 320L Vertebrate Zoology Lab (2)** (2 3-hr Lab) Laboratory to accompany 320. Pre: BIOL 172 and BIOL 172L. Co-requisite: 320. **DY**

**ZOOL 340 Parasitology (2)** Animal parasites of man, and domestic and wild animals; systematics, comparative morphology, life history, pathology, treatment, control. Pre: BIOL 275. **DB**

**ZOOL 340L Parasitology Lab (2)** (2 3-hr Lab) Laboratory to accompany 340. Pre: 340 (or concurrent) and BIOL 275. **DY**

**ZOOL 399 Directed Study (V)** Pre: written consent.

**ZOOL 410 Corals and Coral Reefs (3)** The biogeography, evolution, ecology, and physiology of corals and coral reefs, and the application of this information to the management of coral reefs. Emphasis will be placed on processes such as dispersal, the evolution and operation of mutualisms, calcification, reproduction, and the maintenance of diversity. Pre: BIOL 265. (Spring only)

**ZOOL 416 Histology (3)** Functional microanatomy of the animal body, emphasizing vertebrates. Oriented toward pre-professional students. Pre: BIOL 275. Recommended: BIOL 407. **DB**

**ZOOL 416L Histology Lab (2)** (2 2-hr Lab) Light microscopic study of animal tissues, especially vertebrates. Primarily for pre-professional students. Pre: BIOL 275. Recommended: BIOL 407. Co-requisite: 416. **DY**

**ZOOL 417 Microtechnique (3)** (2 Lec, 2 3-hr Lab) Preparation of animal tissues and organs for microscopic examination; introduction to cytochemical and histochemical techniques. Pre: BIOL 275 or consent. **DB**

**ZOOL 420 Developmental Biology (3)** Fundamental principles, methods, concepts, and significance of developmental biology, emphasizing experimental methods. Pre: BIOL 275. Recommended: BIOL 407. **DB**

**ZOOL 420L Developmental Biology Lab (2)** (2 3-hr Labs) Analysis of animal development by experimental methods, using local organisms. Pre: 420 (or concurrent) and BIOL 275, or consent. Recommended: BIOL 407. **DY**

**ZOOL 430 Animal Physiology (3)** Introduction to function of organs, tissues, and cells, especially in vertebrates. Nerve and muscle physiology, endocrinology, circulation, respiration, excretion, and temperature regulation. Pre: BIOL 275. Co-requisite: 430L. **DB**

**ZOOL 430L Animal Physiology Lab (2)** Laboratory investigation of function of organs, tissues, and cells, especially in vertebrates. Nerve and muscle physiology, circulation, membrane transport, respiration, excretion. Pre: BIOL 275. Co-requisite: 430. **DY**

**ZOOL 432 Comparative Physiology (3)** Physical-chemical cellular mechanisms underlying function of organ systems; general principles inferable from study of adaptation to diverse environments. Pre: BIOL 171 and 172, and MBBE 402 (or concurrent) or BIOC 441 (or concurrent); or consent. **DB**

**ZOOL 439 Animal Ecology (3)** Principles and theories; examples from current experimental and analytical literature. For students in biological sciences. Pre: BIOL 265 and MATH 205 or MATH 215 or MATH 241; or consent. **DB**

**ZOOL 439L Animal Ecology Lab (2)** (1 4-hr Lab) Introduction to methodology, experience in characterizing populations and communities. Pre: BIOL 265. **DY**

**ZOOL 442 Introduction to Neuroscience (3)** Nerve cells, their signalling capabilities and the developmental organization of nervous systems, both invertebrate and vertebrate, for sensory reception, in-

tegration, behavioral command and learning; insights from on-going research using molecular, genetic, biophysical, and imaging methods. Pre: BIOL 275 or consent. (Spring only)

**ZOOL 450 Natural History of Hawaiian Islands**

(3) (2 Lec, 1 1-hr Lab) Geography, geology, climatology, biotic environment of Pacific Basin and Hawaiian Islands; endemism and evolution in terrestrial and marine biota. Pre: one semester of biological sciences at college level. (Cross-listed as BOT 450) **DB**

**ZOOL 460 Avian Biology** (3) Broad coverage of the morphology, physiology, ecology, behavior, and evolution of birds, emphasizing the relation of birds to general theory in biology. Pre: BIOL 265. **DB**

**ZOOL 465 Systematic Ichthyology** (3) Systematics and evolution of fishes; early fishes, fossil fishes, cartilaginous fishes, relic bony fishes, advanced bony fishes, zoogeography, evolution in extreme environments. Pre: 320, 320L, and BIOL 265. Co-requisite: 465L. **DB**

**ZOOL 465L Systematic Ichthyology Lab** (1) (2 2-hr Lab) Overview of the major orders and families of fishes of the world; introduction to local Hawaiian fishes; coverage of basic fish anatomy; introduction to field and laboratory techniques in fish research. Pre: BIOL 265. Co-requisite: 465. **DY**

**ZOOL 466 Fisheries Science** (3) General characteristics of fisheries; harvesting methods; principles and techniques to derive data and analyze fished populations. Field trips. Pre: one of the following: 410, 465, 470, 608, or 620; or consent. **DB**

**ZOOL 467 Ecology of Fishes** (3) Reproduction, early life history, age and growth, feeding, niche specificity, competitive interactions, communities, and evolutionary mechanisms. Pre: 465 or consent. **DB**

**ZOOL 470 Limnology** (2) Biology, physics, chemistry of lakes, streams, estuaries. Pre: BIOL 172 or consent. Co-requisite: 470L. **DB**

**ZOOL 470L Limnology Lab** (1) (1 3-hr Lab) Experimental and descriptive field projects on the biology, chemistry, hydrology, and physics of lakes, streams, and estuaries. Pre: BIOL 172 or consent. Co-requisite: 470. (Alt. years) **DY**

**ZOOL 475 Biology of the Invertebrates** (3) Body plans, development, cellular construction, physiological integration, natural history, and ecology of invertebrate animals. Emphasis on marine species, especially local ones. Pre: BIOL 172 and CHEM 161, or consent. Co-requisite: 475L. **DB**

**ZOOL 475L Biology of the Invertebrates Lab** (2) (2 3-hr Lab) Pre: BIOL 172 and CHEM 161, or consent. Co-requisite: 475. **DY**

**ZOOL 480 Evolutionary Biology** (3) Process of evolution: genetic basis, natural selection, population genetics, speciation, the fossil record. Pre: BIOL 265. Recommended: a BIOL or ZOOL course at 300 or 400 level. **DB**

**ZOOL 485 Biogeography** (3) Distribution of plants and animals and processes that cause, maintain, and modify them. Approach is synthetic and dynamic. Pre: BIOL 172. **DB**

**ZOOL 490 (Alpha) Seminar in Zoology** (1) Reports on research, reviews of literature, or research experience. Required of students majoring in zoology or entomology. (B) general zoology; (D) animal behavior; (E) ecology; (F) physiology; (G) developmental biology; (H) marine biology. Pre: 306 or equivalent or consent for (D).

**ZOOL 492 Teaching Internship** (1) Teaching internship in zoology. Required of ZOOL BS degree students. ZOOL BS majors only. CR/NC only. Pre: laboratory in an upper division ZOOL course.

**ZOOL 499 Directed Reading or Research** (V) Performance of a laboratory, field or library research project under the direction of a faculty advisor. Preparation of a proposal and written final report required. Limited to zoology majors.

**ZOOL 500 Master's Plan B/C Studies** (1) Enrollment for degree completion. Pre: master's Plan B or C candidate and consent.

**ZOOL 606 Principles of Animal Behavior** (2) Critical review of theories of ethology, sociobiology; social and interspecific behavior, communication, and evolutionary theory. Lab optional. Pre: graduate standing.

**ZOOL 606L Principles of Animal Behavior Lab** (1) (1 3-hr Lab) Group or individual research projects depending on interest of students. Pre: 606 (or concurrent).

**ZOOL 608 Fish Behavior and Sensory Biology** (2) Lectures, readings and presentations on sensory systems and behavior of fishes. A-F only. Pre: 306, 430, 465, 606; or consent. Co-requisite: 608L. (Alt. years)

**ZOOL 608L Fish Behavior and Sensory Biology Laboratory** (1) Laboratory study of fish sensory systems and behavior. A-F only. Pre: 306, 430, 465, 606; or consent. Co-requisite: 608. (Alt. years)

**ZOOL 610 Topics in Development and Reproductive Biology** (V) Discussion and survey of literature on specific topics; some field and lab work may be required. Repeatable three times.

**ZOOL 619 Seminar on Science Teaching** (2) Effective teaching methods, organization of courses, lectures, laboratory exercises; development and evaluation of examinations; computers and audio-visual aids. Open to graduate students in various science disciplines. Repeatable one time. (Cross-listed as NSCI 619)

**ZOOL 620 Marine Ecology** (3) Principles of ecology of marine biota and environment. Pre: graduate standing in zoology, oceanography, or botany; or consent.

**ZOOL 623 Quantitative Field Ecology** (3) (1 Lec, 1 2-hr Lab, 1 Discussion) Formal quantitative approach in identifying, designing, performing, analyzing, and interpreting ecological field problems. Pre: 439, 439L, and 631; or consent. (Alt. years)

**ZOOL 631 Biometry** (4) (3 Lec, 1 2-hr Discussion) Basic statistical methods: design of studies; data exploration; probability; distributions; parametric and nonparametric one-sample, two-sample, multi-sample, regression, and correlation analyses; frequency tables. Pre: MATH 215 or 216 or 241 or 251A or NREM 203 (or equivalent), or consent.

**ZOOL 632 Advanced Biometry** (4) (3 Lec, 1 2-hr Discussion) Multivariate statistical methods: multiple regression and correlation; multiway anova; general linear models; repeated measures and multivariate anova; loglinear analysis and logistic regression. Pre: 631 or consent.

**ZOOL 642 Cellular Neurophysiology** (3) Biophysical and membrane mechanisms of conduction, synaptic transmission, and other electrical responses of nerve cells. Pre: consent. (Alt. years: spring)

**ZOOL 652 Population Biology** (3) Theory and applications of population biology; behavior of population models, as revealed by analytical methods and computer simulation; application to population problems such as endangered species; discussion of classical and current literature in population biology. Pre: one of the following: 439, 467, 620, 623, BOT 453, BOT 454, BOT 456, NREM 680, PEPS 671; or consent. (Cross-listed as BOT 652)

**ZOOL 690 Conservation Biology** (3) Theories and concepts of ecology, evolution and genetics for conservation of biological diversity. Topics will include restoration ecology, management planning, laws and policies, biological invasions. Pre: BIOL 375 and either 480 or BOT 462; and either 410, 439, 620, 623, BOT 453, 454, 456, or 492. (Cross-listed as BOT 690 and NREM 690)

**ZOOL 691 (Alpha) Seminar in Zoology** (1) Reports on research or reviews of literature. Graduate students required to take this or one topics course

(710–719) per year. (B) general zoology; (C) zoology literature; (D) animal behavior; (E) ecology; (F) animal physiology; (G) development biology; (H) marine biology. Repeatable five times.

**ZOOL 699 Directed Research** (V) Directed research and reading in various fields of zoology. Repeatable unlimited times.

**ZOOL 700 Thesis Research** (V) Repeatable unlimited times.

**ZOOL 710 Topics in Biometry** (V) Selected advanced topics in experimental design or data analysis for biologists. Repeatable unlimited times. Pre: 631 and 632, or consent.

**ZOOL 712 Topics in Nerve/Muscle Physiology** (V) Advanced treatment of selected topics under current active investigation. Repeatable unlimited times. Pre: a graduate course in physiology, neurology, or related subjects and consent.

**ZOOL 714 Topics in Animal Behavior** (V) Lecture-discussion of selected topics. Repeatable three times. Pre: consent.

**ZOOL 718 Topics in Animal Physiology** (V) Selected problems in environmental physiology, electro-physiology, or neurophysiology. Basic concepts and measurements of function at the organismic or cellular level. Repeatable three times.

**ZOOL 719 Topics in Systematics and Evolution** (V) Selected problems of current or historic interest. Repeatable three times. Pre: consent.

**ZOOL 739 Topics in Ecology** (V) Advanced topics in ecology; discussion of literature and in depth survey of specific areas. Repeatable three times up to nine credits. Pre: graduate standing and consent.

**ZOOL 750 Topics in Conservation Biology** (V) Advanced topics in conservation and environmental biology. Repeatable up to twelve credits. A-F only. Pre: consent. (Cross-listed as BOT 750)

**ZOOL 780 Foundations of Evolution and Ecology I** (4) Graduate level introduction to evolution and ecology emphasizing foundational literature, modern models and inference, and major questions in evolution and ecology. Topics include population ecology, community ecology, the genetics of populations, systematics, and speciation. ZOOL majors only (or approval). (Alt. years: fall)

**ZOOL 781 Foundations of Evolution and Ecology II** (4) Graduate level introduction to evolution and ecology emphasizing foundational literature, modern models and inference, and major questions in evolution and ecology. This is the second semester continuation of 780. ZOOL majors only (or approval). (Alt. years: spring)

**ZOOL 800 Dissertation Research** (V) Repeatable unlimited times.

# Instructional Support, Research, and Service Units

The following facilities are an integral part of UH Mānoa. Some are designed for the purpose of research, some for research and teaching, and others to provide services to UH Mānoa students, faculty, staff, or the surrounding community. Other units under the jurisdiction of a particular college/school are listed in the appropriate college/school section.

## **The Center on Aging (COA)**

BioMed T705B  
1960 East-West Road  
Honolulu, HI 96822  
Tel: (808) 956-5001

The Center on Aging (COA) was established by the UH Board of Regents in July 1988 to stimulate and coordinate gerontological activities at UH Mānoa, to establish gerontology as

an academic field at UH Mānoa, and to promote collaboration between UH and other organizations concerned with aging.

The center is involved in a number of research and training projects, including cultural variations in caregiving; help seeking; perceptions of chronic disease such as cancer, dementia, diabetes, and death and dying practices; client and caregiver satisfaction with homecare services; and coordinating specialized training and workshops in gerontology for local and international organizations.

The projects had been conducted in collaboration with a number of UH Mānoa departments including the School of Law, School of Nursing and Dental Hygiene, and the College of Social Sciences, along with community agencies such as the Executive Office on Aging, Hawaiian Islands Hospice Organization, Hawai'i Medical Services Association, and Papa Ola Lokahi among others.

## **Assessment Office**

2500 Campus Road  
Hawaii Hall 107  
Honolulu, HI 96822  
Tel: (808) 956-4283; (808) 956-6669  
Web: [manoa.hawaii.edu/assessment](http://manoa.hawaii.edu/assessment)

The Assessment Office (AO) supports quality student learning and promotes excellence in educational practices. The AO assists in planning and implementing institutional- and program-level outcome assessment. The AO provides consultation services on assessment-related issues to all academic disciplines. As the central academic assessment office on campus, the AO collaborates with the campus community to establish meaningful, manageable, and sustainable assessment.

## **Institute for Astronomy**

2680 Woodlawn Drive  
Honolulu, HI 96822  
Tel: (808) 956-8312  
Fax: (808) 988-2790  
Web: [www.ifa.hawaii.edu](http://www.ifa.hawaii.edu)

The Institute for Astronomy (IFA) has offices and laboratories in Mānoa, on Maui, and on Hawai'i island, and access to all the observatories on the summit of Mauna Kea and most of those on Haleakalā. Its faculty conducts research into galaxies, cosmology, stars, the solar system, and the sun; develops new technologies for ground-based and space-based observatories; trains new astronomers through its graduate program; teaches undergraduates; and educates the public through a variety of outreach projects.

## Cooperating Institutions

UH Mānoa extends its research capacity and service to the state through cooperative agreements and relationships with various institutions, including Bernice P. Bishop Museum, East-West Center, Hawaiian Agricultural Research Center, Honolulu Academy of Arts, National Marine Fisheries Service, National Park Service, Nature Conservancy of Hawai'i, Pacific International Center for High Technology Research, Tropical Fruit and Vegetable Research Laboratory, U.S. Fish and Wildlife Service, U.S. Geological Survey's Hawaiian Volcano Observatory, several local hospitals, and numerous state agencies.

### East-West Center

1601 East-West Road  
Honolulu, HI 96848-1601  
Tel: (808) 944-7111  
Fax: (808) 944-7376  
Email: ewcinfo@EastWestCenter.org  
Web: www.eastwestcenter.org/

The East-West Center is an education and research organization established by the U.S. Congress in 1960 to strengthen relations and understanding among the peoples and nations of Asia, the Pacific, and the U.S. The center contributes to a peaceful, prosperous, and just Asia Pacific community by serving as a vigorous hub for cooperative research, education, and dialogue on critical issues of common concern to the Asia Pacific region and the U.S. Funding for the center comes from the U.S. government, with additional support provided by private agencies, individuals, foundations, corporations, and the governments of the region.

### Diving Safety Program (SCUBA and Compressed Gas Diving)

Environmental Health and Safety Office  
2040 East-West Road  
Honolulu, HI 96822  
Tel: (808) 956-9643  
Fax: (808) 956-6952  
Email: dpence@hawaii.edu  
Web: www.hawaii.edu/ehso/diving

The UH Diving Safety Program (DSP) is vested with system-wide support and oversight authority for occupational diving activities of UH faculty, staff, students, and volunteers ensuring compliance with national standards. UH DSP is an organizational member of the American Academy of Underwater Sciences (AAUS) and adheres to the AAUS Standards for the Certification of Scientific Divers and Operation of Scientific Diving Programs. The governing body is the UH Diving Control Board. The diving safety officer is responsible for day-to-day execution of the program, with unit diving coordinators at HIMB, UH-Hilo, and UH-Maui College.

DSP provides standard scientific diver training courses on a periodic basis for UH personnel who use compressed gas diving for research or education. Advanced training in decompression techniques, mixed gas, and closed-circuit rebreathers is available as needed. A diving equipment inspection program for equipment to be used under UH jurisdiction is provided on the Mānoa and Hilo campuses. The main office at UH Mānoa also operates the Hawai'i Advanced Diving Facility.

## Environmental Health and Safety Office (EHSO)

2040 East-West Road  
Honolulu, HI 96822  
Tel: (808) 956-8660  
Fax: (808) 956-3205  
Web: www.hawaii.edu/ehso

The Environmental Health and Safety Office (EHSO) works to promote a healthy and safe campus environment through the development and administration of various health and safety programs. Please visit our website for more detailed information about the programs listed below.

**Diving Safety Program**—supports SCUBA and compressed gas diving operations in research and educational programs and ensures that they are conducted in a safe manner. Provides training courses and offers inspections for diving equipment to be used under UH jurisdiction. Compiles reports on UH scientific diver activity and investigates accidents and complaints related to UH diving.

**Environmental Protection Program**—monitors university operations for compliance with federal and state rules and regulations related to storm water management, water and air pollution.

**Fire Safety Program**—monitors campus facilities and operations for compliance with applicable fire codes. Conducts inspections, provides training and maintains campus fire suppression equipment.

**Hazardous Materials Management Program**—manages the transportation, segregation, consolidation and storage of potentially hazardous chemicals. Manages the disposal of hazardous wastes generated by university operations in accordance with federal and state rules and regulations.

**Occupational Health and Safety Program**—assesses and monitors potential workplace hazards. Conducts inspections of on and off-campus facilities, laboratories, and operations for compliance with federal and state rules and regulations related to workplace safety and health. Responds to complaints and requests for hazard evaluations.

**Radiation Safety Program**—monitors the procurement, use, storage, and disposal of radioactive isotopes and radiation sources in accordance with the university's Nuclear Regulatory Commission license.

## External Affairs and University Relations

2444 Dole Street  
Bachman 109H  
Honolulu, HI 96822  
Tel: (808) 956-8109  
Fax: (808) 956-9701  
Email: ur@hawaii.edu  
Web: www.hawaii.edu/offices/eauro

External Affairs and University Relations (EAUR) works with the UH Mānoa advancement team and other marketing and public relations staff to promote the image of and enhance support for the UH System. Four units report to the Vice President for Student Affairs and University/Community Relations: Creative Services provides editorial, photographic, and design support for print and online publications; Governmental Relations serves as the liaison to state and federal lawmakers; Collegiate Licensing oversees use of the university's names, identities, and marks; Public Relations and Special Events builds support among local, national, and international audi-

ences through news media relations, public affairs, and events. Online resources available from the EAUR home page include Newsroom, *Malamalama* magazine, the university style guide and graphics standards manual, News@UH employee newsletter, and stationery and business card procedures. Also see the UH Events Calendar at [www.hawaii.edu/calendar](http://www.hawaii.edu/calendar).

### **Office of Faculty Development and Academic Support**

Kuykendall 107  
1733 Donaghho Road  
Honolulu, HI 96822  
Tel: (808) 956-8075  
Fax: (808) 956-9535  
Web: [www.ofdas.hawaii.edu](http://www.ofdas.hawaii.edu)

The Office of Faculty Development and Academic Support (OFDAS) provides general academic support in instructional and professional development activities and services for UH Mānoa faculty and academic staff: provides leadership development workshops, seminars, and focus groups for department chairs; TA training; supports faculty evaluation and professional development plans; supports departmental instructional and faculty development projects; coordinates new faculty orientations; assists with honors ceremonies, maintains faculty development resources, and coordinates a faculty mentoring program. In addition, OFDAS provides opportunities for faculty members to participate in an array of instructional and curriculum development activities to improve teaching and learning on the Mānoa campus. All OFDAS activities and services are available to full-time tenure track, full-time non-tenure track, adjunct, and part-time faculty. OFDAS is presently organized into three functional units: the Center for Instructional Support (CIS), the Center for Teaching Excellence (CTE), and the Faculty Mentoring Program (FMP), which are actively engaged in providing support in the areas of teaching, assessment, and instructional technology. While each of the functional units have distinct foci, they work in collaboration within OFDAS to respond to faculty requests and needs.

### **Hawai'i State Center for Nursing**

1960 East-West Road  
Biomedical Building C-105  
Honolulu, HI 96822  
Tel: (808) 956-5211  
Web: [www.hawaiicenterfornursing.org](http://www.hawaiicenterfornursing.org)

The Hawai'i State Center for Nursing (HSCFN) was established by the Hawai'i State Legislature "to address nursing workforce issues" (Act 173) with the goal of assuring that the State of Hawai'i has the nursing resources necessary to meet the health care needs of its people. HSCFN is a dynamic and respected champion for the nursing profession and a source of reliable information on existing and emerging trends in nursing. Through strategic thinking, collaboration, and the pursuit of synergistic solutions, HSCFN has become a recognized leader in workforce planning, nursing research, and professional practice.

The core values of HSCFN focus upon excellence, accessibility, collaboration, innovation, education and cultural diversity. The functions of the center include:

1. Collection and analysis of data; preparation and dissemination of written reports and recommendations regarding the

current and future status and trends of the nursing workforce;

2. Conducting research on best practices and quality outcomes;
3. Developing a plan for implementing strategies to recruit and retain nurses; and
4. Researching, analysis, and reporting of data related to the retention of the nursing workforce.

### **Industrial Relations Center**

Hamilton A254A  
2550 McCarthy Mall  
Honolulu, HI 96822  
Tel: (808) 956-8132  
(808) 956-8165  
Fax: (808) 956-3609  
Email: [uhirc@hawaii.edu](mailto:uhirc@hawaii.edu)  
Web: [www.manoa.hawaii.edu/irc](http://www.manoa.hawaii.edu/irc)

The Industrial Relations Center (IRC) seeks to promote understanding of industrial relations and human resources development problems, techniques, and policies. Organized to facilitate UH Mānoa research and instruction in the disciplines and professions related to industrial relations, the IRC also serves labor, management, and the community as the link in a continuing dialogue, reporting on changes in the field. The center maintains a library for information services and current publications; provides reference service; conducts conferences, lectures, and group discussions; and assists in the training of students and practitioners in the field. Research studies in industrial relations problems are conducted and published by the IRC.

### **Information Technology Services**

Help Desk Tel: (808) 956-8883  
Help Desk Email: [help@hawaii.edu](mailto:help@hawaii.edu)  
Web: [www.hawaii.edu/infotech](http://www.hawaii.edu/infotech)

Information Technology Services (ITS) provides support for academic computing, enterprise information systems, networking, telephony, teleconferencing, web hosting, and online and distance learning technologies for UH Mānoa and the UH System. ITS' infrastructure includes central servers and services, Internet-based video and teleconferencing systems to support distance education and global collaboration, and local and statewide networks with connections to the Internet, Internet2, and other national and global research and education networks. All UH students, faculty, and staff can obtain access to the Internet and UH technology resources through their UH username, and short courses and professional development activities are available for faculty and staff. The ITS Help Desk provides a single point of contact for access to ITS services and technical support.

### **Office of International and Exchange Programs**

Queen Lili'uokalani Center for Student Services 206  
2600 Campus Road  
Honolulu, HI 96822  
Tel: (808) 956-2223  
Email: [loiskk@hawaii.edu](mailto:loiskk@hawaii.edu)  
Web: [manoa.hawaii.edu/international/](http://manoa.hawaii.edu/international/)

The Office of International and Exchange Programs (OIEP), in consultation with faculty, administrators, and the campus community, provides the international vision for the university. It does so by guiding relevant policies and expanding the

university's international presence and reputation through networking with communities at home and around the world. This office advocates, supports, and promotes international opportunities and activities both on campus and overseas. Led by the Assistant Vice Chancellor, the chief international education officer and the principal advisor to the Chancellor and Vice Chancellor on all matters pertaining to international education, OIEP is comprised of the following functional units: Faculty and Scholar Immigration Services, International Student Services, Mānoa International Exchange, National Student Exchange, and the Study Abroad Center. The OIEP serves as a catalyst for the university's international engagement, facilitating and coordinating its global activities and initiatives.

### Study Abroad Center

Moore Hall 115  
1890 East-West Road  
Honolulu, HI 96822  
Tel: (808) 956-5143  
Fax: (808) 956-9319  
Email: [uhmsac@hawaii.edu](mailto:uhmsac@hawaii.edu)  
Web: [www.studyabroad.org](http://www.studyabroad.org)

The Study Abroad Center (SAC) collaborates with various UH Mānoa academic departments to provide opportunities for students to study, and faculty members to teach and conduct research in another country. For more details, go to the Programs section in "Undergraduate Education."

### Mānoa International Exchange

Queen Lili'uokalani Center for Student Services 206  
2600 Campus Road  
Honolulu, HI 96822  
Tel: (808) 956-4728  
Fax: (808) 956-5076  
Email: [uhmix@hawaii.edu](mailto:uhmix@hawaii.edu)  
Web: [manoa.hawaii.edu/international/mix/](http://manoa.hawaii.edu/international/mix/)

UH Mānoa International Exchange (MIX) provides an opportunity for UH Mānoa students to study overseas and students from our overseas partner universities to study at Mānoa. An international exchange may be for one or two semesters; some summer exchange programs are also available.

Participating students are registered as full-time UH Mānoa students while on exchange, and pay only their normal tuition. Upon completing the exchange, students receive transfer credit based on an evaluation of the transcript provided by the host university.

### National Student Exchange

Physical Science Building 205  
2565 McCarthy Mall  
Honolulu, HI 96822  
Tel: (808) 956-6772  
Email: [sandyd@hawaii.edu](mailto:sandyd@hawaii.edu)  
Web: [www.nse.org](http://www.nse.org) and [www2.hawaii.edu/~nse](http://www2.hawaii.edu/~nse)

The National Student Exchange provides full-time undergraduates with the opportunity to study for a semester or a year at one of 175 colleges and universities located throughout the Continental U.S., Canada, Puerto Rico, Guam, and the Virgin Islands. Tuition costs for exchange students are reasonable since participants pay either UH Mānoa tuition or resident tuition at the host school. Room, board, and transportation costs are additional. For those who meet the eligibility requirements (including a minimum cumulative GPA of 2.5), exchange is an excellent way to explore different academic, social, and cultural settings.

### International Student Services

Queen Lili'uokalani Center for Student Services 206  
2600 Campus Road  
Honolulu, HI 96822  
Tel: (808) 956-8613  
Fax: (808) 956-5076  
Email: [issmanoa@hawaii.edu](mailto:issmanoa@hawaii.edu)  
Web: [www.hawaii.edu/issmanoa/](http://www.hawaii.edu/issmanoa/)

International Student Services (ISS) provides assistance to international students who come from more than 90 countries to study at UH Mānoa. ISS advises students on regulations affecting their non-immigrant visa status in the U.S., provides opportunities to help students adjust to local and U.S. cultures, advocates for international students, and serves as a resource for the university and local communities. ISS is responsible for meeting international student federal compliance and serves as the liaison between UH Mānoa and federal agencies regarding student immigration matters.

### Faculty and Scholar Immigration Services

Physical Science Building 102-106  
2565 McCarthy Mall  
Honolulu, HI 96822  
Tel: (808) 956-0935  
Fax: (808) 956-5030  
Email: [fsis@hawaii.edu](mailto:fsis@hawaii.edu)  
Web: [www.hawaii.edu/fsis/](http://www.hawaii.edu/fsis/)

The Office of Faculty and Scholar Immigration Services (FSIS) provides UH System-wide immigration and support services for international employees and administers the Exchange Visitor Program for all J-1 categories, except for UH Mānoa students. FSIS serves as a central resource for advising, assisting, and disseminating immigration information to international employees and scholars. It maintains a central immigration database of UH-sponsored international faculty, researchers, professional/technical staff, and scholars, from which it gener-

ates internal and external reports. FSIS reviews and updates UH immigration policies and procedures and serves as a liaison between UH and federal agencies on immigration matters.

### **Institutional Research Office**

2500 Campus Road  
Hawai'i Hall 107  
Honolulu, HI 96822  
Tel: (808) 956-5366  
Fax: (808) 956-7115  
Email: [miro@hawaii.edu](mailto:miro@hawaii.edu)  
Web: [www.manoa.hawaii.edu/ovcaa/mir/](http://www.manoa.hawaii.edu/ovcaa/mir/)

The mission of the Mānoa Institutional Research Office is to enhance institutional effectiveness by: collecting, analyzing, and reporting information for institutional strategic planning, assessment, program review, policy formulation, and decision making for both academic and administrative functions; coordinating responses to inquiries for university-related information; and serving as a comprehensive source for information about the institution.

### **Harold L. Lyon Arboretum**

3860 Mānoa Road  
Honolulu, HI 96822  
Tel: (808) 988-0456  
Fax: (808) 988-0462  
Web: [www.hawaii.edu/lyonarboretum/](http://www.hawaii.edu/lyonarboretum/)

The Harold L. Lyon Arboretum facilitates and conducts research, instruction, and public service in tropical biology and horticulture. Located on a 194-acre site in upper Mānoa valley are greenhouses, laboratories, classrooms, and an herbarium. The arboretum also houses living plant collections, comprising about 15,000 accessions that encompass more than 6,000 species, varieties, and cultivars. It is the only university arboretum in the U.S. located in a tropical rainforest, and it has one of the largest collections of palms of any botanical garden in the world. Other major collections include tropical trees, heliconias, gingers, aroids, and ti. Emphasis is increasingly placed on native Hawaiian plants, including research on propagation and restoration of endangered species, on restoration of Hawaiian ecosystems, and on ethnobotany of the Hawaiian Islands.

### **Spark Matsunaga Institute for Peace and Conflict Resolution**

Saunders Hall 523 and 723  
2424 Maile Way  
Honolulu, HI 96822  
Tel: (808) 956-6433  
MIPCR Fax: (808) 956-9121  
Email: [uhip@hawaii.edu](mailto:uhip@hawaii.edu)  
Web: [www.peaceinstitute.hawaii.edu](http://www.peaceinstitute.hawaii.edu)

The Institute for Peace was established in 1986 and renamed in 1990, to honor former U.S. Senator Spark Matsunaga, a leader in the movement to promote peace studies. The institute is a multi-disciplinary academic community of scholars, students, practitioners, and visitors who seek through teaching, research, service, and application to: educate and train professionals and future leaders in applied peacemaking and conflict

resolution; develop and apply innovations to the peaceful resolution of conflicts, locally, regionally, and globally; and renew UH Mānoa's commitment to providing a safe sanctuary for civil and respectful exchange of perspectives and ideas.

The institute offers courses in peace studies and conflict resolution and coordinates three academic programs. Undergraduates can obtain an interdisciplinary BA in peace studies and/or conflict resolution, or an undergraduate Certificate in Peace Studies, equivalent to a minor. Graduate students can obtain the Graduate Certificate in Conflict Resolution, which is available to students studying only for the certificate and also to students who are pursuing another graduate degree and wish to obtain an additional qualification in conflict resolution.

The institute also conducts research and organizes public forums and conferences on topics relevant to peace and conflict studies and human rights. Recent forums include: *Is Climate Change a Threat to World Peace?*; *Torture, National Security and Accountability*; *Making Agent Orange History*; *Peacemaking and The Rights of Children*; *Nuclear Weapons: Is Abolition Possible?*; *China's Burgeoning Internet*; and *Hong Kong and China: Successful Autonomy?* (See [www.peaceinstitute.hawaii.edu/events/index.cfm](http://www.peaceinstitute.hawaii.edu/events/index.cfm)) The institute also cooperates with other departments and community groups to organize international conferences, including the annual *International Forum on The Rights of Persons with Disabilities* (organized every spring with UH Mānoa's Center on Disability Studies) and the *First Global Nonkilling Leadership Forum*, which included Nobel Peace Laureate Mairead Corrigan Maguire. The institute also coordinates UH's Alternative Dispute Resolution (UH-ADR) program, which provides facilitation, mediation, and deliberative dialogues and training for clients in the UH System and the broader community. The institute's programs are diverse but united by a common goal: to encourage students, faculty, and the community to strengthen their theoretical understanding and practical skills in the fields of peace studies, human rights, mediation, and collaborative problem solving. Building on Hawai'i's cultural heritage and values, the institute seeks to promote cross-cultural communication and peacemaking leadership.

### **Pacific Biosciences Research Center**

Pacific Biosciences Research Center 215  
1993 East-West Road  
Honolulu, HI 96822  
Tel: (808) 956-7401  
Fax: (808) 956-4768  
Web: [www.pbrc.hawaii.edu](http://www.pbrc.hawaii.edu)

The Pacific Biosciences Research Center (PBRC) is an organized research unit that supports interdisciplinary biological/biomedical research and training in basic and applied areas with particular relevance to Hawai'i. Current research is focused on cellular, developmental and molecular biology, Hawaiian evolutionary biology and conservation, and neuro-behavioral biology; the unit has implemented plans for a more cohesive focus on biodiversity. PBRC maintains core research support facilities in molecular biology (supporting genomics and bioinformatics) and in confocal and electron microscopy that serve the entire UH Mānoa campus and the state. PBRC fosters undergraduate and graduate research training through multiple programs funded by the National Science Foundation—Undergraduate Research and Mentoring in the Biological Sciences, ATE Partnership for Advanced Marine and Environmental Science Training for Pacific Islands, International Research Experiences for Students (IRES) and the graduate IGERT Integrative Training in Ecology, Conservation, and Pathogen Biology—and through the Minority Access to Research Careers (MARC U\*STAR) honors undergraduate program funded by the National Institutes of Health. PBRC administers the Békésy Laboratory of Neurobiology and the Center for Conservation and Research Training on the UH Mānoa campus and the Kewalo Marine Laboratory off-campus. PBRC has served as an incubator for developing new research initiatives and units, having supported the development of the 2-year medical school in the 1960s, the Cancer Research Center in the 1980s, and a number of clinical and human-health related programs transferred to the John A. Burns School of Medicine in 2003-2004.

### **Office of Research Compliance**

Biomedical Sciences Building T111  
1960 East-West Road  
Honolulu, HI 96822  
Tel: (808) 956-9004  
Fax: (808) 956-3535  
Web: [manoa.hawaii.edu/ovcr/research](http://manoa.hawaii.edu/ovcr/research)

The Office of Research Compliance at UH Mānoa enhances research excellence for the UH System through four programs:

1. The **Animal and Veterinary Services Program (AVSP)** oversees the health and well-being of all vertebrate animals used in research, testing, and teaching system-wide. The University Veterinarian is the primary clinical care provider for these animals. AVSP operates two vivaria for which they procure, house, and care for research animals on a fee-for-service basis. For more information on AVSP, please visit our website at [www.hawaii.edu/LAS](http://www.hawaii.edu/LAS).
2. The **Animal Welfare and Biosafety Program (AWBP)** advises, educates, and certifies personnel in best practices for biosafety and for the proper care and use of animals in research, testing, and teaching.

AWBP helps protect personnel, the environment, and the public from exposure to biological agents (including select agents and toxins), microorganisms, and recombinant genet-

ic materials. AWBP administers the Institutional Biosafety Committee (IBC), which reviews, approves, and monitors researcher adherence to research and teaching protocols that involve potentially infectious agents.

AWBP administers the Institutional Animal Care and Use Committee (IACUC), which reviews, approves, and monitors laboratory and field research protocols and instructional activities involving vertebrate animals to help ensure they are used ethically and humanely.

3. The **Human Studies Program (HSP)** helps protect the welfare, rights, and dignity of human participants in research. The HSP administers the Institutional Review Boards (IRBs) that evaluate, approve, and monitor new and continuing research protocols involving human research participants, while providing training and counsel for investigators involved in research on humans.
4. The **Research Integrity Program (RIP)**, along with the UH Ethics Committee, addresses allegations of research and scholarly misconduct and whistleblower retaliation, and provides education in the responsible conduct of research.

### **Social Science Research Institute**

Saunders Hall 704  
2424 Maile Way  
Honolulu, HI 96822  
Tel: (808) 956-8930  
Fax: (808) 956-2884  
Email: [ssri@hawaii.edu](mailto:ssri@hawaii.edu)  
Web: [www.ssri.hawaii.edu](http://www.ssri.hawaii.edu)

The Social Science Research Institute (SSRI) serves as the sponsored research division of the College of Social Sciences. SSRI facilitates and supports interdisciplinary, applied research that addresses critical social, behavioral, environmental, and economic issues in Hawai'i and the Asia-Pacific region. This is done through collaboration with faculty and students throughout the UH and with other educational and research institutions, regional and international organizations, the private sector, federal, state, and county agencies. It is supported largely by contracts and grants from public agencies and private organizations.

The institute currently focuses on these areas: crime, drug abuse, youth problems, resources and sustainable development; telecommunication and information policy; culture, language, and social problems; adult mental health services; health services and health policy. SSRI also cooperatively manages the University of Hawai'i Economic Research Organization (UHERO), the Office for Evaluation and Needs Assessment Services, and the Mental Health Transformation-State Incentive Grant project (MHT-SIG).

### **University of Hawai'i Cancer Center**

701 Ilalo Street  
Honolulu, HI 96813  
Tel: (808) 586-3010  
Fax: (808) 586-3009  
Web: [www.uhcancercenter.org](http://www.uhcancercenter.org)

The University of Hawai'i Cancer Center is a free-standing organized research unit of UH Mānoa focusing on cancer research. Its faculty members are comprised of scientists and clinicians from various disciplines reflecting the broad research interests of the center. The UH Cancer Center is a National Cancer Institute (NCI)-designated consortium cancer center,

a prestigious designation granted only to the most eminent and successful cancer centers in the nation after a rigorous peer review. This designation comes with a Cancer Center Support Grant, which provides funding for various research core facilities such as Analytical Biochemistry, Animal Carcinogenesis, Biostatistics and Informatics, Genomics, Metabolomics, Microscopy and Imaging, Nutrition Support, and Pathology. The UH Cancer Center also operates the Hawai'i Tumor Registry and the Clinical and Translational Research Services resource, which provides access to clinical trials for cancer patients in Hawai'i.

UH Cancer Center faculty are engaged in all aspects of cancer research, from epidemiology and prevention to treatment, continuing care, and quality of life, and generate over \$33 million in extramural research support annually. In addition to conducting fundamental research in cancer biology, the UH Cancer Center also provides training opportunities for undergraduates and MS, MD, MPH, and PhD students enrolled in academic disciplines closely aligned with the faculty's research interests.

The UH Cancer Center's research activities are organized into four programs. They are: (1) cancer epidemiology, which is comprised of researchers in the fields of epidemiology, nutrition, molecular genetics, and biostatistics who are studying lifestyle factors and genetic and hormonal causes of cancer; (2) cancer prevention and control, which designs, develops, implements, and evaluates behavioral and community interventions to reduce cancer incidence, morbidity, and mortality, and to improve the quality of life of cancer patients; (3) cancer biology, which is a multi-disciplinary research program that studies cancer mechanisms including novel insights of cancer development, progression, and invasion and more effective preventive, early detection, and therapeutic interventions; and (4) natural products and experimental therapeutics, which investigates anticancer targets and pathways of clinical and therapeutic significance, explores and develops natural products and synthetic small molecule products to treat cancer, and designs, pursues, and analyzes innovative clinical trials.

### **University of Hawai'i Press**

2840 Kolowalu Street  
Honolulu, HI 96822  
Tel: (808) 956-8257  
Fax: (808) 988-6052  
Web: [www.uhpress.hawaii.edu](http://www.uhpress.hawaii.edu)

University of Hawai'i Press (UH Press) publishes and distributes books and journals of high merit that reflect the regional or special interests and responsibilities of UH and other scholarly research organizations. All titles carry the imprint "University of Hawai'i Press." UH Press is a member of the Association of American University Presses, Association of American Publishers, Society for Scholarly Publishing, Hawai'i Book Publishers Association, and the International Association of Scholarly Publishers. UH Press publishes books of regional interest, scholarly monographs, textbooks, and scholarly journals. (UH Press also operates a sales program—East-West Export Books—in Asia and the Pacific on behalf of American scholarly publishers.) Editorial control (final approval of manuscripts) is vested in a board made up of UH faculty members appointed by the Vice Chancellor for Academic Affairs. Faculty members are encour-

aged to submit book-length manuscripts to the executive editor. Journal papers should be submitted to the editor-in-chief of the appropriate journal.

### **University of Hawai'i Translational Health Science Simulation Center (UH THSSC)**

2528 McCarthy Mall  
Webster Hall  
Honolulu, HI 96822  
Tel: (808) 956-7466  
E-mail: [thssc@hawaii.edu](mailto:thssc@hawaii.edu)  
Web: [thssc.nursing.hawaii.edu/](http://thssc.nursing.hawaii.edu/)

The UH Translational Health Science Simulation Center's (UH THSSC) mission is to improve patient outcomes by providing effective programs which promote and enhance safe, quality healthcare through clinical competence, teamwork, trans-disciplinary collaboration, and translational research. The 8,000 square foot center integrates state-of-the-art simulation equipment, electronic patient records, and advanced audio-video systems to support education and research for Hawai'i's health care professionals.

Simulated patient care environments provide controlled instructional settings for professionals to practice clinical skills in a safe learning environment without impacting real patient outcomes. Designated physiological laboratories equipped with technologic resources support interdisciplinary biomedical and behavioral research. UH THSSC provides novice through expert nurses, nurse researchers, and members of the health care team a venue to continually advance skills and innovate new knowledge to provide safe, quality healthcare for the people of Hawai'i.

### **Waikiki Aquarium**

2777 Kalākaua Avenue  
Honolulu, HI 96815  
Tel: (808) 923-9741  
Fax: (808) 923-1771  
Email: [info@waquarium.org](mailto:info@waquarium.org)  
Web: [www.waikikiaquarium.org](http://www.waikikiaquarium.org)

The Waikiki Aquarium is 110 years old and the second oldest aquarium in the U.S. Part of the university since 1919, it is the State Aquarium of Hawai'i and gave rise to the Hawai'i Institute of Marine Biology and the Pacific Biomedical Research Center. Focusing on South Pacific marine life, it houses over 2,500 specimens representing over 400 vertebrate and invertebrate species, including many that can be seen here and at no other aquarium worldwide. It is internationally renowned for the ecological accuracy of its award winning exhibits, and for its coral propagation and education programs: it houses probably the most diverse living coral collection of any aquarium in the northern hemisphere. Research activities include propagation of rare and endangered Hawaiian corals, Hawaiian monk seal biology, green sea turtle growth rates, studies of the threatened inarticulate brachiopod, and various aquaculture and husbandry-related projects, such as giant clam and jellyfish husbandry, and production of planktonic algae, and rotifer and other microcrustacean live feeds. The exhibits feature up-close experiences at the "Edge of the Reef" outdoor exhibit, educational presentations about the Hawaiian monk seal, and other interpretive activities. An audio tour provides additional information about exhibits. The Aquarium also offers a diverse array

of marine education programs, with classes, workshops and schools tours. The Aquarium is open daily to the public from 9:00 am, last entry at 4:30 pm, and closes at 5:00 pm. Please check the website for special hours.

### **Water Resources Research Center**

Holmes 283  
2540 Dole Street  
Honolulu, HI 96822  
Tel: (808) 956-7847  
Fax: (808) 956-5044  
Web: [www.wrrc.hawaii.edu](http://www.wrrc.hawaii.edu)

Water Resources Research Center (WRRC) conducts research on Hawai'i's water resources, assists and promotes instruction in water resources in several academic departments, provides training opportunities for engineers and scientists through research, and communicates research results to users. Interdisciplinary research is broadly based in physical and

biological sciences, technology, ecology, and social sciences. The research encompasses hydrology and hydraulic engineering, geology, geophysics and geochemistry, microbiology, chemistry, zoology, oceanography, sanitary engineering and public health, climatology and soil physics, agricultural engineering and forestry, and socioeconomic and legal issues. WRRC operates laboratories and field research facilities. The Environmental Center, whose mission focuses on ecological relationships, natural resources, and environmental quality, is administered by WRRC.

MAGNUSSON, A. Roy, Associate Dean for Clinical Affairs

\*HARRIGAN, Rosanne, Director of Faculty Development

\*SAKAI, Damon, Director of Medical Education

SMERZ, Richard, Director of Student Affairs

\*BURGESS, Lawrence P. A., Director of Telehealth Research Institute

FOSTER, Nancy K., Chief Financial Officer

SEYMOUR, Corrine M., Director of Fiscal and Administrative Services

## Nursing and Dental Hygiene

\*BOLAND, Mary G., Dean

\*ZIEHM, Scott R., Associate Dean for Academic Affairs

## Ocean and Earth Science and Technology

\*TAYLOR, Brian, Dean

\*FLETCHER, Charles, Associate Dean for Academic Affairs

SHOR, Alexander N., Associate Dean for Research

ANDAYA, Juanita C., Director of Administrative Services; BBA 1993, Washington State; MBA 2004, Hawai'i

OSTRANDER, Christopher, Assistant Dean, Director of Strategic Initiatives and External Relations

GRABOWSKI, Marcie, Outreach Specialist; BA 2001, Missouri; MS 2005, Hawai'i

ANTHONY, Leona M., Director of Student Services; BA 1986, Hawai'i

## Outreach College

\*CHISMAR, William G., Interim Dean

\*ABE, Harriet, Interim Associate Dean

## Pacific and Asian Studies

\*SUTTON, R. Anderson, Dean

\*WESLEY-SMITH, Terence, Director and Chair, Pacific Islands Studies

\*AUNG-THWIN, Michael, Chair, Asian Studies

## Social Work

\*MOKUAU, Noreen, Dean

## Travel Industry Management

FITZGERALD, Deborah, Director of Internship and Career Development

RAQUENO, Cathryn S. I., Director of Student Services

SOMA, Rachel, Director of Professional Development Program

## Tropical Agriculture and Human Resources

\*GALLO, Maria, Dean and Director

\*KINOSHITA, Charles M., Associate Dean of Academic and Student Affairs

\*GRACE, J. Kenneth, Interim Associate Dean and Associate Director of Research

\*EVENSEN, Carl I., Interim Associate Dean and Associate Director for Cooperative Extension

HAKODA, Miles M., Director of Communication Services; BFA 1979, Hawai'i

LIM, Thomas, Director of Planning and Management Systems; BA 1978, New York U; MArch 1993, Hawai'i

MORITA, Janis, Director of Administrative Services; BA 1986, Hawai'i; MBA 1990, Chaminade

# Faculty

## Endowed Chairs and Distinguished Professorships

Accuity, LLP Accounting Faculty Fellowship in the Shidler College of Business, funded by Accuity, LLP.

American Lung Association of Hawai'i and Leahi Fund Chair in Respiratory Health in JABSOM, funded by the American Lung Association of Hawai'i and the Leahi Fund through the Hawai'i Community Foundation.

American Lung Association of Hawai'i Endowed Chair in Neonatal Respiratory Health in JABSOM, funded by the American Lung Association of Hawai'i.

Arthur Lynn Andrews Visiting Professor of Asian and Pacific Studies in SPAS, established by the will of Harriet Cousens Andrews.

Victor and Peggy Brandstrom Pavel Endowed Chair

Gladys Kamakakūokalani 'Ainoa Brandt Endowed Chair in SHK, funded by the estate of Gladys 'Ainoa Brandt.

Dr. Edwin C. Cadman Endowed Professorship for the Study of Neurodegenerative Disorders funded by the Cadman endowment fund of the UH Foundation.

Carlsmith Ball Faculty Scholar, funded by Carlsmith Ball LLP of Honolulu.

Barbara Cox Anthony Chair in Aging in the Center on Aging, funded by an anonymous donor.

Dai Ho Chun Chair in the Colleges of Arts and Sciences, funded by the will of Dai Ho Chun.

Dai Ho Chun Distinguished Chair in Educational Leadership in the College of Education, funded by the late Dai Ho Chun.

The Citizens' Chair in English Literature in LLL, funded by the Hawai'i State Legislature.

Coral Industries Professorship in Renewable Energy Resources in HNEI, funded by Coral Petroleum, Inc.

Donald A. Corbin Distinguished Professorship in Accounting in the Shidler College of Business, funded by Donald and Martha Corbin and other individuals, corporations, and foundations.

John and Sue Dean Distinguished Professorship in the Shidler College of Business, funded by John and Sue Dean.

Judith Pyle Dean's Chair in the Hawai'i inuiākea School of Hawaiian Knowledge.

The Endowed Director of the Center for Cardiovascular Research in JABSOM, funded by an anonymous donor.

First Hawaiian Bank Endowment Fund for the Distinguished Professor of Management and Leadership.

First Insurance Company Distinguished Professorship in the Shidler College of Business, funded by First Insurance Company of Hawai'i Charitable Foundation.

Lloyd Fujie and Deloitte Foundation Distinguished Accounting Professorship in the Shidler College of Business, funded by Deloitte & Touche, LLP; the Deloitte Foundation.

Wallace S. Fujiyama Visiting Professorship of Law, funded by Duty Free Shoppers Group, Ltd.

Hawai'i Medical Service Association Chair for Health Care Services Quality Research in JABSOM, funded by the Hawai'i Medical Services Association.

Sidney and Erica Hsiao Endowed Chair in College of Natural Sciences, funded by the Sidney and Erica Hsiao Trust.

Dan and Maggie Inouye Distinguished Chair in Democratic Ideals in Law and College of Arts and Humanities, funded by the Inouye endowment fund of the University of Hawai'i Foundation.

George M. Johnson Visiting Professorship in Law, funded by the will of Evelyn W. Johnson.

William R. Johnson, Jr. Distinguished Professorship in the Shidler College of Business, funded by William R. Johnson, Jr.

W. Ruel Johnson Distinguished Professorship in the Shidler College of Business, funded by William R. Johnson, Jr.

Fred T. Korematsu Professor of Law and Social Justice, funded primarily by Minie Kosasa.

Benjamin A. Kudo Chair of Law in Law, funded by an anonymous donor.

K. J. Luke Chair of International Finance and Banking in the Shidler College of Business, funded by K. J. Luke.

Gordon A. Macdonald Chair in Volcanology in SOEST, funded by the Hawai'i State Legislature.

Michael J. Marks Distinguished Professor in Business Law, funded primarily by The Michael J. Marks Foundation.

Matson Navigation Company Chair of Global Business Education in the Shidler College of Business, funded by Matson Navigation Company.

Frances A. Matsuda Chair in Women's Health in Nursing, funded by Frances A. Matsuda Sano.

Harold and Sandy Noborikawa Chair of Entrepreneurship, Marketing, and Information Technology in the Shidler College of Business, funded by Harold and Sandy Noborikawa.

Yehan Numata Chair in Buddhist Studies in SPAS, funded by Yehan Numata.

Jean E. Rolles Distinguished Professorship in the Shidler College of Business, funded by Jean E. Rolles.

Soshitsu Sen Director of the Center for Japanese Studies in SPAS, funded by Soshitsu Sen XV.

Soshitsu Sen XV Professor of Traditional Japanese Culture and History in College of Arts and Humanities, funded by Soshitsu Sen XV.

Shidler College Distinguished Professors in the Shidler College of Business, funded by Jay Shidler.

The J and M Sullivan Endowed Cancer Chair in UHCC, funded by Joanna and Maurice Sullivan.

Myron "Pinky" Thompson Endowed Chair in JABSOM's Native Hawaiian Center of Excellence, funded by the National Institutes of Health.

## Key to Abbreviations

CCR—Center for Cardiovascular Research  
 CRDG—Curriculum Research & Development Group  
 CTAHR—College of Tropical Agriculture and Human Resources  
 HCAC—Hawai'i Center for Advanced Communications  
 HIGP—Hawai'i Institute of Geophysics and Planetology  
 HIMB—Hawai'i Institute of Marine Biology  
 HNEI—Hawai'i Natural Energy Institute  
 HSFL—Hawai'i Space Flight Laboratory  
 HSGCP—Hawai'i Space Grant College Program  
 HURL—Hawai'i Undersea Research Lab  
 IRC—Industrial Relations Center  
 IFA—Institute for Astronomy  
 IPRC—International Pacific Research Center  
 IRTF—Infrared Telescope Facility  
 JABSOM—John A. Burns School of Medicine  
 JIMAR—Joint Institute for Marine and Atmospheric Research  
 OFDAS—Office of Faculty Development and Academic Support  
 PBRC—Pacific Biosciences Research Center  
 PMP—Pacific Mapping Program  
 SGCP—Sea Grant College Program  
 SHK—Hawai'i inuiākea School of Hawaiian Knowledge  
 SOEST—School of Ocean and Earth Science and Technology  
 SSRI—Social Science Research Institute  
 UHCC—University of Hawai'i Cancer Center  
 WRRC—Water Resources Research Center

Henry A. Walker, Jr., Distinguished Professor of Business Enterprise in the Shidler College of Business, funded by the Amfac Foundation.

Barry and Virginia Weinman Dean's Chair in JABSOM, funded by Barry and Virginia Weinman.

Gerrit Parmile Wilder Chair in Botany in College of Natural Science, established by the will of Lillian Kimball Wilder.

Bob Y. K. Wong Visiting Professor of Civil and Environmental Engineering in Engineering, funded by the late Bob Y. K. Wong.

Dr. Alfred A. Yee Visiting Professorship in Civil and Environmental Engineering in the College of Engineering, funded by an anonymous donor.

## A

AARONOFF, Michael C., Assistant Professor of Obstetrics and Gynecology; BA 1990, Johns Hopkins; MD 1994, Emory

ABARA, Denise, Assistant Specialist in Education; BA 1998, MA 2000, Hawai'i

ABE, Harriet Y., Interim Associate Dean of Outreach College; BBA 1989, Hawai'i; MBA 1990, Minnesota-Twin Cities

ABINALES, Patricia, Professor of Asian Studies; BA 1978, U of the Philippines; MA 1991, PhD 1997, Cornell

ACOPA, Jared D., Assistant Clinical Professor of UHCC and JABSOM; BA 1996, UC Berkeley; MD 2001, Hawai'i

ADAMS, Patricia Gaither, Professor of Dance; BFA 1976, Arizona State; MFA 1979, Utah

ADAMSON, James Paul, Librarian V in Library Services; BS 1987, Alaska; MLIS 1988, Hawai'i

ADY, Jeffrey C., Associate Professor of Public Administration; BA 1985, MA 1987, Washington State; PhD 1992, Kansas; Presidential Citation for Meritorious Teaching, 1996

AEBY, Greta S., Assistant Researcher in HIMB; BS 1981, New Mexico; PhD 1998, Hawai'i

AEBY, Tod C., Associate Professor of Obstetrics and Gynecology; BS 1978, MD 1985, New Mexico; MEd 2013, Hawai'i; Regents' Medal for Excellence in Teaching, 2012

AGBAYANI, Amefil, Director of Student Equity, Excellence and Diversity and Associate Specialist in Student Affairs; BA 1962, U of Philippines; MA 1966, PhD 1969, Hawai'i

AGCAOILI, Aurelio S., Associate Professor of Ilokano; BA 1981, PHB 1982, U of Santo Tomas; MBA 1986, U of the East (Philippines); MA 1991, PhD 1996, U of the Philippines

AGGARWAL, Lovedhi, Assistant Professor of Family Medicine; MD 2004, Sri Guru Ram Dass Institute (India)

AHMED, Iqbal, Professor of Psychiatry; BS 1969, MB 1974, India

AH SAM, Anna, Associate Specialist in Student Equity, Excellence and Diversity; BS 1989, Iowa State; MPH 1990, Tulane; PhD 2005, Hawai'i

AHSAN, Samina, Assistant Professor of Geriatric Medicine; HSC 1982, MBBS 1989, Pakistan

AI, Jing, Assistant Professor of Finance, Risk Management and Insurance; BS 2003, Tsinghua U; MS 2006, PhD 2008, Texas-Austin

AIKAU, Hokulani, Associate Professor of Political Science; BS 1995, Utah; MA 1996, Memphis; PhD 2005, Minnesota

AIONA, Cherrie N., Junior Specialist, BA 1988, Hawai'i; MEd 2000, MEd 2003, U of Phoenix

AKAMINE, Ann K., Instructor in Dental Hygiene; BED 1975, Diploma 1977, Hawai'i

AKIONA, Randall, Assistant Professor of Architecture; BS 1970, Cornell; MS 1971, Stanford

AKO, Harry, Chair and Professor of and Researcher in Molecular Biosciences and Bioengineering, CTAHR; AB 1967, UC Berkeley; PhD 1973, Washington State

AKUTAGAWA, Malia, Assistant Professor of Law; BA 1993, Whitworth; JD 1997, Hawai'i

ALAM, Maqsumul, Professor of Microbiology; PhD 1982, Moscow State U (Russia); PhD 1987, Max-Planck-Institute (Germany); Regents' Medal for Excellence in Research, 2001

ALARCON, Vernadeth B., Assistant Professor of Anatomy, Biochemistry and Physiology; BS 1986, BA 1988, Wilfrid Laurier U; MS 1992, PhD 2000, Toronto

ALBERTINI, Tamara, Associate Professor of Philosophy; LicPhil 1984, Basel (Switzerland); DPhil 1991, Munich

ALBRIGHT, Cheryl L., Associate Professor of Nursing, BA 1972, Texas-Austin; BS 1977, U of Houston; MPH 1986, UC Berkeley; PhD 1983, U of Houston

ALDEN, Dana L., Professor of Marketing; BA 1973, UC Berkeley; MA 1977, UC Santa Barbara; MBA 1984, Hawai'i; PhD 1990, Texas-Austin

ALEGADO, Rosanna, Assistant Researcher in Oceanography and SGCP; SB 2000, MIT; PhD 2007, Stanford

ALLDAY, Christopher J., Professor of Mathematics; BA 1965, MA 1969, Christ's College, Cambridge (UK); PhD 1970, UC Berkeley

ALLEN, Chizuko T., Associate Specialist in SPAS Fellowships and Institutional Research; BA 1979, Tokyo; MA 1981, PhD 1988, Hawai'i

ALLEN, John S., Associate Professor of Mechanical Engineering; AB 1998, Princeton; MS 1992, Florida State; PhD 1997, Washington

ALLEN, Raymond W., International Student Advisor in International Student Services and Associate Specialist in International and Exchange Programs; BA 1966, UC Berkeley; MA 1972, PhD 1985, Claremont Graduate School

ALLSOPP, Richard, Associate Professor of Anatomy, Biochemistry and Physiology; BS 1990, U of Waterloo (Canada); PhD 1996, McMaster U (Canada)

ALVAREZ, Anne M., Professor of and Researcher in Plant and Environmental Protection Sciences, CTAHR; BS 1963, Stanford; MS 1966, PhD 1972, UC Berkeley

ALZAMORA, Solange, Instructor in Nursing; BSN 2001, Stevenson U; MS 2011, Hawai'i

AMBROZICH, Kari, Junior Specialist in Student Athlete Academic Services; BBA 1996, MEd 2008, Hawai'i

AMEND, Anthony S., Assistant Professor of Botany; BA 1999, Cornell; PhD 2008, Hawai'i

AMES, Roger T., Professor of Philosophy; BA 1970, MA 1973, British Columbia; PhD 1978, London; Fujio Matsuda Scholar, 1986; Regents' Medal for Excellence in Teaching, 1990; Regents' Medal for Excellence in Research, 2012

ANDAYA, Barbara Watson, Professor of Asian Studies; BA 1962, Sydney; MA 1968, Hawai'i; PhD 1975, Cornell; Regents' Medal for Excellence in Research, 2010

ANDAYA, Leonard Y., Professor of History; BA 1965, Yale; MA 1969, PhD 1971, Cornell

ANDERSON, Amy C., Associate Professor of Architecture; BA 1973, Wellesley; March 1978, Columbia

ANDERSON, Kristen L., Librarian V in Library Services; BS 1983, Montana; MLIS 1990, MPH 1996, Hawai'i

ANDERSON, Victoria B., Associate Professor of Linguistics; AB 1983, UC Berkeley; MA 1993, PhD 2000, UCLA

ANDERSON TAGARINO, Kelley, Junior Extension Agent in SGCP; BS 2006, Florida; MS 2008, South Florida

ANDRADE, Carlos L., Director and Associate Professor of Hawaiian Studies; BA 1989, UH Hilo; MEd 1993, PhD 2001, Hawai'i

ANDRADE, Maile, Associate Professor of Hawaiian Studies; BA 1989, UH Hilo; MFA 1993, Hawai'i

ANDRADE, Naleen N., Professor of Psychiatry; BA 1976, MD 1982, Hawai'i

ANDRES, Maria-Louisa A., Assistant Researcher in PBRC; BA 1991, Mills College; PhD 1998, Hawai'i

ANDREWS, Lewis, Associate Professor of Art; BA 1968, UC Berkeley; MFA 1973, San Francisco Art Institute; MA 1981, MPhil 1983, PhD 1988, Columbia

ANDREWS, Lilinoc, Assistant Specialist in School of Hawaiian Knowledge; BA 1986, MEd 1991, Hawai'i

ANDROFF, Jason T., Assistant Professor of Military Science; BA 2000, Wabash College

ANGELO, Michael S., Junior Research in HNEI; BS 2004, Delaware; MS 2013, Hawai'i

ANTAL, Michael J., Jr., Coral Industries Professor of Renewable Energy Resources in HNEI; AB 1969, Dartmouth; MS 1970, PhD 1973, Harvard

ANTOLINI, Denise E., Associate Dean for Academic Affairs and Professor of Law; AB 1982, Princeton; MPP 1985, JD 1986, UC Berkeley; Regents' Medal for Excellence in Teaching, 2006

ANTONELLI, Mary Ann, Professor of Medicine; BS 1966, Fordham U; MD 1970, SUNY-Syracuse

AOUDE, Ibrahim G., Professor of Ethnic Studies; BBA 1974, Hawai'i; MBA 1976, Cal State Los Angeles; PhD 1980, Hawai'i

APAU, Noelani, Assistant Professor of Complementary and Alternative Medicine; AB 1974, UC Berkeley; MD 1980, MS 2005, Hawai'i

APPLE, Tom, Chancellor and Professor of Anatomy, Biochemistry and Physiology; BS 1976, Pennsylvania State; PhD 1982, Delaware

APUZEN-ITO, Garrett T., Associate Professor of Geology and Geophysics; BA 1989, Colorado College; PhD 1996, MIT/WHOI

ARAKAKI, Alton S., Assistant Extension Agent in Tropical Plant and Soil Sciences, CTAHR; BS 1976, Hawai'i

ARAKAKI, Richard F., Professor of Medicine; BS 1976, MS 1979, Hawai'i; MD 1982, Hawai'i

ARANDA, Lucia V., Director of Center for Interpretation and Translation Studies and Associate Professor of Spanish; BA 1980, MA 1985, PhD 1990, Universidad Complutense de Madrid; Frances Davis Award for Excellence in Undergraduate Teaching, 2010

ARBOLEDA, Pia Crisostomo, Assistant Professor of Filipino; BS 1987, MA 1995, PhD 2004, De La Salle U (Philippines)

ARCHILLA, Adrian (Ricardo), Associate Professor of Civil and Environmental Engineering; BS 1989, UNSJ (Argentina); MSc 1993, Calgary (Canada); PhD 2000, UC Berkeley

ARINCORYAN, Naomi, Junior Specialist in Student Affairs, BA 1996, MSW 2000, Hawai'i

ARISTA, Noelani M., Assistant Professor of History; BA, 1996, MA 1998, Hawai'i; PhD 2009, Brandeis

ARMITAGE, James Kimo, Assistant Professor of Hawaiian Studies; MA 2007, PhD 2010, Hawai'i

ARNADE, Peter, Dean of College of Arts and Humanities; BA 1984, New College; MA 1987, New York U; PhD 1992, SUNY-Binghamton

ARSLAN, Gurdal, Graduate Chair and Associate Professor of Electrical Engineering; BS 1990, Istanbul Technical (Turkey); MS 1996, Penn State; PhD 2001, Illinois Urbana-Champaign

ASAHINA, Audrey Y., Assistant Researcher in PBRC; BA 1985, MPH 1994, MS 1999, PhD 2006, Hawai'i

ASATO, Noriko, Associate Professor of Library and Information Science, ICS; BA 1980, Ryukyus; MEPD 1991, MA 1993, Wisconsin; MLISC 2011, Hawai'i; PhD 1998, Purdue

ASCUNCE, Aranzazu, Associate Professor of Spanish; BA 1997, Duke; MA 2002, PhD 2007, Virginia

ASH, Kenneth M., Associate Professor of Pediatrics; BA 1970, MD 1974, Michigan

ASHRAF, Kazi K., Professor of Architecture; BArch 1983, Bangladesh Engineering U; SMArchS 1989, MIT; PhD 2002, Pennsylvania; Chancellor's Citation for Meritorious Teaching, 2004

ASPIN, Colin, UH Telescope Manager of and Specialist in IFA; BSc 1977, Leicester U (England); MSc 1978, Sussex U (England); PhD 1981, Glasgow U (Scotland)

ASQUITH, Adam, Associate Specialist in SGCP; BS 1984, MS 1986, Mississippi; PhD 1990, Oregon

ATKINSON, Robert E., Associate Professor of Surgery; BS 1973, MD 1977, Thomas Jefferson Medical College-Pennsylvania

AU, Whitlow W. L., Researcher in HIMB; BS 1962, MS 1964, PhD 1970, Washington State

AUMAN, Ann E., Professor of Journalism; BA 1978, Toronto; MA 1982, Hawai'i; MBA 1987, Toronto; PhD 2004, Hawai'i

AUNE, Krystyna S., Dean of Graduate Education and Professor of Communication; BS 1985, MS 1987, Illinois State; PhD 1992, Arizona; Regents' Medal for Excellence in Teaching, 2003

AUNE, R. Kelly, Professor of Communication; BA 1982, MA 1984, U of Illinois-Springfield; PhD 1988, Arizona

AUNG-THWIN, Michael, Chair and Professor of Asian Studies; BA 1969, Doane College; MA 1971, Illinois Urbana-Champaign; PhD 1976, Michigan

AZIMOV, Dilmurat, Assistant Professor of Mechanical Engineering; MS 1986, Tashkent State U (Uzbekistan); PhD 1992, U of People's Friendship (Russia); DSC 2008, Moscow Aviation Institute (Russia)

AZUMA, Javzandulam, Junior Researcher in Natural Resources and Environmental Management, CTAHR; BS 1998, Nation U of Mongolia; ME 2000, Mongolian State U of Education; PhD 2005, Chiba

## B

BABCOCK, Mary, Associate Professor of Art; BA 1985, Cornell; BFA 1996, Oregon; MFA 2002, Arizona; PhD 1988, Pennsylvania

BABCOCK, Roger W., Associate Professor of Civil and Environmental Engineering and Associate Researcher in WRR; BS 1987, UC Davis; MS 1989, Cal Poly SLO; PhD 1991, UCLA

BACCILIEGA, Cristina, Professor of English; BA 1978, Rome (Italy); MA 1980, PhD 1983, SUNY-Binghamton; Regents' Medal for Excellence in Teaching, 1991

BACHINI, Robert C., Director of Undergraduate Programs for Shidler College of Business; BA 1979, Chaminade U; MS 1987, Cal State Los Angeles; PhD 2011, Hawai'i

BAE, Christopher, Associate Professor of Anthropology; BA 1994, Stony Brook; MA 1996, Arizona; PhD 2005, Rutgers; Regents' Medal for Excellence in Research, 2012

BAEK, Kyungim, Assistant Professor of Information and Computer Sciences; BS 1994, MS 1996, Sogang U (Korea); PhD 2002, Colorado State

BAHNG, Youngjin, Assistant Professor of Apparel Product Design and Merchandising, CTAHR; BS 1997, MS 2008, Indiana State; PhD 2011, Virginia Tech

BAILEY-BROCK, Julie H., Professor of Biology and Zoology; BS 1964, PhD 1968, Swansea (UK); Presidential Citation for Meritorious Teaching, 1992

BAIR-MUNDY, Donna G., Instructor in Library and Information Science; BA 1972, UC San Diego; MA 1988, MLIS 1996, PhD 2009, Hawai'i

BAKER, Charlene K., Associate Professor of Psychology; BS 1996, Michigan State; MA 1999, PhD 2002, Georgia State

BAKER, Christopher, Instructor in Hawaiian; BA 1996, MA 1998, Hawai'i

BAKER, Tammy Haili'opua, Assistant Professor of Theatre; BA 1996, MFA 1999, Hawai'i

BALARAMAN, Venkataraman, Associate Professor of Pediatrics; BS 1981, India; DM 1985, Jamaica

BANE-TERAKUBO, Teresa M., Assistant Professor of Pediatrics; BS 1989, MD 1993, Nebraska

BANNA, Jinan, Assistant Professor of Human Nutrition, Food and Animal Sciences, CTAHR; BA 2005, UC Santa Barbara; PhD 2009, UC Davis

BANTUM, Erin O., Assistant Researcher in UHCC; BA 1999, Nevada-Reno; MA 2003, PhD 2006, Loma Linda

BARANEC, Christoph, Assistant Astronomer in IFA; BS 2001, Caltech; PhD 2007, Arizona

BARBER, Jacob, Junior Specialist in Outreach College; BA 2000, Iowa; MA 2008, Hawai'i

BARBOUR, Jason D., Associate Professor of Tropical Medicine, Medical Microbiology and Pharmacology; BA 1992, Virginia, MHS 1997, Johns Hopkins; PhD 2004, UC San Francisco

BARGERHUFF, Mary E., Assistant Professor Special Education; BA 1981, U of Evansville; MEd 1986, Houston; PhD 1988, Miami U

BARILE, John (Jack), Assistant Professor of Psychology; BS 2001, MS 2005, Old Dominion U; PhD 2010, Georgia State

BARKAI, John L., Director of Clinical Law Program and Professor of Law; BBA 1967, MBA 1968, JD 1971, Michigan; Regents' Medal for Excellence in Teaching, 2007

BARNES, Bruce E., Associate Professor of Matsunaga Institute for Peace; BS 1966, Oregon State, MEd 1970, JD 1977, Hawai'i; LLM 1985, Columbia

BARNES, Gary M., Professor of Meteorology; BA 1974, PhD 1980, Virginia

BARNES, Joshua E., Astronomer in IFA; BA 1979, Harvard; PhD 1984, UC Berkeley

BARNES, M. Ann, Assistant Professor of Special Education; BA 1965, BYU; MEd 1995, Utah State; PhD 2001, Wyoming

BARON, Lorraine M., Assistant Professor of Mathematics Education; BS 1984, MA 1992, British Columbia; EdD 2010, Calgary

BARONI, Helen J., Professor of Religion; BA 1981, Grinnell; MDiv 1984, Princeton Theological Seminary; MPhil 1990, PhD 1993, Columbia

BARTHOLOMEW, M. Lisa, Assistant Professor of Obstetrics and Gynecology; BS 1987, Coll. of Charleston; MD 1992, Miami

BARTLETT, Andrea, Professor of Education; BA 1972, New Hampshire; MA 1976, PhD 1983, Arizona State

BARTON, Kasey E., Assistant Professor of Botany; BS 1999, Stanford; PhD 2007, Colorado

BATANI, Sayed M., Assistant Professor of Civil and Environmental Engineering and Assistant Researcher in WRR; BS 2003, Isfahan U of Technology; MS 2005, Sharif U of Technology; PhD 2011, MIT

BAUMAN, Kay A., Professor of Public Safety; BS 1965, MS 1965, Michigan; MPH 1967, Tulane; MD 1973, Michigan

BAUMANN, Francine, Assistant Researcher in UHCC; MS 1986, U of Paris II (France); MS 1987, U of Nancy I (France); MS 2006, Pasteur Institute (France); PhD 2010, U of New Caledonia (France)

BAUTISTA Lola Quan, Assistant Professor of Pacific Island Studies; BA 1990, Washington State; MA 1994, PhD 2001, Hawai'i

BAXA, Gari V., Junior Specialist in Student Affairs; BA 1995, MEd 1998, Hawai'i

BAYMAN, James M., Professor of Anthropology; BA 1979, Miami; MA 1988, Northern Arizona; PhD 1994, Arizona State

BAZZELL, Tokiko Y., Librarian V in Library Services; BA 1978, Tokyo Woman's Christian U (Japan); MA 1982, Southern Illinois U-Carbondale; MS 1994, Catholic U of America

BEAMER, Kamanamaikalani, Assistant Professor of Law and Hawaiian; BA 1998, Marymount; BA 2002, MA 2002, PhD 2008, Hawai'i

BEAN, Kristen, Assistant Professor of Social Work; BSW 2006, UNLV; MSW 2009, Chicago; PhD 2012, Arizona State

BEAULE, Christine D., Assistant Professor of Spanish; BA 1993, Northwestern; MA 1999, PhD 2002, Pittsburgh

BECKER, Janet M., Associate Professor of Geology and Geophysics; BA 1983, PhD 1989, UC San Diego

BEH, Hazel G., Professor of Law; BA 1973, Arizona; MSW 1975, PhD 1986, JD 1991, Hawai'i; Regents' Medal for Excellence in Teaching, 2000

BEILMAN, David W., Assistant Professor of Geography; BSc 1996, MSc 2001, U of Alberta (Canada); PhD 2006, UCLA

BELL, Christina, Associate Professor of Geriatric Medicine; BA 1991, MD 1999, Hawai'i

BELL, Michael, Assistant Professor of Meteorology; BS 2001, MS 2006, Colorado State; PhD 210, Naval Postgraduate School

BELLINGER, Frederick, Associate Researcher in Cell and Molecular Biology; BA 1989, CSU Northridge; MS 1993, San Diego State; PhD 1999 U of Queensland (Australia)

BELLO, Erlaine F., Assistant Professor of Medicine; AB 1977, MD 1981, Hawai'i

BELTON, Ian A., Assistant Professor of Theatre; Cert. 1999, Julliard; MPhil 2010, Trinity College (Dublin)

BEMAN, J. Michael, Assistant Researcher in YIP, SOEST; PhD 2006, Stanford

BEN-SEFER, Ellen, Assistant Professor in Nursing; BS 1974, Boston U; MS 1993, U of Western Sydney; PhD 2003, Macquarie U Sydney

BENGSTON, Rodney, Assistant Specialist (Gallery Director); BA 1976, Allegheny College; MFA 1982, Kent State

BENHAM, Maenette K. P. A., Dean of Hawai'i inuiākea School of Hawaiian Knowledge; BA 1978, MA 1980, San Francisco State; EdD 1993, Hawai'i

BENJAMIN, Thomas L., Associate Specialist in Education; BA 1971, Nebraska; MA 1986, Vanderbilt; PhD 2008, Hawai'i

BENNETT, Katherine, Junior Specialist in Social Work; BA 2001, Occidental; JD 2005, MSW 2007, Hawai'i

BENNETT, Kevin, Associate Professor of Biology; BS 1998, Milwaukee School of Engineering; PhD 2003, Medical College of Wisconsin

BENNETT, Virginia H., Associate Professor of Russian; BA 1962, Manhattanville College; MA 1967, PhD 1971, Princeton

BERENBERG, Jeffrey L., Professor of UHCC; BA 1963, Special Student Program 1964, Harvard; MD 1968, Boston

BEREZ, Andrea L., Assistant Professor of Linguistics; BFA 1994, Michigan; MA 2006, Wayne State; PhD 2011, UC Berkeley

BERG, Kathleen F., Specialist in CRDG; BEd 1973, PD 1973, MEd 1980, PhD 1992, Hawai'i

BERGO, Rolv A., Junior Specialist in Travel Industry Management; BS 1999, U of Bergen; MS 2001, U of Amsterdam

BERGUM, Christopher, Assistant Professor of Architecture; BA 1976, BArch 1976, Oregon; MArch 1978, Washington; PhD 1981, Pennsylvania

BERKELMAN, Peter J., Associate Professor of Mechanical Engineering; BS 1992, MS 1992, MIT; PhD 1999, Carnegie Mellon

BERNARDI, Fabrizio, Junior Scientific Researcher in IFA; BS 1999, U of Padova; PhD 2003, U of Rome-Tor Vergata

BERRY, Marla J., Professor of Cell and Molecular Biology; BA 1980, PhD 1986, UC Santa Barbara

BERTELMANN, Pelika, Junior Specialist in SGCP; BA 2007, Hawai'i-Hilo; MA 2011, Hawai'i

BERTZ, Ned, Assistant Professor of History; BA 1994, Illinois; MA 1998, PhD 2008, Iowa; Regents' Medal for Excellence in Teaching, 2010

BESS, H. David, Professor of Management and Industrial Relations; BS 1961, US Merchant Marine Academy; MBA 1964, PhD 1967, UCLA

BETHUNE, Keith P., Assistant Specialist in HNEI; BS 1998, MS 2000, Florida Atlantic

BEUTNER, Katharine E., Assistant Professor of English; BA 2003, Smith; MA 2006, PhD 2011, Texas-Austin

BHATAWADEKAR, Sai, Assistant Professor of Hindi and Urdu; BA 1994, Fergusson College; MA 1999, PhD 2007, Ohio State, Regents' Medal for Excellence in Teaching, 2013

BHATTACHARYA, Torsha, Assistant Professor of Travel Industry Management; BArch 2004, Bengal Eng. and Sci. U (India); MS 2007, PhD 2013, Florida State

BHAWUK, Dharm, Professor of Management and Industrial Relations; BA 1979, IIT; MBA 1989, Hawai'i; PhD 1995, Illinois

BIAGIONI, Edoardo S., Associate Professor of Information and Computer Sciences; BS 1982, MIT; Informatik Diplom 1985, ETH (Zurich); PhD 1991, U of NC Chapel Hill

BIDIGARE, Robert, Professor of Oceanography; BS 1977, Eastern Michigan; PhD 1981, Texas A&M; Regents' Medal for Excellence in Research, 2007

BIDWELL, Robert J., Associate Professor of Pediatrics; BA 1976, MD 1981, Minnesota

BIENFANG, Paul K., Researcher in Oceanography; BS 1971, MS 1974, PhD 1983, Hawai'i

BIERI, Karen, Assistant Extension Agent in CTAHR; BA 1971, Montclair State College; MA 1987, Rutgers

BILL, Jody L., Junior Specialist in Special Education; BS 2007, St. Bonaventure; MEd 2008, Alfred

BILL, Teresa J., Assistant Specialist and Program Coordinator in Bridge to Hope and Women's Center; 1983, Evergreen; 1986, Brown

BINDI, Veronica, Assistant Professor of Physics; MS 2002, PhD 2006, Bologna U

BINGHAM, Brian S., Associate Professor of Mechanical Engineering; BS 1986, Missouri Science and Technology; MS 1998, PhD 2003, MIT

BINGHAM, Jon-Paul, Assistant Professor of Molecular Biosciences and Bioengineering, CTAHR; BS 1992, Griffith U (Australia); PhD 1999, U of Queensland (Australia)

BINGHAM, Ruth O., Director of Arts and Sciences Student Academic Services; BA 1980, MA 1982, Hawai'i; MA 1986, PhD 1993, Cornell

BINGHAM, Thomas, Interim Dean of Architecture and Professor of Music; BA 1975, Cal State Fresno; MA 1981, Hawai'i

BINSTED, Kim A., Associate Professor of Information and Computer Sciences; BSc 1991, McGill U; PhD 1996, Edinburgh U

BITTENBENDER, Harry C., Professor of and Specialist in Tropical Plant and Soil Science, CTAHR; BS 1972, Western Michigan; MS 1974, PhD 1977, Michigan State

BLACK, Rhonda S., Professor of Education; BS 1982, MS 1991, Utah; EdD 1996, Georgia; Regents' Medal for Excellence in Teaching, 2006

- BLAKE, C. Fred, Professor of Anthropology; BA 1964, Hawai'i; MA 1966, Washington U; PhD 1975, Illinois
- BLANCHARD, D. Caroline, Professor of and Researcher in PBRC; BA 1961, Hollins College; MA 1964, Iowa; PhD 1974, Hawai'i; Regents' Medal for Excellence in Research, 1989
- BLANCHETTE, Patricia L., Professor of Geriatric Medicine; BA 1974, MPH 1979, MD 1979, Hawai'i; Hung Wo and Elizabeth Lau Ching Foundation Award for Faculty Service to the Community, 2006
- BLEY-VROMAN, Robert, Dean of College of Languages, Linguistics, and Literature and Professor of Second Language Studies; BA 1967, Pomona College; MA 1968, PhD 1972, Washington
- BLUE, Laura, Instructor in Nursing; BSN 2004, Excelsior College; MSN 2008, U of Phoenix
- BLUST, Robert A., Professor of Linguistics; BA 1967, MA 1968, PhD 1974, Hawai'i
- BOECKMAN, Jeffrey, Assistant Professor of Music; BA 1991, Berkeley; MM 2001, Arizona; DMA 2005, Wisconsin
- BOEHM, Laura, Instructor in Nursing; BSN, Marquette; MSN Walden U
- BOHLANDER, Andrew, Assistant Extension Agent in SGCP; BS 1999, Pennsylvania; MA 2005, Washington
- BOISVERT, William A., Associate Professor of Medicine; BS 1985, Oregon, MS 1986, Nebraska; PhD 1992, Tufts
- BOLAND, Mary G., Dean of School of Nursing and Dental Hygiene; BS 1975, Pennsylvania; MS 1978, Seton Hall; DrPH 2000, Columbia
- BOLLER, Robert R., Assistant Professor of Communication; BA 1995, UC Santa Barbara; MA 1998, Hawai'i; EdD 2005, U of San Francisco
- BONHAM, Carl, Executive Director of UHERO and Professor of Economics; BA 1982, Tulane; PhD 1989, Texas; Hung Wo and Elizabeth Lau Ching Foundation Award for Faculty Service to the Community, 2007
- BONTEKOE, Ronald, Professor of Philosophy; BA 1977, Toronto; MA 1982, Queen's (Canada); PhD 1988, Toronto
- BOOTH, Charles D., Professor of Law; BA 1981, Yale; JD 1984, Harvard
- BOOTH, Marlene, Instructor in Creative Media; BA 1970, Beloit; MFA 1975, Yale
- BORIC-LUBECKE, Olga, Professor of Electrical Engineering; BS 1989, U of Belgrade (Yugoslavia); MS 1990, California Institute of Technology; PhD 1995, UCLA
- BORTHAKUR, Dulal, Professor and Researcher in Molecular Biosciences and Bioengineering; BS 1975, Assam Agric U (India); MS 1977, Punjab Agric U (India); PhD 1987, U of East Anglia (England)
- BOUSQUET, Louis, Assistant Professor of French; Maitrise 1995, Nice (France); MA 2000, Rutgers; PhD 2007, UC Santa Barbara
- BOULOS, Daniel N., Assistant Professor of Creative Media; BFA 1989, California Institute of Arts; MEd 2010, Hawai'i
- BOUSHEY, Carol Jo, Associate Researcher in UHCC; MPH 1979, Hawai'i; PhD 1995, Washington
- BOWEN, Brian W., Researcher in HIMB; BS 1980, MS 1987, PhD 1992, Georgia
- BOWEN, Richard L., Specialist in Natural Resources and Environmental Management, CTAHR; BS 1970, Nebraska Wesleyan; MA 1974, Syracuse; PhD 1982, Colorado State
- BOYCE, Mary T., Assistant Professor of Maori; BA 1980, BA 1982, MA 1992, PhD 2006, Victoria U of Wellington
- BOYCHUK, Rodney B., Professor of Pediatrics; MD 1970, U of Alberta (Canada)
- BRADLEY, John, Researcher of HIGP; BS 1976, MS 1978, U of Canterbury (New Zealand); PhD 1981, Arizona State
- BRADSHAW, Joel, Journals and Web Manager in UH Press; BA 1973, Hawai'i Loa College; MA 1975, PhD 1982, Hawai'i
- BRADY, S. Kalani, Associate Professor of Native Hawaiian Health; AB 1977, Harvard; MPH 1978, Hawai'i; MD 1982, Pennsylvania
- BRAGINSKY, Nafanua, Assistant Professor in Nursing; BSN 1995, MSN 2002, PhD 2009, Hawai'i
- BRANDES, Horst, Professor of Civil and Environmental Engineering; BS 1982, Florida Institute of Technology; MS 1984, PhD 1992, Rhode Island
- BRANDON, Paul R., Professor of Education, CRDG; BS 1970, Portland State; MEd 1978, PhD 1983, Hawai'i
- BRANNER, Mark, Assistant Professor of Theatre; BA 1994, UCLA; MFA 2001, Hawai'i
- BRAUN, Kathryn L., Professor of Public Health and Social Work; BS 1975, Michigan; MPH 1980, DrPH 1987, Hawai'i; Regents' Medal for Excellence in Teaching, 1998
- BRAY, Michelle, Instructor in Nursing; BS 1989, HPU; MS 2011, Hawai'i
- BREAKEY, Gail, Junior Specialist in Social Work; BA 1967, MPH 1968, Hawai'i
- BRESOLIN, Fabio, Astronomer in IFA; Laurea in Astronomy 1990, U of Padova (Italy); MS 1993, Alabama; PhD 1997, Arizona
- BREWBAKER, James L., Professor of and Researcher in Tropical Plant and Soil Sciences, CTAHR; BA 1948, Colorado; PhD 1952, Cornell
- BRIER, David J., Librarian IV in Library Services; BA 1984, Oakland; Certificate 1987, MILS 1992, Michigan; MPA 2002, PhD 2011, Hawai'i
- BRISLIN, Thomas J., Interim Associate Dean of College of Arts and Humanities and Professor of Creative Media; BA 1968, Guam; MA 1970, PhD 1972, Ohio State; Presidential Citation for Meritorious Teaching, 1997
- BRIZZOLARA, Shawna, Assistant Professor of Obstetrics and Gynecology; BS 1975, San Diego State; MD 1979, UC Davis
- BROOKS, Lorraine, Assistant Extension Agent in Tropical Plant and Soil Sciences, CTAHR; BS 2001, MS 2007, Washington
- BROOKS, Patricia, Instructor in Nursing; BS 1984, California State Polytechnic; MS 1994, Azusa Pacific U
- BROWDER, Thomas E., Professor of Physics; BS 1982, Chicago; PhD 1988, UC Santa Barbara
- BROWN, Abigail, Instructor in Hawai'i English Language Program; BA 1987, MA 1994, Hawai'i
- BROWN, Amy C., Associate Professor of Complementary and Alternative Medicine; BS 1981, MS 1983, Hawai'i; PhD 1986, Virginia
- BROWN, James D., Professor of Second Language Studies; BA 1973, Cal State Los Angeles; BA 1976, UC Santa Barbara; MA 1978, PhD 1982, UCLA
- BROWN, Joel D., Professor of Medicine; MD 1963, George Washington
- BROWN, Marie Alohalani, Acting Assistant Professor of Religion; BA 2007, MA 2010, Hawai'i
- BROWN, Ronald C., Professor of Law; BS 1965, JD 1968, Toledo; LLM 1970, Michigan
- BROWN, Shana J., Associate Professor of History; BA 1993, Amherst College; MA 1997, PhD 2003, UC Berkeley
- BROWNE, Colette V., Professor of Social Work; BS 1972, Monmouth U; MEd 1973, Massachusetts; MSW 1978, MPH 1978, DrPH 1990, Hawai'i; Regents' Medal for Excellence in Teaching, 1996
- BRULAND, Gregory L., Assistant Professor of Natural Resources and Environmental Management, CTAHR; BS 1997, Principia College; PhD 2004, Duke
- BRUNO, Barbara C., Specialist in Oceanography; BS 1987, Brown, MS 1990, PhD 1994, Hawai'i
- BRUNSON, Jan M., Assistant Professor of Anthropology; BA 1999, Eckerd College; MA 2001, PhD 2008, Brown
- BRYANT-GREENWOOD, Peter K., Assistant Professor of UHCC; MBA 2004, Johns Hopkins; MD 1997, Hawai'i
- BUCHTHAL, Opal Vanessa, Assistant Professor of Public Health; BA 1988, San Francisco State U; MS 1993, UCLA; DrPH 2012, Hawai'i
- BUCKLEY, Brent A., Associate Professor of and Associate Extension Specialist in Human Nutrition, Food, and Animal Sciences, CTAHR; BS 1978, Nebraska; MS 1982, South Dakota State; PhD 1985, Nebraska
- BUELOW, Stephanie M., Assistant Professor of Reading/Literacy Education; BS 2000, East Stroudsburg U of Pennsylvania; MEd 2005, PhD 2011, Hawai'i
- BUNCONSEJO-LUM, Lee E., Assistant Professor of Family Medicine and Community Health and UHCC; BS 1990, Stanford; MD 1994, Hawai'i
- BUENO-SMITH, Racquel, Assistant Professor of Surgery; BA 1994, MD 1998, Hawai'i
- BUENTE, Wayne, Assistant Professor of Communication; BS 1993, Purdue; MSI 2003, Michigan; PhD 2011, Indiana
- BUI, Tung X., Professor of Information Technology Management; Licence 1974, Advanced Professional Certificate 1980, Geneva; PhD 1986, New York
- BURGESS, Lawrence P. A., Professor of Surgery; BS 1976, West Point; MD 1980, Hawai'i
- BURLINGAME, Janet M., Assistant Professor of Obstetrics and Gynecology; BA 1987, Harvard; MD 1991, Columbia
- BURNETT, Kimberly, Associate Specialist in SSRJ; BBA 1998, Loyola; MA 2004, PhD 2007, Hawai'i
- BUS, Schelte J., Associate Astronomer in IFA; BS 1979, California Institute of Technology; PhD 1999, MIT
- BUSH, Anne M., Professor of Art; BFA 1984, Arizona State; MFA 1989, Yale
- BUSINGER, Steven, Professor of Meteorology; BS 1975, Washington; MS 1978, Colorado; PhD 1986, Washington; Chancellor's Citation for Meritorious Teaching, 2011
- BUSKIRK, Patricia Amaral, Assistant Professor of Communication; BA 1985, Hawai'i; MFA 2004, Savannah College of Art & Design
- BUSQUET, Severine, Assistant Researcher in HNEI; MS 1999, U of Poitiers (France); PhD 2003, Mines Paris Tech (France)
- BUTLER, John E., Interim Associate Dean for Academic Affairs in Shidler College of Business and Professor of Management and Director of Family Business Center; BA 1968, St. Francis College; MBA 1980, LaSalle U; M Phil 1982, PhD 1985, New York U
- BUTLER, Marguerite A., Assistant Professor of Biology and Zoology; BS 1988, MS 1991, Rensselaer Polytechnic Institute; PhD 1998, Washington U
- BUTLER, Rhett, Interim Director of HIGP; BS 1974 MIT; MS 1976, PhD 1979, California Institute of Technology
- BYRNE, Andrew J., Instructor in Special Education; MS 2001, McDaniel College; PhD 2003, New York U

- HARRIS, Frederick A., Professor of Physics; BS 1963, MS 1965, PhD 1970, Michigan
- HARRISON, George, Assistant Professor of Education in CRDG; BA 1994, UC Santa Cruz; MA 2002, PhD 2013, Hawai'i
- HARRIS-MCCOY, Daniel, Assistant Professor of Classics; BA 2002, Reed College; PhD 2008, Pennsylvania
- HARTLINE, Daniel, Program Director of Bekesy Lab and Researcher in PBRG; BA 1961, Swarthmore College; MA 1966, PhD 1968, Harvard
- HARTMANN, Nathaniel, Assistant Professor of Marketing; BA 2006, Daemen College; MBA 2009, PhD 2012, Purdue
- HARTWELL, Jay C., Junior Specialist in Student Affairs; BA 1978, Colorado College; MS 1979, Columbia
- HARWIT, Eric, Professor of Asian Studies; BA 1984, Cornell; MA 1985, PhD 1992, UC Berkeley
- HASAGER, Ulla, Associate Specialist in Ethnic Studies and Civic Engagement Director; BA 1976, Magisterkonferens 1991, PhD 1999, Copenhagen (Denmark)
- HASEGAWA, Helen M., Assistant Specialist in Education; BS 1969, BYU; MEd 1996, Hawai'i
- HASHIMOTO, Andrew G., Researcher in Molecular Biosciences and Biosystems Engineering, CTAHR; BS 1966, MS 1968, Purdue; PhD 1972, Cornell
- HASINGER, Guenther, Director of and Astronomer in IFA; Physics Diploma 1980, PhD 1984, Ludwig Maximilian U (Munich)
- HATFIELD, Elaine C., Professor of Psychology; BA 1959, Michigan; PhD 1963, Stanford; Regents' Medal for Excellence in Research, 1989
- HAWAJSKA-WATERS, Anna B., Instructor in German; MA 2003, Hawai'i

- HAWK, Alan B., Specialist and Psychiatrist, Counseling and Student Development Center; BA 1964, Amherst; MD 1968, Harvard
- HAWKE, B. Ray, Associate Director (Outreach) of HSGC and Planetary Scientist in HIGP; BS 1970, MS 1976, Kentucky; PhD 1978, Brown
- HAYASHI, Kentaro, Associate Professor of Psychology; BA 1987, International Christian U (Japan); MA 1991, Miami U of Ohio; PhD 1997, North Carolina
- HAYASHI, Michael S., Assistant Clinical Professor of Surgery; BA 1999, MD 2003, Hawai'i
- HAYASHI, Miki, Instructor in Nursing; BS 1986, Hawai'i; MNE 16, U of Phoenix
- HAYES, Kenneth A., Assistant Researcher in PBRC; BS 1999, MS 2003, U South Florida; PhD 2009, Hawai'i
- HAYMER, David S., Professor of Cell and Molecular Biology; BS 1976, MS 1979, San Diego State; PhD 1982, Purdue; Chancellor's Citation for Meritorious Teaching, 2007
- HEAD, John D., Professor of Chemistry; BSc 1973, University College (London); PhD 1979, British Columbia
- HEBERLE, Mark A., Professor of English; BA 1968, U of Penn; MA 1972, PhD 1981, Harvard
- HECK, Ronald H., Professor of Education; BA 1973, MA 1980, PhD 1986, UC Santa Barbara
- HECKMAN, Mark B., Junior Specialist; BS 1982, Evergreen State College-Washington; MEd 1994, Hawai'i
- HEGDGES, Jerris R., Dean of JABSOM and Professor of UHCC; BS 1971, MS 1973, MD 1976, Washington; Master of Medical Mgt 2007, USC
- HEIBY, Elaine M., Professor of Psychology; BA 1971, Case Western Reserve; MA 1976, PhD 1980, Illinois
- HEINE, Rumi C.Y., Junior Specialist in Special Education; BA 2003, MEd 2007, Hawai'i
- HELLEBRAND, Eric, Assistant Specialist in Geology and Geophysics; MS 1996, RWTH Aachen (Germany); PhD 2001, U of Mainz (Germany)
- HEMMINGS, Daphne E., Assistant Clinical Professor of Surgery; BA 1992, MD 2000, St. George's U (West Indies)
- HEMSCHEIDT, Thomas K., Associate Professor of Chemistry; Diplom Biology 1979, Bochum (Germany); PhD 1983, Munich
- HENCH, Virginia E., Professor of Law; BA 1970, American U; MA 1974, Iowa; JD 1987, Richmond; LLM 1993, Temple
- HENNINGSEN, Manfred, Professor of Political Science; PhD 1967, Munich
- HENRIE, James R., Associate Specialist in Student Affairs; BS 1976, Brigham Young; PhD 1985, Utah
- HENRIKSEN, Margot A., Associate Professor of History; AB 1980, MA 1982, PhD 1989, UC Berkeley; Regents' Medal for Excellence in Teaching, 2000
- HENRY, James M., Director of Mānoa Writing Program and Associate Professor of English; BA 1974, Princeton; MA 1980, Webster U (Geneva); Licence 1986, Universite de Geneve; PhD 1990, Pennsylvania; Regents' Medal for Excellence in Teaching, 2009
- HENWARD, Allison, Assistant Professor of Education; BS 2002, Northern Arizona; MEd 2005, PhD 2010, Arizona State
- HERENIKO, Vilsoni, Professor of Creative Media; BA 1977, U of South Pacific; MEd 1982, Newcastle Upon Tyne (UK); PhD 1991, U of South Pacific; Presidential Citation for Meritorious Teaching, 2000
- HERMALYN, Brendan, Assistant Researcher in HIGP YIP, SOEST; BS 2007, MS 2007, Fairfield U; PhD 2011, Brown
- HERNANDEZ, Brenda, Faculty Director of Hawai'i Tumor Registry, Associate Director of Pathology Shared Resource and Associate Researcher in UHCC; BA 1987, Harvard; MPH 1990, Yale; PhD 1999, Hawai'i
- HERNANDEZ, Kazu, Specialist and Physician of University Health Services; Assistant Professor of Family Medicine and Community Health; BS 1995, UCLA; MD 1999, Hawai'i
- HEROLD, Irene M. H., University Librarian and Librarian V in Library Services; BA 1982, MLS 1992, U of Washington; MA 2004, Western Illinois U; PhD 2012, Simmons College
- HERRERO-BERVERA, Emilio, Geophysicist in HIGP; BS 1973, Mexico; MS 1981, PhD 1984, Hawai'i
- HERRING, Eileen C., Librarian V in Library Services; BA 1972, UC San Diego; MLLS 1993, MS 2001, Hawai'i
- HERRING, Jennifer, Associate Specialist in Education; BA 1983, Columbia-SC; MEd 1988, EdD 1997, Hawai'i
- HERZOG, Thaddeus A., Associate Researcher in UHCC; BS 1988, Northeastern; MA 1992, PhD 1996, Harvard
- HETZLER, Ronald K., Associate Professor of Kinesiology and Rehabilitation Science; BS 1974, Illinois; MS 1984, PhD 1988, Southern Illinois
- HEW, Cynthia S., Assistant Professor of Medicine; AB 1977, Brown; MD 1981, Hawai'i
- HEY, Richard N., Geophysicist in HIGP; BA 1969, CIT; PhD 1975, Princeton
- HEYER, Katharina C., Associate Professor of Political Science; BA 1988, Smith College; MA 1993, PhD 2002, Hawai'i
- HIGA, Lynne, Assistant Specialist in College of Natural Sciences; BA 1987, MS 1991, Hawai'i, UH Mānoa 'Ohana Award for Outstanding Service to Students, 1999
- HIGA, Taryn, Instructor in Nursing; BS 2001, MS 2005, Hawai'i
- HIGGINS, Christina M., Associate Professor of Second Language Studies; BA 1994 Mary Washington College; MA 1997, PhD 2004, Wisconsin-Madison
- HIGGINS, Katherine C., Assistant Specialist in Pacific Island Studies; BA 2001, U Massachusetts Amherst; MA 2007, Hawai'i; PhD 2012, Auckland
- HIGGINS, Scott R., Assistant Researcher in HNEL; BS 2002, PhD 2008, Maine
- HIGUCHI, Carl M., Assistant Professor of Medicine; BA 1978, Connecticut; MD 1982, Hawai'i
- HIGUCHI, Paula, Junior Specialist in Social Work; BA 1978, MSW 2006, Hawai'i
- HIHARA, Lloyd H., Professor of Mechanical Engineering; BS 1983, Hawai'i; SM 1985, PhD 1989, MIT; Regents' Medal for Excellence in Teaching, 1995
- HILDEBRANDT, Lori, Instructor in Nursing; BS 2002, U of Manitoba; MSN 2011, Athabasca U-Alberta.
- HILDEN, Hugh M., Professor of Mathematics; BS 1958, Rutgers; MS 1966, PhD 1968, Stevens Institute of Technology
- HILL, Yao Z., Assistant Specialist in Assessment Office; BA 2000, MA 2003, PhD 2010, Hawai'i
- HINSHAW, Virginia S., Professor of Tropical Medicine, Medical Microbiology and Pharmacology; BS 1966, MS 1967, PhD 1973, Auburn
- HIPPENSTEELE, Susan K., Professor of Women's Studies; BGS 1985, Chaminate; MA 1989, PhD 1991, JD 2001, Hawai'i; Robert W. Clopton Award for Outstanding Community Service, 2005
- HIRAE, Howard H., Associate Extension Agent in CTAHR; BS 1967, MS 1984, Hawai'i
- HIRAI, Carol, Assistant Professor of Pediatrics; BS 1976, Ohio; MD 1980, Hawai'i
- HIRANO, Robert, Associate Specialist in Harold L. Lyon Arboretum; BS 1962, MS 1967, Hawai'i
- HIRAOKA, Mark K., Assistant Professor of Obstetrics and Gynecology; BS 1993, USC; MD 1997, MS 2009, Hawai'i
- HIRATE, Susan H., Instructor in Japanese; BA 1973, MA 1978, Hawai'i; Frances Davis Award for Excellence in Undergraduate Teaching, 2004
- HIROHATA, Edson T., Assistant Professor of Communication Sciences and Disorders; BS 1985, MS 1990, Hawai'i
- HISAKA, Lloyd I., Specialist in Student Affairs; BS 1965, MEd 1969, Oregon State; EdD 1981, East Texas State
- HISHINUMA, Earl S., Professor of Psychiatry; BA 1981, MA 1985, PhD 1990, Hawai'i
- HITCHCOCK, Caryl H., Assistant Professor of Education; M Phil 1972, London (UK); PhD 2001, Hawai'i
- HITOSUGI, Claire, I., Instructor in Japanese; BA 1978, Wako (Japan); MA 1987, MBA 2001, PhD 2009, Hawai'i
- HIXON, Allen L., Associate Professor of Family Medicine and Community Health; BA 1981, Middleberry College; MA 1985, American; MD 1994, Connecticut
- HIXON, Mark A., Professor of Biology; BA 1973, MA 1974, PhD 1979, UC Santa Barbara
- HO, Curtis P., Professor of Education; BEd 1974, MEd 1976, Hawai'i; PhD 1983, Arizona State
- HO, David T., Professor of Oceanography; BA 1994, MA 1997, MPhil 2000, PhD 2001, Columbia
- HO, Hallly, Instructor in Nursing; BSN 1989, CSU-Los Angeles; MS 2007, U of Phoenix
- HOANG, Tung T., Associate Professor of Microbiology; BSc 1994, MSc 1996, Calgary (Canada); PhD 1999, Colorado State
- HODAPP, Klaus W., Associate Director of IFA Hilo and Astronomer in IFA; PhD 1984, Heidelberg (Germany)
- HOFFENBERG, Peter H., Associate Professor of History; AB 1983, Harvard; MA 1987, PhD 1993, UC Berkeley
- HOFFMAN, Ellen S., Professor of Education; BGS 1972, MA 1979, Michigan; EdD 2001, Eastern Michigan
- HOFFMANN, Kathryn A., Professor of French; BA 1975, SUNY; MA 1979, PhD 1982, Johns Hopkins; Regents' Medal for Excellence in Teaching, 1998
- HOFFMANN, Peter R., Associate Researcher in Cell and Molecular Biology; BA 1988, Iowa; MASPH 1997, Hawai'i; PhD 2002, Colorado
- HOLLAND, Brenden S., Associate Researcher in PBRC; BA 1986, UC San Diego; MS 1991, PhD 1997, Texas A&M
- HOLLAND, Kim N., Researcher in HIMB; BA 1971, MS 1975, Hawai'i; PhD 1980, Pennsylvania
- HONG, Seunghye, Assistant Professor of Social Work; BA 1993, MA 1995, Ewha Womans U (Korea); PhD 2009, Washington
- HO'OMANAWANUI, Ku'ualoha, Assistant Professor of English; BA 1991, MA 1997, PhD 2007, Hawai'i; Frances Davis Award for Excellence in Undergraduate Teaching, 2012
- HOONCHAMLONG, Yuphaphann, Associate Professor of Thai; BA 1979, Chulalongkorn; MA 1981, Hawai'i; PhD 1991, Wisconsin-Madison
- HOOVER, Maya, Associate Professor of Music; BM 1995, Binghamton; MM 1998, Rider; DMA 2003, Indiana
- HOROWITZ, Susan, Junior Specialist in Outreach College; BA 1971, Antioch College
- HORTON, Keith, Assistant Researcher in HIGP; BS 1970, MS 1977, PhD 1995, Hawai'i
- HOST-MADSEN, Anders, Professor of Electrical Engineering; MSc 1990, PhD 1993, Technical U of Denmark
- HOUGHTON, Bruce F., Macdonald Professor of Volcanology; BSc 1971, U of Auckland; PhD 1977, U of Otago (New Zealand)
- HOWARD, Andrew W., Assistant Astronomer in IFA; SB 1998, MIT; AM 2001, PhD 2006, Harvard
- HOWE, Bruce M., Chair and Researcher in Ocean and Resources Engineering; BSc 1978, MSc 1978, Stanford; PhD 1986, UC San Diego-Scripps
- HOWERTON, Robert D., Assistant Specialist in SGCP; BA 1985, MS 1988, Hawai'i; PhD 1991, Auburn
- HOWES, William C., Professor of English; BA 1977, Toronto; PhD 1980, Princeton; Presidential Citation for Meritorious Teaching, 1986; Regents' Medal for Excellence in Teaching, 1998; Hung Wo and Elizabeth Lau Ching Foundation Award for Faculty Service to the Community, 2005
- HSIEH, Hsin-I, Professor of Chinese; BA 1963, MA 1966, Taiwan; PhD 1971, UC Berkeley
- HSU, Ruth Y., Associate Professor of English; BA 1981, MA 1985, Cal State Fullerton; PhD 1992, USC
- HU, Ching-Yuan, Researcher in Human Nutrition, Food and Animal Sciences, CTAHR; BS 1975, National Chung-Hsing U (Taiwan); MS 1979, PhD 1984, UC Davis
- HU, Esther M., Astronomer in IFA; BS 1974, MIT; MSc 1976, PhD 1980, Princeton
- HU, John S., Professor of and Researcher in Plant and Environmental Protection Sciences, CTAHR; BS 1982, Nanjing Agricultural (China); MS 1985, PhD 1987, Cornell
- HUANG, Alvin S., Associate Professor of and Associate Researcher in Human Nutrition, Food, and Animal Sciences, CTAHR; BS 1978, MS 1980, National Taiwan U; PhD 1985, Wisconsin-Madison
- HUANG, Thomas T. F. Jr., Associate Professor of Obstetrics and Gynecology; BA 1973, Swarthmore; PhD 1980, UC San Francisco
- HUANG, Wei (Victor), Professor of Finance; BA 1987, Nanjing U (China); MA 1994, Asian Institute of Management (Philippines); MA 1997, Georgia State U; PhD 2001, Georgia Institute of Technology
- HUANG, Zhenhua, Assistant Professor in Ocean and Resources Engineering; BS 1988, MS 1991, Tsinghua U (China); PhD 2004, MIT
- HUBBARD, Amy S. E., Professor of Communication; BBA 1989, MA 1991, Hawai'i; PhD 1996, Arizona; Regents' Medal for Excellence in Teaching, 2002

- HUDSON, Thomas D., Professor of Second Language Studies; BS 1971, UC Berkeley; MA 1978, PhD 1989, UCLA
- HUE, Nguyen V., Professor of and Soil Scientist in Tropical Plant and Soil Sciences, CTAHR; BS 1972, Saigon; MS 1976, PhD 1981, Auburn
- HUEY, Robert N., Professor of Japanese Literature; BA 1973, Puget Sound; MA 1979, MA 1980, PhD 1985, Stanford
- HUI, George S. N., Researcher in Tropical Medicine, Medical Microbiology and Pharmacology; BA 1982, PhD 1986, Hawai'i
- HUMPHREYS, Tom, Professor of Anatomy, Biochemistry, and Physiology, Institute for Biogenesis Research; BS 1958, PhD 1962, Chicago
- HUNLEY, Alan J., Assistant Specialist in Outreach College; BA 1985, MFA 1990, Hawai'i
- HUNTER, Cynthia L., Director of Marine Option Program and Associate Professor of Biology and Zoology; BS 1975, Cal State Long Beach; MS 1980, U of South Florida; PhD 1988, Hawai'i
- HUNTER, David L., Assistant Professor of Finance; BS 1993, Brigham Young U; MS 1996, New York U; PhD 2008, Maryland
- HURWITZ, Eric L., Professor of Public Health; AB 1985, UC Berkley; DC 1988, Los Angeles College of Chiropractic; MS 1991, PhD 1995, UCLA
- HUSS, Gary, Researcher in HIGP; BA 1976, Rice; MS 1979, New Mexico; PhD 1987, Minnesota
- HUSS, Jacob M., Instructor in French; MA 1987; Certificat de Stage, CIDEF (Angers) 1992, 1993, 1995; BA 1984, Hawai'i
- HWANG, Dennis, Specialist in SGCP; BS 1977, Rochester; MS 1980, Hawai'i; JD 1990, Houston
- HWANG, Joyce H., Assistant Professor of Travel Industry Management; BS 1996, Pusan National U; MS 2000, Purdue; PhD 2004, Iowa State
- HYDEN, Philip W., Assistant Professor of Pediatrics; BA 1974, JD 1979, MD 1983, Florida
- HYNSON, Nicole A., Assistant Professor of Botany; BS 2002, Evergreen State College; PhD 2010, UC Berkeley
- I**
- IDING, Marie K., Professor of Education; BA 1979, Loyola Marymount; MA 1989, PhD 1991, UC Santa Barbara
- IDOL, Travis W., Associate Professor of Natural Resources and Environmental Management, CTAHR; BS 1994, Wake Forest; MS 1997, PhD 2000, Purdue
- IEZZI, Julie A., Professor of Theatre; BA 1985, Antioch College; MA 1991, Hawai'i; MA 1996, Tokyo U of Fine Arts and Music; PhD 2000, Hawai'i

- JOSEPH, Robert D., Astronomer in IFA; BA 1961, Greenville College; MA 1964, Vanderbilt; PhD 1971, Washington U
- JOSHI, Amol M., Assistant Professor of Management and Industrial Relations; BEE 1992, Georgia Tech; MS 1997, MBA 1998, Dartmouth; PhD 2011, North Carolina-Chapel Hill
- JOURDAN LESAUX, Claude, Assistant Researcher in Cell and Molecular Biology; BS 1989, MS 1991, PhD 1996, Universite d'Aix-Marseille (France)
- JUAREZ, Ruben, Assistant Professor of Economics; BA 2004, Universidad de Guanajuato (Mexico); MA 2008, PhD 2008, Rice
- JUDD, Nanette K., Associate Specialist in Native Hawaiian Health; BS 1966, Cal State Chico; MPH 1980, PhD 1997, Hawai'i
- JUN, Soojin, Associate Professor of Human Nutrition, Food and Animal Sciences, CTAHR; BS 1996, MS 1998, South Korea; PhD 2002, Pennsylvania State
- JUNG, Boo Chun, Assistant Professor of Accounting; BBA 1999, MBA 2001, Seoul National U (Korea); PhD 2007, Colorado-Boulder

## K

- KA'ALOA, R. Pi'ilani H., Assistant Specialist in Hawaiian Studies; BA 1996, MEd 2000, Hawai'i
- KABUTAULAKA, Tarcisius T., Associate Professor of Pacific Island Studies; BA 1988, Post-graduate Dip 1990, MA 1991, U of South Pacific; PhD 2003, Australian National U
- KAHANU, Noelle M., Assistant Specialist in American Studies; BA 1988, JD 1992, Hawai'i
- KAHIKINA-LOU, Krissy K., Librarian II in Library Services; BA 1995, BA 1995, MLISC 2002, MA 2005, Hawai'i
- KAHMANN, Michiko Seki, Junior Specialist in Outreach College; BA 1988, Rikkyo U (Japan); MA 1991, Hawai'i
- KA'IAMA, C. Manu, Instructor in Accounting and Hawaiian Studies and Director of Kaulele Program; BBA 1982, MAcc 1988, Hawai'i; Presidential Citation for Meritorious Teaching, 1999
- KAISER, Nicholas, Associate Director of National Telescope Projects and Astronomer in IFA; BSc 1978, Leeds; MS 1979, PhD 1982, Cambridge
- KAISER, Ralf I., Professor of Chemistry; Diploma Chemistry 1991, PhD 1994, Münster (Germany); Regents' Medal for Excellence in Research, 2007
- KAM, Saba, Instructor in Nursing; BS 2004, MS 2008, Hawai'i
- KAM, Samuel H. C., Assistant Information Specialist in CTAHR; BA 1962, MS 1965, Hawai'i
- KAMAKA, Martina L., Associate Professor of Native Hawaiian Health; BA 1982, Notre Dame; MD 1986, Hawai'i
- KAMAKAWIWO'OLE, Patrick K., Assistant Specialist in Student Affairs; BA 1989, Hawai'i; MA 1994, San Francisco; PsyD 2002, American School of Professional Psychology
- KAME'ELEIHIWA, Lilikalā, Professor of Hawaiian Studies; BA 1980, MA 1982, PhD 1986, Hawai'i
- KAMEOKA, Velma A., Professor of Psychology and Director of SSRI; BA 1972, MA 1975, PhD 1979, Hawai'i; Regents' Medal for Excellence in Teaching, 1989
- KAN, Eunsung, Assistant Professor of Molecular Biosciences and Bioengineering, CTAHR; BS Inha U (Korea); MS Pohang U (Korea); PhD UC Riverside
- KANE, Kathleen O., Interim Director of Faculty Development and Academic Support, Interim Director of Faculty Mentoring Program, and Specialist in Center for Teaching Excellence; BA 1983, MA 1988, PhD 1994, Hawai'i
- KANE, Thomas J., III, Assistant Professor of Surgery; BA 1973, Santa Clara; MD 1977, UC Davis
- KANEHIRO, Naomi A., Associate Extension Agent in Human Nutrition, Food and Animal Sciences, CTAHR; BS 1969, Hawai'i; RD 1970, MS 1971, Iowa
- KANESHIRO, Bliss E. K., Assistant Professor of Obstetrics and Gynecology; BA 1997, Pomona; MD 2001, Hawai'i; MPH 2007, Oregon Health Sciences
- KANESHIRO, Kenneth Y., Program Director of CCRT and Researcher in PBRC; BA 1965, MS 1968, PhD 1974, Hawai'i
- KANG, Hae Ji, Junior Researcher in Tropical Medicine, Medical Microbiology and Pharmacology; BS 2004, Hannam U (Korea); MS 2009, PhD 2009, Korea U (Korea)
- KANG, Ju Young, Assistant Professor of Apparel Product Design and Merchandising, CTAHR; BS 1996, MS 2008, Florida State; PhD 2012, Minnesota
- KANNO, Kazuo, Associate Professor of Japanese; BA 1980, MA 1983, Cal State; PhD 1992, Hawai'i
- KANUHA, Valli Kalei, Professor of Sociology; BA 1973, Wisconsin; MSW 1975, Minnesota; PhD 1997, Washington; Regents' Medal for Excellence in Teaching, 2002
- KAOMEA, Julie, Associate Professor of Education; BA 1989, Stanford; PD 1990, UC Berkeley; MEd 1995, PhD 1999, Hawai'i
- KA'OPUA, Lana Sue I., Associate Professor of Social Work; BA 1975, MSW 1980, PhD 2000, Hawai'i
- KAPAN, Durrell D., Assistant Researcher in PBRC; BA 1998, UC Berkeley; PhD 1998, British Columbia (Canada)
- KAPAONA, Alyssa, Junior Specialist in Mānoa Advising Center; BS 2006, MEd 2008, Hawai'i
- KARACAOVALI, Baybars, Assistant Professor of Economics; BA 1997, Bogazici U (Turkey); MA 2002, PhD 2006, Maryland-College Park
- KARL, David M., Professor of Oceanography; BA 1971, Buffalo State; MS 1974, Florida State; PhD 1978, UC San Diego; DSc 2010, Chicago; Regents' Medal for Excellence in Research, 1985 and 1993
- KARL, Stephen A., Associate Researcher in HIMB; BA 1980, UC Santa Barbara; PhD 1992, Georgia
- KASPER, Gabriele, Professor of Second Language Studies; MA 1975, PhD 1980, Bochum (Germany)
- KASUYA, Richard T., Assistant Professor of Medicine; MD 1989, Hawai'i; Regents' Medal for Excellence in Teaching, 1996
- KATAOKA-YAHIRO, Merle R., Associate Professor of Nursing; BSN 1979, Hawai'i; MS 1982, Rush; MPH 1984, Northwestern; DrPH 1991, Illinois; Chancellor's Citation for Meritorious Teaching, 2013
- KATO, Gerald Y., Associate Professor of Journalism; BA 1971, Hawai'i; MA 1972, Missouri
- KATZ, Alan R., Professor of Public Health; BA 1976, UC San Diego; MD 1980, UC Irvine; MPH 1987, Hawai'i; Presidential Citation for Meritorious Teaching, 1989; Regents' Medal for Excellence in Teaching, 1992; UH Mānoa Award for Distinguished Graduate Mentoring, 2008
- KAUFMAN, Andrew J., Associate Landscape Specialist in Tropical Plant and Soil Sciences, CTAHR; BS 1992, MLA Arizona; MS 2000, Iowa State; PhD 2003, Washington State
- KAUFUSI, Pakieli H., Assistant Researcher in Tropical Medicine, Medical Microbiology and Pharmacology; BA 1990, USP (Fiji/West Samoa); MS 1997, PhD 2005, Hawai'i
- KAUULA, Pualani, Instructor in Hawaiian Studies; BA 2003, MA 2005, Hawai'i
- KAUKA, Crystella T., Librarian in Law Library; BA 1965, MLS 1970, Hawai'i; AS 1982, Kapi'olani Community College
- KAULUKUKUI, C. Malina, Junior Specialist in Social Work; BA 1966, Oregon; MSW 1981, Portland
- KAUPP, Lauren J., Junior Specialist in CRDG; BS 2003, Maryland-Baltimore; MS 2005, Hawai'i
- KAVCIC, Aleksandar, Professor of Electrical Engineering; Dipl. Ing 1993, Ruhr U (Germany); PhD 1998, Carnegie Mellon
- KAWABATA, Andrea M., Assistant Extension Agent in Tropical Plant and Soil Sciences; BS 2000, Oregon State; BS 2003, Hawai'i-Hilo; MS 2006, Hawai'i
- KAWABATA, Andrew F., Associate Extension Agent in Tropical Plant and Soil Sciences, CTAHR; BS 1976, MS 1977, Hawai'i
- KAWABATA, Wendy A., Associate Professor of Art; BFA 1995, Massachusetts College of Art; MFA 2002, New Mexico
- KAWAMOTO, Kris, Instructor in Anatomy, Biochemistry and Physiology; BS 2002, BA 2002, U of Pacific; MS 2007, Hawai'i
- KAWAMURA, Cymbree, Instructor in Nursing; BSN 2001, MSN 2007, Washington
- KAWAMURA, Laura Jean Y., Assistant Extension Agent in Family and Consumer Sciences, CTAHR; BS 1979, Oregon State; MPH 1980, Hawai'i
- KAWASUMI, Miyuri, Junior Researcher in Anatomy, Biochemistry and Physiology; BA 2002, MD 2004, PhD 2007, Kinki U (Japan)
- KAWATE, Michael K., Specialist in Plant and Environmental Protection Sciences, CTAHR; BS 1979, MS 1973, Hawai'i; PhD 1987, Oregon State
- KAWELO, Roxanne M., Assistant Professor of Obstetrics and Gynecology; BA 2000, MD 2004, Hawai'i
- KAYA, Brock J., Associate Professor of Pathology; BS 1990, MD 1994, Hawai'i
- KAZMAN, Rick, Professor of Information Technology Management; BA 1981, U of Waterloo; MA 1982, York U; M. Math 1986, U of Waterloo; PhD 1991, Carnegie Mellon
- KEAWE, Lia O'Neill M. A., Assistant Professor of Hawaiian Studies; BA 1996, MA 1999, PhD 2008, Hawai'i; Chancellor's Citation for Meritorious Teaching, 2013
- KEELEY, Sterling C., Professor of Botany; AB 1970, Stanford; MS 1973, San Diego State; PhD 1977, Georgia; Regents' Medal for Excellence in Teaching, 1996
- KEHL, Lisa, Junior Specialist in University Health Services; BA 1994, Mercyhurst; MSW 2009, MPH 2011, Hawai'i
- KELLEHER, Thomas A., Professor of Communication; BA 1993, Flagler College; MA 1996, PhD 1999, Florida
- KELLETT, Carol S. Y., Librarian II in Library Services; BA 1991, MLIS 1992, Hawai'i
- KELLEY, James F., Junior Researcher in Tropical Medicine, Medical Microbiology and Pharmacology; BS 1996, U of Georgia; MPH 2003, Emory U; PhD 2011, Hawai'i
- KELLEY, Liam C., Associate Professor of History; BA 1989, Dartmouth; MA 1996, PhD 2001, Hawai'i
- KELLOGG, Judith L., Professor of English; AB 1968, MA 1970, PhD 1978, UC Berkeley; Regents' Medal for Excellence in Teaching, 1991
- KELLY, Kevin M., Assistant Specialist in SOEST; BS 1982, Texas-Austin; MS 1988, Hawai'i; MBA 1998, Portland State
- KEMP, Paul F., Specialist in CMORE Oceanography; BA and BS 1976, Washington; MS 1979, PhD 1985, Oregon State
- KENNEY, Christopher J., Junior Physicist in Physics and Astronomy; BS 1982, Duke; MS 1984, PhD 1989, William and Mary
- KENT, Noel J., Professor of Ethnic Studies; BA 1965, Wisconsin; MA 1967, PhD 1979, Hawai'i
- KESSEL, Bruce, Professor of Obstetrics and Gynecology; BA 1975, Oberlin; MD 1979, Cincinnati
- KESSLER, Cristy L., Associate Professor of Education; AA 1991, BS 1993, MEd 1998, Maryland; EdD 2003, Delaware
- KHANAL, Samir, Assistant Professor of Molecular Biosciences and Bioengineering, CTAHR; BS 1993, Malaviya National Institute of Technology; MS 1997, Asian Inst. of Technology; PhD 2002, Hong Kong U of Science and Technology
- KICKER, Darrell, International Exchange Coordinator and Assistant Specialist in International and Exchange Programs; BA 1982, Alabama; MEd 1990, Ohio; MA 2009, Hawai'i
- KIKILOI, S. Kekuewa, Assistant Professor of Hawaiian Studies; BA 1998, MA 2003, PhD 2012, Hawai'i
- KIM, Albert S., Associate Professor of Civil and Environmental Engineering; BS 1991, Kyung Hee U (Korea); MS 1997, PhD 2000, UCLA; Regents' Medal for Excellence in Research, 2006
- KIM, Bum Jung, Assistant Professor of Social Work; BA 2001, Chung-Ang U (Korea); MSW 2005, Michigan; PhD 2011, UCLA
- KIM, David S., Assistant Professor of Obstetrics and Gynecology; BS, UC San Diego; MD 1997, SUNY Brooklyn
- KIM, Grant T., Associate Director of Center for International Business Education and Research; BBA 1987, MBA 2004, Hawai'i
- KIM, Hye-Ji, Assistant Researcher in Tropical Plant and Soil Sciences; BS 1993, Korea U (Seoul); MS 1999, Shizuoka U (Japan); PhD 2004, Pennsylvania State
- KIM, Jang Hyun, Assistant Professor of Communicology; BA 1996, MA 1998, Yonsei U (Korea); PhD 2007, SUNY Buffalo
- KIM, Jaclyn Kanilehua, Junior Specialist in Social Work; BA 2002, Arizona; MSW 2010, Hawai'i
- KIM, Karl E., Professor of Urban and Regional Planning; AB 1979, Brown; PhD 1986, MIT; Hung Wo and Elizabeth Lau Ching Foundation Award for Faculty Service to the Community, 2001
- KIM, Mary S., Assistant Professor of Korean; BA 1995, Ewha Woman's (Korea); MA 1999, PhD 2006, UCLA
- KIM, Min-Sun, Professor of Communicology; BA 1985, Korea; MA 1987, Maryland; PhD 1992, Michigan State
- KIM, Robert J., Assistant Professor of Obstetrics and Gynecology; BA 1991, Tufts; MD 1999, UC Davis
- KIM, Yong-Soo, Professor of and Researcher in Human Nutrition, Food, and Animal Sciences, CTAHR; BS 1982, Seoul; MS 1984, PhD 1988, UC Davis
- KIM, Yung-Hee, Professor of Korean Literature; BA 1964, Ewha Woman's (Korea); MA 1968, Indiana; PhD 1984, Cornell
- KIMURA, Aya, Associate Professor of Women's Studies; BA 1997, Sophia U (Japan); MA 2001, Yale; PhD 2006, Wisconsin-Madison
- KIMURA, Ehito, Associate Professor of Political Science; BS 1996, Georgetown; MA 2001, Yale; PhD 2006, Wisconsin-Madison
- KIMURA, Iris F., Professor of Kinesiology and Rehabilitation Science; BSE 1974, Drake; MS 1975, Indiana State; PhD 1981, Texas Women's U; BS, PT 1992, Stockton State College
- KIMURA, James H., Orthopedic Researcher in Surgery; BS 1971, Hawai'i; PhD 1976, Case Western Reserve

- KIMURA, Spencer, Associate Specialist in Law; BS 1991, Georgetown; JD 1996, Hawai'i
- KINOSHITA, Charles M., Associate Dean of CTAHR and Professor of Molecular Biosciences and Bioengineering, CTAHR; BS 1972, MS 1974, Hawai'i; PhD 1980, UC Berkeley
- KIPNIS, Kenneth, Professor of Philosophy; BA 1965, Reed College; MA 1966, Chicago; PhD 1972, Brandeis; Robert W. Clopton Award for Distinguished Community Service, 1987
- KIRK-KUWAYE, Michael, Specialist in Arts and Sciences Student Academic Services; BA 1975, MA 1980, PhD 1996, Hawai'i
- KIRS, Marek, Assistant Researcher in WRRC; BS 1992, Tartu; MSc 1996, Edinburgh; PhD 2005, Rhode Island
- KISHIDA, Jennifer, Junior Specialist in Social Work; BA 1994, MEd 2004, Hawai'i
- KJOS-HANSEN, Bjoern, Associate Professor of Mathematics; BA 1996, MA 1997, U of Oslo; PhD 2002, UC Berkeley
- KLEYN, Jan, Junior Scientific Researcher in IFA; BA 1992, Princeton; PhD 1998, Harvard
- KLEIBER, Eleanor J., Librarian III in Library Services; BA 2002, Wellesley; MLIS and MAS 2006, Vancouver (Canada)
- KLEIN, Steven J., Junior Specialist in Special Education; BFA 1987, MEd 2000, Hawai'i
- KLOOSTERZIEL, Rudolph, Assistant Researcher in Oceanography; BS 1983, MSc 1986, PhD 1990, U of Utrecht (Netherlands)
- KNAPMAN, Lucinda, Communications Leader and Junior Specialist in SGCP; BA 1990, Ithaca College; MA 2005, Rhode Island
- KNUTH, Rebecca, Professor of Library and Information Science Program, ICS; BS 1971, Colorado; MA 1975, N Colorado; MLIS 1990, Hawai'i; PhD 1995, Indiana; Presidential Citation for Meritorious Teaching, 2001
- KNUTSON, Jesse Ross, Assistant Professor of Sanskrit; BA 2000, MA 2002, UC Berkeley; MA 2005, PhD 2009, Chicago
- KOBAYASHI, Kent D., Associate Professor of and Associate Researcher in Tropical Plant and Soil Science, CTAHR; BS 1972, Hawai'i; MAg 1975, PhD 1981, Oregon State
- KOBAYASHI, Marcelo, Professor of Mechanical Engineering; ME 1988, U Brazilia (Brazil); MSc 1991, PhD 1994, MSc 1996, PhD 2003, Technical U of Lisbon (Portugal)
- KOEGEL, Sean, Instructor in Education; BA 1997, MEd 2002, Illinois
- KOGA, Ralph, Instructor in Hawaiian Language; BA 1986, MA 2002, Hawai'i
- KOIKARI, Mire, Associate Professor of Women's Studies; BA 1988, Sophia U (Japan); MS 1990, PhD 1997, Wisconsin-Madison
- KONAN, Denise E., Dean of College of Social Sciences and Professor of Economics and Director of Center for Sustainable Coastal Tourism in SGCP; BA 1988, Goshen College; MA 1990, PhD 1993, Colorado-Boulder
- KONDO-BROWN, Kimi, Interim Associate Dean of College of Languages, Linguistics, and Literature and Professor of Japanese; BA 1983, Tokushima (Japan); MA 1987, Utah; EdD 1998, Hawai'i
- KONG, Dong-Kwan, Assistant Professor of Korean; BA 1998, Korean U; MA 2002, PhD 2007, Hawai'i
- KOO, Hagen, Professor of Sociology; BA 1966, Seoul National; MA 1971, PhD 1974, Northwestern
- KORTH, Jonathan, Associate Professor of Music; BM 2002, Peabody Conservatory; MM 2004, DMA 2008, Stony Brook
- KOSASA, Karen K., Associate Professor of American Studies; BA 1972, Beloit; MFA 1983, Hawai'i; MA 1995, PhD 2002, Rochester
- KOSTETSKAYA, Anastasia, Assistant Professor of Russian; BA 1996, Volgograd; MA 2009, PhD 2013, Ohio State
- KOU, Luisa E., Instructor in Spanish; BA 1984, Florida State; MA 1993, Hawai'i
- KOURY, Merle, Director of Student Services in Nursing; BS 1989, Bukidnon U (Philippines); MA 1994, Capitol U (Philippines); PhD 2000, Mindanao U (Philippines)
- KOWALSKY, Michelle A., Librarian III in Library Services; BA 1991, MA 1999, Montclair State; MLS 1996, Rutgers; MA 2004, William Paterson; EdD 2009, Pepperdine
- KOZOK, Ulrich, Professor of Indonesian; MA 1989, PhD 1994, Hamburg
- KRAFT, James P., Professor of History; BA 1975, Texas-Austin; MA 1985, Cal State Los Angeles; PhD 1990, USC
- KRAFT-TERRY, Stephanie D., Junior Specialist in Biology; BS 2006, Pacific; PhD 2011, Nebraska
- KRAMER, Hanae, Assistant Professor of Communication; BA 1998, MA 2001, PhD 2010, Hawai'i
- KRAMER, Kenton J., Associate Professor of Tropical Medicine, Medical Microbiology and Pharmacology; BS 1972, MS 1982, PhD 1990, Hawai'i
- KRAWCIW, Annie K., Master Programs Advisor in Business; BA 2000, MA 2002, Hawai'i
- KREIF, Theresa M., Junior Specialist in Social Work; BSW 1997, Wichita State; MSW 2002, Washington U-St. Louis
- KRIEGER, Linda H., Director of the Ulu Lehua Program and Professor of Law; BA 1975, Stanford; JD 1978, NYU School of Law
- KRISHNA, Sankaran, Professor of Political Science; BS 1980, Loyola; MA 1986, PhD 1989, Syracuse; Chancellor's Citation for Meritorious Teaching, 2008
- KROT, Alexander, Researcher in HIGP; MS 1981, PhD 1989, Moscow State; Regents' Medal for Excellence in Research, 2004
- KRUG, Jr., Gary S., Assistant Specialist in Education; BEd 2001, MEd 2003, Hawai'i
- KUBA, Carolyn K., Instructor in Dental Hygiene; BEd 1972, Diploma 1973, Certificate 1978, MEd 1986, Hawai'i
- KUDLACEK, Trina, Junior Specialist in Student-Athlete Academic Services; BA 1989, MEd 1992, Kansas; EdD 1996, Temple
- KUDRITZKI, Rolf-Peter, Astronomer in IFA; BS 1971, PhD 1973, Technische Universität Berlin
- KUH, Anthony, Professor of Electrical Engineering; BS 1979, UC Berkeley; MS 1980, Stanford; MA 1984, PhD 1987, Princeton
- KUHN, Jeffrey R., Astronomer in IFA; BA 1977, Kalamazoo College; MS 1979, PhD 1981, Princeton
- KUKAHIKO, Eomailani K., Assistant Specialist in Hawaiian Language Immersion; BA 1999, BEd 2001, MEd 2004, Hawai'i
- KUKEA SHULTZ, Pohai, Assistant Specialist in Education; BA 1997, Lewis and Clark; BEd 2000, MEd 2002, Hawai'i
- KUMAR, Jason P., Associate Professor of Physics; BS 1995, California Institute of Technology; PhD 2000, Stanford
- KUMAR, Makesh, Instructor in Tropical Medicine, Medical Microbiology and Pharmacology; BVSc 2007, AH 2007, College of Veterinary Science and Animal Husbandry (India); MS 2009, PhD 2013, Hawai'i
- KUMASHIRO, Kristin K., Professor of Chemistry; BS 1989, Hawai'i; PhD 1995, Yale
- KURANO, Heather M., Instructor in Spanish; BA 1992, MA 1994, Hawai'i; Frances Davis Award for Excellence in Undergraduate Teaching, 2009
- KUWADA, Scott K., Assistant Clinical Professor of UHCC; BA 1980, Whitman College; MS 1985, MD 1988, Hawai'i
- KWEE, Sandi Alexander, Assistant Professor of UHCC and JABSOM; BS 1991, Carnegie Mellon; MD 1996, Pittsburgh
- KWOK, Reginald Y., Professor of Asian Studies and Urban and Regional Planning; Diploma 1963, Polytechnic London; Diploma, Architectural Association London; MS/MS 1969, PhD 1973, Columbia
- KWOK, Theodore J., Librarian IV in Library Services; BM 1982, Indiana; MA 1988, MLIS 1989, Hawai'i
- L**LABORTE, Bibiana, Professor of Aerospace Studies; BA 1884, Rutgers; MEd 1988, South Dakota State
- LABRADOR, Roderick N., Assistant Professor of Ethnic Studies; BA 1994, Rochester; MA 1997, Certificate, Hawai'i; PhD 2003, UCLA
- LABRASH, Steven Jr., Specialist in Anatomy, Biochemistry, and Physiology; 1991, Mortuary College
- LACHMANN, Masami, Instructor in Japanese; BA 1973, Meiji Gakuin (Japan); MA 1980, Hawai'i
- LACOURSIERE-ZUCCHERO, Terri, Instructor in Nursing; BS 1992, Catholic U of America; MS 1995, Emory U
- LA CROIX, Sumner J., Professor of Economics; BA 1976, Virginia; MA 1979, PhD 1981, Washington; Robert W. Clopton Award for Distinguished Community Service, 1994
- LAFITAGA, Filimataisina M., Assistant Professor of Military Science; BA 2005, Hawai'i
- LAI, Po-Yung, Special Program Director for Contracts and Grants, CTAHR; BA 1965, National Chung-Hsing U (Taiwan); MS 1971, PhD 1977, Hawai'i
- LAM, Pui K., Professor of Physics; BS 1977, CIT; MA 1980, PhD 1983, UC Berkeley
- LAMB, Ramdas, Associate Professor of Religion; BA 1980, MA 1985, Hawai'i; PhD 1991, UC Santa Barbara
- LAMMERS, Marc O., Associate Researcher in HIMB; BA 1993, PhD 2003, Hawai'i
- LANGWORTHY, Christine, Assistant Specialist in Social Work; BA 1968, Michigan State; MSW 1971, Hawai'i
- LANZONA, Vina, Associate Professor of History; BA 1989, Ateneo de Manila U (Philippines); MA 1994, New School for Social Research; PhD 2000, Wisconsin-Madison
- LATNER, Janet D., Professor of Psychology; BA 1996, Yale; MS 2002, PhD 2002, Rutgers
- LAU, Alan F., Interim Director of PBRC and Researcher in UHCC and Cell and Molecular Biology; BS 1971, Hawai'i; PhD 1976, Michigan
- LAU, Frederick C., Director of Center for Chinese Studies and Professor of Music; BA 1981, Chinese U of Hong Kong; Post Graduate Diploma 1982, Guildhall School of Music (London); MM 1984, DMA 1991, Illinois; Regents' Medal for Excellence in Teaching, 2010
- LAU, Gerald K. H., Assistant Specialist in Information and Computer Sciences; BA 1976, MS 1978, Hawai'i
- LAU, Gina C., Instructor in Dental Hygiene; BS 1998, MEd 2001, Hawai'i
- LAUZON, Matthew J., Associate Professor of History; BA 1994, MA 1996, Carleton; MA 1998, PhD 2002, Johns Hopkins
- LAVY, Paul, Assistant Professor of Art; BA 1994, Mary Washington College; MA 1998, PhD 2004, UCLA
- LAWRENCE, Charles R. III, Professor of Law and Political Science; BA 1965, Haverford; LLM 1969, Yale
- LE, Thao N., Associate Professor of Family Resources, CTAHR; BA 1992, BS 1992, MPH 1994, UC Berkeley; PhD 2004, UC Davis

- LIEBERT, Bruce E., Interim Associate Dean of Academic Affairs and Associate Professor of Mechanical Engineering; BS 1970, San Jose State; MS 1972, PhD 1977, Stanford; Regents' Medal for Excellence in Teaching, 1990
- LIENERT, Barry R., Associate Specialist in HIGP; BSc 1969, MSc 1972, Victoria (New Zealand); PhD 1976, Texas-Dallas
- LIM, Lipyew, Assistant Professor of Information and Computer Sciences; BS 1999, MS 2000, National U of Singapore; PhD 2004, Duke
- LIM, Loan, Instructor in Special Education; BS 1992, MEd 2000, Hawai'i
- LIM, Unhee, Associate Researcher in UHCC; BA 1992, Hanyang U (Korea); MS 1997, Cornell; RD 1997, Yale; PhD 2002, Cornell
- LIMM, Whitney M. L., Associate Professor of Surgery; BS 1980, Stanford; MD 1984, UCLA
- LIN, Haosheng, Astronomer in IFA; BS 1982, Tamkang U (Taiwan); PhD 1992, Michigan State
- LIN, I-Bei, Associate Professor of Music; BM 1995, Eastman; MM 1996, DM 2001, Northwestern
- LIN, Ingrid (Yu-Hua), Assistant Professor of Travel Industry Management; BS 1995, Boston; MS 1996, New York U; PhD 2003, Penn State
- LIN, Meng-Fen Grace, Assistant Professor of Education; BS 1989, National Sun Yat-Sen U (Taiwan); MS 1994, EdD 2005, Houston
- LIN, Shu-Hwa, Associate Professor of Apparel Product Design and Merchandising, CTAHR; BS 1977, MS 1990, PhD 1997, Florida State
- LINDSTROM, Daniel, Specialist in SOEST; BS 1985, Westmont College; MS 1991, Boston U; PhD 1998, Hawai'i
- LINGLEY, Kate A., Associate Professor of Art; BA 1994, Harvard-Radcliffe; MA 1998, PhD 2004, Chicago; Chancellor's Citation for Meritorious Teaching, 2009
- LINHARES, Carmen, Instructor in Nursing; BA 1987, Hawai'i; MS 1997, Columbia; PhD 2007, Hawai'i
- LITTLE, Doric A., Associate Professor of Allied Medical Sciences; BA 1961, Washington; MA 1971, UC Davis; EdD 1987, Hawai'i
- LITTMAN, Robert J., Professor of Classics; BA 1964, Columbia; M Litt 1968, Oxford; PhD 1970, Columbia; Chancellor's Citation for Meritorious Teaching, 2004
- LITTON, Creighton M., Associate Professor of Natural Resources and Environmental Management, CTAHR; BA 1991, Emory and Henry College; MS 1994, North Carolina State; PhD 2002, Wyoming; Regents' Medal for Excellence in Teaching, 2013
- LIU, Juanita C., Interim Dean and Professor of Travel Industry Management; BA 1969, USC; MA 1971, Pennsylvania; PhD 1979, Simon Fraser (Canada); Regents' Medal for Excellence in Teaching, 1993
- LIU, Michael C., Astronomer in IFA; BA 1992, Cornell; MA 1993, PhD 2000, UC Berkeley; Regents' Medal for Excellence in Research, 2007
- LIU, Min, Assistant Professor of Education; BS 1999, Beijing Normal U (China); MA 2007, PhD 2011, Maryland
- LIU, Qianqiu, Associate Professor of Finance; BS 1993, MS 1996, Wuhan U (China); PhD 2003, Northwestern
- LIZENBERY, Gregg, Professor of Dance; CMA 1982, Laban Institute of Movement Studies; BFA 1991, Utah; Chancellor's Citation for Meritorious Teaching, 2008
- LLEWELLYN, Clark E., Professor of Architecture; BArch 1972, Washington State; MArch 1973, Harvard
- LOGAN, Joy L., Professor of Spanish; BA 1977, Wright State; MA 1981, PhD 1987, Indiana; Presidential Citation for Meritorious Teaching, 1994; Regents' Medal for Excellence in Teaching, 2002
- LOO, Sherry W. H., Associate Professor of Pediatrics; BA 1967, Hawai'i; MD 1971, Yale
- LOONG, Chet-Yeng, Associate Professor of Music; BA 1994, MM 1996, Akron; PhD 1999, Kent State
- LOPES, R. Keawe, Jr., Assistant Professor of Hawaiian; BA 1995, MET 1997, PhD 2010, Hawai'i
- LOPEZ, Leslie, Specialist in Faculty Development and Academic Support; MA 2001, New Mexico Highlands; PhD 2013, Hawai'i
- LOPEZ-LAZARO, Fabio, Associate Professor of History; BA 1985, U of Western Ontario; MA 1989, Simon-Fraser U; PhD 1996, Toronto
- LORENZO, Cedric S. F., Assistant Clinical Professor of Surgery; BA 1996, MD 2000, Hawai'i
- LOVE, Inessa, Associate Professor of Economics; BA 1992, Zaporozhye State (Ukraine); MA 1996, American U; PhD 2001, Columbia
- LOZANOFF, Scott, Professor of Anatomy, Biochemistry and Physiology; BA 1978, Toledo; MS 1981, PhD 1984, Ohio State
- LU, Jessica, Assistant Astronomer in IFA; SB 2000, MIT; PhD 2008, UCLA
- LU, Yuanan, Professor of Public Health; BS 1985, Huazhong Agricultural U (China); MS 1988, Oregon State; PhD 1992, Hawai'i
- LUBECKE, Victor, Professor of Electrical Engineering; BS 1986, Cal Poly Pomona; MS 1990, PhD 1995, California Institute of Technology
- LUBIMIR, Karen, Assistant Professor of Geriatric Medicine; BS 1980, DMD 1994, MD 1994, Connecticut
- LU-CHEN, Jung Ying, Instructor in Chinese, Translation and Interpretation; BA 1984, National Cheng-Chi U (Taiwan); MA 1986, PhD 1993, Hawai'i
- LUCAS, K. Kawehilani, Instructor in Hawaiian; BA 1981, PD 1988, MEd 1998, Hawai'i
- LUCEY, Paul G., Planetary Scientist in HIGP; BS 1979, Brown; PhD 1986, Hawai'i; Regents' Medal for Excellence in Research, 2005
- LUKAS, Roger B., Professor of Oceanography; AB 1973, USC; MS 1977, PhD 1981, Hawai'i
- LUM, B. Jeannie, Associate Professor of Education; BA 1975, UC Irvine; MA 1986, PhD 1992, UC Berkeley
- LUM, Jennifer, Assistant Professor of Obstetrics and Gynecology; BS 1996, Santa Clara; MD 2003, Hawai'i
- LUTHER, Douglas S., Professor of Oceanography; BS 1973, PhD 1980, MIT
- LYNHAM, John, Assistant Professor of Economics; BA 2003, U of Dublin (Ireland); MA 2006, PhD 2008, UC Santa Barbara, Regents' Medal for Excellence in Teaching, 2013
- LYON, Jeffrey P., Assistant Professor of Religion; BA 1975, Biola U; MA 1979, PhD 1991, UCLA
- LYONS, Laura E., Associate Professor of English; BA 1985, Moorhead State; MA 1989, PhD 1993, Texas-Austin; Regents' Medal for Excellence in Teaching, 1997
- LYONS, Paul, Professor of English; BA 1980, Hobart College; MA 1981, Michigan; PhD 1990, North Carolina; Regents' Medal for Excellence in Teaching, 2004
- LYU, Li-Ching, Assistant Researcher in UHCC; BS 1985, Taipei (China); MPH 1988, Hawai'i; PhD 1993, Boston

## M

- MA, Tianwei David, Associate Professor of Civil and Environmental Engineering; BS 1991, Shanghai Jiao Tong U; MS 1999, U of Science and Technology; MS 2003, PhD 2003, UC Santa Barbara
- MAAKA, Margaret J., Professor of Education; BEd 1976, MEd 1978; Waikato (New Zealand); PhD 1992, Hawai'i; Presidential Citation for Meritorious Teaching, 1996; Regents' Medal for Excellence in Teaching, 1998
- MABANGLO, Ruth E. S., Professor of Philippine Literature; BA 1969, MEd 1980, PhD 1985, Manuel L. Quezon U; Presidential Citation for Meritorious Teaching, 1996
- MACHI, Junji, Professor of Surgery; MS 1982, Illinois; MD 1977, Juntendo (Japan); PhD 1984, Illinois; PhD 1989, Kurume (Japan)
- MACK, Randall J., Assistant Professor of Pathology; BS 1982, Oregon; MD 1987, West Indies
- MACKENZIE, Melody Kapialialoha, Director of Kahuli Ao Center for Excellence in Native Hawaiian Law and Assistant Professor of Law; BA 1970, Beloit; JD 1976, Hawai'i, Regents' Medal for Excellence in Teaching, 2013
- MACMILLAN, Michael E., Junior Specialist in Korean Studies; BA 1969, South Carolina; MA 1973, PhD 1987, Hawai'i

- MADDOCK, Jason, Professor of Public Health; BA 1995, Syracuse U; MA 1997, PhD 1999, Rhode Island; Chancellor's Citation for Meritorious Teaching, 2005
- MADDOX, Conred, Junior Specialist in Student Athlete Academics Services; BA 2003, MA 2007, Hawai'i
- MADEY, John M. J., Professor of Physics; BS 1964, MS 1965, CIT; PhD 1970, Stanford
- MAEDA, Julieanne K., Associate Professor of Kinesiology and Rehabilitation Science; BA 1992, Puget Sound; MS 1993, Indiana U; PhD 1999, Ohio State
- MAGDALENA, Federico V., Assistant Specialist in Center for Philippine Studies; BS 1969, Mindanao State U (Philippines); MA 1971, U of Philippines; PhD 1977, Hawai'i
- MAGLAYA, Michael, Director of and Assistant Specialist in College Opportunities Program; BA 1984, MSW 1986, Washington
- MAGNIER, Eugene A., Associate Astronomer in IFA; BS 1989, PhD 1993, MIT
- MAHIKO, Joy A., Instructor in Special Education; BS 2008, MEd 2009, Chaminade
- MAHILUM, Paulita, Assistant Extension Agent in CTAHR; BS, HE 1958, Central Mindanao (Philippines); MS 1968, EdD 1971, Oklahoma State
- MAIS, Eric L., Professor of Finance; BS 1982, MBA 1983, Missouri State; PhD 1988, South Carolina
- MAKEKAU-WHITTAKER, Kalani, Assistant Professor of Hawaiian; BA 1991, MA 1999, PhD 2013, Hawai'i
- MAKINO-KANEHIRO, Megumi I., Director of and Assistant Specialist in Mānoa Advising Center; BA 1990, MA 1992, PhD 2011, Hawai'i
- MALATE, Agnes R., Junior Specialist in Student Equity, Excellence & Diversity; BA 1985, MEd 1997, Hawai'i
- MALECHA, Spencer R., Professor of and Researcher in Human Nutrition, Food, and Animal Sciences, CTAHR; BS 1965, Loyola; MS 1968, PhD 1971, Hawai'i
- MALHOTRA, Vinod, Associate Professor of Electrical Engineering; BE 1981, Birla Institute of Technology and Science (India); MS 1983, PhD 1987, Colorado State; Regents' Medal for Excellence in Teaching, 1991
- MALSBARY, Christine B., Assistant Professor of Education; BA 2000, Temple; MA 2002, London; MS 2005, CUNY; PhD 2012, UCLA
- MAMACLAY, Blandina, Instructor in Nursing; BS 1986, MS 1994, Hawai'i
- MAMIYA HERNANDEZ, Rachel H., Instructor in Spanish and Portuguese; BA 2002, Barnard; MA 2006, Hawai'i
- MAN, Glenn K. S., Professor of English; BA 1966, MA 1967, PhD 1970, Notre Dame
- MANES, Michelle, Associate Professor of Mathematics; AB 1991, UC Berkeley; EdM 1993, Boston U; ScM 2004, PhD 2007, Brown
- MANGHNANI, Murli, Geophysicist in HIGP; BS 1957, MS 1958, Indian School of Mines Dhanbad; MS 1958, Bihar (India); PhD 1962, Montana State
- MANINI, Bonnyjean, Junior Specialist in Student Affairs; BE 1992, PD 1994, MEd 2002, Hawai'i
- MANSHARDT, Richard M., Professor of and Researcher in Tropical Plant and Soil Science, CTAHR; BA 1969, Antioch; MS 1976, Illinois; PhD 1980, Florida
- MANSILLA HERMANN, Dominique, Instructor in Spanish; BA 2005, MA 2007, Hawai'i
- MARFATIA, Danny, Assistant Professor of Physics; MSc 1995, Indian Institute of Technology; MS 1997, Clemson; PhD 2001, Wisconsin-Madison
- MARIANO, L. Joyce, Assistant Professor of American Studies; BA 2000, PhD 2011, Minnesota
- MARICIC, Jelena, Assistant Professor of Physics; BS 1998, U of Belgrade; MS 2003, PhD 2005, Hawai'i
- MARIKAWA, Yusuke, Associate Professor of Anatomy, Biochemistry and Physiology; BS 1990, Osaka (Japan); MS 1992, PhD 1995, Kyoto (Japan)
- MARK, Debra, Assistant Professor of Nursing; BS 1981, Oregon Health Science U; MS 1985, Hawai'i; PhD 2001, George Mason
- MARKO, Peter B., Associate Professor of Marine Biology; BS 1991, U of Alberta (Canada); PhD 1997, UC Davis
- MARSH, James B., Professor of International Business; BA 1961, MA 1967, PhD 1972, Chicago
- MARSHALL, Stephanie, Assistant Specialist in Nursing; BSN 1975, Duquesne; MSN 1985, UC San Francisco
- MARTEL, Stephen J., Professor of Geology and Geophysics; BS 1980, UC Davis; MS 1984, PhD 1987, Stanford; Presidential Citation for Meritorious Teaching, 1997
- MARTÍN, Eduardo, Assistant Astronomer in IFA; BS 1988, PhD 1993, U of La Laguna (Spain)
- MARTIN, Stephen L., Specialist in Student Affairs; BA 1964, Denver; MA 1965, Minnesota; PhD 1969, USC
- MARTINEZ, Fernando, Researcher in HIGP; BS 1981, City College of New York; MA 1984, PhD 1988, Columbia
- MARTINI, Mary I., Professor of Family Resources; BA 1971, Lake Forest; MA 1978, PhD 1984, Chicago
- MASAKI, Helen H., Assistant Specialist in Education; BE 1955, 5-yr Certificate 1956, Hawai'i; MA 1978, Chapman College
- MASAKI, Kamal H., Professor of Geriatric Medicine; BA 1978, Jai Hind (India); MD 1982, Bombay
- MASKARINEC, Gertraud, Professor of UHCC; MPH 1989, Hawai'i; MD 1979, Albert Ludwigs-uni-Frsiburg (Germany); PhD 1996, Hawai'i
- MASKARINEC, Gregory, Assistant Professor of Family Medicine and Community Health; BA 1974, Reed; MA 1986, PhD 1990, Hawai'i
- MASKREY, Arthur J., III, Associate Specialist in HNEI; BA 1978, UC Santa Barbara; MEP 1980, Arizona State; MBA 2000, Hawai'i
- MASON, Andrew, Professor of Economics; BA 1969, George Washington; MA 1973, PhD 1975, Michigan
- MASUNAGA, Karen A., Instructor in Japanese; BA 1990, MA 1992, Hawai'i
- MASUO, Diane M., Associate Professor of Family Resources; BS 1969, Hawai'i; MS 1972, Purdue; PhD 1986, Oregon State; Presidential Citation for Meritorious Teaching, 1997
- MASUTANI, Stephen M., Researcher in HNEI; BA 1977, Hawai'i; MS 1980, PhD 1985, Stanford
- MATAIRA, Peter, Assistant Professor of Social Work; MPhil 1988, PhD 2000, Massey U (New Zealand)
- MATAYOSHI, Jennifer L., Instructor in Communicology; BA 2007, MA 2009, Hawai'i
- MATAYOSHI, Ronald, Assistant Specialist in Social Work; BS 1976, Hawai'i; MSW 1978, UC Berkeley
- MATSUDA, Jennifer C., Associate Specialist in Student Athlete Academic Services; BFA 1982, MFA 1987, Hawai'i
- MATSUDA, Jon M., Junior Specialist in Outreach College; BBA 1994, MBA 1999, Hawai'i
- MATSUDA, Mari J., Professor of Law; BA 1975, Arizona State; JD 1980, Hawai'i; LL.M. 1983, Harvard
- MATSUI, Sandra Y., Coordinator of Student Publications, Student Life and Development; AA 1972, Sacramento City College; BS 1974, UC Davis; MA 1976, UC Santa Barbara
- MATSUI, Takashi, Associate Professor of Anatomy, Biochemistry, and Physiology; MD 1986, PhD 1992, Jikei U School of Medicine (Japan)
- MATSUNO, Shigenobu, Associate Researcher in Physics and Astronomy; BS 1976, U of Nagoya (Japan); MS 1978, U of Kobe; PhD 1982, Tokyo
- MATSUOKA, Frances T., Assistant Specialist in Education; BE 1969, MEd 1970, Hawai'i
- MATSUYAMA, Kristie, Instructor in Nursing; BS 2001, MS 2005, Hawai'i
- MATSUZAKI, Carrie L., Assistant Specialist in Engineering; BS 1972, Hawai'i; MS 1976, Oregon State
- MATTER, Michelle L., Assistant Researcher in Cell and Molecular Biology and Assistant Professor of UHCC; BA 1989, Colorado; PhD 1994, Virginia
- MATTESON, Kieko, Assistant Professor of History; BA 1990, Smith College; MA 1995, PhD 2008, Yale
- MATTHEWS, Dax K., Assistant Researcher in HNEI; BS 2002, MS 2003, PhD 2008, Colorado-Boulder
- MATTOS, Jodie H., Librarian IV in Library Services; BA 1992, Hampshire; MA 1996, MLIS 1996, Hawai'i
- MAU, Majorie K. H., Professor of Native Hawaiian Health; BS 1981, MD 1985, Creighton
- MAWYER, Alexander D., Assistant Professor of Pacific Islands Studies; BA 1995, Amherst College; MA 1997, Hawai'i; MA 1999, PhD 2006, Chicago
- MAYER, John F., Associate Professor of Samoan; BS 1970, Wright State; MA 1980, PhD 2001, Hawai'i; Presidential Citation for Meritorious Teaching, 1990
- MAYNARD, Ashley E., Professor of Psychology; BA 1994, Virginia; MA 1996, PhD 1999, UCLA
- MAYNARD, Elizabeth Kumabe, Associate Extension Agent in SGP; BS 1980, Western Washington; MEd 1991, Hawai'i
- McANDREWS, Kristin M., Associate Professor of English; BA 1985, MA 1988, PhD 1996, Hawai'i
- McCARTIN, Richard T., Assistant Professor of Obstetrics and Gynecology; BS 1992, Boston College; MD 1998, St. George's
- McCLAIN, David, President Emeritus and Professor of Financial Economics and Institutions; BA 1968, Kansas; PhD 1974, MIT
- McCLELLAN, Janet E., Assistant Professor of SPA-Speech-Language Pathology; BSc 1984, Trent U; MA 1990, Montana; PhD 1998, North Carolina-Chapel Hill
- McCRAW, David R., Professor of Chinese Literature; BA 1981, Massachusetts; MA 1983, PhD 1986, Stanford
- McCREARY, Julian P., Jr., Professor of Oceanography; BS 1966, Pomona College; MS 1968, Stanford; PhD 1977, Scripps Institute of Oceanography
- McDONALD, Jane, Instructor in Nursing; BS 1993, MS 2010, Hawai'i
- McDONALD, Mary G., Director of Center for Japanese Studies and Associate Professor of Geography; BA 1969, Oberlin; MA 1985, PhD 1990, UC Berkeley
- McDONALD, Ty, Assistant Extension in CTAHR; BS 1983, Vermont; MS 1998, Hawai'i
- McDOUGALL, Brandy Nalani, Assistant Professor of American Studies; BA 1998, Whittier College; MFA 2001, Oregon; PhD 2011, Hawai'i
- McDOUGALL, Dennis, Professor of Education; BS 1981, MEd 1982, Lamar U; EdD 1990, Houston
- McDOWELL, Meryl, Junior Researcher, Natural Resources and Environmental Management, CTAHR; BS 2004, Oklahoma; PhD 2009, Hawai'i
- McEWAN, Hunter T., Professor of Education; MA 1976, Edinburgh (Scotland); MEd 1982, PhD 1986, Washington
- McEWEN, Jan, Assistant Extension Agent in CTAHR; BA 1990, MS 1994, Hawai'i
- McFARLANE, Elizabeth C., Associate Professor of Public Health; BA 1991, Colorado; MPH 1993, PhD 2006, Hawai'i
- McGOVERN-HOPKINS, Kathleen, Junior Extension Agent in Molecular Biosciences and Bioengineering, CTAHR; BA 1977, UC Santa Cruz
- McGRANAGHAN, Matthew P., Associate Professor of Geography; BA 1979, MA 1981, SUNY-Albany; PhD 1985, SUNY-Buffalo; Presidential Citation for Meritorious Teaching, 2001
- McGREGOR, Davianna P., Professor of Ethnic Studies; BE 1972, BA 1973, 5-Yr Certificate 1973, MA 1979, PhD 1990, Hawai'i; Hung Wo and Elizabeth Lau Ching Foundation Award for Faculty Service to the Community, 2005
- MCGUCKIN, Nancy, Instructor in Nursing; BSN 1977, MPH 1983, Hawai'i; MSN 2005, MBA 2005, Hawai'i Pacific U
- McHENRY, Robert W., Jr., Professor of English; BA 1965, MA 1967, Boston; PhD 1972, Michigan
- McKENZIE, Katherine A., Assistant Specialist in HNEI; BS 1985, MS 1989, U of Alberta (Canada)
- McKIMMY, Paul B., Director of Technology and Distance Programs and Specialist in Educational Technology; BA 1990, Hope; MA 1992, Bowling Green; EDD 1996, Western Michigan
- McLAIN, Barbara P., Professor of Music; BME 1976, Augustana College; MM 1982, Arizona-Tucson; PhD 1990, Ohio State
- McLAREN, Robert A., Associate Director of IFA; BSc 1968, MSc 1969, PhD 1973, Toronto; Robert W. Clopton Award for Distinguished Community Service, 1992

- STEGER, Manfred, Professor of Political Science; BA 1990, MA 1991, Hawai'i; PhD 1995, Rutgers
- STEINEMANN, Susan K., Assistant Professor of Surgery; BA 1984, UC Santa Barbara; MD 1989, UC San Diego
- STEINHOFF, Patricia, Professor of Sociology; BA 1963, Michigan; PhD 1969, Harvard; Chancellor's Citation for Meritorious Teaching, 2012
- STELOVSKY, Jan, Associate Professor of Information and Computer Sciences; MA 1979, Washington State; DrTechSc 1983, Swiss Federal Institute of Technology
- STEPHENSON, Carolyn M., Associate Professor of Political Science; BA 1966, Mount Holyoke; MA 1974, PhD 1980, Ohio State
- STEVENSON, Duane E., Professor of Meteorology; BS 1972, Wheaton; MS 1973, PhD 1977, Harvard
- STEVENSON, Matthew H., Assistant Extension Agent in Human Nutrition, Food and Animal Sciences, CTAHR; BS 2003, Brigham Young U; MS 2005, UC Berkeley
- STEWART, Grieg, Associate Professor of Oceanography; BA 1986, Cornell; PhD 1996, UC San Diego
- STEWART, Maria L., Assistant Professor of Human Nutrition, Food and Animal Sciences, CTAHR; BS 2003, Northern Michigan; MS 2005, PhD 2008, Minnesota; Frances Davis Award for Excellence in Undergraduate Teaching, 2013
- STEWART, R. Frank, Professor of English; BA 1968, MA 1972, Hawai'i
- STICKLEY, Christopher D., Assistant Professor of Kinesiology and Rehabilitation Science; BSEd 1997, Ohio State; MA 1999, Fresno State; PhD 2008, Hawai'i
- STILGENBAUER, Judith, Associate Professor of Architecture; Dipl-Ing 1996, Technische Universität München (Germany); MLA 1998, UC Berkeley
- STILL, Susanne, Associate Professor of Information and Computer Sciences; Physik Diplom 1995, U of Hannover (Germany); Dr. nat. sci. 2000, Swiss Federal Technical Institute (ETH) (Switzerland)
- STIRR, Anna, Assistant Professor of Asian Studies; BA 2002, Lawrence; MA 2005, MPhil 2006, PhD 2009, Columbia
- STITT-BERGH, Monica, Associate Specialist in Assessment Office; BA 1989, Michigan; MA 1993, PhD 2008, Hawai'i
- STOCKTON, Alan N., Astronomer in IFA; BA 1964, UC Berkeley; PhD 1968, Arizona
- STODDEN, Robert A., Professor of Education; BA 1965, Western Washington; MS 1974, CSU Long Beach; PhD 1976, Florida
- STOKES, Alex, Assistant Researcher in Cell and Molecular Biology; BS 1995, U of Warwick; MS 1996, DeMontfort U; HBO 1996, U of West Brabant; PhD 2004, U of Warwick
- STOKES, Ashley M., Associate Specialist and Veterinarian of Human Nutrition, Food and Animal Sciences, CTAHR; BA 1993, Alabama; DVM 2001, PhD 2003, Louisiana State
- STOTZER, Rebecca, Associate Professor of Social Work; BA 1999, Carnegie Mellon; MSW 2000, MA 2003, PhD 2006, Michigan
- STOYTICHEVA, Zola, Assistant Professor of Anatomy, Biochemistry and Physiology; MS 1984, Sofia State U (Bulgaria); PhD 2001, Czech Academy of Sciences (Czech Republic)
- ST-PIERRE, Jean, Researcher in HNEI; B.Eng. 1983, MScA 1985, PhD 1989, Ecole Polytechnique (Canada)
- STRAUCH, Ayrton, Junior Researcher in Natural Resources and Environmental Management, CTAHR
- STRELTZER, Jon M., Professor of Psychiatry; BA 1966, Yale; MD 1970, Colorado
- STREVELER, Dennis, Professor of Information and Computer Sciences; AB 1968, Catholic U of America; MS 1973, Hawai'i; PhD 1990, UC San Francisco
- SU, Wei-Wen, Professor of Molecular Biosciences and Bioengineering, CTAHR; BS 1985, Chengkung (Taiwan); MS 1987, Johns Hopkins; PhD 1991, Lehigh
- SUGA-NAKAGAWA, Audrey, Junior Specialist in Center on Aging; BS 1983, USC; MPH 1990, UC Berkeley
- SUGANO, Jari S., Associate Extension Agent in Plant and Environmental Protection Sciences, CTAHR; BS 1995, Hawai'i; MS 2001, Michigan State
- SUGIHARA, Kazuo, Associate Professor of Information and Computer Sciences; BS 1980, MS 1982, PhD 1985, Hiroshima (Japan)
- SUGII, Nellie C., Junior Researcher in Lyon Arboretum; BS 1980, MS 1982, Hawai'i
- SULLIVAN, Kathleen, Assistant Professor of Nursing; BSN 1985, Hawai'i Loa; MSN 1991, PhD 2005, Hawai'i
- SUMIDA, Kenneth N., Assistant Professor of Medicine and UHCC; BA 1978, MS 1981, MD 1982, Hawai'i
- SUNDBERG, Dagmar, Instructor in Hawai'i English Language Program; BA 1977, MA 1980, U of Heidelberg (Germany)
- SUNG, Jaeyoon (Jan), Librarian IV in Library Services; DDS 1984, Seoul National (Korea); PhD 1998, Texas-Austin; MLIS 2002, Illinois Urbana-Champaign
- SUNG, Nackil, Librarian IV in Library Services; MS 1983, Seoul National (Korea); MLIS 1998, Texas-Austin
- SUR, Jill, Junior Specialist in Social Work; BS 2001, Hawai'i; MSW 2003, Michigan
- SURYANATA, Krisnawati, Associate Professor of Geography; Sarjana 1978, Institute Pertanian Bogor; MA 1985, Hawai'i; PhD 1994, UC Berkeley; Presidential Citation for Meritorious Teaching, 2001; Peter V. Garrod Distinguished Graduate Mentoring Award, 2013
- SUTHERLAND, Ross A., Associate Dean of College of Social Sciences and Professor of Geography; BSc 1981, MSc 1983, PhD 1988, Toronto
- SUTHERS, Daniel D., Professor of Information and Computer Sciences; BFA 1979, Kansas City Art Institute; MS 1988, PhD 1993, Massachusetts
- SUYDERHOUD, Jack P., Professor of Financial Economics and Institutions; BS 1971, Jamestown College; MS 1972, PhD 1978, Purdue; Presidential Citation for Meritorious Teaching, 1992
- SUZUKI, Mabel K., Librarian IV in Library Services; BEd 1968, MLS 1980, Hawai'i
- SWAN, Sandy, Assistant Extension Agent in CTAHR; BA 1988, Western Illinois; MA 1992, Minnesota
- SY, Angela, Assistant Professor of Nursing; BS 1989, Santa Clara; MPH 1993, Hawai'i; DrPH 2005, North Carolina-Chapel Hill
- SYNODINOS, Nicolaos E., Professor of Marketing; BA 1974, American U of Beirut (Lebanon); PhD 1979, Stirling (UK)
- SYRMOS, Vassilis L., Vice President for Research and Innovation and Professor of Electrical Engineering; PhD 1991, Georgia Tech
- SZAPUDI, Istvan, Astronomer in IFA; MA 1991, Eotvos U (Hungary); PhD 1995, Johns Hopkins
- SZARMES, Eric B., Associate Professor of Physics; BS 1985, British Columbia; PhD 1992, Stanford
- SZOSTAK, John, Associate Professor of Art; BA 1987, Colgate; MA 1996, PhD 2005, Washington
- SZUSTER, Brian, Associate Professor of Geography; BS 1986, U of Alberta (Canada); MA 1992, Simon Fraser U; PhD 2001, U of Victoria
- SZYPER, James P., Associate Specialist in Molecular Biosciences and Bioengineering, CTAHR; BS 1968, MS 1972, PhD 1976, Hawai'i
- TAGALICOD, Rayna A. I., Junior Specialist in Mānoa Advising Center; BA 2007, MEd 2009, Hawai'i
- TAKAGI, Daisuke, Assistant Professor of Mathematics; MMath, MA 2007, PhD 2010, U of Cambridge
- TAKAHASHI, Chintana, Instructor in Thai; BA 1977, Tokyo U of Education; MA 1979, Tsukuba (Japan); MA 1985, Rutgers
- TAKAHASHI, Lorey K., Professor of Psychology; BA 1975, MA 1978, Hawai'i; PhD 1982, Rutgers
- TAKAHASHI, Melanie, Assistant Specialist in Student Affairs; BEd 1975, MEd 1981, Hawai'i
- TAKANISHI, Danny M., Jr., Associate Professor of Surgery; BS 1981, MD 1987, Hawai'i
- TAKENAKA, Cody M., Assistant Professor of Geriatric Medicine; MD 2007, Hawai'i
- TAKESHITA, Junji, Associate Professor of Psychiatry; AB 1984, Columbia College; MD 1989, Temple
- TAM, Elizabeth K., Professor of Medicine; BA 1975, UC Davis; BEd 1979, San Francisco
- TAMARIBUCHI, Sharon, Junior Specialist in Public Administration; BA 1992, MPA 2001, Hawai'i
- TAMARU, Clyde S., Specialist in Molecular Biosciences and Bioengineering, CTAHR; BS 1976, MS 1981, Hawai'i; PhD 1988, Tokyo
- TAMURA, Bruce K., Assistant Professor of Geriatric Medicine; BA 1995, MD 1999, Hawai'i
- TAMURA, Eileen H., Professor of History of Education; BA 1967, Hawai'i; MEd 1971, Antioch Graduate School; PhD 1990, Hawai'i
- TAMURA, Kaori, Assistant Professor of Kinesiology and Rehabilitation Science; BA 2000, Saitama (Japan); MS 2006, PhD 2011, Hawai'i
- TAN, Andrew A. W., Assistant Professor of Surgery; BS 1997, MD 1999, Albany Med. College
- TANABE, Clifton S., Associate Professor of Educational Policy and Law; BA 1988, Fort Lewis College; MEd 1994, Hawai'i; PhD 1998, JD 2004, Wisconsin-Madison
- TANJI, Virginia M., Librarian in JABSOM Library Resource Center; BA 1967, Hawai'i; MSLS 1976, Illinois
- TANKE, Joseph J., Assistant Professor of Philosophy; BA 2000, John Carroll; MA 2002, PhD 2007, Boston College
- TANOUE, Allyson, Director of and Specialist in Student Affairs; BS 1982, MEd 1984, Hawai'i; PhD 1990, Missouri
- TANTISIRA, Kelan G., Assistant Professor of Medicine; BA 1984, Notre Dame; MD 1988, Pittsburgh
- TARUI, Nori, Associate Professor of Economics; BA 1997, MA 1999, Keio (Japan); PhD 2004, Minnesota
- TARUTANI, Cheri, Junior Specialist in Social Work; BA 1999, UCLA; MSW 2003, Hawai'i
- TASAKA, Shari Y., Junior Specialist in Obstetrics and Gynecology; BA 1986, MA 2000, Hawai'i
- TATA, Xerxes, Professor of Physics; BS 1974, Bombay; MS 1976, Indian Institute of Technology; PhD 1981, Texas-Austin
- TATEYAMA, Yumiko, Assistant Professor of Japanese; BA 1984, Kagoshima (Japan); MA 1990, Monterey Institute of International Studies; Certificate (CITS) 1994, MA 1998, PhD 2009, Hawai'i
- TAUALII, Maile M., Assistant Professor of Public Health; BA 1997, MPH 2004, PhD 2009, U of Washington
- TAVARES, Hannah M., Associate Professor of Education; BA 1989, MEd 1994, Hawai'i; PhD 2002, Wisconsin
- TAYLOR, Andrew D., Associate Professor of Biology and Zoology; BA 1974, Harvard; PhD 1984, Duke; MAS 1989, Ohio State
- TAYLOR, Brad, Assistant Professor of Art; BFA 1988, Utah; MFA 1992, New York State College of Ceramics at Alfred U
- TAYLOR, Brian, Dean of SOEST and Professor of Geophysics; BSc 1976, Sydney; MA 1978, MPhil 1979, PhD 1982, Columbia
- TAYLOR, Diane W., Professor of Tropical Medicine, Medical Microbiology and Pharmacology; AA 1966, Cabrillo College; BA 1968, MS 1970, PhD 1975, Hawai'i
- TAYLOR, G. Jeffrey, Associate Director of Space Science in HSGC and Planetary Scientist in HIGP; AB 1966, Colgate; MA 1968, PhD 1970, Rice
- TAYLOR, Jack A., Assistant Professor of English; BA 2005, MA, Bowling Green State; PhD 2013, Michigan State

- TAYLOR, Sherri K., Assistant Professor of Obstetrics and Gynecology; BS 1998, Maryland; MD 2003, Michigan State
- TENG, Michelle H., Associate Professor of Civil and Environmental Engineering; BS 1985, Tsinghua (China); MS 1987, PhD 1990, Cal Tech
- TENGAN, Ty P. K., Associate Professor of Ethnic Studies and Anthropology; BA 1997, Dartmouth; MA 2000, Hawai'i; Certificate in Cultural Studies 2000, Hawai'i and East-West Center; PhD 2003, Hawai'i
- TE PUNGA SOMMERVILLE, Alice, Associate Professor of English; BA 1997, MA 1999, Auckland; PhD 2006, Cornell
- TERADA, Keith Y., Associate Professor of Obstetrics and Gynecology; BA 1977, Dartmouth; MD 1981, Hawai'i
- TERAMURA, Alan H., Professor of Botany; BA 1971, MA 1973, California State; PhD 1978, Duke
- TERAWAKI, Megan S., Junior Specialist in Mānoa Advising Center; BBA 2009, MEd 2012, Hawai'i
- TERLAJE, Julie, Junior Specialist in Arts and Sciences Student Academic Services; BA 1999, Wisconsin-Madison; MEd 2006, Marquette
- TERRELL, Jacob A., Instructor of Linguistics; BA 2002, Alabama; MA 2009, Hawai'i
- TERUYA, Jenny N., Associate Professor of Accounting; BBA 1984, MAcc 1986, Hawai'i; CPA 1987, PhD 1998, Arizona; Chancellor's Citation for Meritorious Teaching, 2002
- TERUYA, Lynette K., Junior Specialist in Okinawan Studies; BA 1993, MLISc 2006, Hawai'i
- TESHIMA, Dick Y., Associate Professor of Medical Technology; BS 1979, MPH 1987, Hawai'i
- TESSIER, Karen, Instructor in Nursing; BS 1965, Connecticut; MS 1986, PhD 2007, Hawai'i
- TEVES, Glenn I., Assistant Extension Agent in Tropical Plant and Soil Sciences, CTAHR; BS 1977, Hawai'i
- THAU, Eric M., Associate Professor of Spanish; BA 1989, San Francisco State; MA 1992, Florida; PhD 2004, UCLA
- THOLEN, David J., Astronomer in IFA; BS 1978, Kansas; PhD 1984, Arizona
- THOMAS, Catherine, Librarian II in Library Services; BA 1990, Humboldt State; MLIS 1994, Hawai'i
- THOMAS, Donald M., Geochemist in HIGP; BS 1970, Dickinson; MS 1972, Oregon; PhD 1977, Hawai'i
- THOMAS, Florence I. M., Associate Researcher in HIMB; BS 1985, Washington; MS 1987, Brown; PhD 1992, UC Berkeley
- THOMPSON, C. Elise, Instructor in Nursing; BS 2001, UNC-Charlotte; MS 2007, Hawai'i
- THOMPSON, Karen S., Associate Professor of Pathology; BS 1985, Hawai'i; MS 1987, Michigan; MD 1991, Indiana
- THOMPSON, Patricia A., Junior Specialist in Travel Industry Management; BA 1984, Georgetown; MA 1989, George Washington
- THOMSON, Robert C., Assistant Professor of Biology and Zoology; BS 2004, Rochester Institute of Technology; PhD 2010, UC Davis
- THORNE, Mark S., Associate Specialist in Human Nutrition, Food and Animal Sciences, CTAHR; BS 1996, MS 1998, Wyoming; PhD 2002, Colorado State
- THORNHILL, Arthur H., III, Associate Professor of Japanese Literature; BA 1974, Princeton; MA 1978, PhD 1985, Harvard
- TIAN, Miayaong, Assistant Professor of Plant and Environmental Sciences, CTAHR; MS Chinese Academy of Agricultural Sciences; PhD 2005, Ohio State
- TICKTIN, Tamara B., Professor of Botany; BSc 1994, PhD 2000, McGill U
- TIIRIKAINEN, Maarit, Faculty Director of Genomics Shared Resource and Associate Specialist in UHCC; MS 1990, PhD 1995, Helsinki (Finland)
- TILLINGHAST, Beth H., Librarian V in Library Services; BA 1969, U of Oregon; Teaching Certificate 1973, PSH; MLIS 2000, MA 2009, Hawai'i
- TIMMERMANN, Axel, Professor of Oceanography; MS 1995, U of Marburg (Germany); PhD 1998, U of Hamburg (Germany)
- TITCHENAL, C. Alan, Associate Professor of Human Nutrition, Food, and Animal Sciences, CTAHR; BA 1969, Hawai'i; MS 1980, PhD 1986, UC Davis; Chancellor's Citation for Meritorious Teaching, 2006
- TIUS, Marcus A., Deputy Director of UHCC and Professor of Chemistry; BA 1975, Dartmouth; MS 1977, PhD 1980, Harvard; Regents' Medal for Excellence in Teaching, 1991
- TOBIASON, Sierra, Junior Extension Agent in SGCP; BS 2006, MS 2011, Hawai'i-Hilo
- TODOROVIC, Cedimir, Assistant Researcher in Cell and Molecular Biology; BS 1996, MS 2002, PhD 2005, U of Belgrade (Serbia)
- TOKITA, Denise M., Junior Specialist in Education; BED 1988, MEd 1990, Hawai'i
- TOKUNAGA, Alan T., Associate Director (Instrumentation) and IRTF Division Chief and Astronomer in IFA; BS 1971, Pomona College; MS 1973, PhD 1976, SUNY-Stony Brook
- TOKUNAGA, Robert S., Assistant Professor of Communication; BA 2005, MA 2007, Hawai'i; PhD 2012, Arizona
- TOMÉ, J. Carlos, Instructor in Spanish; Bed 2008, MA 2010, Hawai'i
- TONRY, John L., Astronomer in IFA; AB 1975, Princeton; MA 1976, PhD 1980, Harvard; Regents' Medal for Excellence in Research, 2004
- TOONEN, Robert J., Researcher in HIMB; BS 1991, MS 1993, PhD 2001, UC Davis; Peter V. Garrod Distinguished Graduate Mentoring Award, 2012
- TORRALBA, Jose A. (Tony), Assistant Professor of Education; BS 1988, UC Davis; PhD 2006, UC Berkeley
- TOTANI, Yuma, Associate Professor of History; BA 1995, International Christian U (Tokyo); MS 1997, U of London; PhD 2005, Berkeley
- TOWNER, Dena, Professor of Obstetrics and Gynecology; BS 1981, Kansas State; MD 1986, UC Irvine
- TRACZYNSKI, Jeffrey R., Assistant Professor of Economics; BA 2004, Swarthmore; MS 2009, PhD 2011, Wisconsin-Madison
- TRAUERNICHT, Parker C., Assistant Specialist in Natural Resources and Environmental Management, CTAHR; BS 1999, Denver; MS 2004, Hawai'i; PhD 2013, Tasmania
- TRICAS, Timothy C., Associate Professor of Biology and Zoology; BA 1974, U Pacific; MA 1976, Cal State Long Island; PhD 1986, Hawai'i
- TRIMBLE, A. Zachary, Assistant Professor of Mechanical Engineering; BS 2005, Utah; MS 2007, PhD 2011, MIT
- TSAL, George, Assistant Professor of Philosophy; BA 2002, Amherst College; PhD 2011, UC Berkeley
- TSAL, Naoky C., Associate Professor of Medicine; MD 1974, Taiwan
- TSCHUDI, Daniel, Assistant Specialist in Chinese Studies; BA 1981, UCLA; Certificate Chinese Language 1983, Zhongshan U (China); MA 1985, UCLA
- TSCHUDI, Stephen L., Instructor in Technology for Foreign Language Education and Language Learning Center; BA 1984, UC Berkeley; MA 1990, MA 1998, Hawai'i
- TSE, Alice, Associate Professor of Nursing; BA 1983, MSN 1984, Cincinnati; PhD 1994, Illinois-Chicago
- TSENG, Chien-Wen, Assistant Professor of Family Medicine and Community Health; BA, BS 1988, Rice; MS 1993, Stanford; MD 1997, MPH 2002, UCLA
- TSUE, Lise V., Instructor in SLP; BS 1985, U Mass; MS 1992, Hawai'i
- TSUMOTO, Courtney, Junior Specialist in Student Athlete Academic Services; MA 2005, MEd 2009, Hawai'i
- TSUTSUMOTO, Thomas S., Junior Specialist in Student Affairs; BA 1995, Hawai'i; MA 1998, UCLA
- TUANYOK, Apichai, Assistant Professor of Tropical Medicine, Medical Microbiology and Pharmacology; BS 1992, Prince Songkla U (Thailand); PhD 2000, U of Liverpool (England)
- TULLY, R. Brent, Astronomer in IFA; BS 1964, British Columbia; PhD 1972, Maryland; Regents' Medal for Excellence in Research, 2008
- TURIN, Mireille, Adjunct Assistant Professor of Architecture; MArch 1993, Swiss Federal Technical U (Zurich)
- TURKSON, James, Director of Natural Products and Experimental Therapeutics Program and Researcher in UHCC; PhD 1995, U of Alberta (Canada)
- TURN, Scott Q., Researcher in HNEL; BS 1983, Pennsylvania State; MS 1985, Hawai'i; PhD 1994, UC Davis
- TWOMEY, Sarah, Assistant Professor of Education; BA 1987, BED 1988, MEd 2000, Queen's U (Canada); PhD 2007, British Columbia (Canada)
- UCHIDA, Hiromi, Instructor in Japanese; BA 1990, Waseda (Japan); MA 1998, Hawai'i
- UCHIDA, Janice Y., Associate Researcher in Plant and Environmental Protection Sciences, CTAHR; BA 1970, MS 1972, PhD 1984, Hawai'i
- UCHIGAKIUCHI, Patrick, Associate Specialist in SSRI; BED 1972, MA 1986, MA 1994, PhD 2001, Hawai'i
- UEHARA, Mari, Assistant Professor of Pediatrics; MD 1994, Japan
- UMEMOTO, Karen, Professor of Urban and Regional Planning; BS 1983, San Francisco State; MA 1989, UCLA; PhD 1998, MIT; Regents' Medal for Excellence in Teaching, 2001
- UNRAU, Karyn, Instructor in Nursing; BSN 2003, U of Victoria; MSN 2009, U of Southern Queensland
- UPERESA, F. Lisa, Assistant Professor of Ethnic Studies and Sociology; BS 1998, UC Berkeley; MA 2004, MPhil 2006, PhD 2010, Columbia
- URBANEJA, Miguel, Junior Scientific Researcher in IFA; PhD 2004, U of La Laguna (Spain)
- URSCHITZ, Johann, Assistant Professor of Anatomy, Biochemistry and Physiology; PhD 2004, Hawai'i
- UYEHARA, Janet K., Assistant Professor of Nursing; BS 1968, Hawai'i; MSN 1969, UC San Francisco; Chancellor's Citation for Meritorious Teaching, 2007

## V

- VAHSEN, Sven E., Assistant Professor of Physics; BS 1997, BA 1997, UCLA; PhD 2003, Princeton
- van ERP, Johannes H. A., Assistant Professor of Mathematics; MSc 2000, Amsterdam; PhD 2005, Pennsylvania State
- VALENZUELA, Hector R., Specialist in Plant and Environmental Protection Sciences, CTAHR; BS 1984, MS 1987, Washington State; PhD 1990, Florida
- VAN DUSER, Kyle, Director of First Year Programs in Undergraduate Education; BA 2010, MS 2012, Cal State Northridge
- VARGO, Stephen L., Professor of Marketing; PhD 1997, Oklahoma
- VARLEY, Richard, Director of Internship and Career Development; BA 1980, Hawai'i Loa College; MA 1982, East Stroudsburg U
- VARNER, Gary S., Associate Professor of Physics; BS 1989, MA 1995, Boston; PhD 1999, Hawai'i
- VASEK, Cheri, Assistant Professor of Theatre; BS 1978, UC Davis; MFA 1993, Virginia Tech
- VASQUEZ-BROOKS, Mirella, Instructor in Nursing; BSN 1996, MSN 1998, Hawai'i
- VAUGHAN, Mehana D. B., Assistant Professor of Natural Resources and Environmental Management; BA 1997, Harvard; MEd 2003, Hawai'i; PhD 2013, Stanford
- VAUSE, Chester A. III, Professor of Physics; BS 1974, Hawai'i; MS 1976, PhD 1979, Rutgers
- VEGA, Luis A., Specialist in HNEL; BS 1968, US Naval Academy; MS 1969, Caltech; MS 1971, PhD 1975, UC San Diego
- VENENCIANO, Linda, Assistant Professor of Education in ITE and CRDG; BA 1993, MAT 1994, Pacific U; PhD 2011, Hawai'i
- VERMA, Saguna, Assistant Professor of Tropical Medicine, Medical Microbiology and Pharmacology; BS 1985, MS 1987, PhD 1994, Devi Ahilya U (India)
- VINCENT, Douglas L., Department Chair and Professor of and Researcher in Human Nutrition, Food, and Animal Sciences, CTAHR; BA 1973, MS 1978, Southern Illinois; PhD 1983, Illinois; Presidential Citation for Meritorious Teaching, 1992
- VIRJI, Maheboob V., Associate Specialist in HNEL; BEng 1991, U of Leeds (UK); MSc 1992, U of Sheffield; PhD 2002, Loughborough (England)
- VITOUSEK, Kelly, Associate Professor of Psychology; BA 1978, PhD 1981, Minnesota; Presidential Citation for Meritorious Teaching, 1991
- VOGEL, Carl-Wilhelm E., Researcher in UHCC; MD 1976, MS 1980, PhD 1986, U of Hamburg (Germany)
- VOLINI, Marguerite, Professor of Pathology; BS 1953, Illinois; PhD 1965, Chicago

von DOETINCHEM, Philip, Assistant Professor of Physics; Diploma Physics 2004, PhD 2009, RWTH Aachen U (Germany)

VOVIN, Alexander V., Professor of East Asian Languages; MA 1983, PhD 1987, Leningrad State (Russia)

## W

WADA, Randal K., Associate Professor of Nursing; BA 1979, MS 1979, Northwestern; MD 1983, Emory

WADA, Yuka, Instructor in Japanese; BA 1988, UH Hilo; MA 1992, Hawai'i

WAINSCOAT, Richard J., Specialist in IFA; BS 1981, Western Australia; PhD 1986, Australia National U

WAITE, Deborah, Professor of Art; AB 1961, Mount Holyoke; MA 1964, PhD 1969, Columbia

WAKAI, Wendy Ann, Assistant Professor of Dental Hygiene; BA 1983, Hawai'i; DMD 1987, Oregon Health Sciences

WAKAYAMA, Lei, Junior Specialist in Outreach College; BA 1978, MA 1994, Hawai'i

WALPITA, Pramila, Assistant Professor of Tropical Medicine, Medical Microbiology and Pharmacology; PhD 1979, MSc 1985, U of London (England)

WALSH, Julianne M., Assistant Specialist in Pacific Islands Studies; BA 1990, Spring Hill College; MA 1995, Louisiana State; PhD 2003, Hawai'i

WALTERS, Lance, Assistant Professor of Architecture; BA 2005, MArch 2006, Montana State; MArch 2011, Harvard

WALTON, Frank C., Specialist in Education; BA 1974, MA 1976, Cal State Los Angeles; PhD 1985, Maryland

WANG, Bin, Professor of Meteorology and IPRC; BS 1967, Shandong College of Oceanography (China); MS 1982, U of Science and Technology (China); PhD 1984, Florida State; Regents' Medal for Excellence in Teaching, 2013

WANG, Chen-Yen, Associate Professor of Nursing; BS 1976, MS 1978, Chinese U (Taiwan); MS 1984, PhD 1987, BS 1992, MS 1995 Tennessee-Knoxville; NP, Postmaster Certificate 2001, Hawai'i

WANG, George C., Associate Professor of Creative Media; BA 1990, Tamkang U (Taiwan); MFA 1996, American Film Institute

WANG, Haidan, Assistant Professor of Chinese; BA 1989, MA 1993, Peking U (China); PhD 2002, Hawai'i

WANG, Jiao, Junior Researcher in Natural Resources and Environmental Management; BS 2003, Northwest U (China); MS 2006, Chinese Academy of Sciences; PhD 2012, Texas State U-San Marcos

WANG, Koon-Hui, Assistant Professor of Plant and Environmental Protection Sciences, CTAHR; BS 1993, National Taiwan U; MS 1999, PhD 2000, Hawai'i

WANG, Liang, Assistant Professor of Economics; BA 2002, Renmin U (China); MA 2009, PhD 2011, Pennsylvania

WANG, Ta-Wei (David), Assistant Professor of Accounting; BBA 2000, MBA 2002, National Taiwan U; PhD 2009, Purdue

WANG, Wei-Kung, Professor of Tropical Medicine, Medical Microbiology and Pharmacology; MD 1986, National Taiwan U; DSc 1995, Harvard

WANG, Wensheng, Associate Professor of History; BA 1998, MA 2001, Wuhan U (China); MA 2006, PhD 2008, UC Irvine

WANG, Xiaojun, Associate Professor of Economics; BS, MA 1997, Wuhan (China); PhD 2001, Ohio State

WANG, Yuqing, Professor of Meteorology and IPRC; BS 1983, Zhongshan (China); MS 1988, Chinese Academy of Meteorological Sciences (China); PhD 1995, Monash (Australia)

WARD, Cynthia A., Associate Professor of English; BA 1982, UC San Diego; MA 1988, PhD 1990, Stanford

WARD, David, Associate Director for Basic Sciences and Translational Research in UHCC; MSc, British Columbia PhD, Rockefeller

WARD, Monika A., Associate Professor of Anatomy, Biochemistry and Physiology; MS 1994, PhD 2001, Poland

WARD, William S., Professor of Anatomy, Biochemistry and Physiology; BS 1980, MS 1981, American U of Beirut (Lebanon); PhD 1985, Vanderbilt

WARNER, Sam No'eau, Associate Professor of Hawaiian; BA 1978, MA 1984, PhD 1996, Hawai'i; Chancellor's Citation for Meritorious Teaching, 2003

WATLING, Leslie E., Professor of Biology and Zoology; BS 1965, Calgary (Canada); MS 1969, U of the Pacific; PhD 1974, Delaware

WATT, George, Professor of Tropical Medicine, Medical Microbiology and Pharmacology; AB 1971, UCB; MD 1976, Universite Paul Sabatier (France)

WATTERS, Michael R., Professor of Medicine; BA 1972, Tennessee-Knoxville; MD 1975, Tennessee-Memphis

WATTS, Margit M., Professor of CRDG; BA 1970, Certificate 1972, Michigan; MSW 1974, PhD 1989, Hawai'i

WEBB, David T., Assistant Professor of Botany; BA 1967, West Chester State; PhD 1978, Montana

WELIN, Stephanie, Coordinator of Student Union Programs, Student Life and Development; MS 2008, Florida International U

WELLS, Jenny C., Assistant Professor of Special Education; BS 1976, MEd 1993, PhD 2003, Hawai'i

WEN, Aida, Associate Professor of Geriatric Medicine; BS 1989, Barnard; MD 1993, Mount Sinai

WEN, Hsing, Assistant Professor of Travel Industry Management; BA 1999, Fairleigh Dickinson U; MBA 2002, UC San Diego; PhD 2006, UNLV

WENDELL, John P., Professor of Accounting; BA 1980, Upsala College; CPA 1984, U of State of New York; PhD 1989, Union College

WENDEROTH, Valeria, Assistant Specialist in Center for Teaching Excellence; BA 1993, MA 1995, PhD 2004, Hawai'i

WENG, Kevin C., Assistant Specialist in Oceanography; BA, Williams College; MS, Hawai'i; PhD 2006, Stanford

WERTHEIMER, Andrew, Associate Professor of Library and Information Science in ICS; BA 1993, Wisconsin; MLS 1995, Indiana U; PhD 2003, Wisconsin-Madison

WESLEY-SMITH, Terence A., Professor of Pacific Islands Studies; BCA 1977, BCA 1978, Victoria-Wellington (New Zealand); PhD 1988, Hawai'i; Regents' Medal for Excellence in Teaching, 2003

WESSEL, Paul, Professor of Geophysics; BS 1982, MS 1984, Oslo (Norway); MPhil 1987, PhD 1990, Columbia; Regents' Medal for Excellence in Research, 1998

WESSENDORF, Markus W., Professor of Theatre; MA 1991, PhD 1996, Justus-Liebig-U Giessen (Germany)

WESTCOTT, Nancy D., Librarian in Law Library; BA 1978, Aquinas College; MLS 1981, Western Michigan

WESTFALL-SENDA, Mandy, Coordinator of New Student Orientation, Student Life and Development; BA 1998, Scripps College; MA 2007, Hawai'i

WHITE, Geoffrey M., Professor of Anthropology; BA 1971, Princeton; MA 1973, PhD 1978, UC San Diego

WHITE, Karen M., Assistant Professor of Art; BA 1989, Rutgers; MFA 1994, Virginia Commonwealth

WICHMANN-WALCZAK, Elizabeth A., Professor of Theatre; BA 1971, Iowa; MA 1973, PhD 1983, Hawai'i; Fujio Matsuda Fellow, 1987

WIECZORCK, Ania, Associate Specialist in Tropical Plant and Soil Sciences, CTAHR; BS 1994, Drexel; PhD 1999, U of Western Cape (South Africa)

WILKENS, George R., Jr., Professor of Mathematics; BS 1980, MS 1983, PhD 1987, North Carolina-Chapel Hill

WILKENS, Lynne R., Faculty Co-Director of Biostatistics and Informatics Shared Resource and Specialist in UHCC; BS 1981, MS 1983, DrPH 2000, North Carolina-Chapel Hill

WILLCOX, Bradley J., Professor of Geriatric Medicine; BS 1982, MS 1991, Calgary (Canada); MD 1992, Toronto

WILLET, Rufus E. J., Assistant Professor of Mathematics; BA 2005, Oxford (UK); PhD 2009, Pennsylvania State

WILLIAMS, Betty Lou, Associate Professor of Education; BA 1977, UC Davis; Cert of Fine Art 1979, Oxford; PhD 1994, Florida

WILLIAMS, Jonathan, Astronomer in IFA; BA 1988, Cambridge; MA 1990, UC Berkeley; MA 1991, Cambridge; PhD 1995, UC Berkeley

WILLIAMS, Philip G., Associate Professor of Chemistry and Assistant Professor of UHCC; BS 1998, Calgary (Canada); PhD 2003, Hawai'i

WILLIAMS, Rebecca J., Assistant Professor of Public Health; BS 2002, Sonoma State; MPH 2004, DrPH 2011, Hawai'i

WILLIAMSON, Michael R., Professor of and Specialist in Molecular Biosciences and Biosystems Engineering, CTAHR; BS 1967, Texas A&M; MS 1969, PhD 1986, Hawai'i

WILLOME, Jason, Assistant Professor of Art; BFA 2000, Texas; MFA 2003, Colorado

WILLS, James R., Jr., Professor of Marketing; BA 1968, Taylor; MBA 1970, Western Michigan; DBA 1976, Kent State

WILLS, Thomas A., Interim Director of Cancer Prevention and Control Program and Researcher in UHCC; BA 1965, Reed College; MA 1972, PhD 1975, Oregon

WILSON, Leslie C., Professor of Mathematics; BA 1969, Oregon; MS 1970, PhD 1973, Illinois

WILSON, Marly L., Specialist in Special Education; BS 1999, BYU-Provo; MPA 2004, Hawai'i

WILTSHIRE, John C., Director of HURL and Associate Chair in Ocean and Resources Engineering; BS 1976, Carleton U (Canada); PhD 1983, Hawai'i

WINGERT, Everett A., Professor of Geography; BA 1964, Michigan; MA 1967, PhD 1973, Washington

WINTER, Jenifer S., Associate Professor of Communication; AB 1991, Occidental; MLIS 1996, PhD 2003, Hawai'i; Regents' Medal for Excellence in Teaching, 2011

WISCHMAN, Kim, Specialist and Physician in University Health Services; BA 1986, Washington; MD 1996, George Washington School of Medicine

WOMACK, Donald R., Professor of Music; BA 1988, BM 1989, Furman; MM 1990, DMA 1993, Northwestern

WOMERSLEY, Christopher, Professor of Biology and Zoology; BSc 1973, PhD 1977, Newcastle Upon Tyne (UK); Regents' Medal for Excellence in Teaching, 1993

WONG, Annette K., Assistant Professor of Hawaiian; BA 2001, MEd 2003, PhD 2010, Hawai'i

WONG, George J., Associate Professor of Botany; BA 1972, MA 1977, San Francisco State; PhD 1983, UC Davis

WONG, Judith A., Instructor in Financial Economics and Institutions; Intensive Language Study Mandarin Chinese 1993, Chinese Central U; BA 1979, Colorado; MBA 1994, Hawai'i

WONG, Kerry, Associate Professor of Hawaiian; BA 1978, Colorado-Boulder; MA 1993, PhD 2006, Hawai'i; Regents' Medal for Excellence in Teaching, 2008

WONG, Leslie K. L., Assistant Professor of Dental Hygiene; BA 1966, Hawai'i; DDS 1972, Washington

WONG, Linda L., Clinical Professor of Surgery and Researcher in UHCC; BS 1982, Stanford; MD 1986, UC Irvine

WONG, Lisa, Assistant Specialist in Arts and Sciences Student Academic Services; BS 1984, Hawai'i; MBA 1994, CSU Long Beach; MEd 2011, Hawai'i

WONG, Lorrie, Instructor in Nursing; BSN 1979, Hawai'i; MS 1988, Columbia; PhD 2009, Hawai'i; Chancellor's Citation for Meritorious Teaching, 2004

WONG, Matthew Kainoa, Instructor in Hawaiian Language; BA 2004, MA 2012, Hawai'i

WONG, Wesley L., Specialist and Physician in University Health Services; BA 1983, Washington; MD 1987, Internal Medicine 1990, Hawai'i

WOO, Patrick Chi-Kwong, Instructor in Japanese; BA 1988, MA 1990, Hawai'i; Frances Davis Award for Excellence in Undergraduate Teaching, 2007

WOOD, D. William, Professor of Sociology; BA 1968, Saskatchewan (Canada); MPH 1979, MA 1980, PhD 1983, Hawai'i

WOODRUFF, Rosemarie V., Associate Specialist in Learning Assistance Center; BEd 1970, MEd 1974, PhD 2006, Hawai'i

WOOLLEN, Mary C., Instructor in Accounting; BA 1983; MAcc 1997, Hawai'i; CPA 1998

WRIGHT, Erin Kahunawaika'ala, Director of Native Hawaiian Student Services; BA 1995, Hawai'i; MA 1997, PhD 2003, UCLA

WRIGHT, Lesley, Professor of Music; BA 1972, Smith College; MFA 1974, PhD 1981, Princeton

WRIGHT, Mark G., Professor and Specialist in Plant and Environmental Protection Services, CTAHR; BSc 1987, MSc 1990, Stellenbosch (South Africa); PhD 1996, Natal (South Africa)

WRIGHT, Robert, Associate Researcher in HIGP; BA 1994, The U of Sheffield (UK); MS 1995, U College London (UK); PhD 1999, The Open U-Milton Keynes (UK)

WRIGHT, Tricia E., Assistant Professor of Obstetrics and Gynecology; BS 1989, Stanford; MD 1994, Michigan; MS 2009, Hawai'i

WU, Xiaoping, Assistant Researcher in Pacific Mapping Program; BS 1982, Jiangxi School of Metallurgy (China); MS 1984, Seimol. Inst.; PhD 1993, Colorado

WURTZBURG, Susan J., Assistant Professor of Sociology; BS 1983, Trent (Canada); PhD 1991, U of Albany

## X

XIE, Guoxiang, Assistant Specialist in UHCC; MS 2004, East China U of Science and Technology (China); MD 2007, Shanghai Jiao Tong U (China)

XIE, Shang-Ping, Professor of Meteorology and IPRC; BS 1984, Shandong College of Oceanography (China); MS 1988, PhD 1991, Tohoku (Japan)

XU, Xiaodong, Junior Researcher; BS 1984, MS 1987, Hangzhou (PR China); PhD 1992, Hawai'i

XU, Yiyuan, Associate Professor of Psychology; BA 1996, MA 1999, East China Normal U; MA 2001, PhD 2004, USC

## Y

YAMADA, Lawrence M., Associate Professor of Dental Hygiene; DDS 1955, St. Louis; Certificate 1967, Boston; MS 1973, USC

YAMADA, Seiji, Associate Professor of Area Health Education Center; BA 1983, Harvard; MD 1987, Illinois; MPH 1996, Hawai'i

YAMAKAWA, Roy, Associate Extension Agent in Tropical Plant and Soil Sciences, CTAHR; BEd 1971, MS 1975, Hawai'i

YAMAMOTO, Eric K., Professor of Law; BA 1975, Hawai'i; JD 1978, UC Berkeley; Presidential Citation for Meritorious Teaching, 1990, 1998; Regents' Medal for Excellence in Teaching, 2005

YAMAMOTO, Kathryn K., Assistant Professor of Education; BS 1978, MEd 1998, PhD 2010, Hawai'i

YAMAMOTO, Loren G., Professor of Pediatrics; BS 1978, MD 1983, MPH 1980, MBA 1993, Hawai'i

YAMAUCHI, Kazuhiro, Junior Researcher in Anatomy, Biochemistry and Physiology; BS 1997, MS 1999, PhD 2003, Hiroshima (Japan)

YAMAUCHI, Lois A., Professor of Education; BA 1986, MA 1991, PhD 1993, Hawai'i; Chancellor's Citation for Meritorious Teaching, 2008

YAMAZAKI, Yukiko, Assistant Professor of Anatomy, Biochemistry and Physiology; BA 1983, DVM 1985, PhD 1990, Japan

YAN, Tao, Associate Professor of Civil and Environmental Engineering; BS 1997, Wuhan U of Tech. (China); MS 2000, Tsinghua U (China); PhD 2004, Minnesota

YANAGIDA, John F., Researcher in Natural Resources and Environmental Management, CTAHR; BA 1971, Hawai'i; MA 1975, PhD 1978, Illinois; Presidential Citation for Meritorious Teaching, 1992; Chancellor's Citation for Meritorious Teaching, 2003

YANAGIHARA, Angel A., Assistant Researcher in PBRC; BA 1982, Virginia; PhD 1997, Hawai'i

YANAGIHARA, Richard T., Professor of Pediatrics; BA 1968, Hawai'i; MD 1972, Cincinnati; MPH 1985, Johns Hopkins

YANCURA, Loriga A., Associate Professor of Family Resources in CTAHR; BA 1988, PhD 2004, UC Davis

YANG, David C., Professor of Accounting; BA 1977, National Taiwan U; MBA 1979, UC Berkeley; PhD 1985, Columbia; CMA, CFM 2000, Hawai'i; Regents' Medal for Excellence in Teaching, 2004

YANG, Haining, Associate Professor of UHCC; MD 1997, PhD 2002, Shandong Medical U (China)

YANG, Jinzeng, Associate Professor of Human Nutrition, Food, and Animal Sciences, CTAHR; BS 1985, MS 1988, China; PhD 1999, U of Alberta (Canada)

YANG, Jude Y., Librarian II in Library Services; BA 1992, Ewha Womans U (Korea); MLIS 2008, Hawai'i

YANG, Myungji, Assistant Professor of Political Science; BA 2001, MA 2003, Yonsei U (Korea); PhD 2012, Brown

YANO, Christine R., Professor of Anthropology; BA 1973, Stanford; MA 1988, PhD 1995, Hawai'i; Regents' Medal for Excellence in Teaching, 2011

YAO, Kuang-tien C., Librarian V in Library Services; BA 1968, Tamkang (Taiwan); MLS 1992, Simmons; MA 2003, Hawai'i

YAP, Allison K., Study Abroad Advisor and Assistant Specialist in Study Abroad Center; BA 1992, MA 1994, Hawai'i

YARBROUGH, William J., Assistant Professor of Surgery; BS 1964, MD 1968, Medical U of South Carolina

YATES, Alayne, Professor of Psychiatry; BA 1950, Radcliffe; MD 1961, Illinois

YATES, Julian R., III, Specialist in Plant and Environmental Protection Sciences, CTAHR; BS 1965, MS 1968, PhD 1988, Hawai'i

YEE, Barbara W. K., Professor of Family and Consumer Sciences; BA 1974, Hawai'i; MA 1979, PhD 1982, Denver

YEE, James R., Associate Professor of Electrical Engineering; BEE 1972, City College of New York; SM 1974, PhD 1986, MIT

YEE, Thomas, Professor of Music; BM 1995 Memorial U of Newfoundland (Canada); MM 1997, Colorado-Boulder; DMA 2002, U of Rochester-Eastman

YEUNG, Norine, Assistant Researcher in PBRC; BS 2003, PhD 2010, Hawai'i

YIM, Christopher D., Junior Specialist in Education; BA 1997, MEd 1999, Hawai'i

YOKOCHI, Gareth C., Assistant Professor of Obstetrics and Gynecology; BA 1969, Hawai'i; MD 1973, UCLA

YONTZ, Valerie, Specialist in Public Health; BA 1974, Illinois Wesleyan U; MS 1976, BSN 1977, Saint Louis U; MSN 1982, Utah; MA 1994, MPH 1994, PhD 1995, Hawai'i

YOO, T. Jun, Associate Professor of History; BA 1995, UC Riverside; MA 1997, PhD 2002, Chicago

YOON, Yeon-Hee, Instructor in Korean; BS 1986, Ewha Womans U (Korea); MA 2006, PhD 2010, Hawai'i

YOSHIMURA, Mari, Professor of American Studies; BA 1991, Tokyo; MA 1992, PhD 1997, Brown; Distinguished Graduate Mentoring Award, 2007

YOSHIMI, Dina R., Associate Professor of Japanese; BA 1984, Yale; MA 1989, PhD 1993, USC

YOSHIOKA, Jon, Associate Professor of Education; BS 1985, MS 1987, UC Riverside; MBA 1989, CSU-San Bernardino; PhD 2010, Hawai'i

YOST, Russell S., Professor of and Soil Scientist in Tropical Plant and Soil Sciences, CTAHR; BS 1970, Kansas State; MS 1972, Nebraska; PhD 1977, North Carolina State

YOUKHANA, Adel H., Junior Researcher in Natural Resources and Environmental Management, CTAHR; BS 1982, MS 1986, Mosul (Iraq); PhD 2010, Hawai'i

YOUNG, Benjamin B. C., Associate Professor of Native Hawaiian Health; BS 1960, MA 1964, Pepperdine; MD 1970, Howard

YOUNG, Donald B., Jr., Dean and Professor of Education; BS 1968, MS 1969, SUNY; EdD 1986, Hawai'i

YOZA, Brandon A., Assistant Researcher in HNEI; BS 1992 Loyola Marymount; MS 1995, Hawai'i; PhD 2002, Tokyo U of Agriculture and Technology

YU, Herbert, Director of Cancer Epidemiology Program and Associate Director of Cancer Control and Population Sciences and Researcher in UHCC; MD 1983, Shanghai Medical U (China); MSc 1990, PhD 1996, Toronto

YU, Jian, Researcher of HNEI; BEng 1982, MS 1985, Zhejiang (China); PhD 1991, British Columbia

YU, Mihae, Professor of Surgery; BA 1975, Smith College; MD 1979, Hawai'i

YUE, Ming-Bao, Associate Professor of Chinese Literature; MA 1985, PhD 1991, Stanford

YUEN, Sylvia, Professor of Family and Consumer Sciences, CTAHR; BS 1964, Hawai'i; MS 1965, Illinois; PhD 1975, Hawai'i; Robert W. Clopton Award for Distinguished Community Service, 1983; Chancellor's Citation for Meritorious Teaching, 2002

YUN, Zhengqing, Associate Professor of HCAC; BS 1982, Nanjing South East U (China); MS 1991, PhD 1994, Chongqing U (China)

## Z

ZALESKI, Halina M., Professor of and Specialist in Human Nutrition, Food, and Animal Sciences, CTAHR; BS 1974, Saskatchewan; PhD 1992, Guelph

ZALUD, Ivica, Professor of Obstetrics and Gynecology; MD 1986, PhD 1992, U of Zagreb (Croatia)

ZEE, Julia, Extension Agent in Human Nutrition, Food, and Animal Sciences, CTAHR; BS 1983, Oregon; MPH 1984, Hawai'i

ZEEBE, Richard E., Professor of Oceanography; MS 1995, PhD 1998, U of Bremen (Germany)

ZENG, Suzanne M., Instructor in Chinese, Translation and Interpretation; BA 1980, Redlands; MA 1989, PhD 1996, Hawai'i

ZENIGAMI, Fay K., Junior Specialist in CRDG; BEd 1974, PD 1975, MEd 1975, Hawai'i

ZHAI, Yunfeng, Junior Researcher in HNEI; BS 2002, Henan (China); PhD 2007, Chinese Academy of Science (China)

ZHANG, Rui, Assistant Professor of Electrical Engineering; BE 2001, ME 2005, Huazhong U of Science and Technology (China); PhD 2013, Arizona State

ZHANG, Shuqiang, Associate Professor of Education; BA 1967, Fudan; MA 1985, PhD 1990, Hawai'i; Regents' Medal for Excellence in Teaching, 1993

ZHANG, Wei, Associate Professor of Sociology; BA 2000, MA 2002, Nanjing U (China); MS 2005, PhD 2007, Texas-Austin

ZHAO, Jingxia, Assistant Researcher in Meteorology; BS 1981, Nanjing Institute of Meteorology (China); MS 1984, Academia Sinica (China); MS 1990, PhD 1993, UCLA

ZHENG, Dongping, Assistant Professor of Second Language Studies; BA 1995, Northeast Normal U (China); MA 1997, Jilin U (China); MA 1998, U of Great Falls; PhD 2006, Connecticut

ZHOU, Kate Xiao, Professor of Political Science; BA 1982, Wuhan College (PR China); MS 1989, Texas A&M; PhD 1994, Princeton

ZHOU, Jian, Associate Professor of Accounting; BS 1992, MS 1995, Peking U (China); PhD 2000, Syracuse

ZHOU, Xiangrong, Assistant Professor of Electrical Engineering; BS 1999, Tsinghua U (China); PhD 2008, Maryland

ZIEGLER, Herbert F., Associate Professor of History; BA 1971, Evansville; MA 1973, Baylor; PhD 1980, Emory

ZIEHM, Scott R., Associate Dean for Academic Affairs and Specialist in Nursing; BS 1983, Baldwin Wallace College; DNP 1987, Case Western Reserve

ZILLIOX, Joseph T., Professor of Education; BA 1971, Xavier; EdD 1990, Georgia; Frances Davis Award for Excellence in Undergraduate Teaching, 1995

ZININ, Pavel, Researcher in HIGP; PhD 1987, Moscow Institute of Physics

ZUERCHER, Deborah, Associate Professor of Education; BA 1983, U of Waterloo (Canada); BA 1996, MA 1997, PhD 2007, Kent State

ZUERN, John, Associate Professor of English; BA 1986, Moorhead State; MA 1991, MA 1993, PhD 1995, Texas-Austin; Chancellor's Citation for Meritorious Teaching, 2005; Regents' Medal for Excellence in Teaching, 2012

ZUO, Yi, Assistant Professor of Mechanical Engineering; BS 1998, MS 2001, U Science and Technology (Beijing); PhD 2006, Toronto

# Faculty Emeriti

## A

ABRAMSON, Norman, Professor Emeritus of Electrical Engineering; BA 1953, Harvard; MA 1955, UCLA; PhD 1958, Stanford

ADACHI, Mitsuo, Professor Emeritus of Educational Administration; BEd 1949, MEd 1964, Hawai'i; EdD 1971, Arizona State

ADAMS, Paul L., Professor Emeritus of Social Work; BA/MA 1964, Oxford University (England); MSW 1970, U of Sussex (England); DSW 1979, UC Berkeley

AKITA, George, Professor Emeritus of History; BA 1951, Hawai'i; MA 1953, PhD 1960, Harvard

ALLEN, Richard D., Professor Emeritus of Microbiology; BA 1957, Greenville College; MS 1960, Illinois; PhD 1964, Iowa State

ALTIZER, Nell G., Professor Emeritus of English; BA 1957, St. Louis; MA 1962, Emory; Presidential Citation for Meritorious Teaching, 1986

ANDERSON, Alexander S., Professor Emeritus of Medicine; BA 1951, MD 1951, MD 1954, Michigan; MEd 1966, Illinois

ANDERSON, C. Webster, Professor Emeritus of Art; BA 1933, UC Berkeley; MA 1953, UCLA

APFFEL, James A., Associate Professor Emeritus of Education; BS 1963, Maryland; MEd 1967, Hawai'i; EdD 1969, George Peabody College for Teachers

AQUINO, Belinda A., Professor Emeritus of Asian Studies; BA 1957, U of Philippines; MA 1965, Hawai'i; PhD 1974, Cornell; Hung Wo and Elizabeth Lau Ching Foundation Award for Faculty Service to the Community, 2008

ARAKI, Charles T., Professor Emeritus of Educational Administration; BEd 1957, Certificate 1962, Hawai'i; MS 1960, EdD 1970, Illinois

ARDOLINO, Frank R., Professor Emeritus of English; BS 1962, St. John's; MA 1964, NYU; PhD 1975, UC Riverside

ARKOFF, Abe, Professor Emeritus of Psychology; BA 1946, MA 1948, PhD 1951, Iowa; Regents' Medal for Excellence in Teaching, 1968

ASHTON, Geoffrey C., Professor Emeritus of Genetics; BS 1945, PhD 1958, DSc 1967, Liverpool

ATEN, Donald G., Professor Emeritus of Educational Technology; BEd 1956, BA 1961, Hawai'i; MA 1957, EdD 1969, Columbia

AYABE, Harold I., Professor Emeritus of Educational Psychology; BA 1957, Fort Wayne Bible College; MEd 1968, PhD 1969, Indiana; Regents' Medal for Excellence in Teaching, 1972

## B

BAIL, Frederick T., Professor Emeritus of Education; AB 1965, Bowdoin; PhD 1970, Cornell; Regents' Medal for Excellence in Teaching, 1992

BAILEY, Joseph K., Professor Emeritus of Management; BA, BS 1934, Salem; MBA 1948, PhD 1955, Texas

BAILEY, Leslie E., Professor Emeritus of Pharmacology; BS 1959, Utah State; PhD 1966, Utah

BAKER, Barry John, Professor Emeritus of Architecture; Diploma in Architecture 1963, New South Wales (Australia)

BALL, Robert J., Professor Emeritus of Classics; BA 1962, Queens College; MA 1963, Tufts; PhD 1971, Columbia; Regents' Medal for Excellence in Teaching, 1979; Fujio Matsuda Scholar, 1985

BANGERT, David C., Professor Emeritus of Management and Industrial Relations; BS 1965, USMA; MBA 1986, Hawai'i; MS 1987, PhD 1989, Harvard; Regents' Medal

for Excellence in Teaching, 1995; Hung Wo and Elizabeth Lau Ching Foundation Award for Faculty Service to the Community, 2002

BARTHOLOMEW, Duane P., Agronomist Emeritus; BS 1961, California Polytechnic; PhD 1965, Iowa State

BARUFFI, Gigliola, Professor Emeritus of Public Health; MD 1957, Milan (Italy); MPH 1970, Johns Hopkins

BAYER, Ann S., Professor Emeritus of Education; BA 1963, Maine; MEd 1970, New Hampshire; PhD 1982, Stanford

BECKER, Theodore L., Professor Emeritus of Political Science; BA 1954, LLB 1956, Rutgers; MA 1960, Maryland; PhD 1964, Northwestern

BEECHERT, Edward D., Jr., Professor Emeritus of History; BA 1947, MA 1949, PhD 1957, UC Berkeley

BENDER, Byron W., Professor Emeritus of Linguistics; BA 1949, Goshen College; MA 1950, PhD 1963, Indiana

BERGER, Leslie R., Professor Emeritus of Microbiology; BS 1950, Cincinnati; MS 1953, Washington; PhD 1957, UC Davis

BERTRAM, Edward A., Professor Emeritus of Mathematics; BA 1962, MA 1964, PhD 1968, UCLA

BERTRAM, John S., Professor Emeritus of Cell and Molecular Biology; BSc 1966, MSc 1968, PhD 1970, Manchester (UK)

BEVENUE, Arthur, Professor Emeritus of Molecular Biosciences and Biosystems Engineering; BS 1946, UC Berkeley

BEZONA, Norman C., Extension Agent Emeritus; BS 1961, Arizona; MA 1968

BHAGAVAN, Nadhipuram V., Professor Emeritus of Biochemistry; BS 1951, Mysore; MS 1955, Bombay; PhD 1960, UC Berkeley; Regents' Medal for Excellence in Teaching, 1974

BICKERTON, Derek, Professor Emeritus of Linguistics; BA 1949, MA 1950, PhD 1976, Cambridge; Regents' Medal for Excellence in Research, 1992

BILMES, Jacob M., Professor Emeritus of Anthropology; BA 1961, Yale; MA 1970, PhD 1974, Stanford; Fujio Matsuda Scholar, 1987

BLAINE, Daniel D., Professor Emeritus of Educational Psychology; BA 1965, Western State College; PhD 1972, Texas-Austin

BLAISDELL, Richard K., Professor Emeritus of Medicine; AB 1945, Redlands; MD 1947, Chicago

BLANCHETTE, Patricia L., Professor Emeritus of Geriatric Medicine; BA 1974, MPH 1979, MD 1979, Hawai'i; Hung Wo and Elizabeth Lau Ching Foundation Award for Faculty Service to the Community, 2006

BLOOM, Alfred, Professor Emeritus of Religion; AB, ThB 1951, East Baptist Theological Seminary; BM, STM 1953, Andover Newton Theology School; PhD 1963, Harvard

BLOOMBAUM, Milton S., Professor Emeritus of Sociology; AB 1952, UC Berkeley; MA 1958, USC; PhD 1961, UCLA

BOESGAARD, Ann M., Professor Emeritus of Astronomy; AB 1961, Mt. Holyoke; PhD 1966, UC Berkeley; DSc (H) 1981, Mt. Holyoke

BOGGS, Stephen T., Professor Emeritus of Anthropology; AB 1947, Harvard; PhD 1954, Washington U

BOWMAN, Addison M., Professor Emeritus of Law; AB 1957, Dartmouth; LLB 1963, Fairleigh Dickinson; LLM 1964, Georgetown

BOYER, William H., Professor Emeritus of Education; BA 1948, Oregon; MEd 1952, Colorado; EdD 1956, Arizona State

BRANDON, James R., Professor Emeritus of Theatre; PhB 1948, MS 1949, PhD 1955, Wisconsin; Regents' Medal for Excellence in Research, 1977; Fujio Matsuda Scholar, 1991;

Uchimura Prize, International Theatre Institute, UNESCO, 1996

BRAUN, Frederick G., Professor Emeritus of Education; BA 1949, MEd 1954, EdD 1962, UCLA

BRENEMAN, Lucille, Professor Emeritus of Speech; BA 1935, Baylor; MA 1949, Hawai'i

BRENNAN, Barry M., Specialist Emeritus in Pesticides; BS 1967, Arizona State; MS 1969, PhD 1975, Hawai'i

BRETSCHNEIDER, Charles L., Professor Emeritus of Ocean and Resources Engineering; BS 1947, Hillsdale College; MS 1950, UC Berkeley; PhD 1959, Texas A&M

BRISLIN, Richard W., Professor Emeritus of Management and Industrial Relations; BS 1966, Guam; MS 1967, PhD 1969, Pennsylvania State; Regents' Medal for Excellence in Teaching, 2004

BROWN, Ronald P., Professor Emeritus of Mathematics; BA 1964, Reed College; MA 1966, PhD 1968, Oregon

BRYANT-GREENWOOD, Gillian D., Professor Emeritus of Cell and Molecular Biology; BS 1965, PhD 1968, Brunel (UK)

BUCHELE, Robert B., Professor Emeritus of Management; AB 1938, Columbia; MBA 1943, Harvard; PhD 1952, Chicago

BULLOCK, Richard M., Horticulturist Emeritus; BS 1940, Kansas State; MS 1942, PhD 1950, Washington State

BURGESS, John C., Professor Emeritus of Mechanical Engineering; ScB 1944, Brown; MS 1949, PhD 1955, Stanford

BUSHNELL, Kenneth W., Professor Emeritus of Art; BA 1956, UCLA; MFA 1961, Hawai'i

BUTLER Lucius A., Professor Emeritus of Education; BA 1952, Bethel; MRE 1954, Northern Baptist Seminary; BD 1955, Bethel Seminary; MA 1955, PhD 1968, Minnesota; MLS 1974, Hawai'i

## C

CADMAN, Edwin C., Professor Emeritus of Medicine; BA 1967, Stanford; MD 1971, Oregon

CAMPBELL, Charles M., Researcher Emeritus in Animal Science; BS 1958, Texas A&M; MS 1960, Idaho; PhD 1964, Oklahoma State

CANNON, Glenn, Professor Emeritus of Theatre; BA 1954, Temple

CARLSON, John G., Professor Emeritus of Psychology; BA 1963, PhD 1967, Minnesota

CARR, Gerald D., Professor Emeritus of Botany; BA 1968, Eastern Washington U; MS 1970, Wisconsin; PhD 1975, UC Davis

CARROLL, William Dennis, Professor Emeritus of Theatre and Dance; BA 1962, MA 1966, Sydney; MFA 1964, Hawai'i; PhD 1969, Northwestern

CENCE, Robert J., Professor Emeritus of Physics; AB 1952, PhD 1959, UC Berkeley; Presidential Citation for Meritorious Teaching, 1991

CHANDLER, David B., Professor Emeritus of Sociology; BA 1960, MA 1964, McMaster; PhD 1970, Cornell; Robert W. Clopton Award for Distinguished Community Service, 1984

CHANG, Jen Hu, Professor Emeritus of Geography and Climatology; BA 1949, Che Kiang; MA 1952, PhD 1954, Clark

CHANG, Sen-Dou, Professor Emeritus of Geography; BA 1949, Chin-nan (China); MA 1955, Wisconsin; PhD 1961, Washington

CHANG, Thomas M. C., Professor Emeritus of Education; BA 1947, Hawai'i; MA 1950, Columbia; PhD 1957, Ohio State

- CHAPMAN, Murray, Professor Emeritus of Geography; BA 1957, MA 1960, Auckland; PhD 1970, Washington
- CHAR, Donald F. B., Specialist Emeritus in Student Health Services; MD 1950, Temple
- CHAR, Walter F., Professor Emeritus of Psychiatry; MD 1945, Temple
- CHARLOT, John P., Professor Emeritus of Religion; BA 1962, Louvain; DTh 1968, Munich
- CHATTERGY, Virgie O., Professor Emeritus of Curriculum Studies; BS 1960, St. Theresa's College (Philippines); MA 1966, EdD 1969, UCLA
- CHEN, Wai-Fah, Researcher Emeritus in Civil and Environmental Engineering; BS 1959, National Cheng-Kung; MS 1963, Lehigh; PhD 1966, Brown
- CHENG, Edmond D. H., Professor Emeritus of Civil and Environmental Engineering; BS 1961, National Taiwan U; PhD 1969, Utah State
- CHENG, Ping, Professor Emeritus of Mechanical Engineering; BS 1958, Oklahoma State; MS 1960, MIT; PhD 1965, Stanford; Fujio Matsuda Scholar, 1989
- CHENG, Robert L., Professor Emeritus of Chinese and Japanese; BA 1960, MA 1963, Taiwan Normal U; PhD 1966, Indiana
- CHESNEY, Lee R., Jr., Professor Emeritus of Art; BFA 1946, Colorado; MFA 1948, Iowa
- CHIA, Chian Leng, Specialist Emeritus in Horticulture; BS 1968, MS 1969, Hawai'i; PhD 1975, Cornell
- CHING, Chauncey T. K., Researcher Emeritus in Natural Resources and Environmental Management, CTAHR; BS 1962, UC Berkeley; MS 1965, PhD 1967, UC Davis
- CHIU, Wan-Cheng, Professor Emeritus of Meteorology; BS 1941, National Central (China); MS 1947, PhD 1951, New York
- CHO, John J., Researcher Emeritus in Plant Pathology; BA 1968, Hawai'i; MS 1972, PhD 1974, UC Berkeley
- CHOE, Yong-ho, Professor Emeritus of History; BA 1961, Arizona; MA 1963, PhD 1971, Chicago
- CHOU, James C. S., Professor Emeritus of Mechanical Engineering; BS 1941, National Institute of Technology (China); MS 1949, Georgia Institute of Technology; PhD 1968, Oklahoma State
- CHOU, Michaelyn P., Librarian Emeritus; BA 1954, MLS 1955, UC Berkeley; MA 1975, PhD 1980, Hawai'i
- CLARKE, Antony D., Researcher Emeritus in Oceanography; BS 1967, Delaware; MS 1978, Portland State; PhD 1983, Washington
- COLBY, Robert R., Professor Emeritus of Mathematics; BS 1960, MA 1963, PhD 1965, Washington
- COLE, Robert E., Professor Emeritus of Psychology; BA 1961, Montana; MA 1963, PhD 1966, Hawai'i
- COLLISON, Fredrick M., Professor Emeritus of Travel Industry Management; BSE 1969, Michigan; MBA 1976, Delaware; PhD 1982, Michigan State
- CONANT, Sheila, Professor Emeritus of Biology and Zoology; BA (Hons) 1966, MS 1968, Hawai'i; MS 1972, PhD 1972, Oklahoma; Robert W. Clopton Award for Distinguished Community Service, 1985; Fujio Matsuda Scholar, 1990; Regents' Medal for Excellence in Teaching, 1992
- COOKE, Ian M., Professor Emeritus of Zoology and PBR; AB 1955, MA 1959, PhD 1962, Harvard
- COOPER, Joanne E., Professor Emeritus of Educational Administration; BA 1967, Oregon State; MA 1969, MA 1981, PhD 1989, Oregon; Regents' Medal for Excellence in Teaching, 1994
- CORBIN, Donald A., Professor Emeritus of Accounting and Business Economics; BS 1942, MBA 1943, PhD 1945, UC Berkeley; CPA 1947, California
- COTLAR, Morton, Professor Emeritus of Management and Industrial Relations; BSME 1950, MSAeroE 1955, Drexel; PhD 1969, Georgia
- COWING, Cedric B., Professor Emeritus of History; BA 1948, MA 1950, Stanford; PhD 1956, Wisconsin-Madison
- CRAMER, Roger E., Professor Emeritus of Chemistry; BS 1965, Bowling Green; PhD 1969, Illinois
- CRAVEN, John P., Professor Emeritus of Ocean Engineering; BS 1946, Cornell; MS 1947, CIT; PhD 1951, Iowa; JD 1958, George Washington
- CRAWFORD, S. Cromwell, Professor Emeritus of Religion; BD 1952, Serampore; MAT 1959, Indiana; ThD 1965, Pacific School of Religion
- CREAN, John E., Jr., Professor Emeritus of German; AB 1962, College of Holy Cross; MA 1964, PhD 1966, Yale
- CREED, Walter G., Professor Emeritus of English; BA 1960, MA 1961, PhD 1968, Pennsylvania
- CRILEY, Richard A., Researcher Emeritus in Tropical Plant and Soil Science, CTAHR; BS 1962, MS 1964, Pennsylvania State; PhD 1968, UCLA
- CROOK, Keith A. W., Specialist Emeritus in Oceanography; BSc 1954, MSc 1956, Sydney; PhD 1959, New England; BA 1967, Australia National
- CROOKER, Peter P., Professor Emeritus of Physics; BS 1959, Oregon State; PhD 1967, Naval Postgraduate School; Regents' Medal for Excellence in Teaching, 1997
- CROWELL, David H., Professor Emeritus of Psychology; BS 1946, Drew; PhD 1950, Iowa
- CURRIE, Edward M., Professor Emeritus of Accounting; BSc 1948, Iowa; MS 1965, PhD 1967, Minnesota; CMA 1973, Hawai'i
- CURTIS, Delores M., Professor Emeritus of Health, Physical Education, and Recreation; BS 1951, Indiana State Teachers; MS 1957, EdD 1963, Illinois

## D

- DAEUFER, Carl J., Professor Emeritus of Education; BS 1953, Penn State Teachers (Kutztown); MEd 1955, Temple; EdD 1972, Florida
- DALE, Verda M., Specialist Emeritus in Home Economics; BS 1938, Kansas State; MS 1950, Cornell; PhD 1968, Michigan State
- DANIEL, L. Scott, Professor Emeritus of Engineering; BS 1945, Montana State
- DAUER, Dorothea W., Professor Emeritus of German; Diploma 1937, Sorbonne; PhD 1953, Texas
- DAVIDSON, Dana H., Professor Emeritus of Family and Consumer Sciences, CTAHR; BS 1971, Northwestern; MA 1972, Peabody Vanderbilt; PhD 1978, Claremont Graduate School; Regents' Medal for Excellence in Teaching, 1992
- DAVIDSON, Jack R., Researcher Emeritus in Agricultural Economics; BS 1953, Wyoming; MS 1956, Montana State; PhD 1960, UC Berkeley
- DAWSON, Alexander J., Professor Emeritus of Education; BSc 1961, Edmonton; MA 1963, Washington-St. Louis; Prof Tchg Certif 1966, PhD 1969, U of Alberta (Canada)
- DAWSON, Ruth P., Professor Emeritus of Women's Studies; BA 1965, College of Wooster; MA 1968, PhD 1973, Michigan
- DAWSON, Steven M., Professor Emeritus of Financial Economics and Institutions; BA 1964, College of Wooster; MBA 1965, PhD 1971, Michigan; Presidential Citation for Meritorious Teaching, 1989; Regents' Medal for Excellence in Teaching, 1990
- DELA PENA, Ramon S., Agronomist Emeritus; BS 1958, U of the Philippines; MS 1964, PhD 1967, Hawai'i
- DES JARLAIS, Mary Ellen, Professor Emeritus of Home Economics; BS 1940, MS 1963, Wisconsin; PhD 1977, Hawai'i
- DESPAN, Norma L., Professor Emeritus of English; BA 1959, Chicago; MA 1964, Brigham Young; PhD 1976, Connecticut; Regents' Medal for Excellence in Teaching, 1988
- DEUTSCH, Eliot, Professor Emeritus of Philosophy; BS 1952, Wisconsin; PhD 1960, Columbia
- DEWEY, Alice G., Professor Emeritus of Anthropology; BA 1950, MA 1954, PhD 1959, Radcliffe
- DINELL, Tom, Professor Emeritus of Urban and Regional Planning; AB 1948, Brown; MPA 1950, Michigan
- DIWAN, Arwind R., Professor Emeritus of Tropical Medicine; BS 1952, Bombay; PhD 1965, London
- DOLLAR, Alexander M., Professor Emeritus of Public Health; BS 1948, UC Berkeley; MS 1949, PhD 1958, Reading
- DOUGLASS, Clyde Michael, Professor Emeritus of Urban and Regional Planning; BA 1967, UCLA; MA 1968, Hawai'i; PhD 1982, UCLA
- DOUE, Stephen M., Specialist Emeritus in Agricultural Economics; BS 1947, MA 1959, Hawai'i
- DOWRICK, Peter W., Professor Emeritus in Center for Disability Studies; PhD 1977, U of Auckland
- DOYLE, James R., Professor Emeritus of Surgery; BA 1954, La Sierra; MD 1958, UC San Francisco
- DUBANOSKI, Richard A., Dean Emeritus of College of Social Sciences and Professor Emeritus of Psychology; BA 1962, Wesleyan; MA, PhD 1966, Minnesota
- DUBIN, Hazel, Associate Professor Emeritus of Nursing; BSN 1950, Washington DC; MEd 1962, Hawai'i; MN 1972, Seattle; PhD 1980, Florida
- DUENNEBIER, Frederick K., Geophysicist Emeritus in Geology and Geophysics; BS 1965, Trinity College; MS 1968, PhD 1972, Hawai'i
- DUGAN, Gordon L., Professor Emeritus of Civil Engineering; BS 1959, MS 1964, Washington State; PhD 1970, UC Berkeley

DUNN-RANKIN, Peter, Professor Emeritus of Educational Psychology; BS 1953, MS 1954, Florida State; MA 1963, Louisiana State; EdD 1965, Florida State

## E

- EASA, David, Professor Emeritus of Pediatrics; BA 1968, Vanderbilt; MD 1972, Louisville
- ECKE, Betty Tseng Y. H., Professor Emeritus of Art; MS 1966, Hawai'i; PhD 1972, New York
- EDGE, Alfred G., Professor Emeritus of Management and Industrial Relations; BS 1956, Rider College; MBA 1965, Denver; PhD 1972, Arkansas
- ELLSWORTH, James D., Professor Emeritus of Classics; BA 1962, PhD 1971, UC Berkeley
- EL-RAMLY, Nabil, Professor Emeritus of Decision Sciences; BSc 1958, Cairo; MS 1962, Illinois Institute of Technology; PhD 1970, UCLA
- EL-SWAIFY, Samir A., Soil Scientist Emeritus; BS 1957, Alexandria (Egypt); PhD 1964, UC Davis
- ENGEL, John W., Professor Emeritus of Family Resources, CTAHR; BS 1968, St John's; PhD 1978, Minnesota
- ETHERINGTON, Alfred B., Professor Emeritus of Architecture; BArch 1947, Cornell; MA 1970, Hawai'i; MEP 1977, U of Philippines; MArch 1978, McGill; PhD 1984, Hawai'i
- EZER, Melvin, Professor Emeritus of Education, AB 1950, UC Berkeley; EdM 1951, Tufts; EdD 1961, Harvard

## F

- FEENEY, Stephanie S., Professor Emeritus of Curriculum Studies; BA 1961, UCLA; MA 1965, Harvard; PhD 1971, Claremont Graduate School
- FINNEY, Ben R., Professor Emeritus of Anthropology; BA 1955, UC Berkeley; MA 1959, Hawai'i; PhD 1964, Harvard; Regents' Medal for Excellence in Research, 1997
- FINNEY, Sandra K., Professor Emeritus of Theatre; BA 1967, MA 1969, San Francisco State
- FLEECE, Jeffrey, Specialist Emeritus in Continuing Education; BA 1941, Missouri; MA 1942, Vanderbilt; PhD 1952, Iowa
- FLITTER, Hessel, Professor Emeritus of Nursing; BSN 1941, MA 1942, New York; EdD 1958, Pennsylvania
- FOK, Agnes K., Professor Emeritus of Biology; BA 1965, U of Great Falls; MS 1966, Utah State; PhD 1971, Texas-Austin
- FOK, Yu-si, Professor Emeritus of Civil Engineering; BS 1955, National Taiwan U; MS 1959, PhD 1964, Utah State
- FONG, Grace, Professor Emeritus of Family Resources, CTAHR; BS 1973, Hawai'i; MA 1974, Michigan State; EdD 1991, Hawai'i; Regents' Medal for Excellence in Teaching, 1998
- FONTAINE, Gary M., Professor Emeritus of Communication; BS 1968, Washington; PhD 1972, Western Australia; Presidential Citation for Meritorious Teaching, 1989
- FORMAN, Michael L., Professor Emeritus of Linguistics; AB 1961, John Carroll; PhD 1972, Cornell; Regents' Medal for Excellence in Teaching, 1984; Robert W. Clopton Award for Distinguished Community Service, 1986
- FOX, Joel S., Professor Emeritus of Mechanical Engineering; BS 1959, MS 1961, PhD 1966, Polytechnic Institute of Brooklyn
- FOX, Morton, Professor Emeritus of Travel Industry Management; BS 1953, MS 1965, Maryland; DrEng 1980, Karlsruhe (Germany)
- FRANKEL, Richard I., Professor Emeritus of Medicine; AB 1961, MD 1965, Yale
- FRIEDERICH, Reinhard H., Professor Emeritus of English; BA 1964, MA 1966, Houston; PhD 1971, Washington
- FRIEDSON, Anthony M., Professor Emeritus of English; AB 1951, Simpson College; MA 1954, PhD 1960, Iowa
- FTACLAS, Christ, Astronomer Emeritus in IFA; BS 1965, MA 1971, PhD 1978, City College of New York
- FUCHS, Roland J., Professor Emeritus of Geography; BA 1954, Columbia; MA 1957, PhD 1959, Clark
- FUJIOKA, Roger S., Researcher Emeritus in WRR; BS 1960, MS 1966, Hawai'i; PhD 1970, Michigan
- FUJITA, George Y., Specialist Emeritus in Counseling and Student Development; BEd 1954, MEd 1958, Hawai'i; PhD 1961, Minnesota
- FUJITANI, Shigeaki, Specialist Emeritus in Student Development; BA 1955, Hawai'i; MA 1957, New York; PhD 1968, Utah
- FUKUDA, Steven K., Extension Agent Emeritus in Tropical Plant and Soil Sciences, CTAHR; BS 1971, MS 1973, Hawai'i

FULLER, Gary A., Professor Emeritus of Geography; BS 1964, SUNY; PhD 1972, Pennsylvania State  
 FURER, Gloria S., Professor Emeritus of Textile and Clothing; BS 1945, Michigan St; MEd 1964, Hawai'i

## G

GAINES, James R., Professor Emeritus of Physics; BA 1956, Berea College; PhD 1961, Washington  
 GEE, Chuck Y., Dean Emeritus of Travel Industry Management; BA 1957, BS 1957, Denver; MA 1958, Michigan State; PhD 1991, Denver  
 GERRITSEN, Franciscus, Professor Emeritus of Ocean Engineering; Candidaatsexamen 1948, Ingenieursdiploma 1950, Technological U Delft (Netherlands); DrTech 1981, Trondheim (Norway)  
 GETHING, Thomas W., Professor Emeritus of Southeast Asian Languages; BA 1961, MA 1963, PhD 1966, Michigan  
 GHALL, Moheb A., Professor Emeritus of Economics; BCom 1959, Cairo; MA 1962, UC Berkeley; PhD 1967, Washington  
 GILJE, John W., Professor Emeritus of Chemistry; BChem 1961, Minnesota; PhD 1965, Michigan  
 GILSON, Thomas Q., Professor Emeritus of Management and Industrial Relations; BA 1938, Princeton; MA 1942, Columbia; PhD 1954, MIT  
 GITLIN, Harris M., Specialist Emeritus in Agricultural Engineering; BS 1940, BAgrEngr 1941, Ohio State; MS 1962, Michigan State  
 GOCHROS, Harvey L., Professor Emeritus of Social Work; AB 1953, Bridgeport; MS 1955, DSW 1964, Columbia; Regents' Medal for Excellence in Teaching, 1999  
 GOFF, Madison L., Researcher Emeritus in Entomology; BA 1966, Hawai'i; MA 1974, Cal State-Long Beach; PhD 1977, Hawai'i  
 GOPALAKRISHNAN, Chennai, Researcher Emeritus in Natural Resources and Environmental Management, CTAHR; BA 1955, MA 1957, Kerala (India); PhD 1967, Montana State  
 GOLDEN, William P., Jr., Professor Emeritus of Public Health; AB 1937, San Francisco; MA 1941, PhD 1951, UC Berkeley  
 GOODMAN, Lenn E., Professor Emeritus of Philosophy; BA 1965, Harvard; DPhil 1968, Oxford  
 GOSLINE, William A., Professor Emeritus of Zoology; BS 1938, Harvard; PhD 1941, Stanford  
 GRACE, George W., Professor Emeritus of Linguistics; Licence 1948, Geneva; PhD 1958, Columbia  
 GRAVES, Michael W., Professor Emeritus of Anthropology; BA 1974, Washington; MA 1980, PhD 1981, Arizona; Chancellor's Citation for Meritorious Teaching, 2003  
 GREEN, Richard E., Soil Scientist Emeritus; BS 1953, Colorado State; MS 1957, Nebraska; PhD 1962, Iowa State  
 GREENBERG, Marvin, Professor Emeritus of Music; BS 1957, NYU; MA 1958, EdD 1962, Columbia; Presidential Citation for Meritorious Teaching, 1988  
 GREENFIELD, David W., Professor Emeritus of Zoology; BA 1962, Cal State Humboldt; PhD 1966, Washington  
 GRIFFIN, Percival Bion, Professor Emeritus of Anthropology; BA 1963, Maine; PhD 1969, Arizona; Distinguished Graduate Mentoring Award, 2005  
 GRIGG, Richard W., Marine Biologist Emeritus; BA 1958, Stanford; MS 1964, Hawai'i; PhD 1970, UC San Diego  
 GROVE, John S., Professor Emeritus of Public Health; BA 1964, MS 1966, Arizona-Tucson; PhD 1969, Hawai'i  
 GULBRANDSEN, Christian L., Professor Emeritus of Medicine; BS 1960, MD 1963, Wisconsin  
 GURIAN, Jay Paul, Professor Emeritus of American Studies; BA 1951, Syracuse; MA 1957, Hawai'i; PhD 1962, Minnesota

## H

HAAK, John R., University Librarian Emeritus; BA 1961, MLS 1962, UC Berkeley  
 HADFIELD, Michael G., Professor Emeritus of PBRC; AB 1959, MS 1961, Washington; PhD 1967, Stanford; Fujio Matsuda Scholar, 1989  
 HADLICH, Roger L., Professor Emeritus of Spanish; BA 1951, Yale; MA 1957, Middlebury; PhD 1961, Michigan  
 HALE, Ralph W., Professor Emeritus of Obstetrics and Gynecology; BS 1957, MD 1960, Illinois  
 HALEY, Samuel R., Professor Emeritus of Zoology; BA 1962, MA 1964, PhD 1967, Texas-Austin; Presidential Citation for Meritorious Teaching, 1986; Regents' Medal for Excellence in Teaching, 1990

HALL, John B., Professor Emeritus of Microbiology; AB 1957, Kansas; PhD 1960, UC Berkeley  
 HALVERSON, Vivian B., Specialist Emeritus in Student Affairs; BS 1964, Brigham Young; MS 1967, Purdue; PhD 1978, Florida State  
 HAMADA, Harold S., Professor Emeritus of Civil Engineering; BS 1957, Hawai'i; MS 1958, PhD 1962, Illinois  
 HAMMAR, Sherrel L., Professor Emeritus of Pediatrics; BA 1953, Idaho; MD 1957, Washington  
 HANKIN, Jean, Professor Emeritus of Public Health; BA 1945, Milwaukee-Downer College; MS 1954, U of Tennessee; MPH 1963, DrPH 1966, UC Berkeley  
 HANNA, Joel M., Professor Emeritus of Physiology; BS 1961, MA 1965, Pennsylvania; PhD 1968, Arizona  
 HARADA, Violet H., Professor Emeritus of Library and Information Science Program in ICS; BEd 1964, MEd 1966, MLS 1976, EdD 1982, Hawai'i; Presidential Citation for Meritorious Teaching, 1998  
 HARAMOTO, Frank H., Professor Emeritus of Entomology; BS 1949, MS 1953, PhD 1964, Hawai'i  
 HARMS, Joan, Specialist Emeritus in Student Affairs; BEd 1963, Hawai'i; MA 1964, Northwestern; PhD 1973, Hawai'i  
 HARRELL, Gertrude P., Specialist Emeritus in Cooperative Extension Service; BS 1927, Georgia State College; MA 1949, Columbia  
 HASTINGS, James E., Professor Emeritus of Medicine; BA 1957, Amherst; MD 1961, NYU  
 HAYES, Charles F., Professor Emeritus of Physics; AB 1963, Wheaton College; MS 1965, PhD 1967, West Virginia  
 HAYES, Eloise D., Professor Emeritus of Education; BEd 1939, Minnesota State Teachers College-St. Cloud; MA 1951, PhD 1953, North Carolina  
 HAYNES, Stephen, Professor Emeritus of Psychology; BA 1966, Western Michigan U; MA 1969, PhD 1971, Colorado  
 HAZAMA, Dorothy O., Professor Emeritus of Education; BEd 1952, Hawai'i; MA 1955, New York; EdD 1981, Nova  
 HELBLING, Mark I., Professor Emeritus of American Studies; BA 1961, UC Berkeley; MA 1964, San Francisco State; PhD 1972, Minnesota; Presidential Citation for Meritorious Teaching, 1988  
 HELFRICH, Philip, Director Emeritus of HIMB; BS 1951, Santa Clara; PhD 1958, Hawai'i  
 HELSLEY, Charles E., Researcher Emeritus of Geophysics; BS 1956, MS 1957, California Institute of Technology; PhD 1960, Princeton  
 HENKE, Burton L., Professor Emeritus of Physics; AB 1944, Miami-Ohio; MS 1946, PhD 1953, CIT  
 HENRY, J. Patrick, Professor Emeritus of IFA; AB 1969, LaSalle College; PhD 1974, UC Berkeley; Regents' Medal for Excellence in Research, 2011  
 HERMAN, Louis M., Professor Emeritus of Psychology; BSS 1951, MA 1952, City College of New York; PhD 1961, Pennsylvania State  
 HICKMAN, Patricia L., Professor Emeritus of Art; BA 1962, Colorado; MA 1977, UC Berkeley  
 HIJIRIDA, Kyoko, Professor Emeritus of Japanese and Education; BA 1964, Keio (Japan); MA 1970, EdD 1980, Hawai'i; Presidential Citation for Meritorious Teaching, 1992  
 HILE, Gerald N., Professor Emeritus of Mathematics; BS 1966, Harvard; PhD 1972, Indiana  
 HILGERS, Thomas L., Professor Emeritus of English; BA 1968, St John's; MA 1970, Claremont; PhD 1980, Hawai'i  
 HILT, Douglas, Professor Emeritus of Spanish; BA 1954, Bristol; MA 1965, U of the Americas (Mexico); PhD 1967, Arizona  
 HINES, Robert S., Professor Emeritus of Music; BS 1952, Juilliard; MM 1956, Michigan  
 HIPLE, David V., Specialist Emeritus in Language Learning Center; BA 1971, George Washington; EdM 1975, EdD 1987, Rutgers  
 HIROSHIGE, Herbert M., Specialist Emeritus in Agricultural Economics; BS 1934, UC Berkeley; MA 1950, Hawai'i  
 HOGE, Phyllis T., Professor Emeritus of English; BA 1948, Connecticut College; MA 1949, Duke; PhD 1958, Wisconsin  
 HOKAMA, Yoshitsugi, Professor Emeritus of Pathology; AB 1951, MA 1953, PhD 1957, UCLA  
 HOLM-KENNEDY, James, Professor Emeritus of Electrical Engineering; AB 1960, UC Riverside; MS 1963, PhD 1969, Minnesota  
 HOLTON, James S., Professor Emeritus of Spanish; BA 1948, San Diego State; MA 1951, PhD 1956, UC Berkeley  
 HOOK, Ralph C., Jr., Professor Emeritus of Marketing; BA 1947, MA 1948, Missouri-Columbia; PhD 1954, Texas-Austin

HOOPER, Paul F., Professor Emeritus of American Studies; BA 1961, East Washington U; MA 1965, PhD 1972, Hawai'i  
 HOOVER, Thomas B., Professor Emeritus of Mathematics; BS 1964, Redlands; MS 1966, UC San Diego; PhD 1970, Michigan  
 HORAN, Claude F., Professor Emeritus of Art; BA 1942, San Jose State; MA 1946, Ohio State  
 HORI, Joan M., Librarian Emeritus in University Libraries; BA 1967, MLS 1968, MA 1975, Hawai'i; Presidential Citation for Meritorious Teaching, 1992  
 HORI, Ted M., Extension Agent Emeritus; BS 1955, MS 1977, Hawai'i  
 HOWARD, S. Alan, Professor Emeritus of Anthropology; BA 1955, MA 1958, PhD 1962, Stanford  
 HSIA, Yujen E., Professor Emeritus of Genetics; BA 1953, MA 1957, MD 1960, London Hospital Medical College  
 HUEBERT, Barry J., Professor Emeritus of Oceanography; BA 1967, Occidental; MS 1968, PhD 1970, Northwestern  
 HUGHES, Judith R., Professor Emeritus of American Studies; BA 1962, MA 1963, PhD 1967, Michigan  
 HUNG, Fred C., Professor Emeritus of Economics; BA 1947, St. John's (China); PhD 1955, Washington  
 HUNT, John A., Professor Emeritus of Genetics; BA 1956, PhD 1960, Cambridge  
 HUNT, Terry L., Professor Emeritus of Anthropology; BA 1976, UH Hilo; MA 1980, Auckland; PhD 1989, Washington; Presidential Citation for Meritorious Teaching, 1991; Regents' Medal for Excellence in Teaching, 2005; Regents' Medal for Excellence in Research, 2008  
 HYLIN, John W., Biochemist Emeritus; BA 1950, Marietta; MS 1953, Purdue; PhD 1957, Columbia

## I

IHRIG, Judson L., Professor Emeritus of Chemistry; BS 1949, Haverford; MA 1951, PhD 1952, Princeton  
 IKAWA, Haruyoshi, Soil Scientist Emeritus; BS 1951, MS 1956, Hawai'i; PhD 1968, Penn State; Presidential Citation for Meritorious Teaching, 1990  
 IKEDA, Carol S., County Extension Agent Emeritus in Family and Consumer Sciences, CTAHR; BS 1966, Hawai'i; MEd 1967, Maryland  
 IKEDA, Kiyoshi, Professor Emeritus of Sociology; BA 1950, MA 1955, Hawai'i; PhD 1959, Northwestern  
 INOUE, Jillian, Professor Emeritus of Nursing; BS 1966, Hawai'i; MS 1968, UCLA; MA 1980, PhD 1987, Hawai'i  
 ITO, Philip, Horticulturist Emeritus; BS 1958, Hawai'i; PhD 1963, Minnesota  
 ITOGA, Stephen Y., Professor Emeritus of Information and Computer Sciences; BS 1965, MS 1966, Cornell; PhD 1973, UCLA  
 IZUTSU, Satoru, Professor Emeritus of Psychiatry and Public Health; BA 1950, Hawai'i; MA 1955, Columbia; PhD 1963, Case Western Reserve

## J

JACKSON, Miles M., Jr., Professor Emeritus of Library and Information Studies; BA 1955, Virginia Union; MSLS 1956, Drexel; PhD 1974, Syracuse  
 JACOBS, Laurence W., Professor Emeritus of Marketing; BS 1961, U of Pennsylvania; MBA 1963, PhD 1966, Ohio State; Presidential Citation for Meritorious Teaching, 1991  
 JACOBS, Roderick A., Professor Emeritus of Linguistics; BA 1956, London; EdM 1961, Harvard; MA 1970, PhD 1972, UC San Diego  
 JACOBSEN, Lyle E., Professor Emeritus of Accounting; BS 1951, Dana College; MA 1955, CPA 1955, Nebraska; PhD 1958, Illinois  
 JAECKEL, Solomon P., Professor Emeritus of Education; BS 1935, Wayne State; MA 1963, EdD 1965, UCLA  
 JAMBOR, Harold A., Professor Emeritus of Social Work; BA 1935, Reed; MA 1939, Chicago; DSW 1963, USC  
 JEFFERIES, John T., Professor Emeritus of Astronomy; BS 1947, West Australia; MA 1949, Cambridge; DSc 1962, West Australia  
 JOHANSSON, Annette, Professor Emeritus of Music; BM 1955, Eastman; MM 1974, Hawai'i  
 JOHNSON, Nancy E., Specialist Emeritus in Food Science and Human Nutrition; BS 1947, MS 1949, Iowa State; PhD 1969, Wisconsin-Madison  
 JOHNSON, Rubellite K., Professor Emeritus of Hawaiian; BA 1954, Hawai'i  
 JONES, Jane H., Specialist Emeritus in Counseling and Student Development; BA 1947, Colorado; MEd 1965, EdD 1967, Auburn

JUDD, Nanette K., Associate Specialist Emeritus in Native Hawaiian Health; BS 1966, Cal State Chico; MPH 1980, PhD 1997, Hawai'i

## K

KALUPAHANA, David J., Professor Emeritus of Philosophy; BA 1959, MA 1961, Sri Lanka; PhD 1967, London  
 KAMEMOTO, Fred I., Professor Emeritus of Zoology; AB 1950, MS 1951, George Washington; PhD 1954, Purdue  
 KAMEMOTO, Haruyuki, Professor Emeritus of Horticulture; BS 1944, MS 1947, Hawai'i; PhD 1950, Cornell  
 KANEHIRO, Yoshinori, Professor Emeritus of Soil Science; BS 1942, MS 1948, PhD 1964, Hawai'i  
 KANESHIGE, Edward, Specialist Emeritus in Counseling and Student Development; BA 1950, Hawai'i; MA 1954, EdD 1959, Columbia  
 KANG, Hugh H. W., Professor Emeritus of History; BA 1956, Berea College; MA 1958, Chicago; PhD 1964, Washington  
 KASSEBAUM, Gene, Professor Emeritus of Sociology; AB 1951, Missouri; MA 1956, PhD 1958, Harvard  
 KEEVER, Beverly A., Professor Emeritus of Journalism; BA 1957, Nebraska; MJS 1958, Columbia; MLIS 1991, PhD 2000, Hawai'i; Regents' Medal for Excellence in Teaching, 1987  
 KEIL, Klaus, Researcher Emeritus in HIGP; MS 1958, Friedrich-Schiller, Jena (Germany); PhD 1961, Johannes-Gutenberg, Mainz (Germany)  
 KENT, George, Professor Emeritus of Political Science; BEE 1960, Rensselaer; MA 1961, Boston; PhD 1965, Illinois  
 KHAN, M. Asad, Professor Emeritus of Geodesy; BS 1967, MS 1963, Pakistan Punjab; PhD 1967, Hawai'i  
 KINARIWALA, Bharat, Professor Emeritus of Electrical Engineering; BS 1950, Benares Hindu (India); MS 1954, PhD 1957, UC Berkeley  
 KINCH, Donald M., Agricultural Engineer Emeritus; BS 1938, Nebraska; MS 1940, Minnesota; PhD 1953, Michigan State  
 KING, Pauline N., Professor Emeritus of History; BA 1949, Sarah Lawrence; MA 1965, PhD 1976, Hawai'i  
 KINZIE, Robert A., III, Professor Emeritus of Zoology; BS 1963, Santa Clara; MS 1966, Hawai'i; PhD 1970, Yale  
 KISTE, Robert C., Professor Emeritus of Pacific Islands Studies; BA 1961, Indiana; PhD 1967, Oregon  
 KIYOSE, Gisaburo, Professor Emeritus of Japanese; BA 1954, Kyoto; PhD 1973, Indiana  
 KLEINFELD, Ruth G., Professor Emeritus of Anatomy and Reproductive Biology; BS 1949, Brooklyn College; MA 1951, Wisconsin; PhD 1953, Chicago  
 KLEMM, E. Barbara, Professor Emeritus of Education; BA 1964, Ohio-Wesleyan; 5-Yr Certificate 1971, MEd 1972, EdD 1982, Hawai'i  
 KLIMENKO, Michael, Professor Emeritus of Russian; BD 1955, Zurich; DrPhil 1957, Erlangen  
 KLOBE, Thomas, Professor Emeritus of Art; BFA 1964, MFA 1968, Hawai'i; Robert W. Clopton Award for Outstanding Community Service, 2003  
 KLOPF, Donald W., Professor Emeritus of Speech; BA 1953, MA 1955, Hawai'i; PhD 1958, Washington  
 KNAPP, Ronald H., Professor Emeritus of Mechanical Engineering; BS 1967, Hawai'i; MS 1968, Cal Tech; PhD 1973, Hawai'i  
 KNAPP, Terence R., Professor Emeritus of Theatre; Diploma 1954, Royal Academy of Dramatic Art (UK); Regents' Medal for Excellence in Teaching, 1978  
 KNOWLTON, Edgar C., Jr., Professor Emeritus of European Languages; BA 1941, MA 1942, Harvard; PhD 1959, Stanford  
 KO, Wen-Hsiung, Researcher Emeritus in Plant Pathology; BS 1962, National Taiwan U; PhD 1966, Michigan State  
 KOBAYASHI, Victor N., Professor Emeritus of Education; EdB 1954, MEd 1960, Hawai'i; PhD 1964, Michigan; Robert W. Clopton Award for Distinguished Community Service, 1981  
 KOIDE, Frank T., Professor Emeritus of Electrical Engineering; BS 1958, Illinois; MS 1961, Clarkson U; PhD 1966, Iowa  
 KOLONEL, Laurence N., Professor Emeritus of Public Health; BA 1964, Williams; MD 1968, Harvard; MPH 1970, PhD 1972, UC Berkeley; Regents' Medal for Excellence in Research, 2003  
 KOOKER, Barbara (Bee) M., Professor Emeritus of Nursing; BSN 1968, MPH 1980, MS 1980, DrPH 1989, Hawai'i

KOSAKI, Richard H., Chancellor Emeritus and Professor Emeritus of Political Science; BA 1949, Hawai'i; MA 1952, PhD 1956, Minnesota  
 KOSASA, Thomas S., Professor Emeritus of Obstetrics and Gynecology; AB 1967, BMS 1969, Dartmouth; MD 1971, McGill  
 KOWALKE, Ronald L., Professor Emeritus of Art; BA 1959, Rockford College; MFA 1960, Cranbrook  
 KRAEMER, Hazel V., Professor Emeritus of Human Development; AB 1934, MA 1938, PhD 1945, UC Berkeley  
 KRATKY, Bernard A., Researcher Emeritus in Tropical Plant and Soil Sciences, CTAHR; BS 1967, MS 1969, PhD 1971, Purdue  
 KRAUSE, Loretta, Professor Emeritus of Education; BA 1960, Minnesota; MA 1961, Nebraska; EDD 1969, South Dakota  
 KROCK, Hans-Jürgen, Professor Emeritus of Ocean Engineering; BS 1965, Arizona State; MS 1967, PhD 1972, UC Berkeley  
 KROENKE, Loren, Geophysicist Emeritus; BS 1960, Wisconsin; MS 1968, PhD 1972, Stanford  
 KROHN-CHING, Waldtraut L., Professor Emeritus of Education, CRDG; BS 1968, MA 1969, Eastern Michigan; MFA 1974, Hawai'i  
 KUDO, E. Takeo, Professor Emeritus of Music; BEd 1965, MA 1977, Hawai'i; MM 1975, Indiana; DMA 1980, Miami; Presidential Citation for Meritorious Teaching, 1991  
 KURODA, Yasumasa, Professor Emeritus of Political Science; BA 1956, MA 1959, PhD 1962, Oregon  
 KWOK, Daniel W. Y., Professor Emeritus of History; BA 1954, Brown; MA 1956, PhD 1959, Yale; Presidential Citation for Meritorious Teaching, 1988

## L

LADD, Doris M., Professor Emeritus of History; AB 1955, MA 1956, 1964, PhD 1972, Stanford  
 LADY, E. Lee, Professor Emeritus of Mathematics; BA 1962, BS 1962, Arizona; MA 1969, UC San Diego; PhD 1972, New Mexico State  
 LAGUNDIMAO, Clemente, Professor Emeritus of Art; BFA 1957, MFA 1975, Hawai'i  
 LAMLEY, Harry J., Professor Emeritus of History; BA 1953, Reed College; MA 1960, PhD 1964, Washington  
 LAMPE, William A., Professor Emeritus of Mathematics; BA 1964, Lafayette; PhD 1969, Pennsylvania State  
 LANG, Melvin, Professor Emeritus of Education; BS 1953, SUNY-New Paltz; MA 1956, Columbia; EdD 1962, NYU  
 LANGHANS, Edward A., Professor Emeritus of Theatre and Dance; BA 1948, MA 1949, Rochester; MA 1951, Hawai'i; PhD 1955, Yale  
 LARSON, Harold O., Professor Emeritus of Chemistry; BS 1943, Wisconsin; MS 1947, Purdue; PhD 1950, Harvard  
 LAU, L. Stephen, Professor Emeritus of Civil Engineering; BS 1953, MS 1955, PhD 1959, UC Berkeley  
 LAURLA, Simo L., Professor Emeritus of Geodesy; BSc 1946, MSc 1948, PhD 1953, Finland Institute of Technology  
 LEBRA, Takie, Professor Emeritus of Anthropology; BA 1954, Gakushuin (Japan); MA 1960, PhD 1967, Pittsburgh; Fujio Matsuda Scholar, 1988  
 LEE, Chung H., Professor Emeritus of Economics; BA 1961, Miami-Ohio; PhD 1966, UC Berkeley  
 LEE, Peter H., Professor Emeritus of Korean Comparative Literature; BA 1951, College of St. Thomas; MA 1953, Yale; PhD 1958, Munchen  
 LEN, Eleanor, Specialist Emeritus in Career Services; BEd 1957, Hawai'i; MA 1958, Columbia; PhD 1979, Arizona State  
 LENZER, Anthony M., Professor Emeritus of Public Health; AB 1952, Antioch; PhD 1970, Michigan  
 LETON, Donald A., Professor Emeritus of Education; BS 1947, Central State; MA 1949, PhD 1955, Minnesota  
 LEWIS, Nancy D., Professor Emeritus of Geography; AB 1968, MA 1974, MA 1976, PhD 1981, UC Berkeley  
 LI, Ying-che, Professor Emeritus of Chinese; BA 1959, Tunghai (Taiwan); MA 1964, PhD 1970, Michigan  
 LI, Yuan-Hui, Professor Emeritus of Oceanography; BS 1959, National Taiwan U; PhD 1967, Columbia  
 LIANG, Tung, Researcher Emeritus in Agricultural Engineering; BS 1956, Taiwan; MS 1963, Michigan State; PhD 1967, North Carolina State  
 LIE, Harry K., Professor Emeritus of Business Economics and Management; BA 1950, Kongju National TC; BEC 1953, Yonsei; BS, BA, MA 1955, Missouri State; PhD 1969, Chuo

LIN, Shu, Professor Emeritus of Electrical Engineering; BS 1959, National Taiwan U; MS 1964, PhD 1965, Rice  
 LIN, Yu-Chong, Professor Emeritus of Physiology; BS 1959, Taiwan Normal U; MS 1964, New Mexico; PhD 1968, Rutgers  
 LINNMAN, James W., Professor Emeritus of Medicine; BS 1945, MD 1947, Illinois  
 LISTER, H. Lawrence, Professor Emeritus of Social Work; BA 1957, Willamette; MSW 1959, Washington; DSW 1971, Columbia  
 LITTLE, Robert D., Professor Emeritus of Mathematics; BS 1965, Stanford; MA 1969, PhD 1972, Cornell  
 LIU, Clark C. K., Professor Emeritus of Civil and Environmental Engineering; BS 1966, National Taiwan U; MS 1969, Mississippi; PhD 1976, Cornell  
 LIU, Robert S. H., Professor Emeritus of Chemistry; BS 1961, Howard Payne; PhD 1965, CIT; Fujio Matsuda Scholar, 1985; Regents' Medal for Excellence in Research, 1986; Regents' Medal for Excellence in Teaching, 1988  
 LO, Chin-Tang, Professor Emeritus of Chinese Literature; BA 1952, MA 1956, National Taiwan U; DLitt 1961, Ministry of Education, Rep. of China and National Normal (Taiwan)  
 LOCKE, Robert R., Professor Emeritus of History; BA 1956, PhD 1965, UCLA  
 LOH, Philip C. S., Professor Emeritus of Microbiology; BS 1950, Morningside; MS 1953, Iowa State; MPH 1954, PhD 1958, Michigan; Regents' Medal for Excellence in Research, 1965  
 LOSEY, George S., Professor Emeritus of Zoology; BS 1964, Miami; PhD 1968, UC San Diego  
 LOWE, Howard D., Professor Emeritus of Accounting; BS 1945, MS 1948, Brigham Young; CPA 1950, Utah; DBA 1957, Indiana  
 LOWRY, Gordon K., Jr., Professor Emeritus of Urban and Regional Planning; BA 1964, Washburn; PhD 1976, Hawai'i; Hung Wo and Elizabeth Lau Ching Foundation Award for Faculty Service to the Community, 2004  
 LUKAS, Roger B., Professor Emeritus of Oceanography; AB 1973, USC; MS 1977, PhD 1981, Hawai'i  
 LUM, Bert K. B., Professor Emeritus of Pharmacology; BS 1951, PhD 1956, Michigan; MD 1960, Kansas  
 LUM, Jean L. J., Professor Emeritus of Nursing; BS 1960, Hawai'i; MS 1961, UC San Francisco; MA 1969, PhD 1972, Washington  
 LUM, Richard S., Professor Emeritus of Music; BEd 1951, Hawai'i; MMusEd 1953, Northwestern  
 LUNDEEN, Gerald W., Professor Emeritus of Library and Information Studies; BS 1959, Wisconsin; PhD 1965, Minnesota; AMLS 1972, Michigan  
 LYDDON, Paul W., Jr., Professor Emeritus of Music; BM 1954, Eastman School of Music; MM 1955, Illinois  
 LYTTLE, Terrence W., Professor Emeritus of Cell and Molecular Biology; BS 1970, PhD 1975, Wisconsin

## M

MA, Yau-Woon, Professor Emeritus of Chinese Literature; BA 1965, Hong Kong; PhD 1971, Yale  
 MACKENZIE, Fred T., Professor Emeritus of Oceanography; BS 1955, Upsala College; MS 1959, PhD 1962, Lehigh; Regents' Medal for Excellence in Research, 1991; Presidential Citation for Meritorious Teaching, 1993; Regents' Medal for Excellence in Teaching, 1994  
 MADER, Adolf G., Professor Emeritus of Mathematics; MS 1961, Tübingen (Germany); PhD 1964, New Mexico State  
 MAGAARD, Lorenz, Professor Emeritus of Oceanography; Diploma-Math 1961, Dr rer nat 1963, Kiel (Germany)  
 MAK, James, Professor Emeritus of Economics; BS 1964, Wilmington College; MA 1966, Miami-Ohio; MS 1968, PhD 1970, Purdue; Robert W. Clopton Award for Outstanding Service to the Community, 2000  
 MALAHOFF, Alexander, Professor Emeritus of Oceanography; BS 1960, New Zealand; MS 1962, Victoria; PhD 1965, Hawai'i; DSc (Hon.) 2001, Victoria  
 MALTBY, Joseph, Professor Emeritus of English; BA 1952, MA 1957, Stanford; PhD 1963, Wisconsin  
 MAMIYA, Richard T., Professor Emeritus of Surgery; BS 1950, Hawai'i; MD 1954, St. Louis  
 MANICAS, Peter T., Professor Emeritus of Sociology; BA 1955, Syracuse; MA 1960, Buffalo; PhD 1963, SUNY-Buffalo; Presidential Citation for Excellence in Teaching, 1995  
 MARK, Shelley M., Researcher Emeritus in Agricultural and Resource Economics; BA 1943, Washington; MS 1944, Columbia; PhD 1956, Washington  
 MARSELLA, Anthony, Professor Emeritus of Psychology; BA 1962, Baldwin-Wallace College; MA 1964, Kent State; PhD 1968, Pennsylvania State

- MARSELLA, Joy A., Professor Emeritus of English; BA 1963, Baldwin-Wallace College; MA 1970, Pennsylvania State; PhD 1981, Hawai'i; Regents' Medal for Excellence in Teaching, 1994
- MARTIN, Stephen L., Specialist Emeritus in Co-curricular Activities, Programs, and Services; BA 1964, Denver; MA 1965, Minnesota; PhD 1969, USC
- MARUTANI, Herbert K., Specialist Emeritus in Agricultural Economics; BBA 1953, MA 1958, Illinois; PhD 1970, Hawai'i
- MASON, Richard G., Professor Emeritus of Drama and Theatre; BA 1950, Swarthmore; MFA 1953, Yale
- MATSUDA, Fujio, President Emeritus and Professor Emeritus of Civil Engineering; degrees listed under "Former Presidents"
- MATSUO, Dorothy I., Specialist Emeritus in Student Affairs; BS 1950, MPH 1970, EdD 1982, Hawai'i
- MAU, Ronald F. L., Specialist Emeritus in Entomology; BS 1966, MS 1969, PhD 1975, Hawai'i
- McCARDLE, H. Roy, Specialist Emeritus in Student Development; BS 1941, Columbia; MBA 1962, Hawai'i; EdD 1972, New Mexico
- McCORMICK, Linda P., Professor Emeritus of Special Education; BA 1967, Belmont College; MA 1969, PhD 1973, George Peabody
- McCUTCHEON, Elizabeth N., Professor Emeritus of English; BA 1954, William Smith; MA 1956, PhD 1961, Wisconsin
- McDERMOTT, John F., Jr., Professor Emeritus of Psychiatry; AB 1951, Cornell; MD 1955, NYU Medical College
- MCKAUGHAN, Howard P., Professor Emeritus of Linguistics; BA 1945, UCLA; MTh 1946, Dallas Theological Seminary; MA 1952, PhD 1957, Cornell
- McKAY, R. Neil, Professor Emeritus of Music; BA 1953, Western Ontario; MA 1955, PhD 1956, Eastman School of Music
- MCVAY, Harue O., Professor Emeritus of Art; BA 1950, Hawai'i; MA 1951, Ohio State
- McNAMARA, J. Judson, Professor Emeritus of Surgery; MD 1961, Washington; MPA 1998, Harvard
- MELENDY, H. Brett, Professor Emeritus of History; AB 1946, MA 1948, PhD 1952, Stanford
- MENIKOFF, Barry, Professor Emeritus of English; BA 1960, Brooklyn; MS 1962, PhD 1966, Wisconsin

- NAJITA, Kazutoshi, Professor Emeritus of Electrical Engineering; BS 1953, Illinois Institute of Technology; MS 1955, Brown; PhD 1969, Hawai'i
- NAKAMURA, Charlotte W., Extension Agent Emeritus; BS 1966, Hawai'i; MS 1968, Purdue
- NAKAMURA, Robert M., Researcher Emeritus in Animal Science; DVM 1959, Washington State; MS 1966, PhD 1967, Wisconsin
- NAKANO, Richard, Extension Agent Emeritus; BS 1962, MS 1964, Hawai'i
- NAKASATO, Masaru, Specialist Emeritus in Extension; BS 1951, Hawai'i; MS 1961, Oregon State
- NAKAYAMA, Roy T., Professor Emeritus of Obstetrics and Gynecology; BA 1970, Lawrence; MD 1974, Colorado
- NAYA, Seiji, Professor Emeritus of Economics; BBA 1958, Hawai'i; MA 1962, PhD 1965, Wisconsin
- NELSON, Marita L., Professor Emeritus of Pathology; BS 1957, MS 1959, UCLA; PhD 1968, UC Berkeley; Regents' Medal for Excellence in Teaching, 1986
- NELSON, Torlef, Professor Emeritus of Education; BS 1942, MS 1947, Oregon; EdD 1952, Washington
- NEUBAUER, Deane, Professor Emeritus of Political Science; BA 1962, UC Riverside; MA 1965, PhD 1996, Yale; Robert W. Clopton Award for Distinguished Community Service, 1997
- NEWBY, I. A., Professor Emeritus of History; BS 1951, Georgia Southern College; MA 1957, South Carolina; PhD 1962, UCLA
- NIP, Wai-Kit, Food Technologist Emeritus; BS 1962, National Chung-Hsing; MS 1965, PhD 1969, Texas A&M
- NISHIDA, Toshiyuki, Entomologist Emeritus; BS 1941, MS 1947, Hawai'i; PhD 1953, UC Berkeley
- NISHIJIMA, Wayne T., Specialist Emeritus in Plant Pathology; BS 1967, Washington; MS 1972, Hawai'i; PhD 1977, Wisconsin; Willard Wilson Award for Distinguished Services to the University, 2006

## O

- O'BRIEN, Ethel M., Professor Emeritus of Health and Physical Education; BA 1937, UC Berkeley; MEd 1950, Hawai'i; EdD 1958, Oregon
- ODA, E. Aiko, Specialist Emeritus in Counselor Education; BeD 1958, MEd 1964, Hawai'i; PhD 1969, Minnesota
- O'DONNELL, Clifford, Professor Emeritus of Psychology; BA 1964, Fairleigh Dickinson; MS 1966, Oklahoma State; PhD 1970, Kentucky
- OKAMURA, Grant, Professor Emeritus of Music; BEd 1971, PD 1972, MMus 1982, Hawai'i
- OLSEN, Stephen L., Professor Emeritus of Physics; BS 1963, CCNY; MS 1965, PhD 1970, Wisconsin; Regents' Medal for Excellence in Research, 2002
- OLSON, Marion E., Professor Emeritus of Nursing; BS 1953, Nebraska; MA 1961, MA 1962, Iowa; PhD 1966, UCLA
- OMPS, James R., Professor Emeritus of Accounting; BS 1951, Brigham Young; MLitt 1957, CPA 1958, West Virginia; PhD 1961, Pittsburgh
- ONOPA, Robert L., Professor Emeritus of English; BA 1964, Illinois; MA 1966, Connecticut; PhD 1974, Northwestern
- OTA, Robert M., County Agent Emeritus, CES; BS 1950, Colorado State; MS 1959, Purdue
- OWEN, Tobias C., Astronomer Emeritus in IFA; BA 1955, BS 1959, MS 1960, Chicago; PhD 1965, Arizona; Regents' Medal for Excellence in Research, 2006
- OXFORD, Wayne H., Professor Emeritus of Speech; BA 1954, MA 1960, PhD 1969, UCLA

## P

- PAGER, David, Professor Emeritus of Information and Computer Sciences; BSc 1956, Capetown; PhD 1967, London
- PAIGE, Glenn D., Professor Emeritus of Political Science; BA 1955, Princeton; MA 1957, Harvard; PhD 1959, Northwestern
- PAKVASA, Sandip, Professor Emeritus of Physics; BS 1954, MS 1957, Baroda (India); PhD 1965, Purdue; Regents' Medal for Excellence in Research, 2009
- PALAFIX, Anastacio L., Poultry Scientist Emeritus; BS 1940, MS 1941, Washington State; PhD 1970, Michigan State
- PARK, Chai Bin, Professor Emeritus of Public Health; MD 1949, Seoul National; MPH 1956, DrPH 1959, UC Berkeley
- PARK, Wesley T., Dean Emeritus of College of Continuing Education; BEd 1959, MEd 1963, Hawai'i
- PARVIN, Philip E., Professor Emeritus of Horticulture; BSA 1950, Florida; MS 1952, Mississippi State; PhD 1965, Michigan State
- PATEMAN, Neil A., Professor Emeritus of Education; BS 1966, MEd 1980, Melbourne; EdD 1985, Georgia
- PATIL, Suresh S., Researcher Emeritus of Plant Pathology; BS 1955, Poona (India); MS 1959, PhD 1962, Oregon State
- PEACOCK, Karen M., Librarian Emeritus; BA 1970, Earlham College; MEd 1973, MA 1978, PhD 1990, Hawai'i
- PETERS, Ann Marie, Professor Emeritus of Linguistics; BA 1959, Bryn Mawr; MA 1961, PhD 1966, Wisconsin; Presidential Citation for Meritorious Teaching, 1992
- PETERSON, Frank L., Professor Emeritus of Geology and Geophysics; BA 1963, Cornell; MA 1965, PhD 1967, Stanford
- PETERSON, Richard E., Professor Emeritus of Financial Economics and Institutions; AB 1954, Stanford; MA 1966, PhD 1972, UC Berkeley
- PFUND, Rose T., Specialist Emeritus in Sea Grant College Program; BA 1951, MEd 1978, Hawai'i; PhD 1985, Pittsburgh
- PHILIPP, Perry F., Agricultural Economist Emeritus; BS 1940, PhD 1951, UC Berkeley
- PHILLIPS, Kathy J., Professor Emeritus of English; BA 1972, Dickinson College; PhD 1977, Brown; Presidential Citation for Meritorious Teaching, 1990
- PICARD, Anthony J., Professor Emeritus of Education; BS 1960, West Chester State College; MA 1962, Villanova;

PhD 1967, Ohio State; Presidential Citation for Meritorious Teaching, 1993  
 PITTS, Forrest R., Professor Emeritus of Geography; BA 1948, MA 1949, PhD 1956, Michigan  
 PONCE, Danilo E., Professor Emeritus of Psychiatry; MD 1963, U of Philippines  
 PONG, William, Professor Emeritus of Physics; BS 1951, MS 1952, PhD 1954, Cincinnati  
 PORTA, Eduardo A., Professor Emeritus of Pathology; BS 1943, National College (Argentina); MD 1952, Buenos Aires (Argentina)  
 POWER, John H., Professor Emeritus of Economics; BA 1946, Washington; PhD 1955, Stanford  
 POWLEY, John S., Extension Agent Emeritus in Human Nutrition, Food and Animal Sciences, CTAHR; BS 1975, Cal State Polytechnic; MS 1980, Oregon State  
 PREBLE, Duane, Professor Emeritus of Art; BA 1959, UCLA; MFA 1963, Hawai'i; Regents' Medal for Excellence in Teaching, 1969  
 PUTNAM, Lee, Specialist Emeritus in Student Affairs; BA 1967, Colorado; MA 1971, Chicago; PhD 1983, Maryland

## Q-R

RALEIGH, C. Barry, Researcher Emeritus in SOEST; BA 1956, Pomona; MA 1958, Claremont; PhD 1963, UCLA  
 RAMAGE, Colin S., Professor Emeritus of Meteorology; BS 1940, Victoria UC (New Zealand); ScD 1961, New Zealand  
 RAMOS, Teresita V., Professor Emeritus of Philippine Languages and Literature; BSE 1952, U of Philippines; MA 1958, Michigan; UCLA 1964; PhD 1972, Hawai'i; Regents' Medal for Excellence in Teaching, 1993  
 RAUCH, Fred D., Specialist Emeritus in Horticulture; BS 1956, MS 1963, Oregon State; PhD 1967, Iowa State  
 READ, George W., Professor Emeritus of Pharmacology; BA 1959, MS 1962, Stanford; PhD 1969, Hawai'i  
 RECHNITZ, Garry A., Professor Emeritus of Chemistry; BS 1958, Michigan; MS 1959, PhD 1961, Illinois; Regents' Medal for Excellence in Research, 1998  
 REED, S. Arthur, Professor Emeritus of Zoology; BS 1951, Kent State; MA 1953, PhD 1962, Michigan State  
 REEDER, Maurice M., Professor Emeritus of Surgery and Radiology; BA 1954, Loyola College; MD 1958, Maryland  
 REESE, Ernst S., Professor Emeritus of Zoology; BA 1953, Princeton; PhD 1960, UCLA  
 REID, Lawrence A., Researcher Emeritus in SSRI; MA 1964, PhD 1966, Hawai'i  
 REITSPERGER, Wolf, Professor Emeritus of Management and Industrial Relations; BA 1976, Sofia U of Tokyo; MBA 1977, Pepperdine; PhD 1982, U of London  
 REMUS, William E., Professor Emeritus of Decision Sciences; BS 1967, Michigan; MBA 1972, PhD 1974, Michigan State; Presidential Citation for Meritorious Teaching, 1990  
 RICHMAN, Eugene, Professor Emeritus of Management and Industrial Relations; BIndE 1942, Rensselaer Polytechnic; MAEd 1949, DEngSc 1951, New York  
 RIDER, Richard L., Professor Emeritus of Communication; AB 1937, Nebraska; MFA 1947, Yale; PhD 1958, Illinois  
 ROBB, David D., Specialist Emeritus in Admission and Records; BA 1969, MA 1976, PhD 1983, Hawai'i  
 RODGERS, Theodore S., Professor Emeritus of CRDG; BA 1956, Amherst; MS 1961, Georgetown; PhD 1968, Stanford  
 ROSE, John C., Professor Emeritus of Geophysics; BS 1948, MS 1950, PhD 1955, Wisconsin  
 ROSEN, Leon, Researcher Emeritus; AB 1945, UC Berkeley; MD 1948, UC San Francisco; MPH 1950, UC Berkeley; DrPH 1953, Johns Hopkins  
 ROSENBERG, Morton M., Senior Professor Emeritus of Poultry Science; BS 1938, Rutgers; MS 1940, Texas A&M; PhD 1948, Wisconsin  
 RUCH, Libby O., Professor Emeritus of Sociology; BA 1964, Vassar; MA 1967, Hawai'i; PhD 1973, Stanford  
 RUMMEL, Rudolph J., Professor Emeritus of Political Science; BA 1959, MA 1961, Hawai'i; PhD 1963, Northwestern  
 RUSSELL, Armand K., Professor Emeritus of Music; BA 1953, MA 1954, Washington; DMA 1958, Eastman School; Presidential Citation for Meritorious Teaching, 1990  
 RYBURN, Rucey J., Professor Emeritus of Nursing; BSN 1968, San Diego State; MPH 1976, MS 1976, DrPH 1987, Hawai'i

## S

SAAKE, Alvin C., Professor Emeritus of Health, Physical Education and Recreation; BS 1937, Ithaca College; MA 1946, EdD 1954, New York  
 SAGAWA, Yoneo, Researcher Emeritus in Tropical Plant and Soil Science, and Director Emeritus of Lyon Arboretum; BA 1950, MA 1952, Washington; PhD 1956, Connecticut  
 SAITO, Shiro, Librarian Emeritus; BEd 1951, Certificate 1952, Hawai'i; MA 1956, Minnesota  
 SAKUMA, Mabel Y., Extension Agent Emeritus; BS 1956, MEd 1978, Hawai'i  
 SANDERSON, Richard A., Professor Emeritus of Education; BA 1952, MA 1958, PhD 1961, USC  
 SANG, Jürgen G., Professor Emeritus of German; Dr Phil 1966, Munich  
 SASO, Michael, Professor Emeritus of Religion; BA 1952, Santa Clara; MA 1955, Gonzaga; MA 1964, Yale; PhD 1971, London  
 SATO, Dwight M., Extension Agent Emeritus in Plant and Environmental Protection Sciences, CTAHR; BS 1976, Hawai'i; MS 1978, UC Riverside  
 SATO, Esther M. T., Professor Emeritus of Education; BA 1938, William Jewell College; MA 1939, Columbia; MA 1966, Hawai'i  
 SCHAMBER, Dean T., Professor Emeritus of Surgery; BA 1956, MD 1959, Minnesota; Excellence in Teaching, Legion of Merit  
 SCHATZ, Irwin J., Professor Emeritus of Medicine; FS 1951, MD 1956, U of Manitoba (Canada)  
 SCHMIDT, Richard W., Professor Emeritus of Second Language Studies; AB 1963, Harvard; MA 1971, PhD 1974, Brown  
 SCHMITT, Donald P., Researcher Emeritus in Plant Pathology; BS 1967, MS 1969, PhD 1971, Iowa State  
 SCHROEDER, Thomas A., Associate Professor Emeritus of Meteorology; BS 1969, Indiana Central; MS 1971, PhD 1974, Purdue  
 SCHUTZ, Albert J., Professor Emeritus of Linguistics; BS 1958, Purdue; PhD 1962, Cornell  
 SCHWARTZ, Arnold D., Professor Emeritus of Public Health; AB 1947, UC Berkeley; MD 1950, UC San Francisco; MPH 1956, Harvard  
 SCOTT, Frank S., Jr., Researcher Emeritus in Agricultural and Resource Economics; BS 1944, Oregon; MA 1947, Missouri; PhD 1953, Illinois  
 SEFF, Karl, Professor Emeritus of Chemistry; BS 1959, UC Berkeley; PhD 1964, MIT  
 SEIDL, Ludwig H., Professor Emeritus of Ocean Engineering; BSME 1961, MS 1964, DSc 1970, Vienna U of Technology  
 SEIFERT, Friedrich, Professor Emeritus of Religion; ThD 1959, Pacific School of Religion; Regents' Medal for Excellence in Teaching, 1967  
 SEIFERT, Josef, Researcher Emeritus of CTAHR; MS 1964, PhD 1973, Prague Institute of Chemical Technology (Czech Republic)  
 SEO, Kap-Kyung, Professor Emeritus of Financial Economics and Institutions; BA 1956, South Carolina; MBA 1957, Xavier; PhD 1960, Cincinnati  
 SEYMOUR, Richard K., Professor Emeritus of German; BA 1951, MA 1952, Michigan; PhD 1956, Pennsylvania  
 SHANG, Eugene Y. C., Researcher Emeritus in Agricultural and Resource Economics; BA 1958, Chung Hsing; MS 1962, Southern Illinois; PhD 1969, Hawai'i  
 SHAPIRO, Samuel I., Professor Emeritus of Psychology; BA 1961, Brooklyn College; AM 1962, Michigan; MS 1965, PhD 1966, Pennsylvania State  
 SHARMA, Rama Nath, Professor Emeritus of Indo-Pacific Languages and Literatures; BA 1957, Banaras; MA 1959, Allahabad (India); MA 1962, Agra (India); PhD 1971, Rochester  
 SHARMA, Santosh D., Professor Emeritus of Obstetrics and Gynecology; MBBS 1960, Poona (India)  
 SHELDON, Pauline J., Professor Emeritus of Travel Industry Management; BS 1972, Southampton (UK); MBA 1980, Chaminade; PhD 1984, Hawai'i; Presidential Citation for Meritorious Teaching, 1995  
 SHERMAN, Ruth G., Specialist Emeritus in Student Development; BA 1942, Douglass; MA 1964, Hawai'i; PhD 1981, Human Psychology Institute  
 SHIBATA, Shoji, Professor Emeritus of Pharmacology; MD 1952, Nara Medical College; PhD 1957, Kyoto (Japan)  
 SHIGETA, Daniel T., Extension Agent Emeritus; BS 1950, Hawai'i; MEd 1964, Colorado State  
 SHIGETA, James Y., Specialist Emeritus in Club Work; BS 1951, Maryland; MS 1958, Wisconsin

SHIPWRIGHT, Edward, Professor Emeritus of Music; BS 1959, MS 1961, Juilliard School; EdD 1976, Columbia  
 SHULTZ, Edward J., Professor Emeritus of Asian Studies; AB 1966, Union College; MA 1970, PhD 1976, Hawai'i; Robert W. Clifton Award for Outstanding Community Service, 2004  
 SIBERT, John R., Researcher Emeritus; BA 1962, U of Pacific; PhD 1968, Columbia  
 SILVA, James A., Soil Scientist Emeritus; BS 1951, MS 1959, Hawai'i; PhD 1964, Iowa State  
 SIMPKINS, Alan, Specialist Emeritus in Student Development; BA 1959, Nebraska; MA 1968, Hawai'i; PhD 1976, U.S. International  
 SIMSON, George, Professor Emeritus of English; BA 1952, Whitman; MA 1957, Washington State, PhD 1963, Minnesota  
 SINGLETON, Paul W., Researcher Emeritus in Tropical Plant and Soil Sciences, CTAHR; BS 1975, Colorado; MA 1976, Florida; PhD 1982, Hawai'i  
 SINTON, John M., Professor Emeritus of Geology and Geophysics; AB 1969, UC Santa Barbara; MS 1971, Oregon; PhD 1976, U of Otago (New Zealand); Presidential Citation for Meritorious Teaching, 1991  
 SINTON, William M., Professor Emeritus of Astronomy; AB 1949, PhD 1953, Johns Hopkins  
 SLAUGHTER, Helen B., Professor Emeritus of Education; BSEd 1959, Northern Arizona; MEd 1965, EdD 1974, Arizona  
 SMITH, Barbara B., Professor Emeritus of Music; BA 1942, Pomona; MM 1943, Eastman School of Music  
 SMITH, Clifford W., Professor Emeritus of Botany; BSc (Hons) 1962, U of Wales; MSc 193, PhD 1965, Manchester (UK)  
 SMITH, Dean O., Professor Emeritus of JABSOM; BA 1967, Harvard; AM 1969, PhD 1971, Stanford  
 SMITH, M. Ray, Researcher Emeritus in Biosystems Engineering; BS 1958, Oklahoma State; MS 1959, Illinois; PhD 1965, Iowa State  
 SMITH, Stephen V., Professor Emeritus of Oceanography; BA 1964, Texas; MS 1966, Northwestern; PhD 1970, Hawai'i  
 SNOW, Marcellus S., Professor Emeritus of Economics; BA 1965, Utah; MA 1969, Johns Hopkins; MS 1969, MIT; PhD 1974, Berkeley  
 SOLHEIM, Wilhelm G., II, Professor Emeritus of Anthropology; BA 1947, Wyoming; MA 1949, UC Berkeley; PhD 1959, Arizona  
 SPONSEL, Leslie E., Professor Emeritus of Anthropology; BA 1965, Indiana; MA 1973, PhD 1981, Cornell; Presidential Citation for Meritorious Teaching, 1986  
 SPRAGUE, Ralph H., Professor Emeritus of Information Technology Management; BS 1960, Anderson College; MBA 1962, DBA 1964, Indiana  
 STAATS, Arthur W., Professor Emeritus of Psychology; BA 1949, MA 1953, PhD 1956, UCLA  
 STANDAL, Bluebell R., Nutritionist Emeritus; BS 1942, Calcutta; MS 1948, PhD 1952, UC Berkeley  
 STASACK, Edward A., Professor Emeritus of Art; BFA 1955, MFA 1956, Illinois  
 STEIGER, Walter R., Professor Emeritus of Physics and Astronomy; BS 1948, MIT; MS 1950, Hawai'i; PhD 1953, Cincinnati  
 STEMPEL, Daniel, Professor Emeritus of English; BA 1941, City College of New York; MA 1942, PhD 1949, Harvard  
 STENGER, Victor J., Professor Emeritus of Physics; BS 1956, Newark; MS 1959, PhD 1963, UCLA  
 STEPHAN, John J., Professor Emeritus of History; BA 1963, MA 1964, Harvard; PhD 1969, London  
 STEVENS, Robert D., Professor Emeritus of Library Studies; AB 1942, Syracuse; BS 1947, Columbus; MA 1955, PhD 1965, American  
 STIMSON, John S., Professor Emeritus of Zoology; BA 1963, Occidental College; MA 1965, PhD 1968, UC Santa Barbara  
 STRAEHLEY, Clifford J., Professor Emeritus of Surgery; MD 1946, Harvard  
 STOCKTON, Alan N., Astronomer Emeritus in IFA; BA 1964, UC Berkeley; PhD 1968, Arizona  
 STROVEN, Carl G., Senior Professor Emeritus of English and Librarian; AB 1926, MA 1928, Stanford; PhD 1939, Duke  
 STUEBER, Ralph K., Professor Emeritus of Education; BS 1950, MA 1955, PhD 1964, Wisconsin  
 SUEHIRO, Richard Y., Specialist Emeritus in Public Health; BA 1949, Hawai'i; MA 1951, Indiana; MPH 1962, Michigan

SWIFT, David W., Professor Emeritus of Sociology; AB 1950, MA 1960, PhD 1967, UC Berkeley

SZILARD, Rudolph S., Professor Emeritus of Civil Engineering; Grad CE 1942, Dipl-Ing (MS) 1943, Royal Tech U (Budapest); Dr-Ing 1962, Technical U of Stuttgart

## T

TABRAH, Frank L., Professor Emeritus of Family Practice and Community Health; MD 1943, Buffalo

TACHIHATA, Chieko, Librarian Emeritus; BA 1958, Hawai'i; MSLS 1964, Illinois; PhD 1981, USC

TAKAHASHI, Patrick K., Director Emeritus of Hawai'i Natural Energy Institute; BS 1962, Stanford; PhD 1971, Louisiana State

TAM, Leslie Q., Professor Emeritus of Tropical Medicine and Medical Microbiology; BS 1971, MS 1974, PhD 1980, Hawai'i; Presidential Citation for Meritorious Teaching, 1993

TAMASHIRO, Minoru, Professor Emeritus of Entomology; BS 1951, MS 1954, Hawai'i; PhD 1960, UC Berkeley

TAMIMI, Yusuf N., Soil Scientist Emeritus; BS 1957, Purdue; MS 1959, New Mexico State; PhD 1964, Hawai'i

TAN, Siang-Young, Professor Emeritus of Medicine; BS 1968, MD 1970, McGill

TANABE, George J., Jr., Professor Emeritus of Religion; BA 1965, Willamette; MDiv 1969, Union Theological Seminary; MA 1974, PhD 1983, Columbia

TANABE, Willa, Professor Emeritus of Art; BA 1967, Oregon; MA 1974, PhD 1983, Columbia; Presidential Citation for Meritorious Teaching, 1988

TANG, Chung-Shih, Researcher Emeritus in Agricultural Biochemistry; BS 1960, MS 1962, Taiwan, PhD 1967, UC Davis

TERAZAKI, T. David, Professor Emeritus of Architecture; BA 1944, ME 1947, Tokyo

THARP, Roland, Professor Emeritus of Psychology; BA 1957, Houston; MA 1958, PhD 1961, Michigan; Regents' Medal for Excellence in Teaching, 1970

THOMPSON, John R., Agronomist Emeritus; BS 1949, MS 1952, Minnesota; PhD 1964, Iowa State

THOMPSON, Laurence C., Professor Emeritus of Linguistics; BA 1949, Middlebury; MA 1950, PhD 1954, Yale

TILES, James E., Professor Emeritus of Philosophy; BA 1966, Carleton College; BA 1968, MSc 1970, Bristol (UK); DPhil 1978, Oxford

TILES, Mary E., Professor Emeritus of Philosophy; BA 1967, PhD 1973, Bristol (UK); BPhil 1974, Oxford

TOWNSLEY, Sidney J., Professor Emeritus of Marine Zoology; BA 1948, UC Berkeley; MS 1950, Hawai'i; PhD 1954, Yale

TOYAMA, Jean M., Professor Emeritus of French; BA 1964, Hawai'i; MA 1967, Purdue; PhD 1975, UC Irvine; Regents' Medal for Excellence in Teaching, 2000

TRACY, Robert A., Professor Emeritus of Education and Physiology; BS 1954, MEd 1956, N State College (South Dakota); PhD 1971, Minnesota

TRASK, Haunani-Kay, Professor Emeritus of Hawaiian Studies; BA 1972, MA 1975, PhD 1981, Wisconsin-Madison

TRIMILLOS, Ricardo D., Professor Emeritus of Philippine Studies; AB 1962, San Jose; MA 1965, Hawai'i; PhD 1972, UCLA; Distinguished Graduate Mentoring Award, 2009

TRUJILLO, Eduardo E., Researcher Emeritus in Plant Pathology; BSA 1956, MS 1957, Arkansas; PhD 1962, UC Berkeley

TSUEI, Julia J., Professor Emeritus of Public Health; MD 1952, National Defense Medical College (Taipei); MA 1966, Pennsylvania

TSENG, Wen-Shing, Professor Emeritus of Psychiatry; MD 1961, National Taiwan U

TUAN, San Fu, Professor Emeritus of Physics; BA 1954, MA 1958, Oxford; PhD 1958, Berkeley

TURNBULL, Murray, Professor Emeritus of Art; BFA 1941, Nebraska; MA 1949, Denver; Regents' Medal for Excellence in Teaching, 1985

TUTTLE, Daniel W., Specialist Emeritus in Educational Administration; AB 1945, Illinois; MA 1947, PhD 1964, Minnesota

## U

UEHARA, Betty K., Professor Emeritus of Education; BEd 1947, Hawai'i; MA 1958, New York; EdD 1974, Arizona

UHALLEY, Stephen, Jr., Professor Emeritus of History; AB 1966, UC Riverside; MA 1957, Claremont; PhD 1967, UC Berkeley; Fujio Matsuda Scholar, 1986

UPADHYAYA, Kashi Nath, Professor Emeritus of Philosophy; BA 1951, Patna U, MA 1953, PhD 1964, Sri Lanka

## V

VAN REEN, Robert, Nutritionist Emeritus; AB 1943, New Jersey State; PhD 1949, Rutgers

VAN ZILE, Judy A., Professor Emeritus of Dance; BA 1965, Indiana; MA 1966, Colorado; MA 1971, UCLA

VARNNEY, Sheldon S., Professor Emeritus of Public Health; AB 1950, MEd 1964, Nevada; EdD 1967, Northern Colorado

VERDERBER, Anne, Professor Emeritus of Nursing; BS 1958, St. John's College; MEd 1964, Minnesota; MS 1969, Wisconsin; PhD 1982, USC

VIGIELMO, Valdo H., Professor Emeritus of Japanese Literature; BA 1948, MA 1952, PhD 1956, Harvard

## W

WALDRON, Jane A., Professor Emeritus of Psychiatry; BA 1960, Newton; MSW 1965, Boston College; PhD 1974, Smith College

WALLEN, Lawrence J., Professor Emeritus of Mathematics; BA 1954, Lehigh; PhD 1967, MIT

WANG, Jaw-Kai, Researcher Emeritus in Molecular Biosciences and Biosystems Engineering; BS 1953, National Taiwan U; MS 1956, PhD 1958, Michigan State

WATSON, David L., Professor Emeritus of Psychology; BA 1959, Vanderbilt; MS 1961, PhD 1963, Yale

WATSON, John R., Professor Emeritus of Public Health; MBBS 1969, London; MPH 1976, Hawai'i

WAYNE, Valerie, Professor Emeritus of English; AB 1966, DePauw; MA 1972, PhD 1978, Chicago; Regents' Medal for Excellence in Teaching, 1985

WEDEMEYER, Dan J., Professor Emeritus of Communication; BS 1968, Iowa State; MA 1971, Hawai'i; AM 1976, PhD 1978, USC; Presidential Citation for Meritorious Teaching, 1987

WEEKS, Shirley, Specialist Emeritus in Human Development and Relationships; BS 1939 Massachusetts State; MS 1944, Cornell; PhD 1964, Wisconsin

WEEMS, Charles W., Researcher Emeritus in Human Nutrition, Food, and Animal Sciences, CTAHR; BS 1964, MS 1966, East Tennessee State; PhD 1975, West Virginia

WEGNER, Eldon L., Professor Emeritus of Sociology; BA 1963, Redlands; MA 1965, PhD 1967, Wisconsin

WEINER, Joel L., Professor Emeritus of Mathematics; BA 1965, MA 1968, PhD 1971, UCLA; Presidential Citation for Meritorious Teaching, 1995

WELDON, Edward J., Jr., Professor Emeritus of Electrical Engineering; BS 1958, Manhattan College; MS 1960, PhD 1963, Florida

WESTER, Lyndon L., Professor Emeritus of Geography; BA 1967, Adelaide; MA 1969, PhD 1975, UCLA

WHITE, Bruce E., Dean Emeritus of College of Education, and Professor Emeritus of Education; BA 1923, Willamette; MA 1932, PhD 1935, Washington

WHITMAN, Nancy C., Professor Emeritus of Curriculum Studies; BA 1954, MA 1956, PhD 1961, Illinois

WHITNEY, Arthur S., Agronomist Emeritus; BS 1955, Ohio; MS 1958, Cornell; PhD 1966, Hawai'i

WHITTOW, G. Causey, Professor Emeritus of Physiology; BSc 1952, FLS 1976, FI Biol 1992, London; PhD 1957, Malaya

WILKENS, Roy, Researcher Emeritus in HIGP; BA 1969, SUNY-New Paltz; MA 1977, SUNY-Binghamton; PhD 1981, Washington

WILLIAMS, Raburn, Professor Emeritus of Economics; BA 1965, Stanford; MA 1967, PhD 1970, Chicago

WILSON, C. Peairs, Researcher Emeritus in Agricultural and Resource Economics; BS 1938, MS 1940, Kansas State; PhD 1958, UC Berkeley

WITTICH, Walter A., Professor Emeritus of Education; BS 1932, MA 1934, PhD 1943, Wisconsin

WOLFF, Robert J., Professor Emeritus of Public Health; PhD 1953, Michigan

WOLFE, Suzanne, Professor Emeritus of Art and Art History; BA 1965, BSD 1968, MFA 1970, Michigan

WON, George Y., Professor Emeritus of Sociology; BA 1955, MA 1957, Hawai'i; PhD 1962, Michigan State

WONG, Carolina D., Specialist Emeritus in Student Health Service; MD 1941, Santo Tomas

WONG, Helene H., Professor Emeritus of Speech; BA 1942, MA 1947, Stanford; PhD 1955, Louisiana State

WONG, Livingston M. F., Professor Emeritus of Surgery; BS 1952, Hawai'i; MD 1959, Oregon

WONG, Ruth E. M., Professor Emeritus of Mathematics; BEd 1948, Hawai'i; MS 1960, Illinois; AM 1964, PhD 1968, Michigan; Presidential Citation for Meritorious Teaching, 1992

WRIGHT, Joyce M., Library Specialist Emeritus; BA 1938, BALS 1939, Washington

WU, I-Pai, Researcher Emeritus in Molecular Biosciences and Bioengineering; BSAE 1955, National Taiwan U; MSAE 1960, PhD 1963, Purdue

WYNN-WILLIAMS, Gareth, Professor Emeritus of Physics and Astronomy and IFA; BA 1966, MA 1970, PhD 1971, Cambridge

## Y

YAMAGA, Karen M., Professor Emeritus of Tropical Medicine, Medical Microbiology and Pharmacology; BA 1968, Cal State Los Angeles; MS 1970, PhD 1974, Hawai'i

YAMAMOTO, Harry Y., Researcher Emeritus in Plant Pathology; BS 1955, Hawai'i; MS 1958, Illinois; PhD 1962, UC Davis

YAMAUCHI, Hiroshi, Professor Emeritus of Agricultural Economics; BA 1964, MS 1966, PhD 1968, UC Berkeley

YANAGIMACHI, Ryuzo, Professor Emeritus of Anatomy and Reproductive Biology; BS 1952, DSc 1960, Hokkaido (Japan); Regents' Medal for Excellence in Research, 1988

YANG, Hong-Yi, Professor Emeritus of Pathology; MD 1961, National Taiwan U; PhD 1967, Chicago

YANG, Ping-Yi, Researcher Emeritus in Molecular Biosciences and Bioengineering; BS 1961, National Taiwan U; MS 1969, PhD 1972, Oklahoma State

YAO, Tao-chung Ted, Professor Emeritus of Chinese; BA 1968, Soochow (China); MA 1973, Seton Hall; PhD 1980, Arizona

YASUI, Byron, Professor Emeritus of Music; BEd 1965, Hawai'i; MM 1967, DMA 1972, Northwestern; Regents' Medal for Excellence in Teaching, 1989

YASUNOBU, Kerry T., Professor Emeritus of Biochemistry and Biophysics; BS 1950, PhD 1954, Washington

YATES, Alayne, Professor Emeritus of Psychiatry; BA 1950, Radcliffe; MD 1961, Illinois

YATSUSHIRO, Toshio, Specialist Emeritus in College of Continuing Education and Community Service; BA 1944, Redlands; PhD 1953, Cornell

YEH, Rui Zong, Professor Emeritus of Mathematics; BA 1953, Minnesota; MA 1956, PhD 1959, Princeton

YEH, Stephen H. K., Professor Emeritus of Sociology; AB 1954, San Francisco State College; MA 1960, PhD 1965, NYU

YOUNG, Richard E., Professor Emeritus of Oceanography; BA 1960, Pomona; MS 1964, USC; PhD 1968, Miami

YOUNG, Reginald H. F., Professor Emeritus of Civil Engineering; BS 1959, MS 1965, Hawai'i; ScD 1967, Washington

YUN, David Y. Y., Professor Emeritus of Electrical Engineering; BS 1970, Ohio State; PhD 1973, MIT

## Z

ZANE, Lawrence F., Professor Emeritus of Education; BS 1953, MEd 1963, Hawai'i; PhD 1968, Maryland

## UH System

CHING, Doris M., Vice President Emeritus; BEd 1963, MEd 1971, Hawai'i; EdD 1977, Arizona State

GAINES, James R., Vice President Emeritus for Research; BA 1956, Berea College; PhD 1961, Washington

McCLAIN, David, President Emeritus; BA 1968, Kansas; PhD 1974, MIT

SATHRE, Colleen O., Vice President Emeritus for Planning and Policy; BA 1967, College of St. Benedict; MA 1971, PhD 1977, Minnesota

# Instructional Support, Research, and Service Units Staff

## Admissions Office

DANG, Hung D., Associate Vice Chancellor for Enrollment Management and Director of Admissions; BA 1990, Washington; MA 2012, Gonzaga

YAMAGUCHI, Ryan, Assistant Director of Admissions; BA 2001, MEd 2007, Hawai'i

TANIGUCHI, Janice E., Assistant Director of Admissions; BED 1974, MEd 1997, Hawai'i

ARRIBA, Melissa B., Transfer Credit Specialist; BBA 2003, Hawai'i

BUENO, Jolene, Transfer Credit Specialist; BS 1984, Philippines

BUTO, Lisa, Student Services Specialist; BA 1984, George Washington U

DIEHL, Janine, Admissions Specialist; BA 2011, Hawai'i

FONSECA, Alexander, Events Coordinator; BA 2006, Humboldt State

GUSMAN, Carissa, Admissions Counselor; BA 2007, Eastern Washington; MS 2012, Portland State

HU, Ming, IT Specialist; BS 1975, Taiwan; MS 1982, California

HULIGANGA, Abigail, Campus Tour Coordinator; BA 2008, Hawai'i

INOUE, Garrett, Admissions Officer; BA 1997, MEd 2003, Hawai'i

JOKURA, Marsha, Transfer Credit Specialist; BA 2000, Hawai'i

KATO, Irene, Administrative and Fiscal Support Specialist; BBA 2002, Hawai'i

LEE, Jill, Senior Transfer Credit Specialist; BA 1978, Hawai'i

MAGNO, Jose, Admissions Counselor; BBA 2005, Hawai'i

MALIN, Stephanie, Transfer Credit Specialist; BA 2007, Seattle Pacific U

McDANIEL, Kelly A., Admissions Officer; BS 1987, Western Kentucky

MIZUNO, Jennifer, Transfer Credit Specialist; BS 2004, MEd 2006, Hawai'i

NAGATA, Tracyn, Admissions Counselor; BS 2012, Hawai'i

NAKAMOTO, Lee, Admissions Officer; BS 2004, Hawai'i

NAKANO, Chris U., Admissions Officer; BBA 1996, Hawai'i

NII, June, Admissions Officer; BBA 1974, Hawai'i

ROLA, Steve, Admissions Officer; BSW 1995, MPA 1998, Hawai'i

SAMAROO, Cindy A., Admissions Relations Manager; BSc 1997, West Indies; MEd 2005, Cleveland State

SUDA, Roy, Information Services Coordinator; BBA 1993, Hawai'i

TOMLINSON, Sean, Admissions Officer; BBA 2007, Hawai'i

TURNER, Artilus, Admissions Specialist; BS 2011, MEd 2013, Hawai'i

WAMSLEY, Justin N., Enrollment Advisor; BA 2011, Hawai'i

YOSHIDA, Tori, Transfer Credit Specialist; BS 2003, Hawai'i

## Center on Aging

NISHITA, Christy M., Interim Director and Assistant Specialist

CLARK-SHIRLEY, Leanne, Junior Specialist

## Aerospace Studies Program

TERRELL, Vincent, Director

## Arts and Sciences Student Academic Services

\*BINGHAM, Ruth, Chair

 \*McKENZIE, Katherine A., Assistant Specialist  
 NUIBE, Michele C., Fiscal Officer; BA 1995, Hawai'i  
 ORIDE, David K., Senior Fiscal Officer; BBA 1984, MBA 1990, Hawai'i

\*Dates and institutions of degrees are listed under " Faculty."

PAREDES, Lloyd S., Scientific Instrument Technician; AS 1985, American River; DC 1992, Palmer College of Chiropractic-West

PARK, Heason K., Research Associate; BS 1979, MS 1981, Busan National

\*PIAVIS, William J., Junior Researcher

\*RAWSON, James C., Assistant Specialist

\*RESHETENKO, Tatyana V., Junior Researcher

\*ROOSE, Leon R., Specialist

\*ST-PIERRE, Jean, Researcher

\*STAACKMANN, Milton, Assistant Specialist

\*TAKAHASHI, Patrick K., Emeritus Director and Specialist

TOKUNAGA-IDE, Diane K., Administrative and Fiscal Support Specialist; BBA 1979, Hawai'i

\*TURN, Scott Q., Researcher

\*VEGA, Luis A., Specialist

\*VIRJI, Maheboob V., Associate Specialist

\*YOZA, Brandon A., Assistant Researcher

\*YU, Jian, Researcher

\*ZHAI, Yunfeng, Junior Researcher

### **Hawai'i Space Grant Consortium**

FLYNN, Luke, Director, Hawai'i Space Grant Consortium

\*TAYLOR, G. Jeffrey, Associate Director, (Space Science), Hawai'i Space Grant Consortium

\*HAWKE, B. Ray, Associate Director (Outreach), Hawai'i Space Grant Consortium

\*SCOTT, Edward R., Associate Director (Fellowship), Hawai'i Space Grant Consortium

COIMBRA, Carlos, Associate Director (Aerospace), Hawai'i Space Grant Consortium

### **Hawai'i State Center for Nursing**

LEVASSEUR, Sandra, Associate Director, Research and Associate Professor of Nursing; BS 1983, Hawai'i; MS 1993, La Trobe U; PhD 2005, Monash U

SHISHIDO, Gloria, Executive Assistant; BS 1970, Hawai'i; MA 1982, Central Michigan

ONO, Amy, Administrative Support; BA 1996, JD 2000, Hawai'i

### **Hawai'i Undersea Research Laboratory**

\*WILTSHIRE, John C., Director and Associate Chair of Ocean and Resource Engineering

\*CHAVE, E. H., Associate Specialist

\*CREMER, Maximilian D., Assistant Specialist

\*GREESON, Bernard Dandridge, Specialist

\*KELLEY, Christopher D., Associate Specialist

\*MALAHOFF, Alexander, Emeritus Professor of Oceanography

ORANGE, Rachel S., Junior Specialist

\*SMITH, John R., Jr., Specialist

### **Honors Program**

\*GONZALEZ, Vernadette V., Director

\*SHIROMA, Kiana, Junior Specialist

SHARMA, Sheela, Education Specialist

CUSTODIO, Jennifer, Education Specialist

### **Industrial Relations Center**

\*NAJITA, Joyce M., Director and Researcher

MILLER, Michael F., Senior Labor Relations Research Assistant; BA 1972, MPA 2008, Hawai'i

### **Information Technology Services**

LASSNER, David K., Vice President for Information Technology and Chief Information Officer, AB 1976, MS 1981, Illinois; PhD 1998, Hawai'i

AHANA, Cameron K., Management Information Systems; BA 1996, BS 2000, Hawai'i

CHAN, Kenrick, Academic Technology Services; BE 1985, MEd 1991, Hawai'i

ENOKI, Darrel, Technology Infrastructure; BA 1980, Hawai'i; AS 1987, Kapi'olani Community College

HODGES, Michael, Technology Infrastructure; BS 1984, Hawai'i

INOUYE, Susan K., Management Information Systems; BBA 1979, Hawai'i

ITO, Jodi-Ann Y., Office of VP for IT & CIO; BS 1982, MS 1987, Hawai'i

KAWACHI, Janice, Technology Infrastructure; BBA 1972, Hawai'i

KAWADA, Catherine, Academic Technology Services; AA 1987, Maui Community College; BA 1989, Hawai'i

KAWANO, Cara, Technology Infrastructure; BS 1984, Hawai'i

LIU, Royd, Academic Technology Services; BA 1995, Hawai'i

MAKIGUCHI, Osamu, Academic Technology Services; BA 1992, Hawai'i

MORITA, Harry, Technology Infrastructure; BS 1970, Hawai'i

NAKAHARA, Kenneth, Management Information Systems; BS 1961, Cal Poly-San Luis Obispo

OCHI, Mitchell, Academic Technology Services; BBA 2000, Hawai'i

ODO, Lynn, Management Information Systems; BS 1982, MBA 1992, Hawai'i

OKIMOTO, Hae K., Academic Technology Services; BS 1976, MS 1982, USC

POLO, Julio, Technology Infrastructure; BS 1988, Hawai'i

SAKATA, Steven, Technology Infrastructure; BS 1989, Hawai'i

SHINSATO, Craig, Administrative Services; BBA 1974, Hawai'i

SMITH, Steven L., Associate Vice President for Information Technology and Deputy Chief Information Officer, BGS 1973, Iowa; MA 1984, Hawai'i

YAMASHITA, Scott A., Administrative Services; BE 1983, Hawai'i; MBA 1987, Hofstra

YOSHIOKA, Carl, Technology Infrastructure; BS 1990, Hawai'i

ZANE, Christopher K., Technology Infrastructure; BS 1994, Hawai'i

### **Institutional Research Office**

STANLEY, John C., Institutional Analyst; BA 2001, UT Austin; MEd 2009, Hawai'i

ZHANG, Yang, Director of Institutional Research; BA 2002, Shandong U (China); MS 2005, Wisconsin-Milwaukee; MBA 2011, Edgewood College; PhD 2011, Wisconsin-Madison

BUNGARD, Ryan S., Web Developer; BA, BS 2007, Pittsburgh; MA 2010, Hawai'i

### **Office of Intercollegiate Athletics**

JAY, Ben, Athletic Director; BS, MA, Ohio State

CLAPP, Carl R., Associate Athletics Director; BA 1981, UC Santa Barbara; MA 1985, Arizona

MONIZ-KAHOOHANOANO, Marilyn M., Associate Athletics Director/Senior Woman Administrator; BA 1976, JD 1979, Hawai'i

MCNAMARA, John P., Associate Athletics Director for External Affairs; BA 1985, Toledo

CHANG, Teri Jean T. W., Assistant Athletics Director for Facilities; BE 1982, Hawai'i

KURAOKA, Tiffany K., Assistant Athletics Director for Business Operations; BA 2000, Claremont McKenna College

### **Interdisciplinary Studies Program**

\*ODIN, Jaishree, Director

\*DRECHSEL, Emanuel, Specialist

### **International and Exchange Programs**

\*PERUSHEK, Diane, Director of Global Relations

KAJIWARA, Lois, Administrative Specialist

### **International Pacific Research Center**

\*HAMILTON, Kevin P., Director and Professor of Meteorology

ANNAMALAI, H., Senior Researcher

ELISON TIMM, Oliver, Assistant Researcher

FU, Joshua Xiouhua, Associate Researcher

FURUE, Ryo, Assistant Researcher

KIKUCHI, Kazuyoshi, Assistant Researcher

LEE, June-Yi, Assistant Researcher

\*LI, Tim, Professor of Meteorology

MAXIMENKO, Nikolai, Senior Researcher

\*MCCREARY, Julian P., Jr., Professor of Oceanography

MELNICHENKO, Oleg, Assistant Researcher

NATAROV, Andrei, Assistant Researcher

POTEMRA, James T., Manager, APDR

QU, Tangdong, Senior Researcher

\*RICHARDS, Kelvin, Professor of Oceanography

\*SCHNEIDER, Niklas, Professor of Oceanography

TIMMERMANN, Axel, Professor of Oceanography

TOKINAGA, Hiroki, Assistant Researcher

\*WANG, Bin, Professor of Meteorology

WANG, Yuqing, Professor of Meteorology

\*XIE, Shang-Ping, Professor of Meteorology

YU, Zuojun, Associate Researcher

### **International Student Services**

\*DUCKWORTH, Linda, Director

\*ALLEN, Raymond W., International Student Advisor

NGO, Viet, International Student Advisor

CHUN, Cedric, IT Specialist

\*STAFF, Martha C., Assistant Director

### **Joint Institute for Marine and Atmospheric Research**

#### **Fellows**

\*MERRIFIELD, Mark A., Director and Associate Professor of Oceanography

\*BARNES, Gary M., Professor of Meteorology

BOGRAD, Steven J., Research Associate, NOAA/NMFS Southwest Fisheries Science Center; PhD 1998, U British Columbia

BRILL, Richard, Director, Cooperative Marine Education and Research Program, Virginia Institute of Marine Science, Northeast Fisheries Science Center, National Marine Fisheries Service; BA 1970, Lafayette College; MS 1974, Northeastern; PhD 1979, Hawai'i

\*BUSINGER, Steven, Professor of Meteorology

\*DECARLO, Eric, Research Professor of Oceanography

FEELY, Richard A., Affiliate Full Professor, U Washington; PhD 1974, Texas A&M

\*FIRING, Eric, Associate Professor of Oceanography

\*FLETCHER, Charles H., III, Professor of Geology

HARRISON, Donald Edmunds, Pacific Marine Environmental Laboratory; BA 1972, Reed College; MS 1973, PhD 1977, Harvard

\*HOLLAND, Kim, Researcher, Hawai'i Institute of Marine Biology

JOHNSON, Gregory C., Oceanographer, Pacific Marine Environmental Laboratory; BS 1985, Bates College; PhD 1991, MIT and Woods Hole Oceanographic Institution

KESSLER, William S., Pacific Marine Environmental Laboratory; BS 1982, San Francisco State College; PhD 1989, Washington

\*LUKAS, Roger, Professor of Oceanography

\*LUTHER, Douglas, Professor of Oceanography

MARKS, Frank D., Jr., Head of Field Programs, NOAA/AOHL/HRD; PhD 1980, MIT

\*McCREARY, Julian P., Jr., Professor of Oceanography

MCPHADEN, Michael J., Pacific Marine Environmental Laboratory; BS 1974, SUNY; PhD 1980, UC San Diego

MOORE, Dennis W., Pacific Marine Environmental Laboratory; BA 1961, MA 1963, PhD 1968, Harvard

POLOVINA, Jeffrey, Pacific Islands Fisheries Science Center, National Marine Fisheries Service; BS 1970, Carnegie-Mellon; PhD 1974, UC Berkeley

POOLEY, Samuel, Director, NOAA/NMFS Pacific Islands Fisheries Science Center; PhD 1987, Hawai'i

POWELL, Mark, Research Scientist, NOAA/AOHL/HRD; BS 1975, Florida State; MS 1978, Penn State; PhD 1988, Florida State

\*SCHROEDER, Thomas, Emeritus Professor of Meteorology

SCHWING, Franklin B., Adjunct Professor, Naval Postgraduate School; PhD 1989, Dalhousie

SIBERT, John, Program Manager, Pelagic Fisheries Research Program; BA 1962, MS 1963, U of the Pacific; PhD 1968, Columbia

\*WANG, Bin, Professor of Meteorology

### **John F. Kennedy Theatre**

MYERS, Martha, Theater Manager; BA 1975, Stanford; MA 1982, Wisconsin-Madison

GREAVER, Rick, Production Manager; BA 1999, CSU Northridge

KAWAOKA, Gerald, Theater Technician; BA 1978, Hawai'i  
 SCHAUER, Hannah K., Theater Technician; BA 1997,  
 Northeast Louisiana; MFA 2000, Hawai'i

### Language Learning Center

\*RODRIGUEZ, Julio C., Director  
 CHEE, Clayton K. T., Media Specialist; BA 1989, Hawai'i  
 MEDINA, Richard A., IT Specialist; BA 1996, MS 2007,  
 New Mexico Highlands  
 TOM, Daniel, Program Coordinator; AB 1968, Dartmouth;  
 MA 1971, Washington; MA 1978, Hawai'i  
 TSCHUDI, Stephen L., Instructor in Technology for  
 Foreign Language Education; BA 1984, UC Berkeley; MA  
 1990, MA 1998, Hawai'i  
 WONG, Robert Y. T., Electronics Technician

### Learning Assistance Center

\*WOODRUFF, Rosemarie V., Associate Specialist  
 PANG, Adam Q., Junior Specialist

### Library Services

\*HEROLD, Irene M. H., University Librarian and Librarian  
 V, Administration

 \*NEWHOUSE, Kimberley K., Junior Specialist  
 \*WAKAYAMA, Lei, Junior Specialist

### Non credit Programs

\*FEENEY, Paulette C., Assistant Specialist  
 \*HOROWITZ, Susan, Junior Specialist

RAYNER, Mariel, Administrative and Fiscal Support Specialist; BA 2005, Lewis and Clark College

### Community Services Programs

ARAKAKI, Margaret, Administrative and Fiscal Support Specialist; MEd 2009, Hawai'i

\*SLAUGHTER, Timothy R., Specialist

### International Programs

\*BARBER, Jacob, Junior Specialist

DELOS SANTOS, Pancho, Educational and Academic Support Specialist; BA 1991, Hawai'i

\*DOI, Saori Ishida, Junior Specialist

\*ENSING, Judy, Junior Specialist

FIFITA, Robin, Student Services Specialist; BS 2005, Brigham Young U

\*KAHMANN, Michiko Seki, Junior Specialist

\*MITRI, Suzanne, Junior Specialist

NAKANDAKARI, Lisa M., Student Services Specialist; BA 1982, Hawai'i

NOHARA, Laura Ann, Education and Academic Support Specialist; BBA 2008, BA 2008, Hawai'i

RANNEY, Laura, Educational and Academic Support Specialist; BA 1992, San Diego State

\*RUGGIERO, Edward, Junior Specialist

\*SMITH, Shira, Junior Specialist

### Summer Sessions

HONDA, Debra Y., Educational and Academic Support Specialist; BA 1998, MEd 2005, Hawai'i

KOMATSU, Jenna, Educational Specialist; BSE 1999, U of Pennsylvania

### Pacific Biosciences Research Center

\*LAU, Alan F., Interim Director and Professor of UHCC and Cell and Molecular Biology

\*DUNLAP, Marilyn F., Interim Associate Director and Specialist

\*ALLEN, Richard D., Professor Emeritus of Microbiology

\*CHANG, F. Healani, Associate Specialist, Native Hawaiian Health

\*CROWELL, David H., Professor Emeritus of Psychology

\*JONES, Bradley R., Associate Specialist, Computer Network Support Facility

### Békésy Neurobiology Program

\*HARTLINE, Daniel K., Program Director and Researcher

\*ANDRES, Maria-Louisa, Assistant Researcher

\*BLANCHARD, D. Caroline, Professor and Researcher

\*BLANCHARD, Robert J., Professor of Psychology

\*CASTELFRANCO, Ann, Associate Researcher

\*CHRISTIE, Andrew E., Associate Specialist

\*COOKE, Ian M., Professor Emeritus of Zoology and Pacific Biosciences Research Center

\*COUVILLON, Patricia A., Associate Professor

\*DUNN, Adrian J., Professor of Psychology

\*LENZ, Petra H., Researcher

\*YANAGIHARA, Angel A., Assistant Researcher

### Biotechnology Program

\*PATIL, Suresh S., Researcher Emeritus in Plant Pathology

\*MOCZ, Gabor, Specialist

### Center for Conservation Research and Training

\*KANESHIRO, Kenneth Y., Program Director and Researcher

\*COWIE, Robert H., Researcher

\*HAYES, Kenneth A., Assistant Researcher

\*HOLLAND, Brenden S., Associate Researcher

\*KIDO, Michael H., Research Associate

\*YEUNG, Norine, Assistant Researcher

### Hawai'i Conservation Alliance

NOORI, Lihla, Executive Director

### Kewalo Marine Laboratory

\*RICHMOND, Robert H., Program Director and Researcher

\*ASAHINA, Audrey Y., Assistant Researcher

\*HADFIELD, Michael G., Professor of Zoology

\*NEDVED, Brian T., Junior Researcher

\*SENECA, Francois O., Junior Researcher

### Minority Undergraduate Research Training

\*COUVILLON, Patricia A., Program Director, Minority Access to Research Careers, Undergraduate Student Training in Academic Research (MARC U\*STAR); and Associate Professor

\*LENZ, Petra H., Program Director, Minority Access to Research Careers, Undergraduate Student Training in Academic Research (MARC U\*STAR); and Researcher

\*CHRISTIE, Andrew, Associate Specialist, Minority Access to Research Careers, Undergraduate Student Training in Academic Research (MARC U\*STAR)

\*COWIE, Robert H., Co-Principal Investigator, International Research Experience for Students (IRES); and Researcher

\*HADFIELD, Michael G., Program Director, Undergraduate Research and Mentoring in the Biological Sciences Program (URM); and Professor of Zoology

\*HAYES, Kenneth A., Principal Investigator, International Research Experience for Students (IRES); and Assistant Researcher

\*RICHMOND, Robert H., Program Director, NSF-ATE Partnership for Advanced Marine and Environmental Science Training for Pacific Islanders; and Researcher

### Office of Research Compliance

GALLAND, John C., Assistant Vice Chancellor for Research Compliance; PhD 1989, UC-Davis

HAMMATT, Zoë H., Director, Research Integrity Program; JD 2000, Hawai'i

KONDO, Sylvia Y., Director/Attending Veterinarian; DVM 1980, Washington State

CHAN, Chiming (Lawrence), Institutional Support, Natural Resources and Environmental Management

\*CHAN-HALBRENDT, Catherine K. Y., Chair and Professor, Natural Resources and Environmental Management

\*CHEAH, Kheng Tuan, Associate Specialist, Tropical Plant and Soil Sciences

CHEANG, Michael, Assistant Professor, Family and Consumer Sciences

CHEN, Jung, Junior Researcher, Tropical Plant and Soil Sciences

\*CHING, Donna R., Specialist, Agricultural Leadership

CHO, Ilkyu, Junior Researcher, Molecular Biosciences and Bioengineering

CHO, Yangrae, Assistant Professor, Plant and Environmental Protection Sciences

CHONG, Joan L., Assistant Extension Agent, Kona; MEd 1993, Hawai'i

\*CHOW, Pamela, County Extension Agent, O'ahu, Family and Consumer Sciences

CHOW-HOY, Robyn L., Academic Support; MS 1999, Colorado State

\*CHRISTOPHER, David A., Chair and Professor, Molecular Biosciences and Bioengineering

CHUN, Marvin K. Jr., Information Technology; BA 1995, Hawai'i

CHUN, Stacey, Research Support

CHUN-HORI, Matthew R., Information Technology; BS 2010, Hawai'i

COUGHLIN, Julia, Research Support

\*COX, Linda, J., Specialist, Natural Resources and Environmental Management

CRISTI, Marie A., Instructor, Family and Consumer Sciences

CROSS, Natalie, Academic Support, Family and Consumer Sciences

\*CROW, Susan E., Assistant Professor, Natural Resources and Environmental Management

DAVISON, Nicola, Academic Support, EFNEP, Human Nutrition, Food and Animal Sciences

\*DeBARYSHE, Barbara, Associate Specialist, Center on the Family

DEENIK, Jonathan L., Associate Specialist, Tropical Plant and Soil Sciences

\*DeFRANK, Joseph, Horticulturist, Tropical Plant and Soil Sciences

DeSILVA, Asoka S., Research Support

DIAZ-LYKE, Maria, Research Support, Human Nutrition, Food and Animal Sciences

DIONNE, Carl E., Information Technology; BS 1994, Hawai'i-Hilo

DITZLER, Ann M., Junior Specialist, Human Nutrition, Food and Animal Sciences

\*DOBBS, Joannie, Assistant Specialist, Human Nutrition, Food and Animal Sciences

\*DUNN, Michael A., Associate Researcher, Human Nutrition, Food and Animal Sciences

- \*DUPONTE, Michael M., Extension Agent, Human Nutrition, Food and Animal Sciences, Hilo
- \*EBESU, Richard H., Associate Extension Agent, Kaua'i

- MCDONALD, Ty G., Assistant Extension Agent, Tropical Plant and Soil Sciences
- McDOWELL, Meryl L., Junior Researcher, Natural Resources and Environmental Management
- McGLONE, Katalina, Junior Researcher, Human Nutrition, Food and Animal Sciences
- MELLO, Cathy L., Research Support, Hilo, Plant and Environmental Protection Sciences
- MELZER, Michael, Jr., Researcher
- \*MESSING, Russell H., Entomologist, Kaua'i
- MEYER, Donna, Research Support, Plant and Environmental Protection Sciences
- MIN, Hosik, Assistant Specialist, Center on the Family
- \*MIYASAKA, Susan C., Agronomist, Hilo, Tropical Plant and Soil Sciences
- \*MIURA, Tomoaki, Associate Professor, Natural Resources and Environmental Management
- MOATS, Terri, Research Support, Plant and Environmental Protection Sciences
- MURAOKA, Janice M., Institutional Support; BBA 1979, Hawai'i
- NAGAI, Gareth, Agriculture Research Technician, Plant and Environmental Protection Sciences
- NAGAMINE, Charles, Academic Support
- \*NAGANO, Steven Y., Extension Agent, O'ahu, Natural Resources and Environmental Management
- NAGATA, Norman, Assistant Extension Agent, Maui, Tropical Plant and Soil Sciences
- \*NAKAMOTO, Stuart T., Specialist, Marketing, Human Nutrition, Food and Animal Sciences
- \*NAKAMURA-TENGAN, Lynn C., Associate Extension Agent, Human Nutrition, Food and Animal Sciences, Maui
- \*NAKATSUKA, Claire, Extension Agent, O'ahu, Family and Consumer Sciences
- \*NELSON, Scot C., Plant Pathologist
- \*NERURKAR, Pratibha V., Associate Professor, Molecular Biosciences and Bioengineering
- NGUYEN, Loc, Junior Researcher, Human Nutrition, Food and Animal Sciences
- NIE, Yanhan, Junior Specialist, Center on the Family
- NIINO-DuPONTE, Ruth, Research Support
- \*NOVOTNY, Rachel, Professor, Human Nutrition, Food and Animal Sciences
- OGATA, Desmond, Research Support, Agricultural Diagnostic Service Center
- OGOSHI, Richard M., Associate Biofuel Agronomist, Tropical Plant and Soil Sciences
- OKUBO, Diane N., Institutional Support; BAcc 1992, Chaminade
- \*OLESON, Kirsten L., Assistant Professor, Natural Resources and Environmental Management
- ONAGA, Jodie S., Institutional Support; MA 2009, U of Phoenix

- OSHIRO, Robert, Research Support
- \*PAULL, Robert E., Plant Physiologist and Chair, Tropical Plant and Soil Sciences
- PEREZ, Eden, Junior Researcher, Plant and Environmental Protection Sciences
- PIERCE, Andrew, Junior Researcher, Natural Resources and Environmental Management
- PITZ, Karen, Junior Researcher
- PORTER, Brad, Junior Researcher, Molecular Biosciences and Bioengineering
- PORTER, Guy S., Research Support, Tropical Plant and Soil Sciences
- PRESTING, Gernot, Associate Professor, Molecular Biosciences and Bioengineering
- QINA, April, Academic Support, Family and Consumer Sciences
- RADOVICH, Theodore J., Assistant Researcher, Tropical Plant and Soil Sciences
- RANCHEZ, Kimberly S., Institutional Support; MHRM 2007, Hawai'i
- RAPOLU, Madhusudhan, Junior Researcher, Molecular Biosciences and Bioengineering
- REILLY, Andrew H., Associate Professor, Family and Consumer Sciences
- ROMERO, Yesid, Junior Researcher, Molecular Biosciences and Bioengineering
- RON, Tetsuzan Benny, Specialist, Human Nutrition, Food and Animal Sciences
- ROSS, Cynthia F., Junior Researcher, Human Nutrition, Food and Animal Sciences
- \*RUBINOFF, Daniel, Professor, Plant and Environmental Protection Sciences
- \*SAITO, Rose W., County Extension Agent, O'ahu, Family and Consumer Sciences
- SAKO, Glenn T., Assistant Extension Agent, Tropical Plant and Soil Sciences, Hilo
- SASAKI, Casi, Institutional Support, Human Nutrition, Food and Animal Sciences
- \*SAULO, Aurora A., Specialist in Food Technology, Tropical Plant and Soil Sciences
- \*SEGOBIANO, Mark A., Instructor, Human Nutrition, Food and Animal Sciences
- SELMANTS, Paul C., Junior Researcher, Natural Resources and Environmental Management
- SETTLAGE, Rebecca L., Associate Extension Agent, Hawai'i, Family and Consumer Sciences
- \*SEWAKE, Kelvin T., Extension Agent, Hilo
- SHIMABUKU, Candace Y., Institutional Support
- \*SHIMABUKU, Robin S., Extension Agent
- \*SHOVIC, Anne C., Associate Professor, Human Nutrition, Food and Animal Sciences
- SHRESTHA, Raj, Research Associate, Family and Consumer Sciences
- \*SINGLETON, Paul W., Professor and Agronomist, Maui, Tropical Plant and Soil Sciences
- \*SIPES, Brent S., Chair and Plant Pathologist, Plant and Environmental Protection Sciences
- SMITH, Josephine T., Academic Support, Natural Resources and Environmental Management
- \*SPAFFORD, Helen, Assistant Professor, Plant and Environmental Protection Sciences
- SPIELMAN, Steven P., Research Support, Human Nutrition, Food and Animal Sciences
- STERN, Ivette Rodriguez, Junior Specialist, Center on the Family
- \*STEVENSON, Matthew H., Assistant Extension Agent, Kaua'i, Human Nutrition, Food and Animal Sciences
- \*STEWART, Maria L., Assistant Professor, Human Nutrition, Food and Animal Sciences
- \*STOKES, Ashley M., Associate Specialist, Human Nutrition, Food and Animal Sciences
- STRAUCH, Ayrón, Junior Researcher, Natural Resources and Environmental Management
- SU, Shan, Institutional Support, Molecular Biosciences and Bioengineering
- \*SU, Wei-Wen, Professor, Molecular Biosciences and Bioengineering
- SU, Yuhua, Junior Researcher, Human Nutrition, Food and Animal Sciences
- SUENO, Justin F., Research Support, Plant and Environmental Protection Sciences
- \*SUGANO, Jari S., Extension Agent, Oahu
- SYLVA, Traci, Assistant Researcher, Molecular Biosciences and Bioengineering
- TACHIBANA, Alvin, Research Support, Human Nutrition, Food and Animal Sciences
- TAKEOKA, Norman, Institutional Support, Family and Consumer Sciences
- \*TAMARU, Clyde, Extension Specialist, Molecular Biosciences and Bioengineering
- TANI, Jacqueline N., Institutional Support, Family and Consumer Sciences
- TANIGUCHI, Glenn Y., Research Support, Plant and Environmental Protection Sciences
- TARUTANI-WEISSMAN, Cathy, Academic Support
- TAUYAN, Socorro C., Research Support, Human Nutrition, Food and Animal Sciences
- \*TEVES, Glenn L., Assistant Extension Agent, Moloka'i, Tropical Plant and Soil Sciences
- \*THORNE, Mark S., Associate Specialist, Human Nutrition, Food and Animal Sciences, Kamuela
- TITCHENAL, C. Alan, Associate Professor, Human Nutrition, Food and Animal Sciences
- TOVES, Peter, Research Support, Tropical Plant and Soil Sciences
- TRAN, Carol T., Research Support, Tropical Plant and Soil Sciences
- TRAUERNICHT, Parker C., Assistant Specialist, Natural Resources and Environmental Management
- TRINH, Sylvia, Instructional and Student Support; BA 2010, MEd 2013, Hawai'i
- TSUDA, Dick M., Research Support, Plant and Environmental Protection Sciences
- TURANO, Brian P., Assistant Specialist, Tropical Plant and Soil Sciences
- TURANO, Helen M., Assistant Researcher, Tropical Plant and Soil Sciences
- \*UCHIDA, Janice Y., Associate Plant Pathologist
- UCHIDA, Raymond, Manager, Agricultural Diagnostic Service Center and County Administrator, O'ahu
- URUU, Gail, Research Support, Tropical Plant and Soil Science
- UYEHARA, Cindy K., Institutional Support; BA 1999, Hawai'i
- \*VAUGHAN, Mehana D. B., Assistant Professor, Natural Resources and Environmental Management
- VIJAYADEVA, Vinutha, Junior Researcher, Human Nutrition, Food and Animal Sciences
- VILLALOBOS, Ethel M., Junior Researcher, Plant and Environmental Protection Sciences
- \*VINCENT, Douglas L., Chair and Animal Scientist, Human Nutrition, Food and Animal Sciences
- WAGNER, Tom A., Research Associate
- WANG, Jiao, Junior Researcher, Natural Resources and Environmental Management
- WANG, Koon-Hui, Assistant Professor, Plant and Environmental Protection Sciences
- WANG, Jun, Junior Researcher, Molecular Biosciences and Bioengineering
- WIECZOREK, Ania M., Associate Specialist, Tropical Plant and Soil Sciences
- WONG, Priscilla, Institutional Support; BBA 2005, Hawai'i
- \*WRIGHT, Mark G., Specialist, Plant and Environmental Protection Sciences
- XIA, Yunqing, IT Specialist
- \*XU, Ronghui, Junior Researcher, Molecular Biosciences and Bioengineering
- \*YAMAKAWA, Roy, Extension Agent, Kaua'i, Tropical Plant and Soil Sciences
- YAMASHITA, Gayle S., Institutional Support; BBA 1990, Hawai'i
- \*YANAGIDA, John F., Researcher, Natural Resources and Environmental Management
- YANAGIHARA, Joan, Research Support, Molecular Biosciences and Bioengineering
- \*YANAGIHARA, Karl, Research Support, Molecular Biosciences and Bioengineering
- YANCURA, Lorigena A., Associate Professor, Family and Consumer Sciences
- YANG, Jinzeng, Associate Professor, Human Nutrition, Food and Animal Sciences
- \*YATES, Julian R. III, Specialist, Plant and Environmental Protection Sciences
- YEE, Barbara W. K., Professor and Department Chair, Family and Consumer Science
- \*YOST, Russell S., Agronomist, Tropical Plant and Soil Science
- \*YOUKHANA, Adel, Junior Researcher, Natural Resources and Environmental Management
- YOUNG, Michael, Agriculture Research Technician, Plant and Environmental Protection Sciences
- YUAN, Sarah, Assistant Specialist, Center on the Family
- YUEN, Christen Y. L., Junior Researcher, Molecular Biosciences and Bioengineering
- \*YUEN, Sylvia, Director of the Center on the Family and Professor of Family Resources
- \*ZALESKI, Halina M., Specialist, Human Nutrition, Food and Animal Sciences
- \*ZEE, Julia, Extension Agent, Human Nutrition, Food and Animal Sciences, Hilo

## Undergraduate Education

\*CAMBRA, Ronald E., Assistant Vice Chancellor for Undergraduate Education  
 COSTA, Jan, Administrative Officer; BBA 1985, Hawai'i

## University of Hawai'i Cancer Center

- \*CARBONE, Michele, Director and Professor
- \*TIUS, Marcus A., Deputy Director
- \*ACOBIA, Jared, Assistant Clinical Professor
- \*BANTUM, Erin O., Assistant Researcher
- \*BAUMANN, Francine, Assistant Researcher
- \*BERENBERG, Jeffrey L., Professor
- BLANCHETTE, Patricia, Associate Director for Administration and Chief Operating Officer
- BLANCO, Francis, Director of Facilities Management
- \*BOUSHEY, Carol Jo, Associate Researcher
- BRYANT-GREENWOOD, Peter K., Assistant Professor
- CAO, Shugeng, Assistant Researcher
- \*CARNEY, Michael E., Associate Professor
- CASSEL, Kevin, Assistant Researcher
- \*CHAIN, William J., Assistant Professor
- \*CHO, Jonathan, Professor
- \*CHU, Wen-Ming, Associate Researcher
- DASTUR, Zubin, Administrative Director, Clinical and Translational Research Services
- \*FAGAN, Pebbles, Associate Researcher
- \*FEI, Peiwen, Associate Researcher
- \*FLEIG, Andrea, Researcher
- \*FRANKE, Adrian A. H., Professor and Faculty Director of Analytical Biochemistry Shared Resource
- GARMIRE, Lana, Assistant Researcher
- \*GAUDINO, Giovanni, Professor
- GATHAGAN, Grant, Computer and Telecom System Support Technician
- GREEN, Michael, Hawaii Tumor Registry Program Coordinator
- \*HEDGES, Jerris, Professor
- \*HERNANDEZ, Brenda, Associate Researcher
- \*HERZOG, Thaddeus, Associate Researcher
- HIGUCHI, Paula, Community Relations Coordinator
- HOLTHUS, Bridget, Research Program Liaison, Administration
- \*ISSELL, Brian, Associate Director of aClinical Sciences and Translational Research
- JL, Junfang, Assistant Professor
- \*JIA, Wei, Associate Director and Researcher in Shared Resources
- \*KUWADA, Scott K., Associate Clinical Professor
- \*KWEI, Sandi Alexander, Assistant Professor
- \*LAU, Alan F., Researcher
- LAU, Phillip, IT Specialist
- \*LE MARCHAND, Loic, Researcher
- \*LIM, Unhee, Associate Researcher
- \*MASKARINEC, Gertraud, Professor
- \*MATTER, Michelle L., Assistant Professor
- MORI, David, Director of Development
- \*MORITA, Shane Y., Assistant Professor
- \*MORRIS, Paul T., Associate Professor
- NI, Yan, Assistant Researcher
- \*NIGG, Claudio R., Associate Professor
- \*OKAZAKI, Ian J., Assistant Clinical Professor
- \*OKIMOTO, Gordon, Associate Specialist and Faculty Co-director of Biostatistics and Informatics Shared Resource
- PAGANO, Ian, Assistant Specialist

\*Dates and institutions of degrees are listed under " Faculty."

\*PARK, Song-Yi, Assistant Specialist  
 PASTORINO, Sandra, Assistant Researcher  
 \*PENNER, Reinhold, Researcher  
 \*POKHREL, Pallav, Assistant Researcher  
 \*POWERS, Amy, Associate Researcher  
 \*RAMOS, Joe, Associate Researcher and Director of Cancer Biology Program  
 REMS, Hazel, Senior IT Specialist  
 RICHARDS, Wendy, Director of Information Technology  
 ROBINETT, Hali, Program Manager, University of Guam/UH Cancer Center Partnership  
 ROSSER, Charles, Professor and Director of Clinical and Translational Research Program  
 SHI, Gen-Xian, Assistant Researcher  
 SHIGEMASA, Sharon R., Events and Information Coordinator  
 SHVETSOV, Yurii, Assistant Researcher  
 SINCLAIR, Sandra, Compliance Officer  
 STASINOPOULOS, Ioannis, Research Grants Coordinator  
 SONSON, Harry, Web Developer Specialist  
 \*SUMIDA, Kenneth N., Assistant Professor  
 THIRIKAINEN, Maarit, Associate Specialist and Director of Genomics Shared Resource  
 \*TURKSON, James, Director of and Researcher in Natural Products and Experimental Therapeutics Program  
 \*VOGEL, Carl-Wilhelm E., Researcher  
 WARD, David C., Faculty Director for Basic Science and Translational Research  
 \*WILKENS, Lynne R., Specialist and Faculty Co-director of Biostatistics and Informatics Shared Resource  
 \*WILLIAMS, Philip G., Assistant Professor  
 \*WILLS, Thomas A, Interim Director of and Researcher in Cancer Prevention and Control Program  
 \*WONG, Linda L., Researcher  
 WONG, Stacy, Director of Communications  
 XIE, Guoxiang, Assistant Specialist  
 \*YANG, Haining, Associate Professor  
 \*YU, Herbert, Associate Director of and Researcher in Cancer Control and Population Sciences and Director of Cancer Epidemiology Program

### **University of Hawai'i Press**

DUCKWORTH, Michael P., Director; BA 1989, Reed College; MS 1990, MIA 1991, Columbia  
 ABE, Carol S., Advertising and Promotion Manager; BA 1974, Hawai'i  
 AONO, Lucille C., Production Editor; BBA 1979, MBA 1987, Hawai'i

# Glossary

**Academic Year** Starts at the beginning of the fall semester, ends at the close of the spring semester; does not include summer sessions.

**Accreditation** Official certification by an external academic organization that a college, school, or academic unit meets minimum requirements for academic achievement, curriculum, facilities, etc.

**Add Period** Time at the beginning of each semester during which registered students may enroll in additional courses.

**Articulated General Education Courses** UH system courses reviewed by the systemwide Articulation Standing Committees and accepted by campus core/curriculum committees as meeting undergraduate requirements at one or more system campuses.

**Auditors** Regularly admitted students who register, with the consent of the instructor, for informational instruction only and who receive no credit. They do not take course examinations and the extent of their classroom participation is at the instructor's discretion. Auditors are generally not allowed in art studio, laboratory science, mathematics, elementary and intermediate Hawaiian and foreign languages, creative writing, English composition, physical education, speech and other performance courses or in classes where they might displace credit students. Audit courses are entered on the student's transcripts with a grade of L and are subject to regular tuition and fee charges.

**Bachelor's Degree** Undergraduate degree signifying successful completion of the Mānoa General Education Core, major, elective, and credit requirements of UH Mānoa and of an academic unit.

**Backtracking** Completion of a lower-level or prerequisite course after (or while) taking an advanced course. Additional credit and grade points are not awarded for lower-level courses if they are taken after or concurrently with the advanced course for which they are explicitly or implicitly prerequisites.

**Classified Students (Graduate)** Students admitted by the Graduate Division to a program that offers a graduate certificate, or a master's or doctoral degree.

**Classified Students (Undergraduate)** Students who intend to earn an undergraduate degree and/or are admitted into a degree-granting college or school such as Arts and Sciences, Business, Education, Engineering, etc.

**Community Colleges** Campuses within the UH system that usually offer lower division courses and grant two-year degrees and certificates.

**Conditional Students (Graduate)** Students admitted to graduate programs on the condition that they make up academic deficiencies or other requirements within a prescribed period of time.

**Continuing Students** For registration purposes, those who were registered for the previous semester (fall or spring), are in good standing, have not completely withdrawn, have not graduated in their current classification, and intend to register for the upcoming semester.

**Co-requisite** A course that must be taken in conjunction with and at the same time as another course. Co-requisites are indicated in the course descriptions.

**Core Requirements** See "Undergraduate General Education Requirements."

**Credit Overload (Graduate)** For classified graduate students, registration for more than 16 credits (9 credits for graduate assistants) in any one semester. Permission from the graduate dean is required.

**Credit Overload (Undergraduate)** Registration for more than 19 UH Mānoa credit hours in any one semester for undergraduate and professional diploma students. Permission from the appropriate college/school dean is required. The request for credit overload is processed during late registration only.

**Credits (or Semester Credit Hours)** Earned after successful completion (pass) of a course. If students fail a course, they have only attempted (but not earned) the credits for the course. Three semester credits are approximately equivalent to three 50-minute meeting periods per week in a 15-week semester.

**Cross-Listed Courses** Courses whose contents are identical and are jointly offered by more than one department. Although the departments and course numbers are different—for example, AMST 365 and HIST 379—these courses are the same.

**Curriculum** All the courses of study offered by UH Mānoa. May also refer to a particular course of study (major) and the courses in that area.

**Discipline** A branch of knowledge or teaching. Typically refers to an area of study or a major field.

**Diversification Requirement (Undergraduate)** Specified courses in the General Education Core intended to assure that every student has a broad exposure to different domains of academic knowledge, while at the same time allowing flexibility for students with different goals and interests.

**Double Major** Multiple majors falling under one degree will normally be approved for students who show promise of success in both, provided there is sufficient divergence between the majors. No one course may be used to satisfy more than one major requirement.

**Drop Period** Time at the beginning of each semester during which registered students may drop unwanted courses and not have them appear on their transcripts.

**Early-Admits** Academically superior and accomplished youths under 18 years of age who are continuing high school students admitted to UH Mānoa to take specific courses for which they are qualified.

**Electives** Courses not designated as part of the General Education Core, college/school, or major requirements. Students should consult their major advisors and college advisors to discuss the selection of electives.

**Emeriti Faculty** Recognition, designation, and privileges given by the UH Board of Regents to faculty members who have retired but still retain ties to UH Mānoa.

**Excess Credit Policy (Undergraduate)** Students who, by the end of any semester, have earned 24 credit hours beyond those required for graduation and have fulfilled all specific program and UH Mānoa requirements may graduate by action of their college or school.

**Focus Requirement (Undergraduate)** Specified courses in the UH Mānoa Graduation Requirements identifying important skills and discourses necessary for living and working in diverse communities.

**Foundation Requirement (Undergraduate)** Specified courses in the General Education Core intended to give students skills and perspectives that are fundamental to undertaking higher education.

**Freshmen** Students who have earned fewer than 25 semester credit hours.

**Full-Time Students** For academic purposes, undergraduates carrying 12 or more credits per semester or graduates carrying 8 or more credits.

**General Education Core** Specified courses labeled “Foundation” or “Diversification” that are intended to give students fundamental college skills and perspectives and broad exposure to different domains of academic knowledge.

**Grade Point Average (GPA)** Determined by first multiplying the number of credits for each course taken for a letter grade by the points earned for that course (i.e., A+ is 4.0, A is 4.0, A- is 3.7, B+ is 3.3, B is 3, B- is 2.7, C+ is 2.3, C is 2, C- is 1.7, D+ is 1.3, D is 1, D- is 0.7 and F is 0), then by adding all the points, and finally by dividing total grade points by the total number of credits attempted for courses in which letter grades were given.

**Graduate Assistants** Graduate students hired by UH Mānoa as teaching or research assistants.

**Graduate Courses** Courses offered as part of a graduate degree program, numbered 600–800.

**Graduate Faculty** Members of the UH Mānoa community eligible to advise classified graduate students.

**Graduate Record Examination (GRE)** A standardized test required for admission to many graduate fields of study.

**Graduate Students** Students admitted to the Graduate Division to pursue advanced degrees.

**Hawaiian or Second Language Requirement (Undergraduate)** A special General Education graduation requirement intended to prepare students to function in a global society and provide an educational experience with an international dimension. The Hawaiian or Second Language (HSL) requirement varies by UH Mānoa college/school. Students should check with their college/school advisor to learn about their requirement.

**Incomplete Grades** With the instructor’s approval, students may receive a grade of I if they are unable to complete a small, but important part of a course’s requirements by semester’s end but are committed to doing so by a specified deadline.

**Interdisciplinary Studies** An undergraduate program within the Colleges of Arts and Sciences that allows students to design their own major.

**Introductory Courses** All 100-level courses and those 200-level courses without explicit college course prerequisites.

**Juniors** Students who have earned 55–88 semester credit hours.

**Lower Division Courses** Freshman- and sophomore-level courses that generally do not require any prerequisite courses and are numbered 100–299.

**Major** The area of academic concentration or specialization in which the degree is conferred.

**Maximum Registration** No more than 19 credit hours per semester for undergraduate and professional diploma students without special approval from a college dean. Graduate students are limited to 16 credit hours per semester (9 for graduate assistants) unless special approval is given.

**Minor** Limited concentration of courses in an area other than the major and relating to an approved baccalaureate degree.

**Part-Time Students** For academic purposes, undergraduates carrying fewer than 12 credits per semester, or graduates carrying fewer than 8 credits per semester.

**Placement Examinations** Noncredit tests used to measure a student’s proficiency in a specific subject area in order to determine the appropriate level of courses in which to enroll.

**Post-baccalaureate Unclassified Students** Those who have earned a bachelor’s degree from a regionally accredited college or university and wish to enroll as unclassified students.

**Pre-professional Programs** Programs designed to prepare students to pursue admission into professional programs, such as dentistry, law, medicine, or veterinary medicine.

**Prerequisite** A necessary condition for enrollment in a course. Prerequisites for courses usually consist of a previous course or courses in a related subject and/or the instructor’s consent. Prerequisites are specified in the course descriptions.

**Residence** This word is used in several ways in this *Catalog*: (1) to denote registration in a regular session (i.e., when a student is “in residence” during the fall or spring semesters); (2) to denote the period of time that a student must be registered at UH Mānoa in order to be eligible for graduation (i.e., academic residence); (3) to denote a student’s state of residence (e.g., Hawai‘i) to determine if nonresident tuition must be paid (i.e., legal residence); (4) to indicate the student’s place of residence (i.e., living quarters).

**Residents** Individuals at any level of post-graduate medical education in a program accredited by the Accreditation Council for Graduate Medical Education (ACGME).

**Returning Students** Students resuming studies after staying out of school for one semester or longer.

**Sabbatical** A leave of absence granted to UH Mānoa faculty members for research, professional improvement, etc.

**Seniors** Students who have earned 89 or more semester credit hours.

**Sophomores** Students who have earned 25–54 semester credit hours.

**Test of English as a Foreign Language (TOEFL)** Test required of students whose first language is not English.

**Transcript** Official record of courses and grades earned at a secondary or postsecondary institution.

**Transfer Students** Students admitted to UH Mānoa who have previously attended another college or university.

**Tuition Waiver** An exemption from the requirement to pay UH Mānoa tuition. Waivers awarded by the UH can range from partial to full waivers and do not include student fees.

**UH System** The state of Hawai‘i’s postsecondary education system, comprised of 10 campuses and other research and learning facilities throughout the islands. In addition to UH Mānoa, it includes UH Hilo, UH West O‘ahu, and the seven campuses of the UH Community Colleges.

**Unclassified Students** Students who have not been accepted into a degree or certificate program but who have been admitted into Outreach College and may enroll in regular credit courses and graduate courses with the permission of the instructor.

**Undergraduate Students** Students who have not earned a bachelor’s degree.

**Upper Division Courses** Junior- and senior-level courses, numbered 300–499, which generally have prerequisites.

**Variable Credit Courses** Courses in which the number of credits to be earned is determined in advance by the student and instructor.

**Withdrawal Grades** Grades of W are given for courses from which the student has officially withdrawn with the approval of the instructor and the student’s college dean. Withdrawals are only approved until the end of the ninth week.

**Writing-Intensive Courses** Courses that put emphasis on written work as part of the regular course of study and are officially designed as WI sections. WI sections are identified in each semester’s *Registration Guide* (formerly *Schedule of Classes*).
